

# Supplement to 2009 Feasibility Study

## Details of Redistricting Plan

*This electronic document supplements the 2009 Feasibility Study by presenting the specific details of the multi-year redistricting plan discussed in the study. The reader should note that a formal proposal is being made this year regarding redistricting in the 2010–2011 school year. In addition to staff’s recommendation of redistricting for the 2010–2011 school year, long–term redistricting plans are reviewed each year to consider options, have an informed discussion of redistricting goals, and increase transparency and public participation by having potential plans available for review and comment.*
