EMPLOYEE AND STUDENT SURVEY RESULTS

EMPLOYEE ENGAGEMENT

Gallup measures employee engagement based on responses to its Q¹² survey, which consists of 12 actionable workplace elements with proven links to performance outcomes.

3.54

GRANDMEAN

"Engaged" employees work with passion and feel a profound connection to their employer. They drive innovation and move the organization forward. "Not Engaged" employees may be satisfied with their jobs, but they are not emotionally connected to their workplaces and are unlikely to devote much discretionary effort to their work. "Actively Disengaged" employees are dissatisfied with their workplaces and are likely to be spreading negativity to their coworkers.

STUDENT ENGAGEMENT

The involvement in and enthusiasm for school, reflects how well students are known and how often they get to do what they do best.

29%

ENGAGED

MISSION

"We cultivate a vibrant learning community that prepares students to thrive in a dynamic world."

STUDENT HOPE

The ideas and energy we have for the future drives effort, academic achievement, credits earned, and retention of students of all ages.

PURPOSE AND SURVEY METHODOLOGY

The mission of the Howard County Public School System is “We cultivate a vibrant learning community that prepares students to thrive in a dynamic world”. Achieving this mission requires that HCPSS is aware of the perceptions of employees and students, and that each employee and student see HCPSS as a great place to work and learn. HCPSS launched a partnership with Gallup in 2013 to measure employee and student perceptions and uses this information to make further progress toward achieving the HCPSS mission.

Based on more than four decades of research, Gallup has identified definitive employee attitudes that correspond with the most successful workplaces. Employee engagement — involvement with and enthusiasm for work — is measured by Gallup in a 12-question employee survey. An employee’s level of engagement links to various school outcomes, including employee retention, parent engagement, student retention, and student achievement. The employee engagement survey was conducted online from Oct. 4 through Oct. 23, 2016, with 6,812 HCPSS employees registering their opinions (83% response rate).

The Gallup Student Poll is a 24-question survey that measures the hope, engagement, and entrepreneurial aspiration, financial literacy of students in grades 5-12. Research supports the idea that hope (ideas and energy for the future) and engagement (involvement with and enthusiasm for school) are actionable targets linked to student achievement, retention, and future employment. The Gallup Student Poll was conducted online during the school day from Sep. 26 through Oct. 20, 2016, with over 31,280 HCPSS students completing the survey.

Both of these surveys have yielded a wealth of data designed to inform HCPSS improvement efforts. Gallup has provided presentations for executive staff, principals, and central office managers. Gallup coaches and principals have had one-on-one conversations. Ongoing dialogue will continue with teams of employees across HCPSS as we continue to leverage insights from these data to drive success.

The results provide a comprehensive view of school-level data collected from the employee and student surveys. Please note the following:

- The employee survey results are reported at the school level, and also include the HCPSS districtwide results.
- The student survey results are shown at the school level, and also include HCPSS level-alike reports (e.g., all HCPSS high schools). The Gallup 2016 database results (a convenience sample of over 911,150 students from around the nation) are also presented.
- The student survey is only available for students in grades 5-12. Although survey participation in the elementary schools is limited to students in the upper grades, discussions about student hope, engagement, entrepreneurial aspirations, and career/financial literacy apply to all students.
- School leaders are encouraged to approach the action planning process with school improvement needs and responses of both employees and students in mind. Many of the best examples of school leaders building great places to work and learn rely on integrating relatively simple actions into daily conversations.

These data are at the foundation of many important discussions and actions being taken throughout HCPSS. We look forward to leveraging insights from these results as we work to achieve our important mission.
