School Meals

We serve education every day™

The HCPSS Food and Nutrition Service Office has implemented a new Point of Sale (POS) System this school year. With it, parents have the option of funding an online account, from which students can draw funds to obtain breakfast, lunch and/or a la carte foods at school. You can sign up at www.schoolpaymentsolutions.com

POINT OF SALE SYSTEM

Point of Sale System

The HCPSS Food and Nutrition Service Office has implemented a new Point of Sale System this school year. The system is a full-featured, highly flexible solution that makes it easy to manage student purchases and payments. With it, parents will have the option of funding an online account from which students can draw funds to obtain breakfast, lunch and/or a la carte purchases.

Every student who is enrolled in the school system will receive a unique PIN number that is to be used when making purchases in the cafeteria. PIN numbers may be obtained from the cafeteria manager or cashier.

This PIN number allows HCPSS to receive reimbursements from the National School Lunch Program. Meals purchased without a PIN number are not reimbursable. Therefore, effective January 2, 2014, all meals purchased without a PIN number will incur an additional charge of \$0.30 for breakfast and \$0.60 for lunch.

Payment Options

Parents who would like to pre-pay and deposit funds on their student's account may send a cash payment in to the school cafeteria, or process credit card payments online at schoolpaymentsolutions.com

This online payment portal is designed to allow parents to make quick and easy online payments to their student's school accounts, check a student's

account balance, view cafeteria account activity and receive account balance alerts.

The following information is needed to register for an account at schoolpaymentsolutions.com

- Student's school district
- Student's school
- Student's student ID number, birth date, and address
- A valid email address for your account
