23-Jun	include 1031, 31, 1168, 68 (TV)		Western		suggestion unclear, cannot test
23-Jun	139 remain at LEMS	walking distance	Columbia	MS, Cradlerock ES	requires ES change to CrES,
23-Jun	185 remain at clarksville ES	walking distance	Western	Clarksville ES	pushes CES utilization towards
23-Jun	1) 162, 1162 go to waverly, MVMS, MRHS; 2) 159, 1159 go to SJLES	previous redist	Northern	MRHS, SJL	above cap even further;only
23-Jun	1086 and 86 remain at HHS	redist of middle schools	Northeastern	Howard, LR	less overcrowded than LRHS, 1-
23-Jun	159 remain at SJLES and MHHS	community stability	Northern	SJL, Waverly ES, MHHS, MRHS	severely overcrowded (125-
23-Jun	decrease impact on Atholton		Western		not specific enough, cannot test
23-Jun	1026 to hammond, OMHS, LRHS	far from AHS (proposed)	Southeastern,	HamHS, Atholton HS, OMHS, LR	if going to hammond 2. pushes
23-Jun	91 go to ilchester and BBMS or to rockburn and ELMS	feeds	Northeastern	Ilchester ES, BBMS, RBES, ELMS,	and BBMS; 3091 must move if
25-Jun	1162, 162, 2161, 1160, 160 go westward; 159, 1159 stay together		Northern	SJL	es suggestions puts SJL over cap; leaving 162/1162 at SJL and 159/1159 at waverly puts both
26-Jun	2087, 87, 1086, 3087, 86 at howard; 4. 74, 2074, 1301, 301, 1090, 90, 89,	feeds and capacity	Northeastern	MHHS, LR, Howard	MHHS over cap, relieves HoHS
27-Jun	turf valley to bpes		Western		of mount view, will create island
28-Jun	1066 stay in CCES	community stability	Columbia East	Clemmens Crossing ES	util/feed
28-Jun	56, 1056, 2056, 3056 to OMHS	neighborhood stability	East	Atholton HS, OMHS	cap faster, makes odd
28-Jun	134, 1134 go to WLMS, AHS	increases diversity	West		already in FS
29-Jun	1231, 2229 at WFES	stability, WFES not above	Western	West Friendship ES	polygons. Would put WFES
29-Jun	decrease impact on Atholton		Western		not specific enough, did not test
29-Jun	1162, 162, 2161, 1160, 160 move westward; 159, 1159 remain	affected by past			already in FS
29-Jun	1100 stay at Veterans ES	directly across the street	Northeastern	Veterans ES, Waterloo ES	proximity/transportation. Puts
29-Jun	keep 66 and 1066 together	community stability	Western	Atholton HS	n'hood is together at all levels
30-Jun	do not affect 276 and 148	transportation	Columbia West	WLHS	util/feed. Creates a small feed of
30-Jun	159, 1159 do not change; 1160, 160, 162, 1162 to MRHS	stability	Northern	SJL, MHHS, MRHS	1159 go there. 162, 1162 in
1-Jul	2093 go to bonnie branch and howard		Northeastrn	BBMS, Howard	Possible with loss of community
1-Jul	2093, 3093, 4093 stay together	> EMMS -> MHHS.	Northeastern	Worthington ES, MHHS, EMMS	Would put EMMS over cap at
5-Jul	170, 1170 remain at mount view, marriotts ridge	community stability,	Northern	MVMS, MRHS	a small ES/MS feed. Cannot
5-Jul	64, 1064, 129 to RHHS				alread in FS
5-Jul	until HS13 to adjust HS boundaries; relocacte JROTC to western HS	redist of middle schools	Northeastern	LR, Howard	LR/Howard. Potentially disrupts
5-Jul	221, 1221, 2221 added to plan to go to lime kiln MS	plan; community stability	Western	Lime Kiln MS	not affect feed/util otherwise
6-Jul	159, 1151, 2151 - send to OMHS	accessible by bike/foot),	East	OMHS, MRHS	to OMHS; 151 must move if
6-Jul	keep 170 at MVMS and MRHS	transportation concerns,	Western, Northern	Mount View MS, MRHS	a small ES/MS feed. Cannot
6-Jul	170, 1170 to MVMS, MRHS	stability, utilization,	Western, Northern	Mount View MS, MRHS	a small ES/MS feed. Cannot
12-Jul	Lane, Route 70, Route 40 and Route 29) - maybe 159 and 1159?	only 1 polygon to keep	Northern	Waverly ES	geography and population.
12-Jul	populated and is less than 3 miles from the area that is South of Centennial	from school;	Northern	Howard HS, SJL, CHS, MHHS	enough to be tested. 2) HoHS

7/18/17	<p>IDEA 1:</p> <p>87, 2087, 3087, 86, 1086 to Rockburn, Elkrige Landing, Howard</p> <p>83, 1083, 298 to Bellows Spring, Mayfield, Long Reach</p> <p>2093, 3093, 4093 to Worthington, Ellicott Mills, Mt Hebron</p> <p>311, 1067 to Thunder Hills, Oakland Mills, Wilde Lake</p> <p>98, 1098, 74, 2074 to Waterloo, Ellicott Mills, Mt Hebron</p> <p>277, 1074 Waterloo, Bonnie Branch, Howard</p> <p>95,1095,2095,84,1301 Rockburn Elkrige Landing, Howard</p>	<p>Restore (pre 2014) feed</p> <p>Rockburn ES 100% to</p> <p>Howard HS AND Elkrige</p> <p>Landing MS was feeding</p> <p>100% to Howard HS.</p>	Northeast	<p>Rockburn ES, Bellows Spring ES,</p> <p>Worthington ES, Thunder Hill ES,</p> <p>Waterloo ES, Elkrige Landing</p> <p>MS, Mayfield Woods MS, Ellicott</p> <p>Mills MS, Oakland Mills MS,</p> <p>Bonnie Branch MS, Howard HS,</p> <p>Mt Hebron HS, Wilde Lake HS,</p> <p>Long Reach HS</p>	<p><b>ES:</b> bellows spring, ilchester under cap. rockburn starting at 111% util and rising. thunder hill starting at 106 and falling. waterloo, waverly in cap. creates 1 poly island for poly 301 - can be fixed w reassignment. BBMS would have sm feed of 6 kids from waterloo. creates sm feed from THES to EMMS. small feed from JHES to Mayfield Woods. <b>MS:</b> all MS in capacity. sending 311, 1067 to oakland mills creates 4 poly island for EMMS. <b>HS:</b> Howard in cap, LR in cap until 2023. MtHeb starting at 116% and rising; hits 120% in 2020. WLHS starting at 111% and rising. hits 120% in 2022. MtHeb and WLHS would need relief. Howard has 4% feed from EMMS. WLHS has sm feed of 7.2% and MtHeb has somewhat sm feed (13%) from Dunloggin. this plan would require further adjustments.</p>

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/18/17	IDEA 2: 87, 2087, 3087, 86, 1086 to Rockburn, Elkridge Landing, Howard 83, 1083, 298 to Rockburn, Elkridge Landing, Howard 2093, 3093, 4093 to Worthington, Ellicott Mills, Mt Hebron 311, 1067 to Thunder Hills, Oakland Mills, Wilde Lake 98, 1098, 74, 2074 to Waterloo, Ellicott Mills, Mt Hebron	Restore (pre 2014) feed Rockburn ES 100% to Howard HS AND Elkridge Landing MS was feeding 100% to Howard HS.	Northeast	Rockburn ES, Bellows Spring ES, Worthington ES, Thunder Hill ES, Waterloo ES, Elkridge Landing MS, Mayfield Woods MS, Ellicott Mills MS, Oakland Mills MS, Bonnie Branch MS, Howard HS, Mt Hebron HS, Wilde Lake HS, Long Reach HS	<b>ES:</b> all in capacity. <b>MS:</b> creates island for BBMS. puts OMMS at 129%, fluctuates around 125%. makes sm feed from THES to EMMS smaller (5.8%). <b>HS:</b> Howard in cap. MtHeb and WLHS above cap - would need relief. Howard has sm fd from EMMS (4.7%). decreases feed from dunloggin to MtHeb. WLHS would have sm fd from dunloggin (7.2%)
7/18/17	Move 2038, 1038, 38, 1300, 300 to Long Reach HS Move 2074, 74, 98, 1098 to Mt Hebron HS Move 311, 1067, 98, 1098, 74, 2074 to Ellicott Mills MS and Mt Hebron or other Western HS Move 83, 1083, 298, 86, 1086 to Howard HS Leave 2093, 3093, 4093 in Mt Hebron Move 32, 1042, 2042, 3042 to Long Reach HS if necessary	Neighborhood, not moving existing HS students, mot moving children more than once in 5 years	Northeast, North	Long Reach HS, Mt Hebron HS, Howard HS	creates island for howard. moves all polys around Howard to western school, creates island. drastically affects utilization to MtHeb and howard.
7/18/17	Keep polygons 5, 6, 1005, 1006, 2005, 2010, 2011 at AHS Keep polygons 48, 50, 1048, 1050, 2057, 3048 at Hammond HS	Community	Southeastern, western	Atholton HS, Hammond HS	already suggested
7/19/17	keep polygons 95, 1095, 2095 and 84 at Howard High School	Distance, contiguity, frequency of redistricting	Northeast	Howard HS	already Suggested
7/19/17	Do not move from AHS: 13, 26, 27, 48, 50, 57, 270, 1026, 1027, 1048, 1050, 1057, 2050, 2057, 3048 Do not move from Hammond: 5, 6, 1005, 1006, 2005, 2010, 2011 Do not moe from Oakland Mills	Number of students moved, preserve some of AHS	Western, Columbia West, Columbia East	Atholton HS, Hammond HS, Oakland Mills HS	already suggested
7/19/17	My proposal is to keep Polygon 1184 at CHS. Polygons 153 and 1153 would be at MRHS, while the two southern polygon 1152 and 152remain at Wilde Lake	Font Hill all at one HS; Gray Rock at only 2 high schools. Improved transportation	northern		creates an island for centennial. keeping 1184 at CHS doesn't affect util/feed much. MRHS, WLHS hits 110 in 2025.
7/19/17	polygon 153 remain at Centennial HS, Frederick Road is the appropriate boundary between CHS and MRHS. Polygons south of 157 and 1157 both of which attend MRHS.	TRansportaion, community	northern, western	Centennial HS, Marriotts Ridge HS	

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/19/17	keep polygons 95, 1095, 2095 and 84 at Howard High School	Distance, contiguity, frequency of redistricting	Northeast	Howard Hs	Already Suggested
7/19/17	keep polygons 95, 1095, 2095 and 84 at Howard High School	Distance, contiguity, frequency of redistricting	Northeast	Howard Hs	Already Suggested
7/19/17	keep polygons 95, 1095, 2095 and 84 at Howard High School	Distance, contiguity, frequency of redistricting	Northeast	Howard Hs	Already Suggested
7/19/17	170, Manor Woods, Mount View, Marriotts Ridge 215, 220, 1215, 1220, 2220 Bushy Park, Folly Quarter MS, Glenelg 224, 229, 231, 232, 2229 Bushy Park, Glenwood, Glenelg 1170, 2170 Manor Woods, Mount View, Marriotts Ridge 1179 Triadelphia Ridge, Folly Quarter, Glenelg 1229, 1231 West friendship, Mount View, Marriotts Ridge	Neighborhoods, utilization	western		<b>ES:</b> BPES capacity is in the 90's. MWES capacity begins at 88% and grows to 111% in 2022. TRES remains in capacity. WFES begins at 80% but rapidly grows to 120% in 2023. <b>MS:</b> FQ and Glenwood remain in capacity. MVMS begins at 103% and grows to 110% in 2021. feeds from ES to MS are good - no small feeds at these schools. <b>HS:</b> MRHS is in cap until 2025, and Glenelg is in capacity. feeds are good - no small feeds. only concern is the spike at WFES, but this cannot be avoided.
7/19/17	keep 151 and 1151 at oakland mills hs. Glenmont community move to wilde lake since they are further east on 175 than we are.	Community	columbia	Oakland Mills HS, Wilde Lake HS	util would start at 102% and hit 110 in 2020. it would hit 122% in 2022. this would also create a single polygon island for 2151 to wilde lake

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/20/17	polygons 151,1151,2151, small Thunder Hill neighborhood of 85 students remain in Oakland Mills HS	Community, accessibility, utilization	columbia east	Oakland Mills HS, Wilde Lake HS	This move of 3 polygons causes OMHS to start at 102.0% and grows to 110% after 2 years (2020), 2021 is at 116.7% with this changes. 5 year projection puts OMHS at 125.4% with these moves. Minimal impact on WLHS with or without moves WLHS stays uner 110% 5 years out.
7/20/17	Polygons 309, 4309 - Worthington/Taylor Village neighborhood in a single high school zone Mt. Hebron	Community	northern	Mount Hebron HS, Howard HS	Without move MHHS 5 year projection is under 110% (109.4%). Howard starts at 110.8% and 5 years out is 118.5%. With adjustments to pylgon 4039 (assuming mistyped, closes 4000 polygon to 309) MHHS starts at 103.7 and 5 year projection puts it outside of 110% (111.4%), Howard starts at 108.8 and projected 5 year over 110% (116.5%). Also creates a double small feed.
7/20/17	Polygon 1184, Font Hill, keep in CLES, BMMS, CHS. Move 147 to Clarksville ES/MS, RHHS OR to Northfield ES, Dunloggin MS, and Wilde Lake HS. North of Frederick Rd(MRHS) & South to (CHS) 2173 and 1173 CLES, BMMS, MRHS	Transportation, natural boundaries, community	northern, western	Centennial HS, Marriotts Ridge HS	already suggested
7/20/17	Since there is no apparent benefit to swapping an almost even number of OMMS and LEMS students, it seems more than feasible to leave polygons 56, 1056, 2056, 3056 (as well as the affected LEMS polygons) as they are rather than redistrict them.		Columbia East	Oakland Mills MS, Lake Elhorn MS	creates sm feed from Stevens forest ES to Lake Elkhorn and sm feed from Atholton ES to OMMS. okay for utilization but would need ES adjustments to fix feeds

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/20/17	keep 95,1095, 2095 and 84 at Howard High School.	Contiguous neighborhood, distance	Northeast	Howard HS	Already Suggested
#####	Move students directly from Lime Kiln (the overcrowded school) to Folly Quarter (the school with space).Polygons that are currently zoned to Lime Kiln but are west of highway 108 to Folly Quarter. (196, 198, 1196, 1195, 1198, 197, 1193, 193, 2198, 195, 194, 1235, 1194, 235 and 119)	Solve the overcrowding problem at Lime Kiln, better utilize the space available at Folly Quarter, make a huge improvement in the number of students that stay together given the hard break in Dayton Oaks students now, and largely leave schools like Clarksville MS alone.	Western	Lime Kiln MS, Folly Quarter MS	Current: LKMS first year projected 87.6%and 5 year projected 100.1%. FQMS first year projected and 5 year projected. Proposed moves: LKMS first year 67.9% 5 year projected 80.6%, FQMS first year 128.5%, 5 year projected 128.9%. Creates a small feed.
7/21/17	Keep polygon 153 and 1153 together. Keep 153 at CHS	Community	Northern	Centennial HS, Marriotts Ridge HS	Current: CHS projected first year: 107.5% projected 5 year: 119.5% . MRHS projected first year: 93.9% projected 5 year: 104.6% Proposed: CHS projected first year: 109.3% projected 5 year: 121.3%. MRHS projected first year: 92.3% projected 5 year: 103.0% This proposal shifts 23 students which causes CHS to go outside of 110% by 2019.
7/21/17	151, 1151 and 2151 stay at OMMS and OMHS	Utilization, distance, walkability, community	columbia east	Oakland Mills MS, Oakland Mills HS	Already suggested
7/21/17	151, 1151 and 2151 stay at OMMS and OMHS	Utilization, distance, walkability, community	columbia east	Oakland Mills MS, Oakland Mills HS	Already suggested

7/21/17	Change from FS: Atholton TO River hill 190,1190, 1129,1064,129,64 Hammond TO Atholton 272, 1272,13,270 River hill TO Glenelg HS 180,181,182,1180,1182,2182,2183, 3182 Wilde Lake TO River Hill 175,2175,1175,177,1177,1141,142, 1143,141 Centennial TO Marriotts Ridge 214,1154,154,2154,1184,153 Howard High TO Wilde Lake 2065,1065,65,1068,2068,68,3068,277 Long Reach TO Oakland Mills HS 1081,2081,81	Community stability, feed, frequency of movement, demographioc charactoristics	county-wide		REQUESTED FEEDBACK
7/21/17	polygon 214, 1154, 154, and 2154 remain at Centennial High School	Use Route 40 as the more natural boundary. Keep the neighborhood together at CHS.	Northern	Centennial HS	would start utilization at 118% and would hit 124% a year later. would create a 2-poly island to MRHS from 1184, 153. would require adjustments to reduce utilization, eliminate islands.
7/21/17	Atholton HS TO River Hill 64, 129, 190, 1064, 1129,1190 Hammond TO Atholton 272, 1272, 13, 270 River Hill TO Glenelg HS 180, 181, 182, 183, 1180, 1181, 1182, 1183, 2182, 2183, 3182 Marriotts Ridge TO Glenelg HS 170, 178, 179, 1170, 1178, 1179, 2170 Wilde Lake TO River Hill 141, 142, 175, 177, 1141, 1143, 1175, 1177, 2175 Centennial TO Marriotts Ridge 153, 154, 214, 1154, 1184, 2154 Oakland Mills TO Wilde Lake 151, 1151, 2151 Long Reach TO Oakland Mills HS 33, 35, 80, 81, 266, 1033, 1080, 1081, 1266, 2081, 3035, 4035 Howard High TO Long Reach 84, 86, 87, 95, 1086, 1095, 2087, 2095, 3087 Mt Hebron TO Marriotts Ridge 159, 160, 1159, 1160	from Emerson and Wincopia, same as scenario 2, but with an attempt to reduce islands	county-wide	Atholton, RHHS, HamHS, GHS, MRHS, WLHS, CHS, OMHS, LRHS, HowHS, MtHebHS	almost all moves are already in FS. creates 2-poly island for atholton (272, 1272). creates small feed from those 2 polys going from PVMS to AHS. creates sm feed from HCMS to RHHS. capacities not affected by changes that are different from FS.

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/21/17	Keep polygon 214 at CHS. Use major roadways like Rt. 40, Rt. 29 and Rt. 108 as natural boundaries for CHS. Move huge neighborhoods with high volumes of high schoolers east of Rt. 29 that are farther From CHS. (They do not attend BMMS, that feed into Mt. Hebron; they are more like an island of CHS surrounded by an ocean of Mt.Hebron)	Distance, Community	northern	Centennial HS	too vague
7/21/17	Keep Valley Mede as a unit at Mt Hebron, Patapsco, and St Johns Lane ES. POlygon 159 and adjacent polygons within Valley Mede	Walkability, Community	Northern	Mt Hebron HS, Patapsco MS, SJLES	would require adjustments to fix utilization/feeds
7/21/17	SCENARIO 1: Keep Polygon 1184 CLES, BMMS, CHS. Move 147 to Clarksville ES/MS, RHHS SCENARIO 2: Keep Polygon 1184 CLES, BMMS, CHS. Move 147 toNorthfield ES, Dunloggin MS, and Wilde Lake HS. SCENARIO 3: Keep Polygon 1184 CLES, BMMS, CHS. Move 153 to Northfield ES, BMMS, CHS. Move 97 to CLES, BMMS, CHS. Move 155 and 1155to Northfield ES, Burleigh Manor MS, Marriotts Ridge HS	Community	Northern, Columbia west, Western	CLES, BMMS, CHS, Clarksville ES, Clarksville MS, RHHS, Northfield ES, Dunloggin MS, WLHS, MRHS	scenario 1/2: already suggested. scenario 3:MRHS stays within capacity. CHS, BMMS still at and above capacity. creates island for poly 97.
7/21/17	Keep polygons 159 and 1159 at St. Johns Lane ES, Patapsco MS, and Mt Hebron High School. Address the middle school and high school issues by sending the kids around Old Mill and Diversified (who currently go to Waverly ES) to Mount View Middle and Marriotts Ridge HS instead of Patapsco and Mt. Hebron HS?	Community	Northern, western	SJLES, Patapsco MS, MHHS, MVMS, MRHS	suggestion unclear
7/22/17	Keep Valley Mede together - 159, 1159, 1043, 2034, and 34. Do not move 159 and 1159 to waverly ES, Mount View MS, and Marriotts Ridge HS. In your study you move polygons 159 and 1159 from SJLES to Waverly and polygons 2161, 1162, and 162 from Waverly to SJLES.		Northern, western	Waverly ES, MVMS, MRHS, SJLES	already suggested
7/22/17	276 and 148: keep at NorthField Elementary School. Change Dunloggin Middle School to Burleigh Manor Middle School.	Number os studennts moved, utilization, bus service/walkers, community stability, contiguous areas	Northern	Northfield ES, Dunloggin MS, BMMS	BMMS would hit 110 in 2022. would create feed of 9 students (0.6%) to WLHS. Northfield would remain in capacity. cannot leave at Northfield ES because it would create a small feed to WLMS. WLMS has more available seats than BMMS.

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/22/17	Keep 2093, 3093, and 4093 in Howard HS	Contiguous community	northeast	howard HS	already in FS
7/22/17	Keep polygon 214 at CHS. Move huge neighborhoods in HIGH VOLUMES of high schoolers EAST of Rt. 29 out of CHS. (They do not attend BMMS, that feed into Mt. Hebron; they are more like an island of CHS surrounded by an ocean of Mt.Hebron).	Proximity	northern	centennial HS	too vague
7/22/17	First Proposal: polygons 217, 2099, 310, 99, 1093, 309, 1309, 2310, 93, 1310, 94, 1094 to VetES, DMS, CHS; 1102, 102, 3101, 1101, 101, 275 1100 & 100 to VetES, EMMS, Mt Heb. 162, 2161, 1162, 1034, 158, 3034, 34 & 2034 to MRHS. Second Proposal MOVE Polygon 97 (island) to attend either Mt. Hebron or Marriotts Ridge High School and keep 153 at CHS	Transportation, community	northern, western	Centennial HS, Marriotts Ridge HS	CHS and MRHS 122% in 2022, MHHS 88%. Moves 300 kids from CHS to MHHS, then 300 from MHHS to MRHS. No new feed issues.
7/22/17	Keep Worthington neighborhood in Worthington Elementary, Ellicott Mills Middle and Mt. Hebron High School.	Community, feeds	northern	Worthington ES, EMMS, MHHS	vague, need polygon numbers
7/22/17	Do not move students from AHS to HaHS and from HaHS to AHS (FS plan)	Community, number of students moved	southeastern, western	Atholton HS, Hammond HS	already suggested
7/22/17	IDEA 1: 87, 2087, 3087 to Rockburn, Elkridge Landing, Howard 298 to Bellows Spring, Mayfield, Long Reach 83, 1083, 84 Rockburn, Elkridge, Howard 2093, 3093, 4093 to Worthington, Ellicott Mills, Mt Hebron 311 to Thunder Hills, Oakland Mills, Wilde Lake		Northeast	Rockburn ES, ELMS, HowHS, BSES, MWMS, LRHS, Elkridge MS, Worthington ES, EMMS, MHHS, THES, OMMS, WLHS	creates 2-polygon island (86, 1086) to LRHS. Howard HS hits 118%, MHHS hits 115% in 5 years (2022).
7/22/17	Keep Worthington intact: polygons 2093, 3093, and 4093 must not be severed from our contiguous Worthington neighborhood (93, 1093, 2093, 3093, 4093, 309, and 1309).	Contiguous neighborhood, community, feeds, and frequentreassignments	northeast		suggestion unclear
7/22/17	Keep Worthington intact: polygons 2093, 3093, and 4093 must not be severed from our contiguous Worthington neighborhood (93, 1093, 2093, 3093, 4093, 309, and 1309).	Contiguous neighborhood, community, feeds, and frequentreassignments	northeast		already suggested
7/18/17	Keep Oakland Mills HS students at OMHS	Distance, community	Columbia east	OMHS	need polygon numbers
7/18/17	Keep polygons 84, 95,1095, 2095 and 84 at Ilchester ES-to-Bonnie Branch Middle-to-Howard High School.	Proximity, contiguous community, frequency of redistricting	northeast		puts Howard HS utilization at 120% in 2018 and continues to rise

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/18/17	keep polygons 95, 1095, 2095 and 84 at Howard High School	Distance, contiguity, frequency of redistricting, traffic, air pollution, longer student commute	northeast		Already Suggested
7/18/17	Do not move 148 and 276	Utilization, walkable, ranking, home values			already Suggested
7/19/17	Keep 153 and 1153 together at CHS	Community, specific program availability	northern	CHS	would require some relief to CHS. utilization at 109% and rising to 121% in 2022.
7/19/17	Thunder Hill Elementary and Allview neighborhood - continue to feed into OMMS as well as OMHS.	Community, demographics	columbia east	THES, OMMS, OMHS	need polygon numbers
7/21/17	Do not move Dorsey Crossing Community from Centennial K Lane ES. Consider moving Centennial Overlook.	Demographics	northern	centennial lane ES	need polygon numbers
7/25/17	MOVE Polygon 2114 from Reservoir HS to River Hill HS	Feed	Western	Reservoir HS, RHHS	doesn't disrupt util/feeds, but could disrupt neighborhood continuity. consider including 114, 1114 in move.
7/24/17	Polygon 97- St Johns, patapsco, mt Hebron Polygon 158 should stay at NES with Old Annapolis road as a good dividing line Polygons 153, 2154, 154 should stay CHS ( instead of the proposed Marriotts Ridge). Instead polygons 173, 1173, 2173, 19 etc should move from Centennial to Marriotts Ridge. They are further west on the map.	get rid of 'pockets' put in place to even out social economics or politics	northern, western	SJL, Patapsco MS, MHHS, NES, CHS, MRHS	97 to SJL puts starting util at 120%, Patapsco MS at 116% and rising, MHHS would be over cap after 1 year. 158 move creates island next to SJL. moves from CHS to MRHS removes walkers from CHS
7/24/17	1184 to CLES, BMMS, CHS 153 to NES, BMMS, CHS 97 to CLES, BMMS, MRHS 1155 to NES, BMMS, MRHS 155 NES, BMMS, MRHS	Utilization and community	Northern, columbia west	CLES, BMMS, CHS, NES, DMS, WLHS	ES: CLES starts at 114% and fluctuates. NES is in target. MS: BMMS in capacity until 2023. feeds to BMMS ok. HS: CHS at 110% in 2020 and MRHS at 110% in 2022 and rising after. not logical for distance/transportation. feeds ok.

8/2/17	200 and 1200 remain at Dayton Oaks	utilization	west	DOES	already suggested
8/1/17	167 to MVMS. 1171 to FQMS or to TRES and FQMS.		west	MVMS, FQMS, TRES	
7/31/17	polygons 304 and 1304 go to BPES until the ES # 45 is built	Utilization, contiguity, feed, transportation	west		
8/2/17	Lime Kiln Road, Highland, MD 20777, stay wtih adjacent polygons going to PRES-CMS-RHHS (not small feed from PRES-LKMS-RHS)	Feed	west		
8/3/17	Do not move polygon 231 out of WFES. Move 304 and 1304 to BPES. Move all Turf Valley to New ES #45.	Transportation, syability, community	west		
8/3/17	polygons 304 and 1304 go to BPES until the ES # 45 is built and the other polygons (224, 229, 231, 232, 1229, 1231, 2229) stay at WFES.	Stability, Community, Continuity, Utilization	west		
8/3/17	polygons 304 and 1304 go to BPES until the ES # 45 is built and the other polygons (224, 229, 231, 232, 1229, 1231, 2229) stay at WFES.	Stability, Community, Continuity, Utilization	west		
8/3/17	polygons 304 and 1304 go to BPES until the ES # 45 is built and the other polygons (224, 229, 231, 232, 1229, 1231, 2229) stay at WFES.	Stability, Community, Continuity, Utilization	west		

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
8/4/17	<p>Starting with the feasibility study, please make these changes:</p> <p>Keep polygons 185, 1176, 1185 at Clarksville ES instead of moving them to Tridelphia</p> <p>Keep polygons 200, 1200 at Dayton Oaks ES instead of moving them to Clarksville.</p> <p>Keep polygon 209 at Tridelphia ES instead of moving them to Dayton Oaks</p> <p>Keep polygons 210, 218, 1210, 1218, 1222, 2210 at Tridelphia ES instead of moving them to Bushy Park</p> <p>Keep polygons 178, 179, 1178 at Manor Woods ES instead of moving them to Tridelphia.</p> <p>Keep polygons 224, 229, 231, 232, 1229, 1231, 2229 at West Friendship instead of moving to Bushy Park.</p> <p>Keep 4169 at Waverly ES instead of moving to West Friendship.</p> <p>Move polygons 304, 1304 to Bushy Park ES instead of moving them to West Friendship.</p> <p>Move polygons 171, 1171 to Bushy Park ES instead of keeping them at Manor Woods.</p> <p>I would also recommend 1171 to go to Mount View Middle school instead of Burleigh Manor.</p>	<p>MOve fewer students, use western capacity, utilization, capital budget savings</p>	west		
8/4/17	polygons 304 and 1304 go to BPES until the ES # 45 is built and the other polygons (224, 229, 231, 232, 1229, 1231, 2229) stay at WFES.	Stability, Community, Continuity, Utilization	west		
8/4/17	Keep polygons 200 and 1200 to remain at Dayton Oaks for the 2018-2019 attendance area changes.	Community	west		
8/6/17	As an alternative, you could consider moving my polygon (#6) and nearby polygons to a high school with similar rankings as Atholton currently has. Reservoir High School would be a better alternative and more equivalent change than Hammond High School. Another option would be to relieve overcrowding by allowing students in Howard High School to attend an undercrowded school (e.g., Oakland Mills, Wild Lake, Marriotts Ridge, or River Hill High School).	Distance, cost, ranking, demographics	west		
8/7/17	polygon assignments 118,189, and 1192 and keep the few number of students at their current assignment of Pointers Run Elementary School.	Distance, transportation, feed, demographics/diversity, programs	west		
8/7/17	Do not move Polygon 229, 1229, and 2229 to Bushy Park Elem	Distance, utilization, capital costs	west

7/28/17	keep maple lawn together				already suggested
7/26/17	Keep Worthington intact: polygons 2093, 3093, and 4093 must not be severed from our contiguous Worthington neighborhood (93, 1093, 2093, 3093, 4093, 309, and 1309).	Community, feeds, frequency of redistricting			already suggested

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/28/17	My proposal is to leave polygons 159 and 1159 as they are currently districted, and instead move polygons 162, 1162, and 2161 to Mt View Middle and Marriotts Ridge HS. Polygons 160 and 1160 are slated for this move in the feasibility study, and this alternative would be consistent with that change.	Reduces the number of impacted students by over 200+; It creates a continuous feed for polygons 160, 1160, 162, 1162 and 2161; Capacity Utilization; Eliminates the ping-ponging north of Rt 99; Community, stable school feed			already suggested
7/30/17	keep maple lawn together				already suggested
7/29/17	Keep polygons 148 & 276 at Northfield ES Move polygons 148 & 276 from Dunloggin to Burleigh Manor Move polygons 148 & 276 to either Howard HS or Centennial HS	Frequency of adjustments, walkability			already suggested
7/29/17	Do not redistrict polygon 1184	Continuity, bus distance, small number of students, community stability, community support			already suggested
7/31/17	Polygons 200 and 1200 to remain at Dayton Oaks for the 2018-2019	Does not address: projections are outside the target utilization, facility utilization, community stability, or demographic characteristics of student population			already suggested
7/29/17	keep rockburn township at Howard HS				suggestion unclear
7/30/17	Do not redistrict Allview who currently attend OMMS and OMHS	Demographics			suggestion unclear

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/27/17	<p>Starting from the 2017 feasibility study:</p> <p>1. Oakland Mills High School and adjoining areas: Move the following polygons (# students) from Wilde Lake HS to OMHS (119 students total): 2151 (0), 151 (28), 1151 (52), 1111 (0), 2111 (16) and 111 (23). Move the following polygons (85 students total) from OMHS to Hammond and/or Atholton HS to accommodate the additional 119 students at OMHS: 1032 (43), 2030 (42) and 1030 (0).</p> <p>2. Talbott Springs ES and Stevens Forest ES: Move Polygon 1110 (63 students) from TSES to SFES. Move Polygons 59 (33 students), 3059 (32) and 55 (15), 80 students total, from SFES to TSES.</p>	<p>Thunder Hill is at Oakland Mills HS, 100% Oakland Mills MS feeds to Oakland Mills HS, Polygon 2030 at current HS (Hammond); could consider moving 1032 to Hammond as well to keep them at their current high school; utilization, opens capacity at Wilde Lake HS, Improves the balancing of demographics, fewer students moved, reducing busing, 100% feed to OMMS, (noted keep non-contiguous areas at TSES, but benefits outweigh islands)</p>		(1) Oakland Mills High School, and (2) Stevens Forest and Talbott Springs Elementary Schools	
7/30/17	keep 298 at Bellows Spring ES, Mayfield Woods MS, Long Reach HS	community stability		BSES, MWMS	

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/28/17	<p>HS: Polygons 151 (28 students), 1151 (52 students), 2111 (16 students), and 111 (23 students) to Oakland Mills High. This represents the Thunder Hill neighborhood and small adjoining areas that attend Oakland Mills Middle School (also include 2151 and 1111 polygons for continuity, but these have no students).</p> <p>Polygons 1030, 1032, 2030 (total 85 students) split between Atholton High and Hammond High (or possibly all can go to one of these schools). Note that polygons 1045 and 45 along MD-175 are commercial areas with no students. These polygons connect to 1030, 1032, and 2030 to avoid an island, but, in reality, serve no students.</p> <p>ES: Polygon 1110 (63 students) to Stevens Forest Elementary. Polygons 3059 (32 students), 55 (15 students), 59 (33 students) to Talbott Springs Elementary. Polygons 1059 (22 students) and 2059 (14 students) to Stevens Forest Elementary (as currently planned in feasibility study). Included new capacity up to 500 TSES and existing relocatables at TSES.</p>	<p>Maintain the Oakland Mills Village community, keep Thunder Hill neighborhood in Oakland Mills HS; Maintain Oakland Mills Middle to Oakland Mills High feed; Avoid increasing the rate receiving FARMS at Oakland Mills HS; Balance socioeconomic, racial, and ethnic diversity between Talbott Springs ES and Stevens Forest ES; Similar or decreased busing through Oakland Mills Village</p>			
7/30/17	<p>In all scenarios, keep 1184 at current assignments.</p> <p>IDEA 1 Polygon 97 Centennial Lane ES, Burleigh Manor MS, Marriotts Ridge HS</p> <p>IDEA 2 Polygon 147 to Running Brook ES, Wilde Lake MS, and Wilde Lake HS.</p> <p>IDEA 3 Polygons 100 and 1100 to Waterloo, EMMS, Howard HS</p>	<p>1. demographics 2. adjacent polygons have same path 3. South of 103, only ones that does not attend HoHS</p>			

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
7/31/17	<p>First idea- do not redistrict polygon 276 and 148. If middle school numbers will present an issue, consider removing the students from some of the other smaller feeds of elementary schools (St. John's, Hollifield Station, and Thunder Hill)for s strong Dunloggin-Wilde Lake feed</p> <p>Second idea- keep 276 and 148 at Northfield and increase feed from Northfield to Wilde Lake Middle to Wilde Lake High. This could involve moving polygons 302, 271, 2148, 1148, 149, 152, and 1152 along with 276 and 148 (at middle school level).</p> <p>Third idea- Swap polygon 147 to Running Brook- Wilde Lake Middle- Wilde Lake High</p>	276 and 148 are being prematurely moved; frequency of adjustments			
8/2/17	298 stay at bellows spring and mayfield woods	feed, community stability, utilization		BSES, MWMS	
8/3/17	keep 153 and 1153 together	community stability			
8/1/17	200 and 1200 at Dayton Oaks ES	utilization, community stability		DOES	
8/1/17	ES: 1110 to SFES, 3059, 55, 59, to TSES. 1059 and 2059 to SFES. HS: 151, 1151, 2111 and 111 to OMHS. 1030, 1032, 2030 split between atholton/hammond				
8/2/17	SEE EMAIL FOR ALL DETAILS. COMPREHENSIVE PLAN.	1. minimize distance between the school and polygon centroids and 2. stay below the 110% capacity threshold.			

KEY	Suggestion unclear	Already suggested	Needs work	Has potential	Works
Date	Polygon Suggestions	Reasoning	Region	School(s) Involved	Office School Planning Eval Based on 2017 Feasibility Study
8/7/17	<p>1) Retain the student population and polygon assignments for Atholton HS. Using temporary classrooms or shifting students from Howard HS, to Marriott's Ridge HS, Oakland Mills HS, or Wilde Lake HS . Centennial HS and Mount Hebron to River Hill and Marriott's Ridge. When the new HS is opened on Mission Road, students along the Route 1 corridor (e.g., those attending Howard, Hammond, Long Reach, and Reservoir HSs) could be assigned to it.</p> <p>2) If the decision-makers do not adopt my first proposal, then my second preference would be to move students in polygon 6 into a HS that is of similar quality per rankings such as Reservoir HS and River Hill HS.</p>	Demogrphics, utilization, transportation
