Rating Key	
1	Poor
2	Fair
3	Neutral
4	Good
5	Excellent

Policy Criteria Key	
1	Efficient use of existing seats (Ex. capacity utilization between 90% and 100%.) (Policy 6010 IV.B.1.a)
2	Long-range capital projects (e.g. new school; additional seats) (Policy 6010 IV.B.1.b)
3	Minimizing capital and operating costs (Policy 6010 IV.B.1.c)
4	Transportation considerations (e.g. walkers, bus routes, etc.)(Policy 6010 IV.B.1.d)
5	Location of regional programs (e.g. JROTC; Pre-K; Regional ALS) (Policy 6010 IV.B.1.e)
6	Keeping feeds of students together from one school to the next (Ex. Larger groups of students moving together from ES to MS and MS to HS) (Policy 6010 IV.B.2.a)
7	Maintaining contiguous communities or neighborhoods (Policy 6010 IV.B.2.b)
8	Frequency with which any one student is reassigned. (Policy 6010 IV.B.2.c)
9	Consideration of demographic factors (Policy 6010 IV.3.a-d)
10	Number of students moved achieves multiple Policy 6010 considerations. (Policy 6010 IV.B.3.e)
11	This plan does not impact me
12	This plan minimally impacts me
13	This plan impacts me negatively
14	Not Applicable

6			MtHebronHS	5	worse than	1	3	5		equal to	1	3	5		
7	ClemensCrossingES			1	better than	6	13	14	Keep districts how they are, please.						
8		PatapscoMS	MtHebronHS	4	equal to	2			This will help with the proposed development at Harbin Farms. Designating that portion of Valley Mede to Waverly/Mount View/MRHS will allow those school to comfortably grow to capacity.	equal to	14				
9	BellowsSpringES	MayfieldWoodsMS		1	better than	8	13	14		equal to	8	14			
10		FollyQuarterMS		1	better than	6			Under the proposed redistricting my child (8th grader) will be one of 19 students to attend his HS while the remaining 170 students from his 8th grade class will be slated for a different HS. This is a very hard situation for all these kids emotionally	better than	6				
11	NorthfieldES			5		6	4	7	Thank you for developing this alternative plan. We are in Polygon 148 and have already undergone 1 redistricting event. This plan allows us to retain our existing school and transition plan from ES to MS and MS to HS.	better than	6	4	7	We have already been redistricted once. The proposed HCPSS plan would move 20 students to a middle school where they know no one and which is twice as far away across Rt 108.	
12	AtholtonES	HammondMS	HammondHS	1	better than	6	7	13	it make no sense to move our neighborhood from Hammond to Wilde Lake High School. We are not connected to the rest of the Wilde Lake attendance area.	better than	13	6	7	The feasibility study only changes our high school and the AAC changes our middle school and high school	
13	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	4	1		better than	6	4	1		
14	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	6	4	1	Strongly against moving 147 to other schools due to transportation and community integrity.	better than	1	3	4		
15	IlchesterES	BonnieBranchMS	LongReachHS	1	better than	6	2	7	I don't think that this redistricting will work for maximizing capacity. I think that families whose students are moved to low achieving schools will relocate.	equal to	13			I do not know how the overall plan is different. I only know that it is the same for us.	
16	WaterlooES	EllicottMillsMS	HowardHS	1	better than	6	4	2	Somehow common sense has left this redesign. The following neighborhoods need to be kept together at middle school and high school: 1. Wheatfield 2. Brampton 3. Montgomery Knolls 4. Worthington	better than	2	14	14	A new high school is needed in Elkridge. Why isn't ground breaking already? Why the delay?	
17			OaklandMillsHS			9	7	6	Please see memo from Oakland Mills board regarding incorrect data used in AAC draft plan.	better than	4			See memo from Oakland Mills board regarding incorrect data used in AAC draft plan	
18	PointersRunES	ClarksvilleMS		4	worse than	2	4	7	It would be better if students who are within walking distance remained at their closest schools. Otherwise, I agree it's very important to alleviate overcrowding as much as possible in all of the schools.	equal to	14	14	14		
19	WaverlyES	PatapscoMS	MtHebronHS	1	better than	8	7	6	Nothing changed from the feasibility study to the AAC draft plan.	equal to	8	7	6	Again, nothing has changed for my polygon 162. We continue to be flipped every 5 years. We would prefer to continue from Waverly to Mount View and than Marriotts Ridge.	We live in Polygon 162/1162 which started at Hollifield, moved to SJLES, then to Waverly, back to SJLES and now to Waverly after a long battle. Leave us at Waverly and let #159 stay at SJLES. We WANT to move to MV and MR.
20															
21			AtholtonHS	5	worse than	9	10	1	This plan diversifies RHHS and uses its seats. It provides relief to the most overcrowded schools.	better than	1	9	10	The Feasability Study would further concentrate wealth into River Hill, and move most Atholton's Asian American population. The AAC plan proactively provides relief to Reservoir	The AAC plan is much more balanced in terms of FARMs and demographics, it uses seats, and it does not force only a few schools to bear massive change (Atholton),
22	AtholtonES		HammondHS	2	better than	7			I would like to see the area north of the 32 and east of the 29 redistricted for Atholton High School because it is geographically closer to that school than Wilde Lake.	better than					
23	RunningBrookES	PatapscoMS	MtHebronHS	1	better than	4	4	7		better than	4	10	7		

24	BushyParkES	FollyQuarterMS	GlenelgHS	3	equal to	11			I would prefer the board focus on keeping the start times the same, rather than changing boundaries again.	equal to	11					Please reconsider the plan to change start times to our schools. It will impact my children negatively and cost the county too much money.
25		OaklandMillsMS	OaklandMillsHS	1	better than	7				better than	8					
26	DuckettsLaneES			2	equal to	7	4	14	Still concerned about polygons 1037, 37, 2043, and 2037 going on the highway to TVMS instead of to the closer school, ELMS.	equal to	4	14	14			
27	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for using Frederick Road as a natural boundary and for keeping the Gray Rock neighborhood together!	better than	7			This plan is much better than the previous proposal because it keeps our neighborhood together and uses a logical boundary (Frederick Rd).		
28	NorthfieldES	DunlogginMS	WildeLakeHS	1	better than	6	9	13	The move of polygon 148 negatively impacts the region without solving any immediate issues	better than	7	9	13	The move of polygon 148 negatively impacts the region without solving any immediate issues		
29	DeepRunES	MayfieldWoodsMS	LongReachHS	1	better than	13	2	4		equal to	13	14	14			
30			OaklandMillsHS	1	better than	4	5	7		better than	9	6	7			
31	WaverlyES	PatapscoMS		2	better than	6	4	7		equal to	8	7	6			My neighborhood has been pingponged between SJLES and waverly a few times over the past 15 years. My kids are looking forward to rejoining friends at Patapsco and I'm really worried that they will be there this year for 6th grade and then be moved again
32	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	13	4	6	We live across the street from the Elementary school, but if the redistricting occurs, we would be forced to send our children into a completely different area for school.	better than	4	6	13			
33	HollifieldStationES			1	better than	4	6	1		better than	4	13	9			
34		MurrayHillMS	AtholtonHS	4	equal to	12	7	9		better than	12	9	7			
35	BryantWoodsES	WildeLakeMS		2	better than	5	4		The draft plans split neighbors and kids into different schools at the elementary level when it is even more important for kids to go to school with kids they know.	equal to	4	2		The revised plan still breaks up the Faulkner Ridge neighborhood for elementary aged kids who will then feed back into Wilde Lake Middle with kids they don't know.		
36	WorthingtonES	EllicottMillsMS	MtHebronHS	4	worse than	7	6		Happy that this plan keeps the Worthington community intact and going to MHHS.	better than	6	7		Happy that this plan keeps the Worthington community intact and going to MHHS.		
37	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	6	7	4	Polygen 147 is in reasonable distances to all three current schools. There are other polygens much further than 147 in the same school district. What AAC proposed doesn't make sense at all based on all the criteria the committee used for redistricting.	better than						
38	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	worse than	7	6	9	My ES, MS and HS proposed assignments are great - happy about that. I'm in block 1183 and would like to be in the Glenelg HG zone. Moved from RH to Glenelg. Both plans (AAC and the FSP) give me this, so both are fine by me!	equal to	9	7	6	I'm in block 1183 and would like to be in the Glenelg HS zone. The both proposed plans moved from our neighborhood from RH to Glenelg - which is gerat. Both plans (AAC and the FSP) are fine by me!		Please let block 1183 be assigned to Glenelg High school (currently each plan does that). Thank you!
39		PatapscoMS	MtHebronHS	1	better than	4	6	7		equal to	6	7	2			
40	LaurelWoodsES	MurrayHillMS	ReservoirHS	3	equal to	13	6	7		better than	7	3	8			
41		MurrayHillMS		5	equal to	8	5	10		better than	8	5	9	This plan does a far better job without as much disruption. While the total number of students affected isn't as obvious, yet, this plan seems much better		
42	StJohnsLaneES	PatapscoMS	MtHebronHS	1	equal to	7			Polygons 159 and 1159 are HALF of the Valley Mede community. This HISTORIC community will be effectively torn in half and destroyed by this plan. Keep 1159 and 159 with their COMMUNITY.	equal to	7			I'm an established real estate agent in the community and happy to discuss with anyone the Valley Mede community of Ellicott City. - Jennifer Meckes, Long & Foster Real Estate, (410) 715-2748.		Please take a hard look at polygons 159 and 1159 they should remain with their community of Valley Mede as it has been since the 1950s. Mount Hebron High School is the central focus of this community and has been for half a century.
43	WestFriendshipES			1	better than	7	6	4	It doenst make sense to move students that are super close to their schools and break up established communities and neighborhoods in Western HC when the crowding more of an issue in Columbia. Build another school rather than push students around.	equal to	7	6	4	There does not seem to be a change that would effect me between the two.		We moved to this area for specific schools and it is not fair to move us based on over crowding in other areas. The issues should be fixed at location of the overcrowding not by effecting the whole county.
44		LimeKilnMS		1	better than	7	6			better than	6	7				
45	ThunderHillES	DunlogginMS	WildeLakeHS	5	better than	4	6	7	We are in Ellicott city and Dunloggin MS and Howard HS is only within 3-4 miles radius. The proposee plan will make traveling time for kids atleast 15 minutes. We bought the house based on school locations.	better than	4	6	9			We need to keep the current school plan as is as they meet our needs of distance, diversity.

46	FultonES			1	better than	4	7	13	What new information has the AAC based their decision on to move polygon 2112 to PRES from FES? The feasibility study stated that there was not enough information to make any decisions regarding moving students from FES. You caved to Maple Lawn.	better than	4	7	13	You caved to people complaining from Maple Lawn. How does this jive with your previous statements that a single school shouldn't be made up of just one neighborhood- Maple Lawn. Why wasn't polygon 159 also sent to PRES as discussed.	If my neighborhood complains loud enough we will get our way? Has the AAC modeled the new building permits in Maple Lawn South? What are those numbers? Why isn't any of Maple Lawn being moved as discussed last night?
47	PointersRunES			1	better than	4	6	7	This proposal is far inferior to the proposal from the feasibility study. I am in Polygon 120 and we are literally at the doorstep of Clarksville Middle school but districted to lkms.	better than	4	7	6	Students will be bussed in from the north side of 108 which will create a traffic nightmare on an already congested road.	There should also be a consideration for those kids who require before or after care not just those who are bussed in. Travel time should not be > 10 minutes greater than the closest school. That just does not make sense.
48	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for maintaining Frederick Road as a logical boundary line.	better than	7			Thank you for keeping the Gray Rock community together and maintaining a logical boundary.	
49		BurleighManorMS	CentennialHS	4		10	12		Happy to see the overcrowding at Centennial Lane Elem and Centennial HS addressed.	better than	12	10		Happy to see the overcrowding at Centennial Elem addressed.	
50	WaverlyES	PatapscoMS	MtHebronHS	2	better than	8	13		My neighborhood is switching schools again as it did in 2013. This time middle and HS changing. Same kids affected again. We live right by Mt. Hebron and being forced miles west where walking home will not be an option....	equal to	13			There was no change to our polygon 160. Still being shifted to Mt. View and Marriottsridge. Makes zero sense when we can walk to Mt. Hebron. HS students who have started at a HS should be allowed to finish there.	We moved here in 2012 from Ohio. Our neighborhood was switched to Waverly Elem in 2013, 5 years later now being moved to Mt. View and Marriottsridge. Zero stability for my kids who seem to get ping ponged around, also hard to have a sense of community!
51	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	7	6	12		equal to	11	14	14		
52	NorthfieldES	DunlogginMS	WildeLakeHS		worse than	4	7	6		better than	4	6	7		
53	CentennialLaneES			1	better than	4			Polygon 147 moving out from Centennial and to Wilde Lake is not feasible both from transportation perspective and county's goal of moving the school district towards west. Plus the newly built community has Centennial High school district priced in.	better than					
54		FollyQuarterMS	RiverHillHS	2	worse than	7	6	1		better than	2	7	1		I am glad for my children to be re-assigned from RHHS to Glenelg, as we live just over rt 32 and we are part of the glenelg community, not clarksville. It has been hard to watch the kids gets separated 25% vs 75%.
55	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	7	Moving kids with good academic scores and attending highly ranked schools to lower ranked schools will impact ratings for current schools and cause lot of discrepancies in new schools. Real estate prices will drip & so will tax collections	better than	13	9	7	Plan does not do justice to students with good academic background	Plan will cause catastrophic impact on real estate prices and county tax collections apart from impacting students's academics.
56	StJohnsLaneES	PatapscoMS	MtHebronHS		better than	13	4	7		equal to	13	4	7	Neither plan fixes the root of the problem which is over development in the eastern portion of Howard County and lack of more affordable housing in the western part of the county,. The county needs to fix the planning problem and stop this nonsense.	The plans will result in neighborhoods being divided, longer bus rides, teens driving further,&no certainty for residents. My daughter has called Patapsco&Mt. Hebron her schools since before she started school. She will be so upset to find they may not be
57	WestFriendshipES			1	better than	13			Over crowding West Friendship, too much money, friends leaving						
58	BryantWoodsES	WildeLakeMS		1	better than	7									My child will be in her final year of elementary school a change at this time seems, unreasonable as she will have another big change the year after. The change could be OK if there are exceptions made for children in this scenario.
59	HammondES			5	worse than	7	8	1	I feel that developers should have to work more closely with the county to be sure schools are not going over capacity. It's NOT fair to kids to have to fear reassignments and losing their friends. It's not fair to parents to buy houses that may or may						
60	WaterlooES	EllicottMillsMS		4	equal to	2	3			equal to	2	3			
61	WestFriendshipES	MountViewMS	MarriottsRidgeHS		better than	4	7	13	I have two special needs children. When I move to this area I did it because of how close we would be to the schools in which my children would be attending. Having to change their teachers and there bus rides being almost a double of what they are now.	better than	4	7	13	The plan puts us in a much bigger area. I can see in the future as being moved again because of our location. There is only a few family on this side of 32 that will be moving to the new schools. All three of the schools will be a new move for my children	I have children in elementary school middle school and high school and will for multiple years. I also have two children with disabilities. You are creating longer bus rides breaking up our community and causing A disruption for my disabled children.

62	FultonES				worse than	14				better than	6			It is disappointing that Howard County Education Board members were unable to anticipate the needs of a growing, HIGH tax paying community that has existed for over 10 years, i.e. Maple Lawn. I would really have to question their competence.	My husband and I work full time and have not had time to delve into the AAC draft plan" and the "Feasibility Study." Having said that we understand that the Maple Lawn community is being broken up. We moved to this community for community benefits."
63	RockburnES	ElkridgeLandingMS	HowardHS	4	equal to	6				better than	6				
64		HammondMS	HammondHS	1	better than	4	6	7	My highschoolers currently attend Hammond High, which is 0.8 miles away from our house (polygon #2057). The first AAC draft had us move to Atholton, 2.7 miles away. The current plan has us move to Wilde Lake, 5 miles away!!!!!! That is non sense!!!	better than	4	6	7		I don't understand how moving kids from their current school (the closest to their house), past another school to a 3rd school is in any way efficient or logical!!! More time in the bus, more disconnect from their community. It's ridiculous!
65	VeteransES				better than	7	9	8	The AAC draft plan will split our community between two schools. It would also prohibit my daughters from walking to school like they do now.	equal to	7	8	13	Both proposed plans remove our daughters from their neighborhood school and would prohibit them from walking to school as they do now.	
66			CentennialHS	1	better than	13			You can transfer students from a school like Centennial to Wilde Lake. It is not the same caliber of school and has many issues that don't exist at Centennial. I purchased my home so that my child could attend a school with centennials reputation.						
67	TalbottSpringsES			1	better than	9	2	4	As my child attends Talbott Springs Elementary I am very worried that the proposed draft will result in a significant loss of single family homes in our current district and result in a school composed of all section 8 housing and title 1 families.	better than	5	9	2		
68			AtholtonHS	5	equal to	9	1	6	Less disruptive to school communities than the other plan	better than	6	1	7		
69	NorthfieldES			5	equal to	14	14	14		better than	9	7	4	This plan makes much more sense for our polygon 148	
70	HammondES	HammondMS	AtholtonHS	4	worse than	7			It groups students better than the current attendance areas.	better than	10	1	6	The AAC draft provides relief all the while moving less students than the proposed Feasibility plan.	
71	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	better than	13	9	7	Gleneg high does not have a lot of diversity. The street right next to us goes to river hill, our kids have friends and growing up together with the neighbors. We do not support this change! rezone map will make more sense to include pasture green in RHHS						
72	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	7	4	13	My students live within 3 miles of Mount View and Marriotts Ridge, it makes no sense financially, environmentally, or social/emotionally to remove them from their community and send them to a school that is 8 miles away!	better than	7	4	13	My students live within 3 miles of Mount View and Marriotts Ridge, it makes no sense financially, environmentally, or social/emotionally to remove them from their community and send them to a school that is 8 miles away!	Please consider those of us east of 32 in polygon 229/2229 will feel removed from a community we participate in everyday. We live 3 miles away from our current HS and MS. Save money on transportation, be green, be kind, please leave us where we are!!!
73	BellowsSpringES				equal to	7	8	9	It keeps most communities together which is very important	better than	7	8	9	I think is shows a better solution taking on account communities and families as much and efficiency. The Feasibility Study was like a bad draft that didn't take in account the importance of our families and communities.	Please don't break apart communities with the Feasibility Study, the ACC is much better thought out.
74			ReservoirHS	3	equal to	12				equal to	11				
75			AtholtonHS	5	equal to	11			I had previously seen the proposal which changed our elementary (from PRES to CES) and high school (from AHS to RHHS).My son will be a senior in 2018-19 and could finish at AHS.I am concerned about AHS though.The dynamics would completely differ if change	better than	11			The feasability plan effects AHS tremendously. About 40% of students would be moved out. Many of the clubs and extracurriculars would be interrupted, ie band/orchestra/theater, robotics. I like the AAC plan better for the sake of AHS.	My son will be able to stay at AHS either way, but not sure if all of his friends will stay. For a property value standpoint, it would benefit me to have a redistricting to RHHS though. For the sake of AHS I like the AAC draft plan.
76				1	better than	13	9		Giving in to a small group of people that complain. What about all the others? Sad.	better than					
77	VeteransES			2	better than	7	6	4	The HCPSS plan broke off a single polygon/piece (101) of our contiguous, geographically defined neighborhood (Stonecrest/Brittany). This plan from the AAC sends ANOTHER polygon to Worthington (1101). 101, 2101, and 3101 should be zoned for the same school	better than	6	7	4	1101, 2101, and 3101 should be zoned together for the same schools. Neither plan keeps them together.	
78	ManorWoodsES			4	equal to	6	7	14		better than	6	7	14	Moving us from mwes to tres allows my kids to feed to fqms knowing more people. Rhhs has many kids feed from fqms I assume	
79			GlenelgHS	5	equal to	6	7	12		equal to	6	12			

80	WorthingtonES	ElllicottMillsMS		5	worse than	6	7	2		better than	7	6	2	This alternative plan is so much better than the feasibility study. Please recommend this plan - the feasibility study does a disservice to our children. Keep contiguous neighborhoods together and avoid creating small feeds from school to school.	We understand the task at hand is not easy, but keeping contiguous neighborhoods together and keeping students together from one school to the next should always be a priority. Otherwise we are doing a disservice to the children.
81	RockburnES	ElkridgeLandingMS		4	worse than	6	7	8		better than	6				
82			HowardHS	5	equal to	7	6	8		better than	6	7	8	Keeping the feeds & communities together is huge, and not reassigning them midway through High School is a major +++	Thank you for keeping our polygons together (87, 2087 & 3087). Your hard work and dedication of your time is greatly appreciated!!
83			CentennialHS	4		7	12	4	Like plan because it does not impact high school boundaries as it will in a few years.	better than	7				I like that the committee left the high school boundaries alone given they will need to do this in a few year anyway. The Worthington/Veterans line seems reasonable as most of us were at Worthington before Veteran's opened.
84	DeepRunES			4	worse than	6	9	1	Makes much more sense in Elkridge. Keeps enrollment at more even levels throughout, as opposed to low enrollment at a couple schools and near capacity at others.	better than	1	7	8	The feasibility study was awful for the students at DRES. The school was split up dramatically, leaving the school with low enrollment and would've raised the percentage of students below poverty line by removing most of the higher income neighborhoods.	
85	DeepRunES			1	better than	4	13		The AAC draft plan would switch my kids from Long Reach HS to Oakland Mills HS. We live in Polygon 80. It would require driving almost twice as far, on busier, more dangerous roads.	better than	4	13		The Feasibility Study would have switched my kids to Bellow Springs ES from Deep Run ES, which would have been fine because both are roughly equi-distant from us. They propose the same switch for HS from Long Reach to Oakland Mills.	
86			GlenelgHS	4	worse than	1				equal to	1				
87	IlchesterES	BonnieBranchMS	HowardHS	4	equal to	14	14	14		better than	6	7	8		
88	ForestRidgeES			1	better than	7	14	14		better than	7				
89	WorthingtonES	EllicottMillsMS	MtHebronHS	5		7	6	8	Thank you for keeping Worthington intact. Polygons 2093-3093-4093 are an integral part of our contiguous community and should not be separated from polygons 309, 1309, 93, 1093.	better than	7	6	8	This makes more sense. The feasibility study moved polygons 2093-3093-4093 eastward, setting us up for more reassignments and moving more students in total, as well as fracturing our contiguous community. Thank you for keeping our contiguous community.	It was smart to move 1067 and 67 to Oakland Mills from EMMS. They are across 100 and it reduces a small feed, rather than removing 2093-3093-4093 from EMMS and creating a small feed and braking a contiguous community like the Feasibility Study did.
90	StJohnsLaneES			1	better than	7	4		We chose to live in the Valley Mede neighborhood because it is a well defined neighborhood (bordered by St. John's Ln, Bethany Ln and Route 40). We do not want to see the neighborhood divided between schools.	equal to	7	4		Our neighborhood is divided in both plans.	Please consider options which would allow our neighborhood's children to remain in schools (St. Johns Lane Elementary and Mt. Hebron High School) in their immediate neighborhoods. Please consider a plan which would keep Valley Mede's students together.
91	StJohnsLaneES			4	equal to	12	1								
92	WestFriendshipES			1	better than	4	1	2	My current attendance areas are what makes most sense for polygon 1229.	better than	4	3	6	The draft plan is worse that the current attendance areas. At least before polygon 1229 was going back to Mt. View and mrhs. Now we are slated to glenwood and glenelg which is way further. This is completely inconsiderate of time and commute for our kids	This draft plan is completely ridiculous. I am polygon 1229 which currently attends wfes and is slated to attend bpes with the new plan. with the draft plab they will be sending us to glenwood and glenelg too instead of mvms and Mrhs.we can walk to Mrhs.
93	ThunderHillES	EllicottMillsMS	HowardHS	2	better than	9	14	14	A lot of kids wanting to go to Ellicott Mills will now have to go to Bonnie branch. Ellicott Mills is a more diverse and better ranked school .						
94	CradlerockES	LakeElkhornMS	OaklandMillsHS	2	better than	4	9		Thank you for listening to many concerns. I still don't understand moving the Lake Elkhorn kids from OMHS to WL, they can walk / ride from OM home, why ship them so far away? Please keep our kids close so they can participate in after school activities	better than	7	6		Thanks again for addressing many of the issues. I am glad to see much less of an impact on a large number of students. I still don't think SFES can accept buses though, it would cost ALOT of money!!	Please keep Cradlerock kids together and, if possible, please let them go to OM, there are so many great opportunities there and it's only 1.4 miles away!!
95	CentennialLaneES			4	equal to	7			Avoids major redistrictung and keeps core communities together as they progress through school system	equal to					
96		ElkridgeLandingMS	HowardHS	1	better than	14	14	14		better than	14	14	11		
97	PointersRunES	ClarksvilleMS		4	equal to	7	1			better than	10	7			
98	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	7	13	14	The first plan was at least considerate of the communities. Under this new plan children who are literally across the street are in different schools. My home values will go down because you are now feeding into apartment based schools. 1st plan please	better than	4	13	1	swansfield is overcrowded as it is and my home cost does not fit the new proposed school plan. you are moving my child from a 10/10 school to 6/10 school and that affects my house values	This amended plan is worse than the first plan. it does not account for current home values in the higher rated school areas, overcrowding of swansfield and keeping communities together. Polygon 66 is a 10/10 for ES 7/10 HS 9/10 to 6/10, 7/10, 10/10.
99	NorthfieldES	DunlogginMS	WildeLakeHS	1	better than	13				better than	4	4			
100	WorthingtonES			5	equal to	7	6		I approve of keeping the AAC draft plan for polygons 2093-3093-4093.	better than	7	6		I approve of keeping the AAC draft plan for polygons 2093-3093-4093.	

101	WorthingtonES	ElliottMillsMS	MtHebronHS	5	worse than	7	6		I live in polygon 2093. The aug 8 aac draft plan makes no change to our school assignments and maintains our contiguous community, which I approve of.	better than	7	6		I live in polygon 2093 in the Worthington neighborhood. The original plan separates us from our community and sent my street to Bonnie branch middle and Howard high. I am very happy that this plan keeps our contiguous neighborhood intact.	
102		ElliottMillsMS	MtHebronHS	5	worse than	2				better than	6	7	2	This plan is a great improvement! Please continue to keep polygons 2093-3093-4093 together with the rest of the Worthington Community!	
103	PointersRunES	ClarksvilleMS	RiverHillHS	2	equal to	6	9	7	Good - students from MRHS/WLHS to RHHS provide more diversity some WLHS closer to RHHS. Bad - Please keep all River Hill neighborhood together from CMS to RHHS as a true feeder from PRES and CES Bad - we're close to CES/PRES, why send to DOES? Keep feed!	better than	6	7	9	Good - students from MRHS/WLHS to RHHS provide more diversity some WLHS closer to RHHS. Bad - Please keep all River Hill neighborhood together from CMS to RHHS as a true feeder from PRES and CES Bad - we're close to CES/PRES, why send to DOES? Keep feed!	Keep all of the River Hill neighborhood together at 1 school rather than splitting them up after CMS into RHHS and AHS. Keep a true feed with CES/PRES - CMS - RHHS. Addition of more diversity to RHHS is good.
104	HammondES	HammondMS	ReservoirHS	4	equal to	11	14	1							
105	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	6	2	The AAC draft is obviously proposed with bias. 147 is close to all three schools it is currently assigned to. There are other polygens further than 147 in same school district. Over development should not be the reason that 147 will be redistricted.	better than	7	4	1		
106	WorthingtonES	ElliottMillsMS	MtHebronHS	5	worse than	7	1	10	Capacity issues at middle and high schools relieved by utilizing capacity in the west.	better than	7	10	6	The AAC draft plan appears to satisfy Policy 6010 objectives while impacting less students/schools/polygons than the 2017FS Plan.	Thank you to the AAC committee on their efforts in what is a very complex and constrained multi-objective optimization problem.
107	CentennialLaneES				better than	1	4	6		better than	4	1	5		
108			OaklandMillsHS	1	better than	4	4	4	The plan takes walkers even further away. The first plan was 5 miles the second plan is 8 miles. Why are walkers who are 1 mile from school being moved so far. It makes no sense. I see increased bussing costs associated with these plans.	better than	4	4	3	Please keep all children who are 1 mile from th closest school in that schools district.	Please allow exceptions for 504 or IEP children to stay within the closest school district to their home.
109			HowardHS			13	9	14	You are still forcing kids to switch schools in high school when they should be focusing on testing, college applications and athletics. New high school proposed in about 5-7 years will cause chaos all over again.	equal to	13	14	14	Will still force me to move to keep my child in same high school	Emphasis needs to be put on high schoolers and the effects on switching schools.
110	BushyParkES			2	better than	4	7	13	We live the n Tall Ships Dr. The current bus route mostly includes kids on Danmark and New Rover that are districted to Folly Quarter. For efficiency of bussing, it would make more sense to keep Tall Ships with the Folly crew.	equal to	13				
111		WildeLakeMS		2	worse than	9				better than	4				
112	ThunderHillES	DunloggingMS	WildeLakeHS	1	better than	4	1	3	Safety is very important. The current plan takes polygon 111 south. The new courthouse is going in on Bendix Rd and is going to greatly increase traffic. Please consider taking our polygon north out Meadowbrook(Worthington and Waterloo are under capacity	better than	4	1	3	Polygon 111 participates in activities in Ellicott City. Polygons 65, 1065 and 2065 are located within walking distance to Thunderhill. Pls consider keeping them with the Oakland Mills feed and moving polygon 111 to the Northeastern feed to keep community	I live in polygon 111 (north of 108). The proposed changes send our students to OMMS and OMHS. This requires crossing 108 and 175. I'm very concerned about the safety of our students and time spent on a bus. Polygons 65, 1065 and 2065 are south of 108
113	RockburnES	ThomasViaductMS	HammondHS	2	better than	6	13		This plan directly effects my middle schooler who currently attends TVMS. He had to leave all of his friends when he went from RES to TVMS. W/O redistricting, he would leave all friends again, AAC again splits him from current friends. Planning Area 32.	better than	6	13		The feasibility study appeared to send our planning area to ES, MS and HS with children that would have been together from ES on. The AAC draft again separates MS friends when going to HS. Planning Polygon 32.	Very few planning polygons that attend TVMS currently go to Hammond. The only plan that took these kids into consideration for going into high school with friends was the feasibility study. It would be nice if TVMS could be more evenly distributed to HS
114	PointersRunES	ClarksvilleMS	AtholtonHS		equal to	11			Both AAC draft and Current school plans are undesireable as they split communities and neighborhoods and split students apart.	better than	4	7	6	Polygons 129, 1064, and 1129 are part of a cohesive River Hill" community that also includes 295 1188 and 188. The Current plan and AAC draft split them apart. RHHS is also easily reached in this community but Atholton requires circuitous routes."	We found the Feasibility Study Plan was far superior for polygon 129 versus both the AAC draft and current school attendance areas.
115	PointersRunES			2	equal to	1				better than	1	7	6		
116	LongfellowES			5	worse than	1	6	3		better than	7	6			I am happy with the move to Clarksville ES and River Hill HS. Overall it looks like the AAC addresses a lot of concerns I have heard from stakeholders.
117	RockburnES			5	equal to	6	7	9	Please keep this plan! Polygon 3087 to HS!!	better than	6	7	9	The redistricting possibility to Long Reach was quite stressful. I am hoping we can keep Polygon 3087 at HS.....	
118	DuckettsLaneES			1	better than	13				better than	13				

119					better than	6	9	13	We bought our house on the schools. Now we are being redistricted from one of the highest achieving middle schools- Hammond to the lowest - lake Elkhorn. Very high poverty rate, and skewed demographics. We will move-worsening the problem.							We will not go to a high poverty school. We will go to a school with a diversity of incomes/races. If you cannot use the tools at your disposal to fix,Lake Elkhorn will go from 50% free and reduced lunch to 80% because the neighborhood will moveFIX IT.
120		ElkridgeLandingMS		5	equal to	7	1	9	The boundaries on the feasibility plan appears poorly thought out; curved lines that appear to change homes on one block in a neighborhood while leaving the next contiguous block undisturbed then curving around to change the next block.	better than	1	6	13	I'm for the AAC and against the Feasibility Study. This constant redistricting is a problem that solves no problems at all.	
121			HowardHS	1	better than	7	8	13		better than	7	8	6	Moving kids out of a school to move kids into the same school is not a solution to population concerns. It makes no.sense to move so many students throughout the district.	
122	ElkridgeES	ElkridgeLandingMS		5	equal to	11	7				14				
123	PhelpsLuckES			1	equal to	13	9								
124	PhelpsLuckES			3	equal to	11									
125	ThunderHillES	DunlogginMS	WildeLakeHS	1	better than					better than					
126	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	4	7		better than	6	4	7	We are in 1190. Distance wise way closer to RHH than Althton. The kids my son go to school in elementary and middle school will mostly go to RHH. He was asking why he has to be separated from his friends, just because they live less than 2 minutes away	Has any analysis been done in the new proposal as done with the original proposal. I didn't see any details as in the original proposal. Just the map. It's hard to justify that it's a better plan without detailed analysis.
127	IlchesterES	BonnieBranchMS	HowardHS	4	worse than	7	6	1	This plan keeps the Glenmar Triangle at the closest schools to the neighborhood. The children remain in school with a cohort from primary school through high school. Our neighborhood will not be split from our community.	better than	7	6	1	This plan does a better job at keeping communities in tact. It also lays the goundwork for future redistributing when a new high school is built.	This plan is better than the feasibility study plan.
128		MountViewMS	MarriottsRidgeHS	4	worse than	6	11		For the Waverly/MtView/Marriotts Ridge areas, it does a better job of keeping students who were moved from St. John's a few years ago together. Now they continue with most Waverly kids to Mt View & MRHS.	better than	6	11		For the Waverly/MtView/Marriotts Ridge areas, it does a better job of keeping students who were moved from St. John's a few years ago together. Now they continue with most Waverly kids to Mt View & MRHS.	Good luck! This is a difficult process and I am surprised it's happening the same year we try for later start times!
129	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	7	6	Polygon 97 needs to be redistricted instead of 147 if current schools are overcrowded for better utilization	better than	13	6	9		polygon 97 is not contagious to current schools assignment and ideal candidate for redistrict for better utilization and logistics purposes
130	PointersRunES	ClarksvilleMS	AtholtonHS	4	equal to	12	6	10		equal to	6	7			
131	GormanCrossingES			1	better than	9	2	4	We paid $200k more for our house that was districted to Atholton than a nearly identical house districted for Hammond. We chose where to buy for a reason. The schools are NOT comparable.	equal to	14				
132			CentennialHS	5	worse than	7	6		Keeps Frederick Road as a boundary line for polygons 1184 and 153 and keeps neighborhoods together.	better than	7	6			Thank you for not dividing polygons 1184 and 153 from their neighborhoods.
133	WaverlyES	MountViewMS	MarriottsRidgeHS	1	worse than	6	1	7		better than	1				
134			HowardHS	4	worse than	6	1	3	I wish the county would just do one big redistricting effort and get it over with - move students west to utilize existing space and make the feeds make sense once and for all. We have a very small feed from MS to HS and this is addressed.	better than	1	3	6		
135			HowardHS	5	equal to	6	7	8		better than	6	7	8	It is extremely important to our community that our students be kept together from one school to the next (Rockburn - -> ELMS - -> Howard H.S.) and not moved during their high school years.	The entire Lyndwood community (polygons 87, 2087 and 3087) are extremely thankful for all of the time and hard work the AAC has put in to this overwhelming task. We can't thank you enough!!!
136	GuilfordES			4	worse than	1	4	6		better than					
137	WaverlyES			1	better than	8	13	5	It is disruptive to move some kids from St Johns Ln to Waverly and move others from Waverly to St Johns Ln						
138	CradlerockES	LakeElkhornMS	OaklandMillsHS	4	equal to	4	7	9	It does not create any drastic changes (only high school) from the current attendance area for my children.	better than	4	6	7	I think this AAC draft plan does a better job of keeping neighborhood schools together vs the original proposed redistricting. My elementary and middle school children will still be walkers and the bus route for my high schooler would not be overly long.	I vastly prefer this new draft proposal over the feasibility study.

139	JeffersHillES	LakeElkhornMS	OaklandMillsHS	1	better than	9	9	13	The current plan sustains current status quo by especially grouping students of color disproportionately in one school. (school segregation)	better than	6	6		The plan sustains current status quo by especially grouping students of color disproportionately in one school. (school segregation)	My concern is the children in our neighborhood are bussed to a MS school not in our immediate community. This leaves many people who live on Carriage House Lane. Our children are impacted in various ways. (I.e. lack of participation in after school activi
140	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	3	7	Concerned that you are moving large areas of people who are very close to their existing schools west with little to no regard about the transportation impact. Also, if polygons 304, 1304, & 1305 moved to BPES the $4M sewer project wouldn't be needed	better than	4	2	7	Feasibility study only moved polygons 224, 229, 231,232, 1229, 1231, and 2229 for elementary. This plan moves them at all 3 levels. Community would be ok with a small feed from ES to MS b/c they prefer to be back at MVMS & MRHS because so much closer	
141			AtholtonHS	1	better than				2018 rising juniors, like seniors, need to be given the opportunity to stay where they are because a move for them will be terribly detrimental to their college applications and teacher/coach/guidance recommendations. Colleges will treat them differently.	better than				Juniors, like seniors, need to be given the opportunity to be grandfathered. Their college applications are at stake. Recommendations from teachers, coaches, guidance will be affected. Colleges will treat their applications differently.	Some College applications are due on Nov 1, this does not allow redistricted juniors time to put together a great applications. New teachers, guidance counselors, coaches will not be able to write quality recommendations. Their app will be disadvantaged.
142	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	1	3	4	The AAC proposed senario on poly 147 and CLES, BMMS, and CHS doesn't make sense according to the current guideline of redistricting. Since MRHS is under-capacity, polygens close to MRHS should be redistricted instead of moving 147.	better than	3	4	8	The proposed AAC plan doesn't make sense based on Policy 6010. It only includes whatever appearing in the survey most and made changes based on it.	
143	RockburnES	BonnieBranchMS	HowardHS	4	worse than				Poly 91 I fine with either moving us to Ilchester ES or Elkridge Landing MS. The small feed from Rockburn to Bonnie Branch has to change!	better than					
144			ReservoirHS	2	worse than	1	12	12	It is hard to gauge the impact of the AAC draft plan without any numbers regarding how many students move to and from each school, and no FARMS estimates for the new plan	better than	7	9		Again, no numbers have been provided, but looking at the plan, the proposed Fulton ES attendance area is really ridiculous. In addition, the movement of western students out of Reservoir HS will increase the RHS FARMS percentage by a significant amount.	In the lower portion of the county, the AAC draft has exchanged affecting AHS with affecting RHS. The AAC draft leaves AHS largely intact. While I understand that the Feasibility Study affected AHS overwhelmingly, AAC draft leaves it entirely untouched.
145	WaverlyES			2	better than	6			Several of my kids' friends were moved into our school and now they're being moved back out. But they are moving an equivalent number of kids from someplace else into the school instead.	better than	7			How is it ok to be at 110% capacity, anyway? If you're out of room, you're out of room. The most you should aim for is 100%. And you need to count all the RECC kids. Oy.	
146			RiverHillHS	1	better than	2	4	3	I am against any plan that proposes to move high school students when a new high school is only two years away and students will have to be redistributed again. I would prefer to wait until the new school is built to do a one time redistribution	equal to	1	2	4	I am against any plan that proposes to move high school students when a new high school is only two years away and students will have to be redistributed again. I would prefer to wait until the new school is built to do a one time redistribution	
147		BonnieBranchMS	HowardHS	4	equal to	2	1			better than	6	7			The division of the Dunloggin neighborhood does not seem logical. The line between the Centennial and Wilde Lake polygons is not a natural dividing line and splits a cohesive neighborhood into two completely different feeds.
148	WorthingtonES			5	equal to	6	7			better than	7	6		This draft accomplishes what I've voiced-in keeping my neighborhood together and maintaining the 100% feeds from ES to MS to HS.	
149	CentennialLaneES			5	equal to	14									
150	PointersRunES	ClarksvilleMS	AtholtonHS	4	equal to	7				better than	7			This is a much better plan.	
151	RockburnES	ElkridgeLandingMS		5	equal to	14	14	14		better than	6	7			
152	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	7	4	6		better than	4	6	7		
153			AtholtonHS	5		14				better than	14				I bought my home this spring specifically so that my son would attend Atholton High School. I was disappointed to see the feasibility study released indicating he would change schools after his 1 year. New plan keeps him at atholton.
154	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	better than	2	4	13	This won't change the crowedness in Wildlake MS in the long-run.	better than	2	1	3	Wildlake MS is too crowded and too far from us. Clarksville MS is much closer and less crowded, it would much better education environment for our kids in Clarksville MS. Feasibility study fits our need much better than ACC draft plan.	
155		LimeKilnMS	RiverHillHS	3	equal to	11				equal to	11				
156	TalbottSpringsES			1	better than	9	2	13	This plan still moves my entire neighborhood out of Talbott Springs without balancing the socioeconomic and racial disparity that this move will cause. Significantly slanting the FARMS rate and percentage of minority students at TSES is WRONG!!!!	equal to	9	2	12	The result of the AAC draft and the original Feasibility Study is the same for TSES and SFES.	The balance of socioeconomic factors in all of our school communities was at the heart of the design of Columbia. It is morally wrong to create one elementary with 90%+ minority students.

157			LongReachHS	2	equal to	14				better than	1	9	6			
158	HammondES	HammondMS	HammondHS	3	equal to	12	4			better than	2			I like that this plan does not move students who will most likely end up at HS13 and is keeping walkers in their school.	It moves a neighborhood in south east Columbis, in Kings Contrivance and moving to to WL. That is a bit of a hike when 2 high schools are minutes away. Withour traffic, its a 15-20 minute drive.
159			MtHebronHS	5	equal to	4	7	6		better than	4	7	6		Please keep Valleymede together!
160	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	better than	4		2	Gleneg school is too far for us, staying in RHHS makes more sense for our kids! Kindly consider NOT re-zoning Pasture Green street or court!						
161	TalbottSpringsES			1	better than	9	8		Wether deliberate or not, proposed plan will split SF and TSES into socioeconomically and racial segregation. Bad, bad plan. Leave our tses community in tact.	equal to					
162	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	equal to	6	7	1	This draft plan keeps us in the same elementary, middle and HS we were expected to attend pre proposal.	better than	6	7	12	This puts me back to current school attendance areas. I'm very pleased that many of the friends that would have had to redistrict would stay with us if the draft plan is used.	builders that are continually allowed to build in the area should be footing the bill for many of the new schools needed. I don't pay high taxes to live in the HC area so that my kid can go to an over populated school. TRAILERS are not learning cottages
163	WaterlooES	EllicottMillsMS	CentennialHS	4	equal to	6	7	4		equal to	6	7	4		
164		FollyQuarterMS	RiverHillHS	5	equal to	11	11	11	The AAC draft plan is equal to current plan and prefered.	better than	11	4	7	The feasibility study would put my rising senior at River Hill HS and my rising freshman at Glenelg HS The AAC plan is preferred	
165		ElkridgeLandingMS	HowardHS	5	worse than	8	6		Howard high school is overcrowded. The current draft addresses this while keeping Polygons 86 & 1086 at Howard. We were already redistricted in 2014 and should not be considered for redistricting per policy 6010. This draft fixes that problem.	better than	8	6		Regarding Howard hs, this draft moves Polygons to Long Reach that boarder current Long Reach Polygons. Further 86 & 1086 were already redistricted in 2014 and this draft fixes that situation by keeping them at Howard. It makes sense per policy 6010	
166	ManorWoodsES			2	better than	2	14	14		better than	2	14	14		
167			HowardHS	4	equal to	7	6	4		better than	7	6	4		
168	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	7	13	5		better than	7	13		based on the higher home value amounts in this area the feasibility study improved the quality of the schools were as the AAC draft plan moves my kids to a lesser quality and overcrowded schools.	Moving from Clements ES to Swansfield ES is totally unacceptable. The original proposal from Harpers MS to WildeLake MS was a welcomed improvement based on the quality of the education in addition to potential home value increases due to the change.
169			MtHebronHS	1	better than	6	4	7	In this plan the children in my neighborhood who attend Mt. Hebron, and are walkers to the school, will be bussed two zip codes away from Ellicott City to Marriottsville. In addition it divides our neighborhood.						This plan isolates a relatively small number of students from the Mt. Hebron neighborhood. North Farm Park creates a natural boundary to the next neighborhood west on Rt. 99. The neighborhoods to the east of North Farm Park should remain at Mt. Hebron.
170	DeepRunES	MayfieldWoodsMS	LongReachHS	1	better than	13	6	4	This plan will separate classmates that have been together since Elementary School which impacts keeping students together. Oakland Mills HS is much further than the close by Long Reach HS. Please keep Mayfield Ave. at Long Reach HS.	equal to	13	4	6	Both plans does not consider keeping students together from one school to the next and both have transportation issues. Please keep Mayfield Ave. at Long Reach HS.	
171	FultonES			1	better than	2			Why are you caving to Maple Lawn. Other HoCo communities are split. At least consider a 5th grade waiver for 2018.	better than					
172	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for using Frederick Road as logical boundary.	better than	7			Thank you for keeping our community together and using Frederick Road as logical boundary.	
173			HammondHS		equal to	11	14	14		better than	6	11	14		
174			LongReachHS	5	equal to	1	6	7	Please help the kids at LRHS AND HOWARD. Hundreds of kids will be trampled to death if a fire broke out.	equal to	1	6	8	Everyone can't be happy. All county schools are good. People are being racist.	Please give ELKRIDGE a school so this stops happening.
175	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	6	7	This draft is terrible. The division of old annapolis road for Centennial lane is a mistake. Some of the closest neighborhoods to the school woild be moved to a further school of longfellow.	better than	13	6	7	This draft is terrible. The division of old annapolis road for Centennial lane is a mistake. Some of the closest neighborhoods to the school would be moved to a further school of longfellow	the feasibilty study is much more fair to current students in close proximity to the school which they currently attend.
176	NorthfieldES	DunlogginMS	WildeLakeHS	5	worse than	7	6	4		better than	6	4	7		
177			OaklandMillsHS	1	better than	9	7		OMHS, which has the highest percentage of students receiving free and reduced meals among all Howard County High Schools, would see that percentage increase.						Include members from the Oakland Mills community on this panel.
178			CentennialHS	1	better than	6	3	11		better than	3	1	2		
179	ClarksvilleES	ClarksvilleMS	RiverHillHS	2	better than	7	6		AAC draft plan appears to break up more neighborhoods versus the current school attendance areas.	better than	7	6		Feasibility study better combines the Village of River Hill, which is currently divided between Pointers Run ES / Clarksville ES and Atholton HS / River Hill HS.	

180	NorthfieldES			4	equal to	6	7	4		better than	6	7	7		
181	VeteransES	EllicottMillsMS	CentennialHS		better than	7	6	14		better than				Our neighborhood, directly behind veterans, would now go to worthington while students from hollifoeld would be moved in. This makes no sense to break these kids up.	
182	ManorWoodsES	BurleighManorMS	CentennialHS		better than	3	4	6	Keep polygons 214,	better than	6	7	13	Kee polygons 214 at CHS since BMMS is the feeder school for chs	
183	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	worse than	7	9	10	They are both good	better than	8	10	7	It is infinitely better. The first plan was absolutely horrible, as it would have completely destroyed Atholton High School's school community by splitting the current attendance area into sections that would have been absorbed by other schools.	Use this plan
184			RiverHillHS	4	equal to	11	11			equal to	11				
185	TriadelphiaRidgeES			4	equal to	6									
186		FollyQuarterMS	RiverHillHS	5	equal to	11			The AAC draft plan and current school attendance areas are the same for my children and are preferred by my family.	better than	4	6	7	The AAC draft plan is preferred to the Feasibility study because we recently purchased and just moved in to a new construction home that was advertised to us as in the same high school district that our two high school aged children presently attend.	If the Feasibility Study plan were to be enacted as opposed to the ACC draft plan or the current districts, we would have two children simultaneously enrolled in two different high schools, a rising senior at River Hill and a rising freshman at Glenelg.
187	RockburnES	ElkridgeLandingMS		3		11				equal to	11				
188	FultonES			5	worse than	7				better than	2				
189	HammondES	HammondMS	AtholtonHS	5	equal to	6	10	8	NA	better than	7	8	10	This plan affects Atholton in a much more equitable way than the Feasibility proposed plan. It keeps contiguous neighborhoods together, utilizes Wilde Lake more efficiently, and spreads the number of students leaving amongst more schools than Atholton.	It would be helpful to see the actual number of students moving and which polygons are moved to each school. The map, while informative, doesn't tell the whole story. Overall - SIGNIFICANTLY improved plan over the Feasibility Study! Well done AAC!
190	HammondES	HammondMS	AtholtonHS	5	equal to	4	6	10		better than	6			This plan appears to avoid the wholesale population swap that was going to effect Atholton and Oakland Mills HSs especially under the Feasibility Study plan and share the pain with more modest changes to several HSs' feeder areas.	Hurrah to the School Board for being responsive and open to stakeholder input. This plan is far less disruptive to existing high school populations and programs than the Feasibility Study, which seemed rushed and capricious.
191	AtholtonES	HammondMS	HammondHS	2	better than	6	7	14	Primary concern is that this plan does not feed students together in our hood (poly 2057). Very little overlap from ES to MS to HS. Only a handful of small polygons go together, which will force constant adjustment as kids progress through schools.	better than	6	7	14	Plan seems to be designed to appease current Atholton HS polygons, when compared to feasibility study. Our polygon is moved from closest HS to one separated from us by highways and rivers (Hammond to Wilde Lake), while Atholton area is barely touched.	Feasibility study provides numbers, showing long-term feasibility of the plan. This draft plan from the AAC does not present the numbers, which could mean that schools are quickly over-prescribed again, resulting in more redistricting. Need more data.
192	ThunderHillES			4	worse than	12				equal to					
193	WestFriendshipES	MountViewMS		1	better than	4	7	3		better than	4	6	7

195	WestFriendshipES	MountViewMS		3	better than	6	7	8		equal to	6	8	4		
196	BellowsSpringES			2	better than	8	6	7		equal to	2				
197	DuckettsLaneES			5	worse than	6	1	10	I feel this plan helps keep larger groups of students together and minimizes changes in the current school curriculums.	better than	1	2	5		
198		FollyQuarterMS	RiverHillHS	1	better than	13			My children will be redistricted for High School.	equal to	13			My children will be redistricted for High School in both plans.	
199	BellowsSpringES	ThomasViaductMS	LongReachHS	1	better than	13	6	4	I want my neighborhood #3035 to stay at Long Reach HS. My 9th grader has gone to schools with the same group of kuds for a long time. Moving him to Oakland Mills which is too far away and he will know little to no kids. Terrible for High Schools kids.	better than	4	6	13	I want my neighborhood #3035 to stay at Long Reach HS. My 9th grader has gone to schools with the same group of kuds for a long time. Moving him to Oakland Mills which is too far away and he will know little to no kids. Terrible for High Schools kids.	I want my neighborhood #3035 to stay at Long Reach HS. My 9th grader has gone to schools with the same group of kuds for a long time. Moving him to Oakland Mills which is too far away and he will know little to no kids. Terrible for High Schools kids.
200	VeteransES	DunloggінMS	CentennialHS	5	equal to	11				equal to					
201	NorthfieldES			5	equal to	7				better than	7			Thanks for keeping logical neighborhoods together in the AAC draft plan. This makes more sense for my community.	
202		OaklandMillsMS		1	better than	6			We move to HC to attend current zoned schools and it's unfair we would have to attend another school that's not our choice. This would be the 2nd rezoning -- 1st was THES kids went to seperate ms -- how can kids establish lasting friendships and community?	equal to					
203	VeteransES			2	better than	7	14	14	I think it is best to try to keep neighborhoods together to build a better community	better than	7	2	1		
204	ThunderHillES	OaklandMillsMS	OaklandMillsHS	5	worse than	6	1	4		better than	1	6	4		
205	BellowsSpringES			5	equal to	6	7		This plan reunites our neighborhood as compared to the feasibility study plan.	better than	6	7		I am pleased that with the changes.	

206	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	6	7	The proposed AAC plan is TERRIBLE. We have grown up in this area and chose to stay in this County, City and our home so that are children could go to their current school districts. The AAC plan would remove our child from receiving a better education.	better than	13	6	7	The Feasibility study works toward keeping the current Centennial neighborhoods together as a unit/community. The AAC draft plan is bad because it would be splitting apart neighborhoods that belong together and have worked hard to stay together.	Choosing to start a family in my centennial community was based primarily on school districts. This plan would force my family to go from the #1 school districts in the county to the absolute WORST. This plan is awful and I reject it completely.
207		DunlogginMS		1	better than	2	1	1		better than	1				
208	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	1	6			better than	4	13	6	We ar 3 miles from our current school. The polygon movement means that we will have a significant increase in the distance we must travel to school affecting bussing and after school participation.	
209			CentennialHS	5	worse than	6	2	12		better than	6	2			
210	DaytonOaksES	FollyQuarterMS	RiverHillHS	1	better than	7	4	13	We are going to have 3 students at River Hill this year. We will have 2 next year. What happens after that? My son will be forced to change schools in his Junior year. That's wonderful for a teenager after you started your high school years at one school.	better than	4	7	13	AAC members must not have a conscience. How would anyone do a plan that would UP ROOT 8,000 students? Why would anyone have the right to move students, based on a study, only to move them back several years later when they start over crowding other school	These studies & radical redistricting are so more housing construction can happen at the cost of 8,000 students being UP ROOTED. My son will be moved in his Junior year. If the AAC doesn't think it will effect students or scores, they need to think again.
211			MarriottsRidgeHS	5	worse than	6	7	9		better than	14	14	14		
212	NorthfieldES	BurleighManorMS	CentennialHS	1	better than	7	8	4	This plan does not make sense at all. We are 5 minutes from Centennial High. The new map sends my kids to Marriott Ridge which is some 15-20 away. How does that make sense? My kids currently go to Burleigh Manor. Centennial High is right next to it.	better than	7	8	4	There are formulas you can use to calculate "gerrymandering factor" https://www.usatoday.com/story/opinion/columnists/brian-dickerson/2017/04/29/gerrymandering-michigan/101034168/ This should be used for this purpose also.	Do not gerrymander.
213	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	7	13		better than	7	8	13		
214	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	2	1	4	Moving Polygon 147 is NOT concordant with Policy 6010. If doing so, Wildelake high school will reach 110% capacity very quickly in next year or so creating another potential school redistrciting issue.	better than	4	2	6	Another issue is the transportation based on the plan AAC proposed. Polygon 147 is within reasonable distance to all three current schools (~1 mile). There are other polygons much further than 147 which should be considered redistricting.	
215	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	8	1	13		equal to	14	14	14		
216	StJohnsLaneES			1	better than	7	13	6	I strongly believe that school redistricting should be based around the natural geographic divisions of neighborhoods such that it maintains continuity between natural neighborhood relationships and school cohorts.	equal to	7	13	6	The AAC draft plan does not resolve any of the issues I have with the current Feasibility Study	
217			CentennialHS	2	better than	4	5	6	I would like to keep the community together. The new plan is moving us from the community. After redistricting our polygons which are north of Fredrick road will become an island and cut off from CHS and as well with MRHS (because of route 40).	better than	3	5	6	Looks like Feasibility study has minimal knowledge about impacts on the citizens. AAC draft plan is getting better	
218	StJohnsLaneES			4	worse than	1	7	1		equal to					
219	RunningBrookES			5	equal to	11				equal to	11				
220	TalbottSpringsES	LakeElkhornMS	OaklandMillsHS	1	better than	6			The AAC plans are horrible! Leave this up to the people who know the school system. The initial plan from the Feasibility Study is far better. ELIMINATE ISLANDS! Hopewell has been an island for ever, and that is unacceptable!	better than	1	6	3		The AAC is not making appropriate and logical decisions. UNACCEPTABLE
221		MayfieldWoodsMS		5	worse than	6	7	4	Polygon 298 should remain at Bellows Spring/Mayfield Woods/Long Reach.Children with special needs thrive on routines and familiarities. Switching 298 to other schools would have a negative effect on both their social and academic situations.. Thank you!						
222			CentennialHS	5	worse than	7				better than	1				
223	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	4	13			better than	4	13			
224	DaytonOaksES	FollyQuarterMS	RiverHillHS	3	equal to	14	14	14		better than	4	9	14	The AAC draft plan reduced the number of students who will be transferred from higher to lower ranked schools, and therefore, has much less negative impact on the quality of education and homeowners' house values.	Redistricting is never a good idea because it will always have negative impact on some students. Almost all parents buy/rent houses to let their children attend their favorite schools; it's simply not fair to move any kid to a different school.
225		MountViewMS	MarriottsRidgeHS	5	worse than	6	1	14	This plan seems to make less students move at the high school level which I agree with because more HS movement will be necessary in a few years with the new high school.	better than	7	8	1	This plan seems to stay true to the idea of move things west" more than the other plan. For example	students west of 32 would go to Glenelg as opposed to students further east driving much further west (and through MRHS territory)"

226	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	3	2	We are in polygon 229. My children are currently on the bus for over 50 minutes each way. Moving them to BPES , GHS and Glenwood Middle, only increases that time. They will have less time for homework, especially as they get older and are in sports.	equal to	4	2	3	Propose sending children from new construction areas (Turf Valley, etc.) to schools further west instead of redistricting this area. Their bus rides would actually be shorter, because the area is more populated and mass numbers can use one bus stop.	We need to stop the overcrowding of this county until more schools are built to accommodate our children. In 5 years, many of these schools will be over capacity again, due to the mass amounts of new construction.
227			AtholtonHS	1	equal to	7	13	6		better than	7	6	13	Why was the original feasibility changed for Atholton area moving to River Hill HS. Emerson community was rightfully being sent to Hammond HS. The issue arose since they complained. The original Feasibility Study should be retained instead of the revised.	Half of River Hill residents are children are going to Atholton and the other half to River Hill from Clarksville MS. This is unacceptable, to listen to the Emerson Community which should be attending Hammond HS in the first place, instead of Atholton.
228		LimeKilnMS	AtholtonHS	3	equal to	6	1	2	It will not affect my child because they would not get redistricted.	equal to					
229	TalbottSpringsES			1	equal to	2			I continue to believe that redistricting polygon 3059 from TSES is unnecessary, especially in light of the approved new building and current trailer class capacity at TSES.	equal to	1	2	8	Moving about 80 students from TSES to SFES and 63 from SFES to TSES does not make sense for the well being of the children. Making this move, that is essentially break even, can cause undue stress to the children.	
230	DaytonOaksES	FollyQuarterMS	RiverHillHS	3	equal to	14	14	14		better than	14	14	14		
231	StJohnsLaneES			1	better than	7	13	4		equal to	13	7	6		
232	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	better than	13	13	13		better than	13	13	13		
233	DaytonOaksES	FollyQuarterMS	RiverHillHS	1	better than	6	7	9							
234	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	equal to	6			I live in polygon 1231 and can't imagine my high schoolers having to commute down rte 32 and onto 70 and then 97 to get to Glenelg HS in the morning for an additional 25 minute commute when MRHS is less than 5 minutes away! It's dangerous.						
235	PointersRunES			3	equal to	6				equal to	12				
236	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	I'm happy this plan allows for my children to remain within the same peer group through high school.	Thank you to the AAC members for using feedback from the community to improve upon the current feasibility study.
237			RiverHillHS	5	equal to	6	7	8		better than	7	8	12		
238			HowardHS	5	equal to	1	7		Still believe the best solution is to fast track a High School. The less movement students have in HS, the better. But this plan does ease the overcrowding at some of the schools by utilitizing capacities at Oakland Mills and out West.	better than	6	10		AAC Thank you for hearing us & not moving pockets of neighborhoods to different High Schools, breaking up feeds that have been together since elem school. This AAC draft keeps more communities intact. Lyndwood 87, 2087, 3087 RES-ELMS-Howard.	Having attended most AAC meetings, the AAC approach was thoughtful and deliberate.. with interest in moving as few students as possible and keeping feeds together.
239	FultonES			1	better than	4	7	13							
240	TalbottSpringsES										13				I bought my house based on where my children would go to school. While I know lots of people do this, I am heartbroken to know my children will not attend TSES. It is an amazing school.
241	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	6	13	7	This plan is so bad. I bought my home for the school districts and I should not have that taken away, especially when the Feasibility study offers a much better plan. I do not want to be torn away from the friends, family and communities we connect with.	better than	6	7	13	The Feasibility study provides the best information for why and how that redistrict would not split apart the current Centennial communities who have bonded together for numerous reasons. The AAC plan is focused on dividing communities that are together.	The AAC would take away everything we came here for & for no reason if the Feasibility plan offers a redistrict that does not split apart the existing Centennial communities. The AAC plan would put several children at educational and social disadvantages.
242	NorthfieldES			4	worse than	6	7	14		better than	6	7			
243		ElkridgeLandingMS	HowardHS	1	better than	6	9	13	The Daft Plan moves the ENTIRE area of northern Hanover from Howard HS to Long Reach HS. This would redistrict 1/3 of all students at Elkridge Landing MS to be sent forward to Long Reach HS. This breaks up friends & our community. Please DON'T do this!	better than	6	7	13	The Daft Plan moves the ENTIRE area of northern Hanover from Howard HS to Long Reach HS. This would redistrict 1/3 of all students at Elkridge Landing MS to be sent forward to Long Reach HS. This breaks up friends & our community. Please DON'T do this!	Redistricting all of northern Hanover from Howard HS to Long Reach HS negatively impacts all of the relationships the kids have formed with friends in Elkridge Landing MS by sending 1/3 of them to Long Reach HS, while the remaining 2/3 go to Howard HS.
244	FultonES	LimeKilnMS	ReservoirHS	2	better than	4	3			equal to					
245		HammondMS	HammondHS	3		1	4	7	For Hammond High, my concern is that students currently within walking distance to the school are being redistricted to Atholton. I understand that attendance numbers need to work, but it feels like 29 and 32 form a more natural border for Hammond.	equal to				I didn't see a significant difference in our neighborhood between the two studies.	With the current plan kids riding the same middle school bus (which only has 5 stops) will divide into 2 high schools.
246			HammondHS	1	better than	13			This plan forces my child to move to a school with none of her peers from her previous middle school or from her first year of high school. she will essentially have to repeat the freshman year experience in a school not in her neighborhood.	better than	13			The Feasibility study provides at least a group of students that have been together and moves them to a nearby school (atholton). the Hammond change to Wilde Lake makes no sense. Atholton is closer for the Hammond kids. This makes a bad move worse!!	After 20 years of paying taxes and raising my family here, this is the year my oldest child is going to high school. The proposed AAC plan sends my child to a school where she will know almost NOBODY from a previous year or school.
247	BellowsSpringES			3	better than	6	7	13	I am not a proponent of busing children several miles from their neighborhood when there are schools within 1/2 to 1 mile	better than	6	4	13		The Meadowridge Landing community should stay with the Mayfield Woods Middle School district

248	VeteransES	EllicottMillsMS		1	better than	7			This current plan of reassignment will remove ALL of my daughter's friends from her school during t5th Grade Year. Veterans is such a large community please help these children keep their friends. This would truly be devastating for my daughter.	better than					
249	WestFriendshipES	MountViewMS	MarriottsRidgeHS		equal to	4	6			better than	4	8	6	We live 3 miles from our children's school, this change would make the distance to the proposed schools significantly longer and would make busing and afterschool activities a huge problem.	
250	BellowsSpringES			5	worse than	4	7	6		equal to	4	6		We love it	
251	NorthfieldES	DunlogginMS	WildeLakeHS		worse than	6	7	9		better than	6	9	10		
252			AtholtonHS	5	worse than	6	1	9	This high school plan makes River Hill more like Atholton demographically, and that mix has worked really well at AHS. It concentrates the moves where there is overcrowding in the northeast rather than driving the moves to the southwest.	better than	7	12	9	The Feasibility Study Plan would cause a maximum amount of disruption to deal with northeast crowding. The AAC plan is much better and improves the demographic and economic mix across the county's high schools.	
253	FultonES			1	better than	7	4			better than	7	4			
254			AtholtonHS	1	better than	1	6	2	Those closest to west need to move west. Need to keep all of River Hill together as one neighborhood. Students go to middle school and then split into two high schools. Students who live in the same neighborhood should go to the same high school.	better than	1	6	3	The Feasibility Study Plan is better than the AAC draft plan. The Feasibility Study plan kept the River Hill neighborhood together. Students that attend middle school together, and live in the same neighborhood, could all go to River Hill High School.	Focus should be on moving students west to even out the enrollment levels. Also, focus should be on keeping students in the same neighborhood, such as River Hill, together for both middle and high school rather than splitting them into two high schools.
255	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	6	4	Why does the school map looks like a gerrymandered voting map? There seems to be no logic to these shapes. This plan will break up my neighborhood and split my children from their friends.					I don't feel as if i can comment on the feasibility study.	Why are the school districts shaped in such odd ways? Why aren't the districts based on proximity to the school?
256	WestFriendshipES			1	better than	4	7	13	This plan is significantly worse than the current attendance areas in that it does not take into account geographical considerations. It will force us into middle and high schools miles farther than the ones down the street.	better than	4	7	13	This plan is significantly worse than the Feasibility Study in that it does not take into account geographical considerations. It will force us into middle and high schools miles farther than the ones down the street.	Not considering proximity to schools sufficiently will negatively impact children through extended bus routes and transportation times, reducing study time and extracurricular opportunities.
257	AtholtonES	HammondMS	HammondHS	1	better than	4	6	7	#NAME?	better than	4	6	7	#NAME?	
258	FultonES				equal to	7	13		It seems as though the under construction development of Maple Lawn South isn't part of the new boundary, and that's great. It doesn't address the current overcrowding at FES.	equal to	9			It is a very slight improvement, however, I would like to see long range plans for dealing with further development. The school is over 100% capacity. As much as we pay in taxes, and as short staffed as they are, that is unacceptable.	
259	ThunderHillES			1	better than	4	13	9	This new draft has my children pulled almost 7 miles from home when there are several closer alternatives. Neighboring groups closer which are closer to OMMS/OMHS are pulled to the schools closer to my home. It makes little sense.	better than	4	13	9		The County needs to adjust regs for planning/zoning of new homes & slow building to let the infrastructure catch up!
260	ThunderHillES	DunlogginMS	WildeLakeHS	1	better than	4	13	9	My child would cross both 108 and 175 to attend OMMS and OMHS under the proposed plan. We live in Ellicott City and it would be a harship with transportation .	better than	4	13		Switching our Ellicott City neighborhood to OMHS makes even less sense than the current attendance at WLHS. We are not a part of either community in Columbia and the transportation would be a huge hardship.	
261	WaterlooES	EllicottMillsMS		5	equal to	3	1			equal to					
262		OaklandMillsMS	OaklandMillsHS	1	better than	7	6	4		better than	7	6	4		
263	HammondES	HammondMS	AtholtonHS		worse than	6	3			better than	1	6			
264	CradlerockES			2	better than	4	6	8	I don't understand why my daughter would have to go to a high school which is further away from home	better than					
265	PointersRunES			3	equal to	4	11	14	It doesn't really effect my child at this time. It could possibly change her middle or high school in the future.	equal to	14	14	14	n/a	n/a
266			AtholtonHS	5	worse than	4	14	14		better than	1	4	7	Makes better use of capacity at River Hill and avoids the massive change (over 60%) to the student body at Atholton originally proposed.	
267	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	14	Don't split up the Dunloggin Community.	better than	6	4	7	Why are you splitting the Dunloggin Community?	
268			CentennialHS	5	equal to	7	14	14	Thank you for keeping my neighborhood (Gray Rock Farm) together at the same school.	better than	7			This plan keeps our neighborhood together.	

269			RiverHillHS	1	better than	4	7	6	It does not improve these factors.	better than	7	4	6	It still does not improve on the factors I chose in the drop down menu. It was better when AHS students were moved as a group to RHHS, from the same neighborhood than having 4 different high schools move students to RHHS from farther distances.	RHHS, CHS and WLHS are being impacted significantly more than AHS, GHS, MRHS, RHS... This seems unfair and somewhat biased. AHS should get some of the students from WLHS, instead of most going to RHHS.
270		LakeElkhornMS	OaklandMillsHS	1	better than	7	4	6	expexting students who live within a 1 mile radius (including those who are within walking distance) to the schools in their own communities is ridiculous and a waste of transportation funds. This plan is economically irresponsible.	better than	4	6	7		Redisctricting in this county happens far too frequently and is a short term, ineffective bandaid for an extremely long term problem that our county needs to address, not the school system. Redisitricting is a crutch. We need a solution.
271	PointersRunES	ClarksvilleMS	AtholtonHS	4	equal to	12	9	7		better than	11	9	14		
272	FultonES			1	better than	7	4	13	The AAC draft plan moves my son from a school/campus within walking distance to approx 5 miles away. We maintain a community with maple lawn not Clarksville	better than	6	7	4		
273	VeteransES			1	better than	7	13		The proposed draft plan separates a neighborhood and disrupts a community, as well as pulling many children away from the school they are geographically closest to.	better than	7			This new draft plan pulls even more students from the Stonecrest neighborhood, located immediately next to Veterans (within walking distance) and sends them to a school that is further away.	The original plan pulled polygon 101 away from its neighbors, 1101 and 2101. This new draft plan now pulls 101 and 1101 away from 2101 and pulls apart an entire neighborhood and community.
274	NorthfieldES			5	equal to	7			Thank you so very much for keeping our small Gray Rock Farm community together and using the natural/logical border of Frederick Road instead of splitting our community in half.	better than	7			Again, thank you for keeping our small Gray Rock Farm community together and using the logical border of Frederick Road instead of splitting our community in half.	
275	HammondES	HammondMS	AtholtonHS	3	equal to	9	10	6		better than	9	10	14		
276	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	equal to	4	6	2		better than	4	5	6		
277			MtHebronHS	1		14	14	14						The redistricting proposed for the approximately 69 students from Hebron to Howard will not really make an end difference, most of us that moved into that area did so specifically to get our kids into Hebron.	
278	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	3	worse than	6	1			equal to	1	6			
279			MtHebronHS	5	worse than	7	6	14		better than	7	6	14		
280	GuilfordES			1	equal to	9	13	14	Seems the aac doesn't want to diversify the Hammond/wild lake areas.	better than	9	13	14		
281															I believe that all rising seniors (as proposed) AND juniors should remain at their current school. Junior year is extremely stressful already and crucial for college. Moving juniors to a new high school could be detrimental to their health.
282			OaklandMillsHS	2	better than	7	4	5		equal to					My students will be rising Juniors. I am opposed to not keeping them with their dance, band, and early college programs
283	CradlerockES	LakeElkhornMS	OaklandMillsHS	1	better than	7	6	9		better than	7	6	13		
284	AtholtonES	HammondMS	HammondHS	1	better than	6	4	7	I live in King's Contrivance and Hammond HS is next to the King's Contrivance Village Center. Why on earth would my child go all the way to Wilde Lake to attend High School ?!?!	better than	4	1	7	Feasibility study shows no changes to MS and HS assignments but the latest draft plan does. Why the change? What problem are you trying to solve? Arbitrary changes only create problems for me.	I don't understand the regions. Is Columbia East really that different from Columbia West? Is Route 29 such a significant barrier? If my child's HS was switched from Hammond to Atholton, it has minimal impact with regard to transportation.
285	ElkridgeES	ElkridgeLandingMS	HowardHS	5		7	6	10		better than	14	14	14		DONT CHANGE ELKRIDGE!!
286	TalbottSpringsES			2	better than	13				equal to	14				
287	HammondES	HammondMS	AtholtonHS	4	equal to	8	1	14	One might question whether any high school redistricting is necessary at this point since no new high school is being built. For the sake of relieving overcrowding this plan seems equitable to most stakeholders.	better than	8	9	7	The AAC plan is far superior to the feasibility study because it seems to redistrict at the high school in a more equitable manner and tends to improve the ethnic and economic diversity at all high schools.	We applaud the hard work of the volunteers on the AAC committee in listening to the concerns of feasibility study and coming forward with a more equitable redistricting of students at the high school level.
288	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	7	3	The current plan splits us the community. Keep our HS students together, maintain out community and don't disrupt the lives of these teens.	better than	1	3	7	The new plan splits up lower Elkridge from the rest of the community. Please keep our kids together.	Splitting up lower Elkridge from the rest is detrimental to the community, changing high schools mid stream is detrimental to teen's social emotional development.
289	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	13	Why would you not align polygons 164 and 1164 to waverly/mrms,mrhs when they are closer to those schools and instead breakout current sjles/pms/mhhs students in 159/1159 polygons and ship them five miles away from schools they can currently have attended.	equal to				It appears no changes or concerns were taken into consideration for polygons 159 or 1159. The response transfers problem to another neighborhood is not an appropriate reasoning. You can move other polygons that already have longer transportation today	
290	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		

291		MayfieldWoodsMS		3	equal to	6	7	9	My daughter would go to Mayfield next year, then in 3 years most of her friends would go to a different high school. The feeds should be kept together. I am not opposed to moving many children as long as it fixes the problem, which I don't think this does	equal to	6	7	9	To me they seem very similar. It would be nice if someone did a video explaining both and the differences.	
292	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	5	equal to	6	7	11		better than	6	7	11	Overcrowding exists in only a few places in the county. Instead of making adjustments where the problems occur the original plan impacts a huge portion of the county (over 4000 students if I remember correctly). This appears to have less impact == good	This revised plan does not affect my polygon and maintains a clear feed from TRES->FQMS->Glenelg HS
293	ClemensCrossingES			1	equal to	13			Rivers edge neighborhood should be left as is						
294			CentennialHS	1	better than	7	13			better than	7	13			
295	BellowsSpringES			1	better than	13			A resident of Ellicott City should attend an Ellicott City school, a resident of Columbia should attend a Columbia school. I understand many view Columbia/Ellicott City as the same place but it is not. Especially given the housing price difference.	equal to	13			proposes the same redistricting. Students living in an Ellicott City neighborhood having to leave their Ellicott City school to attend a school in Columbia.	Our neighborhood was redistricted the year after I moved here (2011) for middle schools. It was a negative move for our neighborhood. Many families moved out and now it's happening again. You are breaking up communities. Kids are losing longtime friends.
296			RiverHillHS	3	equal to	3	8	5	I just feel that the extra money that is proposed by this new plan could be better used by lowering teacher to student ratio and hiring more special Ed and kindergarten para educators.	equal to					
297	ClemensCrossingES			1	better than	13	6	4	I love Clemens Crossing ES and do not want my daughter to leave it. I don't understand the basis for this polygon going to Wildlake or the proposed River Hill HS when we can walk to Atholton HS from our community. It makes no sense!!	better than	13	6	4	The study says the clemens crossing district has room for growth so why is my neighborhood being moved? Makes no sense!!	
298	PointersRunES	LimeKilnMS	AtholtonHS	3	worse than	6	7		My daughter is starting k in the fall. I would like to not see too much redistricting in her future. I'm fine with current changes, I just don't want to see her in more than three schools for her HCPSS experience.	better than	6				I work for mcps and redistricting only occurs when new schools open. I'm not sure why it needs to happen so often here. If like to see my two daughters follow the same track. Please do not break up our neighborhood ever. The children are very close.
299	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7		Thank you for keeping 87, 2087 and 3087 together in Howard HS	better than	6	7		Thank you for lowering Rockbrun ES enrollment % and keeping 87, 2087, 3087 in Howard HS	
300		ClarksvilleMS				3			Hcpss should not implement either plan the same year as the school time change, which was already voted upon. The chaos for families, students, and schools will have operational, productivity, and psychological impacts on our county.	better than	6			Neither proposal addresses the need for rising Juniors to stay at their high school, during the most competitive and critical high school year.	This revision" fails to address the need for rising Juniors to remain at their schools for educational success. Also noone has presented any positive benefits to implementing either plan the same year as the school time change. Delay for one year!"
301	NorthfieldES			3	better than	7	6	14		better than	6	7		This AAC plan totally splits our neighborhood at high school!	
302			AtholtonHS	4	equal to	14				equal to	9	10		This plan is MUCH, MUCH better than the Feasibility Study. It does not destroy any school like Atholton was previously destroyed. I don't know the numbers of kids moved overall, but it looks to be reduced.	Very happy that Atholton, which was not going to be overcrowded, was no longer drastically affected. There was no reason to decimate Atholton like the previous plan did. This plan is much better.
303		MountViewMS	MarriottsRidgeHS	1	better than	13	9	4	My children live 1.3 miles from their middle and high schools. You want them to now be 6 miles plus and have close to a 60 minute bus ride. Plus you want to take my HS student and make him change in 11th grade. Not acceptable.						
304	StJohnsLaneES			1	better than	7	13		If I am reading the draft plan correctly, you are still planning on splitting the Valleymede community. Please reconsider and look for another way to balance out the seats at St. John's Lane.	equal to	7	13			
305	PhelpsLuckES	BonnieBranchMS	HowardHS	4	equal to	7	9	6	If I read the plan correctly my children will remain in their current schools. I hope this is correct.	equal to	7	6	9	If I am reading this correctly there will be nio change	Please keep the children in the schools they are currently attending
306	CentennialLaneES	BurleighManorMS		3	better than	6	4	7	I agree with need to redistricting for use of schools more efficiently. However we need to think of our students, their relationships which they build which is a huge part of school and also time spent in transit during a day.	better than	4	7		Thanks for taking input from the community	

307			MtHebronHS	1	equal to	4	6	7	How can you possibly take a group of high school kids who walk to school, sports practices, events, etc and move them 8 miles away. Please reconsider. You are tearing apart neighbors and lifelong friends. This is a critical age to consider.	better than	4	7	6	How can you possibly take a group of high school kids who walk to school, sports practices, events, etc and move them 8 miles away. Please reconsider. You are tearing apart neighbors and lifelong friends. This is a critical age to consider.	It appears that voices of a group of Waverly elementary school parents (who shouldnt have been moved initially) are driving the high school redistricting plans. They do not have highschooler's yet and should not be allowed to talk for an entire community
308	VeteransES			1	better than	7	4	6	The updated plan is the same; moving two roads from our neighborhood from Veterans to Worthington. Veterans Elementary is within our neighborhood.	equal to	7	4	6	No change for negatively affected Roberts Rd and Stonecrest kids.	Veterans is IN our neighborhood.
309				4	equal to					better than						
310			RiverHillHS	4	worse than	6	4	7	The plan takes into consideration projected growth, both immediate and long-term and makes sensible recommendations.	equal to	7	4		I approve of realigning my area with the Glenelg HS community. Prior changes sent my child on a 40-minute bus ride to River Hill whereas Glenelg, the former home school, is ten minutes away. The boundary cut down our street, halving our community.	
311	VeteransES	EllicottMillsMS	CentennialHS	4	equal to	6	7	11		better than	11	6	14		
312	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	6	7	8		better than	6	7	8		
313	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	11			It would be nice to show the map of only the changed areas and brief descriptions included as to why the change occurred. For example, Polygon 147 changes from Centennial to Wilde Lake due to the overpopulation in North region moving to the West region""	equal to	2			It's not exactly clear from reading the study and reviewing the plan as to why certain changes are being implemented. More focus on the change items will help clearly identify how the changed polygons align with the study.	More summary information needs to be included on the map so you don't have to have the two document pages open to compare the details of the study to the proposed changes of the plan.
314	DaytonOaksES	FollyQuarterMS	GlenelgHS	5	better than	12	14	14		better than	4	7	12		
315	GuilfordES			1	better than	9				better than	1	13	9	The ACC plan makes the rich areas richer and further segregates the lower tier schools. The feasibility study makes a better representation of the future and diversity.	
316	FultonES			1	better than				Is pointers run going to be over capacity to satisfy the Maplelawn residence ? I thought it was not about keeping neighborhoods together but for keeping capacity at the best levels						
317			CentennialHS	1	better than	7	6	13	School excellence depends on strong community support and this plan will up-root a significant number of students and fragment communities. School districts are not voting districts. Leave the Gerrymandering out of our school districts.	better than	10	7	13	The feasibility study did not call for drastic redistricting.	
318	DaytonOaksES	LimeKilnMS	RiverHillHS	1	equal to	4			WE LIVE VERY FAR FROM LIME KILN MS	better than	4			I LIVE IN CLARKSVILLE (6231 Heather Glen) AND STILL HAVE TO GO TO LIME KILN MS. THE SCHOOL IS FAR FROM MY HOUSE, AND THE CHILDREN RIDE THE BUS FOR 40 MINUTES. IT IS NOT FAIR . MY CHILDREN SHOULD BE ABLE TO GO TO SCHOOLS THAT ARE CLOSER TO OUR HOUSE.	WHY ARE OTHER CHILDREN WHO LIVE IN FULTON OR COLUMBIA BEING REDISTRICTED TO SCHOOLS IN CLARKSVILLE. IF THE REASON IS OVERCROWDING, THEN MY CHILDREN WHO LIVE CLOSER TO CLARKSVILLE MS OR FOLLEY QUARTER MS SHOULD BE ABLE TO ATTEND A SCHOOL THAT NEAR OUR HOME
319	HammondES			4	worse than	6	7	8		better than						
320	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	7	10	2	I am satisfied that AAC draft plan keeps the current attendance area intact.	better than	10	2		In my opinion, AAC draft plan is much better than the Feasibility Study.	
321	CentennialLaneES	BurleighManorMS	CentennialHS	5	worse than	7	6	9	THANK YOU for taking into consideration keeping ALL of the FONT HILL neighborhood together poly 1184, 2184, 184, 156. Our children are part of a contiguous community in this district. We appreciate your time in this process!	better than	7	6	1	Our polygons 1184, 2184, 184, 156 make up the FONT HILL community. We are under 2 miles from CHS and are a diverse community that support the CHS school district.	We are socially, economically and racially diverse. Breaking off any one of these polygons create islands that isolate children from an established, contiguous neighborhood. Thank you for recognizing this community.
322	StJohnsLaneES		MtHebronHS	1	better than	7	4	13	Our schools are fine. A little crowded, but not excessively. Your plan splits neighborhoods and takes walkers & walkers" (those who are more than 1.6 mi but CAN walk or bike) and makes it more difficult for them to get to school (or play sports). I work."	better than	4	7	13	You not only continue to split the Valley Mede neighborhood, after stating neighborhoods were a priority, but you take even MORE walkers from Mt. Hebron. Who's paying for the buses? You needed to switch 1159/159 with 1162/162/2162, not send them all away!	This whole process is ridiculous. Stop moving kids just to move kids to hit some moving target of school allocations. You have next door neighbors attending different schools in my neighborhood. Seriously? Leave it alone. Fill the new school, stop at that
323	AtholtonES	HammondMS	HammondHS	1	better than	7	4	13	With this plan our children would move to 3 different schools with different groups of students. Only our small neighborhood would be together from K-12. The changes take our children farther from home for MS and HS, making transportation more difficult.	better than	6	4	7	The feasibility study would allow our children to go to school with the same kids in MS and HS, allowing for a better transition to HS. This plan also allows our children to go to the closest HS to our neighborhood, easing transportation concerns.	The FS makes more sense for our children and allows them to maintain relationships and binds as they transition from MS to HS. This has always been a concern of the parents and children in this community, the FS finally gives us the consistency we need.

324	ClemensCrossingES			1	better than	6	7	4	The draft AAC plan suggests remapping my kids to a high school further away than at least two others. It makes no sense. The draft feasibility plan is a better solution.	better than	6	7	4	The feasibility study recommendations mapped us to the closest schools and kept our kids with the same cohort for all years. The new plan does neither. I hope the district chooses the feasibility study recommendations.	The AAC draft plan is a poor choice and should be revised to be in line with the feasibility study recommendations.
325	HammondES			5	worse than	2	1	3	Better utilization of current school resources. Minimal impact to children.	better than	1	8	6		
326	IlchesterES	BonnieBranchMS			better than	13	9	7	When we ourchased a hime in Ellicott City the primary selection criteria was school district. We have been here for 10 years and desire that our 3 children remain in the district zoned. The alternate schools are not rated as highly in any criteria	better than	13	13	13		
327			AtholtonHS	2	equal to	6	7	9	The draft plan proposes minimal changes to the current school attendance area at AHS and River Hill HS. It does not seek to support contiguous communities and diversity within River Hill.	better than	6	7	9	The feasibility study appears to take into consideration the impact of bussing and overcrowding within AHS and River Hill. The AAC draft plan proposes minimal changes to the current school attendance areas and does not support contiguous communities.	Students within the River Hill Community should have the opportunity to attend schools with other members of their community. Instead, students are separated and sent to schools outside of their neighborhoods, creating a lack of investment and
328	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	4	8	Thank you for keeping 1184, 2184, 184, 156 together. The Font hill Community.	better than	7	4	8	Thank you for keeping 1184, 2184, 184, 156 together. The Font hill Community.	Thank you for keeping 1184, 2184, 184, 156 together. The Font hill Community.
329			OaklandMillsHS		equal to	14	14	14	My son will be a senior at Oakland Mills High School and is my last kid in public school. I think redistricting my neighborhood of Hopewell to Atholton High School is a good idea as I feel that Atholton is a better high school than Oakland Mills.	equal to	14	14	14		
330	RockburnES			5	worse than	6	7	1	The AAC draft plan more effectively considers the impact of redistricting on the communities and students who travel through ES, MS and HS together as peers within a cohort. It is a more cohesive, community-centered approach.	better than	6	7	2	The Feasibility Study does not solve any of the long-term overpopulation issues, but instead it tears children away from their peer groups, divides communities in illogical ways, and is a short-sighted non-solution - shame on Howard County	I moved to Howard County specifically for the school system. I am extremely disappointed with the results of the current redistricting plan in the Feasibility Study. I strongly support the AAC draft plan. It is thoughtful and grounded in reality.
331	FultonES	HammondMS	ReservoirHS	1	equal to	6	7	11	We are in polygon 221 which goes from Fulton to Hammond middle to reservoir high. It continues with the small feed from Fulton to Hammond and back from Hammond to reservoir. It also decides the community on this side of 216.	equal to	6	7	11	Same reason as above	Please redistrict our kids in 221, 1221 and 2221 to Lime Kiln Middle to be alongside their classmates from Fulton Elem and later at Reservoir HS. Please also send 1009 and 9 to Atholton HS to eliminate the tiny feed from Hammond middle to Resevoir HS
332			AtholtonHS	1	better than	6			Hcpss should not implement either plan the same year as the school time change, which was already voted upon. The chaos for families, students, and schools will have operational, productivity, and psychological impacts on our county.	better than				Neither study addresses or proposes how rising Juniors can have their academic needs met during the most intense year of school. If HCPSS hopes to maintain success with colleges, it will invest in stability for it's Juniors.	If HCPSS is supposed to be the top school county in the US, then due diligence is needed before implementing this large of a plan. Since time changes are planned for next year, delay these plans to implement them correctly.
333	WaverlyES	PatapscoMS	MtHebronHS		worse than	6	7	8	Polygon was redistributed to move us to waverly. Our kids should stay with those polygons for middle and high school and not ping pong as the smallest group in a school.	better than	7	6	8	Draft plan keeps polygon 2161 with the waverly community so the feed is solely to the same middle school and high school. Avoids creating islands.	
334	NorthfieldES			5	worse than	6	4	8	The current attendance areas and the AAC draft plan meets the Policy 6010 requirements in all respects very well. Highly recommend the school board to accept AAC's draft plan.	better than	6	4	7	The feasibility Study does not meet the Policy 6010 requirements very well. The AAC draft plan does. Feasibility study proposed to move very small feed from Dunloggin Middle to WLHS. This AAC draft proposal is maintaining the feed percentages very well.	In the feasibility study, please refrain from redistricting same polygons consecutively. AAC draft proposal maintains contiguous neighborhoods, feed percentages, transportation goals and avoids consecutive redistricting. All of this meets Policy 6010.
335			CentennialHS	5	better than	6	7	4	We appreciate keeping 1184, 2184, 184, and 156 together.	better than	7	4	6	Keeping 1184, 2184, 184, and 156 together maintains continuity in our neighborhood, keeps feeder school students in the same high school, and avoids unnecessarily long bus transportation.	
336	RockburnES			4	worse than	10	1	7	The main benefit of this plan over the current attendance areas is that is will relieve overcrowding at certain schools such as Howard and LR (I am guessing- since there aren't specific numbers out), while not moving as many students as the prior plan	better than	10	14		So much better in that it doesn't move tons of kids into and out of Atholton HS (We don't even go there!) and looks like it would move less total kids	
337	GormanCrossingES	MurrayHillMS	AtholtonHS	4	worse than	12				better than				The AAC draft is much better than the feasibility. The feasibility map moves a good part of Atholton to Hammand, which is a shame!	
338	PhelpsLuckES			1	equal to	9	7	13	There is no change. Redistricting for my area which is borderline should be from Phelps luck El to Waterloo El which kids in my area just a street away go to Waterloo.	equal to	7	9	13		
339	ThunderHillES				equal to	7	4	6		better than	4	6	7		

340	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	better than	7	13			better than	7	13				
341	JeffersHillES			1		6	1	7	My child attends JHES. I do not understand why our boundary is not tracked for Bellows Spring. She will lose around half of the students she went to school with when she goes to Mayfield. This situation occurred to my oldest child.							Please give some consideration to rethinking boundaries along broken land parkway and rt 108 for elementary school.
342		PatapscoMS	MtHebronHS	2	better than	4	8	7	The polygons, currently attending Mt. Hebron High school, north of Rt. 99 and West of Mt. Hebron are a vast majority walkers to Mt. Hebron. The few who are bus riders still can easily walk or bike to the school. We should NOT be moved!	better than	4	8		The polygons in our area have already been redistricted at the elementary level twice in the last ten years. Now you are moving the same families at the middle and high school level and moving walkers at the high school level. It does not make sense.		Our polygons, walkers to Mt. Hebron High, should never have been moved from St. John's Lane elementary school. Our 100% feed should have been maintained because walkers should never be moved! The feasibility study has our area correct!
343		HammondMS	AtholtonHS		worse than	1	14	14		better than	7	8	4			
344	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	4	The high school plan severely divides the Dunloggin community forcing children who grow up side by side at the same elementary school and middle school to be separated going into high school.	better than	6	7	4	The high school plan severely divides the Dunloggin community forcing children who grow up side by side at the same elementary school and middle school to be separated going into high school. There is a very small area of NES/ DMS remaining together.		The AAC plan moves too many kids from the NES/DMS area.
345	WorthingtonES	EllicottMillsMS	MtHebronHS	3	equal to	14	14	14		equal to	14	14	14			
346	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	4	This draft plan will split the Dunloggin and surrounding communities as children transition from elementary school to middie and high schools. In addition, young families have bought into Dunloggin and adjacent neighborhood solely for Centennial HS.	better than	6	7	4	This draft plan will split the Dunloggin and surrounding communities as children transition from elementary school to middie and high schools. In addition, young families have bought into Dunloggin and adjacent neighborhood solely for Centennial HS.		The ACC proposal impacts too many families in the Dunloggin community.
347			CentennialHS	1	equal to	7	4	14	The only information published was map. Is students in the 11th grade will allowed to stay in place? What about special programs? None of these questions were addressed.	equal to	7	4	14	For Centennial high School the plans are very similar. Why is polygon 97 stay at Centennial HS, when the polygon 2154, 154, 1154, 214 do not, despite 97 being farther to CHS than the other one?		What is going happened to students enrolled in the Humanities program at Centennial? The English and History curriculum are different. The only information provided is the map. I have several other questions that need to be answer.
348	DaytonOaksES			3	equal to	12	6			equal to	14					
349		BonnieBranchMS		5	worse than	1	4	6	The AAC plan better reduces overcrowding in the northeast schools by taking advantage of capacity in the west. However, it tries to minimize the impact by reducing the number of students and polygons moved.	better than	4	1	6	For our Montgomery Meadows neighborhood, the AAC plan keeps us at Howard which is less than a mile from the school. It also keeps a strong feed going from Bonnie Branch to Howard. It reduces the overall number of students moved in the county.		I appreciate how the AAC has taken into account feedback from the county. I like it that they have tried to reduce the total number of students moved. They have worked hard to keep neighborhoods within walking distance at their current schools.
350	ThunderHillES	EllicottMillsMS	HowardHS		better than	4				better than	4					
351			AtholtonHS	5	worse than	1	2	6		better than	1	10	14			
352			HowardHS	3	equal to	11				equal to	11					
353	ElkridgeES			1	better than	9	6	13	Moving children from Elkridge Elementary from Howard High creates a huge problem. There is NO reason to remove them from Howard.	better than	6					
354	HammondES	HammondMS	HammondHS	1	better than	13	13	9	I'd rather stay in my current district of Hammond es, ms, and hs than move to the proposed AAC plan.	better than	13	6	9	I really liked the originally feasibility study from June 27th. It positively impacted my child and had everyone around us going to the same good schools.		Vote to move forward with the June 27th feasibility study. You had it right the first time. Don't go with the AAC plan!!!
355			OaklandMillsHS	1		13	4	6	I could end up with 2 kids in 2 different high schools	better than	4	5	13	Overlapping siblings should have the option of staying together		It seems like the upper crust loud people are getting their way
356		HammondMS	HammondHS	2	better than	7	4	6	Kings Meade Way should not be redistricted to Atholton HS. Students in the Kings Meade neighborhood are close enough to Hammond HS to walk. Kings Meade is part of Kings Contrivance neighborhood and should remain in Hammond HS district.	equal to						
357	PointersRunES	LimeKilnMS	ReservoirHS	1	worse than	6	7	14	Better Would like middle school to clarksville	better than	3	1	4			
358	NorthfieldES	DunlogginMS		1	better than	13			I was shocked to see that our high school would change. We bought our house in this neighborhood specifically for the consistency of this community.	better than	13			My whole community is in an uproar. This negatively affects our community and students.		
359			AtholtonHS	5	equal to	9	8	2	Only issue, I think tile 190 is mistakenly put into River Hill. It currently goes to Atholton and would be disruptive to move it to RH because it would break up the neighborhood in the middle of the street.	better than	9	8	2	Atholton High School is currently a very diverse school that has been very successful. For the most part, kids from all backgrounds get along and find ways to resolve issues when they don't. The Feasibility Study divides the county by race and income.		Atholton is unfairly affected by the Feasibility study 2/3 of the student population is changed. The AAC Draft plan, at least keeps this diverse school in tact. AHS lives up the the Rouse Dream of a Diverse community. Without it we are like any other city
360	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	6	4	13	This plan causes my child to be bused to the other side of Columbia, to an entirely different community than they will be in for middle school. There is no consistency among this feeder pattern and no thought for the students you are moving.	better than	6	4	7	The FS allows my kids to attend school with a consistent and growing group of friends. They will also attend schools within the same community allowing students to build relationships and maintain friendships.		There is no thought for our kids with the AAC plan, my kids are a number to fill a seat. The plan does not take into account my child's social/em wellbeing by being moved between 3 different areas in Columbia. This doesn't allow for community building.

361	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	worse than	6	7	4	I like the way this AAC draft plan keeps changes to a minimum without drastically changing polygons from one school to another.to fix overcrowding This plan has minimal disruption at high school level and tries to reduce small feeds.	better than	7	4	1	The communities are grouped together as much as possible that way its easier on the kids and the families. The minimal changes are a great plus for this plan to achieve this goal.	
362	AtholtonES	HammondMS	HammondHS		better than	6	4	7	Liked the original feasibility study over the aac draft plan	better than	6	7	4	Feasibility study has my child going to schools where he could walk to where as the aac draft plan takes him all over Columbia. The original feasibility study seemed very good.	Please get rid of the aac draft plan. It has kids moving all over the county without any real formula
363	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	13			Only government poor planning could be so irresponsible as to drive my kids by there local school 10 miles down the road to a different community because they had no problem approving building permits for communities without addressing school population	better than	9				This plan is because of poor leadership
364															
365	FultonES			3	better than	4			I would request Polygon 1112 to stay at Fulton ES for transportation reasons.	better than	4			I would request Polygon 1112 to stay at Fulton ES for transportation reasons.	I would request Polygon 1112 to stay at Fulton ES for transportation reasons.
366	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	14				better than	14			Our family is in the walk zone for both Clemens Crossing ES and Atholton HS. The AAC draft plan represents a less drastic redistricting for both of these schools, particularly Atholton HS, where the feasibility study suggested redistricting the majority	
367															
368	NorthfieldES	BurleighManorMS	CentennialHS	4	worse than	6	7	9		better than	7	6	9	The AAC draft will keep Gray Rock Farms intact and allow them to remain at Centennial, a much closer school than Marriotts Ridge. It will also change the demographic of Wilde Lake High by bringing in a large amount of Dunloggin students.	
369	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	4	worse than	6	9	14	Slight preference for GHS over RHHS.	equal to	11	14			
370			MtHebronHS	1	equal to	4	13	7		better than	4	13	7	My daughter is a walker to Mt Hebron. When this plan goes into action, my daughter will be a junior. It is not fair to move a walker her junior year of high school. The many reasons include: farther from home, would require dangerous roads for her to driv	Social concerns, proximity to home, driving on dangerous roads to and from school as a new driver, sense of community would diminish, peer pressure concerns
371															
372	CradlerockES	LakeElkhornMS		2	equal to	4	6	7	While this is an improvement, my children will still be bused right past a closer high school. While they will be bus riders, we are close enough to OMHS for them to walk home from extra curricular actives.The plan will still impact our walkable community	equal to					
373		ElkridgeLandingMS	HowardHS		equal to	1				better than	6				
374	PointersRunES			3	better than	4			I would request Polygon 189 to stay at Pointer's Run ES for transportation reasons.	equal to	4			I would request Polygon 189 to stay at Pointer's Run ES for transportation reasons.	I would request Polygon 189 to stay at Pointer's Run ES for transportation reasons.
375	WaterlooES			5	equal to	7	10	9	The AAC draft and the current school attendance are the same.	equal to	6	5	9		
376	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	4			High schoolers who currently walk will be bussed. Negatively impacts their ability to participate in extra curricular activities if they don't drive.	better than	4				
377	PointersRunES			1	better than	6				better than	1	6	7	My kids would be split from their friends going from elementary school to middle school, and the middle school is projected to be well above the 120% capacity.	It would be better if the same neighborhoods that feed into an elementary school would feed into the same middle school.
378		BonnieBranchMS		5	equal to	6	7			better than	6	7		Glad to see Polygon 84 & 95 staying at Howard HS - to keep student feed and neighborhood together from IES to BBMS to HHS.	
379		PatapscoMS		1	better than	8			We're in polygon 162. Both my children were redistricted part way through elementary school and the draft plan has them being redistricted again part way through Middle / High School. No child should be redistricted more than once!!!	better than	8			The feasibility study does not alter the middle school and high school path for polygon 162 which has already been affected by multiple previous redistricting plans. It is not right to keep moving these children back and forth.	

380		PatapscoMS	MtHebronHS	1	better than	7	6	8	Moves kids in polygon 2161 BACK from Waverly to SJLES - they went from Waverly to SJLES back to Waverly in last rounds of redistricting. Now they are going BACK to SJLES, when development is increasing in the east. Also splits Valley Mede in two.	better than	7	8		This plan is bad since it splits Valley Mede into two - when those polygons are actually a continuous neighborhood.	Valley Mede needs to stay together, do not split - that is one continuous neighborhood. Treat polygons 161, 1161, 2161, 162, and 1162 as one neighborhood - do not split them, move them all to Waverly or SJLES
381		MurrayHillMS	AtholtonHS	5	equal to	7	6	7	Much better plan as it appears to be less disruptive to the entire county.	better than					Much better job!
382	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4	6	The idea of taking part of Dunloggin and moving it to WHS makes absolutely no sense. WHS is substantially farther away geographically than CHS. Additionally, the plan divides a historical neighborhood essentially in half at an arbitrary point.	better than	7	4	6	See same comments above.	This new plan redistricts too many kids. There are kids being moved out of some high schools and other kids being moved into that same high school. The final plan should move the fewest kids possible to address capacity issues.
383			HowardHS		better than	13	2	3	Moving 8800 students at one time is ridiculous. My child will be a junior and splits upper classmen will be split since seniors can stay at their current school. It will also disrupt sports teams and other clubs like theater creating less cohesion.	better than	7	6		In the feasibility study only two neighborhoods from Elkridge were moved to Long Reach high. The SAC draft plan now includes several others neighborhoods so that more kids will move together.	I would still prefer that my child as a junior be allowed to stay at Howard for her junior and senior years. The AAC draft plan is better than the feasibility study because there will be a larger group from Elkridge moving fro. Howard to Long Reach
384	PointersRunES			1	equal to	7	6	9	The draft does not fix problems with breaking up communities.	better than	6	7	9	Draft reduces economic diversity at RHHS, ignores natural boundaries of neighborhoods and 32/108, causes disruption by splitting kids at Clarksville MS, and will not solve long-term population trends at these schools.	The neighborhoods within the Village of River Hill should attend the same schools as in the original proposal AND all of Clarksville MS should go to the same HS and not be split b/t two HS. The original proposal increased diversity at River Hill HS.
385	VeteransES	DunlogginMS	CentennialHS	4	equal to	11	11	11	The draft plan has our current schools and I am happy about that.	equal to	14	14	14	n/a	n/a
386	HammondES	HammondMS	AtholtonHS	5	worse than	9	10		This plan improves the diversity at River Hill! Yay!	better than	7	8	9	It keeps neighborhoods together, allows Atholton to remain the standard for diversity, yet increases diversity at schools who have none, such as River Hill! I think it's a win-win!	Would be great to see actual numbers. Great work AAC!
387	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	2		It is quite clear from all the different scenarios trying to move kids from Howard to Long Reach and from Long Reach to Oakland Mills that the Elkridge/Ilchester area needs its own school.	better than	6			No scenario should be considered for redistricting ELMS unless all kids go to the same high school. First choice should be a new high school second choice should be Howard or Long Reach	It's disappointing that there's so much building go in on Rte 1 and in other pockets of Elkridge but yet we don't have our own high school. The fact that all the kids from ELMS can be together for 9 years and then get split up for high school is cruel.
388		PatuxentValleyMS	HammondHS	1	equal to	13	9		The feasibility study plan relieves the overcrowding issue, student / teacher ratio, and balances the school economic class with each high school fairly.	better than	13			The feasibility study does a much more effective job of balancing the number of students per high school, the diversity of the schools, as well as a mixture of economic classes.	The overcrowding of the eastern side of the county seriously affects student learning & achievements. Balancing the socioeconomic diversity helps improve a schools PTA, which helps the students and the school staff overall. Feasibility plan is necessary
389	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6	7	4	It keeps our polygon in our current high school so that our kids will stay with their friends from elementary school and middle school through high school.	better than	6	7	4	It keeps neighborhoods that go to elementary and middle school together in high school	
390	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
391	FultonES		ReservoirHS	5	equal to	7	11	9	I also prefer this plan because it looks like it reduces the over utilization of Fulton ES envisioned in the future. Thank you for keeping Maple Lawn assigned to the same school.	better than	1	7	12		
392	AtholtonES	HammondMS	HammondHS	1	better than	6	13		The AAC plan does not keep groups of student together, our kids would be bussed all over Columbia.	better than	6	4		The FS allows student in our community to move from MS to HS with the same group of students while attending the closest school to our neighborhood.	The AAC plan makes my kid feel like a number, the plan does not make sense for our neighborhood and more importantly our kids.
393	FultonES			5	worse than	7	2	4	The AAC plan helps alleviate overcrowding and keeps our Maple Lawn HOA intact. Current boundaries were presumably created before the rapid growth in our area. Current boundaries were also presumably drawn before the long term elem capital projects	better than	7	2	6	The AAC draft plan helps alleviate projected overcrowding at Fulton Elementary. The Feasibility Study did not provide a solution that would address this. I strongly support the fact that it continues to keep our Maple Lawn HOA intact.	I assume that the redistricting of approx 100 students will be a mid term solution until the next new elementary school open. I would like the school board consider a minor addition to the school. I love that the AAC still keeps the Maple Lawn HOA intact
394			HowardHS	4	equal to	6	7	8		better than	6	7	8		
395	IlchesterES	BonnieBranchMS	HowardHS	3	equal to	1	14	11	I do not have enough information from the AAC draft plan to evaluate the changes between current and proposed. Based on a myoptic examination of my own polygon, this plan is fine; it does not change the current attendance area.	equal to	11	14	14	I was able to quickly understand the Feasibility Study's stated problem and proposed solution. I determined that the Feasibility Study was rational and reasonable. I cannot ascertain the motivations or logic of the AAC draft without more information.	I would like to read summary describing the differences between AAC and Feasibility, including the motivations behind introducing these differences. Please explain to me statistically why AAC is better (less students moved, etc).
396		MountViewMS	MarriottsRidgeHS	5	equal to	6	7			better than	6	7			
397	ForestRidgeES	PatuxentValleyMS	ReservoirHS	5	equal to	11	6	7		better than	6	8	7	This limits the change to students and families more than the feasibility study did.	

398		HarpersChoiceMS	WildeLakeHS	1	better than	1	6	12	It appears that the FARM student populations are concentrated in certain schools.	better than	1	9	6		
399		BonnieBranchMS	HowardHS	1	better than	2			Why move kids that are walking distance to a school and break their feed. Grovemont would be a better alternative than moving Montgomery Meadows that is walking distance to Howard.	equal to	2	1	5		
400				1	better than					equal to					I. My husband and I purchased this particular house based on the redistricting a few year ago. My daughter is thriving at her current elementary school Rockburn Elementary. Since Kindergarten my daughter has been in advanced Math.
401	BryantWoodsES				worse than	4	6	1		equal to				my home area is affected the same way in the draft plan and feasibility study	polygon 133 makes no sense. I live off of sunny spring and I am one f the only streets from sunny spring that does not get lumped with polygon 1133. Please make sure 133 stays with 1133. The kids play together in the neighborhood. thank you!
402	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	9	4	8	We are polygon 229 which would greatly be impacted by this proposal. Moving these students from WFES, MVMS and MRHS to the the Glenelg area has multiple negative outcomes. Lengthy bus rides, higher costs for transportation, increase in broken community	better than	4	7	13	Both plans for polygon 229 do not put the best students interest into consideration. Longer bus rides, not cost effective, negative impact on community relationships and families. Our polygon is furthest west on 32. Pull students from Folly Quarter	Howard county needs to stop over developing every square inch of land. This would not be a repeated issue for our students and families. As a community member of WFES, MVMS and MRHS I have children in all 3 schools. We deserve to be heard.
403	FultonES	LimeKilnMS	ReservoirHS	5	worse than	7	7	3		better than	7	14	14		
404	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	equal to	9	4	1	Economic demographics appear to stay disproportionate.	equal to	1				Why not district 1143 and 143 to one of the two blue shaded school zones High affluent areas are less affected, ie: some other more diverse neighborhoods are divided by where students will attend schools but that is not as prevalent in the affluent areas
405		FollyQuarterMS	RiverHillHS	1	better than	13	6	7	The proposed move from River Hill to Glenelg involves moving students in a region that is continually affected when redistricting occurs. Please do not move students when they are in the middle of their high school program.	better than	6	7	13		
406			CentennialHS	5	equal to	7			Using Frederick Road as a boundary is a great solution. Thank you.	better than	7			This plan is much better for our community and keeping it together. It makes much more sense to to use Frederick Road as a boundary line. Thank you.	
407	LongfellowES	WildeLakeMS	WildeLakeHS	4	equal to	1	4	2							
408	PointersRunES	ClarksvilleMS	AtholtonHS		equal to	1	3	2	I like the original Feasibility Study Proposed Redistricting	better than	1	3	2		
409	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6				better than	6				
410	WestFriendshipES			1	better than	13	9	7	We live in polygon 1229. We are 2 minutes from MVM and MHS and 4 mins to WFES. We moved here specifically for the schools and we are being made to have to send our kid 20 minutes away?	better than	4	13		Instead of just elementary school, we are now being moved for all levels and my daughter will travel far away for 12 years even though we carefully moved to a short distances from our three desired schools.	Most people making decisions seem to conveniently forget the impacts for the students in west HoCo. We moved here, even though it's much further to commute to Balto., because of the schools and they are not overcrowded. Our needs are not taken seriously.
411			AtholtonHS	4	better than	8			I would prefer no redistricting at all at the high school level until the new high school is built. The original emails/info last year (and even in the spring) said high schools would not be redistricted this year.	better than	10	9	8	This plan is much better for Atholton and is better overall.I am happy that Atholton is mostly preserved in the new draft proposal.There was no reason for Atholton to be affected so much since it is not over capacity and the demographics match the county.	Please continue to preserve Atholton and to only make minimal changes at the high school level. High school is already a tough time for kids and they should not have to deal with moving schools. I would prefer that no high school changes be made.
412		PatapscoMS		1	better than	7	6		This is a bad plan - it splits Valley Mede in two, which is a continuous neighborhood but pulls non-continuous polygons from the east into Patapsco.	better than	7	6		Much worse! This one splits both Valley Mede and the neighborhood to the north (polygons 161, 1161, 2161, 162, 1162), while pulling in isolated polygons in the east. Keep Valley Mede together, and keep 161, 1161, 2161, 162, 1162 together)	This plan is awful. It splits two large established communities (Valley Mede and the Mt. Hebron/Patapso Park Estates/Thornbrook area) in two, while keeping isolated polygons in the east going to Patapsco. Need to treat these large communities as a block
413	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	5	equal to	6	8			better than	6	8			
414				1	better than	9	7	14		equal to	9	7		The Draft Plan that moves a neighborhood currently attending TSES will be moved to THES. This move will likely lead to TSES being a majority minority school.	
415			CentennialHS		better than	13	7	9	This plan is horrible. I moved into a neighborhood based on the schools and do not want to uproot my family because their school will change. I am 100% against the proposed changes.	better than	7	9	13	I am completely against these changes.	I am completely against these changes. I pay a lot of money in taxes to send my children to a good school- centennial. Not Wilde lake.

416	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	2	This plan has students who can walk to high school being bussed to a school eight miles away. This is a logistical burden for families, and adds unnecessary transportation expenses for the school system.	better than	7	4	2	Valley Mede has been a cohesive community for decades, and this plan splits it down the middle. Once again, it means walkers will be bussed to a school much further away. This cannot be the most feasible and cost-effective plan available.	With a new high school slated to be complete in 5 years, it's shortsighted to make these changes just to revert back. While budget is important, splintering off neighborhoods would only serve to damage the sense of community that makes HCCPS strong.
417	FultonES	LimeKilnMS	ReservoirHS	1	better than	6	4	13							
418	PointersRunES			1	better than	6	7	9	Moving 196 students to PRES and moving 198 out does not make any sense, but if that happens my son will lose his best friends with whom has been since kindergarten. But hey, who needs to think about it?	equal to				See my comments above - don't see too much difference between study plan and aac draft.	
419		MountViewMS		4	equal to	6	10	4		better than	6	7	4	This plan seems to eliminate small feeds from elementary to middle schools in our area. It also maintains contiguous neighborhoods and seems to minimize the number of redistricted polygons compared to previous plan.	I am concerned about a disconnect between new housing projects and lack of capital budget to accommodate the new students that will be moving into our system. Are we going to see large scale redistricting every few years?
420		HarpersChoiceMS	WildeLakeHS	3	equal to	1	6	3	Too much movement and destroys Atholton HS. Also weakens Longfellow ES and separates a very tight knit community by moving some to Wilde Lake MS from Harper's Choice MS.	equal to	1	4	6	Looks to strengthen several ES feeds and some MS but HS plan looks to be very detrimental to already suffering Wilde Lake to remove so many in affluent areas to River Hill. The opposite needs to happen! Separation of Longfellow neighborhood still remains	
421	TalbottSpringsES			5	worse than	9	1		I am agreeing with the NEW map draft that was done on 8/8 placing pologon 63 into THES or staying at TSES.	better than	6				
422	PointersRunES	ClarksvilleMS	AtholtonHS		better than					better than	3	5	6		
423	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	6	7	10		better than	6	7			As initially proposed by the feasibility study, all 3 of my children who are at Worthington, EMMS, and Hebron respectively, would have been separated from their community of friends. As currently proposed, the AAC plan keeps our community intact. Thank u!
424	FultonES			3	equal to	2			I wish the students in the NEWLY developing homes (apartment- The Vine and Maple Lawn South) which feed into Fulton, Lime Kiln and Reservoir would be moved to other schools since Fulton is already at 111% and only expected to grow larger/over capacity.	equal to	2			There is no change between the two regarding overcrowding at Fulton ES.	It would be beneficial if developing neighborhoods were in communications and compliant with Howard County Public School populations, rather than having to redistrict every few years because of overcrowding.
425	PhelpsLuckES			3	equal to	14			N/aa	equal to	14	14		N/a	N/a
426	VeteransES	EllicottMillsMS		1	better than	13	7	4	Plan horrible for VES. Pulls 1101 out of VES and splits us from our entire neighborhood from 2101/3101. We are directly behind VES/can walk.Splits our bus route into 2 schools. Breaks kids from all neighborhood friends. Waste of $ to bus all to WES	better than	4	13	6	I liked the Feasibility study better because it atleast kept 1101 (the polygon surrounding school) at VES. If tcounty plans to move kids they should grandfather in these 5th graders for their last year. It is unfair to pull them from friends. Maintain VES	Both plans pull 1101 and 101 from VES but leaving half of our neighborhood at VES. This neighborhood is directly behind the school and the heart of the school. Buses would have to go past us to get kids for VES. No new kids/maintain VES as is.
427			HowardHS	5	worse than	1	9	2		better than	7	6	3		
428	WorthingtonES	EllicottMillsMS	MtHebronHS	4	equal to	7	6	12		better than	6	7	13	The feasibility study has my neighborhood being split in half for both middle and high school.	
429	ForestRidgeES	PatuxentValleyMS		1	better than	7	4	9		better than	9	7	4	The Feasibility Study Plan was far superior in keeping together communities in SE HoCo and making demographics more equal. The AAC plan is being pushed by local polygons who fear losing their elite enclaves. Please reject the AAC plan for the global good.	The Feasibility Study plan has global considerations in mind and should be accepted. The AAC plan is the work of greedy individuals who want to maintain property values and seek elite schools at the expense of others and should be rejected.
430	NorthfieldES	DunlogginMS		1	better than	13	13	7	The AAC draft plan sucks. I'm in zone 150. My kids should go to centennial for high school. You have zones way out like 191,102, 1101, 1102, 275, 3101, 191 going to centennial and you just threw a few in the Northfield zone to Wilde Lake? No thanks.	better than	13			The AAC draft plan still sucks. leave 150 at centennial. everyone in the zone and the rest like 1152 152 4150 149 will be banding together to dispute your draft plan.	You let all the properties subdivide into 4 and now the schools are full. How dumb is that. Didn't see that coming I guess.
431	AtholtonES			2	worse than	7	6	4		better than	7	4	6		
432			HammondHS	5	worse than	14	14	14		better than	14	14	14	The AAC plan keeps my daughter at her current school and seems to move around fewer kids than the first proposal I saw, that moved her from Hammond to Atholton (while moving kids from Atholton to Hammond).	
433		BurleighManorMS	CentennialHS	5	equal to	7			I want to thank you for maintaining a logical boundary line such as Frederick Road.	better than	7			Thank you for keeping the community together and maintaining a logical boundary. We have a small community and should be kept together.	

434			MtHebronHS	1	better than	7	6		Much worse, splits Valley Mede neighborhood by moving polygons 159 and 1159. That neighborhood needs to stay together. Move 1106 and 106 or 1105 and 105 to Dunloggin or elsewhere to keep established Valley Mede together.	better than	7	6		This one is much worse! Not only does it split Valley Mede, but now splits the neighborhood to the north (161, 1161, 2161, 162, 1162). Move everyone in those polygons together - either Mt. Hebron or Marriotts Ridge.	There are two large neighborhoods that these plans are splitting at all levels (elementary, middle, high): Mt. Hebron (161, 1161,2161, 162, 1162) and Valley Mede (34, 1034, 2034,159, 1159). These neighborhoods need to stay together, dont split both.
435	DuckettsLaneES			1	better than	4	7	5	Polygon 1036 is far to large. Based on prospective growth of the Oxford Square community it undermines the small community of Belmont Station which is established and does not have area for growth.	equal to	4	7	5	1036 does not follow the typical boarders that other polygons follow, (major roadways and railroad tracks). Both of the mentioned are within this polygon. Please make west of the railroad tracks it's own polygon or combine with 2037 (route 1 is not major)	Multiple emails have been sent regarding the size of polygon 1036 and they have not been included in the citizen plan document. Belmont Station is at risk for long bus rides and crowded schools based on the growth of Oxford Square. Please keep us at DLES.
436	IlchesterES	BonnieBranchMS	HowardHS	5	equal to	6				better than	6	1	4	AAC Draft plan is much better for all involved, as it does not move thousands of students around to schools that are further away. Feasibility study is not financially responsible, too much time for buses to drive in more traffic and greater distances.	
437	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	2	better than	6	4	13	Horrible high school redistricting. Our children who are walking distance from Atholton and feed to Harpers MS and Wilde Lake HS would now go to River Hill HS? Horrible. It takes us completely out of our community and is worse the original proposal.	better than	6	7	13	Middle schools should feed into a high school and not split up so much. It is ridiculous to bus students over 20 minutes when they can walk to school and stay with their entire middle school. Currently Harpers feeds all to Wilde Lake. AAC plan is horribl	This plan breaks it up even more than the original plan. Horrible. Horrible to break up middle schools in so many pieces and breaking up neighborhoods into small pieces. Kids get split over and over from their groups of friends. Traumatizing.
438		LimeKilnMS	ReservoirHS	1	better than	6	7	13	Devastating. Our small group of homes is impacted while large group (Maple Lawn) takes over an entire school. My kids will have very few of their classmates with them now and may displaced by ML with no impact on ML. And would travel much further to HS.	better than	6	10	7	Distance to new school further. Maple Lawn zero impact while our small group of students would be displaced and the minority in a school for high school. I am gravely concerned about my kids having very few if any peers or sense of community in new HS.	I can't believe that a small slice would be moved from the RHS to RHHS to accommodate a neighborhood that gets zero people redistricted. It's devastating and my kids will be moved when they could have stayed with minimal impact (2114 has very few students
439	ClemensCrossingES			2	better than	13			The feasibility study plan is much better and appears to build a better foundation for future growth.	better than	13	6			
440	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	10	13		better than	1	2	7		
441			MtHebronHS		better than	7	4	9		better than					
442	GormanCrossingES	MurrayHillMS	AtholtonHS	4	worse than	12				better than	14			Any plan has winners and losers. A plan such as Feasibility study that has so many losers among AHS students, with no winner, should not be approved. Think about all the calculations people make when buying houses. Do not make big changes please.	
443	StJohnsLaneES			4	worse than	6	7	4		equal to	14				
444	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	equal to	11				better than	4	7	13	The Feasibility Study would take my students from 1 mile from their ES to about 10 miles over narrow hilly roads away from our home. Likewise, the middles school instead of being 5 miles away would now be 10 miles away over more dangerous roads on a bus	
445	ClemensCrossingES	WildeLakeMS			worse than	7	9	10		better than	7	9	10		
446	StJohnsLaneES			1	better than	7	4	14		equal to	7	4			
447	AtholtonES	OaklandMillsMS	OaklandMillsHS	2	equal to	11				better than	4	6	9	Less students affected with the AAC plan. I know the Talbot Springs ES community is very concerned about the impact st their school. We have middle school friends from that feeder school and they are an amazing group who work hard for their community	Do not think walkers should become bus riders
448	FultonES			5	worse than	1	11	14	Like this plan because it addresses overcrowding at Fulton, Lime Kiln and Resivoir with no impact to the schools we were previously distracted to attend.	better than	1	7	11	Like this plan because it addresses overcrowding at Fulton, Lime Kiln and Resivoir with no impact to the schools we were previously distracted to attend.	
449	ElkridgeES	ElkridgeLandingMS	LongReachHS	1	better than	6	7	9	The students will be going to school for 9 years straight then to separate them. Plus why our little small nook that extends into a area that physically doesn't make any sense. It will hurt the social emotional of teenagers	better than	6	7		Same as above	Please consider the students and not just politics
450			ReservoirHS	1	better than	8	13	14	Moves my daughter for her junior and senior years from Reservoir to Atholton.	better than	8	14	14	Moves my daughter for her junior and senior years from Reservoir to Atholton.	Only the current attendance -or- the Feasibility Study keep my daughter at Reservoir. There is little benefit of moving from Reservoir to Atholton under the AAC Draft plan.
451		FollyQuarterMS	RiverHillHS	4	worse than	1	2	7		better than	1	7	10	The Feasibility Study went way too far in moving students all around the county. This plan seems to balance schools with a minimum amount of adjustments and still maintaining communities.	

452	AtholtonES		HammondHS	1	better than	6			Why send students from polygon 2057 to Wilde Lake HS? They don't go to elementary or middle school with ANYONE else who goes there. They spend all of elem school and middle school with students who go to Hammond HS. They can walk to Hammond for sports	better than	6				
453	NorthfieldES	BurleighManorMS	CentennialHS	4	equal to	4	6		We strongly believe the Gray Rock neighborhood should stay feeding to one school so we are more supportive of this plan. It would cause too many longterm issues to split this neighborhood to feed to two separate schools.	better than	4	6		We strongly believe the Gray Rock neighborhood should stay feeding to one school so we are more supportive of this plan. It would cause too many longterm issues to split this neighborhood to feed to two separate schools.	
454		BurleighManorMS	CentennialHS	1	better than	6	4	7	Current school attendance areas for HS should NOT be modified until the new school is built. The current school attendance areas were not presented in the original proposal and have been a blindside to the entire HS community. Leave things alone!	better than	7	6	4	Moving GrayRock & FontHill (poly 153,1153,1184) &leaving a peninsula with MHHS and CHS families around poly 154, 1154, 2154, &214 makes no sense.	The new distance to MRHS is so far & will make a busride 35 min each way PLUS huge social anxiety for HS child. What is transportation cost to send child from southeast polygon all the way to MRHS. Hug burden on families involved with afterschool activity
455	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	9	6	13		better than	2	7	13	It is unclear the justification provided in the AAC draft plan for deviation from the Feasibility Study. I presume appreciable County tax is paid to perform the Feasibility Study which appears to involve greater evaluation than the AAC draft plan.	Economic impact to existing home price should at least be considered when re-districting as it has direct impact to the County tax base.
456	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			The plan continues to use logical boundaries to maintain cohesive neighborhoods where possible.	better than	7			My son is part of a small group from Northfield ES and Burleigh Manor MS The original feasibility study would have broken up this small group into even smaller groups at the high school level. Thank you for keeping Gray Rock Farm together.	
457	WorthingtonES	EllicottMillsMS	MtHebronHS	5	worse than	7	6	8	Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	better than	7	6	8	Minimize or postpone high school moves now if possible. If moving high schoolers is necessary, I approve of moving 1159, 159, 160, 1160, 1162, 162, and 2161 from Mt. Hebron to Marriotts Ridge High School to maximize use of space in westward schools.	I approve of moving polygons 67 & 1067 to Oakland Mills (from Ellicott Mills) Middle School. These polygons are closer to Oakland Mills & this reduces a small feed and alleviates space concerns at EMMS.
458	CentennialLaneES	BurleighManorMS	CentennialHS		better than	14				better than	13				
459	BellowsSpringES			1	better than	1	1		This plan is absolutely ludicrous. We currently live less then a quarter mile from Bellows and you are now diving a small neighborhood and splitting to send us over 3 miles away. There no rational to the long term gains of this plan.	equal to	1			Both plans lack any strategic thought process what so ever. Based on the rational of the current study, we will redistrict again in 3 years	As a county resident, tax payer and voter I am appalled over the lack of consistent, rational communication on why this plan is necessary. This is from the County Exec down to the school board. Get a real plan and stop allowing houses to be built!
460		DunlogginMS	WildeLakeHS	2	equal to	4	7	14	I am happy with NES and DMS. But do not understand current reasoning and continued zoning of polygon 276 to Wilde Lake HS. We are much closer to Centennial High and Howard High. Very few kids go to WLHS from DMS so the kids loose many of their friends.	better than	4	7	8	The AAC does not cause a change for us - but do do like the High school zoning. The feasibility study has my son going 1 year to DLMS and then 2 years to WLMS after he was already redistricted from THES to NES. I feel this would be too many moves	
461	BollmanBridgeES			3	equal to	14	14	14		equal to	14	14	14		
462		LimeKilnMS	RiverHillHS	1	better than				Why would our one road, with only 2 ES kids and 2 MS kids, be carved out? We are EAST of Browns Bridge Road and School Mill Road, yet Farming Drive was carved out for some reason. Why couldn't we stay in Reservoir HS district?	better than				Why would our one road, with only 2 ES kids and 2 MS kids, be carved out? We are EAST of Browns Bridge Road and School Mill Road, yet Farming Drive was carved out for some reason. Why couldn't we stay in Reservoir HS district?	All movement was west of Browns Bridge Road and North of Lime Kiln Road to go from RHS to RHHS, with the exception of our road, Farming Drive, which is east of Browns Bridge and South of Lime Kiln. Why are we being moved? It makes no sense.
463	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
464	DaytonOaksES	FollyQuarterMS	GlenelgHS	2	equal to	6	1	2		better than	6	1	2	Feasibility study is superior for the reasons cited above.	
465				1	better than	6	7	13	In the Dunloggin area, this plan breaks the neighborhood up for the high school district - a very negative and unhealthy effect on our neighborhood - pulling from prior CHS to send students to Wilde Lake.	better than	6	7	9	Feasibility calls for Centennial HS to Marriotts Ridge HS - polygons 210 153 154 214 1154 1184 2154" - completely different than this draft plan."	Breaking up Dunloggin in this way makes no sense for academics, transportation, or demographics and does not fulfill the feasibility study proposed changes. It will have a negative effect on the community.
466	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	7	6	4	This plan is far worse for equity in school attendance. It splits up neighborhoods and will result in significant overcrowding in some schools. PRES is too full and with planned development will only get worse with this plan.	better than	7	6	1	This plan does not do a good job of feeding kids through the same schools through elementary->high school. Atholton HS in particular has numerous feeder schools, each sending a portion of their population. Also, it splits up portions of columbia.	The feasibility study fixed long-term problems that have been growing. This plan does not address those problems of feeder schools, neighborhood consistency. If we do not do the feasibility study redistricting, we are in for another painful process soon.
467	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	4	13	14		better than	13	4	14		

468	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	better than	4	1	7	This draft is much worse than the current proposed draft and will do nothing to fix the long term needs of student placement and developer contribution to future years and school attendance plans.	better than	7	13	13		
469	GormanCrossingES			5	equal to	6	11			equal to	14	14	14		
470	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	4	13	7	This plan horribly impacts travel and splits my children away from a majority of friends shes built!	better than	13	6	4	This plan horribly impacts travel and splits my children away from a majority of friends shes built!	
471	StJohnsLaneES	PatapscoMS	MtHebronHS	1	equal to	4	7	9	Schools are communities. Breaking up a community is detrimental to the health and well being of our children. Stability is important. Changing schools every 5 years is not good policy. neighborhoods should go to same school.	equal to	1	4	14	Treatment of community & transportation costs.	
472	PointersRunES	ClarksvilleMS	AtholtonHS	2	better than	6	13		I don't see how my kids who will be in pointers run and Clarksville middle in the AAC plan should go to atholton. They will have no common friends and have to start afresh with friends!!! This does not make sense!!!	better than	6	7	14	For polygon 167, I prefer the plan from the feasibility study where the kids would go to pointers run, Clarksville middle and river hill high.	
473		LimeKilnMS	ReservoirHS	1	better than	6	7	4	Why would our one road with only 2 ES kids and 2 MS kids, be carved out? We are EAST of Browns Bridge Rd and Schooley Mill Rd yet Farming Drive was carved out and moved with houses west and north. Why couldn't we stay in Reservoir HS district? Devastating	better than	6	7	4	Why would our one road with only 2 ES kids and 2 MS kids, be carved out? We are EAST of Browns Bridge Rd and Schooley Mill Rd yet Farming Drive was carved out and moved with houses west and north. Why couldn't we stay in Reservoir HS district? Devastating	Browns Bridge/Schooley Mill Rd looked like a natural divide, yet our road was carved out to be moved to River Hill. It makes no sense and now my kids will be with a tiny group of students being moved and be the minority in the new school. Devastating.
474			MtHebronHS	1	better than	4	7	8	Please slow down with redistricting plans! Build a new high school and stop separating communities. Why is redistricting being done at all 3 levels at the same time?	better than	4	7	13	The AAC draft plan doubles the negative impact on the Mt. Hebron community.	
475	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	4				better than	4			We live within 3 miles of all the schools mynkids currently attend. The feasibility study moves them to schools father away. The AAC recommendations leave us at our current schools.	
476			HowardHS	5	equal to	6	8	7		better than	6	7	8		
477	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	4	7		equal to	6	4	7		
478	TalbottSpringsES			1	equal to	7	9		Only current over/under-capacity schools/regions should be moved. HoCo is always growing and projections are meaningless.That is why we're in this boat in the first place! East Columbia especially should be left untouched. It should remain diverse.	equal to	7	6	7	There is not much change. The impact to students is still not being considered. Especially in Columbia where diversity is very important. Students rely on the programs at Title 1 and ESM schools and are being moved out. Only move what is necessary.	Stop trying to boil the ocean. Only make the moves in regions that are over/under-utilized and will not see improvements in 2018-2020. Leave other areas alone. It's too much and I bet there will be high costs associated with logistics, admin, etc.
479	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	7	8		better than	6	7	8		
480		HammondMS	HammondHS	1	better than	4	7	6	Terrible plan! The draft plan moves high schoolers from a nearby building to one relatively distant. High schoolers in my neighborhood regularly bike to Hammond High - they won't do that to Wilde Lake High.	better than	4	7	6	Both Hammond High & Atholton High are closer to us than Wilde Lake High. Macgills Common and Allview are not contiguous at all with Wilde Lake Village. This can't be the best plan. Lake Elkhorn is actually to our east - how long til another redistrict?	Our polygon probably didn't give much feedback to the original Feasibility Study bc it made sense to move us west to Atholton High. I think we are being punished for not speaking up earlier, but we didn't think we would be sent to a distant school.
481	WorthingtonES	EllicottMillsMS	MtHebronHS	4	equal to	7	6	14		better than	7	6	8	Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	I approve of moving polygons 67 & 1067 to Oakland Mills (from Ellicott Mills) Middle School. These polygons are closer to Oakland Mills & this reduces a small feed and alleviates space concerns at EMMS.
482	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	4	Moving one section of a neighborhood to a school further away does not promote neighborhood continuity as well as locating students even further away from their homes. Centennial 2.2 miles Wilde Lake 3.6 This makes no sense.	better than	6	1	14	See above	
483	RunningBrookES			3					I'm trying to see how they differ admittedly looking at Elementary					I'm trying to see the difference from the first presentation and from the work the committee did and I understand we are outliers and our Elementary school will change but I don't see beyond the map the number figures of the changes with the capacity leve	with the capacity levels of the three tiers of the school levels and long term
484	ThunderHillES		HowardHS	1	better than	13	4	7		better than	13	4	7		
485	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	4	6	7		better than	4	7	13	It makes no sense for me for my kids to go to Wilde lake when OM, Atholton, and Hammond are all closer. No sense of community if we jump to lake elkhorn then Wilde lake when we have been part of OM for yrs	
486															

487	IlchesterES	BonnieBranchMS	HowardHS	4	worse than	2	7	6	I was confused in which plan is which and answered the survey based on that confusion in my previous submission. Please disregard the previous survey for this address.	better than	2	6	7	I was confused in which plan is which and answered the survey based on that confusion in my previous submission. Please disregard the previous survey for this address.	I was confused in which plan is which and answered the survey based on that confusion in my previous submission. Please disregard the previous survey for this address.
488		HammondMS	HammondHS	1	better than	4	7	6	Terrible plan! The draft plan moves high schoolers from a nearby building to one relatively distant. High schoolers in my neighborhood regularly bike to Hammond High - they won't do that to Wilde Lake High.	better than	4	7	6	Both Hammond High & Atholton High are closer to us than Wilde Lake High. Macgills Common and Allview are not contiguous at all with Wilde Lake Village. This can't be the best plan. Lake Elkhorn is actually to our east - how long til another redistrict?	Our polygon probably didn't give much feedback to the original Feasibility Study bc it made sense to move us west to Atholton High. I think we are being punished for not speaking up earlier, but we didn't think we would be sent to a distant school.
489			CentennialHS	1	better than	7	13	4	The plan moves my son from Centennial, which is 3.6 miles from my home, to Marriotts Ridge, which is 7.9 miles away. This not only separates my son from nearly all of the classmates he has grown up with over the years but also complicates transportation.	equal to	7	13	4		Suggest that rising high school juniors be allowed to finish their high school studies at the original high school they attended for the previous year.
490	PointersRunES	ClarksvilleMS	AtholtonHS	5	equal to	9	4	7		better than	3	4	9		
491		ElkridgeLandingMS		1	worse than	7	6	4	Elkridge (east of 95) is split between Long Reach and Howard. The MS feeds to Howard and Long Reach don't make sense. Elkridge Landing Middle School is taking on too many new polygons, its capacity is overstated. Unfair bias-distant students always move.	better than	7	6	4	For Howard, it is not equitable that if you are close to the school you stay, and if you are far from the school, you move to an even farther school. Original Feasibility Study was much, much better for Elkridge. ELMS has overstated capacity.	ELMS should not be taking on more polygons, the capacity is bogus from the study a few years back where breakout rooms magically became classrooms. Change to Howard HS apparently is driven by Lyndwood complaining loudly rather than any policy consideratio
492	HammondES	HammondMS	AtholtonHS	5	worse than	7	4	6		better than	6	7	4	I like that the new plan moves kids out of reservoir and Fulton as those will be overcrowded w the new development, this keeps more kids together, and the map looks cohesive	This is much better than original feasibility study
493	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	13	4	13	The current assigned schools for middle and high school are much closer, and better performing. As a parent of a special needs student, I cannot support this plan to change the middle and high schools to Oakland Mills Middle and Oakland Mills High.	better than	4	5	13		
494	RockburnES	ThomasViaductMS	HammondHS	4	equal to	4	7	8	The draft plan seems to keep our children in a more normal pattern of school assignment.	better than	2	4	7	It's silly that the same kids are displaced over and over again. They're being punished for the county's poor planning. The county knew years ago that this problem existed. The study separates and moves the same kids creating psychological issues for many	Personally speaking... my son was moved in 4th grade. Then the following year, a different middle school that all the kids were sent to. Now entering high school he'll spend one year then go to a different high school the following year.
495	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	2	3	4		better than	2	3	6	Compared to the feasibility study plan, the AAC plan doesn't consider sufficiently the criteria in Policy 6010, but more just based on individual inputs.	
496	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	2	2	2	I preferred the first plan submitted. This plan is most undesirable. Would prefer to leave atholton is boy dariens as currently are or move all pointers run neighborhood to river hill. Splitting pointers run neighborhood is detrimental to community cohesi	better than				See above. Prefer feasibility study v	
497	DeepRunES			2	better than	13	4	9	Extremely unhappy about the high school change. If this goes through, we will leave Howard County Public Schools and our child will enter a magnet school or private school for high school. Prefer staying in same elementary school, not changing for 2 years	equal to	4	9	14	The AAC draft would allow my child to complete the last two years of elementary school in the same school and not have to relocate Allows for the same Middle School High School is a horrible change.	My father retired from HCPS after 51 years. If either proposal goes through that would move my child to Oakland Mills HS, my child attending will NOT happen. We will withdraw from HCPS and enroll in magnet or private school, along with others we know!!!
498	DaytonOaksES	LimeKilnMS	RiverHillHS	5	equal to	6				equal to					
499	BellowsSpringES	MayfieldWoodsMS	LongReachHS	5	equal to	6	7	12	This plan keeps my children with their closest friends in the neighborhood and at Mayfield Woods so I am happy about that. But, it still has Mayfield students going to different high schools, like the Feasibility Plan, so I don't like that.	equal to	6	7	12	This plan keeps my children with their closest friends in the neighborhood and at Mayfield Woods so I am happy about that. But, it still has Mayfield students going to different high schools, like the AAC Plan, so I don't like that.	
500		HammondMS	AtholtonHS	5	worse than	1				better than	7	6	10	This plan moves far fewer students (which should absolutely be considered in any redistricting plan) while also addressing overcrowding issues. It also prevents the unequitable impacts on Atholton High School that were proposed in the Feasibility Study.	

501	RockburnES	ElkridgeLandingMS	HowardHS	4	worse than	6			This sends polygon 91 area to Elkridge Landing MS and resolves the small feed from Rockburn ES to Bonnie Branch middle. Alternate would be to send these students to Ilchester ES and Bonnie Branch MS. No preference, but I like elimination of small feed.	better than	6	7	8	Polygons 86,1086 were recently redistricted from Bonnie Branch to ELMS. This plan eliminates a high school redistrict for these students. I like that 86,1086, 87, 3087, 2087 are kept with other Rockburn ES polygons 4087,1087, etc thru high school.	
502	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	better than	13				better than	7				
503	TriadelphiaRidgeES	FollyQuarterMS		5	worse than	6			This plan keeps my child from having to move schools during her 5th grade year. In addition, it keeps our neighborhood together with the kids that have been going to school with them since kindergarten.	better than	6				
504		DunlogginMS		1	better than	4	7	13	Polygon 111 is close to either Dunloggin middle or ellicott mills middle. It is VERY far from Oakland mills middle. We are going to dunloggin middle right now which is NOT overcrowded. What's the point of fixing something not broken?	equal to					Best interest of children should be #1 in the redistricting effort. I'm totally against making kids ride long buses. It should be distance based. Let kids go to the closest school possible!!!
505	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for keeping the community together and maintaining a logical boundary.	equal to	7				
506			MarriottsRidgeHS	1	better than	13	4	7	I have been paying the higher property taxes in this area for 18 years so my child could attend. WFES, MVMS, and MRHS.	better than	4	7	13	I have been paying the higher property taxes in this area for 18 years so my child could attend. WFES, MVMS, and MRHS.	I have been paying the higher property taxes in this area for 18 years so my child could attend. WFES, MVMS, and MRHS.
507	PointersRunES	LimeKilnMS	AtholtonHS	4	better than	7	4		the AAC draft plan is MUCH BETTER than the feasibility study, however, i would prefer to leave things the way they are for atholton high school.	better than	7	9	6	AAC much better than feasibility study. smaller number of atholton hs students effected with aac draft.	
508	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	13	13	13	The AAC draft plan is worse than the current school attendance areas. I think the Superintendent need consider the well being of the students, the neighborhood, school closer to the student home for emergency response, student academic.	better than	13	13	13	The AAC draft plan is worse than the Feasibility study. I think the Superintendent need consider the well being of the students, the neighborhood, school closer by the student home for emergency response, and student academic.	Please don't keep wasting tax dollars on redistricting students. I would rather use the $$ to fund the local schools to renovate the classrooms, improve mold treatment because of most the schools have mold. Please keep current attendance areas.
509	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	7	6	14	It keeps my community together.	better than	7	6	14	It is a better plan for my neighborhood.	
510	CentennialLaneES			1	better than	9	13		We live in a new development and already most of the kids have changed schools in the last 1-2 yrs and this will be another change again. We bought a house in a recently built community with high price based on the currently assigned schools.						
511	ElkridgeES			5	equal to	11	7	14		equal to					
512	TriadelphiaRidgeES			5	equal to	7	6	8		better than	1	6	7		
513			HowardHS	3	worse than	7	11	4		equal to	4	7	11		
514		HammondMS	ReservoirHS	5	equal to	7	6		Same for my family	equal to	7				
515			LongReachHS	1	better than	2	13	4	Don't move my student to another school in her Junior year, which will affect her socially, mentally and emotionally just as she's beginning to plan for college. She is involved at her cuurent school and this messes everything up.						Let Juniors stay at their current schools!!!
516	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	6	2	7	It makes more sense to keep our polygon 162 going west.	better than	6	2	7		We live in Polygon 162/1162 which started at Hollifield, moved to SJLES, then to Waverly, back to SJLES and now to Waverly after a long battle. It's best to keep us moving west. Thank you.
517	PointersRunES				equal to	12				equal to	12				
518	StJohnsLaneES			3	equal to	4	7	3	It helps eliminate certain overcrowding issues, but there are still choppy boundary lines, splits several neighborhoods up, and some students who would be walkers, and/or very close to being walkers, to one school being bussed to a school further away.	equal to	4	7	3	It helps eliminate certain overcrowding issues, but there are still choppy boundary lines, splits several neighborhoods up, and some students who would be walkers, and/or very close to being walkers, to one school being bussed to a school further away.	One area I specifically noticed is Valley Mede. This neighborhood will be split up and some students who are currently walkers to Mt. Hebron would be bussed to Marriott's Ridge.
519	VeteransES			1	better than	7	6	2	Our neighborhood will be divided, this is not supported by our community. Don't redistrict our kids! Don't disrupt them from the school they love. Don't separate them from their neighbors. Build new schools, don't disrupt existing students.	better than	6	7			
520			RiverHillHS	1	better than	13	2		My junior(2018-19) will be negatively academically impacted if forced to move to Gleneg high school. This is a pivotal year for her its SATS and college prep.	equal to	2	13		No change we will still be redistricted in both plans. We don't want our daughter to move in her junior year because of academic and social disruption. Why move from one under capacity school to another under capacity school makes no sense.	Build a new school in the east!!!!!!!!

521	IlchesterES			5	worse than	4				better than	3	1	4	I live in Polygon 95 and this would minimize transportation difficulties. My children can walk to the same HS rather than travel over 2 miles to a different HS.	
522	ClemensCrossingES	LimeKilnMS	AtholtonHS	3	better than	4	6	12	Polygon 127 - I live my kids' elementary school and their teachers at Clemens crossing. Pointers run is further away in terms of distance which seems inconvenient.	better than	6	7	9	Polygon 127 - AAC plan for high school will result in kids from elementary and middle school having very few friends in high school. The feasibility study plan is better for the kids.	
523	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	7	4	8	To move walkers from Mt. Hebron and bus them 8 miles to Marriotts Ridge, while ruthlessly dividing tight-knit neighborhoods and communities, is devastating to the schools, students, families, and community members.	equal to	4	7	8	This is a short-sighted solution" that will no doubt be revaluated yet again in the coming years as it does not address issues and instead creates new ones."	To divide and rip apart neighborhoods that have been so closely tied to their schools for many years, including with a large walking population, shows disregard for close communities for which Howard County is known. Free the money to build a new high sc
524	GormanCrossingES	MurrayHillMS	AtholtonHS	4	worse than	4	7	11	I approve of this plan due to the fact that it keeps Emerson community and wincopia community at Atholton.	better than	2	3	7		Keep emerson community and wincopia community at Atholton.
525	IlchesterES			5	worse than	11			It is difficult to tell the overall county disruption (total number of students shifting and new capacity numbers with the AAC draft plan maps. The AAC plan is consistent with our current schools.	better than	7	4	6	The feasibility study shifted a large number of students to achieve mediocre capacity numbers for one year at Howard High and Long Reach including our polygon to disrupt our Elem-MS-HS transition.	Another high school needs to be built!
526	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	6	4	I am strongly against the AAC draft plan because some of the districts, e.g. 147, are moved from a school close to the district to a school that is considerably farther away from the district.	better than	7	6	4	The AAC draft plan did not sufficiently consider several important principles of school districting such as stability of community and proximity to school. For example, Polygon 147 is being proposed to move to new schools considerably farther way.	My family moved here from another state two years ago and our house is located in Polygon 147. My son has just settled in his new school and made new friends. The proposed plan will force him to move to yet another new school.
527				5	worse than	9	1	5		better than	1	9	6		
528		PatapscoMS		1	better than	7	4		This new plan is dividing neighborhoods and taking students that are currently walkers and redistricting them to bus riders. Neighborhoods with a rich history of supporting a school are now redistricted to schools outside their neighborhood.	equal to	7	4		I appreciate that you are trying to create a feeder system where students stay together while progressing through the hierarchy. But while doing this, you continue to redistrict students and they keep ping ponging between schools.	For a county with a wonderful school reputation you are failing the citizens and more importantly the children. I steer future residents away from Howard County because of the mess our school system is in. We need to start from scratch.
529			RiverHillHS	1	better than	13	1	9	My child is currently RHHS which is a higher preforming school then the AAC draft plan proposed school,GHS.	better than					
530	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	7	The draft will have kids from one of the best schools attend one of the worst schools in howard county, which is unfair to our kids. We live in this area specifically for the schools.	better than				Leave polygon 147 alone and let our children stay at centennial elem, burleigh manor and centennial high	If this changes and we are forces to send our kids to a terrible school because of redistricting, there will be a huge outflux of bright kids who will bring your county test scores up who will now be going to private schools
531	PointersRunES	ClarksvilleMS		1	better than	6	7	4	The Feasibility Study Plan is preferred.	better than	6	7	4	The Feasibility Study better suits our family.	
532			HowardHS	5	equal to	6	7	8	Great job AAC members on putting forward a plan that makes sense!!	better than	8	7	6	Thank you to the AAC for all of their hard work and thank you for leaving our polygons (87, 2087 and 3087) in their existing schools. We are thrilled and believe this is in the best interest of our community and children.	This prevents multiple redistricting from schools. This allows attendance area adjustments to be more widely considered when HS #13 comes online. Fully support the AAC's recommendations!!
533		MurrayHillMS		5	equal to	11				better than	6	11			
534	IlchesterES			4	equal to	7	12			better than	7	6			
535	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	10	13		better than	7	1	13	The Feasibility Study appears very detail with reasonable justification whereas it is unclear the deviations being proposed by the AAC draft plan. In the AAC draft plan, communities are moved out of the region with no clear benefits.	Strong consideration should be given to avoid moving communities from one school region to another. The proposed draft plan has strong financial impact to County families, including potential loss of life savings.
536			AtholtonHS	1	better than	6	7	2	The initial feasibility plan although redistricted many students was more sensible and kept communities together.	better than	4	6	7	This is a terrible plan for western howard county. On review of the committee meeting video, clearly our area was underrepresented. There were multiple occasions were the members were questioning whether anyone was familiar with the area and no one was.	Decisions were made with minimal understanding of the high traffic roads, bus services and the new developments (polygon189) that have yet to have any students.
537	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	worse than	6	4	1		better than	7	1	4		
538	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	10				better than	9				
539	HammondES	HammondMS	AtholtonHS	5	worse than	7	9	6	Distributes FARM among schools particularly bring River Hill HS FARM to higher than 1 % - equitable academics	better than	7	1	6	Preserves Atholton HS. Moves less students. Distributes FARM to schools with low FARM - equitable academics	Thank you for your hard work. Please preserve AHS.
540	DuckettsLaneES	ThomasViaductMS	LongReachHS	4	better than	13	5	13		better than	9	5	1		
541	StevensForestES			3	worse than	9	4		The elementary okay...however the high school (Oakland Mills) will now become the number one Feeder school of Farms with less diversity by taking atholton and thunder hill communities and sending them to other schools.	better than	6	9			

542			MtHebronHS	1	better than	4	7	8	Extremely disturbing that communities that are like families are being split up. Also, families in Mr Hebron district have been moved several times. Why would you move walkers to be biased 8-10 miles away. How is that cost efficient?							
543	ClarksvilleES	ClarksvilleMS	RiverHillHS	2	equal to	7	12	3		better than	10					
544			MtHebronHS	1	better than	7	4	6		better than	4	6	7			
545		MountViewMS	RiverHillHS	5	equal to	7	4			better than	4	7		these boundaries seem to make a lot more sense than the original proposal.		
546	RockburnES	ElkridgeLandingMS	HowardHS	3	equal to	11				better than	13	13	13	When set to buy a home in Howard County the sole reason I bought the home I live in is because of the schools my children will be attending. It's sad that the county I live and work in has the ability to neg. effect the only reason I purchased my home.		
547		BonnieBranchMS	HowardHS	5	worse than					better than						
548	ForestRidgeES			1	better than	13			Areas 116 and 1116 should stay at FRES. It would make more sense for the bus routes to have Whiskey Bottom be the dividing line, with all students to the north going to Forest Ridge, rather than making those few streets change schools, like it use to be.	equal to	13					Changing areas 116 and 1116 from FRES to LES does not make sense. Allowing those students to stay at FRES would not drastically change the percentages that the study is recommending and would make more sense geographically and with bus routes.
549	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13				better than	13					
550	LongfellowES			5	worse than	14				better than	14					
551		LimeKilnMS		1	better than	4	11	9		better than	6			Feasibility study was much more reasonable. This draft breaks up communities and is more onerous particularly on transportation.		
552	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	7	6	9	Thank you, thank you for the AAC draft plans that keep the Worthington Community in tact!! Please continue to keep polygons 2093-3093-4093 in tact as you go forward. My community and I cannot thank you enough for this proposal!! A+++!!	better than	14	14	14	Thank you, thank you for the AAC draft plans that keep the Worthington Community in tact!! Please continue to keep polygons 2093-3093-4093 in tact as you go forward. My community and I cannot thank you enough for this proposal!! A+++!!	Please continue to keep communities together!!	
553	IlchesterES	BonnieBranchMS	HowardHS	5	equal to	14	14	14		better than	4	6	7	This is MUCH better than the feasibility study.		
554	IlchesterES	PatapscoMS		1	better than	6	7	14			14	14	14			
555			HowardHS	5	equal to	14	7	4		better than	14	4	7	Keeps my child where she has made friends(not easy for her) Not passing school to get to another. She can finish where she started in academics and extra curricular activities.	She wants to finish school where she started. Considers herself a Lion already.	
556	ClemensCrossingES	LimeKilnMS	AtholtonHS	5	equal to	1	3	12		better than	2	6	3			
557	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	5	worse than	7										
558			AtholtonHS	4	equal to	7	1	6	Happy with our current feed from PRES, to CMS to Atholton HS and believe that Atholton HS is a model school for diversity and quality. The feasibility study plan was good, maintaining feeders and did good for our neighborhood, but destroyed Atholton HS.	equal to	1	6	7	The draft plan seems to uproot fewer students, and maintains the high quality and diversity of Atholton HS, though the Feasibility study kept better feeds and contiguous communities.	Mostly, I'd like to see either plan delayed by a year or two, as this process was rushed with the feasibility study and this new plan both being much more than anyone discussed prior to just now.	
559	NorthfieldES	DunloggingMS	CentennialHS	1	better than	4	7	14		better than	7	4		The plan splits the small neighborhood of Dunloggin in 2. This plan puts back together very large neighborhoods while splitting our small one. In addition, the travel time to Wilde Lake HS for polygon 150 is significantly longer than nearby Centennial HS.	I would rather my child have 1 or 2 classes in a trailer then miss out on after school activities because the school is so far it's difficult to pick him/her up. They will miss out on in academic enrichment, clubs etc. Keep kids close to home!!!	
560			CentennialHS	5	equal to	7	14	14	Thank you for keeping Gray Rock neighborhood together (poly 153 and 1153). Using Frederick Rd as a natural boundary is the most logical.	better than	7	14	14	Thank you for keeping the Gray Rock neighborhood together with this AAC draft.		
561																
562	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	13	9		better than	13	2	7			
563	ElkridgeES			4	worse than	2	7	6		better than	2	6	7			
564	CentennialLaneES			1	better than	13			Poor rated Schools	better than	13					
565	StJohnsLaneES	PatapscoMS		1	better than	7	13	8	This draft plan still splits communities in half, while moving walkers to being bused to a farther distance as opposed to walkers. This is evident in St. John's Lane, Waverly, and Mount Hebron. This will cost more and is ineffective.	better than	7			Both break up communities, both are unacceptable.	Please stop this madness! Many people are looking away from Howard County because they redistrict children.They want better treatment for their children.	
566	SwansfieldES	HarpersChoiceMS	RiverHillHS	1	better than	13	7	6		better than	13					
567	CradlerockES		OaklandMillsHS	1	better than	4	6	7		equal to	4	6	7			
568		ElkridgeLandingMS	HowardHS	1	better than	6	7	13	Elkridge Landing Middle School would have a low feed to Long Reach High School. The AAC plan divides our community and the children that have been going to school together for 9 years. The AAC Plan will negatively impact their education and moral.	better than	6	7	4	Elkridge Landing Middle School would have a low feed to Long Reach High School. The AAC plan divides our community and the children that have been going to school together for 9 years. The AAC Plan will negatively impact their education and moral.	The AAC plan divides the Elkridge community and prevents the oldest town in Howard County from attending the oldest high school in Howard County...a history that should be retained.	

569	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than					better than					
570	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	7	8	Do not break up the neighborhood of Pointers Run between Atholton and River Hill high schools.	better than	6	7	1	Do not break up the neighborhood of Pointers Run.	Children get one chance at childhood to make lasting friendships. Every attempt should be made to allow elementary students to follow each other to middle and high school. This is important for general well being, happiness, and mental health.
571			RiverHillHS		equal to	11	6	7		better than	6	7	11		
572	NorthfieldES	DunloggingMS	CentennialHS	5	better than	6	7	13	I don't think that a specific neighborhood should be divided in half. Kids in the same direct area should attend the same school	equal to	14	14	14		
573		ElkridgeLandingMS		5	equal to	6	7	11		better than	6	11	7	So thankful AAC draft keeps Lyndwood 2087/87/3087 going to Howard so kids can stay with the Elem and Middle school friends. Plan MUCH less disruptive for entire county than Feasibility Study. Delay HS redistricting until HS#13 built and please fast track!	Please keep Lyndwood polygons 2087/87/3087 going to Howard and keep ELMS and Rockburn kids together so feed into HHS. Please focus on building HS#13 and then think about redistricting high school. We need the new high school NOW! But wait to move the kids
574			AtholtonHS	4	worse than	1				better than	10	12		This is a MUCH better plan. Hard to assess for sure without seeing numbers of students moved and utilization rates.	
575	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	7	6	1	Great plan	better than	7	8	3		
576	IlchesterES	BonnieBranchMS		5	worse than	4	6	8	This AAC Draft plan keeps our neighborhood (Montgomery Meadows polygon numbers 95, 1095, 2095 and 84) going to Howard which is within walking distance and less than a mile from the school.	better than	10	1	6	The draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west but reduces the domino effect of moving polygons west.	The ACC draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.
577		HammondMS	HammondHS	1	better than	13	7	10	Its a really bad idea to disrupt the students and switch them in tbe middle of their school career	better than					Its a bad idea to move students from their community they have a great system going to put them in a poor system. Hammond is a great school do not rip up the district and move them to a school that does not meet the standards of howard county
578	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	3	2	13		better than	7	9	10		
579	NorthfieldES	DunloggingMS	CentennialHS	1	better than	13	4	5	We chose to move to this area because of the stellar schools. Our oldest son is at CHS and is really enjoying Humanities. He wants to study Humanities at College level and in the proposed plan it would be taken away from him. The bus time to the propose	better than	2	7	4	In the feasibility study our polygon would be left as it is now and not being redistricted.	Those different plans are confusing to anyone in my neighborhood.
580	DaytonOaksES	FollyQuarterMS	RiverHillHS		worse than	6	4	8	I am not in favor of the plan to reassign Dayton oaks students to triadelphia Ridge	better than	6	4	7		
581	IlchesterES			5	worse than	4			The AAC Draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.	better than	4			The AAC Draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.	
582	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13				better than	13				
583	VeteransES		ReservoirHS	3	equal to	1	4	6		equal to	1	4	6		
584	BushyParkES	GlenwoodMS	GlenelgHS	2	better than	12	4	7	Plan does not effect me, but there are some very odd adjustments to get the attendance numbers in line...for example it seems crazy to me that I could live on Marriottsville road and my child would attend Glenelg high school (much further than MRHS).	better than	12	4	7		
585	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	13	9	1	Please consider impact to school culture. It's more than moving numbers! Those leaving are impacted, along with those staying.	equal to					
586	StJohnsLaneES				better than	4	7	13	This plan will move my child from a school he can safely walk to and from to a school that he would have to be driven to. Instead of walking on safe residential seats, he would have to cross Bethany and walk along 99, which is extremely dangerous.	equal to	14	14	14	The plans are putting children's safety at risk in Ellicott City.	
587	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	4				better than	3	9			
588			CentennialHS	5	equal to	7			This draft plan is better and helps to keep the communities together. Thanks to all the people who have spent endless hours on providing a revised plan	better than	7			The logical boundary line as Frederick Road, makes a lot more sense. Again, thank you to all who are working tirelessly on this initiative	
589			MtHebronHS	1	better than	6	7	4	Please refer to the above reasons. The AAC draft plan breaks up the cohesiveness of our community.	better than	4	6		I feel that both plans would have a negative impact for many of the same reasons.	
590	DaytonOaksES	LimeKilnMS	RiverHillHS	2	equal to	11				equal to	11				
591	DaytonOaksES	FollyQuarterMS	RiverHillHS	4	equal to	11	7	8		better than	9	7	4		

592	VeteransES			1	better than	13	7		Moving polygons 1101 and 110 away from Veterans does nothing but tear apart families and the community. We are a very happy Veterans family, do not move us!!	better than	13			These polygons 1101 and 110 should not be moved. It will not help Veterans as you are still adding students from Hollifield Station. Keep our community and family together!	This would negatively impact my family immensely. My last child's last year of elementary school should not be spent at another school! And we are walking distance to the school and the Y. Don't break up our community!
593	HammondES	HammondMS	AtholtonHS	5	equal to	7	6	8		better than	6	7	9		
594	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	1	better than	6	14	14							
595	ClemensCrossingES	WildeLakeMS	AtholtonHS	5	equal to	6				better than	4	6	7		
596	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6	7	4	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. Our feeds will continue with this drafted plan. Our students who can walk to Howard can keep this option when staying after school.	better than	4	6	7		
597	ClemensCrossingES			1	better than	13			This new proposal doesn't allow my kids to attend the same ES.We are in area 134.This to me still doesn't make sense, as it doesn't push students out west, instead brings them in where there is overcrowding. What about Clemens Crossing and Clarksville MS?	better than	13				
598		MurrayHillMS	AtholtonHS		better than	8			No high school students should be moved at this time which is why ANY plan would be worse than the current attendance areas.	better than	10	9	8	This plan is 100% better. Previously Atholton had 65% of kids leaving even though they had demographics matching the county and were not overcrowded. The movement of kids should be kept between the overcrowded to the underused schools. Preserve AHS.	Overall I do not believe ANY walkers should be put on a bus to another school. So happy that Atholton is largely preserved. Please keep it this way. Please continue to minimize number of kids moved, especially at the high school level.
599	VeteransES	EllicottMillsMS	CentennialHS	1	better than	13	4	6	A lot of the kids from Worthington ES have a different MS and HS than my child's polygon (1101). I don't like the fact that friendships established in ES will wither if kids ends up in different schools. Keep 1101 within Veterans ES zone.	better than	6	4	13		
600	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	equal to	9	10	8	Too high turnover for WFES. Demographics change for WFES. WFES more under capacity. Plans for new elementary school? How many times must we change school dynamics?						
601		DunlogginMS		1	better than	1			This plan would split our negohborhood in two. Not fair or equitable.						
602		MayfieldWoodsMS		1	better than	9	4	6		equal to	14				Students in Elkridge should not be delivered 1/2 way across the county to Oakland Mills. It makes no geographical sense.
603	WestFriendshipES	MountViewMS		1	better than	4	13	1	Plan unnecessarily moves more students than needed and now impacts HS and MS. MVMS and MRHS are just over a mile away and my kids will be routed to schools that are not neighborhood schools, in order to bring in children from 5 miles or more from the east	better than	4	10	13	The feasibility plan only impacted my child's ES. Now all schools are being impacted. There was no reason to make changes to MS and HS as there was plenty of capacity. Feeds are important but not at the risk of impacting educational parity. MRHS >GHS.	Watching meetings and being forced to tweet our concerns in 250 characters without being able to explain ourselves or see comments being considered is painful. I watched someone familiar with schools in the west being outspoken by members from the east.
604	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	3	4	2	The proposed AAC plan doesn't consider overall purpose of redistricting, but rather rushly meets immediate overcapacity issue. I don't see any benefit to implement the plan.	better than	2	1	4	The proposed AAC plan doesn't use Policy 6010 as main guideline to make recommendation, but consider so-called neighborhood tradition.	This is why Polygon 147 was not affected at all in the Feasibility Study Plan. But in AAC plan, it was moved at all three school levels because the committee wants to keep 1184 and 153 in CHS, which were proposed to move to MRHS in feasibility plan.
605	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7	7	7	Thank you for maintaining the logical boundary of Frederick Road in districting considerations.	better than	7	7	7		
606	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	7	8		better than	6	8			Thank you for hearing our concerns and acting on them. It is our hope that our community will remain at Howard at least until high school #13 opens, so that we go through a major redistricting only once in a short period, rather than twice.
607	FultonES			1	better than	4	13	7	I am appalled with the proposal to move students from Fulton neighborhoods away from Fulton Elementary to Pointers Run. We specifically moved to be part of the Fulton community so that our child could attend Fulton Elementary.	better than	13	4	7	I do not understand why the AAC plan has people in Laurel attending Fulton Elem. and people who live in Fulton attend a school so far away. This change would have a major negative impact on my child being the third school in 4 years.	My child is very happy at Fulton Elementary and would be devastated to have to change schools again. Please leave Fulton neighborhoods at Fulton Elementary! I hope to hear very soon that this terrible proposal will not move forward.

608	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			I am in support of this redistricting map as it pertains to my neighborhood, 153/1153, which was arbitrarily divided in the initial feasibility study. Thank you for considering this concern and maintaining the logical boundary of Frederick Road.	better than	7				
609	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	4	6	7		better than	4	6	7	The original feasibility study is better. River hill community (polygons include 1187---128) is closely connected, kids go to the same middle school, and they should go to the same high school.	
610	RockburnES	ElkridgeLandingMS		5	equal to	6	6			better than	6	6			The AAC did an excellent job in listening to the communities concern that we want feeds to be kept from one school to the next. Also, realizing that we should not be moving students and then building another high school to move them again.
611	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6	2	7		better than	1	2	6		
612	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	7	9		better than	13	9	7	Strong consideration to negative impact to family should be made when making decision to move communities from one of the best school district (Centennial) to one of the underachieved (Wilde Lake). This is playing with people's lives.	
613			MtHebronHS	1	better than	7	4	13	After 15 years within earshot of the school, and one rising sophomore, this plan surrounds our neighborhood both east and west by kids that will continue to attend Mt. Hebron while ours will be shipped 8 miles further WEST. Unacceptable and detrimental.	equal to	7	4	13	Both plans move my students and neighborhood and the impact is the same.	My daughter graduated mt hebron in 17. But my son, who is in the mt hebron marching band, will need to transfer to a different school. We live less than 1/2 mi. from Mt Hebron. Senseless.
614	CentennialLaneES	BurleighManorMS	CentennialHS	5	worse than	7	4	1		better than	7	4	6		
615	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	equal to	1	4	6		better than	1	4	6		
616	DuckettsLaneES	ThomasViaductMS		1	better than	7	13	4		better than	4	2	6		
617			CentennialHS	5	equal to	11			As new residents whose children will be starting at Centennial High School this fall, we strongly prefer that they not experience another change after this year, after moving and adjusting to a new school this year.	equal to					
618	AtholtonES			1	better than	6	7		We live in the Allview neighborhood, currently zoned for Oakland Mills Middle and High Schools. I have no idea why our students would be forced to go to Lake Elkhorn Middle and then Wilde Lake, which would mean they would have zero continuity in community	better than	13			I just don't understand the logic of any of the studies for my neighborhood. Students should be with the same group consistently across elementary, middle, and high schools.	
619	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7				better than	7			I prefer this version, where our neighborhood remains districted to the same high school. The feasibility study divided the neighborhood arbitrarily.	
620		ElkridgeLandingMS	HowardHS		better than	6	13			equal to	6			The eastern side of the county is yet again neglected. ELMS has at least 90% or more going to HHS, and there remains a small unfair feed going to LRHS. Larger ore affluent neighborhoods such as Lyndwood fought LRHS and left all of us yet again.	The county needs to NOT redistrict High Schools. The eastern part of the county will be redistricted yet again with the new HS and our kids will be moved 2 times within a short time. Take a look at who fought LRHS, the school will be unbalanced.
621		HarpersChoiceMS	WildeLakeHS	3	equal to	12	9	7	Splits Longfellow neighborhood with some students going to HCMS and some to WLMS	better than	13	6	4	This plan is actually much improved for ES and MS, however it severely negatively impacts Wilde Lake HS by moving needed neighborhoods to River Hill HS.Wilde Lake is not over capacity and students should only be added, not removed.	
622	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13	This plan splits the Dunloggin neighborhood, which currently attends Centennial HS, between Wilde Lake and Centennial HS. The Dunloggin neighborhood attends elementary and middle together and has very strong social and community ties.	equal to	7	4	13	This plan proposes to solve the problem of splitting the Gray Rock neighborhood between high schools by splitting the Dunloggin neighborhood. It is equally wrong to split Dunloggin. The plan even splits my street (Chatham Road) in two.	There are 2 high schools that are closer than WLHS (Centennial and then Hebron). Dunloggin neighborhood children have strong social and emotional ties to one another. This plan is bad for all children in the Dunloggin neighborhood.
623	ThunderHillES	DunlogginMS	WildeLakeHS		better than	13	3	4	I purchased a house in Meadowbrook Farms due to the schools that serve this neighborhood. It is unfair to lump a small EC neighborhood into a larger Columbia group. Please reconsider this quadrant (1111) to continue to feed into Dunloggin and Wilde Lake	better than	3	4	8		
624	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	9			keep polygon 147 at CLES, BMMS, CHS	better than	9			keep polygon 147 at CLES, BMMS, CHS	

625		HarpersChoiceMS	WildeLakeHS		better than	14			With such a HUGE change to schools & our communities--WHY are we rushing this process?? You are making changes that will have + & - on our communities--it deserves a MUCH LONGER time to figure out. Fill the new school for 2018 & make larger shifts later	better than				You changed our ES to Swansfield (I guess bc its hard to follow the map) when this wasn't even proposed in the study. I would prefer the approach suggested in the study--CCES, WLMS, & AHS. We live closer to AHS than WL & our kids would stay w/ ES friends	These plans are shortsighted and do not take into account future growth in Maple Lawn & the new HS for 2020. Plus you are taking solid middle/upper class neighborhoods out of WLHS & moving to RHHS--concentrating poverty in Columbia schools.
626	FultonES	HammondMS	ReservoirHS	3	worse than	1	6	2		equal to	1	6	2		
627	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	7			13	13	13	What is the justification to move communities from Centennial school district to Wilde Lake school district? Why not redistribute students within the same school regions as established in the Feasibility Study?	
628	VeteransES	EllicottMillsMS	CentennialHS	1	better than	7	6	9	I do not like this plan because my child would be moved from Veterans ES when we live 5 minutes from the school	better than	6	7	9	The AAC is far worse because my child would be moved away from the school 5 minutes from our house	
629	GormanCrossingES	MurrayHillMS	AtholtonHS	4	equal to	8			Would prefer that only elementary students be redistricted.	better than	9	10	8	This draft plan preserves Atholton! Thank you! Atholton is a great school as it is and it was not necessary for it to be sacrificed like it was in the feasibility study.	Please continue to preserve Atholton. In general, walkers should NEVER have to go to a different school. The minimum number of students should be moved.
630		MurrayHillMS		1	worse than	14				better than	14				
631		MurrayHillMS		1	worse than	14				better than	14				
632	CentennialLaneES		CentennialHS	1	better than	9	4	3	The proposed school is further away from the current school. That would take into the my child's time to complete other activities. My child has acclamated to the current school and changing the schools and the environment would negatively impact the ed	equal to	3	4	9	Change in school would negatively impact the education and the psyche of my child leading to major pshycologocal problems.	Considering that we moved to this area fir the current schools another move via redisticting is going to impact my daughter eduvsational motivation
633				5	worse than	9			Highly rated schools needs to be more diversified and this draft plan certainly addresses the points!	better than	9	6		Feasibility Study shows the initiatives, but the draft plan took in shortfalls from the study and made it better!	
634		LimeKilnMS	ReservoirHS	1	better than	6	7	4	Our polygon is only 15 kids for HS. Distrupting 15 kids and putting them in a school where they know no one is devastating. How do they make an impact by moving them? It doesn't. Being part of a tiny group that is moved causes me grave concern for my son.	better than	6	7	4	Devastating for all above. A small group will be moved to a school with virtually no one else from their school going. Our polygon has only 15 high school kids!!!	
635	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	2	3	1	The AAC plan creates very odd situation for Polygon 147, a newly built neighborhood. Most children just transferred from other schools and started building their friendship at new school. Now the AAC plan decided to move them again, which is ridiculous.	better than	2	3	4	The AAC plan tries too much to accommodate the community's inputs but ignored the criteria we need follow for school redistricting, such the ones I mentioned above.	
636		BurleighManorMS	CentennialHS	4	worse than	4	6	7	I like that neighborhoods are kept together - Font Hill. And new development is moved instead - Centennial Overlook	better than	4	7	6	Feasibility takes kids who are just over a mile to closest high school to school 7 miles away. Also splits neighborhoods and allows new development to get priority over exciting established neighborhoods.	Keep neighborhoods together - this build's good communities. Do not move students who could ride bike/walk to school just to fill under capacity schools. Insist that new development be the ones who move to under capacity schools.
637		BonnieBranchMS	HowardHS	5	worse than	7	4	1		better than	7	4	6	My neighborhood consists of polygons 95, 1095, and 2095. I believe this plan keeps our neighborhood at Howard which is within walking distance and limits the transportation distance and cost. This plan also moves less students overall and improves feeds	I am strongly in support of this plan!
638	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	7		better than	13	13	13	Common sense should reign when considering moving communities from one of the best school district to one of the worst. The home is the single biggest investment. This decision will doom a lot of families including myself.	
639	ThunderHillES	DunlogginMS	WildeLakeHS	1	better than	4	9	2	Meadowbrook Farms and Columbia Hills are being unfaitly combined into Columbia. Our Ellicott City addresses should feed into Ellicott City Schools. This plan will dramatically reduce Ellicott City Property values and is not fair.	better than	3	4	13		
640			CentennialHS	1	better than	7	13	9	The Dunloggin/St. Johns area should not be split between high schools. Please reconsider.We moved into this neighborhood specifically for our child to attend Centennial High School.	better than	1				

641		ElkridgeLandingMS			better than	7	6		Small feed from Elkridge Landing MS to LRHS. Lynwood is now not part of the LRHS move. Unfair social economically to surrounding less affluent neighborhoods that are now small feed to LRHS and no longer going to Howard. UNJUST.	better than	6	8	7	In the feasibility study, almost all of ELMS was going together to LRHS. Now ELMS remains with a small feed to LRHS and this is primarily with smaller less affluent neighborhoods.	Do yourself a favor and do NOT redistrict HS until the new HS is built. You will be changing too many kids within a short amount of time. NOTE: unable to pin exactly where we live due to map below not allowing location pin.
642			RiverHillHS	1	better than	8	13	5	I moved to my current residence to send my four children to RHHS. My second child will be in his junior year when he goes to the different school which will affect planning for college.	equal to	11	14	14		I think that the our area should stay at the current school. I do not want my child to change high school in the mid way.
643	VeteransES	EllicottMillsMS	CentennialHS	2	better than	7	11		It breaks up our neighborhood at the elementary level. Kids should have a chance to make friends at school who live close enough that they can walk or ride bikes to each other' houses.	better than	7	11		The Feasibility Study broke up our neighborhood even more than the AAC Study does.	Growing up is hard, we shouldn't make it harder. I feel strongly that 2017-18 4th, 6th, 7th, 9th, 10th, and 11th graders who are redistricted should be able to complete their level of school at the school where they started if they choose to.
644		BonnieBranchMS	HowardHS	5	worse than	1				better than	7	4	1	Polygons 1095, 2095, 95 & 84 strongly support AAC's plan for NE portion as our neighborhood is less than a mile from Howard High; reduces transportation costs. AAC plan moves fewer students countywide & effectively addressing overcrowding. Very good plan!	Excellent AAC plan. Thanks to the AAC members for their hard work.
645		PatapscoMS		1	better than	4	3		Bussing walkers doesn't make sense.	better than	4				Bussing walkers makes no sense.
646	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	9	13	7	The AAC draft plan does not provide the same level of justification as the Feasibility Study. Is financial impact to families considered when moving communities from Centennial to Wilde Lake? I implore your better judgments.	
647	TalbottSpringsES			1	better than	7	13			equal to	7	9			
648	NorthfieldES			5	worse than	6	6	6	The AAC plan makes more sense. It is defined by visual boundaries and most importantly it addresses feeders. The current attendance area has some "feeders" making up less than 10% of the next school it is going into.	better than	6	6	6	The AAC plan addresses feeders. A healthy feeder system creates stability among students and families.	Make great feeders a priority. No school should make up less than 25% of the next school it is going into.
649	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13	The Dunloggin Community is being split in half with the AAC draft plan, with half going to WLHS and half to Centennial HS. Our established and tight-knit community needs to be kept together!	better than	6	7	13	Neither plan completely keeps our Dunloggin community together. However the AAC draft plan splits our community in half, splitting into two feeds to different high schools. This would essentially ruin our Dunloggin community.	We want to keep our Dunloggin community together. The AAC draft plan would tear apart an established, cohesive community. Our children would be split from half of their friends when entering high school.
650	NorthfieldES	DunlogginMS	WildeLakeHS	5	worse than	6	7	10	The addition of more NES and DMS students to WLHS will allow a larger feed into WLHS and provide more economic diversity. This move would make WLHS more balanced in many ways and keep the entire NES and DMS community together.	better than	6	7	8	The NES and DMS communities are maintained on the new proposal versus the Feasibility Study, and the new proposal makes our community have a more significant impact on WLHS. This proposal looks MUCH more balanced.	
651	WestFriendshipES				better than	4	3	7	Wfes is 2.5 miles from my home in polygon 1229. Bpes is 7.5 miles away.	better than	4	2		The draft plan wants to send polygon 1229 to glenwood and instead of the schools we can literally walk to (mt. View and mrhs). This will make my children have take longer transportation to and from school.	Both the feasibility study and draft plan are irresponsible for keeping the students best interest in mind. Breaking up neighborhoods and making students travel double the time to school makes no sense. Please reconsider the 32 corridor plan.
652	PointersRunES			1	equal to	6	4	13	All of my children's classmates from Elementary and middle schools will be at River Hill and River Hill is just around the corner from our house.	better than	4	6	7		
653			CentennialHS	1	better than	13	6	4		better than	13				
654	WorthingtonES	EllicottMillsMS	MtHebronHS	2	equal to	4	7	13		better than	4	7	13	Polygon 2093 is approximately 1 mile from Howard High School and over 5 miles from Mt Hebron High School. The original plan moved 2093 to HHS and this revision keeps 2093 at MHHS. I do not understand this - please reconsider.	Please don't allow the vocal minority overrule the residents of affected polygons.
655	NorthfieldES	BurleighManorMS	CentennialHS	2	better than	7				equal to	7	14		This plan fixed one neighborhood being split- Grey Rock only to split Dunloggin instead. It doesn't make sense to draw CHS boundaries around that of another school. The new plan seems to impact even more students than the grey rock split did.	
656	RockburnES	ElkridgeLandingMS		1	equal to	6	8	7							
657	CentennialLaneES			5	equal to	6	6			equal to	14				
658	WestFriendshipES	MountViewMS		1	better than	6	9	4		better than	6				
659	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	What is the justification to move children from Centennial to Wilde Lake? The negative impact to the families that pay a premium to be in Centennial is immeasurable.	We spent our entire life savings to find a place in Centennial school district for our kids' future and we now feel helpless that we may possibly lose everything.
660		BonnieBranchMS	HowardHS	5		7	4	6		equal to	4				
661	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	Centennial district to Wilde Lake district? Please reconsider.	

662			CentennialHS	3	equal to	3	4	8		equal to	1	2	3		
663	LisbonES	MountViewMS		4	worse than	11				equal to	11				
664	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	9	4	6		better than	2	3	4		The redistricting of schools will greatly disturb my child's learning and continuity of education through the crucial high school years. This could enable her to develop social and psychological deficits which would make her more vulnerable to bullying.
665	CentennialLaneES	BurleighManorMS	CentennialHS		better than	13	13	13		better than	13	13	13		
666			ReservoirHS	1	better than				How did Atholton suddenly only have ONE polygon of movement? And now Reservoir and Wilde Lake are affected? My kids have attended FUlton and Lime Kiln and will know no one at River Hill.	better than				Same as above. 15 kids only in our polygon for high school and you just included us in this plan when not there before and atholton barely affected anymore. Transportation also a huge issue. I hope it didn't change because of squeaky wheels.	Why western Reservoir boundary was suddenly affected (and only 15 kids in our polygon) and atholton no longer affected makes no sense logistically or socioeconomically. We will be separated completely from our neighborhood.
667	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	13	14	Moving from a greatly rated school into a least rated school is not making any sense. The properties were purchased with the current schools (CLES, BMM, CHS) in mind paying very high price. If we were to be in proposed school district we would - contd	better than				have bought houses paying much less.There are apartments and town homes from outside of 29 and 40 coming to CLES, BMM and CHS. What is the rationale in redistricting us(Centennial overlook community Polygon 147) from current school system to the - contd	school system. We pay property tax for schools and it should mean something to us.
668	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7			This basically splits the Dunloggin neighborhood in half. My daughter is now crying scared as her friend group that all walks to each other's houses would be split in half. Why not instead move less kids from Wilde Lake to Oakland Mills....	better than	13				why move high schools at this juncture as they will need to move again once new high school is built. This splits our neighborhood
669	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	11	14	14		better than	11	14	14	The AAC draft plan is preferable to the Feasibility Study Plan as with the AAC draft plan, there would be minimal impact on my family and neighborhood.	
670		MurrayHillMS			worse than	14				better than	14				
671	NorthfieldES	DunlogginMS	CentennialHS	3	better than	7	13	6	It will be a significant change for us as it will split our Dunloggin neighborhood which is very unfortunate for our kids who will be split up the middle and be at two different high schools. There are five high schoolers projected in our polygon.	equal to	7	13	2	The new high school will make more changes in just a few years, affecting our kids again. It is a necessary evil we know, but sad nonetheless.	
672			CentennialHS	1	better than	7	10	4		better than	4	7	9	The feasibility study makes more sense	
673	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	I do not understand the rationale to move communities from Centennial district to Wilde Lake district when the negative impact to the families are so significant.	
674	VeteransES	EllicottMillsMS	CentennialHS	1	better than	6	6	7		better than	6	7	14		
675	BushyParkES			5	equal to	6	1	12	I think this draft plan moves students to schools that are under utilized in a way that those neighborhoods would not have to move again when redistricting happens in the future.	equal to	1	4	6	My children would not be directly effected by the draft plan or feasibility study, other than understanding that some of their friends would be moving to a new school. I feel that some plans need to begin with movement in the western part of the county.	With the growth in the county it seems that there will always be the issue of over crowded schools and redistricting. The county development team needs to look at the amount of building that is going on and begin to limit what can be built in crowded area
676	DuckettsLaneES	ThomasViaductMS	LongReachHS	3	equal to	11				equal to	11				
677	AtholtonES	HammondMS		2	equal to	6	7	9	The plan forces the Allview community out of Oakland Mills Middle where they provide a different demographic and are happy to be there.	better than	6	7	4	The new plan splits the elementary school down the middle. These same students will then have to pass Atholton High School to go to Wilde Lake.	
678			LongReachHS	2	equal to	14				equal to	5				
679			MtHebronHS	1	better than	4	7		We are walkers to Mt. Hebron High School. To now bus any walker to another school 8 miles away negatively impacting students and paying for unnecessary transportion cost is unacceptable as a tax payer of this county.	better than			13	I believe that when the redistricting process was announced it was only announced as a elementary redistricting and this was not a fair process to allow middle and high school parents to become involved as we were unaware of a effect on our students.	This plan B is unacceptable to me and as a tax payer in this county. This process was forced upon us and not transparent to be targeting high schools. Build a new high school where it is needed in the east. Do not my out children pay for past poor plan!
680	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	7	13		better than	6				There are already few students from Clarksville MS that attend Atholton and now there are more current CMS students that are moved to River Hill while our polygon 129 remains at Atholton. There will be even fewer kids that move from Elem to high school.
681		BurleighManorMS		5	equal to	7				better than	7			Keeps communities together and maintains logical boundaries.	Thank you for your efforts!
682	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	7	1	4	Students should not have to cross major roads/highways to reach their designated high school (see Atholton zones and Wilde Lake Zones per the AAC plan).	better than	7	4	6	I support the proposed Feasibility Study Plan and the supporting analysis. Years ago the River Hill neighborhood was split with half of the neighborhood re-zoned to Atholton. The situation is rectified under the FS Plan by rejoining the two neighborhoods	The FS Plan makes more sense for several reasons: it groups whole neighborhood together, it keeps these groups moving from ES to MS to HS together; and it more efficiently fills the low enrollment schools with a LONGER TERM solution.

683	ClemensCrossingES			1	better than	7	6	13	My main concern is our neighborhood's proposed change from Wilde Lake HS to River Hill HS. Our neighborhood (Harmel Drive) is close to both Atholton HS & Wilde Lake HS, but far from River Hill. A move to RHHS would break up our community.	better than	7	6	13	The feasibility study made sense, as our neighborhood is close to Clemens Crossing, Wilde Lake MS, and Atholton HS. (Swansfield & HCMS also makes sense). However, the draft does not make sense and would break up our community at the high school level.	
684			CentennialHS	1	better than	7	4	1	This creates an even more bizzarely shaped Centennial school district primarily to appease the Gray Rock community. Objections of one community should not override the original more objective feasibility study. Alternatively, start the process over.	better than	7	4	1	This creates an even more bizzarely shaped Centennial school district primarily to appease the Gray Rock community. Objections of one community should not override the original more objective feasibility study. Alternatively, start the process over.	Introduction of the AAC changes this late in the process compared to the Study does not provide sufficient time for adequate analysis and comment. The Centennial redistricting should be postponed and reconsidered next year with a new feasibility study.
685	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8	The AAC has done great work in listening to the community concerns and coming up with an excellent draft plan. This is the optimal plan until the new Howard County High School is built.	better than	6	7	8		
686			MtHebronHS	2	worse than	1			I understand that restructuring attendance areas needs to happen in order to more efficiently fill seats across school areas. However, the changes should be phased in so that high schoolers do not get uprooted from their communities with only 2 yrs left.	equal to	6			Again, the phase-in period should allow for students who have attended school with a group of students for many years to remain with them for their junior and senior years of high school.	
687	HammondES	HammondMS	AtholtonHS	5	worse than	7	10	6		better than	7	10	6	This proposal is way better than the original proposal and looks like redistricting is on a smaller scale while still achieving the same utilization rates. We really appreciate your time and effort in trying to make this happen.	
688	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	8	6	AAC proposal makes sense! The feasibility study did not.	better than	6	8	7	The AAC plan makes a whole lot more sense than the feasibility study. Would also like them put forth recommendations to protect rising juniors.	Great job AAC members. This plan makes a lot of sense. Thank you for doing what is the best interest of the Community.
689	NorthfieldES			1	better than	7	13	9	For polygons 150, 4150, 1150, & 219 moving to Wilde Lake HS from Centennial HS breaks up the Dunloggin neighborhood into two different high schools. Wilde Lake is also about double the commute time (9 minutes vs 17 minutes) from Dunloggin neighborhood.	better than	7	9	13	For polygons 150, 4150, 1150, & 219 moving to Wilde Lake HS from Centennial HS breaks up the Dunloggin neighborhood into two different high schools. Wilde Lake is also about double the commute time (9 minutes vs 17 minutes) from Dunloggin neighborhood.	
690	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13			move polygon 1184 to Manor Woods ES, Mount View MS, Marriotts Ridge HS keep polygon 147 at Centennial ES, Burleigh Manor MS, Centennial HS	better than	9				
691		EllicottMillsMS	MtHebronHS	5	worse than	6	7	14	I support keeping polygons 2093, 3093 & 4093 in the schools they currently are at & not moving them. By leaving them out of redistricting, you will keep a 100% feed from worthington Elem to Ellicott mills middle and a 100% feed from WoES to Mt Hebron.	better than	6	7	14	I support keeping polygons 2093, 3093 & 4093 where they are & keeping them out of redistricting. By leaving them alone, you maintain a contiguous community and you keep the neighborhood of worthington Intact. Also these polygons should not be moved east!	Keep Worthington Intact by leaving polygons 2093, 3093 & 4093 where they are. Keep us free from redistricting so that we can maintain a contiguous community. Please don't move us eastward. We would like to keep our 100% feeds. Thank you.
692	IlchesterES			5	worse than	6	7	8	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	better than	6	4	7	The AAC Draft plan improves the feeds from elementary to middle and from middle to high school. It keeps strong feeds within the northeast schools. The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the north	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.
693	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	3	2	6		better than	2	3	4	The AAC plan doesn't follow the Policy 6010 to make recommendations, but rather uses biased inputs from certain individuals in the survey. As seen in the summary, one comment repeatedly picked Polygon 147 to be redistricted because it is new neighborhood.	I don't recall a new built neighborhood is one of the criteria in Policy 6010 to be redistricted.
694	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	9	7	10	There are others areas that are completely outside and far distance from schools that are included but redistricting the area that we are in which doesn't make sense	better than	9	10	7	AAC is planning to redisrict the homes that are very close and minimal distance than other area and homes that are far which doesn't make sense than feasibility study	
695	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	14			The AAC draft plan makes better use of the current utilization while reducing overcrowding in the northeast part of the county.	better than	14			The AAC draft plan moves fewer students than the feasibility study throughout the entire county and reduces disruption. Additionally, the AAC draft plan utilizes capacity in the west while reducing the domino effect of moving polygons west.	Polygons 95,1095,2095 and 84 make up a contiguous neighborhood (less than 1mi from Howard) that strongly supports the AAC draft plan for the northeast portion including Ilchester, Bonnie Branch and Howard.

696	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	10	7		better than	13	8	9	We just moved to the area from Chicago to this wonderful new neighborhood to be in the Centennial school district. This plan would require all my children to readjust and move to another school. This impacts our family very negatively.	
697	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	4	2	The current schools are good and it is the main reason that we moved to here. My daughter takes long time to adjust to the new schools and she like them. She feels very dad that AAC suggested to move us.	better than	2	3	6	Feasibility study shows that Centennial High and Burleigh Manor Middle school have no over capacity issue for next 5 years. There is no need to change the area 147 from Centennial to Wide Lake area to cause extra troubles to our communities and families.	I believe that feasibility study report had been done professionally and it had well taken care of the everything in terms of the school long term growth plan and capacities. Can't see any reasons to move district 147.
698	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	This is a drastic deviation from the proposal in the Feasibility Study and has very significant negative impact to more than 100 families. Most of us are new to the area and therefore did not participate earlier as we try to settle into the area.	I beg you to please reconsider.
699	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	4	2		WHY do you propose to move neighborhoods that can WALK to current schools (even if they are not an official walker) and send them to schools far away? 29 is a major highway and neighborhoods SHOULD NOT be sent to schools that require them to cross 29.	better than				AAC plan has ES & HS change that was not in the study & does not make sense. We can walk to AHS or WLHS. Why not send Elkhorn to RHHS rather than WLHS. Your plan is concentrating poverty in Columbia high schools & making western schools more wealthy.	This plan makes no sense for my polygon. Keep current study suggestion CCES, WLMS, AHS--minimal shift for our kids, our HS kids can walk home from school practices, and it cleans up our feed. Please rethink your plan & its impact on West Columbia
700	PointersRunES			5	equal to	11				better than	11	10	8		
701	ManorWoodsES	MountViewMS	MarriottsRidgeHS		better than	13	6	9		better than	13	6	9		
702	WestFriendshipES			1	better than	13	9	4	This is will be a negative impact on us because of the extra time and transportation it will take to get my kids to get to and from school. Strong friendships will be broken and there is a lot of stress on a child to move schools.	better than	13	9	7	It was bad enough that my children might have to move away from their elementary school they like but now they will also have to travel further for middle and high school. This is a lot of stress on us with the extra distance.	We moved here one year ago for these schools. Starting, again, at a new school will create stress of making new friends, meeting new teachers and staff, and learning a new school all over again.
703			CentennialHS	5	equal to	7	14	4	Thank you for keeping our neighborhood (153,1153) together. We are a small, distinct neighborhood dividing us would have had very negative effects on our students, and made parenting them more difficult.	better than	7	4	14	Using Frederick Road as a boundary line makes a lot of sense.	Thank you again for keeping polygon 153 & 1153 together and at the same school. It is important to us that our students have the security of the neighborhood and the friends in it; which would have been lost if divided.
704	DaytonOaksES	LimeKilnMS	RiverHillHS	3	equal to	1	12	2		equal to					
705	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6			better than	7	6			
706	VeteransES	EllicottMillsMS	CentennialHS	1	better than	7	4	13	Veterans is practically in my backyard. We can see and hear the kids at recess. Please do not send my child to a different school when she will have to see the old one she loved every time she looks out her windows. This just doesn't make sense.	better than	7	13	4	The proposed elementary changes for the AAC plan seem worse. Middle/high school changes seem ok. Neighborhoods in such close proximity to schools should not be redistricted. We can easily walk to our current elementary school (veterans).	We love veterans and want our polygon and adjacent one in our neighborhood to remain there. Both, but especially ours (1101) are extremely close- as in a 5 minute walk. We can even hear the daily announcements! It would be depressing not to attend VES.

708	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13		
709	NorthfieldES	DunlogginMS	WildeLakeHS	2	better than	6	2	4		better than	6				
710	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	8	9		
711			MtHebronHS	1	better than	4	7	13	The fact that we are currently walkers to Mt. Hebron and we would be moved to a school that will require a 15-20 bus ride is ridiculous.	better than	4	6	7	The fact that the Feasibility Study has us as walkers to Mt. Hebron and the fact that we would be moved to a school that will require a 15-20 bus ride is ridiculous.	
712		HammondMS	HammondHS	1	better than	6	7	13	a very small number of kids being moved from Hammond HS to Wilde Lake HS; my kids have NEVER attended school with any of the other kids who will be at Wilde Lake. We live MUCH closer to Hammond and Atholton. It's like moving to a new district for them	better than	13	6	7	Moving from Hammond to Atholton HS is not ideal, but at least makes sense geographically. We are within a couple miles of both high schools. Plus, my kids have gone to school with kids at both Atholton and Hammond.	I am polygon 2056. The Magills and Allview neighborhoods have been carved out and placed into a district that does not even border the Wilde Lake district. It splits us with neighborhoods in our own village! We will be isolated from most of WL Community
713		DunlogginMS		1	better than	1	6	7	This plan splits up our neighborhood and separates students needlessly						
714	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
715	TriadelphiaRidgeES			5	worse than	7	2	3		equal to					
716	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	6	4	7		better than	6	4	7		
717	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	This draft plan will absolutely ruins our family financially. Please reconsider the drastic proposal to move family from Centennial district to Wilde Lake district.	
718	ForestRidgeES	PatuxentValleyMS		5	equal to	7	6	1		better than	7	6			
719			AtholtonHS	1	better than	7			Families that live in the village of river hill should go to river hill hs. Same goes for students who live in the village of Wilde Lake.	better than	7				

720			RiverHillHS	1	better than	13	6	4	As stated: The recommendations in this document do not include phasing-in rising 11th graders	or allowing trailing siblings." At a minimum the plan should provide the option to phase in rising rising better thanbetter than graders. A significant failure to family otherwise"	3	13	4	9	As stated: The recommendations in this document do not include phasing-in rising 11th graders or allowing trailing siblings." At a minimum the plan should provide the option to phase in rising rising 11 graders. A significant failure to family otherwise"
721	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	better than	13				better than	13				
722			WildeLakeHS	1	better than	4	7	13	Why do the drafters of these plans always place my neighborhood (polygon 111) in a school more remote than the last one? Keep us at Thunder Hill ES or move us to Veteran's ES. Keep us at Dunloggin MS or better yet, move us to Ellicott Mills.	better than	4	7	13	The AAC plan moves my neighborhood to an elementary school much further away than the current one, not to mention miles further than the one nearest to my house. Stop treating my neighborhood as an afterthought.	
723	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	We moved from Pennsylvania and my child is absolutely loving Burleigh Manor and his new friends. This proposal negatively impact us both family life and financially. We will most probably be underwater financially with no recourse. Please reconsider.	
724			MarriottsRidgeHS	1	better than	6	7	10	This isolates 40 kids (frim all four grades!) who currently attend MRHS, and will be sent to RHHS. 40.....to a school that is, for the most part, staying intact! These kids are such a small feed that they will be outsiders! It is unconscionable.	better than	6	8	7	Redistricting HS kids should be abolished. A phased-in approach is the only humane way to transition. Kids, especially from such a small feed will are at high risk for extreme emotional distress.	They have now isolated 40 kids (TITSK -all four grades!) who currently attend MRHS, and will be sent to RHHS. 40.....to a school that is, for the most part, staying intact! These kids are such a small feed that they will be outsiders! How can this be all
725	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	7	4	6		equal to	4	6	7		
726			MtHebronHS	1	better than	4	8	7		better than	4	2	7		
727	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	7	13	13	The AAC draft plan makes absolutely no sense. I like the current school attendance areas because it keeps the neighborhood and the students together. The AAC committee need to consider the student development not picking 1 polygon and throw at another.	better than	13	6	4	Please remove the AAC Draft plan, it makes no sense and worse than the feasibility study. The feasibility study has already caused so much damaged to the communities and the students.	Please consider the student development (mentally and academically)
728	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	Please consider the negative impact on the child moving from Centennial High School to Wilde Lake High School.	
729	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		Moving a child (like mine) during high school would be extremely difficult for him and I think it would have a very negative effect on him. I believe it could lead to serious problems like depression.
730	ElkridgeES			1	better than	6	4	3	Redistricting must happen to fix the severe over crowding, but the AAC draft is not an appropriate way to address overcrowding. This plan trades overcrowding for much longer commutes and breaking up neighborhoods. The Feasibility Study is a compromise.	better than	7	6	4	The Feasibility study made much more sense because it kept kept more neighborhoods together for high school. AAC is making transportation much more difficult for some students instead of spreading the transportation woes more equally. Very disappointing.	I'm not sure why the Feasibility Study has been replaced with the AAC, but I hope that this will be replaced with something that makes more sense for everyone. I would ask that you consider returning to the Feasibility study which was more equitable.
731	JeffersHillES			1	equal to	9	5		No change made	equal to					
732	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	We are working double shifts so we can afford our house in the Centennial district so our children can be in one of the best school district. This plan to now move us into the Wilde Lake district is devastating. I beg you to reconsider.	
733	WaverlyES			4	worse than	4	6	8		better than	4	6			
734			CentennialHS	1	better than	13			My child has been able to walk to his middle school and now attends high school with his neighborhood friends this is the only reason we moved to our home in dunloggin	better than	6				
735		PatapscoMS	MtHebronHS	1	equal to	6	13		Our neighborhood is still split	equal to					
736	PointersRunES	ClarksvilleMS		1	better than	7	6	4	Regarding the Clarksville middle school reassignments- it is strongly suggested to keep together students who live in river hill pointers run areas and surrounding hall shop neighborhoods. These areas are close enough geographically to ride bikes and CMS						

737	VeteransES			1	better than	13	7	4	I think it's both ridiculous and extremely unfair to redistrict Polygon 1101 away from Veteran's Elementary School, especially since; Veteran's is basically located right next to our homes.	better than	13	7	4	With the proposed changes, our current bus route will now be split between Veterans and Worthington Elementary School with the first and the last stops staying with Veterans and the middle 2 stops going to Worthington.	Both Autumn Rust Road and Brittany Drive will now have 2 separate school buses driving to 2 different schools at the same time. It's not safe. Also it divides our community in half.
738			AtholtonHS	4	better than	8			As of last year, we were told no high school redistricting for the rest of the decade!! Even this past spring we were told that. The INTERIM superintendent should not come in and make such DRASTIC changes, especially when we were told otherwise.	better than	10	9		My children go to Atholton which was ground zero in the Feasibility Study. How anybody thought moving 65% of the students was acceptable is crazy, especially when Atholton is such a good, diverse, and not crowded school. Continue to preserve Atholton.	Minimize impact to high school students as much as possible. Preserve Atholton. Don't make changes to schools that don't need it when there are alternatives...focus on the north and moving from the crowded each to the west. No reason to touch Atholton.
739	ManorWoodsES	BurleighManorMS	MarriottsRidgeHS	4	worse than	1	6	12	In my child's current situation, she must lose many classmates when she must change schools. Unlike the students in CES -> BMMS or MVMS->MRHS, only a handful of students move from each school, with a few being her friends. This raises her stress levels.	equal to	1	4	6		
740	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	7	7	14		better than	7	7	14		
741	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	10	13		better than	13	13	13	Our new community has 32 children currently attending Centennial Lane and they will all have to readjust because of this new plan. Please reconsider.	
742		ElkridgeLandingMS			equal to	6				better than	6				
743	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	9	13	The current plan will group the middle school feeder into the same high school. But the AAC draft plan will feed the same middle-school groups into 3-4 different high schools. The community was thus split as the result.	better than	3	8	4	The same reason listed above would apply to here as well.	
744				1	better than				Why would you move kids from Wilde lake to river hill??? There is a group of kids who live in river hill, who attended Clarksville middle school, and were separated from friends and classmates to attend atholton. They should be the first moved to RHHS.	better than	6	7	13	I prefer that kids living in river hill be permitted to attend river hill rather than atholton. We are one community broken up when most attend river hill and just a few go to atholton. That should be rectified with the redistricting.	I know a teacher from Wilde lake, who has spoken critically of the snobs" in river hill and how no parents want their kids to go there. Let's start with moving kids who live in river hill to their area high school and go from there."
745	WestFriendshipES	MountViewMS		1	better than	4	3	13	The new AAC plan punishes our polygon 232 by moving us from our under capacity neighborhood schools (1.5 miles away) to schools 5 miles away because of poor planning in East. Our kids would possibly be on the bus 60 min each way. Requires $4K spend.	better than	3	4	13	The AAC draft moves polygon 232 from MVMS and MRHS to Glenwood MS and Glenelg HS. The move is not equal in academic offerings or distance. Keeping 232 in MVMS and MRHS should not disrupt capacity and would keep kids at their neighborhood schools.	Poor planning in East should not adversely effect entire county. Our small, new neighborhood is 1.5 miles from our current schools and is being displaced to schools 5 miles away with 60 min bus rides, lower academic achievements, and less opportunities.
746		LimeKilnMS		1	better than	4	6			better than	7	4			This plan does not make reasonable sense based on proximity and accessibility. I am in Polygon 1192 with easy access to LKMS but now have to go through 108 and Guilford rd intersection which is always congested to CMS. Will see major back ups on 108.
747			LongReachHS	1		13	4	6	We live off of Mayfield Avenue and my son is starting Long Reach High this year. It is a 5 minute drive to Long Reach High from our home and Oakland Mills is about 12-15 minutes away, depending on traffic. Walking home is out of the question.	better than	4	13	6	I didn't really notice where the difference was between the two. I have two sons and they'll both be impacted and what I am concerned about is my sons having to go from Mayfield Avenue all the way to Oakland Mills. It's just too far!!	It bothers me to imagine that my son will get used to Long Reach as a freshman this year and then have to adjust next year to Oakland Mills, while the majority of his friends/teammates will remain at Long Reach. Geographically, it's problematic as well.
748	DaytonOaksES	LimeKilnMS		4	equal to	12				equal to	14				Understand that you are trying to balance utilization against other factors, but the distance a student travels for Glenelg in particular seems to be getting rather long at the edges of the area.
749	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6		If you take the Nprthfiled / Dunloggin student base to Wilde Lake, take 3150/2150 with it. Otherwise you are isolating those students and forcing them into High School with very few associations.	better than	7	6			
750	NorthfieldES			5	equal to	7			The maintenance of Frederick Road as a boundary is a logical move.	better than	7			I am grateful and appreciative of your consideration of Frederick Road as a logical boundary and for keeping our community together.	
751	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	13	7	Changing the 32 corridor attendance area from mount view and Marriotts ridge to glenwood and glenelg would severely impact my family negatively. The bus route would be significantly longer to glenwood and glenelg.	better than	4				Please do not switch the 32 corridor from mount view/Marriotts ridge to glenwood/glenelg. Transportation would take significantly longer and the location distance does not make sense. Glenwood and glenelg are much farther away than mount view/marriotts

752	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	equal to	13	3			equal to	13	4			
753	CradlerockES			3	better than	7	4	6	Major concern is making a best effort to keep students that live in a neighborhood in the same school. Consideration for programs that support language & financial needs of the specific communities & proximity to after-school activities from home address	better than	4	8	9		
754			HowardHS	1	better than	13	6	13	Moved to this house in HC b/c Howard HS is in its district, the best HS in HC. My son has autism and changes can be a real struggle for him. 2017/18 school year is going to be his first year in high school, then move him to L. R HS? NOT good for my son	better than	6	7	13	FS plan would still have my son going to Howard HS, but still some friends would be separated. I am begging you, change is not good for Autism. Keep my son in the HS he is going to attend this school year.	For families with special needs kids, this types of changes can bring a lot of conflict and extra battles to our already every day battles. Please do not do this, please.
755	NorthfieldES	DunlogginMS		1	better than	1	3		Every high school is involved in redistricting in the AAC plan which cause a lot of stress to students and families. It would be a better idea if only redistricting the over crowded high school.	better than	4	9	7	Feasibility study plan make more sense to me.	I hope this plan won't pass because it caused a whole county wide HS change which will negatively affect the students continuous friendship and other aspects.
756	WaverlyES	PatapscoMS	MtHebronHS	1	better than	4	7	13	Polygon 1162 is walking distance to Mt. Hebron. This affords students great flexibility and self-reliance in choosing activities and getting back and forth to school and activities. Also cuts down on county transportation costs. MTH has neighborhood ties!	better than	4	14	13	The first study had some oddly shaped sections moving from Hebron to Marriott's Ridge, but at least it made sense due to transportation. The elementary move of polygon 1162 to St. John's Lane was ok.	1162 kids experienced redistricting in elem. school and many of the same kids will again - unfair. Elementary parents in the area want to moved to higher test score schools - not a fair reason to change.
757	NorthfieldES	DunlogginMS	CentennialHS	1	better than	2	4	6	There are no words to express my distress with the proposed plan. I fear these changes are racially motivated.	better than	7	2	1		
758			MarriottsRidgeHS	1	better than	4	13	14	don't make MRHS an elitist school for Turf Valley. Polygon 2229 is closer to MRHS than it is to Glenelg HS. It makes no sense to bus these kids twice as far just so they can build more home in Turf Valley for their golf buddies.	better than	4	7	13	the draft plan has no HS maps in the appendix for the northern region (MRHS), rte 32 north of I-70. buses from polygon 2229 would have to travel on the worse-congested segment of rte 32 - a LONG bus ride.	
759	RockburnES	EllicottMillsMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
760	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	equal to	1	6	11		better than	6	7	1	The draft plan is much better than the feasibility study because it minimizes the number of homes and students being redistricted. People buy homes in HoCo based on the assigned schools. Any redistricting decisions need to keep this fact in mind.	
761	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4		better than	6	7	4		
762	PointersRunES	LimeKilnMS	AtholtonHS	5	worse than	14	14	14							
763	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	1			PRES is over crowded now, don't have capacity to accept so many students.	better than	2				
764	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	worse than	1	4		I reference to space at GLenelg high school and proximity for bus riders, I believe polygon 203 should be sent to GHS as suggested and no longer to RHHS.						
765	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	6	7		Completely agree to keep current school areas and for keeping polygons 2093, 3093, and 4093 together with 93, 1093, 309, and 1309, keeping Worthington intact.	better than	6	7	13	The AAC draft plan is much more favorable to me!! I firmly believe in keeping polygons 2093, 3093, and 4093 together with 93, 1093, 309, and 1309, thus keeping Worthington intact.	I feel separating the polygons 2093, 3093 and 4093 would be a detriment to students, families, communities and neighborhood!
766	HammondES				equal to	6	6	7		better than	6	8	6		
767	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	5	worse than	6	1	14	I prefer the most recent draft (8/8) to current attendance areas. A larger portion of FQMS kids continue to GHS.	better than	6	6	6	PLEASE keep polygon 210 at TRES and FQMS so my child can have continuity with classmates	Is it possible to postpone the redistribution process until a new high school is built, so as not to make kids change schools again in the near future?!?
768	WaverlyES			5	worse than	4	6		This is the best plan yet. It keeps my daughter in Waverly, then with her friends through middle and high school. Currently she and a very small group of her peers are separated after middle school. Plus it eliminates her having to walk 1.4 miles to h.s.	better than	4	6		This is the best plan yet. It keeps my daughter in Waverly, then with her friends through middle and high school. The feasiblity study makes her leave them next year. Plus it eliminates her having to walk 1.4 miles to h.s.	Thanks for looking at this in such detail. Keep kids together. Move as few kids as possible.
769			CentennialHS	1	better than	4				better than	4				
770	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	4	worse than	12	12	1							
771	IlchesterES			5	worse than	7	4		This keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	better than	7	4		Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion. This keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school. It moves fewer students/reduces disruption.	The AAC Draft plan improves the feeds from elementary to middle and from middle to high school. It keeps strong feeds within the northeast schools. It also makes better use of the school utilization and reduces overcrowding in NE county.

772			HammondHS	1	better than	6	13	7	Our polygon (57) is within 1.5 to 3 high schools. This plan has them going to a school that is nowhere near them with kids they will have had no interface with. BAD IDEA! Teenagers have enough anxiety without this nonsense!	better than	6	7	13	The feasibility study at least had our polygon (57) going to 1 of the 3 high schools near us. the draft plan puts us into a new neighborhood that is nowhere near us. At least now my kid can walk or ride a bike to high school if needed.	This new plan is ridiculous. If you want to implement this, you should ensure it does not negatively affect the kids currently within a school (kids already attending a school should not be forced to move, only incoming students). REDUCE KIDS STRESS!!
773	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to					better than	8	3	10	This policy is more in line with policy 6010. Where we don't want to redistrict students that were redistricted 3 years ago. And will have to again when another school is built. Think long term, not just temporary.	
774	ThunderHillES	DunlogginMS	WildeLakeHS		better than	4	3	13	Quadrant 111 should match the adjacent neighborhoods east/north of route 108 and feed into Ellicott Mills MS and Howard High. It is silly to bus our children far away. The small number of students in our neighborhood will not negatively impact attendance.	better than	1	4	7		
775	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	6	13		better than	4	6	13		
776		MurrayHillMS			equal to	5	7	6	The current school attendance for ES, MS and HS is the same as the draft plan. I believe it should stay that way in order to minimize student disruption and build stronger communities.	better than	5	7	6	The feasibility study is disruptive for high school students. HS is a bad time to start disrupting student allegiances they have created in strong communities. The AAC draft plan is a much more thoughtful and considered document in so many ways.	HCPSS has an excellent reputation but I recommend that more emphasis is given to improving the lower rated schools rather than shuffling students around.
777	VeteransES			4	equal to	7					14				
778			CentennialHS	1	better than	4	7	1	AAC draft plan make less sense than current, less cohesive HS districts, breaks up more communities and sends more students to schools farther away than current plan	better than	4	1	7	Feasbility study plan more object. AAC draft plan creates less cohensive HS districts, many communities broken up. Many HS students being redistricted to HS further away. More polygons affected in AAC draft with less due diligence than feasibility study	Adopt original plan from feasibility study or delay any redistricting decisions until a new feasibility study can be completed on AAC draft plan. Insufficient time to fully investigate and understand impact, # of polygons affect should require more study
779	DaytonOaksES	FollyQuarterMS	RiverHillHS	4	equal to	1	4		I understand the need to move students west to reduce capacity in eastern schools and admit that there's no way to please everyone. Please consider school reputations so that quality of best ones are not diminished as many moved here for quality of them	better than	4	9	6	I live in polygon 1199 and with AAC plan we remain with RHHS rather than GHS. This is much preferable as the northern RHHS polygons are much more suited to move as they are already north on 32. If 1199 goes to GHS, it is a horrible commute if kids need us	Would be better if polygons that make up Harpers Choice community remained with Wilde lake HS as the demographics are more similar with that cachement area. If more students need to move to RHHS, perhaps more from Atholton HS would be better.
780	CentennialLaneES			1	better than	13			The plan does not take into consideration the financial impact on families who have moved to certain high priced new communities in the county to have their kids attend highly rated schools now FORCED to go to poorly rated schools.	better than	13	13	13	The feas study does not show any need to redistrict the new home community of Centennial Overlook from attending Centennial ES, Burliegh MS and Centennial HS. These high price homes were sold to families that invested based on attending these schools.	
781															
782	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	better than	4	6	7	Harper's Choice MS is within walking distance to our house, so it is our neighborhood school, not Wilde Lake MS. I would also prefer for the students from Longfellow ES to remain together in middle school to help with the transition to middle school.	better than	7			I would prefer to not have any changes made to our middle school district. However, the AAC draft at least allows most of our Longfellow neighborhood to remain together in middle school. This is a slight improvement than the Feasibility study.	My preference is to continue to keep our attendance areas the same as it has been. Keeping the neighborhood together is very important. Also, by adding more students into Longfellow, which is already over 40% FARMs, would have a very negative impact.
783	PointersRunES	ClarksvilleMS	AtholtonHS	5	worse than	6	1	2		better than	1	2	6		
784															
785	AtholtonES			2	better than	9	1	4	I'm concerned the maps do not share the data behind the changes (FARM, demographics, etc). Additionally, I noticed the proposed change has polygons 10-2057 going to wilde lake, when they could walk to atholton in less than 30 minutes - that's ridiculous.	better than	14	14	14	A complete lack of data - I am concerned that the capacity changes will improve for such a brief period of time that the disruption isn't even worth it.	
786	NorthfieldES	DunlogginMS	WildeLakeHS	4	equal to	7				better than	7				
787	ThunderHillES	WildeLakeMS	WildeLakeHS		better than	4	8	3	There are 3-4 elementary, 2 middle, and 2 high schools within a 3 mile radius of my home. WHY SEND MY KIDS ACROSS COLUMBIA FROM ELLICOTT CITY??????	better than	13	4	9	There are 3-4 elementary, 2 middle, and 2 high schools within a 3 mile radius of my home. WHY SEND MY KIDS ACROSS COLUMBIA FROM ELLICOTT CITY??????	There are 3-4 elementary, 2 middle, and 2 high schools within a 3 mile radius of my home. WHY SEND MY KIDS ACROSS COLUMBIA FROM ELLICOTT CITY??????
788	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	2	equal to	6	12	14		better than	6	14	14		
789	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	13	13		better than	13	13	13	We scrapped, borrowed, and saved to move from the Wilde Lake district to Centennial and now our efforts may be pointless. This is devastating to us emotionally and financially. Please help.	
790	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	1	5	4	We live in polygon 147, we moved 2 yrs ago for best schools in county. Though the schools are good my child went through anxiety issues due to relocation to new school and missing old friends. Change again is going to be hard on my child and our family.	better than	1	4	5	Feasibility study identified that the school zone we are allotted to has minimal capacity issues compared to the other schools in the county. The ACC draft is not helping solve the capacity issue at by relocating our polygon.	We are small community, with less projected growth rate compare to polygon 97. We are new community and change every other year has huge impact on the kids mental and emotional growth. We want kids to be happy and close to home , and walk/bike to school.

791	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	better than	9	7	14		equal to	14	14	14		
792	CentennialLaneES	BurleighManorMS	CentennialHS		better than	13	13	13		better than	13	13	13	Moving from Centennial district to Wilde Lake district is extremely drastic. Please reconsider. There has to be better way.	
793	CentennialLaneES			1	better than	13	13	13		better than	13	13	13	Why such a big shift from the proposal recommended in the Feasibility Study? Please consider the negative impact in moving children from Centennial district to Wilde Lake district. Our family is in shock at this point.	
794	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	7	2	8		better than	4	8	7	Unlike what was proposed in feasibility study" in the AAC draft the attendance zone for Atholton HS is very disconnected."	
795	AtholtonES	HammondMS	HammondHS	1	better than	6	2		The current plan takes my children past several schools within my community to a school much much further away. The plan must consider distance and keeping communities together. Taking kids from Hammond High School past AHS and OMHS to WLHS? Unacceptable!	better than					
796	IlchesterES	BonnieBranchMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	As a resident within Polygon 95, I strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.	
797			MtHebronHS		better than	4	7	13	I have been a HC resident for 47 yrs. The new plan breaks up the Mt Hebron neighborhoods & community. To take walkers & bus them miles away is absurd. Shame on our politicians that approve over development without any regard to the impact to our children.	better than	4	7	6	AAC plan is terrible.	
798		ClarksvilleMS	AtholtonHS	2	better than	6	7	4		better than	6	7	4		
799	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	8	6	7		better than	6	7	8		
800		MayfieldWoodsMS	LongReachHS	5	equal to	1	2	3	A move to a different school during high school is hard but I do understand the overcrowding problem. The plan seem to try to address the issue without impacting too many students.	equal to	11			The two plans affect us the same way.	
801		BurleighManorMS	CentennialHS	5	worse than	7	6	10	Thank you for keeping the font Hill neighborhood together (polygons 1184, 2184, 184, and 156).						
802	AtholtonES	HammondMS	HammondHS	1	better than	6			This is even a worse way to dissect Macgill's Common students from having a growing peer group. I hope they like one another as they will only know one another in this new iteration!	better than	6			This continues the trend for our pocket of students in Macgill's Common where they attend school with different groups of kids each time they move up to a new school. It's disappointing not to have them grow their peer group in a better way than this.	There are no bad schools in Howard County. Our children's development socially needs to be considered just as strongly as their academics. Separating groups of kids from one school to the next repeatedly does not do that!
803	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	7	8	9	The AAC draft plan is poorly plan. Please keep 1189 at PRES. 1189 is closer to PRES than 1112, 112. 1112 and 112 should belong to Fulton elementary not PRES.	better than	4	9	8	Please remove AAC draft plan. Keep feasibility study.	
804	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13	It was quite a shock to see a new plan unveiled with just one week to respond. The other plan seemed to allow for more feedback and thought. This plan disrupts our children and our polygon has 5 students represented. Seems extreme.	better than	7	2	4	The feasibility at least seemed to allow for the movement when the new high school is built. This new AAC seems to cause more havoc that will be repeated in a few years. Kids are paying the price for builders having free reign in the past several years.	The movement to fill empty high schools has resulted from the short-sightedness of not curtailing building. As there will be movement again, why not take this opportunity to fill those schools with pilot programs, JROTCs, academy elements, etc. Choice.
805	CentennialLaneES	BurleighManorMS		1	better than	13			We newly moved into this community because of schooling, please keep 147 polygon in same Schilling.	better than	13				
806	ClemensCrossingES			4	equal to	12	10	7		better than	10				
807	PointersRunES	LimeKilnMS	ReservoirHS	4	worse than	10	7	1	This AAC is better than the Feasibility Study Plan. However, it makes more sense for Polygon 118, 120, 114, 117 to feed into Clarksville MS and Polygon 1296, 296, 127, and 126 to go to Lime Klin MS. The latter Polygons are closer and feed into RHS anyway.	better than	7	1	10	The Feasibility Study moves too many students and create instability for several schools, it will increase transportation cost for the county.	Concerned about the demographic change and school performance at River Hill High School in the AAC plan. The AAC plan negatively impacts RHHS the same way the Feasibility Study negatively impacts Atholton HS
808		PatapscoMS	MtHebronHS	1	better than	8	7	13	Our neighborhood is 0.4 miles from MtHebron HS, this draft plan moves us to MarriotsRidge HS almost 7 miles away. Not acceptable.	equal to	7	4	13	Our neighborhood is 0.4 miles from MtHebron HS, this draft plan moves us to MarriotsRidge HS almost 7 miles away, same as the feasibility study. Not acceptable.	Please table the middle and high school redistricting, fast track HS #13 and do a comprehensive redistricting when new school opens which can be well planned with public input.
809									I am confused what HCPSS is making changes and what AAC is. I request ACC to keep polygon 199 (13734 Pasture Grn Court) in RHHS itself!!						

810	PointersRunES			2	better than	4	7	13	Polygon section 1189 is currently located .6 miles from Pointers Run and nearly 5 miles from the Dayton Oaks school that it is being reassigned to. Based on current neighborhood population, roughly 24 school aged children are affected negatively.	better than	4	7	13	Polygon section 1189 should remain with Pointers Run as identified in the feasibility study.	Completely respect and understand the need to utilize school capacity resources and feel that the new construction around Clarksville should be identified as candidates for switching as those potential residents have no prior history of school selection.
811	ElkridgeES	ElkridgeLandingMS	LongReachHS	1	better than	13	13		I moved to HoCo / Elkridge for the main reason that my children would attend Howard High School. Now you want me to move AGAIN so they can attend Howard High School. We will not be punished because this county messed up!	better than	13			Long Reach is NOT the school district I purchased my home in.	Howard High is the district I moved to.
812		LimeKilnMS	ReservoirHS		better than	8			Polygon 2114 was already redistricted for elementary school and now these same students will be redistricted for high school. Only 15 HS kids in this polygon and all significantly will be affected twice while other nearby polygons never effected	better than		8	6	2114 will be redistricted twice now. Elementary students who were redistricted will now be redistricted for high school. Why were Atholton polygons removed from the plan and Reservoir polygons put in their place? Only 15 HS kids in our polygon	Our polygon will effect FARM numbers for Reservoir as we are an affluent part of the school's population that will be sent to River Hill which already has low farm. Makes no socioeconomic sense to relocate us.
813															
814	ElkridgeES	ElkridgeLandingMS	LongReachHS	1	better than	4	6	9		better than	4	6	9		
815	VeteransES	EllicottMillsMS	CentennialHS	1	better than	6	9	13	Students who were impacted by the EC flood should not be moved. They have already have faced tremendous stress living in homes that were flooded and coming home to a disaster everyday. Removing them from their peer group and school counselors won't help	better than	6	7	9	I'm unable to tell the difference	If we want the best for our kids we need to consider the special circumstance the kids on Main St in EC have to face everyday. Their community and homes are still in flux. Please thoughtfully consider this when determining impact to the kids.
816	RockburnES			4	worse than	7	6	2	The change directly impacts my daughter as she would be attending a new school, but at least she will be there with some friends from her current school-unfortunately the new school isn't any closer to home.	better than	7	6	2		
817	NorthfieldES	DunloggingMS	CentennialHS	1	better than	7	4	6	This plan is terrible for our community as it will divide friends and family alike, undermining any sense of community we have collectively spent the past 20 years building.	better than	6	1	7	The feasibility plan keeps longstanding communities together, and the redistricted areas are not over complicated and logically send kids from overpopulated schools to ones that are far under capacity.	The aac draft plan is an abomination.
818	FultonES				better than					better than					This is absurd. Polygon 1112--across the street from Fulton ES has to go all the way to PRES!!!!!! This does not make any sense.
819		BurleighManorMS		1	better than	7	4	13	Disruption of established neighborhoods and of up and coming, large community with many professionals establishing themselves and calling the Centennial area and schools their own.	better than	7	4	13	Disruption of new, large community with 90 homes, and professional residents establishing themselves in Centennial area. This neighborhood enhances prestige of Centennial Lake community, and its relationship to the school district should be preserved.	147 also includes some older homes that have been in the Centennial district for many years, and they would be disrupted. Burleigh Manor MS and Centennial HS are the closest schools to 147. AAC draft calls for unnecessary shifts in the Centennial area.
820		MountViewMS	MarriottsRidgeHS	1	better than	7	6	14	Polygons 232, 224 and those to the north subject to move MRHS to GHS, (MVMS to GMS): 232 is the western edge of the developed communities that go to MRHS. They are isolated from GHS community by farms and tied to MRHS by distance (<2 milesMAX!!!!)	better than	7	6	4	Feasibility Study broke up fewer communities. Since the draft plan came out I have heard endless complaints. I think draft is too drastic.	LEAVE NORTHERN MRHS POLYGONS ALONE!!!
821		LimeKilnMS		1	equal to	4	6			better than	4			Polygon 120 should feed into CMS not LKMS.	
822	NorthfieldES	DunloggingMS	CentennialHS	1	better than	7	6	13	The draft plan completely split the Dunloggin community. It is far worse than current School attendance plan. Please change it back!	better than				The change is far greater than the original. Why make such big change at this short period of time? So many families planning their house based on the current school attendance. Why make such big impact?	
823	BellowsSpringES			1	better than	13				equal to	13				
824	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	7	5	4	I'm strongly against moving Polygon 1189 from Pointers Run Elementary School to Dayton Oaks Elementary School. PRES is only 3 minutes from Polygon 1189 while DOES is more than 20 minutes away. It will also disrupt my daughter's social network.	better than	5	4	7	The feasibility study makes much more sense which keeps the contiguity of the current neighborhood and community together.	We strongly recommend keeping Polygon 1189 to Pointers Run Elementary School. Thank you.
825	SwansfieldES	HarpersChoiceMS	WildeLakeHS	4	worse than	9	12		I would like to see the projected classroom ratios (full-time assigned staff to student) under the new plan.	better than					
826			CentennialHS	1	better than	7	6	4		better than	6	7	4	Watching the AAC meeting playback and disappointing that 1 polygon gets moved (1184) capacity for CHS gets to 111% and the group says 'done!' And that was it. No further discussion about 214,154,1154,2154. What about the random cutting of community?	Please review again.

827	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	4	13	It impact my child because not only he will lose all his friends in the community but also he will be traveling much further than current community location	better than	1	5	6	It will impact our community and our children how have been in this are for long time.	I like our current plan to keep our block 147 to the Centanial HS, Centanial ES, and Burleigh MS
828			MtHebronHS	1	better than	7	4	13		better than	14	14	14		
829		BonnieBranchMS	HowardHS	5	worse than	6	7	10	I would like to have info on the percent utilization changes to feel confident in my support of the AAC version but I can't find the data anywhere, just proposed polygon mappings.	better than	6	7	10	I would like to have info on the percent utilization changes to feel confident in my support of the AAC version but I can't find the data anywhere, just proposed polygon mappings.	
830	PointersRunES	ClarksvilleMS	AtholtonHS	2	equal to	7	13	4	No change from the current school attendance area which is a problem in itself. Change is hard but let's do one major change now to address county needs rather than drip changes every other year!	better than	7	13	4	The AAC draft negates the good choices made in developing the feasibility study. For instance, it makes NO SENSE to break up the River Run community when seat count is low west of us. We live in River Hill and our kids should attend RHHS!	The River Hill community used to all attend RHHS. It wasn't a good idea to change that just over a decade ago, so the feasibility study's move to rejoin the RH community at RHHS makes the most sense.
831			WildeLakeHS	1	better than	9	1	7	This plan moves a large percentage of affluent communities from WLHS to RHHS which will negatively impact the diversity and culture at WLHS, as well as sports and population of GT classes. WLHS is currently rated a 4, this plan needs major adjustment.	better than	9	1	7	The FS only added a small feed of OMHS students to WLHS and did not remove any WLHS students. It certainly is likely not ideal from OMHS students affected but does not completely alter the population as the AAC plan does.	Please strongly consider keeping all current polygons in WLHS. WLHS should be receiving students from nearby highly rated schools (CHS, RHHS or AHS) only to create better balance in HCPSS schools, not exacerbate the growing issue.
832	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	2	11	10	While I would prefer the current school attendance, the changes are relatively minimal and the large changes in attendance will likely to be more permanent in the long run.	better than	2	11	10	The feasibility study was poorly conceived. The AAC draft plan does a much better job of minimizing disruptions.	
833			CentennialHS	1	better than	7			This new plan splits Dunloggin neighborhood. Does not keep the community or neighborhood together.	better than	7			This new plan splits Dunloggin neighborhood. Does not keep the community or neighborhood together.	I understand this is a very hard task to take on but we would really like to keep the neighborhoods together. This new plan splits the Dunloggin neighborhood in half.
834		DunlogginMS	CentennialHS	1	better than	7	4		It is important to maintain communities. Polygons 1150, 4150, 150, 3150 & 2150 comprise the Dunloggin neighborhood and should not be split down the middle.	better than	7	4	6	The Feasibility study kept the Dunloggin neighborhood whole, whereas the AAC draft splits the Dunloggin neighborhood right down the middle. If it wasn't good for Font Hill or Gray Rock, it shouldn't happen in Dunloggin, either.	Community continuity. Polygons 1150, 4150, 150, 3150 & 2150 comprise the Dunloggin neighborhood and should not be split down the middle. Our children attend elementary/middle school together, most as walkers. Travel time/distance increases.
835	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7	14	14	Thank you for maintaining a logical boundary line as Frederick Road	better than	7	14	14	Thank you for maintaining a logical boundary line as Frederick Road	
836	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank the committee for maintaining a logical boundary line as Frederick Road.	better than	7			I greatly appreciate that the committee keeps the community together and maintains a logical boundary for school districts (Frederick Road).	
837															
838	CentennialLaneES	BurleighManorMS	CentennialHS	1		4	5	7	The draft plan woud have dramatic negative impact on the kids due to loss of their friends by seperating them out of centennial communities and substantial increase of the transportation time.	better than	1	4	7	The AAC draft plan has negative impacts on students redistricted out of Centennial High and Wilde Lake School, while the plan from the feasibility study does not have any negative impact on students.	
839															
840	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	7	13	We live near Marriotts Ridge high HS, are able to hear the band practice from our yard, drive past the school to and from work, yet the new plan would have us go to a school three times as far? That makes no sense and puts an undue burden on our family.	better than	4	7	13	In addition to the previous reasons, requiring kids to travel three times further to a different school, going past the current school, is a safety issue and financial hardship to those that participate in after school activities.	
841			OaklandMillsHS	1	better than	6	7	14	Our son is starting at Oakland Mills High School this year as this is the closest school to us, although he has to walk over a mile each way, it is still closer than Wilde Lake High School. It is hard on kids to take them away from friends too.	equal to	6	4	14	Although the AAC plan has our kids going to a HS that is much further away (at least they'll have a bus) the Feasibility Study has our daughter walking a mile to Oakland Mills MS as opposed to about 3 blocks to Lake Elkhorn MS so they're both equally bad.	Keeping Polygon 139 aligned with Cradlerock Ele/Lake Elkhorn MS/Oakland Mills HS seems to make the most sense.
842	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	4	6	7		better than	4	6	7	The Feasibility plan makes more sense for our area instead of the AAC draft plan. We arent near WLHS at all (we are central to 3 other highschools). Also with increased traffic near the mall, it will be take a long time to reach school.	Our children will be pulled away from the neighborhood children to an area much farther away. We are not in favor of the AAC draft plan to Wilde Lake.
843		PatapscoMS		1	better than	4	8	13	We live in polygons 162/2161 and our polygon has been reassigned in every redistricting over the last 20 years. While our children have been bounced from Elementary School to Elementary School, the one consistent portion of our community has been Mt. Heb	better than	4			ron HS. To move walkers to a HS over 4 miles away does not make any sense, particularly when they will be new drivers. This community needs to be able to stay together and all walkers throughout the county should not be moved.	Because there are not new middle schools and high schools opening as part of this redistricting, redistricting of middle school and high schools students should not take place at this time.

844		DunlogginMS		5	worse than	6	4		Better to keep neighborhoods together rather than moving small pockets of polygons.	better than	7			I appreciate you taking another look at it. Makes sense to go to the closest ES and MS and travel further for HS as they are limited in number and not as widespread geographically. At least if neighborhoods stay together all travel to HS together.	
845	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	7			better than	13	7			This plan impacts our children very negatively. It adjusts our schools from the best in HC to the worst schools in HC.
846	IlchesterES	BonnieBranchMS		5	worse than	6	7	8	This is wonderful! It keeps 84, 95, 1095, & 2095 feeds at Ilchester, Bonnie Branch, and HOWARD!!! This new plan also puts our neighborhood at the same HS as the neighborhood across the street.	better than	6	7	8	The draft keeps 84, 95, 1095, & 2095 feeds @ Ilchester, Bonnie Branch, & HOWARD!!! Our neighborhood was redistricted to align our ES/MS/HS feed 4 years ago & my son didn't know any ES kids. With the feasibility study he would only know a few kids in HS.	I know feeds are defined as ES/MS or MS/HS but MS is such a time of change (puberty, etc.) that a feed from ES/MS/HS would help them keep a core group of friends. Having to find SPECIFIC new friends in MS just so you know someone in HS is ridiculous.
847	RockburnES	BonnieBranchMS	HowardHS	1	better than	4	5	3	Ilchester ES & Bonnie branch MS is very close to location #91; doesn't makes sense to move to far ES & MS which is inconvenient for children and parents. Time and funding should be better utilized.	better than	4	3	6	Ilchester ES & Bonnie branch MS is very close to location #91; doesn't makes sense to move to far ES & MS which is inconvenient for children and parents. Time and funding should be better utilized.	
848		HarpersChoiceMS		4	worse than	9	1		I think the proposed draft plan provides increased diversification of communities and students.						
849	ThunderHillES	ElllicottMillsMS	HowardHS	1	better than	7	13		My Children are currently walkers and would be now bused. The original plan had more consideration to this and the AAC plan is now busing kids more and not allowing kids the ability to walk home especially after school programs	better than				The Feasibility Plan takes the neighborhoods area and walking to schools into more consideration. It seems that the AAC plan is a reaction to people getting redistricted but now will people getting moved from the AAC Plan get the same consideration.	
850			HowardHS	1	better than	6	6	6		better than	6				
851			HowardHS	1	better than	6	6	6		better than	6				
852				1	better than	6				better than	6				Thank you.
853			AtholtonHS		equal to	11			Since this new plan does not affect me or many of my kids' friends, for me the current school attendance and this plan are equal.	better than	10	9	8	So much better than the feasibility study for Atholton HS. No school should have 66% of its students removed. That destroys the school, the students, the teachers, the sports, the programs, etc. This plan reduces the number of kids affected.	If possible, even fewer students should be affected. Even if you make additional changes, please continue to preserve Atholton. Atholton is very diverse already and is not overcrowded nor will it go over 110% capacity in the near future.
854	AtholtonES	HammondMS	HammondHS	1	better than	7	13	6		better than	7	2		I thought the Feasibility Study did a better job of balancing attendance in the Southeast and positioning for future school expansion. It had a wider scope of changes, but I believe those are needed.	The draft AAC seems like a watered-down version of the initial Feasibility Study, seemingly in response to the pushback from Atholton High. I don't like that as we go deeper in the process, we will end up with a plan that doesn't actually add value.
855	AtholtonES	HammondMS	HammondHS	5	better than	9	6	4	This neighborhood has been a part of Hammond High School since it's existence. The school is almost within walking distance and is part of the community of King's Contrivance. Lake Elkhorn Middle has a completely different demographic than this area.	better than	9	6	4	The AAC draft redistricts both the middle AND high schools to schools with a totally different demographic. Atholton High would have been a much better fit and the students here belong at Hammond Middle. They will not fit in at Lake Elkhorn.	I am in shock over the AAC recommendation. To send these students to Lake Elkhorn and Wilde Lake makes no sense. There will be no longer be a feeling of community for the parents or students with these schools which are not a part of Kings Contrivance.
856			MtHebronHS	1	better than	4	6	7	It makes no sense to move walkers, who don't currently use transportation budget dollars. It's a shame to break up communities for a fewvyewrs, when this process will happen again and move students again. Put up portables as necessary.	better than	4	14	14		
857	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	6								Students in the same neighborhood should be grouped together. It does not build community within neighborhoods if a small portion goes to a different school... or having the boundaries cutting streets and neighborhoods in half. (ie with SJLES to WWES.)
858	ClemensCrossingES			2	better than	6	7	13	AAC plan has several negative effects: 1) it moves my child from his elementary school and 2) will have him attend a high school out of our immediate community. With the current school attendance area our HS is still out of our immediate community.	better than	6	7	13	Feasibility Study offers better continuity of community and is the most logical for Polygon 1134. The AAC Plan moves my child from his elementary school and will have him attend a high school out of our immediate community. Please re-look at Polygon 1134.	Please re-look at Polygon 1134 as the impact on #s is small. The Feasibility Study is the most logical for my polygon 1134 and the adjacent neighborhoods as students remain in their ES and then attend the closest HS.
859			ReservoirHS	5	equal to	11									
860	NorthfieldES			5	worse than	4	2	7		better than	7	8	4		
861	PointersRunES			1	better than	4	6	9	A homeowner buys according to an education plan for their children, and yet politicians ruin it. My daughter could walk to Pointers Run but this plan has her instead bus 20 minutes to Dayton Oaks with students she will not see in Middle School.						

862			MtHebronHS	1	better than	4			Mt Hebron is more than a community, it is a FAMILY! Do not take our walkers!!!	better than				It seems like you have completely been unfair to Mt Hebron in this new version	Please keep Hebron together. We are a family not just a community.
863	TriadelphiaRidgeES			5	worse than	6	7	4		better than	6	7	4	The feasibility study was recommending moving only one neighborhood of 32 students from TRES to DOES and then moving 39 students from DOES to TRES. It is basically swapping the same number of students between schools. This seemsunnecessary and disruptive.	It doesn't make sense to swap roughly the same number of students between two schools. Why take children out of an environment where they are comfortable to not make any difference in the total umber if students in a school? I am in favor of the AAC draft
864			MtHebronHS	1	better than	4			This is MUCH WORSE for our school community	better than	4			You have taken even more of the walkers from our school in this version. Please don't!!	Mt Hebron is more than a community, we are a family. Don't break us up and don't take our walkers!
865	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	4	1	6	This plan makes better use of school utilization and reduces overcrowding in the northeast part of the county until new schools can be built. It keeps polygon 2095 going to Howard High School which is less than one mile from our home.	better than	4	1	6	The AAC plan moves less kids causing less overall disruption.	Polygon 2095 fully supports the AAC plan. Thank you for taking the time to listen to our concerns and come up with a alternative solution.
866			CentennialHS	1	better than	7	13	6	KEEP DUNLOGGIN TOGETHER. You are splitting up a well-established community. When you do so you castrate the sense of community, the voice of community, and go against all principles of 'community' that the County advocates.	better than	7	6	13	KEEP COMMUNITIES LIKE DUNLOGGIN TOGETHER!	I believe this plan is one of the most ridiculous things I have seen whether or not I had a student affected. Why in the world would you split an historically well-defined community that is involved, active, and one of the BEST examples of COMMUNITY!?
867		BurleighManorMS	CentennialHS	1	better than	13	4	6	There are groups of apartment folks that are still in the Centenniel school district, while homes are being split arbitrarily separating groups of students attending the same school. Folks that pay property taxes in Howard county should be heard!	better than	4	13	6		
868	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4		better than					
869		DunlogginMS	WildeLakeHS	1	better than	13	9		This plan is way too extensive in the way that it shifts students around. ALL of my daughter's new friends that she has made at WLHS (she was one of only 30 kids from DMS) will be redistricted during her junior year in high school (but she won't.	better than					
870	NorthfieldES	DunlogginMS		2	better than	6	7	14							
871			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
872	WestFriendshipES	MountViewMS		1	better than	4	1	13	My issue is with my children being pushed out so that people in Turf Valley/Developers can be accommodated. We have been tax payers for 26 years and deserve access to the schools that are closest to us.	better than	6	1	3		
873	PointersRunES			1	better than	4	7	6	Please do not redistrict Planning Polygon #1189 from Pointers Run ES to Dayton Oaks ES, as Pointers Run is only 2 polygons/3 minutes away. Also, most Pointers Run students feed into Clarksville MS. We urge you to keep #1189 in the Pointers Run district.	better than	4	7	6	Please do not redistrict Planning Polygon #1189 from Pointers Run ES to Dayton Oaks ES, as Pointers Run is only 2 polygons/3 minutes away. Also, most Pointers Run students feed into Clarksville MS. We urge you to keep #1189 in the Pointers Run district.	Please do not redistrict Planning Polygon #1189 from Pointers Run ES to Dayton Oaks ES, as Pointers Run is only 2 polygons/3 minutes away. Also, most Pointers Run students feed into Clarksville MS. We urge you to keep #1189 in the Pointers Run district.
874			CentennialHS	1	better than	4	7	13	This doesn't make sense. Us being a new community. The kids have already went though transition of new school. Now we need to move them to different school again within a year?	better than	4	7	13		
875			CentennialHS	1	better than	7	4	13	Dunloggin is an older neighborhood with a close community. By splitting up the neighborhood and sending our students to 2 different high schools (Centennial and Wilde Lake) you are negatively effecting our community.	better than	7	4	13	The AAC draft makes my kids go to a school farther away on the bus. It also breaks up our Dunloggin community which the Feasibility Study did NOT.. Our community does a lot of social things together and this would negatively impact that.	Dunloggin is very family oriented and has many community events but splitting our neighborhood would harm that. It would be changing from one community to 2 based on high schools. We bought our house here b/c we wanted that strong community.
876	NorthfieldES	DunlogginMS		1	better than	7	4	9							
877	HammondES	HammondMS	AtholtonHS	5	worse than	1				better than	10				
878	CentennialLaneES	BurleighManorMS	CentennialHS	5	worse than	7	4	6	Thank you for proposing to keep 1184, 2184,184, & 156 together. Font Hill is a close-knit community, and the new plan keeps the neighborhood intact. #147 will also remain intact and its proposed new schools are closer to it than 1184 is to MRHS.	better than	7	4	1	Thank you for proposing to keep 1184, 2184,184, & 156 together. Font Hill is a close-knit community, and the new plan keeps the neighborhood intact. #147 will also remain intact and its proposed new schools are closer to it than 1184 is to MRHS.	

879	IlchesterES	BonnieBranchMS		5	worse than	11	4	10	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES.	better than	6	4	3	* The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school. * The AAC Draft plan keeps our neighborhood at Howard and reduces the distance traveled.	* The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.
880			CentennialHS	3	equal to	4	7	12		equal to	4				
881	NorthfieldES			1	better than	7	6								
882	DuckettsLaneES			4	equal to	2	4	10		better than	4	2	5	Would accept AAC draft plan over the Feasibility Study	
883	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	7			better than	6	7			
884	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	9	We moved into Centennial Overlook because it was within walking distance of Centennial ES, Burleigh Manor MS, and Centennial HS. The proposed change to Longfellow, Harpers Choice, and Wilde Lake is much further and would require us to cross 108.	better than	4	6	9	We moved into Centennial Overlook because it was within walking distance of Centennial ES, Burleigh Manor MS, and Centennial HS. The proposed change to Longfellow, Harpers Choice, and Wilde Lake is much further and would require us to cross 108.	The way the polyon maps appear, it looks as if our neighborhood was singled out as there are neighborhoods farther than Centennial HS than us that are proposed to remain distracted there and yet we are being distracted to Wilde Lake which is very far.
885	WaverlyES			5	worse than	6	1	8		better than	8	6	1	The West is not nearly to capacity and this plan pushes polygon 1162 west. Allowing us to stay in the feed we're already in also takes away challenge faced by our small group of students having to switch from Waverly ES to the Patapsco MS and MHHS feed.	Our polygon has been resistricted 5 times already. Pushing us west seems the only logical way to prevent the continual redistricting from occurring.
886	WaverlyES	PatapscoMS	MtHebronHS	1	better than	4	8	13	Please do not do this again to students who have alread been through two moves off of Ballard Way and who can walk to Mt Hebon. This would be absolutley devastating for the young high school students. Please do not do this again.						
887			MtHebronHS	1	better than	7	4	8	This new plan would negatively impac students who have already moved twice (once as fifth grader) and now as 11th graders who can walk to school. This new plan makes no sense.	better than					
888		MurrayHillMS	AtholtonHS	4	better than	10			Over all I DON'T think the number of kids achieves the policy considerations. it is far better than the feasibility study, but it is still way too many kids moved. We were blindsided with high school and middle school redistricting. It should be delayed..	better than	10	9		This plan is far better than the feasibility study overall, and is much better for Atholton. If redistricting of high schools MUST happen now, it should focus on the over and under utilized schools and leave the others alone.	Please continue to preserve Atholton throughout this process. Atholton does not meet any criteria for redistricting. It is not on track to be over or under utilized. It has diversity and matches county demographics. No school should have drastic change
889			HowardHS	5	worse than	1	6	7		better than	4	6	7		This plan makes a lot more sense for our community.
890			MtHebronHS	1		8			This would have a serious impact on the mental health of the class of 2021 who were already forced to leave the only school and friends they knew in 5th grade only to have it happen again in 11th grade. DO NOT DO THIS TO HIGH SCHOOLERS!!!						
891	TalbottSpringsES	LakeElkhornMS	OaklandMillsHS	5	equal to						6			I like the AAC draft plan because it would keep my children in polygon 52 with the same group of students for most of their school career. We love Talbott Springs ES and all of the opportunities for learning offered in and outside of the classroom.	
892			HowardHS	3	equal to	6	10			better than	8	6		Thank you for considering previous redistricting . This also realigns redistricting based on community boundaries .	
893			MtHebronHS		better than	8			This new plan would essentially take students already walkers/bikers and move them 8 miles away. It also is the second redistricting for these same kids (class of 2021) who had to move at a really difficult time in their lives. Please do not do this.						
894	BellowsSpringES			1	equal to	13	7								
895	NorthfieldES			1	better than	7	13	14	The Dunloggin neighborhood has attended Centennial HS for many years. The neighborhood was built around the same time as the HS. The newer developments that have attended Centennial should be shifted to the newer HS built to accommodate growth.	better than	7	13	14	The Dunloggin neighborhood has attended Centennial HS for many years. The neighborhood was built around the same time as the HS. The newer developments that have attended Centennial should be shifted to the newer HS built to accommodate growth.	
896			MtHebronHS		better than	13			Please consider the mental health of students who have already had to be redisricted at a very difficult time and are now finally settled. This plan would be truly devastating for these kids.						

897	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	This plan splits an established and cohesive community, Dunloggin. This plan would not achieve the goal of Policy 6010 by preserving socioeconomic integration. The HS change would no longer allow my kids to bike to school, impacting their health.	better than	7	4	6	This plan splits an established and cohesive community, Dunloggin. This plan would not achieve the goal of Policy 6010 by preserving socioeconomic integration. The HS change would no longer allow my kids to bike to school, impacting their health.	This plan splits an established, cohesive neighborhood that has been recognized on maps going back well over 100 years. Centennial HS, built in 77' was intended to be fed by local communities like Dunloggin (built in the 50-70's).
898	StJohnsLaneES	PatapscoMS		1	better than	6	4	7		better than	6	7	8	My neighborhood would be split right down the middle. I feel that a priority should be keeping established neighborhoods intact. Also, some the areas that are set to move have already moved a few years ago and will be going back to where they came from.	
899			CentennialHS	1	equal to	4	6	7		equal to	4	9	6		
900	PointersRunES	ClarksvilleMS	AtholtonHS	4	equal to	8	9	3		better than	8	9	3

903	WaverlyES	PatapscoMS	MtHebronHS		worse than	6	7	2	Thank you for keeping our children with their current elementary school feed. Ultimately with the building in our area, we would be heading west with either this redistricting of the next.	better than	6	7	2	The feasibility study once again moved our polygon 162 which has been moved every 5 years.	
904	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	Dunloggin community has been a integrated community for more than a hundred years and with strong connection to centennial hs. Feeding half of the community to wild lake hs completely divided the community and longer ride .	better than	7	4	9	Dunloggin community has been a integrated community for more than a hundred years and with strong connection to centennial hs. Feeding half of the community to wild lake hs completely divided the community and longer ride .	Dunloggin community has been a integrated community for more than a hundred years and with strong connection to centennial hs. Feeding half of the community to wild lake hs completely divided the community and longer ride .
905	NorthfieldES	BurleighManorMS	CentennialHS	1	better than	4	4			better than	4				
906	ClarksvilleES	ClarksvilleMS	ReservoirHS	1	better than	7	6	9	The AAC plan for the Clarksville/River Hill area makes little sense. Busing kids in from further away rather than redistricting the area by the river hill pool which already went to these school previously seems forced.	better than	6	7	9	The AAC draft, when compared to the Feasibilty study, comes across as if the board has an alterier motive: Break up River Hill. Can't understand it.	
907			RiverHillHS	1	better than	6	13			better than	14				Proximity to school matters. pointers run elem Is right up the street from Clarks glen. My kids went there and had a good experience . The friends went on together to Clarksville middle. Already hard to see them go to dif High schools after that.
908	RockburnES			5	worse than	6	8	7		better than	6	1	8		
909		HarpersChoiceMS		3		10	7	8		equal to	7	8	6		
910	StJohnsLaneES	PatapscoMS		5	equal to	3				equal to	3				
911		PatapscoMS	MtHebronHS	2	better than	4	13	6	For working families who need to transport children to/from practices and events, the move to a new school poses many challenges. No longer will my child(ren) have the opportunity to ride a bike to/from school or walk home after a practice. We'd be stuck	better than	4			We're switching from a 1.5 mile walk/bike ride home (when needed) to a 20 minute drive. With our proximity to local schools, it's not reasonable for any parent to have to make a 45 minute trip just to pick their kid up from a practice or academic event.	
912	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7			Feeding half of the dunloggin community from centennial hs to wild lake hs completely divided the community and longer ride .	better than	7			Feeding half of the dunloggin community from centennial hs to wild lake hs completely divided the community and longer ride .	
913	CentennialLaneES	BurleighManorMS	CentennialHS	5	worse than	1				better than	7			Thank you for keeping the font hill community together!	
914	WestFriendshipES	MountViewMS	MarriottsRidgeHS	4	equal to	11									
915	NorthfieldES			5		7			Keeps our small community together and uses Frederick Road as a logical border/boundary.	equal to	7			Thank you for keeping our small Gray Rock community together and for using the logical boundary of Frederick road instead of splitting our community in half.	
916	NorthfieldES	DunlogginMS	CentennialHS	5	better than	6	7	13	The new plan would fracture our community and negatively impacts my home value.	better than	6	7	13	The AAC plan would fracture our community and negatively impacts my home value.	
917			AtholtonHS	5	worse than	10			Specifically for Atholton HS, this revised plan keeps the existing school community intact. One of the things we treasure about AHS is the diversity of students by race, ethnicity and socioeconomics. Original plan was unnecessarily disruptive	better than	7			Specifically for Atholton HS, this revised plan keeps the existing school community intact. One of the things we treasure about AHS is the diversity of students by race, ethnicity and socioeconomics. Original plan was unnecessarily disruptive	
918	NorthfieldES			5	equal to	7			Keeps small Gray Rock Farm community together and uses Frederick Road as logical boundary line.	better than	7			Keeps small Gray Rock community together and uses the logical boundary of Frederick road instead of splitting our community in half.	

919	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	7	6	4	Revised change would have only polygon 190 moving to RH, which cuts through River Hill neighborhood and send kids on one side of Great Star to RH and directly across the street to AHS. Not only breaking up neighborhood/schools but requires double buses.	better than	7	6	4	Again, new changes wouldn't keep contiguous RH community together, would send a feed of students to different HS, and would use multiple buses on same street/route.	Instead of moving only 190 polygon, keep at AHS or revert back to original feasibility study recommendation. These kids have been in school together since ES, this doesn't seem fair or in line with redistricting policy 6010 IV.B.2.b
920	BellowsSpringES			1	better than	6	13	7		equal to	6	13	7		I cannot understate the disruption this will cause to many kids, especially those mid way through their elementary years. These are important years for a child, it takes two years or so for a kid to get comfortable and then we are asking to do it again.
921				5	equal to	7			Keeps Gray Rock Farm neighborhood together and uses Frederick Road as logical border.	better than	7			AAC draft plan does not split Gray Rock Farm community in half and instead uses Frederick Road as a logical border.	
922		ThomasViaductMS	LongReachHS	1	better than	4	7	6		better than	14	14	14		
923	StJohnsLaneES			1	better than	7	4		Please do not move walkers from Valley Mede for My. Hebron to Marriott's Ridge while busing students from Worthington!!!	equal to	7				
924				5	equal to	7			Keeps Gray Rock Farm community together and uses Frederick Road as logical boundary	better than	7			AAC plan does not split Gray Rock Farm community in half like the Feasibilty study does and it uses the logical border of Frederick Road	
925	CradlerockES	LakeElkhornMS	OaklandMillsHS	4	equal to	4	6	13	My child is in East Columbia but being sent from Oakland Mills to Wilde Lake in Western Columbia.	better than	4	6	7	It is so much better. The feasibility study had my kids leaving the neighborhood and driving past their old school to reach the new one. This one has them at the elementary and middle across the street from our house	I don't understand why Owen Brown is eastern Columbia is being redistricted to Wilde Lake in Western Columbia, which breaks the community up at the High School level. Keeping them at Oakland Mills or Atholton is closer.
926	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	2	4	1		better than	2	4	1		
927	PointersRunES	LimeKilnMS	AtholtonHS	2	equal to	4			My child's ES and MS make sense. The HS does not. Why would she not attend the HS right next to her MS?	better than	6				
928	RockburnES	ElkridgeLandingMS	HowardHS	5	worse than	6	7	9	This AAC draft plan is 100% better and current school attendance areas	better than	6	7	9	This AAC draft plan is 100% better and Feasibility Study	I live in the Lyndwood Community (Elkridge) and want to thank the AAC for their hard work and considerations from our input and concerns.
929	DuckettsLaneES			1	better than	4	1	2		better than	3	6	1		
930				5	equal to	7			Keeps Gray Rock community intact and uses Frederick Road as a logical border	better than	7			Draft plan keeps small Gray Rock Farm community together, unlike the Feasibility study which splits our community in half and isolates approximately 20-25 children. Also, AAC draft uses Frederick Road as a logical border.	
931	NorthfieldES	DunloggingMS		1	better than	4	7	13							
932	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	7	4		You are splitting neighborhoods in half. 159/1159 are walkers to MHHS and should remain there.	equal to	4	2		Overall less student movement, however high schools which are not overcrowded are being punished and separated.	No high school redistricting.
933	FultonES	LimeKilnMS	ReservoirHS	5	worse than	1	7	6	This plan offers a solution (missing in the initial proposal) to the projected overcrowding at Fulton Elementary associated with new housing developments.	better than	1			This plan offers a solution (missing in the initial proposal) to the projected overcrowding at Fulton Elementary associated with new housing developments.	
934	CentennialLaneES			1	better than	13	7	8		better than	13	9	10	The drastic proposal to move communities in Polygon 147 entirely from the Centennial district into the Wilde Lake district does not appear to weigh significant negative impacts to the families involved.	
935	ElkridgeES			1	better than	6	4	1	The Elkridge Community does not seem to be considered in the current draft. The community is split when this is one of the high growth areas and would could (and should) house the new High School closer to this community, e.g. on Landing Road.	better than	6				Please consider an Elkridge High School. Drew Roth & GECA's plan of taking over the Landing Road athletic fields from HC Parks & Recs and assigning land to them elsewhere in the county sounds like the best option to me. Please consider Elkridge!!!
936	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	13	7		better than	6	7	13		
937			LongReachHS	1	better than	13	14	14		better than	13	14	14		
938	CradlerockES			1	better than	4	6	13	The highschool slotted in this plan is too far away and makes no sense logically for our neighborhood to attend. We are being cherrypicked out of the greater Oakland mills are to head across town. This plan is not acceptable. It is really discouraging	better than	4	13	5	I am dissapointed to see that my children will have to go so far away to go to highschool and not get to build and keep connections with their greater neighborhood. The feastability study was more logical from a transportation standpoint.	You need to pay more attention to FARM data. Lumping everyone together is making the communities struggle in the first place.
939	StJohnsLaneES	PatapscoMS		1	better than	7	1		The move from St Johns to Waverly splits the Valley Mede subdivision right down the middle, a community that has been whole since it was built in the 60's. it also does little to alleviate the crowding situation.	equal to	1	7	4		
940		EllicottMillsMS	HowardHS	3	better than	13			We live in the walking district for Howard but are proposed to be bused to Oakland Mills.	better than	6			Sending kids from Oakland Mills to a Wilde Lake was a bad idea.	

941			CentennialHS		better than	6	8	11	Pls grandfather in HS children so that they can graduate with their classmates. How can students be involved with clubs, activities, or friends this yr if they know they will be reassigned next yr? This could hurt their learning & college applications.	equal to	14				I cannot imagine the amount of stress children -- particularly high school children -- will be under next year if they know they cannot graduate with their class. Please consider their learning outcomes and future success.
942	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	7	6			better than	7	6		As a 21-year resident, original owner in River Hill, I was displeased to rezone from River Hill High School to Atholton. Home values declined, children were separated in HS from the students they knew in ES and MS. Keep all River Hill children together.	I am a 21-year, original River Hill resident. We purchased in River Hill because of the school zoning. We want back our original zoning for Pointers Run ES, Clarksville MS and River Hill HS. I do not want our HS to remain at Atholton.
943		PatapscoMS	MtHebronHS	1	better than	6	13	1	Splitting neighborhoods (Valley Mede) down the middle is not agreeable and I'm a tax paying citizen. Do not split my neighborhood.						
944	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	7		This proposal does not address the concerns in the 2017 survey report. No overcrowding issues are highlighted for our current schooling district.	better than	13			Key concerns are proximity (Centennial schools are <1.5 miles away in contrast to those in the AAC proposal), adverse effects on the community froma financial standpoint- we invested in the Centennial Overlook community based on the schools and proximity.	The 2017 survey highlights overcrowding in other schools such as Manor Woods etc. For Elementary and Middle, CES and BMMS appear to have adequate capacity for the next five years per the survey. For HS, Marriotts Ridge could take any overflow from CHS.
945			HowardHS	5	equal to	6	7	8		equal to	6	7	8		
946	WaverlyES	PatapscoMS	MtHebronHS	5	worse than	6	10	7	The Board must break the cycle and move students West despite the opposition and it is makes sense to keep our polygon 2161 and others already at Waverly in the Marriott's Ridge feed. Polygons North of Old Frederick Road should be the first moved West.	better than	6	10	7	The Board must break the cycle and move students West despite the opposition and it is makes sense to keep our polygon 2161 and others already at Waverly in the Marriott's Ridge feed. Polygons North of Old Frederick Road should be the first moved West.	This is really fairly simple. Polygon 2161 is among those that was moved to Waverly from St. John's Lane during the last redistricting. The Board never completed the process for the older ages and must do so now. These students are already in the feed.
947	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4	9	Please keep our Dunloggin neighborhood together! This plan totally separates Our neighbors and neighborhood!	better than	6	14	14	Please don't change our neighborhood schools! Dunloggin should. Be kept together!	
948	NorthfieldES	DunlogginMS	CentennialHS		better than	7	6	4	Dunloggin is a 100 year old community... to divide it into 2 high schools is destroying a neighborhood... in addition the majority of the children my sons makes the bonds of friendship with would then be sent to a different high school...	better than	7	6	4	Dunloggin is a 100 year old community... to divide it into 2 high schools is destroying a neighborhood... in addition the majority of the children my sons makes the bonds of friendship with would then be sent to a different high school...	A neighborhood that has been established as long as the Dunloggin Community should be respected... this is not a new community it is one where families put roots down ... by dividing it ... you have the potential of destroying it
949			AtholtonHS	4	better than	2			It would be better to just wait on the high school redistricting. We should stick with the original plan to only redistrict elementary school kids. Kids should be redistricted a minimum number of times. Better to add portables until the new school.	better than	10	9		This plan reduces the number of kids moved. It also does not unfairly put the burden on any particular school like the Feasibility Study did for Atholton. AHS should be left alone since it has good demographics, good programs, and no overcrowding.	If adjustments are considered, please preserve AHS.Minimize overall disruption. Walkers should NEVER have to go to a school farther away. EVER.Schools that are not over or under crowded should be left alone as much as possible.Too much disruption for kids
950	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	6	3	4	Keep the student from the village of River hill together.	better than	6	4		Keep the student from Village of River Hill together.	
951		PatapscoMS	MtHebronHS	1	better than	4	6	8	We are WALKERS to Mt. Hebron! My family had been subject to redistricting TWICE. We could WALK to Mt Hebron faster than we can be bussed to Marriotts Ridge!! This is ridiculous!	better than	4	6	7	We are WALKERS to Mt. Hebron! My family had been subject to redistricting TWICE. We could WALK to Mt Hebron faster than we can be bussed to Marriotts Ridge!! This is ridiculous!	My family has not moved in 17 yrs BUT oldest ('17 grad) went to HSES k-2, 2nd child-K before redistricting to SJLES. 3rd child went to SJLES from K-3 then endured moving to WES while friends who RODE THE SAME BUS TO SJLES stayed. We are WALKERS to MHHS!!
952	VeteransES	EllicottMillsMS	CentennialHS	5	equal to	11	11	11	No impact to us. Thank you.	equal to	11	11	11		Thank you for all your hard work to keep Howard County Schools environment fun and competitive.
953				5	equal to	7	6	14	I am very happy to see atholton HS unchanged. My son loves his project lead the way program and is concerned switching schools as a junior. Please appreciate this plan.	better than	7	6	13	Changing schools mid HS. The number between Hammond and Atholton HS are almost equal, 337 to 325. What is the benefit disrupting the HS experience. Go Raiders!	In HS you establish a report with teachers and programs. With two years left at time of the proposed change, he will lose his same friends, teachers and school spirit. Let's maintain this! Go Raiders!
954			MtHebronHS	5	equal to	6				better than	6	7	8	This proposal keeps the Worthington community intact (polygons 2093, 3093 and 4093). It prevents us from having 3 children attend 3 different high schools in a ten year period. Preserves critical H relationships with teachers, friends, and counsellors.	
955	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13	4	6	the aac draft breaks up the dunloggin neighborhood community plain and simple for a numbers reason rather than taking into account the kids and quality of relationships that they have formed, expectations that they have had for years to be together.	better than	4	5	6	One of the advantages of hcpss is that the high schools different types of programs as well - they are not uniform at wilde lake and centennial and this heightens the stress re: this as well. not sure what happens - do these programs simply fall away?	a parent of a centennial sophomore,anxiety this has produced just before school is huge- change is incredibly hard - at a time of great instability friends/school family are what provide that - data given doesn't support need for tumultuous changes 4 kids
956															

957			AtholtonHS	2	equal to	14				better than	10			The feasibility study achieves better rebalancing of number of students and school resources than the AAC draft plan.	
958	ForestRidgeES			5	equal to	7	6	1		better than	1	6	7		
959			AtholtonHS	1	better than	7	4		The revisions targeted only our little pocket (one street) to move from AHS to RHHS. PLEASE allow rising juniors to remain at their base school.	better than	7			Regardless of CNSL teams, soccer teams, house prices or elementary schools, high school is the most important educational tie to the community. The revision only affected polygon 190, which removes our few kids from the entire rest of the community.	Juniors should have an option to remain at their high school, regardless of home location.
960	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for keeping the gray rock neighborhood together.	better than	7				
961	PointersRunES			1	better than	7	6	13		better than	6				
962	ManorWoodsES			5	worse than	7	10	4		better than	1	4	10	The AAC draft plan appears to keep more kids together for longer periods of time. Also seems to be less disruptive to walker communities.	
963	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	7	13	This plan seems as arbitrary and community shattering as the feasibility study. It breaks up the pointers run community by using great star drive as dividing line rather than 32. Many more kids effected.	better than	7	6	13	See above.	
964	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	13	1	The latest draft would move my neighborhood to a new ES, MS and HS when the MS and HS are located two miles by road from my house to ones that I'd have to drive PAST the schools they would be attending to more than 3x further away.	better than	4	13	1	The draft plans has an ES change that requires busing further away. The Feasibility study means also changing MS and HS when we purchased a house less than 2 miles from the MS and HS specifically for those schools and they'd be moved to schools 3x further	
965	FultonES	HammondMS	ReservoirHS		equal to	13	6	1	I am extremely dissappointed in the cardinal forest neighborhood (Fulton, Hammond! Reservoir) There is zero relief of my issues. we are in the low percentage feeder to Hammond. We should be with lime kiln. Also Fulton elem is extremely over capacity.	equal to	6	6	1	Again, in this lime kiln is reduced but our cardinal forest neighborhood is a low percentage feed into hammond separating kids. Cardinal Forest should have middle school corrected. Also, Fulton elementary has no relief and is extremely over capacity	If the reason you are not fixing the lime kiln middle school/ hammond middle school elementary problem is because of previous redistricting I am sure if you poll the families they will agree the middle school needs to be corrected.
966			AtholtonHS		better than	13			The revisions now only switch out polygon 190, which separate our children from all of their classmates, affects transportation, and quality of schooling. Rising juniors should have the option to stay at their school for continuity and educational success	better than	4	6		The high school bus rides along Great Star, which now splits the community, and duplicates HCPSS costs since it would have to drive students to two different high schools. The need for these extra costs and community chaos is not justified..	
967	ManorWoodsES		MarriottsRidgeHS	4	worse than	12	1	14		better than	6	7			
968	ElkridgeES	ElkridgeLandingMS	HowardHS	4	equal to	7	6				14				
969	GormanCrossingES		AtholtonHS	4	equal to	11			Overall, I don't believe the superintendent should be recommending such a huge redistricting effort when he has only been on the job a few months and is just the interim superintendent. The students should be the first consideration.	better than	10	9		This plan is significantly better than the Feasibility study because it reduces the number of students moved and it does not move a huge number of kids from any one school. Schools such as Hammond, Atholton, and Reservoir should be left alone.	Minimal redistricting should be done at the high school level. Move straight from overcrowded schools to less crowded (if absolutely necessary) and leave the other schools alone.Rising juniors should be allowed to stay regardless.
970	NorthfieldES	DunloggінMS	CentennialHS	1	better than	7	13	4	Splitting the Dunloggin neighborhood will damage our community irreparably. There are no physical boundaries that define the school demarcation, just a line down the street. This will separate long-term friends and rest the fabric of the community.	better than	7	13	4	My children ride their bikes to school, and have planned to do so through High School. We have neighborhood schools. With the new plan, we will loose that benefit.	I realize this is a very tough task. It would seem to me that boundaries should be based, as MUCH as possible on physical boundaries such as major roads, streams, and non-contiguous neighborhoods. Splitting Dunloggin would be heartbreaking.
971		OaklandMillsMS	OaklandMillsHS	1	better than	4				better than	4				
972	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	9	4		Hi Mountview and Marriattsridge schools are just 1 mile from our house and we are redistricted to glenwood middle and glenelg high schools these schools are more than 6 miles from Sykesville and we will face so much transportation drop and pickup issues	better than	4	9	5		
973			AtholtonHS		better than	3	4			better than	3	4		Between the school time changes (which were already voted to be implemented next year) and duplicate bus service for two sides of the same exact stree to different high schools, this plan is poorly executed and costly. Put HCPSS $$ back into education.	
974	FultonES	HammondMS	ReservoirHS	5	equal to	11	11	11	Same plan	equal to	11	11	11		
975	RockburnES	ElkridgeLandingMS		5	equal to	6	7	9	My comment is based on the latest draft plan which has no proposed changes for Polygon 3087. I am in favor of this plan as it keeps the students with higher achieving programs in tact vs having the disruptions of changing landscape and negatively impacte	better than	6	5	9	The AAC draft plan is drastically better than the feasibility study as the AAC plan took surrounding neighborhoods as a block vs smaller polygons. Frankly, if we were reassigned based on the feasibility plan, our plan was to move out of the County.	
976	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	6	4	5		better than	13				

977	HammondES	HammondMS	AtholtonHS	4	worse than	7	6		It would be great to see both plans presented the same way with the interactive maps AND the data table with specific numbers. The new plan seems to move fewer high school students....that's good.	better than	7			Feasibility study was AWEFUL and not well thought out with regards to impact on students.	
978			MarriottsRidgeHS	1	better than	4	6	13	Moving 232 from MRHS to GHS adversely affects students by making bus route longer and transportation more expensive. Small number of students would be removed from established community and top academic/music programs currently immersed in.	better than	1	7	5	Current Feasibility (not Aug 8 Draft) addresses needs of overcrowded areas. MRHS is under capacity; doesn't require moving students out of the school to a further away location. Moving few students adversely affects morale and community. Disrupts academic	MRHS is top high school within immediate vicinity (1.5 miles). Moving small number of students to travel farther away to high school impacts community, academic paths, time and transportation negatively. Specifically reside in this area for MRHS.
979	PointersRunES	ClarksvilleMS	AtholtonHS		equal to	7	6		The AAC draft is poorly conceived. It would not change our current schools and therefore would not address efficient use of seats!	better than	7	1	6	AAC draft does not address the issue of capacity in west and does not keep the River Hill community together for HS. Pointers Run neighborhood of River Hill should attend River Hill High! FS Plan would change ES for my kid but makes more sense for HS.	It does not make sense to section off a portion of River Hill (Polygon 129) from the rest of the River Hill community for HS! Please do not backtrack from the feasibility study plan.
980			CentennialHS	5	worse than	7	9		This plan is more equitable in that it lines up the feeds better, e.g., Dunloggin attends Dunloggin Middle which is a better feed to Wilde Lake. It also alleviates pressure on Centennial Land ES by addressing polygon 147 which also makes sense.	better than	7	4		This plan is more equitable in that it lines up the feeds better, e.g., Dunloggin attends Dunloggin Middle which is a better feed to Wilde Lake. It also alleviates pressure on Centennial Land ES by addressing polygon 147 which also makes sense.	
981	TriadelphiaRidgeES			5	equal to	7			My comments are based on revised draft plan fro August 8,2017 AAC meeting.	better than	7			The AAC draft plan leaves a polygon 209 next to TRES going to TRES. The Feasibilty study did not. The Feasibilty study treated route 32 as some sort of wall.	These comments support the revised AAC presented at the August 8,2017 meeting.
982	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	The plan splits an established neighborhood (Dunloggin) in half. Hardly any friends from Northfield and Dunloggin will go together to Centennial High. Please reconsider splitting an established, older neighborhood. They are hard to come by these days!	better than	7	6	4		
983		PatapscoMS	MtHebronHS	1	better than	6	7	7	Please do not split neighborhoods. We bought in to neighborhoods in HoCo for particular schools. We want our children to stay with the students in their middle school! Do not split us please!	better than	1	2	4		
984	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6		Splitting the dunloggin neighborhood is a terrible idea. We are teaching these children to build community yet tearing them apart. Carpooling to high school, having friends and study groups within the surrounding neighborhoods...it's community!						
985	IlchesterES	BonnieBranchMS		4	equal to	7	6	10		better than	7	6	1		
986			RiverHillHS	2	better than	7	6	4		better than	7	6	4		
987	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	7			better than	6				
988	HammondES	HammondMS	AtholtonHS	5	worse than	9			Since diversity is something HCPSS believes in, it only makes sense to make schools like River Hill more diverse!	better than	9	7	8	Fewer high schoolers moved, increased diversity amongst the county high schools, significantly less kids moved from AHS...this plan seems to accomplish everything!	Would be useful to see the actual numbers in addition to the map.
989	NorthfieldES			1	better than	7	6	10		better than	7	6	10		
990			MtHebronHS	1	better than	6	4	7	Worse than feasibility plan. The extensive reach of school boundaries regularly place kids at far greater distances from schools than they can be, increases transportation costs, and severs long standing communities.	better than	6	4	7		
991			AtholtonHS	4	better than				I don't think that overcrowding in a few schools should so drastically affect all schools in the county. The overcrowding should be handled with portables until the new high school is built.	better than	9	10		This plan is still too drastic but it is better. Atholton is preserved which is great. School like Atholton, which are between 90-110%, should NOT be touched.	Disruption to high school students should be minimized. There are too many other factors that affect their emotional well-being. Dealing with changing schools is not something high school students should have to deal with.
992	HollifieldStationES	PatapscoMS		1	better than	7	4	9	We are seeing all of these factors fall apart. We do not feel the numbers are accurate.	better than	3	4	7	We believe the numbers you have gathered are inaccurate. The idea of busing children who walk to school is bad logic and will backfire and will have an extreamly negative affect on our community and Howard County in general.	I am a realtor and I am seeing first hand the stress level this is causing to our community. If you make poor decisions on our behalf you will create a problems that will affect how we vote and where we spend money.This has already had a negative impact.

993	FultonES	HammondMS	ReservoirHS	2	equal to	13	6	7	My kids live in polygon 221. We are still in a broken feed leftover from the 2013 middle school redistricting. Please move polygons 221, 1221, and 2221 from Hammond MS to Lime Kiln MS to stay with the rest of their classmates at Fulton ES.	equal to	13	6	7	My kids live in polygon 221. We are still in a broken feed leftover from the 2013 middle school redistricting. Please move polygons 221, 1221, and 2221 from Hammond MS to Lime Kiln MS to stay with the rest of their classmates at Fulton ES.	Polygons 1007 and 7 also go to Fulton ES, Hammond MS and Reservoir HS, and should move to Lime Kiln MS. Polygons 1009 and 9 go to Hammond MS and Reservoir HS, which would be a small feed. They should probably go to Atholton HS with the rest of Hammond MS.
994	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
995			AtholtonHS	4	better than	7			Nothing should be done until a final decision is made of the construction of a new high school. If a new school is going to be build in the eastern part of the county (along Rt 1) then that should happen before any redistricting. STOP moving the kids	better than	7			Any study that moves 900 kids in and out of one school (Atholton HS) should end up in the trash can. Again, built the new high school and then redistrict. The county can live with both large and small high schools. They don't all need to be 1400 kids.	Make the county executive commit to a yes/no on a new high school and then go to the next step. You have skipped step one. Stop using Atholton HS as a ping pong ball. Other counties have both large and small high schools.
996			RiverHillHS	4	equal to	4	1	7		equal to	1	4	7		
997	ThunderHillES	DunloggingMS	WildeLakeHS	1	better than	4	1	13	We are 2-3 miles of VES, EMMS, DMMS, HHS yet the plan has us redistricting to OMMS, which is 7 miles away. Whereas communities, that are closer to OMMS (i.e. Glenmont) is districted to EMMS, HHS. Why are we pulled across 108 & 175, they aren't.	better than	4			We are 2-3 miles of VES, EMMS, DMMS, HHS yet the plan has us redistricting to OMHS, which is 7+ miles away. Whereas communities, that are closer to OMMS (i.e. Glenmont) is districted to HHS. Why are we pulled across 108 & 175, they aren't. It's absurd	There inequality in how this redistricting is being handled- communities are not impacted despite being closer to a school or under keeping students together. Glenmont is districted for THES, EMMS, HHS. We should be same based on locale & feeds together
998	WaverlyES			4	worse than	6				better than	6			The study had us going to a new elementary school but then staying with the same group the draft has a staying in the same elementary school and with that same group all the way through High School	Build policy so that we don't have to read this direct every couple years. These are children they were drastically changing their lives by changing their schools and removing them from their friends every few years
999			MtHebronHS	1	better than	4	7	3	The current draft plan splits 2 major communities that currently feed Mt. Hebron HS, Valleymede and Mt. Hebron. Not only does this impact communities so tied to the HS, but is fiscally and environmentally irresponsible as it moves students who are walkers	better than	4	7	3	The AAC plan and the feasibility plan are equally bad as they split communities that walk to Mt. Hebron HS	
1000			RiverHillHS	1	better than	7	4	6		better than	7	4	6		
1001			RiverHillHS	4	equal to	11	14	14	It would be nice if we could see the numbers to judge the draft plan's effectiveness at achieving a balanced capacity county-wide. I understand that people are highly motivated to keep their neighborhoods in desirable school attendance areas.	better than	11	7	14		I can't judge if the draft plan gets the job done with balancing capacity without numbers. Regardless of my emotional desires, it is necessary to alleviate overcrowding to the east. I can't really judge that without the numbers.
1002			MtHebronHS		better than	4	7	1	We feel your research and numbers are inaccurate.	better than	1	2	7	We feel you have inaccurate gathered numbers and data.	As a realtor I am seeing first hand the negative affect this is having on our community. This will affect how we vote, where we live and how we spend our money. We strongly advise against this plan.
1003		HarpersChoiceMS	WildeLakeHS	1	better than	6	1			better than					
1004	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4			My children attend WFES, MVMS and MRHS and they leave the house 45mins-1 hour before their schools begin.. If moved to BPES, GWMS, GHS that will only increase our time to over 1 hour. Too much time getting to school when we live 5 mins from our schools.	better than	4			Why should my children have to continue pass schools that are so close to drive down the death trap 32 to go to school. My children play sports and would have to drive home in rush hour traffic on 32 to get home. How many deaths would have to occur??	The small amount of children that you are moving from WFES to BPES are not going to significantly change the numbers going to either school. We bought our house because of the schools and don't feel we should suffer from over development in other parts.
1005			HowardHS		equal to	11	11	13	The draft plan keeps us at the same HS	better than	7	4	10	It does not make sense to triple commute time and pass one high school to get to another.	PLEASE - No matter what, rising Juniors should be allowed to finish at current school (which policy allows). Studies show it is detrimental to disrupt rising juniors. They have critical relationships with advisors, teachers and coaches. no bus needed.
1006	VeteransES			1	better than	7	6	1	It does not make sense to uproot a large number of children about to go into fifth grade for new children from Hollifield. My daughter would lose half her Girl Scout troop to the new plan.	better than	7	6	7		It does not make sense to uproot a large number of children about to go into fifth grade for new children from Hollifield. My daughter would lose half her Girl Scout troop to the new plan.
1007	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	6	4		better than	7	3	6		
1008	DuckettsLaneES			4	worse than	1	11	14	Under the new plan, my children would still attend the same schools, so I am not impacted. Overall, it seems fine. I would like to see plans for a new high school in Elkridge.	equal to	1	11	14		I would like to see plans for a new high school in Elkridge.
1009	NorthfieldES	DunloggingMS	CentennialHS	1	better than	13	7	4	Current school attendance area honors the official boundaries of our Dunloggin Neighborhood The Draft plan literally cuts our neighborhood in half leaving a district that is not a contiguous boundary. It looks like gerrymandering. Irresponsible.	better than	10	9	12	The draft plan leaves boundaries that honor no neighborhood, disregarding the need to foster community-based natural neighborhoods, not to mention that the proposed new High School is nowhere near my house. Ridiculous and incredibly irresponsible.	Neighborhoods should be respected as well as the fact that many homeowners purchased their homes based on the schools assigned to that COMPLETE neighborhood. The draft plan does not foster community, ease of access to school and would be disruptive.
1010	BellowsSpringES			3	equal to	4				equal to	1				

1011			MtHebronHS	1	better than	4	7	13		better than	6	4	8		
1012			RiverHillHS	1	better than	7	6		This proposal cuts us off from the rest of the continguous neighborhood and leaves us isolated. The original feasibility study kept us grouped together for redistricting purposes.	better than	6	7		Land records show my address (12475 Triadelphia Road) as part of the larger Woodmark neighborhood on Carroll Mill Rd. The AAC plan cuts us off from the rest of the neighborhood.	Please, please, please keep polygon 3182 with the rest of Woodmark neighborhood on Carroll Mill Road. River Hill HS is under capacity and adding the 19 students from polygon 3182 does not impact negatively.
1013		ClarksvilleMS	AtholtonHS	4	better than	4	7	6	further splits the RH neighborhood into AHS and RHHS would split neighbors who live across street from each other (Great Star Drive into two different schools, duplicating bussing routes	better than	1	9	11	the draft plan better maintains the diversity of students at AHS and improves the diversity at RHS -- does not lump all the "haves" into one school (RH)	
1014	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	4	9		better than	6	4	3		
1015	HollifieldStationES			2	better than	4			Transportation for our children would involve getting on 29 at 40 on the left exit and subsequently getting all the way over on 100 to get off on 103. This is not real safe. The route to hses is much safer from this neighborhood.	equal to	4				I understand that there are many considerations and that attendance numbers have to be worked out, but I am extremely worried about transportation. I haven't looked at all areas, etc but am not happy with the proposed change for our area.
1016	DeepRunES	MayfieldWoodsMS	LongReachHS	3	worse than	4	6	7	There was no change for us in the new AAC plan vs. the original draft plan.	equal to	4	7	8	I do worry about Deep Run and the fact that most PTA support/officers/parents are in the rezoned areas. Worry about what that will do to DRES from a contributor/support standpoint since it seems only more lower income areas will be left.	I know many are unhappy with new school assignments, but I do agree this is necessary. While I'm not thrilled my son will be changing schools in his last year, we will figure out how to make that transition successful (he's on a 504 plan).
1017	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	4	1	6	Well done. Great improvement over the feasibility study.	better than	4	6	1	The feasibility study met the requirements outlined, but appeared to lack some common sense in boundaries, with several areas split into other school districts even though they were less than a mile from their current school. Lock those areas in place.	Thank you for the transparent process and the opportunity to provide feedback. Regardless of what I think about the boundaries, the process is well designed and executed. Those participating and helping deserve credit and thanks for your efforts. Thanks!
1018	NorthfieldES				better than	7				better than	13				This plan impacts us negatively in so many ways. It impacts us financially, it impacts our careers due to timing, and it impacts our academic expectations. It breaks up contiguous neighborhood boundaries and friendships.
1019			HowardHS	1	better than	7	6	13		better than	6	13	7		
1020	BushyParkES			1	better than	6	3	5		better than	6				
1021			AtholtonHS		equal to				This plan doesn't affect my community so for us it is equal to current attendance areas.	better than	9	10		The feasibility study was too destructive. this plan is better because it largely preserves Atholton. Previously Atholton was decimated with 65% of the kids being moved out. Atholton is great as it is. It isn't overcrowded and it has good diversity.	If revisions are made, please continue to Preserve Atholton. The goal should be to minimize the number of kids moved overall. Portables and open enrollment should be considered as options to relieve overcrowding.
1022	BushyParkES	FollyQuarterMS	GlenelgHS	4	equal to	7	1	8	This works out well for us as we do not change and like the schools. However, polygon 234 is changing to Lisbon instead of BP meaning our son's best friend and close friends of our family will now move after their kindergarten year. They now want to move	better than	7	8	10	This works out well for us as we do not change and like the schools. However, polygon 234 is changing to Lisbon instead of BP meaning our son's best friend and close friends of our family will now move after their kindergarten year. They now want to move	Please reconsider the elementary school for polygon 234 and keep them in Bushy Park. Also, we love our polygon, 1220, so please don't change that!
1023				5	equal to	7			Keeps small Gray Rock community together and uses Frederick Road as a logical border	better than	7			New draft does not split small Gray Rock Farm community in half. In the feasibility study, a 2 mile stretch of Gray Rock Road would attend three different high schools under the feasibility study. Uses Frederick Road as logical border.	
1024	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	1	As the past [president of the Saint John's community Association for more than ten years al am shocked that you would even consider breaking up this over 50 year old neighborhood (because Gray Rock so vehemently did not want their neighborhood broken up).	better than	7	6	1	If one neighborhood does not want to be broken up, why on earth would you go to an even older neighborhood and split it up right down through the middle. STOP BREAKING UP THE NEIGHBORHOODS. YOU KNOW BETTER!!!!!! I have served on these committees before!	Leave the Dunloggon neighborhood alone. You are already bussing students in from across 29, and that was never supposed to happen. Do not break up such an old established neighborhood and change our entire elementary an middle fee.
1025		ClarksvilleMS	AtholtonHS	1	equal to					better than					While The Feasibility Study kept the River Hill community together, now the draft plan makes us divided again. Please keep the River Hill community together.
1026	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	13			better than	7	6	13		
1027	ClemensCrossingES	WildeLakeMS	AtholtonHS	3	equal to	7	6	4		better than	7	6	4		
1028	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	4	This new proposal makes no sense whatsoever and will negatively impact my children. The arbitrary border makes no sense too. I strongly object to this new proposal.	better than	6	4	7		Our kids have grown up with the kids in our neighborhood and all of the sudden, you're going to split the neighborhood in half??? Makes no sense.

1029		HammondMS	HammondHS	2	better than	7	13	14	For my location (Macgills Common), the high school suggestion is absurd. Wilde Lake HS isn't even on the radar. Furthermore, the neighborhoods you've assigned to Wilde Lake are non-contiguous. Our kids have never seen their neighbors" in Wilde Lake."	better than	7	13		For my location (Macgills Common), the high school suggestion is absurd. Wilde Lake HS isn't even on the radar. Furthermore, the neighborhoods you've assigned to Wilde Lake are non-contiguous. Our kids have never seen their neighbors" in Wilde Lake."	At least redistricting from Hammond HS to Atholton HS made sense geographically. The current proposal may as well move my kids to Marriotts Ridge or Centennial or Mt. Hebron for all the sense it makes. Allow grandfathering. Athletes' loyalty is crushed.
1030	AtholtonES			1	better than	4	7	9	My family and I purchased our property in 2015 based entirely on school districts. Redistricting to the proposed schools in the AAC draft plan would not be advantageous to our children, and we are against the current AAC draft plan.	better than	4	7	9	My family and I purchased our property in 2015 based entirely on school districts. Redistricting to the proposed schools in the AAC draft plan would not be advantageous to our children, and we are against the current AAC draft plan.	The AAC draft plan would have drastic implications on my family's future. We support the current school attendance area, or the redistricting proposed in the Feasibility Study. We are against the current AAC draft plan.
1031		BurleighManorMS		5	equal to	7			Keeps small Gray Rock Community together. Uses Frederick Road as logical border	better than	7			The feasibility study splits the small Gray Rock Farm community in half, causing a 2.2 mile length of Gray Rock Road to attend three different high schools. The new draft uses Frederick Road as a logical border, keeping Gray Rock children together.	
1032	ManorWoodsES			1	better than	4	7	13	AAC is worse than the current attendance policy in my area in terms of transportation and economical sense.	equal to	4	7	13	Does not address concerns from our community.	We live in Turf Valley. Currently attending Manor Woods and are to switch to West Friendship. With the expansion of Waverly and shorter distance to either Waverly or Manor Woods, the switch does not make any sense.
1033	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13			This proposal will cause social harm to my family. This also reduce the value of my property by $100,000 and give to others more connected.	better than	4				Stop the gerrymandering with the schools. This is real money and real families you are playing with
1034		LakeElkhornMS		2	better than	4	7	9	Understand school overcrowding in the East(county council should be ashamed for allowing all development without new school funding which granted not Schools fault) but really need new HS in East	equal to	4	7	9	In my families case both are same	
1035	GormanCrossingES	MurrayHillMS	ReservoirHS	1	better than	13	13	13	My town is located all the way at the end of the road and there is no outlet. I do not understand how our town school has been changed.. our town is furthest from the new school..even though it looks like it is closest on the map.	better than	13	13	13		Please reconsider.. even though our town looks closer to main road to school, it is the furthest because of there is no outlet to main road. other town on the way back to mine, their school stays same. How come ours change? Not making sense to me. Thanks
1036				5	equal to	7			Keeps kids from small community together. Uses Frederick Road as logical boundary.	better than	7			Does not split gray rock community in half, causing the isolation of less than 25 children to a high school out of their community. Uses Frederick Road as a logical border instead of splitting Gray Rock community and half	
1037	GormanCrossingES			5	worse than	2	3	1		better than	2	3	3		
1038			MarriottsRidgeHS	5	equal to	11				equal to	11

1040			HowardHS	5	worse than	6	7	9		better than	7	8	9		
1041	BellowsSpringES				equal to	7				equal to	13				
1042	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	5	6	The AAC draft plan is worse and needs to be redrafted. Our community exists because of the schools, and closeness of programs that are involved from the school. This chaos and unjust stress for all those who seek for good education for their children.	better than	4	5	9	The AAC draft plan is worse and needs to be redrafted. Our community exists because of the schools, and closeness of programs that are involved from the school. This chaos and unjust stress for all those who seek for good education for their children.	W e as a community moved to this area to provide good education and activities for our children. We are less than 5 mile distance from CLES, BM, and CHS and we do not want to risks safety for kids crossing busy streets. The AAC plan is bad!
1043			HammondHS	1	better than	4	6	4	The current school attendance plan works better for Polygon 13. The AAC draft plan will tear our small community apart from our neighbors. We are the only area on Guilford RD being redistricted and this will negatively impact our community and support	equal to	4	6	7	No change. Both negatively impact my neighborhood and isolates us from our school family and community. Please reconsider polygon 13.	This change negatively impacts my students ability to participate in community and school related activities. Waste of money busing students who can walk to school. Polygon 13 mostly composed of area with no houses. Only Pleasant Grove and few others.
1044			RiverHillHS	1	better than	6	14	13	Kids within our neighborhood and village are split up. I prefer the option where more kids from CMS stay together into high school by attending River Hill together.	better than					
1045	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	7	5	Again, I don't understand why the Turf Valley development isn't being moved to BPES as temporary solution to minimize the number of students impacted until the new elementary school is opened. Less students impacted, does not require $4M cap invest	better than	4	7	5	Polys 231,229,1231, 1229,2229, 232, 224 are all approx 2 miles or less from MRHS and this plan puts approx 10 miles away at GHS on a very dangerous road - Route 32 during rush hour traffic. Would rather have the small feed as a result of BPES	Would rather have small feed back from BPES in feasbility study to Mount View and Marriotts Ridge than this proposal to Glenwood and Glenelg. I can't support putting children on buses for longer amounts of time each day.

1046	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	6			For my polygon, 66, the new elementary and middle schools would feed together, but there would be almost none of those students staying together for high school at River Hill.	better than	6			For my polygon, 66, the new elementary and middle schools would feed together, but there would be almost none of those students staying together for high school at River Hill.	
1047			GlenelgHS	1	better than	7	6		Ideally those kids east of 32 that are at folly quarter all move as one unit to high school	equal to	7	6			
1048	CradlerockES			1	better than	7	6	4		better than					It is unfortunate how communities will be broken up. Neighbors will be going to different elementary schools. In some instances students will be commuting to schools further away from home even though there is a school a few blocks away.
1049	NorthfieldES			5	equal to	7			Draft keeps Gray Rock Farm community intact and uses Frederick Road as a logical border.	better than	7			New draft uses Frederick Rd as logical border keeping small Gray Rock Farm community together. Feasibility study splits GRF community in 1/2, isolating <25 students away from their community.	
1050			CentennialHS	1	better than	6	7	4		better than	6	7	4		
1051			MtHebronHS	1	better than	7	4		Moving walkers in MOUNT HEBRON neighborhood from MT HEBRON HS breaks up a longstanding community in a school known for its community and it increases expenses by busing students that are currently walkers.	better than	7	4		See above.	
1052	RockburnES	ElkridgeLandingMS	HowardHS	5	worse than	6	7	14		better than	6	7	14		
1053	PointersRunES	ClarksvilleMS		1	equal to					better than					The River Hill community is divided, which does a big deal on friendships. Extend the attendance of River Hill out to polygon 123 and take back some of the Wilde Lake high polygons from the draft plan or just go back to the feasibility study.
1054	PhelpsLuckES			3	equal to	11				equal to	11				
1055	ClemensCrossingES	WildeLakeMS	AtholtonHS	5	worse than	1	4	7		better than	6	7	2	Thanks for less change in Atholton.	
1056			HowardHS	1	better than	6	1	13	amazing how one plan is to move the kids closest to the school district lines, and now we have moved to the furthest kids and split a neighborhood into two. How disappointing that you view us as chess pieces, this isn't a game and we should not be moved.v	better than	1	7	2	all of this could have been prevented 10 years ago when we told you that you needed land for a high school in Elkridge	
1057	HammondES	HammondMS	AtholtonHS	5	worse than	7	9	10	This plan diversifies schools better.	better than	1	10	9	This plan is far better than the superintendents proposed redistricting plan. Yes it does move students which truly no one wants but it moves less students. Diversifies schools better creating a better balance across the board and utilizes seats better.	
1058	StJohnsLaneES			4	worse than	1	8	9	In the new draft plan, two neighborhoods that were moved in the last redistricting would not be moved again, which I feel is very important. We are in polygon 72 and do not want to be redistricted again, as we were just moved 5 years ago.						
1059	WaterlooES	EllicottMillsMS	HowardHS		worse than	1	2	6		better than	6	1	3		
1060	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	4	3	13	Existing poor assignment of neighborhoods to schools worsens considering the distance to school hence the travel time. With proposed tighter school start times, increasing distance exasperates the problem.	better than	3	4	13		School district is already diced and sliced in most bizarre manner. This plan makes it even worse where more people live further from school than they should.
1061	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	6	4	7	I am a concerned parent living in Claks Glen Community (1189). In the initial feasibility study, our schools remain the same. In the Aug 8th proposal, we have been redistrcited fro Dayton ES, which makes no sense - disruption of community and long transpo	better than	7	4	6	I don't understand that why the draft plan makes changes to polygon 1189. We are part of the riverhill community for many years. Beyond schools, kids from the community participate in many extracurricular activities together. also, Dayton is too far	Please provide us with the reasoning for moving us from pointers run to Dayton in the AAC draft plan, which differs from the feasibility study. Arbitrarily tearing apart the community and long distrstance transportation make me super concerned about fair.
1062			CentennialHS	1	better than	7	6	13	My son just graduated from Centennial High School. I find it very upsetting that a wonderful, cohesive community like Dunloggin would be split into different high schools. I believe this plan would be destructive to our community.						
1063			MtHebronHS	1	better than	4	8	12		equal to	4	7	12	I no longer have a child in the school system; however, it seems to me that busing students that are walkers to a school is irresponsible. This is particularly an issue for high school students who frequently stay for after school activities.	By moving students away from a high school they can walk to negatively impacts the ability of poorer students to be able to be a part of the school sports and clubs. With the rise of opiod issues this should be THE focus of the plan!! Save our County!

1064	FultonES	LimeKilnMS	ReservoirHS		better than	4	6	7								
1065			MtHebronHS	1	better than	8			Please please think before you make current high schoolers who have been subject to multiple redistricting go through this! It will be horrible for the incoming and current high schoolers who have had to undergo this twice and have sibs at diff schools!!!							
1066	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8			Recommend that Juniors along with Seniors are allowed to finish out at current high school.
1067		ElkridgeLandingMS		5	worse than	6	8	9		better than	6	8	9			I was skeptical as to how the AAC, while ES-focused to start, would handle the high school redistricting. I feel in their short time of study, they got right what the feasibility study got wrong. Hats off to you all.
1068	VeteransES				better than	13	4		SAFETY ISSUE HERE - with Both Autumn Rust Road and Brittany Drive will now have 2 or 3 separate school buses driving to 2 different schools at the same time.	better than	4	13		SAFETY ISSUE HERE - with Both Autumn Rust Road and Brittany Drive will now have 2 or 3 separate school buses driving to 2 different schools at the same time.		Legally the county cannot have more than 2 buses travel down a two lane road. Brittany and Autumn are only single lane roads and will need 3 buses to accommodate all these students going to 2 different schools. Major Safety violations will occur!!!
1069	BushyParkES			1	better than	13	9	5	We are so close to bushy at country springs my child will be going into her finally year and I can't imagine her having to start all over socially. Please leave us at bushy or give us the option to stay if we provide own transportation to finish elem							
1070	RockburnES			5	worse than	10			Without being provided with data specific to the plan (utilization, # of students impacted, etc.), it appears by comparing maps that the moves are appropriately balancing the total number of moves with the need to balance county wide utilization.	better than	10			Without being provided with data specific to the plan (utilization, # of students impacted, etc.), it appears by comparing maps that the moves are appropriately balancing the total number of moves with the need to balance county wide utilization.		I would like to thank the AAC for all their work so far. Based solely on the maps, it appears they have been able to reduce the total number of student moves in order to balance capacity.
1071	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	7	6	1		better than	7	6	1	I am a resident of Montgomery Meadows neighborhood located in polygons 95,1095,2095 and 84, and I would like to voice my strong support for the AAC plan for the northeast portion including HHS, BBMS, and IES.		The plan improves the feeds across all levels of the school system while keeping strong feeds within the northeast schools. The plan will also better utilize the school space we have today to reduce overcrowding in the northeast part of the county.
1072	ElkridgeES			3	equal to	2	2			equal to	2	5				
1073	CentennialLaneES	BurleighManorMS	CentennialHS	3	worse than	1										
1074		PatapscoMS			better than	6			Especially given proximity to Patapsco and Hebron, moving us back to St. John's MAKES SO MUCH MORE SENSE. This makes no sense from a feeder prospective or a geographical one. It will also hurt the older kids.							
1075		ClarksvilleMS		1	better than	6	7	4		better than	6	7	4	I lived in River Hill for 12 years and would like my kids to attend High School with the majority of their middle school peers. It has never made sense that those of us living on the opposite side of 32 are displaced from the majority of our neighborhood.		
1076	RockburnES	BonnieBranchMS	HowardHS	1	better than	6	4	7		better than	4	1				
1077	AtholtonES				worse than	1	7			better than	1	6	7			
1078	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	equal to	7	4	9		better than	7	1				
1079	ClemensCrossingES	LimeKilnMS	AtholtonHS	5	worse than	1	6	9	The move of polygon 127 from CCES to PRES and from LKMS to CMS makes complete sense to me as it helps utilize capacity in the West and it eliminates the long polygon (127) from being the only polygon going from CCES to LKMS.	better than	6	7	1	The moves made in the AAC plan seem less like gerrymandering than the Feasibility Study and evens out demographics to a certain extent. The AAC also does not completely overhaul any one school like the Feasibility Study did to AHS.		
1080		PatapscoMS	MtHebronHS	1	better than	4	3	7	Poly# 2161 Data (Based on Most Recent): Most recent scenario negatively impacts 26 of 29 households surveyed that are in safe status walking distance to Mt. Hebron HS. Over 95% confirmed house purchase decision incl. walkability to quality HS.	better than	4	3	7	As a whole, the Feasibility study recognizes the collateral educational/personal/safety/financial/community value relative to school proximity and walkability. Example: Poly# 1162 ensures that Hebron HS will include Hebron neighborhood students (vs ACC).		There is no basis/rationale that can support the ACC Plan to put students, who would otherwise safely walk or bike, to drive or take a bus to a school. Zero data supports (home sales, safety, op costs, club participation, teen fatalities, traffic)
1081		ElkridgeLandingMS	HowardHS	1	better than	6	7	13	The feeds from ELMS are way off. You have a very small group of kids, now being moved from Howard (an overcrowded school) to Long Reach (an overcrowded school). The feed is way too small. We are supposed to be keeping these kids together.	better than	6	7	13	I believe this plan is catering to other neighborhoods who have been VERY vocal about their area being redistricted in the original plan. I believe, as always, lower Elkridge is going to be expected to shoulder the blow, so other's don't have to.		If we can't have a high school in Elkridge, we should at least keep these kids together. There is no reason to send kids from one overcrowded school to another. If you need to redistrict HHS kids, at least have the sense so move them west!.
1082	DaytonOaksES	FollyQuarterMS		4	equal to	11	14	14	I'm glad we my children will be attending the same schools and high school that we planned for them to attend.	equal to	11	14	14			

1083	LongfellowES	HarpersChoiceMS		1	better than	6	6	6		better than	6	6	6			
1084			MtHebronHS	1	better than	4	6		We are walkers to Mt. Hebron and you want to move us west to Marriott Ridge. It's disruptive to the community and inconvenient to move when we are so close to the high school.	better than	4	6			
1085	PointersRunES			5	worse than	7	6			better than	7	4		We are happy this plan keeps us at PRES. The old plan had us moving to Clarksville E. PRES is closer and would keep the bus off major road 108.	
1086	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8			
1087			ReservoirHS		better than	13	8	7		better than	4	6	8			
1088	CradlerockES	LakeElkhornMS	OaklandMillsHS	2	better than	6	9	7		equal to	6	7	9			
1089			CentennialHS	1	better than	4	7	6	Polygon 214 is closer to CHS than Polygon 153. Polygons 214, 153 and 1184 are part of the same neighborhood. It is not in alignment with Policy 6010 to return Polygons 153 and 1184 to CHS and redistrict 214 to MRHS. 214 should be returned to CHS.	better than	6	7	14	The neighborhood comprising of Polygons 214, 153, 1184, 1154, 154 and 2154 was further broken down by returning Polygons 153 and 1184 back to CHS and redistricting the remaining polygons to MRHS lowering the feed from BMMS to MRHS in the neighborhood.	Polygon 214 had submitted two proposals on July 31. Please consider the proposals in the best interests of the children.
1090	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8			
1091		HammondMS		1	better than	6	4	6	You take out all the higher SES kids from Hammond High School and put them in Athelton or Reservoir. It is not fair. All the kids that went to elementary school and middle school together are ripped apart. The diversity increases for Hammond High.	better than	4	13	13	The feasibility study at least tries to make the highschools SES equal. The AAC makes the low SES schools lower.	These studies always affect the medium SES people the worst and the high SES stay "pure."
1092	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	7	8		better than	6	7	8			
1093			HowardHS	5	equal to	11	11	11		equal to	11	11	11			
1094	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8			
1095			HammondHS	1	better than	7	9	13		better than						
1096	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8			
1097	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	13		We live in polygon 224 and are connected to the WFES community. We are east of 32 and our school bus does not travel on 32. Please do not move my family from WFES to Bushy Park. That would tear us away from our community.	better than	13	4		We live in polygon 224 which is east of 32 and right off of 99.Our family is 0.7 miles from Mount View and Marriotts Ridge. If there were sidewalks my children would be walking. Please do not move us from our neighborhood middle and high school.	Please try to make the plan move less students.
1098	PointersRunES			1	better than	13	4	5	We have invested time, energy to build our community.Our kids deserve to go to the current school they are assigned to,i.e.Pointers Run ES or at least Clarksville ES(underutilized at 69%). They should not have to go so far to Dayton Oaks ES.	better than	13	5		We are in Planning polygon 1189. Feasibility Study had no change to our school-district. We should be allowed to continue with PRES or at the most Clarksville ES.	The areas that are near the school and have been long with the school should be allowed to remain so.
1099		HammondMS			equal to	14			Without the enrollment data and demographic data it is impossible to analyze if the AAC draft addresses the desire of the school system to fill seats in the west... and provide equity (relieve overcrowding) for students in the east.	equal to	14			The AAC plan (based on the map) seems like just a "No" to the feasibility study Plan. Don't know if that addresses school system challenges. Both maps have absurdities in HS that would be addressed by building a new High School in overcrowded zones	
1100			CentennialHS	1	better than	7	13	8	I am deeply opposed to this plan & will protest it fervently at every opportunity. We retired from the military to finally give continuity to our children & chose a neighborhood that could not be redistricted without significant fracturing.	better than	7	13		The feasibility study made worlds more sense and did not fracture communities the way this does.	
1101			HammondHS	2	better than	4	6		Moves students who are close to Hammond to a school on the other side of 29.	equal to	2	6		Moves students who are close to Hammond to a school on the other side of 29.	Students living near Hammond middle and in the Emerson community should attend reservoir or Hammond high schools. The schools are closer and the would stay with their friends.
1102		PatapscoMS	MtHebronHS	5	equal to	1								The plan stayed the same but I am in support of the current plan.	My child would move from Mt. Hebron to Marriotts Ridge which I am in favor of because 1- my child has friends at both schools and is not opposed to changing schools and 2- Marriotts is actually a better school than Hebron.
1103			AtholtonHS	5	equal to	7	8	14		better than	7	8	14	This drafts has a lot less moving of students in/out of Atholton HS.	
1104		MountViewMS	MarriottsRidgeHS	1	better than	6	4	1		better than	6	4	1			
1105	PointersRunES			1	equal to	6	4		I have sent a letter via email with my concerns about the plan.							
1106			HammondHS	1	better than	13	9	7	all the Booster parents leave and you will drain the PTA	better than	9	2	13	The feasibility study is much better	
1107		OaklandMillsMS	OaklandMillsHS	1	better than	7	4	6	We are against taking my children (polygon 1056 Allview) from Oakland Mills to Wilde Lake. They will be placed outside of our community with little to no students they know. Also, getting to and from school for extra activities will be impacted.	better than	4	5			My family participates in the Early College Program at OMHS and wants to continue to do so. We also participate in JROTC at OMHS with the intent of joining the military.

1108	WaverlyES	MountViewMS	MarriottsRidgeHS	5	worse than	6	7	14	It was difficult to figure out my polygon because it had a rectangle with updated feeder schools on top of it. But it seems as if the change includes keeping all of current Waverly kids together and sending to Mount View and MRHS. This is GOOD!!!	better than	6	7	14	As far as i can tell, It keeps Waverly kids together. FS was moving one small group (polygon 160) back with Waverly kids and leaving surrounding neighborhoods at Patapsco and Hebron. This is better because it keeps all the kids together that have been tog	Please remove the rectangle over polygon 160 so I can make sure I am reading the map correctly. I want my kids with our Waverly friends.
1109	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	13	4	6	AAC Draft Plan has added my small neighborhood #1189. Currently we're 1 mile from PRES. Plan proposes sending us 5 miles away to DOES. Our kids will be sent away from our Clarksville community. Bus costs will increase.	better than	13	4	6	AAC Draft Plan has added my small neighborhood #1189. Currently we're 1 mile from PRES. Plan proposes sending us 5 miles away to DOES. Our kids will be sent away from our Clarksville community. Bus costs will increase	We purchase our home because it's 1 mile from PRES and CMS! Busing kids to DOES 5 miles away is insensitive to the needs of kids and takes them away from friends and out of their community.
1110	NorthfieldES	DunlogginMS		5	equal to	7				better than	7			Keeping Gray Rock together.	
1111	WestFriendshipES			1	better than	4	9	1	The main consideration for redistricting should account for minimizing impact for the current students. In that regards, assigning polygon 304 to Bush Park ES opposed to current proposal makes more sense.	better than					
1112		BonnieBranchMS		5	equal to	4	6	7		better than	4	6	7		
1113			CentennialHS	1		1	6		the plan splits the dubloggin neighborhood between two high schools to no good purpose. the farm data does not change at either chs or wlhs						
1114	WaverlyES	MountViewMS	MarriottsRidgeHS	5	equal to	2				equal to	1				
1115	TalbottSpringsES			4	equal to	6	7	1		better than	6	7	1	I appreciate that the AAC draft plan keeps the students from Hopewell together with their peers from the rest of the area for MS and HS.	I am not opposed to redistricting students. I know that it is a reality when our communities are changing so much. I just want to make sure that decisions are made to keep neighborhood students together with others from their close geographic area.
1116		ElkridgeLandingMS	HowardHS	1	better than	6	9	7	Splitting up lower Elkridge from the rest is detrimental to the community. Changing high schools mid-stream is detrimental to teens' social and emotional development.	better than	6	7	9	Same as above.	My daughter, who is a rising junior and a member of the Honors Program at HHS, would be negatively affected by being redistricted to LRHS, which does not have an honors program. Important for my 8th grade daughter to attend the same HS as her sister.
1117		OaklandMillsMS		4	equal to	6	1	2		better than	7				
1118	AtholtonES			1	better than	7	9	6	We are much closer to Atholton HS than either Oakland Mills or Wilde Lake HS. I am strongly against this or the current plan. When you consider demographics, location and keeping students together those that go to AE should feed into AHS!!!	better than	9	4	6	Feasibility study changes make way more sense to me when looking at demographics, transportation and keeping students together.	I do not like the AAC draft plan and greatly favor the feasibility study plan!!!
1119			AtholtonHS	3	equal to	1	7	11		equal to	1	11	14		
1120	NorthfieldES	DunlogginMS	CentennialHS	1	better than	4	6	7		equal to	6	7	7		It's extremely discouraging to see the county try to tear apart a close knit community, established for a century, and affect our home prices. Most of us paid more to live where we are so that our children would go to specific schools.
1121	BellowsSpringES	MayfieldWoodsMS	LongReachHS	4	equal to	6	7			equal to				With regards to high school, it is interesting to see the changes made between Long Reach and Howard. The area the feasibility study moved to LR now remains Howard, but more Route 1 corridor is moving to LR.	
1122	IlchesterES			4	equal to	7				equal to	7				
1123	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	equal to	11	14	14		better than	7	6	8	I like the AAC draft plan!!!!! It takes into consideration neighborhoods, where parents have built support networks, and is not disruptive to the children.	Thank you AAC Committee for A.L.L. your hard work this summer!!!
1124		ClarksvilleMS	AtholtonHS	1	better than	1	9	13		better than	6	7	13		
1125			HowardHS	5	equal to	7	6			better than	13			My son will be a rising junior the year the redistricting is proposed to take place. This is the most important year as far as college readiness and planning go and I do not want my son to have this upheaval during this critical year.	
1126			HowardHS	5	equal to	6	7	8		better than	6	7	8		
1127	WestFriendshipES			1	better than	4	1	7	My children would have their transportation times be over an hour to school. Unacceptable. The school my children currently attend would go from ideal utilization to over 141% in 7 years. Unacceptable.	better than	4	7	9	It is my understanding that our pod (231) was moved from Mt. View Middle and Marriotts Ridge in order to prevent having a small feed of Bushy Park students going outside of Glenwood/Glenelg. In my opinion, it is far worse (see below due to character lim.)	to have children travelling so far to school, away from their neighborhood, and community. We're in the shadow of Marriotts Ridge and Mt. View; Glenelg is nearly 20 minutes away without traffic. I would strongly prefer to be part of a small feed.

1128			MtHebronHS	1	better than	6	4	7	I reside in 159. Both of my kids are current walkers to MHHS. You're splitting apart a neighborhood that has gone to SJLES, PMS and MHHS for many years. As a Senior, my son will get to stay at MHHS. As a sophomore, my daughter will have to go to MRHS.	better than	4	6	7	You've now added additional walkers (i.e. polygon 2161) into the plan to move to MRHS. How does this make any sense? I strongly feel that if a child starts at one high school, they should get to finish there.	I'm strongly opposed to moving high schoolers once they've started at one high school. This will be detrimental both academically and socially. Please consider letting sophomores and juniors stay at their high school, in addition to seniors.
1129				1	better than	4	6	9	Negatively impacts SES of Hammond High	better than	6	4	1		
1130	ElkridgeES			1	better than	13			Moving our child to another overcrowded high school is not a good solution. The Elkridge area needs its own high school.	better than	1				Elkridge area needs it's own high school.
1131	WorthingtonES			1	better than	4	6			equal to	14				
1132	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		Thank you to the AAC committee for all of their time and effort they have spent with this process.
1133	NorthfieldES	DunloggingMS	WildeLakeHS	4	equal to	11	9	8		better than	9	8	6	I was disappointed with the draft plan because it removed the lower income kids from Northfield and Dunloggin. To me, economic diversity is just as important as racial diversity.	I realize no plan will ever be perfect. Thanks for listening to the community as you work through this.
1134	ElkridgeES	ElkridgeLandingMS		2	better than	2	6	14		better than	2	1	6	The feasibility study clearly shows a need for an high school in ELKRIDGE, not in Jessup. This plan needs to take into account of a new high school opening. Also, by the time my 6th grader goes to HoHS it will be at 140% capacity. This is unacceptable.	Out of the box solutions need to be looked at, such as regional programs where transportation is provided (i.e. the way Montgomery County does). The Elkridge area needs a new high school.
1135	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	2	7	4	I live in the Valley Mede community. The eastern portion of the County is finally scaling up the schools it needs, including a planned high school in the Jessup area. Please don't move half my community west when you'll have to move them back again.	better than	2	7	4	I live in the Valley Mede community. The eastern portion of the County is finally scaling up the schools it needs, including a planned high school in the Jessup area. Please don't move half my community west when you'll have to move them back again.	Our neighborhood and the other across Route 99 are continually on the chopping block. No one has come out and seen realistically how these splits occur right in the middle of neighborhoods.
1136	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	6	7	14	Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	better than	6	14	14	*I approve of moving polygons 67 & 1067 to Oakland Mills (from Ellicott Mills) Middle School. These polygons are closer to Oakland Mills & this reduces a small feed and alleviates space concerns at EMMS.	*I approve of the AAC's recommendations that reduce small feeds, keep contiguous communities together, reduce frequent future reassignments, & minimize total number of students disrupted.
1137	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	4	6	2	My home is about 1.2 mile to PRES, 2.8 miles to CES, and 4.4 miles to DOES. But we will be redistricted to DOES, which is the farest school among these three. This move doesn't make sense.	better than	4	5	2		
1138	FultonES			2	better than	6	4	13	I think that all If maple lawn should go to the same school. We have a sense of community here and dedication to Fulton ES. The fact that newer developments are going to FES and the older communities that are invested in FES are getting redistricted		7	14	4		
1139	AtholtonES			3	worse than	1				better than	7			A few things that concern me: 1) Feed from Atholton ES to Hammond MS now that some polygons are redistricted to Elkhorn MS. 2) Existence of island for Atholton HS relative to Hammond HS.	I wish there is the revised feed and demographic information that I can use to see impact of the new revision.
1140		BonnieBranchMS		1	better than	7	4	6		better than	4	6	7		
1141	FultonES	LimeKilnMS	ReservoirHS	3	better than	2	4	11		equal to	1	7	11	While the plan does not impact me, I noticed that students residing directly across the street (# 1112) from Fulton ES will be going to Pointers Run in the AAC plan. It does not make sense to do this to families that could rely on walking to school.	
1142	CradlerockES			4	equal to	4				better than	7				
1143			MtHebronHS		better than	2			You need to leave the high school kids out of this until you know more about the new high school plan. These kids have already been redistricted before. This is too soon.						
1144	WorthingtonES	EllicottMillsMS		5	equal to	6	4	7	This plan is excellent because it keeps communities together. It is important to maintain communities. Parents help each other with caring for each others children (i.e., carpooling, babysitting, emergency pick-ups at school, similar interests).	better than	6	7	8	It is clear that HC is building new HSs (Landing and 175), and it is better to move students when the new schools are up and running. Moving kids now is just putting a bandaid on the problem, but it does not solve. Indeed, it only breaks up communities.	
1145	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6			More streamlined then previous versions.						
1146	ThunderHillES	OaklandMillsMS	OaklandMillsHS	2	worse than	6	7	8		better than	6	7	8		

1147			HowardHS	5	worse than	7	4	9	Maintain contiguous communities seems to me to be the most important benefit for this new plan. We are in 1095 and the community there has always been a Howard County community with roots in Howard High School. It is very important that Howard county	better than	7	6	5		
1148	LisbonES	GlenwoodMS	GlenelgHS	3	equal to	14				equal to	14				Regarding the maps, it is very difficult to understand where we live with respect to the districting lines as there are no roads shown on the maps. Please consider making this improvement in the future.
1149	LisbonES			3	equal to	14	14		The western school district is taking on the the majority of the overpopulation issues (especially in MS and HS). We recently bought a house in western Howard County to get away from the overcrowded schools.	equal to					Glenelg should not to have go over its maximum capacity to accommodate the overcrowded status of other schools -- especially when the proposed plan shows other neighboring HS that will not reach capacity.
1150	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	7	13	7	I am most concerned about the change from wilde lake high school to river hill high school. Wilde lake is our neighborhood school and is within walking distance. It makes no sense to now have to be bussed to river hill when we are so close to Wilde Lake.	better than	7	8	4	The change from wilde lake HS TO river HILL HS makes no sense. Wilde Lake HS is our community school. We can walk there. Don't take away that sense of community that is right down the road in order to bus us to River Hill we are not part of that communi	COmmunity needs to be the number one priority in these uncertain times. A sense of community that you feel whe. You walk down the street and talk with neighbors includes those schools that are nearby not a long bus ride away. very bad ideas here...
1151		MountViewMS	MarriottsRidgeHS	4	equal to	12	6	7		better than	12	6	7		
1152	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	6	4			better than	6	4			
1153	PointersRunES			1	equal to	1	9	14		better than	7	2	14	The neighborhood of River Hill should have never been split up - the AAC plan has kids coming from far away wilde lake, marriots ridge and reservoir when kids very near and coming from RHHS feeder schools are sent elsewhere. Terrible plan.	
1154	IlchesterES			5	equal to	6	7		Polygons 95, 1095, 2095, and 84 are in a community and strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan improves the feeds from elementary to middle and from middle to high school.	better than	6	7	8	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption.
1155		ElkridgeLandingMS	HowardHS	1	better than	13			My son will be switch during his senior year to another high school. I am not happy about this. He is in sports and plays on the football team. All the boys he has been palying with since freshman year will now be switched. I am very upset about this!!	equal to	6	13			
1156			AtholtonHS	2	equal to	6	7	9	When we bought our home 19 years ago, our neighborhood schools made sense (Pointers Run ES, Clarksville MS, River Hill HS). It doesn't make sense to break up neighborhoods, as we live in River Hill but are districted for Atholton HS.	better than	6	7	9	Atholton is the only HS that has 5 middle schools feeding into it. Atholton HS is over crowded and has deteriorated over the years due to redistricting. It makes sense to keep neighborhoods together (River Hill neighborhoods should attend RHHS).	We live closer to River Hill HS yet are districted for Atholton HS.
1157	RockburnES			1	better than	2				better than					
1158	PointersRunES	ClarksvilleMS	RiverHillHS	5	better than	7	4	13							
1159	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	8	4	13		better than	8	7	4	Polygon 147 is unique in that it consists of new communities developed in last 3 years. The children has just gone through the process of moving to new schools and settled recently. Now the plan would make them move again!	The impact on polygon 147 is not well studied yet. Forcing the children in polygon47 make yet another move in a matter of 1-2 years will cause unnecessary stress and anxiety on them and may have long lasting negative effect on their development.
1160			MtHebronHS	1	better than	4	7	3	The Mt Hebron polygons being considered in the AAC newest plans have already been redistributed two times in the last ten years. It is disruptive to the students sense of security and belonging to be sent back and forth.	better than	4	7	3	The polygons this new plan wants to move from MHHS to MRHS have already been redistributed two times in the last ten years. Being sent back and forth is very disruptive to students sense of security and therefore has a negative impact on their education.	This plan moves kids so close to MHHS that they are WALKERS and forces them to go far from home. It also creates a chain reaction of redistricting That pushes others to schools farther away. Why take on these transport costs when most do not want the move
1161		PatapscoMS	MtHebronHS	1	equal to	7	4	6	High schools should be kept out of this. A new high school is clearly needed in the East. There is no reason to move high schools at this point until the new high school plan is in place, shifting everyone to the West only to move back to the East soon.	equal to	7	4	6	Moving polygons 159/1159 goes against many guidelines in policy 6010. Splitting Valley Mede in half, busing students that can currently walk to HS 7 miles! 6010 states Community Stability, Fiscal responsibility, bus time, number students walking.	Outrageous to move polygons that are within a mile or two from Hebron (159/1159), while others are bussed 7 miles into Hebron. Polygons further from Mt. Hebron should be moved to school closer to them like Howard or LRHS - (2093, 1094, 94, 1310)
1162	HollifieldStationES	PatapscoMS	MtHebronHS	5	worse than	7			The AAC Draft Plan better aligns area 262 with the surrounding communities for attending St Johns Elementary	better than	7			The AAC Draft Plan better aligns area 262 with the surrounding communities for attending St Johns Elementary	

1163	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	4	7	6	My daughter has to travel half hour or more on the bus to the new elementary school, versus now only just 5 min. Her friends are going to different elementary schools. Big and negative disruption to many students.	better than	4	6	7	With feasibility study, my kids friends who now belong to the same community and same elementary school will stay together and go to the same middle/high school. With AAC draft, the disruption became even worse than the current one.	
1164			CentennialHS		better than	4	6	7	For Polygon 214 neighborhood, current HC attendance areas use Rt. 40 as a logical boundary. The AAC draft plan uses Rt.40 in some areas, Frederick Road in the remaining areas. This is not logical. Poly 214 should logically attend CLES/NES, BMMS and CHS.	better than	6	7		Polygon 214 neighborhood is further broken down into multiple ES and HS. Rt. 40 should be used as the logical boundary and Polygon 214 should attend CLES/NES, BMMS and CHS to keep the neighborhood together.	Return Polygon 214 to CLES and CHS.
1165	IlchesterES		HowardHS	5	equal to	4	6	8	The AAC Draft plan keeps our entire neighborhood going to Howard, which is within walking distance and less than a mile from the school.	better than	6	7	8	My child has been shuffled around too many times and therefore, I like this plan since it does not impact him negatively.	This is a far better plan than the proposal. You should have this committee work with the HCPSS planners next time you need to revisit this. But please keep this as a lesson learned on what the community wants so you can focus elsewhere next time.
1166	PointersRunES	ClarksvilleMS	AtholtonHS	5	equal to	6				better than	6				
1167	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	4	6		better than	13	14	14		
1168	WaverlyES		MtHebronHS		better than	2			This plan makes no sense logically for middle and high school walkers when there are potential new high schools being built. Please do not go with this new plan. Please.	better than	4			See above. You are moving walkers who have been redistricted once before eight miles away. This makes no sense.	To move high schoolers at this point from this area would have a serious adverse impact on them. Serious. This was done before to these same kids in these small polygons. Please do not do it again!!!
1169	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	9		better than	6	7	9		
1170	PointersRunES	ClarksvilleMS		1	better than	6	7	9	AAC proposal breaks down Riverhill community by introducing Wild Lake High to Riverhill High. Students from Riverhill south area, would benefit by going to Riverhill High to maintain their ties with students from Riverhill north, as they go to same ES/MS	better than	6	7	9	I think Feasibility study is more fair for Riverhill south community by keeping those students together from ES to High school.	
1171			HowardHS	1	better than	6	2		Families move out of the Hunt Club area to avoid sending students to Long Reach. Long Reach is not a school with a good reputation and I don't want to have my child assigned there. ALL of her friends live in polygons that will attend Howard.	better than	6	13		Children that have attended school together since Kindergarten should be able to complete high school together. Instead my daughter will be forced to find all new friends in 9th grade. You are not moving polygons, you are irresponsibly moving children.	Long Reach has a more violent reputation than Howard. Just because we live in polygon 42 and not 1040 or 124 which my child's friends do, we are subject to this move. Just build a new high school, so our children do not suffer.
1172	GuilfordES				worse than	7			For elementary school, with only two small exceptions, all attendance areas are connected to one another. The ones that aren't are 97 assigned to Centennial and 266, 1033 and 1266 assigned to Ducketts Lane.	better than	14				
1173	AtholtonES	HammondMS	HammondHS	1	better than	7	6	4	This plan makes less sense to me, even though none of the schools for my family would change. The groups of kids being moved so far away from their homes when 1-2 schools are much closer to them seems illogical and unreasonable.	better than	7	6	4	The feasibility study does a better job of keeping together cohorts of children than the new AAC draft plan does.	As a military family that has made many sacrifices in order to stay in HoCo, for both the excellent schools and for the stability, it is my great hope that continuity for the students is the main guiding factor in this decision.
1174	ElkridgeES			1	better than	2	6	9		better than	6	7	2	The AAC draft plan further divides the Elkridge community. Children who have been together throughout their schooling should not be so unevenly split. The solution to the eastern county overcrowding is not moving kids around, it is a new high school.	The Elkridge kids should not be punished for the county's inability to act responsibly. Please protect them!
1175			CentennialHS	1	better than	6	7	13	My two older children are/were CHS students. My middle child will be a senior at CHS while my twins are proposed to be sophomores at MRHS. This plan changes the commute from 3.1 miles to 7.4 miles, which makes no sense to me and is a huge inconvenience.	equal to	7	6	13		
1176	VeteransES			1	better than	7	13	10	Can't have 2 buses on single lane rd. Breaking up Girl Scout troops Neighbor across street will go to diff school This is BS	better than					
1177			HammondHS	1	better than	4	7	6	Why would you take students from their neighborhood school and bus them out of their neighborhood? We are about a mile from Hammond and no where near the proposed school.	better than	4	6	7		
1178	IlchesterES				worse than	4	7	1	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption.	better than	4	6	7	This plan also improves the feeds from elementary to middle and from middle to high school. It keeps strong feeds within the northeast schools.	This committee has done excellent work, and I would like to thank the members for their efforts in helping our children continue without disruptions. Please keep in mind that communities should not be split up - not just mine but others as well.
1179	GormanCrossingES			3	equal to	11				equal to	14				

1180	CentennialLaneES			1	better than	8			Polygon 147 includes the new communities built by Beazer Homes in the last 3 years. For these families, the AAC plan will force their children to move yet again to another school. This will cause long lasting negative effect on their development!!!!	better than	8			Polygon 147 includes the new communities built by Beazer Homes in the last 3 years. For these families, the AAC plan will force their children to move yet again to another school. This will cause long lasting negative effect on their development!!!!	
1181	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	13	13		We purchased our home specifically so that our 4 sons would attend Howard High School and the rezoning would have them going to Long Reach. Very upset. We live on Winters Lane, 21076							
1182	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	13	9	6		better than	3	4	13			
1183			OaklandMillsHS	2	better than	2	4	6		better than	2	6	4			
1184	NorthfieldES	DunlogginMS	WildeLakeHS	1	better than	7	6	4		better than	7	6	4	I ask you to please not consider a proposal that breaks up Dunloggin. The community cohesion in Dunloggin is an example of what makes Howard County great. Please don't dismantle what took us 50 years to build. It won't achieve goals of Policy 6010.		
1185	NorthfieldES	DunlogginMS		1	better than	7	13	14		better than	4	7				
1186	DaytonOaksES			5	equal to	7	4	1	The draft plan of August 9, 2017 maintains keeps our children with their contingouos neighbors and parents with long time PTA neighbors.It also makes no sense financially to move the children since Dayton Oaks is not overcrowded.	better than	6	7	4	The feasibility plan is horrible. It will divide us from neighbors and children that we have known for over five years and will force changes in attendance of school clubs in which both our children and us have strong relationships with families/teachers.	I strongly support the AAC draft plan of August 9, 2017. Our whole neighborhood is very upset and will be extremely relieved if the AAC draft plan is selected.
1187	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	equal to	1	4	6	The current AAC draft is comparable to the current school attendance areas. We appreciate the planning office's willingness to listen to the community's input and respond in the best interest of the HCPSS and the communities affected.	better than	1	6	4	Taking the many factors presented from (HCPSS Policy 6010), the AAC draft plan addresses the issues and we believe better than the Feasibility Study.	We greatly appreciate the planning office's willingness to listen to the community's input. Thank you
1188	NorthfieldES	BurleighManorMS	CentennialHS	1	better than	6	4	13	We live in polygon 2154 and my kids have a lot of friends living polygons 1155,154, 1154, 214, the new plan will separate them in high school, which is not fair to us. The board should move polygon 97 away as it is on the other side of route 40.	equal to	6	4	13	You should really move polygon 97 out of centennial school area	We already have Plumtree apartments in our schools, we do not need two apartment complexes
1189	PointersRunES		AtholtonHS		better than	6	7		The new draft plan did not take into consideration the location of the schools. The committee members worked off of maps that did not appear to highlight the location of the school, just the current district margins.	better than	4	6	7		This is a terrible plan that will tear communities apart. The initial feasibility study appeared to take location of the schools under consideration but this plan completely ignored them.
1190	VeteransES	EllicottMillsMS	CentennialHS	5	equal to	14	14	14		better than	14	14	14			
1191			CentennialHS	3	better than	13	13	13	I have a freshman and a junior attending Centennial high school in 2107-2018 school year. What are the rules for a rising senior in 2018-2019 school year and the training siblings?	better than	13	13	13		I have two kids. One in the 9th grade and one in the 11th grade in 2018-2019. If they have to attend two different schools, that would be a challenging situation for the family. Please give us an option. We can take care of the transportation.
1192	WestFriendshipES			1	better than	6	7	4	The biggest concern is having my child go from West Friendship ES to Glenwood MS with a whole new population and not going to the school that is right by the house. We already have an older child who went to Mt View MS and is attending Marriotts Ridge.	better than	7	6	4	My child already spends 45 minutes on the bus. Why would they go to a school that is further away and spend even more time on the bus. Already had to deal with a bus accident and it was nice to be close to the house.	Quite honestly, that entire district needs to be trashed and rebuilt from the ground up starting with the radius around the schools and go from there.
1193	ThunderHillES	OaklandMillsMS	OaklandMillsHS	4	equal to	12	14	14		equal to	12	14	14			
1194	IlchesterES	BonnieBranchMS		5	worse than	4	6	7		better than	4	7	2			
1195		BurleighManorMS		1	better than	13	4	7	Move polygon 97 to a different school, keep us south of route 40 intact.	equal to	4	7	13		
1196	BushyParkES	GlenwoodMS	GlenelgHS	1	better than	13	6	7						We live on Bushy Park Rd - so close that our road shares the same name. This plan effects a really small number of kids moving to Lisbon- most of whom are 5th graders who have spent the duration of their schooling there & are 5th graders. Request they not	(Contin)be moved to Lisbon & if this is required- 5th grade parents be given the option to transport them to finish school there. BPES has been beneath capacity & it is likely not going to be filled by east overflow so why disrupt these few kids?
1197	WorthingtonES	EllicottMillsMS		5	worse than	2				better than	6	7	1	I approve of moving polygons 67 & 1067 to Oakland Mills (from Ellicott Mills) Middle School. These polygons are closer to Oakland Mills & this reduces a small feed and alleviates space concerns at EMMS.	

1198			MtHebronHS	1	better than	4	4	4	My kid went to school at St. John's for 5 years. He was redistricted to Waverly for one year, then sent back to Patapsco for 3 years. With this plan, he would go to Hebron for one year, then move to Marriots Ridge and have to start anew.	better than	4	6		With the feasibility study, you don't focus on the kids who were previously redistricted. Making kids who have already moved move again is crude, especially for kids going into high school.	
1199			HowardHS	1	better than	6	14	14		better than	6	14	14		
1200	WorthingtonES			5	worse than	1				better than	6	7		I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	
1201			HowardHS	1	better than	13	6	9	My child, as will many others that I know, will be moving from Howard HS to Long Reach HS for their senior years. They will all be moving from one overcrowded school to another overcrowded school. The ONLY impact that will occur is a negative one.	better than	13	6	9	It seems that the Elkridge area stays together through elementary and middle school but then splits for High School. What does this achieve? How can this study help any of the students academically. My children will also now be travelling further.	It doesn't seem like any thought went into this process. Moving children from one overcrowded school to another solves absolutely NOTHING. My kids now have to travel even further to get to High School. How does this add any benefit?
1202			CentennialHS	1	better than	7	4	9	The Dunloggin community has developed community ties and support systems for our teens for more than 60 years. To disrupt those ties and systems would be dangerous given the societal pressures on teens today. CHS is part of those systems.	better than	4			To split the Dunloggin neighborhood off of Centennial HS is not a valid option for me. My son is able to ride a bike to school, or even walk if bus or private transportation is unavailable.	The forming and character of the Dunloggin neighborhood has revolved around Centennial HS. To break that bond would be detrimental to the county. Dunloggin would likely be torn apart as Wilde Lake home owner sell their properties. We bought here for CHS.
1203	WestFriendshipES			1	better than	6	7	13	Having my child go from West Friendship ES to then Glenwood MS doesn't make sense since they would go right by Mt View MS. We already have a relationship with the MS teachers, especially with the IEP program in which the specialists know us.	better than	7	6	4	Driving past one school to go to one further does not make sense. Especially when they are already spending 45 minutes on the bus. Not to mention the increase in transportation costs for fuel, repairs and safety.	
1204	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thanks.	better than	7				
1205	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	3	1		better than	7	3	1		
1206			HammondHS	1	better than	4	6	7	redistricted to WL from HHS would students that are bussed to HHS, but are still with a walking distance to attend after school activities. Majority of households are 2 income and the students in Macgills Common can walk for sports, clubs etc						
1207		LimeKilnMS		1	equal to	4	6			better than	6	7	4		
1208	WaverlyES	PatapscoMS	MtHebronHS	1	better than	4	7	13	The same children moved last time (162,01162,2161,1160&160) are impacted AGAIN and this time moving them from being walkers to bus riders for HS. Being walkers builds self-reliance and confidence as the don't have to depend on parents for transportation.	better than	4	7	13	The same children moved last time (162,01162,2161,1160&160) are impacted AGAIN and this time moving them from being walkers to bus riders for HS. Being walkers builds self-reliance and confidence as the don't have to depend on parents for transportation..	Those suggesting moving polygons 162,1162 & 2161 for MS/HS did so because they want better schools (fewer minorities, higher income families). Tax payers shouldn't fund these bias. The constant shifting of 100s of children is bad for community spirit.
1209		BurleighManorMS		1	better than	9	7	11		better than	9	7	11		
1210	AtholtonES			1	better than	13	7	6							
1211	LisbonES			3	equal to	11	4	7	Although we're not affected, other families might prefer to go to the elementary school that is geographically closest to them, so that the division lines ought to be drawn, at least preliminarily in the process, midway between 2 schools.	better than	11	4	7		I have a friend whose child attends Lisbon Elem. and her neighbors' kids go to Bushy Park, which is nuts. Although the draft plan fixes this, it appears to do all sorts of crazy moves throughout the county that would take people away from the closest sch
1212	HammondES	HammondMS	AtholtonHS	5	equal to	6	9	12		better than	6	9		In an Atholton HS neighborhood, I had significant concern about the impact on the HS given the number of students moving out/in. The AAC draft is much preferred as it has significantly less impact.	Thank you to all for the time, effort and attention put into this!
1213			MarriottsRidgeHS	1	better than	6	7	4	My son has gone from WFES to MVMS and now Marriotts Ridge. Why disrupt his education by pulling him for Marriotts Ridge to funnel him to Glenelg. Having an IEP, it would be best to keep him in a school where he has trusting relationships with staff.	better than	6	7	13	Having to shift high schools does not make sense when my son will already be attending Marriotts Ridge.	The entire redistricting has been a mess for years. My suggestion would be to start from scratch and start with radius from schools and go from there. When developments are added, new schools should be built into the plans.
1214	RockburnES	ElkridgeLandingMS	HowardHS	4	worse than	7			Jessup island was removed from Rockburn ES	better than	7			Kept 87, 2087 and 3087 in Howard HS	
1215	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	12	14		I'd prefer the schools stay the way they are rather than this continuous redistricting. I also believe that ELMS should wholistically feed into Howard HS until an Elkridge HS is built.						I'd prefer the schools stay the way they are rather than this continuous redistricting. I also believe that ELMS should wholistically feed into Howard HS until an Elkridge HS is built.
1216		DunlogginMS	CentennialHS	1	better than	4	6	2		better than	1				

1217	RockburnES			1	better than	9	13		My children will lose continuity and momentum w/ current teachers & knowing what's familiar to them. It looks like you're clumping the poorer children together; reducing diversity in schools such as Rockburn. Our neighborhood adds diversity to Rockburn.	equal to	13	9		My children will lose continuity and momentum w/ current teachers & knowing what's familiar to them. It looks like you're clumping the poorer children together; reducing diversity in schools such as Rockburn. Our neighborhood adds diversity to Rockburn.	I know my entire neighborhood loves Rockburn. The activities, the principal, the teachers, they care so much about the children. I would hate to lose that. Kids in our area need that type of attention and love. Please don't take that away from them.
1218	BellowsSpringES	MayfieldWoodsMS	LongReachHS	1	better than	1	4	7		better than	1	4	7		
1219	ElkridgeES			2	better than	6	7	10	Moving a just few polygons out of the elkridge community for just high school when the kids were helped together from K-8 is not fair. Additionally, this pushes them to a high school that is even farther away in distance, a longer bus ride to school.	better than	4	6	7	This change between the two pulls several small polygons from the Elkridge community, students who will be together from K-8 grades and sends just a few to a completely different demographic of friends and schools it also expects them to travel farther	
1220	WaverlyES			5	worse than	6	7	14	Sending 1162, 2161 and 162 west keeps kids with peers throughout ES, MS and HS though problematic for those already in MS and HS. Never made sense to send us to Waverly and then have a small feed back to Patapsco and Mt Hebron.	better than	6	7	14	Sending 1162, 2161 and 162 west now keeps kids with peers throughout ES, MS and HS. Makes no sense to send these polygon back to SJLES AGAIN when development in east is the problem. Ideal if rising 8th and current high school students remained unaffected.	Allow 8th graders and high school students to remain where they are and have redistricting only affect students moving forward from lower grades (K - 7th).
1221	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	7	4	6	I get the point of balancing out capacities, but it seems like there is a lot of shuffling kids around for shuffling's sake. Is there anyone involved in redistricting who is skilled in spatial analysis and multi-criteria decision making?	better than	4	7	6	At least the feasibility study would send my kids to a nearby high school. The AAC leapfrogs them past at least two other closer schools. Both plans really upend the quality of their education with their new middle school assignment.	It must be my experience living in a different part of the country, but I'm still wrapping my brain around the idea that kids who go to the same ES don't necessarily go to the same MS and then not the the same HS. I'm used to a fixed hierarchy for feeders
1222				1	better than	4	5	13	Please do not approve this new redistributing plan as it will degrade the scholastic opportunities for my community's youth.						
1223	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	7	8		better than	6	7	8		
1224		ClarksvilleMS			better than	4	14	14	1189 should not be bused to Dayton Oaks when PRES is 2 min. away. This is an economic/environmental issue. It negatively impacts the family life by adding long bus rides/commuting time. Areas s/b determined based on distance from school as priority.					Feasibility plan regarding Atholoton high school was ridiculous - too much of a change....this is better in that regard.	It is hard to evaluate and rate plan as a whole because it is not clear how many students move and I am not familiar with areas other than my own.
1225	FultonES	LimeKilnMS	ReservoirHS	2	better than	7			Moving multiple polygons to Pointers Run ES from Fulton ES, while keeping areas in Laurel districted to Fulton ES does not make sense! The Fulton ES distribution is so disjointed! Have kids on the East side of 29 go to LWES, GCES, or HES.	better than	13				
1226	PointersRunES			1	better than	6	4			equal to	6	4			
1227	LongfellowES	HarpersChoiceMS	WildeLakeHS	5	worse than	9	1	10	previous plan seemed to greatly exaggerate demographic disparity between schools. new plan provides a more fair/balanced plan and *should* elevate performance across Hoco. Love our current schools, but think this will be better for ALL in long term.	better than	9	1	10	previous plan seemed to greatly exaggerate demographic disparity between schools. new plan provides a more fair/balanced plan and *should* elevate performance across Hoco. Love our current schools, but think this will be better for ALL in long term.	
1228	NorthfieldES	FollyQuarterMS	CentennialHS	1	better than	7	6	13		equal to					
1229	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	worse than	6	4	7	Thanks to the entire team of AAC committee for a tremendous job. You all have put in so many voluntary hours. I really like the end product here as it reduces small feed.	better than	6			Please move forward with this plan	
1230	NorthfieldES	DunloggingMS	CentennialHS	1	better than	7			Please do not change the current zoning. You are affecting things much greater than you realize.	better than	6	4	3		
1231	DuckettsLaneES	ThomasViaductMS	LongReachHS	4	worse than	1	7	10		better than	1	4	9	The AAC draft plan makes more sense than the Feasibility Study. The kids who will be redistricted in the AAC draft plan will not have to travel as far to another school as in the Feasibilty Study & the demographics are more stable for the AAC draft plan.	
1232	NorthfieldES	DunloggingMS	WildeLakeHS	1	better than	4	6		Students should go to the nearest school and keep neighborhoods together. The AAC plan excessively divides up many HS areas. For example, students East of US 29 should attend Howard or Mt. Hebron not Centennial or have River Hill grow North not East.	better than	4	6		The Feasibility Study is far more reasonable than the AAC plan. Students should go to the nearest school and keep neighborhoods together. Large roads (e.g. US 29) are natural boundaries for neighborhoods; both plans break up neighborhoods unnecessarily.	First priority to attendance areas should be distance from the school followed by attempts to keep neighborhoods in the same schools. The current attendance areas already break up neighborhoods too much, and the new plans are even worse.
1233	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	equal to	11				better than	13				
1234	IlchesterES	BonnieBranchMS	HowardHS	1	better than	7	13	6		better than	7	13	6		
1235	ElkridgeES	ElkridgeLandingMS	HowardHS	5	worse than	6	5	1	The AAC draft plan is a common sense solution to redistricting.	better than	6	1	5	The Feasibilty Study would gerrymander our school districts worse than our congressional maps.	Build the 13th high school now!

1236				1	better than	4	7	5	Currently kids can walk or bike to OMHS from my neighborhood if they choose to. Moving them across Columbia would put more inexperienced drivers in cars on major roadways.	better than	4	7	9	If you must move my neighborhood Atholton makes more sense. We already interact more with kids in the Atholton neighborhood, since a large portion of kids that go to Atholton use the local community facilities.	I do not appreciate the fact that this survey is geared to parents of current HCPSS kids only. My kids have all graduated, but you decisions will have an impact on all home owners in Columbia.
1237	ElkridgeES	ElkridgeLandingMS		1	better than	7	9	13	The kids in the Elkridge community have always been together at Howard High School. I struggle to find any reason this plan makes more sense then the previous plan. This entire community will see movement into other neighborhoods if this is approved	better than	7	6	13		
1238	RockburnES			5	equal to	7	6			better than	6	7	9	The plan is much better and appears to be well thought out	
1239	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS		better than	1	9			better than				The AAC is a downgrade in school quality at both the ES and MS level in comparison to the Feasibility study. Household who are paying larger share of the taxes should not be forced in the overcrowded or lower quality schools.	
1240	VeteransES	ElliottMillsMS		1	better than	7			I responded prior to learning about the latest maps. We live almost right behind VES. I don't believe that separating our neighborhoods is a plan with children's best interest in mind, they need friendships within our neighborhood to be continuous.	better than	6				
1241	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	4	worse than	7	6	4	We are so relieved that you chose to reverse the ~30 student swap between Triadelphia Ridge and Dayton Oaks.	better than	7	6	4	We are so relieved that you chose to reverse the ~30 student swap between Triadelphia Ridge and Dayton Oaks. But we are concerned that in future years we may be impacted by this gradual shift of student population into the western part of the county.	We are 1 mile from Triadelphia Ridge, Folly Quarter and Glenelg. I feel like some consideration needs to be given for neighborhoods immediately adjacent to all schools. It seems like some of the decisions do not consider this.
1242	ThunderHillES	OaklandMillsMS	OaklandMillsHS	4	equal to	9	6	7		better than	4	6	9		
1243	IlchesterES			5	worse than	7	4	10		better than	7	4	4		
1244	HollifieldStationES	PatapscoMS		5	worse than	1	7	10	While redistricting must happen, far fewer students are moved in the AAC plan than originally anticipated. Current attendance areas are have oversized classrooms, providing less of a teacher:student ratio than I would like.	better than	1	10	6	The AAC plan not only maximizes utilization and keeps schools in solid utilization range for a longer period of time, but it also moves fewer students.	
1245	GormanCrossingES		AtholtonHS	5	worse than	2	11	8	The proposed new HS #13 in 2023 (pg 9) will require the need for additional HS redistricting. Suggest any comp. redistricting be held until final decision is made then redistrict county. Minor domino-movements to relieve overcrowding could be made.	better than	12	2	8	The proposed new HS #13 in 2023 (pg 9 FSP) will require the need for additional HS redistricting. Suggest any comp. redistricting be held until final decision is made then redistrict county. Minor domino-movements to relieve overcrowding could be made.	Recommend any county-wide comprehensive redistricting be held until final decision/funding is made on HS#13 to reduce the frequency which any one student is reassigned. Small movements to relieve short-term overcrowding is acceptable.
1246			AtholtonHS	5	worse than	1	14	14	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	better than	10	1	7	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was way too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment
1247	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	2	The plan to move high schoolers at this time is very short sighted based on the desperate need for a new high school in the Elkridge area. Focus efforts on building that and then redistricting.	better than	2	4	7		SJLES was negatively impacted with the last redistricting.We went from appropriate capacity to well over capacity, despite analysis showing the capacity would be okay.The number analysis is BROKEN and redistricting should not take place until it is fixed!
1248			CentennialHS	1	better than	4	7	13	This looks like political gerrymandering. I don't see why this is so convoluted. It's being rushed and is a stop-gap measure that may need to be changed in a year or 2. Please reconsider neighborhood boundaries. This will negatively impact my neighborhood	better than	4	7	13	Why in the world are the neighborhoods across rt 29 in the Centennial district but Dunloggin is cut out? It makes no sense to have Wheatfield - a Columbia neighborhood at Centennial & Dunloggin - an Ellicott City neighborhood going to Wild Lake.	Dunloggin, is currently in the Centennial school district. That is why we bought here. I could have moved to Columbia, and saved money, but I chose this neighborhood for a better school and the Ellicott City neighborhood.
1249		MountViewMS	MarriottsRidgeHS	2	equal to	6	4	12	Many of the proposed changes move children that are within a mile of a school to a district which will have them quite a distance from the proposed school. Add this to splitting up feeds and I do not think this would be the best choice for the students.		6	4	12	Many of the proposed changes move children that are within a mile of a school to a district which will have them quite a distance from the proposed school particularly in the area along Route 144.	I am very concerned about those students who are already attending high school and will be redistricted. I feel this is unfair to the students and these students should be able to remain with their existing graduating class.

1250	ElkridgeES	ElkridgeLandingMS		1	better than	7	6		This new plan will separate Elkridge families in the lower and upper sections where the children have been raised together. Keeping these relationships is important. Not to mention the housing values will be effected. Elkridge already struggles with this.	better than	6	7		The feasibility study keeps Elkridge mostly in tack. The AAC draft plan will cause families to uproot or send their children to private school. This does not look good on the overall standings for HoCo if our own families do not utilize the public school.	I highly encourage a reconsideration of this plan. Think about the families being affected, not just how many seats are available for each school. These are children we are moving around, they should be the priority.
1251	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	1	10	6		better than	1	6	7		
1252			MtHebronHS		better than	13	4		The worst of this comes down to the high schoolers forced to move to Waverly only to move back and now only to move back again? From a geographical and social standpoint this makes absolutely no sense. This alternative is truly horrible.						Please look beyond elementary school parents who only care that their kids will have their same friends. This makes no sense from a geographical standpoint and this makes no sense when a new high school is being bulit. Just wait! Do not do this now!
1253	IlchesterES	BonnieBranchMS		4	equal to	6	14	12		better than	3	14	14		
1254	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	9		better than	6	4	6		
1255	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	7	4	Why are you ripping school communities apart?The longer bus ride is NOT acceptable. ELMS should have a fluid feed into Howard High School. If this can't be done then a NEW high school in ELKRIDGE MUST be built!	better than	6	7	4	Why are you ripping school communities apart?The longer bus ride is NOT acceptable. ELMS should have a fluid feed into Howard High School. If this can't be done then a NEW high school in ELKRIDGE MUST be built!	Policy is clear that communities should stay together, and we should have strong feeds from Elementary to Middle to High. This new AAC proposal is a step back with respect to those factors, and objections based on this reasoning should carry some weight.
1256			AtholtonHS	1	better than	7	9	13	This plan is not considering the students. There are too many changes. Our children are not cattle.	equal to	7	9	13		Atholton High School is being impacted too severely. Students in our area attend Clemens, get divided into 3 middle schools, and under this plan, will start Atholton and a year later be moved, or their peers moved. Please reconsider the drastic change.
1257	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	better than	4	7	1	Polygons 179, 1179, 178 and 1178 are being moved from their closest set of schools to the second or THIRD closest schools. The placement of these polygons at RHHS, which is overcrowded and very far away, rather than undercapacity MRHS is a bad idea.	better than	1	4	7	The FS left 1179 which is adjacent to the MWES polygon at MWES. This plan moves us to our THIRD closest elementary school (TRES) while also moving us to our THIRD closest high school (RHHS). Polygon 1179 should go with 2170, 1170, 170.	Polygon 1179, which is similarly adjacent to MWES as polygon 2170, should follow the SAME districting plan as polygon 2170. 1179 is a MWES polygon and should follow the MWES cluster to MVMS and MRHS. The FS puts 1179 with 2170; the AAC plan should too.
1258	IlchesterES	BonnieBranchMS			equal to	6	7	8	We've already been redistricted once. This plan keeps us at Bonnie Branch going to Howard High. The other proposed plan had us going from Bonnie Branch to Long Reach, meaning all my kids' classmate would go to Howard except them and 10 kids.	better than	6	7	8	We've already been redistricted once. This plan keeps us at Bonnie Branch going to Howard High. The other proposed plan had us going from Bonnie Branch to Long Reach, meaning all my kids' classmate would go to Howard except them and 10 kids.	We've already been redistricted once. This plan keeps us at Bonnie Branch going to Howard High. The other proposed plan had us going from Bonnie Branch to Long Reach, meaning all my kids' classmate would go to Howard except them and 10 kids.
1259	BellowsSpringES	MayfieldWoodsMS	LongReachHS	4	equal to	6	7	12		better than	6	7	14		
1260	ManorWoodsES			4	equal to	1				better than	6			The feasibility study had way too much movement of the children from one school to the other. This is much more consistent and clear.	
1261	IlchesterES		HowardHS	5	worse than	4			The AAC Draft plan improves the feeds from elementary to middle and from middle to high school. It keeps strong feeds within the northeast schools.	better than	4			Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. AAC Draft plan makes better use of school utilization and reduces overcrowding in the northeast part of the county until new school.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.
1262	NorthfieldES	DunlogginMS	CentennialHS	3	better than	7			Keep polygons 150, 1150, 2150, 3150, and 4150 together for high school as Dunloggin is a very cohesive neighborhood. Moving them to Wilde Lake from CHS seems to make sense since most of Northfield ES and Dunloggin MS feeds there anyway.	better than	7			I would prefer Wilde Lake HS to Centennial. But the original plan keeps Dunloggin neighborhood together.	The polygons are strange, small, and don't reflect communities well. Tackling that might help some of the outrage." Thanks for your hard work!"
1263			AtholtonHS	1	better than	7	1		I built a house in RH for the purpose of my child going to RHHS. So many relationships of my child were terminated because 3/4 of their friends from CMS went to RHHS and 1/3 went to AHS. Terrible plan. All kids that live In RH should go to RHHS	better than	6			I built a house in RH for the purpose of my child going to RHHS. So many relationships of my child were terminated because 3/4 of their friends from CMS went to RHHS and 1/3 went to AHS. Terrible plan. All kids that live In RH should go to RHHS	This is ridiculous. The kids that live in RH must go to RHHS. My other two children have asked me to send my 3rd daughter to a private school so she doesn't have to attend AHS like they did. What does that tell you!!
1264	HollifieldStationES		MtHebronHS	3		11									
1265	ClemensCrossingES	WildeLakeMS	AtholtonHS	5	worse than	6	7	10	I like that kids will be split up less as they progress between ES, MS, and HS	better than	10	7	6	Less of a dramatic change in some schools (like Atholton).	
1266	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	7	13	4		equal to					
1267	ThunderHillES	OaklandMillsMS	OaklandMillsHS	4	worse than	9	6	7	I like that there seems to be consideration of FARMs numbers between schools, not just how that one school's numbers change. Adding the two neighborhoods from Thunder Hill ES to join them atOakland Mills middle and high schools is great for those schools.	better than	7	9	6	Adding Thunder Hill, Columbia Hills and Glenmont to the Oakland Mills schools is positive for two reasons. It creates a large feed out of three very small feeds and will bring a lot of very involved families to the OM schools.	Thank you for keeping the Thunder Hill neighborhood with Oakland Mills middle and high schools. It keeps us at a smaller high school that we can walk to and we are excited to stay a part of the Oakland Mills community.
1268	NorthfieldES			1	better than	6	7	9		better than	6				
1269	IlchesterES			5	worse than	6	11	14		better than	9	6	14		

1270	PointersRunES			3	equal to	6	12		In the draft plan we are now in a small swatch of families that now would attend Pointers Run (same), then Lime Kiln (same), then Atholton (change), returning to majority PRES families. Would just like consistency with peers, esp. with ASD child.	better than	6	8			As the parent of a child on the spectrum, I'd like to see our polygon (125) stay with PRES, move to Clarksville Middle and then Althoton in order to keep as many consistent peers as possible. The tiny number of students going to LKMS in between is upsetti
1271		ThomasViaductMS		2	better than	6	2	4	Our neighborhood is being redistricted from Long Reach HS to Oakland Mills HS. This high school is further away. We live in Elkridge in the New Colony Village Neighborhood. Why are neighborhoods closer to Oakland Mills going to Long Reach???						Thomas Viaduct MS is being split up and our neighborhood is going to a HS even further away. Other neighborhoods should go to Oakland Mills HS that are closer to there. We live in Elkridge.
1272		BonnieBranchMS		5	worse than	6	8	7		better than	4	6	7	As a parent in polygon 95, I strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood together going to Howard HS, and is within walking distance; less than a mile from the school.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC utilizes capacity in the west, but reduces the domino effect of moving polygons west.
1273		ThomasViaductMS	HowardHS	1	better than	7	2	6		better than	7	2	7		
1274	VeteransES			1	better than	7	4			equal to	7				
1275		MountViewMS	MarriottsRidgeHS	5	worse than	4	6	5		equal to	4	6	3		
1276			HowardHS	1	better than			13		equal to		13		Both plans impact my child negatively by moving her from Howard High School to Long Reach High School Also, this will be taking her away from a strong educational program	Sustain from redistricting this polygon
1277			AtholtonHS		better than	7			Students living directly in river hill village should be attending the closest high school which is river hill hs. Students living in the Wilde lake village should be attending Wlhs. This promotes community comsistency.	better than	7				
1278	ElkridgeES	ElkridgeLandingMS		1	better than	6	7	9							This is not ok. The first proposal made a lot more sense with moving Montogomery Rd and some of Ellicott City to Long Reach. You cannot split up an entire community that live, work and go to school together. This WILL NOT help long term anyway!!!!
1279	NorthfieldES			5	equal to	7				better than	6			The AAC draft plan is WAY better than the Feasibility study - which was garbage and far more disruptive. I would prefer no changes, but if changes must be made, adopt the AAC draft plan, and NOT the feasibility study. Fire whoever came up with that trash	
1280	ElkridgeES				better than	6	7	9	Draft plan redistricted our HS from Howard to LONG Reach. This is a problem....the Feasibility Study is much better!	better than	7	1	4	I don't see any reason to have students in our neighborhood together for ES AND MS and then separate them for HS. Further, our area has never been slated for redistricting until other communities complained....now we get moved so that they don't have to	No reason to change from Feasibility Study!! Keep redistricting plan from Feasibility and do NOT use the Draft
1281	CradlerockES	LakeElkhornMS	OaklandMillsHS	5	better than	6	4			better than	6	4			
1282	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	7	7	7	This plan is much better	better than	1	7	7	Much better.	My kid gets to stay with friends for a lifetime bond
1283			RiverHillHS	1	better than	4	7	11	You have completely ignored any 'community' considerations in your plan for River Hill.	better than	4	7	13	Community!	
1284			HowardHS	1	better than	7			The AAC draft is worse than my child's current school attendance and would negatively impact her in school as well as hinder her learning capabilities	equal to	13			Both plans are awful and should be shut down immediately This redistricting plan is unreasonable	
1285		PatapscoMS		1	better than	4	6	2	Students in the Mt. Hebron area (Old Mill, Gudel, Ballard) will be no longer be within walking distance to High School. This has a huge impact on families with working parents (the majority of families in the area).	better than	4	6		Students in the Mt. Hebron area (Old Mill, Gudel, Ballard) will be no longer be within walking distance to High School. This has a huge impact on families with working parents (the majority of families in the area).	Children who participate in afterschool activities will require transportation instead of being able to transport themselves to and from school. Again, a huge impact on working families!
1286	NorthfieldES			1	better than	6	7	4	Please keep our school attendance the same as before. We have been in the same community for the longest.						
1287			AtholtonHS	5	equal to	8	10	7		better than	8	10	7		
1288	VeteransES	EllicottMillsMS	CentennialHS	1	better than	7	9	4		better than	4	7	9	AAC draft plan clearly just cuts out the townhouses along Autumn Rust/Kings Heights, keeps them at Veterans, and sends all of the houses to Worthington. Clearly biased for socio-economic status and should try to keep it less obvious the AAC is doing.	AAC took townhouses from the feasibility study and cut them out, kept them at Veterans, and sent the houses (assume higher income) to Worthington, but since you did, it is obvious the AAC is trying to send higher SES to WO, and keep others at Veterans.

1289	IlchesterES			1	better than	6	4	1		better than	6	4	1	AAC draft plan accounts for travel times and helps in keeping students togather as they move through ES, MS and HS in howard county	
1290	VeteransES			1	better than	7	6	1	This plan effectively breaks up the community that has physically surrounded and supported Veterans Elementary School since it's creation.	better than	7	6		This plan effectively breaks up the community that has physically surrounded and supported Veterans Elementary School since it's creation. It is even more harmful to our community than the original Feasability Study.	
1291	ElkridgeES			1	better than	13			The draft plan redistricts our high school from Howard to Long Reach. We would prefer to keep our kids districted to Howard.	better than	13			The Feasibility Study does not impact our school districts, which is what we would prefer.	We would prefer the Feasibility Study Plan to be implemented rather than the AAC draft plan.
1292	ElkridgeES				better than	9	6	2	I believe switching these students to LRHS does not maintain a diverse student population. It leads to more segregation based on economic status and is not what is in the best interest of student body.	better than	9	2	8	Also, LRHS and HHS will still be over capacity in the near future due to increased development in the Elkridge area. This plan may shift students more then necessary as time goes on.	Again, I believe when looking at demographics and socioeconomics, it maybe important to look at more affluent" areas to integrate into specific communities in this case splitting Elkridge up based on this is not benefitting either HS."
1293	ForestRidgeES	PatuxentValleyMS	HammondHS	1	equal to	9	11	3	MurrayHill middle school is just 1.1 mile away from my community and where as Pautuxent Valley middle school (currently assigned) is around 5 miles away from my community. Its unnecessary transportation cost to the county and we can minimize this.	equal to					
1294			HowardHS	1	better than	13			This plan negatively affects my child and this plan is an awful idea	better than	6				
1295			MarriottsRidgeHS		better than	4				better than	4			I'm in polygon along rat 32. Route 32 corridor bus route is long enough with congested traffic times. Adding on to that route to transport children an additional 20 minutes with traffic to 97 is potentially dangerous and irresponsible.	
1296	ClemensCrossingES	WildeLakeMS	AtholtonHS	5		1	2	4	The AAC plan is much, much better than the feasibility study in terms of achieving efficiency goals and minimizing community impact.	better than	6	4	7	The feasibility study plan is far too disruptive. The AAC is much better.	
1297	VeteransES		CentennialHS	4	worse than	7	8	9		equal to	7	1	9		
1298	ElkridgeES			1	better than	6	4	7		better than	6	7	8		
1299	PointersRunES			3	equal to	6			I think it's fine but a bit odd to be in a River Hill Community and be routed to another high school. It seems strange that a Hickory Ridge area would be moved to River Hill, yet the very people who live and pay to live in River Hill are not routed to it	equal to	12			I pay to live in this area because of the schools and feel that either way will be a positive experience for us.	
1300	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13		better than	7	6	13		
1301		HammondMS	AtholtonHS	1	better than	6	7	9	You did not enable a response that addresses the critical factor of school culture. You cannot go forward with proposed changes without destroying Atholton's culture. 66% shift in student population is undefendable.	better than				You have failed at the basic task of providing clarity. Give direct links, so I can compare like-to-like things. Your documentation and artifacts fail to provide the information and context needed for me--a stakeholder--to provide informed feedback.	This survey is flawed. You are probing 3 alternatives. You failed to provide direct references to the alternatives. This creates confusion. This appears to be classic bureaucratic obfuscation, as is the character limit on this feedback form.
1302			AtholtonHS	2	better than	13	14	14	Somewhat better, but disappointing that nothing addresses the negative impact upon rising juniors who have to move to a new high school. They will be put at a significant disadvantage to students staying in their schools.	equal to	13	14	14		Please address what will be done to help rising juniors who will be moved as soon as possible. Unconscionable that nothing has been said about this. Crucial year in college application process which seems to important to the school system until it's not
1303	VeteransES			1	better than	9				better than	9				
1304	StevensForestES			1	better than	4	7	9	The process was flawed from the start and the outcome is similarly flawed. In listening to planning staff, it was clear that this was a math problem focused on addressing capacity concerns nearly exclusively, and the outcome sacrifices communities.	equal to	4	7	9	When the AAC was formed without true demographic diversity or even sufficient geographic diversity, the outcome was self-evident. Add in the failure of HCPSS to incorporate accurate demographic data until the 11th hour and it reinforces a flawed product.	After hearing for several years that HCPSS was callous in its treatment of students/families, we were promised better--more responsiveness, more concern for students, less focus on numbers". This exercise reduced communities simply to capacity numbers."
1305	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	Moving Ellicott City to Columbia Wilde Lake is a slap in the face to any Dunloggin homeowner. If we wanted to live in Columbia, we would have bought in Columbia. This plan break all of your policy rules. Almost every single one.	better than	7	6	1	When 5,000 new homes are built in Columbia, you will need the Columbia seats. Why would you split up, and move one of the oldest most established neighborhoods in the county for this folly? I will sue if you break up Dunloggin and send it to Wilde Lake.	This has to be one of the most unrealistic plans that has ever come out of one of these redistricting groups and I have followed many. You won't even be able to get these students to Wilde Lake with all of the construction. What a poorly thought out plan.
1306	NorthfieldES			1	better than	7	6	13	It is a terrible thing to cut a neighborhood in half after being a well-established neighborhood for about 100 years. The neighborhood of Dunloggin/St. John's Lane should not be divided. Do not rush this plan through.	better than	4	7		Wilde Lake is a Columbia school and we are an Ellicott City home. This does not work for us to go this distance and leave our community behind.	I understand this plan: cuts my neighborhood in two. increase time to and from school significantly (affecting our planet & time at home) does not achieve the 6010 goals. may only alleviate #s in schools for a year....then have to move or overcrowd more.
1307	ManorWoodsES	ElkridgeLandingMS	CentennialHS		better than	6									

1308	IlchesterES			5	worse than				Polygons 95, 1095, 2095 and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county until new scho	better than	4	2	8	Polygons 95, 1095, 2095 and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.	
1309	NorthfieldES	DunlogginMS		1	better than	7	7	4		better than	6	7	4		
1310		BonnieBranchMS	HowardHS	5	worse than	6	7	8		better than	8	6	7		Pleased to see that polygon 84 would not be redistricted since we were recently. Thank you for your consideration and pursuit of finding a solution that is least disruptive to our communities.
1311		LimeKilnMS	RiverHillHS	3	equal to	6	7	12		better than	6	7	12		
1312	PointersRunES	ClarksvilleMS	AtholtonHS	4		7	9	8	This appears to be a huge improvement overall, however Polygon #190 appears to be misplaced. This section of the neighborhood is at AHS and part of the contiguous neighborhood. Moving #190 would split across the street neighbors who bus together.	better than	7	9	6	Much better than the feasibility plan. Possibly only minor polygon adjustments needed like #190 so it stays with the contiguous neighborhood.	There should be a policy to allow Juniors to stay at their current school along with the seniors since the junior year is critical for those applying to colleges and a forced move that year may create significant disadvantage for those students.
1313			MtHebronHS	1	better than	14			I cannot support taking kids that currently walk to school and redistricting them to a school that involves busing them miles away. That does not make economic sense or promote community.	better than				I cannot support taking kids that currently walk to school and redistricting them to a school that involves busing them miles away. That does not make economic sense or promote community.	
1314	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4	6	This impacts community, neighborhoods, transportation. We moved to this specific community (county) to go to Centennial ... If we wanted to go to Wild Lake we would have moved somewhere else and paid less for our house ... This is a negative for student						
1315	CradlerockES	LakeElkhornMS	OaklandMillsHS	4	better than	4	12		Certainly OMHS is much closer than WLHS to us (6 min drive/25 min walk vs. a 10 min. drive/1 hour & 15 min walk) so I don't love it, but it's MUCH better than the first draft!!!! If we can't go to OMHS, this is better than going over 29 to Atholon.	better than	6	7	12	Happy to see you are no longer taking a large chunk of the neighborhood right near the school, out of our community - this would be terrible for our community!!! I'd rather go to a farther HS than break up the community - this is most important to us.	Hated the first plan - it broke up the neighborhood/community & didn't make sense - happier overall w/new plan. If we have to attend a HS that is farther away than OMHS, I prefer Wilde Lake over the initial suggestion of traveling over 29 to Atholton.
1316		ElkridgeLandingMS		1	better than	6	7	8	#1 priority: Enable ALL students to never move from school to school once they begin at any school #2 priority: Enable ALL siblings to go to the same schools #3 priority: Enable as many neighboring homes to go to the same schools as possible	better than	6	7	8	#1 priority: Enable ALL students to never move from school to school once they begin at any school #2 priority: Enable ALL siblings to go to the same schools #3 priority: Enable as many neighboring homes to go to the same schools as possible	No student should ever have to change schools at any time, aside from ES->MS->HS. If that means 'grandfathering in' specific students during certain years for them to remain at their original school, then absolutely do so. No questions asked.
1317	ForestRidgeES			4	worse than	7				better than	8				
1318	BryantWoodsES	WildeLakeMS	AtholtonHS		worse than	4	1	6	While I prefer the Feasibly Study plan, I think this will also be a good solution. My bottom line as an educator and parent is that there needs to be changes.	equal to	1	4	6	I feel like the movement in the Feasiblilty Study makes more sense geographically.	
1319			HowardHS	1	better than	7	2	9	My neighborhood would move from Howard to Long Reach. I will be forced to send my kids to private school. Don't do this to our neighborhood.	better than	14				
1320	DaytonOaksES	LimeKilnMS	RiverHillHS	4	equal to	11				equal to	11				We are new to the area but picked this general location based on schools for this address. We are not alone in this. People purchasing/renting a home based on schools only to have them changed within a few years is not ideal. Thanks
1321		BurleighManorMS		5	equal to		7	6	We thank you for maintaining the logical boundary of Frederick Road.	better than		7	6	We, again thank you for maintaining the logical boundary of Frederick Road and for keeping the small community of Gray Rock Farm together.	
1322			MtHebronHS	1	better than	13	13	13	The draft plan hugely negatively impacts my family. Our daughter is a happy student of Mt Hebron high school who is hugelyinvested in the school. The move will emotionally devastate her and may have lifelong consequences.	better than	13	13	13	Any future school changes MUST MUST begin at the beginning of ES,MS or HS- NOT in the middle	
1323		ThomasViaductMS		2	better than	9	12		No student should have to move to a school outside of 2 miles from his current one. The county should NOT bus kids to other neighborhoods just to achieve certain demographics!						It does not matter what any plan says if that plan is too move kids to make room for more housing development and/or move low income to high income districts and vice versa!!! Leave the schools with excess capacity alone as they will fill over time.

1324	PointersRunES	ClarksvilleMS	AtholtonHS		better than	6	4	5	Currently, the kids are used to go to the school they're going to, and this new plan made a huge change for the feeds and communities. It breaks the region heavily	better than	6	5	4	It should keep the feeds and community together. The new plan breaks the RH community	
1325	ElkridgeES	ElkridgeLandingMS	LongReachHS		better than	6	7	13	I bought my house, so my child could go to Howard HS. I would greatly appreciate it if she goes to Howard.	better than					
1326			MtHebronHS	1	better than	6	2	4	Students should remain together from elementary, to middle to high-school. This will simplify the planning process. A new high-school in Elkridge will address the bulk of the current conflict. Walkers should never be bused further away.	better than	1	7	9	Developers need to pay for infrastructure including roads and schools when they are provided permits.	
1327	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	4	13	7	This plan is not well designed for elementary school boundaries, especially change of pointers run! We live very close to pointers run, but is planed to other school? Not reasonable at all!!!!!	better than	13				
1328	BollmanBridgeES			4	worse than	2	9	14		equal to					Bollman Bridge ES remains one of the the more over-crowded schools in the region. Consideration for expansion into Gorman ES and others should be an option as this regional ES does not appear to be absorbing some of the capacity concerns.
1329	DeepRunES	MayfieldWoodsMS	LongReachHS	3	better than	4	6	8	Oakland Mills High is too far from our house. It will have a great impact. Also, the new 2021 H.S. will open, which will most likely make us move twice. We are very close to the Long Reach neighborhoods, where we go to school with for E.S. and M.S.	better than	4	6	9	I am glad that you have decided to leave the area of Deep Run whole, with the exception of those students off of route 1 (furthest away from Deep Run) going to new E.S. This considered the demographic factors. The F. Study did not consider.	Please consider carefully where you are taking from for H.S. We will not have our child go to Oakland Mills High. We are looking into moving.
1330	CentennialLaneES	DunlogginMS	CentennialHS	1	better than	4	7	6	It makes no sense to split the Dunloggin subdivision /St. John's Community Association community.	better than	4	6	7		
1331		FollyQuarterMS	RiverHillHS	1	equal to	12			The current plan would only have approximately 19 kids out of 222 eighth graders at Folly Quarter feeding to River Hill. This is way below the 15% feed the board set as a minimum feed from one school to the next. Emotionally and socially stressful.	better than	6			The Feasibility Plan would only have approx. 19 out of 222 8th graders at Folly Quarter feeding to River Hill. This is way below the 15% feed standard the board set as a minimum feed from one school to the next. Unacceptably low feed for students.	If the Feasibility passes I would argue for the option of a choice for these 19 kids to attend either River Hill or Glenelg; this "community" was established by the board as geographically we live closer to Clarksville elem and middle and feed is too low
1332	WestFriendshipES	MountViewMS	MarriottsRidgeHS		better than	13	4	14		better than	4	13	14		Moving the 224 polygon (and 1229, etc) on the eastern side of Route 32 to Glenelg is ridiculous; my kids can (and sometimes do) *walk* to Marriotts Ridge.
1333	ElkridgeES		HowardHS	1	better than	13	4	6	I am NOT in favor of this move. Leave the districts alone.	better than	13				
1334			MtHebronHS	1	better than	4			Please don't split Valley Mede. Kids who currently walk to school will go past Mt Hebron 20 minutes to Marriott's Ridge. This places a burden on working parents especially for those in sports. Consider just Bethgate and west of Old Mill.		7	13	6		
1335	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	7	3	4		better than					
1336	WestFriendshipES			1	better than	13	2	4	We are uprooting a lot of children because certain parts of the counties keep building and building homes. If we don't have enough room for these new students then we should build another school. Our children shouldn't have to suffer because of this.	equal to	8	7			Children do not adjust to change as well as adults can, we need to consider the impact of uprooting kids from a comfortable environment. Another impact is for parents, I am 1.4 miles from my kid's Elem, MS and HS, with the change we are 6 miles away.
1337	BushyParkES			1	better than	13	4	7	My son will be a 5th grader, along with others in the neighborhood, in 2018. I also have a younger son with autism that will be starting school in a few years, & would be better served remaining at Bushy, as it is closer with better resources.	better than	13	7	4	Feasibility study would keep our neighborhood and surrounding area at Bushy which is preferred and logical.	Please allow our neighborhood (Scottswood court) to stay at Bushy. Transportation would be much longer, my son has one more year, and my youngest special needs son needs the services there. The small number of kids here would not greatly effect school pop
1338			CentennialHS	1	better than	4	5	7		equal to	4	6	7	Polygon 2154 moving to MRHS doesn't make sense. We're 10 minutes away from CHS yet my daughter has to travel busy highway to get her high school. It is insane and unfair to my daughter who will enter CHS this year and pull out in her sophomore year.	

1339	HammondES			5	worse than	7	6	9	With respect to high schools (my main concern), this plan appears to achieve the student population shifts necessary to reduce the overcrowding in the eastern high schools.	better than	7	6	9	This plan distributes the population shifts among high schools more evenly, instead of loading large shifts onto a few schools (particularly Atholton High), and may also reduce the total number of students moved.	During our community mtg with Renee Kamen on 8/7, we were told that Dr. Martirano was presented with only one plan that involved redistricting high schools. This plan loads an unfairly large shift of students onto Atholton, other plans should be developed
1340	ManorWoodsES			4	equal to	4	7	1	It is comparable on the western areas of the county.	better than	4	10	3	This plan gets rid of a small feed from my elementary school to a middle school.	This is a better plan compared to original draft plan
1341	WaverlyES	PatapscoMS	MtHebronHS	2	equal to	4	1		I am peaking specifically for polygons 1162 and 2161. Students who are often to walk to MHHS should not be sent to MRHS.	better than				It is silly to move students from MRHS to RHHS and then take from MHHS. If the push is west to fill schools then RHHS should be pulling from AHS/RHS. This seems like an attempt to ease the area of AHS who was upset and most impacted by the first propsal	
1342	HollifieldStationES	PatapscoMS	MtHebronHS	5	worse than	6	4	7	Great job	better than	4	6	7		
1343	ElkridgeES	ElkridgeLandingMS	HowardHS	5	better than	7				better than					Please do NOT change our district
1344	ClemensCrossingES				better than	13			The new plan shows Sunny Spring and Cedar Acres being redistricted. I don't see the need to uproot these students when the current plan would keep them in the same school. My understanding Sunny Spring has constantly been redistricted.	better than	13			I don't see the need to uproot the students in Cedar Acres and Sunny Spring. I appears they are just swapping kids and doesn't seem to provide a good justification for it.	
1345	PointersRunES	LimeKilnMS	ReservoirHS	4	worse than	1	6	7	Overall, the draft plan is better than the current school attendance area. However, this is the second time in 6 years the ES will be changed.	better than	1	6	7	Overall, the draft plan is better than the current school attendance area and Feasibility Study Plan. However, this is the second time in 6 years the ES will be changed.	Overall, the draft AAC plan is better than the Feasibility Study Plan and . However, prefer ES to remain at PRES instead of changing again (2012).
1346	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					better than	13				The feasibility study did a great job fixing the river hill community together. Now the aac draft plan throws that all out the window and completely divides the community again. Don't do the draft plan and keep the community together like the study did.
1347	NorthfieldES	DunlogginMS	CentennialHS	1	better than	1			The overcrowding of Northfield is not being addressed. No information shared on how the overcrowding for the other schools will be addressed.The new plan splits out the Dunloggin a community established many years ago with many neighborhood tradititions.	better than	1	6	4	Dunloggin is being split in two. These kids grow up together and now will have to split for high school. AAC draft will have an enormous effect on this community . Howard should work to preserve established communities for the well-being of its resident	
1348			MarriottsRidgeHS	4	worse than	1	2		This plan effectively addresses the overcrowding at Centennial High School and the under utilization of some of the more western schools.	better than	4	1	2	The AAC draft plan does a better job taking into account transportation considerations.	
1349	ClemensCrossingES				worse than	6			New AAC seems to do slightly better at keeping more MS kids together into the same HS. It always seemed strange to me that the current plan has my polygon (#127) going from Clemens to Lime Kiln to Atholton, when a larger % of Lime Kiln goes to Reservoir.	equal to	6			It is impossible to make a real assessment because the AAC does not have the full numerical analysis that the Feasibility Study does. The AAC does not tell you about the impact on # of seats, population, demographics, etc, impacting Policy 6010 criteria.	
1350	ElkridgeES			1	better than	7	6	9		better than	7	6	9		
1351			HammondHS	1	better than	13	4	9	Moving 2057 (McGill's Common) from Hammond HS to Wilde Lake HS makes no sense. It will negatively affect Hammond and Wilde Lake is at best the third closest school to this neighborhood (Hammond, Atholton, and possibly Oakland Mills are closer).	better than	13	4	7		
1352	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	10	1	8	AAC draft plan reduces the number of students need to move dramatically, which helps reduce community instability, and meets the policy 6010.	better than	9	7	2	Atholton high school's demographic ratio is close to the county wide average, and AAC draft plan better maintains this ratio.	AAC draft plan meets Policy 6010 standards better than feasibility study.
1353			HowardHS	1	better than				This is a horrible idea My daughter's current school attendance area is perfectly fine	equal to					
1354															
1355		MountViewMS	MarriottsRidgeHS	5	worse than	1			Thank you!! This updated plan totally works for me.	better than	2			This plan is a lot better, affects less kids, eliminates small feeds, & works	
1356	NorthfieldES	BurleighManorMS	CentennialHS	1	better than	6	7	4	Polygon 1154 is closer to CHS than polygon 97. Polygons 1154 , 153 and 1184 are part of the same neighborhood. It is not in alignment with Policy 6010 to return Polygons 153 and 1184 to CHS and redistrict 1154 to MRHS. 1154 should be returned to CHS.	better than	6	7	4	The neighborhood comprising of Polygons 214, 153, 1184, 1154, 154 and 2154 was further broken down by returning Polygons 153 and 1184 back to CHS and redistricting the remaining polygons to MRHS lowering the feed from BMMS to MRHS in the neighborhood.	Please reconsider returning Polygon 1154 to CHS.

1357	FultonES	LimeKilnMS	ReservoirHS	5	worse than	7	6	2	This proposal solves the overcrowding problem at Fulton Elementary while not splitting up neighborhoods and will keep more children together from elementary school to high school.	better than	7	6	2	This proposal solves the overcrowding problem at Fulton Elementary while not splitting up neighborhoods and will keep more children together from elementary school to high school.	Excellent proposal specifically to solve the crowding at Fulton Elementary. Moving the pologys to the south of the school where Maple Lawn South will be built prevents disruption to students currently at Fulton Elementary and keeps communities together.
1358	RockburnES	ElkridgeLandingMS	HowardHS	4	equal to	6	8	7		better than	6	8	13		
1359	PointersRunES	ClarksvilleMS	AtholtonHS	3	equal to	6	1	2		better than	6	1	13		
1360	ElkridgeES	ElkridgeLandingMS		1	better than	7	13		For how much I pay in taxes my child should be attending Howard High School and not Long Reach.	better than					
1361	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13		equal to	6	1	4		
1362				1	better than	6	7	13		better than	6	7	13		
1363		EllicottMillsMS		5	equal to	11	11	11		equal to	11	11	11		
1364	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	13		better than	4	7			
1365		BurleighManorMS	CentennialHS	1	better than	13	7	6		better than	13	3	10		
1366	BellowsSpringES	MayfieldWoodsMS	LongReachHS	4	equal to	6	7	12		better than	7	6	12	AAC draft plan does better at keeping communities together	
1367			AtholtonHS	2	better than	7	10	8	Please leave polygon 118 at Atholton HS. There are a small number of houses and kids in this neighborhood. We seem to be on a line that gets moved constantly. The adjacent neighborhoods were moved back to Atholton and also feed from Lime Kiln MS.	equal to					
1368	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	1	1		doesn't make any sense to move polygon 1189 to Dayton Oaks ES. This is creating boundaries and harrassing kids/parents. Such a poor planning and looking after citizens of the county besides ridiculous taxes we pay.	better than					
1369	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	13	I strongly oppose the AAC draft plan to alter the current school attendance areas.	better than	7	6	4	I strongly oppose the AAC draft plan to alter the current school attendance areas.	My children would lose continuity of friend groups from MS to HS, the schooling provided by Centennial is consistently better rated than the prosposed alternative, Wild Lake, and we paid a premium to enter our neighbourhood on that basis. Travel time also
1370			HowardHS	3	equal to	2	4	6	There needs to be a high school in Eldridge. Also, it was very hard to go from Ellicott Mills middle to Howard high because my child knew very few kids Fromm EMMS going to HHS.	equal to	11				Keep more groups together as they change between schools. Make an Elkride high school.
1371				5	equal to	7	9	14	Thank you for keeping Gray Rock Community together	better than	4	9	14	Thank you for keeping Gray Rock Community together	
1372	NorthfieldES	DunlogginMS	CentennialHS	3	better than	7	12	14		better than	4			Thank you for preserving Gray Rock and Font HIll. The neighborhoods near Plum Tree are adversely impacted, as is Dunloggin which is being broken in half. Please try to keep neighborhoods together. Please also consider postponing high schools.	Please consider postponing major high school changes and focus on creating the new high school. So many kids will be adversely impacted if they need to change high schools after 9th. Please also continue to focus on not splitting up neighborhoods.
1373	WorthingtonES	EllicottMillsMS	MtHebronHS	1	better than	4			This plan takes a ton of students who could basically walk to Hebron HS and sends them on a but to MRHS. CRAZY!!!	better than	4			I just don't understand how you can move students who live in a neighborhood next to a high school and send them to a school much further away. And...Why did you single out the apartments near Chatham and send them to Centennial ES. Are you trying to	say...let's bus this small pocket of possible lower income students?? I am sure those kids would really want that instead of going to one of the 2 other schools that border their neighborhood.
1374	ThunderHillES				equal to	11				equal to	11				
1375	ManorWoodsES			5	equal to	6	7	14		better than	6	7	14	The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	While I understand that it is difficult to make everyone happy all of the time, the AAC draft plan took a thoughtfully-created Feasibility Study and improved upon it by removing several small feeds and by seeming to move fewer children. Well done.
1376		ElkridgeLandingMS		1	better than	7	4	2		better than	7	4	2		
1377	ElkridgeES			1	equal to	6	7	1	The old zoning and the new zoning both have my children split up from all the peers they will attend both elementary and middle school with. I believe the community of kids in Elkridge should stay in school together through 12th.	equal to	6	1	7		Please find a way to keep all of the elkridge elementary and ELMS kids together through 12th. I personally do not care if it is at Long Reach or at Howard just that they are kept together.
1378	HollifieldStationES			1	better than	4	7		This proposal requires buses exiting 262 to make a LH turn against Rt 99 rush hour. Over 230 new units (Bethany Glen) will be added to that traffic soon. This is dangerous & unnecessary. Keep our kids at our closest school - HSES!	better than	4	5	7	Forced LH turn for bus routes, see previous comment.	The proposal also moves our designated MS and HS farther away. We should be attending our local schools, not driving past them to attend schools in other areas. We did not move into this neighborhood to bus our kids into a different school zone!

1379	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	6	1	2	This does not effectively and efficiently address the issues of over capacity like the boards proposal. It makes more sense to keep neighborhoods/communities together and shift west, where there is not significant overcrowding.	better than	7	9	6	This is a poor attempt at an alternative.	We need to stop bowing down to complaints that are personal and not looking at the big picture. Maintain the integrity of the hcpss education by moving west, reducing class size and keeping communities together. I support the first plan
1380	DaytonOaksES	FollyQuarterMS	RiverHillHS	2	equal to	6	9	8	We prefer for our High School to be redistricted from River Hill HS to Glenelg HS for the 2018-19 school year per the Feasibility Study Plan. Many of Folly Quarter MS students feed into Glenelg HS and it seems this change will happen eventually.	better than	6	7	8	We prefer the Feasibility study in which our HS changes from River Hill HS to Glenelg HS. We are on the border and it seems we will be redistricted eventually. We would prefer to be redistricted now to create a smooth transition from MS to HS.	It appears the majority of Folly Quarter MS students feed to Glenelg HS. We would prefer the feasibility study in which Polygon 1199 is redistricted to Glenelg HS. We are on the border and we would prefer to be redistricted now.
1381	CentennialLaneES	BurleighManorMS		1	better than	9	4	7	1.Students redistricted would lose their current academic programming.2.Redistricting would break the bonds of our CLES/BMMS students with their teachers, staff & friends.3.We moved to new community specially for the good school district.						
1382		ClarksvilleMS		2	better than	4	6	1	Busing students from far flung Wilde Lake / Reservoir and Marriotts Ridge current attendance zones to RHHS makes no sense when currently zoned AHS students are closer. This appears to be some kind of gerrymandering effort to achieve a desired outcome	better than	4	6	9	An obvious boundary line for Atholton and RHHs would be Cedar Lane / Sanner Lane. Having RHHS boundarys extend beyond that doesn't make sense when those homes are closer to both Reservoir and Atholton than RHHS.	
1383	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	7	6	4	The draft plan leaves my section of River Hill at Atholton High vs River Hill while sending kids from outside the neighborhood e.g. Wilde Lake, Marriotts Ridge to River Hill. Why can't my kids go to a school with their friends in their own neighborhood	better than	4	6	7	The Feasibility Study would allow my kids to go to high school within their community with kids from their middle school. It would also allow them to ride their bike or walk to or from school. This weighs heavily on parents who both work full time.	With after school activities its often hard to get them to & from Atholton whereas they could walk home from River Hill. They have made lasting relationships w/ kids at CMS only to be separated in high school. HoCo needs to put communities back together
1384	PointersRunES	ClarksvilleMS	AtholtonHS	2	worse than	6	7	9	Change in middle school in AAC draft plan allows students from same elementary school stay together, keeps integrity of the local community.	better than	6	7	9	The AAC draft plan break up students from Clarksville Middle School to feed RHHS and AHS and is not good, while the feasibility study allows students from Clarksville Middle School stay together so is much better.	
1385	CentennialLaneES			1	better than	1	3	4	The Wilde lake do not have capacity issues. Moving a big part of its district to River Hill is not feasible. Polygon 147 is with walking distance to Centennial and far from Wilde Lake.	better than	1	3	4	Polygon 147 has a new community. A lot of kids have just settled down in the current school in the past year. They should be expecting another transfer. Also the sending school and receiving school have unmatched performance ratings.	
1386	PointersRunES			4	equal to	7	6	4		better than	7	6	14		
1387	GuilfordES			1	equal to	14	14	14		better than	1	6	4	The Feasibility Study Plan is better b/c it makes the necessary *westward* shifts in the lower portion of the county to keep facilities at appropriate capacity, AND it keeps feeds of students together from ES to MS.	
1388		FollyQuarterMS	RiverHillHS	4	worse than	7	6	1		better than	14	14	14		
1389	CentennialLaneES	BurleighManorMS	CentennialHS	3	better than	4	7	12	This plan still buses students who live off Plum Tree 8+ mi when Centennial is so close. It also reduces the economic diversity of Centennial by losing those students in townhomes and apts and makes it very difficult for parents. Dunloggin also split.	better than	4	6	7	Gray Rock and Font Hill are now kept together - good. Please try to keep other neighborhoods together and walkers intact. We would be devastated if Breconshire was split, for instance. Dunloggin homeowners are very upset with this plan.	Please allow children who start at one high school to finish there. If my daughter is impacted she would have to attend 4 schools in 4 years due to our recent move, and that would be very difficult. Please postpone h.s. redistricting
1390	ElkridgeES	ElkridgeLandingMS	HowardHS	5	better than	6			The Elkridge community is being split based on Rt 1. Once a child starts a highschool they should stay there. Not keeping feeds of students together sets them up for failure.	better than	6			The previous plan kept the majority of the children from elkridge landing middle school together. I am adamantly opposed to switching from Howard to long reach.	
1391		ClarksvilleMS		1	better than	6	4	9	I live in the village of River Hill. It would make sense to keep the kids together, rather than splitting the neighborhood in two.	better than	4	6	9	The original proposal had all the Clarksville MS kids for the most part going to River Hill HS. This is the closest HS for most. The new proposal split the kids up, and brings kids much further away to River Hill HS. This makes no sense demographically!	
1392	ElkridgeES			1	better than	13			We bought our house specifically so our kids would go to Howard high school. This plan will move them to Long Reach HS with is a far inferior school.						
1393	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	6	5		better than	4	6	5		
1394	ElkridgeES	ElkridgeLandingMS	HowardHS	5		6	2	13		better than	6			My kids were initially set to go to Howard and now it's Long Reach. We moved to our neighborhood for Howard high school. I also have kids different ages and want them both to go to Howard	Moving our whole neighborhood to Long Reach would also effect homes values. We want out kids to go to high school with their friends they have been going to school with since starting school.

1395	BushyParkES	MountViewMS	MarriottsRidgeHS	1	better than	4	7	13	The plan makes polygon 1229 which is right next to MVM and MHS and we can walk to and can hear from our backyard to GMS and GHS which would take 2 1/2 hours by foot. It is next to impossible for us to drop her off and commute to Baltimore or wait for bus.	better than	1	9	1	This plan instead of keeping polygon 1229 walkers in MVM and MHS, it buses students within this island so far that they attend schools with students that live far from them. WFES, MVM and MHS are not overcrowded but we are being sacrificed for all levels	We moved west sacrificing convenience and adding commute time to live NEXT to the schools that are not overcrowded. We felt safe that our kid has a 4-min bus ride; instead, she will prob spend over 1 hour each day on the bus for 12 years! Not very fair.
1396	ElkridgeES	ElkridgeLandingMS	HowardHS	5	better than	6	13		I would much rather see my children attend school with with the same group of students throughout their educational career than have them attend a school based on attendance and the lack of planning on the part of the county.	better than	6	13		Would like for my children to attend their current schools...EES, ELMS, and HoHS	
1397	WaverlyES	PatapscoMS	MtHebronHS	1	better than	4	7	8	We are WALKERS to Mt. Hebron HS. It is in our backyard and we're part of the Mt. Hebron community assoc. Why have us go to a completely different school? My son was already redistricted from St. John's Ln to Waverly which split our neighborhood in half	better than	4	7	6	The feasibility study makes sense to have our neighborhood once again attend St. John's Ln., Patapsco and Mt. Hebron HS. This keeps the feed of students/community together. Transportation costs increase with draft plan, since we are next to Mt Hebron.	Our polygon has been redistricted to three schools in 11 years! PLEASE stop doing this to our pocket of the community. It splits up our neighborhood/community and really does leave a negative impact on the children affected more than you know.
1398	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13	14	14		better than	14	14	14		
1399	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	7	8	6		better than	10	6	4		
1400	BellowsSpringES	MayfieldWoodsMS	LongReachHS	5	equal to	1	7	6	This equals the current attendance areas for polygons 298 and 1298 which is the right thing to do. We appreciate that the AAC correctly included this among the good work they did this summer.	better than	7	4	1	FeasStudy was horrible. AAC plan is good keeps our neighborhood at Bellows/ Mayfield/Long Reach. THANK YOU AAC. County-wide,high school change must be phased in so students can graduate from where they are today. AAC plan affects fewer students overall.	Appreciate hard work of the AAC. While high school is better than the Feas Study,the suggestion remains to DEFER all HS redistricting until new HS is built or at least to PHASE IN so current HS students can stay in the school they are in today.
1401			MtHebronHS	1	better than	7	4	6	We are slated to move from Mount Hebburn high school to Mary it's Ridge high school. Mary it's Ridge high school to 25 minute drive from my house to the high school. Factoring in neighborhood Road and Route 99 this becomes nearly an hour round-trip.						
1402	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	9	4		better than	13	9	14		
1403		ElkridgeLandingMS		4	worse than	12	3	4		better than	12	4			
1404				1	better than	7				better than	7				
1405	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	4	9	Did u consider 350 homes in Westmount? If not, it is simply POOR Planning. No consideration for child's emotional wellness/academic excellence. Increase capacity. Dont just look at percentage. Look at real numbers. Between green/red it is probably 4 kids.	better than	4	9	13	No reasoning behind AAC plans as opposed to the Feasibility Study. Simply based on comments and suggestions from few people without considering big picture, data analysis and strategic thinking, fiscal wellness of the entire County.	Do you want to shatter the dreams of high performing kids who chose to be in the neighborhood simply for the schools? AAC has no pulse on sensitivity of kids and their emotional health. May be it is time to start allowing only growth in the west.
1406	HollifieldStationES	PatapscoMS	MtHebronHS	5	worse than	6	7		I would love to see my kids redistricted to St. John's Elementary with the rest of my community - I live off 99 just west of 29 and don't think my kids should be going to schools east of 29.	better than	6	7			
1407	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8	We have to keep this school attendance areas until new schools are built.	better than	6	7	8	We are pleased that the AAC draft plan has corrected for the mistakes in the Feasibility Study.	
1408	WestFriendshipES	MountViewMS		2	better than	2	6	9		better than	14				
1409	WestFriendshipES	MountViewMS	MarriottsRidgeHS	4	equal to	13	1	3	Please speed up construction of a Turf Valley Elementary School and plan ahead for it in this redistricting!	better than	4	13	7	Please, please, please fast track a new Turf Valley Elementary!	The rapid development around Turf Valley is creating a need for a Turf Valley Elementary School. Please plan for it. It looks like the Feasibility Study Plan plans for minimal redistricting in the future better than the AAC plan.
1410	IlchesterES	BonnieBranchMS	HowardHS		better than	6	7	12	The value the county places in the sense of community is impacted by the constant changing of boundaries. Take a larger chunk of ELMS and keep them together to the same HS anf keep Montgomery Meadows with the IES and BBMS community.	better than	6			I am grateful as a parent and teacher to alleviate over crowding, but I do not make sense of some changed in either plan. You have done a great job reorganizing western hoco, but the Elkridge/21043 are is a mess as you are destroying the community.	Please allow Montgomery Meadows to stay on the HHS plan and rearrange the 21075 ELMS area to keep those children together. There is no need to break up Middle School flow.
1411	GormanCrossingES			5	worse than	4				equal to	14				
1412		BurleighManorMS		1	better than	7	8	4	Keep 147 as it is now. All kids are moved in in past 2 years and just adapted to the new schools. AAC draf will move them again in short period . 147 student population will not increase in 5Y(new Community sold out) and current schools already handle it.	better than	1	7	10	Feasibility plan didn't impact our area which current school already can handle or will handle in 5Y. AAC plan just made 147 an island from the community which is not based on geographic, community current and future proj of the schools.	Feasibility study shows we are fine with current attendance. AAC draft made changes not based on projection and objectives of redistricting. It add tremendous pressure on all students in the area since the have to change school and lose friends AGAIN!!
1413	StJohnsLaneES	PatapscoMS	MtHebronHS	1	equal to	4	6	7	They are both not in the best interest of the high school students in our county.	equal to	7	4		Both studies are dividing neighborhoods and involve high school. NO HIGH SCHOOL Redistricting.	Fast track the new high school, then do a county wide restructuring. Families will know it's coming and be made aware that changes will be happening for their children.
1414	GormanCrossingES			4	equal to	9	6			better than	9	6			
1415	IlchesterES	BonnieBranchMS	HowardHS	4	equal to	6	7			better than	6	7			

1416	GormanCrossingES	MurrayHillMS		5	worse than	7	6	9	This Draft Plan is way better than what we have.	better than	6	7	9		
1417	WestFriendshipES	MountViewMS		3	equal to	11	14								
1418	ElkridgeES			1	better than	4	9	6		better than	4	1	9		
1419			MarriottsRidgeHS	1	better than	13	4	13	This plan is awful. My daughter is going to Marriotts Ridge in the fall and so is her sister, and we live .3 miles from the school and it was the reason we moved to this county. There is no way that moving my kid to a school 10 mins away helps anyone	equal to	14	14	14		I've had a kid at MRHS and it's where i want my other kids to go. The fact that we live right off 99 and still cannot attend MRHS is appalling. Find a new way to not redistrict high school students, just change young kids attending elementary school.
1420	ClemensCrossingES			1	better than	7	9	13	My husband and I are looking forward to having our child attend Clemens Crossing Elementary school. It would be very disappointing to have them moved to Swansfield.	better than	7	9	13	The Feasibility Study keeps our neighborhood at Clemens Crossing compared to the AAC draft plan which would move us to Swansfield.	
1421	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	13	4	13	I wish there be no changes to the high school assignment from Howard to Long Reach. The change will negatively impact my family.	better than	13			I wish there be no changes to the high school assignment from Howard to Long Reach. The change will negatively impact my family.	I wish there be no changes to the high school assignment from Howard to Long Reach. The change will negatively impact my family.
1422		ElkridgeLandingMS		1	better than	6	7	9	Plan does't follow policy 6010.Breaks up communities.Small feed going to LRHS from ELMS is not beneficial to students.They need support of friends and community for a successful high school career.	better than	6	7	13	AAC plan breaks up Elkridge community. All students at ELMS should go to HOHS to keep the students together. Should not be small feeds to LRHS. This has a negative impact on the students who are forced to go to a school without community support	Elkridge is pushed aside again to accomodate more vocal(and affluent)areas kids need the support of our community and each other.Splitting a small feed from ELMS to LRHS is not following policy 6010 and is not providing a positive environment for students
1423	DeepRunES	MayfieldWoodsMS	LongReachHS	3	better than	6	2	14	My child at Mayfield Woods M.S. will not go to the same H.S. as many of her friends. If approved as is, many of her friends will transition to Oakland Mills H.S. and I don't think it's safe to travel children to OMHS from where they live due to traffic.	equal to	1			Nothing changed	Although there is a need for change (and my elementary school children will be affected by that change), I am frustrated with the high school redistricting. Many of the middle schoolers will be split and not feed to the same H.S. i.e., Polygons 1080, 81
1424	AtholtonES	HammondMS	HammondHS		equal to	6	7	4	For our area, definitely takes into consideration where schools are located allowing students to go to school at the closest location to their home while also preserving a sense of community.	better than	4	9	7	We think it is great that our students will be able to attend the high school that is walking distance from our home, but there is a very small feed of students in our area that will attend ES, MS and HS together.	
1425	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4	6		better than	7	6	13		
1426	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1427	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	6	1	4	School attendance is currently outstanding. For all 3 schools I have been selected to attend, seats have been filled with focused students. If you redistrict those kids, they will have many distractions from different people and environment. Don't do it!	better than	9	7	4	I live less than a mile from Marriotts Ridge HS and you are going to move me away from my school. I can see the school from my bedroom window and hear the announcer at football games while I am eating dinner. I don't deserve to be moved away from mrhs. No	I live so close to the school, less than a mile. It takes me 3 minutes with traffic to get there, while it takes my friends 15 without traffic. It is not fair to separate my friends and I just to distract me more with a new environment and new people. NO!
1428	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	5	4	6	New elementary school Dayton is far away from my house, Pointers run elementary school is very close, which really impacts the transportation, kids friends,my working schedule.....	better than	4	5	6		
1429	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	13	7	6	Major issues/concerns with Level 2 (MIddle) and Level 3 (High) redistricting. Commuting 2/3 times the distance to new schools creates an unnecessary hardship on families in our neighborhood. Our polygon (232) in not heavily populated to start with.	better than	13	7	6	See comments above related to Level 1 and Level 2	Extremely unhappy and concerned with this draft plan
1430		ElkridgeLandingMS	HowardHS	1	better than	7	7	13	My neighborhood of Downs Ridge has always attended Howard High School. This plan takes away from tradition, our community togetherness and moves our kids to a less performing school. The proposed plan increases our children's risk for adverse experiences.	better than					
1431	ElkridgeES	ElkridgeLandingMS	HowardHS	2	better than	7				better than	7	13		I'm ok with the feasibility study attendance areas, I'm not ok with the AAC draft plan which shifts my neighborhood into another high school	
1432	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	4		better than	13	13	13	Our community is less than a mile from the schools and the moving schools are less in rating and the students who take the GT are very less.	
1433	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		

1434		EllicottMillsMS	MtHebronHS	5	worse than	7	6	8	Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	better than	7	6	1	I approve of the AAC's recommendations that reduce small feeds, keep contiguous communities together, reduce frequent future reassignments, & minimize total number of students disrupted.	I believe high school reassignments should be minimized--or put on hold all together--until the new high school is ready, to reduce disruption to students & minimize frequent future reassignments.
1435	CentennialLaneES			1	better than	8			The AAC plan does not take into account of the NEGATIVE impact on the kids who moved into Centennial Overlook new community in polygon 147 in the last 1, 2 or 3 years. They just moved in and settled. Too much stress to let these kids move again!!!	better than					The Kids in Centennial Overlook new community in polygon 147 has gone through a lot in settling in this new environment and new schools . It makes no sense to force these kids to move yet again!!!
1436	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1437			CentennialHS	5	equal to	7			Thank you for keeping the logical boundary line of Frederick Road, and for keeping the Gray Rock Farm community together.	better than	7			Thank you for keeping our Gray Rock Farm neighborhood together, and maintaining the logical boundary line of Frederick Road.	
1438			HowardHS		equal to					better than	8				
1439	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	11	7	4	Although the draft plan is not perfect, but is is still acceptable.	better than	9	4	7	This version of feasibility plan is worse than the draft plan since designer did not consider the main geometric impact of Wade Like HS students transferring to River HS.	As a River HS area resident, I prefer River HS accept more students from Atholton HS area students which has less geometric obstructions than Wade Lake HS area students.
1440	NorthfieldES			1	better than	6	4			better than	6	4			
1441	HammondES	HammondMS	AtholtonHS	1	equal to	7	5	6		better than	3	5	6	AAC draft appropriately accounts for transitions between elementary, middle and high school areas.	
1442	ClemensCrossingES				better than	13			As the current school area will keep my kids at CCES as the AAC plan will not. It is hard for any parent to accept taking their kid from the #1 school to a title one school.	better than	13			The Feasibility Study will at least keep my kids at CCES	
1443		LimeKilnMS		1	better than				What I think is that my road has been redistributed in elementary AND now high school. This is totally bull and it is not acceptable. My polygon is 2114 please change this please!	better than					What I think is that my road has been redistributed in elementary AND now high school. This is totally bull and it is not acceptable. My polygon is 2114 please change this please!
1444			AtholtonHS	1	better than	6	1		I am not in favor of the AAC plan as it does not keep the River Hill neighborhood together. The neighborhood is split into two different high schools which breaks neighborhood continuity. River Hill neighborhood is closest to RHHS and should go there.	better than	6	1		I am in favor of the Feasibility Study. It kept the River Hill neighborhood together, rather than splitting into two schools. The AAC plan is worse and pulls only an additional small section of the neighborhood to RHHS, further dividing the neighborhood	The AAC Plan further divides the River Hill. The entire River Hill neighborhood is close to River Hill and should be moved as a whole. The ACC plan moves only a small additional section of River Hill to RHHS, rather than keeping all River Hill together.
1445			CentennialHS	1	better than	7	13	3							
1446		HarpersChoiceMS		2	equal to	4	9	13	Hazard...no crossing guards at any of the intersections near our home. Cars are turning into the shopping area getting gas/McDonald's breakfast on their way to work and children are walking, most parents have to be to work and have safety concerns...	equal to	4	9	3	Not applicable	Safety hazard for walkers
1447			HammondHS	5	equal to	4	6	7	The AAC draft plan is equal to our current school attendance area, polygon 13. The AAC plan still allows the students from polygon 13 to walk to school which enables my son to still participate in school activities and sports. Please keep 13 in HAHS!!!	better than	4	6	7	The AAC draft plan works better for polygon 13 and keeps my students to walk to HAHS. The AAC plan also allows us to stay with HAHS community and our support systems. My son is able to walk to school activities and sport practices. No busing to AHS.	The only negative impact ACC draft plan will impact polygon 13 is that Mcgills common area will be redistricted to WLMS and WLHS. This will break up a tight community and does not keep feeds of students together from one school to the next.
1448	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
1449	ElkridgeES	ElkridgeLandingMS		1	better than	6	7	9	This is very important for socialization. We want to keep these kids together that have been together since kindergarten.	better than	6	7	9	This is very important for socialization. We want to keep these kids together that have been together since kindergarten.	
1450	DeepRunES				worse than	7	6	2		better than	2	3	6		
1451			CentennialHS	5	equal to	7			Thank you very much for maintaining contiguous neighborhoods.	better than	7			Thank you for keeping the community together and maintaining a logical boundary.	
1452		ClarksvilleMS	RiverHillHS	3	equal to	9	7	4	River Hill area should all go to RHHS	better than	4	7	9	Swap out Browns Bridge that currently attend RHS and are adding to the upper income demographics there and you should add in the rest of the River Hill area community kids (from Atholton) to RHHS. They are continguous to RHHS community afterall.	You should not take those high income from RHS, instead, you should bring RH community to RHHS and take those away from Atholton. Add from somewhere other to Atholton (those few students). Hall Shop and Pindell should remain Atholton for high income.

1453	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4		The new AAC plan splits the Dunloggin neighborhood in half. Literally neighbors next to each other woild go to different high schools. Dunloggin has been a very cohesive neighborhood for years. Also we would have to drive by Centennial HS to get to WLHS	better than	7	4		The original feasibility study kept the Dunloggin neighborhood together.	Please please reconsider the new plan and how it splits the Dunloggin neighborhood in half and makes it further for our students to go to high school. They would pass by Centennial high school on the way to WLHS.
1454	HammondES	HammondMS	AtholtonHS	5	worse than	7	7	7		better than	6	1	6	The feasibility study is one that is too short sighted of what strides have already been taken in order for Howard County to stand head and shoulders above the rest.	Thank you for allowing me to have a voice.
1455	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	6	9	Distance and excessive travel time to the proposed schools and breaking up the community.	better than	4	6	9	Distance and excessive travel time to the proposed schools and breaking up the community.	Distance and excessive travel time to the proposed schools and breaking up the community.
1456			HowardHS	5	equal to	6	7			better than	6	7	8	This plan keeps feeds consistent which keeps communities together! Thank you!	
1457	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13	13	13	A change in the current school attendance areas will impact my property values significantly!	better than	13	13	13	See above	I grew up in the house I currently live in in Dunloggin. I chose to purchase this house because my kids would get to go to Centennial High School. This plan will destroy that and significantly decrease property values.
1458	DaytonOaksES	FollyQuarterMS	RiverHillHS	3	equal to	1	11			equal to	11	1			The latest plan is a big improvement to the previous one. It is still redistricting too many students.
1459	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	1	4	7		better than	4	6	6		
1460	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	7	6	13		better than	6	7	13		
1461			OaklandMillsHS	2	better than	9	4	10		better than	9	10	4		
1462	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	9	Since Dunloggin MS graduates split into 3 high schools , this area students already experience to loose their friends greatly and it will definitely impact on peer support during tougher HS years. New AAC plan divides this community miserably.	better than	7	6	7	New plan is a killer on Dunloggin community. All residents in this community have been here over at least 10 yrs and take a pride and responsibility. Kids who grew up this area shouldn't be apart in the HS due to ignorant and insensitive drawing line	New AAC plan is ignorant about the community has built over 100 yrs. This community is not just a sleeping town for DC or Baltimore. The kids in this community will reinvest their future here , so they should be cohesive through all schools together.
1463	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	worse than	1	7	6	It's clear that HCPSS currently has school utilization issue. The AAC draft plan has solved the problem without moving as many students as the Feasibility Study proposes and taken into consideration of maintaining contiguous community.	better than	7	6	1	I think AAC plan is better because unlike Feasibility Study it has feedback from communities as one of the inputs. Also it balances between achieving school utilization goals and minimizing impacts on residents which helps preserve communities.	I think AAC plan is a great improvement to Feasibility Study because it's a more optimal solution to the same problem statement.
1464	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	14	14	14		better than	1	4	7	Preserving Atholton makes a lot of sense as stated in the AAC draft plan. The school's outstanding performance in academics and extracurricular activities as it exists today needs to continue as a model for HCPSS.	The Feasibility Study asks way too many kids to move including 67% of Atholton High School students. That is too extreme, unnecessary, and unacceptable for a single high school. No other high school is being asked to change so dramatically.
1465		BonnieBranchMS		1	better than	7	4	6	this plan impacts us negatively, we've moved here in order to get our families and friends together. with this plan my kids will be unable to walk to school like we always hoped. the school assigned w this plan is more than 3 miles away. it makes no sense	better than	8	4	6		
1466		PatapscoMS	MtHebronHS	1	equal to	13				equal to					
1467	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1468		HammondMS		1	better than	9			The emphasis on "maintaining contiguous communities" appears to be code for allowing families from wealthier areas to avoid mingling with others. Howard Co. already struggles with unequal distribution among its schools; this only makes that worse.	better than	9			There is no legitimate reason why the zones for Atholton and Wilde Lake HS,Bonnie Branch MS, and Longfellow, Duckett's Lane, Bellows, Gorman Crossing, and Fulton ES are discontinuous. This is clearly designed to unfairly benefit certain groups.	Not providing other options for response reasons shows how much this survey is slanted to yield a certain outcome.The feasibility study was a process; this "effort" appears to be little more than a thinly veiled attempt to hoard resources.
1469	ClemensCrossingES			1	better than	7	4	9	This plan significantly degrades current attendance areas, as it doesn't maintain contiguous communities. We are integrally connected to Clemens/Hickory Ridge community (common community center, childcare programs, etc.), and this plan would separate us.	equal to	7	4	9	This plan is equally bad to the feasibility study, as they both don't maintain our contiguous relationship to the Clemens/Hickory Ridge community. Moving us from Clemens ES would be extremely detrimental to our community and the associated children.	Both the original feasibility study and the new draft plan do not respect the policy of contiguous communities, as they would separate us from our community and town center (Hickory Ridge and Clemens) and the many associated common ties.
1470	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	1	4	7	The draft plan does not following the policy 6010 and draft plan does Not done by professional study. all the factor of the policy 6010 is not consider such as the bus routes, communities contiguous and etc	better than	1	4	10	Feasibility study is done by county professional and all the factors are consider in the study but draft are done by the volunteers they don't understand all the area cover in howard county. This is not right just look at the map and move attendane around	AAC members please consider policy 6010. Our kids safty is our #1 priority. Take a look at bus routes when move attendance around.
1471	HollifieldStationES	PatapscoMS	MtHebronHS	2	equal to	11	14	14		equal to	11	14	14		

1472	DeepRunES			4	worse than	2	7			better than	2				
1473			AtholtonHS	4	better than	2			Even in this new plan too many students are moved.	better than	10	9		New plan mostly keeps Atholton and Hammond intact. There was no credible reason to move 67% of the kids like the Feasilbity Study did.. Atholton is a model school and since it is not near the overcrowded schools it should be left alone.	Please let rising juniors stay. Even better would be to phase in so sophomores could stay if they wanted as well.
1474	HollifieldStationES			2	better than	4	6	8	Reference polygon 262: attempting to make a left hand turn out of The Orchards neighborhood is impossible in the morning. The light at 29 leads to long traffic lines. The Bethany Glen neighborhood will also increase traffic on 99, complicating any turns	equal to	11				
1475	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13	My middle and youngest children will go to a different school than the rest of our Dunloggin neighborhood. I also feel that once in a school you should not be moved until that level (high, middle or elementary) is finished.	better than	7	6	13	It seems like you are moving moving more students than in the feasibility study and disrupting more neighborhoods.	
1476	DeepRunES			1	better than	14				better than	14				
1477	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	2	8	Harms Valley Mede students: divides a close community in half, walkers to high will need to be bused to a school (largest proposed increase in relative distance to school), planned new HS as early as 2021 will likely shift these students back east.	better than	7	2	4	The families of students who are currently walkers to Mt. Hebron High school (proposed to be bused to Marriotts Ridge) comprise a large proportion of the volunteer support for the school. This will have devastating impacts for the school and community.	Given a proposed high school to be built to address capacity issues, the prudent approach would be to expedite those plans coupled with more moderate boundary shifts and maximizing current available capacity including use of modular classroom if necessary
1478	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	13	9	4	if the wild lake need students why move the current wild lake students to other school. This is against the policy 6010.	better than	4	9	7	The AAC Draft is not communities contiguous.	if the wild lake need students why move the current wild lake students to other school. This is against the policy 6010.
1479	DeepRunES	MayfieldWoodsMS	LongReachHS	1	better than	4	6	13		equal to	4	6	13		
1480		MurrayHillMS	AtholtonHS		better than	2			I strongly feel that only elementary kids should be redistricted at this time. Howard County redistricts way too frequently.	better than	9	10	1	Much better!!! Thank you for realizing that it was unfair and unequitable to destroy Atholton HS, especially when it was not over or under crowded and when it has good diversity. Only the minimal amount of redistricting should be done.	Redistricting for high schools and middle schools should be postponed. There was not enough planning or warning for a redistricting of this size. An interim superintendent should not be able to make such drastic changes.
1481	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	8	4	2	The AAC draft plan is even worse than current school plan because it increases a lot disparity issue by assigning rich areas to one concentrated school districts, eg glenleg and RHHS.	better than	7	4	2	The AAC draft plan tries to minimize the moving of Atholton high by sacrificing Wilde Lake district, which is so unfair. It even proposes to move a portion of affluent polygon areas to RHHS, therefore raise more population disparity issue among schools.	
1482	BellowsSpringES			5	equal to	7	4	6	The AAC draft plan appears to affect far fewer neighborhoods than the feasibility study proposal; for those it does affect, the moves would be minimally disruptive to students.	better than	4	6	10	The AAC draft plan appears to affect far fewer neighborhoods than the feasibility study proposal; for those it does affect, the moves would be minimally disruptive to students.	
1483		BurleighManorMS		1	better than	4	6	13	I believe that the home owners who have bought a house in the location specifically for the schools should not have to move, if people in polygon 97 and other polygons don't have to pay property tax or move . Plus, kids will be seperated from best friends	better than	4	13	7		Polygon 147 is severely affected.
1484	NorthfieldES			5	equal to	11	14	14		better than	7	9	4	We like this version of the plan much better, thank you!	
1485	GormanCrossingES		AtholtonHS	4	equal to					better than				Much better for the schools in the south which are not overcrowded such at Atholton. Please continue to Preserve Atholton if additional changes are made	Giving this a 4 because it is much improved over the Feasibility Study, but still has areas that don't make sense. It also still moves too many kids.
1486	NorthfieldES			5	equal to	4	14	14		better than	7	1	4		
1487	CradlerockES	LakeElkhornMS	OaklandMillsHS	1	better than	1	5	6		better than	13	1	1		Feasibility Study is better than AAC draft.
1488		MountViewMS	MarriottsRidgeHS		equal to	4			The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	better than	6			The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.
1489	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	4	13	Our family w/ 5 kids ages 7-16 moved into established Dunloggin community 2 yrs ago because we LOVE feel of Dunloggin community. This plan ridiculously splits up Dunloggin community. The driving commute to Wild Lake with traffic patterns would be awful	better than	7				

1490			RiverHillHS	1		6	7	4	Moving the children from Clarks Glen from Pointers Run Elementary is a very poor idea. PRES is the very definition of a neighborhood school to our kids, we are only a mile from the school, our kids can walk there & ride there bikes there to hang out with	better than	6	7	14	friends. They attend community events with neighbors. They then go to CMS & RHHS with their lifelong friends. To move them from a school that is the life of our community and just a stones throw away to a school that is almost 5 miles away is	heartbreaking. You will inflict longer bus rides on our children while removing them from their neighborhood school. A school they will drive past thousands of times during their childhoods and wonder why they aren't allowed to go there with there friends
1491	IlchesterES			5	equal to	6	14	11	The AAC plan keeps my current schools, which I like.	better than	6	13	14	The Feadibility study impacts me negatively and I do not like it at all.	
1492		BurleighManorMS		1	better than	7	2	4	The current AAC draft makes my child more time to travel to school and separate her from her current classmates/friends. It will also make her difficult to do school projects. This will significantly impact her school performance.	better than	2	4	7	We moved to this new community only for a year and half. The AAC draft is worse than the feasibility study because it will make more negative impacts on academic performance of my child.	AAC should have more meetings from communities to develop more balanced alternative for discussion.
1493		BurleighManorMS		1	better than	7	2	4	The current AAC draft makes my child more time to travel to school and separate her from her current classmates/friends. It will also make her difficult to do school projects. This will significantly impact her school performance.	better than	2	4	7	We moved to this new community only for a year and half. The AAC draft is worse than the feasibility study because it will make more negative impacts on academic performance of my child.	AAC should have more meetings from communities to develop more balanced alternative for discussion.
1494		DunlogginMS			equal to	11	14	14		better than	4	7	9		
1495	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	9	Current assigned school is much closer,no highways, Due to 108 can't walking or riding to cycle school.Developing depression and stress due detach from major school community and friends. Due to distance require classmate may unavailable for projects	better than	4	7	9	Current assigned school is much closer,no highways, Due to 108 can't walking or riding to cycle school.Developing depression and stress due detach from major school community and friends. Due to distance require classmate may unavailable for projects	
1496	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	9	13	You are splitting Dunloggin a small neighborhood right down the middle. This neighborhood has been one contiguous community since 1975. It is double the mileage away of two closer schools, Hebron and Centennial.	better than	7	4	9	There is considerable building of homes near the mall all of this will overcrowd WLHS. Not factoring this in. Will end up redistricting again.	Our neighborhood should be contiguous and remain a community and go to a school closer in range than one 8 miles away and not even in Ellicott City. The safety of our children with an extra commute as well as the demographics of the new school need to be
1497		FollyQuarterMS	RiverHillHS	1	better than	13			This redistricting will split my children between different high schools. We are closer to River Hill, and have always been there. One of my children has special needs, and separating her from her siblings will be devastating for her and her siblings.	equal to	13				
1498	DuckettsLaneES			1	better than	13			Polygon 33 should stay at DLES! DLES is a great school and all Howard Square parents bought their property to send their young kids to DLES. Please consider leaving us with DLES. We all don't want to change the school.	equal to	13			Polygon 33 should stay at DLES! DLES is a great school and all Howard Square parents bought their property to send their young kids to DLES. Please consider leaving us with DLES. We all don't want to change the school.	Polygon 33 should stay at DLES! DLES is a great school and all Howard Square parents bought their property to send their young kids to DLES. Please consider leaving us with DLES. 1503	BellowsSpringES			1	better than	13				equal to	13				
1504	NorthfieldES			1	better than	7	6	4	While the AAC draft plan wouldn't change our current school attendance areas, it is basically tearing up the very tight knit long standing Dunloggin community. Friendships formed during the elementary and middle school years will be impacted.	better than	7	6	4	same as above.	Please revise this draft plan to keep the Dunloggin community together! In addition to the social impact of this proposed change, people's property values will decline due to the county's socioeconomic engineering.
1505	PointersRunES			1	better than	6	1	3	Planned poorly	better than	1	3	7	Planned poorly and doesn't make sense	
1506			HowardHS	1	better than	13	13	13	Most parents who are homeowners buy houses based upon which school these houses will attend. We expect it to stay that way. Not change when their child is on their senior year and has made many close friends at their current school.	better than	14	14	14		
1507			HowardHS		better than	6	7			better than	6	10			
1508	ManorWoodsES	MountViewMS	MarriottsRidgeHS		equal to	6	9	1		better than	6	12	4		
1509	DuckettsLaneES	ThomasViaductMS	LongReachHS	1	better than	13			I bought a house based on the school they were suppose to go to. Now they wanna rearrange the whole school district that's no fair at all. They should let people know that.	better than					
1510	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	13		better than	7	6	13		

1511	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	11				better than	13					I was happy to see that the feasibility study brought the River Hill community together but now the draft plan divides it up completely again. This loses friendships throughout the years. Keep the River Hill community together.
1512	TriadelphiaRidgeES	FollyQuarterMS		5	worse than	7	4	6	I LIKE the AAC draft plan. Also, I LIKE the current school attendance areas as is" with no changes. I DO NOT LIKE the original feasibility study plan and it's proposed changes as they very negatively impact our family for a variety of reasons."	better than	7	6	4	I strongly LIKE the AAC draft plan. I dislike the original Feasibility Study. I have a child at Triadelphia Ridge and one at Folly Quarter. Feasibility Study would move my TRES child, causing problems with transportation and current reading specialist	I strongly LIKE the AAC draft plan because it keeps my child at same school (TRES) where he's doing excellent. It's closer to home, keeps our community together, keeps him with same reading specialist, keeps kids together for middle school transition.
1513		DunloggінMS	CentennialHS	1	better than	6	7	9	This plan would impact our neighborhood significantly; the line is drawn arbitrarily through an established neighborhood	better than	7	6	9	This will impact everyone in our established neighborhood, not just families with school-age children	There has to be a better way to look at the population and keep neighborhoods together, to look at the elementary and middle school feeders. This latest plan is absurd, and doesn't consider natural boundaries at all.
1514			CentennialHS	1	better than	7	6	4	This plan breaks up what has traditionally been a very cohesive neighborhood. We carpool for school activities and sports. This would put an undo burden on us for transportation. In addition we moved to this neighborhood for the close community feel.						
1515	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6	7	13	It is not fair to families who bought homes to go to a specific school. My child has been attending schools with multiple friends and every time redistricting occurs the affect it has on a child is not considered!		9	8	7		
1516		BurleighManorMS		1	better than	3	4	7	The current AAC draft will negatively impact my child's school performance and social activity.	better than	3	4	7		AAC should develop more balance proposals.
1517		BurleighManorMS		1	better than	3	4	7	The current AAC draft will negatively impact my child's school performance and social activity.	better than	3	4	7		AAC should develop more balance proposals.
1518			HowardHS	5	equal to	4	6			better than	4	6		The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county
1519		HammondMS	HammondHS	1	better than	2			The creation of an isolated island to attend WLHS is unacceptable. The fastest route to school would be a highway (29) and there are 3 closer schools, Hammond, OMHS and AHS. This must be changed.						
1520	PointersRunES			1	better than	6	3	2	Not a fan of the AAC draft	better than	1	7	6	The HCPSS plan makes more sense	
1521	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	5	6	13		better than	4	7	3	It is obvious that favoritism is being given to builders at the expense of long time residents who have donated their time and money to their neighborhood schools and their children. Disgusting!	A 45 min bus ride will take away hrs of sleeping/eating/homework etc and expose kids to additional danger.The additional 45 minute commute will be impossible for working parents. My kids will no longer be able to attend pre and after school activities
1522	FultonES	LimeKilnMS	ReservoirHS	2	equal to	4	7	6	This plan has no impact on my child, however, I question the movement of the polygon across the street from Fulton - since all of those homes which are about to be built are going to be walkers. Why would pay for buses when these kids can walk?	better than	4	3	7	If Howard County is truly committed to creating a feeder system and maintain neighborhoods, you need to stop doing what has been done in the past. My kids lost 65% of their fulton classmates 3 years ago, and I wouldn't wish that on anyone.	The problem is the need for schools to be built on the east side. We knew this years ago. Why can't you accelerate these buildings? With the growth in Fulton, Reservoir is not going to be able to accommodate the east side. Is there a plan for this?
1523	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs, such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for student health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1524			AtholtonHS	5	equal to	11	11	4	The AAC maintains the status quo and allows the children to continue his studies and activities. For many years community residents have been attending AHS and a relationship has been established between this community and AHS.	better than	8	3	6	The Feasibility study is disruptive to the children and will negatively impact the continuance of school and other activities that are will entrenched in the community and the school.	The intent should be to least disrupt the lives of the children and their families by not imposing drastic changes that will undoubtedly impact all of us.

1525	HammondES	HammondMS	AtholtonHS	5	worse than	9	6	1	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The amazing advance over the years in academics & extracurricular activities, with the existing student demographics, needs to continue as a model for other schools.	better than	7	6	9	The FStudy moved an extremely large amt of student. Taking out 67% of Atholton HS students. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan. AHS is an excellent school.	Let 11th graders stay. 11th grade is so important. It's their final shot at impressing colleges. By their senior year with applying for colleges by 10/1 impressing colleges is all over.
1526	LongfellowES		WildeLakeHS	1	better than	7	4	8	No pressing need to address HS in this plan. Should wait until HS #13 is available. Going to move students now and then have to do this same drill again once HS #13 is open. This plan is extremely disruptive to WLHS.	better than	7	4	8	No pressing need to address HS in this plan. Should wait until HS #13 is available. Going to move students now and then have to do this same drill again once HS #13 is open. This plan is extremely disruptive to WLHS.	
1527	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	5	6		better than	4	5	6		
1528	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	4	1	Negative impact on Polygon and impractical and inefficient proposal by AAC: 1. Community stability: move our children twice within two years; 2. Much longer bus travel time; 3. Much worse traffic at the intersection of 108 and Columbia road;	better than	7	4	2	The AAC draft plan destroys the whole wilde lake district into several pieces, creating more significant disparities by assigning rich communities together to RHHS and Glenleg. Its plan on Centennial district is much worse than the Feasibility Plan.	
1529			HammondHS	1	better than	13	13	13		better than	13	13	13		Who writes and produces these documents? My belief is you make this unnecessarily complicated. Why in the world would you require a child who can currently walk to a school bus to another? Crazy!!
1530	FultonES	LimeKilnMS	ReservoirHS	5	worse than	10	1	7	Am very pleased that the shifts recommended for Fulton alleviate projected over-crowding to FES and that the new development of Maple Lawn South (112, 1112, 2112) will be shifting out of FES to Pointers Run Elementary.	better than	1	10		VERY happy that the over-crowding at FES was finally addressed. Strongly in favor of shifting new developments (112, 1112, 2112) to Pointers Run Elementary.	
1531		BonnieBranchMS			equal to	14	14	14		equal to	14	14	14		
1532	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7			keep polygon 147 at Centennial Lane ES, Burleigh Manor MS, Centennial HS keep 177, 1177, 142 at Wild Lake ES, Wild Lake HS	better than					
1533	CentennialLaneES			1	better than	9	4	13		better than	4	7	13		Longer distance Poor efficiency of proposed Schools Huge financial burden on parents - paid high premium for current living situation
1534			CentennialHS	1	better than	7	4	6		equal to	7	6	4

1536	CentennialLaneES			1	better than	8	4	9	I live in polygon 147. Most of the kids in 147 just moved here from other states/schools in the past 1-2 years. Eg, my son has just settled at CLES and made new friends. He will be tremendously unhappy if he has to move again to a new school soon.	better than	8	4	9	Our neighborhood in 147 is named Centennial Overlook. Thus 147 naturally belongs to and should stay in the Centennial community, instead of being moved to a disconnected community with schools more than double the current transportation distance from us.	Most of the kids in 147 just moved here from other states/schools in the past 1-2 years. My son has just settled at CLES and made new friends there. He will become unhappy and substantially negatively impacted if he has to move again to a new school soon.
1537	IlchesterES		HowardHS	5	worse than	7	10	9	This plan improves the utilization at Howard High.	better than	7	10	4	This plan does not move as many students as the Feasibility Study, but achieves similar results. This plan maintains a more continguous attendance areas for Howard High.	Polygons 95, 1095, 2095, and 84 fully support the new AAC draft plan. This plan is superior to the Feasibility Study because it maintains a more contiguous attendance area for Howard High and keeps students < 1 mile from Howard High at the school.
1538			OaklandMillsHS	4	worse than	1	2	5	No plan is going to make everyone happy. You have to do what is best for the community overall.	equal to	10	9	14		
1539	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	10	1	14		better than	6	7	8		
1540		HarpersChoiceMS	WildeLakeHS	1	better than	9	13	14	The proposed plan takes many upper-middle class families out of Wilde Lake and Long Reach to reassign them to schools who already have a wealthier population creating an even larger disparity between the haves and the have nots than already exists in HoCo	better than	13			While any redistricting of students will have an impact (frequently negative) on the individual student, redistricting this many students will effectively destroy the culture at all involved schools.	Many schools are working on creating and implementing programs to address the unique needs of their student population and community. Redistricting this many students will render those positive programs meaningless by totally changing the population.
1541		ElkridgeLandingMS		4	worse than	6	1	4		better than	6	7	14		My #1 preference would be the construction of new High School in the Elkridge area in the immediate future... but that does not seem to be happening at this point. I DO like the fact that the feed from ELMS to LRHS/HHS seems to balancing out more!
1542	StJohnsLaneES	PatapscoMS		1	better than	7	6	8	Please ensure the Valley Mede neighborhood remains unified - and not fractured in half in this AAC draft plan - with all neighborhood children ultimately attending our neighborhood schools - St. John's Lane ES, Patapsco MS and Mount Hebron HS.	better than	6	7	8	Under the current 2017 study, Valley Mede is slated to be split in half, tearing apart longtime student and family friendships and ties. Keep polygons 159 & 1159 within Valley Mede-Mount Hebron HS & begin the Marriotts Ridge HS feed line at #164, #1164	Under this current proposal, we lose what makes Valley Mede (VM) a great neighborhood. I urge the AAC retain VM's historic, well-defined neighborhood & its longtime feeds to Mount Hebron HS, while making needed polygon adjustments further western county

1543	ThunderHillES			1	better than	4	3	13	Polygons 65, 1065 & 2065 walk to Howard HS. Walkers reduce operating costs (fiscally responsible in line w/ policy 6010). Adding buses means less money for other things such as HS#13.	better than	4	3	13	Polygons 65, 1065 & 2065 walk to Howard HS. Walking to school is good for students' health and fosters a sense of belonging to one's community. Also means fewer teen drivers & thus fewer accidents.	Polygons 56, 165 & 2065 shld remain at a MS that feeds to Howard HS. The proposed changes don't provide a long-term solution (only having HS#13 will), as overcrowding will only shuffle from one HS to another.
1544	BryantWoodsES			1	better than	7	7	7	I have lived in The Dunloggin development for 43 years and have paid over $2000 for Education Taxes each year with my property taxes. I don't live in Columbia and feel I should not have to deal with Wild Lake HS & the crime reputation they have. .	better than	7	3	3	The redistricting is forcing people to accept something they did now want. It is undemocratic. If this is done, they we should have a say in NOT paying for education if it is going to lower our neighborhood's standards and harm our children's socially.	I live here and pay higher taxes to avoid crime and have our children not be influenced by others who commit a higher rate of crime. Centenial vs Wild Lake.
1545	GormanCrossingES			5	equal to	6	7	12		better than	6	7	3		
1546	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	4	1	2	I paid a lot of money to have my kids attend HOWARD HIGH, not Long Reach. This will devalue my property and cause me to want to move.	better than	1	2	3	Same as above - I bought a house to get into Howard High, I want Howard High.	
1547		BonnieBranchMS		5	equal to	4	6	14		equal to	4	6	14		This survey is extremely difficult to understand, it could been made easier to understand.

1549			CentennialHS	1	better than	7	6	10	I have been a resident of Dunloggin all my life. Splitting up the neighbourhood into 2 sections to attend 2 different high schools is just not acceptable. This is a well established community. Homes are purchased for stable schools & neighbourhoods.	better than	7	10	6		
1550	DaytonOaksES	LimeKilnMS	RiverHillHS	1	better than	12	7	4		better than	12	7	4		
1551	NorthfieldES			1	better than	4				better than	4				
1552	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	10	8	1	Feasibility study moves 951 students out of the Atholton High School, which represents about 65% of the total student body. Current AAC Draft Plan preserves most part of the Atholton high school, which can help to continue the excellence of Atholton.	better than	9	7	2	Current ethnic composition of the student population at Atholton High is closely aligned with the countywide average. Feasibility Study creates ethnic composition significantly different from this average. AAC Draft Plan better addresses this issue.	AAC Draft Plan is much better than Feasibility Study from many aspects based on Policy 6010.
1553	GormanCrossingES			1	better than	13	9	7	our gorman crossing children have been attending pre K since 3 years old. Moving established Gorman Crossing elementary school kids to Laurel woods is a poor idea. consider moving the new kids in the new devolopments instead	better than	9	7	7	our gorman crossing children have been attending pre K since 3 years old. Moving established Gorman Crossing elementary school kids to Laurel woods is a poor idea. consider moving the new kids in the new devolopments instead	our four streets of Cresthill, castlerock, ashbury; and evermore have had established students at Gorman crossing for many years. THere is new development up the street that should be sent to laurel woods, NOT our established community..
1554	ThunderHillES			1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1555	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	7	9	6		better than	7	6	13		
1556	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	9	Under AAC draft, the travel distance for the students will increase as high as 350% and 171 students of school year 2018-2019 will be impacted.	better than	4	7	9	what drives the dramatic changes between the AAC draft scenarios and the Feasibility Study? The previous centered around Atholton HS while this draft centers around WildeLake, why?	The AAC draft does not provide enough information on how the moves better solve the over capacity of certain schools and address the impact on communities and neighborhoods.
1557			AtholtonHS	5	worse than	1	9	2		better than	1	2	9		
1558	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	3	4	AAC draft does not see to take Policy 6010 into consideration when drafting the new scenarios in terms of facility utilization, community stability, Demographic Characteristics of Student Population.	better than	3	4	8	If the study was well thought and conducted, its recommendation should have high level of validity. What drives AAC to totally discard the recommendations from Feasibility Study? Based on rational, fair, impartial analysis, or personal opinion?	As the school attendance map shows, our community locates in Ellicott City while all the proposed schools locate in Columbia. Our neighborhood is not in the adjacent neighborhoods of the schools.
1559															Please make sure that boundary change considerations take into account that Clarksville Elementary is about to become an ALS regional school, which will decrease our total student capacity from the amount shown in the school feasibility study. Thank you!
1560	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	5	6	13	I bought my house because it specifically was in the Howard High School area. This change will negatively affect my military family's ability to resell our home. Our children will not have an ROTC program at long reach high.	better than	5	6	13	I bought my home because it was in the area for Howard high. Long Reach High does not have an ROTC program. Re zoning to long reach high will kill the property value of my home. As military, I'll lose my $ when I sell	If you make this change, you better be prepared to make Long Reach the best high school in your school district. You're also going to need an ROTC program. Wouldn't it make more sense to build a new school rather than killing everyone's home resale value?

1561	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13	6	7	This plan makes no sense, it seems to isolate certain students due to the shape of said polygons, specifically 3150, where odds are most people that they know will be leaving them. There are a couple kids in the polygon that have suffered from depression.	better than	13	2	4	I have to disagree with the AAC plan because it is so dangerous for those who are on the line of the district. If any kids in that area suffer from a disability that makes it hard for them to interact with other people those kids will struggle in HS.	I again have to disagree with this plan, mostly because as someone who's kid has gone to the so-called over-capacity" schools it seems that the kids don't struggle with the amount of people it simply just results in crowded hallways but nothing more."
1562			RiverHillHS	1	better than	13	9	13	With regards to my address this plan is ridiculous. We PURCHASED our home in 2016 at a PREMIUM price and CHOSE it specifically so that our son would attend River Hill HS due to it's NATIONAL ranking- this plan is not equivalent academically	equal to	13	13	13		As a military family with access to the internet we move often and chose very carefully and specifically where were we want to purchase a home- not just Howard County, but a specific school for specific reasons. This plan is truly unfair to our student!
1563	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	9	3	The schools that AAC draft proposed to move our neighborhood to have dramatically lower academic performance than our current schools. This disparity is unfair to the students who are already in the current schools.	better than	9	4	5	some of the adjacent neighborhood of these schools are in these schools but will be moved out under AAC draft, or they are in schools that are not in their neighborhoods.	Not counting the income taxes that we pay to Howard County, the property tax alone paid by our neighborhood can be close to $1 million a year. AAC draft makes us feel that we are the victims of "taxation without representation".
1564	ThunderHillES	ElliottMillsMS	HowardHS	1	better than	4	6	3		better than	4	13	3	Polygons 65, 1065, and 2065 currently walk to Howard HS. This is the environmentally appropriate thing, and save the school system on transportation. It also benefits the health and safety of the students.	Polygons 65, 1065, and 2065 should remain at a middle school which feeds into Howard HS, as they are less than a mile's walk from Howard. It does not make sense to move students from a high school they can walk to to one where they must be bussed.
1565			AtholtonHS	4	worse than	7				better than	7				
1566	WaverlyES			5	worse than	6	7	14	The new plan proposed would allow my sons to finish their primary education at Waverly Elementary and then move to Mt. View and Marriots Ridge to stay with their friends and classmates.	better than	6	7		The Feasibility study would have moved my children to St. Johns Lane when Waverly is closer to our home and had them change schools when they are now settling in to being in school and making friends.	I think the AAC draft plan is far better than the feasibility study as there were 106 children in my polygone that would have been affected.
1567	HollifieldStationES			4	worse than	7	6		The AAC plans keeps my kids in the same elementary school and changes their middle school. The Feasibility will alter both schools form my child.	better than	4	6	7		
1568	AtholtonES			1	better than	7	13	9	We have bought our house in anticipation of a certain school system and specific types of students. The need to fill the western schools that were built without proper surveying and planning should not impact our students and our schooling.	equal to	9	6	7		
1569	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	better than	9	6	7		better than	9	6	6		
1570	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	13	Due to the weird shapes of the polygon division my kids would go to a different school than their friends and neighbors in high school which makes little to no sense, if the plan continues I believe you should move polygon 3105 to Wild Lake.	better than	13	6	7	I am on board with the Feasibility Study and would not object to that plan, however the AAC plan divides up our neighborhood poorly and could effect how our children react socially in high school, which I am worried could impact them later in life.	I would appreciate it if we were allowed to pick which high school our children attended so that we could pick based on our child's strength and the coordinating schools so that they would have an easier time picking courses and colleges in the future.
1571	PointersRunES			1	equal to	4	6	7	Polygon 118 needs to stay at Pointers Run. We are 1.6 miles from the school. Changing our commute by over 400% is unacceptable. Also such a small # of kids changing in our grid adds to difficulties with transition. Keep 118 at PRES!!!!	equal to	4	6	7	No change even though we have voiced our opinion of disapproval.	I sent a letter with this information plus many more additional facts as to why polygon 118 needs to stay at Pointers Run ES. Please, please listen and adjust this. For the sake of our children!!!!
1572	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	5	6	13	This new proposed draft is not as good as the original one	better than	4	7	6	This plan is not as effective as the original	Clarksville zip code should be the base for all Clarksville middle and river hill students.
1573			CentennialHS	1	better than	6			The whole environmental change the student has to experience can be traumatizing because there is a change of after-school activities including sports and clubs. Also, there is a change of the entire student body so they will have to start over.	better than	7			My child is not wanting to change schools because the new school will feel uncomfortable for her since she's already been getting familiar with her current school.	
1574	CentennialLaneES			1	better than	7	4	13	The current AAC draft plan is inconsiderate for maintaining contiguous communities or neighborhoods. Specifically, I oppose to the proposed school re-districting for polygon 147 for community stability, facility utilization, risk for school kids and other	better than	7	6	8	The current AAC draft plan is inconsiderate for maintaining contiguous communities or neighborhoods. Specifically, I oppose to the proposed school re-districting for polygon 147 for community stability, facility utilization, risk for school kids and other	
1575	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	7	4	8		better than	4	7	8		
1576	NorthfieldES			1	better than	7	4	9	The AAC draft plan arbitrarily divides the neighborhood for high school. Under this plan, children who literally live across the street from one another will attend different high schools. It also sends some children to a h.s. that is further away.	better than	7	4	9	The Feasibility study wisely planned for our neighborhood to continue to attend a single high school which is the h.s. closest to the neighborhood, while the AAC draft arbitrarily divides the neighborhood into two schools, one of which is further away.	In my opinion, it is absolutely crazy to take a single neighborhood with clearly defined boundaries and to send children in the neighborhood to two different high schools, one of which is significantly further away than the other.

1577	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6	1	4	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES and allows Polygon 2095 to remain less than 1 mile from Howard HS.	better than	1	4	6	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.	
1578			AtholtonHS	1	better than	2	6	1		better than	6	3	3			
1579	HammondES	HammondMS	AtholtonHS	4	worse than	9			I'm still concerned about the amount of redistricting events that need to occur in a students academic career. EVEN the for the students who do not move...the redistricting impacts them tremendously.	better than	7	10	8	Less total HS students being re-assigned is a good thing...>AND happy that Atholton HS is less dramatically impacted (however still, affected).	
1580		ElkridgeLandingMS	HowardHS	1	better than	6	7	13		better than	6	7	13			
1581			CentennialHS	1	better than	1	4		This proposal will do little other than divide a longstanding, established and cohesive community of people. My child is currently enrolled in a program that does not even exist at the proposed school -- what is the solution there?	better than	1			The feasibility study as initially proposed provides a far more logically designed boundary map for alleviating overcrowding and making use of schools currently under capacity such as Mariotts Ridge HS while leaving in tact the Dunloggin community.	This community has been a cohesive body for close to 100 years and the AAC draft would literally divide neighbors from one house to the next, tragically turning the neighborhood into a grid of divisiveness.
1582			AtholtonHS		equal to	10	8	6	I think it is equal to the current school attendance areas because it keeps the majority of the school together and only moves a few communities in each school district.	better than	4	7	10	The ACC plan keeps the majority of current students in their current school, while still moving some communities in each school district. The Feasibility Study plans to remove 67% of a Atholton's Students, which is absurd. The ACC plan does not move 67%.	The Feasibility study plan is absurd in moving 67% of Atholton's population. This creates such a distraction for the students who have to make all new friends, and for the seniors who have to start off the year without many of their friends.
1583	WestFriendshipES			1	better than	4	7	13	Current school is a less than 5 minute drive from our house. Draft plan moves us more than 15 minute drive away. Very concerned about travel time.	better than	4	6	12	I can tolerate change to Elementary schools. AAC changes middle and high schools as well - all long distances to travel for my family.	I object to any plan that long-term keeps my child on school buses for excessive amounts of time. We live within 3 miles of an ES, MS, and HS, yet we will be moved to schools significantly farther away.
1584			MarriottsRidgeHS	4	equal to	6	4	7		better than	5	4	6	The feasibility study was horrendous		
1585			AtholtonHS	5	worse than	6	4	10	I am extremely happy with this plan. My child suffered a lot when his friends separated at MS. He had no friends in IX grade and he was truly unhappy. The distance is a consideration for us. I think the area children would be closer now.	better than	6	1	7	I am deeply upset with the fact that my polygon was pulled out arbitrarily. I am opposed to the AAC Draft Plan.	The feasibility study plan was the result of long range study and research. The AAC draft plan is one of short term interest groups doing their own private concerns instead of looking out for the long term good of the community.
1586	ElkridgeES			1	better than	7	9	13	I purchased my home to ensure my children go to Howard Highschool. If I wanted my children to go to Long Reach, I would moved to that part of Howard County. I have family and friends that has frequent and specific problems with Long Reach.	better than	14				I purchased my home to ensure my children go to Howard Highschool. If I wanted my children to go to Long Reach, I would moved to that part of Howard County. I have family and friends that has frequent and specific problems with Long Reach.
1587	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		Thank you very much for the hardwork that you are putting into this. I also appreciate your willingness to listen to community members.
1588			HowardHS	1	better than	7	6	2	You are dividing an entire small community.	better than	6	7	2	Feasibility was better plan. The ACC is literally dividing neighborhoods.		
1589	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	11	11	11		better than	4	7	6			
1590	IlchesterES	BonnieBranchMS	HowardHS	4	equal to	6	7	12	This plan appears to minimally affect our community.	better than	6	7	14	The feasibility study would split my children from their friends and cause a divided community for planning polygons 95, 1095, 2095, 84. The draft plan keeps these together with the surrounding community.	Please do not redistrict planning polygons 95, 1095, 2095, and 84.
1591	GormanCrossingES			3	better than	4	6	7	The new Maple Lawn South neighborhood should go to Fulton ES since it is right across the street and kids can walk. No transportation costs here. It is silly to me to send them somewhere else.	equal to	4	6	7	I appreciate you keeping the Emerson neighborhood going to Atholton instead of redistricting to Hammond High. However, I don't think it's fair to make kids in the Maple Lawn South neighborhood go to another school with Fulton ES is right across the street	In thinking about moving to Maple Lawn South, a huge negative would be having to send our daughter to a different elementary school other than the one within walking distance and right across the street from our new home.
1592	CentennialLaneES	ClarksvilleMS	CentennialHS	1	better than	4	7	9	My comments are regarding 147 redistrict. This redistricting is targeted attach on a new community. This effectively will ruin the community. This move is suggested by Font Hill community, who are not residence on area 147. Please cancel the redistrict.	better than	4	7	7	In the previous feasibility study there was no mention of moving this polygon, I guess the Font Hill Neighborhood" did not like new development. So a new study to justify the rezoning."	Please stop redistricting of polygon 147. Astoundingly this acc justifies CLES to Longfellow which 4 miles away, un-continuous, lower grade scores. Same goes for Burleigh manor to Wild Lake MS and CLHS to Wild Lake HS.
1593			MtHebronHS	1	better than	4	3	8	This new plan would not result in anything positive, specially for the polygons that have been bounced back-and-forth and back-and-forth three times in the last 11 years. Current walkers would be unable to participate in sports and other activities.						These poor polygons have been bounced around back-and-forth while polygons 15 minutes away are still slated to go to Mount Hebron. This new plan is not just unwise but a real burden on kids who already moved once!! Wait until the high school is built.

1594	NorthfieldES	DunlogginMS	WildeLakeHS	4	equal to	6	8	9	This plan moves relieves some overcrowding issues and seems to keep feeds the same or stronger for neighborhoods (i.e., kids not moving creating smaller feeds and if moving- moving with a feed that already exists for a lot).	better than	6	8	10	The feasibility study uprooted far more students at a glance. This plan looks to create stronger feeds overall and where moves are necessary- keeping them within existing feeds.	I believe this is still a bandaid on a much bigger issue. I also wonder if in the draft plan the if polygons 214, 1154, 154, and 2154 could remain at Centennial instead or if numbers are low enough a slow feed to marriotts ridge could be considered.
1595	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	7	4	8	1.In the draft plan, the proposed ES, MS and HS in polygon#147 are far from #147 than current school. 2.The draft plan did not maintain contiguous communities for polygon #147. Most neighborhoods still go to centennial school district, only #147 changed.	better than	8	3	3	Too many changes in the AAC draft plan. Many students will be impacted. Some of them just moved in the the county and the draft plan will make them change their school again within very short time.	For kids, giving them a stable school life is very important. The less change the better. Please reconsider school redistricting and try to minimum any impacts. Thank you. Parents of three little kids.
1596	VeteransES			3	better than	7	6	4	Moving students within a neighborhood to different schools (splitting the neighborhood), not only disrupts the community but also causes more traffic and increased safety concern with the number of additional school buses	better than	4	6	7		
1597	ClarksvilleES	ClarksvilleMS	AtholtonHS	1	better than	14	14	10		better than	14	14	14		
1598		EllicottMillsMS			better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	4	2	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1599			CentennialHS	1	better than	6	4	13		equal to	13	6	5		I feel like the current school attendance area is way better than the AAC draft plan. I live in Polygon 2154 and our community does not like this plan. I would have to start my academic, club, and sport life again if I have to transfer to Marriott's.
1600	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	4	7	14		better than	4	7	14		
1601	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	8			Keep polygon 147 at CE ES, BM MS, CE HS						
1602	WaverlyES			5	worse than	6	2			better than					
1603	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	4	7		better than	6	4	7		
1604	WaterlooES	EllicottMillsMS		5	worse than	7	1		I like the latest version of draft plan because it keeps most communities intact. It doesn't affect some neighborhoods, but it is inevitable.	better than	10	1		This new plan is SO MUCH better than the initial plan. It avoids moving large number of students, particularly from the same schools. It's a more cautious and humane plan. Thanks for listening to people's voices while doing a very difficult job.	
1605	FultonES			4	worse than	1	6	12							
1606	GormanCrossingES	MurrayHillMS		5	equal to	11				better than	1	9			
1607	ThunderHillES			1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1608		BonnieBranchMS	HowardHS	5	worse than	6	6	6		better than	6	6	6		
1609			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1610	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	6	7	Walkers are directed to a school 10 miles away and it splits neighborhoods in half between schools. Neighbors will be sent to different schools. Wtf.	better than	4	6	7	Both bad. Walkers are redistricted. Neighborhoods are split. Just let people be. Move the people furthest from the schools.	LEAVE EVERYTHING AS IS! Don't split up valley Mede, leave hebron walkers at Hebron, and leave waverly students there. AND PLEASE CONDSIDER ALL THE FEEDBACK
1611				5	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1612	NorthfieldES			1	better than	7	6	10	The AAC draft plan does not take into consideration communities! By breaking up the same community to feed into different schools, the AAC is intentionally drawing boundaries, segregating families and breaking up years of community building.	better than	7	6	10		

1613	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	6	4	7	Moving polygon 1189 from PRES to Dayton Oaks ES is unjustified. 1189 is within two minutes drive to PRES, while depending on if taking on the part of highway 32 without separation for two-way traffic, it will take 9-12 min to DOES.	equal to					
1614	HollifieldStationES			5	worse than	1	12			better than	7	6			
1615	RockburnES	BonnieBranchMS	HowardHS	3	equal to	6	6	6	Polygon 91 is less than a 1/4 of mile from Bonnie Branch and Ilchester. Keep polygon at Bonnie Branch MS and move them from Rockburn ES to Ilchester ES to avoid the small feed from elementary school to middle school.	equal to					
1616	NorthfieldES			1	better than	6	7			better than	6	7			In looking at the proposed map to feed into CHS and WLHS there is a BIG arch skipping over Dunloggin. Please keep communities feeding into the schools that are closest to them without skipping over communities.
1617	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	2	No community should be divided arbitrarily. When possible use natural boundaries. My community of St. Johns/Dunloggin is a tight knit community where splitting the children with no natural boundary does not make sense.	better than	7	6	2	No community should be divided arbitrarily. When possible use natural boundaries. Don't continue to make arbitrary school boundaries. If redistricting is needed do it correctly ONCE even if it means disrupting a massive number of students.	
1618			CentennialHS	1	better than	7	4	6		equal to	6	4	7		Please let the juniors and senior attend the same school until they graduates.
1619			WildeLakeHS		worse than	9				better than	9				
1620	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	10	11	11		equal to	14	14	14		
1621			LongReachHS	5	worse than	1	12	14	Very important to reduce number of students at schools over capacity						
1622	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1623	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	better than	4	7	9	Now we have to switch both elementary schools and high schools. We literally pass 2 high schools to get to the one in this plan.	better than	4	7	9	In this study my child stays at one high school and then switches. Any plan where we switch high schools in an abomination	Why are you making my children spend sooo long on the bus? Why ate you removing them from the best schools to the worst schools in favor of new construction that hasn't even moved in yet? Don't we get priority? This is an awful plan.
1624	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	8	4	I am very concerned that the most recent proposed plan (8/9/17) (a) would split the well-established and tight-knit Dunloggin community and (b) likely require us to be moved AGAIN in the near future, away from WLHS, due to infill in downtown Columbia.	better than	7	8	4	Aspects of the Feasibility Study are problematic, e.g. polygon #153 to MRHS, some concentration of FARM recipients in Columbia schools, but I object to the recent plan based on the arguments cited above and below.	Population growth in downtown Columbia in the near future also leads to concerns about local traffic and the slightly longer distance we'd commute to/from WLHS relative to CHS. Worse Columbia traffic could choke accessibility from our area to WLHS.
1625				1	better than	7	6	10	The Dunloggin neighbourhood needs to remain together for same school attendance.	better than	7	6	10		
1626			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1627			HowardHS	5	equal to	6	8	7	I had no problem with the current school attendance areas. The draft plan maintains contiguous neighborhoods that go through Rockburn ES, Elkridge Landing MS, and Howard HS. My polygon was moved from Bonnie Branch MS to Elkridge Landing MS in 2014.	better than	8	6	7	The draft plan lessens the number of HS students being impacted, especially since there is no HS 13 yet. It allows my junior (class of 2020) to remain at Howard, happy to deal with the overcrowding, rather than being redistricted twice in 4 years.	Until a new HS is built in E. Howard County, it made no sense to me to uproot children to move from one crowded HS (Howard) to another (Long Reach). If 110-115%capacity is acceptable per policy, then I'd rather stay put at the HS I know.
1628	ManorWoodsES			4	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1629	AtholtonES			1	better than	4	7	9	The entire reason we decided to leave in this area was because of the school districts.	better than	4	7	9	The entire reason we decided to leave in this area was because of the school districts.	
1630			RiverHillHS	3	equal to	1				equal to					I would like seniors and juniors to have the option to stay in their school.
1631	LongfellowES	HarpersChoiceMS	WildeLakeHS	4	equal to	12				better than	7	12	9		

1632	ManorWoodsES				equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1633	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6			places Dunloggin Community students geographically distant from home, divides neighborhood students even within one street due to very small size of polygon, makes regional activities more difficult to support/attend	better than	1				See above
1634	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	Polygons 150, 1150 and 4150 are part of the Dunloggin community and students attend the same ES and MS. The proposed plan to move these polygons to WildeLakeHS will split the community. There is also no direct road access to WildeLakeHS from these areas.	better than	7	4	6	Feasibility study had Polygons 150,1150 and 4150 assigned to Centennial HS. This latest draft proposed redistricting them to WildelakeHS, doubling the travel distance to school. Centennial is 4.5 miles versus Wilde lake which is 9 miles away.	This new proposal has no valid reasoning. It increases the drive time for HS children, affects home value by atleast $100,000 and all freshmen highschool students from Dunloggin community.
1635	NorthfieldES			4	worse than	6	9			better than	6	7			
1636	NorthfieldES	DunlogginMS		1	better than	7	2	6	Lack of long term planning on the part of the board should not result in breaking up villages and communities. It is time to initiate contruction/expansion projects now, not 5 years from now. This mistaken placement of Marriott's Ridge notwithstanding.	better than	6	4	7	At least the feasibility study showed some reason. The AAC plan generates gerrymander-like districting that makes no sense except from political pressure of Gray Rock and other areas. It will open the district to lawsuits.	
1637		ClarksvilleMS		1	better than	7	4			better than	4	6	7	Keep all the kids from Clarksville MS together and let them all go to RHHS, as the original HCPSS plan has it set up. There's no good reason for kids who live in River Hill close to RHHS to have to go all the way to Atholton,	I support all the houses in RH neighborhood going to RH highschool, that just makes logical sense given the proximity and that they all know each other from middle school and makes it easier on the parents who need to attend school functions.
1638	CentennialLaneES	ClarksvilleMS	RiverHillHS	1	better than	6	7	4		better than	1	6	7		
1639	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS			9	4	6	Shame on the School District and the AAC for completely disregarding the need to reintegrate our high schools. A few FARMS kids from Wilde Lake to River Hill replaced by many FARMS students from Oakland Mills. Stop the economic segregation!	better than	9	4	6	Both plans ignore that fact that in schools where more than 25% of the students come from poverty families, the success of the entire school declines. We have a chance to right past wrongs this time-let's do it!	Please, please break up the concentration of kids from poverty backgrounds in the Columbia schools. It is unfair to the students, to the teachers, and to the community.
1640	IlchesterES	BonnieBranchMS	HowardHS	5	worse than	6	4	7	Polygons 95,1095,2095 and 84 make up a contiguous neighborhood < 1mi from HHS (policy 6010 IV 1d). These polygons help make a more contiguous attendance area for HHHS (policy 6010 IV 2b); and Polygon 84 was already redistricted in 2013.	better than	6	4	7	Same as above	
1641			AtholtonHS	1	better than	6	13	7		better than	13	6	7		
1642				5	worse than	9	7			better than	9	10			
1643			WildeLakeHS	4	worse than	6	9	7	Positives: greater Dunloggin Middle School to Wilde Lake High School feed (reduces the island of Dorsey). More balance FARM rates (although I would like this reported - what are the HS FARM rates under the new plan?) Negative: Alot of change at the HS						Appreciate the hard work of the committee. Especially in considering balancing FARM rates at the HS level
1644	HammondES	HammondMS	AtholtonHS	5	worse than	1	6	9							
1645	AtholtonES			1	better than	9	4	6	This plan splits up friends and neighborhoods. I would like to see the new projected demographics that this change would make to the schools. Would love the demographics of schools to be more equal vs. good schools and bad schools.	better than	4	9			
1646			CentennialHS	1	better than	6	4	7	Tearing Dunloggin in half is not an option.	better than	10	9	2		
1647	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	7	4	The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	better than	6	7	4	The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	
1648	SwansfieldES	HarpersChoiceMS	WildeLakeHS	1	better than	1	4	9	This is a horrible plan. Why should kids bypass two walkable schools to go to River Hill?	better than	1	4	7	FS plan was better in that moves were not as disruptive to our community.	High schools should not be redistricted next year and no current high schooler should have to be affected by this. This should be a long range plan that should occur closer to the opening of the new eastern high school. It is not necessary at this time.
1649			RiverHillHS	5	equal to	11	4		The AAC plan would keep my son at his current high school. I do not want him to move.	better than	11	4		I much prefer the AAC draft plan to the Feasibility Study because it keeps my son at his current high school	

1650		BonnieBranchMS	HowardHS	5	worse than	4	6	2	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan do	better than	4	6	7	The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county until new schools can be built. The AAC Draft plan improves the feeds from elementary to middle and from middle to high school.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.
1651			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS
1652	NorthfieldES			1	better than	6	7	4		better than	6	7	8		
1653		EllicottMillsMS		1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1654	AtholtonES			2	worse than	4	6	7	My home is located on a high school district peninsula" when neighboring streets are in another district. Additionally the current high school is 4 miles away with a trip on 29."	better than	4	7	6	The Feasibility Study Plan geographically makes the most sense.	
1655	GormanCrossingES				better than	9	7	13	If the proposed plan goes into effect my child attend Laurel Woods ES which has average test scores of 57 compared to Gorman Crossing ES which has average test scores of 80. Based on that stats Gorman Crossing is the best choice for my child.	better than	9	7	13	If the proposed plan goes into effect my child attend Laurel Woods ES which has average test scores of 57 compared to Gorman Crossing ES which has average test scores of 80. Based on that stats Gorman Crossing is the best choice for my child.	If the proposed plan goes into effect my child attend Laurel Woods ES which has average test scores of 57 compared to Gorman Crossing ES which has average test scores of 80. Based on that stats Gorman Crossing is the best choice for my child.
1656			CentennialHS	1	better than	7	6	13	AAC polygons affects Dunloggin negatively by separating families with no community / neighborhood consideration. ACC alienates neighbors - destroys community commitment/investment - destroys student loyalty/relationships by dividing students @ HS	equal to	7	6	13	FS affects Dunloggin negatively by separating families with no community / neighborhood consideration. ACC alienates neighbors - destroys community commitment/investment - destroys student loyalty/relationships by dividing students @ HS	The Dunloggin neighborhood has made a long-term commitment socially and financially to promote a sense of family and community. AAC negatively affect this effort dividing areas with no consideration to neighborhood nor to the student/family investment.
1657			CentennialHS	1	better than	4	7	6		equal to	6	4	13		
1658	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	6	7	1		better than	6	7	1		
1659	ThunderHillES			1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1660		EllicottMillsMS		1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1661	FultonES			2	better than	9	12	14	RHS already has one of the larger FARMS numbers in the county. If you are going to move students out of that district, they should not be the wealthier families. At minimum the high FARMS schools should stay the same, if not decrease the percentage.	better than	9	12		The FS study plan at least tried to relieve some FARMS from the higher concentrated schools (though disproportionately hit AHS). This plan concentrates it even more. No school with 20% FARMS or greater should be increasing their numbers.	Obviously this is a tough proposition and no one will be completely happy with it but I think when we look back in however many years, we need to be able to say that we did not make any of the schools more concentrated with lower income students.
1662	WestFriendshipES				better than	4			Currently the distance to my daughters HS MRHS would be just 2.8 miles #2229 - changing to Glenelg would change to 7 miles. This would increase the cost of transportation for school system and our own budget. increase of risk for young drivers..						
1663			HowardHS	1	better than	6	7			better than	7				
1664			CentennialHS	1	better than	7	6	13	I'm in Polygon 2154 and I don't want my chid to be redistricted to Marriotts Ridge. The change in school isn't be good for my child as he needs to focus on his school work, after school activities, and sports and this isn't possible with the redistricting	better than	6	7	13	This plan is very bad because I do not want my kids to be changing schools between any grades in high school. This will help maintain a steady life as well as be more productive for my kids.	

1665			MarriottsRidgeHS	1	better than	13	1	4	Distance to proposed high school is triple the distance therefore longer commute much earlier waking time/late return home. Takes few students from established community and displaces. Social, emotional, academic disruption	better than	1	13		Unnecessarily moving few students from under capacity school to another. Academically hinders students by moving from high ranking to lower performing school. Negates purpose for purchasing home in assigned school area	
1666	FultonES				equal to	7	2			better than	7	2			
1667	HollifieldStationES	PatapscoMS	MtHebronHS	1	better than	4	7	9		better than	9	7	14		
1668			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1669	PointersRunES			2	better than	4	13	5	AS a working parent who relies on the on site before and after care programs, ever minute of the day counts, especially with traffic. To drop of or pick up my child at a school that is over 5 miles of slow back road will add considerable time.						
1670	HollifieldStationES			5	equal to	7	6	11		equal to	7	6	11		
1671		BonnieBranchMS	HowardHS	5	worse than	1	2	1	This does a much better job of minimizing the family impact of moving schools.	better than	1	2		Same as above. The fewer families that have to move schools to better	
1672		LakeElkhornMS	OaklandMillsHS	1	better than	7	13	4	I think to move the entire Cradlerock neighborhood to Wilde Lake HS is no better than sending them to Atholton HS.It is not about the high school they would attend, but the distance it is from our house and the ability of keeping neighborhoods together.	better than	4	6	7	You just changed the direction in which my children would go, but didn't change keeping communities together or the distance they would have to travel.	I would like my children to stay at Oakland Mills, period! It is the most logical school for them to attend. If number are too low at the school, add more, but don't take a whole neighborhood out.
1673	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	10	2	1	The ACC draft plan make use of the existing seats more efficiently.	better than	1	7	9	Thank ACC members take efforts to make things right : keep Athlton HS in an integrate school. The ACC draft plan reduced the numbers of students substantially, and is more fit to the 6010 policy.	The school redistriting is a very complex process. We need more time to consider every factor thoroughly. I would like my kids live in a relative steady environment.
1674	BushyParkES			2	equal to	7				equal to	14				
1675	ClarksvilleES	ClarksvilleMS	RiverHillHS		better than	2	4	6		better than	7	6	10		
1676	NorthfieldES	DunlogginMS	CentennialHS	1	better than	9	6	7		better than	7	6	13		
1677	ClemensCrossingES			1	better than	13	5	4	My zone, #66, has been with Clemens Crossing ES for many years. My children are in this school. All of their activities are, therefore, associated with this school and area. It will waste me much traffic time and cost me too much to move to another ES.	better than	4	5	13	The draft plan is just worst since it cause very huge and significant negative impact to my children ad whole family with Clemens Crossing ES.	
1678	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	3	4		better than	7	6	3	AAC plan didn't consider the contiguous community and neighborhood for the students who will go to high school from middle school.	
1679	FultonES			5	equal to	6	4	5	I am in favor regarding the comparison between the AAC draft plan and current school attendance areas where there is no change. Our family has a lot of monetary resources and man hours invested in this community based on current school attendance areas.	equal to	6	4	1	Polygon #1007 is currently equal. Our life decisions had been based on investments in this this area based on current school assignments	
1680	ClarksvilleES			1	better than	6			Continuity of our Rive hill is largely impacted by this proposal. Clarksville Middle school has been feed into many high school. from commute, transportation perspective, this proposal of rivehill high does not make any sense.	better than	14			Continuity of our Rive hill is largely impacted by this proposal. Clarksville Middle school has been feed into many high school. from commute, transportation perspective, this proposal of rivehill high does not make any sense.	
1681				5	worse than	2	1	4	We know that the current utilisation of the school capacity is near the maximum hence this plan addresses the issues of future seat availability for our kids.	better than	1	2	3	Feasibility study ignored many points which have been addressed in the AAC draft plan. This plan reduces operating cost and better utilises the existing seats in the schools.	Thanks for listening to our feedback. We really appreciate it.
1682	PointersRunES	ClarksvilleMS		1	better than	6	7	13		better than	6	7	9	The Feasibility Study is superior to the AAC draft plan.	
1683	SwansfieldES		WildeLakeHS		equal to	1	14	14		better than	6	7	8	Looking at the maps, the AAC draft plan does not give the long term benefits the Feasibility Study does.	
1684		ClarksvilleMS	AtholtonHS	1	better than	7	6	13	The feasibility study at least kept neighborhoods together for the most part. AAC's draft plan has my neighborhood completely divided. We are in Polygon 190 and Polygon 1190 directly across the street is slated to go to a different school.	better than	7				

1685			MtHebronHS	1	better than	4	6	7	To interrupt the education of thousand to appease a small number of parents that want their kids to go to a specific HS is unfair to the majority !	better than					
1686	RockburnES			3	worse than	11	14	14		better than	11	14	14		
1687	FultonES	LimeKilnMS	ReservoirHS	1	better than	4	7	3	We currently have two children in Fulton Elementary School (polygon 1112). We are 0.9 miles from the school (walking distance). The AAC plan reassigns our kids to Pointers Run Elementary School which is 4.5 miles away. This makes no sense.	better than	4	7	3	We currently have two children in Fulton Elementary School (polygon 1112). We are 0.9 miles from the school (walking distance). The AAC plan reassigns our kids to Pointers Run Elementary School which is 4.5 miles away. This makes no sense.	
1688			CentennialHS	1	better than	6	7	13		better than	6	13	7		
1689		HammondMS	ReservoirHS	2	equal to	6	7		Polygons 221, 1221, 2221, 1007 and 7 all go from Fulton ES to Hammond MS to Reservoir HS. This broken feed can be corrected by moving them to Lime Kiln MS with the rest of Fulton ES.						Polygons 1009 and 9 attend Hammond ES, Hammond MS and Reservoir HS. To eliminate their small feed (which prevented polygons 221, 1221, 2221, 1007 and 7 moving in the 2013 redistricting), 1009 and 9 should go to Atholton HS with the rest of Hammond ES/MS.
1690	HammondES	HammondMS	AtholtonHS	4	better than	1	6	7		better than	1	3	5		
1691	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	6	7	13	Our neighborhood belongs to RH community naturally. Kids grow up together should go to same school, no point to split them to different school. Please keep River Hill Together!	better than	6	7	9	We live in River Hill and we belong to RH community, however my kids have to go to Atholton HS instead of RH even though we are more bonded to RH. Students feeding to CMS are unnecessarily split to RHHS and AHS. Please keep River Hill community together!	
1692			HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, good for the environment, and can reduce teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	
1693	PointersRunES	LimeKilnMS	AtholtonHS	1	equal to	2	7	9		better than	2	7	13		
1694	ClemensCrossingES			1	better than	13	7	5	Moving our kids in Polygon 66 from Clemens Crossing ES to Swansfield ES will greatly harm our kids established study passion and destroy our community integrity by dividing us from the community we have been greatly contributing to for many many years.	better than					
1695		ElkridgeLandingMS		1	better than	13	4	7		better than					
1696			HowardHS	5	worse than	10	14	14		better than	10	14	14		
1697	VeteransES	EllicottMillsMS	CentennialHS	1	better than	6			Impact of community is far to great a cost. Please come up with alternate plans to reduce the over crowding in our schools!!						
1698	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	6	7	4		better than	6	7	13	Students feeding CMS should go to same HS, RHHS, there is no point to split them to different HS. These student, the community are naturally connected and should be together all the time.	
1699	NorthfieldES	DunloggingMS	CentennialHS	1	better than	7	4	13	The draft plan is very concerning to those of us in the Dunloggin neighborhood. For those families and homeowners who specifically bough their home with a school district in mind, the draft represents a huge loss in terms of education and property values.	better than	7	4	12		
1700	VeteransES			4	equal to					equal to					
1701	NorthfieldES	DunloggingMS	CentennialHS	5	better than	7	13	4	We purchased our home in 2013 with the intent for us to have a cohesive community (Dunloggin) where all neighborhood children would attend the same schools. The new plan breaks up the neighborhood and does not make sense when viewed on a map.						
1702	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	7	6	10	Bad proposed plan to break community into multiple pieces.	better than	9	2	3		
1703		DunloggingMS		1	better than	6	4	7	My family and I bought land and built a house based on the current school zones.	better than	13	9	13		
1704	DaytonOaksES	FollyQuarterMS	RiverHillHS	4	equal to	12	1	14		better than	4	8	1	The AAC Draft Plan is much better than the Feasibility Study. The Feasibility Study moved students between schools for no good reason, such as swapping a roughly equal number of kids between DOES and TRES, while increasing transportation time/distance.	While I'm disappointed that some of my kids' friends from FQMS would no longer accompany them to RHHS (instead moving to GHS), the AAC Draft Plan is *much* better than the Feasibility Study.

1705			LongReachHS	4	worse than	1				equal to	6	1	4	Are enough kids coming out of Howard overcrowded Howard? More town homes are scheduled to be built in this area. Need a stronger Elkridge Landing MS feed to Longreach. Currently it is less than 10%. Need a plan with at least 30%	More townhomes are to be built in current Howard HS are in Elkridge Crossing. Need to plan for this growth.
1706	ClarksvilleES			1	better than	3	6	4	The AAC draft plan is worse than the current school attendance area, particularly in keep feed together from one school to the next school.	better than	6	3	4		
1707	NorthfieldES	DunlogginMS		4	equal to	7	9	4	This new plan in my region keeps a better demographic sampling of income based housing available in the school. The original plan cut out my neighborhood from our school and therefor kept me from affording once again to live in my child's district	better than	4	7	9	From my perspective, much better because I hated having the thought of my kids not living next door to the classmates once again because I couldn't afford to live any nearer to the school their father is slated for.	I hope this plan sticks for the NFES and Dunloggin to continue to include my polygon for Dorsey Hall. It is a hard school district to afford to live in and Dorsey Hall was the only place I could afford as a single parent.
1708	NorthfieldES	DunlogginMS	CentennialHS		better than	4	13	6	Very disruptive to student socio-academic well-being.The boundary changes are breaking up our neighborhood.it's difficult to rationalize to my kids why they are being bussed to Columbia when they live in Ellicott City. My 10th grader will shut down.	better than	4	6	13	Keep feeder students together. If changes necessary, shift primary rather than secondary students. Safety concerns/driving long distances in crowded area. Negative impact on St. Johns community.	There is enormous traffic and growth in the Wilde Lake area. Schools maintain stability of community. This negatively impacts neighborhood through bussing. Why so little time to provide input to a proposal? Keep feeder kids together! Disruptive.Give time
1709	PointersRunES	ClarksvilleMS	AtholtonHS	3	equal to	11				better than	13				
1710	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	4	2	8		better than	6	7	9		
1711		PatapscoMS	MtHebronHS	1	better than	4	6	8	The last redistricting "fixed" our polygon's feed to 100% to MS and on to HS. The plan will create a small feed undoing corrective action already taken. Our polygon are walkers; why would you incur cost to bus kids to another HS?	better than	4	6	8	The last redistricting "fixed" our polygon's feed to 100% to MS and on to HS. The plan will create a small feed undoing corrective action already taken. Our polygon are walkers; why would you incur cost to bus kids to another HS?	The proposed plan seems fiscally irresponsible, adding cost where unnecessary (i.e. busing walkers). Also, moving our polygon creates a small feed, previously fixed". It seems like it would be more prudent to build the next HS and then evaluate the need."
1712	HollifieldStationES	PatapscoMS	MtHebronHS	2	better than	4			I am concerned about the safety of the left hand turn the bus would have to make when taking my child to school at St. John's lane instead of the easy right hand turn out of the neighborhood to Hollifield Station.	better than	4	14		The feasibility study plan kept. my student at Hollifield on the safer bus route.	
1713	PointersRunES			1	better than	1	7	9		better than	13	6	7	I prefer the HCPSS plan	
1714	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	equal to	1	7	8		better than	1	3	4		
1715	NorthfieldES			4	equal to	6	7	8		better than	6	8	9		
1716	HammondES			4	worse than	1	2			better than	6			Thank you for taking into consideration the impact on Atholton and Hammond High Schools proposed in the Feasibility Study. This plan seems to have much less unnecessary changes.	It is hard for me to provide detailed feedback, especially concerning Elementary schools because there is not as much information provided on this plan. On the elementary map, there are many explanations missing for the shaded areas.
1717		MurrayHillMS		5	equal to	9	1	6	It preserves Atholton and causes less disruption to students, communities, and demographics.	better than	1	6	9	I am strongly opposed to the feasibility study and the wide-spread impacts.	
1718	PointersRunES	ClarksvilleMS	RiverHillHS	1	better than	2	6	7	My daughter goes to Clarksville middle school. Some of her friends will go to AHS and some of them go to AHHS. This version is not helpful to our kids transfer from middle school to high school, which might affect these teenagers negatively.	better than	2	7	4	We should feed students from the same middle school to high school to keep a continuous community or neighborhood.	
1719		EllicottMillsMS		1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1720		MurrayHillMS		5	worse than	6	7	9		better than	6	7	9	I am opposed to the feasibility study proopsal!!!	
1721	NorthfieldES			1	better than	7	13	4	The AAC plan will destroy our community. The Dunloggin neighborhood is an established, cohesive community and has always been kept together for districting purposes. Most importantly, Ellicott City neighborhoods should be sent to Ellicott City schools.	better than	7	13	4	The Feasibility Study kept our neighborhood together and did not send our children to school outside of Ellicott City (where we chose to live and have our children attend school). It also kept our community intact.	We moved to the Dunloggin neighborhood of Ellicott City intentionally because of it's cohesive nature and the "neighborhood" schools. The ACC proposal will send my kids to different schools than friends a few streets away and will destroy our community.
1722			AtholtonHS	5	worse than	9	7			better than	6	7			
1723		MurrayHillMS		4	worse than	2	4			better than	4	2		Preserve Atholton!!!!	
1724	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	7	6	The St Johns/ Dunloggin community has been around for over 100 years. The neighborhood and community would be destroyed if our children are split between HS.	better than	7	6	2	While the immediate St. Johns/Dunloggin neighborhood isn't affected in the Feasibility Study, our immediate neighbors on Grey Rock are. Please use more logic in establishing district boundaries.	The St Johns/ Dunloggin community has been around for over 100 years. The neighborhood and community would be destroyed if our children are split between HS.

1725			HowardHS	1	better than	6	7	13	Some of the schools are better than others. We all know that and can't ignore that fact. By moving students from a high ranking school to a lower ranking one, it may be in the best interest of the school district and in national rankings, but not student	better than	6	7	14	This new plan splits the middle school feed into to high schools when the difference is literally the next street over and across the street. Literally i could throw a rock into the other district.	
1726	HammondES	HammondMS	AtholtonHS	5	equal to	4	7	12		better than	3	1	5			
1727	TalbottSpringsES			1	equal to	9	13	2	Please keep polygon 59 at TSES.	equal to				Please keep polygon 59 at TSES.	Please keep polygon 59 at TSES.

1729	WestFriendshipES		MarriottsRidgeHS	1	better than	7	4	13	WFES, Mt View, and MRHS provide our family with a quality education, immersing our children in a small community with neighbors. Transport times will increase to well over an hour to return from school each day.						transportation time, costs, quality of life, being bussed to another town, not being part of the educational community in which we reside, travel , are all negative factors to moving our children from their school home school 1-2 miles from our home.	
1730	IlchesterES		HowardHS	5	worse than	6	7			better than	6	7				
1731	PointersRunES	LimeKilnMS	ReservoirHS	1	better than	8	6	13	Our polygon (122) was redistricted for Elementary Schools at the 2012-13 school year (Fulton to Pointers Run). It's not fair that our neighborhood & daughters would then have to experience an upcoming high school redistricting as well.	better than	8	6	13	Our polygon (122) was redistricted for Elementary Schools at the 2012-13 school year (Fulton to Pointers Run). It's not fair that our neighborhood & daughters would then have to experience an upcoming high school redistricting as well.	During the 2012 Elementary School redistricting, Joel Gallihue noted that students should be redistricted only once during their school years (12 years), the proposed AAC draft plan violates that agreement for Poly 122.	
1732		PatuxentValleyMS	HammondHS	4	equal to	6										
1733			MtHebronHS		equal to	4	7		They are catering to the neighborhoods that complained the loudest.	equal to	4	7		to me the same, they are penalizing students based on where they live	Keep 159/1159 at SJLES/PMS/Hebron: WE ARE WALKERS!!! You are dividing our neighborhood.	
1734		LimeKilnMS			better than				Polygon 2114 was redistricted in elementary school and now again for high school. This is bull	better than						
1735	GormanCrossingES			4	equal to	6	7	9	The AAC draft plan is similar to the current school attendance area for my community (Emerson and Wincopia Farms).	better than	6	7	10	The AAC Draft Plan puts much less of an impact on Atholton High School than the Feasibility Study. It moves less students and isn't such a drastic change as was proposed by the Feasibility Study. It also keeps more contiguous communities together.	If possible, bring Polygon 1272 (Emerson East) back to Murray Hill MS with the rest of the Emerson Community.	
1736	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	7	6	1		better than	7	1	2			
1737			CentennialHS	5	equal to	4	7	14	Thank you for maintaining Frederick road as a logical boundary line	better than	7	14	14			
1738	NorthfieldES	DunlogginMS	CentennialHS	1	better than	7	6	4	The current plan is totally splitting up Dunloggin community and children who attend Dunloggin MS, it breaks up community, children's hearts, and also increases transportation costs as the proposed cut off communities are half-way closer to Centennial.	better than	4	6	7	Not reaching the Feasibility Study goal: splitting up more than 100 y/o community, splitting up Dunloggin MS graduates, increasing transportation costs: cut off areas are much closer to Centennial than to Wild Lake.	Very insensitive proposal, doing everything against the Feasibility Stady goals: take each goal separately, and you'll find that it makes the situation much worse.	
1739	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	8	AAC draft plan is not following policy 6010.	better than	4	7	8	AAC draft plan is not professional done, it doesn't have any data or infor to support the attendance areas.	I feel like AAC draft plan is benefit to certain group of area. For example, why move out the current wild lake students ??????	
1740	NorthfieldES	DunlogginMS	CentennialHS	1	better than	13	7	6	Your plan ruines community!	better than	14	14	14			
1741		ElkridgeLandingMS	HowardHS	1	better than	6	7	13	By changing the school districts you are taking kids away from the kids they have gone to school with since kindergarten. This not only affects them socially but emotionally as well. that is only the tip of the iceberg of arguments why this is a bad ide	better than	6	7	13	The feasibility plan appears to make more sense and keeps the kids grouped together better than the new AAC plan. The Eldridge /Hanover area seems to be more together in feasibility plan	please reconsider this new plan. Please keep the elkridge/ Hanover neighbor hoods together. Many of these kids have been together since kindergarten, I worry about the emotional ramifications it will have on them. Areas should not be divided so much.	
1742	ThunderHillES			1	better than	4	3	13	Children in polygons 65, 1065 and 2065 currently walk to Howard High School, which is fiscally responsible and consistent with Policy 6010. The ACC plan increases costs by busing kids to Oakland Mills High School. These funds could be better used.	better than	3	4	13	Polygons 65, 1065, 2065 walk to Howard High. Walking to school is good for students health, community involvement, and the environment. It reduces teen drivers on the road. Teen car crashed are the leading cause of death for teenagers.	Polygons 65, 1065, 2065 should remain at a middle school that feeds to Howard High. Moving polygons 65, 1065, and 2065 to Oakland Mills does not offer a long term solution since OMHS is quickly becoming overcrowded, perhaps even more than Howard High.	
1743	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	13	not support AAC draft plan	better than	4	8	7	Feasibility study is more reliable.	AAC plan is not professional study and it doesn't follow the policy 6010	
1744			OaklandMillsHS	5	worse than	6	7	4		better than	6	7	4			
1745	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	4	7		better than	7	8	4	Dunloggin is a historic neighborhood, and it would be extremely disruptive to our community to split our neighborhood up in this way. As a psychologist, I also have marked concerns about moving students after they have started their education at a school.	The development of Columbia is a major concern for the folks who chose to live in a small town. We wish to preserve the community as such. The concern is also to keep the neighborhood together.	
1746	StevensForestES				better than	9	4		1. FARMs recipients should be divided EQUALLY between Talbott Springs and Stevens Forest. 2. Sending Thunder Hill residents to Wilde Lake instead of Oakland Mills leaves OMHS with the highest percentage of disadvantaged students in the county.	better than	7					
1747	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	7	9		better than	4	8	13			

1748	PointersRunES			1	better than	5				better than	5					
1749	PointersRunES			1	equal to	7	4	6	129, 64, 1064, 112 all live in the VILLAGE OF RIVER HILL, swim at the RH pool, all friends and neighbors go there yet they current plan is to put them on a bus on a highway and send them to a different neighborhood HS other than our community.	better than	7	1	6	129, 64, 1064, 112 need to stay at RiverHill HS like the feasibility study said. Feasibility study fixed a problem where the community didn't get to stay together for middle school and high school.	keep zones 129, 64, 1064, 112 at RH to keep the community together and prevent busses from needing to get on a highway to bring kids to school.
1750			HowardHS	5	equal to	2	6	7	Only based on my child's school attendance area and our Polygon, the AAC draft will allow my daughter to continue at Howard High. Yes, it is crowded, but she is very happy and doing extremely well. Long Reach is crowded as well and I didn't feel the mov	better than	2	6	7	The AAC Draft will allow my daughter to continue at Howard. Despite being crowded at Howard, I was more concerned about the move's impact on her. She had an incredible first year and the possibility of a move has had her extremely stressed. Thank you	This has been a long summer for members of the AAC. Thank you for your hard work and effort in considering all possible scenarios. My daughter is thrilled she will continue at Howard her Jr year and I can continue in my role on Howard's PTSA Thank you!
1751	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	7	14		better than	6	7	14	The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
1752		EllicottMillsMS		4	equal to	4	7	11		better than	11	4	7	The draft plan has fewer area changing schools, which I consider better.	
1753	BellowsSpringES	MayfieldWoodsMS	LongReachHS	5	equal to	12	1	7		better than	1	12	6		
1754			AtholtonHS	4	better than				The county was blindsided by the decision to redistrict middle schools and high schools. This redistricting plan is way to extensive and should be postponed.Other ways should be explored to ease overcrowding such as expanding existing schools.	better than	9	10		This is miles better than the feasibility plan. It does not unnecessarily destroy Atholton HS. There was no need for such extensive changes to Atholton and this new draft fixes that. Please continue to preserve Atholton.	Changes should be minimal, especially at the high school level.High school is stressful enough without having to deal with moving schools and losing friends. Let rising juniors stay at their current schools regardless of what the final plan is.
1755	VeteransES	EllicottMillsMS	CentennialHS	1	better than	7	4	14	Polygons 1101, 2101 and 101 are one contiguous neighborhood with many existing neighborhood-based friendships that would be broken up.	better than	7	4	14	Polygons 1101, 2101 and 101 are one contiguous neighborhood with many existing neighborhood-based friendships that would be broken up.	
1756	CentennialLaneES	BurleighManorMS	CentennialHS	1	better than	4	4	4	AAC has no considerations on bus routes.	better than	9	7	4	Feasibility study at least do study but AAC doesn't. AAC draft plan only look at map	
1757	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	14	14	14	I am concerned that the ACC is s a small, confidential 15 member group of Howard County residents making arbitrary recommendations on a professional feasibility study that was competently researched based on the existing and future needs of HCPSS.	better than	14	14	14	I am concerned that the ACC is s a small, confidential 15 member group of Howard County residents making arbitrary recommendations on a professional feasibility study that was competently researched based on the existing and future needs of HCPSS.	I am concerned that the ACC is s a small, confidential 15 member group of Howard County residents making arbitrary recommendations on a professional feasibility study that was competently researched based on the existing and future needs of HCPSS.
1758	AtholtonES	HammondMS		5	better than	7	4	6	Lake Elkhorn MS is not at all an appropriate school for this neighborhood. Students will feel completely out of place and most students from that school will go on to a different high school. Let them continue at Hammond MS and then on to Hammond High.	better than	6	9	4	THE AAC draft redistricts BOTH the middle and high school. The feasibility study only moved our neighborhood to Atholton High which was acceptable. Lake Elkhorn is not acceptable and neither is Wilde Lake High. It breaks up our village.	Neighborhood has gone to Hammond HS since it was built in the 70's. It is part of our community. How would we have any connection to Wilde Lake High School. If changing why not Wilde Lake Middle instead of Lake Elkhorn for smoother transition to WLHS.
1759	TriadelphiaRidgeES			1	equal to	6	7	13	My future 5th graders (18/19) will attend BPES for 1 yr then leave her new friends & head back to FQMS. It's ridiculous. She should be exempt from the redistricting for her 5th grade year. (Brother too)	equal to	14			The revised plan didn't change anything for my kids from the original study	
1760	ClarksvilleES			1	better than	7	6	3		better than	7	6	2		
1761		EllicottMillsMS		1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1762	VeteransES			1	better than	7	6	4	Breaks up a strong community and is sending kids to ES with kids they won't got to MS or HS with (on both the transfer in and transfer out). Also eliminates possibility of us walking to schook.	equal to	7	6	13	Same as above plus plan appears to give more favorable treatment to HoCo residents who haven't even moved here yet. We are being forced to move to a different school to accommodate anticipated growth that we had no day in authorizing or disputing.	
1763			CentennialHS		equal to	7	4	14	Thank you for maintaining a logical boundary line -Frederick road	better than	7	4	14	Thank you for keeping the community together. This will have a positive impact on the strength of community and the ability to continue to support our neighbors (example- with rides to and from extracurricular activities)	
1764		HarpersChoiceMS		5	worse than	9	10			better than	9	1			
1765			CentennialHS	1	better than	13	7	2	The proposed plan breaks up the Dunloggin neighborhood of Ellicott City, MD. My family intently moved into the Dunloggin neighborhood of Ellicott City to be free of the auspices of the Columbia Association and attend schools located in Ellicott City.	better than	4	7	13	This plan creates a less coherent redistricting plan for all high schools. I recommend that they delay any changes due to lateness of the new proposed plan and insufficient time to understand the impact.	We are 4 miles from current school (Centennial). Proposed plan to Wilde Lake would require double the travel (9 miles).
1766	PointersRunES	ClarksvilleMS	AtholtonHS		better than	6				better than	6				

1767	NorthfieldES	DunlogginMS	CentennialHS	1	better than	6	7	9	This plan effects my children negatively		6	7	13		
1768	PointersRunES	LimeKilnMS	RiverHillHS	1	better than	4	7	13	Redistricting students should at least based on similar school levels. Moving 5 score school students to 10 score school is NOT fair to better school district communities that parents paid much more for houses and taxes which support those good schools.						If the redistricting is based on similar school levels, it is more acceptable to the parents. Redistricting between 9 and 10 score schools is OK, but NOT ok between 5-6 and 9-10 score schools.
1769	ThunderHillES	OaklandMillsMS		4	worse than	6	7	10	I fully support the August 8 plan. While not perfect. I am encouraged by the idea of keeping large numbers of kids together throughout K-12. Our Elementary School (THES) currently feeds to 3 MS & HS. The new plan creates a great feed.	better than	9	6	10		
1770	NorthfieldES	DunlogginMS		1	better than	6	7	4	Our neighborhood, Dunloggin is over 100 years old. We chose our home because true neighborhoods are hard to find. Our neighbors are close-knit and look out for one another. Having our kids go to the same school is imperative to this culture.	better than	6	7	4	Our neighborhood, Dunloggin is over 100 years old. We chose our home because true neighborhoods are hard to find. Our neighbors are close-knit and look out for one another. Having our kids go to the same school is imperative to this culture.	Our neighborhood, Dunloggin is over 100 years old. We chose our home because true neighborhoods are hard to find. Our neighbors are close-knit and look out for one another. Having our kids go to the same school is imperative to this culture.
1771			AtholtonHS		better than	10			Under the new alternative, my neighborhood with only 15 high schoolers is one of a few, small polygons to move to River Hill. This needs to be a larger pool as indicated in the initial plan.	better than	10			The new proposal is worse for me. If I have to move, it's better to move with a large number of people. This new plan is very isolating and devastating to me. Please put 118 back with the larger pool and keep us at Atholton.	This new plan is worse than the initial because it would move my small neighborhood (118) from all of the surrounding neighborhoods. Please leave us with the other neighborhoods that can stay at Atholton--that is a bigger feed. Don't isolate our 15 kids.
1772			CentennialHS	1	better than	6	4	13	I will know absolutely nobody at my redistributed school, and Centennial has been my dream high school since elementary.	better than	4	6	13		
1773	ThunderHillES			1	better than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1774		PatapscoMS			worse than	4	2	12		equal to	2	3	4		
1775		ElliottMillsMS			better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1776	PointersRunES			1	better than	4	6	7	1. Distance increases 4-fold in distance and time. 2. Does Polygon 118 for ~30 Students really need to be re-districted? Is it going to put PRES over 100% Utilization? My guess is that this is not likely. 3. These Children get moved Twice essentially.	equal to	4	6	7	1. Distance increases 4-fold in distance and time. 2. Does Polygon 118 for ~30 Students really need to be re-districted? Is it going to put PRES over 100% Utilization? My guess is that this is not likely. 3. These Children get moved Twice essentially.	1. Distance increases 4-fold in distance and time. 2. Does Polygon 118 for ~30 Students really need to be re-districted? Is it going to put PRES over 100% Utilization? My guess is that this is not likely. 3. These Children get moved Twice essentially.
1777	GormanCrossingES			1	better than	13	13			better than	13			This plan would move my children to school away from our friends and to school that we are not pleased with. We would have to move to avoid this school.	
1778			HowardHS	1	better than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. 1779	StJohnsLaneES	PatapscoMS	MtHebronHS	1	better than	4	7	13	I cannot stress enough the fact that our high schoolers who are WALKERS should be allowed to remain walkers, and neighborhoods should NOT be split down the middle. Both of those are at direct odds with, and contrary to, the redistricting policy.	better than	4	4	13	The current AAC policy still splits our neighbourhood in half, and the number of walkers being assigned to a school 8 miles away instead is even higher than the feasibility study.	I have no positive feedback whatsoever for this plan. It is even worse than the feasibility study. It very much appears that the feedback from the community is falling on deaf ears.
1780	GormanCrossingES			3	better than	7	11	6		better than	7	6	14		
1781	BryantWoodsES	WildeLakeMS	AtholtonHS	4	equal to	10	4	6	Good plan for Atholton High School. Worried that Wilde Lake Middle will be too crowded with 6500 Downtown apartments coming. Glad this plan appears to move fewer students countywide? but no numbers made available to go with maps.	better than	10	6	4	AAC plan is FAR better for Atholton High School than Feasibility Study - thank you!	Please publish the numbers of students impacted in the AAC plan - the maps aren't really enough to gauge impact on each school, on FARMs numbers, on bussing etc

1782		FollyQuarterMS	GlenelgHS	1	better than	2	1	4	More investigation needs to be done on the short term/long term population. Build more schools, do not move 2019 junior/seniors from their high schools (so many things wrong with that approach). Pay too much in prop tax to be messing with west boundaries.		1	2	7	You need to do a better job with small pocket communities staying with the larger group of their initial ES, MS, and HS. Moving kids to farther reached schools has big impact on transportation times (esp. during early hs hours).	STOP the domino effect of moving all these kids! Have we thought about bumping up construction schedules on current/new schools? Population also changes. This plan stinks - too many schools being affected by this redistricting. Do better....
1783	GormanCrossingES	MurrayHillMS	AtholtonHS		worse than	2	4	7		better than	2	4	7		Keep Emerson/wincopia community at AHS
1784		MountViewMS	MarriottsRidgeHS	4	worse than	6	1	7		better than	7	6	4		
1785	PointersRunES			1	better than	4	7	13	Why would half the village go to a different high school?	better than	7	13	9		
1786			MtHebronHS	1	better than	4	7	6		better than	4	7			
1787	ElkridgeES	ElkridgeLandingMS	HowardHS	5	worse than	6	9	7	I do want my kids to go to Howard High School. Long reach is a loser school because of section 8 and because of people with poor character living around.	better than				Don't mess with our neighborhood. We want to continue to have: Elkridge elementary and middle school Howard High School Inhabitants of: [6312, 6314, 6316, 6320] Old Washington Rd, Elkridge, MD 21075.	The historic elkridge elementary school building is our Neighbour. Please don't make this confusing historically by changing anything. Bottom line: Do not change our area for schools during redistricting.
1788			OaklandMillsHS	1	better than	4	6								
1789	NorthfieldES			5	worse than	9	6	8	i feel that this plan better addresses demographic considerations and reduces the total of number of students impacted.	better than	9	6	1	Again my biggest concern is making sure that the demographics of the schools are both racially and socio-economically diverse. The FS plan seemed like it was increasing the divide of the wealthy from less wealthy neighborhoods.	
1790		DunlogginMS	CentennialHS	1	better than	7	13		Transportation Considerations (e.g. walkers, bus routes, etc.) (Policy 6010 IV.B.1.d) Keeping feeds of students together from one school to the next (Policy 6010 IV.B.2.a) Maintaining contiguous communities or neighborhoods (Policy 6010 IV.B.2.b)	better than	6	7	4		This plan is poorly thought out and an attempt at social engineering. Also, you would be splitting Dunloggin, a 50 + year old community, force us to send our children to schools not of out choosing & potentially impact the values of our real estate.
1791		DunlogginMS		1	better than	7	4	13	I really angry about this plan. It will severely disrupt the Dunloggin neighborhood. We bought our house with the expectation Centennial will be our high school. If that does not happen we will likely leave the county						
1792			CentennialHS	1	better than	4	6	13		better than	4	6	13		
1793	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	4	7	9	AAC redistrict all my 3 children. This EXCESSIVE commute increase will put all of them in Before care impacting their performance especially when late opening for HS&MS for sleep starts. Financial burden on my family is significant. Community separated.	better than	4	7	9	AAC redistrict all my 3 children. This EXCESSIVE commute increase will put all of them in Before care impacting their performance especially when late opening for HS&MS for sleep starts. Financial burden on my family is HEAVY. Community separated.	We are area right next to Mount View and Marriot Ridge. You willl need hundreds of school stops to accommodate kids resulting in EXTREMLY long bus time unlike other dense area where 2-3 stops works PENALIZING RURAL KIDS. PREFER FEASIBILITY STUDY!!!
1794			HowardHS	1	better than	6	7	9	We have remained at our home for 17 years SOLEY for the purpose of our children attending Howard High. Our son will be a senior and our daughter will be a freshman. We do NOT want them moved to Long Reach. 17 years...	better than					
1795	TalbottSpringsES	LakeElkhornMS	OaklandMillsHS	4	better than	6	7	9	It seems to me that the East Columbia community is very happy with the way things currently are. No one wants to change schools (i.e. Talbott Springs, Stevens Forest, OMHS, OMMS, Cradlerock). We all want to stay at our current 2017 districted schools!	better than	6	7	9	The draft plan affects me positively in regards to my residing Polygon 2015/Hopewell Neighborhood. We are SOO happy that the draft plan keeps us at TSES which we've been at for 44 years and OMHS which we are a major part of that community. Very pleased!	However, Sewells Orchard neighborhood is still being left out of TSES! They are a major portion of TSES PTA (which is amazing) & they help bring diversity to the school in terms of race & socioeconomic demographics such as FARMs. They should stay at TSES!
1796	WaverlyES	PatapscoMS		4	worse than	1	6	7		better than	1	6	10		
1797	StJohnsLaneES	PatapscoMS	MtHebronHS		worse than	1	6	7		better than	1	6	10		
1798	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	8	6	I have mixed feelings on this. I know Howard is overcrowded, but I would rather do nothing than go forward with the Feasibility study. Is the AAC Plan better than nothing? I don't know. There is no ideal solution for every family unfortunately.	better than	6	7	8	At first glance, it appears as though there is significantly less disruption county-wide. The less county-wide HS disruption before HS13 is built the better. The feasibility study was grossly over-aggressive.	110% attendance levels is unacceptable for our county. A goal of 90-95% with a LIMIT of 100% should be the policy (assuming that the overage is systemic and not a small bump). STOP building new homes in over-crowded districts.
1799	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	better than	7				better than	6				
1800			WildeLakeHS	1	better than	6	7	13	It is incredibly unfair to the children to break up friendships	better than					if you redistrict me i'm going to fight the entire school district
1801	VeteransES	ElliottMillsMS	CentennialHS	1	better than	4	7	8	We reside within the 1101 polygon and oppose any changes. Specifically regarding elementary schools in the AAC draft plan. We purchased our home on Brittany drive in 2011 due to the school assignments. We support the current zones and feasibility plan	better than	4	8	7	We support the feasibility study over the AAC draft plan.	County officials need to assess supporting school infrastructures before issuing new residential building permits. Veterans ES was opened to support growth. 1101 was reassigned to Veterans upon opening and is now slotted to get pushed out under the AAC

1802			RiverHillHS		equal to	11				better than	6			River hill is underpopulated and that affects staffing so lower numbers equals less teachers and less course offerings/options. Balancing out the county has to happen. Parents will freak out and kids will adjust and then the parents will calm Down.	This is a fact of life living in a growing county.
1803			MtHebronHS	1	better than	4			This new plan would make it virtually impossible for kids in my neighborhood to do after school sports. These kids need stability in high school and have bounced around enough. Wait until the new gig school is built.	better than	4			This new plan is sending walkers to a school 20 minutes away, given that the new high school is being built 3 years away.	
1804	ManorWoodsES	BurleighManorMS		5	worse than	1			I like this plan better	better than	1				
1805			WildeLakeHS	1	better than	6	7	8	My child is going into her freshman year of highschool and hardly knows anyone at Wilde Lake. However, the people that she does know are very close friends of hers and to see them split up wouldtake even more of a toll than her friend group splitting up.	better than	6				Don't do it.
1806		LimeKilnMS	RiverHillHS	1	better than	7	6			better than	7	10			
1807		OaklandMillsMS		1	better than	4									
1808	CentennialLaneES	BurleighManorMS	CentennialHS		better than	4	9	13	In addition to transportation and demographic considerations the AAC draft adversely effects our community and our life style. We would definitely consider moving away from Howard county if this plan goes through.	better than	4	13	9	Students have to part with their current classmates and adjust to the new atmosphere. This will hugely impact their educational and social life.	
1809	CentennialLaneES				better than	13	8	9		better than	13	7	8	Please reconsider the significant impact of relocating Polygon from Centennial district to Wilde Lake district. The impacts far outweigh the benefits gained.	
1810		MountViewMS		5	worse than	6	7	12	This new plan seems to help by shifting neighbors that are within a responsible boundary area, and keeps communities together. The feasibility study has students traveling much longer distances. Which greatly impacts high schoolers who will driving.	better than	7	4	1		
1811	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	better than	13	4	7	Bought our house to be in WF/MV/MR w/quick access to Rt70 for our jobs. Our polygon 1229 borders MV/MR 1228 so thought we were safe from rezoning. This plan frustrates our painstaking investment by sending us to a more inconvenient set of schools.	better than	13	4	7	The Feasibility Study harms us by sending our child to a significantly more inconvenient ES, but the AAC plan is worse by taking her out of the MS/HS ADJACENT to us.	Both plans create significant inconvenience for us, in fact for all families along Rt32 north near MV/MR, in the interest of accommodating over-development farther east. Please leave the families on Rt32 north of Rt70 as they are!
1812			CentennialHS	1	better than	4	6	7		better than	4	6	7	Distance from neighborhood to Wilde Lake is over 8 miles. Dramatically impacting families that rely on school buses. That will impact a student's ability to participate in sports, clubs and after school assistance. Walking would be too long and dangerous.	
1813		BurleighManorMS			better than	13	13	10		better than	13	9	7	The benefits to move communities in Polygon 147 from Centennial District to Wilde Lake district is not well established in the AAC draft plan as it seeks to deviate from the more comprehensive Feasibility Study. Many families will be ruin financially.	
1814	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you maintaining a logical boundary	better than	7				Thank you for keeping my neighborhood Grey Rock Farm together at Centennial High School and maintaining a logical boundary.
1815	ThunderHillES			1	better than	4	13	3	Polygons 65, 1065, and 2065 walk to Howard HS. This reduces bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	better than	13	4	3	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	
1816	CentennialLaneES				better than	13	13	13		better than	13	7	8		
1817			AtholtonHS	1	better than	6	8	2		better than	1				
1818		LimeKilnMS	AtholtonHS	2	better than	7				better than				Doesn't make sense to draw the line in the middle of the neighborhood.	
1819		EllicottMillsMS		1	better than	13	3	4	Polygons 65, 1065, and 2065 walk to Howard HS. This reduces bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	better than	4	3	12	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community engagement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.

1820			HowardHS		better than	13	3	4	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1821			AtholtonHS	1	better than	7	6		If a student LIVES in RIver Hill, he or she should be attending River Hill High School. They is a subset of students that attended Clarksville MS who are now attending Atholton (rather than RHHS with their friends). They should be the first kids moved!	better than	6	7		I think the feasibility study's movement of students to RHHS from atholton should remain.	Students should go to school in their local communities.
1822			AtholtonHS	1	better than	7	6		If a student LIVES in RIver Hill, he or she should be attending River Hill High School. They is a subset of students that attended Clarksville MS who are now attending Atholton (rather than RHHS with their friends). They should be the first kids moved!	better than	6	7		I think the feasibility study's movement of students to RHHS from atholton should remain.	Students should go to school in their local communities.
1823	PointersRunES	ClarksvilleMS	AtholtonHS	4	worse than	4	6			better than	4	6	9		
1824	WaverlyES	MountViewMS	MarriottsRidgeHS	5	worse than	6	7	8		better than	6	7	8		
1825	CentennialLaneES			1	better than	4	7	9		better than	4	7	9		I have been living in 2184 for 30yrs and I help transporting my grandson, living in 147, either school bus or walking him to school from my house. The proposed draft scenario simply do not make sense to put 147 to Longfellow from geographic perspective.
1826	VeteransES	EllicottMillsMS	CentennialHS	1	better than	4				equal to	4				My main concern is that my children are practically in VES's backyard and will be sent to WoES. Why are we moving kids closest to the schools elsewhere? In times of child obesity and lack of exercise, we want to put more kids on the bus.
1827	CentennialLaneES	BurleighManorMS		1	better than	4	7	13	Proposed schools for Polygon 147 has very poor academic performance and more than 4mi. (compare to 2 mi) away which will greatly impact our kids. It separates us from adjacent communities & brings enormous stress to our kids w/another change in 2yrs.	better than	7	4	13		
1828			HowardHS	4	worse than	14				better than					
1829			WildeLakeHS		better than	4	7		Adding students to Wilde Lake from distant neighborhoods south and on the other side of 29 makes no sense. Transportation to the school would not be easy!						I think it is critical to maintain or improve the diversity of each of our schools. Many of the neighborhoods you are proposing to move from WIlde Lake HS are our more affluent neighborhoods. What will this do to the socio-economic makeup of the school?
1830		HarpersChoiceMS	WildeLakeHS	1	better than	6	7	9							
1831	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	4	better than	4	6	7		equal to	4	5	14		
1832	ThunderHillES	EllicottMillsMS	HowardHS	1	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	better than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1833			AtholtonHS		equal to	4	6	7	Swimmer Row Way should be assigned to River Hill considering there is no biking/walking path to Atholton. It puts a lot of onus on parents to drive the kids for before/after school activities. The walking path to school bus is also not plowed during snow	better than	4	6	7	The feasibility study had Swimmer Row Way redistricted to River Hill	
1834	BellowsSpringES			5	equal to	14	14	14		better than	7	4	8	I find the AAC plan better than the Feasibility Study Plan	
1835	AtholtonES	HammondMS	HammondHS	2	better than	6			I prefer to have my kids go to Hammond High School. It's very important to keep continuity with the kids (so the kids can move together to MS and HS and not be broken up). That's why I came here and have chosen not to move away.	better than	6			Do as much as possible to keep feeds of students together. That's very important to me and all the neighbors I have spoken to.	
1836	ElkridgeES		HowardHS	1	better than	6	8	9	I don't want Howard High students moved to Long Reach from Whitetail woods II neighborhood in Elkridge.	better than	3	6	13		

1837	ElkridgeES	ElkridgeLandingMS	HowardHS	1	better than	6			I encourage you to go back to the drawing board and figure out a plan that puts all of the ELMS kids into the same high school. It's bad enough that there is a 80/20 split today but the latest plan will cut the community in half. This is not a solution.	better than	6			All ELMS kids should go to one high school. Preferably a new high school or either Howard or Long Reach. But we need a solution that keeps the community together not tears us apart.	Please consider keeping the EES and ELMS community together. This is a tight community that goes to school together for 9 years, goes to same food store, restaurants, plays in same sports leagues, but yet is torn apart when it comes time for high school
1838			MarriottsRidgeHS	1	better than	1	2	4		better than	14	14	14		
1839	ManorWoodsES	MountViewMS		5	equal to	6	7	4	The AAC draft plan aligns with the current school attendance areas which promote community stability for our neighborhood, polygon 170	better than	6	7	4	The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	
1840	FultonES	LimeKilnMS	ReservoirHS	1	better than	6	4	13	We live outside of Maple Lawn but our children attend Fulton ES (polygon 1112). We are under a 1 mi walk from FES with a small student population. This plans disrupts the feed of students from FES to LKMS to have them attend a school farther away.	better than	4	6	7	Our community feels strongly connected to Maple Lawn, this draft plan would split us from the friends and community. Modification to FES would be a better solution than busing our community to a school that is farther away and has relocation for it too.	Our community found the draft AAC very disappointing. It does not take into account policy 6010 to allow us to continue to attend Fulton ES when we are within a 1 mi walk of the school nor keeps kids together from ES to MS to HS.
1841			LongReachHS	4	worse than	1	4	12		equal to	1	3	14		
1842	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	People come to the county based up the good schools, and to specific parts of the county by choice of school. Buying and selling homes are expensive endeavors, so minimizing changes should be part of the overall plan to protect families and the community	
1843	CentennialLaneES			1	better than	13	8	7		better than	13	8	7	It is unclear the benefits from the proposed move of Polygon 147 from Centennial district to Wilde Lake district and how that outweigh the immense negative impact to the community both financially and emotionally.	
1844		LimeKilnMS	AtholtonHS	5	worse than	7	1			better than	6	1	7		
1845			MtHebronHS		better than	7	8	4	Households within the county-designated walking area of a high school should remain with that high school. If possible, those households should be assigned to the appropriate feeder schools for middle & elementary schools also.					Way too difficult to compare plans - both should use the same mapping visual for easy comparison.	1. High schools should be left alone until new high school built. 2. If not that, disrupt fewest number of students by bussing small number of kids west temporarily until new school built. Dividing lines should NOT be in middle of existing communities
1846	PointersRunES	ClarksvilleMS	AtholtonHS	1	better than	7	1	6	You have done a poor job of communicating how this draft plan meets the need of the school system to redistrict students from high-utilization to lower-utilization schools and to establish a good feeder system for each community.	better than	1	7	4	You have done a poor job of communicating the differences between this draft plan and the feasibility study. You need to make maps with polygons that clearly show the differences or at least a pair of similar maps that can be easily compared.	Most people do not understand what is being proposed, so I do not expect this survey to yield significant results. What do you even mean by select location" on the map below? Are you asking where I live? Why do you need to know?"
1847			HammondHS	3	equal to	9	12	2	I'm not in agreement with the proposed plan for my neighborhood. After going through the most recent change from PVMS to TVMS there were day-to-day practicalities that were not taken into consideration and hindered engagement w/ the school.	equal to	7	12	2	The way my neighborhood is rezoned, community" engagement with the school and said resources would be cumbersome."	I'm thankful that the policy will afford my rising senior a seat in the school when he has created networks for 3 years to support is future educational and career goals versus having to start from scratch at the end of high school.
1848			MtHebronHS	1	better than	13	7	9		equal to	9	7	6

1849	8/10/2017 20:44			CentennialHS	1	worse than	1	4	7	We bought our home in Dunloggin because of Centennial HS. This plan would split an established & cohesive neighborhood causing negative impacts for students & homeowners alike.	equal to	1	4	13		
1850	8/10/2017 20:44	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	7	The AAC draft plan is irrational with less consideration of commute, student's feelings, and community integrity. Just simply plan to massive transfer students from one area to another.	worse than	6	4	7	The feasibility study is much better than the AAC Draft plan with the consideration of students, commute, and community integrity.	I hope the AAC seriously consider on draft the plan. Don't simply provide an unfeasible plan for discussion. Please Please Please avoid the no brainier plan like the 4-option school bus plans we just had, which was waste of money and time.
1851	8/10/2017 20:44	AtholtonES	HammondMS	HammondHS	1	worse than	7	4	13	It makes no sense to send current Hammond students in kings contrivance to Wilde lake. It is not their community and it would not benefit them to be bussed across town with people they don't know.						
1852	8/10/2017 20:45	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6							
1853	8/10/2017 20:47			HowardHS	1	worse than	3	4	14	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	14	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1854	8/10/2017 20:48		HammondMS	AtholtonHS	5	equal to	6	7		The AAC plan minimizes impact to most students.	better than	6	7	1	The Feasibility Study was absolutely terrible. The AAC draft plan is 1000 times better. You originally had AHS losing nearly 70% of its current student population. This draft plan looks like there is minimal impact to most schools.	Great work committee!
1855	8/10/2017 20:48	AtholtonES			1	worse than	4	4		It makes no sense. My neighborhood of allview is now proposed to go to WLHS. We have oakland mills and atholton right near us and we will be shipped to wilde lake??? & from listening to other people, this is happening all around. It needs 2 mk sense!	worse than	6	4		Now we have illogical locations based on distance from neighborhoods AND we have no continuity in who our kids move schools with. OMMS to OMHS is where allview wants to go!!	
1856	8/10/2017 20:49			MarriottsRidgeHS	4	equal to	6				better than	7			The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	
1857	8/10/2017 20:52		MountViewMS	MarriottsRidgeHS	1	worse than	4	6	7	I will be forced to use before care due to excessive commute increase either by school bus and by car. My kids will be separated from community friend formed from elementary school year. Community was found surprise since it was not in Feasibility study!	worse than	4	7	6	I will be forced to use before care due to excessive commute increase either by school bus and by car. My kids will be separated from community friend formed from elementary school year. Community was found surprise since this wan't in Feasibility study!	STRONGLY ENDORSE FEASIBILITY STUDY!
1858	8/10/2017 20:59	BushyParkES	FollyQuarterMS	GlenelgHS	1	worse than	1	9	13	We only have about 30 students impacted by the switch of Middle schools - from Folly Quarter (which is not overpopulated anyway) to Glenwood. All their friends are going to Folly Quarter, its closer to us and has the amenities that my children need.	equal to	13	1	5		Glenelg HS Is an old school building and will become terribly overcrowded with proposed changes.
1859	8/10/2017 21:00	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	11				worse than	13				The River Hill High School attendance area should go all the way to 64, 128, and 123 and take back some of the Wilde lake Polygons to Atholton and the northern ones to River Hill so that the communities can stay together.
1860	8/10/2017 21:00	RockburnES		HowardHS	4	better than	6	7	11		better than	6	6	11		
1861	8/10/2017 21:00	NorthfieldES			1	worse than	4	7	6	While our polygon would not be directly affected, our neighborhood would be split up, separating our children from their life ling friends moving from middle school to high school. Please do not make the proposed changes!						
1862	8/10/2017 21:02		LimeKilnMS			worse than	6	7	8	Polygon 2114 was previously redistricted and shifting it to River Hill HS is an unnecessary hardship on those kids/ families.	worse than	6	7	8		
1863	8/10/2017 21:04	LisbonES	GlenwoodMS	GlenelgHS	2	better than	4	6	3		worse than	14	14	14		
1864	8/10/2017 21:06	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	I am a resident of Howard County & Ellicott City for 31 years. My three sons attended Northfield ES, Dunloggin MS and Mt. Hebron & Centennial HS. We were redistricted when my youngest son was to start Mt. Hebron HS and instead went to Centennial HS.					Not only is splitting a community ridiculous but busing children from EC to Columbia is ridiculous as it was in the 1980's when Dorsey Hall was redistricted. Take a look at the map & see how ridiculous some of the redistricting that has been done prev.	I will be attending the scheduled meetings.
1865	8/10/2017 21:07			HowardHS		worse than	4	13			equal to					
1866	8/10/2017 21:07					worse than	13	6	7			4	6	7	N/A	N/A

1870	8/10/2017 21:11	FultonES			1	worse than	4	5	6	I do not want my children to be moved out of their existing school. My older son is established at the school already for two years and will have been there for three years before he's forced to move in the third grade. I moved to this neighborhood for sc	worse than	4	5	6	I want my children to stay in the same school. I demand of that my children stay in the same school. There before and aftercare and Whole lives are centered around the school	This is extremely upsetting to families who have moved to specific neighborhoods for the school for the community. My children go to before and after care at that school. They do not want to leave and we do not want them to leave.
1871	8/10/2017 21:12			AtholtonHS		worse than	6	9	7		worse than	6	7	9		Leave the current plan in place.
1872	8/10/2017 21:12				1	worse than	6	4	1	By redistricting this neighborhood you will split an established cohesive community. Noting that Grey Rock/Font Hill shot down an attempt in their neighborhood doesn't mean you should attempt a similar redistricting in ours which is unfair & unnecessary	worse than	6	4	1	A chart linked below put together by the President of the HCCA, Richard Kohn, illustrates that the current redistricting plan would not achieve the goal of Policy 6010 by preserving socioeconomic integration.“”	https://www.hiruyhadgu.com/news/2017-8-8-proposed-school-redistricting-on-economic-integration
1873	8/10/2017 21:14		DunlogginMS	CentennialHS	1	worse than	7	4	13	Plan follows illogical lines, breaking communities, & sending kids to schools that are longer distances away. The environmental impact alone should be enough to disqualify plan.Carving out of the middle of current zones seems like blatant gerrymandering.	worse than	4	3	13	It makes no sense to keep Grey Rock kids in CHS at the expense of moving a group of kids that are even further away from WLHS. Would love to keep GR kids and Dunloggin kids together as the communities are socially close, but this plan makes no sense.	We should be conserving environmental resources and longer distances and bus times should not be deemed acceptable. My child is already being picked up very early and a school even further away, leading to an even earlier bus ride start is not good.
1874	8/10/2017 21:14			AtholtonHS	1	worse than	10	4	6							
1875	8/10/2017 21:17	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	10			Very comprehensive.	better than	10			Very comprehensive and effectively leverages capacity across the county and promotes better feeds.	Pleased with polygon 2114's feed of Dayton --> Lime Kiln MS --> River Hill. This feed will reduce overcrowdedness at Fulton ES and Reservoir, by pushing west. Eventually, the Dayton polygons should push into Bushy to further accommodate Fulton growth.
1876	8/10/2017 21:19			AtholtonHS	3	equal to	11	1	8		equal to	12	3	8		
1877	8/10/2017 21:19			HowardHS	1	worse than	6				worse than	6				
1878	8/10/2017 21:19	NorthfieldES			1	worse than	7	13	2	The current plan keeps historical communities like Dunloggin and St John's Lane together at our local community high school of Centennial HS. Many families move here and pay taxes for EC Schools. The new plan breaks up communities and expectations.	worse than	7	2	13	The AAC plan delves into well established communities forcing students to a school in another city. Dunloggin and Northfield are within EC, not Columbia or CA property. The busing issue should be evaluated and in addition the loss of families from HC.	The neighborhoods are sought after for the historic benefit of community and schools. This plan is an affront to our EC neighborhoods without thought provided to the revenue to bus students, the effects on student morale, or future planning growth or los
1879	8/10/2017 21:20	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	8	7		better than	6	8	7		The AAC draft is smart, stable, and reflective of the positive impact that citizen input has on school planning. After all, Howard County families are the customers of HCPSS and businesses that react to their customers' comments and suggestions thrive!
1880	8/10/2017 21:21	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	7	2	Do not chop up neighborhoods!	worse than	2	6	7		

1881	8/10/2017 21:21			HowardHS	1	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to OMHS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, 2065 walk to Howard. Walking to school is good for students' health, community and family involvement and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
1882	8/10/2017 21:22	NorthfieldES			1	worse than	7	3	9	1. Neighbors should go to neighborhood schools. 2. Children should be able to walk to their schools. 3. Neighborhoods should not be split up. 4. Busing kids wastes my taxes. 5. I purchased and pay taxes so my kids can go to EC schools, not Columbia.	worse than	4	7	3	I do not think you should break up neighborhoods. It would cost too much money to bus kids to schools that are not where they live.	I am livid that HVPS is considering changing school assignments. I purchased my home and pay taxes so that my kids would go to the schools they are currently slotted for. I DID NOT MOVE TO COLUMBIA FOR A REASON! Do not discount homeowners' expectations
1883	8/10/2017 21:23				5	equal to	7			Glad to see using Frederick Road as a logical boundary line	better than	7			This draft does a better job of keeping communities together and maintaining more logical boundaries	
1884	8/10/2017 21:24		LakeElkhornMS			worse than	9	6							The disparity in concentration of FARM students indicates a lost opportunity to improve integration and take a stand against the widening inequality that is threatening our nation.	
1885	8/10/2017 21:24			CentennialHS	1	worse than	7	4	6		worse than	7	4	6		
1886	8/10/2017 21:25		ElkridgeLandingMS		1	worse than	6	7	13			14				
1887	8/10/2017 21:26	PointersRunES			1	worse than	6	13	4	It doesn't make sense to move Pointer's students to Dayton Oaks, which is much farther away. It also doesn't much sense to not move students from Atholton to River Hill, if they actually live in RH. Why move students from northern part of county to RH?	worse than	4	6	7	It doesn't make sense to move Pointer's students to Dayton Oaks, which is much farther away. It also doesn't much sense to not move students from Atholton to River Hill, if they actually live in RH. Why move students from northern part of county to RH?	This AAC plan is terrible. It doesn't make any sense to move students who live so far away from the school. Pointers Run and River Hill are the two examples.
1888	8/10/2017 21:27	FultonES			1	worse than	13	4	6	Changes may be needed but why move kids in area 2112 which isolates us from our whole community? My kids would lose all of their friends. There are barely any elem kids in our corner of the neighborhood.	worse than	7	13	5	The previous plan did not affect polygon 2112 and suddenly we are targeted. The new school would take my kids away from their friends and the school community we have built and totally isolate them from our bigger neighborhood.	My kids also rely on before and after care at their current school. The new school would take us totally out of our work routes as well. Please don't do this. It would be devastating.
1889	8/10/2017 21:28	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	4	6		worse than	4	6	5		Our community of Dunloggin does not believe that running a line down the middle is good for our children that have all been going to school together and now will be brought in to a completely different environment that is NOT closer or our home
1890	8/10/2017 21:28	ManorWoodsES	MountViewMS	MarriottsRidgeHS		better than	1	6	7		better than	10	6	1		
1891	8/10/2017 21:29			HowardHS	1	worse than	3	4	13	Polyons 65, 1065, 2065 walk to Howard HS, Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to OMHS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65,1065 and 2065 walk to Howard. Walking to school is good for students' health, community & school involvement and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teen	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to OMHS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
1892	8/10/2017 21:34		HarpersChoiceMS			better than		1		Based on location and over population of the school districts involved	better than	1			Better plan especially for district #2175 to move both middle and high schools to folly quarter middle school and river hill high since locations are closer	I think the diversity in these new listed schools and neighborhoods will be crucial for more young families trying to move into the area
1893	8/10/2017 21:37	NorthfieldES	DunloggінMS		1	worse than	7	4	6	We moved to this area specifically for the nearby schools and my daughter and son have many friends in the neighborhood and this plan would affect their friendships. The same thing happened to me when I was growing up and it was very disruptive.						
1894	8/10/2017 21:40		ElkridgeLandingMS	HowardHS		worse than	13	13		Our children have friends made from pre-school thru high school which will be ripped apart because the county can't build a high school in the most densely populated area of the county. I have friends jade in elementary school in this county over 30 years	worse than	2				
1895	8/10/2017 21:40	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	4	6	1		worse than	4	6			
1896	8/10/2017 21:40		HarpersChoiceMS	RiverHillHS	4	better than	6	1	9	I feel this a better plan to keep communities together. I hope considerations will be made for incoming juniors to stay at their current schools.	better than	1	6	9		I hope incoming high school juniors are giving the option of staying at their current schools
1897	8/10/2017 21:41	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	3	equal to	12	14	14	AAC will keep our son at River Hill, whereas staff proposal would move him to Glenelg HS. He's only in 2nd grade, so it doesn't really affect us right now.	better than	6	12	14	I would like my kid to go to HS with the same students he attended ES and MS, but the big concern would be moving him in the middle of ES, MS or HS. I wish to avoid that at all costs.	TRES and FQMS are so close it would be ridiculous for him to go anywhere else, but high school is a toss up.
1898	8/10/2017 21:41	ClarksvilleES		RiverHillHS	1	worse than	6	7	4		worse than	7	6	2		
1899	8/10/2017 21:42				1	worse than	4	3	7	It's not wise to transfer swamfield elementary and Wilde lake student to River hill. The location is far than any other residents who currently just close to the river hill pool area. You should consider keep river hill community together.	worse than	4	3	7	It's not wise to transfer swamfield elementary and Wilde lake student to River hill. The location is far than any other residents who currently just close to the river hill pool area. You should consider keep river hill community together.	
1900	8/10/2017 21:43		MurrayHillMS		5	better than	5	4	6		better than	9	3	7	The AAC plan is preserving Athlon HS and minimizes unnecessary swapping of kids from AHS to HHS.	
1901	8/10/2017 21:43		MayfieldWoodsMS	LongReachHS	4	equal to	1	4			better than	4	6			
1902	8/10/2017 21:44	CentennialLaneES	BurleighManorMS	CentennialHS		worse than	4	9	10		worse than	4	5	6		
1903	8/10/2017 21:53	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	7	4	Having been through this before when we first moved in. I am appalled, that we change again, yet there is no stopping the high density housing being built around our neighborhoods. BAD planning, if you are anyone other than a developer.	worse than	1	6	3		Crazy, the building happening around our neighborhood , yet I see no sign developers have to add anything to the schools. Shame on Howard County.
1904	8/10/2017 21:55		HammondMS	HammondHS	1	worse than	7	4	14	The AAC draft plan sends my child completely out of our neighborhood and greatly increases transportation as opposed to what he currently attends. I am not happy for either of those situations to occur.	worse than	7	4	14	While I could accept a high school change, taking my child to a high school completely out of our community it not acceptable. The increased transportation time is also unacceptable. Allow the original change which keeps the students in their community.	I did not object to the Feasibility Study, I understand the need for adjustments to meet the needs of students, but carving out a section to send past Atholton High to Wilde Lake High is an unfair solution to the problem. Follow the Feasibility NOT AAC.
1905	8/10/2017 21:55	CentennialLaneES			1	worse than	13	10	8		worse than	13	7	8	We just moved to this new community and this plan will not only mean that my child will move to two schools in two years but more importantly will be moving to a less academically competitive school. Please reconsider.	
1906	8/10/2017 21:56			CentennialHS	1	worse than	7	6	4		worse than	7	6			
1907	8/10/2017 21:57	WaverlyES			5	better than	6				better than					
1908	8/10/2017 21:57	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	4	6	My 1st issue is that there are no numbers/charts presented like with the original feasibility study plan. It is hard to fully understand the effects of these changes without data/numbers. Splitting up neighborhoods adversely effects kids and communities	worse than	7	4	6	See above	Not keeping communities together adversely effects children with special needs, especially as they enter high school. They grow up with children that look out 4 them, as they are more likely 2 b bullied. The AAC plan does not seem like it values community
1909	8/10/2017 21:59	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	4	6	Imagine the logistical nightmare if Mariotts Ridge folks have to come to RiverHill High School. Whoever came up with that bright idea, has no consideration for others and they are just self centered about sending their children to Atholton HS.	worse than	4	6	7	Feasibility study paid much attention to common sense and logic versus complete absence of it from AAC proposals. AAC folks are selfishly thinking about their preference and have no consideration for traffic nightmare they are suggesting.	
1910	42957.91797	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	4	7	1		worse than	7	4	10		
1911	8/10/2017 22:03	PointersRunES	ClarksvilleMS		1	worse than	6	7	13	The river hill community is being carved up along more arbitrary lines than even previously done. The current AAC plan would separate neighborhoods that have long been together. The well being of students within Howard county needs to be considered,	worse than	6	7	13	With the feasibility Study, River Hill goes to River Hill HS. The AAC carves certain students within River Hill away from RHHS with no real consideration for the feeder schools and communities these schools draw from. River Hill should go to River Hill.	Consideration for students and their communities needs to be taken when plans are laid out. While achieving balance and filling schools appropriately is an admirable goal, the well being of the population needs to be in the forefront of any plan.
1912	8/10/2017 22:05		LimeKilnMS	ReservoirHS	1	worse than	4	6	7	I feel the AAc was not well represented. It really doesn't make sense to haul students from Reservoir/Wildlake and Marriots ridge to Riverhill	worse than	4	6	7		
1913	8/10/2017 22:06	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	13	7	Really do not like the fact that River hill is accepting a lot of polygons from Wild lake HS.	worse than	6	7	10		
1914	8/10/2017 22:07	ClemensCrossingES	HarpersChoiceMS		3	better than	6			The AAC draft plan does not explicitly state redistricting from Clemens Crossing to Swansfield, but it is colored as such on the map. Support for this plan is predicated on change in HS district for my feed, given that we live closer to Clemens Crossing.	equal to	6	4		Although the feasibility study has my neighborhood redistricted to Atholton HS, which is within walking distance, I am comfortable with to redistricting to River Hill if my neighborhood can't feed to Atholton.	This feedback is provided based on the maps only. I would like to see the rationale for the changes and the numbers of students affected. Without the supporting documents a, this process appears to be highly subjective and potentially racially motivated

1915	8/10/2017 22:09	HollifieldStationES			1	worse than	4	8		We have several new communities coming in especially Bethany Glen which will impact and change schools. In addition, it near impossible to make the left onto 99 to get to St. John's and I fear for my child's safety on the bus in traffic.	worse than	4				
1916	8/10/2017 22:09			HowardHS	5	better than	1	9	2	Thank you for doing something right to allow my son to attend high school without it being severely overcrowded. It's ridiculous the overcrowding of schools such as Howard High. Great job!!	better than	1	2	3		
1917	8/10/2017 22:11	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	AAC draft plan maintains more kids together from Middle school to Howard High School. The feasibility study isolates 2 neighborhoods the AAC plan improves this and keeps feeds together. Thank you.	Thank you for all of your work. Keeping kids with social supports is very important at this time in life.
1918	8/10/2017 22:11		BonnieBranchMS	LongReachHS	5	better than	1	4	2		better than	2	7	9		
1919	8/10/2017 22:11	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	6	7	1	I am pleased that the current draft plan keeps the Worthington neighborhood - polygons 2093, 3093, & 4093 together with 93, 1093, 309, & 1309. It is important that my children remain in the same feed from one school to the next.	better than	6	7	1	I am pleased that the current draft plan keeps the Worthington neighborhood - polygons 2093, 3093, & 4093 together with 93, 1093, 309, & 1309. It is important that my children remain in the same feed from one school to the next.	
1920	8/10/2017 22:12			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.

1926	8/10/2017 22:15	BushyParkES			1	worse than	7	4	6	Moving our kids from bush park elementary to Lisbon is a horrible idea for many reasons. Travel distance, social/emotional stress etc. if you approve this change as it relates to my area you will be hearing from my representatives .	worse than	4	6			This is terrible an can be avoided
1927	8/10/2017 22:15	BushyParkES			1	worse than	7	4	6	Moving our kids from bush park elementary to Lisbon is a horrible idea for many reasons. Travel distance, social/emotional stress etc. if you approve this change as it relates to my area you will be hearing from my representatives .	worse than	4	6			This is terrible an can be avoided
1928	8/10/2017 22:16	PhelpsLuckES		HowardHS		better than	7	2	1		better than	3	4	6		
1929	8/10/2017 22:17			CentennialHS	2	equal to	11	14	14	It is hard to comment because there is no clearly available analysis of the two plans. Without knowing the changes the AAC plan proposes, commenting in a meaningful way is difficult.	equal to	11	14	14	It is hard to comment because there is no clearly available analysis of the two plans. Without knowing the changes the AAC plan proposes, commenting in a meaningful way is difficult.	For ES's - future should change to smaller, neighborhood schools with 300 or fewer students. ES should be incresed 2X - better community, less re-districting, lower transport cost, more walking. Look to UK for example of benefits of small, neighborhood ES
1930	8/10/2017 22:20	ForestRidgeES	PatuxentValleyMS	ReservoirHS	3	equal to	4			This doesn't effect me as nothing changed. I'm annoyed at the survey as it took to long to understand the plan. Likely many won't complete the survey due to this.						You need a better survey.
1931	8/10/2017 22:22	DuckettsLaneES			4	equal to	12	14	14		better than	13				
1932	8/10/2017 22:22	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	4	equal to	9	7	14	The AAC draft does eliminate the fact that the ES feed was divided when going to MS, and HS in the current plan.	better than	6	4	9	I like the way Polygon 66 and 1066 stayed as a unit, and will continue to feed into the same schools. We are sad to leave CCES, but are pleased to add River hill.	
1933	8/10/2017 22:23		ElkridgeLandingMS		3	equal to	12			Not everyone likes change but obviously our County is growing and schools are at capacity. Thank you for all your considerations for the communities that are affected by the schools they go to which effect the housing prices additionally.	better than	6			Keeping as many kids flowing through the ES MS and HS together creates friendships and community. For our area, the AAC draft looks more promising for many neighborhoods that wish to have continuity.	Thanks for taking opinions and working hard on this very important project!
1934	8/10/2017 22:24	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	6	7	8	Our polygon would go from a title 1 ES to a heavily FARM MS and then to River Hill? Uh no, talk about culture shock when kids get to River Hill. And where is the continuity of the feed?	worse than	6	7	8	Someone has a sense of humor is the nicest thing I can say. Secondary roads not clearly defined on the ACC plan, critical flaw. Feed from elementary-middle-high #1 concern. Please have OUTSIDE advisors draft plans not locals (property values).	I do not wish ill on the ACC committee, I realize their stress, but am not sure where they are basing their information. Keep the feed aligned! I favor the feasibility study as our feed is better.
1935	8/10/2017 22:27	AtholtonES			2	equal to	6	2	4		equal to	6	9	7		
1936	8/10/2017 22:33	ElkridgeES	ElkridgeLandingMS	HowardHS	5	worse than	13	13		The AAC draft plan pulls my kids from a rated 10 high school to a 6. We specifically moved here last year because we want our kids to have a good high school.						
1937	8/10/2017 22:36	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13	13	13	Request to revisit the proposal and plan based on the feedback from Centennial Overlook community .	worse than	13			Requiestnto recisenrhe proposal as there family future at stake	Please consider revisiting the proposal.
1938	8/10/2017 22:36	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7		Makes little to no sense. We live in Ellicott city and the current schools my children are in and will go to are in Ellicott city. Dividing 1/2 of a neighborhood and bussing to Columbia is preposterous and not efficient or kind regarding time and money	worse than	6	3	3		
1939	8/10/2017 22:39	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
1940	8/10/2017 22:39	ClarksvilleES			1	worse than	7	9	13	River Hill area has schools that are in the Top 5 in MD, and are NATIONALLY RANKED. They are ACADEMICALLY RIGOROUS and DEMANDING,consistently producing TOP TEST scores in MULTIPLE areas/subjects. The AAC plan will abolish and demolish this accomplishment	equal to	7	9	13	Both are unfair plans! Both proposals try to solve problems by creating problems in and destroying highly accomplished and competitive academic environment of River Hill neighborhood. Bringing in students from poorly performing schools is UNACCEPTABLE!!	Both the AAC and the Feasibility Study Plans are BIASED, UNFAIR and UNETHICAL, benefiting strictly a particular group of people, and certain neighborhoods, while downgrading established highly academically accomplished areas such as River Hill.
1941	8/10/2017 22:40	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle schools that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
1942	8/10/2017 22:40		HarpersChoiceMS	WildeLakeHS	4	better than	9	14	14	I am tired of zoning policies in this county that ensure concentration of poverty in specific areas of the county. This leads to a concentration of poverty in a small number of schools. These schools are being given the sole responsibility of dealing with	better than	9	14	14	(see above comments) broader society's issues of poverty. In addition, lower property values in areas of poverty lead to underfunding and underequipping of schools in those areas.	I would prefer to see MORE socioeconomic diversity at every school. In many ways, Ho Co is repeating the intentional policies of the 1940s and 1950s that guaranteed only certain groups were provided with an adequate education.
1943	8/10/2017 22:45	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7		worse than	6	4	7		
1944	8/10/2017 22:46	PointersRunES	ClarksvilleMS	AtholtonHS	3	worse than	7	13	14		worse than	7	13	14	Feasibility is better than the AAC draft because the feasibility has less impact on the students all over the county	
1945	8/10/2017 22:47					worse than	6	4	7		worse than	6	4	7		Also, when you take people out of their schools that they can walk to, you are creating more traffic problems. Especially if kids miss a bus or needs to be picked up which could lead to more accidents. You really don't leave much space here to vent.
1946	8/10/2017 22:48	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	4	6	7		worse than	4	6			
1947	8/10/2017 22:48			RiverHillHS	1		7	13				7				
1948	8/10/2017 22:49			LongReachHS	1	worse than	7	4	9	You are taking my son out of his community and are bussing him clear across town to Oakland Mills which on a very good day is a 15 min ride when Long Reach is right down the road. Earlier morning bus pick up times, less sleep, more money spent on gas	equal to	4	2	7	The AAC draft plan still does not maintain contiguous communities and does not take into consideration that a new high school will be built in the near future on the east side. Those kids will most likely be redistricted again in a few years.	I am very upset about both of these options which make Oakland Mills mostly attended by low income housing. It would not be socioeconomically balanced as you are adding several trailer parks plus the existing population of low income housing.
1949	8/10/2017 22:50		DunlogginMS		1	worse than	7	13	4	The AAC draft plan lacks logical and rational reasoning to keep my neighboring communities together in its long standing to attend Dunloggin MS and Centennial HS. Its long traditional and history should not be ignored, and we as community is vey unhappy.	worse than	7	13	4	The AAC draft plan lacks logical and rational reasoning to keep my neighboring communities together in its long standing to attend Dunloggin MS and Centennial HS. Its long traditional and history should not be ignored, and we as community is vey unhappy.	It seems more logical and feasible to take the communities east of RT 29 that attend Centennial HS to either Howard HS or Mt. Hebron HS, and keep the communities west of RT 29 that belong Centennial HS to keep its school district to Centennial.
1950	8/10/2017 22:50	VeteransES	EllicottMillsMS	CentennialHS		worse than					worse than					This moving of students is a terrible idea. Can't imagine who sits around and decided to take kids out of a school they could throw a stone at from their house and move them way further away. Does not make any kind of sense.

1951	8/10/2017 22:51	StJohnsLaneES		MtHebronHS	1	worse than	4	7	6		worse than	4	7	6		
1952	8/10/2017 22:52	GormanCrossingES			4	equal to				Changes to the high school attendance area should be minimal, if non-existent, at this point given the plans to build another high school in the near future.	better than	10	7	6	This plan seems far less disruptive. There is less of an overhaul, minimizing the impact to students, and yet it seems to achieve Policy 6010 goals better than the feasibility study.	
1953	8/10/2017 22:54	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	4	7		better than	6	4	7	The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study. This is a very important consideration.	
1954	8/10/2017 22:55			HowardHS	5	better than	7	14			better than					
1955	8/10/2017 22:58		ElkridgeLandingMS		1	worse than	13				worse than					
1956	8/10/2017 22:59	PointersRunES			3	worse than	6	6	6	AAC Draft Plans to Cancel Move from Atholton to RHHS, Does Not Keep Feeds of Students from PRES & CMS Together for high school at RHHS.	worse than	6	6	6	Feasibility=continuity for PRES to CMS to RHHS. AAC draft to cancel move to RHHS & have our kids @AHS disrupts continuity + cohort for kids. Moving Wild Lake/Long Reach kids to RHHS instead of keeping our PRES & CMS kids together doesn't make sense.	Moving Wild Lake/Long Reach kids to RHHS instead of keeping PRES & CMS kids together for high school at RHHS doesn't make sense. Disrupts continuity + cohort for kids.
1957	8/10/2017 22:59		MurrayHillMS		4	worse than	7	2	9	The current school attendance areas represent certain challenges, but those challenges are best addressed by long-term planning, including the construction of a new high school.	better than	6	9	2	The new AAC draft plan impacts fewer children at the high school level. This creates less disruption at a very critical point in a child's development.	Juniors and trailing siblings should not have to be redistricted. For juniors, it's hard to imagine a worse time to be forced to change schools given that this is a crucial year for college planning. For trailing siblings, families should not be split.
1958	8/10/2017 22:59	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	13		worse than	7	4			Proposed plan is negative for our community. Need to keep the continuity.
1959	8/10/2017 23:01	PointersRunES				worse than	6	6	6	disrupts continuity + cohort for kids.	worse than	6	6	6	AAC draft plan disrupts continuity + cohort for kids. Moving kids that attend PRES & CMS from RHHS to Atholton and instead bringing kids from Wild Lake and Long Reach to RHHS does not make sense.	AAC draft plan disrupts continuity + cohort for kids. Moving kids that attend PRES & CMS from RHHS to Atholton and instead bringing kids from Wild Lake and Long Reach to RHHS does not make sense.
1960	8/10/2017 23:02	NorthfieldES			1	worse than	4	6	7		worse than	7	6	7		Wild lake would be too far of a commute. We moved to Dunloggin so are kids can go to Centennial. This redistricting will break up our strong community here in Dunloggin.
1961	8/10/2017 23:05			MarriottsRidgeHS	5	better than	1	4	7		better than	4	7	9		
1962	42957.96251			AtholtonHS		worse than	2	14	14	The current school attendance areas should be addressed comprehensively when a permanent superintendent has been selected. The interim superintendent has not spent enough time in Howard County to make such drastic decisions about our children's education	better than	2	6	9	The new plan is superior to the Feasibility Study. The Feasibility Study's proposed changes to Atholton High School were dramatic and unreasonable. This aspect of the Feasibility Study lacked all credibility.	Children who walk to school should not be redistricted. If they are in walking distance, they should always attend the school closest to their homes. Rising juniors should not be forced to be redistricted; and neither should trailing siblings.
1963	8/10/2017 23:06		BurleighManorMS	CentennialHS	5	better than	7	4	6	GREAT IMPROVEMENT! The elementary and middle school are extremely overcrowded yet the FS did not address this. Thank you for hearing our concerns and making some adjustments in order to alleviate overcrowding at CLES and BMMS.	better than	7	4	6	GREAT IMPROVEMENT! The AAC took into consideration the importance of maintaining contiguous neighborhoods. Thank you for keeping together our neighborhood; polygons 2184, 1184, 184, and 156.	
1964	8/10/2017 23:07	ClemensCrossingES			1	worse than	14								First, the committee should give more details on their proposed changes. I don't see how a committee can determine a better model than the original study which I assume was done professionally with an unbias simulation model using multiple variables.	
1965	8/10/2017 23:08		BonnieBranchMS		5	better than	7	8	6		better than	6	8	7		We live in polygon 84 and I want my child to attend Bonnie Branch MS and, eventually Howard HS.
1966	8/10/2017 23:09	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	this will split up the neighborhood and the travel time to the new HS will be approx 45 minutes to an hour by bus.	worse than	4	6	7		
1967	8/10/2017 23:10															
1968	8/10/2017 23:11	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	The new plan breaks up the long-standing cohesion of the 50 year old community of Dunloggin. We came here to raise our family within strong community and this plan will ruin what took half a century to build. Please reconsider this plan.	worse than	7	4	6		Splitting the Dunloggin neighborhood is wrong for our community. It will split neighbors and divide our neighborhood. Please respect what makes Howard County great--stong fifty year old communities like Dunloggin!
1969	8/10/2017 23:12			MtHebronHS	1	worse than		4		Not only distance from school, but students calmer in each school	worse than	6	1	3	The ACC draft has not been thought out well, Too many flaws.	
1970	8/10/2017 23:12	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	4		We've been fine with Atholton, but River Hill makes more sense. Pointers Run kids should attend River Hill since that is truly our neighborhood school. Our child can bike or walk there, but not to Atholton. This is important.	worse than	4	6	7	Pointers Run kids should attend River Hill since that is truly our neighborhood school. Our child can bike or walk there, but not to Atholton. The Feasibility Study Plan seems far more thought out.	Please stick with the Feasibility Study! It seems it was based on much more analysis (at least of our area). It looks like the AAC draft did not have any feedback from River Hill area residents.
1971	8/10/2017 23:15	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	Dunloggin has been a viable and intact neighborhood for 60 years, As Ellicott City residents, we pay high property taxes for education in Ellicott City. Defeat redistricting of Section 150, which divides Dunloggin by indiscriminate, nonsensical selection.	worse than	7	4	13	Your reasoning of resolving economic disparity is flawed. Splitting an intact neighborhood of single family homes with high property tax bases such as Dunloggin to resolve a high FARM percent in Columbia does not seem to work in your projections.	Dunloggin is not part of Columbia and does not share the same tax base. Perhaps you should look within Columbia to resolve the disparity in FARM percentages - 34% Wilde Lake, 2 % River Hill. Dunloggin students should remain at Centennial High.
1972	8/10/2017 23:20			CentennialHS	1	worse than	6	7	4	I don't feel like much thought has gone into the plan, it just doesn't make sense to split a neighborhood up to two schools and causing most of the neighborhood to travel an unacceptable distance.	worse than	6	7	4	I appreciate the work on the Feasibility Study but the County should have projected growth & built the schools to accommodate the tax payers $ not build then re-district again. We expect better leadership, don't build if there are not schools for kid	Communities of families should have kids attending schools together, it doesn't make sense to divide a neighborhood because the Co. is cleaning up their mistakes over & over
1973	8/10/2017 23:20			MtHebronHS	1	worse than	7	13							It is imperative that neighborhood kids are kept together. Our community has always been a MHHS community and it is wrong to split up communities such as Valley Mede. Bad for the community. Bad for the school. No commitment from students/parents.	When keeping our kids safe is one of the pledges Principles and Asst Principles make to us as parents, it makes no sense to send kids 8 mikes away from their homes when they are currently slated to attend a school .5 miles away.
1974	8/10/2017 23:23	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	13	4	9	We recently moved to Howard County. School districting was a major influence in our home purchase decision. The changes would put our mixed race family in a vastly white school. We could have bought in Carroll City for less $$ for a less diverse school.					We are new to the county so we were not aware that there was a Feasibility Study.	Do not separate the West Friendship area community and lump us with other western area communities. We are closer to the city centers. draw the lines east to west, not north to south. Rt. 32 traffic is so heavy, why add school buses? East to west is best
1975	8/10/2017 23:24	ClemensCrossingES	WildeLakeMS		4	equal to	6	7	9		better than	7	9	4	In the Feasibility Study you literally had students who could see a school from their house being shipped to a different school. This does not make sense in any way to me	
1976	8/10/2017 23:26	WaterlooES			2	equal to	4	6	7	There is little consideration for these issues currently and in the AAC plan.	equal to	4	6	7		
1977	8/10/2017 23:26			CentennialHS	1	worse than	7	6	1	I lived in HC on and off since 1972, every redistricting plan has resulted in only shuffling students by predominately economic reasons. Learn to build up, around an on preexisting schools, stop building walls in our communities.		7	6	1	If these so called plans worked, how come the portable classroom numbers in are area are never reduced? The Shuffling" is a better name for your agenda and so called plans."	Don't split neighborhoods, especially those established for 70 years, a lot longer then you've probably been alive. Don't make our neighborhood West/East Germany, the Korean Peninsula or the Southwest Border in the US.
1978	8/10/2017 23:28	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6			The savings of moving a small amount of Dunloggin students can't possible outweigh the negative impact on individual students, loosing their community & network. We bought our house in Ellicott City not Columbia.	worse than	5			Moving Dunloggin students from Centennial that's ranked 373 to Wilde Lake that is NOT RANKED NATIONALLY is unfair to students and parents who have sacrificed to live in Dunloggin which has been in Centennial or Mt Hebron High Schools for over 40 years.	Know your learner and community.
1979	8/10/2017 23:28		WildeLakeMS		3	equal to	12	12	12		better than	6				
1980	8/10/2017 23:28	AtholtonES	HammondMS		2	worse than	6	4	7	This plan breaks up the kings contrivance community. less students will go to middle school together and high school from the same community. bussing children passed high schools and middle schools is not the way to fix the problem.						
1981	8/10/2017 23:30	NorthfieldES			1	worse than	7	6	4		worse than	7	6			
1982	8/10/2017 23:31	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	6	9	Riverhill neighborhood should all go to RHHS - Clarksville students are in one neighborhood this is a small school can not accommodate additional students ALS added to CES using 3 classrooms ?	worse than	7	6	9		
1983	8/10/2017 23:35			MtHebronHS	1	worse than	7	4	2		worse than	7	4	6		
1984	8/10/2017 23:35		HammondMS		1	worse than	4	13	5	I question why my children would not attend three other closer high schools (Hammond/Atholton/Oakland Mills) instead of being transported almost past these schools to go to Wilde Lake High School	worse than	4	13		Same as above.	
1985	8/10/2017 23:35	ClarksvilleES			5	equal to	6	7	5		better than	4	6	7		

1986	8/10/2017 23:35		HammondMS		4	better than	2	1	4		better than	1	2	4			
1987	8/10/2017 23:36	AtholtonES	HammondMS	HammondHS	1	worse than	7	4	6	The feasibility plan better accommodates working parents who have active students. The high school proposal under the AAC plan is unacceptably poor when accounting for traffic patterns and keeping kids together (by essentially splitting a neighborhood).	worse than	7	4	6	The feasibility plan better accommodates working parents who have active students. The high school proposal under the AAC plan is unacceptably poor when accounting for traffic patterns and keeping kids together (by essentially splitting a neighborhood).	The AAC high school proposal would split our neighborhood and dramatically shift the student demographic from our sending and receiving middle schools. We prefer the feasibility plan for both middle and high school proposals as they impact our family.
1988	8/10/2017 23:36	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	6		Moving residents in the 21224 zip code (Sykesville, MD), who live adjacent to Mount View MS and Marriots Ridge HS, to alternate MS and HS locations both makes commutes longer, breaks existing class structures and reduces home values! Poor plan						
1989	8/10/2017 23:37			HowardHS	1		13			Our family goal was to have our child go to Howard High School. This has been our goal since our child was in elementary school. Last year we purchased a home in Elkridge, in the Howard HS district so that our child could go to Howard High School.	worse than	7	13		When we were looking for a house to purchase, we saw many homes that we liked in districts other than Howard HS. However, we restricted our homes search to only those neighborhoods that were in the Hoard HS district.	
1990	8/10/2017 23:39		MayfieldWoodsMS		4	better than	1	2	12		equal to	1	2	12			
1991	8/10/2017 23:40	FultonES			1	worse than	4	6	13	we moved 5 min away from fulton elementary school from scaggsville with the hope of maintaining our children in fulton elementary school. pointers run is close to 15 min from us and in an inconvenient area for our commutes.	worse than	4	6	13	makes more sense people east of rt 29 should go to hammond es given that school is under capacity and closer to them than fulton es	we would hope to keep our children in the school that is only a 5 minute drive for us where they have all of their friends who they will go to middle and high school with rather than be shifted to pointers run with children they don't know.
1992	8/10/2017 23:41		HarpersChoiceMS	WildeLakeHS	1	worse than	9	7		The AAC plan released yesterday removes many of the upper middle class households from Long Reach and Wilde Lake, moving them to Howard, Atholton, and River Hill, which are already mainly upper middle class. It will exacerbate the socioeconomic disparity.	worse than	9			The feasibility study plan at least took into account the impact of socioeconomic factors in moving the groups of students.	Please be sure in this redistricting process that we take into account all voices-- not just the most affluent or privileged. The AAC areas look very much like gerrymandering.
1993	8/10/2017 23:42	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	12				worse than	6			AAC draft plan does not keep students to high school together	
1994	8/10/2017 23:43	NorthfieldES	DunloggінMS		1		6	4	13	we really want our children to stay with all their classmates from elementry school all the way through high school which won't happen with this re-districting. We also are very concerned about he much longer distance to Wild Lake compared to Centennial	worse than	4	7	6	We really want our kids to stay at a close high school. Wild lake is twice the distance and it is ridiculous to section off our corner of the neighborhood to go there. I am concerned about the longer bus rides and safety when they start driving there.	I am exetremely distressed over the redistricting draft plan. We bought a house in Ellicott City to go to an Ellicott City school. We do not want our kids getting split with their classmates and don't want our kids going to a school much further away
1995	8/10/2017 23:43			CentennialHS	1	worse than	13	4	6	Still moving kids from a school that is 2.5 miles away to one that is 8.1 miles away, meaning longer commute 30-45 minutes bus ride is not wise. Also moving children in high school years will severely impact them academically and socially.	equal to	7	8	9	The draft is still same for us. For college bound students, the junior year is probably the most important. I do not think it's fair that a student be adjusting to a new school at this important moment of his/her high school career. This is unacceptable.	Study the demographics, Centennial will lose a big part of its minority population and this does not look good. Last year's study said no high schools redistricting was planned and we were blindsided by the proposal. Stop it until better feedback from us.
1996	8/10/2017 23:43	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	better than	1	4	6		better than	1	7	6		
1997	8/10/2017 23:44	IlchesterES	BonnieBranchMS	HowardHS	5	better than	4	6	7		better than	4	6	7	The AAC draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.	Polygon numbers 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion including HHS, BBMS and IES. The draft plan keeps our neighborhood at Howard and reduces the distance traveled to school.
1998	8/10/2017 23:44			AtholtonHS	1	worse than	7	13	14	Current students should be allowed to stay. No consideration on impact to juniors as they prepare for college.	better than	7	13	14	Current students should be allowed to stay. Big impact to Juniors as they prepare for college.	
1999	8/10/2017 23:45	NorthfieldES			1	worse than	7				worse than	7				
2000	8/10/2017 23:47		BurleighManorMS	CentennialHS	1	worse than	1				worse than	1				
2001	8/10/2017 23:47		DunloggінMS	CentennialHS	1	worse than	7	4	6		worse than	7	4	6	Dunloggin is part of the Centennial community and should remain-we are in Elliott City and should remain in EC schools. This would double my child's time to and from school and make after school activities impossible due to the distance.	The only redistricting that was supposed to happen this year was elementary schools, that this entire process feels very rushed and only solves the overcrowding problem for one year. I would rather my child's school have portables than move.
2002	8/10/2017 23:48	PointersRunES	ClarksvilleMS	AtholtonHS	3	worse than	7	13		we were redistricted several years ago from River Hill to Atholton and at the beginning of this process, we were going back to River Hill. I live in the Village of River Hill and our village is split in half for high school attendance. Return us to RHHS	worse than	7			You have students being transferred into RHHS from way out in the County, yet I LIVE in the Village of River Hill and my children cannot attend school there.	
2003	8/10/2017 23:48		PatuxentValleyMS		1	worse than	7	14	14	This is so bad. It creates two islands for the high schools in Atholton and Wild Lake (connecting corners are ridiculous to count as "touching"). just don't understand this.	worse than	4				
2004	8/10/2017 23:49		BonnieBranchMS		5	better than	4	6	7		better than	4	6	7	The Montgomery Meadows polygon numbers 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. It keeps our children attending Howard HS while meeting the goals of HCPSS.	
2005	8/10/2017 23:49			MarriottsRidgeHS	1	worse than	4	7	13	I am in Polygon 224. My son could walk to MRHS if 99 had sidewalks. Buses from the 7 polygons proposed for Glenelg would drive close to MHRS on their way to Glenelg. Many buses from MRHS would drive past the entrance to my neighborhood (St. James Rd).	worse than	4	7	13	I am in Polygon 224. My son could walk to MRHS if 99 had sidewalks. Buses from the 7 polygons proposed for Glenelg would drive close to MHRS on their way to Glenelg. Many buses from MRHS would drive past the entrance to my neighborhood (St. James Rd).	The polygons proposed to move to Glenelg are too far to realistically ever become part of that community. - damaging the educational welfare of those students by denying their ability to be part of a school community.
2006	8/10/2017 23:50	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	7	13	Polygon 1150, 150, 1152, and 152 are outliers to WLHS as much as 101-103, etc are to CHS. 1150, 150, 1152, and 152 need to be retained/added to Centennial. This plan violates both 6010 IV.B.1.d and 2.b. and needs to be modified.	worse than	4	7	13	The AAC plan Polygon 1150, 150, 1152, and 152 are outliers to WLHS as much as 101-103, etc are to CHS. 1150, 150, 1152, and 152 need to be retained/added to Centennial. This plan violates both 6010 IV.B.1.d and 2.b. and needs to be modified.	The AAC plan Polygon 1150, 150, 1152, and 152 are outliers to WLHS as much as 101-103, etc are to CHS. 1150, 150, 1152, and 152 need to be retained/added to Centennial. This plan violates both 6010 IV.B.1.d and 2.b. and needs to be modified.
2007	8/10/2017 23:51			CentennialHS	1	worse than	7	4	6	It is appalling that one relatively small group of bureaucrats has the power to affect so many people in such a vast, highly diverse area such as Howard County. I am fully committed to opposing this action in every way.	worse than	7	6	13	If you live in a community you should expect that your children would attend school where you know people, have built long-term relationships with families and neighbors,	I would never permit where my child attends school to be decided by some third party arbiter. We would move or send our child to private school. Stop meddling in and ruining our lives!!
2008	8/10/2017 23:52			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2009	8/10/2017 23:55		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	2	Polygon 232: AAC moves students bicycling to school to unbearably long commute to school. With late opening for school starting this year, students will end up in before care with less sleep impacting performance and Financial burden to family. No to ACC	worse than	4	2	1	Polygon 232: AAC moves students bicycling to school to unbearably commute to school. Late opening for school starting this year,students will be in before care with less sleep impacting performance and Financial burden to family. FEASIBILITY STUDY BETTER	For polygon 232: I believe this is rather unfair way of Adjusting, Original Proposal have not included any MS and HS move. This seems to be designed to divide stakeholder by giving small change and swapping to Catastrophic change. Keep FEASIBILITY. STUDY
2010	8/10/2017 23:57	NorthfieldES			1	worse than	10	9	4	The plan simply does not consider the community's needs, rather only for the administrative easiness. Changing the boundary changes without careful strategic planning or consensus from community causes a deep and long-lasting impact to all the students.						
2011	8/10/2017 23:58	DaytonOaksES			5	equal to	6	7	8		better than	6	7	9	This plan makes more sense as the students from our neighborhood will be kept together with their other school mates through elementary, middle and high school.	
2012	8/10/2017 23:59			AtholtonHS	1	worse than	6	7		The neighborhood of Pointers Run should not be further divided into different high schools.	worse than	7	6			
2013	8/10/2017 23:59	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	7	6	I feel it is poor planning to bus students to a school that is further away than one in their own neighborhood. It would seem to me that increase costs would be incurred for this purpose.	worse than	4	7	6		I don't understand the logic of moving students to a school that is further away from their home neighborhood when one is available in their immediate area. It seems to me increased costs would be incurred.
2014	8/11/2017 0:01			CentennialHS	1	worse than	4	7	3	Please do not choose the latest draft before hearing the impact from the affected neighborhood. Our polygon (147) was not impacted by previous drafts, and only in the August 8th meeting we were reassigned, giving us only 1 week for feedback! That's sneaky	worse than	4	7	3	My children are very active in after school programs, and since both my wife and I are away from home at work in the afternoon, they walked/biked home frequently from their current high school (Centennial). This will not be possible from the new school.	My children enjoy being able to visit their friends walking/biking to their homes. If they find friends at the new school, the friends will be located much further away and across Route 108, making it impossible to reach them by foot/bike.

2015	8/11/2017 0:01	LongfellowES			4	equal to	4	7	5	Currently, my son attends a school that is far from our home, and not related to our neighborhood. Nearby homes are slated for Centennial and Tridelphia. For some reason our small area must go across 108 and into Columbia, when we live in Ellicott City.	worse than	3	13	6		
2016	8/11/2017 0:03	NorthfieldES	DunloginMS	CentennialHS	1	worse than	6	4	7	Please do not break up our community and make our students travel much farther to school. I want my children to attend school out in the county, not be bused to Columbia. That is why many of us moved to the county.	worse than	4	6	7		
2017	8/11/2017 0:04			AtholtonHS	1	worse than	13			You separate our polygon 118 from the large chunk that doesn't get redistricted leaving our very small amount of kids being singled out	worse than	14			They are both horrible, but see above answer	
2018	8/11/2017 0:04			MtHebronHS		worse than	7	4			equal to	4	7			
2019	8/11/2017 0:05			CentennialHS	1	worse than	7	4	13	The plan breaks up contiguous communities; sends students to schools that are further from home than there current school. The area of Dunloggin proposed for Wilde Lake is closer to other high schools (Centenn, Hebron). Longer commutes = more accidents.	worse than	7	4	13	The feasibility study did a superior job on all reasonable measures - cost, commute, geography, etc.	Primary consideration should be given to keeping communities intact and minimizing commute.
2020	8/11/2017 0:08			HowardHS	1	equal to	1	2	2		worse than	6	2		A new High School needs to be built sooner then later. The county needs to stop building homes on the east side of the county.	
2021	8/11/2017 0:08	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	7	13	2	(1) This plan is devastating to my neighborhood. You are fracturing a well-established, historically strong neighborhood - Valley Mede - by sending half our neighbors to schools 20+ mins away. (2) this plan takes students who are WALKERS and buses them	worse than	7	4	2	You should not make walkers into busers. You should abide by policy 6010 and not split established neighborhoods, esp those that have the school RIGHT in their neighborhood! SJLES and MHHS! HS kids should NEVER be redistricted except for new school bld	Please forgo redistricting at the middle and high school level this time around. Wait until the new high school is built instead of moving kids now and in five years when the hi sch is complete. Stop this mindless march towards redistricting every 5 yrs
2022	8/11/2017 0:10			LongReachHS	1	worse than	6	7	9	It would be ridiculous to move the students in the mayfield ave area all the way to Oakland Mills. They would be passing Long Reach and Howard to get there. It's too far! And it's hazardous driving in bad weather because of the distance. Plz reconsider!	worse than	6	7	9	Mayfield Ave students will be separated from the kids they've grown up with, starting with kindergarten. It's not right and it's completely out of the blue to pluck this community and place them so far away.	
2023	8/11/2017 0:10	DaytonOaksES	LimeKilnMS	RiverHillHS	3	equal to	11	14	11	This plan does not do enough to address the overcrowding that is anticipated at the schools surrounding Maple Lawn (tables 4.6 & 4.12). Why not improve the feed from DOES that goes to LKMS and move the est.120 students to CMS now since they have capacity?	better than	10			Generally, it seems better. However, you now have people that can walk to FES moving to PRES and then jumping back to LKMS and then jumping back to RHHS. That has to be a very small feed.	Due to overcrowding that will happen in the near future, can you just go ahead and redistrict the DOES to LKMS polygons now? We have been very happy at LKMS but it is a feed that makes no sense and will need to happen soon anyway.
2024	8/11/2017 0:11			MtHebronHS	1	worse than	6	4	13		worse than	4	6	10		I will be attending Mt Hebron High School this upcoming school year. Based on this new plan, I will be attending a high school that is 20 minutes away from my house,will separate my friends and I, and pull me away from my comfortable environment.
2025	8/11/2017 0:14	StJohnsLaneES				worse than	4	8		My daughter would be a walker to Mt. Hebron and now you want her to travel 8 miles to Marriott Ridge. My daughter also has been redistricted twice in elementary and you want her to return her to Waverly a second time. DO YOU KNOW WHAT YOU ARE DOING!	worse than	13	13	8	Obviously there is no rhyme or reason for your basis. Last time the board split our neighborhood in half, and now you want to send my daughter 8 miles to MR when she can walk to Hebron.	My son was been redistricted 3 times in elementary school, and now we live this again with my daughter. Why I'm against: when she came from Waverly, she was in the minority, now she will be transported further to Mt. View, instead of being a walker to
2026	8/11/2017 0:15			MarriottsRidgeHS		equal to	6	7	14		better than	6	7	14	The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
2027	8/11/2017 0:17	RockburnES			5	better than	7	2	11		better than	6	4	10		
2028	8/11/2017 0:17		HammondMS		1	worse than	6	10			equal to	12			The previous re-districting plan kept Hammond MS students together for their time in middles school and then sent them to different high schools, thus keeping groups of students together.	I think new redistricting plans would work much better if they were applied in such a way that first year students coming into middle school would go to the new district while current students would finish their tenure at their middle school.
2029	8/11/2017 0:19	CentennialLaneES	BurleighManorMS	CentennialHS	2	equal to	3	4	5	Keep 147 in the same region.p	equal to					
2030	8/11/2017 0:19		BonnieBranchMS		5	better than	4	6	7	Keeps kids within walking distance of Howard high. Polygon 95. Better feeds. Reduces domino effect of westward polygon shift. Better feeds.	better than	4	6	7		
2031	8/11/2017 0:19			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2032	8/11/2017 0:20	NorthfieldES	DunloginMS	CentennialHS	1	worse than	7	6	4		worse than	13				There is much more to this decision than spreading out student to alleviate. People research school districts when considering buying a house and to have the area redistributed seemingly with not enough thought or input from the taxpayers maddening!!!!!!!
2033	8/11/2017 0:20			CentennialHS	1	worse than	4	3		Please keep polygon 154 in CHS as there are only 6 high school students in the polygan. It breaks community. And the distance from 154 to MRHS is two times than to CHS.	worse than					
2034	8/11/2017 0:20	ClemensCrossingES	LimeKilnMS	AtholtonHS	1	worse than	2	1			worse than	1

Any change - to Atholton or WLHS take us quite far from our "home".	equal to	6	7	13	We are a tight community - those of us that feed into OMHS. Any change - to Atholton or WLHS take us quite far from our "home".	
2051	8/11/2017 0:37			CentennialHS	1	worse than				Some homes are so close to some school, but assigned to a school so far away by draft plan.					If my home is so close to CHS, where my sons can bike home after club or sport activity, it is feasible plan to our family when we make decision to buy my home. New plan assigns my sons to Wildlake HS, which is 20 minutes driving. What a feasible plan!	Besides my above comments, my son has to transfer to a new school at his junor year. He is in CHS Humanity program, other school does not have that program. This is a great impact for him, his group of friends, his club activity. The plan has no humane
2052	8/11/2017 0:38	DeepRunES			5	equal to	4	6	7		better than	4	6	7		
2053	8/11/2017 0:40		FollyQuarterMS		1	worse than	6	7	13	Currently roughly half of Folly Quarter MS will go to River Hill, under the new plan I'm estimating that roughly 25% will go to RHHS. Of that 25%, I'm estimating that 10% or less originated at TRES. This is clearly looks like a small feed issue.	worse than	6	7	13	We thought that the feasibility proposals made tons of sense for our neighborhood, it would have sent at least 80% of the FQMS kids to Glenelg and the vast majority of TRES kids would have stayed together all the way through High School.	I find it infuriating that our sons will have gone to school for 9 years with the same group of kids/friends and then move on to high school with a very low % of their classmates. Why would anyone want to raise a family in our neighborhood going fwd?
2054	8/11/2017 0:44		LimeKilnMS		1	worse than	6	1		Personally, this makes lots of transportation plans hard considering the school we would be resdistricted to would me 2x as far as my current distracted high school.	equal to					
2055	8/11/2017 0:44			OaklandMillsHS	1	worse than	13	4		My son is part of the OM community now after having attended OMMS for 3 years and starting HS next month at OMHS with all his friends. After a year he will be moved to another school (WLHS), leaving most of those friends behind. WLHS is also further away.	better than	6	7	13	For my neighborhood (56, 1056, 2056, 3056), AAC plan is better for ES kids. They will move to MS with a larger group. But for my son, who has many friends at OM, he would leave all those friends to go from OMHS to WLHS. Plus WLHS is further away.	I would like our current MS and HS kids in 56, 1056, 2056, and 3056 to stay at OMMS and OMHS so they can remain with the friends they have made in the OM community. Those have been our neighborhood schools since at least the early 1980s.
2056	8/11/2017 0:45			OaklandMillsHS	1	worse than	4	6	7							
2057	8/11/2017 0:45	VeteransES	EllicottMillsMS	CentennialHS	5	worse than	13	7		The					The elementary school is in walking distance. Why would you bus us further. We pay some serious property taxes to live here. We are the customers. This needs to be remembered.	
2058	8/11/2017 0:46	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	The AAC plan is a terrible way to split the Dunloggin neighborhood for high school - sending the Dunloggin polygons from Centennial to Wilde Lake HS will negatively impact all kids in our neighborhood.	better than	4	6	7		
2059	8/11/2017 0:47			CentennialHS	1	worse than	4	3	2	There is little logic to the cut off lines. My child will be moved from his current school (2 mi from home) NOT to the OTHER HS 2 mi from home, but to the school 9 mi away. How will he get home after after-school activities?	equal to	4	3	2	They are equally bad.	Let the kids finish at the school at which they start.
2060	8/11/2017 0:48	NorthfieldES	DunlogginMS		1	worse than	4	13		You are strangely cutting up neighborhood. Makes more sense to keep heart of Dunloggin at CHS (219, 1180, 180, etc.), and cut out north and eastern periphery polygons (97, 191, 100, 101, etc).						
2061	8/11/2017 0:49	PointersRunES			1	worse than	4	6	7	Dayton Oak elementary school is too far for kids living in Clarks Glen community.	worse than	4	7	13		
2062	8/11/2017 0:50	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	13		Polygon 229 is located on the same side of Rt. 32 as West Friendship. It is mostly an inconvenience to move to Bushy Park, that said we can deal with it. AAC draft plan simply doesn't make sense as we are located in the backyard of MVMS and MRHS.	worse than	4	13		We currently live in the back yard of Mount View MS and Marriotts Ridge HS. Driving past the two schools to attend a further school is simply absurd. Polygon 229 only has a few kids, so everyone will be separated from all of their friends.	While we understand changes need to be made, someone needs to take proximity to the schools into consideration. Moving elementary isn't as big a deal. However, the middle and high school changes just don't make sense. We are in the backyard. Polygon 229
2063	8/11/2017 0:50	ClarksvilleES			3	equal to	12	7	6	I live in RH and would not be affected by this current plan. it seems like people are playing games with who gets assigned to RHHS vice Reservoir, Atholton, or Glenelg. Keep kids close to their local schools. Do not bus kids from far away to RHHS.	equal to	6	12	7	The feasibility study was dumb in a number of areas. I understand the need for relieving overcrowding, but that means a new school is long overdue in Elkridge/North county. I picked my house based on schools. Don't play games w the map.	It seems like the whole county is paying the price because the politicians didn't force developers to pay for new schools to relieve overcrowding. We can't keep building without more schools. Moratorium on building if schools can't support more kids.
2064	8/11/2017 0:50

2069	8/11/2017 0:51															
2070	8/11/2017 0:53	NorthfieldES	DunlogginMS	CentennialHS		worse than	6	7	12	The current school attendance areas work pretty well for us, but Dunloggin gets split up between Centennial and Wilde Lake. This plan keeps more kids together going to Wilde Lake, which is good.	better than	6	10	12	This plan is better than the one moving kids from Grey Rock/Font Hill since they would have to ride such a long distance to MRHS. Keeping DMS kids together and going to WLHS together makes sense. Sending new community by Cent Lake to WLHS makes sense too.	The only issues we have are neighborhoods being split. Also, it would make more sense to phase in the changes so new 9th graders wouldn't have to switch in a year. Going to high school is such a huge adjustment anyhow. Or, please just postpone the changes
2071	8/11/2017 0:53			CentennialHS	1	worse than	13	7	9	It would divide friends and reduce the little positive classroom environment that is left	equal to	13	14	14	Neither of them are a good idea	Just keep districting the way it is
2072	8/11/2017 0:53	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Dunloggin is 2.4 miles away from Centennial high school or Mount Hebron high school but 4.1 miles away from Wilde Lake High School. Why would our neighborhood be redistricted to be further away from our homes?						
2073	42958.03786	CentennialLaneES			1	worse than	13	4	9	We are about 1 mile from Centennial ES and more than triple that distance to Long Fellow ES.	worse than	13	4	8	No clear justification provide for deviation from the Feasibility Study to move Polygon 147 out of Centennial to Wilde Lake. The negative impact is immense and benefits are not apparent.	Based on Greatschools.org, the proposed move of Polygon 147 will take children from school district averaging 9.7 score to school district averaging 6.7 score. Please reconsider this drastic negative impact to the family.
2074	8/11/2017 0:55	FultonES			3	better than	8	7	12	My child will be in middle school so the elementary school redistricting will not impact us. The middle school (Lime Kiln) remains the same but the high school (Reservoir to River Hill) has changed for the better.	equal to					
2075	8/11/2017 0:56				2	worse than	6	13	7	AAC draft splits River Hill south of 32 along Great Star Dr. Small streets such as Eastern Star Way and Victorious Song Ln are now cut off from the same high school as the neighborhood they live. This splits kids more from feeding the same HS from MS.	worse than	6	13	7	The Feasibility Study Plan does a better job of feeding students into the same ES, MS and HS. For example the area south of 32 around Great Star Drive. The AAC draft does not match the reasonable proximity of neighborhoods in this area.	Please take better care in splitting off small streets that are really part of a larger neighborhood, specifically small cul de sacs that are now cut off because a main road splits them. Ex: Small roads east of Great Star south of 32.
2076	8/11/2017 0:56	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	6	4	Not only is this recommendation not geographically recommended, kids will be separated from students that they should be in school with during grade school years. In addition transportation to and from school is going to be difficult.	worse than	4	4	5		
2077	8/11/2017 0:56		BonnieBranchMS	HowardHS	2	worse than	7	6	9	The recommendations appears to affect communities that are within walking distance to their neighborhoods to attend a much farther school. The current school attendance allows students to attend their immediate community school.	worse than	2	5	9		
2078	8/11/2017 0:57		MountViewMS	MarriottsRidgeHS	1	worse than	4	13	7	Current school attendance is preferred Has bus travel time been taken into consideration on route 32 - during morning travel times? Route 32 is very congested and difficult north of 70 - and moving kids to other schools would increase travel time on rt 3	worse than	4	7	13	Feasibility study plan is preferred over AAC plan How early would our kids need to get on a bus in the morning to get to new schools?	
2079	8/11/2017 0:57	CentennialLaneES	BurleighManorMS	CentennialHS	3	worse than	4	6	2	Please just wait and incorporate new high school into plans. Please try to keep neighborhoods together. Please don't move kids once they have started high school.	better than	4	6	6	Thank you for keeping Burleigh Manor nbhd intact, as well as Grey Rk and Font Hill. The map makes sense with part of Dunloggin going to Wilde Lake as all of Dorsey does, but better boundaries are needed.	Please try to keep neighborhoods together, phase in the changes, and wait as much as possible. My 9th grader, if she is redistricted, would be on her 4th school in 4 years, and she adjusts slowly. I am sure there are many other similar kids.
2080	8/11/2017 0:57	HammondES	HammondMS	AtholtonHS	5	better than	1	9	10	This plan preserves Atholton HS and more efficiently moves students.	better than	10	9	6	The feasibility study moved too many students, and does not desimate any one school. It strategically moves students and diversifies all schools to better mirror the county and each other.	This plan when enacted needs to consider phasing in the 11th graders as to not disrupt their pivotal 11th grade year.
2081	8/11/2017 0:59	PointersRunES	ClarksvilleMS		1	worse than	5	4	13		worse than	1	5	4

2106	8/11/2017 1:15				1	worse than	6	7	4	There is nothing wrong with the current plan that is in effect now, some idiot has to come up with some idea just to screw up people life.....	worse than	6	7	4	We purchase our residence so our child could attend the school that you want to change, this change will effect my property value, since new home owners move into my neighbor hood just to go to the schools you want to change to.	
2107	8/11/2017 1:15	ElkridgeES	ElkridgeLandingMS		1	worse than	7	6	13	The current AAC plan splits the Elkridge/Hanover Area to two HS from a single feeder school (ELMS). This negatively affects our kids as they have gone to school with same kids from the community for over 7 years.	worse than	7	6	13	The current AAC plan splits the Elkridge/Hanover Area to two HS from a single feeder school (ELMS). This negatively affects our kids as they have gone to school with same kids from the community for over 7 years.	We are a very surprised by the major change in the proposed redistricting by the AAC with only one week left in the process with little to no time for input from our community considering the major changes. More time is needed to evaluate/comment.
2108	8/11/2017 1:16	ElkridgeES				worse than	7	6	4	The AAC draft plan splits the community of Elkridge in half, a community that has been growing and forming bonds for years. Splitting the community does not alleviate the need for a school dedicated to this community.	worse than	7	6	4	The goal in the redistricting should be to keep communities together; the community ties are what will allow for improvement in school engagement and performance. We spend 9 years building a community - keep them together!	With the current and planned revitalization of the Route 1 corridor and the exponential growth in family housing in Elkridge/Hanover, a dedicated high school is desperately needed in eastern Howard County.
2109	8/11/2017 1:16	RockburnES			5	better than	6	7	1		better than	6	7	10		
2110	8/11/2017 1:17		BurleighManorMS		5	better than	7	6		Thank you for keeping 1184, 2184, 184, 156 together						
2111	8/11/2017 1:18	NorthfieldES	DunlogginMS	WildeLakeHS		worse than	4	7	13		worse than	7	4	5		
2112	8/11/2017 1:20			CentennialHS	1	worse than	6	7	4	The draft plan is more ridiculous, violates many more policies, splits the tightly integrated community in Dunloggin neighborhood, will be very difficult to explain my kids, raise the suspicion of someone doing this for personal gains at expense of others	worse than	4	9	10		
2113	8/11/2017 1:20			MarriottsRidgeHS	1	worse than	13	7	9	This plan does not make sense to pull students that live less than a mile from the school and send them to a school that is 10-15 miles away. One of the reasons we live in this area was for Marriotts Ridge HS. We fought to get that school. This is wrong.	worse than	9	13	5	There is nothing about this plan that is good. We will continue to object at whatever level necessary to get this stopped. It is just wrong.	Take a step back and just look at the map. Place the school in the middle of the community don't split up community by taking it to the edge.
2114	8/11/2017 1:21	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High. Why switch walkers to bus riders? Walking is healthier, and saves money!	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High. Why switch walkers to bus riders? Walking is healthier, and saves money!	Polygins 65, 1065 and 2065 are the *only* instances in all of HoCo where walkers are switched to become bus riders. Please reconsider.
2115	8/11/2017 1:22			MarriottsRidgeHS	1	worse than	13	7	9	It is totally unreasonable to pull our students from MRHS and send them to GHS when our students are less than a mile from MRHS and GHS is 10-15 miles away. We helped get that school where it is and now the ones living closest would travel the furthest?!	worse than	7	9	13	Schools should be in the middle of the community, not on the outermost edge. Please take a step back and look at the map. The proposal is asinine.	We purchased where we did directly for the feeder schools. To move students who are less than a mile away from a high school to one that is over 10-15 miles away makes NO sense. Please reconsider and use common sense.
2116	8/11/2017 1:22		ClarksvilleMS		1	worse than	7	9			worse than	7				
2117	8/11/2017 1:26			HowardHS		better than	7	4	1		better than	8	3	10		
2118	8/11/2017 1:26	ClarksvilleES				worse than	4			Some Wilde Lake High students are much closer to Wilde Lake High and Atholton High. Some polygons from Wilde Lake High to be moved into River Hill High clearly shows there might be some deliberate consideration to transfer the students out of their way.	worse than	4	6		I would suggest reassigning some polygons from Atholton High to River Hill High that are closer to RHHS. Wilde Lake is greatly impacted in the AAC proposal whereas Atholton has minimal impact. There needs to be some balance in impact across schools.	I don't think concentration of impact of redistricing on only several schools is a good idea. The feasibilility study impacts Atholton High most while this AAC one impacts Wilde Lake most. Why couldn't there be some sharing of burden?
2119	8/11/2017 1:27	PointersRunES			1	worse than	6	4			worse than	6	4			
2120	8/11/2017 1:28	PointersRunES			1	worse than	6				worse than	6				

2121	8/11/2017 1:30			MtHebronHS	1	worse than	7	4	13	To move students living in the MT HEBRON and valley Meade neighborhoods who are walkers to Marriotts ridge does not make common sense. Breaking up neighborhoods is unacceptable.	worse than					To move students living in the MT HEBRON and valley Meade neighborhoods who are walkers to Marriotts ridge does not make common sense. Breaking up neighborhoods is unacceptable.
2122	8/11/2017 1:30			CentennialHS	1	worse than	4	6	7	proposal violates the following school board policies: Keeping feeds of students together from one school to the next (6010 IV.B.2.a) Maintaining contiguous communities or neighborhoods (6010 IV.B.2.b), Transportation Considerations (6010 IV.B.1.d)	worse than	4	6	7	Feasibility plan looked crazy enough already, but the AAC draft plan is just insane!!! Pardon my emotions.	1) My child would be DENIED all after school activities: both my wife and I work full time and there is no any public or personal (bike) transportation between WLHS and Dunloggin II 2) My child is NOT switching high school after a freshman year. PERIOD!!!
2123	8/11/2017 1:31		BurleighManorMS		1	worse than	7	4	6	This latest draft for 147 does not make sense :1. longer commute with the new plan >5mi vs. <1mi to high school (centennial HS) 2. This split the community and kids' friendship as they are assigned to different school 3.safety issue due to longer commute	worse than	4	6	7		a) Making kids to cross major high way (Rt108) when they can ride to school doesn't make sense b) The new plan will affect the kids everyday life (friendship established already) c) We moved here for the school, this will affect our property value
2124	8/11/2017 1:32	StJohnsLaneES	PatapscoMS		1	worse than	7	6	9	Communities and neighborhoods should not be divided because of poor building decisions and the whims of the Howard County elite.	equal to	7	6	9		
2125	8/11/2017 1:32	BellowsSpringES			5	better than	6	7	4		better than	6	7	4		
2126	8/11/2017 1:34	NorthfieldES			1	worse than	6	7	4	I truly don't understand how come the Dunloggin neighborhood becomes the candidate for redistricting. It is non sense that children have to travel twice more to go to school. I did not move into this area to send my kids to the school in Columbia.	worse than	6	7	4	The Feasibility Study looks at least convincing since it seems the regional proximity was considered and the rating of two schools (receiving and sending) are similar.	I know the board members has been working on this project for long time but the latest proposal is way to different from the previous one so could not help doubting about the fundamental rationale and criteria of redistricting.
2127	8/11/2017 1:34	NorthfieldES	DunlogginMS		1	worse than	13			I live in zone 150. My kids will be entering high school starting in 2019. Centennial is ranked 11th in Maryland, Wilde Lake is not ranked. Wilde Lake is a horrible school compared to Centennial.	worse than	13			We moved here in 2012 specifically for Centennial High School. We sold our house at a $90k loss to be close to one of states best schools.	The proposed plan has Dunloggin is split in half with the Wilde Lake zone up the middle.
2128	8/11/2017 1:34	PointersRunES				worse than	6	4			worse than	6	4			
2129	8/11/2017 1:35			MarriottsRidgeHS	1	worse than	7	1	4	Keep polygons 179 and 1179 at Marriotts Ridge. Move 1171, 171, 178, 1181, 1178, and 1170 all along the Folly Quarter Rd artery leading to River Hill.	worse than	7	4	1	Keep polygons 179 and 1179 at Marriotts Ridge. Move 1171, 171, 178, 1181, 1178, 1170, 1305, 305, 1031, 31, 1165, 1168 feed into the Folly Quarter Rd artery leading to River Hill.	Moving 179 & 1179 pulls from underutilized MRHS. Creates transportation issues as 179 & 1179 cut through neighborhood 180 to access Folly Qtr Rd. 1171, 171, 178, 1181, 1178, 1170, 1305, 305, 1031, 31, 1165, 1168 border Folly Qtr leading to River Hill,
2130	8/11/2017 1:35		DunlogginMS		1	worse than	7	6	4	The odd desperation to keep Linwood and Autumn Hill in Centennial at the expense of Dunloggin has resulted in a poorly thought out arch-shaped oddball district. Why? What purpose does this serve?	worse than	6	7	4	At least Grey Rock is contiguous with Marriott Ridge, making the feasibility study logical. Is there any logic whatsoever to the AAC plan?	Linwood and Autumn Hill will have to switch to another school. Whatever unstated single policy goal the AAC plan achieves, it violates at least three (6010 IV.2.a, b, and d.)
2131	8/11/2017 1:36	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	7	9		worse than	7	4	9	I am for the feasibility study and against AAC draft plan. Feasibility study is more convincing because it provides the reliable data and thorough rationale. However, I don't see the clear explanation and supporting evidence for AAC draft.	
2132	8/11/2017 1:36			CentennialHS		worse than	5	4	7		worse than	6	4	3		I am very disappointed about the aac drafted plan! It just doesn't make sense for 147 to go to wild lake school. It's disruptive to a logistics education. Our kids have just settled here in centennial high a year ago, all of a sudden he will have to move!
2133	8/11/2017 1:37	DeepRunES			3	worse than	13			This plan has my child going to a high school 15 minutes away while passing several other closer high schools on the way. This is unacceptable and what will happen when the new high school opens? Then he'll have to change again probably.	better than	9				
2134	8/11/2017 1:38	ThunderHillES			5	equal to	7	4	14		better than	4	7			
2135	8/11/2017 1:38				1	worse than	1	4	6	Please leave polygon 118 alone...very small neighborhood. Would not make a dent in the population problems from one school to the next. This neighborhood (~20yr olds) has been redistricted multiple times during each wave of childrens' school careers.	equal to	1				
2136	8/11/2017 1:39	CentennialLaneES	BurleighManorMS		1	worse than	6	4	9	This plan would take my children from all of their friends at school, as only our polygon would be moving to the Wilde Lake schools (cohort <10 kids per grade) and no other CLES. It would also significantly decrease the diversity at Centennial schools.	worse than	6	4	9	The AAC plan moves polygon 147, by itself, from Centennial schools to LFES and Wilde Lake schools, leaving children already in school in this polygon to move on with a tiny cohort of less than a dozen students into their middle and high schools.	Since the largest overcrowding problem appears to be at CLES, I suggest that, if any redistricting happens to polygon 147, it be to Northfield ES, but keeping BMMS and CHS, as there is already a group of students following this progression.
2137	8/11/2017 1:40			HowardHS	4	equal to	6	7	8		better than	6	7	8		
2138	8/11/2017 1:41			HowardHS	5	equal to	6	7	8		better than	6	7	8		
2139	8/11/2017 1:41	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	13	6		My child was once going to centennial high school, based on the last Plan, with all of his friends from elementary and middle school. Now he is going to Wilde lake, without his friends, and is known for drug and illegal activity within the students.	equal to	11	11			My older child has also went to centennial from the same house we reside in now. He received an amazing education there and I would like my younger children to go there too.
2140	8/11/2017 1:41	ClarksvilleES			5	better than	1	4			better than	4			This plan makes much more sense for our polygon 1185. It is 0.7miles from our polygon to CES yet we were being switched to an elementary school 20 min away. It is possible for some kids in our neighborhood to walk to school.	Much better than feasibility study that was poorly thought out.
2141	8/11/2017 1:42	PointersRunES			1	worse than	4			We currently are within 1 mile of our elementary school, Pointers Run Elementary School (PRES). The new proposed elementary school is 5 miles away. Kids will lose their friends living nearby but still going to the PRES.	worse than	5				
2142	8/11/2017 1:42	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	
2143	8/11/2017 1:42			HowardHS	1	worse than	13	7		Actually, this plan affects my child negatively. As my child prepares for college, this plan has the potential to negatively impact her course choices (number and quality of AP offered classes) and teacher relationships (rapport with teachers).	worse than	13			Actually, this plan affects my child negatively. As my child prepares for college, this plan has the potential to negatively impact her course choices (number and quality of AP offered classes) and teacher relationships (rapport with teachers).	
2144	8/11/2017 1:43	AtholtonES	HammondMS		2	worse than	14	14		My son already attends Hammond ms. Changing schools halfway through his middle school journey would be disruptive to his learning.	equal to	14				
2145	8/11/2017 1:43			HowardHS	4	equal to	6	7	8		better than	6	7	8		
2146	8/11/2017 1:43		DunlogginMS	CentennialHS	1	worse than	4	7	13	The AAC plan puts polygon 219 in the Dunloggin neighborhood to attend Wilde Lake HS rather than the current assigned school, CHS. Wilde lake is 9 miles away while CHS is 3 miles away. The plan will split the established Dunloggin neighborhood in half.	worse than	4	7	13	The Feasibility Study keeps the established Dunloggin neighborhood together. We live in Ellicott City, we should attend an Ellicott City School. The distance to attend Wilde Lake High is 3 times further than CHS.	Due to distance and sidewalk accessibility, it is unsafe for our kids to bike from Ellicott City to Columbia from our home. We are a working family with kids we participate in after school activities, the distance to Wilde Lake is 3 times further.
2147	8/11/2017 1:43	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	worse than	7	6	4	East Columbia Schools neither under nor over capacity. It would make better sense both economically and the health of our communities concerned to leave them as they are. Thank you	worse than	7	6	4		I would like to thank everyone who is working on this rather delicate and hard issue. And I do hope you will keep the communication channels between the stake holders and the decision makers open continuously.
2148	42958.07241	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	13	6	5	My English is not good. But I want my kids can have better life . And study when I buy the house because the school , I work hard my kids get better location to live and learn. If I don't care how the school is it ? why I have to pay so much my house .	worse than					
2149	8/11/2017 1:44	PointersRunES			1	worse than	4				worse than	13				
2150	8/11/2017 1:45		MountViewMS	MarriottsRidgeHS	3	equal to	11									
2151	8/11/2017 1:45	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS may quickly become overcrowded, potentially more so than Howard HS.

2152	8/11/2017 1:47	NorthfieldES	DunlogginMS	CentennialHS		worse than	7	7	6	You are moving Dunloggin kids 9.5 miles to a school that is sending kids to River Hill. it not right for the kids across the street to go to another school that they have grown up with.	worse than	7	7	7	If this plan is put in place I will vote ever current school board member off the board. And I always vote.	stop the plan now, you cant break Dunloggen just because you think we are just a bunch of old people. We are now raising grandkids in our homes and they should go to the same school as all three of the generations.
2153	8/11/2017 1:48	TalbottSpringsES			2	worse than	9			We moved this past spring and made sure we stayed within our sons school district so he wouldn't have to change schools. We love Talbott Springs and its diversity. We don't want it to become even higher low income school. Who would that benefit?		14				
2154	8/11/2017 1:49	ManorWoodsES	MountViewMS			equal to	6	7			better than	6	7			
2155	8/11/2017 1:49		BonnieBranchMS		5	better than	4	7	9	* The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county until new schools can be built. *Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion	better than	4	6	7	I strongly support the AAC draft : -keeps polygon 95 to Howard HS which is walking distance and less than 1 mile -keeps 95 at Howard and reduces travel -moves fewer students overall -improves feeds between levels of schools and maintains IES/BBMS/HHS	* The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county until new schools can be built. * The AAC Draft plan improves the feeds from elementary to middle and from middle to high school
2156	8/11/2017 1:49		ClarksvilleMS	RiverHillHS	3	worse than	4	6	14	Why split the students from CMS, they should all go to River Hill High School.	worse than	6	4	12	The draft plan fixed problem of the current district. CMS would feed into RHHS, not 2 separate schools.	I prefer the Feasibility study proposal. My school district would not change, but my kids would be with their friends from middle school in high school.
2157	8/11/2017 1:50	FultonES	HammondMS		5	equal to	14				better than					
2158	8/11/2017 1:50	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	9	12		worse than	4	7

2160	8/11/2017 1:51	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	7	6	My neighborhood is LESS than 1 mile from Mt View MS and Marriotts Ridge HS. The AAC draft plan puts our kids on Rt. 32, a dangerous road, and during traffic, on a school bus with no seat belts. To jeapordize the kids unnecessarily is irresponsible.	worse than	4	6	7	In addition to the reasons above, the Mt View & Marriotts Ridge schools are a community. To move students who are starting 8th grade at Mt View (2017-18) and go to Glenelg the next year breaks up that community and is detrimental to their well being.	Forcing kids who live so close to Mt View and Marriotts Ridge is irresponsible. Also, the kids currently at Mt. View are already part of the Marriotts Ridge Community, they need to remain. The AAC alternative plan was poorly introduced for consideration.
2161	8/11/2017 1:51	NorthfieldES			4	better than	6				better than	1				
2162	8/11/2017 1:52			HowardHS	5	equal to	7	6	8		better than	6	7	8		
2163	8/11/2017 1:52			CentennialHS	1	worse than	7	13	6	This would be devastating to the Dunloggin community!!!!!!!!!! This would essentially split the neighborhood in half, which would destroy the housing prices. From Centennial to Wild Lake????? Are you kidding????????????	worse than	7	13	6	This would be devastating to the Dunloggin community!!!!!!!!!! This would essentially split the neighborhood in half, which would destroy the housing prices. From Centennial to Wild Lake????? Are you kidding????????????	This would be devastating to the Dunloggin community!!!!!!!!!! This would essentially split the neighborhood in half, which would destroy the housing prices. From Centennial to Wild Lake????? Are you kidding???????????? I will fight you tooth and nail.
2164	8/11/2017 1:52	NorthfieldES			3	equal to	6	7		For our Northfield community the AAC plan helps eliminate the small feed to WLHS (thank you!). However, the new boundaries break up neighborhoods, and send small groups of NES students to different MS/HS.	better than	7			The AAC draft improves in 2 areas: increases percent attending WLHS to reduce small feed and fixes Feasibility Study issue with splitting homes off Gray Rock (a 2 mile, residential road, where all student go to NES) into THREE high schools.	Please consider keeping all students who attend NES then BMMS together for High School. And keeping all students who attend NES then Dunloggin together for High School. Either of those 2 groups of students could be shifted to MRHS.
2165	8/11/2017 1:52	VeteransES	DunlogginMS	CentennialHS	4	equal to	6	7	4	Minimal impact of school zone is important since when people move school zone is really main factor.	equal to					
2166	8/11/2017 1:53			AtholtonHS		worse than				Even though the plan is better for Atholton, there are still many feeds that don't seem to make sense. The minimum number of kids should be moved. I don't think it is necessary to redistrict on such a massive scale at the high school level.	better than	9	10		Much better than the feasibility study! Thank you for reducing the number of students moved and for maintaining Atholton mostly intact. Atholton has solid demographics (matching the county) and is not over or under crowded. Leave it alone.	Please let rising juniors stay. Sophomores too. In fact, high school districting should be delayed completely since it seems like the models can't predict very well since last year we were told no high school redistricting would be needed through 2020.
2167	8/11/2017 1:53	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	7	7	your plan shows favoritism by people wanting to make their conditions better	worse than	7	7	7	not a fair plan to bus kids 9.5 miles instead of 4.5 miles just to balance your move of Wilde lake kids to River Hill.	Just make the schools bigger, we give you allot of tax money. If this study was the way you spend our money and then you came up with junk you should be removed from office.
2168	8/11/2017 1:54		DunlogginMS		1	worse than	4	7	13	We live in Ellicott City and my son should attend a school in Ellicott City. Not Wilde lake HS that is 9 miles away in Columbia. The commute is long and will be impossible for my son to bike safety to and from school due to the lack of sidewalks.	worse than	4	7	13	The feasibility study plan keeps the Dunloggin neighborhood intact. It is unreasonable to expect our kids to commute to wild lake high that is 3 times further away than the current high school, CHS.	This plan does not achieve the goal of policy 6010.
2169	8/11/2017 1:54	PointersRunES				worse than				I think its not a good idea to move the area that is a mile away from current to different school. It will be huge commute impacts to working parents and toll on the kids commuting further increasing there travel time.	worse than	4	4	4	Not good to move the current #1189 which is less than a mile away from PRES to Dayton Oaks ES increasing the commute time for both parents and kids	
2170	8/11/2017 1:54	GuilfordES			4	better than	12	4	8		better than	4	6	10		
2171	8/11/2017 1:55		BurleighManorMS		1	worse than	4	7	6	Polygon 214 is closer to CHS than polygon 153. Polygon 214,153,1184 are part of same neighborhood. It is not in alignment with policy 6010 to return polygon 153 and 1184 to CHS and redistrict 214 to MRHS. 214 should be returned to CHS	worse than	6	7	13	The neighborhood comprising of polygon 214 ,153,1184,154and 2154 were further broken down by returning polygon 153 and 1184 back to CHS and redistricting the remaining polygon to MRHS lowering the feed from BMMS to MSHS in the neighborhood	polygon 214 had submitted two proposals on july 31. Please consider them in the best interest of children Polygon 214 has only 10 children and does not adversely impact as far as overcrowding is concerned
2172	8/11/2017 1:55			HowardHS	1	worse than	1	7	6		worse than	14				
2173	8/11/2017 1:55	ElkridgeES	ElkridgeLandingMS	HowardHS		worse than	6			This plan doesn't fix the issue that ELMS kids get split up when they go to high school. Currently its a 80/20 split. Now more like 50/50. But why not pick all polygons east of Rte 1. It seems like you just picked enough to offset the Timbers of Troy	worse than	6			ELMS needs to go to one high school. Ideally we need a new high school. The perfect spot is off on Landing Road. There are 90 acres available if you do your due diligence. If not a new high school then put all the kids to Long Reach or Howard.	I encourage you to do some more work and try to create a plan that puts all of the ELMS kids in the same high school. We are a very close community and our kids go to school together for 9 years then get split up. Not fair at all. Make it better. Thx.
2174	8/11/2017 1:55					worse than	6	6	6		worse than	14	14	14		Arbitrary and harmful
2175	8/11/2017 1:56	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7			better than	6	7	8	If I understand correctly, over a thousand less students are impacted by this study? Nobody wants to move but if the number of students moving can be reduced and more feeds are kept together, this plan makes more sense.	It would be helpful if the summary of the meeting and maps was available for review.
2176	8/11/2017 1:57	WestFriendshipES			1	worse than	13	4	7	The ACC draft plan moves my children from Marriotts Ridge HS to Glenelg HS. My spouse and I specifically purchased a home in Marriotts Ridge HS district due to its high state ranking and in a convenient geographic location to the ES/MS/HS.	worse than	13	4	2	Same as above. The plan unnecessarily switches my children from the ES/MS which feeds Marriotts Ridge HS. We paid a higher cost for our home to be convenient located to the ES/MS and Marriotts Ridge HS and to be in the higher ranked HS district.	If the feasibility study was sufficient to handle the rearrangement of students in high schools, why does the AAC feel it necessary to further move children into new MS/HS?
2177	8/11/2017 1:57	GormanCrossingES			5	better than	10	7	1

2179	8/11/2017 1:58	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	13	13	13	The county expanded to the west....build a school out west and leave our property values alone. 10/10 Howard HS to 6/10 Long Reach HS...no thank you....	worse than	2	6	8	How many schools received capital improvements this Summer (to expand efficiency of student population)?	Do not focus on shifting based on who will bitch and moan the least. Have a spine!!!
2180	8/11/2017 1:59	IlchesterES	BonnieBranchMS	HowardHS	5	better than	4				better than	4				
2181	8/11/2017 2:00		ClarksvilleMS	AtholtonHS	2	worse than	6	7			worse than	6	7		I believe the AAC plan divides neighborhoods and hence children who have attended elementary school together. The AAC plan impacts students going to MS and HS	First let me say thank you. An undertaking such as this will never please everyone. While I feel as though I am negatively affected by either plan, I understand why changes are necessary. Having to pick, the original plan, Feasibilty Study is better.
2182	8/11/2017 2:00	PointersRunES	ClarksvilleMS		4	better than	6	1	1		better than	6			Seems like a much better way to keep kids grouped more evenly together	
2183	8/11/2017 2:02	FultonES	LimeKilnMS	ReservoirHS	1	worse than	3	4	7	My kids love Fulton ES and it is walking distance - Ponters Run ES is very far away. This plan makes no sense.	worse than	3	4	7	My kids love Fulton ES and it is walking distance - Ponters Run ES is very far away. This plan makes no sense.	
2184	8/11/2017 2:03	WaverlyES			4	better than	6	6								
2185	8/11/2017 2:03	BellowsSpringES				better than	7	8	12		better than	6	12	8		Clearly we need another high school and another middle school...otherwise we will just continue to shuffle students from place to place every few years.
2186	8/11/2017 2:06		MountViewMS	MarriottsRidgeHS	5	better than	6	10	14		better than	6	7	14		
2187	8/11/2017 2:06	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	13				worse than	13				
2188	8/11/2017 2:07	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, 2065 walk to Howard HS. Walkers reduce bus and fuel cost which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to OMMS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for student health, community involvement and the environment.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to OMHS does not provide long term solution because OMHS will also become overcrowded. Possibly worse than Howard HS.
2189	8/11/2017 2:07															
2190	8/11/2017 2:07															

2191	8/11/2017 2:08	NorthfieldES			1	worse than	7	13	6	Based on community knowledge and public school ratings & rankings, this proposal would, at the expense of mine and other children, redistrict our children from a highly successful high school to a less than standard high school (Centennial to Wilde Lake)	worse than	7	13	6	The well established Dunloggin neighborhood is sought after for its community and great schools. By splitting up the children to attend a less than stellar high school in Howard County diminishes this community's appeal.	I feel as though this proposal is targeting, at the last minute, the well-established and cohesive Dunloggin community for a quick fix" to systemic problems at the expense and sacrifice of the children's opportunity for great education."
2192	8/11/2017 2:08	PointersRunES	LimeKilnMS	RiverHillHS	1	worse than	6	7	9	I'm concerned about your plan for River Hill high school. My concern is that your plan calls for accepting too many total students from too far away into River Hill which will adversely affect the ability of the school to provide top-quality education	better than	6	7	9	I believe the Feasibility Study does a good job of not moving kids as much between schools when it is not necessary.	
2193	8/11/2017 2:08	ElkridgeES			1	worse than	9	6	4	I do not believe this new plan will help to alleviate the overcrowding at the ES, MS or HS levels. In order to reduce overcrowding a new school needs to be considered for the area.	equal to	6	7	9		
2194	8/11/2017 2:09	NorthfieldES			1	worse than	7	6	4		worse than	7	6	4		
2195	8/11/2017 2:09															
2196	8/11/2017 2:10			CentennialHS	1	worse than	4	14	12	Will decrease overall test scores even though some schools may have increase in scores, not worth the sacrifice. This will CRIPPLE the CHS it's Academic team, to the point that they will no longer be a threat. This plan is asinine and the errors are many.	worse than	14	14	12	This is a disruptive plan in many ways. Not only many of my friends will go to different schools, but also our communities are divided. The proposal has many flaws and will potentially negatively impact our community.	This will split many friendships, though I doubt that this was the consideration at county level. This plan will ruin HCPSS!
2197	8/11/2017 2:10	PointersRunES			5	better than	1	6	10	Polygons 2114 and surrounding are well thought out. This plan relieves Reservoir, and efficiently uses River Hill. Plus, our kids will stay with their friends more consistently. Thanks AAC! Great work!	better than	1	2	6	Polygons 2114 and surrounding are well thought out. This plan relieves Reservoir, and efficiently uses River Hill. Plus, our kids will stay with their friends more consistently. Thanks AAC! Great work!	Please release the feed and capacity data. They will help inform our residents and help them provide more useful and actionable feedback. Great work, AAC!
2198	8/11/2017 2:11	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.					Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.	It is important to us that our children attend the schools closest to our home. Both Thunder Hill Elementary and Howard High School are within one mile of our home, Long Sky Ct, and within walking distance.
2199	8/11/2017 2:11															
2200	8/11/2017 2:12	CentennialLaneES			1	worse than	4	5	13	My son attends a private aftercare program near CLES. Because of this change, I will have to look for new day care and based on my current assessment, I will have to spend more based on school timings and availability of after care.	worse than	5	9	6	I am from Asian Indian background. My son found it difficult to mix socially. Based on the CLES culture and programs available his social skills have improved. By moving to another school now, he is again going to have to build his group of friends.	Based on my comment above, my family has to face enormous pressure. We bought a new house and moved in recently. Because of this move, I will have to suffer significant financial loss. I will have to sell my house and move so I can stay in the same school
2201	8/11/2017 2:12			AtholtonHS	5	better than	1	6	2	Great job equalizing across the county!	better than	1	6		Great job equalizing across the county!	
2202	8/11/2017 2:12			AtholtonHS		worse than	6	7	13		worse than					
2203	8/11/2017 2:14	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	worse than	9	13		TSES is an amazing school that is racially and socioeconomically diverse. The plans destroy all diversity at TSES and replace it with too high a concentration of FARMs students and no diversity. (My children would be leaving this school.)	equal to	9			Again, the newest plan leaves TSES with no diversity and a high concentration of FARMs students. My children would go from walkers to bussers.	TSES is being rebuilt and the new school will have a higher capacity. TSES needs to be left out of this round of redistricting to remain a culturally, racially, and socieconomically diverse school.
2204	8/11/2017 2:15	FultonES			1	worse than	7	4			worse than	7	4			
2205	8/11/2017 2:16	CentennialLaneES			1	worse than	5	4	13	I moved to this community for current school. By this move, I am going to have to sell and move again to stay in the school. If more of us do the same, the economy of our region is going to suffer badly. I will have to take significant loss to move.	worse than	5	4	13	Too much financial loss.	We need to keep moving because of your poor decision. My son needs the programs currently offered by CLES.
2206	8/11/2017 2:16	BushyParkES	GlenwoodMS	GlenelgHS	1	worse than	13	13			worse than	13				
2207	8/11/2017 2:17	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7			worse than	7	9			
2208	8/11/2017 2:17		MurrayHillMS	AtholtonHS	3	worse than				I still think this plan moves too many kids. Would prefer that high school districting wait. Parents were told last year (and as recently as the spring) that high schools would not be affected by this years redistricting.	better than	9	10		This plan is better than the Feasibility Study because it moves less kids and it preserves Atholton. The F-Study sacrificed AHS for no reason...removing 65% of the students. This should not happen at any school.	Do not redistrict high school students this year. If you must, phase it in so current students can finish out at their current school
2209	8/11/2017 2:17	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4		worse than	6	7	4		
2210	8/11/2017 2:18			CentennialHS	1	worse than	7	4		Moving from Centennial to Wilde Lake would tear friendships and disrupt my child's education. Also, it would take away the convenience of being close to the school. It is simply not necessary to move my polygon.						
2211	8/11/2017 2:20		BurleighManorMS	CentennialHS	1	worse than	13	13	13	We are much closer to the current schools and then proposed new schools. Also paying 60% of property tax for maintaining quality education in these schools. Transportation time more for our kids to Centennial vs the other schools that they have proposed.	worse than	13	13	13	Areas that are made of contagious communities or neighborhoods Distance from community to new schools is more and the schools are not contagious or near us. This change does not address any real over-crowd and equity issues as what is intended.	We paid big money for the new houses in this new neighborhood for the schools, and immoderately moving us to much worse schools would hurt our community and property values in ways no other communities would see.
2212	8/11/2017 2:20		BonnieBranchMS		1	worse than	13	13	13		worse than	12	12	13		
2213	8/11/2017 2:21	HammondES	HammondMS	AtholtonHS	4	better than	1	6	12	It's hard to tell just from looking at the maps, but I think the plan evens out capacity utilization. I appreciate that it has less dramatic moves between schools than other options.	better than	8	13	7	This seems much better than the Feasibility Study. I was concerned about the massive changes to Atholton HS in that plan.	I'd like to be able to see some automated assessment numbers for different plans being considered.
2214	8/11/2017 2:22	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	13	4		Polygon 224 is less than a mile from Mount View and Marriotts Ridge. We are on the east side of 32. Our neighborhood does not touch route 32. It makes no sense to move us from our neighbors. Our daughter is on the bus to Mount View for 2 minutes.	worse than	13	4		Polygon 224 is less than a mile from Mount View and Marriotts Ridge. We are on the east side of 32. Our neighborhood does not touch route 32. It makes no sense to move us from our neighbors. Our daughter is on the bus to Mount View for 2 minutes.	If you are not familiar with our neighborhood on Saint James Road (polygon 224), please drive by and see how close we are to Mount View and Marriotts Ridge. Please do not move us from our schools.
2215	8/11/2017 2:23	JeffersHillES	BonnieBranchMS	HowardHS	4	equal to	11	14	14		better than	14			I moved to this area to enroll my kids in specific schools. The feasibility study plan is going to negatively change the schools my kids are joining. In addition, the feasibility study plan will negatively impact my property value.	
2216	8/11/2017 2:23	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	5	6	7	Location and learning!!!!!!!! That why I work hardddddd to get river hill school Thankssss	worse than	6	5	7	Same	
2217	8/11/2017 2:24	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	6	1	7	My kids in Polygon 2114 will be very happy to stay with more of their friends as they grow up. This will create much smoother transitions	better than	1	6	7	We are very happy to see our children transitioning from ES to MS to HS with more of the same students. I'm also relieved that the schools they will attend will be less crowded.	
2218	8/11/2017 2:25	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	13	Polygon 1189 - Adversely impacts morning schedule stressing kids and parents. New proposed school is on high traffic lanes. Clarksville ES is a better alternative since it is only 2 miles away. AAC draft plan will negatively affect the 1189 community.	worse than	4	13	9	AAC draft plan makes the proximity of home to school worse increasing the rush hour commute and stress for parents and students. Elementary kids need to be as close as possible to the close. Feasibility study is far better than the AAC draft plan.	Redistricting should be carefully thought out since it impacts the lives of many folks especially elementary kids. Folks move into communities due to schools and any forced changes break the trust we have in the local school boards and governments.
2219	8/11/2017 2:25	PointersRunES	ClarksvilleMS		1	worse than	13	4	6	The proposed pan negatively impacts my child. Instead of going to the neighborhood school, my child will have to travel 5miles further everyday in bad traffic (at least 30min extra each way). Shouldn't children be sent to their neighborhood schools?	worse than	4	6	13		
2220	8/11/2017 2:25			CentennialHS		worse than	4	7	6		worse than	4	6	7		
2221	8/11/2017 2:25		BurleighManorMS		1	worse than					worse than					
2222	8/11/2017 2:25	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	equal to	11	4	7	I am pleased that 1185 has not been impacted by the proposed Draft. It will allow my child to continue to attend Clarksville ES.	better than	4	7	11	The Feasibility study would have moved my child to a school much further away from home. This would have required him getting up earlier and prepared for school, and then sitting on a longer bus ride and getting home later - separated him from his friends.	
2223	8/11/2017 2:26	CentennialLaneES	BurleighManorMS		1	worse than	13			The schools are lot more closer to home in the current plan and the Draft plan will make it difficult for children who rides bikes or walks to school. It will separate kids in our neighborhoods from their friends in our closer/surrounding neighborhoods.	worse than	13	4		The Feasibility plan doesn't require reassignment and the Draft plan will make it difficult for children who rides bikes or walks to school. It will separate kids in our neighborhoods from their friends in our closer/surrounding neighborhoods.	We moved our children from Clarksville elementary to Centennial lane and Burleigh Manor. They already went through a tough time adjusting to new school and making new friends. Moving again to another new school will have a huge negative emotional impact.
2224	8/11/2017 2:26	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	The plan to move polygons 150, 4150 and 1150 from Centennial HS to Wild Lake HS is unacceptable. It splinters our neighborhood, fractures our community, and greatly devalues our property. We are far north from WLHS and impacted by traffic to/from DC.	worse than	7	4	13	The AAC makes no sense at all for polygons 150, 4150 and 1150. It's incomprehensible that our community could be so negatively impacted based on one AAC meeting on 8/8/17. The meeting from 8/8 (on-line for viewing) offered no insight into the decision.	It's inconceivable to think a survey, with such consequences to the community, must be completed within a week's time. This is a popular month for vacation. I know many neighbors who are negatively impacted, but are not in town to respond by 8/15.

2245	8/11/2017 2:37	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8	The feasibility study made no sense. The AAC plan makes sense. Thank you AAC members for your thoughtful analysis!	better than	6	7	8	Great suggestions! Totally support the current AAC plan!!	
2246	8/11/2017 2:37		DunlogginMS	CentennialHS	1	worse than	7	13	4		worse than	4	13	7		Maybe if the county hadn't permitted the sale of a huge piece of land on Old Annapolis Road to a developer resulting in MANY more homes that feed into Centennial... consideration for those homes to feed into Wilde Lake HS closer for them than Dunloggin
2247	8/11/2017 2:37	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	3	6		worse than	14	14	14		
2248	8/11/2017 2:39	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	7	4	13	The plan does not make sense. Our neighborhood is being moved out of our neighborhood(closest HS being Atholton and closest ES being Clemens) and moved to River Hill. Meanwhile River Hill neighborhoods are coming into our neighborhood.	worse than	7	4	13	Again, our neighborhood is being pulled out of our community.	This new plan seems very skewed towards maintaining Atholton's current district.
2249	8/11/2017 2:39	CentennialLaneES			1	worse than	4	7	9	Distance from community to proposed schools is further away and are not contiguous. Kids planned on biking to school and this is not possible with the proposed school and would be a safety issue crossing busy roads and routes if attempted to another city.	worse than	7	4	9	The published feasibility study makes no mention of moving of students from CLES and polygon 147. Under what factual basis is the proposed change based on. This is a new community that is 2 years old and was zoned for CLES.	Polygon 97 is not within the contiguous CLES region. Consideration should be placed in moving polygon 97 (which has more project students than 147) from CLES to northfield which according to the feasibility study has the lowest utilization of the region.
2250	8/11/2017 2:39			MtHebronHS	1	worse than	4	8	7		equal to	4	7	8	Please, do not make students who are currently walkers into bus riders. Every student should attend the school that is the closest geographically. Bussing 1/2 our neighborhood 25 minutes away when they current walk MAKES NO SENSE.	
2251	8/11/2017 2:39	RockburnES	ElkridgeLandingMS	HowardHS		equal to	6	7	8		better than	7	8	6	YAY AAC members!! This is great. We fully support your proposal. Thank you!!	
2252	8/11/2017 2:40	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	worse than	7	5	6	TSES has ESM model and most students will loose the world language they have studied since Prek. The pta is well established and we have and maintain a family/ community atmosphere which will be disrupted.	worse than	2	4	1	We have a new school being built so no need to redistrict TSES.	Prek ESM PTA Title 1
2253	8/11/2017 2:40				1	worse than	14	14	14	The draft is arbitrary and harmful!	worse than	14	14	14		
2254	8/11/2017 2:40	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	2	3	to be fair with fellow polygons and best utilization of new capacities, move us to wilde lake schools	worse than	1	2	3	to be fair with fellow polygons and best utilization of new capacities, move us to wilde lake schools	
2255	8/11/2017 2:41	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13	9	4	Our community located on Old Annapolis road which is very near to Centennial schools Since the proposed schools (Wild Lake schools) are far from our community, it affects my daughter. Per proposed plan, the Polygon 147 is cut off from near communities.	worse than					
2256	8/11/2017 2:41		BurleighManorMS		1	worse than	7	13	4		worse than	4	13	7	Feasibility study (June 2017) showed no change in our schools and the AAC draft plan completely changed and has negatively impacted all the residents in my area.	The AAC draft plan very negatively impacts our child's well-being and education, and our entire family's schedule. We do not understand how our community is being redistricted from a very close school area, to a very much further away school district.
2257	8/11/2017 2:41	ThunderHillES	OaklandMillsMS	OaklandMillsHS	5	better than	6	7	14		better than	6	7	4		
2258	8/11/2017 2:41	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7	We live in 1150 area, strongly oppose the AAC plan to change Centennial HS to Wild Lake HS	worse than	4	6	7	The changes made in AAC plan compared to The feasibility study does not make sense.	The changes should not affect so many people and so many families. It is unfair to let the students who lives close to his/her HS to go to a far away school.
2259	8/11/2017 2:42		ClarksvilleMS	AtholtonHS	5	equal to	4	8	7		better than	4	8	5		
2260	8/11/2017 2:44		BurleighManorMS	CentennialHS	1	worse than	4	7	13		worse than	4	3	7		
2261	8/11/2017 2:44				1	worse than	6			Keep feeding school kids together thru HS						those of us in this corner of the county should continue to be fed into Howard, unless a new Elkridge HS will be built in the very near future
2262	8/11/2017 2:45		DunlogginMS		1	worse than	7	2	4	What continues to rankle is the bizarre manner in which attendance areas are drawn. My child & his peers will be bused to a HS located further away than two closer options. Students assigned to CHS drive around & through my neighborhood. Confusing!	equal to	7	6	2	I understand redistricting efforts are extremely challenging.	I see little evidence that projections are being made for WLHS population. I also don't support breaking up the NES/DMS attendance area as previously proposed. What is the broader rationale for these moves? To what extent do demographics play a role?
2263	8/11/2017 2:46			MtHebronHS	1	worse than	4			With all due respect, this new plan is absolutely crazy. This proposal will be distructivd to the older kids who have forged real friendships and people who can literally hear the marching band from their yard. Don't do this to them yet again.						With all due respect, the only people that this benefits are elem school parents whose kids will probably not have the same friends in two years but who will hate this proposal when their kids cannot participate in any sports that far away.
2264	8/11/2017 2:47		BonnieBranchMS		5	equal to	6	4	7	My children would continue go to a high school they can walk home from if they need to and can stay with the kids they have made friends with from elementary into middle and then on to Howard High.	better than	4	6	7	Better than the Feasibility study. Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES.	
2265	8/11/2017 2:47	PointersRunES			4	better than	1	6	2	My kids in Polygon 2114 will be so happy to stay with more of their friends as they grow up. Thank you!!	better than	1	6			The Polygon 2114 plan really helps relieve the stress at Reservoir while allowing us to have a better feed for keeping our kids with friends going up through the school system. I do hope this goes through.
2266	8/11/2017 2:47	PointersRunES			1	worse than	6	7	13	We are in Clarks Glen (polygon 1189). We are really close to Pointers Run ES so it makes no sense for our kids to travel so much further to Dayton ES. Then they will return to Clarksville Middle and likely be split from friends they make in ES.	worse than	6	7	13	We are in Clarks Glen (polygon 1189). We are really close to Pointers Run ES so it makes no sense for our kids to travel so much further to Dayton ES. Then they will return to Clarksville Middle and likely be split from friends they make in ES.	Busing kids from polygon 1189 to Dayton ES will increase costs.

2267	8/11/2017 2:49	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	The plan to move polygons 150, 4150 and 1150 from Centennial HS to Wild Lake HS is unacceptable. It splinters our neighborhood, fractures our community, and greatly devalues our property. We are far north from WLHS and impacted by traffic to/from DC.	worse than	7	4	13	We moved to Ellicott City (not Columbia) by choice. We searched for our home, with education as the number one priority. We selected Dunloggin because of the assignment to 3 outstanding schools, most importantly, Centennial HS. AAC draft is unacceptable	The 8/8 meeting on-line offers no insight into the decisions (no microphone for participants). The 8/8 meeting impacts many people who are away on vacation and have no idea their schools could change. MUST postpone vote by 8/15 to be fair to stakeholders.
2268	8/11/2017 2:49	PointersRunES	LimeKilnMS		5	better than	7	1	6	Great job AAC! It looks like utilization across all the schools is much more balanced. 2114 looks really good. We are thrilled our kids will stay with their friends!!!	better than	6	7	6	AAC draft plan is much appreciated by keeping feeds consistent.	Spreading the population equitably and keeping feeds consistent....AAC plan!
2269	8/11/2017 2:50	PointersRunES			5	better than	6	1				1				This plan looks very forward thinking. Effective Movement of polygons to alleviate oncoming stress on high schools like reservoir HS.
2270	8/11/2017 2:51	NorthfieldES	DunlogginMS	WildeLakeHS	4	better than	1	2	4		better than	1	2	6		
2271	8/11/2017 2:51	WestFriendshipES			1	worse than	4	3	8	Travel time will be doubled (1 hour/day to 2 hours/day). Frequent changes will negatively effect our kids mental and emotional health. Can save the proposed $4 mil to upgrade WFES septic system.	worse than	13	4	6	AAC draft plan moves middle and high schools also wasting their precious time in commute. Small feed from BPES, MVMS and MRHS is acceptable to us.	Our Polygon # is 232
2272	8/11/2017 2:51	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	6	13	9	1) It impacts my daughter emotionally as she strongly developed bondage with her friends.And she is worried about redistricting her to different school. 2) Only Polygon 147 is impacted due to this plan as we feel we are cut off from community.	worse than	7	9	13	1) Does not considers demographic factors. 2) IN 3 years my daughter will be in her 3rd school which ends up to no friends which they can discuss about school work and plan for next year.	
2273	8/11/2017 2:51	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	14	14	My current location is too far to the elementary school in the draft plan.	worse than	13	14	14		
2274	8/11/2017 2:51	ThunderHillES			1	worse than	4	3	14	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.						Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2275	8/11/2017 2:52	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	3	8	Current school is only 1.2 miles from our community and the proposed school will take almost 1 hr in the bus each way. With this plan WFES will be at 120% within 3-4 years requiring septic upgrade of $4Million. No considerations for kids mental health.	worse than	13	4	9	Feasibility Study is better than the AAC draft plan as our Middle and High School are not affected. Middle and High Schools are 1.5 miles from our home resulting in much shorter bus rides. We are fine with the small/weak feed from BPES to MVMS and MRHS.	Our polygon number is 232. What are the chances that our kids after this massive redistricting that they will not be moved again in the near future?
2276	8/11/2017 2:53	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	It doesn't make sense for Polygon 1189 to move from Pointers Run ES to Dayton Oak. It easily add 30 minutes one way in the rush hour currently. With county's upcoming effort to widen 32 west, it will further increase the commute and burden the traffic.	worse than	7	3	9	With current plan, polygon 1189 will move to Dayton Oak. Then their friends will stay in Folly while we move back to Clarksville MS. It clearly is against the vision of 'keeping kids together through K to 12'. It will also increase HCPSS budget.	Our community has closer connection with PRES and River hill region. Moving Polygon 1189 from a elementary school which is 1 mile away really doesn't make sense. Furthermore, it will impact our before and after school care arrangement significantly.
2277	8/11/2017 2:53	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	13	3	Not practical; high operation cost, but also RHS is high performing school, and it will negatively impact house prices and affect economy, in futile affecting families.	worse than	5	13	4	Kids need to be close to their homes, for healthy neighborhoods. Improve or build more schools for sure, but don't rezone is such futile ways.	Families have invested money and time in consideration of schools. This will affect the trust families can have on school system.
2278	8/11/2017 2:54		MountViewMS	MarriottsRidgeHS	1	worse than	4	3	8	Poly 232 Proposed school is farther away than current & In proposed plan kids will spend more than an hour on the bus. We are being replaced by Turf valley comm students and to accommodate them school needs 4 million $ upgrade. Kids moved 6 month ago.	worse than	4	8	3	Poly 232 - Feasibility study is better as only ES is changing , kids will not spend extra time in commute in prime time of education that is High and middle school. All Current school < 2 miles away. We are absolutely FINE with small feed BPES to MVMS.	
2279	8/11/2017 2:54	AtholtonES	HammondMS	HammondHS	1	equal to	7	4	6	Both proposals seem to be a band-aid to a growing problem - when will the newest high school be ready? More schools need to be built in the more densely populated parts of the county esp. in the Elkridge area!	worse than	7	4	6	Columbia was founded on the principles of diversity which is one of the reasons we moved to Columbia even though we could afford to move to Western Howard County. You are breaking up the kids of Kings Contrivance -this is how we celebrate Columbia's 50th?	My child will walk over 1000 miles to and from high school her 4 years – there should be a MORATORIAM on kids within walking distance to a school should not be redistricted from that school! Support Healthy Howard and keep the obesity epidemic in check!
2280	1/7/1900 0:00	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	13	Draft Plan problems: - Creates a new island" feeding Wild Lake HS (Eg 1056	better thanworse than9	58	etc) - Shifts a large number of students in/out of Wild Lake HS (Eg Harpers Choice) - Increases mileage traveled by HS students in the RHS	WL	and Atholton HS areas"	2
2281	8/11/2017 2:54	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	6	7		worse than	4	6	7		
2282	8/11/2017 2:55	PointersRunES			1	worse than	13	4	7	With the draft plan, my child will have to spend almost 1 hr in school bus daily. While the current school is literally 2 minuets away from home.Don't understand why move us to a farther school. It just doesn't make much sense to me!	worse than	3	6	13		The draft plan will affect my work schedule negatively as traffic from work to Dayton Oak ES is not smooth. Traffic is very heavy during afternoon rush hr. It will put a lot of stress on parents like me.
2283	8/11/2017 2:56		PatapscoMS	MtHebronHS	1	worse than	3			Biased in some locations.						
2284	8/11/2017 2:56		PatapscoMS		1	worse than	7	4		New homes should go where seats are available instead of disrupting existing communities.	worse than	1	8	3		
2285	8/11/2017 2:56	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	8	9	County's zoning approved the construction of Centennial Overlook within the Centennial School Districts. We just bought a house simply because of school districts. With this change, we will dumped into a school with poor student performance.	worse than	2	4	9	Feasibility plan was consistent with County's zoning approval for our development. In less than 3 years, other County entity is pushing us into a poor performance school shattering dreams of our kids who moved mainly to be in these school districts.	Moving 1184. 153 from CHS to MRHS made sense because of their on-par school performance char. Think about moving kids from 10-point schools down to 5/6-points schools is no way a lateral move for these kids who are extremely performing well.
2286	8/11/2017 2:58	PointersRunES	ClarksvilleMS		1	worse than	3	7	4		worse than	6	2	5		
2287	8/11/2017 2:59	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	4	6	My kid currently goes to Pointers Run ES which is 1.2 miles from my house. According to AAC proposal, he will be moved to Dayton Oaks ES which is 4.6 miles away. As school buses have frequent stops, this will significantly increase commute time.	worse than	4	6	13	My kid has close connections to the nearby River Hill community children and activities. If the AAC proposal goes through, his social connections will be disrupted. This is against the Superintendent's vision of keeping kids together through K-12.	Because of the inconvenient location of elementary school, I am afraid my house's and my neighborhood's property values will be negatively affected.
2288	8/11/2017 2:59	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	5	6	7		worse than	5	1	7		
2289	8/11/2017 3:00															
2290	8/11/2017 3:02	PointersRunES		RiverHillHS		worse than	4			Please do not politicalize the school districting. The distance/commuting time shall be the primary consideration.						
2291	8/11/2017 3:03		BurleighManorMS		2	worse than	4	7	13	Some schools esp high schools largely remade. Our bus ride in high school will be more than 30 min each way and pickups and drop offs for extracurricular activities will be a 50 minute round trip-- hard for anyone but esp working parents.	worse than	14	14	13		
2292	8/11/2017 3:04		ClarksvilleMS	RiverHillHS	1	worse than	7	6	9	We moved where we moved for the schools, and your just going to re-zone that away? Do you realize what that will do to property values?	worse than	6	7	13		
2293	8/11/2017 3:04		EllicottMillsMS		1	worse than	3	4		Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2294	8/11/2017 3:05	PointersRunES	ClarksvilleMS		1	worse than	5	7	12		worse than	6	7	4		

2295	8/11/2017 3:06				1	worse than	7	7	2	With the new school building imminent, it seems premature, and also now almost a last minute effort at redistricting at the high school level, to right something that has been wrong for awhile due to APFO failures. Neighborhoods should not be split.	worse than	7	7	2	This study came out very quickly after the first with DRASTIC changes. So the thinking is clearly still in its infancy, and proper time needs to be spent realigning the boundaries to properly readjust only ONCE when the new school is built.	It is dismaying how divided the county has become since this process has begun, and although I do not have children in the system, I have seen families upset over being divided over this as siblings will not have continuity. Neighbors are in turmoil.
2296	8/11/2017 3:07			AtholtonHS	1	worse than	2	14			worse than	13	4				
2297	8/11/2017 3:08	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	5	6	7	It is how we give the children learn how to play with the classmates and after school how to socialize and love at the Negbhor and school .	worse than	3	5	6		
2298	8/11/2017 3:09			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2299	8/11/2017 3:10		PatapscoMS		1	worse than	4	7	3	This plan is splitting two communities increasing the travel significantly of those moved. It is socially, fiscally, and environmentally irresponsible.	worse than	4	7	3	The draft is worst because it is now splitting two communities.	
2300	8/11/2017 3:11	AtholtonES	HammondMS	HammondHS	1	worse than	7	9	13		worse than	7	9	13	There seem to have been a shift to protect certain existing areas by creating some boundaries which look like some of the political voting borders used to protect congresspersons.	In addition to my comments, this survey does not seem to have been designed by a survey methodologist. For instance, you should not ask for category questions without an 'other' field. You should not use location services for an 'anonymous' survey.
2301	8/11/2017 3:11	ManorWoodsES			1	worse than	13	13			worse than	13				
2302	8/11/2017 3:12	PointersRunES	ClarksvilleMS		1	worse than	6	9		The current AAC draft will negatively change the demography, impact the teaching quality and school ranking in River Hill high school.	worse than	6	12		Feasibility study is much better since it considers the initial intention of feeding all River Hill community to River Hill high school.	
2303	8/11/2017 3:12	PointersRunES			1	worse than	4	6	7	ACC draft plan puts my kid out of Pointers Run and into Dayton Oaks. Dayton Oaks is significantly further away from my house. It will increase commute time. It will disrupt my child's social connections.	worse than	4	6	7	Feasibility study is much better. It keeps my kid with the current school, ACC increases commute time. ACC will disrupt my child's social connections.	
2304	8/11/2017 3:12	ClarksvilleES			1	worse than	6	4	3		worse than	7	3	4		
2305	8/11/2017 3:13	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community	
2375	8/11/2017 4:24	PointersRunES			5	better than	2	1	6	The Polygon 2114 plan really helps relieve the stress at Reservoir.	better than	2	1	6	It looks like utilization across all the schools is much more balanced. I like what the AAC did balancing Reservoir, Atholton, and River Hill. Very forward-looking!	Great job AAC! The Kids in Polygon 2114 will be so happy to stay with more of their friends as they grow up. Thank you!!
2376	8/11/2017 4:24	HammondES	HammondMS			better than	6	7	8		better than	6	7	8	The feasibility study ooptions only included one option for HS redistricting that looked only at equitable distribution of education. Thank to you the AAC for looking at all aspects of how these changes will impact the children.	
2377	8/11/2017 4:24															
2378	8/11/2017 4:26	HammondES	HammondMS	AtholtonHS		better than	7	6	8		better than	6	7	8		
2379	8/11/2017 4:29	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	6	13	The Dunloggin neighborhood has been in existence for many years, as such I feel that the area should not be split up into different high schools. This will cause neighbors that had previously been together to suddenly be attending different high schools.	worse than	7	9	12	Feasibility study does not change my children's district for elementary, middle or high school. I am comfortable with it's plan, though I'd rather there be no changes. I do understand there may need to be changes, but I do not want Dunloggin impacted.	Developers should not be allowed to develop in areas where schools are over capacity. Please build more schools and force developers to pay taxes before redistricting children far away geographically from schools, whether it be elementary, middle or high
2380	8/11/2017 4:36	WestFriendshipES	MountViewMS		1	worse than	4	13	3	Moving polygon 232 from WFES, MVMS, MRHS means taking our children out of our neighborhood schools. It also means longer commute times; could be 60 min each way. Need to spend $4M in improvements for WFES instead of just moving polygons 304/1304 to BPES	worse than	4	13	3	Keep polygon 232 at MVMS and MRHS. These are our neighborhood schools, we don't care about small feed. We care about higher academic achievement, more opportunities to participate in before and after school programs due to proximity, and <time on bus.	Polygons 304/1304 moving to BPES would help with transportation. 2 full buses from 1 neighborhood is efficient, can take highway (70) at be at BPES in 15 min. Moving polygon 232 and such would increase commute time to >60 min. Leave polygon 232 as is.
2381	8/11/2017 4:40	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	4	6	This is ridiculous!! Wilde lake is the fourth furthest high school from our neighborhood. And why would you split up a neighborhood? It's so arbitrary!!!	worse than	7	4	6		
2382	8/11/2017 4:46	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	9	7	6	The assignment creates a significant disruption to the children in our neighborhood. Our neighborhood would strongly prefer that our children be kept with their classmates and moved on to Riverhill highschool as planned.	worse than	6	7	9	Both plans are unacceptable because they significantly disrupt the lives of our children. HCPSS should strongly reconsider the impact of its proposal. Additionally, this would cause a mass exodus from our neighborhood.	Most families including mine purchased our homes because of its assignment to riverhill highschool. My family and many others would need to plan yet another move to ensure that we end up at our school of choice. This is extremely disruptive for our kids
2383	8/11/2017 4:48	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	4		better than	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
2384	8/11/2017 4:49		BurleighManorMS		2	worse than	7			147 is part of the centennial community, several friends of my kid live in 147. So we want to keep 147 to keep my kid's friends.	worse than	3				
2385	8/11/2017 4:49	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	1	6	7	This idea of splitting the Dunloggin neighborhood in two is ludicrous, with neighbors attending different high schools. Dunloggin is one the oldest communities inHoward County, and this plan would ruin the cohesiveness of our neighborhood in many ways.	worse than	7	6	2	Stop slicing and dicing neighborhoods, stop allowing development where schools are over capacity. Make developers accountable for their share of the cost of building new high school! This is HoCo- high taxes should = smart decisions regarding schools!	The drive time from Wilde Lake high school is too long from Dunloggin. The only existing high schools that would make sense are Centnnial and Mt. Hebron. This ridiculously convoluted plan is an enbarressment.
2386	8/11/2017 4:50		PatapscoMS	MtHebronHS	1	worse than	13				worse than	6				I have a middle schooler who will have to move to a different school in 8th grade. You already moved her in the middle of elementary school. This plan makes no sense for us because Mt Hebron is right in our neighborhood. Please don't do this.
2387	8/11/2017 4:51		BonnieBranchMS		1	worse than	4			We live jn Cascade overlook which is hardly .5 mikes from Bonnie Branch. Proximity to this school is needed to akkow our kids to go to this school. Do not send us far to a school which is almost 4-5 miles away. Keep the school zoning As Is	worse than	4			We live jn Cascade overlook which is hardly .5 mikes from Bonnie Branch. Proximity to this school is needed to akkow our kids to go to this school. Do not send us far to a school which is almost 4-5 miles away. Keep the school zoning As Is	Cascade overlook commhnity require achool proximity which is to llchester and Bonnie branch school
2388	8/11/2017 4:52			HowardHS	2	worse than	13	4	2	it just still over crowds some schools and will affect the high school again in about three years majorly	worse than	4	6	8	the aac is not a good plan	
2389	8/11/2017 5:08	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	2			better than				AAC new plan is better as it moves less than 2000 student then original plan	

2390	8/11/2017 5:26	AtholtonES	HammondMS		1	worse than	7	4	1	I support the distribution of students evenly among schools maintaining diversity in the student body. I do NOT support isolated sections of the HoCo villages being separated out from the rest and sent to farther, less convenient schools.	worse than	7	4	1	For our neighborhood the feasibility study made a lot more sense geographically, however I have a lot of friends who felt their neighborhood was inappropriately reassigned.	Communities want to stay together. Period. If you're going to redistrict kids I feel it's better if you move larger groups so you maintain the neighborhood feel.
2391	8/11/2017 5:34			HowardHS	1	worse than	8	7	4	The draft plan is breaking up long-formed neighborhoods, which makes no sense, especially in terms of transportation.	worse than	4	7	6	The feasibility study made more sense in keeping contiguous neighborhoods and feeder schools together. The new draft plans don't make much sense at all considering neighborhoods and transportation issues.	The eastern part of Howard County has no room for another high school. Instead of focusing on redistricting this area please focus on pushing students that are closer to the west out towards western Howard County schools where there is more space.
2392	8/11/2017 5:51	GormanCrossingES			1	worse than	7			The AAC draft greatly effects community 1297 which has a strong rapport with 297. How many 5th graders are there out of the projected 53 enrollees for SY18. I would expect options for this group.	equal to	7			The AAC makes a sincere attempt to address the overcrowding concern.	My child's emotional well being as a 5th grader in SY18 cannot be measured by numbers. An option should be available to 5th graders. The request for a school assignment change for SY18 should be approved for this population. Please consider the impact.
2393	8/11/2017 5:55	ElkridgeES			3	equal to	11	11	11		equal to	11	11	11		This does not impact me. I am in Polygon 1043, and I am happy. However, the constant redistricting as a 'whole', is extremely troubling for me. The school and residents need to stand up to the local gov and developers building ridiculous developments.
2394	8/11/2017 6:07	TalbottSpringsES			1	worse than	1	13	9	The plan to redistrict and greatly change the makeup of TSES students in terms of financial need and racial makeup will have extreme negative impacts on our community. It will decimate our PTA, and make us the least racially diverse school in the system.	worse than					
2395	8/11/2017 6:33	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	9	1		worse than	3	9	2		
2396	8/11/2017 6:46	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	7	This plan seems to put students far from their neighborhood school.	worse than	4	6	7		
2397	8/11/2017 6:48			CentennialHS	5	equal to	7	4	6		better than	7	4	6		
2398	8/11/2017 6:50	TalbottSpringsES			1	worse than	9	6	2	Did u consider the change in the wonderful 'Columbia-like' diversity of TSES?? Having any school w a concentrated one side FD racial make up is not why we live here!!!	worse than	2	7	9	I am not interested in the changes made here! I don't want my children to attend Cradlerock ES or MS(whatever it's called now) I had a very negative experience w that school w my eldest child. I will NOT go through the same with my two younger children!	It's should be a mission that any studies concentrate on maintaining the meaning of diversity and inclusivity in Columbia/ Howard County you have failed to do that simply by treating the Children as pawns. Do BETTER! For the kids!!!!
2399	8/11/2017 7:14	NorthfieldES	DunlogginMS	WildeLakeHS	4	better than	1	3	6		better than	6	1	3		
2400	8/11/2017 7:38	ClarksvilleES	ClarksvilleMS	RiverHillHS	4	better than	7	4	6	This plan allows my children to attend schools within our community and thus reduces the potential of a long bus drive to a redistricted school.	better than	6	7	4	This draft plan addresses my concerns regarding keeping our community together. Also, it addresses our transportation concerns. The drive to the new school under the feasibility study is long and involves long windy roads with minimal street lights.	Our children would literally have to drive past their current school everyday on a long bus ride (on windy roads) to a new school in a new community. Also, the continuity of our neighborhood would be affected
2401	8/11/2017 7:58	ClarksvilleES	ClarksvilleMS	RiverHillHS	4	better than	7	4	6		better than	4	7	6	This plan will maintain our children in their current school given that the school is underpopulated. It is fine to bring other children to attend the school without moving our children.	
2402	8/11/2017 9:22		MurrayHillMS		5	better than	1	10	9	This plan addresses the current overcrowding, and in a much better way than the feasibility study.	better than	1	10	9	AAC draft plan is a much better plan than the Feasibility study. The new plan reduces overcrowding by the same degree as the feasibility study, but moves 2000+ less students so therefore is much less disruptive many families and communities.	The draft plan also avoids the trauma to Atholton, unlike the feasibility study which transferred 1732 students in and out of that one school. Would like to move polygons 272 and 1272 to the Murray Hill/Atholton feed to unite Emerson
2403	8/11/2017 9:34	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for maintaining a logical boundary line in Frederick rd	better than	7			Thank you for maintaining a logical boundary	
2404	8/11/2017 9:36	TalbottSpringsES			1	worse than	9	13								
2405	8/11/2017 9:53	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Children are not POLYGONS!	worse than	4	6	4	Children are not POLYGONS!	Children are not POLYGONS!
2406	8/11/2017 9:57			RiverHillHS	1	equal to	8			If a child is sent to high school for their freshman year they should be allowed to continue there. Moving them to another high school after their freshman year is devastating mentally. The changes should be for an incoming class only.	equal to	4			Once a child is in high school they should be allowed to finish their. Moving the kids around is detrimental to their well being.	If a child is sent to high school for their freshman year they should be allowed to continue there. Once a child is in high school they should be allowed to finish their. Moving the kids around is detrimental to their well being.
2407	8/11/2017 9:58	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	better than	1	10			
2408	8/11/2017 10:09			AtholtonHS	4	worse than				There should be no high school redistricting at this time. We were told last year there would be no redistricting. If the models are that far off, they should be updated before taking on such an extensive move of so many kids.	better than	10	1	9	This new plan is much better because it reduces the number of kids moved by 2000 and it preserves Atholton. The Feasibility study needlessly destroyed Atholton. The F Study moved 66% of the kids out of Atholton - unacceptable.	Only redistrict elementary school kids. Redistricting should not be so common in HoCo. It is stressful for everyone involved, especially the kids. Figure out a way to deal with the overcrowded schools until the new high school is built.
2409	8/11/2017 10:13	NorthfieldES	DunlogginMS	WildeLakeHS	4	better than	6	7	10	The proposed movement of polygons 150, 1150, 4150 from Centennial HS to Wilde Lake HS helps keep the community together. My kids will be able to stay with their friends longer. It allows for more socio-economic diversity at Wilde Lake.	better than	10	9	6	The Feasibility Plan cut away a small portion of Northfield / Dunloggin kids and sent them to Running Brook / Wilde Lake Middle. That made no sense, breaking up a neighborhood and sending them to school on the other side of a major road.	The AAC draft plan is a sound one, as faras the proposed high school moves are concerned.
2410	8/11/2017 10:15	DeepRunES	MayfieldWoodsMS	LongReachHS	1	worse than	6	4	1		equal to				Don't understand the draft plan	
2411	8/11/2017 10:17				1	worse than	7	4			worse than	4				
2412	8/11/2017 10:25		ClarksvilleMS	RiverHillHS						Need data					Need data	
2413	8/11/2017 10:27			MarriottsRidgeHS	5	better than	6	7	10		better than	9	6	7		
2414	8/11/2017 10:28			RiverHillHS	1	worse than	6	7	4	Don't move the students from RHHS to GHS, keep them at RHHS. Instead, move less students from WLHS to RHHS. Also, do not move CHS students to WLHS, but instead to MRHS. Then, move MRHS students to GHS, meeting capacity needs with less students moved.	worse than	4	6	7	It was better to move AHS students to RHHS, because they are part of RH with a sign from CA on GSD (Pointers Run/River Hill). They are walking distance to RHHS via paths, swim at RH CA pool and swim team, and attended CMS with current students at RHHS.	The AAC has most of HCMS moving to RHHS instead of WLHS, making transportation difficult when staying after school. WLHS students are part of CA's WL community with walking paths to WLHS, CA pools, and a sign from CA. DO NOT REZONE UNTIL NEW HS IS BUILT!
2415	8/11/2017 10:30	PointersRunES	LimeKilnMS	AtholtonHS	2	equal to	6	7	14		worse than	6	7	14	Under the Feasibility Study - my child would largely stay with the same children through high school. Under the ACC - my child would follow the minority of students not attending the middle school next to his current elementary school.	
2416	8/11/2017 10:30	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	7	6	8	This is so much better. Before it was as if our one community was singled out to move to a different high school - probably for demographic reasons. This did not seem very fair at at - like the decision was just made by picking out area.	
2417	8/11/2017 10:33					equal to	7			Keeps Gray Rock Farm community together and uses Frederick Road as a logical border.	better than	7			AAC Draft keeps Gray Rock Farm community together. Feasibilty study splits the small community in half, isolating a small number of students. The AAC draft uses Frederick Rd as a logical border. Thank you for keeping our community together.	
2418	8/11/2017 10:36	DeepRunES	MayfieldWoodsMS	LongReachHS	4	equal to	12	1			equal to					
2419	8/11/2017 10:39		MurrayHillMS	AtholtonHS	4	equal to	11				better than	10	2	9	1000x better than Feasibility Study which unfairly decimated Atholton HS. Atholton is a great school which is not over/under crowded, which has demographics similar to the county, good clubs, sports, teachers, etc. No need to destroy AHS.	Let rising juniors stay.. Even better, do not redistrict high schools at this time. An interim superintendent should not be asking for such an expansive redistricting, especially when just last year (and even this spring) no HS redistricting was planned.
2420	8/11/2017 10:41	ClemensCrossingES		AtholtonHS	4	equal to	7	4	6	I am not thrilled with the elementary school move, as we are still closer, geographically, to our current school than to our proposed school. I am ecstatic that Atholton will be our high school and it is not being completely changed.	better than	2	4	7	The difference for us is just a change back to our current high school and that is fantastic. AHS is our neighborhood school and it was going to be monumentally impacted by the move. The draft plan maintains the integrity of the high school.	Thanks for all your hard work. I'm still curious why polygon 66 and its surrounding polygons are not going to AHS, as it is much closer for those students and AHS is getting students from the northern Laurel area.
2421	8/11/2017 10:52	ManorWoodsES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13							
2422	8/11/2017 10:55	TalbottSpringsES			1	worse than	13				equal to					
2423	8/11/2017 10:58		FollyQuarterMS		1	worse than	6	6		It creates a less than 15% feed from folly quarter to river hill. Approx 8% which is too low.	equal to	6			In both cases only 19 out of 222 students will be going from folly to river hill. Pls ignore earlier survey response as i read the aac map incorrectly.	keep the feed you have now from folly to river hill. it meets the 15% min feed. By pulling buckskin and Carroll mill areas both plans create a feed that is too low from folly to river hill.
2424	8/11/2017 10:58		HammondMS	HammondHS	1	worse than	7	4	6		equal to	4	6	7		
2425	8/11/2017 10:59	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	7	14		better than	6	7		Elimination of small feeds is better w draft plan and should be a #1 goal	

2426	8/11/2017 11:03	GormanCrossingES		AtholtonHS	4	worse than	2			High school students should not be redistricted until there is a new school.	better than	10	9		Number of students moved is reduced. Atholton is mostly intact. Previously over 65% of students would have been moved even though Atholton is not near over/under crowded schools and is already very diverse. Atholton previously was ground-zero.	Walkers should never be moved to a different school. Rising juniors should be allowed to remain at their current school if they choose. Continue to preserve AHS and other schools that are currently not over/under capacity.
2427	8/11/2017 11:08	ElkridgeES	ElkridgeLandingMS		1	worse than	6	7		The draft plan is bisecting the Elkridge community. These students have been going to school together for 8 years and are now being split into 2 schools, selecting students from the far NE and bypassing closer polygons.	worse than	4	5		This plan is requiring students to travel farther to school and is taking away access to the JROTC program that is offered at Howard High School. Many if the kids in our community are military dependents and selected this district specifically.	I am extremely disappointed in the last minute change to our proposed district and being given only one week to respond. I believe that these meetings are not consistent with the Maryland Open Meetings Act. Where are the meeting minutes and videos?
2428	8/11/2017 11:14		ElllicottMillsMS			better than	1	14		The general westward shift of this plan supports the growing needs of the county long term.	better than	1	2	6	The general westward shift of students is the only way you are going to fill seats in lower capacity schools to make room in overcrowded schools. I believe this plan is a step in the right direction.	
2429	8/11/2017 11:18		DunlogginMS		1	worse than	6	7	13		equal to	6	7	11		
2430	8/11/2017 11:19	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7		I appreciate less disruption across the county and more cohesive feeds.	better than	6	7	8	The AAC draft plan disrupts far fewer families!	
2431			DunlogginMS	CentennialHS	1	worse than	4	2	7	From my perspective as both a parent and a HoCo resident, I find the plan deeply concerning in that it ignores the primary long-term issue of school overcrowding while simultaneously increasing student travel risk and splitting neighborhoods/communities.	worse than	4	2	7	While the Feasibility study is not ideal, it does a better job of maintaining my specific community/neighborhood and reducing travel risks for affected students.	Simply stated, I believe both the feasibility study and draft plan amount to moving deck chairs on the titanic." HoCo needs to fix not only the symptom but also the cause of school overcrowding namely quickly developing and funding a plan to build HS 13"
2432	8/11/2017 11:19			CentennialHS	1	worse than	6	7	4		equal to	4	7	6		
2433	8/11/2017 11:24	CentennialLaneES				worse than	4	1	8		worse than	4	2	6		
2434	8/11/2017 11:32	ThunderHillES	ElllicottMillsMS		1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2435	8/11/2017 11:37	ElkridgeES				equal to	1				better than					
2436	8/11/2017 11:37	WaverlyES				better than					better than					
2437	8/11/2017 11:38	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	3	The commute for the kids in polygon 1189 could be around one hour each day. It will increase traffic on 32, which is under construction. The plan will also increase the cost of transportation. It will also disrupt children's social connections.	worse than	4	6	3	The commute for the kids in polygon 1189 could be around one hour each day. It will increase traffic on 32, which is under construction. The plan will also increase the cost of transportation. It will also disrupt children's social connections.	If a students' commute time is half an hour one way, the parents will have to adjust their drop-off at the bus stop and pickup schedule too. For a 9:00 AM start time the kid would have to wake up early to get ready and be at the bus stop at 8:30.
2438	8/11/2017 11:38	CentennialLaneES	BurleighManorMS		1		13	4	7	Distance from community to new schools is more and the schools are not contagious or near us. This change does not address any real over-crowdedness and equity issues as what is intended for this redistricting process in the first place.	worse than	7	13	4	The Feasibility Study didn't recommend to make any changes to Polygon 147. AAC draft plan is inaccurate and biased. Kids from our community are attending centennial schools for a year and the proposal implies moving them in less than stipulated 5 year	The AAC Plan singling out our neighborhood, as we would be the only ones off of Old Annapolis Rd to have our kids bussed out. We suggest Change 4147 to Longfellow ES, 97 to St Johns Lane ES, 3147 to Wilde Lake Middle, 3147 to Wilde Lake High, 1184 to MRH
2439	8/11/2017 11:38	PointersRunES				worse than	4			I oppose and object to moving the children in polygon 118's elementary and high school.					I oppose and object to moving the children in polygon 118's elementary and high school.	
2440	8/11/2017 11:38	StJohnsLaneES				better than					better than					
2441	8/11/2017 11:41		HammondMS	AtholtonHS	5	equal to	6	7			better than	6	7			
2442	8/11/2017 11:44	HammondES	HammondMS	AtholtonHS	5	better than	9	10	7	This plan does a tremendous job of PRESERVING ATHOLTON HIGH SCHOOL! Nice to know that the academic performance and extracurricular activities, coupled with diversity of student population, can continue to be a model for other schools.	better than	7	10	9	The FS moved an extreme number of kids,decimating AHS,wiping out 67% of their existing population. And our community was blindsided by such an extreme and unnecessary proposal. AHS needs to remain the model for diversity and academic achievement for HCPSS	Would like to see the actual numbers. Also - let the juniors stay. 11th grade is such a pivotal year in a student's high school experience, both academically and socially. Leaving for another school would be detrimental in so many ways.
2443	8/11/2017 11:46		BurleighManorMS	CentennialHS	1	worse than	13	4	6	My kids and their friends from the community ride bikes and walk together to Burleigh Manor/Centennial high using safe neighborhood roads, which is a pleasure for them growing up together, breaking these bonds is the worst nightmare and evil thinking.	worse than	4	7	13	Any plan strengthening the community not ruining it, is the best plan. Redistricting to worse school like wild lake would destroy the community as parents would move out, sell out and rent apartments within existing school zone to keep in CLES/BMMS/CHS.	Just moved with a teenage girl and boy to Burleigh Manor middle/Centennial High school. My kids just got settled with a great many difficulties, moving again would ruin their settlement and probably childhood, it would be a worse nightmare for my family.
2444	8/11/2017 11:48			HowardHS	5	equal to	6	7	8							
2445	8/11/2017 11:50	FultonES	LimeKilnMS	AtholtonHS	5	better than	9	6	7	This new plan will improve River Hill by adding diversity to the student body. Demographically, it will mirror what Reservoir & Atholton. This plan also helps to alleviate some of the crowding issues encountered in Columbia using underused schools.	better than	9	1	6	Does not disrupt the Atholton community. Improves school opportunities for students at Harpers Choice Middle. Increases diversity at River Hill. Keeps large feeds of students together.	
2446	8/11/2017 11:50	CentennialLaneES		CentennialHS	1	worse than	13	8	9		worse than	13	4	8	Redistricting Polygon 147 does not appear to provide obvious benefits in the Draft Plan and yet it will create significant negative impact to the community in Polygon 147.	
2447	8/11/2017 11:51	CentennialLaneES	BurleighManorMS		1	worse than	13	8			worse than	13	8			
2448	8/11/2017 11:52	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	13	14	14		worse than	13	14	14	This redistrict is not a long term plan. Moving kids around looks easy but negative impact the commute time, and they have to re-adapt everything like the school itself and missing their TEACHERS, losing friendship.	My kid cried for a month when we re-allocate to the house. Same things will happen when he has to move to the new school!
2449	8/11/2017 11:52	TalbottSpringsES	LakeElkhornMS		2	worse than	9	6		I'm happy polygon 52 would continue to attend Talbott Springs ES. However, there is a demographic concern with the AAC proposed map that doesn't fit the make up of Columbia. I hope the current polygons that attend Talbott Springs ES will all stay.	equal to	9	6		The feasibility study removed my polygon from Talbott Springs ES, which I was unhappy. My 3rd grader has been there since she was 4. The AAC draft has polygon 52 at Talbott Springs and I'm overjoyed. However, the AAC draft demographic wouldn't	represent the makeup of Columbia. There is an amazing balance at Talbott Springs ES with the current polygons that represent all of the populations in Columbia. It would be best for our children if Talbott Springs keeps all of it's current polygons.
2450	8/11/2017 11:54	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	6	4	13	We reside in a polygon along 32 corridor. We would be a very small feed of students moved from our community AND a very long bus ride. If moved to BPES we would prefer to return to MVMS and MRHS as opposed to going to GMS or GHS for the same reasons.	equal to	6	4	13	The distance to move us (along 32 corridor) to BPES is still a long commute and small feed going to BPES and then again to GMS. If moved going back to MVMS and MRHS is preferable to being sent to GMS and GHS.	Late starting schools plus much longer bus commutes is an issue. Pushing 32 corr polygons way out west to make room for others is a temporary fix at best with projected growth to place schools in another round of redistricting in just a few years time.
2451	8/11/2017 11:54			CentennialHS	1	worse than	7	4		My child could walk home from CHS if needed. But would not be able to from WLHS. It also breaks up the Dunloggin neighborhood.	worse than	7	4		The original plan the Dunloggin neighborhood at the same school. The new plan breaks up the neighborhood.	Thank you for relooking at how Dunloggin is split in the new plan.
2452	8/11/2017 11:55			CentennialHS	1	worse than	4	7	6	Coming from the Dunloggin neighborhood, one has to drive PAST Centennial HS to get to Wilde Lake HS. Changing polygon 150 to Wilde Lake is not to the benefit of these students or the community.						
2453	8/11/2017 11:57	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	13		worse than	7	6	13		do not move polygons 150, 1150, 4150. It will break up the cohesiveness of the Dunloggin Community from the parents (PTA) to kids joint after school activities. DO NOT A SMART MOVE!!!
2454	8/11/2017 11:59	WestFriendshipES	MountViewMS	MarriottsRidgeHS	2	worse than	4	5			worse than	4				I believe moving students and making them travel a longer distance and pass their original school is not a good plan. It's not good for parents who have to travel to pick them up to and from school.
2455	8/11/2017 12:00	ClemensCrossingES	WildeLakeMS	AtholtonHS	2	worse than	2	4		Polygons 66,134,1134,2134 should not be moved North into a growing area (& one that will be re-districted again in several years when another ES is built). Underpopulated schools are west of these polygons. Polygons 66,134,1134,2134 should remain at CCES.	worse than	2			The Hopewell, Sewell Orchard polygons and one close to 175 should be kept at TSES. The loss of these neighborhoods will take the entire PTA and change the wonderful melting pot nature of the school.	
2456	8/11/2017 12:00	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	4	13	Centennial High School district has already been divided from the last redistricting plan - moving closer residents out and further residents in. The new plan made it worse. Moving 147 out adds additional transportation cost. Keep 147 in.	worse than	7	4	13	147 was not impacted in the feasibility study. However the new plan make kids to cross the busy major 108 to go to school and see their friends. 147 is a new community, many kids just moved, now they have to move twice, will negatively impact kids.	147 is within walking/biking distance to CHS. My children are very active in after school programs, both parents are away from home at work, they walked/biked home frequently from CHS, the new plan makes it impossible.
2457	8/11/2017 12:02	CentennialLaneES	BurleighManorMS			worse than	13	4	9		worse than	13	10	8	The proposed re-districting of Polygon 147 does not appear to provide equitable benefits to outweigh the significant negative impact to the community/family. If approved, many families will face financial hardship and undue stress.	The community in Polygon 147 is very new so the families will face immediate decrease in property value without having built up equity. Families will also be burdened financially as we evaluate possible need for alternate private school system.

2458	8/11/2017 12:02	ElkridgeES			1	worse than	6	13	9	The Long Reach High school has been on the decline for years. When it comes time for my son to attend high school, I would not want him to attend a school that has increasingly had problems with their student body.	worse than	6	9	13		Re-zoning my neighborhood to Long Reach also brings down my house value b/c of the demographics and reputation of Long Reach High School. We bought our house recently b/c of the good school district. We would have purchased elsewhere knowing this.
2459	8/11/2017 12:04		BurleighManorMS	CentennialHS	1	worse than	4	7	9		worse than	4	7	9		
2460	8/11/2017 12:06	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7		Currently our neighborhood all attends the same schools, with the proposed plan - our neighborhood will split with the majority of kids having to move high schools to Wilde Lake instead of Centennial High - and the way it's split doesn't make sense	worse than	7	6	4	Currently our neighborhood will all attend the same high school, the first proposed plan keeps our neighborhood at the same high school - this last proposed plan splits the neighborhood- we are the last house that would remain the same

2473	8/11/2017 12:25			MtHebronHS		worse than	7	6	4	We are slated to move from MTH to MRH. MRH is a 25 min drive, 1 hour round trip. MTH is a 7 min drive. Using Long View Dr as the dividing line will divide a community that is one community". Travel time by bus will be too long for students."	worse than	6	4	7	We are slated to move from MTH to MRH. MRH is a 25 min drive, 1 hour round trip. MTH is a 7 min drive. Using Long View Dr as the dividing line will divide a community that is one community". Travel time by bus will be too long for students."	The move of 125 kids from MTH to MRH seems extremely minor and not noticeable in a HS that servers over 1000 students. The neighborhood will be divided, and communing by car and bus will take too long.
2474	8/11/2017 12:26		BurleighManorMS	CentennialHS	1	worse than	13	3	2	Please keep 147 at Centennial community.	worse than	6	6	6	Please keep 147 at Centennial community.	
2475	8/11/2017 12:28	RockburnES			4	worse than	9	7	13							When I purchased our house in Cascade Overlook off of Landing Rd., I did so because the school districts were aligned to Ilchester Elem and Bonnie Branch Middle. Since then, redistricting assigned Rockburn; I DO NOT WANT them to attend Elkridge Middle.
2476	8/11/2017 12:29		BonnieBranchMS	HowardHS	5	better than	7	1	2	Reduces impact on moving students that would need to be moved again in a few years	better than	2	4	7		
2477	8/11/2017 12:31			OaklandMillsHS	4	equal to	7	6	9		better than	7	6	9	Oakland Mills HS much improved from original feasibility study, thank you.	
2478	8/11/2017 12:34	PointersRunES			3	equal to	6	7	11		worse than	6	7	4	Feasibility study plan is preferred as it allows more children from the same school to stay together and not be pulled/separated from their community and friends.	We need better long term plans (better planning for new schools and new developments) so that redistricting is not occurring every 4-5 years. This affects kids at vulnerable times and may be disruptive to their growth and social development. B
2479	8/11/2017 12:36	CentennialLaneES			1	worse than	6	7	12	School attendance areas should promote a sense of community in both the geographic place (e.g., neighborhood or place in which a student lives) and the promotion of a student from each school level.	worse than					Please considerate: A)Feeds that encourage keeping students together from one school to the next. For example, avoiding feeds of less than 15% at the receiving school. B) Areas that are made up of contiguous communities or neighborhoods.
2480	8/11/2017 12:36			CentennialHS	1	worse than	6	4	7	Splitting the Dunloggin neighborhood up is a terrible plan. Half a neighborhood at Centennial High school and half at Wilde Lake? These schools are not even in the same community! This will effect after school programs, sports, transportation etc...	worse than	5	4	6		Having children who live in the same neighborhood-across the street from each other-that go to elementary and middle school together and then get split between CHS and WL. These schools are not even in the same community!
2481	8/11/2017 12:38	CentennialLaneES	BurleighManorMS	CentennialHS	2	worse than	1	3	4		worse than	5	14			
2482	8/11/2017 12:39	IlchesterES	BonnieBranchMS	HowardHS	5	better than	1			The plan maintains schools in closest proximity to our neighborhood, while addressing the overcrowding issue.	better than	4	7	6	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including Howard High, Bonnie Branch Middle, and Ilchester Elementary. The plan reduces overcrowding and the distance traveled to school, as well as improving feeds.	I specifically purchased my home in this neighborhood so that our daughter could attend the same high school I attended (Howard) and it is the closest school to our neighborhood. The AAC plan moves fewer students overall, while reducing overcrowding.
2483	8/11/2017 12:40	ThunderHillES	ElllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2484	8/11/2017 12:41			MtHebronHS	1	worse than	6			keep the Worthington Community together going to MTH						
2485	8/11/2017 12:41	ClemensCrossingES	LimeKilnMS	AtholtonHS	2	worse than	6				worse than	6			Under the draft plan, my children would be attending Pointers Run and Clarksville Middle with one group of students and then end up in high school with an entirely different group of students at Atholton.	It does not make logical sense to me that we would go to Clarksville for elementary school and middle school with one group of students and then end up at Atholton for high school with an entirely new group of students.
2486	8/11/2017 12:43	WorthingtonES	BonnieBranchMS	MtHebronHS	4	better than	6	7	9		better than	6	7	9		
2487	8/11/2017 12:43	GormanCrossingES			1	worse than	2	13		Moving kids from higher performing schools to lower performing schools with higher socio-economical issues will impact their performance and is not a good move especially for students with 1 year remaining. We need new schools for new developments.	worse than	9	13		Moving kids from higher performing schools to lower performing schools with higher socio-economical issues will impact their performance and is not a good move especially for students with 1 year remaining. The feasibility study is better.	With growing neighborhoods, we need new schools rather than exposing students to constant transition. Classroom sizes are pushed to the limits but shifting to new schools when a kid doesn't handle change well is damaging to academic performance.
2488	8/11/2017 12:44	GormanCrossingES	MurrayHillMS		5	equal to	6	7	12	This alternative better then the plan that was first suggested earlier where lot of students were displaced.	better than	12	6	1	Is better and displaced less students	Preserve the main core of the school and try to leave good schools intact instead of making better schools best to please those sectors.
2489	8/11/2017 12:45	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	2	The AAC draft plan is very good and is cost efficient. It answers the reduce overcrowding issue in Howard County.	better than	1	10	2	The AAC Plan is superior to the Feasibility Study. IT solves overcrowding by moving far fewer students and Preserves Atholton HS. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
2490	8/11/2017 12:46	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		

2491	8/11/2017 12:46	FultonES			4	better than	8	6	7	This is more of a short term fix and not maintainable long term, HC needs to stop be reactive and more proactive. There are many plans to expand housing in the county and none of that seems to be taken into consideration until schools are over capacity.						
2492	8/11/2017 12:46	NorthfieldES	DunlogginMS	CentennialHS		worse than	13	13	13	Live well enough alone. Parents move into an area because of the schools.	worse than	13	13	13	If it's not broke don't "fix" it!

2494	8/11/2017 12:48			CentennialHS	5	equal to	7			Thank you for maintaining a logical boundary line.	better than	7			Thanks for keeping the community together and maintaining a logical boundary.	
2495	8/11/2017 12:49	IlchesterES	BonnieBranchMS	HowardHS	3	equal to	11	11	11		equal to	11	11	11		
2496	8/11/2017 12:50	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	The latest AAC draft plan will split one of the oldest neighborhoods in the county right down the middle. This neighborhood has never been split in 60 years. This neighborhood was here, in Ellicott City, before Columbia existed. Keep Dunloggin in Centenni	worse than	7	6	4	We have specific mandates for this ridiculous redistricting process that Howard County constantly puts its citizens through (you should take notes from Montgomery County) and almost ALL of these policies are being broken with this latest scenario.	Dunloggin is one of the oldest neighborhoods in the county. There is no way that you will be kicking us out of Centennial and shipping us to another city for high school while moving the brand new Toll House homes into the Centennial district, across 29!
2497	8/11/2017 12:51			CentennialHS	1	worse than	7	13	4	This plan has so many concerns: 1) Keeping feeds of students together from one school to the next (Policy 6010 IV.B.2.a) 2) Maintaining contiguous communities 3) Drive time to school is longer 4) Economic integration is not appropriately addressed	worse than	7	13	4	This plan has so many concerns: 1) Keeping feeds of students together from one school to the next (Policy 6010 IV.B.2.a) 2) Maintaining contiguous communities 3) Drive time to school is longer 4) Economic integration is not appropriately addressed	It is unjust to have Gray Rock community object to splitting their neighborhood and then have your solution be to keep their neighborhood together and then split Dunloggin's neighborhood! Please reconsider!
2498	8/11/2017 12:53	IlchesterES	BonnieBranchMS	HowardHS	5	better than	4	6	7	Polygons 95/1095/2095/84 strongly support the latest AAC plan for the northeast portion of the county. Keeping our students in consistent feeder groups, and at the school that is geographically the closest to them is very important.	better than	4	6	7	The AAC DRAFT plan keeps our kids at HHS, which is walkable from our neighborhood, and it makes better utilization of existing schools until new ones (esp a new HS) can be built.	The AAC DRAFT plan improves the feeds from elem to middle to high schools and keeps strong feeds in the northeast region. It helps keep students closer to their schools.
2499	8/11/2017 12:54	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
2500	8/11/2017 12:54	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	7	5		worse than	6	4	5		
2501	8/11/2017 12:54	WestFriendshipES	MountViewMS	MarriottsRidgeHS	3	worse than	4	6	12	I am a Marriottsville resident. I believe the proposed plan does not impact my child's school he is currently attending. However, those students who live on the RT 32 corridor should be redistricted to Manor Woods ES, not Bushy Park ES.	worse than	4	6	7	Those students that live on the RT 32 corridor should be redistricted to Manor Woods ES, not Bushy Park ES	Maybe additions or trailers could be built to accomadate students who will be subject to the proposed AAC plan
2502	8/11/2017 12:55	VeteransES			1	worse than	4	13	6	The amount of anxiety HCPS has caused the community is ridiculous. Between the asinine school time change proposals, and then the repeated changes to redistricting, residents have had enough.	worse than	4	13		With the proposed changes, our current bus will now be split between Veterans and Worthington Elementary School with the first 2 stops staying with Veterans and the middle 2 stops going to Worthington....	...Both Autumn Rust Road and Brittany Drive will now have 2 separate school buses driving to 2 different schools at the same time.
2503	8/11/2017 12:55		FollyQuarterMS		1	worse than	6	7	13	Our community is very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community. Small feeds are socially harmful for teens/students.	worse than	6	7	13	The Study allowed our neighborhood to continue through to high school with an appropriate amount of other students the children have psychologically/socially bonded with from elementary school. For us, the AAC plan is like moving out of state. Unethical.	As a mother and licensed social worker IN Howard County, I have personally and professionally witnessed the negative/traumatic effect of the small feeds. Is it okay to slide this in almost unnoticed and possibly against county rules for feeds?
2504	8/11/2017 12:56	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	6	1	7	This is a great plan AAC! The Polygon 2114 plan really helps to relieve the capacity stress of Reservoir HS. My kids in Polygon 2114 will be so happy and less stressed about school to stay with more of their friends as they grow up. Thanks You!!!	better than	1	6	7	Great map AAC! It seems the utilization across all the schools is much more balanced. Polygon 2114 looks really good. We really like what you did in balancing Reservoir, Atholton and River Hill. Very forward-looking!	For polygon 2114, we really like the changes in your excellent plan. The kids will benefit from keeping their attachments in ES, MS and HS. Alleviating capacity issues with Reservoir is key for student numbers that make learning easier. Many thanks!!!!!
2505	8/11/2017 12:58	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	4		better than	7	6	4		
2506	8/11/2017 12:58				2	worse than	7	7	7	I live in Dunloggin neighborhood. We purchased our home in 2016 specifically because of the neighborhood and its schools. Now, my beautiful neighborhood community is broken apart.	worse than	7	7	7	The original Feasibility study did not affect Dunloggin.	
2507	8/11/2017 12:58	RockburnES	BonnieBranchMS	HowardHS	1	worse than	4	6	9	We are very close to Illchester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Illchester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Illchester elementary, bbms and Howard hs.	worse than	4	6	9		
2508	8/11/2017 13:01			AtholtonHS	5	better than	10	9	1		better than	1	10	10		
2509	8/11/2017 13:05	NorthfieldES	DunlogginMS	CentennialHS		worse than	6	7	4	Please don't split the Dunloggin neighborhood into different high schools. For that matter, no neighborhood should be split by arbitrary lines. Please do this redistricting correct the first time so more changes aren't required later.	worse than	8	7	1	Neither the AAC draft or the Feasibility Study are acceptable solutions to this problem! Please Choose Civility in your method of determining which students are affected. Respect naturally occurring boundaries.	Redistricting is a disruption to a community no matter how many students are affected. Please consider one massive redistricting plan instead of allowing a piecemeal approach to loom over our children from year to year. Make it right the first time!
2510	8/11/2017 13:05	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	10	9		better than	7	10	9		
2511	8/11/2017 13:05	DeepRunES	MayfieldWoodsMS	LongReachHS	2	worse than	6	7	9	Moving kids that are in Mayfield community to Oakland mills breaks up the community kids have going through Elem and middle. It seems polygon 80.and 1080 should still go to Long reach to keep continuity with communities to left of 108.	worse than	6	13	4	Seems demographics moving add to minorities population already ati oakland mills. Distance is farther away and seems like not pulling from closer communities to Oakland mills.	Want Mayfield community polygon 80 and 1080 to stay at Long reach for high school.
2512	8/11/2017 13:07				1	worse than	7				worse than	7				
2513	8/11/2017 13:09			WildeLakeHS	3	equal to	7	9	6	For our family the pros and cons are a wash between the current attendance area and the AAC draft plan, which as us moving to a new high school.	better than	6	4	9	The AAC draft plan has our child moving to a new high school, while the Feasibility Study does not. There are pros and cons to the proposed move that essentially cancel each other out, so we are neutral, with a slight preference for the AAC draft plan.	Choose a plan that keeps neighborhood kids together. I like that the AAC draft plan seems to use major roads as boundaries, which helps to accomplish this better.
2514	8/11/2017 13:09		LimeKilnMS	ReservoirHS	1	worse than	8	4	13	The AAC draft plan is all over the map. It has no continuity and the only aim is to keep a couple of areas in Atholton HS district. The proposal for 1114 and 2114 is inconsistent and represents the AAC conviction to displace areas with no strong HOA.	worse than	4	6		The feasibility study tried to draw lines and move students closer to the neighborhood school. The AAC is an appeasement survey trying to calm the neighborhoods that were affected in the feasibility study.	Take an example for surrounding counties, draw neighborhood lines to match neighborhoods and increase school size accordingly. If you need to make schools bigger then do it, don't keep moving students. HoCo grows so make HS capacity 2400 as needed.
2515	8/11/2017 13:09			CentennialHS	5	equal to	7	4	6	Thank you for maintaining Frederick Road as a logical boundary line	better than	7	4	6	Thank you for keeping our community together and maintaining a logical boundary.	Continued concerns with the traffic impact as increasing the distances that inexperience drivers, and harried parents, have to drive daily for school and to attend functions; increased county fuel costs from longer bus distances.
2516	8/11/2017 13:12			MarriottsRidgeHS	4	equal to	6	7	4	This draft plan is an improvement that maintains community stability in Polygon 170 and eliminates the small feed originally proposed for our neighborhood. Please keep this plan.	better than	6	7	9	The AAC Draft plan is a good for HS level. Neighborhoods remain intact and there is no needless disruption to students.	
2517	8/11/2017 13:14		ClarksvilleMS	AtholtonHS	5	better than	6	4	2	We are less than three mikes from River Hill HS yet we are in the Atholton HS line. It doesn't make any sense to me to transport to Atholton which is further than RHHS.	better than					
2518	8/11/2017 13:16				1	worse than	13	7		A large selling point for my community is the quality schools and proximity to them. This plan would require further travel, and move from a high performing school to an under performing one (Middle schools)	worse than	7	9		The feasibility study makes much less drastic changes than the AAC draft plan, while still dealing with over crowding effectively.	School quality impacts housing prices and neighborhood cohesion. Sensitivity to moving houses from high performing schools to under performing ones will undercut the sense of stability that encourages people to invest in the county.
2519	8/11/2017 13:17	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7				worse than	7				
2520	8/11/2017 13:18	ManorWoodsES	MountViewMS	MarriottsRidgeHS		equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
2521	8/11/2017 13:18			CentennialHS	1	worse than	7	6	4		worse than	7	6	4

2532	8/11/2017 13:27		ClarksvilleMS	AtholtonHS	1	worse than	6	4	5	For our living area. A lot of students in the Clarksville Middle school are going to River Hill High School. In the location, we previously were belong to River Hill area. So, for the first draft the Feasibility Study is pretty fine for River Hill high.	worse than	2	5	7	River Hill Highs school has accepted several long distance zones students instead of nearby zone students. The Feasibility Study Plan is better than the AAC for River Hill. It is better to keep the neigh hood students together.	Most Clarksville Middle School students go to River Hill High School, and they are close friends. We previously were belong to River Hill high, then move to Altholton. In Feasibility Study plan, our area were move back to River Hill, which is a good.
2533	8/11/2017 13:28	ElkridgeES	ElkridgeLandingMS	HowardHS	2	worse than	6	2		I'm not as concerned about my kids being redistricted as I'm concerned that it appears that there is no reasoning behind what polygons were chosen. Why not move everything east of route 1 to Long Reach. Why are 40, 1040, 2040, 1039, 41, 1041 not moved.	worse than	6	7		ELMS needs to feed to one high school. This plans just furthers a poor design. Right now kids are split 80/20 Howard to Long Reach. You need to figure out a plan that puts all the kids into one high school. Long Reach or Howard or a new school.	It's disappointing that we continue to allow so much building in Elkridge/Ilchester and Jessup but yet we don't have one central high school. This plan just furthers the problem that our kids are together for 9 years then get split up for high school.
2534	8/11/2017 13:28	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	6	13			worse than					
2535	8/11/2017 13:29	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	8	4	6		worse than	4	7	14		
2536	8/11/2017 13:29			HowardHS	1	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	No redistricting plan will make sense until we have enough high school capacity in the eastern end of the county. Build HS#13 as soon as possible; defer redistricting until then.
2537	8/11/2017 13:30	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6				worse than	5				
2538	8/11/2017 13:30	BellowsSpringES		LongReachHS	5	equal to	4	6	7	The AAC plan equals the current areas exactly as they should stay. No changes are justified from our current attendance areas. Thank you AAC for keeping polygon 298 along with 1298 at Bellows Spring ES/ Mayfield MS/ Long Reach HS.	better than	7	6	4	The Study was junk. Violated so many criteria of policy 6010. Thank you AAC for fixing this. The AAC plan keeps polygons 298 and 1298 together at Bellows/ Mayfield/Long Reach exactly as we should be.	Whatever is done for ES and MS throughout HoCo, the High School redistrict MUST be deferred until new HS built. If you insist on making a change for 2018, all Juniors and Seniors must be allowed to stay where are now.Just as pol 9000 gives that right !!
2539	8/11/2017 13:31	PointersRunES	ClarksvilleMS		1		6	4	7		worse than	6	2	10		
2540	8/11/2017 13:31	IlchesterES	BonnieBranchMS	HowardHS	5	better than	1	4	6	Polygons 95/1095/2095/84 strongly support this draft plan, including impacts to IES, BBMS, and HHS. This draft plan addresses transportation issues and keeps students in schools closer to their homes, and within their communities.	better than	1	4	6	The AAC DRAFT plan moves fewer students than the feasibility study throughout the whole county, reducing disruption. THe plan also utilizes capacity in the west but reduces the domino effect of moving polygons west.	Thank you to those who put this alternative plan together - it better utilizes capacity and reduces overcrowding until new schools can be built (especially a new high school!).
2541	8/11/2017 13:32	IlchesterES		HowardHS	5	better than	4	6	6		better than	7	9	4		
2542	8/11/2017 13:33	ClemensCrossingES		WildeLakeHS	1	worse than	6			Polygons 66,134,1134,2134 should not be moved North into a growing area (& one that will be re-districted again in several years when another ES is built). Underpopulated schools are west of these polygons. Polygons 66,134,1134,2134 should remain at CCES	worse than					
2543	8/11/2017 13:33	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	7	4	6	I have three children in hcpss currently - and will use my oldest - who is at wilde lake high school currently and participates in after school sports and enrichment activities while I work; with the new plan she will be at river hill and cannot walk home	worse than	7	4	6	my middle schooler already adjusted to being one of the few pulled from his Clemens class to attend harpers choice going through the distracting process of making new friends; with this proposal he then changes AGAIN to be one of the few pulled for h/s	my suggestion is that you need to wait; a rushed process like this that makes drastic changes in the communities we live in should not be made in such haste. We are disheartened at the idea of living in a different community than we go to school
2544	8/11/2017 13:34	AtholtonES	HammondMS		1	worse than	6	7	13	Our neighborhood (polygon 2057) has historically been assigned to AES, HMS, and HaHS. The move would affect my son when he is entering 8th grade and would negatively impact him if he was moved to Lake Elkhorn MS.	worse than	6	9	13		
2545	8/11/2017 13:35	BellowsSpringES	MayfieldWoodsMS	LongReachHS	5	equal to	7	4		AAC plan keeps 298 at Bellows/ Mayfield/ Long Reach. Thank you AAC. This must be how it is in the final adopted plan- keep 298 and 1298 at Bellows/ Mayfield/ Long Reach.	better than	7	6		AAC plan keeps 298 at Bellows/ Mayfield/Long Reach along with 1298, encompassing Willowood community east of rte 100. The Willowood signage is in 1298 and county owned Willowood playground in 298. Thank you AAC for keeping us together.	DEFER ALL HS REDISTRICTING UNTIL NEW HS BUILT. THIS YEAR WAS JUST TO BE ABOUT ELEM SCHOOLS! AT THE VERY LEAST ALLOW ALL JUNIORS AND SENIORS TO FINISH WHERE THEY ARE NOW JUST AS THEY COULD DO UNDER POLICY 9000 IF THEY CHOSE TO MOVE!
2546	8/11/2017 13:37	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
2547		AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	7	4	6	This moves polygons in Allview & McGills Commons neighborhoods to WLHS, creating an island. Currently Allview goes to OMMS and McGills goes to HHS. Those schools are geographically closer than WLHS. There are 3 HS closer to both than WLHS (OMHS, HHS, AHS)	worse than	4	6	7	Small number of children would go from AES (30 or so?) to LEMS. Then (50 or so?) would move from LEMS to WLHS. If these do not meet the criteria for small feed	they are close and certainly small feeds in spirit, and these kids would have to do this 2X.This plan creates one island in the whole county for HS - McGills and Allview. These children are subject to small feeds from ES to MS and MS to HS - and then have to go to the 4th closest high school. This will destroy communities built at Hammond & OM.
2548	8/11/2017 13:39	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	3	5	8	Polygon 147 should keep its current schools.	worse than	3	4	6	Polygon 147 should keep its current schools. which can keep the district stable.	
2549	8/11/2017 13:39	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	3		worse than	6	7	4		
2550	8/11/2017 13:40		DunlogginMS		1	worse than	7	6	4	The split of the densely populated Dunloggin neighborhood is unacceptable for community unity.	worse than	7	6	4	The Font Hill and Gray Rock neighborhoods are not the contiguous community that the Dunloggin neighborhood is.	The gerrymandered Centennial district is unacceptable by any logical standard.
2551	8/11/2017 13:41	DaytonOaksES	FollyQuarterMS	GlenelgHS	4	worse than	14				better than	7			The AAC Draft plan appears better with cleaner lines for most school areas. Some high school projections for both plans put them over capacity with the numbers. Location of HS#13 was not noted in the documentation so that could play a role.	Thank you for the inclusion in this process. The least amount of movement for the children would be preferred and the impact of the numbers in the feasibility study seems high. It would've been nice to have the same for the AAC Draft plan.
2552	8/11/2017 13:41	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygon 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2553	8/11/2017 13:41			MarriottsRidgeHS		equal to	6	8	14	I want to make sure I am commenting on the draft AAC plan, and not Foose feasibility study that was absolutely horrid. HC need to stop messing with the feeds and district. People buy home in a special area for a special school district.	better than	7	6	8	far superior to the feasibility study. HC must stop all this churn. It has brought the real estate market to a halt as people don't know where to move, and whether to move to get into the right school. Need to change the HC policy.	No student should have to commute past a school next to them, to be bussed to a school with under attendance. Move the teachers and not the students. Get rid of the requirement to balance school attendance across the county.
2554	8/11/2017 13:44	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	Thank you for giving us the opportunity for our voices to be heard!
2555	8/11/2017 13:44	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	The suggested redistricting would split our cohesive, long-established neighborhood in half. Neighbors would go to different high schools; those assigned to WLHS would endure longer bus rides. Already congested traffic in downtown Columbia would worsen.	worse than	7	4	6	Cohesive neighborhoods like Dunloggin shouldn't be arbitrarily divided, and the well being of students shouldn't be sacrificed, in the effort to find statistical remedies to redistricting issues. Real children would suffer under the new draft.	We take great,pride in the outstanding schools in Howard County. But our schools aren't just about high test scores. The well being of children is paramount. Please listen to the Dunloggin community. Don't divide our neighborhood and our children.
2556	8/11/2017 13:44			CentennialHS	1	worse than	7				equal to	8				
2557	8/11/2017 13:45	ClarksvilleES				worse than	4	7	3		worse than	3	4	7		
2558	8/11/2017 13:45	IlchesterES	BonnieBranchMS	HowardHS	5	better than	6	7	4	We live in polygon 95 and strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC draft plan keeps our neighborhood going to Howard, which is within walking distance and less than an mile from the school.	better than	6	7	4	The AAC Draft plan improves the feeds from elementary to middle and from middle to high school. It keeps strong feeds within the schools. This plan moves fewer students than the feasibility study throughout the entire county and reduces disruptions.	
2559	8/11/2017 13:46	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	6			My children in Polygon 2114 will be very happy to stay with more of their friends as they grow up & go from Elem, to Middlr to High School. Thank you!!	better than	6	7		My children in Polygon 2114 will be very happy to stay with more of their friends as they grow up & go from Elem, to Middlr to High School. Thank you!!	My children in Polygon 2114 will be very happy to stay with more of their friends as they grow up & go from Elem, to Middlr to High School. Thank you!!
2560	8/11/2017 13:47			CentennialHS	1	worse than	7			Moving 147 out of the Centennial school district does not make sense. Why not moving 97 to MRRH or MH. They are much closer schools.	worse than	7			The new plan of moving 147 to Wild Lake will disintegrate the whole Centennial Communities. Moving 97 to their closer schools such as MRRH and MH.	Keep 147 in Centennial school district.

2561	8/11/2017 13:49	VeteransES	EllicottMillsMS	CentennialHS	4	worse than	6	7	1	I am pleased with EMMS and CHS proposal. The VES proposal does not impact my children's attendance school, but I am really upset that this proposal divides up our contained neighborhood (immediately behind school) and VES remains so overcrowded.	worse than	6	7	1	I am pleased with EMMS and CHS proposal. The VES proposal does not impact my children's attendance school, but I am really upset that both proposals divide up our contained neighborhood (immediately behind school) and VES remains so overcrowded.	The neighborhood behind VES is so self-contained. Please just keep us together - preferably at VES.
2562	8/11/2017 13:50			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2563	8/11/2017 13:52		MountViewMS	MarriottsRidgeHS	1	worse than	4	3	7	My kids will be moved greatly impacted by school bus route as well as by car (~ 50 min one way) and breaking long relationship with their peers. All of which will impact their performance. This plan didn't accommodate with late school opening for schools.	worse than	4	3	7	My kids will be moved greatly impacted by school bus route as well as by car (~ 50 min one way) and breaking long relationship with their peers. All of which will impact their performance. This plan didn't accommodate with late school opening for schools.	I strongly prefer no plan or Feasibility study better than AAC
2564	8/11/2017 13:52	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	8	6		worse than	7	6	8		This draft plan would have a major negative impact on our community, if implemented, in terms of integrity and stability. I would like to keep my kid's friends in the same schools. Specifically polygon 147 should keep its current schools.
2565	8/11/2017 13:52	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	3	10	The plan is not disruptive to current Atholton students and therefore not going to create unnecessary chaos. Plan recognizes that Atholton current capacity is acceptable & school does not meet conditions for redistricting in Section IV.A of Policy 6010	better than	1	10	14	AAC plan: preserves Atholton; moves far fewer students; & solves overcrowding where it matters. Modify it to reunite Emerson Community per 6010-IV.B.2.b. To achieve this move polygons 272 and 1272 from Patuxent Valley MS to Murray Hill MS	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a small neighborhood, are members of one HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
2566	8/11/2017 13:54		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	6	Currently, I can drive to my children's schools in less than 10 minutes, including red lights. With the AAC draft plan, I would actually have to pass the turn for my children's current schools and continue south on Rte 32 for an additional 15-20 minutes.	worse than	4	7	6	The Feasibility study allows my children to attend their neighborhood schools - MVMS & MRHS. The Feasibility study does not require my children to be on the bus for an extended amount of time.	Transportation considerations should be considered. The construction on Rte 32 will continue, and students who live east of Rte 32 and north of Rte 70 should not be required to attend GHS and GMS. They should be allowed to attend neighborhood schools.
2567	8/11/2017 13:54	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	4	7	13	Please do not adjust the Valley Meade Neighborhood.						
2568	42958.58185		MurrayHillMS		5	equal to	1	10	14	AAC plan is an excellent plan.	better than	10	1	14	It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS)	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool/events, and use the same playgrounds. We should go to the same schools.
2569	8/11/2017 14:01	NorthfieldES	DunlogginMS	CentennialHS	4	worse than	6	9	8		better than	9	7	6		
2570	8/11/2017 14:02	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	10			I like how the AAC draft plan resolves the high school overcrowding issue without impacting Atholton HS.	better than	10			This plan is good for my community as it leaves Atholton HS intact.	The AAC did a great job addressing my communities concerns regarding Atholton HS's boundaries.
2571	8/11/2017 14:02	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	4	9		worse than	3	7	4		Some proposed re-districting makes no sense. For example, moving polygon 147 and the area along Plum Tree/Grayrock out of CHS that is almost within walking distance but instead keep Long Gate in CHS that is 5 times distance away? Please use common sense!
2572	8/11/2017 14:04	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	7	2	4	1. Polygons 159 and 1159 are part of the CONTIGUOUS development of Valley Mede. These polygons should remain with their community and go to SJLES, PMS and MHHS. 2. Many are walkers to Mount Hebron 3. Worthington area should be be going to MHHS.	worse than	7	2	4	Recommend putting HS redistricting on hold. Fast track new HS in Elkridge which will then have the Worthington area going to Howard HS where they belong. This will relieve overcrowding at Mount Hebron. The committee needs to look AHEAD.	Additionally, consider moving polygons 1161 and 161 from SJLES to Waverly. Create a feed from Waverly to Patapso then have that group go to Mount Hebron (as they are already walkers). It makes sense that the community north of 99 should stay together.
2573	8/11/2017 14:05			AtholtonHS	4	equal to	10	12	14	The northeast needs relief and this seems to help that	better than	10	8	12	Much better due to minimizing impact on any ONE school (HS)	The Feasibility Study was poorly thought out. Moving 2/3 of one school's population at the HS level is damaging to children at a very critical time in their development/education.
2574	8/11/2017 14:06			AtholtonHS	1	equal to	7	6	13	We live in River Hill and want my children to attend the high school of our community with the children that they went to elementary and middle school.	worse than	7	6	6	We live in River Hill and want my children to attend the high school of our community with the children that they went to elementary and middle school. We really want to keep the children together with friends and in the community at the closer school.	River Hill High School is much closer and part of our community.
2575	8/11/2017 14:06			CentennialHS	1	worse than	6	4	1	This plan will not keep students together in high school that have been together from elementary school through middle school. The plan will result in longer commutes and as a result child safety concerns and additional traffic congestion.	worse than	6	4	1	The feasibility study is worse than the draft plan. It results in the same breakup of students between middle school and high school and has increased the commute issues regarding distance and congestion.	I found out about the new plan 2 business days prior to the planning committee meeting. I understand the planning committe meeting is not open to the public and I strongly object to the meeting being closed, indicative of poor planning or a hidden agenda.
2576	8/11/2017 14:06			AtholtonHS	5	equal to	1	10		This works. It is strategic and focuses on problem areas only.	better than	1	10	3	AAC plan is superior. Preserves Atholton, is strategic and focused, will cost HCPSS less to implement. Needs improvement by reuniting split Emerson neighborhood from 2012. Include Polygons 272 and 1272 in Murray Hill Middle(about 36 students).	
2577	8/11/2017 14:08	HollifieldStationES	PatapscoMS	MtHebronHS	1	worse than	4	6	3		worse than	8	7	3		
2578	8/11/2017 14:09			ReservoirHS	5	better than	1	6	9	Great job AAC! The Polygon 2114 plan really helps relieve the stress at Reservoir.						
2579	8/11/2017 14:10			CentennialHS	1	worse than	4	13	7		worse than	1	2	3		
2580	8/11/2017 14:10	NorthfieldES	DunlogginMS	WildeLakeHS	4	equal to	6	7	12	I marked the wrong comments this morning as I mixed AAC and feasibility study. The AAC draft is much better than feasibility study. Minimal move compare with the feasibility study	better than	6	7	12	Feasibility Study is a massive move like playing chess. AAC draft plan is more consider the children' feeling.	Parents always consider the school ranking. Long term is how we can improve the schools in Columbia. It will be a strong push back if we move kids from the best school to a relatively average school
2581	8/11/2017 14:13	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	13	We are in reasonable walking distance to our current Elementary school, any changes would undermine that. Also my child's classmates would not be in the same condensed geographical area.	worse than	4	6			
2582	8/11/2017 14:13	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10			better than	1	10		It solves overcrowding by moving far fewer students and Preserves Atholton HS. AHS is not at capacity and under the original feasibility study more than 2/3's of the school's population would change. That plan was not equitable to AHS .	
2583	8/11/2017 14:14	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	4	7	9	This Plan preserves Atholton	better than	6	3	9	This plan keeps the neighborhoods united and keeps community safe.	
2584	8/11/2017 14:14	VeteransES	DunlogginMS	CentennialHS	3	equal to	11	14	14		equal to	11				
2585	8/11/2017 14:15	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	It's horrible.	worse than	6	7	13		
2586	8/11/2017 14:15				5	better than	1	7	4	We are zoned to Pointers Run ES but our daughter hasn't started 1st yet. The current plan will have re-zone us from Atholton HS to River Hill HS. We support this plan given the utilization rates at both schools and comparable distance from our home.	equal to	14	14	14		
2587	8/11/2017 14:16			CentennialHS	1	worse than	13	13	13		worse than	13	13	13		
2588	8/11/2017 14:16	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for maintaining a logical boundary line of Frederick Road.	better than	7			Thank you for keeping the community together and maintaining a logical boundary.	
2589	8/11/2017 14:17				3	equal to	4	6	8	It seems hard for me to believe that families who live within walking distance of a school would not go to that school (Mt Hebron area). While this seems like an economic decision, there are family impacts and hardships as a result of this move.	equal to	1	6		The AAC draft plan does seem to reduce the impacts and consider the long range plan for the schools.	I think the order of operations is poor. Why shuffle students around at all until we know where the capital plan is headed?
2590	8/11/2017 14:18	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	4	6	7		worse than	4	6	7		
2591	8/11/2017 14:18	PointersRunES	ClarksvilleMS			equal to	6	7	9	The previous plan made more sense to me. My elementary school and high school would change but since half of our neighborhood goes to River Hill and the other half goes to Atholton it just makes more sense to keep all of us together and feed into River H	worse than	4	6	9	Makes more sense for all of the Villages of River Hill to attend one high school together. Crazy how the neighborhood is split.	

2592	8/11/2017 14:18	BushyParkES			1	worse than	7	13			worse than	7	13		The feasibility study appeared to appropriately re-allocate students. The AAC draft plan takes things yet another step further and is not what we would prefer.	We selected our neighborhood keeping elementary school districts in mind as we moved from Columbia to Western Howard County. We have come to love the Bushy Park community and we strongly object to redistricting our area to Lisbon Elementary.
2593	8/11/2017 14:18	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	Please refocus these projects on building new schools instead of shifting students to accommodate development.
2594	8/11/2017 14:21	DeepRunES			1	worse than	4	7	13	We currently live on Mayfield Ave in Elkridge. It make no sense for my kids to drive past Long Reach, past Howard, all the way to Oakland Mills. It's twice as far as the other two schools and requires travel on major roadways. It's outrageous.	worse than	7	13	4	We need to be building a new high school. The county is only growing and approving more permits for housing. You need to push on them to provide money to educate all the families that they're bringing in.	Again, it makes ZERO sense for my kids to drive from Mayfield Ave to Oakland Mills when they have to pass two other high schools on the way there. This map was drawn by people in a room, without regard to reality.
2595	8/11/2017 14:22	TriadelphiaRidgeES			1	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	
2596	8/11/2017 14:22				5	better than	1	10	9		better than	1	10	1		
2597	8/11/2017 14:23	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	7	4	13	The St. Johns/Dunloggin community has been recognized on maps going back well over 100 years. The proposed plan splits an established, cohesive community. My daughter will be split from her friends. Drive time to the high school would also be longer.	worse than	6	4	7		Changing our high school from Centennial to Wilde Lake makes no sense. This splits an established community within Dunloggin and creates longer drive times.
2598	8/11/2017 14:23	NorthfieldES	DunlogginMS	CentennialHS	2	worse than	7	6		The Dunloggin ("Old" & "New") neighborhood is split up in the current plan which is a detriment to our children. The neighborhood currently stays together for ES and MS but then would be severely split for HS. That community should be retained as a unit.						
2599	8/11/2017 14:24	CentennialLaneES			1	worse than	4	7	3		worse than	1	3	4	Feasibility is a well thought and balanced plan.	
2600	8/11/2017 14:24	CentennialLaneES			1	worse than	4	7	3		worse than	1	3	4	Feasibility is a well thought and balanced plan.	
2601	8/11/2017 14:27			CentennialHS	1	worse than	7	4	9	Part of our neighborhood would be displaced to Wilde Lake h.s and the other part would remain at Centennial h.s., a smaller, safer school with an overall more academically stringent culture; not an equal, or fair, move, especially for current CHS students						
2602	8/11/2017 14:27			AtholtonHS	4	equal to	11				better than	1	10	9	Much better. Feasibility Study needlessly destroyed Atholton high school. AHS is not over or under crowded, it matches the county demographics, and it is not next to the overcrowded area. It should remain intact in an effort to reduce kids affected.	Let rising juniors stay. Preserve Atholton even if other tweaks are made. There is no justifiable reason to make significant changes to Atholton. Kids must be put first and moving large numbers in high school is bad.
2603	8/11/2017 14:27	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for my neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
2604	8/11/2017 14:29	ClemensCrossingES	LimeKilnMS	AtholtonHS	5	better than	6	4	14		better than	6			I like this plan better for my students.	
2605	8/11/2017 14:30	ForestRidgeES	HammondMS	HammondHS	5	better than	7	9	6		better than	6	7	4		
2606	8/11/2017 14:33			HowardHS	5	better than	6	7			better than	6	7			
2607	8/11/2017 14:34			HammondHS	1	worse than	6	7	13	Hammond Middle already divides into three high schools. This is very difficult for the kids to loose many (or in my daughter's case, who doesn't have a lot of friends, all but one of) their friends. If this plan is passed she will have thus happen agai	worse than	6	7	13	I don't want my daughter to be a freshman twice. It too hard for children like my daughter who struggles in social areas to navigate this twice, but at least Atholton is a feeder school from Hammond Middle and closer to our community but, not our Village	This is not easy. Has it ever been suggested to have tge change start with the current seventh or eighth graders so they have time to be guided into friendships with kids that will go to their school? Could younger siblings have the option to attend eit
2608	8/11/2017 14:34		BurleighManorMS		1	worse than	4	7	13	I'm 1 mile from our current MS/HS; new AAC plan would move our school to 4 miles increasing bus transportation time/costs. Our neighborhood (polygon 147) would effectively become an island since we are off Old Annapolis Rd and cut-off from WLMS/WLHS.	worse than	4	7	8	Same reasons as above. Most children in our neighborhood (new development) joined their current school within the last 2 years. Moving polygon 147 would effectively uproot them again and impact the friendships with new neighbors & teachers.	Please consider keeping polygon 147 in CLES/BMMS/CHS and moving polygon 97 since it would eliminate two islands. Polygon 147 is closer to CLES/BMMS/CHS than polygon 97.
2609	8/11/2017 14:34			AtholtonHS	5	better than	1	10	14		better than	1	10	14		
2610	8/11/2017 14:35			MarriottsRidgeHS	1	worse than	7	4		Moving children whose school is within LESS THAN 2 MILES of their home completely negates the idea of a "community or neighborhood school." We specifically bought our home to be NEARBY the school our children attend so that they would not be bused.	worse than	7	4		Moving children whose school is within LESS THAN 2 MILES of their home completely negates the idea of a "community or neighborhood school." We specifically bought our home NEARBY the school our children attend so that they would not be bused.	The border lines of the AAC plan completely shift neighborhoods within less than 5 miles, even 2 miles, of a school.
2611	8/11/2017 14:35	NorthfieldES	DunlogginMS		1	worse than	4	2	6	Kids on my same street will now go to different high schools! At the last minute this come out in a process that was never supposed to be about high schools. How can you split a neighborhood in half? Ridiculous.	worse than				You can't split a neighborhood in half. Our neighborhoods are the fabric of our society. We aren't some data point.	I live on Chatham Road. Half of my street goes to one high school farther away than three other high schools and half my street goes somewhere else. All this after going to school with those kids from kindergarten to 8th grade. Seriously?
2612	8/11/2017 14:37		DunlogginMS		1	worse than	7	4	6	This plan SHOULD NOT be taken into consideration in which the communities of Howard County would be permanently affected in many more negative results compared to positive. This major change in our school district takes nothing more than student numbers.	worse than	4	6	7	This change is considerably larger than the prior Feasibility Study, and is impractical towards the concerns of the communities in our county. The AAC draft plan has made a terrible choice in their decisions for relocating a large area of students.	The students of this district deserve to have a lasting impression on a high school they have been bound to for their past years of education, and this major change in the area will upset many others besides myself as to how the students will be separated
2613	8/11/2017 14:38		ClarksvilleMS	RiverHillHS	1	worse than	6	4	9	It just makes no sense to bus in kids from a whole other area. Also, our property values will greatly drop if our school is not able to maintain the high level of rigorous educational standards; this might not happen with other schools feeding in.	worse than	4	6	7	In the Feasiblility Study, the River Hill community would remain together - which makes sense. We are all in the same community and the kids would have consistency. The AAC draft plan pulls in kids coming from much farther away in Columbia.	Our school should be allowed to maintain it's high level of achievement. If students arrive not prepared for the rigorous coursework, the classes will have to be adjusted and the school will not be able to offer what they have.
2614	8/11/2017 14:39	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	1	6	14	Go AAC! Moving Polygon 2114 to relieve Reservoir (and Fulton, indirectly) is such a smart move. Plus, it's a better feed for our kids; they'll be thrilled to stay with more of their friends. Utilization is much more balanced, too! GREAT JOB!	better than	1	6	14	I think the AAC draft plan does a much better job of focusing on utilization, as well as promoting the best feeds. I SO appreciate the work they've done to create a smooth feed from one level to the next. That was lacking in the Feasibility Study Plan.	Just a huge thank you for doing a thankless job. There's no way to make everyone happy. I just want buildings filled, and kids kept together (my personal agenda!) and you have exceeded my expectations.
2615	8/11/2017 14:40		MountViewMS	MarriottsRidgeHS	1	worse than	2	4	7	Please reconsider, Current attendance area is perfect for our community and this AAC is endangering my children's well being. We are starting late opening for all school and with this, they will be in before care impacting sleep and performance.	worse than	2	4	7	Please reconsider. I prefer Feabilitity Study. AAC put all my kids unneccesarily excessive commute time passing original school to Glenwood.	
2616	8/11/2017 14:41		DunlogginMS	CentennialHS		worse than	4	6	7	We live in Ellicott City NOT COLUMBIA in Old Dunloggin, built in the 1950s. This used to be Mt. Hebron's district. Put us back there if we have to move. Move all those recently built houses! Broccolino's house barely made it into Centennial - CHEATER!!!	worse than					
2617	8/11/2017 14:44	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	10	13	4	Children thrive on schools closer to home, the school's budget gets skewed on distanced areas being connected.	worse than	3	13	4	Some/more of our neighbors will be displaced. Its a significant change moving from middle school to high school with different crowd. Our property taxes are way higher, we would like an efficient use of the same.	Current setup is ideal. If RHS is under capacity, better to include homes in South Wind circle, Ten Oaks areas, Hall Shop road. Geographically this would keep children of the same areas together, good on budget and in their emotional growth.
2618	8/11/2017 14:45	NorthfieldES	DunlogginMS		1	worse than	7	6	4	The AAC draft plan is breaking apart the Dunloggin community. It does not make any sense to break up a tightly-knit community, whose children have attended Northfield and Dunloggin together, to bus half to another city for high school.	worse than	7	6	4	Breaking up the Dunloggin community into two high schools does nothing to solve the stated problem that Mariotts Ridge is under-subscribed.	The rationale for busing kids east of Rt. 29 through Dunloggin to attend Centennial, while busing kids from Dunloggin out of town to attend Wilde Lake is extremely unclear. To do this, the ACC is breaking up a community that the residents hold dear.
2619	8/11/2017 14:45			LongReachHS	1	worse than	7	4	7	If I read the map correctly it looks like the children from the Mayfield area which go to Long Reach HS 1.3 miles away will now be bus to Oakland Mill HS 3 miles away passing LR. My son will be a senior with challenges and not a transition he can make.	equal to	4	7	7		Will Seniors be allowed to stay at their current school?
2620	8/11/2017 14:46	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	13	This new plan pulls kids from outside of our area. Those kids aren't coming from same educational experiences and might not be able to keep up with the rigorous educational load.	worse than	6	9	7	With Feasibility Study, most students in River Hill community will go to MS and HS together. This is great for maintaining consistency, both from school to school and from a point of having a sense of community.	The AAC plan impacts the property values of our community. RHHS has been able to achieve a high ranking in the state/country for it's performance. Students from schools that don't have the same level of preparation might not be successful.
2621	8/11/2017 14:48	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	2	7		better than	1	6	2		
2622	8/11/2017 14:48	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	6	9		better than	7	4	9	Thank you for taking community input into consideration and keeping Font Hill together (poly 1184, 184, 2184, 156). This decision is wise and fair.	
2623	8/11/2017 14:49															

2624	8/11/2017 14:50				1	worse than	7	6	4	Residents of the Dunloggin community purchased homes in this area because they feed into Centennial High School. A disruption of this plan adversely affects property values in our area.		6	7	8		
2625	8/11/2017 14:50	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	6	4	5	If you move to EC, you expect your child to go to school in EC. it's not convenient to parents w/kids to drive to Columbia for after school activities, daycare, etc. I can see a re district to another EC school but not to Columbia.	worse than	5	6	4		
2626	8/11/2017 14:50	PointersRunES			1	worse than	7	6			worse than	7				
2627	8/11/2017 14:50		HammondMS				6	7	8	These are not user friendly to read. A key should always be given with a map so you can tell what things mean. My comments will be based on general info that I have been given.		6	7	8	Same as above.	The fact that students should be kept together is my main concern. I understand that things change and sometimes this is not possible. My family has a long history with Howard County Public schools so this is not new to me.
2628	8/11/2017 14:51			CentennialHS	1	worse than	4	7	13		worse than	4	7	1		
2629	8/11/2017 14:51		MountViewMS	MarriottsRidgeHS		worse than	4	2	7	Please reconsider, this will deprive my children group of hard earned friends and early morning sleep due to ending up at before care to accommodate change.	worse than				Please reconsider, this will deprive my children group of hard earned friends and early morning sleep due to ending up at before care to accommodate change. My family prefer Feasibility Study. If have to choose one	
2630	8/11/2017 14:53			MarriottsRidgeHS	1	worse than	13	4	6	This draft is pointless. Parents bought their houses to put their children into the schools provided for that house, and it would be completely irrational and unfair to move these children to other schools. Thid plan should be terminated.	worse than	7	8	13	To be honest, they both are horrible. Either way, more students are negatively impacted than positively. We already have the school start time change the same year, which is another unfair decision, but adding this will only cause outrage and distress.	Please reconsider this terrible plan before this gets out of hand.
2631	8/11/2017 14:54	DaytonOaksES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	Simple, the school was built to serve the communities close to the school. Please do not put too much burden onto the kids to break down the community integrity and kids friendship again and again. Please also think ahead, More houses are building in RH.	worse than	4	6	7	Simple, the school was built to serve the communities close to the school. Please do not put too much burden onto the kids to break down the community integrity and kids friendship again and again. Please also think ahead, More houses are building in RH.	Remember, the school was built to serve the communities close to the school. Otherwise, why don't we build all schools together like colleges. Don't change the adults willing eventually into the kids long-term burden.
2632	8/11/2017 14:54	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	6	4		worse than	1	4	6	River Hill HS was designed and build to serve River Hill Community dividing community between two high school never made any sense.	
2633	8/11/2017 14:57		MurrayHillMS	AtholtonHS	5	equal to	7	1	10	My biggest concern with current attendance areas is our community (Emerson) was arbitrarily split in 2014 MS redistricting, when polygons 272/1272 were moved from MHMS to PVMS, causing a rift in our community which no longer shared any schools from K-12	better than	7	1	10	AAC strengths are it doesn't destroy schools like Atholton HS & it tries to minimize disruption across HoCo now & when the new HS is built in 4-5 years. FS also doesn't take into account real-world communities (neighborhoods & schools) in its changes.	No school can withstand 66% loss proposed by FS for Atholton HS, which was a model of success for Policy 6010 goals. FS changes were driven by needs elsewhere in HoCo & AAC plan shifts the impact to overcrowded areas while minimizing disruption now/future
2634	8/11/2017 14:57	DaytonOaksES	LimeKilnMS	RiverHillHS	1	equal to	6	7	4	If Lime Kiln is the best choice for middle school then it would follow that both Fulton Elementary and Reservoir High would be feeder schools. Clarksville Elementary, Clarksville Middle and River Hill seem to be the logical choices.	better than	6				
2635	8/11/2017 14:58	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	The current plan divides our neighborhood between two high schools and will split the community. We specifically moved to this community so our children would go to school within their community and with friends for the duration of their academic career.	worse than	7	6	4	The time to review the plans has been extremely limited and it is unjust. More data needs to be provided to understand the rationale behind this arbitrary decision.My children should not travel further to school.The community needs to be kept intact.	Community is important.Dividing the community between multiple schools is disruptive and will erode the deep sense of community the Dunloggin neighborhood has. The boundaries need to be reexamine to ensure children who have grown up together stay together
2636	8/11/2017 15:00		ClarksvilleMS	RiverHillHS		worse than	9	7	13	Taking a high achieving/competitive HS and greatly reducing it's performance. Completely changing the demographic makeup of the HS by bringing in under-performing students.	worse than	9	7	13	Taking a high achieving/competitive HS and greatly reducing it's performance. Completely changing the demographic makeup of the HS by bringing in under-performing students.	By reducing the number of high achieving students coming to this HS and replacing with a completely demo, you'll be eliminating one of HCPSS crown jewels. Howard County will slip in national ranking...simple math.
2637	8/11/2017 15:01	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	13	4	7	We bought our home in Ellicott City to attend Centennial High in Ellicott City NOT Columbia! Centennial High is only 5 miles away from our home and Wilde lake in 9 miles. Absolutely ridiculous. We do not even have ever Community Association access. STOP	worse than	13	7		We bought in Dunloggin to attend Centennial in Ellicott City not be bused to Columbia that is 50% further away	
2638	8/11/2017 15:02	NorthfieldES	DunlogginMS	CentennialHS	2	worse than	7	6	4		worse than	7	6	4	The AAC is ripping apart the Dunloggin community. People purchase homes here because it is a true neighborhood, where families look out for each other. Please do not break up our kids and destroy the Dunloggin that we love.	
2639	8/11/2017 15:02	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	6	7	5	Polygons south of route 40 should go to Centennial, north to Marrisridge Ridge, if you understand how traffic runs. North of 108 should go to Centennial too, these communities have been Centennial feeders for many many years and need to stay!	worse than	4	7	13	Stop wasting our tax payers money on these nonsense "study"!	Whoever drafted these plans should be fired
2640	8/11/2017 15:02	CentennialLaneES				worse than	7	8	13	The AAC draft plan would effectively make polygon 147 into an island because the most of the homes are located off Old Annapolis Road. The kids in the community also walk to Centennial Park North entrance that is adjacent to polygon 2147, 5147 and 1156.	worse than	7	5	13	Our rising 4th grade or several neighbors are currently participating in the "It's Academic" program. This program is offered at CLES and BMMS but not in Long Fellow and WLMS where the AAC is moving him.	Our 4th grader moved to Howard County from Montgomery County 2 years ago. The AAC plan would force him to move to a new school and lose friends. In MS, he would know almost no one since he would go to Wild Lake MS with different feeder schools.
2641	8/11/2017 15:04	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4			Our home was under 1.5 miles from current schools and now they are being assigned to schools nearly 4 miles away.	worse than	7			The 'Feasibility Study Plan' did a Amazing Job keeping communities contiguous. The draft plan moves Polygon 147 to 'Wilde Lake HS' thereby breaking it from the existing communities and try to attach it to communities across a Major Highway (108).	My daughter goes to 'Centennial HS' and used to bike to school in Summer with her friends and sometime with her Mom which she & everyone in family Really Loved but now moving Polygon 147 to 'Wilde Lake HS' would make it impossible & dangerous to do that.
2642	42958.62914	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	4	7	9	WLHS is currently a very balanced make-up of students--academically, socio-economically and racially. I love the diversity of WLHS. This plan changes that diversity, while not changing the diversity of RHHS at all. This change should be studied longer.	equal to	4	7	9	Both plans too negatively impact too many people/schools.	These plans need to be studied further. No changes should be made to high schools yet. Also, the committees that make these decisions/plans should consist of NO PARENTS of HCPSS students. They are never able to be totally impartial.
2643		NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	8	7	4	So some "genius" came up with the plan to separate our tight communities to make "new" mixture communities by redistricting schools? You should be fired! You are not paid to make us taxpayers suffer and students suffer!	equal to	7	9	4	Stop your bureaucratic planning"	listen to what us residents have to say. Stop doing all this nonsense."So many students will be affected by these plans, stop doing this!
2644	8/11/2017 15:09			AtholtonHS	5	better than	1	10		Kudos to the AAC for also planning for future HS redistricting when moving kids this time.	better than	10	1	8	Some Atholton kids(p2011) were impacted by SIGNIFICANT changes in elementary & middle. They shouldn't go thru that again. Fewer kids moving. Consideration for future high school. AAC plan preserves excellence at Atholton. FS decimates AHS for no reason.	Let them stay. Regardless of final plan, let juniors stay at their current schools. That's a vital year for college readiness." They need to focus on academics & leadership roles. How to do when learning a new school/teachers/classmates at the same time?"
2645	8/11/2017 15:10	PointersRunES	LimeKilnMS	ReservoirHS	5	better than	7	6		Great job, AAC! My kids can stay more contiguous when transitioning from school to school.	better than	6	7		My kids can stay more contiguous when transitioning from school to school.	Thank you for considering the long-term needs of our community with all of the new construction imminent.
2646	8/11/2017 15:11	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	5	13	The new plan redistricts my kid in polygon 147 to have to walk over HW108, into Columbia from Ellicott city!!! The current plan as of August 8th, is NOT on accordance with the feasibility plan.	worse than	4	5	13	Moving polygon 147 severely impacts the students in the community as they would be switching schools again with less than a 5 year frame and this does not meet the rezoning policies. Transportation for them will be across a 6 line highway of 108!	The distance to the new schools is much more than the current 1 mile distance. Facility Utilization level is severely low for 147 if changed
2647	8/11/2017 15:12	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	13	5	6	Thiis doesn't make sense...	worse than	4	5	13		
2648	8/11/2017 15:12	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	7	8	9		better than	2	9	6		
2649				HowardHS	1	worse than	9	10		It's sad that the county typically bends for the communities that have more money. I fell this new plan is to make those higher income homes happy.	worse than	1	9	7	It seems that the neighborhood with higher household income has spoken and they get their way. If you are trying to improve the demographics to make most High School's equal (when it comes to FARMS and race) the second plan is not going to make a change.	Any time a change occurs to a neighbor of high income" it doesn't pass. I feel those neighborhoods have more of a voice than others even when the plan makes sense. I hope this isn't the case again."
2650	8/11/2017 15:12	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	6	13	I do not agree with the ACC draft plan. Please keep the River Hill neighborhood particularly for high school students together for the sake of our children and community.	worse than	7	6	13	Feasibility Study is more streamlined & keeps communities together. I don't like what the AAC did because it does not meet the needs of our children in terms of location & after school obligations. Families want to serve the community in which they live.	We moved to River Hill despite the long commute to work because of River Hill HS. We will lose many educated, talented and skilled neighbors of River Hill if major changes proposed by the ACC take place.
2651	8/11/2017 15:12			MtHebronHS	1	worse than	4	7	6	This plan splits neighborhoods and sends students currently WALKING to school on a 20 minute drive to school. This plan is difficult on working parents especially if children are involved in sports. If I am at work, my teenager can walk to/from practice	worse than	4	7	6	I understand shifting does need to occur-- the feasibility study divides our community less and puts children at schools closer to them rather than moving walkers to a school much farther away.	
2652	8/11/2017 15:12	DuckettsLaneES			4	equal to	8	14	14		better than	4	9	2	Would prefer the AAC plan over the Feasibility plan	

2653	8/11/2017 15:14			HowardHS	1	worse than	1	4	13	How does this impact population problems for the long term duration? It has NOT been completely explained how switching Elkridge will impact population issues. Where is the data about how this would solve long-term overcrowding at both LRHS and HHS?	worse than	4	4	13	The original proposal left my neighborhood alone. Now after many parents complained, our area is not proposed to change schools. No data has been used to demonstrate that moving our Elkridge/Hanover to Long Reach will solve the population issues.	We did not fight against the original proposal because it did not impact our area. Now that others were upset about the move and we were quiet, you have decided to move the ones (Aug. 8 proposal) that were quiet. Please provide data to support the move.
2654	8/11/2017 15:15	DeepRunES			4	equal to	4	5	6	Would like to keep my child at Deep Run	better than	4	9	10	I like the AAC plan better than the Feasibility Plan. It would allow my child to remain at DEEP RUN ES	
2655	8/11/2017 15:16	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	3	4	147 is in walking distance to Centennial High. It should not be rezoned to Wild Lake. There are two high traffic roads between 147 and Wild Lake. The rezoning put our kids' lives in danger. Keeping 147 in Centennial does not have any negative impact.	worse than	1	3	4	AAC plan, perhaps driven by a few special interests and fervent parents, tears communities apart. It is arbitrary, harmful, cherry-picking, without regard for safety and long term solutions.	Keep 147 in Centennial school district.
2656	8/11/2017 15:17			GlenelgHS	2	worse than	6	4	7			7	4	6		
2657	8/11/2017 15:17			CentennialHS	1	worse than	7	1	6		equal to	14	14	14		
2658	8/11/2017 15:18	PointersRunES			1	worse than	4	6	7	This plan moves children in 1189 from Pointers Run, which is a 1 mile distance from our home, to Dayton Oaks, which is 4.5 miles from our home. Transportation to Dayton Oaks requires crossing and travel on Rt 108 and 32, which are high transit roads.	worse than	4	6	7	This change negatively impacts child safety and transit time. It affects before/after school programs. Further, very few students from Dayton Oaks attend Clarksville MS, which makes this change very hard on the students and families.	Construction on Rt 32 as well as the new house being built on Rt 108 will add much congestion. Please, please consider keeping 1189 at PRES. This change will severely negatively impact my childrens' education, social environment and our community.
2659	8/11/2017 15:19	CentennialLaneES			1	worse than	7	9	4	The disparity between the schools is blatantly obvious. We chose to live in this area because it ensured our child went to one of the best schools in the area. The rent we pay is commensurate with residing in the CLES zone.	worse than	9	7	8		My chikd has already experienced a move from anther country and comencement at a new school. We have tried to ensure this transition was as smooth as possible. An additional upheaval to a new school would be highly upsetting to an already anxious child.
2660	8/11/2017 15:20	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	2			not enough details about impacts on community and school demographics to be able to judge plan. This process is being rushed and the Superintendent should take more time when making such impactful changes.	worse than	4			Has anyone done a transportation cost analysis on the impact of moving so many walkers to bus riders? Also, why not move kids who are bused a long distance currently to fill seats in Western schools. Emerson is bused to AHS, why not send them to RHHS?	
2661	8/11/2017 15:21				1	worse than	7	6	4		worse than	4	6	7		
2662	8/11/2017 15:22			CentennialHS	1	worse than	6	7	13		worse than	4	6	5		Redistricting the students now would mean their courses all need to be changed. This may result in some students not being able to take classes they wanted. The SAC plan also ends up separating students from each other, breaking up their groups.
2663	8/11/2017 15:22															
2664	8/11/2017 15:23	NorthfieldES	BurleighManorMS	CentennialHS	1	equal to	7	4	13	My kids go to NES, BMMS, and CHS, now the so-called plan wants to change this, WE DO NOT AGREE! We do NOT want to go to other schools, we moved here to go to these schools, not others.	equal to	7	6	4	New and old plans both do not make any sense!	Stop wasting our taxes on this nonsense!
2665	8/11/2017 15:24	BellowsSpringES			5	equal to	7	4	14		better than	4	6		AAC plan is better. It allows my child to remain at Bellows Springs!	
2666	8/11/2017 15:27	DuckettsLaneES				worse than	13	8			better than	4	6	8	The AAC plan would move my child elementary schools from Ducketts Lane to the new ES but would allow us to remain in current carpool and transportation.	
2667	8/11/2017 15:27	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	2	4	147 contains the community Centennial Overlook. It is in walking distance to Centennial High. There are two busy roads between 147 and the southern region. It makes no logical sense to move 147 from the Centennial school district to Wild Lake district.	worse than	1	2	3	AAC draft plan tears communities apart. Many decisions seem arbitrary, without consideration for bus routing, facility utilization, and overall welfare of our communities.	Polygon 97 should be moved out of Centennial district if CHS is over capacity. 97 is nowhere near the school district and should logically go Mt Hebroon H.
2668	8/11/2017 15:29	NorthfieldES	DunlogginMS	CentennialHS	4	worse than	4	7	9	Driving distance, geography , distributing FARM students none of stated purposes are served with adding Dunloggin neighborhood to Wild Lake HS. It divides unified Dunloggin community. Higly recommend to keep current attendance areas.	worse than	9	7	13		
2669	8/11/2017 15:30									Leave Polygon 118 Alone.					Leave Polygon 118 Alone.	Leave Polygon 118 Alone.
2670	8/11/2017 15:31	GormanCrossingES			5	better than	1	10	14	I have only seen the maps so far, but it looks as if the AAC plan does a better job of promoting socioeconomic diversity throughout our county's schools	better than	10	1	9	This plan disrupts far fewer students and families while achieving the result of utilizing capacities at HCPSS schools	
2671	8/11/2017 15:31	NorthfieldES			1	worse than	4	7			worse than	4	7			
2672	8/11/2017 15:32		ClarksvilleMS	RiverHillHS	1	worse than	1	8	4	Some of the additions to RHHS makes sense, but some just seem to be totally illogical. There are areas very close to Atholton HS, but students from that area are getting moved to RHHS? Students from Marriotts Ridge and Glenelg coming to RHHS is illogical.	worse than	1	8	4	The road leading to RHHS is already congested and it's not going to get better anytime soon, especially with more commercial property being planned for that area. Students will sit on the bus/car for hours to get to the building. Bus drivers will be late	for the next routes to pick up and drop off kids from the ES or MS. Aren't we also changing start and end times? Maybe we should consider redistricting for another year? Unmanaged change will cause havoc and will not help improve education for students.
2673	8/11/2017 15:33	HammondES	HammondMS	AtholtonHS	2	equal to	1	1	1		equal to	1	1	1		
2674	8/11/2017 15:34	JeffersHillES			5	better than	1	5		Allow my child to switch to Phelps Luck ES	better than	6	8		AAC is better because it allows my son to attend Phelps Luck elementary school.	I like the AAC plan compared to the Feasibility Study plan. My son would be better off at Phelps Luck vs Jeffers Hill! Please move forward with the AAC Plan.
2675	8/11/2017 15:35	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	3	5	keep polygon 147 in the current school attendance area will help to keep the history , bonding and stability of the whole centennial community.	worse than	10	3	4	keep polygon 147 in the current school attendance area will help to keep the history , bonding and stability of the whole centennial community.	
2676	8/11/2017 15:38		MountViewMS		1	worse than	1	6	4	Dramatically increases transportation time for students. Takes students from under enrolled schools to other under enrolled schools for no reason.	worse than	4	6	1	Dramatically increases transportation time for students. Takes students from one under enrolled school (MRHS) to another under enrolled school (RHHS) that is further away than current school (MRHS) and other under enrolled school (GHS).	Requires a few students to change middle and high schools without meaningful positive impact on an already at (not over) capacity middle school and removes them from an under enrolled high school.
2677	8/11/2017 15:39	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	8	1	keep polygon 147 at CLES, BMMS, CHHS	worse than	7	8	4	keep polygon 147 at CLES, BMMS, CHHS move polygons 1148, 147 to MRHS	
2678	8/11/2017 15:40	DeepRunES	MayfieldWoodsMS	LongReachHS	1	worse than	13	4	9	From My home the first closest High School is Long Reach High. Second closest is Howard High. But according to this plan my kid will be going to Oakland Mills High.	worse than	14	14	14		
2679	8/11/2017 15:40	ClemensCrossingES			1	worse than	7	13			worse than	7	13		AAC plan pulls my child out of a top tier school district. Also, I would not have purchased a house in the neighborhood had I known the school would change. It hasn't changed in 20 years.	School change should occur with new cohorts of kids, not kids already at a school. It is detrimental to my child to send them to a lower tier educational school from a top tier school.
2680	8/11/2017 15:41		MountViewMS	MarriottsRidgeHS	1	worse than	4				worse than	4			strongly agree with Feasibility study rather than AAC.	we live just around 1 mile to mount view, Marriatts ridge and west friendship schools. according to AAC plan, it's very poor idea to move to faraway schools which are bushypark, glenwood and glenleg schools.
2681	8/11/2017 15:42		LimeKilnMS			better than	6			My kid in Polygon 2114 will be so happy to stay with more of his friends as he grows up. Thank you so much for the effort and great work!!	better than	6			Great job, the map looks much more balanced regarding utilization across all the schools. Polygon 2114 looks really good. Thanks!	
2682	8/11/2017 15:44	TriadelphiaRidgeES			1	worse than	6	7	13	Biggest concern is continuation of neighborhoods and feeds K-12. This appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community	worse than	6	7	13	Preference for the feasibility study. For my family the feasibility study does impact high school, but based on location my neighborhood would ultimately be a very small feed from assigned elem & ms to different HS in this draft plan.	Candid: If you keep the homes off Sheppard Lane at River Hill (that neighborhood feels very strongly) & redirect the TRES/FQMS polygons to Glenelg HS as outlined in the earlier feasibility study I think you will get less pushback than one may expect.
2683	8/11/2017 15:45	HammondES	HammondMS			better than	1	10	6	Thank you for preserving AHS.	better than	1	10			
2684	8/11/2017 15:45	DeepRunES				equal to	8	7			better than	7	4		The AAC plan allows our children to remain at the same elementary school instead of switching them during the middle of the ES journey!	
2685	8/11/2017 15:46			MarriottsRidgeHS	1	worse than	4	3	6	Shifting the Rt 32 communities from MRHS to Glenelg means students will drive PAST the school. With traffic on 32, bus routes will be upwards of 60 min. 32 is a dangerous road for young HS drivers. There have been many fatal accidents involving teens.	worse than	3	4		The Feasibility Plan is far better because the shift of polygons from MRHS to Glenelg is based on proximity to the schools. The majority of the proposed polygons are equidistant between both high schools and does not increase operating costs.	The AAC proposal moves polygons that are closest to MRHS (1.5 miles or less) while keeping polygons that are 6.5 miles away. Shifting the polygons closest to Glenelg HS maintains shorter bus routes, minimizes costs, and keeps teen drivers off of Rt 32
2686	8/11/2017 15:46	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	3	4		worse than	1	4	5		
2687	8/11/2017 15:47	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7		worse than	4	6	7		
2688	8/11/2017 15:48		FollyQuarterMS		1	worse than	3	7	2		worse than	3	4	6		
2689	8/11/2017 15:49				1	worse than	7	1			worse than	7	1			
2690	8/11/2017 15:50				1	worse than	7	4			worse than	7	4			

2691	8/11/2017 15:51	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	8	6	AAC draft plan creates new problems when there are no issues with CLES and BMMS and poorly solves their self-created problems by making extremely insensitive and horrible decisions. in the whole Northern region, the issue was with CHS. Focus on the issue	worse than	4	7	8	Poly 147 was approved by zoning to be within CLES, BMMS and CHS. Kids have walking distances to these schools. Now, making them travel miles away and also having them change schools within a very short period of time is against the policies.	Focus on solving the issues clearly laid out in the feasibility study that proposed to move kids CHS to MRHS (equally or above par). This draft plan is proposing to move CHS students to a sub-par school district and completely unfair in so many levels.
2692	8/11/2017 15:52			HowardHS	5	better than	2	5	6		better than	14	14	14		
2693	8/11/2017 15:52					worse than	7	1			worse than	7	1			
2694	8/11/2017 15:52	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	1		I am not sure how the school board can justify redistricting parts of gray rock drive area while not redistricting Chatham Garden apartments. The Centennial School district is overcrowded. High school hallways are too congested.	worse than					
2695	8/11/2017 15:56	TriadelphiaRidgeES		RiverHillHS	1	worse than	7	4	9		worse than	7	4	9		
2696	8/11/2017 15:58		EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2697	8/11/2017 15:58	PointersRunES			1	worse than	4	7	6	We can walk to the school now and will never be.						
2698	8/11/2017 15:59	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13	4	7	Feasibility Study is better and should be considered as it's been done by professionals with all sort of projection consideration. Please do not move our kids again as we just moved to this new community for schools Keep 147 in Centennial School district.	worse than	4	13	7	Please follow the recommendation of the feasibility study as it's been done by professionals with access to all necessary data and projections to make these projection.	I believe the timing and effort that has gone to the feasibility study should not be disregarded.
2699	8/11/2017 16:00	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2700	8/11/2017 16:01	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	6	4	I support the draft plan because it keeps my community intact and replicates the current student attendance areas.	better than	7	6	4	I support the draft plan because it keeps my community intact. The feasibility study plan split my community and sent a small percentage of students in my part of the community to a high school that was 6 times further away than my current HS.	
2701	8/11/2017 16:02			HowardHS	1	worse than	6									What happened to moving the Lyndwood kids. It always seems like the East of Route 1 area is a quick target for these moves. Maybe you should really make a new high school happen which would benefit all these kids.
2702	8/11/2017 16:04	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	9	10	This plan works great with our Emerson community. It integrates the Main Emerson community and Eastern Emerson community into the same elementary school and middle school. It also solves the overcrowding problem of the Patuxent Valley MS.	better than	10	1	9	AAC plan is great! Much better than the feasibility study! AAC plan moves much fewer students (thus much fewer disturbances to communities). AAC plan unites the Emerson neighborhood and keeps students (and demographic diversity) in Atholton.	Besides the above-mentioned reasons, the AAC plan is superior the Feasibility Study also because it moves Polygons 272 and 1272 to Murray Hill MS & Atholton HS. Our Emerson community is finally united in terms of school attending areas.
2703	8/11/2017 16:04	CentennialLaneES			1		4	7	13	Move 3147 to Longfellow as they are pretty close to that school if capacity is a problem at Centennial ES.	worse than	4	13	8	Also move 97 to St.Johns Lane as they are far away from the Centennial ES.	
2704	8/11/2017 16:04				1	worse than	7	6	8		equal to	7	8	12		
2705	8/11/2017 16:05			AtholtonHS	5	equal to	9	6	7		better than	7	6	9	This new draft plan is a much better plan which impacts less students overall and makes much more sense geographically. There is still room to improve but it is so very much better.	
2706	8/11/2017 16:06	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7			Damage the community continuity, change the plan inconsistently . Heavily negatively impact the kids and our whole family	worse than	7			We are strongly against both because they greatly damage the community continuity	
2707	8/11/2017 16:06	DuckettsLaneES			3	equal to				I love DLES and feel bad about all this redistricting. We are also being redistributed to Oakland Mills High School which has the poorest high school rating in the county. It will affect our property value badly. Nobody think about home owners!	better than				The AAC draft plan looks better than Feasibility Study Plan just because I feel better about sending my kids to new ES #42 than to DRES. However, there is no standard estimated information regarding # of students, demography, % of low income and etc.	No estimated standard info for new ES #42 such as # of students, demography, % of low income and etc. Therefore, no chance for informed & objective feedback from stakeholders. Bad thing that we are sent to HS with lowest rate in Howard County.
2708	8/11/2017 16:07	NorthfieldES			4	better than	6			Good for our group in Dorsey with kids that go tO WLHS currently - increases community fees.	better than	6			Better - eliminates Gray Rock Road homes attending 3 different high schools.	
2709	8/11/2017 16:08		BurleighManorMS		5	better than	7	1	9		better than	2	6	4		
2710	8/11/2017 16:08	WorthingtonES	EllicottMillsMS	HowardHS	3	equal to	7	6	12	From a standpoint of fairness and limiting negative effect on the kids it is important to limit the size of feeds and keep groups together. The bigger problem is that we allow far too much growth around the heavily loaded schools to ever get ahead of this	better than	7	1	9	Definitely better than the original but still has small feeds and breaks up neighborhoods.	No neighborhoods should be broken up, small feeds should not happen. Need to find a way to plan longer term and not allow developers to control our County
2711	8/11/2017 16:08			MarriottsRidgeHS	2	worse than	13	1	3	I think excessive time on bus should be minimized. Marriotts Ridge is not crowded nor does it get crowded; therefore, I think it should be utilized more than some of the older schools and more students kept there while moving others into it.	equal to	1			I just don't see any difference based on the information I was able to locate on the sites for comparison sake.	Agreed that this needs to be done; however, I believe that if parents and students can provide their own transportation to maintain the same school (especially for HS ninth, tenth and eleventh graders), this consideration/exception is fair to provide.
2712	8/11/2017 16:09	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	5	7	9	This ACC draft plan proposes to move too much Wild Lake HS students to River Hill HS. This is a very bad idea. It will give a significant change to River Hill community. <10% moving in is an acceptance plan.	worse than	7	9	10	The feasibility plan is not perfect but it is acceptable. But this AAC draft plan is too bad. River Hill community has traditional connection with Atholton HS community and west part of Atholton HS area used to be part of River Hill community.	We want to keep our River Hill community stable. Let's just get the change <10-15% for our River Hill HS community.
2713	8/11/2017 16:10	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	3	13	Polygon 147 Centennial over look. Please keep centennial overlook in Centennial.	worse than	4	6	13	The AAC draft plan is impacting our kids negatively,though we are less than mile away from the schools donno why we are moved to schools more than 5miles.	
2714	8/11/2017 16:11		OaklandMillsMS		4	equal to	6	11	14	Honestly, I need to see FARMS data before knowing anything for sure. But this plan is definitely better than the one in the Feasibility Study.	better than	9	6	11	The Feasibility Study Plan is awful in how it impacts OMMS and OMHS and TSES. It puts an undo burden on those schools in the way of FARMS students.	OMMS, OMHS, and TSES already have a huge FARMS population, and moving out the Thunder Hill, Sewells Orchard, and Hopewell would greatly impact the faculty and staff, not to mention the remaining non-FARMS parents.
2715	8/11/2017 16:16	NorthfieldES			1	worse than	4	7	13	I am very concerned about my children being on a bus for so long everyday and the proposed high school is so far, transportation (and car pooling) for after school activities would be next to impossible.						
2716	8/11/2017 16:16	GormanCrossingES			5	better than	6	7	8		better than	1	10		Much better than Feasibility Study. Less student to be moved than Feasibility Study. Preserves Atholton HS.	
2717	8/11/2017 16:16	NorthfieldES			1	worse than	13	4	7	My neighborhood is currently all attending a very good school for high school. The draft plan puts part of our neighborhood into a lower performing school. Meanwhile the draft plan has students from much farther away than us attending our original sch.	worse than	13	7	4	In the feasibility study my neighborhood was left intact, attending a high school with a much better reputation.	People choose to live in certain neighborhoods because of the local schools. We want our children to have all of the opportunities that come with going to a great school.
2718	8/11/2017 16:16	RockburnES	ElkridgeLandingMS	HowardHS	4	equal to	6				better than	12	6			The county needs to stop approving more development projects in areas of already overcrowding. The students and families are forced to deal with county development errors. Communities need to go to school together and they need stability.
2719	8/11/2017 16:16			MarriottsRidgeHS		worse than	9	4		I currently live .5 miles from the school and with changing the high school he will have to wake up an hour earlier. Putting him on dangerous roads. Which will be under construction for the next several years to make a 4 lane highway Accidents will double	worse than	4		9	Once a student starts in a high school, they should not be transferred from that school especially those with a learning disability. He has worked hard to be accepted by his peers and that will be taken away.	The potential for a significant psychological impact on the students, especially the ones with learning disabilities and IEP. (Such as my son.) His high school will still be under capacity and we are a small neighborhood.
2720	8/11/2017 16:17	CentennialLaneES			1	worse than	8	13	4	The interactive map clearly shows that the AAC draft plan does not consider maintaining continuous communities and neighborhoods by imposing 147 kids to cross road 108 as a major arterial road.	worse than	7	5	2		

2721	8/11/2017 16:18	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	8	I think by moving the students away from their current schools will negatively impact the student's learning and sense of community. They are physically and mentally making a strong connection with their current social groups, friends, and teachers.	worse than	3	4	13	It would be more cost effective if we are not to disrupt the current attendance plan based on geographic locations.	I think the new plan will have a huge impact on the older children i.e. HS teenagers, at this age, they are finding their place in their community, trying to belong, this move will only add anxiety to their developing characters and learning experience.
2722	8/11/2017 16:18			OaklandMillsHS	1	worse than	4	5	7	My students participate in after school required activities, such as marching band. They would no longer be able to walk home easily. Also, the proposed school does not currently have early college co-op.	worse than	4			At least AHS is in walking distance.	
2723	8/11/2017 16:20	GormanCrossingES			5	better than	6				better than	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
2724	8/11/2017 16:20		DunlogginMS		5	equal to	7	4		My neighborhood (Gray Rock Farm) is maintained as a single community. Centennial High School is the nearest High School.	better than	7	4		In the Feasibility study my community was divided between two high schools. This makes no sense for a community our size and artificially forces students to a school considerably further away when many other communities are closer to that high school.	Since the county is already working toward a 13th high school in Elkridge which will alter the map again, it makes more sense to move that plan forward as quickly as possible and then do a more comprehensive redistricting at that time.
2725	8/11/2017 16:23	DuckettsLaneES				worse than				Please keep polygon #33 at DLES and do not send us to Oakland Mills High School which has the poorest high school rating in the county.	equal to				Please keep polygon #33 at DLES and do not send us to Oakland Mills High School which has the poorest high school rating in the county	Please keep polygon #33 at DLES and do not send us to Oakland Mills High School which has the poorest high school rating in the county
2726	8/11/2017 16:24	PointersRunES	LimeKilnMS	AtholtonHS	4	better than	6	7	1	It solved the LKMS over-capacity and CMS under-capacity problem.	equal to	6	7	1	AAC plan and Feasibility Study plan keep a consistent middle school and high school feed from the elementary school.	
2727	8/11/2017 16:24	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	3	4		worse than	7	4	3		Please stop wasting tax payer's money!!!!!
2728	8/11/2017 16:25	ClarksvilleES			3	worse than	7	12		I support kids being moved into CES . I hoped to see all of River Hill north of 32 going to one school. I would be nice for River Hill families to be together. That said, I welcome kids from Longfellow to CES and am somewhat neutral on this proposal.	better than	6			I am happy to see that the polygons north of 108 that were proposed in the FS to be transferred to Tridelphia Ridge staying at CES.	
2729	8/11/2017 16:25				1	worse than	7	6	4		worse than	7	6	4		
2730	8/11/2017 16:26	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	14	14	14		worse than	7	8	4		
2731	8/11/2017 16:27		MurrayHillMS		5	better than	1	10	10	addresses the overcrowding issue and requires less students to be shuffled/impacted. Preserves Atholton HS.	better than	1	10	10		
2732	8/11/2017 16:29	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	4	6			worse than	6	4	7		
2733	8/11/2017 16:30	CentennialLaneES	BurleighManorMS		1	worse than	9	7	6	The AAC plan would make our polygon 147 an island based on where the majority of the home are located off of Old Annapolis and not on 108 side then separate kids in our neighborhoods from their surrounding neighborhoods.	worse than	9	4	6	Since we are new community, our kids have just moved to their new school. Having to move again will affect them emotionally and academically in a negative way.	There are 5 zones much further from the school than us that aren't getting redistricted. We have paid over 400K premium for the house to just get our kids to a better school. It will be devastating for us to lose that investment.
2734	8/11/2017 16:31			HammondHS		equal to	4	3	7	The AAC draft plan still allows my students to walk to HAHS. The AAC draft plan allows for my student to remain with some of our support systems and their community friends but is taking away MCGills common, which is a huge part of our community.	better than	4	6	7	The AAC draft plan allows for my student to continue to walk to HAHS which is less then .5 of a mile from our house. The plan also allows my student to participate is sports programs and after school activities because we live close and he can walk.	Keeping our community together is important for our kids to succeed. We live off Guilford Road, Polygon 13 and in walking distance to HAHS. We have made long term friendships and community support systems, it would be sad to loss these.
2735	8/11/2017 16:31	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	4	6			worse than	7	6	4

2737	8/11/2017 16:34		BurleighManorMS		1	worse than	7	8	4	The residents in Old Annapolis road have been in Centennial community for more than 50 years. AAC proposal moves these students to Wilde lake across Centennial lake? It destroys the contiguous neighborhood. please keep polygon 147 in Centennial schools.	worse than	8	7	4	keep polygon 147 in current schools, tiny change to AAC's proposal in considering small population, avoid two sufferings from moving within 2 years for many innocent kids in the new development in the spirit of policy 6010 IV.B.2.C once every five years""	Students in polygon 147 can walk to CHS and BMMS for after class activity. No way to Wilde Lake schools, Road 108 blocks the way to home.
2738	8/11/2017 16:34	FultonES			1	worse than	4	13	7	I would hate to see my real children have to change schools (to one much much very inconveniently further away) for one year for the sake of hypothetical kids who might one day live in houses that have currently not even been built yet.					I could not even find my neighborhood of Beaufort Park on your maps, so I don't know how this plan would impact us. We would like to go to the schools 5 minutes down the road kthnksbye.	
2739	8/11/2017 16:34	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	4		worse than	4	6	7		
2740	8/11/2017 16:34	AtholtonES	HammondMS	HammondHS	1	worse than	2	4	13	Moving MacGills and allview to two schools that they don't share a border with any other Polly makes them outsiders. Students will not be able to stay after for study groups, or individual help, as they can not walk home.						
2741	8/11/2017 16:35	WaterlooES			3	worse than	10	7	13	Keep polygon 147 in the current school attendance area to keep the history, bonding connection and stability of the whole centennial community.	worse than					
2742	8/11/2017 16:35		ElkridgeLandingMS		1	worse than	6	7	4		worse than	13	7	6		
2743	8/11/2017 16:36	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	3	7	My family currently lives in #147 and the change will have the following impact: > Isolated > Proximity / Travel time to school > safety and walkability > Transportation costs	worse than	1	2	6	My family currently lives in #147 and the change will have the following impact: > Isolated > Proximity / Travel time to school > safety and walkability > Transportation costs	#147 is within walking distance to all three current schools. Redistricting would isolate #147 by Columbia Rd. and Rt. 108 causing unnecessary safety and transportation cost issues.
2744	8/11/2017 16:36	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	3	5	BPES is much further than WFES for Poly's 231, 229, 2229, 1229, 1231, 232, 224 - these children are already on the bus for approx 45 minutes one day to school. Adding an addition 15+ minutes is not a reasonable solution. Not close proximity to BPES	worse than	4	5		Would rather have the small feed into Mount View and Marriotts Ridge back for Polys 231, 229, 2229, 1229, 1231, 232, 224 over this plan.	Feasibilty study preferred over the ACC draft. Still consider sending Turf Valley to BPES as a TEMPORARY solution until the new elementary school is built. Avoids $4M capital invest in WFES and moves fewer students.
2745	8/11/2017 16:38	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	We moved into the Dunloggin community recently because we really like the feel of the community in an established neighborhood. This plan would negatively divide up the Dunloggin community and add a considerable commute time to highschool.	worse than	7	4	14		
2746	8/11/2017 16:41	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thanks for keeping the community together and maintaining a logical boundary.	better than	7			Thanks for keeping the community together and maintaining a logical boundary.	
2747	8/11/2017 16:41		BurleighManorMS		1	worse than	4	7	6	Polygon 214 is closer to CHS then Polygon 153 Polygon 214,153 and 1184 are part of the same neighborhood. It is not in alignment with policy 6010 to return polygon 153,1184 to CHS and redistrict 214 to MRHS. Polygon 214 should be returned to CHS	worse than	6	7	13	The neigborhood comprising of polygon 214,153,154,1184 and 2154 were further broken down by returning polygon 153 and 1184 back to CHS and redistricting the remaining polyogns to MRHS lowering the feed from BMMS to MRHS in the neighborhood.	Polyogn 214 submitted proposols on july 31st,please consider those in the interest of children. Lastly please postpone the redistricting until 13th high school which can be fast tracked so that we dont have to go through the redistricitng twice. Thanks
2748	8/11/2017 16:43	AtholtonES				worse than	6	7	6	This plan does not keep Atholton elementary and Hammond middle school communities the same. We would be loosing many supportive families from Mcgillis Common area. My son would go to school with a very small portion of his community.	equal to	6	7	7	Both studies break up the school community of my son. Leaving very few students he knows going to middle and high school. Columbia was founded on the basis of community. Both studies break up our supportive community. It is disheartening.	Please have someone survey the area suggested in polygon 13 and Mcgills Common. We shop together, eat together, go to the same pools, do swim team together. We are a supportive community, come see. We are very sad to see both plans. It divides us.
2749	8/11/2017 16:43			RiverHillHS	1	worse than	3	4	7		worse than	6	7	2		
2750	8/11/2017 16:43	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	better than	7	1	4	Thank you for the work done and the time put into this. I appreciate that you listen to people's voices	better than	1	4	7	You listen to people, also the aac plan moves a lot less students	There are people not happy with either plan, I would encourage meeting with families and try to accommodate individual's needs - although it is not possible to make everyone happy.
2751	8/11/2017 16:44															
2752	8/11/2017 16:44			CentennialHS	1	worse than	7	6	4		worse than	7	4	6		
2753	8/11/2017 16:46	PointersRunES				worse than	6				worse than	6				Feasibility study was much more thoughtfully done with less destruction of community ties.
2754	8/11/2017 16:46	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	better than	14	14	14		better than	9	6	12

2756	8/11/2017 16:47	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	3		worse than	6	7	1	Feasibility is much better than AAC because it helps community stability, keeps students together from one school to the next. AAC also increases the transport ion cost dramatically.	
2757	8/11/2017 16:48	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	4	6	redistricting of 147 will: Isolate increase travel time to school create safety issues increase county transportation costs	worse than	1	4	6	redistricting of 147 will: Isolate increase travel time to school create safety issues increase county transportation costs	

2758	8/11/2017 16:50	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	13	3	Proximity to elementary . middle and high school is less than 2 miles What is the rational and the documented proof for redistricting polygon 147 ? Our residence is close to the school why should our kids travel longer distance and waste precious time	worse than	4	3	13	Why is 1102 assigned centennial when they are on the other side of 29 more than 10 miles ? Lawsuits will follow for the dysfunctional board and its members. Why is this a trend with this board ? that the last superintendent also sued this board ?	Lawsuits will follow for the dysfunctional board and its members. Why is this a trend with this board ? that the last superintendent also sued this board ? the community is frustrated with this school board they need to get a grip and not waste taxpayer$$
2759	8/11/2017 16:50	DuckettsLaneES			4	equal to	12	8	14	I still think more needs to be done at the high school level, this redistricting puts a Band-Aid on the issue but it does not solve to long term problem of certain high schools becoming over crowded in the future.	equal to	12	14	14		
2760	8/11/2017 16:51			CentennialHS	5	equal to	7			Thank you for considering maintaining contiguous neighborhoods.	better than	7			Thanks for keeping our communities together.	
2761	8/11/2017 16:51			AtholtonHS	4	equal to	12				better than	9	6	7	It's hard to compare these two plans because there is no demographic projection for the draft. we can see the maps but it doesn't make sense much to me at least without more statistics available.	
2762	8/11/2017 16:55	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS		worse than	6	7	13	The AAC plan makes our location a small feed into RHHS (poly 181). It's not fair to our kids to be last little section to go to RHHS. We would much rather be slated to go to Glenelg where our children's peers from elemen and middle school will attend.	worse than	6	7	13	We are very concerned that this appears to create a very small feed for polygons 181, 1180, & 180. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	When are you going to just send all kids from a given elementary school to a single middle school and then those kids all go to the same high school? This system of polygons is too corrupt.
2763	8/11/2017 16:55	CentennialLaneES	ClarksvilleMS	CentennialHS	1	worse than	4	7	13	comments about moving 147 to wilde MS/HS and Longfellow. Proposed schools move is much verse as they move kids again within 1 yr, schools are not commutable and students have to cross the main highways, poor academically from current school.	worse than	4	13	7	feasibility study does not include moving 147. AAC plan is move the polygon to significantly different schools which do not compare academically, they are significantly further crossing multiple highways. This move will adversely effect 100 families.	Polygon 147 family unanimously thinks that this plan will effect all the students adversely. Longfellow is 5 miles away, no continuous geographical area and poorer academic performance!!
2764	8/11/2017 16:55	WaverlyES			5	better than	6			The AAC draft plan seems to reduce crowding that is expected to go in Manor Woods and redistribute the students around.	better than	6				It feels like there is good amount of thought put in here to keep students with their cohort of friends from Elementary to Middle to High.
2765	8/11/2017 16:55	GormanCrossingES	MurrayHillMS		5	better than	1	10	3	AAC Plan is superior to the Feasibility Study. The AAC plan solves overcrowding by moving far fewer students and Preserves Atholton HS. Keep students together from one school to the next. Keep communities contiguous.	better than	1	10	8	AAC Plan is superior to the Feasibility Study. The AAC plan solves overcrowding by moving far fewer students and Preserves Atholton HS. Keep communities contiguous: Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS.	
2766	8/11/2017 16:56	CentennialLaneES	BurleighManorMS		1	worse than	4	7	13	created islands which waste transportation, break down community bonding. DON'T break Region boundary !!!Keep 147 keep Kids' friends!	worse than	10	7	4	Send kids to the school close. Don't create Island! keep Centennial as Centennial!	Keep 147 in centennial, keep community close to centennial schools and keep community stability!
2767	8/11/2017 16:57	NorthfieldES			1	worse than	4	7	13	Major financial decisions of many families have rested on consistency and continuity of the education that was outlined in the homes they are either renting or owning. These changes need to meet the demands of new development rather than	worse than	4	6	13	Academic consistency is paramount. "Borders" should reflect a radius of households that are within a geographic area of the outlined schools rather than arbitrarily creating zones that encroach on homes withi zones that are closer to other high schools	These changes need to meet the demands of new home development rather than moving school zones into neighborhoods that are already delineated by previous studies. Expanding zones deeper into established neighborhoods will disrupt academic continuity.
2768		FultonES			1	worse than	7	13	13	We literally look across the street to Fulton ES and will be redistricted to Pointer's Run. It makes no sense.	worse than	7	13	13	It is unfair to prioritize the needs of Maple Lawn as a community" over the rest of Fulton who have been living in the area longer. We are part of the community too	even if we don't live in the cliquey part of Fulton." If you keep all of Maple Lawn together, Fulton will just be a majority population of Maple Lawn kids and as small percentage of outsiders" from the other side of rt 29. That is not diverse. Divide Maple Lawn in half."
2769	8/11/2017 16:57		WildeLakeMS	AtholtonHS	3	better than	2				better than	7	9	8	Fewer students impacted is a major benefit of this plan.	Final adjustments should limit the percentage of change of student population, especially at the HS level. Changing more than 70% of a school population (which was original proposal for Atholton HS) would be detrimental to staff and students.
2770	8/11/2017 16:57	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	4				worse than	6				
2771	8/11/2017 16:57	GormanCrossingES			5	better than	1	10		-It solves overcrowding by moving far fewer students and Preserves Atholton HS. -Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) -Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	better than	1	10			
2772	8/11/2017 16:58			AtholtonHS		worse than				This redistricting should be limited to elementary school only, which was the original plan. this is what parents were told up through the spring.	better than	10			Much better than before. Fewer students moved. Makes more sense for schools like Atholton that were not over or under crowded.	Please continue to preserve Atholton.No school should have to deal with large turnovers.This huge redistricting feels very rushed. The community feels blindsided by the interim superintendent pushing for this when we were told no high school redistricting
2773	8/11/2017 16:59	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	7	6		Keep neighborhoods going to the same school. Don't split it right down the neighborhood	worse than					
2774	8/11/2017 17:00	NorthfieldES			1	worse than	7	4	9		worse than	4	9	7		
2775	8/11/2017 17:00	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	5	6	We recently moved into Clark's Glen community for the special ed program offered at pointer's run. changing that will impact our child's special needs requirements.	worse than	13	4	7	did not consider special ed requirements	
2776	8/11/2017 17:01	ClarksvilleES	ClarksvilleMS	RiverHillHS	2	worse than	7	6	4	It concerns me as a parent that students will be traveling further before and after school as well as traversing more congested roads and highway intersections than before.	worse than	7	6	4	The original plan seems to be better suited for the community. It illustrated better cohesion among the neighborhoods. The movement of many of these polygons makes no sense geographically. Several of these polygons divide the communities unnaturally.	I understand there may be politics in play here, but the board of education should try to minimize the amount of redistricting that occurs both today and in the future.
2777	8/11/2017 17:02			HowardHS	1	worse than	3	4		polygons 65, 1065, 2065 are walkers to Howard HS--- spending money to transport walkers is never a good solution	worse than	3	4		As a, retired, teacher (36 years), I've been told that we couldn't afford" various materials for students over the years. I spent my money many times to help my students. To see that busing walkers is ever on the table as a solution is so disheartening."	Keep polygons 65, 1065 and 2065 at the middle school that feeds to Howard HS. They are walkers. Please spend money to educate- not to drive students unnecessarily around the county.
2778	8/11/2017 17:02	TriadelphiaRidgeES			1	worse than	6	7	13	Polygon 181 is in a VERY small feed	worse than	7	6	13	Poly 181 should go to Glenelg!!!	Small feeds are not conducive for communities.
2779	8/11/2017 17:04			CentennialHS	5	equal to	7			we appreciate that the logical boundary of Frederick Rd was maintained.	better than	7			We appreciate that our neighborhood, Gray Rock, was kept together.	
2780	8/11/2017 17:05	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6		worse than	7	4	6		
2781	8/11/2017 17:06	PointersRunES			1	worse than	13			I live right next to the school, Clarks Glenn community is right off Guilford road less than 1 miles away from the school. Childs safety, health is number #1 priority. Why would you move us away from PES school trough the terrible traffic,roads????	worse than	4				
2782	8/11/2017 17:06	RockburnES	BonnieBranchMS	HowardHS	1	worse than	4	6	7	We are very close to Ilchester and BBMS. Keeping us in Rockburn and Moving to ElMS is not convenient for students or family. It is not fair to separate our kids from neighboring communities. We would like to stay in BBMS and move to Ilchester Elementary.	worse than	4	1	7	We would like to stay in BBMS and move elementary to Ilchester as recommended by feasibility study. It is very inconvenient and not fair for our kids to go to school which is far while we have school close by.	
2783	8/11/2017 17:06	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	4				worse than	6			My neighborhood traditionally belongs to RHHS and was redistricted to AHS years ago. I was so glad to see in the Feasibility Study, my neighborhood will be redistricted back to RHHS. It helps to keep RH community together. . I support Feasibility Study.	
2784	8/11/2017 17:07	NorthfieldES			1	worse than	8	4	13	redistricting dramatically like this makes us hesitate to buy property and live in the area. Redistricting should be minimum impact on all kids and considering the distance to school and community which created naturally by the main road.	worse than	4	7	8	AAC drags community to a school which they don't have any connection geographically and culturally. Not logically make sense!	Keep centennial as centennial ! use Route 108 as boundary and don't redistricting across the region boundary!
2785	8/11/2017 17:07	ForestRidgeES			4	better than	1	2	10	It relieves some of the overcrowding, while moving fewer students around.	better than	1	10		Neither makes any attempt at correcting the thoughtless fragmenting of Emerson community (in 2012). A final plan should address moving Polygons 1272 and 272 (36 students at middle school; 40 at high school) with 1005, 1006, 5, & 2005, wherever they go.	The final AAC plan should address Polygons 1272 and 272, which are a part of the Emerson association but were redistricted away from Murray Hill (walking distance) and Atholton. We are one community and should have our children at the same feeder schools.
2786	8/11/2017 17:08	CentennialLaneES	BurleighManorMS	CentennialHS		worse than	1	4	6	I am in polygon 147 and the new planning impacts me negatively. The kids are assigned to schools that require them to go to the other side of 108 into Columbia near the town center! where we live within proximate of CES/BMMS/CHS.	worse than	4	1	13	Polygon97 poly which cross 3 school zones are assigned the same district as poly147 WAS .I suggest that 97 be rezoned to the district is is close to, instead of pushing poly147 students out of current zone. 97 is clearly distracted wrongly in Centennial.	Polygon97 poly which cross 3 school zones are assigned the same district as poly147 WAS .I suggest that 97 be rezoned to the district is is close to, instead of pushing poly147 students out of current zone. 97 is clearly distracted wrongly in Centennial.
2787	8/11/2017 17:09	NorthfieldES			1	worse than	1	6	4	Your map is intentionally difficult to decipher without street names. You some lined areas with no direction. The school capacity utilization should never rise above 100%, We have overdeveloped. Kids will NOT stay together from existing neighborhoods.	worse than					

2788	8/11/2017 17:10			AtholtonHS		equal to	6	7	8	I feel the AAC Draft plan is more considerate with causing the least impact to my neighborhood, kids not having to change high schools at a critical time of development.	better than	6	7	8		
2789	8/11/2017 17:10	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	13	7	Wilde Lake is 3-5 mi farther away than Centennial HS, I estimate. It is ridiculous for children in the Spring Meadow/Dunloggin region to incur the extra time and effort necessary to get to a different high school. Centennial HS is the neighborhood school.	worse than	4	13	7	See above.	Obviously this plan is motivated by some other consideration than neighborhood schools, proximity and convenience for parents, etc. What is motivating this plan?
2790	8/11/2017 17:12	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13	13	13	This plan is illegal based on feasibility studies	worse than	13	13	13	This plan is illegal based on feasibility studies	This plan is illegal based on feasibility studies

2795	8/11/2017 17:16	StJohnsLaneES			1	worse than	4	6	7	Please dont send polygon 159 and 1159 to schools so far away. They are walking distances from Mt. Hebron and the plan is to send them to Marriotts Ridge?	equal to	4	6	7		
2796	8/11/2017 17:17	CentennialLaneES			1	worse than	7				worse than	7				
2797				RiverHillHS		worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.""	worse than	6	7	13		
2798	8/11/2017 17:17	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	6	9	2	When looking at long range projections for 2028: Long Reach has estimated population of 2672 and Howard has estimated population of 2057. Their current capacity is 1541 and 1830 respectively. It is obvious we need another high school in this area! NOW!	worse than	2	9	6	I wish the last minute changes included data that show how the new changes affect demographics and free and reduced lunch. I would like to see the new changes reflected in data like p. 41, 46, 47, 52, and 54 of the feasibility study so I was educated.	I'm concerned about going from Howard to Long Reach due to lower SAT scores, lower AP participation, drastic increase in free and reduced lunch (11.6% to 35%). County keeps building in this area and not making room for a new high school is irresponsible.
2799	8/11/2017 17:18	WorthingtonES	EllicottMillsMS		4	equal to	6	7	1		better than	6	7	1	This is a better plan, because it keeps the community together and maintains students feeds to middle and high schools	
2800	8/11/2017 17:18	DeepRunES	MayfieldWoodsMS		1	worse than	13	4	9	My children will move from attending Long Reach HS to attending Oakland Mills HS. We live in polygon 80. The distance does not make sense. If they should move, it would make more sense for them to attend Howard High School.	equal to	4	9	13		
2801	8/11/2017 17:18	LongfellowES				better than	1	3	4	Excellent Plan, Please execute!	better than	1				
2802	8/11/2017 17:19	PointersRunES	LimeKilnMS	RiverHillHS	1	worse than	6	7	13	Current River Hill High School area is a very diverse and close community. Moving current students out of River Hill and inclusion of students from Wild Lake community disrupt the current stability of community and create silos and confusion.	worse than	4	6	13	The AAC draft plan will create more silos in current attendance area for River Hill High. Atholton High School students are mostly attending the same middle school Clarksville Middle with students feeding into River Hill High. The kids grew up together.	
2803	8/11/2017 17:19	HammondES	HammondMS	AtholtonHS	4	equal to	1	4	10	This plan does not drastically change any one school. It makes subtle changes to the existing attendance areas.	better than	1	10	7	This plan does not drastically change one school as was proposed by the superintendents plan, Specifically Atholton. It does diversify school better than they currently are. It will still up set communities as will any plan regardless.	Phase this plan in for the 11th graders. It is a critical year for them.
2804	8/11/2017 17:20	ElkridgeES	ElkridgeLandingMS	HammondHS	2	worse than	6	7		I am concerned that there seems to be a serious need to build a high school in the Elkridge area of HoCo, but instead, we are moving students from one overcrowded school to another. We should be planning that building NOW for the kids that are coming up.	worse than	2	6		You need to look at the fact that both Howard HS AND LRHS will be over capacity soon. The priority here should not be in shuffling kids for a year or 2 from one overcrowded location to another, but in getting a new school build in the area ASAP.	There are no other areas in HoCo as in need of a new school as the Elkridge high schools. Reducing overcrowding increases student performance, teacher retention, decreases discipline issues, and frankly, parental happiness.
2805	8/11/2017 17:20	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	7	4	5		worse than	2	8	1		
2806	8/11/2017 17:22			CentennialHS	1	worse than	4	7	6	AAC draft plan moves our polygon from Centennial HS district. My child will spent more time on the road to school. It will reduce his sleep time. It also separates him from his friends.	worse than	7	6	4	AAC draft plan doesn't solve the current problem.	
2807	8/11/2017 17:22	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	
2808	8/11/2017 17:23	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	3	I am against AAC Draft Scenario proposal, because it is going to cause great damage to our community bonding, connection and stability. The draft will waste a lot of time, money and cause what a mess for parents and students!						
2809	8/11/2017 17:24	CentennialLaneES	BurleighManorMS	CentennialHS		worse than	4	6	13		worse than	1	4	5		
2810	8/11/2017 17:25	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	6	1	4	Large group of students are moving from one school to another for polygon 147 and distance is significant between the current & purpose school.Changing entire zone from northern to Columbia which is significant change for the kids to add stress on travel.	worse than	1	4	6	Feasibility suggested for Polygon 147 not to move. Kept the same school district for all three schools and not impacting utilization on CLES & BMMS. Issue with CHS can be resolved with moving polygons from East of Rt 29 that can are far from CHS than 147	This plan negatively impact us where utilization of CLES and BMMS is met, need to look at the CHS utilization issue which can be easily handled by moving polygon from east of Rt 29 that are 7-10 miles away from the school while polygon 147 is within 1mile
2811	8/11/2017 17:26	PointersRunES			1	worse than	13	4	7	Did not consider special education requirements. This will effect us very negatively.	worse than	13	4	7		
2812	8/11/2017 17:28			CentennialHS	1	worse than	13	7	9	We live in polygon 150 and it was not until 8/8/19 that this area was considered for redistricting. It's not even mentioned in the feasibility study. Now out of nowhere, and with no explanation, our area is targeted with almost no time to respond.	worse than	13	7	9	Handled in an underhanded and deceptive manor. This will destroy the community that is our neighborhood; families move here for the schools. Once again you are taking kids from a top HS and busing them to one of the lowest rated HS in the county.	There is a reason people aren't moving to a home districted to Wilde Lake HS, it's not a good school so of course it's under capacity. Fix the school! Stop penalizing us for living in an area specifically for the HS. It's 1970s busing all over again!
2817	8/11/2017 17:34			CentennialHS	1	worse than	4	6	7	CHS is broken into pieces. The center region is moved away, which not only hurt the integrity of the community, but also the transportation cost, students social interaction, etc. The plan doesn't make any sense from the community point of view.	worse than	11	3	8	Even though my child is not affected, but from long term, the operation costs, the commute time for students and parents, etc., this new plan is the worst of all. The central region of CHS is moved out, but, far away region, like east of 29 regions stayed	When reassigning school district, please consider the integrity of the community, the benefits of students first. School district should be based on geography, like CHS, #97, 3147, 191, 2191, 102, etc those far away regions should be moved out
2818	8/11/2017 17:36			MtHebronHS	5	equal to	7	8			better than	7	8		Thank you for keeping Worthington intact. I agree with keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together. It also prevents frequent future reassignments.	
2819	8/11/2017 17:37	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	12	10	9		better than	12	10	9		
2820	8/11/2017 17:37		HarpersChoiceMS		1	worse than	14			I do not like any of your plans at all. I feel very strongly the decisions made are rooted in race and class and personal agendas. An unemotional 3rd party should do what is best for Columbia PERIOD.	worse than	14				
2821	8/11/2017 17:39	CentennialLaneES			3	equal to	11				equal to	11				
2822	8/11/2017 17:41			CentennialHS	1	worse than	4	7	6		worse than	4	6	7		
2823	8/11/2017 17:42	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2824	8/11/2017 17:42			MarriottsRidgeHS	1	worse than	1	6	4	MRHS is currently under capacity. Moving Polygons 224, 229, 231, 232, 1229, 1231, 2229 moves small # students from established community and academics/music programs to a school three times the distance. GHS is projected to be at 109% w/ adjustments	worse than	1	5	4	Excessive commute times, tears apart a small number of students from established group. Emotional distress; loss of sleep time in morning, lost time with family, homework, afterschool activity because of commute. Current enrolled students should not move	Moving small # to new HS disrupts academic/artistic pursuits for students already completely immersed in current HS activities. Negatively affects morale/opportunity to advance/pursue consistent college goals by forcing new start/new life. Start at bottom
2825	8/11/2017 17:44			HowardHS	1	worse than	7	6	8	Much of Elkridge is already kept together and this proposed plan is trying to split it up with no basis. This is against the policies of keeping neighborhoods together and keeping students together from one school to the next.	worse than	7	6	1	This new proposed plan splits up neighborhoods and students moving from school to school more so than the original feasibility study. It is against policy to split up contiguous neighborhoods and feeder schools.	There is absolutely no basis for going against policies of keeping together neighborhoods/communities as well as splitting up feeder schools. Please look elsewhere or keep the originally proposed plan.
2826	8/11/2017 17:45			CentennialHS	1	worse than	7	6	13	I oppose the redistricting of polygons 1150,4150 and 150 from Centennial High to Wild Lake High. This change would split the Dunloggin community in half. Dunloggin is a long established tight knit community. Most of my son's friends would be moved.	equal to	7	6	13	Please do not move polygons 1150,4150 and 150 from Centennial High to Wild Lake High. The effect on the cohesiveness of the Dunloggin community would be devastating. My son has worked hard to maintain friendships with children in the affected polygons.	Dunloggin Community is well established and has a close knit population of Centennial High students and parents. Organizations such as SJCA organize community wide events. Movement of the above mentioned polygons would fracture the community.

2827	8/11/2017 17:46	PointersRunES			1	worse than	8	6	7	My neighborhood was redistricted once already in the past 5 years. I am concerned about maintaining continuity in my child's elementary education and school community. I am concerned about a longer bus ride.	worse than	8	7	9	AAC plan doesn't do much to keep kids together from elementary to middle school. Not enough improvement to justify uprooting kids from current schools. Creates longer bus rides to schools with less diversity.	
2828	8/11/2017 17:46	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13	9	7		worse than	13	9	7	Comparing to the feasibility study, which relocated a few polygon from Centennial lane HS to MRHS, the current plan relocated polygon 147 from CLHS to WLHS. Comparing the performance of those schools, I would say Feasibility Study is way more reasonable.	Polygon 147 should keep its current schools. Our friend and my daughter's best friend will move away according to the plan. My daughter is shy and have very few good friend -- it would be very hard for her to get this.
2829	8/11/2017 17:48	DeepRunES			1	worse than	1	2	7	Polygon 1079 should go to bellow springs, versus Deep Run based on the map.	worse than	1	2	7	Polygon 1079 should go to bellow springs, versus Deep Run based on the map.	Thank you for the opportunity for feedback.
2830	8/11/2017 17:48	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7	14	14	This plan is more logical and thank you for looking at this again and keeping us at our current school-Centennial	better than					
2831	8/11/2017 17:48	PointersRunES			1	worse than	7	4	13	The AAC draft plan changes our children's ES from PRES, which is 1/2 mile from our home to DOES, which is more than 5 miles away in traffic on route 32. It will lead to higher transportation costs.	worse than	13				
2832	8/11/2017 17:48	ElkridgeES				worse than	6				worse than	6			You are just send kids from one crowded high school to another. Elkridge needs a High School!!!	Elkridge needs a High School!!!
2833	8/11/2017 17:48	PointersRunES	LimeKilnMS	ReservoirHS	4	better than	2	8	10	Lime Kiln MS is projected to exceed 110% utilization in 2019, more than 200 new house are being built around Maple Lawn community, which will feed even more students into Lime Kiln MS and Reservoir HS.	better than	1	2	8	It avoids reshuffling large amounts of students for many schools and keep community stable. It also takes a more long-term approach to proactively prevent unnecessary frequent reassignment. This plan seems to be more cost conscious and logical.	Welcome the change from Reservoir HS to River Hill HS in AAC plan. But LKMS is projected to exceed 110% utilization in 2019. Moving 118,114,117 to CMS keep consistent feed. It's a better long-term plan to avoid frequent reassignment. We are closer to CMS
2834	8/11/2017 17:48				5	equal to	7				better than	7	6		The AAC draft plan seems to help maintain communities and reduce the distance of high school students from their schools. Keeping students in the closest school reduces the likelihood that they will be redistricted twice in their school career.	It is easier to assess the changes using the interactive map provided by the AAC draft plan. Perhaps a similar interactive map can be provided with any future changes to the staff plan.
2835	8/11/2017 17:50	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	7	6	14		worse than					
2836	8/11/2017 17:51	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	7	6		This plan does not improve the already overcrowded state of Veterans Elementary.	worse than	6	7			
2837	8/11/2017 17:52	GormanCrossingES	MurrayHillMS	ReservoirHS	1	worse than	11			My kids are finished with elementary school but think it is a horrible idea to move kids out of schools they have already settled into. Majority of people have moved into neighborhoods relying on the schools their kids will be attending!! Leave as is!						
2838	8/11/2017 17:55		EllicottMillsMS		1	worse than	7	4		The AAC draft plan cuts through the neighborhood in polygons 1101 and 2101 and separates them. The "boundary lines" do not cut through major roads....the roads have a speed limit of 25mph!! This plan is not in line with the rules of Ho Co districting.	worse than	7	4			Boundary lines must make sense. You can not just carve out certain roads to "meet" a needed number of students.
2839	8/11/2017 17:57	IlchesterES			5	better than	6				better than	6	4		As a resident of Polygon 84, I appreciate that the AAC draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	The AAC draft plan also improves the feeds from elementary to middle and from middle to high school, keeping strong feeds within the northeast schools. Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion.
2840	8/11/2017 17:58	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	13	5		worse than	13				
2841	8/11/2017 17:59		HarpersChoiceMS	WildeLakeHS	4	better than	9			Demographic equity must be addressed so burdencsn be shared across county- research shows poor children stuck in poor schools do not achieve as well as they would in a more affluent school						
2842	8/11/2017 18:01	HammondES	HammondMS	AtholtonHS	5	equal to	14	14	14		better than	1	10	14	Atholton High School serves as a model for Howard County with its current demographics and excellence in academics and extracurricular activities. The AAC plan allows Atholton High School to continue excellence without a drastic change in population.	The number of students moved in the FStudy is way too drastic. Changing 67% of Atholton HS population is unacceptable. No other HS was changed as dramatically. Atholton should continue to be a model high school for HCPSS as in the AAC draft plan.
2843	8/11/2017 18:01			CentennialHS	1	worse than	4	7	13	I dont understand the rationale behind changing the boundaries from the plan based on expert GIS analysis to one with a group of volunteers potentially not looking out for the interests of all.	worse than	4	7	13	How did a group of volunteers change a plan studied by County planning staff. What is rationale for reassigning group 150 to Wilde Lake?	I would like a listing of the analysis zones that the AAC group individuals reside.
2844	8/11/2017 18:02	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	14		better than	1	10			
2845	8/11/2017 18:02	DeepRunES	MayfieldWoodsMS	LongReachHS	3	equal to	11	14	14	No change for my polygon.	worse than	7	14	14	The Feasibility Study Plan changes my Elementary School from Deep Run to Bellows and that is a favorable move for my family.	
2846	8/11/2017 18:03	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	4				worse than	6			I live in Rive Hill village but my kids cannot go to RHHS. I was glad to see in the Feasibility Study Plan, my neighborhood is redistricted back to RHHS. Kids can go to school together and socialize together. It helps to keep RH community together.	
2847	8/11/2017 18:04	PointersRunES	ClarksvilleMS	AtholtonHS		equal to					worse than	6				
2848	8/11/2017 18:05	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Communities should remain contiguous when it comes to redistricting. They should not be split into multiple high schools. Students should attend the high school closest to their home.	worse than	7	4	6		This whole process feels very rushed. Suddenly, at the 11th hour, the Dunloggin neighborhood is told that part of our neighborhood is to be redistricted. This cannot possibly be a reasoned approach.
2849	8/11/2017 18:07	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	1	8							
2850	8/11/2017 18:09	PointersRunES	ClarksvilleMS			worse than	3	4	6		worse than	3	4	6		polygon 147 rezoning is NOT according to feasibility plan
2851	8/11/2017 18:10															
2852	8/11/2017 18:10			CentennialHS		worse than	5	6	13	Based on the proposal (projection) there might be a need to add another High School. If that is the case, why not wait until we have the 13th school ready, so draw the new school district? Just to avoid the unnecessary frequent change.	worse than	1	6	13	Residents located where they are based on many considerations, among them one most important factor is the school area. redraw the school border would bear impact on their life. I would not suggest the make the change lightly.	I would give public more time and hearing to express their concerns. Decision makers should listen residents opinion.
2853	8/11/2017 18:13			AtholtonHS	1	worse than	7									
2854	8/11/2017 18:15			MtHebronHS	1	equal to	7	4		They are still breaking up neighborhoods.	equal to	7	4		They are both unacceptable	Table high school redistricting until the new high school is being built. - FAST TRACK
2855	8/11/2017 18:15	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	Wilde lake polygons are never a part of River Hill. I do not understand the logic behind the relatively major redistribution. Academically, we all enjoy same Howard county resources across high schools. Plus, kids from same ES and MS bond better at HS!	worse than	4	6	7	Wilde lake polygons are never a part of River Hill. Atholton polygons are. Kids from same ES and MS bond better at HS!	Please do listen to what we have to say, we are the tax payers. No one pays the dear property taxes but does not wish the best for the schools and community.
2856	8/11/2017 18:17	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	14		worse than	14	14	14		
2857	8/11/2017 18:18			WildeLakeHS	4	better than	6			This biggest positive about the plan is that there is a larger feed from Dunloggin Middle to Wilde Lake HS. However WLHS will have a dramatic change in population and the FARM and demographic info needs to be reported.					Comments cont... I fear that if the single family neighborhoods (i.e. Dunloggin) get removed from WLHS there will be a very high FARM rate. Would recommend taking some of the Owen Brown low incoming housing out of WLHS. WLHS already has a lot of that.	
2858	8/11/2017 18:18	TalbottSpringsES			4	better than	9	5		Under current plan Talbot Springs is a mediocre school for our son to attend. The AAC plan moves our polygon (63) to Thunder Hill which we would be very please with.	better than	5	9		feasibility plan would make it so we would not consider sending our son to Talbott Springs. Thunder Hill is roughly equidistant from our home and we would feel extremely comfortable with that choice.	
2859	8/11/2017 18:19					better than	7	8	10	The high school Draft plan scenario moves fewer students and improves FARMS because students moved are moved to better performing schools rather than the opposite. You could move polygon 270 from Hammond High to Atholton High as one final improvement.	better than	7	6	10	Same as above comments. The Feasibility Study was extremely poor in meeting Policy 6010. It worsened FARMS, split neighborhoods and had an over abundance of negative impact on Atholton High which is not over capacity and has an ideal balance of diversit	The ideal would be to put off ANY high school redistricting considerations until the new high school is built. Why disrupt twice? High school is when students are building relationships with teachers and carefully planning 4 year course schedules.
2860	8/11/2017 18:20			HowardHS	1	worse than	8			The Rockburn Township neighborhood has already been redistricted at the middle school level. This plan would redistrict the same students within the five year window that the school system says is too frequent.	equal to	8				
2861	8/11/2017 18:21	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	2	3	9	ACC draft plan is better than the current school attendance areas in terms of utilized the current seats, reducing over-crowed in some schools. However, school redistricting process is a very complicate issue. We need more time to come up a thorough plan	better than	1	9	10	ACC draft plan is much better than the Feasibility study. It preserves Atholton HS, and substantially reduce impact HS students number.	For the ACC draft, picking Wildlake HS instead of Atholton as a transfer school is a very smart idea. It also provides potential space for the new HS. Please put Polygons 272 and 1272 to Murray Hill MS & Atholton HS to keep Emerson Community continuity.

2862	8/11/2017 18:22	ClemensCrossingES	LimeKilnMS	AtholtonHS	5	equal to	9	7	8		better than	9	7	8		The AAC draft plan is far superior than the Feasibility Study. The Feasibility Study's proposed redistricting, especially for Atholton High School, would have been devastatingly disruptive to the community. The AAC draft plan is much more reasonable.
2863	8/11/2017 18:23				1	worse than	12		6							
2864	8/11/2017 18:23			MarriottsRidgeHS	1	worse than	1	4	6	MRHS under capacity thru 2025. Don't move established communities/academics/arts/friends during critical HS years! Extremely negative emotional and academic effects when trying to build college resume. Purchased home for this school! GHS lower ranking.	worse than	6	4	1	Draft plan creates upheaval of critical HS years. Leave currently enrolled students at same HS! Transportation awful/dangerous during Rte 32 rush hour. Moves students unfairly when invested in current HS paths. Negative affects in critical time.	Tremendous travel time adversely affects all areas of life--home, social, academic, employment, music, arts. Tears students away from programs already engrossed with forcing students to start new when college tests, applications, plans are critical.
2865	8/11/2017 18:25	FultonES	LimeKilnMS	ReservoirHS	1	worse than	7	3	4	This plan makes absolutely no sense. You are moving my child from Fulton Elementary (which is a short walk from our house) to another elementary school that I have never heard of?	worse than	7	3	4	This plan makes absolutely no sense. You are moving my child from Fulton Elementary (which is a short walk from our house) to another elementary school that I have never heard of?	
2866	8/11/2017 18:28	HammondES	GlenwoodMS	AtholtonHS	5	better than	1	2	9	The new plan maintains diversity and communities.	better than	1	10	9	Preserves schools and moves less students.	the original plan moved too man students and would be very disruptive to many communities. No plan is perfect but this AAC Plan is far better at looking at the needs of the schools now and when the new HS is to open.
2867	8/11/2017 18:29	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	3	4	5	Polygon 1189 , Current PRES is very close to home, Dayton Oaks is 6 miles away, a lot of traffic, at least 30 min more one way everyday, kids need to get up ealier. Sacrifice sleeping time. WL high school student redistricted to River Hill high will imp	worse than	4	5	6	WL high redistrictest to River Hill high, seriously impact the quality of River Hill high,	
2868	8/11/2017 18:29	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	Wilde Lake polygons are never part of River Hill community. This doesn't help to keep our children with their friends from the same ES and MS to all the way to HS. I worried the psychological impact to our kids.	worse than	7	6	4	Wilde Lake polygons are never part of River Hill community. This doesn't help to keep our children with their friends from the same ES and MS to all the way to HS. I worried the psychological impact to our kids.	
2869	8/11/2017 18:34	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	12	7		worse than	4	7	12		Polygon147 should be kept in its current school attendance area. The new plan would double the transportation distance and hammer the real estate in the Centennial overlook area.
2870	8/11/2017 18:35	IlchesterES		HowardHS	5	better than	4	6			better than	4	6		Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood going to HHS, within walking distance and less than a mile (this is critical for many)	AAC Draft plan moves fewer students than feasibility study thru the whole county; reduces disruption; uses capacity in the west; reduces the domino effect of moving polygons west; improves feeds from elem-midd-HS; reduces NE overcrowding until new buildin
2871	8/11/2017 18:36	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	7	Polygon 1189 , Current PRES is very close to home, Dayton Oaks is 6 miles away, a lot of traffic, at least 30 min more one way everyday, I have to leave from work ealier to pick up my kids from afterschool care.	worse than	4	5	7		
2872	8/11/2017 18:36	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	13	13		worse than	13	13	13	This will have devastating impact to the academic standard of River Hill HS. We pay high real estate and property tax to allow our kids to attend the best public school in the county. This will impact the property value of our community big way.	
2873	8/11/2017 18:38	ManorWoodsES			5	equal to	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	
2874	8/11/2017 18:38	RockburnES	BonnieBranchMS		1	worse than	6	4	7	Currently my children attend Rockburn ES. Next year my oldest child will begin at Bonnie Branch MS. Our neighborhood is the only one from Rockburn ES attending Bonnie Branch MS, which is very hard for a 11 year old to handle.	worse than	6	4	7	The FS had my children attending Ilchester ES then going to Bonnie Branch MS. This makes much more sense since our neighborhood is just over a mile from both schools, students and parents are able to develop relationships starting in elementary school.	Please do not move Polygon #91 to Rockburn ES and ELMS. Let our children attend Ilchester ES and BBMS, which are closer to our neighborhood. We are just over a mile from IES and BBMS. Going to Rockburn ES and ELMS would be several miles to travel.
2875	8/11/2017 18:39	TalbottSpringsES			1	worse than	7	7	9	Leave TSES and SFES alone.The impact on TSES is extremely negative.Do not take the two elementary schools in OM and designate one for whites and the other for minorities.We all know majority minority schools are neglected. These changes are a mistake.	equal to	7	9	13	The problem is not solved by ripping out a different section of our neighborhood.Why would this be better than the first terrible plan? This looks racist. It IS racist. If you make any changes to these two elementary schools (TSES, SFES) you are making a	huge mistake. The county and BOE will look very, very bad. You couldn't have expected accurate survey that is only available on line, and NOT available in Spanish.? Many of our students do not have a home PC or even connection to internet. wtf?
2876	8/11/2017 18:40	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS		worse than	13	13	13	This will have devastating impact to the academic standard of River Hill HS. We pay high real estate and property tax to allow our kids to attend the best public school in the county. This will impact the property value of our community big way.	worse than	13	13	13	This will have devastating impact to the academic standard of River Hill HS. We pay high real estate and property tax to allow our kids to attend the best public school in the county. This will impact the property value of our community big way.	This will have devastating impact to the academic standard of River Hill HS. We pay high real estate and property tax to allow our kids to attend the best public school in the county. This will impact the property value of our community big way.
2877	8/11/2017 18:44		DunlogginMS		1	worse than	6	7	4	Students living in the Dunloggin neighborhood have attended Centennial since it was built 40 years ago, except in 1 instance. I have 2 sons, & the draft plan would split them up & send them to 2 different schools creating logistical/transportation issues.	worse than	6	7	4		This will split our small community in two, separating friends who've gone to school together since elementary school. Friends who live close enough to walk to elementary and middle school together will be bused to two different high schools.
2878	8/11/2017 18:44	PointersRunES		AtholtonHS	1	worse than	7			As stakeholders, we purchased this house to attend school with our neighbors. Now our neighbors will be attending different schools, after so many years together. The revised plan changed everyone back to Atholton EXCEPTfrom our little neighborhood loop	worse than	4				
2879	8/11/2017 18:47	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	Redistribution of Wilde lake polygons to river hill does not make sense at all. Wilde lake polygons are never a part of River hill community. Kids grow up together in the same ES and MS should stay in the same high school.	worse than					
2880	8/11/2017 18:49	PointersRunES			3	equal to	6	9	7		equal to	6	7	12		
2881	8/11/2017 18:49	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	7	13	The significant increase of travel distance imposes a heavy burden on these students and the community where they live	worse than	4	8	7	As the school attendance map shows, our community locates in Ellicott City while all the proposed schools locate in Columbia. Our neighborhood name is Centennial Overlook, which explains itself why we should remain in Centennial school district	Our neighborhood is not in the adjacent neighborhoods of the schools; however, some of the adjacent neighborhood of these schools are in these schools but will be moved out under AAC draft, or they are in schools that are not in their neighborhoods.
2882	8/11/2017 18:50			MarriottsRidgeHS	1	worse than	7	2	4	Keep our street Old Oak Dr. in current school attendance area, bonding, concetion and stability of whole MRHS community. My daughter will be 11th grade next year and she is very upset about separating from the friends who are growing up together	worse than	10	7	13	Keep our street Old Oak Dr(since I don't know the polygon number) in current school attendance area, bonding, concetion and stability of whole MRHS community. My daughter will be 11th grade next year and she is very upset about changing school	
2883	8/11/2017 18:53	PointersRunES			4	better than	9	10			better than	9	10			
2884	8/11/2017 18:53	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Dunloggin is not part of Columbia and bussing children that far to go to school is ridiculous. Our children go through the Northfield, Dunloggin, Centennial feed and it should stay that way. I strongly object to this plan.						Dunlogginnstudents should go to Centennial abd not Wilde Lake. We are a part of the Centennial community and it is short sighted to change this system. Our children will suffer....for what????? Shame.
2885	8/11/2017 18:56	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	2	4	keep polygon 147 in the current school attendance area to keep the history, bonding, connection and stability of the whole centennial community. The commute distance from polygon 147 is closer than polygon 1100 and 100.	worse than	2	7	13	I suggest keep polygon 147 in the current school attendance area and the county should put more seats in Centennial Lane elementary school and Centennial High School.	Polygon 1100 and 100 is closer to Howard High School and I suggest remove them from CHH to HHS.
2886	8/11/2017 18:56		LimeKilnMS		4	better than	1				better than	9				
2887	8/11/2017 18:58	GormanCrossingES		AtholtonHS	5	equal to	6	10	7		better than	1	10	7

They will move out with proposed (8/8 plan) schools change. This will also adversely affect county property tax income.	worse than	13	8		Polygon 147 should keep its current schools. Our family (both adults and kids) have some best friends living in this zone. They will move out with proposed (8/8 plan) schools change. This will also adversely affect county property tax income.	Polygon 147 should keep its current schools. Our family (both adults and kids) have some best friends living in this zone. They will move out with proposed (8/8 plan) schools change. This will also adversely affect county property tax income.
2889	8/11/2017 18:59	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	I consider the AAC draft plan totally unacceptable because it proposes moving students away from a longstanding community, Dunloggin, where friends and families and other important relationships have been forged through many years, and which need to be re	worse than	4	6	7	.....relationships that need to be retained and strengthened, not destroyed by this horrible gerrymandering that the AAC proposes. There is no possible explanation how this proposal will benefit either the students or the community.	

2890	8/11/2017 19:01		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	9	Poly 1229:Our family is minority with disabled kid attending school. AAC will greatly increase transportation time and cost for before care. He has great number of friends who will be separated and he must go through multiple years of building friends.		4	7	9	Poly 1229:Our family is minority with disabled kid attending school. AAC will greatly increase transportation time and cost for before care than Feasibility. He has number of friends who will be separated and he must go through years of building friends.	Please for community like us who are right next to the Mount View and Marriott Ridge, this is truly unfair. It is especially unfair for our family with a disabled minority child.
2891	8/11/2017 19:06		MurrayHillMS		5	equal to	10	11	5		better than	8	10	1	the feasibility study would impact a major number of students currently in many high schools, and would create a major change in the groups attending most high schools, with major impact on parent funded programs, resulting in chaos and lower grades.	I like the AAC Plan as it minimizes chaos and disruption for current students. I find it odd that the only high school not redistricted is where the acting supervisor used to work, and there are no checks and balances on major conflict of interest.
2892	8/11/2017 19:06	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	13	3	The new plan forces my son to attend ES and MS 6 miles away from home in opposite directions. This is in comparison with current plan, where the ES and MS are half mile away.	worse than				N/A	N/A
2893	8/11/2017 19:07	WestFriendshipES	MountViewMS	MarriottsRidgeHS		worse than	8	9	7	I live on St. James Road and was redistricted from Glenelg High School to Marriotts Ridge after my freshman year. The current plan's schools are so much closer than the new plan's schools. Just seems silly to me to redistrict the same neighborhood AGAIN.	worse than					I think this plan is a horrible idea based on demographics and the fact that the same neighborhood was redistricted once already.
2894	8/11/2017 19:08	PointersRunES		RiverHillHS	1	worse than	4	7	14	Moving kids who are a 2 minute bus ride with no traffic to Pointers Run elementary to a 15 minute bus ride through heavy traffic	worse than					
2895	8/11/2017 19:12				1	worse than	7	4	6	it's terrible. Half of the students from ELMS would go to Howard and half to Long Reach. Friends from Kindergarten-8th grade will be split up. Basically moving from one overcrowded school to another	worse than	6	4	6	Our neighborhood would be redistricted from Howard Hs to Long Reach. Half of my sons friends from Kindergarten through 8th grade (EES, ELMS) would go to Howard and the other half to LR.	
2896	8/11/2017 19:15	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13	This plan is VERY concerning as it creates small feeds for poly 181, 180, and 1180.	worse than	6	7	13	The Feasibility Study is FAR BETTER! It keeps our polygons 181, 180, and 1180 from being tiny feeds.	Feasibility Study is ACCEPTABLE and would help!!!
2897	8/11/2017 19:16	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	4	9	Proposed change to CHS do NOT look reasonable. If need to move students from CHS to lower capacity, why not move those living far away rather than those only 1-2 miles from the school? The AAC draft plan is breaking connection of the community!	worse than	7	4	9	Proposed change to CHS do NOT look reasonable. If need to move students from CHS to lower capacity, why not move those living far away rather than those only 1-2 miles from the school? The AAC draft plan is breaking connection of the community!	This plan doesn't affect my family directly, However, the AAC draft plan is jeopardizing the stability and connection of the the community, which is base and foundation of a school.
2898	8/11/2017 19:17	HammondES	HammondMS	AtholtonHS	2	worse than	6	8	1	Area change is too much for high school. Particularly for Althonton high school. It is good idea to narrow down the area change of Althonton high school.	worse than	7	14	14	No feasibility	Do not change largely. Step by step is better.
2899	8/11/2017 19:18	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	2	3	Keep polygon 147 in current attendance area	worse than	5	7	10	Keep polygon 147 in current attendance area	
2900	8/11/2017 19:19	NorthfieldES	DunlogginMS	CentennialHS		worse than	7	6	8	Students will have to spend more time on the bus and travel double the distance to the relocated school. If they ever miss the bus, they will not be able to walk home and would be forced to cross a major road like Rouse 108.	worse than	9	7	13		
2901	8/11/2017 19:21		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	9	Polygon 231: Inc	worse than	4	7	9	Polygon 231: Inc	DEFINATELY PREFER FEASIBILITY STUDY over AAC
2902	8/11/2017 19:21	BollmanBridgeES				worse than	13	8	7		worse than	2				
2903	8/11/2017 19:22	TriadelphiaRidgeES	FollyQuarterMS		1	worse than	6	7	13	I'm concerned that this appears to create a small feed for polygons 1180, 180, & 181. Polygon 3182 should be kept with the above mentioned polygons for contiguous community. Important that a family doesn't have children in two different high schools.	worse than	6	7	13	I've had children end up in two different middle schools and that is really difficult, if this happened at the high school level which is quite possible that would be a major concern! Splitting a neighborhood in half, such as Woodmark would be abhorrent.	You really have to consider what these kinds of changes do to the students and families. I've seen a ninth grader end up in a school where he didn't know anyone - not from moving, it was a horribly difficult year. Kids aren't as resilient as some think.
2904	8/11/2017 19:23	NorthfieldES	DunlogginMS	WildeLakeHS	4	equal to	11	14	14	I support AAC draft plan since we relocated to current address for the planned school studies. The AAC draft plan keeps the same schools in our living boundary.	better than	7	14	14		
2905	8/11/2017 19:24	WestFriendshipES	MountViewMS	MarriottsRidgeHS		worse than	6	13	7	MRHS is not at capacity and can handle the influx of students anticipated for the years in the study. Many students have attended with the same core group until the middle of high school. They didn't move, why punish them for demographic changes.						
2906	8/11/2017 19:24	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	13	Splits up a lot of kids in the Village of River Hill, while bringing kids from Clary's Forest to River Hill, which is further away.	worse than	4	6	13		
2907	8/11/2017 19:25	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	13	7		worse than	4	6	9		
2908	8/11/2017 19:27			CentennialHS	4	better than	1	14	14	There is definitely a space issue in our HS; it is overcrowded. Something does need to happen.	better than	6	7		I believe this plan does a better job of keeping students together from K-12 than the previous plan. It also keeps more neighborhoods intact.	I firmly believe that, no matter what, HS juniors & seniors should be given the option to graduate from the school that they started at. This is already policy for when people move within the county. It needs to be the policy during redistricting as well.
2909	8/11/2017 19:28	ThunderHillES			1	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2910	8/11/2017 19:28			CentennialHS	1	worse than	7	6	13		worse than	7	6	13		Moving children around after spending 2 years or more in a particular school to another one for another 2 years in my opinion is not good for students.
2911	8/11/2017 19:28	CentennialLaneES			1	worse than	4	5	6	The plan is absolutely out of consensus of local community which affect all thr students for decades						
2912	8/11/2017 19:29	NorthfieldES			5	equal to	7	8	4	In the AAC plan my polygon will remain at Northfield elementary school with the rest of our community (Dorsey Search, north). In the Feasibility Study plan my neighborhood was being proposed to move to a school that is not in our community.	better than	7	8	4	The AAC plan keeps my child with the other students in our neighborhood (community), and it does not exceed the number of available seats at his school. Also it will allow my child to safely walk/bike to school using paths, without crossing a major road.	My biggest concern with the feasibility study plan was that my small polygon was being removed from our neighborhood school and sent to a school with students that we don't see out in our area. The AAC plan keeps our neighborhood together at Northfield.
2913	8/11/2017 19:29					worse than	4	7	4		worse than	4	7	4		
2914	8/11/2017 19:30	NorthfieldES	DunlogginMS		1	worse than	7	4	6	WILDE LAKE HS. IS NOT EVEN CLOSE TO OUR NEIGHBORHOOD	worse than	7	6	13		
2915	8/11/2017 19:32	CentennialLaneES	BurleighManorMS		1	worse than	13	14	14	The current Middle school and High School are in walking distance and they are part of our local community also.The proposed new schools are far from our house and we need to go across 108 which has bad traffic during the rush hours.	worse than	13	14	14	We paid $200K premium extra on our new house that we have moved mainly for the better school, moving us to much worse schools would hurt our community and proper values in ways no other communities would see.	Our kids just started schools for less than 2 years, and now they have to move again which will separte them from the closer community and will emotionally impact them.
2916	8/11/2017 19:33				1	worse than	7	6	7		worse than	1	2			
2917	8/11/2017 19:34	CentennialLaneES			1	worse than	13	4	6	1. kids recently developed bondage with friends, teachers and school, it would cause trauma to their young hearts with this change less than 2 years. 2. Safety wise kids have a short bus ride. 3.We live in ellicott city and near to centennial schools.	worse than	13			1. kids can go by bicycle. 2. Do not have to cross major highways if left in centennial school, safety issues. 3. They will at lose of newly formed friends if changed to new school. 4. Our community is closely attached to centennial school district.	My son is very attached to his ES and his friends, when I discussed with him the proposed change to a new school brought tears to his eyes. He says wants to stay with his ES teachers and friends. Please kindly consider not to redistrict us.
2918	8/11/2017 19:35	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	WOW - this terrible map is really dividing this community. And comes out of left field.	worse than	7	6	9	Cmon. Why are you going out of your way to carve out this part of Dunloggin while including a farther away section for Centennial?	
2919	8/11/2017 19:35	WaverlyES			5	better than	6	7	8	Thank you school board for listening and following through with our request. We have already been redistricted once and would be thrilled if our daughter could continue on with her friends and programs she has become accustomed too. Thank you!	better than	6	7	8		I am excited about this proposal! We are a ping-pong neighborhood and it needs to stop! Thank you again for listening! We are very happy that this is being considered.
2920	8/11/2017 19:35	CentennialLaneES			1	worse than	6	7	4	By what reason the neighborhood can be split? Also the geographical location of school to the community where the attending kids live is not accepble.	worse than					Please redistrict very carefully. Parents and students get affected seriously by school. There are so ferequent redistricting in HC.
2921	8/11/2017 19:35		HammondMS		1	worse than	1	10	13	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, We moved into this current school district for the outstanding performance in academics & extracurricular activities, with existing student demographics, and needs to continue as a model for other schools.	worse than	7	8	13	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	Some Atholton kids were impacted by SIGNIFICANT changes in elementary & middle. They shouldn't go through that again. Fewer kids moving Consideration for future high school. AAC plan preserves excellence at Atholton HS. FS decimates AHS for no reason.
2922	8/11/2017 19:36	BushyParkES			1	worse than	7	13	1		worse than	5	7	13		

2923	8/11/2017 19:40	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	9	4		Does not alleviate the crowding issue and instead, demographically, you would hurt Veterans Elementary school. Much of the parent volunteerism (aka PTA) comes from our polygons that you propose to move to Worthington ES. Logistically, VES is closer.	equal to	9	4		Does not alleviate the crowding issue and instead, demographically, you would hurt Veterans Elementary school. Much of the parent volunteerism (aka PTA) comes from our polygons that you propose to move to Worthington ES. Logistically, VES is closer.	I am very concerned about leaving VES without much parental support for the school. I have firsthand experience and knowledge that the PTA comes from our polygons. You would unintentionally create a 'Matthew Effect', boosting Worthington ES with privilege
2924	8/11/2017 19:42	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	7	6	8	It is important to keep communities together and by doing this proposed split it will divide the Ellicott City community!	worse than	7	6	8	We propose10B be the dividing line for Centennial HS and Wilde Lake HS. The children would then be together through ES, MS and HS and this would keep the adjacent polygons and communities intact. The current plan is hurtful to our close-knit community.	Please consider the following polygons to all be a part of Centennial HS as this would promote a contiguous Ellicott City community: 150, 1150, 1152, 149, 271, 219, 1148, 2148, 302, 148, 147, and 276.
2925	8/11/2017 19:42	NorthfieldES				equal to	7	9		As it pertains to my child, it is equal. Polygon 148 remains at Northfield Elementary and Dunloggin Middle. It keeps us in our neighborhood while maintaining the same feeder to Wilde Lake High School.	better than	1	9	7	The feasibility study did not consider maintaining neighborhoods, the fact that Polygon 148 is one of the only affordable housing polygons in Northfield's District, or the fact that they were moving 60 students (11%) of the population.	The AAC plan makes much more sense when you consider Policy 6010. I believe the initial unrest on my part as a parent was that policy 6010 seemed to not be considered when the Feasibility Study was done. Based on policy 6010, polygon 148 belongs at NES.
2926	8/11/2017 19:43	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS
2927	8/11/2017 19:43	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	equal to	1	4	6		worse than	7	6	2	Why does a polygon closer to a school have to be redistricted to another that is further from home? Shifting children away from nearby school will disrupt their social connection and development (mentally and academically).	We can not objectively look at this AAC draft plan and provide feedback, this plan lacks of information. where is the data? maps aren't enough!
2928	8/11/2017 19:44			CentennialHS	1		13	4	6	This plan does not meet the major requirements that the board has set for redistricting which are: not dividing existing neighborhoods; not tearing up existing feeds for not one, but TWO schools, lack of efficient use of existing seats; to name a few.	worse than	13	7	6	I live in the Dunloggin neighborhood and this violates nearly every tenant of the HCPSS policy on re-districitng. I will not send my child to one of the worst schools in the county, Wild Lake HS.	This plans goes through my child will be attending a Catholic HS. Clearly, all of you need a refresher on the HCPSS policy on re-districitng.
2929	8/11/2017 19:45		EllicottMillsMS		1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS
2930	8/11/2017 19:47	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	6	7							
2931	8/11/2017 19:47	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	5	better than	6	7	9		better than	6	7	9		
2932	8/11/2017 19:48	ThunderHillES			1	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS
2933	8/11/2017 19:48	ManorWoodsES			5	equal to	6	7			better than	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study	
2934	8/11/2017 19:48	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7		River Hill should go to school together! Not altholton. Your plan does not address any of the issues that we experience. The crowding at Atholton is not fixed. We do not agree with this plan.	worse than	7	4	6	Please use the feasibility study as your recommendations. We do not support your change.	
2935	8/11/2017 19:49		DunlogginMS		1	worse than	4	13	6		worse than	4	7	6		
2936	8/11/2017 19:51	ClarksvilleES	ClarksvilleMS	RiverHillHS		worse than	1			You do not address any of the issues that the feasibility study does. Please amend this plan. Polygon 1064 and 64 should go to River Hill!!	worse than	7	6			
2937	8/11/2017 19:52	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2938	8/11/2017 19:52	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	9	10	The key redistricting goal is to address overcrowding in our schools. The part of the AAC Draft Plan regarding Polygon 147 does not really solve the overcrowding issue in Centennial HS (still above 115% in 2022-2023 school year).	worse than	3	4	7	The utilization ratios for Centennial Lane ES and Burleigh Manor MS are all below 115%. It is the case for 2018 -2019 school year and will be the case in 5 years. There is really no pressing need to move Polygon 147 to other schools.	Keep Polygon 147 in current schools. If polygon 147 stays in current schools, it does not aggravate overcrowding in any school in the county. It maintains the stability of the centennial community. Please Let Us Stay!!!
2939	8/11/2017 19:52			AtholtonHS	5	better than	7	6	1	It is a much better plan because the impact is minimal.	better than	10	1	6	It is a much better plan because the impact is minimal. The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move	

ID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is _____ the current school attendance areas	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	The AAC plan is _____ the Fesibility Study Plan.	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	Final comments are:
2940	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
2941	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4								
2942	CentennialLaneES			1	worse than	6	3	7	147 is a lot closer to CHS than to Wild lake high school. The kids get used to Centennial community. I am not live in 147, by the way.	worse than	3	4			My kids' friends are living in 147 and they hope to go to the same school with their friends
2943		DunlogginMS	CentennialHS	1	worse than	7	3	4	Bused and driving further on busier accident prone roads and through other high school districts to get to their new high school. Splitting communities so that some other districting lines crossover major road. Politics should NOT bepart of redistricting.	worse than	4	1	6	AAC study allowed politics & balancing preformance of high schools to take precedence over logic & purpose of the redistricting. Students living within .5 mile of Cent HS going to WLHS so that students who live 9 miles away are bused to take their place.	We live in Ellicott City where there are 3 high schools yet we are being bused to Columbia under AAC study. RIDICULOUS. Centennial School District has 2 sides barley connected by part of a community and crosses 29 rather than keeping closer students.
2944	CentennialLaneES	BurleighManorMS	GlenelgHS	1	worse than	4	5	3	We need to maintain community integrity. The schools should not be redistributed often, esp. move out the nearby neighborhoods and move in the further ones, which will cost more time and money! Also some old communities should stay, they have so many link	worse than	2	3	4	The old communities have so many links with the schools, teachers and students! It's very crude to just separate them from their friends and relationships!	
2945	PointersRunES	LimeKilnMS	ReservoirHS	4	better than	10	2	1	resolve overcrowding in the east	better than	10	1	2	AAC draft is not as destructive as the Feasibility Study	Polygon 114 ad 118 should be moved to Clarksville MS to keep feed consistent from Pointers Run ES to Clarksville MS to River Hill HS. Moving these two Polygons don't create island
2946				1	worse than	7	13		Should stay in Centennial School District rather than bused down into Columbia	worse than	4	6	13		
2947	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	10	4	13		worse than	4	13	10		
2948	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	8		worse than	6	4	5		
2949			MtHebronHS	1	worse than	7	13	2		worse than	13				The fact that I can hear the band...see the field lights and hear the kids cheering is the reason why we moved here and want the neighborhood to remain in the Mt. Hebron High School District.
2950	HammondES	HammondMS	AtholtonHS	5	equal to	7	6	4		better than	6	7	8		
2951	NorthfieldES			1	worse than	7	6	4		worse than	7	6	4		
2952	ManorWoodsES			4	better than	6	7	14	This is a difficult process...change is never easy but we need to strive to make it equal for all. I do worry about transportation to times for some of these kids	better than	6	7		This is a difficult transition and many were surprised by ms and his inclusion, but in the long run I think this will address issues at these levels. This draft has removed some shuffling from the feasibility study that did not make sense.	
2953			MtHebronHS	1	worse than	7	4	8	When the new high school is completed the students will be redistricted again. It is absurd to move families and neighborhoods so frequently. Maintaining contiguous neighborhoods is vital to the success of schools;	worse than					
2954		DunlogginMS		1	worse than	7	6	4		worse than	7	6	4		
2955	WaterlooES			5		6	7	14		better than	7	6		I know A LOT of parents with older children are not happy. This is causing arguments among neighbors. This plan is BEST for many of the younger kids and I really hope this plan or previous one (all with Polygon 160 going to Mount View/MRHS) are approved!!	
2956	IlchesterES	BonnieBranchMS	HowardHS	5	better than	14	6	14		better than	7	4	14	The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school. It also improves the feeds from elementary to middle and from middle to high school.	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES.
2957	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	7	1	Much longer commute time for kids compare to PRES. Given the bad traffic to Dayton Oak, they may have to stay on the school bus for 1 hour one way. The kids will be very exhausted. Other students will go to	worse than	1	7	4		Why not Clarksville Elementary School? 5 minutes drive and the number of students there has been shrinking in recent years
2958	IlchesterES	BonnieBranchMS	HowardHS	5	better than	6									Polygon 2095 strongly support the AAC plan for the northeast portion including HHS, BBMS, IES. AAC plan keeps our Neighborhood at Howard which is within walking distance and less then a mile from the school.
2959	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	7	4	2		worse than	4	7	2		
2960				5	better than	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.					The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	
2961	IlchesterES	BonnieBranchMS	HowardHS	5	better than	4			Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC plan for Howard is within walking distance and less than a mile from the school.	better than	1			The AAC Draft plan makes better use of the school utilization and reduces overcrowding in the northeast part of the county until new schools can be built.	

2962	CentennialLaneES			1	worse than	1	2	13	AAC draws more students from Ellicott City towards Columbia rather than towards Marriott's Ridge where there's more capacity.	worse than	7	4	13	AAC breaks up creates more islands instead of keeping continuous communities.	Move 1031 and 31 from Manor Woods ES to Waverly. Waverly has capacity. Move 1184 to Manor Woods, BMMS, and MRHS. Move 303 and 1303 from BMMS to MVMS or FQMS. Move 168 from BMMS to MVMS.
2963	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	13		worse than	6	7	13	Feasibility plan will bring more CMS students together into RHS, that is great!	
2964	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	7	4	6	The AAC Draft Plan will cut Dunloggin in half, and since no data is published, it is unclear what the overall rationale is.	worse than	6	7	4	Although the data has not been published, the Dunloggin community should not be split apart - this is a long established community. Choosing Dunloggin Rd as a delineator does not make sense.	Splitting a well established, small community for HS is a shame. The Centennial Map has now become a horseshoe - and is a non-centralized district. The travel time will greatly increase. Please reconsider keeping Dunloggin together.
2965	BryantWoodsES			3	worse than	13	7	9		equal to	9	7	13		
2966	TriadelphiaRidgeES			1	worse than	13				equal to	13				
2967	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	The plan is really really really really bad!!!!!	worse than	7	6	13	The plan is really really really really bad!!!!!!!!	The plan is really really really really bad!!!!!!!! In a couple of years, River Hill High will become extremely crowed because the neighborhood around the school have a lot of kids.
2968		BonnieBranchMS	HowardHS		better than	4	6		I prefer the AAC plan for my neighborhood - polygons 95, 1095, 2095 and 84. It allows my children to walk home from high school after school activities, reduces polution (not travel as far) and keeps better feeds.	better than	4	6		I prefer the AAC plan for my neighborhood - polygons 95, 1095, 2095 and 84. It allows my children to walk home from high school after school activities, reduces polution (not travel as far) and keeps better feeds.	
2969			RiverHillHS	1	worse than	7	13	4	Wilde lake is never a part of River Hill High! We don't understand the logic behind this change!	worse than	4	6	7	Kids from the same ES and MS bond better at HS!	Please do listen to what we have to say! No one pays a large amount of property taxes and does not deserve the better school. RHHS can't afford to go downwards!
2970				1	worse than	4	7	6	The draft plan affects the future of our 2 toddlers. The distance to the new schools is increased and requires crossing of Rt 108. The residents of 147 moved there for the Centennial school district and would be a strong feeder community to these schools	worse than	7	4	10	The Centennial Overlook community (147) would be a strong "feeder" community into the Centennial School systems. This is a high-performing group of students and we are concerned about the growth potential of our children in the newly assigned schools.	Centennial Overlook (polygon 147) is a tight knit community, with education as a top priority. Redistricting not only places students at a further distance, but at less caliber schools. Will like result in significant efflux of residents and families.
2971	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	7	6		worse than	13	7	6		Please don't do it!!!!!
2972	ClemensCrossingES			4	better than	7	14	14		better than	1	14	14		
2973			AtholtonHS	2	better than	1				worse than	1	2	9		
2974	TriadelphiaRidgeES		RiverHillHS	1	worse than	4	6	13	Wilde lake is never part of RHHS.	worse than	4	6	7	Wilde lake is never part of RHHS.	
2975	ClarksvilleES			1	worse than	6	4	7	The new ACC draft did not factor into the new developments started or scheduled to start in the River Hill area. The flows of too many Swanfield HS students will result in over-capacity of River Hill HS in the near future, and further re-configuration.	worse than	7	6	4	The new ACC draft did not factor into the new developments started or scheduled to start in River Hill. The flows of too many Swanfield HS students will result in over-capacity of River Hill HS in the near future, and further re-configuration again.	
2976	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	6	7		worse than	13	7	6		Totally waste of money!
2977	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	1	4		worse than	7	1	3		My kids have friends there and do not want to be separated
2978	NorthfieldES			1	worse than	7	6	4	Our community will now be split in half for high school districts, with the southern half proposed to attend WLHS. The children who have learned, played, and grown up together will now be sent to different high schools.	worse than	7	6	4	The new plan dramatically affects our community by cutting it in half. Where the previous plan separated the Grey Rock community into two districts, the new plan simply shifts the burden to the Dunloggin community.	I'm struggling to see the logic in this plan for the CHS district. Splitting up communities by moving zones from one high school district to another while other zones that are farther away from CHS and closer to other high schools doesn't make sense.
2979		DunlogginMS		1	worse than	4	6			worse than	7	4	8		
2980	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	3	13		worse than	7	3	13		The worst plan ever!
2981															
2982		HammondMS		5	better than	1	10	8	The plan keeps Atholton High together, which is first and foremost in my mind.	better than	1	10	8	Keeps Atholton in tact. My son is going there next year and I want him to have the same good experience that his sister did (she just graduated this year). What a great school Atholton is--racially balanced, focused on success, full of great programs.	
2983	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	7	6		worse than	13	7	6		We don't like it!!!!
2984	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	1	2		Huge change	worse than	1	2			
2985															
2986		HammondMS	AtholtonHS	4	worse than	6	7	13	The Feasibility Study moved WAY too many kids. The study removed nearly 70% of Atholton HS students. That was simply unconscionable! That was way too extreme, unnecessary and unacceptable. No other HS was changed as dramatically.	better than	6	7	1	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	
2987	ElkridgeES			1	worse than	7	13	6	Students going to Elkridge Elementary and Elkridge Middle School will be split up. Some of the those students will be going to one of the best high schools in the state with others being relegated to one of the worst high schools in the county.	better than	6	7	12	The feasibility study keeps my neighborhood together, with changes effecting a smaller group of students that live farther away from our home.	It is unacceptable to move any kids from Howard High to Long Reach High School. Parents in the Howard High School district paid premium money for homes that would allow their kids to get a top notch education and Long Reach High School is not that.
2988	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	13	7	6		worse than	13	7	6		Bad idea!!!!!!!!!!!!!!
2989	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	13	7	6		worse than	13	7	6		Bad idea!!!!!!!!!!!!!!
2990	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	9	10	The draft plan achieves the balancing of school capacities with the least number of students having to move.	better than	1	9	10	The draft plan is MUCH better than the Feasibility Study, as it results in 2000 less students changing schools. It also preserves Atholton HS, which was severely impacted by the Feasibility Study (more than 900 current Atholton students moving)	
2991	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	2			The best option is to adopt this plan for now and then re-discuss after new school has been built.	better than	2			The best option is to adopt this plan for now and then re-discuss after new school has been built.	
2992	NorthfieldES	DunlogginMS	CentennialHS	5	equal to	7			Thank you for maintaining a logical boundary line as Frederick rd.	better than	7			Thank you for keeping the community together and maintaining a logical boundary line as Frederick rd	

2993			GlenelgHS	4	equal to	1	3		Why builds when there is enough capacity currently and some schools are in fear of losing good teachers because students are not being shifted to those schools.	better than	1				
2994	ThunderHillES		HowardHS	5	worse than	13	7	9		worse than						
2995	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	2	9	AAC shows extreme favoritism disregarding heavy cost to polygon 1231, 224,1229,232, 231, 229. Community will endure excessive cost of school bus time reaching up to ~60 minute one way for 229. This is favoritism without transportation consideration.	worse than	4	2	9	AAC shows extreme favoritism disregarding heavy cost to polygon 1231, 224,1229,232, 231, 229. Community will endure excessive cost of school bus time reaching up to ~60 minute one way for 229. This is favoritism without transportation consideration.	If I must choose, Feasibility Study is better. I may lose ES but at least two of my children will not have to deal with deprived sleep and friends from this non sense AAC. My minority kids will also stand out like beacon at Glenwood MS and Glenlg HS.
2996		ElkridgeLandingMS		3	worse than	7	11		I am concerned that the Long Reach area for Elkridge has changed. If you look at the shape, it is clear it grabs the new low/mod income housing near the volleyball house for Long Reach while the whole area around stays at Howard. Morally wrong.	worse than	7	6		Feasibility study in Elkridge made more sense, though it may have needed tweaks for other parts of the county.	Please don't make this political. Please be fair and sensible. Making odd shapes looks wrong and bad. Please resist temptation give power for the vocal.
2997																
2998				5	equal to					better than	1	6				
2999			AtholtonHS	5	better than	1				better than	10			The AAC draft is much better. The Feasibility study is flawed b/c the recommendations were based on limited information.	
3000	GormanCrossingES	MurrayHillMS	ReservoirHS	1	worse than	7	9	13	Back in June, we are told that we are not redistricted but now we are. How come? Newly developed community which is still building new houses should be redistricted not the established community. Don't change these kids' curriculum.	worse than	7	9	13	We are told that our community will not be redistricted in June so we didn't worry about it. All of sudden in August, we are proposed to move to Laurel Woods. How could this happen? It is not fair because wedidn't have enough time to express our concerns.	My community kids are assigned to Gorman Corssing since the develoment and this is a strongly established community. (20 years) Plus when you look at the map, why do we need to be redistricted? We are farther from Laurel Woods than other polygons near us.
3001	CentennialLaneES			1	worse than	4	13	13		worse than	4	13	13	Polygon 147 consists of Centennial Overlook new communities established in the past couple of years and several old communities. Kids moved into those new communities with their families have just settled in current schools.	. The proposed plan will force these kids to switch school yet again. For these kids, it means moving twice within 2 years or even one year. This contradicts the principle of 6010 policy IV.B.2.c The great amount of stress and long lasting negative impa
3002	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	2	1	7		better than	1	7	8		
3003	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	11	9	Polygon 147 belongs to Ellicott City, children of this polygon should not go to Columbia for school. Children in Polygon 154 has long bus ride.	worse than	11			Feasibility study send kids to similar ranking school - CHS -> MRHH, Draft plan send kids to worse ranking school, CHS -> WildeLake	Polygon 97 should belong to schools located in 40 North.
3004		MountViewMS	MarriottsRidgeHS	1	worse than	4	2	7	I am at polygon 1229 and right next to the Mount View MS, Marriott HS. My kids can walk to his/her school with their best friends and now they will be subject to impossibly long commute (because Bus will stop at every house along 32) losing sleep & friend					I am at polygon 1229 and right next to the Mount View MS, Marriott HS. My kids can walk to his/her school with their best friends and now they will be subject to impossibly long commute (because Bus will stop at every house along 32) losing sleep & friend	I vote for Feasibility study layout. It make sense for keeping Rt 32 to MountView and Marriott.
3005			HowardHS	2	worse than	1	13	6		equal to	13	14	14		Please incorporate trailing siblings. Taking my kids to two different high schools will be difficult. It was also be traumatic for my younger son (on an IEP for emotional disability) to have to go to a different school than his brother.
3006	CradlerockES			5	better than	1	3		I have seen first hand over crowding of schools as a teacher myself and a mom I am in full support of the western shift.	equal to					Hope parents with conflicts settle their personal disputes for the greater good. While those upset with the plan have louder voices many parents I know are relieved by the shift but don't say much as they are content
3007	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	4	5	Polygon 147 is separated from the rest of Longfellow ES zone by centennial park and 2 Centennial ES polygons (i.e.1147,4147) on the western side and rt 108 on southern side.Moving polygon 147 to Longfellow creates an odd shape promote a sense of community	worse than	1	4	5		
3008		MountViewMS	MarriottsRidgeHS	5	equal to	6	7			better than	6	7			
3009			CentennialHS	1	worse than	13	7	4	Aside from the irreparable cost to families(childcare, school activities, transportation, property value fallouts) & damage to the community's cohesiveness, the AAC plan deprives my son of his future aspirations at Centennial HS. Please withdraw this plan	worse than	13			The AAC plan will destroy the community and cause immediate undue stress to the entire community. Given all the High school preparations,school open night, tryouts, course selection etc.the AAC plan will demoralize my son's efforts. Withdraw the AAC plan	The AAC plan will destroy the community and cause immediate undue stress to the entire community, Given all the High school preparations,school open night, tryouts, course selection etc.the AAC plan will demoralize my son's efforts. Withdraw the AAC plan
3010				1	worse than	6	7	4	Our children attended Northfield, Dunloggin, Mt Hebron and Centennial. So we have experience with a plan such as the one you propose. It puts an undue burden on families and the community and especially on the children.	worse than	6	13	14		
3011																
3012		MountViewMS	MarriottsRidgeHS	1	worse than	4	2	7	I cannot agree with ACC. It promotes before care and lose of sleep and focus for polygon 2229. What AAC is proposing is also not considering late opening for all school this year and number of bus stops. Bus has to stop at every house due to no side work.		4	7	2	I cannot agree with ACC. It promotes before care and lose of sleep and focus for polygon 2229. What AAC is proposing is also not considering late opening for all school this year and number of bus stops. Bus has to stop at every house due to no side work.	With conviction and whole heart, I push for Feasibility Study. Please consider what it means to all kids on 32 north who has stop every house and pass the nearest school right next to it to go to much further away school.
3013	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to					better than	1	10		Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community p	

3014			OaklandMillsHS	2	worse than	9	8	12	I have serious concerns about the frequent movement of students between TSES and Stevens Forest. The new plan will reduce the balanced student make up of TSES - something I greatly appreciated when my children went there.						
3015	ManorWoodsES	MountViewMS	MarriottsRidgeHS		equal to	6				better than	4	1		The AAC draft plan keeps my kids at a school that is less than 5 miles away vs moving them to a school that is more than double that.	My biggest concern about the Feasibility Study is hat my kids would move to a high school that is more than double the distance away from my house. Them driving on dangerous roads to get there and home from after school practices makes me very nervous.
3016			AtholtonHS	4	equal to	1	6	2		equal to					
3017	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	14	14			better than	1	10	14		Would like to see the entire Emerson community attend the same high school and middle school. This would involve moving Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS.
3018		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	9	I am at polygon 224 and my family will be greatly impacted. I am across old Frederick rd from Mount View and this will devastate us on logistics, loose of sleep and extra before care that I must pay. From 5min walking o 40min school will be a torture.	worse than	4	7	9	I am at polygon 224 and my family will be greatly impacted. I am across old Frederick rd from Mount View and this will devastate us on logistics, loose of sleep and extra before care that I must pay. From 5min walking o 40min school will be a torture.	Vote for Feasibility study than AAC with my whole soul.
3019	TalbottSpringsES	LakeElkhornMS	OaklandMillsHS	2	worse than	6	7	9	There should be no changes made at this time at TSES! Give a chance with the new build. The draft plan still makes TSES demographics. Why bus TSES walkers over to THES? Also keep Sewells Orchard at TSES! We need them for PTA & diversity in demographics!!	better than	6	7	2	The draft plan makes me SOO happy that Hopewell stays at TSES & OMHS!!! However, disappointed that many other neighborhoods are still being taken away from TSES! This NOT okay for many reasons such as demographics, transportation, PTA, community contiguos	I propose to put a hold on redistricting in the Oakland Mills and Owen Brown community. At least wait until the new TSES is built since it will hold more capacity. These proposed plans are tearing apart East Columbia relationships & diversity that we need
3020				5	equal to	7			Thanks for using Fredrick Road as a logical boundary.	better than	7	4	6	Thank you for keeping gray rock farm together, and attending a high school that doesn't involve crossing major commuter roads.	
3021	ClemensCrossingES	LimeKilnMS	AtholtonHS	3	equal to	9	7	14		equal to	9	7		in both plans my kid's elementary schools and middle schools change from Clemens crossing and Lime Kiln to Pointers Run and Clarksville Middle, the high schools are different, one has Atholton and the other River Hill.	in both plans my kid's elementary schools and middle schools change from Clemens crossing and Lime Kiln to Pointers Run and Clarksville Middle, the high schools are different, one has Atholton and the other River Hill.
3022	LongfellowES	HarpersChoiceMS	WildeLakeHS	3	worse than	4	6	12		worse than					
3023	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10			better than	1	10		1.The AAC Plan is superior to the Feasibility Study. 2. It solves overcrowding by moving far fewer students amd Preserves Altholton HS. 3.Modify it to reunite the Emerson (6010-IV.B.2.b.). 4. Move Polygons 272 and 1272 (East Emerson)	Move polygons 272 and 1272 east emerson to murray hill ms and altholton hs as the emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community.
3024	GormanCrossingES			1	worse than	6	14	1	Why move kids from Gorman Crossing to Laurel Woods? That takes Gorman Crossing down to 93.9% proj. Util., but bumps Laurel Woods up to 105.6%. If Gorman Crossing stays the same they would only be at 103.0%. Just leave GCES alone.	worse than	6	1	1		Makes no sense to move kids from a 103.0% utilized school to a school that would then be at 105.6% utilization. Gorman Crossing students should stay where they are!
3025				1	worse than	4	7	13	splits community. requires more bussing, earlier bus stop times, more political and smacks of gerrymandering, moving high achieving students (avg. SAT 1310) to under achieving school to inflate WLHS state standings (avg SAT 1140)	worse than	4	6	13	My community is being divided & moved from a school ranked 11th in MD to a 40th where the student population is less focused academically focused. Property values will be greatly reduced due to the ACC plan. ACC offers inferior ed opportunities for area.	School zones should be contiguous around the school and should serve the city in which they are located. AAC plan forces busing through the zone of another high school to their assigned school. Rezoning should NOT penalize high performing students.
3026	TalbottSpringsES			1	worse than	2	3	4	Considering that the data used to come up with the new plan is completely inaccurate, no changes should be made at this time until a detailed audit of the data is performed. The damage to families is not worth the mythical benefits presented.	worse than	4	2	3	Neither of these plans should be considered until we have accurate data and all the facts.	Beyond the obvious data issues, the fact that the AAC is hurting diversity in our public schools and moving children around haphazardly without any consideration of the impact to their lives, no changes should be made at this time!
3027		BurleighManorMS		5	equal to	7			Thanks for maintaining a logical boundary line as Frederick Road.	better than	7			Thanks for keeping the community together and maintaining a logical boundary.	
3028			CentennialHS	1	worse than	9	7	13	Why reassign zone much closer to the existing school to a new further distance school but leave no change for the zones far away from the existing school? Why not invest schools and teachers instead migrating and affecting children's continue education?	worse than	5	8	13	Why reassign zone much closer to the existing school to a new further distance school but leave no change for the zones far away from the existing school? Why not invest schools and teachers instead migrating and affecting children's continue education?	I strongly disagree the plan. Children and their attending school are one family, they love their school like people love their country. No rights to move them around without a fundamental solution for no child left behind for better education.
3029	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	9	10	14	For our children, there is no difference in the current and the AAC Draft relative to schools.	better than	1	10	9	The AAC Draft Plan is superior to the Feasibility Study for the reasons listed above. It solves overcrowding issues with far less moved students.	
3030	StJohnsLaneES		MtHebronHS	1	worse than	4	7	5		worse than	14	14	14		
3031	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	14	14			better than	1	10	7	The AAC Plan is superior to the Feasibility Study.	
3032		BurleighManorMS		1	worse than	3				worse than	6				
3033	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	8	10	I am strongly opposed to redistricting Polygon 147 to Longfellow ES, Wilde Lake MS, and Wilde Lake HS. Polygon 147 is a newly built community. It will have very bad influence on the kids (88 ES, 40 MS and 43 HS) if they move schools twice in 2-3 years.	worse than	7	8	10	Unlike the ACC draft plan, the Feasibility did the right thing to keep Polygon 147 in Centennial Lane ES, Burleigh Manor MS, and Centennial High. Polygon 147 belongs to the Centennial community, which as a whole separated from the south by Route 108.	I am strongly opposed to redistricting Polygon 147. It breaks the integrity of the Centennial region/community. It will make over 170 kids to change schools twice in 2 years or so, the frequency of which will badly influence life of the kids and families.
3034			CentennialHS	1	worse than	4	7	6	Kids are not poligons to shuffle them around	worse than	7	6	4		
3035	CradlerockES	LakeElkhornMS	OaklandMillsHS	3	equal to					worse than	10				
3036	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	6	1	This plan further splits the River Hill neighborhood. Years ago, our community was split because Glenelg had water/sewer issues, so we were forced out of River Hill. The AAC proposal does not move enough students back to Glenelg and move RH back to RHHS.	worse than	7	6	1	The feasibility study is appropriate because it moves students back to Glenelg and RHHS, which are both now under utilized. We were moved to Atholton HS to make room in Glenelg and RHHS years ago. Now is the time to correct this, as the FS does.	

3037		ElkridgeLandingMS	HowardHS	1	worse than	2	5	6	Polygons 42, 1042, 2042, 3042, 38, 1038, 2038, 1300, 300, 124, 1124, and 39 are established areas and should stay within the Howard High School zone. This will have a very negative impact on the kids and our community to be moved to Long Reach HS.	worse than	2	9	5	The Feasibility Study was fine and did not negatively impact our community. The AAC draft plan is terrible and will move kids from an established school feed (ELMS to Howard HS) into Long Reach with different demographics. Keep us in the Howard HS zone.	The whole plan should be discarded. The plan should only focus on the elementary schools since the redistricting is occurring because of Elementary School 42. Please leave the middle schools and high schools in their current zones.
3038	AtholtonES			5	better than	1				better than					The latest plan there is less movement particularly in the east and you do a nice job filling seats in the west
3039				5	equal to	10	11	14		better than	10	12	14		
3040	GormanCrossingES	MurrayHillMS	AtholtonHS		better than	6	6	6		better than	6	6	6	The draft plan has 2000 less students changing schools, and it preserves Atholton.	
3041			HowardHS	1	worse than	3	4	14	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce cost of bussing. This demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS means forfeiting funds for other costs such as HS#13.	worse than	3	4	14	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school benefits students' health, community involvement and the environment. It also reduces number of teen drivers on roads, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
3042	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	4	1	6		better than	6	4	1		The AAc draft plan - Reduces travel distance compared to previous plan (Feasibility study) - Reduces small feeds in my school - Minimizes the number of students that are redisticted
3043			AtholtonHS	5	better than	1	10	7		better than	7	8	1		
3044	DuckettsLaneES			4	worse than	4	6	7		better than	4	7	14		
3045	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	9	1	10		better than	1	10	9	The AAC draft plan much better achieves policy 6010 considerations. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	
3046	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for maintaining a logical boundary line as Frederick Road.	better than	7			Thank you for keeping the community together and maintaining a logical boundary.	
3047	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over-enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Worthington ES (currently at 85% capacity), Ellicott Mills MS, and Howard HS. This proposal solves safety and transportation concerns and maintains our community affiliation with Ellicott City.
3048	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	equal to	1	6	9	I am thrilled that the revised draft plan will keep my children at our school of choice, River Hill High School. We live in Poygon 180 and purchased our home for River hill high. Reassigning us to Glenelg would have been detrimental to my kids.	better than	13	6	9	The feasibility plan to move my children to Glenelg would negatively affect my children's self esteem. They would lose many of their friends, end up in a school with no diversity and may not thrive. Please keep them at River Hill.	
3049			MarriottsRidgeHS	1	worse than	4	13		It is absolutely absurd to redistrict the students in our Amberwoods neighborhood who live a little over a mile from MRHS & Mt View to Glenelg which is approx. 10 miles away. Complete waste of resources!	worse than	13				My daughter is a new student driver. You are endangering many student drivers lives by requiring them to commute farther on rte. 32. Our neighbor was killed on rte. 32 turning in to our neighborhood. Please have a heart and care about our children!
3050	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	6	6		better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3051			AtholtonHS	1	equal to	6	7		My daughter really needs to stay with her community and attend rhhs. Sending her to Atholton separates her from her friends. This is not the best thing for her.	worse than	6	7	4	Our daughter wants to stay with her community and not go to Atholton with a different group of kids. We believe it is important to keep communities together.	Please keep all of river hill at rhhs.
3052			AtholtonHS	5	better than	1	10	7		better than	1	10	14	The AAC draft plan is superior to the Feasibility Study. Reduces the number of families impacted and achieves goal of lessening overcrowding. Atholton HS is mostly preserved in this new plan. Moving 60%+ of that schools students is unreasonable.	I would like to see the Emerson community reunited in a redistricting plan. Moving only 2 polygons achieves this (272 and 1272).
3053			CentennialHS	1	worse than	7	8	9	My child would be removed from CHS. He would have to travel farther. He would be split from students he went to Dunloggin Middle School with. He is Hispanic and would be moved to a far less diverse school (Wilde Lake).						
3054			AtholtonHS	4	better than	1				better than	1	6	2	The new plan addresses overcrowding issues, but appropriately moves far fewer students into and out of Atholton High School.	
3055	ElkridgeES		HowardHS	1	worse than	7	6	8		worse than	7	6	8		
3056	PointersRunES			1	worse than	4			I'm in polygon 1189 and not happy having the change to a much further distance from here, which looks like it was made to accommodate moving children from Fulton ES to Pointers Run ES. The county should have expanded Fulton ES for Maple Lawn	worse than					
3057				1	worse than	13	7			worse than	13				
3058			CentennialHS	1	worse than	7	4	11		worse than	7	14	11		
3059	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	10	1			better than	1	10		The AAC draft plan is superior to the feasibility study as it addresses the overcrowding issue by moving the fewest students, thus causing the least amount of disruption for students and parents planning out their academic paths.	
3060	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	10	4	Wilde Lake HS will be moving students to RHHS from 25 polygons. Studies have shown that students moving away from their nearby schools will face challenges in non-academic terms for at least 1-2 years. Commute time is another concern.	worse than	7	6	4	Some Atholton HS polygons are closer to RHHS. Those students attended Clarksville MS, so they have lots of friends at RHHS. It makes more sense to move them to RHHS than moving students from Wilde Lake HS to RHHS. Commute time will be shorter too.	Moving a large number of students from WLHS to RHHS has potential negative impact on their future development. Longer commute, unfamiliar environment, disrupted social connection could put additional burden on them while being challenged academically.

3061	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	4	7	8	My neighborhood/child currently walks to Mt Hebron HS. This plan puts all HS students on a bus and ships them to MRHS. As a tax payer, I object to the additional cost it takes to bus the children rather than to keep them at the current walkable school	worse than	4	3	7	The Feasibility Study allowed this neighborhood to continue to walk to Mt Hebron HS rather than occurring additional costs of busing under the AAC draft plan. Walkers to any school should remain walkers.	This neighborhood has been impacted during every school redistricting in the last 10 years. Enough! Either keep the existing schools or even the first draft Feasibility Study schools. To subject the county to more costs in busing is outrageous.
3062		MountViewMS		1	worse than	13	6	1	My situation is that my child moves from Marriotts Ridge to River Hill. Our distance to school would double. Our polygon is farthest north and very small. Keep it in Marriotts Ridge please. Makes more sense.	better than	13	6	1	AAC is only mildly better than the Feasibility plan because River Hill is better than Glenelg. Still a major upset for our family. We are in polygon 179 and really shouldn't have been moved. Small group, inconsequential overall, but negatively impacted.	Between negative impact on our life (twice as far to the school), real estate value, family (cousin) would still be in Marriotts Ridge, and the fact that we are on the border of the split, it makes sense to just keep us in Marriotts Ridge.
3063		ElkridgeLandingMS	HowardHS		worse than	6	7	5		worse than	5	6	7		
3064			CentennialHS	1	worse than	4	6	7		equal to	4	6	7		
3065	VeteransES	EllicottMillsMS	CentennialHS	5	equal to	4	5	7		equal to	9	4	7		
3066	GormanCrossingES	BonnieBranchMS		1	worse than	7	13	4	This is not a good idea. We should not have to rearrange our school district. If this is due to the new development, then they should be the ones attending LAUREL WOODS not us.	worse than	4	7	13		
3067			MtHebronHS	1	equal to	4	13	2	Can someone please explain the justification of moving walkers from Mt. Hebron to a school literally miles away? These students are walkers to MHHS and as such can/are expected to walk to/from school. Let's streamline a new HS and not move again!	equal to				Same. See above. Let's all work together to streamline a new high school so as to not redistrict students again and again and again.	
3068			CentennialHS	1	worse than	7	6	8	the current situation is terrible and I see it just getting worse. A long range plan that provides a glide path to: keeping feeds of childresn together from one school to another should be outlined before short term plans are made.	worse than	7	6	8		
3069	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	6	13	14		worse than	6	14	14		
3070	SwansfieldES	HarpersChoiceMS	WildeLakeHS	5	better than	2				better than	2				
3071	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	12	It makes no sense to move children in Clarks Glen (Polygon 1189) to Dayton Oaks ES. Clarks Glen is just next to PRES, and DOES is too far away and will require our little ones to travel on the congested 108 and 32, with potentially more than 1 hr commute.	worse than	4	6	12	The AAC is a fundamental change from the 2017 Feasibility Study!	It just doesn't make sense to move little kids so far away when there are close elementary schools!
3072	RockburnES	ElkridgeLandingMS	HowardHS	4	equal to	6	2	7		better than	6	7	2	The AAC plan is MUCH better since it minimizes disruption until the new high school is ready.	(I know is not an AAC issue/decision, but...). I strongly believe that breaking relationships is so detrimental that sophomores, juniors, and seniors that can provide transportation should be allowed to stay in their current school.
3073	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	2	7	This plan does a good job of reducing overcrowding.	better than				I like how this plan leaves Atholton's districting alone.	
3074		BurleighManorMS	CentennialHS	5	better than	1	7		Better, addresses overcrowding at al three levels in my school district.	better than	6	7	4	The AAC is better than the FS. It considers contiguous neighborhoods, decreases the overcrowding at CLES and BMMs by moving polygon 147 out of the school district. This helps with the overcrowding at the es and ms levels.	Please pass on to the board to allow rising juniors and sophomores of 2018 to remain at the hs which they started. Thank you!
3075	NorthfieldES	BurleighManorMS	GlenelgHS	1	worse than	4	13	13	They are not that different except the fact that I am still moving to a different school after I have already went to chs for one year. Makes things very complicated and a very big bother to a lot of people.	worse than	4	13	13	I would be ok with moving during freshman year of highschool so I can enter a new environment and get used to it. But moving after already attending especially juniors and sophomores is really complicated and very frustrating.	Although this may be a personal problem, adjusting to a new environment can be very hard for people and that means I can start having a really difficult time and not do good on highschool. Which is really important for highschool gpa and future.
3076	ThunderHillES	OaklandMillsMS	OaklandMillsHS	5	better than	6	7	4	Thunder Hill is the Oakland Mills community. My child can walk to school. Keep polygon 1151 at Oakland Mills High School.	better than	4	6	7	The AAC draft plan is tremendously better than the Feasibility Study which made redistricting decisions based on outdated Data.	
3077	NorthfieldES		CentennialHS	1	worse than	13	7	6	The stable Dunloggin Community is adversely impacted. Feeder schools are changing and next door neighbors are forced to go to different schools. The emotional and psychological impact on kids is too huge and commute to WLHS is too long.	worse than	7	13	6	The new plan severely impacts the Dunloggin community.	We humbly request AAC to remove the proposed changes to the Dunloggin community.
3078	VeteransES			5	better than	1	6			better than	6	7		I like the new draft plan much better because it has listened to community voices and managed to address school over capacity issues while minimizing the impact on the communities.	
3079		ClarksvilleMS		1	worse than	7	4	6	My child will on;y be separated from half her classmates with the former attendance plans. However with the AAC draft plan she must leave almost her entire grade of students when entering high school.	worse than	4	6	7	With the Feasibility Study students from CMS will be kept together through there middle school and high school years which is more benefical in comparison to the AAC draft plan.	
3080	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	1	worse than	13	7	6	The switch from River hill HS to Glenec HS of polygon 1183 seems unfair to us. Decisions in life for our our kids future are based on a lot of thinking and analysis. We chose to be here based on the 10 years prospected stable school district.	equal to	13	7	9	Would like polygon 1183 to cintinue being assigned to River Hill HS.	
3081	AtholtonES			5	equal to	7	6	9	This will ease overcrowding from the east whist balancing demographics in most schools. All schools are affected but not disproportionately	better than	9	10	6	Atholton will be extremely negatively impacted by this plan. It is currently achieving great results with a mixed demographic. Other schools need to be more balanced whilst easing overcrowding	The feasibility study plan would completely change AHS. Look at the demographic info on WLHS and OMHS and compare to RHHS. Taking the proposed polygons out of AHS and adding them to RHHS is very unfair on students, teachers and parents of AHS.

3082			CentennialHS	1	worse than	13	6	7	I live in polygon 150. Why are you trying to bus my children to the worst HS, Wilde Lake?! The is a complete deviation from the feasibility study and there is no data to back up this horrendous proposal. My children will go to private HS.	worse than	13	6	7	The incompetence is stunning! You propose something that is completely contrary to the feasibility study with no rationale. I bet none of your kids are being sent to Wilde Lake HS. My kids will not go to the HS equivalent of a juvenile detention center.	You are destroying our Dunloggin community!
3083			AtholtonHS	5	equal to	10	14	14		better than	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool etc.
3084				1	worse than	4	3	6	This new plan puts students in my neighborhood at least an hour away from their school on a bus every morning. In this process they go right by the current school. Surely you can find students closer to Glenelg schools closer that students up Hwy 32.	worse than	7	4			
3085			CentennialHS	1	worse than	14	14	14		worse than	14	14	14		
3086			AtholtonHS	5	equal to			14		better than	1	8	10		The HS redistricting plan should be postponed to allow more information to come about the new HS so that the disruption to families will be limited. Schools develop into communities and breaking up communities is significantly undesirable.
3087			MtHebronHS	1	worse than	4	7	2	This plan is abysmal. 12 years ago we fought (unsuccessfully) redistributing. Your reasons, among others were not redistricting walkers to a bus route and keeping communities together. This plan goes against everything the county has always stood by.	equal to	4	1	7	It is hard to say which plan is worse. You did not supply complete data on actual student movement. To move walkers to a bus route is absurd.	
3088	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	4		worse than	4	7	4		
3089	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	3	I am from Polygon 1189. We are just next to pointers run ES. During rush hour, it can take more than one hour for kids to commute to and from Dayton Oaks ES. Our kids already have closer connections to the nearby River Hill children and programs.	worse than	6	4	5	Geographically, even Clarksville ES is much closer than Dayton ES. The AAC plan causes more traffic on MD-32 if kids need to commute to Dayton ES. This contradicts Superintendent's vision of keeping kids together through K-12." Strong oppose the AAC plan"	Our kids will attend the same higher level schools as River Hill kids, and share many common extra curriculum activities. Singling out our community to Dayton Oaks will significantly disrupt our children's social connection and activities.
3090	AtholtonES	HammondMS		1	worse than	7	6	13	Please keep Hammond Middle school students in MacGills Common/Kings Contrivance going to Hammond High school. If this cant be done than Altholton High school would be second choice.						
3091				5	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3092			CentennialHS	3	worse than	7	13	4		better than

3094			MtHebronHS	1	worse than	7	4	6	The redistricting needs to end when it comes to families and neighborhoods who have been in the same stable place for years. New developments should be forced to move, not ones that have been here for years	worse than					
3095	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3096										better than	1	3	4	these realignments of attendance boundaries always create consternation and realitierealities much as possible to keep cohesive groups and neighborhoods in the current boundary setting the better. Not sure when a new H.S. in NE corner of HoCo will happen.	
3097	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3098	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	5	4	Dosnt to put a freshman into high school, have them make new friends, join bonds and know their academic competition/expectations to move them to a new one where locals have already been able to do what they did the year before, and be forced to restart!!	worse than	13	2	9		You are harming students emotional stability and their ability to feel safe. If you redistrict these innocent students the risk of bullying will increase! We have worked so hard to get the bullying down around here! Let's not let it go back to how it was
3099	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	13			Centennial Park (147) used to be CLES->BMMS->CHS. Now it changed at all levels to LOES->WLMS->WLHS. People moved to the new neighborhood here because of the schools, but now they must go to completely different schools without notice or options.	equal to	6				
3100	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3101	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	better than	4			I live 10 minutes from river hill high school which is about an hour an a half bus ride. I live 3 minutes from glenelg which would cut the travel time almost in half	better than	4	2	3	J	
3102	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	13		worse than	7	4	6		
3103		MurrayHillMS	AtholtonHS	5	equal to	1	1			better than	1	10		Draft plan is superior to Feasibility Study	
3104			HammondHS	1	worse than	7	6	4	If the draft plan is implemented it will create a major negative impact on my children. I strongly urge you to maintain the current boundaries.	worse than	6	1	4		DON'T DO IT!!!
3105		BonnieBranchMS	HowardHS	5	better than	4	2			better than	2	4			
3106	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	7	6	The AAC plac does not make any sense. We moved to river hill because of the good school. The AAC plac will dramatically decrease the school quality. Strong objection to the AAC plan!	worse than	6	7	10	The feasibility plan is much better. It keeps all the river hiil kids in one high school together.	Strong objection to the AAC plan.

3107	ElkridgeES	ElkridgeLandingMS	HowardHS		worse than	13	4	9	I moved from Baltimore Co. to Elkridge/Hanover because of Elkridge Landing Middle and Howard High School. This plan takes my child further away from home than Howard High School and it is not as highly ranked!	worse than	4	9	13	Why was this change made when there aren't demographics to support the redistricting and it seems as if wealthier parents in the Rockburn area are being appeased by uprooting kids whose parents moved to certain areas because of the established schools.	It will cost more to bus children from Polygon 38 to Long Reach because the commute is longer. Use the correct data! Please!!
3108			HowardHS	5	better than	4	3			better than	4	2			
3109	GormanCrossingES		AtholtonHS		worse than	1	13	10		worse than	1	6	13		
3110	PointersRunES			1	worse than	4	7	13	Polygon 1192 should still go to Pointers Run ES. My kids have all the friends here and it's closer to us. We do not want to go to Dayton Oaks ES. All the kids in our neighborhood feel really sad about this plan. We all want Pointers Run ES please.						
3111					worse than	7	6	2							
3112	TalbottSpringsES				worse than	9			The demographics of TSES are what make it such a wonderful school for students, parents, and staff currently. We have a good balance looking at both ethnicity and economic aspects of the students and their families. The draft will completely disrupt	worse than	9				
3113				1	worse than	6	7	8	Breaking the Elkridge/Hanover Community to attend different schools is not right! We need to keep our community as continuous as possible. Our children today face many challenges, please don't take away the right of ones Community.	worse than	6	7	7	Breaking the Elkridge/Hanover Community to attend different schools is not right! We need to keep our community as continuous as possible. Our children today face many challenges, please don't take away the right of ones Community.	
3114			HowardHS	1	worse than	6	7	8	Breaking the Elkridge/Hanover Community to attend different schools is not right! We need to keep our community as continuous as possible. Our children today face many challenges, please don't take away the right of ones Community.	worse than	6	7	8	Breaking the Elkridge/Hanover Community to attend different schools is not right! 3116	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6			The AAC plan would make many kids from same elementary or middle school separated and some kids have to commute too far to the new school.	worse than	1				
3117		MayfieldWoodsMS		1	worse than	6	4	14	Mayfield to ELMS is a problem because most kids at ELMS go to Howard High. Also, ELMS is further away from our home than Mayfield. If Board wants to go forward with ELMS for our polygon they should also change the HS to Howard instead of Long Reach.	equal to	4	6	14	Same problem. Mayfield closer than ELMS to our home. Most ELMS kids go to Howard High. Makes no sense to do ELMS than Long Reach. If changing our polygon to ELMS, HS should be Howard. Otherwise, we should stay as is Mayfield than Long Reach.	All HoCo schools are amazing. Be cautious to keep kids close to schools and keep neighborhoods together. Kids shouldn't feel like they will lose friends going between middle and HS. And try not to redistrict so often. It stresses kids and parents out.
3118	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	7	4	6		worse than					
3119			HowardHS	1	worse than	7	2	4	It is extremely disappointing to see that we could possibly be moved to longreach after decades of being at Howard high. Long reach is further and just as crowded. To add more students will not improve the school.	worse than					
3120	NorthfieldES			1	worse than	7	4	6		worse than	7	4	6		
3121			CentennialHS	1	worse than	4	6	8		equal to	13	6	4		This plan is very inconvenient for my family, and as a member of the CHS family for the past 10 years I would hate to be separated from them
3122	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	13	13	7		worse than	6	1	7		
3123			MarriottsRidgeHS	1	worse than				_____ U _____ WHAT IS THIS MY KID IS NOT GOING TO GLENELG ITS DISGUSTING AND OLD WHICH IS WHY WE PURPOSELY BOUGHT OUR HOUSE SO THEY COULD ATTEND MARRIOTTS RIDGE END THIS STUPID ____ NOW	worse than				don't _____ move middle and high schools too just elementary idiots	
3124				1	worse than	7	6	4	VERY POOR plan. Centennial HS is closest to our neighborhood & part of our community. Students from ES & MS must be allowed to attend HS in their own community & not a foreign area. Best teacher accessibility, parental involvement, transportation, control	worse than	7	6	4	HS is a CRITICAL TIME when students need to be in the school closest to their home to insure parental involvement with teachers, & closer supervision to eliminate drug use (meth & heroin epidemic). A HS out of the area is asking for trouble.	Sending Dunloggin students to Wilde Lake HS is EXTREMELY BAD. If we want HS students to excel we will keep them close to home & be involved in their life; not send them out of the area. We/they need easy access to their HS: academics & extra curricular
3125			MarriottsRidgeHS	1	worse than	13			Moving students into new schools is extremely negative because of the emotional, social, athletic, educational issues that will impact the students. Especially incoming Juniors who will need college reccomendations and good grades to succeed.	worse than	13			We should face the crucial problems at hand which is mostly only dealing within a elementary schools. Moving EMS children is not nearly as negative at moving HS students socially, emotionally, and educationally	I strongly suggest you DO NOT put this plan into place.
3126			CentennialHS	1	worse than	13			Please don't do this.	worse than	14				
3127					worse than	8				worse than	7				As people were encouraged to vote a certain way and submit it often, somewhat similar to stuffing the ballot, I don't think this is a valid and accurate survey.
3128			CentennialHS		equal to	7			Thank you for maintaining a logical boundary line as Frederick Road	better than	7			Thank you for keeping our community together and maintaining a logical boundary	
3129	WaterlooES	MayfieldWoodsMS		4	equal to	11				equal to	12			The new plan doesn't change schools for us. What I don't like is that my current neighborhood is split right down the middle. I'd rather we go to the same schools so my kids had more friends to actually play with after school.	I think all future plans need to do a better job of not splitting up neighborhoods. Not necessarily splitting up kids that are friends, but actual neighborhoods.

3130	HollifieldStationES			1	worse than	4			Living in polygon area 262 gives us the ability to walk to Hollifield Station ES whenever we choose due to the additional sidewalks installed along the new development on Rt 99. Changing the school district to St. John's ES eliminates that ability.	worse than	4			Living in polygon area 262 gives us the ability to walk to Hollifield Station ES whenever we choose due to the additional sidewalks installed along the new development on Rt 99. Changing the school district to St. John's ES eliminates that ability.	Please consider families that choose to walk their children to school instead of promoting additional cars/buses and commuting on the roads. A safer environment for walkers/bikers helps alleviate traffic and promote better health for our communities.
3131	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	4	6	7		better than	6	7	4		
3132			HowardHS	1	worse than	4	6	7		worse than	4	7	6		
3133			OaklandMillsHS	2	worse than	4			Wilde Lake High School is too far away. There are 3 high schools closer to our home. The distance limits how involved our children in high school can be.	worse than	4			Atholton High is much closer and more easily accessible from our home than Wilde Lake High School.	
3134			AtholtonHS	5	better than	1	10	14	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	better than	1	10	14	Some Atholton kids were impacted by SIGNIFICANT changes in elementary & middle. They shouldn't go thru that again. Fewer kids moving. Consideration for future high school. AAC plan preserves excellence at Atholton HS. FS decimates AHS for no reason.	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment
3135		EllicottMillsMS		5	better than	1	6	7		better than	10	6	1	The new plan is much better. It helps relieve over capacity problem while moving fewer students. Thank you for listening to our voices.	
3136	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	5	6	NO I do not like AAC plan.	worse than	4	1	8	NO I do not like AAC plan.	NO I do not like AAC plan. Please do not move Pointers Run Elementary children to the Dayton Oaks Elementary School.
3137			AtholtonHS	5	better than	1	10	14	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	better than	1	10	14	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment

3163				1	worse than	4	6	2	The plan splits our community in half and we have terrible transportation issues where none had previously existed. I will fight against this terrible plan tooth and nail,	worse than					
3164			AtholtonHS	5	equal to	1	10			better than	1	10	7	The AAC Draft plan is superior to the Feasibility study because the AAC Draft plan is in line with and improves upon the current plan. Atholton's high ranking will be preserved by maintaining its population which is line with policy 6010.	Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS to bring the Emerson community back together and going to all of the same schools.
3165	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10	7		better than	1	10	14	The AAC draft plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and preserves Atholton HS.	May I suggest to improve the plan to reunite the whole emmerson community?
3166	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10			better than	1	10			
3167	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	7	6		worse than	4	7	6		
3168	AtholtonES	HammondMS	HammondHS	1	worse than	4	7	13	This plan does not make any geographical sense for the community we live in.	worse than	4	7	6	Again, this plan makes no sense from a geographic standpoint for the community we live in. This constant redistricting of schools is utterly unique to Howard County and it's maddening.	
3169				5	equal to	6				better than	6			The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
3170		ThomasViaductMS		1	worse than	13	4	6	All of her friends at TVMS will be going to Long Reach High. She is the only one of her group that will be going to Oakland Mills instead. A new high school opening in 2021 would mean another redistricting for her since lives in polygon 1033.	equal to	13	6	4	The two plans are identical for us. Oakland Mills is much farther away than Long Reach from our community. The majority of of students from TVMS will be going to Long Reach, while only a small group is being moved to Oakland Mills.	Polygon 1033 has already been redistricted three times since we moved here in 2002. This time will be the fourth, and the new high school opening in 2021 will mean a 5th redistricting since we moved here. That's too many times.
3171	CentennialLaneES	BurleighManorMS		1	worse than	13	7	4		worse than	13	8	7	The plan to redistribute polygon 147 will create an island unto itself which prevent any semblance of community. Feasibility Study concludes no change to Polygon 147 and Draft plan did not provide clear, equitable justification to deviate from plan.	
3172	ElkridgeES	ElkridgeLandingMS	HowardHS	2	worse than	6	7	8	The current school areas maintain continuity to Elkridge students progressing through schools whereas the AAC plan introduces a significant split at the high school level to these students who previously have attended common elementary and middle schools.	worse than	6	7	8	FS plan predominately maintains continuity to Elkridge community students progressing through schools whereas the AAC plan introduces a significant split at the high school level to Elkridge students of common elementary and middle schools.	Timing of release of adjustments to AAC recommendations in comparison with schedule of the series of meetings presents disproportionate time for individual polygon communities to review and provide feedback to recommendations. Consider new HS in east HC.
3173	GormanCrossingES			1	worse than	7	9	13	The draft plan does not appear to be equitable for Gorman Crossing ES students targeting the African American population in the move. The proposed new zone for Laurel Woods looks deliberately shaped and targeted with the move of Polygon 1297	worse than	7	9	13	The feasibility plan has our children staying at their current school	Why impact our children by moving them away due to what appears to be poor planning on the School System. Laurel Woods is under capacity due to recent capital investments to expand. Was there inadequate data to justify expanding Laurel Woods?
3174	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	6			equal to					
3175	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	13	14	Don't split up the Dunloggin community!!!	worse than	7	13	14	Don't split up the Dunloggin community!!!	

3176	CentennialLaneES	BurleighManorMS		1	worse than	4	6	7	Keep polygon 147 in current school attendance area, our neighborhood has been in centennial community since 1950 or even earlier. We have CHS graduates in our neighborhood for generations. We are walking distance from the school area. It's not appropriate	worse than	7	13	9	Keep polygon 147 in current school attendance area. It is not appropriate to divide the short Old Annapolis road into two totally different school districts. We are all in the old annapolis road school district.	
3177			AtholtonHS	5	better than	1				better than	6				The past redistricting the Emerson community was split. In the process of fixing the student numbers in one school moving all these students and creating anxiety in our children is not really an efficient way. The AAC draft plan is an excellent plan.
3178		ElkridgeLandingMS		1	worse than	6	7	13	Keep Elkridge together. We should all go to Howard HS.	worse than	6	7	13	There is no policy-based justification for the change from the original Feasibility Study proposal, which kept much more of Elkridge together. It's just because some communities didn't want to move and complained, which means Elkridge gets to be divided -	up and sent to a different school. The policy is clear that communities should stay together, and we should have strong feeds from Elementary to Middle to High. This new AAC proposal is a step back with respect to those factors.
3179	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	1	2	3		better than	2	1	4		
3180	HollifieldStationES		MtHebronHS	5	equal to	7	4	6		equal to	7	4	6		
3181		FollyQuarterMS			worse than	2	3	13		worse than	3	10	4		
3182		FollyQuarterMS			worse than	2	3	4		equal to	3	4	7		
3183		EllicottMillsMS	MtHebronHS	4	equal to	12	7	6	Does not impact me that much. It changes the demographics coming to EMMS, but the feed percentages are large such that feeds from schools are larger and keeps Worthington Neighborhood together.	better than	6	7	6	Thank you for keeping Worthington Neighborhood Together. The feed plan for Ellicott Mills and other schools seem to be better (larger feeds). I appreciate you trying to keep the communities contiguous.	Thank you for your hard work! We realize there is no perfect solution. Thanks you for your dedication and commitment to HoCo public schools.
3184	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	6				worse than	6				
3185	BellowsSpringES			3	equal to	4	7		We live very close to Waterloo ES so it's odd that we again are not part of that district, but Rockburn seems like a good school and area to change to.	equal to	14				
3186	HollifieldStationES			1	worse than	4	13		I have considerable concerns about buses and cars trying to make the left hand turn out ofnour subdivision. It usually takes 7-10 minutes to even get out on to US 99. It is not safe when the buses need to stick to their schedule and can make unsafe decisi	worse than	4	13		The Feasibility study makes more sense because of the flow of traffic and the need to make left hand turns with the AAC draft plan.	This plan doesn't seem to take the safety of our kids into consideration. I will have 4 kids in elementary school next year and you would like me to feel comfortable putting them all on a bus that has to weasel it's way making a left turn on 99- scary!!
3187	HollifieldStationES			1	worse than	4	13		I am concerned about making the left turn on to Rt.99 from Melba Road. Traffic is always heavy that time of the morning and it often takes minutes just to make a right turn. We've also invested in Hollifield as a family and volunteer there often.	worse than	4	13		Refer to prvious comments listed above. Would also say that the planned Bethany Glen development will make traffic even more heavy on Rt. 99.	Thank you for your consideration of these concerns. The proposed changes would send our children from Hollifield Station to St. John's Lane. With all things considered, this does not seem to be a positive move from my point of view.
3188	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	12	6	7		better than	6	7	14	This plan has better feed percentages and keeps more students and communities together. I am glad that polygons 2093, 3093, 4093 remain together with the Worthington neighborhood.	This is a more reasonable plan than the initial feasibility study. Thanks to the AAC team for their efforts!
3189				1	worse than	4	7			worse than	7	6	4		This plan does not affect me, but it really makes no sense. If you look at the map some students don't go to the closest HS, they go to the one double in distance. Ridiculous if you ask me!
3190			MtHebronHS	1	worse than	13	4		MT. Hebron HS is walking distance (a half a mile) to our house and the proposed plan would transfer our son to a school that is 6.1 mile away at Marriotts Ridge.						
3191		EllicottMillsMS		1	worse than	3	4		Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #1	worse than	3	4		Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3192			HowardHS	5	better than			14		better than	4	6	7	Montgomery Meadows (Polygons 95, 1095, 2095, 84), strongly support the AAC plan, as it lets our kids walk the <1 mile distance to school, moves fewer students within the county as a whole, reduces disruption;& keeps strong feeds within the NE schools,	With the Staff plan, our kids would have to travel much further from home to attend school than in the AAC one. The AAC plan does utilize capacity in the western HoCo schools, while also reducing overcrowding in the NE Co until new schools can be built.
3193				1	worse than	7			I feel that this survey is tainted because we were asked to submit better than" or "equal to" for our answers and to submit it multiple times. This is coercion and is unethical."	worse than	7	1	1		
3194	HammondES	HammondMS	AtholtonHS	5	better than	1	10	14	Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	better than	1	10	10	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	
3195	SwansfieldES			5	better than	10				better than	10				
3196	AtholtonES				worse than	6	7	9	My kids are going to be split up from many of their elementary school friends for middle school and even more for high school. This is unacceptable. Wilde Lake HS is much further away than Hammond or Atholton. You guys have to fix this.	worse than	7	4	9	I would be fine with the Feasibility Study Plan if that were to happen. I have a lot of concern about the AAC draft plan for my kids if this were to happen.	I know it is impossible to make everyone happy. I am extremely disappointed with the AAC draft plan and feel like my neighborhood would be getting the short end of the stick.

3197	HollifieldStationES				worse than	4	13		I am concerned about making the left turn on to Rt. 99 from Melba Rd. At that time of day traffic is very heavy and it often takes minutes just to make a right hand turn. Also our family has invested heavily in Hollifield Station & volunteer their often.	worse than	4	13		Refer to previous comments above. Also, with the proposed Bethany Glen develop, traffic will be even heavier on Rt. 99.	Thank you for your consideration of these comments. The AAC plan would send our children from Hollifield Station to St. John's Lane. With all things considered, I do not feel this to be the best for our family and others in our neighborhood.
3198			CentennialHS	1	worse than	8	4	6	Many students that have spent most of their school years at the same schools with the same people will be uprooted to a location farther away to finish school in a new environment.						
3199		PatapscoMS	MtHebronHS	1	worse than	4	7	13	We are currently walkers to Mt Hebron - we are in the Mt Hebron neighborhood and we can hear the football games from our house. With this plan we would have to take a bus rather than being walkers, and practically drive past Hebron on the way to MR.	worse than	4	7		The Feasibility Study had our whole neighborhood going to SJLES, Patapsco, and Mt Hebron. We are walkers to Mt Hebron, and this would be a much better plan for our neighborhood. It keeps the neighborhood together and the maintains feeder schools.	
3200		HammondMS	AtholtonHS	4	better than	1				better than	2					
3201			HowardHS	1		3	4		Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #1	worse than	4	3	13	My child has already transitioned to Howard HS and has established a relationship with the Special education community at Howard. Switching him in the middle of his of high school experience will have a negative impact on his performance.	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. Part of my childs therapy involves the exercise he receives while walking to and from school.
3202	PointersRunES	LimeKilnMS		1	worse than	4	1	6		worse than	4	14	10		
3203	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	4	6	My kids have friends in Polygon 147 community and do not want to lose friends in their school.	worse than	7	3	13	My kids have friends in Polygon 147 community and do not want to lose friends in their school.	My kids have friends in Polygon 147 community and do not want to lose friends in their school.
3204	ClarksvilleES	ClarksvilleMS	RiverHillHS	1		7	6	4	The AAC draft plan does not concern the community integrity, the daily transportation burden for kids, and the kid friendship within community. simply, the school is designed for the community close to the school, not for other factors.	worse than	7	6	4	The feasibility study is much better than the AAC draft plan. The AAC draft plan is no brainier, and massive student change hurt the kids. Please consider the community integrity, daily transportation burden for kids, and kids friendship within community.	Please also consider the River HIll is building more houses. Does the AAC even think about the long term plan? Do not just simply transport students frequently. Please ,keep community integrity, and the kids friendship within their community.
3205	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	This plan splits the Dunloggin community. Part of our neighborhood will go to Centennial HS and part will go to Wilde Lake HS.	worse than	7	6	4	The Dunloggin neighborhood is being split between two high schools.	We really love the Dunloggin neighborhood because it is a community. We want our children to attend school with their neighbors from K-12. Please do not divide our neighborhood between two high schools.
3206	GormanCrossingES	MurrayHillMS	AtholtonHS	4	equal to	11	11	11		better than	7	6	13		
3207	SwansfieldES	HarpersChoiceMS	WildeLakeHS	5	better than	7	10	9	Looks like a solid plan. Much better than previous plan.	better than	7	3	10	Full support.	
3208	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	13		worse than	7	6	13		
3209	ThunderHillES			4	better than	6	1	10	Thank you for increasing capacity and demographic balance at OMMS and OMHS by moving students from the Glenmont and Columbia Hills neighborhoods. All students from Thunder Hill should rise together through middle and high schools.	better than	6	1	9		
3210			AtholtonHS	5	equal to	10	2	3	Since Atholton HS is not above the capacity threshold until 2025, recommend no change in attendance area until an analysis is done closer to 2025 and considering the location of new school	better than	1	2	3	Since Atholton HS is not above the capacity threshold until 2025, recommend no change in attendance area until an analysis is done closer to 2025 and considering the location of new school	
3211	NorthfieldES			1	worse than	7				worse than	7				
3212	GormanCrossingES			5	equal to	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	better than	1	10		Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in the same neighborhood and should go to the same school.	
3213	IlchesterES	BonnieBranchMS	HowardHS	5	better than	4	6	7	This plan is a step in the direction in keeping students and communities together from elementary to high school.	better than	9	6	7	This new plan seems to effect few households. This is still a band aid approach to the problem of not enough hs seats on the eastern portion of the county. Hopefully this study provides the necessary metric to validate the need for a new HS.	
3214			CentennialHS	1	worse than	13	3	6	I am curious whether special interest groups such as big builders indirectly control the ACC draft and change current school attendance areas.	worse than	13	9		I am wonder who support feasibility study. How much does the study cost? How does the study represent the people in Howard County?	Education administrators should base on the distance between the residents and schools to redistribute school districts. Additionally, the people who pay less tax or never pay tax should go reasonable schools such as Wild lake HS, et al.
3215	RockburnES	ElkridgeLandingMS	HowardHS	4	better than	7	6	14	There are still odd Polygons islands which should be corrected. Better than feasibility study which was a disaster.	better than	6	3	7	We should only redistrict when a new school is built. Any other changes only benefit developers by lowering APFO requirement percentages on the open/closed chart.	HCPSS needs to stand up to the county and stop redistricting every two years. Enough development. More schools.
3216	ThunderHillES			1	worse than	13	3	4	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3217		MurrayHillMS	AtholtonHS	5	better than	9	6	13		equal to	9	13	6		
3218	SwansfieldES			5	better than	1	9			better than	1				
3219	TalbottSpringsES			1	worse than	2	4	9		worse than	4				
3220	ElkridgeES			2	worse than	6	2	9	Changes were made based on complaints from families/HOAs living north of 100, many of whom have stated on public forums that LRHS provides subpar education" in a "high crime area"; changes do not consider impact for Elkridge families east of 95."	worse than	6	2	9	Same as above. Your "solutions" are shortsighted. The real solution is to BUILD A HS IN ELKRIDGE IMMEDIATELY!	Elkridge needs a HS NOW. It will relieve crowding, improve stability between school levels, and reduce transportation problems. Don't allow irrational fears about attending school with minority students who live in Section 8 dictate your decisions
3221	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7				worse than					

3222		PatuxentValleyMS	HammondHS	1	equal to	4	7	13	The AAC plan does not solve our current problem of dividing our neighborhood Community of Emerson. Our polygon 1272 should remain with the rest of its community whether that be at Atholton or Hammond.	worse than	4	7	7	Feasibility study showed that there would one high school for one community of Emerson. Currently some of our community are bussed past Hammond High schoolto go to Atholton High School!?	Our community should be kept together -it doesn't make sense to have some children bus PAST Hammond High School.
3223	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7		We prefer the feasibility study plan for 3 reasons. It is comprehensive and takes into account that river hill students should (1) attend the closest high school (RH), it keeps our community together, and (3) it considers the severe overcapacity issues.	worse than	3	7		We prefer the feasibility study plan for 3 reasons. It is comprehensive and takes into account that river hill students should (1) attend the closest high school (RH), it keeps our community together, and (3) it considers the severe overcapacity issues.	We need more than 250 characters to explain why this is not a good plan for our children. Please do not present this plan in its current form.
3224	ElkridgeES			1	worse than	6	9	13	The high school proposed for my area is being changed to Long Reach, which is even further away than Howard high.	worse than	13				Based on this plan my children would be going to a different high school than the majority of those they went to elementary and middle school with. They would be separated from their friends in order to go to a different high school that is not prefered.
3225			CentennialHS	1	worse than	4				worse than	4	2			
3226	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	2	4		worse than	6	7	13		
3227	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	8	13	I do not think it is a good idea to break up the neighborhood and send half to Atholton and the other half to River Hill. I think the entire neighborhood should go to River Hill.. Also think Cent and Wilde Lake should stay with their schools.	worse than	6	7	13	I do not think it is a good idea to break up the neighborhood and send half to Atholton and the other half to River Hill.The neighborhood should go to RIver Hill keeping kids together from CMS.. Cent and Wilde Lake should stay with their MS & HS schools.	Redistrict after the new high school in Jessup is done instead of redistricting now and then again in a few years.
3228	BellowsSpringES			4	better than	6				better than	6				
3229	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	14	14	14		better than	1				
3230	PointersRunES		AtholtonHS		worse than				AWFUL PLAN. No basis for why they are doing this. Arbitrary and capricious! Plan on giving at least some reasoning when we fight this next month.	worse than				Way worse than the county plan. We will come out in force against via the Facebook groups and other means. Plan on keeping River Hill intact and going to RH high like the feasibility plan.	
3231	WestFriendshipES			1	equal to	4	1	3	Both plan remove my child from their current school a mile from our house. They then have to endure a 1 hour bus ride to a school nowhere near our neighborhood.	worse than	6	4	7	A better plan is move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232, 1231, 1229, 2229 at WFES. WFES will grow to full utilization organically.	We feel that the rug is being pulled out from under the residents currently attending WFES and MRHS. This is being caused due to the poor planning of developments in Turf Valley. The Turf Valley area should be moved or have new schools built.
3232	CentennialLaneES			1	worse than	3	6	5	we think Polygon 147 should keep its current schools for the community stability, close to school (proximity) reason.	worse than	3	4	7	we think Polygon 147 should keep its current schools for the community stability, close to school (proximity) reason.	
3233	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3234	WestFriendshipES		MarriottsRidgeHS	1	worse than	13	7	4		worse than	13	7	4		
3235	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	2	6	7	I am incredibly upset by the recent proposal as it unfairly impacts the Elkridge/Hanover area without a good solution for the residents in this area.	worse than	7	6	2	The board of education must seriously consider building a high school in the Elkridge area. It is ridiculous to expect students to travel to Columbia or Ellicott City for high school.	As a taxpayer and parent of a student enrolled in Elkridge Elementary School I am very upset that the BOE is changing the plans just because one area cried about it. This plan is very unfair to Elkridge and Hanover residents.
3236			AtholtonHS	3	equal to	13	14	14		equal to	14	14	14		can i just finish my senior year without you guys changing everything at once - a student at Atholton High School
3237	ThunderHillES		HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65,1065, and 2065 walk to Howard HS. Walking to school is good for student's health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65,1065, and 2065 should remain at a middle school that feeds Howard HS. Moving 65,1065, and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3238	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	Please keep these neighborhoods in the centennial school district	worse than	4	6	7		
3239	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7			Thank you for this plan for keeping Frederick Road as the logical boundary.	better than	7			Kudos to this ACC draft plan for keeping the community and neighborhoods together.	
3240	NorthfieldES	DunlogginMS	WildeLakeHS		worse than	6	7	4		worse than	6	7	4		
3241		WildeLakeMS	AtholtonHS	5	better than	1	6	10	This plan is far superior to the current school attendance areas and the 2017 feasibility study. The plan on all levels is the first to address longstanding issues in providing equal education to all students throughout the county. Long overdue effort.	better than	1	10	6	Clearly the AAC plan is better than the study. The fewer students moved and the long overdue adjustments that were previously blocked by special interests will go a long way to making ALL HCPSS schools better. I encourage adoption of the AAC draft asap.	Moving students to/from schools is complicated & it seems the AAC did an great job in avoiding bias that created the current map debacle. The AAC plan will be the best way forward to provide a quality education across the county and save resources too.
3242	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	6	7	4		worse than	6	7	4		
3243	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	7	4	13		worse than	4	13	7

3245	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	6	7	4		worse than	6	7	4		
3246	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	The new plan will split my neighborhood. My kids will go to school 10 miles away in a neighborhood I have no ties to. It will cause a transportation hardship for me as a single mother. We have no support network near Wilde Lake High school.	worse than	7	4	13	The feasibility study keeps my neighborhood together and keeps my kids in a school less than five miles from my home. My kids will go to school with other kids from our neighborhoods and community. Transportation will be significantly better.	I chose my home because it is in a close community that offers support and a great school district. I am a single mom and having all schools, ES, MS and HS, close to home and attended by our neighbors is a huge advantage to my family.
3247	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	6	7	4		worse than	6	7	4		
3248	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10	11		better than	1	10	11	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.)	

3249	TalbottSpringsES	LakeElkhornMS		1	worse than	13			The new redistricting plan will impact my kids in a very negative way. My main concern as a parent is the second language program that my kids were introduce to for the past three years at Talbott Springs ES.	equal to					
3250	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	4	7	8		worse than	4	7			
3251	NorthfieldES	DunlogginMS	CentennialHS	1	worse than				My high school student will be taken from a high achieving school to a poor performing school. This is ridiculous!	worse than				AAC plan=poor school	If I wanted my children to attend school in Columbia or in the Columbia association, I would've bought a less expensive house in that area. I chose my neighborhood in Ellicott City. I pay high taxes. My kids are not a social experiment. Home value
3252	FultonES				equal to	7	4	14	First and foremost, the community of Maple Lawn--polygons 115, 1259, 259, and 1256--need to remain together as a contiguous neighborhood with one elementary, one middle and one high school serving its residents.	equal to	7	4	14	For the FES community, keeping the community of Maple Lawn--polygons 115, 1259, 259, and 1256--together and served by one ES is my family's highest priority.	
3253	NorthfieldES			1	worse than	2	7	13	The recommendation divides the Dunloggin neighborhood in half. As on of the oldest neighborhoods in Howard County it would be a shame to divide it. This neighborhood could possibly be effected again by the redistricting from the building of HS 13.	worse than	7	6	8		
3254			HowardHS	1	worse than	1	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces the number of teen drivers on the road.	Polygons 65, 1065 & 2065 should remain at a m.s. that feeds to HHS. Moving these polygons to OMHS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS. Additionally, limit capacity to 100%!
3255	GormanCrossingES			5	equal to	1				better than	10			It solves overcrowding by moving far fewer students and Preserves Atholton HS.	
3256	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	13		worse than	6	7	13	To keep polygon 1150 in Centennial High is to keep my child's friends, save transportation cost and save the community!	
3257	ManorWoodsES	BurleighManorMS	CentennialHS		worse than	4	6	7	keep the students who are already in CHS .. it affects them academically and psychologically.	worse than	3	6	14	AAC draft plan is worser then feasibility plan. It does not make sense to keep polygons far from CHS and redistrict polygons near to CHS even though they have less numbers than the ones far away and also the ones which are changed back to chs	PLs postpone redistricting until a new high school is built. Dont move students who are already in high schools . It affects the kids emotionally and negatively
3258		ThomasViaductMS		5	better than	7	1	14		better than	6

3262	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	2	6	7	Not only does 1124 have one of the longest commutes, but now it is unfairly being reconstructed to a poorly performing high school!!! This area needs a new high school!!!	worse than	2	6	7	Feasibility plan appears to leave 1124 unscathed. Ok.	Fix the problem - build a new high school in NE Howard County!!!
3263			CentennialHS	1	worse than	6	7	9		worse than	10	4	7		
3264			CentennialHS	1	worse than	4	6	13	My kids transferred from Harford county last year, so redistricting will impact rising 9th grader son negatively, and longer commute time will impact negatively my autistic son as well.	worse than	4	6	13	There are no big differences to me.	I hope the HCPSS office of school planning is able to consider the commute time for quality of student's life. Longer commute time will affect student's school performance and after school activities too.
3265		BonnieBranchMS		1	worse than	4	6	13	Cascade overlook community feeds BBMS. It's really close to our community. Any proposal to change will negatively impact kids and their ability to attend f before and after school programs	worse than	4	6	13	Cascade overlook community feeds BBMS. It's really close to our community. Any proposal to change will negatively impact kids and their ability to attend f before and after school programs	Cascade overlook community feeds BBMS. It's really close to our community. Any proposal to change will negatively impact kids and their ability to attend f before and after school programs
3266	CentennialLaneES			1	worse than	7	8	2	The proposal requires them to build a new school connection all over again, within the span of less than 2 years at a school. overlooking the the goal of not moving a student more than once at any school level or more frequently than once a year.	worse than	5	4	6	With current and feasibility study zones, our schools are 0.9 to 2 miles away. With the AAC plan, they will be > 3.5 miles away. the travel distance for the students from Polygon 147 will increase as high as 350% and 171 students for 2017-18 impacted	The Centennial Overlook community is greatly concerned about the discontinuation of programs that many of the students currently participate in the re-zoned schools. Given the above, we suggest preserve our current school assignments.
3267	ThunderHillES			1	worse than	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3268	ClarksvilleES	ClarksvilleMS		1	worse than	10	7	14	As there are new communities under construction within short distance to schools (closer than the proposed relocated zones), plus, the trend of younger generations move into the area. Overcapacity in the near future should be seriously considered.	worse than	14	14	14	N/A	When children are moved to different school zone and potentially need to move again in no far future. The impact to their social connection and development needs to be seriously considered. Keeping children in nearby school should be first choice.
3269	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.	

3270	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	9	14	I recommended many friends to buy homes in Howard, now I need warn others. YES- we and other families in our cul-de-sac recently bought expensive homes in Clarksville to watch the school quality drop along with loosing our life time savings in the house.	worse than	9	13		At least our assigned schools remain same in this case even though the individual school quality will drop. Less painful than the AAC Plan. Families are working hard, saving and buying home in good schools (even if it is expensive for them) for a reason.	How can county take savings away throughf decreasing home values? impact their kids education? Is county thinking about decreasing tax revenues, loosing new incoming families or foolishly thinking about fuel cost and school utilizations % only?
3271			AtholtonHS	4	equal to	7	4	9		better than	14			Feasibility study moved too many students from Atholton eliminating diversity among students.	
3272	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	2	1			better than	1	9			
3273	GuilfordES			5	equal to	6	4		The draft plan addresses concerns from Polygon 1026 by avoiding unnecessary changes. This keeps children together and minimizes transportation costs.	better than	6	4	1	The draft plan from the AAC keeps students in polygon 1026 consistently in the same schools which fosters community , relationships and minimizes costs.	
3274			OaklandMillsHS	1	worse than	1	9	1		worse than	13	1			
3275		MountViewMS		5	better than	7	6								
3276	RockburnES	BonnieBranchMS	HowardHS	1	worse than	6	4	9	We are in polygon 91 which is hardly 1/2 mile and very close to Illchester and BBMS than Rockburn and ELMS. All close by neighborhoods goto Illchester and Bonnie branch except my community. Considering all above factors,please assign Ilchester and BBMS	worse than	4	6	7		
3277		MurrayHillMS		5	better than	1	10	7		better than	10	1		I like the AAC plan because it reduces the number of students moved and also decreases overcrowding	
3278	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	9	AAC does not take into consideration how it will further split River Hill community.	worse than	7	3	9	I prefer the Feasibility Study. AAC does more damage and rips apart the River Hill community.	River Hill used to be a sought out place-that's why my family moved here. How can AAC make such big proposals to change River Hill and chop up the neighborhood. Doesn't make sense! Horrible idea.
3279	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	1	4	2	Travel time between schools are huge factor in kids participation in the clubs and other sports activities. With all the traveling competing homework is impossible. Please reconsider and don't put our kids at a disadvantage	worse than	1	4	7	AAC draft has isolated from the raft of the centennial community leading to kids not having a belonging to either the Columbia community nor the centennial community. It's unfair to isolate them after discussing intervention st school	Pleas reconsider the redistricting for our kids as they are the ones to support the community in the future. Their future is in your hands now.!!!! Don't jeapoedize it please. My daughter wants to be a doctor and serve this community let's make it happe
3280	DuckettsLaneES	ThomasViaductMS		3	better than	1	2	13	Not enough attention paid to the feeds from middle school to high schools. MRHS and GHS have very good feeds while AHS and RHS have too many feeds. TVMS, DMS, LKMS, and HMS are feeding to many different high schools. The feeds need to be better balanced.	equal to	4	6	8	GHS and MRHS have feeds from only 2 middle schools each. AHS has 5, and all the rest have 4, except CHS and MHHS. Some MVMS students should go to CHS and PMS sent to MRHS. GHS should take some LKMS. All CMS at AHS need to go to RHS. More TVMS to LRHS.	The goal for middle school feeds to high schools should be no more than 2 high schools from each middle school, and no more than 3 middle schools to each high school. It's unfair that Atholton HS has 5 feeds while Glenelg and Marriotts Ridge only 2 each.
3281	CentennialLaneES	BurleighManorMS	CentennialHS	5	worse than	7	4	1	My kids ride bicycle to the current schools. I am afraid they wont be able to do so under AAC draft plan because they will have to cross MD108 and more over cover approximately 4 miles. Secondly they will miss their friends if they move to another school.	worse than	7	1	6	I think the AAC committee should adopt the Feasibility study proposal for the following reasons. 1. Do not re-engineer well crafted proposal. 2. Do not disturb the eco system of the community. 3. Do not play with the sentiments, morale & future of kids.	I would like to emphasize and bring it to eveybody attention that majority of people who live in appartments are not necessarily from a economcally challenged section of the community. Let this not be a yardstick and therefore do not redistrict.
3282	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	3	AAC draft is ridiculous. It splits River Hill even more than its split now.	worse than	6	7	3	Feasibility study is better imo. ACC splits River Hill community apart. Unfair to kids.	ACC plan is the craziest thing I've seen. We need to keep communities intact with the least amount of disruption.
3283	PointersRunES	LimeKilnMS	AtholtonHS	1	equal to	9	7	4	We live on Redberry Rd, which is 0.3 miles from both Pointers Run Elem and Clarksville Middle. However, instead our kids have to bus to Lime Kiln, which doesn't make sense	worse than	2	7	1	The first iteration of the plan had is going to Clarksville middle and River Hill, which makes more sense based on our location.	We would like to move back to the plan considered 2 months ago.
3284			HowardHS	5	better than	4	2	1		better than	4	2	1	The AAC draft plan is a much better plan based on our proximity to schools.	
3285	GormanCrossingES		AtholtonHS	5	equal to	1	10			better than				It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.)	
3286	RockburnES	BonnieBranchMS	HowardHS	1	worse than	4	9	13	We are very close to Illchester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Illchester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Illchester elementary, bbms and Howard hs.	worse than	7	9	7	We are very close to Illchester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Illchester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Illchester elementary, bbms and Howard hs.	
3287			RiverHillHS	1	worse than	9	13	4	Plan increases FARM rates considerably by adding students from WLHS, increases transportation costs busing kids father from WL to RH and RHto Glenelg. Preserve our school!	worse than	4	7	7	Better than AAC but not ideal with all the moves to Glenelg.	Do not redestrict high schools in 2018
3288		BurleighManorMS	CentennialHS	1	worse than	13	4	7		worse than	13	4	7		
3289		HammondMS	AtholtonHS	5	better than	1	10	7	The primary objective of achieving a drastic improvement in utilization where it is needed most, is met by this plan.	better than	7			The feasibility study seemed to draw a very unconventional (T-shaped) boundary line for Atholton high school. That boundary would redistrict students who should be walkers to Atholton, while students east of rt. 1 would be bussed across to Atholton.	Utilization and geography should be primary concerns. The gerrymandering necessary to balance schools with regard to race, FARM, test scores is too disruptive to communities. Add staff/supports to schools in need, rather than moving kids - too stressful.
3290	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	7	4	3	The current plan is more efficient in distance and better balanced in diversity. AAC draft plan will cause a long drive to school for young students who are moved from West Friendship to Bushy Park and from Marriott Ridge to Glen Elg High.	worse than	4	7	2	AAC plan will cause a big transportation problem and negative change in diversity of races in Marriottsville High School and Mount View Middle School.	Keep 224, 229, 231, 232, 1229, 1231, 2229 in West Friendship, Mount View, and Marriott Ridge High. Increased utilization of West Friendship Elementary School can handle more number of students.
3291	NorthfieldES	DunlogginMS		1	worse than	7	6	2	New plan of splitting our Dunloggin neighborhood is detrimental to our children and our community! Plan seems rushed and clearly unfamiliar with the boundaries of our actual neighborhood.	worse than	7	2	6	I have rising 7th and 4th graders. If 7th grader is redistricted to WLHS and increase in residential development around WLHS increases attendance there, would my 4th grader be redistricted in a few years? Would they end up at different schools??	The area around WLHS is becoming urban in nature. This is not consistent with the character of our Dunloggin neighborhood and where we should be forced to send our children! Please consider this now and how building a new HS will help us maintain this
3292	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	11		worse than	4	6	11		

3293	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	8	6	4	I am very disappointed to learn about the proposal of redistricting Polygon 147 to other schools much further out in Columbia based schools. It forces most kids in our neighborhood to change schools twice within a 5 year period, which is very unfair.	worse than	8	4	6	I am very disappointed to learn about the proposal of redistricting Polygon 147 to other schools much further out in Columbia based schools. It forces most kids in our neighborhood to change schools twice within a 5 year period, which is very unfair.	Although student diversity is key, the student performance gap with the AAC redistricting proposal clearly imposes a very unfair academic disadvantage on Polygon 147 kids.
3294	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	6	6	6	This is a better plan because it keeps 2,000 students unaffected and it will preserve Atholton.	better than	6	6	6	This is a better plan because it keeps 2000 students unaffected and it will preserve Atholton.	
3295		HammondMS	AtholtonHS	5	better than	1	10			better than	1	10		The Feasibility Study moved way too many students: 67% of Atholton HS students would have to be displaced. No other HS was changed nearly as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	AAC plan preserves excellence at Atholton HS. FS decimates AHS for no reason.
3296	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4			WFES, MVMS, and MRHS are our home schools now and I would not liked them moved however if given a choice I would have them move from WFES to BPES but keep them at MVMS and MRHS. It takes me 5 mins to get them from school now.	worse than	4			If we are moved to GHS my teenage drivers will have to drive 20-30 mins further on the death trap RT32 during rush hour traffic after they attend their after school sports programs.	If they are sick or need me to get to them in a timely manner having to drive down 32 an extra 20 mins. will delay the time before I can get to my children. They already have a 45-55 min bus ride with schools that are only 5 mins from my house.
3297	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	3	equal to	4	6	7	The AAC plan looks reasonable. Moving large group students to or from old school to new school would dramatically reduce the negative impact to the students as they will move with many of their friends.	better than	6	4	7	The Feasibility Study is totally based on school capacity and polygon's geographic location (i.e. using major roads as the rezoning boundaries), while the AAC draft is more reasonable in terms of many aspects as I selected above.	
3298	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	5	6	I think the draft plan is well throughout and more logically laid out.	better than	1	5	6	I think the draft plan is well throughout and more logically laid out.	
3299			HowardHS		equal to	7				better than	6			The feasibility study does not address the impact of current students	
3300			HowardHS	5	equal to	14				better than	14			The plan addresses the concerns of the people not of the politicians afraid of having the kids going to a bad school	
3301			RiverHillHS	1	worse than	7	4	8	I just bought a home in river hill and I, along with others, came in knowing that we are paying a significant premium for RHHS and the school performance. Our taxes are 3x more than the homes from the Wilde lake area. I pay 10,500 a year.	worse than	4	6	7		
3302			RiverHillHS	1	worse than	7	4	8	I just bought a home in river hill and I, along with others, came in knowing that we are paying a significant premium for RHHS and the school performance. Our taxes are 3x more than the homes from the Wilde lake area. I pay 10,500 a year.	worse than	4	6	7		
3303	NorthfieldES			5	better than	3	9	7	Our polygon has already been redistricted once in 2013. AAC draft plan maintains the distances to our elementary and middle schools. Meets 6010 policy and does not propose redistricting us again in a short span of years. It is more equitable.	better than	1	3	8	AAC draft plan is more equitable than feasibility study. Reduces the frequency in redistricting for a particular community. Addresses capacity utilization better and maintains feed percentage groups as per Policy 6010.	Strongly recommend the superintendent and school board to adopt this AAC draft plan.
3304	CentennialLaneES			1	worse than	7	3			worse than	7	3			
3305	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	6	2	This plan is highly disturbing. To move only a segment of an the children of an established neighborhood like Dunloggin to a different high school ruins educational, social, and communal continuity. The capacity numbers do not change enough to warrant	worse than	7	7		I had a hard time deciphering the Feasibility Plan online, but from what I could see, the Feasibility Plan keeps students of the Dunloggin neighborhood ALL attending Centennial High School .	If the redistricting occurs as the AAC Draft Plan suggests, we may consider private high school for our 3 children.
3306	SwansfieldES	HarpersChoiceMS	WildeLakeHS	4	better than	9	14	1		better than	14	11	14		
3307	BellowsSpringES				worse than					worse than					
3308	StJohnsLaneES	PatapscoMS	MtHebronHS	2	worse than	4	7	6							
3309	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1	10		The AAC Plan is superior to the Feasibility Study. • It solves overcrowding by moving far fewer students and Preserves Atholton HS. • Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) • Move Polygons 272 and 1272 to Murray Hill MS & Atholton	better than	1	10		The AAC Plan is superior to the Feasibility Study. • It solves overcrowding by moving far fewer students and Preserves Atholton HS. • Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) • Move Polygons 272 and 1272 to Murray Hill MS & Atholton	
3310	WestFriendshipES			1	worse than	1	4			equal to	1	4			Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less.
3311	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	9	13	Schools are not of equal caliber. Centennial vs. Wilde Lake	worse than	7	9	13	The AAC draft study splits our neighborhood. It moves my student to a school in Columbia. If I wanted a school in Columbia or CA, I would've bought my house there.	My neighborhood is being divided. The schools are not of equal statue. This AAC doesn't do anything for overcrowding long term. Build another school!
3312			AtholtonHS	5	better than	1	9	6	The AAC Draft Plan is much more equitable across schools - it better balances demographics, and capacity. I hope this one is implemented! Please stick with a plan like this!	better than	1	9	6	The AAC Draft Plan is much more equitable across schools - it better balances demographics, capacity and is extremely less disruptive for Atholton. Thank you! I hope this one is implemented! Please stick with a plan like this!	I fully support the AAC Draft Plan. Thank you for listening and being open minded. Please stay on the path of equity at ALL schools, including those which have historically avoided changes that affect their schools demographically and capacity-wise.
3313	NorthfieldES	DunloggінMS	CentennialHS		worse than	4	6	7		worse than	4	6	7		My daughter is not a polygon!!!
3314		ClarksvilleMS	RiverHillHS	1	worse than	7	4	6		worse than	7	4	6		Brings kids from much farther away to the River Hill schools while separating the River Hill neighborhoods and kids who are brought together at CMS for just 3 years of middle school. The River Hi community should all go to River Hill.
3315	LongfellowES	HarpersChoiceMS	WildeLakeHS	5	better than	1	7	6	I am happy because our house will go up in value and our kids will go to higher rated schools.	better than	2	6	7		It works out great for us.

3316	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to					better than	1	10		AAC draft is much better than the Feasibility study. It shuffles far fewer students, keeping stability. We are happy that we keep Atholton HS, since it was one of the reasons for buying this house. If possible, all of Emerson should go to Atholton HS.	
3317			MarriottsRidgeHS	1	worse than	1	4	7	Draft moves only 28 students in poly 232 from MRHS to GHS tearing them from programs already established in. Cause undue stress and instability during critical college application portfolio building. Under capacity to full; lesser scores/ranking/programs	worse than	1	4	6	Feasibility study keeps #232 at under capacity school instead of moving to soon over capacity. Transportation time completely inefficient in draft plan--places students in longer (60+ minutes) bus ride one way, dangerous traffic. MRHS 1.5 miles vs. 8	Keep 232 at MRHS. Purchased home for this school. Detrimental to students to move during high school years. 77% MVMS feeds into MRHS. Academic, musical, and athletic lives fully integrated by MRHS years. Moving currently enrolled students traumatic.
3318	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	6	5	We live in the region north of 70, along 32. My children would have to ride the bus longer to get to school. The schools are inconvenient to get to for us as they are the opposite direction from work and other after school activities.	worse than	4	6	5	Same as above. We would have to drive past schools to other schools farther away. Two of our children are on the autism spectrum and would be severely disrupted to move away from familiar places and people.	We bought our house in this district because WFES feeds fully into one high school and one middle school. This brought our autistic kids the stability they need in their social surroundings.
3319	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	1				better than	1	6	7		
3320			AtholtonHS	5	better than	10	1	1	The AAC plan makes sense. Fiscally.	better than	1	7	3	The AAC plan is far superior.	The entire reason we moved her was for Atholton. The AAC will prevent overcrowding to this school and several others.
3321			AtholtonHS	5	equal to	1	10			better than	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b).	Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community p
3322			MarriottsRidgeHS	1	worse than	4	4		Distance to Glenelg HS in morning traffic on Route 32 would be unreasonable for students West off of route 32 from Marriottsville Rd towards Carroll County. in addition, it makes no sense for a student to pass MRHS to go to Glenelg HS.	worse than	4				
3323			AtholtonHS	5	equal to	1	6	1		better than	10				
3324		HammondMS	HammondHS	1	worse than	7	9	6	I think the plan is really poorly planned. To move students in the middle of thier school careers is a bad plan. i have a rising 10th grader and she is already upset over this plan and moving her from what she knows and enjoys.	worse than					I moved to Howard County to get my kids in a better school system. Don't move them to schol that is below the Howard County Standards
3325	BellowsSpringES	ThomasViaductMS		3	equal to	12			Both plans did not impact me very much except to change the middle school from TVMS to Mayfield MS that is closer to us anyways. I have heard mixed reviews about both but we have enjoyed our time at TVMS these past few years.	equal to	1			Redistricting is necessary. I think it's important to use what we have but the fact is a new high school needs to be built	My hopes are that a new HS is build sooner rather than later and that new development stops so that infrastructure can catch up. You would think our government and schools worked together??
3326			HowardHS	5	equal to	1				better than	1			Moving fewer students should be an objective.	
3327	GormanCrossingES	MurrayHillMS		5	equal to	1	6	10		better than	1	6	10		
3328	ClemensCrossingES	WildeLakeMS	AtholtonHS	3	equal to	7	12	10		better than	7	9	8		
3329					worse than	1	2	4	Keep the history, bonding, connection and stability of centennial community						
3330					worse than	1	2	4	Keep the history, banding, connection and stability of the Centennial community						
3331			CentennialHS	1	worse than	7	4		The AAC draft plan divides neighborhoods, multiple generations of families stay in our neighborhood for the schools, this would drive them away.	worse than	7	5	10	The AAC draft splits our neighborhood of over 150 years in 1/2, it would end carpooling, and it moves more children,the AAC draft moves 409 kids out of WLHS, the Feasibility study only moves 49 out of WLHS. WLHS has fewer honors societies for my children	The Dunloggin neighborhood is very tight knit, we have neighborhood 4 of July parades, Halloween parties, and other celebrations together. Dividing our neighborhood would break this long history and it would end car pooling for after school activities
3332	ClemensCrossingES	HarpersChoiceMS		4	better than	6			Eliminates a small feed from our districted ES to MS.	equal to	4			Either feasibility study plan or AAC scenario 1 plan are acceptable.	I am concerned that my children will be redistricted again once the new HS is finished. We need stability.
3333	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	7	6		worse than	4	6	7		
3334	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community	worse than	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	
3335		ElkridgeLandingMS	HowardHS	1	worse than	6	2	7	Build the sorely needed HS in Elkridge and stop playing with children's lives for political reasons. You will need to redistrict again once the new school is built. Unacceptable,	worse than	6	5	9	You sacrificed lower Elkridge to appease other more vocal communities. The FARM numbers were been better in the original plan. You are breaking Elkridge in pieces. The ELMS feed is a mess. Send BBMS to LR and leave ELMS at HH for better feeds. Move ROTC.	
3336	NorthfieldES	DunloginMS	CentennialHS	1	worse than	7	4	6	The recent redistricting ideas for the school zones are absurd. Transportations costs have gone up and children are crossing paths while being bussed to their new schools. Schools are neighborhood staples, not political pawns.	worse than	4	8	7	There is too much redistricting too often, children are constantly pingponging between schools, and new neighborhood bus routes cause more traffic in neighborhood and feeder streets. This is dangerous for children walking home from school.	
3337	WaverlyES		MtHebronHS	4	better than	6	7		Both the Feasibility study and AAC created a change in schools for one or more of my children. The AAC plan is more favorable long term but would create a change in schools to my daughter's junior year. Please consider grandfathering junior and seniors.	better than	6	6			Please consider grandfathering junior and seniors to remain in their current school.
3338	StJohnsLaneES	PatapscoMS	MtHebronHS	2	worse than	7			Kids who live on my same street go to a different ES, that was the result of the last move and was a poor decision. The first plan moved them back and this one now changes their MS and HS. Now kids that are walkers to Hebron would be bused. Don't agree	worse than	4			These studies/plans aren't bad. They don't fix the county's approach to managing growth. Shuffling kids around should not be the solution. Divide the county into larger areas and not polygons and manage growth at a smaller level.	I don't agree with the approach to dealing with out of control building. Burden is being put on the backs of the communities and the education system. Neighborhoods have grown and to divide them reduces community. Moving kids is not the answer

3339	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	7	6	1	The community in Elkridge is very close knit. We are already split from ELMS to multiple high schools, but it was semi broken up outside of neighborhoods. Now we're cutting right down the community. And barely impacting the west.	worse than	1	6	7	The community in Elkridge is very close knit. We are already split from ELMS to multiple high schools, but it was semi broken up outside of neighborhoods. Now we're cutting right down the community. And barely impacting the west.	Feeling very jaded in this process and that the economics and household perceived incomes of western Howard County is allowing the changes to be primarily in Elkridge. Please reconsider your Elkridge HS thought process and discuss with the CE.
3340	IlchesterES	BonnieBranchMS	HowardHS	5	equal to	6	7	1		better than	6	10	8	Polygon 84 has been redistricted multiple times resulting in broken feeds and then trying to rectify the broken feeds. This plan maintains the feeds and results in good utilization of the school space available	
3341	WaverlyES	PatapscoMS		5	better than	6	10	7	The AAC draft limits future disruption for current elementary school children at Waverly as they matriculate into middle school.	better than	6	10	7	The county needs to recognize that we need to move students West regardless of the opposition. It makes sense to keep our polygon 2161 and other already attending Waverly in the Marriotts Ridge feed.	During the last redistricting polygon 2161 was moved to Waverly from St. John's Lane. The board needs to continue this process for the older ages (middle and high). Makes sense to move us with this feed.
3342	StJohnsLaneES	PatapscoMS	MtHebronHS	2	worse than	7	4	6		equal to					
3343	NorthfieldES	DunlogginMS	CentennialHS	1	worse than										
3344	GormanCrossingES		AtholtonHS	5	equal to	1	10		As a member of the Emerson community the AAC plan keeps the community of children and their peers unified, as well as parents. It does so while still accomplishing the goals of reducing overcrowding. Therefore I feel that the AAC plan is a superior plan.	better than	1	7	10	The AAC draft keeps our community together. Our families and children are neighbors, friends, support network. We use the same library, pool, playgrounds, etc. The AAC meets the goal of reducing overcrowding while maintaining a community for our kids.	Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We are neighbors, a community, and a village raising our children together
3345	ClarksvilleES	ClarksvilleMS	RiverHillHS	3	worse than	7	4	6		equal to	4				
3346	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	2	4	My kids have to go to a rather farther school based on the AAC plan. We do not like the AAC plan at all.	worse than	1	4	6		
3347	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	13	6	8	My family did a very big financial effort to move to Dunloggin for our kids to attend the current school system path, which includes Centennial High school. I am sure Wilde Lake it's a good school, but its not the reason why we moved to this neighborhood.	worse than	6	13	7	My family did a very big financial effort to move to Dunloggin for our kids to attend the current school system path, which includes Centennial High school. I am sure Wilde Lake it's a good school, but its not the reason why we moved to this neighborhood.	This change will impact the value of my home and we will loose the value-added from all the home improvements we invested in. We did this financial effort to provide our children with Centennial High School education.
3348	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	9		worse than	6	4	3		
3349	FultonES	LimeKilnMS	ReservoirHS		worse than	7	4		Taking students that are literally across the street from a school campus (i.e. Fulton ES) and moving them to a school that is a >15 minute bus ride into a totally different community makes no sense. You need a HS in the Jessup area.	worse than	7	4		I thought the feasibility study was better but like the current way it is the most.	A new high school needs to be built in the Jessup area. You are busing kids all over that would be closer to a new school there. Even better if it could be a campus like the RHS one with a ES, MS and HS. You shouldn't pass 1 or 2 schools to get to yours.
3350	TriadelphiaRidgeES			5	equal to	7	6	1	We fully support AAC plan dated Aug 8, 2017 which keeps polygon 209 at TRES. It makes sense to keep 30 some students at the same ES instead of unnecessarily displacing them from the school they know and love. Stability is so important at this age.	better than	6	7	1	We fully support AAC plan dated Aug 8, 2017 which keeps polygon 209 at TRES. It makes sense to keep 30 some students at the same ES instead of unnecessarily displacing them from the school they know and love. Stability is so important at this age.	We fully support AAC plan dated Aug 8, 2017 which keeps polygon 209 at TRES. Please approve this plan.
3351	BryantWoodsES	WildeLakeMS	AtholtonHS	4	better than	7	6	1	Happy that we're now redistricted to the closest elementary school, and our neighborhood stays together through high school.	better than	7	6	4	Feasibility Study shockingly disruptive to AHS, while neighboring schools see minimal impact. AAC moves fewer students overall. AAC is vastly preferable to Feasibility Study.	AAC Draft - far better than Feasibility Study, both for my neighborhood and for county as a whole - fewer students moved overall, burden of redistricting shared more equitably among high schools. But best option - no redistricting till new high school.
3352	WestFriendshipES	MountViewMS		3	worse than	4			Revert to feasibility study plan—Move 224, 229, 231, 232, 1231, 1229, 2229 to BPES, but bring them back to MVMS and MRHS—ok with small feed from ES to MS	worse than	4			Community Stability –this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community	
3353	AtholtonES	HammondMS	HammondHS	2	worse than	7	4	13	The AAC places us in WLHS, which is 5 miles of busy roads away. HHS, AHS and OMHS are all closer to us and safely reachable by walking or bike if an activity causes use of a bus to unworkable. Furthermore, it has isolated us into a geographic island.	worse than	7	6	4	The AAC places us in WLHS, which is 5 miles of busy roads away. HHS, AHS and OMHS are all closer to us and safely reachable by walking or bike if an activity causes use of a bus to unworkable. Furthermore, it has isolated us into a geographic island.	It looks as though our neighborhood was sacrificed for numbers. We have three high schools closer than WLHS. By plan, we are a geographic island surrounded by neighborhoods for other HS. Our children are more than numbers, and deserve better.
3354	WestFriendshipES			1	worse than	1	4	3	You are unnecessarily creating overpopulations at WFES, and longer than necessary bus rides for those residing in the Rt32 corridor. The Turf Valley cluster is right off I70 and can therefore get to Rt97 much faster.	worse than					
3355	WaterlooES			5	equal to					equal to					
3356	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	13	4	Our neighborhood has been attending Centennial for a very long time. We moved to this area mostly because of this school that offers special signature programs that Wildlake is not offering. I want to send my kids to school in Ellicott City, not Columbia.	worse than	13	7	9	Plan splits the community. It is just very illogical to send EC kids to school in Columbia. Also, the diversity at Wildlake will not improve if this plan is implemented. Overall a very bad idea.	
3357			RiverHillHS	1	worse than	13	7		We as a family planned/invested to live in this area based on River Hill being our HS. We can't just suddenly lose this!	worse than					
3358	VeteransES	EllicottMillsMS	CentennialHS		worse than	7	4	6		worse than	7	4	6		
3359	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6		worse than	7	4	6		With new high schools coming on-line in only a few years, all changes should be postponed until that time. Per the FS, the movement of so many students and community disruption is unwarranted, with more to come in a few short years.
3360			RiverHillHS	1	worse than	2	3	8	Redistricting should not happen now, but rather when the new high school is built.	worse than	2	3	8	Redistricting should not happen now, but rather when the new high school is built.	With a deficit in the budget in the millions, why is Redistricting happening now? Wait until the new high school is built, save money, make students and parents happy. Be smart!!!

3361	ElkridgeES				worse than	6			Elkridge students are not going to progress through school together as a community	worse than	1	3		Our students are going from one overcrowded school (Howard) to another overcrowded school (LR) that is further away...	
3362			CentennialHS	1	worse than	13	7	4	This is an outrageous plan!!!!	worse than	13				We moved from the state of Washington to EC and in particular our house because of the schools. Making this change of HS would most likely imply a move which would be extremely costly monetarily, in time and emotional pain!
3363	FultonES				worse than	7	4	6	If someone lives in Fulton how could you possibly not think it's absurd that they wouldn't attend Fulton ES	worse than	7	4	6	Breaking up neighborhoods goes against building a sense of community. Fulton residents should attend schools with the same zip code	You can't say you want to build a sense of community while actively dividing up communities. This study seems politically driven instead of common sense. Build new schools in the RT 1 corridor where they're needed & leave communities alone
3364	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Dunloggin community is a strong neighborhood, it's existence goes back decades. This would fracture our community and neighbor relationships. Kids would be attending schools much further from home, less walkable, bikeable, and crossing major roadways.	worse than	7	6	4		
3365		FollyQuarterMS	RiverHillHS	1	worse than	13	14	14	This plan is poorly thought through and impacts my kids future in a negative manner, this County would be better off building a new HS to minimize family and friends by redistricting. Bad IDEA!!!!!!	worse than	13				BAD IDEA!! to redistrict my area, need a new school board!! I will work to fight this redistricting and push for changes in the school board as I am a substantial tax payer in this county.
3366	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	6	10	Thank you for keeping the Font Hill Community Together. (1184, 2184, 184, 156, 2156 and 1156). We greatly appreciate this move to maintain a long standing community.	better than	7	10	6	Thank you for keeping the Font Hill Community Together. (1184, 2184, 184, 156, and 2156). We greatly appreciate this move to maintain a long standing community.	There are hundreds of Families who appreciate this move to maintain the community of Font Hill. Please refer to the petition that has been sent to the School planning to recall that this is incredibly important to keep the Font Hill community together.
3367	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	1	6						We choose the communities we live in and expect our children to go to school within those communities. I purchased a home in the RH Section 20 years ago expecting my children to go to RHHS. They do not currently go there but under the current plan at	least they go with 1 section of the RH community. Under this plan, 1/2 of that section moves while my section does not. Makes no sense. Our area is diverse and to change maps just to make schools moreso makes no sense.
3368		ElkridgeLandingMS	HowardHS	5	equal to	7	6	12	This plan leaves our community in the high school district that we have been in for 20 years -- preserving that valuable connection between the school and an engaged parent community.	better than	6	7	14	The feasibility study, moves large groups of students around -- harming their education to accomodate developers. The value of having a community with a long standing connection to the local high school should not be underestimated.	The AAC has done a great job of addressing critical logistical concerns, while also taking into account the educational experience of our children.
3369	SwansfieldES	HarpersChoiceMS	WildeLakeHS	5	better than	1	9	10		better than	1				
3370	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	10	1	14		better than	10	9	1	Much fewer students are impacted in AAC draft plan. It solves problem with minimal negative impact. Therefore I believe AAC Draft Plan is a better choice than Feasibility Study.	
3371	WestFriendshipES			2	worse than	7	6	2	· Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less.	worse than	7	2	6	· Community Stability –this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community.	In polygon 232.Moving our 40 students will negatively impact community stability. If Turf Valley polygons to go to WFES, a capital investment of $4M will be needed to update the septic.I recommend polygons 304 and 1304 go to BPES until ES#45 is built
3372	WestFriendshipES			1	worse than	7	2	3	· Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less.	worse than	7	2	3	Community Stability –this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community.	In polygon 232.Moving our 40 students will negatively impact community stability. If Turf Valley polygons to go to WFES, a capital investment of $4M will be needed to update the septic.I recommend polygons 304 and 1304 go to BPES until ES#45 is built
3373	WestFriendshipES			1	worse than	7	3	1	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less.	worse than	1	7	3	Community Stability –this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community.	In polygon 232.Moving our 40 students will negatively impact community stability. If Turf Valley polygons to go to WFES, a capital investment of $4M will be needed to update the septic.I recommend polygons 304 and 1304 go to BPES until ES#45 is built
3374		PatuxentValleyMS		5	equal to	1			Please move Polygons 1272 to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied because less than 15% of the kids are going to other schools in the same neighborhood.	better than	1			In this plan 1272 and 272 polygons are with it's whole neighborhood. That is the only part I like about this plan.	Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied.
3375	CentennialLaneES			1	worse than	7	4	6	Non sense plan! My friends need to send their kidd to far far away school based on the new plan! No consensus! Hasty ans flawed plan! Change it!	worse than	7	4		Not working and non functional plan!!!!	
3376			AtholtonHS	5	equal to	7	2	1		equal to	4	3	5		
3377	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3378	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	2	6	4	The splitting of a neighborhood- Dunloggin, and disruption of one of the oldest neighborhoods in Howard County would adversely effect entire families.	worse than	2	4	6	All of us look at these things from vantage point. I would like to see my neighborhood remain intact- as it is in the feasibility study. In truth, HoCO suffers from suburban sprawl and fewer new homes need to be constructed.	

3379			AtholtonHS	4	worse than	2	10		Redistricting at this time should be limited to elementary school kids. Redistricting is very disruptive and should only be done when a new school opens.	better than	9	10		This plan is much better for Atholton. The previous plan had way too much movement to Atholton for no reason. This plan is better because it moves fewer kids. Please continue to preserve Atholton.	This redistricting is too extensive. High school redistricting should be postponed until the new high school opens. Fast track the new high school. If postponing can't happen, please let rising juniors stay at their current school.
3380	DaytonOaksES	FollyQuarterMS	GlenelgHS	1	worse than	1	13	13	The plans push both our schools' (Folly Quarter Middle school and Glenrlg High) capacities beyond 100% capacity. Today, they are within capacity.	equal to	13	1	13	The overage in capacity at Folly Quarter and Glenelg High are a little better, but still over 100%.	
3381				1	worse than	7	6	13		worse than	7	6	13		
3382	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	2	5	Please wait until the 13th school is constructed prior to making any major changes now, only to move the kids around again later.	worse than	2	4	6	Please wait until the 13th HS is built before moving kids around again.	
3383	RockburnES	ElkridgeLandingMS	HowardHS	4	equal to	6	7	10		better than	6	2	8		Regardless of final plan, students who have started attending a middle or high school should have the option to continue at that school regardless of redistricting (providing their own transportation), especially high school juniors and seniors.
3384	ManorWoodsES	MountViewMS	MarriottsRidgeHS	3	equal to	14			I am concerned about overcrowding at Mount View and Marriotts Ridge.	equal to					
3385			AtholtonHS	5	equal to				We appreciate you maintaining the integrity of Atholton High School. We consider Atholton as a role model" for other schools. It is the combination excellent academics	extra-curricular and the well balanced demographics..."	1	1	10	Moving 67% of the kids out of Atholton would be very extreme and will negatively affect so many kids. This is not necessary nor acceptable. No other High Schools would even be close to changing this dramatically. Please keep Atholton as a model!	Please let 11th graders STAY-this is their most important year. moving now would hurt their significantly. New schools means new teachers, new clubs- so much harder to impress the colleges and universities if they are starting over!!!
3386	DeepRunES				better than	10	11	14		equal to	14	14	13		
3387		HammondMS	AtholtonHS	5	better than	7	8	9	This plan will alliviate HS over-crowding without impacting negatively the communities involved. Also it help maintain stability for a he students in Howard County.	better than	7	10	8	As mentioned before, the AAC plan helps alliviate over-crowding of the Howard County High Schools without negative impacts on the communities involved. Our students deserve stability and AAC plan attacks the issues without sacrificing this stability.	
3388			AtholtonHS	2	equal to	4			It makes more sense to swap polygons 1129, 1064,129 to RH and 66, 1066, 135, 1135 to Atholton.						
3389	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	8	7	Pleased with the plan as it affects our community.	better than	6	7	8	Fully support AAC plans as it makes a logical conclusion regarding our neighborhood.	
3390	GormanCrossingES			5	equal to	1	10	14		better than	14	14	14		
3391	PhelpsLuckES			1	worse than	1	9	5	PLESis already over the capacity projected when the school was expanded, especially with additional Pre-K and ALS classes and the surrounding neighborhood having an increase of new families move into the older homes. It is unfair to add more.		14			It seems like HCPSS just wants to add more students to PLES without spreading out lower income/higher need students to other schools. All Columbia students should experience a culturally rich and diverse environment instead of just cramming all (cont)	students with great unique and intense needs due to socio-economics in one place. It is hard to give the attention they deserve and need while meeting the needs of every student in a school that's overcrowded and in need of more counselors and admins.
3392			HammondHS	4	equal to	11			I am most worried about polygon 1272 which is part of Emerson but goes to completely different schools. Less than 10% of the kids go to different school it makes no sense. That polygon should go to same school as the rest of community	equal to	1			I am most worried about polygon 1272 which is part of Emerson but goes to completely different schools. Less than 10% of the kids go to different school it makes no sense. That polygon should go to same school as the rest of community	I am most worried about polygon 1272 which is part of Emerson but goes to completely different schools. Less than 10% of the kids go to different school it makes no sense. That polygon should go to same school as the rest of community
3393	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	7							
3394			CentennialHS	1	worse than	13	7	4	Moving students around to meet capacity limits negatively impacts the students' learning and development. By moving students around, their high school plan is greatly affected, as certain high schools have different curriculum and opportunities.	worse than	13	4	14		
3395				5	equal to	7			Thank you for maintaining a logical boundary line as Frederick Road.	better than	7			Thank you for keeping the community together and maintaining a logical boundary (Frederick Road).	
3396	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	2	better than	7	6	2	There is big change in our area in aac draft which some polygon stay with river hill and some are not.The polygon 183 and 1183 has been with river hill long time I would strongly suggest to keep those polygon intact with river hill for community stability						
3397			AtholtonHS	5	equal to				Our community says a big thank you" for your help in saving ATHOLTON HS!!! We take pride in what an amazing combination of demographics	academics and extra curricular-the FS Plan would have been devastating!!! Thank you for saving us!!!"	1	1	10	So many Atholton kids have already been affected in Elementary and Middle School -they shouldn't have to go through that emotional pain again. Fewer kids will be moving with the AAC plan and preserves the excellence of Atholton!!!	The AAC plan would allow Atholton students to continue to excel academically and socially. I support the phasing in of 11th graders...letting them stay. They would have the optimum chance of making a great impression on colleges/universities.
3398			HowardHS	3	equal to	1				better than	6				
3399	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	equal to	7	6	13	There is big change in our area IN AAC draft which some polygons stay with RHHS and some are not. The polygon 183 and 1183 has been with river hill for long time.I would strongly suggest to keep those polygon intact with river hill for community stability	equal to	7	2	2		
3400			CentennialHS	1	worse than	13	13	13		worse than					I propose allowing all students who are currently in Centennial High School or entering Centennial High School to stay in Centennial High School. Starting with this year's rising eighth graders, this plan should be put into action

3401	NorthfieldES	DunlogginMS	CentennialHS	2	worse than	7	4	6	Splitting up Dunloggin makes no sense and it is more adversely impacted than other communities.	worse than	7	4	6	The AAC draft plan gerrymanders Dunloggin in the worst way. The community should be kept together.	
3402	NorthfieldES			1	worse than	7	4	13	Our community is broken up illogically and we are significantly farther from Wilde Lake than 2 other high schools in Ellicott City. We are moving from a nationally recognized high school to one that has test score below the state average.	worse than	7	4		The Feasibility study did not move groups from a high performing school to much lower performing schools.	I know you don't want to hear about property values, but that is a very real consideration for lots of people. I wonder how you would like your house going down 20% with the stroke of a pen.
3403			AtholtonHS	5	equal to	7			The AAC plan will prevent so many kids from having to move-which we believe will significantly help our community!!!	better than	1	10		The FS would have torn apart" our community and destroyed the morale of our kids. Atholton has the right combination of academic excellence demographic percentages are balanced and a full array of extracurricular activities-The AAC plan will save us..."	
3404	ElkridgeES	ElkridgeLandingMS	HowardHS	1	worse than	7	6	7		worse than	7	6			
3405	GormanCrossingES		AtholtonHS	4	better than	1	1	6		better than	1	10		It solves overcrowding by moving far fewer students and preserves Atholt on HS. Modify it to reunite the Emerson neighborhood.	Reunite the Emerson community that was unecessarily split by redistricting in 2012. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
3406	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	9	7	2	Currently, many households in my polygon 4150 do not have school age children mostly because we are senior citizens. We as well as many others have chosen to age in place" rather than move. A focus on higher child density areas should be the objective."	worse than	9	7	13		The redistricting plan's objectives are not transparent. There are many senior citizen/no child households in our area 4150. Whereas close by areas with apartments/townhouses and thus many children are excluded. Why discriminate against senior citizens?
3407				1	worse than	7	6	4	Dunloggin is a SETTLED ESTABLISHED community ehose children all go to the same elementary and middle school. They should NOT be split up for high school.						This plan should NOT split established communities. It makes all kinds of desirable social interactions for the kids much more difficult and increases transportation costs and is UNNECESSARY!
3408	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	4	5	Draft plan to consider redistricting of 1189 from Pointers Run to Dayton Oaks is ill conceived. I have taught extracurriculars at Pointers Run for years. The draft plan is with regard to existing sense of community particularly at a formative age for kids	worse than	4	5		See above.	Draft plan fails to incorporate feedback from potentially affected communities. It fails the common sense test and has numerous deleterious long term community effects
3409	WaverlyES	MountViewMS	MarriottsRidgeHS	1	worse than	5	6	7	For community and transportation purpose, polygon 159, 1159, 304, 305, and 1304 should stay their current school attendance. 1161 can be moved to waverly elementary. 97 should move St Johns lane elementary school. 147 should keep its current attendance	worse than	10	7	4		The plan should benefit the whole HC community instead of some residences . For example, polygon 97 locates inside of the St Johns Lane Elementary, it belongs to Centenniel Lane. It is nonsense!!. Similar problems with other polygons. 159, 1159, 305, 147
3410	PointersRunES	ClarksvilleMS		5	better than	6	4	7	This should happen ASAP.						
3411			AtholtonHS	1	worse than	6	7	13	There is a group of students living in the River Hill community who attend it (mine included.) So, I respectfully request that those students who live in River Hill be given First priority to move from AHS to River Hill High School.	worse than	6	7	13	Rather than moving so many students from Wilde Lake to River Hill (as suggested by AAC), first be sure that River Hill residents (including Pointer's Run area) go there. The kids all go to CMS together and then a few are splintered off to Atholton.	It would make sense to keep River Hill residents together at RHHS. Many new families will be moving into the Simpson development (Grace drive.) If they also attended RHHS, that would keep River Hill residents together and also address any overcrowding.
3412	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	1	7		No difference between the AAC draft plan and current attendance areas for us. How can that be if there is such a need? This plan retains the silliness we have currently (kids bussed to Atholton HS from south of Hammond!) & does not address changes needed.	worse than	1	7		AAC plan is absurd. Change is hard but at least the feasibility study is based on data. It would have my kid switch ES (PRES to CES) which is not ideal, but has her going to RHHS. Given we live in River Hill, that is best & will keep community together	We need plan based on facts & not feelings of random group of volunteers. Appreciate their effort but rather have plan drafted by experts using data. Rather have one big change now that pushes west so not to have medium changes every other year in future.
3413			AtholtonHS	5	equal to	7	6	4	It is hoped that the AAC will make only those changes necessary to open the new school and to better align small areas to imrpove or maintain feeds, or make small shifts west. Massive movements are not needed or desired.	better than	7	6	10	The Feasibility Study proposed moving a huge number of students in and out of Atholton High School, which was an unjust burden for one school to bear. The AAC plan is much more reasonable and considers consequences for neighborhoods. A great improvement.	The ACC plan carefully considers many important factors, like natural boundaries (roads and geographic areas), making sensible feeds, etc. We encourage the Superintendent to choose this carefully wrought plan over the Feasibility Study.
3414															
3415	TriadelphiaRidgeES			4	better than	6	11		While it does not impact us specifically, we like how for us, most kids currently attending ES and MS together would continue to HS together under the proposed plan. We are close to the line changes for ES but currently not impacted.						
3416	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3417			AtholtonHS	5	better than	1	10		AAC PLAN is superior to the feasiblity study. It solves overcrowding by moving far fewer students and perserves atholton HS.	better than	1	6		The emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood are memebers of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools	
3418	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	4	8	The AAC draft assigns my son (grade 2), to an ES 7 miles away, skipping his current ES half mile away from home. Longer commute and frequent school allocation have negative impact to kids.	worse than	6	4	8	The feasibility study plan does not change school assignments.	N/A
3419					worse than	13	4	6							Asking students to travel to Wilde lake from dunloggin is unreasonable, a poorly thought out plan

3420	DaytonOaksES	FollyQuarterMS		2	equal to	12			The AAC plan does not change our current schools, however, it does increase the student population which may lead to future overcrowding.	worse than	7	6		Our current polygon includes River Hill High, and remains so under the AAC plan. We were happy to see the results of the feasibility study which moved our polygon from River Hill to Glenelg High School. Our sons attend Folly Quarter Middle school.	The majority of Folly Quarter students will attend Glenelg High. Our sons both have IEP needs and their peer relationships have a significant impact on their success at school. GHS has a higher percentage of special needs students.
3421	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		Thank you AAC for your hardwork, time and efforts in keeping our children your priority. It is imperative to keep our feeds of students together from one school to the next as it enhances their comfort level and academic performance during transition.
3422					worse than	4	1	6							
3423	PointersRunES			1	worse than	7	6	13	This plan negatively impacts the students in my community by moving them away from their friends, community, and activities necessary for their social and behavioral development. 1189 should not be moved from a school 1 mile away to one 5 miles away.	worse than	7	6	13	This plan negatively impacts the students in my community by moving them away from their friends, community, and activities necessary for their social and behavioral development. 1189 should not be moved from a school 1 mile away to one 5 miles away.	This plan results in ONLY 14% of students moving from ES to MS (approximately 16 kids per grade). This goes against your policy by isolating small groups. Other polygons were kept in their schools for THIS reason. What is the difference here?
3424	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	13	I'm CHS freshman.I have CHS sophomore sister,1 DMS brother & 2 NES brothers.If I have to go to WLHS,parents said I can't do any after school sports because commute with traffic is awful & won't work for family. Drive to CHS 10 minutes max, to WLHS 30 min	worse than	4	7	13	I'm CHS freshman.I have CHS sophomore sister,1 DMS brother & 2 NES brothers.If I have to go to WLHS,parents said I can't do any after school sports because commute with traffic is awful & won't work for family. Drive to CHS 10 minutes max, to WLHS 30 min	On top of not being able to do any after school sports if I go to WLHS, alot of my friends who also live in Dunloggin will still go to CHS so that will be hard for me.
3425	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	1	3	This current plan brutally splits a 100 y/o community and is against all geographical and transportation reasoning. It shifts closest areas away from school and makes Centennial school district in an ugly two-wing shape with a small bridge in between.	worse than	2	6	4	No connection whatsoever. It goes against every principle of the study: splits communities, no significant change in stident population, increasing transportation costs and no consideration for the future High School.	Creating split school districts (cutting off a huge area (part of Dunloggin), splitting a 100 y/o community that has been always strong and creates long-lasting friendships among kids based on the closeness and walking distance serves no purpose.
3426	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	13	I am at DMS. I have 2 siblings at CHS & 2 at NES. I moved in 4th grade to Dunloggin neighborhood & have made good neighbor friends. It doesn't make any sense to me why I wouldn't go to CHS and some neighbor friends will. PLEASE DON'T DO THIS.	worse than	7	6	13		Please look at the big picture here which is what really makes kids happy.
3427	PointersRunES	ClarksvilleMS	RiverHillHS	5	worse than	7	4	3	The Aug 8th plan impacts polygon#1189 in a negative way. Moving from PRES to DO significantly increased children's traffic time from 4 minutes to 30 minutes one way so that 5-11 kids will lose 40 minutes sleep. It will worsen I-32 overwhelmed traffic.	worse than	13	4	14	Feasibility Study doesn't impact us (#1189). We are happy about June Feasibility Study. Now the AAC draft will send our kids from a convenient Pointer Run ES to a far away Dayton Oaks ES. We consider it hurt our children's best interest.	We don't accept this Aug 8th AAC draft plan. We want to stay Pointers Run ES. If we have to move, we prefer to move to Clarksville Elementary School.
3428	GormanCrossingES			5	equal to	1	10		The AAC draft plan is similar to the current school attendance areas for the Emerson/Wincopia Farms polygons.	better than	1	10		The AAC Draft Plan is superior to the Feasibility Study because it solves overcrowding by moving far fewer students and preserves Atholton HS.	Modify the AAC Draft Plan to reunite the Emerson neighborhood (6010-IVB.2.b) Move Polygons 272 and 1272 back to Murray Hill MS and Atholton HS
3429	ClarksvilleES			1	worse than	13	6	4		worse than	4	2	6		
3430	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	2	7		better than	9	1	2		
3431		ElkridgeLandingMS		5	better than	6	7	8		equal to	6	7	8		
3432				1	worse than	4	3	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students health, community involvement and the environment.	1. Polygons 65, 1065, 2065 should remain at the middle school that feeds to Howard. 2. Sense of community is an important aspect. Residents of Glenmont chose to move here because of the schools they would be attending. The schools have been a good fit
3433	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	7			Why would the River Hill community not be kept together at River Hill High? That is the way it used to be and makes the most sense. Would prefer to stay at Pointers Run ES than switch, but feel strongly that HS should be River Hill High.	Please do not even consider using current AAC plan!
3434			CentennialHS	4	better than	7	7			better than	7			I think it important to maintain contiguous communities for our children. I want to thank you for your efforts on this draft plan and encourage its adoption.	
3435	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4			The last AAC meeting one of the members stated that "everyone needs to feel some pain" This is a horrible attitude for redistricting.	worse than	3			If you can move one less child please do it. If you can move 100 less children that would be even better.	These children are not boxes to be moved around.
3436	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	13	I'm a sophomore at CHS & have 4 siblings. I play sports Fall, Winter, Spring.The commute to CHS is at max 10 minutes.To WLHS it would be a minimum of 30 minutes. I can't drive & when I do won't have my own car. My parents can't do this commute daily.	worse than	4	7	13		This plan breaks up neighborhoods. Friends of mine who live a couple blocks away will be at CHS while I would be districted to WLHS
3437	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	3		worse than	4	6	3		Its no need to disturb the school group that graduates from Centennial HS. Centennial is been a top HS for many reasons and one of them is the group of students that attend, also doesn't make sense to chose schools that are far away from the neiborhood.
3438		HammondMS	AtholtonHS	4	equal to	1	10	6	Thank you for trying to minimize the impact to ATHOLTON HIGH SCHOOL. This school needs to continue as much as possible intact. It is a model with its outstanding performance in academics & extracurricular activities.	better than	1	10	6	Fewer kids moving at the high school level where it is important to maintain stability. The AAC plan preserves excellence at Atholton HS. The Feasibility study completely destroys AHS for no reason.	
3439			HammondHS	3	equal to	6				equal to	1				
3440	WaverlyES			1	worse than	13									

3441	WestFriendshipES	MountViewMS	MarriottsRidgeHS	5	worse than	4	4	4	This is ridiculous to send children that are literally 1/2 a mile away from current school system and have them be exposed to the high traffic on route 32 - it is irresponsible and dangerous and will add to the traffic congestion for business commuters	worse than	6	3	9	The change to take linden brook students from the schools 1/2 mile from their homes to another neighborhood is irresponsible governing - St James and Whitman Way is in walking distance	We allowed the building of the middle school and high school with tax dollars in our own neighborhood to have other people's children to go to the schools in own back yard -not good
3442			AtholtonHS	4	equal to	1	1			worse than	4	14	14		
3443	VeteransES	EllicottMillsMS	CentennialHS	5											
3444	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	Polygon 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3445															
3446															
3447				1	worse than	7	6	4	HS commuters for after school activities have to face rough driving conditions on 29 or drive past Centennial. no easy way to get to Grey Rock road to bypass the bad part of Columbia Rd		14				It seems like a larger contiguous group could be sent to an underutilized school and eliminate or at least reduce the multiple moves It will split up Dunloggin and further separate us from Gray Rock
3448			HowardHS	1	worse than	3	4	13	Loss of walking capability. This increases direct transport cost, inconvenience, and teen driving and the associated risks.	worse than	3	4	13		
3449	WaverlyES				better than	7				better than	6				
3450	WaverlyES			5	better than	6	7	8		better than	6	7	8	AAC plan is much better than the Feasibility Study. Thank you for this effort.	
3451			HowardHS	1	worse than	7	6	13		worse than	6	7	13		
3452	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 56, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 56, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3453	WaverlyES				better than	8				better than	8				
3454	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	14	14	14		better than	14	14	14		
3455	ClemensCrossingES			1	equal to	14				worse than	2			I like feasibility study as we move students towards west where the schools are not over populated.	
3456	DeepRunES			4	better than	9	10	2	The schools on the Eastern side of the county are so overcrowded. I'm happy to see a move that relieves overcrowding long term.	better than	9	6	12	I had a lot of concerns about the impact of moving polygon 80 out of DRES for personal reasons for my daughter and also school demographic reasons because the most active parents are from 80 and surrounding polygons.	Thank you for your efforts. I know this is a difficult and sometimes thankless, process. I appreciate your taking the publics thoughts and opinions into consideration.
3457	PointersRunES	ClarksvilleMS	RiverHillHS	5	worse than	13	4	7	We don't agree with AAC new draft. Moving #1189 from PRES to DOES doesn't make sense since it increases commute time from 4 minutes to 20 minutes, decrease children's sleeping time, violate IV.B.1.d Facility and IV.B.2.	worse than	4	13	7	My son will be very sad - a couple of students including me moved away from PRES and a lot of friends stay. They will gather together again for Middle School and High School. Polygon #1189 naturally has closer connection with PRES. Pls don't move #1189!	
3458															
3459	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	7	6	2	Dunloggin is a very tight knit communtity. The communtity should attend the same middle and high school. It would be better to move everyone to WLHS, rather than split it up.	worse than	1	2	4		
3460	AtholtonES			1	worse than	4	6	2	I don't see any data linked to the maps (number of students, capacity numbers, FARMS data, etc.). We live in Macgill's common, and my children would move to Wilde Lake HS. There are at least 2 schools closer- Hammond & Atholton.	worse than				There is no data for the AAC plan. The Feasabiliy plan at least moved kids west towards less populated schools. It feels like some affluent areas moved out of Atholton HS in the Feasabiliy Plan "got their way" even if they don't live as close-Emerson area	Every effort should be made to keep kids together from elementary to middle, to high school. Kids should have to travel further than necessary. Students should feel connected to their community and stay as safe as possible going to school close to home.
3461	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	6	1	4							
3462			MarriottsRidgeHS	1	worse than	6	4	7							
3463	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	The proposed map is a geographic nightmare. Looks like distance from school and continuity of flow and neighborhood considerations were not even considered.	worse than	7	6	4		The plan should start with a one-two mile radius around every school, incorporate unused polygons to every school that is below capacity by distance and then use neighboring polygons to make adjustments while considering neighborhood continuity.
3464	PointersRunES	ClarksvilleMS	RiverHillHS	5	worse than	13	2	7	Polygon #1189 is negatively impacted by AAC draft plan. It contradicts Superintendent's vision of "keeping kids together through k-12".	worse than	4	7	13	Moving Polygon #1189 from PRES to DO is not acceptable. This area is naturally closer to the nearby River Hill children and programs. Singling out our community to DO will significantly disrupt our children's social connection and activities.	
3465			HowardHS	1	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds into Howard HS. Moving 65, 2065 and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3466	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	This plan splits a community in a haphazard way not along a logical or existing boundary My children were able to walk home from CHS on side streets if there was a mixup in rides or other problem. Walking to Dunloggin area from Wilde Lake is not possible	worse than	4	6	7		Just because some schools are under capacity does not mean you can rip apart existing communities in order to fill vacant seats elsewhere. Please consider neighborhoods, and their logical and physical boundaries, as a priority in school assignments.
3467	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	7	10	5		worse than	14	14	14		

3468																
3469			MtHebronHS	1	worse than	4	7	13	I don't understand how current walkers to Mt. Hebron High School can be bused over 5 miles away. How can you take the Mt. Hebron NEIGHBORHOOD out of Mt. Hebron High School? Walkers should not be taken out of their current school for any redistricting.	worse than	4	7	13	The Feasibility Study Plan keeps the walkers at their home school.	The AAC draft plan is appalling. I don't understand how you can move students that live .5 miles away from the school and send kids that live 8 miles away to their school instead.
3470			AtholtonHS	5	better than	10	8	1		better than	5	9	7	The ACC draft plan is far better than the feasibility study. It preserves the communities and school athletic teams and clubs	
3471	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	13	4	Increase our traffic time, cut off our natural connection, worsen route-32 traffic	worse than	13	4	14	Moving #1189 from PRES to DO is hard to be acceptable.	
3472		MountViewMS		1	worse than	7	6	8	The ultimate interest of school lies in student's growth. Redistricting caused disruption of student's education and social life. I do not support the ACC plan. Many families choose where to live based on the nearby schools.	worse than					Although my neighborhood is not affected by the ACC plan. But I am strong again it. It is best to provide a stable environment for students and their family.
3473	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	13	14	14		worse than					This survey is confusing - why put the rating of this plan under current attendancy? It tricks me.
3474	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	1	5	5	The plan does not consider the children's need.	worse than	4	3	6		N/A
3475		DunlogginMS		1	worse than	7	13	4	This plan is horrible. My child will suffer- academically & socially. 100%unacceptable. My house value will plummet as well.	worse than	7	13	6	See comments above.	Reconsider. Re-do plan. This is a huge mistake for MANY reasons.
3476	ThunderHillES	EllicottMillsMS		1	worse than	3	4	13	Polygon 1065, walks to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard High School. Walking to school is good for students' health, community involvement, and the environment.	Polygons 65, 1065, and 2065 should remain at a middle school to feeds to Howard High School. Moving 65, 1065, and 2065 to Oakland Mills High School does not provide a long-term solution because Oakland Mills High School will quickly become overcrowded.
3477			MtHebronHS	1	worse than	7	4	6	We are walkers to Mt. Hebron. We are in Mt Hebron's backyard. The cost to transport a neighborhood that has no cost right now makes no sense.	worse than	4	7	9	The feasibility study does not take walkers out of Mt Hebron. The neighborhood that is called Mt Hebron remains at the school that is less than a mile from their homes. There is no cost for transportation.	To add cost of transportation where there is none at this point is a waste of my taxes.
3478	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4		worse than	7	6	4		
3479			HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces tee drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
3480	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	Please do not split the Dunloggin neighborhood apart. We are one of the oldest recognized neighborhoods in Howard County and want our children to stay in school together. We also want to stay at Centennial High, it is MUCH closer than Wilde Lake H.	worse than	7	6	4	It was a shock to see our neighborhood split! Now our kids can walk to and from all 3 schools. We bought our home in Ellicott City so our kids could go to EC schools, not be bused to another town. Transportation costs will be much higher and LONGER!	Centennial High offers many classes/programs not available at W.L.H. High schoolers are going to be starting later but if this redistricting plan goes through our kids will have to get up even earlier because the school is twice as far. Do not split us up
3481	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4		worse than	6	7	4

3502			HammondHS	4	equal to	1			The only thing I don't like about the plan is how 1272 is split from Emerson Community again like it was in 2012. This is the only polygon from Emerson that is not going to the same school. My kids should go to same school as their community friends	equal to	1			The only thing I don't like about the plan is how 1272 is split from Emerson Community again like it was in 2012. This is the only polygon from Emerson that is not going to the same school. My kids should go to same school as their community friends	You really need to look at polygon 1272 and 272. We are a very small section of Emerson that does not go to same school at the rest of the community. Essentially 90% goes one location and we go another. This really makes no sense. Please fix
3503	PointersRunES	LimeKilnMS	AtholtonHS	1	equal to	4	7	9	The current strategy is the same, but makes no sense. We are located within 500 ft of Clarksville Middle School, and do not see why we need to be shipped all the way to Lime Kiln which is so much further.	worse than	7	9	1	The feasibility study is better for keeping us closer to our assigned school.	There are about 8-9 kids on Redberry rd who are being shipped to a school further from our location, and think this road should be included in students that remain in Clarksville middle school.
3504	PointersRunES	ClarksvilleMS		1	worse than	13	6	4		worse than	14	14	14			
3505	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	13	4	13	the AAC draft plan is so bad.	worse than	13	13		the AAC draft plan is so bad.	the AAC draft plan is not acceptable.
3506	ThunderHillES	EllicottMillsMS	HowardHS	1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle that feeds to Howard HS. Moving these to OMHS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than HHS. Keep educational $ on teachers not buses!
3507		DunlogginMS		1	worse than	7	4	13	It breaks the long ago established community in two. The children who are friends from NES & DMS will be separated. The driving time/distance to a Proposed School is twice as long as to a Current school. The residence confusion: Ellicott City vs Columbia	worse than	7	4	13	The driving time/distance to a Proposed School is twice as long as to Current school. And the Feasibility Study finds this as a weakness. The area of a HS should be compact and should not cross major roads to be convenient for students to bike to school.	The school district should stay compact and within the city, and should not break the community. There are many inexpensive ways to temporarily expand or shrink a HS school capacity without redistricting operation. Please keep our community together! TX
3508	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	13		worse than	13	3	7	what was the reasoning for the AAC draft and who did the study? Where is the transparency of how this came about. Did it take into account how the kids may be adversely affected?	We don't want a temporary fix. The Dunloggin neighborhood is an historically established community that has gone to all the same schools.
3509	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	13	7	6	The feed for rising 8th graders from FQMS to RHHS will be approx 13%, below board standards. The disruptions of 5 schools as opposed to 1 into RHHS is not practical.	worse than	13	7	6	The feed for rising 8th graders from FQMS to RHHS will be approx 13%, below board standards. The disruptions of 5 schools as opposed to 1 into RHHS is not practical.	
3510				5	better than	6	1		My children are not currently enrolled in school. When they are of age, I believe that it is important that a community such as Emerson be funneled into the same high school for continuity within learning and social experiences, creating less turmoil.						
3511	NorthfieldES				worse than	4	7	13		worse than						
3512			CentennialHS	1	worse than	4	13	7	We want best for our kids and they feel shortchanged, because they will be separated with their friends. We lived and paid high property taxes in this community for over 11 years just to attend a better Centennial school. Please don't break our community!	worse than	4	7	13	The proposed plan will not achieve the goal of policy 6010 by "preserving social economic integration" of the community.	Please don't split an established cohesive community!
3513		BonnieBranchMS	HowardHS	5	better than	1	4	7	The AAC draft plan addresses the overcrowding issue but disrupts fewer families. It keeps many more high school students within walking distance of their schools. At present there are no late bus accomodations for clubs, sports, after school assistance	better than	6	4	7	I appreciate the efforts of this team . The AAC draft seems to accomplish the goals with less disruption to students and communities.	
3514					worse than	4	4	4	The children in my neighborhood attend school in the Centennial School District and a change to the schools in Columbia would not work for them. Some children now walk to school, have friends in the same school. People moved to this area for Centennial	worse than	6		9		I do not have children attending schools in Centennial School District. But many children on my street attend schools. Parents moved here because of the school district.
3515	WestFriendshipES	MountViewMS		1	worse than	2	4	1	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES.	worse than	7	4	8	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES.	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES.
3516			CentennialHS	1	worse than	13	6	7	Two years ago, when the centennial overlook real state agents sold the new house lot, they did not mention the high school will be changed to Wild Lake High. Since good environments, good school district, the house prices shot up to more than $800,000.	worse than	7	13	4	Now the builders have made big money for centennial overlook new houses. Changing school district in that area definitely will hurt the residence real states prices.	

3517	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	6	8	Plan proposes to send my child 3 miles across busiest part of town when there are 2 HS's sig. closer to home. Will neg. impact ability to participate in activities outside school day. Isolates small group of students, inserts them in another community.	worse than	4	6	13	Original plan at least sends my child to 1 of the 2 "neighborhood" high schools.	It seems like my area is treated as an afterthought in this whole process. My child already is facing a difficult transition to MS, being one of only 10 from her ES going to her MS (out of 50 kids). Proposed changes further isolate her from our community.
3518	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	1	6	7		equal to	6	7	1	The F.S. does a better job at keeping neighborhoods together than the AAC plan does re: ES and MS. The FS plan for HS is much worse than the AAC plan. Can they not be combined? And take the best from both.	The County should work harder at keeping neighborhoods together from ES through HS. There is value to creating and maintaining friendships through out a child's education.
3519	ClemensCrossingES	WildeLakeMS	AtholtonHS	3	equal to	14	14	14		worse than	14	14	14		
3520	ManorWoodsES			3	equal to	6	14	14	I do not think it is in the best interest of students who attend Manor Woods to feed into Burleigh(which feeds mostly into Centennial) then go back to Marriotts Ridge. This plan prohibits a continuity of the community as it moves through the school syste	equal to	6	14	14	See above.	Thank you for all your hard work this summer!
3521			MtHebronHS	1	worse than	4	8	7	Students who are within walking distance to Mt. Hebron being moved west to Marriotts Ridge.	worse than	8	13		More students are being moved out of Mt. Hebron to Marriotts Ridge. The Mt. Hebron community is being split.	This redistricting feels haphazard and rushed. Makes zero sense to move students within walking distance of Mt. Hebron and bus them west. Has an elementary only plan been created at all? Feel like kids are not coming first in this whole process...
3522	NorthfieldES	BurleighManorMS		1	worse than	7	4	6	Community is divided and transportation distance significantly increased.	equal to	7	6	4	Community is divided and transportation distance significantly increased.	School district should be kept consistent in order to best provide students a stable learning environment. Redistricting every 5 years creates unnecessary and unpredictable stresses to communities and students, and should be avoided.
3523			CentennialHS	3	equal to	7	3	2	Redistricting is so frequent in HC that nobody is certain about the quality of education they will receive. Parents were not aware of the risk and uncertainty when they bought a house. Not a good msg to pass along.	equal to	2			AAC needs to publish the fixed and floating school district boundaries, and operate their redistrict within the floating regions. The current maps and change plans show no rationale about why a particular neighborhood is moved.	
3524			RiverHillHS	1	worse than	13			The drastic change due to the draft plan has negatively impacted many neighborhoods in particular polygon 183 and 1183. This polygon has been districted to river hill for a long time I firmly suggest to keep this polygon with river hill.	worse than	13				
3525	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	4	7	3	This plan is moves walkers to MHHS to bus riders to MRHS. That seems ridiculous given that it would add costs to a staggering school budget.	worse than	4	3	7	The AAC plan moves the kids to MRHS which would move them from walkers to MHHS to bus riders. That does not seem reasonable. Feasibility Study keeps them as walkers to MHHS thereby keeping it cost neutral.	Prefer current school feed or the Feasibility Study school as it minimizes costs. AAC draft plan adds cost to this neighborhood or the polygon.
3526	WaverlyES			5	better than	6	8			better than	6	8			
3527	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	5	6	PRES is only 1 mile from my house;Dayton oaks is 7 miles away, which takes much longer of transportation time, isolate kids from their friends. Hard for parents as well.	worse than	4	5	6		
3528	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	8	6		better than	6	7	8		
3529			HowardHS	5	better than	6	4	7	Polygon 84 strongly supports the plan that the AAC developed for the northeast, IES to BBMS to HHS	better than	2	5	1		84 strongly supports this the new plan that was developed by the AAC. IT keeps the Montgomery Meadows polygons of 95, 1095, 2095, and 84 together. Overall it moves fewer students and reduces disruption, and it reduces the movement of polygons in west.
3530				1	worse than	3	4	13	◦Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	worse than	3	4	13	◦Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	◦Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3531			HowardHS		better than	1	4	7		better than	2	3	10		Plan is strongly supported by polygon 84. Keeps the feeds strong, moves fewer students, supports utilization of capacity in the west and reduces the domino effect of moving polygons west
3532		DunlogginMS		1	worse than	7	4	13	The current redistricting plan would not achieve the goal of Policy 6010 by "preserving socioeconomic integration."	worse than	7	4	13	Drive time to the high school would be much longer.	Please, don't split an established, cohesive community.
3533	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4			Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. Bus time will be less because Turf Valley is densely populated.	worse than	1	3		Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS	Revert to feasibility study plan—Move 224, 229, 231, 232, 1231, 1229, 2229 to BPES, but bring them back to MVMS and MRHS—ok with small feed from ES to MS
3534			CentennialHS	5	better than	7	1	4	It seems a lot of thought went into this AAC draft to alleviate over crowding while keeping communities intact.	better than	7	4	6	We are so grateful that our neighborhood will not be spilt apart, that our Polygon 1184 will remain at CHS because we are part of Font Hill. The Font Hill neighborhood should remain a whole. We have been a CLES/ BMMS/CHS feed since the 1950s.	The welfare of our children is very important.
3535	ThunderHillES			1	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	worse than	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.

3536			CentennialHS	1	worse than	5	7	6	3 years ago I consulted HCPSS about the schools and students trending in EC. I was advised that my area is CHS and it's unlikely to change because of the population seniority in CHS district. I suspect the correctness of the feasibility study projection.	equal to	2	7	8	People chose certain location live at Howard County for many good reasons, school district is one of most important factor for me. By arbitrarily changing the school border would disrupt residents' life.	If the population growth in the Howard County is for real, then work on building the new schools, then redraw school districts based on the capacity and population would make sense. School boundary should remain relatively consistent so people may choose.
3537			HowardHS		better than	6	7	9	As part of Montgomery Meadows, polygons 84, 95, 1095, 2095, we highly support the plan developed by the AAC. IT keeps the neighborhood together, moves fewer students overall, keeps feeds strong, and reduces the overcrowding in the northeast.	better than	2	4	5

3544			AtholtonHS	3	2	9	10	6	POLYGON 190 IS BEING SEPARATED FROM THE REST OF ITS NEIGHBORHOOD (1190). Also, these students have been separated from friends after elementary school and again after middle school. They should be allowed to finish Atholton without further disruption.	1	9	10	8	This would be optimal if polygon 190 were not being separated from the rest of its neighborhood (1190). Roadway locations make 1190 the contiguous area to 190. Also, these students have been separated again from friends as they have already been twice.	The plan calls for moving a very small number of students from 190 to River Hill. Students have spent 2 years making friends and working with teachers so moving in Junior year problematic. It will make college application process difficult.
3545	HammondES	HammondMS	AtholtonHS	5	1	1	10	7	The AAC study alleviates current overcrowding in a relatively evenhanded manner without unduly burdening a particular school by shifting a large percentage of its students.	1	1	10	7	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.

3548		OaklandMillsMS	OaklandMillsHS	1	3	7	6		The OMHS community would be destroyed under the Feassibility Study Plan. Losing Owen Brown and Thunder Hill would completely change OM,	1	7	6		The AAC plan is MUCH better for OMHS (and, I think, for Atholton HS too). I wish we could keep all of Owen Brown, but AAC is the better option.	
3549	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	13	1	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
3550	RockburnES	ElkridgeLandingMS	HowardHS	3	2	6	7	8		1	6	7	8		
3551			CentennialHS	1	3	13	7	10	This starts with approval of building permits and zoning without consideration of impact. Howard County builds first, and worries about the consequences later. No consideration was given to impervious surface before Main St. flooded, now it's a topic!	3	4	10	2		Marriotts Ridge HS is too far away. Centennial HS is closer and our surrounding neighborhoods have stayed at CHS. By pulling out Rolling Acres (an older neighborhood) and part of Plum Tree, it's obviously about property values vs property tax base.
3552	NorthfieldES			5	2	7			Thank you for keeping Frederick Road as a natural boundary line.	1	7			Thank you for keeping the Gray Rock Farm community together and using Frederick Road as a boundary line.	
3553	NorthfieldES				2	7			Frederick Road is as a boundary line.	1	7			Gray Rock Farms' students will matriculate together.	
3554				5	I think it is very important to keep a community together and use logical boundries	7	7	7		2	7	7	7		Thank you for a common sense approach in keeping a community together and having a logical boundry
3555		BonnieBranchMS		1	3	7	6	4		3	4	6	7	The feasibility plan with Ichester, Bonnie Branch, and Howard makes the most sense for our neighborhood which is only 0.9 miles from both the elementary and middle school. Our neighborhood will remain with their close friends for all transitions.	The original feasibility plan had us moving to Ichester and staying at BBMS. This makes sense for proximity and cohesiveness of kids from elementary to middle school.
3556	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding busses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for student's health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3557				1	My children are in college. The AAC plan will devalue our property. When County issued building permits should consider the school overcrowding problem. Now HCPS needs to start with minor changes from each school.	13	1	9		3	13	4		Is Feasibility Study only suggesting major redistrict? AAC should start with any option it will minimize impact to children, families, communities and society.	If this is the best option from the New Interim Superintendent, I feel the Superintendent is incompetent for this HCPS position.
3558	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding busses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for student's health, community involvement, and the environment. 3559		DunloggінMS		1	3	7	4	6	I am dismayed to have this plan thrown on us abruptly, when previous plans have only involved the ES level. I am very unhappy at the prospect of my daughters being split up from their friends and having to travel farther to school.	3	4	6	7	I am dismayed to have this plan thrown on us abruptly, when previous plans have only involved the ES level. I am very unhappy at the prospect of my daughters being split up from their friends and having to travel farther to school.	We urge the board to scrap the draft plan and put HS redistricting on hold. In addition, students should not be made to change schools mid-stream. They should be grandfathered in the finish where they started.
3560		DunloggінMS		1	3	4	6	7	The draft plan would split the highly cohesive dunloggin neighborhood into two different high schools. These existing cohorts of students would be bussed to different schools. Last minute high school redistricting creates rather than solves problems.	3	4	6	7	The draft plan would split the highly cohesive dunloggin neighborhood into two different high schools. These existing cohorts of students would be bussed to different schools. Last minute high school redistricting creates rather than solves problems.	We urge the board not to split the dinloggin neighborhood students into distant high schools. We urge further consideration of the feasibility study which did not include high shool redistricting.
3561			MtHebronHS	4	1	1	3	14	Something must be done to correct the current situation and the proposed plan meets those needs. Having 2 students at the overcrowded MHHS and having 1 shiftto Howard HS may not be ideal but in the end it provides the students a better learning environmen	2	1	14	14		
3562			MtHebronHS	1	3	4	7	2	My children currently walk to school. Under the draft plan they will be bused over 5 miles away. I don't believe this is an efficient use of the county's school funds especially given the cost of reworking the bus transportation for the new start times.	3	4	7	2	Both move polygons that are currently in walking distance to being bused miles away. Busing all the kids would be a waste of money especially given the expense of reworking the busing schedule/routes to accommodate the new school start times next year.	I don't agree with shifting the high school populations now when a new high school is planned - we will just have to go through this again. Polygon 2161 has been affected by EVERY redistricting plan in the last 17 years and will be again, i'm sure.

3579	CentennialLaneES			1	3	7	4	13	The draft plan is poorly thought out and alienated polygon 147 which is deeply rooted to the Centennial community for generations.	3	7	4	13	The draft plan is poorly thought out and alienated polygon 147 which is deeply rooted to the Centennial community for generations.	Please keep polygon 147 in Centennial district. There are many other alternates including one proposed in Feasibility Report to address governing concerns. Consider Polygon 97, for example, which is NOT contiguous to neighborhood.
3580	CentennialLaneES	BurleighManorMS		1	3	1	8	4	Polygon 147 should NOT be considered for redistricting. The utilization ratio of current elementary, middle and high school will remain below 115% if polygon 147 remain with its current school. It is against the APTO code to approve the CO then redistrict	3	1			Based on the 8/8 AAC Draft Plan, there are still 4 schools (2 ES and 2 MS) with utilization ratios above 115% in the 2018~2019 school year, and 9 schools (5 ES, 2MS and 2HS) with ratios above 115% in the 2022~2023 school year. So exceptions have been made	Keep polygon 147 with its current schools - CLES, Burleigh Manor Middle and Centennial High School. Most children in Centennial Overlook community recently moved to new schools. It would be very disruptive for the children to have to move again.
3581	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	4	Students will now have to travel twice as far to attend WLHS versus CHS. Many students may loose friendships with children within the neighborhood from attending different schools. This plan will tear apart the community feeling within the neighborhood.	3	7	6	4	Instead of building a community feeling within the neighborhoods, the AAC plan will rip communities apart as their children would now be attending different schools.	When all the new development is finished around the Columbia Mall, the children there will push the overcrowding of the WLHS beyond what is estimated for CHS. The AAC should consider the impact of all the new development within Columbia in their plans.

3582		PatapscoMS		4	2	7	6	4		2	7	6				
3583			WildeLakeHS	4	1	6	7	9	Positive - increases Dunloggin MS to Wilde Lake HS feed. If Dunloggin neighborhoods are removed plan is worse. Add polygons 3150 and 2150. Negative - FARM rate is still over 40% at WLHS - move polygons 2138 and 1142 to River Hill HS							
3584			RiverHillHS	5	2	11	14	14	This plan keeps my children and their friends in the same school. This is especially important for my child in high school preparing for college.	1	8	5	1	The feasibility study plan put Glenelg close to 110% with the prediction that their population will continue to grow. Essentially moving the over population prob from one school to another w/o a solution		We are a military family who has moved many times. We came to Howard county with the hope of finding a good school and stability for our daughter during high school. Stability for high school is important when preparing for college for all students.
3585		FollyQuarterMS		5	2	11	14	14	We are not impacted by the change. Our polygon (180) remains assigned to the same Middle School and, for my kids entry into high school next year, the same High School.	1	8	5	9	The feasibility study would have negatively impacted / moved both of my kids. This survey & the new polygon borders do not provide any quantitative data on the actual # of families; it is arbitrary for me to assume the new plan is optimized by population.		
3586	NorthfieldES	BurleighManorMS	CentennialHS		3	4	7	3	Both plans are equally bad. Some areas like Chatam apartment have so many kids that go to Centennial high school they have two buses taking them. Living in apartments does not mean they are low income.	3	4	7	3	Both plans are equally bad. It takes about 45min for the students from our polygon to go to Marriotts R so they loose 1.5hr every day just travelling back & forth to school instead doing their homework, sleeping or participating in Xcurricular activities.		I think the students from north of route 40 currently going to Mt. Hebron or Centennial HS should be moved to Marriotts ridge. For example: Chatam Apartments. Travelling to Marriotts ridge will take a longer time
3587	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	3	2	Some students(Frederick Road)will have to travel 40-50min to get to school. I feel that the students north of 40(Chatham apartments)should be moved to Hebron and move students to MRHS, transporting a larger number of students will cost less.	2	6	7		Students that will move to MRHS will be in 3 different groups. Also the Chatham apartments are not connected to the middle and elementary districts for the respective schools and are the only area on the North of 40 that attends CHS.		Looking at the data, there are around 100 students per school from Chatham. Utilizing the fact they are oddballs in all the districting systems should be utilized. It does not make sense if you are switch students on the north f 40 for them to attend CHS.
3588	PointersRunES			1	3	7	1	13		3	4	7	13			
3589			CentennialHS		3	4	6	7	Sending Nob Hill students who live near the Miller library to Northfield Elem., Burleigh Manor Middle, and then Marriotts Ridge High school is a convoluted feeder stream.							
3590	IlchesterES	BonnieBranchMS	HowardHS	5	1	4	6	7						This plan is much better. It keeps neighborhoods close to Howard within walking distance. Please consider. Thank you.		
3591	TriadelphiaRidgeES			5	2	12				1	6					
3592			AtholtonHS	5	1	1	10	10		1						
3593																Our children are grown.we have no children in the system. We live in Dunloggin area of Ellicott City. Northfield/Dunloggin/Centennial We do not want to see any changes in the school districting. I am speaking up for all the children that live in my area!
3594	CentennialLaneES			1	3	7	1	13								
3595			HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students health, community involvement and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students health, community involvement and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.		Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mill HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS
3596			AtholtonHS		3	2			The redistricting for 2018-2019 should only be for Elementary School. The current plan is too rushed and affects too many kids.	1	9	10		This plan is way better than the Feasibility Study but it still moves too many kids, especially at the high school level. Please continue to preserve Atholton. The Feasibility Study destroyed Atholton for no reason.		Any walker <1mile from a school should NEVER be redistricted to another school. Rising juniors should be allowed to stay regardless of what plan is chosen. High school is tough and continuity is important.
3597		BurleighManorMS		1	3	8	7	3	AAC plan would break ties to friends/family in Centennial area and schools. Children have worked hard to establish new school relationships, and the AAC scenario would necessitate many children having to switch schools twice in 2-3 years.	3	8	7	2	Feasibility study shifted seats to western county with capacity. Schools at all 3 levels would be affected in AAC draft, a wholesale change no other polygon experiences. In Oak Hill and Woodland, generations of families have attended and supported area.		Cent. Overlook, Oak Hill Dr, Woodland Rd disrupted from Old Annapolis Rd school corridor. Longfellow ES not adjacent; we are in northeast corner of 147. In study, Centennial school usage remained flat or reduced. Wilde Lake for town center development.
3598		BonnieBranchMS		1	6	7	14		I am so thrilled that both plans being considered finally have my neighborhood (polygon 91) going from an elem to a middle school will they will know more than a few kids. Thank you!	2	6	7	14	Either is fine with me. I'm happy with our polygon 91 going to RES/ELMS as well as ES/BBMS. Just so glad it looks like our neighborhood won't be isolated anymore going from elem to middle.		I am concerned about the overcrowding at Howard HS. I would love to see the ROTC program moved to a different school to relieve the overcrowding at Howard. Thanks for giving us the opportunity to voice our concerns.

3600	ThunderHillES			1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.		Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS, Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long- term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3601			CentennialHS	1	3	13	4	7	This plan is so brainless. Why my daughter who is studying centennial high school will move another high school. I do not think this is a good plan. I understand that fresh student may move. I am so angry.	3						
3602	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	It makes no sense to take children from the Clarks Glen community that is 2 minutes from Pointers Run Elementary School, has served the community since it was opened, to a school that requires them to be bused 30+ minutes, each way.							
3603	CentennialLaneES	BurleighManorMS	CentennialHS	5	2	6	8	4		1	6	4	8			
3604	ThunderHillES			1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.		Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS, Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long- term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3605	ClemensCrossingE	LimeKilnMS	AtholtonHS	5	1	1				1	1	10		The AAC Draft Plan avoids a lot of unnecessary moves of students. Much fewer students are impacted county-wide.		
3606	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	6	13	It is very bad idea that move several students to another school during middle of high school (like from Freshman to Sophomore, or Sophomore to Junior) plus with longer bus routes	3	8	9	6	It will be mess up that move several students to another school during middle of high school (like from Freshman to Sophomore, or Sophomore to Junior or Junior to Senior)		
3607	TriadelphiaRidgeE	FollyQuarterMS		1	3	6	7	9	This plan breaks up neighborhoods.We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	1	10			This plan reduces the number of students moved but divides up neighborhoods and creates small feeds.		Please move polygons 1180, 180, & 181. and 3182 to golenelg high to keep woodmark neighborhoods together.
3608			CentennialHS	1	3	4	13	13	The Centennial high school is 5 minutes away from my home but the other school that will be moved as a plan is 20 minutes away and heavy traffic area.	3	4	4	4			
3609			AtholtonHS	4	1	7	6		I like that Atholton HS keeps many of its current student, but I feel that polygons 190 should also stay at Atholton HS as well. I also like that the students moving into River Hill HS will help the school become more appropriately diverse.	1	6	9		Please consider keeping polygon 190 at Atholton to maintain the sense of community among the students who live in the same community and comes from the same feeder school.		
3610			AtholtonHS	5	1	1	10	14	Thank you for preserving Atholton High School. Outstanding performance in academics and extracurricular activities serves as a model for other high schools.	1	7	14	14	The Study moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.		I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment
3611			WildeLakeHS		3	4	13	8	My children are in involved in daily early morning (before HS) classes and after school events built around proximity to Wilde Lake HS. It will be a significant hardship to transport them past WLHS and to OMHS each day and lose friend associations.	3	4	1	13	Anticipated transportation time, little impact to overcrowding at Thunder Hill ES, and what I understand to be little impact to enrollment by having our community go to Northfield/Dunloggin/Wilde Lake, I think the draft plan is not the wisest choice.		Given the strong friendships my children have with those who attended Northfield ES and Dunloggin MS, I am strongly in favor of polygon 111, 1111, and 2111 going to Northfield ES, Dunloggin MS, then Wilde Lake HS. This strengthens our community experienc
3612	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7				3	7					Please keep polygon 147 in CLES BMMS and CHS, my son has friend there from the same BMMS
3613			AtholtonHS	4	2	6				1	1	10		the AAC plan is greatly preferable to the feasibility study for keeping Atholton HS attendance area. We want our children to attend the same school going forward.		
3614	CentennialLaneES	BurleighManorMS		1	3	13	4	9	We are under 2 miles for all of our current schools but more than 3 to 4 miles for proposed schools Kids will spend more time on the bus and road given the distance they have to travel each day. This will impact their social and learning ability.	3	13			Our current schools (CLES|BMM|SHS) are top rated schools. Our proposed schools are not even close in comparison.Programs that currently participating in current schools does not exists in new schools. Please keep Polygon 147 in current school Zone		We are new neighborhood under two years for most of the residents and we all already changed schools with the move to the house which had significant impact on kids. We are being asked to move again which is going to put a lot of stress on the kids.
3615	NorthfieldES			5	1	1	4	3		1						
3616		BurleighManorMS		4	1	7	6			1	7	6		Thank you for considering keeping our neighborhood connected.		
3617	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	5	1	This does not make sense as my kids transit times will increase by three times their current ones which is not good for extracurricular activities, especially if the school times get adjusted as well.	3	4	1	5	We live in area 232 and my kids will spend significant time on buses to get to schools much farther away than nearby schools. All three kids, in 3rd, 6th, and 9th grade will have dramatic increaseo in transit.		We bought our home purposely to be near MRHS and MVMS as these were solid performers and closer than any other school. This betrays our trust in neighborhood schooling and choice.
3618	CentennialLaneES	BurleighManorMS		1	3	4	7	8		3	4	7	8			We are very concerned of the proposed move of 147 given the fact that its only a year ago that we moved. My kids have developed so much of emotional bonding and relationships with the teachers and school staff that i just cant imagine explaining to kids.
3619	CentennialLaneES	BurleighManorMS	CentennialHS	2	3	7	4		Please keep polygon 147 in CLES BMMS and CHS, my son has friend there from same BMMS							
3620	ClarksvilleES		RiverHillHS	1	3	7	6			3	6	7		The feasibility study maintained the neighborhoods together with students feeding from elementary school into middle school into high school. The proposed AAC plan disrupts this and will not prove beneficial to anybody in the long run.		
3621	AtholtonES	OaklandMillsMS		1	3	1	4	13	With this proposed plan we are being moved to a high school that is the 4th closest to us...there are 3 other high schools in closer proximity to our home. This makes it difficult for many reasons	3	4	13	10			Our neighborhood is such a small piece of this big picture. It is upsetting that this small group of kids will be moved to an area that is furtherfor them to drive to school each day. so many negative factors accompany this plan.
3622			CentennialHS	2	3	4	6	3		3	1	2	7			
3623	GormanCrossingE	MurrayHillMS		5	2	10	1			1	10	1		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.		
3624	GormanCrossingE	MurrayHillMS	AtholtonHS	5	1	1	10		AAC draft plan is GREAT!	1	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood(6010-IV.B.2.b) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS		The Emerson neighborhood was unnecessarily split by redistriction in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and used the same playgrounds. We should go to the same school.
3625	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	6	3		3	7	3	13			
3626	ManorWoodsES		MarriottsRidgeHS	1	3	13	6	4	I bought my home with an intention of sending my kids to the schools closest to my home. I also bought my home because the school zoning was my first choice and these schools were the best fit for my children. I don't approve of this plan.	3	13	13	13	I bought my home with an intention of sending my kids to the schools closest to my home. I also bought my home because the school zoning was my first choice and these schools were the best fit for my children. I don't approve of this plan.		

3627		EllicottMillsMS		1	3	14	13	14	This is the worse plan ever we live very close to Howard and we know multiple people that have spent thousands of dollars to move to this neighborhood so their child can go to ellicot mills MS and Howard HS so changing this plan will upset many people	3					
3628	ThunderHillES		HowardHS	1	3	4	8	13	My children are walkers to Howard High School. By the time of re-assignment begins she will be starting her junior year at Howard. My son will have to move schools going into 8th grade.	3	4				My daughter will have to move schools in her junior year and my son will have to change middle school.
3629	VeteransES			1	1	4	7		OVercrows Worthington and still leaves Veterans overcrowded. Breaks 1101 from 2101 and 3101. Neighborhood split. Splits bus routes to 2 schools. Too many buses. 101, 1101, 2101, 3101 same neighborhood off Brittany. Stay together. 1101 surrounds VES.	3	13	7	4	Pulls VES neighborhood kids from neighborhood school and buses them to further school increasing bus times and bus traffic in neighborhood as 2 schools will come in now . Dangerous and expensive. Someone needs to look at map to see how this splits neighbo	At least 16 kids in 1101 and 101 are 5th graders moving for their last year. Unfair. These kids already have a small feed going to Ellicott mills and then Centennial. This plan breaks this small group in half even further. We bought neighborhood for VES
3630	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	7	1	6		1	7	6	1	The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study	I believe the new AAC draft plan takes in to consideration all the proposals and is found to be the proper form of action.
3631			CentennialHS	1	3	4	6	13	I'm disappointed on changing Font Hill and 147 change. Why can't both remain the same	3	4	7	13		Both Font Hill and 147 need to remain the same
3632		EllicottMillsMS	MtHebronHS	5	2	7	6	4		2	7	6	4		It is extremely important to maintain contiguous communities such as Worthington in the same ES, MS and HS to enable our children to have ongoing support networks as well as access to transportation, such as carpooling for sports other activities.
3633	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1				1	1			AAC plan is superior to feasibility	It solves overcrowding by moving far fewer students and Preserves Atholton HS.
3634	AtholtonES	HammondMS	HammondHS	1	3	6	7	13	Completely rips our tiny elementary school in half. Then forces each half to attend middle school with a large group of different students. And finally, in high school, both of these groups are with kids they don't know again.	3	6	7	13	Also, the number of FARMS students at Hammond HS is way too high, as compared to other schools in the county. What happened to balancing schools?	
3635	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	6	7	13	Please keep the Elkridge community together at Elkridge Elementary/Middle and Howard High. This is a small community and the new plan splits it in half. Keep it the way it currently is.	3	4	6	7	Please keep the Elkridge community together at Elkridge Elementary/Middle and Howard High. This is a small community and the new plan splits it in half. Keep it the way it currently is.	This is a tough time for our young adults and splitting the neighborhood means the lose their long time friends. It doesn't make sense to split the community.
3636	NorthfieldES			1	3	7	3	4	The AAC plan is breaking up the Dunloggin community, for reasons that are unclear. This does not solve overcrowding in the Eastern high schools.	3	7	6	4	The AAC plan is far worse than the Feasibility Study. The AAC plan makes no sense, breaks up long-standing communities and buses kids to schools further than their closest high school.	9
3637			AtholtonHS	1	3	5				3	5				
3638	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	2	7	1	6	The elementary and middle school plans are great in the AAC draft.	1	7	1	10	The elementary and middle school plans are great in the AAC draft.	
3639	RockburnES	ElkridgeLandingMS	HowardHS	5	1	6	7	8		1					
3640			HowardHS	1	3	4	3	13	Polygons 65,1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrate fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mill HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, 2065 to Oakland Mills HS does not provide a long-term solution because PMHS will quickly become overcrowded, potentially more so that Howard HS.
3641	NorthfieldES	DunloggінMS	CentennialHS	1	3	13	13	13	I am strongly against of rezoning Dunloggin community from Centennial to Wild lake HS. Dunloggin is very close to the heart of Ellicott City, if the districts are to be rezoned the property value will go down and the property taxes revenue will decrease.	3	9	6	13	I am strongly against of rezoning Dunloggin community from Centennial to Wild lake HS. Dunloggin is very close to the heart of Ellicott City, if the districts are to be rezoned the property value will go down and the property taxes revenue will decrease.	Please do not rezone Heart of Ellicott City (Dunloggin) to Wild Lake High School. This rezoning will depreciate the property value, lower tax revenue , people will move out, may bring crime into our quiet neighborhood.
3642		BurleighManorMS		5	1	6	7			1	7	6		Thank you for keeping our neighborhood as one and not splitting off. I appreciate and support the new plan.	
3643	ManorWoodsES	MountViewMS	MarriottsRidgeHS	2	3	13			MRHS is under capacity, yet our children are being moved OUT. All schools we are being moved to are further away.	2	14				Very concerned that rising juniors are not being included with seniors to stay and finish out at their high school. Junior year is critical for college prep - SATs, challenging academic load, etc... NOT the time to be changing schools.
3644	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	7	1	2		1	1	7	4		
3645	NorthfieldES			5	2	1	3	4		1	7	4	9		
3646	NorthfieldES			5	2	1	3	4		1	7	4	9		
3647	ClemensCrossingES			3	2	7	6	9		1	6	7	9		
3648	NorthfieldES			5	2	1	3	9		1	4	8	7		
3649	BollmanBridgeES			5	1	7	8	10	This plan does a good job of keeping students together and minimizes school growth.	1	7	8	10	This plan is much better than the feasibility study. The feasibility study just took too many students out of Atholton and didn't do anything about he concentration of FARMS students. This plan takes both into better consideration.	
3650	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	4	13	The current plan is taking kids from far away from they live and moving them to a completely different area. Instead of worrying about diversity try to keep the kids together from the same area.	3	6	4	13	The Feasibility study allowed the kids from the same middle school to then go to the same high school. The AAC draft plan is separating kids - ES sending to Pointers Run instead of their home school in Fulton. Longer bus rides to make kids day extra long.	Wait until the new HS is opened in Jessup before redistricting. If you are worried about diversity bus kids out to Glenelg or Marriotts Ridge. River Hill and Centennial are plenty diversified between many different races.
3651	AtholtonES	OaklandMillsMS		1	3	9	6	7	It is CLEAR from the various proposals of the AAC that Allview is the sacrificial lamb of the HCPSS. It appears by the choice of new schools that HCPSS is simply trying to raise test scores in low ESE groups. It is reverse economic discrimination.	3	9	6	7		
3652	HammondES	HammondMS	AtholtonHS	5	1	7	9	5	Thank you for not changing Atholton HS so drastically, The existing student demographics with fantastic academic programs needs to continue as a an example to other schools in the county.	1	2	7	8	Atholton HS was the only school moving 67% of the students out to other schools literally changing this high school for the students left behind.	Please let the 11th and 12th graders stay.
3653	VeteransES	EllicottMillsMS	CentennialHS	1	3	7	6			3	6				
3654	AtholtonES			5	1	1	10								
3655					3	7	4	13	The Dunloggin community, which has existed as a contiguous community (now 1030 homes) since the 1950s, should be kept together as far as school districting goes. Kids should not be taken from their friends.	3	7	4	13	The Dunloggin community, which has existed as a contiguous community (now 1030 homes) since the 1950s, should be kept together as far as school districting goes. Kids should not be uprooted from their friends.	This plan has been sprung on the Dunloggin community with not much time to comment and protest. At the very least, the process should be slowed, in the interest of transparency, so that we may have the same time to organize ourselves as others have had.
3656			HowardHS	1	3	4	6	7		3	4	6	7		
3657	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	6	2	8	No consideration whatsoever to the kids who have just moved to a new school and work hard to fit in. All three schools changed very drastically. Shakes the family's stability.	3	13	4	5	Completely away from the feasibility study The draft plan has shaken the community up very negatively. Makes the kids travel at least 3 miles further away.	Every resident of this community invested their life savings for their kids to go to the school allocated for these homes. This plan leaves the residents with no choice to protect their hard earned life savings & leave these hard working kids future bleak
3658	ThunderHillES			1	3	4	3	13	Polygons 65, 1065 and 2065 currently walk to Howard High, minimizing capital and operating costs consistent with Policy 6010. Added cost of business students to Oakland Mills High would take money that could be used for building/improving schools.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High. Walking to school is healthier and good for community involvement and the environment. It reduces teen drivers on the road, which is safer. Car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard High. Moving 65, 1065 and 2065 to Oakland Mills does not provide a long-term solution since Oakland Mills High will also become overcrowded, compounding the issue.
3659			HowardHS	1	3	13	4	7		3	13	4	7		
3660	CentennialLaneES			1	3	1	4	5	Numbers from recent AAC data shows that there is NO overcrowding issues in the Centennial Elementary School. Breaking up polygon 147 from the neighborhood houses and communities would bring NO benefits while causing undue stress and loosening social ties.	3	2	3	7	Aside from the fact that the main cause for the Draft plan is to resolve the overcrowding" is NON existent (most recent 8/11 AAC study) the proposed draft will generate more financial burdens to the County and the parents. And negatively impact the kids"	While the truth is that the child education can be administered in different schools, this is a simplistic approach. The reason to educate is to provide a strong social nucleus to the community. If the community is broken there wont be any social ties.
3661	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	4		3	7				
3662			CentennialHS	5	2	7			Thank you for maintaining Frederick Rd as the logical boundary line.	1	7			Thank you for keeping our neighborhood together.

3667	NorthfieldES	DunloggінMS	CentennialHS	1	3	13	7	6	We are in "polygon 1150." Please see my email dated August 12 sent to SchoolPlanning@hcpss.org. We just moved (from PG county) this to this neighborhood 2 weeks ago solely for better schools!!	3	13	7	4	Please read my email dated August 12.	Please read my email dated August 12. Also, I would like to read an explanation of the AAC's decision to move our designated HS from Centennial to Wilde Lake. We just moved (from PG county) this to this neighborhood 2 weeks ago solely for better schools!
3668	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4				3	10			Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WPES. WPES will grow to full utilization organically. This moves fewer students and the bus time will be less	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WPES. WPES will grow to full utilization organically. This moves fewer students and the bus time will be less
3669	BellowsSpringES			5	1	6			My daughter will be starting school at Bellows Springs this fall. Currently students in our neighborhood of polygon #2082 have to go to the Thomas Viaduct middle school. I would be ELATED if she could stay with her friends and go to Mayfield Middle school	1					
3670	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	1			1	7				
3671	TriadelphiaRidgeES			1	3	4	6	7	Wilde Lake HS is accessible via transit or on foot from Swansfield ES polygons. River Hill HS is neither. Moving Swansfield polygons to River Hill will significantly hinder the ability of parents without a vehicle to be involved in school activities.	3	4	6	7	The AAC draft plan proposes to shift way too many students into River Hill HS. This ignores the current and impending growth of residents in the existing River Hill polygons and will introduce more problems down the road.	
3672	CentennialLaneES	BurleighManorMS		1	3	1	4	13	my kids walk to school now cuz its .9 mile and new plan they have cross Rt 108 and its 3-4 miles.	3	6	7	9	we just moved 2 year ago because of good neighbourhood , best school in howard county. my kids are in GT classes. here in school no body bully her. and both my kids feel relax and confedent and now you are sending us to worst school.	My girls feel very protected and are very pround when they go to this school and going to Wilde lake where they named this school as WildeRape school they are already scared and depressed. they feel people will bully them and that way they be depressed.
3673	CentennialLaneES				3	7	3			3	4	7			
3674	PointersRunES	ClarksvilleMS		4	1	6	1	7	None	3	6	13	7	My child, a rising 8th grader at Clarksville MS, has struggles with making friends and social skills due to autism. He has worked hard to finally find a small peer group of four friends. These children all live off of Great Star Drive.	Pointers Run and Pheasant Ridge neighborhoods off Great Star need to remain together through high school. They attend Clarksville MS and do all other neighborhood activities as one community, such as swim team and other events. Please keep them together.
3675	HammondES	HammondMS	AtholtonHS	5	1	8	6	3	Thank you for reducing the number of students redistricted from Atholton HS. This will enable AHS to keep some of the great academic and athletic programs at the school.	1	7	8	9	Number of students moving out of Atholton HS was 3/4 of the school population. The existing school programs ie the Robotics program that just went to the World Championships & Chamber Orchestra that has been named 5th in the world would totally change.	Please allow 11th and 12th graders to stay at their HS if the redistricting takes place. The best option would be to wait until a new high school is built to redistrict.
3676	HammondES	HammondMS	AtholtonHS	5	1	8	6	3	Thank you for reducing the number of students redistricted from Atholton HS. This will enable AHS to keep some of the great academic and athletic programs at the school.	1	7	8	9	Number of students moving out of Atholton HS was 3/4 of the school population. Please allow 11th and 12th graders to stay at their HS if the redistricting takes place. The best option would be to wait until a new high school is built to redistrict.
3677	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	10	12		1	1	10	12	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	

3678	IlchesterES	BonnieBranchMS	HowardHS	5	2	6	7	8	My daughter is about to begin at Howard High School and the AAC draft scenario enables her to remain at Howard for her entire high school career. This is extremely important to us, as is keeping my 6th grade son on track to attend Howard as well.	1	6	7	8	The AAC draft plan keeps my Polygon - 84 - in the Howard High district. The Feasibility Study does not. We wish to remain in the Howard High District.	Please keep Polygon 84 in the Howard High District and recommend that the AAC draft plan be the one recommended to the Superintendent. Thank you.
3679		BonnieBranchMS		1	3	7	4	13		3	4	8	13		Instead of attending a school which is walking distance away, my child would be bused to a school further away. When I purchased my home it was with the understanding that my child would attend BBMS.
3680	HammondES	HammondMS	AtholtonHS	5	1	8	9	7	Thank you for not moving 3/4 of Atholton HS. With the draft plan, AHS will have the opportunity to continue to have strong academic programs and other wonderful programs such as JRROTC which currently brings students in from other areas of the county.	1	7	8	9	Atholton high school was looing 3/4 of the school in the last Feasibility Study which would totally change some of the amazing programs ie Robotics that made it to World Championships last year. School would never be the same.	Please allow 11th and 12th graders stay in the schools. So hard to change schools when a student has worked so hard to gain certain achievements in the high school the student is in.
3681			HowardHS		2	3	4	14	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	4	3			BUT, Howard and Ellicott Mills are SO VERY overcrowded that I actually fear for the safety of the students. I know that during transitions that the halls are wall-to-wall kids- can't imagine what would happen in a true emergency.This has to change.
3682			MtHebronHS	1	3	4	8	13		3	4	8	13	This will be the 3rd time in 11 years that my neighborhood has been impacted by redistricting. Leave walkers alone across the county.	Moving Mt Hebron's entire walker population will make the traffic on Route 99 even worse. This move would put hundreds more cars on 8 miles of Route 99 during the busiest times of day for commuter traffic. This will have negative impacts to all residents.
3683	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	10	9	2		1					
3684	WestFriendshipES	MountViewMS		1	3	13	10	1	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES, and keep 224,229,231,232,1231,1229,2229 at WPES. WPES will grow to full utilization organically. Moves less students, bus times less, b/c Turf Valley is densely populated.	3	3	4	13	Move 224,229,231,232,1231,1229,2229 to BPES but bring them back to MVMS and MRHS. Ok for small feed from ES to MS. Want to keep our neighborhood schools intact as much as possible.	As of now, the AAC plan would put WFES utilization at 113%by 2022 and 126% by 2023.
3685			CentennialHS	5	2	14	14	14		1	1	6	7		
3686		PatuxentValleyMS		4	2	14			It solves overcrowding by moving far fewer students						
3687	HammondES	HammondMS	AtholtonHS	5	1	8	7	4	THANK YOU FOR NOT MOVING SO MANY STUDENTS FROM ATHOLTON HS. PLEASE JUST REDISTRICT WHEN A NEW HIGH SCHOOL IS OPENED.	1	8	5	9	THE NUMBER OF STUDENTS BEING MOVED OUT OF ATHOLTON HS WAS UNREALISTIC. THE SCHOOL WOULD COMPLETELY LOOSE ITS CURRENT SCHOOL IDENTITY WITH THE AMAZING ACADEMIC PROGRAMS THAT ARE CURRENTLY AT AHS.	THE 2016 FEASIBILITY STUDY STATED HIGH SCHOOLS WOULD NOT BE REDISTRICTED FOR 10 YEARS. HOCO RESIDENTS WERE ONLY EXPECTING TO OPEN A ELEMENTARY SCHOOL. CHANGING THE FEASIBILITY STUDY FOR 2017 TO INCLUDE HIGH SCHOOLS WAS NOT FAIR TO OUR TAX PAYING RESIDENTS
3688			HowardHS	1	3	4	3	13	Polygons 65, 1065, & 2065 walk to Howard HS. Walkers reduce bus costs in line with Policy 6010. Adding buses to take students to Oakland Mills HS would sacrifice money for other costs such as HS #13, & prevent my kids from playing sports.	3	4	3	13	Polygons 65, 1065, & 2065 walk to Howard HS. Walking to school allows my kids to participate in sports because they can walk home. It reduces traffic and the added risk of teen drivers.	Polygons 65, 1065, & 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMMS will quickly become overcrowded, potentially more so than Howard HS
3689	NorthfieldES	BurleighManorMS	CentennialHS	1	3	9	7	7		3	4	2			
3690	AtholtonES	HammondMS	HammondHS	1	3	6	13	7	I am highly disappointed with this change. The first option was much better. My children who will attend Hammond MS won't be going to HS with the majority of peers from MS. This option is not acceptable.	3	6	7	13	I like the feasibility study option much better than the AAC draft plan. I really hope this in not the final decision.	Please consider other options.
3691	TalbottSpringsES				3	4	7	9			13	13	13		
3692	WestFriendshipES			1	3	4	13	7	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverley ES and keep 224, 229, 231, 232, 1231, 1299, 2229 at WPES. This moves the fewer students and the bus time will be less.	3	4	7	13	The feasibility study causes increased transportation times for the children but that would be much less of a financial concern than the AAC draft. If all else fails, revert to feasibity study.	This plan moves 40% of the WFES community out of the school and moves areas that are near MVMS and MRHS to a much farther school out of the community thus ruining community stability. This is dangerous for young drivers that would need to drive 70 to HS
3693	NorthfieldES	BurleighManorMS	CentennialHS	1	3	3	4	5	Keep 154,1154etc in centennial high school	3	2				The plan is not reasonable
3694	NorthfieldES	DunloggінMS	CentennialHS	1	3	4	6	7	Reasons for changes made on August 8, not cited, process is not transparent. Transitioning 3/4 of Dunloggin neighborhood does not promote community stability, dividing line is not a natural border such as Frederick Road	3	7	6	5	number, variety and type of academic offerings vastly different WLHS vs. current availability at CHS, distance to WLHS is double than the travel distance to CHS	
3695	ThunderHillES			1	3	3	4	13	Polygons 65,1065, 2065 walk to Howard hs. Walkers reduce bus costs , which demonstrated fiscal responsibility in line with policy 6020. Adding buses to transport students to Oakland mills hs would me sacrificing money for other costs such as hs #13.	3	3	4	13	Polygons 65, 1065, 2065 should remain at a middle school that feeds to Howard hs. Moving 65, 1065, 2065 to Oakland Mills hs does not procid a long term solution because omhs will quickly become overwhelming crowded more so than Howard hs.	
3696	RockburnES	BonnieBranchMS	HowardHS	1	3	4	7		Cascade Overlook (Polygon 91) does not like the AAC draft plan at all. It moves our neighborhood to ELMS which is 3.5 miles away compared to BBMS which is 0.5 mile away.	3	4	7		Cascade Overlook (Polygon 91) really liked the feasibility study the best because it has or Neighborhood going to both BBMS and Ilchester ES (which are both less than 0.5 mile from our neighborhood). We consider BBMS an Ichester to be community schools.	
3697	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community
3698	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	9	14		We need to keep Emerson and wilcopia as is for athalton high school						
3699	PointersRunES			1	3	6	7	4	Moving 1189 to Dayton oaks will not allow for kids to maintain social groups they have both inside and outside school. We participate in many river hill/Columbia activities.	3	6	7	4	Arbitrarily moved 1189 out of pointers run when feasibility study kept 1189 in pointers run. We should not be moved out so new developments that are not built yet can go to pointers run.	Keep 1189 in pointers run elementary school. Keep community together. Based on this new plan only a small percentage would move from the same elementary to the same middle school. Don't single 1189 out.
3700	NorthfieldES	DunloggінMS		1	3	2	3	4	increased transportation cost attributed to change in start times, another increase in costs will occur when additional transportation is needed to get more students to a school farther from their neighborhood, decision making process not transparent	3	2	3	6	plans for re-districting high schools were not supposed to be on the table, potential for moves AGAIN when new high school opens in 5 years, splitting neighborhood directly in the middle not at a natural border, such as Toll House Road, Old Columbia Pike	
3701	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	6	4	13	No long term resolution of ES MS or HS enrollment %, while being disruptive to students and Families in the effected community	3	4	6			
3702	PointersRunES	ClarksvilleMS				6	8		This plan would represent a significant reassignment for a number of children, leading to shifts in educational expectations and performance. While this might be beneficial for some, it stands to have a more negative impact on others.	3	6	8	7		
3703	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	6	13	Taking historical ellicott city CHS kids to Wilde Lake HS, is arrogant approach to just meet capacity, not respecting contiguous community action. Pls remember Settlers lived on Woodland Rd before Ellicott City established!!! City asked them 4 the Road	3				Don't need to look at other redistricting. By looking at taking new townhouse near county campus to CHS a couple years ago, but kicking historical area kids to Columbia, we lost confidence on the study already.	Who'd buy $800k house at Beazer Homes Overlook at Wellford Dr, if kids go to Wilde Lake HS in COLUMBIA?? You? Why townhouse kids near County Campus can go Centennial HS? So far, and different community, Why? The distance does not justify and convince us!
3704	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	13	10		3	7	13	6		
3705	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	1	4	6	7	Very happy to see that Polygon 199 keeps students at River Hill HS. Keeps communities of students together& limits long bus rides.	1					
3706	AtholtonES	HammondMS	HammondHS	1	3	7	4	1	My children would be moved from an under-utilized middle school to an over utilized middle school, which is further to the east (ie, overcrowded part of the county). For highschool, they would by pass three closer highschools, difficult to bicycle there.	3	4	7	10	The Feasibility study didn't impact Hammond Middle (which is NOT overcrowded), and moved our highschool further west uniting much of AES to go to the same high school. It was close and a safe bicycling route.	The AAC draft plan appears to create complicated solutions for problems that don't exist (ie, no overcrowding at HMS--why move students east toward the more crowded area). Both HHS and AHS close an not over crowded--why move further to WLHS?
3707	WestFriendshipES			1	3	4	13	9	- The number of students that walk or receive bus service and the distance and time bused students travel.---bus times to Bushy Park ES, Glenwood MS, and Glenelg HS would probably be at least an hour and move people away that are near the middle and high	2					
3708		EllicottMillsMS		1	3	7	6								
3709	ClarksvilleES			1	3	7	1	3		3	7	4			
3710	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1			This plan is an improvement as it reduces overcrowding while minimizing the impact on other schools.	1	2			This is a great plan since it preserves Atholton HS.	
3711	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	10	1		The AAC Plan is far more superior to the Feasibility Study.	1					The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same school
3712	GormanCrossingES	MurrayHillMS	AtholtonHS		1	1	7	10	This is a good plan since it reduces overcrowding while leaving many school boundaries intact.	1	1	2	7	I think that this proposal is much better (esp. regarding High Schools like Atholton) than the Feasibility Study.	Thanks to the AAC for preserving Atholton HS while addressing overcrowding in the East.
3713	CentennialLaneES	BurleighManorMS	CentennialHS	5	3	13	6	7							
3714				5	2	8	14	14		1	6	7	9		
3715	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	7	6	8	Was blindsided by the AAC plan. Splits our neighborhood into 2 high schools, leaves us in the 10% feed from our MS to HS - would rather stay with current school district than go to AAC plan. AAC plan will create need to redistrict again in near future	3	6	7	8	Feasibility plan at least pushes population west to avoid another redistricting in near future. AAC plan is poorly put together, I see another need to redistrict within a few years under AAC plan.Splits small neighborhood between 2 HS, not a good solution	Understood that population growth forces redistricting but we should minimize the amount of times we do this. That means push more population west now, don't wait then redistrict again in a few years. Under ANY plan neighborhoods should not be split up.
3716	SwansfieldES	HarpersChoiceMS	WildeLakeHS	1	3	4	7	5		3	4	6	8		
3717				5	2	6			Thank you for maintaining Frederick Rd. as the logical boundary line.	1	6			Thank you for keeping Gray Rock community together and for maintaining Frederic Rd. as the logical boundary line.	
3718			CentennialHS	1	3	7	1	9	The AAC draft plan arbitrarily divides the St Johns Community Association.	3	7	1	4	The feasibility study plan kept the community together.	The Feasibility Study Plan to shift students to Marriott's Ridge was better under IV.B.1.a and if the community must be moved then all of 1155, 155, 3150, 150, 2150, 1150, and 4150 should be moved to Marriott's Ridge
3719	CentennialLaneES	BurleighManorMS		4	1	7	6			1	7	6		I was chiefly concerned with breaking apart the Font Hill neighborhood & community. The Feasibility Study had some neighbors south of Frederick Rd going to Marriotts Ridge, which would be a mistaken, given the longstanding neighborhood involvement at CHS	Keeping contiguous neighborhoods together from school to school should be an important goal for the committee, as it is of paramount importance to the community.
3720	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	We are concerned that this appears to create a small feed for polygons 1180, 180, & 181 (Woodmark neighborhood). Per Land Records, these addresses on Triadelphia Road are included in the Woodmark neighborhood (12465, 12475, 12485, 12495).	3	6	7	13	This proposed plan separates polygons 3182, 2182,1182, 162, 2183, 1183, and 183 from the rest of the TRES/FQMS/RHHS feed.	The following addresses on Triadelphia Road (12465, 12475, 12485, 12495) are part of Woodmark neighborhood and should be added to polygon 1180 or 180 or 181.
3721			CentennialHS	1	3	6	4			3					
3722	PointersRunES			1	3	4	9	6		3	4	1	6		
3723			AtholtonHS	1	2				It is the same	3	13	6	7		We live close to River Hill High School and really wish all of our kids could attend RHHS with their friends. Our oldest daughter really misses her friends that went the RHHS, and we hope redistricting can keep our kids at out neighborhood school.

3724	AtholtonES	HammondMS	HammondHS	1	3	6	7	4	Purposes and objectives, rationale for changes are not sufficiently explained. The AAC plan" appears to be reactionary and lacks methodology. Appears to favor EC residents and disadvantage Columbia and Association residents."	3	7	4		Goodness. At least the Feasibility Study has some methodology rather than reaction to the loudest voices.	This was a very discouraging and disappointing effort. Please take another look -- I recognize this isn't easy and many people are going to be upset whatever the decision.
3725	PointersRunES			3	2	7	6		I like the fact students from PRES will move together to CMS as a group, but I am concerned that the plan does not allow for any relief in Atholton utilitization. This will only lead to another redistricting in the near future.	3	7	6	13	This plan allows for students in PRES to move through elementary, middle, and high school together. It also helps shift the school utilization for Atholton and River Hill so that neither will hopefully become over crowded before a new school can be built	
3726	PointersRunES	LimeKilnMS	AtholtonHS	1	3	4	6	7		3	4	6	7		
3727	ClemensCrossingE	WildeLakeMS	AtholtonHS	1	3	1	1	1		3	1	1	1		
3728			MarriottsRidgeHS	1	3	9	4		We literally live minutes away from Marriott's Ridge. Tell me how my children will benefit from waking up twice as early to ride a bus twice as long to go get home two times later every day???	3	4	9			Its absurd to expect our kids to attend a school further away from their home when they live closest to the school they are currently attending. I can't wrap my finger around the lack of logic behind this proposal.
3729			HowardHS	5	2	6	7			1	6	7	8		Please provide a summary of this plan but at a glance it seems to move less students and keep communities more intact.
3730	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	2	The draft plan moves my walker from MHHS to MRHS. This increases transportation costs, splits both my community and my family (a senior at MHHS and a sophomore at MRHS). It doesn't take into account the new high school, which will move us again next time.	3	4	7	2	The draft moves MORE walkers from MHHS to MRHS. This will cost the county MORE in transportation costs. It splits a strong community into 2.	Have you compared the cost of transporting current walkers to a school miles away to the cost of installing portables until the new high school is completed in Ellridge?
3731	PointersRunES				3	6			I want my children to be able to stay with friends they have made through high school.	3	6			The redistricting could help keep Pointers Run kids together throughout their schooling. The current plan doesn't do that.	Please help us keep our kids together with their friends and neighbors!
3732	CentennialLaneES	BurleighManorMS	CentennialHS	5	2	7	4	10		1	4	6	7		Thanks for keeping font hill community together.
3733	PointersRunES			1	3	6	7	13	Keep 1189 in pointers run elementary school. Doesn't make sense to move kids from a school 1 mile away to 5 miles away. Creates a small feed from elementary school to middle school.	3	6	7	13	This plan will create an unnecessary commute for our children (#1189) and will isolate them from their friends as a high majority are staying at pointers run. Keep the community together.	It seems that changes that were deemed unacceptable from the first plan are being done in other areas now with this plan. Can't be good for some and not others.
3734		ElkridgeLandingMS	HowardHS	5	2	6				1	6	7	8	The Lyndwood community polygons 87, 2087 & 3087 want to stay at Howard as a complete neighborhood...with the peers, friends & neighbors that they've been attending school with since Rockburn Elem. The AAC keeps our & feeds together RES- ELMS-Howard.	
3735	CentennialLaneES	BurleighManorMS	CentennialHS	5		4	7	8		1	4	7	10		
3736			WildeLakeHS	1	3	4	7	6	Breaking up a contiguous neighborhood along Little Patuxent Parkway to bus kids much farther is not a good thing. We are a neighborhood far from River Hill. It mKes more sense to stay with Wilde Lake (or perhaps move to Atholton if we have to).	3	4	7	6	Breaking up a contiguous neighborhood along Little Patuxent Parkway to bus kids much farther is not a good thing. We are a neighborhood far from River Hill. It mKes more sense to stay with Wilde Lake (or perhaps move to Atholton if we have to).	The timeline of this is taking parents by surprise because usually it takes longer. Don't force the process through and switch things back and forth on our kids.
3737	PointersRunES	ClarksvilleMS		1	3	4	4	4	Like the feasibility Study Plan	3	4	4	4	Too confusing and increasing the current commute time for the elementary kids.	Currently we use before care at school and our commute time is increased by 30min traveling with the AAC reassigned Dayton Oaks elementary. It impacts my child health with the increased commute from total 10 min to 1 hr .
3738	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	7	3	Swansfield is much closer to Wilde lake HS or Althoton HS.	3	4	7	1	AAC draft plan is not practical.	
3739	PointersRunES			1	3	6	4	7	Keep current students in PRES to provide our ability to maintain contiguous neighborhoods. Our students do not deserve to be arbitrarily moved.	3	6	7	13	Keep current students in PRES. We should not be moved to accommodate new developments with no families living in them yet. We moved here to be close to PRES. We live less than 1 mile away. Do not move us to a school 5 miles away!	Moving students out of PRES impacts these students in many ways. Our students will no longer be able to participate in the community activities if they are moved so far away from our contiguous neighborhoods. Our students deserve BETTER!!!!
3740		ClarksvilleMS		5	1	4	6	1							
3741	CentennialLaneES	BurleighManorMS		1	3	3	9	1	Keep 147 in Centennial Lane ES, Burleigh Manor MS, and Centennial HS Keeping polygon 147 in Centennial HS would still keep the school under the 115% capacity in the next 5 years. APPO states that new development can be approved if the projected school u	3	2	10	6	Keep 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS. Reduces utilization at CHS by using existing capacity at MRHS. Improved diversity.Keep 147 in current schools(CLES, BMMS, CHS), and move 1173 and 2173 to Marrio	Keep 147 in current schools (CLES, BMMS, CHS), and move 1184 zone to Marriotts Ridge HS Reduces utilization at CHS by using existing capacity at MRHS.This is also recommended by the Feasibility Study.Keep 147 in current schools (CLES, BMMS, CHS), and move
3742	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	7	3	AAC plan made things disordered.	3	3	4	7	AAC plan will have a disastrous effect for many years.	
3743	CentennialLaneES	BurleighManorMS	CentennialHS		1	1	4	7		1	1	7	4		
3744	PointersRunES			1	3	6	7	10	Please consider keeping polygon 1189 at Pointers Run ES. The current proposed move to Dayton Oaks ES will force children to travel a significant distance and cross a major road (Rt 108) in order to get to school. This is both a safety issue and a hardship	3	4	6	7	Shifting 1189 to DOES removes children in this area from the the River Hill community. Very few DOES students will attend Clarksville MS or River Hill HS. DOES is also quite far from Clarksville MS, which is significant strain on parents with multiple kid	Please keep polygon 1189 at PRES and do not move it to Dayton Oaks.
3745	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	9	7		3	3	2	4		
3746			CentennialHS	5	1	1	2	3	The AAC draft plan is much better than current school attendance areas.	1	1	2	6	The AAC draft plan is better than Feasibility study.	It is important to keep the same community together.
3747	CentennialLaneES	BurleighManorMS		1	3	13	10	9	Keep 147 in Centennial Lane ES, Burleigh Manor MS, and Centennial HS Keep 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS.	3	4	1	2	Keep 147 in current schools(CLES, BMMS, CHS), and move 2150 to Wilde Lake H	Keep 147 in current schools (CLES, BMMS, CHS), and move 1184 zone to Marriotts Ridge HS
3748	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	4	2	Unnecessarily splits Dunloggin neighborhood in two high schools/places half of Dunloggin in 4th closest high school/distance and congestion in Downtown Columbia will overburden students with long commute/massive building in Columbia not accounted for	3	7	6	2	See above	Moving the 150 polygons to WLHS from CHS is statistically insignicant and fails to adhere to most of the 6010 policies. It also creates a small feed from Dunloggin to CHS.
3749	PointersRunES			1	3	4	6	7	Keep current students in PRES. Our students deserve to remain in their school that is less than 1 mile from our homes and not moved 5 miles away. We moved here to be close to PRES.	3	6	7	13	Our children deserve to be able to maintain their activities afforded them by their contiguous community affiliations. Move them and you take away the ability for many to continue in these educationally sound activities because they will be too far away.	Our children are no less deserving of remaining in their current elementary school than others who parents voices were loud enough to get actions changed. New builds should be transported to schools farther away. They're not be taken out of a school.
3750	WestfriendshipES		MarriottsRidgeHS	1	3	4	6	7	Keep 232 in Marriotts Ridge HS and Mount View MS due to proximity to the schools, ease of transportation, students walking and biking to schools and activities and continuity with neighborhoods.	3	4				My children walk, cycle, carpool to and from school activities which wouldn't be possible with the significant increase in distance to the proposed changes in HS and MS locations.
3751	PointersRunES	ClarksvilleMS	AtholtonHS	4	2	1	12	14		1	1	12	2	2024 redistricting for HS#13 primarily involves only three HS regions in the AAC draft. The Feasibility Study has four HS regions to juggle which would include Atholton HS. In the FS, AHS would change drastically twice over 6 years.	
3752	NorthfieldES	BurleighManorMS	CentennialHS	1	3	6	5	4	I believe vicinity is the most important criteria should be considered. I can not think of any reason to rationalize carving out Polygon 154 area.	3	6	5	4	I believe vicinity is the most important criteria should be considered. I can not think of any reason to rationalize carving out Polygon 154 area.	
3753	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	7		3	4	6	13	Current plan is the best. Too much changes one time, too confusing. It will impact too many students in the area, too much too dramatic change is never good! Keep the current school district!	
3754	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	7	6	4	I do not like the AAC plan because it doesn't make any sense. It's random and neighborhoods are split apart.	3	7	6	4	I like the Feasibility Study much better. At least there's thoughtfulness and order behind it.	Please allow those Atholoton students who were once assigned to River Hill HS, go to River Hill HS. Finally we can allow the kids to be together. Keep River Hill area together at River Hill HS!
3755	GormanCrossingE	MurrayHillMS	AtholtonHS	5	3	14	14	14		1	1	10		The AAC plan is superior to the feasibility study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood(6010-IV.B.2.b) Move Polygons 272 and 1272 to Murray Hills MS & Atholton HS)	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go back to the same schools.
3756			MarriottsRidgeHS	1	3	4	7	14		3	4	7	14		
3757	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	6	Please keep our centennial community intact, we live in Ellicott City and our kids should attend schools in Ellicott city, not Columbia	3	7	4	13	Just simply move polygon 97 out of Centennial district	Fire AAC
3760	DaytonOaksES	FollyQuarterMS	GlenelgHS	1	3	1	6	4		3	6	1	4	Feasibility better than AAC for West. AAC negatives: Decreased # of students moving together from MS to HS = underutilizing GHS and overcrowding RHHS and added new MS split for DOES. Should send DOES/TRES -> FQMS polygons to GHS as shown in Feasibility.	Feasibility intent = logically, mathematically formulate long-term plan yet AAC = personal, emotional response. Hope county uses due diligence to agree on best long-run option so that redistricting, bus routes, & start/end times aren't a problem again.
3761	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	6	7	Students should not be moved to a school that is farther away from their current home address. It is ridiculous to uproot families and how they function to move students farther away from the schools they currently attend. Polygon 147 shouldn't move.	3	13	6	7	The AAC draft plan does not support the Feasibility Study results. The committee played eenie-meenie-miney-mo" choosing haphazardly to move polygon 147 without considering other more legitimate options or the ramifications to the community/students."	The reason to keep Font Hill in Centennial was for continuity of community. Polygon 147 has equally long-standing communities who have been part of Centennial for generations. It is not right to keep Font Hill but move the polygon 147. DO NO MOVE 147!!!
3762	ManorWoodsES			5	1	6	7	1		1	6	7	1		
3763	GormanCrossingE	MurrayHillMS	AtholtonHS	5	1	1	10	11	Good job reducing overcrowding while preserving Atholton.	1	9	2	1	Please adopt this draft scenario as your final scenario. It preserves Atholton HS.	I strongly support this draft scenario, especially since it maintains Atholton HS.
3764	PointersRunES	LimeKilnMS	ReservoirHS	1	3	4	6	7		3	4	6	7		
3765	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7		3	4	6	5		
3766	RockburnES	BonnieBranchMS		2	3	4	7	13	Right now, my child can walk to and from BBMS for after school activities. That would not be an option if she had to attend ELMS. Looking at the middle school draft map, there are other quadrants closer to ELMS that would make more sense.	3	4	7	13	The cost for transportation will increase since students will have to be bused farther to attend ELMS.	Also, during an earlier iteration of the plan our son would be able to attend Ilchester which is closer to our house instead of having to be bused farther to Rockburn. We would like for our son to attend either Ilchester and BBMS. Or Rockburn and BBMS.
3767	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	13	10	The current areas establish communities the AAC draft plan does not recognize community needs outside of the members. 147 is part of the Centennial Community and many have been for generations.	3	7	6	13	Feasibility - schools in north used to maintain communities. AAC - moves polygon 147 children to central schools to solve what problem? Problems the AAC plan creates! CLES is not overcrowded. Low attendance for WLHS is due to moving polygons away!	Areas east of route 29 or next to Frederick Rd should not have preference to attend CCH - should attend northern schools as planned. . Polygon 147 has always been part of the Centennial community and is very close to the school w/ minimal impact to #s.
3768	CentennialLaneES				1	7	1		Helps with overcrowding at the elementary school.	1	6	7	9	The study didn't address overcrowding at elem. and middle school. This plan does by moving polygon 147 at the elementary school level, helps also with middle and high school. Keeps Font Hill intact, polygons 2184, 1184, 184, and 156.	PLEASE keep Font Hill Community together and please send 147 somewhere else. When that new development was built it brought a ton of kids in, this year there will be two buses just for the elementary school kids. CLES can not take anymore. Thank you!
3769	NorthfieldES	DunloggінMS		1	3	7	4	2	The current plan defies simple logic due primarily based on proximity concerns and traffic in our communities. The most effective plans would keep preserve community continuity while reducing busing, resulting in more rested and less stressed students.	3	7	4	2		I understood the reason for redistricting was to increase utilization of underutilized western Howard County Schools. It seems to me that this reason is nothing more than subterfuge for an extensive redistricting for social engineering purposes.
3770	ElkridgeES			1	3	13			Your proposal would mean that my daughter would eventually go to Long Reach. Her siblings went to Howard, which is a much better school. I have heard nothing positive about Long Reach. We purposely moved here for Howard High.	3	7	13			We moved from P.G. County to get our kids out of bad schools & we carefully researched schools in Howard County before moving here. Now it looks like our youngest will end up at Long Reach, which does not have a great reputation.
3771				5	1	10	2	9	The AAC draft plan improves feeds from ES to MS by eliminating small feeds and not breaking up neighborhoods. The high school districts do a good job of balancing capacity across the county while redistricting a relatively few number of students.	1	7	9	10	The AAC draft plan is significantly better than the feasibility study. The same goals of the feasibility study are achieved with the AAC draft plan, but with fewer students moving high schools and maintaining current school and neighborhood communities.	I strongly support the AAC draft plan. The plan is clearly developed by members of the community because existing communities are maintained. Overcrowded schools are reduced and under-utilized schools are used more efficiently.

3772			CentennialHS	5	1	1	6	7		1	4	6	7	Thank you for recognizing the importance of contiguous neighborhoods and keeping together 2184, 1184, 184, and 156. The Font Hill Community. Also AAC addressed overcrowding issues at with elementary school/middle school by moving polygon 147 to LFES.	
3773				5	1	1				1	6	7			
3774				5	1	1				1	4	6	7	Better plan, keeps on community intact.	
3775				1	3	7			The draft, as it relates to HS designations for Dunloggin families, fails to consider the longstanding, cohesive nature of the Dunloggin Community by arbitrarily dividing this more than 70 year-old neighborhood.						Every effort should be made to respect the integrity of neighborhoods so that children who interact together in the community should have the opportunity to enhance those relationships in the schools.
3776	LongfellowES	HarpersChoiceMS	RiverHillHS	4	1	1	7	10	Good overall. If a polygon is moving more than one school (i.e. ES and HS) then MS should also be considered. We live in polygon 142 - where our MS remains the same with Harpers MS vs Clarksville MS.	1					
3777	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	13	3		3	7	9	13		
3778	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	3	6	13	13	Polygon 179 is small amount of students. For 13 years, my children have been involved in same communities with same families and friends. This small section will be ripped apart from all they have known. Our three children still here it's too much.	3	7			Our polygon has minimal impact and the families in our neighborhood have children who are friends and mainly know others that would not be redistricted with them.	We have 3 children completely involved with the communities at MVMS and MRHS. Our youngest ones will be affected in a negative way dieting a critical age. Entering 8th and 6th grader.
3779	NorthfieldES	DunlogginMS		1	3	4	6	7	The previous school planning office's projection of school attendance was proven to be wrong, and we had the grossly imbalanced school utilization now. We should put off any redistrict plan now until further review of school attendance projection is done.	3	6	7	4	Both AAC draft plan and feasibility study are no good. However, AAC plan is even worse because it was rushed and without the expertise of school planning office on transportation, for example. AAC should propose no change to the current school boundary.	County school planning office and zoning office should do a better job at granting builders' requests for constructing new houses and school planning. Our kids should not suffer the consequences and to be moved to a different school than they expected.
3780	AtholtonES	HammondMS	HammondHS			13	6			3	4	6			
3781	LongfellowES	HarpersChoiceMS		4	2	9	6		With the new plan, Harper's Choice MS will receive a HIGHER number of FARM students (50%!!). Not good for students or teachers. Keep polygons 143, 2143, 144, 1144 at HCMS to reduce FARM impact.	1	1			Moves students west as promised. High school plan diversifies RHHS, CHS, WLHS more evenly. This is not the case with the Middle School plan, however.	Longfellow ES is losing non-FARM students and gaining a significant number of FARM to make an already high FARM school even higher. The same is happening at Harper's Choice MS. We need to advocate for evening out the FARM rates in HCPSS.
3782	NorthfieldES			1	3	7	4	6	Data has not been released to provide opportunity for an educated rationalization. Meeting scheduled for August 15 should be delayed until the data is released and appropriate time is provided to review them	3	6	7	4		
3783	NorthfieldES	DunlogginMS	CentennialHS	1	3	6	2	7	Please don't move our small 7 kid polygon to a school further away from our home. Our house purchase and being a teacher in specific schools were intentional when we moved to Howard County two years ago. Changes are confusing and squeaky wheels are ahead.	3	6	13	7	Please stop with the various plans and go back to the first proposed plan.	
3784	WestFriendshipES	MountViewMS	MarriottsRidgeHS	2	3	4	2	6	A small portion of kids that live off of 32 will get moved to BPES only to return to MCMS and MRHS. WTES will have to have septic improvements when capacity exceeds 100% and this plan pushes that est to +120% quickly	3	4	2	7	A small portion of kids that live East of 32 and south of 99 will get sent to GHS and GMS when they are much closer to MRHS and MVMS. WTES will have to have septic improvements when capacity exceeds 100% and this plan pushes that est to +120% quickly	Polygon 224 to WTES, MVMS, MRHS makes more sense since it is accessible from 99 and would not involve getting on 32 to get to any of those schools.
3785	SwansfieldES	HarpersChoiceMS	WildeLakeHS	2	2	7	4	3		2	7	6	9	Bus rides are getting longer. I thought there was a plan/study to see the benefits of different start/dismissal times to improve transportation. I feel this new plan is going the wrong direction if that is a goal in the county!	High Schools were not included on in the original Feasibility Study, why are the included now?
3786		HammondMS	AtholtonHS	5	1	10	10	10	The plan is better because it improves utilization with fewer children impacted	1	10	6	7	This plan is better than the feasability study because it achieves improved utilization numbers with less drastic impact to neighborhoods and schools.	
3787	NorthfieldES			1	3	7	4	6	The newly proposed draft plan fails on multiple dimensions. It breaks apart existing neighborhoods such that children who would normally walk together to the same school would now go to different schools. It creates transportation/safety burdens	3	4	6	7	The feasibility plan created new neighborhood divides compared to existing boundaries. The Draft plan exacerbates these issues and has many additional negative consequences related to transportation; keeping neighborhoods intact; etc	The draft plan needs to be dropped. Major changes to the feasibility study were made very late in the process depriving the public time to review the plan and provide feedback. A 7-day review window (8/8-8/15) is anti-democratic and lacks transparency.
3788	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	6	7	1	This plan is far superior and maintains the long standing community of Font Hill	1	6	7	1		
3789	NorthfieldES	DunlogginMS	CentennialHS	1	3	7	6	4		3	7	6	4		
3790	ClemensCrossingE	WildeLakeMS		1	3	7	9	6	I am so far from Wilde Lake MS and transportation there is stupid. Half of the kids there don't end up at the same HS, which is also dumb.	3	6	7	9	The Feasibility study changed every one of my school boundaries and all of them were better! The AAC plan changed them all back to the way they were, which is terrible!	Please don't kowtow to whiners. Please actually make school boundaries better instead of just letting rich parents boss you around for their own personal self interest. Our schools have real problems that can't be fixed without making real changes!
3791	NorthfieldES	DunloggiMS		1	3	4	6	7	Please don't break up our neighborhood. We want our kids to have friends and classmates that they move with from Elementary all the way through Highschool. Please don't split up our neighborhood and make us go twice the distance to WildLake	3	6	4	7	Pulling polygons 111, 1111, and 2111 which are closer than 150 and 4150 doesn't make any sense.	Causing all this stress and splitting up neighhoods for negligible number differences doesn't make any sense. Please don't do it!!
3792	NorthfieldES	DunloggiMS	CentennialHS	1	3	6	7	13		3	2	4	6		You will need to redistrict anyway, so this seems unnecessary at this point. It is also very concerning to us as a community to split up our neighborhood. We are extremely unhappy about that.
3793	CentennialLaneES			1	3	13	7	4		3	7	13	4		Alternative plan 1: keep Polygon 147 in its current schools (CLES, BMMS, CHS). Alternative plan 2: keep Polygon 147 in its current schools (CLES, BMMS, CHS); move Polygon 2150 to Wilde Lake HS (that way, only 1 school change instead of 3 for Polygon 147).
3794	ThunderHillES	ElliottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	4	3	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3795		MurrayHillMS		5	2	9	14	14		1	10	1	9	The original feasibility study moved more than 2000 students MORE than the AAC Draft Proposal. The AAC Draft addresses overcapacity while providing less disruption and more stability while accomplishing the same goals.	Feasibility study moved 951 students from Altholton (66%) out of Altholton and 786 student in. The 1731 Students is greater than the total enrollment of the school. Altholton is NOT overcapacity. This unfair major disruption is corrected be the AAC Draft P
3796	AtholtonES			5	2	7	10	9		1	7	9	10		
3797	PointersRunES	LimeKilnMS	AtholtonHS	1	1	6	7	1		3	6	7	1		
3798	NorthfieldES	DunloggiMS		2	2	2	6	11	Adding and removing sectors is not an efficient way of handling increase in students / new communities. Adding schools, increasing capacity of current schools, efficient bus routes to reduce costs to schools - would help in the long term - 10 to 25 years.	2	9	4	11		
3799	ElkridgeES	ElkridgeLandingMS		1	3	6	7	13		3	7	6	13		
3800		ElkridgeLandingMS		1	3	7	6	13		3	7	6	13		
3801		BurleighManorMS	CentennialHS	1	3	6	7	13	Currently, my children's community is located in the Centennial area. She takes dance lessons, attends religious groups, takes private lessons, and plays soccer within five miles of the school. Going to a new community forces her to start anew.	3	6	7		Our entire lives are focused around the Centennial areas. For the duration of my child's time at MR, she will feel isolated because she is coming into a community she knows nothing about, and she will suffer academically because of it.	Redistricting this neighborhood to MRHS is not logical. It makes no sense to bus students to a school further away from their homes and their communities if the goal is to encourage academic success, because communities are important support systems.
3802	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	10	7	This plan is a correct step to solve the long-standing school capacity issues in the Centennial area. This plan has done a great job in maintaining contiguous communities. This plan also did a great job in achieving educational equality. Thank you!	1	1	7	9		
3803	ThunderHillES			1	2	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	65/1065/2065 should remain at a middle school that feeds to HHS. Moving 65/1065/2065 to OMHS does not provide a long-term solution because OMHS will quickly become overcrowded, maybe more so than HHS. Keep educational $ in education not buses.
3804			CentennialHS	1	3	6	7		As a former student at CHS, my academic life was enriched by my involvement and integration in my community. I can positively say that affected students would not feel these same sentiments by moving to MRHS and they would suffer academically.	3	6	7		In HoCo, schools are the center of community for many families, but our community is located here around centennial. We cannot shift our communities around MRHS because its not possible to move dance teachers, religious groups, and sports teams.	I am not sure how uprooting a few families and challenging them to fit into a new community will help better prepare students for a life beyond high school. High school is already hard enough without having your entire foundation rocked.
3805		ElliottMillsMS		1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Keep educational dollars paying teachers not buses! 65/1065/2065 should remain at a middle school feeding to HHS. Moving 65/1065/2065 to OMHS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than HHS.
3806			HowardHS	2		4			Students should attend the closest school to their residence. Under this plan, students in the Glenmont Neighborhood would be redistricted to Oakland Mills, which is further away than Howard High School.	3	4			I would oppose redistricting UNLESS it is intended to correct inequity of experience for students or to ameliorate concerns of unintended segregation.	
3807	NorthfieldES			1	3	7	4	9	The Dunloggin community (polygons ending with 150) is a close-knit Ellicott City community that the draft plan proposes to arbitrarily split into two. Even without any stops the bus ride to Wilde Lake high school would be 20 minutes in rush hour traffic.	3	7	4	9	The Feasibility study keeps the Dunloggin neighborhood together and in an Ellicott City high school, where this Ellicott City neighborhood belongs. Bus ride to Centennial is shorter and on less busy roads. There are 3 high schools closer than Wilde Lake.	It's outrageous that the Ellicott City neighborhood of Dunloggin has somehow migrated out of the "Northern Region" for high schools. Restore the regional boundaries to their rightful place so that it will be served by Ellicott City schools.
3808			AtholtonHS	1	3	7	9	13	Although this plan is better in that it retains the demographics at Atholton and minimizes the amount of movement from Atholton to River Hill, polygon 118, is still moving to River Hill. This adversely affects my Sophmore and Junior children.	1	7	9		The new plan retains most of the Atholton students, except for our polygon 118. Please consider retaining Polygon 118 at Atholton, as at present it impacts only 12 HS students. Moving students in their Junior year is detrimental to their college pathway	Please also consider retaining the ES school of Pointers Run. It is ridiculous to move the ES students to Dayton Oaks which is over 7 miles away while PRES is only 2 miles away.
3809	GormanCrossingES				3	13	7		It attempts to address the current school attendance areas but negatively impacts polygon#1297	3	13	7		The Feasibility Plan meets the needs of community 1297. The AAC's plan threatens the best interest of our community and children.	My comment is based on the negative impact AAC's proposed changes will have on community 1297, reassigning 53 projected elementary students from Gorman Crossing ES to Laurel Woods in SY19. The feasibility study proposed a different change.
3810	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	6	7	The Font Hill Community is thrilled with the current plan maintaining our long standing community	1	1	6	7		
3811	PointersRunES	ClarksvilleMS			3	7	13		The AAC draft plan has polygon 129 attending Atholton while moving virtually all adjacent polygons to River Hill. There are only three comments regarding 129 in the	3	6	13	7	In the feasibility study, polygon 129 attended RHHS. The AAC draft moves 129 to back to Atholton, while keeping our neighbors at RHHS. 129 is MUCH closer than other polygons you are moving to RHHS. The change to 129 makes no sense. Move 129 back to RHHS.	In the Citizen Plans, the 129 HS assignment is mentioned 3 times & in EACH instance the suggestion is that 129 attend RHHS. Why are you changing the 129 feasibility plan recommendation, when there is no record that this change has even been recommended?
3812	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	3	7		1					
3813	PointersRunES	ClarksvilleMS		1	3	7	6	4	From a HS perspective, the DRAFT plan does not create a cohesive geographic area attending RHHS. There are floating polygons way down in Fulton moving to RHHS and my area (129) which is part of River Hill is not going to RHHS. RHHS is my community HS.	3	7	6	4	From a HS perspective, the DRAFT plan does not create a cohesive geographic area attending RHHS. The Feasibility study was a better attempt at creating geographic consistency. The entire area North of 32 in River Hill should be at RHHS.	I view RHHS as my community HS. If I want to play a game of tennis or practice softball, this is where I go. I can easily walk or ride my bike there. AHS is not my community HS.
3814	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2					1					

3815	ThunderHillES	ElliottMillsMS	HowardHS	1	3	3	4	13	It makes no sense economically and socially to bus students to another high school when they can currently walk to their high school.	3	3	4	13	Walking is good for the children and reduces teen drivers who account for a disproportionate number of traffic accidents. It makes no sense to waste taxpayer money bussing children who can walk to school. The bureaucrat who proposed this should be fired.	Howard Co. has consistently used redistricting as a ruse. They redistrict children from higher performing schools into lowering performing ones automatically raising the lower performing schools' scores without having to help the underperforming children.
3816					3	6				3				I feel for the students in the Dunloggin neighborhood should attend the same high school.	
3817	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	2	7	4	6		1	7	4	11		
3818	ManorWoodsES	MountViewMS		5	2	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	1	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
3819	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	I Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	I Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3820	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	6	3	To reunite the Emerson neighborhood, could polygons 272 & 1272 move to Murray Hill MS & Atholton HS?	1	6	1	3	The AAC draft plan for Atholton HS is superior to the Feasibility study. It keeps our children in the same feeds. Our neighborhood has always gone to Atholton HS; we would like to keep it this way. The FS decimated Atholton, the new plan preserves it.	
3821	PointersRunES	ClarksvilleMS		1	3	6	7	4	The new draft plan moves all of my neighbors to RHHS, while leaving polygon 129 attending AHS. RHHS is within walking distance is clearly our community center and is the primary feed from our MS. This change to the feasibility plan makes no sense.	3	6	7	4	In the feasibility study, polygon 129 attended RHHS. The AAC draft moves 129 to back to Atholton, while keeping our neighbors at RHHS. 129 is MUCH closer than other polygons you are moving to RYHS. The change to 129 makes no sense. Move 129 back to RHHS.	In the Citizen Plans, the 129 HS assignment is mentioned 3 times & in EACH instance the suggestion is that 129 attend RHHS. Why are you changing the 129 feasibility plan recommendation, when there is no record that this change has even
3822			AtholtonHS	5	3				High school redistricting should be delayed. The interim superintendent should not be able to make such an expansive change to the school system, especially when even last year we were told no high school redistricting would be needed through 2020.	1	1	10	9	Much better because number of students moved is reduced. The ridiculous swap of 337 kids from Atholton to Hammond and then 325 kids from Hammond to Atholton is fixed in this draft. Atholton is largely preserved. Thank you.	Regardless of changes, please continue to keep polygons 5,6,1005, 1006, 2005, 2010, 2011 at Atholton and keep polygons 64, 117, 118, 120, 123, 126, 127, 128, 129, 130, 190, 296, 1064, 1117, 1120, 1123, 1128, 1129, 1130, 1190, 1296 at Hammond.
3823				1	3	6	7	13	It is unethical to separate our children from the peer groups at key developmental stages in their education.	3	6	7	13	It is unethical to separate our children from the peer groups at key developmental stages in their education.	
3824	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	6	4		1	6	1	4	There is no question-the draft plan is far better than the FS. Please preserve Atholton.	Request AAC to consider reuniting polygons272&1272 to Murray Hill and Atholton Hs
3825	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	1	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. It also brings utilization at River Hill from 80% to 108%. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Glenelg High School as proposed in the Feasibility Study makes more sense in long term.	The Feasibility study-- including the proposal to assign polygons 1180,180,181 to Glenelg High School-- has a great amount of support from these polygons.
3826	CentennialLaneES	BurleighManorMS	CentennialHS	4	2	1	4	6		1	1	7	9		
3827	NorthfieldES	BurleighManorMS	CentennialHS	1	3	6	4	2	Nothing has changed for my polygon. It seems the neighborhoods with large community associations received what they were looking for while the rest of our concerns were not heard.	3	7	4	2	My community is small and has no large association to fight the chances. Polygon 154 is now a Peninsula and is headed to the farthest school possible. The kids will have a 45 min bus ride to and from school which is unacceptable	
3828	DaytonOaksES			4	2	4	6	1		1	6	4	1	AAC draft plan has taken into consideration the feedback, data, and concerns from our neighborhood polygon (200,1200) and has made revisions we as a whole are pleased with seeing.	The original study didn't prove that any move was necessary for us and we are much happier with the revision as it pertains to us.
3829	ThunderHillES	ElliottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3830	ThunderHillES	ElliottMillsMS	HowardHS	1	3	4	3		As a teacher for Howard County Public schools, I have always relied on my students abilities to walk to high school for their extra curricular events. The ability to walk to Howard High School before and after school was so important to them being engage	3	4			Students need to b e able to walk to school if possible. Students cannot walk to Oakland Mills High School	
3831	ThunderHillES	ElliottMillsMS	HowardHS	1	3	4	3		As a teacher for Howard County Public schools, I have always relied on my students abilities to walk to high school for their extra curricular events. 3852	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	6	7	No offense, but I think this plan is deplorable, does not take basics in account, breaking decades long established communities.Transportation to new schools increases more than 4 miles.	3	1	4	13	Breaking decades long established communities.Transportation to new schools increases more than 4 miles. We have been active part of this community participating in school PTA and girl scouts groups etc.	I am senior clinical pharmacologist at the FDA. I never thought about changing to high paying pharmaceutical industry jobs because of well established neighborhood, community and schools since 10 years in this location.
3853		LimeKilnMS		1	3	6	7	13	I am very concerned that this appears to create a small feed for polygons 1180, 180, and 181. Also, Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	3	6	7	13	I am very concerned that this appears to create a small feed for polygons 1180, 180, and 181. Also, Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	
3854	ThunderHillES	ElliottMillsMS		3	3				Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Plygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3855	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	1	2	1	7		3	6	2	7		
3856	ElkridgeES			1	3	6	2	7	We moved to this part of the county because of the specific schools. Elementary, middle, and High schools. The plan is totally shifting us away from where we want to be.	3	6	2			
3857	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	7	8		3	4	7	6		
3858	RichesterES	BonnieBranchMS	HowardHS		3	2	4	5		3	7	10	9		
3859	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	2	4		3	7	2	4	Totally unreasonable plan for Polygon 147 by redistricting it at all three levels compared the Feasibility Plan only moving Polygon 1184 to MRHS at high school level. This plan is especially huge harm to the new community Centennial Overlook.	1: Keep 147 in current schools in AAC plan 2: Keep 147 in current schools, and move 97 and 1155 to MRHS 3: Keep 147 in current schools, and move 1173 and 2173 to MRHS Keep 147 in current schools, and move 2150 to WLHS Option 5: Keep 147, move 1184 to MRHS
3860				1	3	7	6	4	Dividing children in an existing, long-standing neighborhood and sending some of them to a high school that is a 60% longer drive does not seem to be in keeping with school system policy and will have a significant negative impact on my community.	3	7	6	13	The AAC draft plan proposes to divide up the Dunloggin community in a way that does not appear to me to make geographic sense.	
3861	NorthfieldES	DunlogginMS	CentennialHS	1	3	3	7	5	we bought the house in current location, so my children can go to the centennial HS. the house price is much higher than other area. now my children HS change to wild lake HS. we lost more than $200,000 dollars just my house only.	3	4	9	3	our community united and against this plan.	
3862		ClarksvilleMS		1	3					3	6	7	13	Move 129 back to RHHS. 129 was going to RHHS in the feasibility study, but now you have us back at AHS. Look at 1135, 2053, 1134,1066. 134, 66. All are these listed areas are further away from RHS than 129 and closer to AHS than 129. Nonsensical.	Assigning 129 to RHHS provides consistency with, neighboring areas and feeder schools. We are 2.6 miles from RHHS and you are not sending us there.. yet at the same time you are redistricting areas 10 miles away to RHHS (1114, 2114). Seems suspicious.
3863			CentennialHS	1	3	4	7	6		2					

3864	ClarksvilleES		RiverHillHS	1	3	7	4	13	Keep the kids from the neighborhood togethers!!!	3	6	7	4	Keep the neighborhood together. How much money on gas are you spending with this new study transporting all the students from all over neighborhoods in Howard County.	How are you looking at diversity at River Hill and CES? Are you looking at the asian, indian, african american, and caucasion races? If so, you will see that RHHS and CES are very diversified! Look at Marriotts Ridge and Glenelg - are they Diversified?
3865	NorthfieldES	DunloggінMS	CentennialHS	1	3	9	3	6	we lost a lot of money just because HS change to wild lake.	3	3	5	6	very very bad plan. our family very angry.	our community will use our ballot say no in next county education election.
3866		DunloggінMS	CentennialHS	1	3	6	4	7	Dunloggin neighbor will be split apart with the AAC plan. This does not comply with Policy 6010.	3	4	7	6	It is unsafe for my sons to bike/walk from the Dunloggin neighborhood to/ from Wilde Lake High School, crossing route 108. This plan also separates the Dunloggin community in two.	Our Polygon 219 has been redistricted at least 2 times already within the last 16 years. We live in Ellicott City and should attend an Ellicott City School.
3867		AtholtonHS	AtholtonHS	2	3	13	9	4	Atholton high school has wonderful mix of race religions and income. Should you shift the school students to Rhhs those demographics will shift and make Atholton a lower income school with no little parental involvement on booster programs etc	2	6	1	2		
3868	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	6	7	13	Students in my neighborhood already suffer from having a very small cohort from elementary school going to the same middle and high school.	3	6	7	13	Students in my neighborhood already suffer from having a very small cohort from elementary school going to the same middle/high school. This change moves my children needlessly far.	The actual disruption to children's social fabric should not be disregarded no matter how vocal the complaints about any given proposal.
3869	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	7	4		1	1	4	2

3871	GormanCrossingES			5	2	14				1	14				
3872	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	5	13	4		3	5	13	4		
3873			AtholtonHS		3	4	6	7		3	4	6	7	In this area, our kids were redistricted from our community a number of years ago. The feasibility study corrected this. Now the AAC proposal changes it back. We're only 2 miles from RHHS. Why spend all of the money to bus our kids to Atholton?	It becomes difficult to get children home after school when parents are working. It would help if kids were closer to the school,/in the community where they can more easily get rides. Kids are frequently expected to stay after school to make up tests-etc
3874			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of deaths for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3875	PointersRunES	ClarksvilleMS			3	14				3	6	7		We live off River Run and your draft plan has almost all of my kids friends, neighbors and classmates going to river hill while we go to atholton. Change this back to feasibility plan which had us at river hill. River hill is 2 miles away.	U are redistricting kids to river hill that live much further away from river hill than we do. Makes no sense. Send our kids to the HS that is closer and that our neighbors are attending. Do. It understand why u made this change to feasibility study.
3876			HowardHS	5	2	6	7	8		1	6	7	8		Breaking these kids up after years of bonding in elementary and middle school would be extremely disruptive and unfair to the children.
3877				1	3	6	4	3	You are looking to split a community. Students who attend school together should also be able to walk out their homes and play/socialize in after-school hours. And split routes: multiple buses going in opposite directions for same grade levels.	3	6	2	4		If families are residents of Ellicott City, their children should attend schools in Ellicott City, not Columbia, which calls itself a city. We do not have regional schools as other areas, which incorporate multiple developments and crossroads.
3878	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	13	4	In line with Policy 6010, walkers reduce bus cost. This is fiscal responsibility. Polygons 65, 1065, and 2065 walk to Howard High School. Adding buses buses to transport students to Oakland Mills HS would mean taking money away from building HS#13.	3	3	12	4	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is a health benefit for the student, the community, and the environment. It reduces the number of teen drivers on the road; crashes are one of the leading causes of death to teens.	Polygons 65, 1065, 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills does not provide a long term solution because OMHS will become overcrowded. This plan negatively impacts our community's health.
3879	ClarksvilleES			5	1	4	6		Much better solution for polygons 185 and 1185; original proposal simply defied any common sense and failed to fulfill the stated objectives of the HCPSS feasibility study. Proximity has to be considered in these decisions.						
3880	ThunderHillES			1	3	3	4	13	Glenmont students (Polygons 65, 1065, and 2065) walk to Howard HS. This reduces transportation costs (fiscal responsibility in line with Policy 6010). Moving 65, 1065, and 2065 to Oakland Mills HS will require adding buses to transport students to new HS.	3	4	3	13	Glenmont students walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen car crashes.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS (Ellicott Mills). Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded even more than HowardHS
3881	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	13		2	14				
3882	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	6	7	Current arrangements are rational and convenient. The plan creates an island of MRHS attendees in their natural CHS community. It will greatly inconvenience parents and kids who must shuttle daily to MRHS for extracurriculars, damaging family life.	3	4	6	7	Both the AAC draft plan and the Feasibility Study isolate kids from their established neighborhoods, socially and psychologically. It will bus them to a school about 10 miles away, adding travel time, and causing them lose sleep.	Under either of these 2 plans, our kids will have to travel and additional 7 miles to school. Their friendships, built over 9 years, will be in the Northfield and Burleigh Manor areas, adding great social anxiety and isolation for teenage kids.
3883			HowardHS	1	3	3	4	13	Glenmont is in walking distance to Howard High School ,and money is saved by not using buses to get students to Oakland Mills High.	3	3	4	13	Glenmont is very close to Howard High. It encourages community involvement with the school if the students are allowed to continue going there.	Glenmont students should remain at Ellicott Mills Middle which feeds into Howard High.
3884			AtholtonHS	5	3	14			My answer to your question above re: Rating the Plan is based on the assumption that a new plan will be chosen. Our preference is to keep the current plan in place. If change must occur we would support the "excellent" AAC draft over the Feasib Study.	1	14	5		FACT: The Feasibility Study unfairly impacts AHS by moving 2/3 of the students from one of the top HS's in the county. The AAC draft reduces the # of students who would be affected and will exhibit a more balanced approach to changes proposed countywide	OPINION: HS yrs are important for students. Keeping HS continuity in tact for a student is a major part of their success to building solid foundations for future endeavors. Fragmenting this experience will not provide for the best overall HS experience.
3885	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
3886		LakeElkhornMS		3	2	4	7		The AAC Plan is about the same as the present plan. It keeps her at a LEMS which is only 3 blocks away.	1	4			The AAC Plan is better than the Feasibility Study since our daughter lives only 3 blks form LEMS & a mile from OMMS (with no bus service), so staying at LEMS makes sense.	When you live right next to a school, it makes sense to attend that school. That's why keeping the neighborhood together is important. It decreases potential for bullying and bus pollution.
3887		MtHebronHS		1	3	4	7	12		3	4	11	14		
3888	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	4	6	7		1	4	6	7		
3889		BonnieBranchMS		5	1	4	7	6		1	4	7	6		
3890	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	2	4	For Polygon 147, the AAC draft plan doesn't consider the above criteria in Policy 6010. There are other more suitable Polygons for redistricting, such as those next to MRHS. We should not be discriminated despite the fact we are more closer to CHS.	3	7	2	4	For Polygon 147, the AAC draft plan doesn't consider the above criteria in Policy 147, move 97 and 1155 to MRHS. Senario 3: Keep 147, move 1173 and 2173 to MRHS Senario 4: Keep 147, move 2150 to WLHS Senario 5: Keep 147, move 1184 to MRHS	Senario 1: Keep 147 in current schools Senario 2: Keep 147, move 97 and 1155 to MRHS. Senario 3: Keep 147, move 1173 and 2173 to MRHS Senario 4: Keep 147, move 2150 to WLHS Senario 5: Keep 147, move 1184 to MRHS
3891	ClemensCrossingES				3	7	10	13	This plans separates us from the Clemens Crossing community (elementary school, community center, child care), which we have worked really hard to integrate our minority children to. It would affect their wellbeing and sense of belonging.	2	7	10	13	Both AAC draft plan and Feasibility Study change us from Clemens Crossing ES to Swansfield. We find this recommendation unacceptable as it severs us from the Clemens Hickory Ridge community which we and our children have worked so hard to belong.	Both the AAC draft plan and Feasibility Study do not respect the contiguous communities standards. We recommend keeping polygon 1066 in Clemens Crossing ES.
3892			RiverHillHS	2	3	7	6	9	It doesn't make sense that our neighborhood (Clarks Glen) which is just a mile away and a minute's drive from Pointers Run would be redistricted to Dayton Oaks which is maybe 8 minutes away without traffic.	3	6	7	9	Same reason as above with Dayton Oaks being so much farther away when Pointers Run is just down the road a mile.	
3893	ThunderHillES	EllicottMillsMS	HowardHS	1	3	4	6	13		3					
3894	TriadelphiaRidgeES		RiverHillHS	1	3	6				3					
3895	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement and the environment. It also reduces teen drivers on the road, which is critical because car crashes are the leading cause of teen deaths.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long-term solution, because OMHS will quickly become overcrowded and potentially more so than Howard HS.
3896		EllicottMillsMS		1	3	4	3	13	Glenmont students (Polygons 65, 1065, and 2065) walk to Howard HS. This reduces transportation costs (fiscal responsibility in line with Policy 6010). Moving 65, 1065, and 2065 to Oakland Mills HS will require adding buses to transport students to Oakland	3	3	4	13	Glenmont students walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen car crashes.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS (Ellicott Mills). Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded even more than HowardHS
3897	PointersRunES	ClarksvilleMS	AtholtonHS	3	3	4	6	7		3	4	6	7		
3898	NorthfieldES	DunloggінMS	CentennialHS	1	3	5	7	6							
3899		ElkridgeLandingMS	HowardHS	1	3	7	2	13	This plan splits the heart if the Elkridge community in two.	3	7	8	13	My neighborhood would be redistributed multiple times in a short period of time.	The draft plan moves kids in a region where a new high school is needed. By dividing the long reach / Howard attendance area along Old Washington Road, you are slicing a community in two. Tearing apart families that go to church and scouts together.
3900	NorthfieldES	DunloggінMS	CentennialHS	1	3	3	5	6							
3901			HowardHS	1	3	13	3	4	Glenmont students (polygons 65/1065/2065) walk to Howard HS. This reduces transportation costs (fiscal responsibility in line with Policy 6010). Moving 65, 1065, and 2065 to Oakland Mills HS will require adding buses to transport students to Oakland HS.	3	3	4	13	Glenmont students walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen car crashes.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS (Ellicott Mills). Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded even more than HowardHS
3902			HowardHS	1	3	3	4	13	Crazy to bus a child that can walk to school across the road. Makes absolutely no sense.	3	3	4	13	My child walks to school. I dont need her to ride a bus or drive herself which can be dangerous. Again, we are across the atreet from the school....	
3903			HowardHS	1	3	3			The taxpayers of Glenmont have been sending their children to Howard HS since the very beginning of the project. The proposal to "bus" these students farther away is fiscally irresponsible. Howard HS is part of the fabric of this community.	3	3			The students in Glenmont have been walking to HHS since I moved here in 1981. Using buses to transport them is fraught with danger. It is environmentally unsound and it is much more healthful to have them walk each day than ride at taxpayer expense.	The overcrowding at OMHS will be greater than that of Howard HS based on the area's housing use in the near future.
3904			AtholtonHS	1	1	2	2	2		1					
3905		BonnieBranchMS	HowardHS		2	4	7	6	The plan is great.I am glad to see that students who are less then a mile away from the school are still going to that school instead of adding buses to take them to school.It also keeps communities like Phelps Luck together who are all walkers together.	2	4	6	3	Both keep Phelps Luck together. They are walkers to Howard and should not add additional costs to the budget add buses when they are les than a mile away from ES and HS	Other drafts have are around trying to keep Elkridge together when they are already busers.Why should we add buses to students who are very close walkers?Waste of money to keep one community together.There are pathways for a reason.Let the kids use them
3906	RockburnES	BonnieBranchMS	HowardHS	1	3	2			the AAC draft is moving our middle schoolers again. They went to middle school with only kids from our neighborhood, now this new plan wants to move them in their 8th grade year. If you go along with the orginal draft, you affecting less students	3	6	9	14	The feasibility study is more interested in keeping our feed together and affecting less students. This new AAC plan moves my 8th grader. He was moved away from his elem. friends to a different school, made friends and now it will cause him 2 move last yr.	If we (91) polygon are moved to lichester and stay at Bonnie, it keeps our feed together. Less students will be affected. What happens to programs my son receives at BB that ELMS does not offer. (Foreign Lang)
3907		EllicottMillsMS		1	3		7	4	Keep Stonecrest, Autumn Manor, Spring Showers, Bali, Brittany and all the other streets together with Trail View. This is 1 community! The streets between these neighborhoods" are 25mph. That is NOT a boundary line! Keep these streets at Veterans ES!"	3	7	4		People in Autumn Manor, Bali, Brittany, Trail View Drive sometimes walk their kids to school. Keep them all at VES EMMS and CHS! They are 1 community. The speed limit between these neighborhoods is 25mph. That should tell you this is actually 1 neighood.	Do not break apart Spring Showers, Bali, Trail View Dr, Pemberton, Brittany, Stonecrest. This is one big neighborhood. Kids should remain together for Elem, Middle and HS. These are the only streets that can walk to VES and EMMS so they remain together!
3908	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4			Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WPES. WPES will grow to full utilization organically. This moves fewer students and the bus time will be less	3				Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1362, and 2161 at PMS and MtHHS or Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS. Or Feasibility study	

3909	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	3	4		Move 304,1304 to BPES, 4169,1305 to Waverly. Move 224,229,231,232,1229,1231,2229 back to WPES, MVMS and MRHS.This utilizes BPES better for 2021 and later. Keeps WPES within capacity for 10 years +.	3	1	2		The feed to MS will get stronger as Turf Valley continues to grow.	Moving Turf Valley to WPES or to BPES creates the same island. 4169 (the landfill and over 55) was moved to WPES to make the map look pretty. It does nothing to connect the communities.
3910	CentennialLaneES				3	7	6	2	What a puzzling plan	3	7	6	2	Gray Rock, Font Hill, and Dunloggin are each distinct neighborhoods that should be kept together. The feasibility study, assembled by professional staff, largely accomplished this goal. The AAC plan does now, splitting Dunloggin.	Sending Font Hill to the excellent Marriott's Ridge school makes much more sense.
3911			HowardHS	5	1	1	2	6	There needs to be some balancing of existing school attendance so all students can maintain reasonable class sizes.	1	10	4	8	The plan should move the minimum number of students as this is a big impact on the student moved. Given the need for a new high school in the not to distant future, consideration should be given to not move kids (families) multiple times.	There will always be a not my kid push, the board should think about all the kids collectively and impact the fewest possible while making a plan logical with a positive impact on class size. If portables are addressing the need short term that is OK.
3912	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	2	3	8	The new AAC draft plan has taken into consideration the impact from the feed percentages, contiguous neighborhood considerations and has validated the alternative plans suggested by the citizens.	1	4	6	8	The new AAC Draft plan is a much improved and a better plan compared to feasibility study recommendations as it addressed the following: 1.Policy 6010 IV.B.2.b 2.Policy 6010 IV.B.1.d 3.Policy 6010 IV.3.a-d 4.Policy 6010 IV.B.1.a	It is very much appreciative of the initiatives by School of Planning in hearing-out the citizen's concerns and testing the alternative plans that have been proposed.
3913	JeffersHillES	MayfieldWoodsMS	LongReachHS	4	1	11	7	9	The new draft plan is designed to fix the population problems at the northeastern high schools, while maintaining relatively unified and coherent attendance areas. Given the circumstances, I feel as though the new plan is the best course of action.	1	4	6	7	The feasibility study plan seemed to break off significant portions of coherent school attendance areas from each other, and it created unusual attendance areas (Atholton). It also moved too many students, when the same thing will be done again soon.	No one likes redistricting, but given the recent growth, it must be done. Given the current school locations, I feel as it is the best and only option to follow the redistricting plans as outlined in the AAC draft plan.
3914			AtholtonHS	5	1	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL. We believe the outstanding performance in academics and extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	1	1	10		The Feasibility Study moved WAY too many kids. Took out 67% of Atholton HS students, which is too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as model HS for HCPSS as in the AAC draft plan.	AAC plan preserves excellence at Atholton HS. The FS decimates AHS for no good reason.
3915	IlchesterES	BonnieBranchMS	HowardHS	5	1	6	7	8	My children were just redistricted in 2013 to eliminate a small feed situation, which was a relief after many years. The AAC draft plan is consistent with maintaining our community and eliminating the small feed and will not reassign our children again.	1	6	7	10	The AAC draft plan is much better than the feasibility study because it moves fewer students overall and keeps communities together.	
3916	TriadelphiaRidgeES		RiverHillHS	1	3	6	4	3	PLS KEEP KIDS IN A SAME COMMUNITY TOGETHER! TEARING THEM APART IS NOT A SMART IDEA!	3	6			One who stays near ink gets stained black! It disrupt too much concentrates on only one school! (i.e., Wilde Lake) some transfer students not only!will bring good students bad, but also interfere with our community life.	If you want to improve the performance of some poor school students, you should spend money to improve the quality of those schools, rather than the poor students transferred to a good school! This will make some of the transfer students TOO STRESSFUL!!
3917	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	1	7	Move polygons 104, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WPES. WPES will grow to full utilization organically. This moves fewer students		4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MHMS Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS	Revert to feasibility study plan—Move 224, 229, 231, 232, 1231, 1229, 2229 to BPES, but bring them back to MVMS and MRHS—ok with small feed from ES to MS
3918	PointersRunES				3	1	3	4	The current draft moves 1189 from PRES to DOES. This change is unnecessary as PRES utilization is not over 104% capacity until 2022. The marginal benefit of making this change will cause severe disruption of the families of 1189 for multiple reasons.	3	1	6	3	The increased distance of DOES from 1189 compared to PRES will increase costs of transportation and decrease child safety due to more time on busy roads. It will put a great strain on families regarding before/after school programs.	The benefits of this move seem to be minimal, while the effects on families are huge. Please consider keeping 1189 at PRES. Changes for overcrowding 5 years from now can be done at a later date.
3919																	
3920	NorthfieldES	DunloggінMS	WildeLakeHS	3		6	9		Negative - Wilde Lake School still very high FARM rate. Add 3150 and 2150 to Wilde Lake HS Move 2138, 3138, 1138 and 2204 to River Hill or Atholton HS. Move 1139, 58 to Oakland Mlld HS Positive: increased feed from Dunloggin to WLHS					WLHS still has one of the highest FARM rates in the county. Suggestions above to add more single family housing to WLHS and spread out low income house to other high schools.	
3921	CentennialLaneES			5	2	7	12			2	12						
3922			HowardHS	1	3	4	13	3	Glenmont students currently walk to Howard High School, which is close by. Busing them to Oakland Mills would unnecessarily increase county transportation costs and disrupt close community ties to Howard High.	3	4	13	3	Glenmont students currently walk to Howard High School, which is close by. Busing them to Oakland Mills would unnecessarily increase county transportation costs and disrupt close community ties to Howard High.	Glenmont families have been very pleased with student experience at Ellicott Mills Middle School and would very much like to continue this successful relationship going forward.
3923			RiverHillHS	1	3	4	7	6		3							
3924			OaklandMillsHS	5	1	6	4	7		1	6	4	7	The AAC draft plan is so much better for overall wellbeing of my child than Feasibilty Study since he will not be redistricted to Wilde Lake as a junior! We live in Thunder Hill, a vital neighborhood in the Oakland Mills Community.	
3925	PointersRunES	ClarksvilleMS	AtholtonHS	4	3	12	6	7	Keep polygon 190 (south of 32 and west of great star) in atholton. They have friends that have grown up together with their neighborhoods friends	1	6	7	14		
3926	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	4	2	The AAC draft plan splits the Dunloggin neighborhood between Wilde Lake and Centennial HS. Dunloggin is a vibrant community that should be kept together in HS as these kids have grown up together, not just at school, but community events as well.	3	7	4	2	The Feasibility Study shifted HS population from Centennial, to Marriotts Ridge (a new HS that is not at capacity). This makes more sense than shifting students between Centennial and Wilde Lake especially since Dunloggin has been around for decades.	
3927			CentennialHS	5	1	6	6			1	1	6					
3928			AtholtonHS		2					1	1	10	7	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and preserves Atholton High School. Move Polygons 272 and I272 (East Emerson) to Murray Hill MS & Atholton HS; keep community together.	Emerson neighborhood unnecessarily split by redistributing in 2012. This should be remedied. We live in a neighborhood are members of an HOA, go to same community pool and use the same playgrounds. We should go to the same schools.
3929			HowardHS	1	3	3			Polygons 65,1065 and 2065 walk to Howard HS Walkers reduce bus cost which demonstrates fiscal responsibility and in line with Policy 6010. Adding buses to transport to Oakland Mills will reduce precious money for other available costs such as HS #13.	3	3			Minimizing capital and operating costs and transportation costs are fundamental to good government.. My tax money should not go to this unnecessary and unjustified plan. My child walks to Howard High. There is no good justification to send elsewhere..	Polygons 65, 1065, and 2065 should remain where they presently attend and most significantly OMHS does not provide the long term solution since OMHS will become the overcrowded school in the future
3930	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	14	We are a fairly small community. One of the reasons people live in Howard County is "community." Our chilren shoud be able to attend the same schools.	3	7	6			
3931	IlchesterES	BonnieBranchMS	HowardHS	5	2	4	7	6	We are close enough for my child to walk to Howard High.	1	4	6	7	We are close enough for my child to walk to Howard High. We see this as reducing county transportation costs, better school utilisation, reduction of number of students moved over feasibility plan, and keeping neighborhoods together.	
3932			AtholtonHS	5	2					1	1	10	7	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Move Polygons 272 and I272 East Emerson to Murray Hill MS and Atholton HS.	The Emerson neighborhood was unnecessarily split by redistributing in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
3933	NorthfieldES	DunloggінMS	CentennialHS	5	2	7			We continue to feel neighborhoods be kept contiguous.	1	7			We appreciate the review of this matter.	
3934	PointersRunES	ClarksvilleMS	AtholtonHS	1	2	11			Same exact schools.	3	1	6	13	The aac plan is way worse. Firstly the numbers are worst for most schools and it seems that many communities are divided again like mine, River Hill. This is an opportunity to keep communities together like mine so no one needs to lose any friends.	I'd just stay with the feasibility study and make some minor changes to it.
3935	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The Draft negatively impact me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along with commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The Draft negatively impact me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along with commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
3936	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	6	8		1	6	7	8		
3937			CentennialHS	1	3	7	6	4	The draft plan will split the Dunloggin community, creating an unnecessary and harmful division in a close-knit community whose children have had the same school continuum (Northfield Elem, Dunloggin MS, Centennial HS) for generations.	3	7	6	4	The Feasibility Study did not divide our Dunloggin community - it maintained our long-standing cohesiveness through the three-school continuum. The AAC plan would divide our neighborhood - a devastating circumstance with far-reaching negative implication	Our Dunloggin community is a close-knit, cohesive neighborhood; families know, talk to and help each other- a wonderful circumstance in this day. Our 3-school continuum is an integral part of our cohesion. Proposed plan would tear our fabric and split us
3938	IlchesterES	BonnieBranchMS		5	1	10	1	6	Less children are impacted.	1	7	9	10		
3939				1	3	7	4	13	The AAC Proposal will breaks the cultural identity and unity of the Dunloggin community.	3	7	9	13		
3940	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	7	6	8	Under the AAC draft plan, our neighborhood is shifted twice (at both MS and HS), affording no community stability. I will be sending more detailed comments via separate email.	3	7	6	8	Under the AAC draft plan, our neighborhood is shifted twice (at both MS and HS), and our children will attend the 4th closest high school. I will be sending more detailed comments via separate email.	Both plans move our polygons (56, 1056, 2056, and 3056) to better align other feeds/neighborhoods without consideration to the affect on our neighborhood's stability and continuity. We are either a small feed (feasibility plan) or an island (AAC plan).
3941	PointersRunES			1	3	7	4	6	New planning will redistrict Elementary school to 4.6 miles compared to current 1.0 mile. It doesn't make sense. Please consider distance to school especially when reassigning current school to elsewhere.	3	6	4			
3942			MarriottsRidgeHS	5	2	6			It improves feeds and improves some of the overcrowding issues.	1	6	7		The AAC draft plan eliminates the small feed that would have been created by the Feasibility Study for our neighborhood (polygon 1170). It also maintains community stability for our polygon. It also moves less students overall in the county.	Moving the least amount of students should be the goal of any redistricting plan. The AAC draft does a much better job than the Feasibility Study of moving the least amount of students, while still improving feeds and capacity issues.
3943	PointersRunES	ClarksvilleMS			3	4	7	10	1.The elementary school was changed from Pointer s run ES (3 min driving) to Dayton Oaks ES (10 min driving distance), it is not reasonable from transportation respective. 2. River Hill High School change too much (over 30%), affecting stability.	3	6	4	8	River Hill High School change too much in the aspect of covering locations, affecting stability and study plan of individual students . Take longer transportation to Dayton Oaks ES than the current Pointers Run ES, affecting efficient study time.	
3944										1	1	10		The plan is less disruptive and more strategically thought out than the feasibility study. Should be improved by including Polygons 272 and 1272 to Murray Hill -part of community that was separated in 2012. We use same clubhouse, pool, shared spaces.	
3945			RiverHillHS		3	13	6	7		3	4	5	6		
3946	CentennialLaneES		CentennialHS	5	1	1	4		Helps with overcrowding at elementary school.	1	4	7		Helps with overcrowding at elementary and middle school by moving polygon 147-new development-out. CLES had to move all specials to portables b/c of severe overcrowding caused by the new Centennial Overlook Development.	Permit existing high to complete their high school at the same school.
3947			HowardHS		3	3			Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility, in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS 13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical, because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
3948	RockburnES	ElkridgeLandingMS	HowardHS	5	1	1				1	6	7	10		
3949			HowardHS	5	1	4				1	6				
3950	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	6	7	13		3	13	4	4		It is not fair to change the school district by this kind of scale. Please consider adding more capacity but keep the district unchanged.
3951		EllicottMillsMS	HowardHS		3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3952	TalbottSpringsES	OaklandMillsMS	OaklandMillsHS	1	3	4	6	13							

3953				1	3	6	4	2	As a long time Dunloggin resident, the cohesive element of our neighborhood is very important to our family. To arbitrarily take a chunk of Dunloggin and separate the children from their friends and neighbors is disruptive, unfair, and unnecessary.						
3954			HowardHS	5	2	4	7	6		1	4	7	6			We are residents of Montgomery Meadows, which contains polygons 95, 1095, 2095 and 84.
3955			HowardHS	5	2	4	7	6		1	4	2	7			We are residents of Montgomery Meadows, which contains polygons 95, 1095, 2095 and 84.
3956	PointersRunES	LimeKilnMS		2	2	4			It is not acceptable that there are 3 elementary schools closer to us, yet we are being redistricted from PRES to Dayton Oaks. Bus ride length is a big concern.	2	4			We did not have any changes for our neighborhood		
3957			CentennialHS	1	3	5	3	4	It doesn't make sense to send us to send our children to a school that is almost twice as far as the current school they go to.	3	5	3	4	From What I know I think in the Feasibility our Polygon 147 is still going to Centennial Lane Elementary School, Burleigh Manor Middle School , and Centennial High School. It doesn't make sense to send us to a different school almost twice as far away.		It doesn't make any sense to redistrict polygon 147. It is better for the community as a whole as in all of Howard County to keep our children in the schools they currently attend.
3958	IlchesterES	BonnieBranchMS	HowardHS	5	1	6	7	8	The AAC plan is superior to all other plans, due to our (Polygon 84) proximity to Howard, county transportation costs, better school utilization, reduction of number of students moved over feasibility plan, and keeping neighborhoods together.	1	7	6	8	The AAC plan is superior to all other plans, due to our (Polygon 84) proximity to Howard, county transportation costs, better school utilization, reduction of number of students moved over feasibility plan, and keeping neighborhoods together.		Please keep Polygon 84 in the Howard District by supporting the AAC plan. Thank you.
3959	RockburnES			1	3	13	14	14		3	14	14	14			
3960	LongfellowES			5	1	1	4	5		1	2	3	1			
3961	CentennialLaneES	BurleighManorMS	CentennialHS	2	2											
3962	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	3	9	2		3	3	2	9			
3963				1	3	7	4	6	The proposed plan to split the Dunloggin is a terrible idea. Dunloggin is a whole, contiguous neighborhood. The plan to send half of the students to Wilde Lake would be disruptive, inconvenient due to the additional travel time.							This would have a severely adverse effect on our property values and would split up our children from their friends.
3964	CentennialLaneES			1	3	2	4	7	97 is an island . It will comply with 6010 much better if it goes to St. Johns Lane ES, Patpsco MS and Mt. Hebron or MRHS. With this move, it will become a part of a community rather than a standing-alone island which should be avoided per 6010.	3	10	4	7	The develop. of 147 new community was told by the county:Build houses;no school capacity issue.The kids just settled and made friends. Suddenly we were told the schools are overcrowded,the kids get out! The county needs to be held legally accountable.		The benefits from reducing overcrowding by 10-20% in limited schools far exceed the damage from dramatic disruption of the life of kids in a scale that impact the whole county. Hold the redistricting until a clear justification is made to county citizen.
3965			MtHebronHS	1	3	7	4	8	We have been redistricted 3 times already. Our street seems to be the dividing line between East and West schools. Because of this, we are the zing pong balls of redistricting. We were Waverly, then St. Johns Lane, then Waverly again.			4	7	8	We are barely over a mile away from Mt. Hebron and nearly 5 miles away from Marriotts Ridge. There are so many negative imacts on a school that is further way, to include sports, clubs, and transportation to home from these activities.		It is my understanding that high schoolers do not need to be moved at this time. So why are we uprooting them before it is necessary?
3966			MarriottsRidgeHS	1	3	1	4	6	polys #224, 229, 231, 232, 1229, 1231, 2229 (94 students) all attended small elementary, and moved together to one middle school. This would tear students apart from established rural community, academic, athletic and musical endeavors built on for years	3	6	1	4	creates tremendous commute. Tears apart small community while in important college preparatory years. Disrupts stability and established relationships during critical HS years. Moves from under capacity to almost capacity school		Keep 224, 229, 231, 232, 1229, 1231, 2229 at MRHS. Take #160, 162, 1160, 1162, 2161 MH to MRHS (adds 128 stu) keeps move north of 70. 178, 179, 1178, 1179 MWES feed to FQM, progress to OHS as group of students. Idea #2 phase in over years elem, mid, high
3967	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard High School. Walkers reduce bus costs, which demonstrates fiscal responsibility with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health and the environment. It also reduces teen drivers on the road, which is significant as car crashes are the leading cause of death for teens.		Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not improve a long-term solution because OMHS will quickly become overcrowded, potentially more so that Howard HS.
3968			AtholtonHS	5	2	1	10			1						
3969				1	3	7	4	13		3	14	14	14			
3970		DunlogginMS			3	4	6	7		3	4	6	9			
3971	NorthfieldES			1	3	4	2	7		3	2	4	6			
3972	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	6	7	1	I want to ensure I live in a neighborhood that is districting to a strong academic school. It is important to me for my children's academic and scholastic future as well as maintaining a strong sense of community and value.	1	1	10		The AAC plan is superior to the feasibility study. It solves overcrowding by moving far fewer students and preserves Atholton HS. Modify it to reunite the Emerson neighborhoods (6010-IV.B.2.b) move Polygons 272 and 1272 to Murray Hill MS and Atholton HS		The Emerson neighborhood was unnecessarily split by redistricting in 2012 this should be remedied. We live in a neighborhood and one community, members of an HOA. Go to the same community pool and use the same playgrounds we should go to the same schools
3973			HowardHS	1	3	4	3	13	Currently the students walk to Howard High School from Glenmont which is fiscally responsible. Adding buses to transport students to Oakland Mills H S has a negative monetary impact programs as well as a negative environmental impact on air quality.	3	4	3	13	Walking to school is good for students' health and the environment. It reduces transportation costs for the BOE and reduces the amount of air contamnents produced by buses/cars. There is a National movement for "Walk to School" for good reasons.		School systems change schedules, to improve high school students' learning, by starting their day at a later time. This plan forces Glenmont's children into an earlier day, to ride a bus to O Mills, which reduces learning capacity-Learning Styles research
3974	WorthingtonES	EllicottMillsMS	MtHebronHS	5												
3975		BurleighManorMS		1	3	4	6	7	It absolutely doesn't make sense my son has to ride bus when my son can bike to school with his friends.	3	4	7	6	This certainly breaks up the community for the worse, doesn't serve anyone any benefit.		Not only this will affect our kids' academic and family life, it will also have strong impact on our property value. We paid so much to move here for the school and the proposed draft certainly appears segregating the new community.
3976	WestFriendshipES		WildeLakeHS	3	6	6	6		we do not want to move our daughter her sophomore year form Wilde lake high school to River Hill. It is very disruptive educationally and socially. Grandfather all the existing students in.	3	1	3	6			
3977			HowardHS	4	1	1	6	8	The August 8 draft is better than initial feasibility plan. Need to keep things stable for the children, especially upperclasmen who have HS bonds.	1	2	1	6			
3978			CentennialHS	1	3	7	4	6	1) Not enough transparency - process was too quick for studies to assess problems. 2) Keep our neighborhood intact. 3) Increased transportation costs. 4) Double the distance to WLH and not a safe drive. 5) Keep feeder schools together. 6) Classes/programs	3	7	4	6	1) Not enough transparency - process was too quick for studies to assess problems. 2) Keep our neighborhood intact. 3) Increased transportation costs. 4) Double the distance to WLH and not a safe drive. 5) Keep feeder schools together. 6) Classes/programs		
3979	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	3	4	Favoring older communities than newer communities is not what is included in Policy 6010. The AAC draft plan decided to redistrict Polygon 147 at all three school level based on individual preferences instead of overall school planning is not acceptable.	3	7	2	4	Favoring older communities than newer communities is not what is included in Policy 6010. The AAC draft plan decided to redistrict Polygon 147 at all three school level based on individual preferences instead of overall planning is not acceptable.		The fairness of AAC draft plan is questionable based on the example of Polygon 147. They got Polygon 1184 back into CHS by sacrificing 147 at all three school level. We are central part of Centennial, one of the three Polygons surrounding Centennial park.
3980			HowardHS	1	3	3	4	4	Polygons 65, 1065 and 2065 walk to Howard HS. By students walking This will save Howard County money. Having students bused to Oakland Mills HS will cost Howard County money that could be spent in better ways.	3	3	4		Being able to walk to and from school will benefit my children They will be able to participate in extra curricular activities and they Will not be depending on rides from other students		It makes no sense to send my children to a school that requires Busing when they can walk to Howard HS in less than 15 minutes.
3981	CentennialLaneES			1	3	4	5	7		3				The develop.of 147 new community was told by the county:Build the house;no school capacity issue. The kids just settled and made friends.Suddenly we were told the schools are overcrowded;kids get out! The county needs to be held legally accountable!		The damage from dramatic disruption of the life of over 6000 students far exceeds the benefits of reducing overcrowding by 10-20% in a limited number of schools. Stop redistricting until adequate justification is made to county citizen.
3982			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.		Polygons 65, 1065, and 2065 should remain at the middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3983			HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for student's health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.		Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3984	IlchesterES	BonnieBranchMS	HowardHS	5	2	6				1	6					
3985	ThunderHillES	EllicottMillsMS	HowardHS	1	3	4	3	13	Polygons 65, 1065, 2065 walk to Howard HS. Walker reduce bus costs which demonstrates fiscal responsibility in line with policy 6010, adding buses for transport to OMHS would sacrifice money that is needed for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. Walkers access more after school opportunities/activities, which leads for more success in school overall.		Polygons 65, 1065, 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
3986	ThunderHillES	DunlogginMS	WildeLakeHS	1	3	4	6	13	Considering how large some of the over-capacity numbers numbers are, I don't see why the AAC should care about moving the couple dozen MS and HS kids from our neighborhood. Redistricting activities should be minimized, not only constrained to once per	3	4	6	13	I spent years commuting along the route from our neighborhood to Oakland Mills MS and HS. It is too far and takes too long, and crosses two terrible (dangerous) intersections. There WILL be a side-impact bus wreck in the coming years that will be unneces		Just because you have the great data and algorithms to finesse the school populations does not mean you should do it. Redistricting is highly disruptive and unfair to homeowners. You should focus on the worst over-capacity situations, and on improving the
3987	NorthfieldES	DunlogginMS	WildeLakeHS	3	1	9			We need FARM rate equity between Wilde Lake High and neighboring River Hill High and Atholton High. The AAC plan is a step in the right direction, but much too small of a step.	3	9			The AAC moves a lot more of the population into/from Wilde Lake High, but does not change the FARM rate at all.The Feasibility study did not change the FARM rate either, but at least it didn't cause such a large population shift.		I suggest moving polygons (1) 3150 and 2150 into WLHS, (2) 1142 from WLHS to River Hill, (3) 2138, 3138,1138, and 2204 from WLHS to Atholton (or River Hill). We need better FARM equity between WLHS (41%) and neighbors River Hill (11%) and Atholton (10%).
3988			HowardHS	1	3	3			Students in my community, Glenmont, can walk to Howard High School. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills High School would mean sacrificing money.	3	3	4	14	Students in Glenmont walk to Howard High School. Walking is good for students' health, community involvement, and the environment. It also reduces the number of teen drivers on the road, critical because car crashes are a leading cause of death for teens.		Glenmont should remain at a middle school that feeds to Howard High School. Moving them to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded.
3989		BurleighManorMS	CentennialHS	1	3	7	4	9	Pretty straight forward. The draft plan uproots my children - the current attendance areas do not. Two of my children will graduate from Centennial and the other two from Marriott's Ridge.	2	4	7	13	Being a resident of the Nob Hill community, this plan does nothing to correct the undesired redistricting of our children.		Very curious as to how certain local communities, apartment complexes, and townhouses are exempt from this. Not sure whether my wife and I will move to stay with our school of choice or take civil action against this.
3990		BurleighManorMS	CentennialHS	1	3	4	7	9	Much longer bus ride to school and back. Currently attending CHS, school dismissal is 2:10 and the bus gets to our stop at 2:30. I can only imagine that if my children have to attend school at MRHS, the bus ride would be at a minimum 40 minutes.	2	4	7	9	The draft plan and the Feasibility Study are exactly the same for our neighborhood.		I am against transferring my child, who will be a junior to another school where the counselors and the teachers have never had any type of working relationship with her. I can't understand how anyone could think that this is a good idea.
3991				1	3	7	6			3	7	6				
3992	ThunderHillES		HowardHS	1	3	3	4	13	Our students walk to Howard HS which reduces bus costs demonstrating fiscal responsibility in line with Policy 6010. Adding buses to transport our students to any other HS means sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS which is good for student's health, community involvement and the environment. It reduces teen drivers on the road , critical since car crashes are the leading cause of death for teens.		Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. In a sensible world, walkers should remain walkers. Busing this group to Oakland Mills HS will never be an economical or practical solution.
3993			RiverHillHS	1	3	6	13	7	The plan counteracts the improving feeder trend from LKMS to RHHS, and introduces another unnecessary feeder school from HCMS to RHHS. While mathematically compliant, the five feeder schools into AHS is very suboptimal. RHHS >110% bets on no future growth	3	6	7	13	The Feasibility Study does a nice job of improving the feeder system from existing schools in RHHS and also leaves some room for additional growth. The AAC draft plan does just the opposite and also does an extremely poor job for the feeds into AHS.		Thank you AAC members for your service. I have served on 2 previous AACs and I am well acquainted with your challenges. Please continue the trend of improving the feeder system into RHHS from LKMS, as this has been historically very poor. Thank you.
3994	CentennialLaneES			1	3	4				3	4					
3995	AtholtonES	ClarksvilleMS	AtholtonHS	2	3	7	6	4		3	6	7	4			
3996			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs. Adding buses to transport students to Oakland Mills would mean sacrificing money for other costs.	3	3	4	13	Walking to school is good for student's health, community involvement, and the environment. It will also reduce teen drivers on the all ready crowded roads.		Polygons 65, 1065, and 2065 should remain at a middle school that feeds Howard HS and keeps walkers walkers.
3997	PointersRunES			2	2					3	6	7	4	The AAC draft plan unnecessarily splits up the River Hill Community		

3998	AtholtonES	HammondMS	HammondHS	2	3	6	1	5	While I applaud that some effort is being made to stop the segregation of children in the east side of 29 communities from those in west side 29 communities I feel that the first draft plan where Macgills common would go to Atholton HS is a better plan.	3	2	4	6	Atholton ES to Hammand ES to Atholton HS makes much more sense that bouncing them over to Elkhorn MS and then to Wilde Lake HS	I am very frustrated with the continued preferential treatment for the wealthy enclaves and developers in the western part ot the county. All HC children should have the same opportunities and access to the high performing schools in the county.
3999			AtholtonHS	3	2	2	9		How were polygons created? By number of homes built in each? By number of possible students? With community growth, perhaps someone needs to start at the beginning and redesign the polygon system. The current polygon system divides neighborhoods.	1	8	7		Moving students to the west now to allow wait time for a new HS to be built in the east is too much redistricting. We just rolled ES & MS to the west about 5 years ago.	To address school feed situation, an overhaul is needed so that ES & MS feed no more than 2, maybe 3, different schools. The feasibility study tried to do this, but some small feeds remained. It would've made drastic changes in community of some schools.
4000			CentennialHS	1	3	7	4	6	There is no logical reason to move students from the Northern region into the Columbia west region.	3	7	4	6	With the proposed area attendance adjustments outlined in the 2017 Feasibility Study, Centennial HS utilization is effectively lowered to 107% (from 123%), while Marriotts Ridge HS utilization is effectively raised to 94% (from 83%) with the least impact.	
4001		ClarksvilleMS		1	3	7				3	4				
4002	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	2	3	Polygon 147 is in close proximity to CLES, BMMS, and CHS, its current schools. The AAC plan changes ALL three schools 147 students attend. Two heavy traffic main roads lie between 147 and the new schools. It makes no sense to make these changes.	3	1	3	4	The feasibility study proposes NO change to 147 schools. Centennial Lake is a historical community in the centennial school district of Ellicott City. The AAC plan forces all children living next to the lake to attend schools miles away in columbia.	Options 1: Keep 147 in CLES, BMMS, CHS 2: Keep 147 in CLES, BMMS, CHS, move 97, 1155 to MRHS 3: Keep 147 in CLES, BMMS, CHS, move 1171, 2173 to MRHS 4: Keep 147 in CLES, BMMS, CHS, move 2150 to WLHS 5: Keep 147 in CLES, BMMS, CHS, move 1184 to MRHS
4003	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High School. Walking is good for students' health, community involvement and the environment. In addition, it minimizes teen drivers on the road (RT 108) during the bust rush hour.	3	3	4	13	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving Polygons 65, 1065 and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become over crowded.	
4004			HowardHS	1	3	3	4	14	polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibilit in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	14	Polygons 65, 1065, and 2065 should remain at the middle school that feeds to Howard HS. Moving HHS students from these polygons to OMHS does not provide a long-term solution because OMHS will become overcrowded.	Polygons 65, 1065, and 2065 should remain at the middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4010	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line whit Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HSK13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.

4031	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	10	7	2	The AAC Draft Plan reduces overcrowding while eliminating major changes to schools such as Atholton. Since the schools in my area are not overcrowded, I like that this plan leaves my polygon's assignments intact while fixing overcrowding elsewhere	1	2	3	10	The Feasibility Study would negatively impact the communities that currently go into Atholton. The AAC's draft scenario addresses all of my concerns regarding Atholton. The draft AAC plan reduces overcrowding while also minimizing disruptions to Atholton	Please accept this plan as it relates to Atholton HS. Thank you for listening to our concerns regarding Atholton HS's districts.
4032	PointersRunES	ClarksvilleMS	AtholtonHS	5	1	9	10	4	Love that the ACC plan helps bring demographic percentages to be more equal to one another. It's a "cleaner" move than the original plan	1	5	7	9	Love that the ACC plan helps bring demographic percentages to be more equal to one another. It's a "cleaner" move than the original plan	
4033		EllicottMillsMS		3	2	14			I am concerned that reaching capacities less than 110% will increase the amount of development in Howard County, making the overcrowding issue even worse. I do like that the plan reduces the number of students at EMMS without going below 110%.	1	7			I am pleased that the plan keeps polygons 2093-3093-4093 with 93-1093-309-1309. This keeps our contiguous community together and reduces small feeds.	
4034				5	1	1	14	14		1	7	6	14	My children graduated from a HCPSS High School (2011 & 2016) but I continue to be interested in the HCPSS. I prefer the AAC draft plan over the Feasibility Study plan because the Feasibility Study plan splits my neighborhood between 2 high schools.	
4035			RiverHillHS	1	3	1	6		Not clear why River Hill HS would go from 80% utilization to 108% utilization -- increasing by 400 students. It would be a huge burden on staff to increase this much over a short time period.						
4036	PointersRunES	FollyQuarterMS	RiverHillHS	1	3	4	3	6		3					
4037	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	6	7	8	The AAC draft plan gerrymanders the Allview neighborhood 4 high schools away to Wildlake HS. We don't even share a border with any of the neighborhoods assigned to Wildlake HS. Three high schools are closer and share neighborhood boundaries with us.	3	6	7	13	The AAC draft plan gerrymanders the Allview neighborhood 4 high schools away to Wildlake HS. We don't even share a border with any of the neighborhoods assigned to Wildlake HS. Three high schools are closer and share neighborhood boundaries with us.	We are a small feed area and at every transition with the AAC draft, most of my childrens' friends will feed into a different school. With this plan, they would jump over three closer surrounding attendance areas to a totally unfamilar area (WHS).
4038	ElkridgeES	ElkridgeLandingMS	HowardHS		3	6	4	7	We do not want to send our kids to the same school for 8 years then rip them from their community to start a new high school.	3	6	6	6		
4039	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	13	Moving Polygon 147 to Longfellow ES would effectively isolate our kids from immediately bordering areas, who all attend other schools, as non-residential Centennial Park is included in the polygon and serves as a barrier to other Longfellow communities.	3	7	4	13	Moving Polygon 147 to Longfellow ES would effectively isolate our kids from immediately bordering areas, who all attend other schools, as non-residential Centennial Park is included in the polygon and serves as a barrier to other Longfellow communities.	We have lived on Oak Hill Drive since 2000 and are proud members of CLES/BMMS/CHS/Ellicott City communities as our 4 children have progressed through these 3 schools. If AAC draft plan is accepted, highly urge rising seniors/trailing sibling exceptions.
4040		FollyQuarterMS	RiverHillHS	1	3	6	7	9		3	6	7	9	AAC plan will put River Hill over capacity by year 2023 AT 110.4%. The feasibility study plan will keep River Hill capacity at a reasonable 105% by year 2023. Atholton and Wilde Lake Capacity will be over by year to 2023 with the AAC plan.	AAC will put River Hill, Wilde Lake and Atholton over capacity by 2023, potentially causing more redistricting. The feasibility Study avoids that and keeps all three high schools within capacity long term. Please disregard my previous submission.
4041	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065,'and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4042	CentennialLaneES	BurleighManorMS	CentennialHS	2	3	4	1	3							
4043	WestFriendshipES	MountViewMS	MarriottsRidgeHS		3	4	7			3	4	1		Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS Revert to feasibility study plan—Move 224, 229, 231, 232, 1231, 1229, 2229 to BPES, but bring them back to MVMS and MRHS—ok with small feed from ES to MS	Polygon 229 - driving past the two schools (MVMS and MRHS) that are in our back-yard to attend further schools is ridiculous, especially when capacity is still below after the changes.
4044	GormanCrossingES	MurrayHillMS		5	2	1	10			1	9	10			
4045	NorthfieldES	Dunlogg@MS	CentennialHS	5	3	4	7	6	If we are moved from Centennial HS to Wilde Lake HS, we will be forced to use Route 29 South during morning rush hour towards Washington DC. Travel time will be easily double vs time to Centennial for cars and buses and will also increase traffic volume.	3	4	7	6	Centennial HS is 4.4 miles from our house. Wilde Lake is 6 miles from our house and also would require the use of Route 29 South during rush hour in the morning for additional cars and buses. The change would also split our neighborhood in half.	Currently, we are planned for Centennial HS. The proposed plan would allow areas of the city further away from Centennial than our neighborhood access to Centennial, while we would be driving to a further away HS (Wilde Lake).
4046			HammondHS	1	3	13	3	4	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	2	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4047	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to WaverlyES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is densely populate	3	4	1	7	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS	Current AAC forces 1 hour bus time to the school for Polygon 231, 229,1231 and 2229 which must be considered (requires stop at every house of the student due to having no side works) unlike Turf valley where 2-3 stops are needed.

4048	ThunderHillES				1	3	3			Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrate fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such HSA13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. 4058	SwansfieldES	HarpersChoiceMS		WildeLakeHS	1	3	4	5	6		3	4	5	6		
4059				CentennialHS		3	2	4	7	Rt 108 and Columbia Rd make logical bus routes. Shifting 147 to Wilde Lake creates an unsafe busing situation with buses forced to make U-turns or blind left turns. More buses through the 108/Columbia Rd intersection will cause more traffic congestion.	3	2	3	4	The feasibility study stated clearly that there is overcrowding to the East and South. Moving any students that direction contradicts that stated problem. Any redistricting should move students west.	Redistricting now is a waste of money and threatens the learning of 18% of HOCO students. Put the money into fast-tracking High School #13 and look at shifting students when it opens.
4060	CentennialLaneES	BurleighManorMS		CentennialHS	5	1	2	1	3		1	2	3	4		
4061	WestFriendshipES	MountViewMS		MarriottsRidgeHS	1	3	4	1	7	Move polygons 304,1304 to BPES and move 1305,4169 back to WaverlyES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is densely populate	3	4	1	7	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MTHHS)nor Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS	Current AAC forces 1 hour bus time and # of buses to the school for Polgon 231, 229,1231 and 2229 which must be considered (requires stop at every house of the student due to having no side works) unlike Turf valley where 2-3 stops are needed.
4062		BurleighManorMS			1	3	7	2		Polygon 147 has been in Centennial community for 50 years,	3	2			Columbia downtown has big residence projects which will cause overcapacity in WLHS, current projection underestimates the student population in that area.	polygon alternatives: (1) Keep 147 in CLES, BMMS and CHS, capacity utilization will be less than 115% within 5 years. (2) Keep 147 in CLES, BMMS and CHS, move 97 and 1155 to MRHS; (3) Keep 147 in CLES, BMMS and CHS, move 2150 to Wilde Lake HS.
4063				MarriottsRidgeHS	4	1	1			I would prefer to leave high schools unaffected in light of fact new high school being built in 2 years. changing hs mid way through is less then optimum	1				I would prefer to leave high schools unaffected in light of fact new high school being built in 2 years. changing hs mid way through is less then optimum	I would prefer to leave high schools unaffected in light of fact new high school being built in 2 years. changing hs mid way through is less then optimum
4064	CentennialLaneES	BurleighManorMS		CentennialHS	5	2	7	7	6		1	4	6	8		
4065				HowardHS	1	3	3	4	13	Polygons which walk to school(s) should continue to be walkers to school(s). As a tax payer I believe the school system shall be fiscally responsible with their funds. Adding buses to transport students that are walkers takes funding away from other areas	3	3	4	13	Walkers to any school(s) should remain walkers. Using funds for additional buses is not fiscally responsible nor good for the environment. Walking encourages school and extracurricular participation, cuts down on teen driving and parking issues.	Leaving the walking polygons (65, 1065 and 2065) at Howard still leaves the school in the acceptable utilization range. Leaving these same students in their current MS has minor impact. Moving another polygon(s) already on a bus makes more fiscal sense.
4066	ThunderHillES	ElkcottMillsMS		HowardHS	1	3	3	4	13	Polygons 65,1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65,1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement and the environment. Not to mention reduces teen drivers on the road which is critical as car crashes are the leading causes for teen deaths	Polygons 65,1065 and 2065 should stay at a middle school that feeds to Howard HS. moving them to Oakland Mills MS does not provide a long term solution because Oakland mills HS will quickly become overcrowded potentially more so than Howard HS.
4067																
4068	NorthfieldES	DunloggінMS		CentennialHS		3	4	6	9	We just moved from Columbia to Dunlogin community for our kids to go to Centennial hs. If you rezone us to Wild Lake, the property value will drop by 150K, your tax revenue will go down, we'll sell our home with loss & move to Montgomery co. don't do it	3	4	6	7	Please don't rezone Dunloggin EC from Centennial to Wiled Lake. Taxes will ego down, we'll sell our house with a loss. Your revenue will go down.	Please don't rezone Dunloggin EC from Centennial to Wiled Lake. Taxes will ego down, we'll sell our house with a loss. Your revenue will go down.
4069			BurleighManorMS		1	3					3					polygon alternatives: (a) Keep 147 in CLES, BMMS and CHS, move 1173 and 2173 to MRHS; (b) Keep 147 in CLES, BMMS and CHS, move 1184 to Wilde Lake HS.
4070				HowardHS	1	3	13	4	5	The AAC draft plan would move my child from Howard Highschool to LongReach Highschool, which would disrupt his education greatly.	3	4	13	7	The feasibility study would keep my child at Howard Highschool, while the AAC Draft plan would move him.	
4071	WestFriendshipES	MountViewMS		MarriottsRidgeHS		3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to WaverlyES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is densely populate	3	4	1	7	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MTHHS or Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS. Or Keep the feasibility study plan.	Current AAC forces 1 hour bus time and # of buses to the school for Polgon 231, 229,1231 and 2229 which must be considered (requires stop at every house of the student due to having no side works) unlike Turf valley where 2-3 stops are needed.
4072	FultonES	LimeKilnMS		ReservoirHS	5	2	7	6	11	We are one of the original families to move into Maple Lawn. We watched as they built Fulton ES, Lime Kiln MS, and Reservoir HS. We have three children who will be attending all three schools this fall. We want to remain an intact community.	1	7	6		While there are no immediate plans to redistrict our children, in some of the scenarios I have seen my area of Maple Lawn is being considered for redistricting. This goes completely against why we moved to the area and chose Howard County.	
4073	CentennialLaneES				1	3	7	8	6	The AAC plan is inconsistent with policy 6010 according to the responses chosen above. In addition, it increases transportation cost for the county due to bus traveling more distances and more maneuvers; as well as increase number of bus riders.	3	7	4	6	Obviously, the AAC draft does not really help to solve a problem or projected problem according to policy 6010. In consideration of my responses above, an alternate plan need to be developed that will be more practical.	That the staff and board should carefully consider all surveys, emails, alternative plans that discontent the AAC draft in line with policy 6010.
4074	ThunderHillES			HowardHS	1	3	4	3	13	polygons 65, 1065 and 2065 walk to Howard high, walkers reduce bus costs, this demonstrates fiscal responsibility in line with policy 6010, adding buses to transport students to omhs would be sacrificing money for other costs such as hs #13	3	4	3	13	Polygons 65, 1065, and 2065 walk to Howard hs. Walking to school is good for students health, the environment, helps out the parents, keeps teen drivers off the road.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard ha. Moving 65, 1065 and 2065 to omhs does not provide a long term solution bc omhs will quickly become overcrowded, potentially more so that Howard
4075	DaytonOaksES	LimeKilnMS		RiverHillHS	1	3	6	7	4	The alternate plan sets up overpopulation by 2018 - RHHS would be at over 110% of school capacity. The plan erroneously assumes little to no new housing construction or growth locally. The assumption is wrong and RHHS will be significantly overcrowded.	3	6	7	4	The alternate plan creates an additional "feeder school" - Harper's Choice Middle School into River Hill High School. The alternate plan creates an even worse feeder situation by sending five middle school students feed into Atholton High School.	The Feasibility Study for redistricting provides a reasonable approach for addressing growth in the current and future student population. Addressing feeder schools and future growth compels HCPSS to stay with the results of its feasibility study.
4076	NorthfieldES				1	3	4	14		We are in Polygon #2154. The students will spend at least 20 minutes to go to Marriotts Ridge HS. The time will double comparing with going to Centennial HS. Especially in the morning, the 20-minutes is very important for high school students.	3	6			AAC draft plan will assign fewer students to go to Marriotts Ridge HS. Smaller portion of students from Burleigh Manor to Marriotts Ridge HS.	We suggest students going to schools close to their homes so that they do not need to spend lots of time on transportation and they will have schoolmates living nearby.
4077	ThunderHillES	ElkcottMillsMS		HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4078				CentennialHS	1	1	2	4	7	WS-- has a lot of development upcoming. This plan seems short sighted in dealing with this. 1. By moving into congestion commute time will be challenging. 2. Possibility of overcrowding and need to move again. 3. Disruption to sense of community.	3	10				
4079			MountViewMS	MarriottsRidgeHS	1	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to WaverlyES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is densely populate	3	4	1	7	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MTHHS)nor Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS	Current AAC forces 1 hour bus time and # of buses to the school for Polgon 231, 229,1231 and 2229 which must be considered (requires stop at every house of the student due to having no side works) unlike Turf valley where 2-3 stops are needed.
4080	ClarksvilleES	BurleighManorMS		CentennialHS	5	1	3	5	6		1	1	2	4		
4081			MountViewMS	MarriottsRidgeHS	1	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to WaverlyES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is densely populate					Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MTHHS or Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS or Possibly Feasibility Study Plan	Current AAC forces 1 hour bus time and # of buses to the school for Polgon 231, 229,1231 and 2229 which must be considered (requires stop at every house of the student due to having no side works) unlike Turf valley where 2-3 stops are needed.
4082	CentennialLaneES	BurleighManorMS		CentennialHS	5	1	1	2	3		1	3	4	5		
4083					1	3		3	2		3	2	3	1

4085	RockburnES				1	3	9	4	7	We chose the Rockburn Twp Neighborhood because we wanted our children to attend Howard HS rated as a 10. We DO NOT WANT them to attend Long Reach HS with a much lower rating of 6. WE WONT SACRIFICE OUR CHILDRENS EDUCATION SO YOU CAN BALANCE DEMOGRAPHICS	3	9	4	7	This plan & study is ridiculous! If I wanted my children to attend Long Reach HS, I would have purchased a home on Tamar Drive!	It is ridiculous to transport students to LRHS when it's much closer to HHS. This would affect bus boarding times and time spent in transit as well as study time and sleep time. We don't want our kids in a statistically proven inferior school.
4086	GormanCrossingES			AtholtonHS	5	1	1	3	7		1	1	10	2		
4087	CentennialLaneES	BurleighManorMS		CentennialHS	4	1	7	4	6	The capacity of Centennial schools had not been properly considered before large new property projects were developed. I hope this plan will help to restore normal and appropriate level of student attendance in Centennial schools	1	7	6	1	The attendance issue has been dragged so long that it requires a major redistrict plan that not only resolves the deep rooted problem but also faces future. I strongly support the AAC draft plan!	
4088	ThunderHillES				1	3	4	1	13	Current draft negatively impacts me based on transportation and safety concerns (bus commuting time, crossing major intersections, as well as traffic from the new courthouse along the commute) Draft does not address the over enrollment at Thunder Hill ES	3	13	1	4	draft negatively impacts me based on transportation and safety concerns. (i.e. bus commute time, crossing major intersections, and new courthouse traffic along the commute). Draft does not address the over enrollment at Thunder Hill ES	I propose polygons 111, 1111, and 2111 to go to NOrthfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4089	NorthfieldES	BurleighManorMS		CentennialHS	1	3	7	6	13	Respecting existing, organic communities, minimizing commuting time, and keeping as many students together K-12 as possible should be guiding principles. They don't seem to be in the case of the Centennial district.	3	6	7	4	Our kids are in polygon 154 and are slated to shift to MTHS from CHS. To be clear MTHS is a fine school. The issue is that everything we do and everyone we know is south of Rt. 40. That's the organic community. Don't break it up, please.	Redistricting happens. I'm sure some are demonizing your hard work, and I'm sorry for that. But 214, 1154, 154, and 2154 have nothing to do with the MTHHS region. You'll be putting our kids on a social & institutional island if they're moved to MTHHS.
4090	ThunderHillES				1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	One option is to bus to Howard HS as an Option. Howard HS is a better school than Oakland Mills HS.
4091	TriadelphiaRidgeES				5	2	11	6	7	It keeps my child at Triadelphia Ridge Elementary school and allows him to stay with his current group of classmates into Middle and High school, as well as keeping us at the same school as the rest of our neighborhood". We are not negatively impacted."	1	11	6	7	Our family prefers the AAC draft plan because our son would have been redistricted to another school under the feasibility study. We do NOT wish for our son to change elementary schools!!!	
4092	CentennialLaneES	BurleighManorMS		CentennialHS	5	1	1	6	10	I like the proposed plan so our kids' schools are less crowded.	1	2	3	5	The AAC draft plan better resolved the school capacity issue than the feasibility study. I strongly support it!	
4093	PointersRunES	ClarksvilleMS		RiverHillHS	1	3	7	6	4		3	4	7	6		

4094	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example, bus commute time, crossing major intersections, and new courthouse traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example, bus commute time, crossing major intersections, and new courthouse traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4095	BushyParkES	GlenwoodMS		1	3	13			Moving Students out of Bushy Park will disrupt those students without doing anything to alleviate overcrowding at any school. Bushy Park will still be at the capicity intended without removing students to another school.	3	13			AAC draft will cost the County more money moving students out of a newer school that can handle more students to an older school which costs more to operate.	Also it would cost more money for transportation, making bus rides longer to take students away from a school that is in their neighborhood to a school much further down the road.
4096			RiverHillHS	1	3	13	7	4	The plan will disrupt current student communities in high schools and disrupt current students final important academic years in high schools. I can understand moving elementary and middle school students when its necessary - not Jrs in highschool	3	13	13	13		I think it is reckless to move Jrs. to a new high school in their junior year. Our great school system prepares them wonderfully and there is stress involved for most kids. Making them move to a new school in their most important high school is absurd.
4097			WildeLakeHS	2	3	4	1	13	I currently live inside polygon #111, and the proposed plan isn't the best idea for our neighborhood, because it would add to the bus commute time, we'd have to cross major intersections, and the plan doesn't address the issue of over enrollment at THES.	2	4	1	13	The Feasibility Study suggests that a student would go to three different areas inside Howard County just to go to school. With all the problems I listed above, it really wouldn't be the best idea for our neighborhood.	Our neighborhood consists of polygon #'s 111, 1111, and 2111. The best idea would be to send us to Northfield ES, Dunloggin MS, and WLHS, though an alternative would be to send us to ENMS and Howard High, because we do live closer to both schools.
4098			RiverHillHS	1	3	13	13	13		3	13	13	13		It is reckless and disruptive to move Jr.s in high school to a different school in their most important Jr. year. They have enough stress - moving schools will just add to it.
4099	RchesterES	BonnieBranchMS	HowardHS	4	2	4	7			1					
4100		LimeKilnMS	AtholtonHS	1	3	9	1	10	we live in what is being considered polygon 118. There are only 12 kids affected . . . why make a change that has such low numerical impact?	3	9	1	3		
4101	NorthfieldES	DunloggінMS	CentennialHS	1	2	2	7	3	The AAC draft plan artificially splits the StJohns/Dunloggin neighborhood, but historic EC (east of us) maintains a tiny corridor on Frederick Rd to stay in CHS. It also moves half the neighborhood 2x as far, into a very heavily populated area-Wilde Lake.	2	2	4		Both plans are like a household transferring debt every few years between dozens of credit cards. They do nothing to solve the long-range problem. HCPSS is already at capacity for HS students, a new HS school needs to be fast tracked immediately.	Half our community is suddenly being asked to switch from CHS to WLHS. That just trades one problem for another. Why not take the ENTIRE neighborhood and move it west--to RHS (1 mile more than WLHS) or MRHS (same as WLHS) so we don't do this again in 5y?
4102	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	3	4	6	I strongly support this AAC plan. This plan will effectively restore appropriate attendance level in Centennial schools. Thank you, AAC!	1	7	6	4	I strongly support the AAC plan! Thank you for your hard work!	
4103	ThunderHillES			1	3	4	13			3	4	13		Polygons 65,1065,and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.	
4104	GormanCrossingES		AtholtonHS	4	3	10			High school redistricting should be delayed until the new high school is built. The new high school should be fast tracked.	1	1	9		This plan is far superior to the Feasibility Study because it moves fewer students and does not destroy Atholton High school.	Please continue to keep the Emerson Community (west), Wincopia, and neighborhoods along Gorman Road at Atholton. Please let rising juniors stay at their current high school. Do not EVER move walkers to another school.
4105				1	3	6	7	13	My children are long gone, they went to Northfield, then Dunloggin, then Mt. Hebron. They are still friends with some of the kids they actually went to kindergarten with. My youngest son married a girl from Centennial who also still is friend with many.						
4106	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	2	13	Please don't divide our neighborhood.	3					
4107	BollmanBridgeES	PatuxentValleyMS	HammondHS	1	3	8	7	6	This will only band-aid the current problems. While the original feasibility study plan has broader impact, I believe that one large redistricting is preferable to continuous smaller adjustments, such as those we have had over the past several years	3	7	9	6	The original feasibility study was more comprehensive and provided strong, sustainable solutions.	
4108	ThunderHillES			1	3	4	13			3	4	13			
4109		DunloggінMS	CentennialHS	1	3	1	7	10		3					In the Dunloggin/MacAlpine area, being moved to a school with a lower reputation than the current decreases home values and property tax revenue. This older neighborhood relies on the CHS zoning to attract home buyers.
4110		MurrayHillMS	AtholtonHS	2						1	1	10	9	Far, far better than Feasibility Study. Preserves Atholton and moves fewer students. No school should be decimated like Atholton was in the previous plan. A school cannot have the right mix of teachers, clubs, classes, etc... with 65% turnover.	Continue to preserve Atholton. Continue to keep polygons 5,6,1005, 1006, 2005, 2010, 2011 at Atholton. Keep polygons 13, 26, 27, 48, 50, 57, 1026, 1027, 1048, 1050, 1057, 2050, 2057, 3048 at Hammond. Move polygon 270 to Atholton for continuity.
4111			HowardHS	1	3	4	3		Having students in Glenmont walk to Howard High School keeps Glenmont involved with the local community and lowers the cost to taxpayers. I will hold you responsible for any accidents or deaths related to teens in Glenmont driving to another school.	3	4	3		Having students in Glenmont walk to Howard High School keeps Glenmont involved with the local community and lowers the cost to taxpayers. I will hold you responsible for any accidents or deaths related to teens in Glenmont driving to another school.	
4112	ThunderHillES	EllicottMillsMS	HowardHS	1	3				The AAC draft plan will make the middle & high school way too far. Long car and bus rides when they can be walkers or short rides to the schools.	3				Dropping my kids off will cost me more time & risk of being stuck in traffic. I will be late to work. Not only that, they would need more buses to run more. By my kids walking to Howard High will reduce bus costs.	By my kids walking from & to the school, it reduces somewhat of traffic, 1 less car. If my kids attend Oakland Mills High later, I will have 2 teen drivers. I rather have my kids walk to school. 1 less teen driver is better than 1 more teen driver!
4113	NorthfieldES	DunloggінMS	WildeLakeHS	4	2	12				2	9	14			I love the make up of WLHS right now. I would be sad to lose the inclusion of Harper's Choice MS kids--my student has made many great friends from this neighborhood. Upping the number of Dunloggin kids makes the school more homogenous
4114	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7	4		1	6	7	4		
4115	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	13	4		3	5	7	13		
4116	ManorWoodsES	MountViewMS	MarriottsRidgeHS		2	6	7			1	6	7			
4117	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7			1	6	7			
4118	NorthfieldES	DunloggінMS	CentennialHS	1	3	4	7	3	I believe were are more than just a polygon we are a community, Our kids play together and church services together, etc						
4119	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7			1	6	7	9		
4120	ElkridgeES	ElkridgeLandingMS		1	3	6	7	13	The new AAC plan is splitting ELMS up when we were so close to a complete feed to Howard. At the moment, only about 30 kids out of about 200 go to LBHS. WHY? I think it should be a goal to make complete feeds for the school, not break us up even more!	3	6	2	13	Please leave Elkridge alone! We need a new school! It will need to happen eventually and you can't keep moving these kids from one school to the next. It affects them! I think we need to consider doing away with polygons and achieving complete feeds!	I would like a straight answer as to why HCPSS uses polygons! I've never seen anything like it. It means that kids aren't safe at one school for too long. They are shuffled often! AND they are split from their peers from ES to MS and MS to HS.
4121		ElkridgeLandingMS		1	3	6	7	13	My daughter has a group of close friends that she has been with since she was born. They've attended daycare, elementary school, and junior high school together, and we've looked forward to them being together in high school.	3	6	7	13	This plan would separate my daughter and her close friends when they start high school. There is no policy-based justification for the change from the original Feasibility Study proposal, which kept much more of Elkridge together,	Policy is clear that communities should stay together, and we should have strong feeds from Elementary to Middle to High. This new AAC proposal is a step back with respect to those factors. Please reconsider.
4122	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4123	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4124		MurrayHillMS		5	1	6	9		Draft plan... keeps us at the school we were projected to go to keeps us with they people we have been attending school with since elementary school makes sure to lessen some of the crowding	1	1	5	9	The feasibility plan is negatively affecting my neighborhood. It is causing so much more worry, stress, and anger than it is worth and it might cause some people(friends) to move It also moves so many students from schools that they have been going to	Hammond might not be able to provide the level of education some people are wanting/needing for their students I am in all GTs and want to continue getting the best education I can
4125	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	13				3	6				
4126			CentennialHS	1	3	7	4	10	Claims capacity is primary concern, yet diversity appears to be the target as there a disproportionate number of Asian and black or African students being redistricted	3	7	4	5	See previous comments. Students living within a mile of their feeder schools should not be redistricted. Gerrymandering lines to improve school scores instead of addressing reasons for poor performance is the ultimate disrespect to students.	It makes little sense for students living within 1 mile of Centennial feeder schools being redistricted Wilde Lake when students who live farther away (east of 29 and north of 40) remain in the Centennial district. The school district map is an atrocity.
4127	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	13	2	As parents of 3 children, we are concerned about increased travel distance and time if the AAC draft plan is implemented. Current distances from our house to WFES=1.9 mi and to MVMS/MRHS=1.1 mi. Distances to BPES/GlenwoodMS=7.0 mi and to GlenelgHS=5.6mi.	3	4	13	2	We are particularly concerned about the proposed change to MS and HS. Currently, our children could walk to MVMS and MRHS (1.1mi from house). GlenwoodMS is 7.0mi and GlenelgHS is 5.6mi. This translates into a long bus ride as opposed to a short walk.	We support: Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. AND Keep 224, 229, 231, 232, 1229, 1231, & 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS & MtHHS.
4128	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4129	LangfellowES			5	2	11				1	9				
4130		MurrayHillMS		5	1	6	9		I have always participated in all GT classes and did MESA. Hammond wouldn't have high enough academic standards to attend to the needs of many of the new students for at least a few years. By putting us in Hammond, your disrupting the whole community.	1	6	9		The AAC plan accommodates all the concerns of the communities that would be affected. This plan will keep the balance of our community stable, instead of throwing it into an upheaval because we won't be going to the HS we always planned on going to.	The AAC plan means all my friends and I would be able to go to high school together.We are all high level learners.We want to know that we will be able to grow to our full potential.We've know each other for 8 years,so don't rip us apart,like many others
4131	AtholtonES			1	3	4	13	14		3	4	13			
4132			RiverHillHS		3	6	7	13		3	6	7	13	The AAC plan does not meet the needs of the community because it will cause overcapacity in at least 3 high schools through 2023. Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% The Feasibility Plan has lower capacity levels.	Feasibility plan has lower capacity Levels. Atholton 110.3 %, River Hill 105%, Wilde Lake 106%, Implementing the AAC plan will result in another redistricting in the near future.
4133	ThunderHillES	EllicottMillsMS	HowardHS	5	3	4	13		We had bought this house for the future of our kids academic development. Redistrict will result in school district that is not our intention, and potentially require us to move.	3					
4134	AtholtonES			1	3	4	13			3	4	13			
4135			AtholtonHS	5	1	1	10			1	1	10		This achieves overall goals and objectives with less overall disruption.	
4136	WorthingtonES	EllicottMillsMS	MtHebronHS	5	2	7	6	14	It is good to see the most recent proposal that Polygons 2093, 3093, and 4093 are separated from our contiguous Worthington neighborhood (93, 1093, 2093, 3093, 4093, 309, and 1909). Any area attendance adjustment must keep Worthington intact.	1	7	6	14	Worthington is maintained. However, it seems very premature to make drastic moves when there is so much uncertainty in the population forecasts and so far ahead of the new high school.	it seems very premature to make drastic move for HS areas so far ahead of the new high school. The plan would be minimize student moves by waiting to make HS moves until the new school is opened.
4137	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	7	8	I strongly suggest keep polygon 154,1154 to current school district	2	4	6	10	Please keep the student impact to minima	
4138	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	3		1	1	10	3		

4139	ThunderHillES			1	3	13	4	3	Polygons 65, 1065 & 2065 walk to THES & Howard High. Walkers reduce bus costs which demonstrates fiscal efficiency in line with Policy 6010. Adding buses for OM Middle & High divert $5 from more fiscally prudent expenses like HS #13. Morale is low 4 kids	3	4	13	3	Polygons 65, 1065, 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It lessens the development of gangs or village Cliques" It also reduces new teen driver accidents to/from school."	Polygons 65, 1065, & 2065 should remain at a Middle school that feeds to Howard HS. Moving 65, 1065, & 2065 to Oakland Mills MS & HS does not provide a long term solution because OMMS & OMHS will become overcrowded, more so than Howard HS & with more cost
4140	NorthfieldES			5	2	7			Thanks for keeping Frederick Road as a logical boundary line. Thanks for keeping all of the Gray Rock Farm area feeding into CHS.	1	7			Thank you for keeping Gray Rock Farm together as a contiguous neighborhood. Thanks for keeping logical boundaries.	Can you also keep Dunloggin together as a contiguous community?
4141	NorthfieldES	DunlogginMS	CentennialHS	1	3	3	4	6

4153	SwansfieldES	HarpersChoiceMS	WildeLakeHS	1	3	13	7	9	While the polygon for our home is adjacent to River Hill, because of the Middle Patuxent River, the distance to the school is significantly farther than it appears on the map. Students will not be able to safely walk or bike home after school.	3	13	7	9	While the polygon for our home is adjacent to River Hill, because of the Middle Patuxent River, the distance to the school is significantly farther than it appears on the map. Students will not be able to safely walk or bike home after school.	
4154	GormanCrossingES	MurrayHillMS	AltholtonHS	5	2	1	14	14		1	1	10	14	AAC plan is better than the one proposed by the Feasibility study. It proves that the issue of over-crowding could be resolved by moving fewer students than as proposed by the feasibility study.	
4155	GormanCrossingES	MurrayHillMS	AltholtonHS	5	2	1	14	14		1	1	10	14	AAC plan is better than the one proposed by the Feasibility study. It proves that the issue of over-crowding could be resolved by moving fewer students than as proposed by the feasibility study.	
4156				1	3	7	4	6	Keep the school assignments as they currently are.	3	13				
4157	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	3	6	If AAC draft plan is executed, my kids will pass 2 schools closer to us & travel West by 20 times longer than current attendance area. This is not feasible for working parents like us. While new development south of Fulton will attend PRES.	3	6	4	13	Feasibility Study plan was an improvement to keeping students together moving from ES to MS to HS. It also improved transportation consideration than the current attendance and helped capacity. Feasibility Study plan is much better than AAC plan.	Feasibility Study is an improvement to both AAC plan and the current attendance area with consideration for distance to school AND keeping students together as they grow in HoCo. AAC plan is worse than the current attendance plan AND Feasibility Study.
4158	NorthfieldES	DunlogginMS	CentennialHS	1	3	13	13	13	The AAC draft plan will not help current residents or the Howard County community in Ellicott City. Property values will drop, current residents will leave the area, and property tax revenues will decrease resulting in a downgrade of standard of living.	3	13	13	13	The AAC draft plan will not help current residents or the Howard County community in Ellicott City. Property values will drop, current residents will leave the area, and property tax revenues will decrease resulting in a downgrade of standard of living.	The AAC draft plan will not help current residents or the Howard County community in Ellicott City. Property values will drop, current residents will leave the area, and property tax revenues will decrease resulting in a downgrade of standard of living.
4159	AltoltonES	HammondMS	HammondHS	1	3	1	6	9	Based upon the summary of draft plan, the attendance at Hammond Middle school goes from 91% to 84% while the purposed change to move areas 1057, 2057, and 57 to Lake Elkhorn would elevate the utilization from 94% to 108%.	3	1	6	9	Based upon the summary of draft plan, the attendance at Hammond Middle school goes from 91% to 84% while the purposed change to move areas 1057, 2057, and 57 to Lake Elkhorn would elevate the utilization from 94% to 108%.	The McGills Common and AllView neighborhoods would be better suited to stay closer within their demographic and physical location while only impacting current schools minimally.
4160	GormanCrossingES	MurrayHillMS	AltholtonHS	5	1	1	10	4		1	1	1	10		
4161		MurrayHillMS		1	6	7	1		Plan addresses conditions in the northeast part of the county without major impact to other areas. It is very important to me and my children that they continue to go to school with the core friends they established in elementary school.	1	6	7	1	AAC plan impacts fewer students and families while still addressing conditions in some overcrowded schools. I highly prefer the AAC plan over the feasibility study. It relocates far less students in my area.	AAC has come up with a plan that the superintendent and the school board needs to approve.
4162			CentennialHS	1	3	6	5								
4163		BonnieBranchMS	HowardHS	5	1	6	7	6	Montgomery Meadows polygons 84, 95, 1095, 2095. This plan keeps our neighborhood with all of the other neighborhoods around us. Our proximity is closer to Howard. This will keep travel times less.	1	6	7	10	This plan reduces the number of students being moved over the feasibility plan. It has better school utilization	This plan is so much better for Howard County as a whole. It reduces the number of students being moved. This plan is keeping neighborhoods together.
4164	ThunderHillES	DunlogginMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns for example bus commute time, crossing major intersections and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns for example bus commute time, crossing major intersections and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111 and 2111 to go to Northfield ES, Dunloggin MS and Wilde Lake HS. This proposal solves safety and transportation concerns longevity of the feed and maintains our sense of community.
4165	SwansfieldES	HarpersChoiceMS	WildeLakeHS	3	3	6	4	7	My child would have to go to a high school much further away than 2 schools that are considerably closer. It makes no sense to have students transported so far away.	3	13	4	6	My child would have to go to a high school much further away than 2 schools that are considerably closer. It makes no sense to have students transported so far away.	
4166	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
4167		DunlogginMS	CentennialHS		3	7	6	4	My children have been with the same classmates since 1st grade. Their friendships have been built for many years and would be split at the most critical time. as they enter high school. I have a personal experience with this and it is very difficult.	3	7	6	4	The Feasibility Study did not split our neighborhood. Continuous neighborhoods should feed into the same schools closest to the neighborhood. Transportation is also a concern in an area that is currently congested with more construction happening.	My biggest concern is splitting our community and the friendships. I feel the boundaries for schools should be major roadways (29, 40) and not small neighborhood roads. This is difficult on our children at a critical time in their life.
4168	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	I believe AAC is not optimized for transportation required in time and resource. Better actionable are; Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES.	3	1	4	7	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Vall is dense	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MTHHS or Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS or Revert to feasibility study plan
4169	NorthfieldES					6	4	2	The most recent plan divides our neighborhood of Dunloggin. This is a violation of your own policy : 6010 IV B 2 (b) keeping neighborhoods together. Dunloggin is a well established and clearly diefined community. You have drawn a line through it.	3	6	4	2	The draft plan is contrary to your stated policies and arbitrarily divides our historic community. This is exactly what what attempted in Grey Rock. If it was bad for them, why is the same thing being done at the last minute to our community of Dunloggin	Redistricting at this time is a shortsighted solution. When the new high school opens, redistricting must be done. The FEASIBILITY STUDY did NOT recommend our community be split, yet now at the last minute the draft plan does exactly that.
4170	ManorWoodsES			5	2	6	7			1	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children	
4171			HowardHS	5	2	6	7	8		1	6	7	8		
4172	NorthfieldES	DunlogginMS	CentennialHS	1	3	6	4	7		3	4	6	10		
4173		BonnieBranchMS	HowardHS	5	1	6	7	1	AAC plan has better school utilization. It reduces the number of students being moved. It keeps neighborhoods together.	1	4	6	7	The AAC plan keeps neighborhoods together. Reduces the number of students being moved. Has better school utilization.	So happy this plan keeps polygon 84 with the neighborhoods around us. The feasibility plan separates us/insulating us from all other neighborhoods around us creating an island/small feed.
4174			CentennialHS	1	3	7	4	6	Please do not divide our Dunloggin community. We do a lot of things together such as 4th of July Parade, Easter Egg Hunt, Halloween parade. Ride to Miller Library to do group study which is within walking distance. WLHS is too far. Unify our community.	3	7	4	6	AACC draft plan is dividing our Dunloggin Community. Dunloggin has been together for more than 50 years and it's well-defined neighborhood with clear and clean boundaries. UNIFY DUNLOGGIN COMMUNITY PLEASE!!	Traffic is awful going to Columbia/Town Center and it will get worse with the planned development. We bought home in Ellicott City to go to school in Ellicott City, not Columbia. My kids can't bike to WLJS at all. They like to walk and bike to CHS.
4175	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	AAC should have considered required Transportation cost and time as well as organic growth of the existing capability. Otherwise we will forever go through this cycle.	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES and keep 224,229,231,232, 1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is dense	Consider Keeping 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 160,162,1160,1162,and 2161 at PMS and MTHHS or Keep 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS or Revert to feasibility study plan
4176	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	AAC should have considered required Transportation cost and time as well as organic growth of the existing capability. Otherwise we will forever go through this cycle.	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES and keep 224,229,231,232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is dense	Consider Keeping 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 160,162,1160,1162,and 2161 at PMS and MTHHS or Keep 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MTHHS or Revert to feasibility study plan
4177	CentennialLaneES			1	3	13	7	9	Location in the neighborhood to attend Centennial H.S. was a selling point for this community, Centennial Overlook. This proposal takes away something on the basis of which we purchased our home.	3	6				
4178	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	AAC should have considered required Transportation cost and time as well as organic growth of the existing capability. Otherwise we will forever go through this cycle.	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES and keep 224,229,231,232,1231, 1229, 2229 at WFES. 4179			AltholtonHS	3	10				Current redistricting should be limited to elementary schools.	1	10			Although I'd prefer no high school redistricting at this time, the AAC draft plan is a million times better than the Feasibility Study. It reduces the number of kids moves, removes unneeded swaps of feeds (Atholton <-> Hammond) and mostly preserves AHS.	Please continue to preserve AHS. Keep the (west) Emerson neighborhood at Atholton. Some are asking that east Emerson go to Atholton but many of them are now happy at Hammond. It does make sense to send polygon 1272 to Murray Hill Middle.
4180		BonnieBranchMS		5	1	6	7	1	The AAC plan reduces the number of students being moved. Keeps neighborhoods together. Utilities the schools better.	1	6	7		The AAC plan factored in the county transportation costs much better. Utilities the schools better.	This plan keeps our community polygons 84,95, 1095, 2095 with the other communities around us. Stopping the creation of a small feed. Stops the insulation of our children.
4181	GormanCrossingES	MurrayHillMS	AltholtonHS	5	1	8	5	6	The AAC draft plan is a much better plan than the FSP because it helps most juniors to stay at the high school they were originally at rather than disrupt many juniors' journey through the years (due to the need to switch high schools in the middle).	1	7	8	13	The AAC draft plan seems to be a slower version of the integration that the Feasibility Study is trying to achieve, which is better for students as a redistricting means a lot of difficulties and adaptation for them that will only make their lives harder.	The AAC draft plan should definitely be put through with! High schoolers already have much difficulty with college and school work and less redistricting will help to relieve that a little- redistricting in the midst of school is both unnecessary and hard

4182			AtholtonHS	3		7	6	1	Given the pressures on JRS to succeed academically with rigorous schedules, to succeed with extra curricular activities, to develop relationships with mentors for recommendations, to become leaders: give the Juniors a choice. No forced relocations.	1	1	3	6	Improved, but I recognize that it won't solve all of the district capacity issues.	Let the Juniors emphasize their academics and concentrate on the college process. Don't add to the chaos with new schools, new counselors and no consistency with extra curricular activities. Please allow rising juniors to choose to stay.
4183		BurleighManorMS	CentennialHS	1	3	4	6	7	It pits communities against each other.	3	2	3	6		
4184	PointersRunES	LimeKilnMS	AtholtonHS	1	1	6	7	4	My son attended Pointers Run ES, which is right across Clarksville MS. However, unlike most of the students at PRES, he's going to LKMS. He was very sad to be separated from some of his best friends.	3	6	7	4	The AAC draft plan involves moving a lot of large neighborhoods around, some of which don't seem to be necessarily. We'd like to see our child going to the same schools with his friends from the same elementary, middle, and high school.	Building K-12 communities and making good use of transportation resources are also important. We'd like to have my son continue to Clarksville Middle School and River Hill High School.
4185			HowardHS	5	1	1	6	7	The AAC plan keeps communities together. Reduces the number of students being moved	1	6	7		The AAC plan reduces the number of students being moved. Has better school utilization. Lowers county transportation costs	This plan keeps neighborhoods together lowers the the creation of small feeds/islands such as polygons 95,1096,2095,& 84. Seems to understand there proximity to Howard.
4186	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065 & 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility consistent with Policy 6010. Adding buses to transport students to Oakland Mills HS adversely impacts funding for other projects such as HS #13.	3	3	4	13	Polygons 65, 1065 & 2065 walk to Howard HS. Walking is good for health, environment, community involvement and It reduces teen driving, critical because motor vehicle fatality is the leading cause of death to teenagers." -Nat'l Center for Health Statist"	Polygons 65, 1065 & 2065 should remain at a middle school that feeds Howard HS. Moving 65, 1065 & 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4187	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	10	4	2	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly and keep 224, 229, 231, 232, 1231, 1229, 2229 at WPES. This moves fewer students and bus time will be less b/c Turf Valley is densely populated.	3	10	4	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS.	The AAC plan would put WPES utilization at 113% by 2022 and 126% by 2023. Once WPES goes over 100% capacity, a $4 million septic upgrade is needed.
4188			CentennialHS	3	7	4	6		I am a CHS student,filling this out and hope my voice will be heard. I am very upset that HCPSS wants to separate Dunloggin neighborhood. I need my local friends for socially, emotionally and academically. I do not want to switch to different high school.	3	7	4	6	Please do not define us as polygons. Please respect us and keep my Dunloggin community together. I love my Dunloggin community. We did so much things together as a community. My favorite memory is the Halloween parade with the whole Dunloggin community.	I would like to have the opportunity to bike to CHS from Dunloggin with my friends to get my daily exercise. We stop by Miller Library after school to do study together. But if you put me in WLHS, I can't bike there. It's too FAR.
4189	NorthfieldES	DunlogginMS	CentennialHS	1	3	4	13	9	The AAC draft plan is terrible. There seems to be a disjointed movement of old non-transient & non-growing community to a region with growing community and overcrowded community.	3	4	2	13		
4190			MtHebronHS	5	2	11	1	2		2	11	1	2		
4191		MurrayHillMS	AtholtonHS	5	2	1	8	2	Improves the over capacity situation at the target schools without negatively impacting those that are under utilized or currently at capacity.	1	1	10		The AAC Plan is superior to the Feasibility Study, as it solves overcrowding by moving far fewer students and preserves the current makeup of Atholton High which is not over capacity.	Best to address the overcrowding at those schools currently affected until HS #13 is finalized (built). Only at that time, should an exhaustive feasibility study be performed taking into consideration the new school.
4192		BonnieBranchMS	HowardHS	5	1	6	7	1	The AAC plan lowers the number of students being moved. Utilization of schools are better. While keeping neighborhoods together.	1	6	7	1	This plan is so much better than the feasibility plan. Keeps neighborhoods together. Lowers the number of student being moved.	Polygons 84,95,1095,2095 are pleased that the AAC committee realizes the need to keep communities together. The need to not create small feeds & islands.
4193	CentennialLaneES	BurleighManorMS		1	3	8	4	7	My kids would be moved more than once within two years and would be traveling three times longer than the current distance to the new school which would greatly impact their study habits, extracurricular activities and tie to teachers/friends.	3	8	4	7	The county planning department estimates 6,400 new residential units will bring 755 new students to the school system in wilde Lake area. This will negate the need to move Centennial Polygon 147 students to Wilde Lake Schools.	
4194	HammondES		AtholtonHS	5	1	1	10		Please keep Atholton HS intact.	1	1	7	10	It changed the Atholton school body too drastically. It also moved kids away from friends that they have always been in school with.	
4195			AtholtonHS	5	1	1			The AAC draft plan is fixing our current problems but is also not making Atholton being at full capacity or overcapacity while the feasibility study plan requires over 2000 students to move into atholton which a lot more than the AAC draft plan.	1	1			AAC draft plan is a much better plan the feasibility plan because the AAC plan is only moving 1700 students while the Feasibility is moving around 3000 students which causes a huge disruption in the school system and the sudden change is unfair.	AAC plan needs to be the plan that the school board is going to go through.
4196		FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106% AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting.	AAC does not meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility. AAC and Feasibility are unacceptably low from Folly Quarter to River Hill, 11% to approx. 16%. Results in feelings of isolation.
4197	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8	The committee has done an excellent job considering all feedback & working to address these factors. This plan is much better than the original feasibility study for our community- 87, 2087,3087.	
4198			HowardHS	1	3	3	4		Polygons 65, 1065, and 2065 walk to howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills would mean sacrificing money for other costs such as HS #13.	3	3			Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on road, critical b/c car crashes are leading cause of deaths for teens.	Glenmont should remain at Howard HS. We are walkers and the homecoming parade comes through our neighborhood!
4199	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4200	ClemensCrossingES			4	1	6	4			1	9	4			
4201	IlchesterES	BonnieBranchMS	HammondHS	5	1					1					Neighborhood proximity 95, 1095, 2095 and 84. our proximity to Howard, county transportation costs, better school utilization, reduction of number of students moved over feasibility plan, and keeping neighborhoods together
4202	PointersRunES			3	3	6	7	2	Seems disjointed for many places for elementary school to middle school and then back to the same district for elementary school- moving the hobbits glen/harpers farm area where middle school is different the other elementary and high school kids.	3	6	7	2	Seems disjointed for many places for elementary school to middle school and then back to the same district for elementary school- moving the hobbits glen/harpers farm area where middle school is different the other elementary and high school kids.	I think there is no great solution and should wait to build the new high school before moving people again. There have been lots of Atholton parents upset with the feasibility study and a lot of upset River Hill parents with the AAC draft plan.
4203	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	5	7	4	There are several programs in the Centennial Lane ES which are not same as in the other elementary school. My child need the speech program and is very comfortable with the teacher and would be a big impact for him.	3	4	6	5	Feasibility study is based on the distance and transportation time to and from the school and also long term commitment which is not in the AAC plan.	My child already in 3 different elementary schools with in 4 years of his school. First, he started in Thunder hill elementary school and redistricted to Northfield elementary school,he moved to CLES. Now he is going in BMMS and then WLMS which impact him
4204	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High School. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills would mean sacrificing money for other costs such as HS	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death fro teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065 and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more than Howard HS.
4205	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	AAC is not in consistent with Policy 6010 IV.B.1.a, 6010 IV.B.1.b and 6010 IV.B.1.D. It is not considering Maintenance of communities and transport time and resource and existing seats that will grow organically. Suggestions follow in next comment blocks	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES and keep 224,229,231,232,1231, 1229,2229 at WPES. WPES will grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is dense.	Think about 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 160,162,1160,1162,and 2161 at PMS and MtHHS or Keep 224,229,231,232,1229, 1231,and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS or Revert to feasibility plan best route
4206	CentennialLaneES	BurleighManorMS	CentennialHS	4	2	7	6	4	AAC appears to not disturb a lot of neighborhoods.	1	7	4	6	The AAC plan is better because it doesn't dice up the neighborhoods as bad. It appears to try to keep existing (and long time) neighborhoods together. It doesn't seem to inflict as much pain as the feasibility study does. It's more common sense.	
4207	GormanCrossingES	MurrayHillMS		5	1					1	1	10			Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012.
4208	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	7	AAC is not in consistent with Policy 6010 IV.B.1.a, 6010 IV.B.1.b and 6010 IV.B.1.D. Suggestions follow in next comment blocks	3	1	4	7	Move polygons 304,1304 to BPES and move 1305,4169 back to Waverly ES and keep 224,229,231,232,1231, 1229,2229 at WPES. WPES will grow to full utilization organically. This moves fewer students and the bus time will be less because Turf Valley is dense.	Think about 224,229,231,232,1229,1231,and 2229 at MVMS and MRHS, keep 160,162,1160,1162,and 2161 at PMS and MtHHS or Keep 224,229,231,232,1229, 1231,and 2229 at MVMS and MRHS, keep 159 and 1159 at PMS and MtHHS or Revert to feasibility plan best route
4210	NorthfieldES			1	3	7	6	4	With AAC plan, we CAN NOT keep the community together, keep kids together as they feed from one school to the next, and keep kids safe at commute as the distance to the school gets twice long and kids have to go through the major congestion routes.	3	7	6	4	The Feasibility Study prepared by a team of experts over the course of a deliberative study did NOT recommend that our community be split. Also, the Feasibility Study includes a fuller analysis while the AAC Draft Plan makes proposals without full data.	(In addition to the above comment) The redistricting seems premature given significant events on the horizon – new high school being built, downtown Columbia plan coming to fruition.
4211			CentennialHS	1	3	7	4	6	Congestion & construction!! It is irresponsible to force more traffic, particularly new drivers, into Columbia & Wild Lake. The plan doubles commute miles from Dunloggin and with the traffic, commute times and the potential for accidents are unacceptable.	3	4	7	6	With the exception of the polygons moving to MRHS from Grey Rock and Font Hill, the feasibility plan appears to be far more reasonable. The AAC plan rips the tight-knit Dunloggin community in half. HoCo benefits from its strong communities.	The AAC plan represents massive reassignments with few and short-term benefits at best. There are less disruptive alternatives. With a new high school on the horizon and significant development in the area, this plan will be obsolete quickly.
4212			MtHebronHS	1	3	4	6	7							
4213	RockburnES	ElkridgeLandingMS	HowardHS	5	2	7				1	6	7	8	Lynwood community - polygon 87, 2087 & 3087 is fully supportive of the AAC draft. It seems to move less students, utilize available space in Oakland Mills and Western Ho Co.	
4214	GormanCrossingES			5	1	10	6			1	6				
4215		ClarksvilleMS			3	13	13	13	by cutting the Autumn Wind loop (off of Great Star drive) out of atholton hs, and pulling it into river hill hs, you will be splitting up children who have been friends and classmates since kindergarten. this is very cruel.	3	13	13	13	by cutting the Autumn Wind loop (off of Great Star Dr) out of atholton hs, and pulling this small part of the neighborhood into river hill hs, you will be splitting up children who have been friends and classmates since kindergarten. this is very cruel.	
4216	NorthfieldES	DunlogginMS	CentennialHS	1	3	4	6	7	We live in Ellicott City, CHS is in EC, WLHS is in COLUMBIA. The new map has homes further from CHS still zoned there, while we are closer and zoned for WLHS. We would add to Rt 29South traffic at rush hour, already a HIGH congestion time.	3	7	4			Please don't divide our neighborhood so haphazardly just to post attendance numbers. We live in a great, united neighborhood and this would greatly (Negatively) affect us. I do not want a future young driver on Rt 29South to get to school during rush hour
4217										1	1	10		The AAC addresses overcrowding but moves fewer students and preserves Atholton.	
4218		BonnieBranchMS	HowardHS	5	1	3	7	6		1	4	6	7		The AAC Draft plan keeps our neighborhood going to Howard, which is 0.7 miles from the school. I am a member of the Bicycle Advocates of Howard County and want kids in the neighborhood to be able to walk/bike to school.

4219	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	4	3	Keep 224, 229, 231, 232, 1231, 1229, 2229 at WFES and WFES will grow to full utilization. Moves fewer students and the bus time will be less. Move 304 and 1304 to BPES. Instead of having WFES become overcrowded in a few years and spend $4 million upgrad	3	4	3	7	Bus time to BPES, Glenwood MS, and Glenelg HS would be at least an hour for Polygon 1229 while the polygon is directly connected to MVMS & MHS and WFES.It disproportionally affects people who live near those schools to travel/drive far on congested Rt 32	It would be much less disruptive to keep 224, 229, 231, 1229, 1231, and 2229 at MVMS and MHHS.The Western part of the county, the schools are much further apart; moving schools means over 1 hour of bus time for our kids for the rest of their school years.
4220	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	6	7	AAC draft plan does not change our current attendance	1	7	1	3	AAC draft better preserves traditionally balanced educational resouces,	
4221	AtholtonES			1	3	6			We live in Columbia and I love the neighborhood and village feel and the community to creates. I strongly wish neighborhoods and villages could be kept together at all three schools. Make the polygons bigger so elementary kids can travel on together.	2	4	6		We are walkers for high school and the AAC plan has us listed as so. However, the Feasibility Study moves our polygon (#13) to be busad to a high school further away.	Again, I suggest the elementary school attendance area be made a polygon. This polygon would then move to the same middle school and same high school. Please at least keep Macgills and Dickinson neighborhoods (Kings Contrivance) together. Thanks!
4222		MurrayHillMS		5	1	1				1	1	10		The Original feasibility study moves more than 2000 students than AAC draft proposal. The AAC draft proposal still address the issue with overcapacity. This will lead more stability,less disruption, but accomplish the same goals.	The feasibility study moves 951 students or 66% of the student body out of atholton, and 786 students in. The 1731 students being transferred is greater than total amount of total enrollment of the school.The AAC Plan is superior to the Feasibility Study.
4223			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	6	5	5	Polygons 65, 1065, 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHMS will quickly become overcrowded, potentially more so than Howard HS.
4224	CentennialLaneES				3	7				3	7				alternative move: Keep 147 in CLES, BMMS and CHS, move 97 to Mt Hebron HS
4225			HammondHS	5	1	14	14	14	The AAC draft plan is better than the current attendance areas.	1	14	14	14	None	None
4226	GormanCrossingES			5	1	5				1	1	10	6	The Feasibility Study will inflict unnecessary traumatic damage to communities by moving large crowds of students along multiple schools, and tearing apart a well established high school (Atholton). The AAC draft plan solves problems with far less damage.	With the frequent redistricting and planned new schools construction, there is really no need to make drastic changes with each redistricting.
4227			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4228	RunningBrookES			1	3	2	9	13		2	2	9	13	1. Current apartment development at town center will likely not add ~700 students to running brook because these apartments are not targeting families with kids. 2. With this type of feasibility study I wished to see more options than just the one present.	
4229	CentennialLaneES			1	3	7	4	13	Residents have chosen to move OUT of the newly proposed district due to significant issues with performance and school administration. Forcing this shift will only even out the numbers, it will not address the issues that make it a less desired district.	3	6	9	7	Both plans will have significant impacts on our existing community including the ability of students to participate in community events and after school activities. New communities were built with specific selling points for the Centennial District.	Can the existing overcrowded schools be expanded with community support?
4230	RockburnES			3	2	6	7	14	Unlike the feasibility study, the AAC draft plan keeps us at our current schools - Rockburn ES, Elkridge Landing MS, and Howard HS.	1	4	6	10	The draft plan is well thought out and does not uproot our neighborhood like the feasibility study does.	
4231				5	1	14	14	14		1	14	14	14		
4232			CentennialHS	1	3	13			Under this plan, my children would be redistricted from Centennial High School which is consistently among top performing schools in the county and beyond. Instead, they would be redistricted to Wilde Lake which performs significantly more poorly.	3	13			The AAC plan has my children moving to a significantly lower scored high school (Wilde Lake) from Centennial High School.	We understand that all plans may have a slightly negative affect on residents, but this change is a very dramatically negative change that is unacceptable.
4233	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	11	The draft negatively impacts me based on transportation and safety concerns,for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed and maintains our sense of community.
4234	RichesterES			5	2	2	7	6		1	2	4	7		Poly 95
4235	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	9	13		My child is Asian. Her current schools are schools with diverse population and offer opportunities for her to learn and interact with children from similar background. The AAC plan will put her in schools with the least Asian population.	3	5	7	9	I am Chinese. MVM is one of the two middle schools offer Chinese. We selected this area because we believe that she will have opportunities to learn the language and culture from middle school and high school.	I realize this is not a common concern but it is one of the most important reasons we moved to within the Mt.View and MHS area. My daughter identifies strongly with her Asian heritage and will have limited opportunities in the ACC draft plan schools.

4261		PatapscoMS	MtHebronHS	1	3	7	4	13	The AAC draft splits up our Valley Mede Neighborhood and Community. The plan also makes walkers in polygon 159 and 1159 have to take a bus 7 miles to high school. Both violate standards in Policy 6010. Keep polygons 159 and 1159 with 1043, 2034, and 34.	2	7	4	13	Both plans split up our Valley Mede Neighborhood and Community. The plan also makes current walkers in polygon 159 and 1159 have to take a bus 7 miles to high school. Both violate standards in Policy 6010. Keep polygons 159 & 1159 with 1043, 2034, and 34.	If polygons 159 & 1159 are allowed to stay at Mt. Hebron HS then it will still decreases from 114% to 104% and Marriotts Ridge HS increases from 83 to 91%. This allows you to meet policy1090 target utilization of 90-110% and ALSO IV.B.2.b and IV.B.1.d.
4262	VeteransES			4	1	1			AAC is more minimalized the impact to current communities and students. We support it!	1	1				

4263		BurleighManorMS		1	3	4	5	13	The AAC plan is moving students unnecessarily to achieve marginal improvements in utilization at the expense of significant increase in bus mileage and hurting students enrolled in existing school programs available in middle and high school.	3	4	5	13	The AAC plan is too excessive with school redistricting and doesn't take into account of the new developments in Columbia.	Keep polygon 147 in Burleigh Manor MS and Centennial HS. This change results in very minimal increase in utilization at both schools.
4264	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	4	I live in Dunloggin in Ellicott City. AAC plan takes my children from CHS to a high school in a different city (Columbia) that is further away. My children will be taken from their social circles completely. Keep Dunloggin, poly 150, 4150, 1150, to CHS	3	7	4	6	I live in Dunloggin in Ellicott City. AAC plan takes my children from CHS to a high school in a different city (Columbia) that is further away. My children will be taken from their social circles completely. Keep Dunloggin, poly 150, 4150, 1150, to CHS	Keep neighborhoods together. I know it's hard to define a neighborhood, but it is not hard to define a city/town. My children should go to school where they live (EC). They should go to school with their neighborhood friends/social circles from K-12.
4265	DeepRunES	MayfieldWoodsMS	LongReachHS	1	2	4	9	5		3	7	4		We feel the proposed redistricting from Deep Run ES to Bellows ES on the Feasibility Study is logistically the better redistricting plan given the proximity to Bellows.	
4266	ElkridgeES			1	3	6	7	13	Currently, all students feeding from elkridge landing MS will go to Howard HS. With the new plan neighborhood kids will be split with my neighborhood now going to long reach HS. Students should be kept together especially in the same neighborhoods.	3	6	7	13	The feasibility study kept feeds of students from elkridge landing MS to Howard HS, but the AAC draft plan is splitting them up with some to long reach. Please keep students together!	I would like for my children to be able to go to High school with the kids they grew up with from elementary and middle school. If this plan goes through my kids will be forced to join a high school of completely new students and without their friends.
4267	PointersRunES			1	3	13	4	8	This plan is particularly worse as it pulls my child and his friends out of a school next door and decides to bus them 5 miles! for what appears to be poor growth planning made in neigherborhoods 20+ miles away!	3	12	4	5	This plan is particularly worse as it pulls my child and his friends out of a school next door and decides to bus them 5 miles! for what appears to be poor growth planning made in neigherborhoods 20+ miles away!	I'm frustrated as how can developers assessed so minimally for school and road improvements but the existing residents have to endure constant redistricting that break apart neighborhoods. Changes should be planned/impact on new neigherboods being added.
4268				5	2	7				2	7				
4269	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	13		3	6	7	13	More appear affected by the changes	
4270	CentennialLaneES	BurleighManorMS		1	3	13	4	7	Polygon 147 is part of centennial neighbourhood, and moving it to Wilde Lake school district does not make sense at all!	3	4	7	13		I'm particularly concerned about Polygon 147, which is proposed to change its school districts for ES, MS, HS all together under this AAC draft plan. This community should keep its current schools.
4271			AtholtonHS	5	1	10	1			1	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS)
4272	PointersRunES			1	3	4			There are two elementary schools that are less than 2.5 miles from our home but under the AAC draft plan, our child would be assigned to a third elementary school more than twice that distance away. It's unfair to bus these few kids so much farther away.	1	4			Under both plans, my child would change elementary schools to one much farther away, but under the AAC draft plan, his middle school would be reassigned to the nearest middle school, which would be nice.	
4273	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	14		3	6	7	14		
4274	WestFriendshipES			1	3	4	3	7	This plan moves 40% of current wfes students out of the community and it moves mums and mths even further away from their community. This will increase bus rides by a great amount. Also, the plan will put wfes over capacity by 2022 (113%) and rising.	3	1	4	7	Moving students who would attend mums and mths, which is closest to their community, to gms and ghs is detremental to students feeling part of their community by attending schools that are much further away. This would continue the long bus rides.	Move polygons 304,1304 to bpes and move 1305 and 4169 to waverly. Keep 224, 229, 232, 1231, 1229, 2229 at WFES. This moves fewer students and keeps bus times shorter.
4275			WildeLakeHS	5	1	9	5	7		1	4	5	2		
4276	AtholtonES			2	3	6	6	7	Elementary schools should feed into certain middle and high school. Hard to have neighbors down the street who will go to entirely different high school.	3	6	7	14		
4277			AtholtonHS	5	2	1			It resolves over crowding with less affected students.	1	10			AAC draft plan is far better than the Feasibility study because it achieved the school redistricting's objective with less affected students	
4278	ThunderHillES			1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walking to school is good for students health, community involvement, and the environment. It is also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4279	NorthfieldES			1	3	4	2	7	Too far to new proposed high school. Splitting longstanding cohesive neighborhood between schools. Continuous building in Columbia will create future over crowding in that area. Property value impact.	3	4	6	2		
4280	RockburnES	ElkridgeLandingMS	HowardHS	5	2	14	14	14		1	6	7	14		
4281				1	3	7	4	13	Please keep the Dunloggin community together! If needed, consider reassigning the polygons east of 29 to a different high school.	3	7	4	13	Please keep the Dunloggin community together! If needed, consider reassigning the polygons east of 29 to a different high school.	Please keep the Dunloggin community together!
4282			HowardHS	2	3	4	13	14	Glenmont students can walk to Howard High. We should not bus students who are easily within walking distance of a school and replace them with students who will need a bus under any circumstance.	3	4	3	13		Glenmont students should attend a middle school that feeds into Howard High School.
4283				5	2	7			Thank you for maintaining the logical boundary line as Frederick Road.	1	7			Thank you for keeping the community together and maintaining a logical boundary.	
4284			CentennialHS	5	2	6	7	14		1	7	6		It is more reasonable to move Poly 147 to Wilde Lake than to move Poly 1184 to Marriotts Ridge. Poly 147 is a newly built neighborhood that shouldn't be in the CHS district in the first place and should not displace more established communities.	
4285	NorthfieldES			2	3	4	13	5							
4286		BonnieBranchMS	HowardHS	5	1	4	7	8		1	4	7	8		We strongly support the AAC draft plan, we reside in Polygon # 95. Our high son walks home from school after meeting with his teachers, under the AAC draft plan he would still be able to due so. Colin Keefe
4287	PointersRunES	LimeKilnMS	AtholtonHS	3	1	6	7	10		3	6	7	7		
4288	NorthfieldES	DunloggінMS		1	3	7	4	2							
4289	ClarksvilleES	ClarksvilleMS	RiverHillHS	5	1	1	10	7		1	1	10	7		
4290	NorthfieldES	DunloggінMS		1	3	7	4	2		3	7	4	6		
4291		BonnieBranchMS		5	2	6			I am happy that the Attendance Area Committee (AAC) plan advocates keeping the students on my street at Howard High which is their current school attendance area. Under the AAC plan, my son can continue friendships he has developed at BBMS.	1	6			My son's closest friends will be attending Howard High School in 2018. Most of the students who attended JHTS were not zoned for BBMS. He had to make new friends. It is unfair that my son will be in the same predicament again if he has to attend OMHS.	Keeping feeds of students together is vital to their emotional well-being. Having to form new friendships at a young age can add stress to an already stressful period in a teen's life. The children of Polygon # 1261 should not have to do this again.
4292	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	
4293		BonnieBranchMS	HowardHS	5	2	4	6	3		2	4	3	6	Keeping the feed of PLES to BBMS to HHS is important to our family and I believe is the best financial decision. The PLES community are walkers to PLES and HHS and should remain at schools where they can walk to school.	If HCPS is going to promote healthy howard then they should start by keeping walkers at schools that they can walk to
4294	ThunderHillES			1	3	4	13	1	Thunder Hill Elementary school 2017 projection utilization is approx 11.4% more than the actual capacity which is a problem. Kids Safety risk increases due to distance increase by 4 miles, commute time with stops, dangers of standing for bus in dark.	3	4	1	13	Bad planning impacts kids safety and wastes their valuable time needed for studing. AAC draft plan for redistricting MS & HS for Ploygon 111, 1111, & 2111 is doing exactly that by increasing safety risk, Distance/Travel time, impacting space utilization.	I propose ploygons 111, 1111 & 2111 go to Northfield ES, Dunlogin MS, & Wild Lake HS. We are on east of Rt 108 and it is illogical and disruptive for children study time, safety, distance/travel time, sleep & rest time if AAC draft plan is implemented.
4295	NorthfieldES			1	3	2	4	7	I am concerned about dividing our neighborhood in two and requiring students to travel extreme distances. We have three high schools in closer proximity to our home than the one proposed. With more planned development another move will be inevitable soon.	3	2	10	8		We need to consider drawing students from a closer radius around each school. With rapid and continued development and plans for a new school, stop now. Consider expansion of current schools or waiting until a new school is built.
4296	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	
4297			HowardHS	1	3	3	4	13	Bussing children when they are within walking distance is not fiscally sound and keeps the community closer to the school.						
4298	AtholtonES	HammondMS	HammondHS	3	7	1	4		MacGill's Common unnecessarily split. If keep 51 kids of 57,1057,2057 in Hammond High and 38 kids of 111,1111,2111 in Wilde Lake, capacity for both HHS and WL changes only by 1%. Don't move 57,105?,2057 to Lake Elkhorn MS b/c HMS will only be 84%.	3	7	1	4	I thought the Feasibility Study was well thought out for neighborhood continuity and demographic distribution. AAC plan is not. Especially for "island" moving to WLMS from Hammond HS and the "island" staying in Atholton HS instead of moving to Hammond.	AAC plan unnecessarily moves the 57,1057,2057 polygons from current high and middle schools. No other polygons move in or out of Hammond MS. HMS will be well below capacity and LEMS will be well above. WLMS is 2x as far from these polygons as HHS or AHS.
4299			RiverHillHS	1	3	6	9	13	The new draft will put several more schools into over capacity range. It will drive River Hill beyond capacity in a one year time frame, which will negatively impact all students since it will be difficult to get resources in place in this time frame	3	6	9	4	Many students will be subject to long distance bus rides. New plan does not consider continued development in the current school area	New plan puts many more schools over capacity than feasibility study.
4300	NorthfieldES	DunloggінMS	CentennialHS	1	3	13	7	9	My children would travel farther than several other high schools (Mt. Hebron, Centennial and Howard are all closer and it splits our community in half! This is not fair! It removes the opportunity for families making less money to send kids to Centennial.	3	7	9	13	I do not understand how they look to pull people in to Columbia schools, why they bypass more expensive homes and bus children from fixer-uppers & condos not paying Columbia tax. Also WLMS/HS will soon reach capacity with completion of current building	I am a school system employee and I had to buy a fixer-upper that was much less house to get into an area where I wanted my children to go to school. It isn't fair to take those opportunities out of schools like Centennial so they have no diversity left
4303	WorthingtonES			3	2	7	6	12		1	7	6	12		
4302	WaverlyES	PatapscoMS	MtHebronHS	5	1	6	1			1	6	1			
4303		EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. 4311		MurrayHillMS		5	2	1	10	14	The draft plan is similar to the status quo as fewer students are moved around from school to school and it preserves the Altholton High School community in terms of diversity and academic excellence.	1	1	10	6	The new draft plan is better than the feasibility study as it helps to alleviate some of the overcrowding with less of a negative impact. Fewer students are moved around from school to school and it preserves the Altholton High School community.	The new draft plan would be better if it included moving polygons 272 and 1272 to Murray Hill Middle School and Altholton High School. They are also a part of the Emerson community and having them separated does not maintain a contiguous community.
4312	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	6	Highly irresponsible to move polygon 1189 from Pointers Run to Dayton Oaks which is within 1 mile. Why separate our children from their friends and increase their commute time so significantly?? Also makes managing after school activities very difficult.	3	4	6	7	Strongly disagree with moving polygon 1189 to Dayton Oaks. Also plan to move Wilde Lake students to River Hill doesn't meet requirement to keep communities together! Why not move the River Hill community students going to Atholton back to RH??	Please keep our communities together. Please do not move polygon 1189 to Dayton Oaks, these children should not have to leave their neighborhood school to travel on route 32 to get to another school.
4313	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.). Move Polygons 272 and 1272 to Murray Hill MS and Atholton HS.	
4314	AtholtonES	HammondMS	HammondHS	1	3	7	4	1	Polygons 57,1057,2057 are currently districted to Hammond HS only 1.5 miles from our home. Our children could walk or bike there. AAC draft plan puts us over 4 miles away at WLHS which is not remotely in our neighborhood. AAC draft splits the neighborhood	3	7	4	1	The feasibility study had polygons 57,1057,2057 going to Atholton HS which is only 2 miles away from Macgill's common. WLHS is over 4 miles away from our neighborhood increasing transportation costs for the district and commuting time for students.	Moving polygons 57,1057,2057 to LEMS & WLHS creates an island within our community which divides it. We are a part of the larger village of King's Contrivance that is in no way related to LEMS or WLHS. It would take kids away from friends in neighborhood.
4315	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. 4317	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	7	3	4	Polygons 229, 2229, and 1229 should remain at their current schools, WFES, MVMS and MRHS. We do not want 1 hr long bus rides, we want to remain with our community east of 32. We are only 42 Elem., 24 Middle and 33 High school students all put together.	3	7	4	3	Polygons 229,2229, and 1229 are not dense with homes. We only have 42 elem., 24 middle, and 33 high school students altogether. Moving them separates families from their community east of 32 and could make bus rides last an hour.	Please consider leaving those of us East of 32 in polygons 229, 1229, and 2229 at WFES, MVMS, and MRHS. We are not densely populated. Leaving us where we are will not drastically change the numbers or utilization of our current schools.
4318			AtholtonHS	5	2	3	9		Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	1	1	10		The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? It would be a detriment
4319	GormanCrossingES			1	7	6			Excellent option.	1	7	6		Preserve Altholton!	
4320	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	1	2	3	I truly think AAC draft plan has focused mainly on keeping the feeds larger. That's why they changed 4 polygons 4150, 1150, 147 and 150 from Centennial high to Wilde lake high to increase the feeds from Dunloggin to WLHS.	1	1	2	3	This is a great step to lead the way of correcting the root cause of redistricting	Even though there's going to be lot of noise I think it makes more sense.
4321	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	1	2	3	I truly think AAC draft plan has focused mainly on keeping the feeds larger. That's why they changed 4 polygons 147, 4150, 1150, and 150 from Centennial high to Wilde lake high to increase the feeds from Dunloggin to WLHS.	1	4	5	6	I truly think AAC draft plan has focused mainly on keeping the feeds larger. That's why they changed 4 polygons 147, 4150, 1150, and 150 from Centennial high to Wilde lake high to increase the feeds from Dunloggin to WLHS.	
4322		DunloggінMS	CentennialHS	1	3	7	4		Keep the Dunloggin community together (Policy 6010 - Community Continuity) - Polygons 150, 4150, 1150, 219, 1155, 155, 2150 We are a well established, cohesive community Transportation time increase (Policy 6010 IV.B.1.d)	3	7	4	6	Policy 6010-Community Continuity and longer transportation times Splitting the community means that there is no longer one voice" on high school matters. The AAC Draft Plan makes proposals without full data and analysis."	Dividing a well-defined community (policy 6010) and creating hardship on friendships where students live literally a house or two away on the SAME street. AAC Plan transfers to Dunloggin what the other communities objected to under the Feasibility Study.
4323	PointersRunES	LimeKilnMS	ReservoirHS	2	1	2	8	4	The AAC plan solves overcrowding in the east. It reunites some neighborhoods that were divided in the 2012 redistricting when students from River Hill HS were pushed east to Atholton HS and Reservoir HS back to River Hill HS	1	8	10	1	The Feasibility Study was very short sighted, moving too many students from east to west without considering the proposed new HS. It will completely destabilize several schools and neighborhood now then again in a few years. It will be also costly.	Polygons affected in 2002 HS redistricting should have priority to go back to River Hill HS. Moving them (114,118,190) to RHHS saves transportation cost & keeps feed consistency. they are unlikely affected by the new HS in the east, keeps community stable
4324	CentennialLaneES			1	3	2	8	5	My child will be attending Centennial Elementary Kindergarten this fall. It will be extremely difficult for my kid to start on a new school after a year. I believe this draft plan is falling short of the spirit of Policy IV.B.2.c to protect from this.	3	9	8	2	This plan is increasing my child travel distance to school from less than 1 mile to over 4 miles which is very difficult to understand and accept.	We really don't want to move my child to a new different and far away school after a year. We moved to Howard County for my child's better education. This new plan will jeopardize our family's dream and future plans in Howard County.
4325			RiverHillHS	4	2	7	10			1	7	4		The ACC draft plan keeps my my child who will be a rising grade 11 River Hill	An option should be available to keep high school students in their existing school until graduation.
4326	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	7	7	14	I just want to keep same high school region so my kids can attend same school with their friends and keep my property cost same as I bought.	2	7	7	7	I just hope that keep the current AAC plan then last month. Too much stress to decide should we have to move out from my current residence.	Do not give too much favor to Fulton and river hill residence. It really effect to housing cost rocket high.
4327	NorthfieldES	BurleighManorMS	CentennialHS	1	3	13

4330	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx.14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting AAC doesn't meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility Low feed from FQ to RH
4331	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	4		3	6	7	4		
4332	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	6	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105 %, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC doesn't meet contiguous communities per 6010.IV.V.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility AAC and Feasibility are unacceptably low feed from Folly Quarter to River Hill
4333	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	4		3	6	2	7		
4334			AtholtonHS	4	1	8	1	10	Achieves policy aims far better with far fewer students moved and disrupted	1	10	8	6	The Feasibility study maximizes disruption and meets fewer policy aims than the AAC draft plan, whereas the AAC draft plan meets more policy aims than the feasibility study, and minimizes numbers of students disrupted	
4335				5	1	1	10	13	The AAC draft plan is far less disruptive than the feasibility study.	1	1	10	13	Many folks invested their life savings into homes based on the schools their children would attend. Changing the school zoning will have a serious negative impact on them.	
4336	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	4	4	our polygon no 1231 and we just around 1 mile to Marriottsridge, mountview and west friendship schools and AAC is planning to move to faraway schools.pushpark, glenwood and glenelg schools. kids need to spend more time on bus and drop&pickup very hard	3	4	4	4	AAC draft is very poor than feasibility study.	keep polygon no 1231 and other surrounding poligons to current schools these polygon areas have very less density of kids,
4337		MountViewMS	MarriottsRidgeHS	1	3	4	6	9	- Efficient use of available space --the AAC plan would put WFES utilization at 113% by 2022 and 126% by 2023	3	4	6	9	Community Stability --this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community	Number of students that walk or receive bus service and the distance and time bused students travel.—bus times to Bushy Park ES, Glenwood MS, and Glenelg HS would probably be at least an hour and move people away that are near the middle and high school
4338			WildeLakeHS	1	3	4	6	7	There is no walking/driving access for Clary's forest students to RHHS. They could walk to WLHS or AHS for afterschool activities but RHHS would prevent participation except for students who have cars. Don't move students from the schools 1-2 miles away!	3				There are dozens of students who reside in apartments in Clary's Forest who walk or ride bikes to Wilde Lake so they can stay at school for tutorial help, clubs and athletics. Please keep them at a neighborhood school to encourage continued participation.	
4339	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10			1	10	1	10	The original feasibility study moves too many students. The AAC proposal better addressed the issue with overcapacity. The AAC will be less disruptive, and offer better stability for students and families.	The original feasibility study moves too many students. The AAC proposal better addressed the issue with overcapacity. The AAC will be less disruptive, and offer better stability for students and families.
4340															
4341	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	13	The proposed changes to the Centennial boundaries look ridiculous (as do wilde lake, long reach, and atholton), force good friends to split up that weren't going to have to, and will make my custody between my ex and I more difficult.	3	6	7	13	Currently my son is going to Centennial whether from my ex's house or not, if this new change goes through, he would for my ex's who lives further from Centennial, but not from mine.	
4342	AtholtonES	HammondMS	HammondHS	4	1	4			Thank you for making sure that the walkers can continue to go to Hammond High School.	1	4				I'm a little sad to see a chunk of Hammond HS kids heading to Wilde Lake. Hammond is within walking distance to many of them and just a few minute drive for them. I'm not sure why they will have to travel the distance to Wilde Lake.
4343			HowardHS		6	7	4			1	6	7	4	The AAC plan is very good moving much fewer students and keeping more feeds together. Thank you for all your hard work!	
4344	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1					1	1	2	10	The AAC proposal better addresses the issue of overcapacity. The AAC will lend greater stability, be less disruptive, and still accomplish the goals of the original feasibility study. The feasibility study plan is unfair and and a major disruption.	The AAC proposal better addresses the issue of overcapacity. The AAC will lend greater stability, be less disruptive, and still accomplish the goals of the original feasibility study. The feasibility study plan is unfair and and a major disruption.

4345	AtholtonES	HammondMS	HammondHS	4	3	1	9	7	The draft plan places our kids in over crowded MS and HS, while simultaneously cutting us off friend close neighbouring communities. less children would be paticipat ing in before and after school due to the distance and area being crossed. Poly. 1057	3	1	7	9	While is is never desirable to be redistricted, the feasibility study was a more reasonable ask. It would not have caused over crowding in MS or HS, would keep our kids in the same area/ neighborhood, and positively impacted transportation costs. 1057	I moved to this neighborhood (1057) for the schools my children would be attending currently. Under the draft plan I'm positive I'd have chosen to buy in a different area. If I wanted my kids in Elkhorn MS/Wilde Lake HS I'd have moved to that community.
4346	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	4	6	This would significantly hinder the Dunloggin neighborhood/community	3	7	4	6		
4347	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively affects me based on: transportation and safety concerns - cross 2 major intersections & go through neighborhoods, with increased court house traffic; disruption of neighborhood cohesion; & does not address overcrowding at Thunderhill.	3	1	5	13	In addition to safety/transportation, my concerns center abound: regional programs not available at Oakland Mills; abrupt disruption to neurodevelopment secondary to move (Urban Institute, 2013); & inefficient use of existing seats (Policy 6010 IV.B.1.a).	We live within 1.5 mi of EMMS, 2.2 mi of DMS, and 4 miles of WLHS; & safety with crossing 3 neighborhoods/further distance to DMMS/DMHS 7 mi. As an adolescent med physician, moving a preteen after starting MS will disrupt their cognitive development.
4348			HowardHS	5	2	6	7	8		1	6	7	4		
4349			AtholtonHS											I'm glad the AAC draft plan has a "much less" impact on the total number of students "affected" at Atholton High School....	
4350		MurrayHillMS		5	1	1	10	14		1					
4351	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above-mentioned polygons for contiguous community	
4352				1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment Thunder Hill ES.	I propose polygons 111, 1111, and 2111 go to to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community
4353	HammondES			4	2	9	10	6	Nice To see River hill will be getting more diverse	1	9	6	1	Feasibility study plan was terrible moved way to many students around and almost changed the demographic for all of Atholton	
4354	ClarksvilleES		RiverHillHS		3	4	2	7	It is currently a 30 minute commute on average to go from Wilde Lake to Riverhill. Currently, most Riverhill students commute on an average of less than 5 minutes. Wilde Lake should go nearby to Centennial or await a new high school.	3	4			Having to transport from Wilde Lake to Riverhill is unfair to parents/students for daily commuting and after school activities. Will parents from WL be able to attend school activities and PTA given the increased distance? Centennial/Howard is closer.	Based solely on test scores, will Wilde Lake students feel comfortable testing at RHHS? Will this affect graduation/dropout rates if they are not going through the current pipeline/feader schools to RHHS?
4355	NorthfieldES	DunloggінMS	CentennialHS	1	3	5	6	4	very bad plan. our community all against this plan.	3	4	3	9	our house lost a lot money. we need financial compensation for sale my house and move	
4356		HarpersChoiceMS	WildeLakeHS	1	3	9	6			3	9	7	6		
4357	NorthfieldES	DunloggінMS	WildeLakeHS	5	2	11	14	14		1	7	8	4		
4358	SwansfieldES			1	3	4			There is already a lot of traffic in howard county, let alone having to drive 25-35 minutes each way to go from Wilde Lake to Riverhill HS. This will impact student performance and distractions.	3	4	6		There will be no cohesion for Wilde Lake Students if they were to attend RHHS. They will not have the same friends, backgrounds, and comforts that they are use to for the past 9 years from K-8. This will affect Wilde Lake Student performance.	
4359	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		Keep Lyndwood at Howard High!! Howard Lions!!!!!
4360	HammondES	HammondMS	AtholtonHS	5	1	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL. The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	1	1	10		The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment
4361	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	8	3	Our family and neighbors are significantly troubled by any plan that discounts the benefits of students attending and walking to their neighborhood school. That must remain one of anchors of any reasonable plan. Mt. Hebron HS is the neighborhood hub.	3	4	7	5	The feasibility study recognizes the fundamental need and benefit of having neighborhood students walk, participate and invest in the neighborhood high school. Having students drive to schools and events many miles away introduces SIGNIFICANT risk/harm.	We moved from a district that had 3 student driver fatalities (HS age). NHTSA report states teens 1.6 more likely to be involved in fatal crashes. Plan CREATES tens/hundreds of unnecessary student drivers to already congested roads (instead of walking).
4362			RiverHillHS	1	3	6			I have been paying $10,000+ a year for my property taxes, which partly pays for the high quality schools in the Riverhill area. I respect the Wilde Lake area, but do not feel that their average tax bills contribute the same to RHHS. This is pure finance	3	3			It is well known that Riverhill residence has paid a premium price for their home and pay additional taxes, much higher than others for premium schools. Inserting Wilde Lake seems absurdly out of place. WL students could go North or South.	A lot of residence move to Riverhill and have at least 2x as much for a house and 3x for property taxes. Moving Wilde Lake will severely disrupt Howard County's thriving economy and Clarksville as we know it. I will likely sell hm and mv to MontgomeryC.
4363			CentennialHS	1	3	7	2	6	Dunloggin arbitrarily divided to appease failure of previous plans to divide other neighborhoods (Atholton, Font Hill) not due to careful plan based on Policy 6010 with a feed of 12% cut from Dunloggin/Centenial HS and sent to Wilde Lake HS.	3				Solve over utilization by adding additional space into Howard & Centennial. Stop gerrymandering communities and Columbia townships -- with AAC plan Wilde Lake will have 75% total change in student population. Stop arbitrarily division of Dunloggin (below	creating a feed of 12% into WLHS. Keep existing and add capacity to Howard and Centennial. These higher performing schools by County Report card should be maintained while County focuses on township lines in Columbia.
4364	ElkridgeES			1	3	6	1	2	The NE area needs a new HS. Howard & Longreach are both over 110% of capacity now and expected to move to over 130% by 2022. Moving students between the two doesn't help, it just hurts some students by splitting them from their ES & MS feeds.	3	6	1	2	The AAC draft plan is putting additional students at schools that are already overcrowded and pulls more feeds of students apart.	Yes, building new schools is expensive and difficult, but continuing to push the problem of overcrowded schools down the road is going to create a much bigger problem in a decade or so.
4365															
4366	GormanCrossingES	MurrayHillMS		5	2	1	10			1					
4367	GormanCrossingES			5	1	1	10			1				The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and presrves Atholton HS.	
4368	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for ex bus commute time, crossing major intersections, and thenew court house traffic bordering our community. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	It negatively impacts me based on transportation and safety concerns, for ex bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at THES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns (considering future court house traffic), longevity of the feed and maintains our sense of community.
4369	WaverlyES	PatapscoMS	MtHebronHS		3	4				3	4				Students who can walk to their local high school should not be moved to a school several miles away. I understand the push to maintain feeders but it seems impossible for 100% from k-12. Middle to high is so much more important.
4370			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4371	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	13	7	8	My POOR rating is based on the lack of confirmed "grandfathering" for current HS students. The draft separates neighbors from neighbors which undercuts our treasured sense of community. 1 reassignment is 1 too many for HS students.	2	7	8	13	Neither Draft nor FSP "grandfathe" HS students fully. Both uproot HS students in the short term...sacrificing individuals for the benefit of long term county efficiency. Students "long term plan" their high school careers; this undercuts their efforts	I appreciate the need to balance school capacity & respect long term planning needs/efforts. However, it's imperative that we priorize in short term CURRENT HS students and insure uninterrupted high school experience through comprehensive grandfathering
4372	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	10	1	6	The AAC Plan is better than what is proposed in the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	1	1	3	10		
4373	WorthingtonES	EllicottMillsMS	MtHebronHS	4	1	7	14	14	I am in polygon 4093, which is currently a contiguous community with polygons 2093, 3093, 93, 1093, 309, & 1309. The AAC draft plan keeps these polygons (and our community) together. I am against any contiguous communities being split up.	1	7	7	7	I am in polygon 4093. Thank you for keeping 2093, 3093, & 4093 with 93, 1093, 309, & 1309 as a contiguous community (in the draft plan). Please consider keeping all contiguous communities intact.	Please consider holding off on any high school reassignments until the new high school opens.
4374		HammondMS	AtholtonHS	5	1	1	14		Thank you for preserving Atholton High School. The school needs to remain a model of outstanding performance in both academics and extracurricular activities with its current student demographics.	1	9			Some AHS students were impacted by the significant changes at the elementary and middle school redistricting, they should NOT be subject that again. Fewer kids moving. Consideration of a new high school. AAC plan preserves AHS, while F5 decimates AHS.	I support phasing in 11th graders. Let them stay. 11th grade is a crucial time for a student preparing for the transition to college. It would be highly detrimental for them to be FORCED to adjust st, again, to a new school, student body, and teachers.
4375	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	9	9	9	We live in polygon 224 and only 2.5 mile from Westfriedship elemantary school and about one mile from Mount view MS and Marriotts Ridge HS.This change will cause so much trouble on my wife's and my work schedule, waking up earlier, and picking up the kids	3	9	9	9	We live in polygon 224 and only 2.5 mile from Westfriedship elemantary school and about one mile from Mount view MS and Marriotts Ridge HS.This change will cause so much trouble on my wife's and my work schedule, waking up earlier, and picking up the kids	Please, Please, Please, there should be no reason to change our schools and we want our kids to go to nearby school from our home within our community that we want to be more supportive. That makes much more sense!
4376			CentennialHS	1	3	4	7	6	Draft plan geographically makes no sense. This adjustment for the proposed area creates inconvenience and hardships for the affected families. A very real safety issue will arise if the redistricting passes for those children affected.	3	4	5	6	Draft plan and Study do not take into account logistical and safety aspects on the proposed change for the location indicated below.	Do not support the proposed change for the polygon indicated below.
4377	GormanCrossingES			5	1	1	10	14		1	1	10	14	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill M	
4378			AtholtonHS	1	1					1	10	14	14	AAC does not destroy AHS, whereas F5 is completely unfair and biased against the current AHS. No other high school in the county is so grossly changed by the F5. Forcing so many students to ride buses out of their neighborhood is unjust.	
4379			CentennialHS	3	6	7	4		AAC did not consider people in this plan just boundaries and numbers. Besides ES leave attendance areas alone.	3	6	7	4	While it may have improved in some ES & MS, the plan did not consider all feedback for HS. After watching all AAC meetings it was obvious the squeaky wheel GOT the oil.	Stick with the original plan to redistrict ES & MS and leave the HS alone until the new one opens. Blindsiding 3600 HS students leaving their friends and academic situations will hurt them all in the long run. Not all kids are as resilient as you think.
4380	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	2	5	Move 304, 1304 to BPES -(moves fewer students); move back to 1305 & 4169 WES; keep 224, 229, 2131, 1231, 1229, 2229 WFES (will grow organically); impacts less students; buss times less as Turf Valley is densley populated development.	3	4	5	1	keep 224, 229, 231, 232, 1229, 1231, 2229 at MVMS & MRHS - revert to Feasibity study - would rather have small feed. Transport time too long and and too dangerous of a road to GHS (route 32). These polys are less than 2 miles to MVMS and MRHS.	Policy 6010 - Community stability impacted by moving 40% of WFES to BPES; 54M capital invest required for WFES with this plan; Bus times of 1 hour each waysto BPES; 200+ children impacted vs 100 if only moving poly 304 and 1304.
4381	NorthfieldES	DunloggінMS	CentennialHS		3	5	6	7	angry angry angry	3	5	9	10	who made this plan should be fired.	
4382		BurleighManorMS		5	2	7				1	7			I am very pleased to see the AAC draft plan has all of the font hill neighborhood community going to CHS. It is extremely important to keep our community together. Polygon 1184 needs to go to CHS with all their font hill neighbors.	
4383	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above-mentioned polygons for contiguous community.	
4384			CentennialHS	1	3	3	13	4		2	3	4	13		
4385	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180 180 & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.""	3	6	7	13		We are very concerned that this appears to create a small feed for polygons 1180 180 & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.""
4386		BonnieBranchMS	HowardHS	4	2	7	4	9	My students walk to their current high school(Howard) and the current plan keeps them as walkers to Howard. I appreciate this since they enjoy having that time to decompress while walking home before starting homework.	2	4	2	6	The only issue is the Howard/Long Reach area stay crowded for many years to come. The less you move our student around the better. If we are going to be crowded anyway then leave the students where they are. They know routines/structure of school.	All this redistricting is stressful for all family members. Stressed out parents create stressed out students. I do not find any benefit in starting the school year stressed over possible redistricting. BUILD a NEW High School in the Elkridge!!

4387	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4388			CentennialHS	1	3	5	4	6	move people that are closer than us becausw we are too far away (polygon 2154)	3	2	4	7		
4389			WildeLakeHS	2	3	13	7	8	This plan continues the HCPSS initiative to concentrate socio-economically challenged students in the Wilde Lake feeder system and to minimize the impacts to other districts. This creates an even bigger divide between 'haves' and 'have-nots'.	3	6	13	8		
4390	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	13		3	6	7	13		
4391	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
4392	RockburnES	ElkridgeLandingMS	HowardHS	5	1	1	4	7		1	7	4	1		
4393	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	14		Here is the few reason. - Students need to spend almost 40 minutes in the bus. - As larger no of student from this area going to Centenial high school so they will lose their friends/class mates. -	3	14		14		
4394			HowardHS	4	2	7	6		The AAC recommendation appears to be alot less disruptive to the entire county than the Feasibility study recommendations. I believe we should keep current school attendance areas until a new high school is built.	1	7	6		I believe minimal disruption to our communities across the county makes the most sense. ThThe AAC draft plan makes much more sense until the new high school is built. When new high school is built - then make the changes!	
4395	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	6	13		3	6	7	13		
4396	IlchesterES	BonnieBranchMS	HowardHS	4	2		1	2		1	6	2		I am very much in favor of having a feeder system where the same neighborhoods/groups of kids stay together as they move from elem to middle to high. Not in favor of having small pockets of kids being sent to a different school than their peers.	I totally understand the need to better utilize all available seating. But the least disruption possible to kids/families is best. Keeping neighborhoods together is best.
4397	NorthfieldES	DunloggінMS		1	3	7	6	2	It is important to keep students together that have been in elementary and middle school together. I moved to this house so that my children would b able to do that, and go to Centennial High school. People will move which will make plan pointless.	3	6	4	3		
4398	ClarksvilleES	ClarksvilleMS	RiverHillHS	2	2	6	7	4		3	6	6	4		
4399		ElkridgeLandingMS		1	3	9	2		LongReach HS already has high # students on free/reduced lunch, students w/disabilities, and low test scores. Polygons 1042, 2042, and 3042 have some of the ONLY affordable housing in Howard County. These polygons are likely to have a high cont'd below	2				# of children with special needs &/or on free/reduced lunch. By moving polygons 1042/2042/3042 to Long Reach HS, you are further concentrating children who require high # resources into an already overloaded school, lowering test scores more. cont'd below	Polygons 1042/2042/5042 should be left in Howard HS, esp. since another HS is going to be built at Mission & Guilford Rds in the very near future. Move rich people in 84/85/86/87/88/89/91/92 polygons to Long Reach to equalize resource requirements!
4400	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	7	9	8	It doesn't make sense for Polygon 1189 to move from Pointers Run ES to Dayton Oak. It easily add 30 minutes one way in the rush hour currently. With county's upcoming effort to widen 32 west, it will further increase the commute and burden the traffic.	3	3	9	7	With current plan, polygon 1189 will move to Dayton Oak. Then their friends will stay in Folly while we move back to Clarksville. It clearly is against the vision of 'keeping kids together through K to 12'. It will also increase HCPSS budget.	Our community has closer connection with PRES and River hill region. Moving Polygon 1189 from a elementary school which is 1 mile away really doesn't make sense. Furthermore, it will impact our before and after school care arrangement significantly.
4401			HowardHS	5	1	4	6	14	The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	1	4	6	14		
4402		ClarksvilleMS	RiverHillHS	1	3	4	6	7		3	6	7	4		PKeep students together from middle school to high school. It is such an important time for creating/maintaining friendships which has an impact on everything. All of the students in the village of RH should go from CMS to RHHS. We're one community!
4403			RiverHillHS	1	3	6	7	4		3	6	4	7	It's truly puzzling that we are considering sending Elementary students from Clarks Glen neighborhoods many miles to Dayton Oaks when even Clarksville Elementary is much closer. Traffic and length of the trip for such young children seems out of line.	There has got to be a better way.
4404	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2					1	1	10		The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and preserves Atholton High School.	
4405	ClemensCrossingES			1	3	7	1								
4406	IlchesterES				1	7	8	2		1	4				
4407	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS		3	6	6		The Woodmark community is very concerned that this appears to create a small feed for polygons 1180, 180, and 181. Also Polygon 3182 should be kept with the above mentioned polygons contiguous community.	3	6	6	6		
4408	ForestRidgeES	PatuxentValleyMS	HammondHS	2	3	4	7	9	Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	3	4	7	9	Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.

ObjectID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is _____ the current school attendance areas	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	The AAC plan is _____ the Feasibility Study Plan. 4409	GormanCrossingES		AtholtonHS	5	1	1	1	10		1	1	1	10		
4410		BonnieBranchMS	HowardHS	5	1	6	7		The ACC draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from school. The ACC plan reduces the distance traveled to school by keeping us at Howard.	1	6	7		The AAC draft plan keeps moves fewer students than the feasability study through out the whole county and reduces disruption.The AAC plan doe utilize the capacity in the west, without a domino effect of moving polygons west.	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion including HHS, BBMS, and IES
4411	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	6	4	5		3	6	5	4		
4412	CentennialLaneES	BurleighManorMS		1	3	4	9	5	My child is very attached to speech therapist at the current school and making great progress, this plan would severely impact his progress and may not recover.	3	5	7	8	The AAC plan is separating the ties with neighboring communities geographically.	My child moved to this school last year and trying to adjust the new school. The new plan would put him to another school, which will be negative impact for him to readjust the school. This will be third move to him with in 4 years of his schooling.
4413	GormanCrossingE	MurrayHillMS	AtholtonHS	5	2	1	13			1	1	10		The AAC Plant is superior to the Feasibility Study. It solves over crowding by moving far fewer students and Preserves Atholton HS.	I think, the moving is more politically involved rather than feasibility.
4414	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	1	4	8	The draft negatively impacts our family based on transportation and safety concerns such as bus commute times, crossing major intersections, and traffic flow with the new court house on a small street. The draft does not address over enrollement at THES.	3	1	4	8	The draft negatively impacts me based on transportation and safety concerns. The bus routes, commute time, crossing major intersections, traffic flow with the new courthouse. THES is over capacity.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains, our sense of community.
4415		MurrayHillMS	AtholtonHS	5	2	1				1	10			The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	Move Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood and are members of an HOA.
4416			CentennialHS	1	3	7	6	5	I would prefer to see the entire Dunloggin neighborhood kept in the Centennial School district, for cohesiveness of the neighborhood and continuity with siblings.						
4417	GormanCrossingE	MurrayHillMS	AtholtonHS	5	1	1	10	2		1	1	10	2	It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS|	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
4418		ElkridgeLandingMS	HowardHS	1	3	7	13	6	The draft plan moves a part of our community, cutting it in half by drawing the line on Old Washington Road. It redistricts an area that desperately needs a new high school and is due to get one soon causing redistricting again in a short time period.	3	7	6	2	The Feasibility Study Plan did not plan to move our neighborhood and this draft plan does. The feasibility study took into affect the fact that our neighborhood would be redistricted again soon when a new high school is built.	Please do not redistrict high schools at this time, particularly in the Elkridge area where a new high school is desperately needed.
4419		ElkridgeLandingMS		1	3	9	13	2	By moving polygons 1042/2042/3042 from Howard HS to Long Reach HS, you are concentrating poverty and students with high levels of needs into an already VERY low performing school. Is that your intention, so that the rich white schools can maintain their	2	13	9	2	high scores & property values? Looks like you're trying to kill the inner city schools in Columbia. There is going to be a new HS at Guilford & Mission in a few years, so you should only move the children who will be likely to go to that	new school rather than moving everyone now, & then having to move everyone again when the new HS is built. Move rich white polygons 68/1068/2068/3068/261/1261/277 to Long Reach to better even out the demographics and resource requirements!!
4420	DeepRunES	MayfieldWoodsMS	LongReachHS	3	2	7			As of now Polygons 1080 and 80 along Mayfield go to Long Reach. To move these areas to Oakland Mills causes great concern. Are kids will be pulled to a school that they have no ties with. We have not ties to any Elementary or Middle School feeds.	1					Please leave the Mayfield district students with the kids they have grown up with - not cart them further away - possible right past Long Reach to a school they have no ties too.
4421	FultonES			2	3	4	10		Polygon 112 is further from Pointers Run than polygon 259. Polygon 259 is part of Maple Lawn, so is that the only reason you are not suggesting that polygon not be moved? It would make sense to move the closer polygon for transportation purposes etc.	3					
4422	GormanCrossingE	MurrayHillMS	AtholtonHS	5	2					1	1	10	4	The AAC Plan is farsuperior to the Feasibility Study for many reasons. It preserves a high achieving school - Atholton HS - and it solves the issues related to overcrowding with the least amount of disruptions (movement of students).	I, and pretty much all of our neighbors, are in favor of the AAC draft plan over the Feasibility Study.
4423			AtholtonHS	5	2	7	9	10	AAC draft plan takes into consideration a multitude of factors and community input and balances them to the best positive effect: solving overcrowding by moving fewer students and maintains community stability, in particular the Atholton High School.	1	1	11	9	AAC plan negates Feasibility Study which entailed moving 66% of the Atholton High students (25% of all high school students). An extreme burden to the community while others had few or no student movement & not relieve overcrowding & worsen demographics	When new high school comes on line, there will be another redistricting. Focus on relieving the NE & E HoCo schools with movement to the Central and NW for this districting.
4424				2						1	1	10	3	AAC draft plan is a much better solution to the overcrowding issues than the Feasibility Study. It helps to keep a very successful and diverse academic HS - Atholton - mostly as-is.	
4425	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	6	this neighborhood started when my house was built 1954, this neighborhood needs to stay together. your plan splits the neighborhood on my street, this is totally wrong.	3	7	7	4	Bussing kids 9.5 miles instead of 4.5, is just dumb. not to mention all the extra cars you are going to send across the mall /center city of Columbia that does not need more congestion in the mornings.	
4426	VeteransES			1	1					1	2				
4427	CentennialLaneES	BurleighManorMS	CentennialHS	5	3	2	4	5	The current AAC draft is ridiculous. I have worked overtime to ensure we could move to an area that relies on good schools and nearby transportation. This plan does not facilitate safety for my child's commute and sports involvement thru school.	3	4	5	3	The Current AAC draft is ridiculous!! More $$ will be spent on gas for buses to travel far. Why not river hill then? Zone 147	There are many communities that do want to move To Wilde Lake but our community (zone 147) do not. Please reconsider. We have worked hard to purchase a home in an area that feeds to good school and we want our children to benefit from this.
4428	GormanCrossingES			5	3	1	10			1	1	10			
4429		ElkridgeLandingMS		1	3	9	8	13	Move polygons 277/68/1068/2068/3068/261/1261 to Long Reach HS. Keep polygons 1042/2042/3042 in Howard HS. If you move 1042/2042/3042 to LRHS, you are concentrating poverty & children with high levels of needs into an already VERY LOW performing school.	2	13	9	2	The new HS at Mission & Guilford will cause more redistricting. Only move the children expected to attend that new school. It seems that you have not considered the new school at all and everyone is going to have to be redistricted again in a few years.	These feedback boxes should not limit the amount of feedback. It is unfair that we cannot provide our full thoughts due to limits of these boxes.
4430	GormanCrossingES		AtholtonHS		2	1	6	10		1	1	8	10		
4431	WorthingtonES	EllicottMillsMS			3	13			I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments. Please wait on high school reassignments until schools are built.	1	6				
4432			HowardHS	5	1					1					
4433	GormanCrossingE	MurrayHillMS	AtholtonHS	5	1	1	10	10	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill M	1					
4434			MtHebronHS	1	3	7	4	6	My child can walk home from after school activities. We are a little over a mile from school and attends with neighborhood friends.	2	7	4		Splitting small part of neighborhood to a different school. My child able to walk home currently but can't at new school.	
4435	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	13		3	6	7	13		
4436	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	13	4		3	7	13	7		
4437	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	6	7	13		3	6	7	13		
4438	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	4	My deep concerns are: 1. Keeping this longstanding, historic community together 2. Keeping kids together within our longstanding, cohesive neighborhood together as they feed from one school to the next 3. Much longer commuting time and distance	3	7	6	4		
4439	ClemensCrossingE	LimeKilnMS	AtholtonHS	4	2	1	10	3		1	6	10	10	Most schools stay mostly intact and many fewer students will be moved. Also, schools in the west will be more diverse.	
4440	WestFriendshipES	MountViewMS	MarriottsRidgeHS			3			Fiscal responsibility by minimizing capital and operating costs.—once WFES goes over 100% capacity a $4M septic upgrade is needed.		7			Community Stability –this plan moves 40% of the WFES community out of the school and moves areas that are near to MVMS and MRHS to a much farther school out of the community	
4441	HammondES	HammondMS	AtholtonHS	5	1	6				1	1	10		Thank you for preserving Atholton HS. The new AAC draft plan shares the burden of redistricting much more equitably (vs the inequitable burden in Feasibility Study). AAC draft plan preserves outstanding academics/extracurricular & existing demographics.	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.
4442		ElkridgeLandingMS		1	3	7			Why aren't polygons 68, 1068, 2068, 3068, 261, 1261, & 277 put into either Long Reach HS or Oakland Mills HS. That would provide continuity of neighborhoods" as you often state as justification for these redistricting plans. Why carve out to allow"	2	7	13	9	those few polygons to attend Howard HS? It appears that you are trying to concentrate the poor families & those with special needs into a few schools that are already performing VERY BADLY so that rich, white, - preferred - schools can maintain their high	scores & PROPERTY VALUES. This Draft plan is as bad as the feasibility study. Did you bother to look at demographics & continuity of neighborhoods? Did you consider the new HS at Mission & Guilford? Keep polygons 1042, 2042, & 3042 in Howard HS district.
4443			HowardHS	5	2	6	7	4		1	6	7	4		
4444	IchesterES			5	1	4	3	7	There is a direct need for some redistricting, but the AAC draft clearly shows a more feasible and logical solution.	1	4	6	1	The revised plan clearly shows the consideration of community feedback, as well as the logical proximity of residents and their respective school systems.	Thank you for making this a transparent process, as well as genuinely listening to the feedback of the communities.
4445		DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns to include bus commute time, crossing major intersections, and new courthouse traffic along the commute. The draft also does not address over enrollment in Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns to include bus commute time, crossing major intersections, and new courthouse traffic along the commute. The draft also does not address over enrollment in Thunder Hill ES.	I propose polygons 111, 1111 and 2111 go to Northfield ES, Dunloggin MS and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed and maintains our sense of community.
4446	NorthfieldES			1	3	2	7		The geographic distribution of the AAC draft plan seems counterintuitive. In particular with regard to the proposal for Centennial High School. Your plan is to essentially cut the attendance area in half between east and west.	3	6	7		In Centennial you are currently planning on removing some of the first graduating classes of Centennial High. Some of theses graduates still live there. Cut from the eastern portion. It is the farthest and it makes more sense.	
4447	BushyParkES	GlenwoodMS	GlenelgHS	5	1	6	7	11							
4448	BryantWoodsES	DunloggінMS		1	3	4	1	13	the draft negatively impacts me based on transportation and safety concerns. For example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES	3	4	13	1	The draft negatively impacts me based on transportation and safety concerns. For example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4449	NorthfieldES	DunloggінMS	CentennialHS	1	3	1	4	7	Please do not arbitrarily separate the Dunloggin neighborhood into 2 different schools. Keep polygon 150,4150,1150 (115 HS) in Cent and move Polygon 97 (96 HS) to Mt Hebron. Polygon 97 is a gerrymander polygon. There is a natural boundary separation!	3	7	4	6	My neighborhood is affected by the AAC play when it wasn't with the Feasibility study	Please do not arbitrarily separate the Dunloggin neighborhood into 2 different schools. Keep polygon 150,4150,1150 (115 HS) in Cent and move Polygon 97 (96 HS) to Mt Hebron. Polygon 97 is a gerrymander polygon. There is a natural boundary separation!
4450	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	2	3	9	4	13		3	1	7	9		
4451				4	2	6	2	1	About 2/3rds of the students in polygon 147 are new; moving them to Longfellow/Wilde Lake has less impact and should improve demographics at Longfellow/Wilde Lake. Splitting poly 147 to only move Centennial Overlook would be an even better plan.	1	6	7	4	The AAC draft is better at avoiding splitting neighborhoods, and appears to me to do better on transportation. A comparison of transportation costs (or at least transported vs walking students) would be helpful.	In the longer term, HoCo should consider freezing boundaries and adding capacity at schools that grow. This may cost more, but will be less disruptive of student experience.
4452	HammondES	HammondMS	AtholtonHS	4	1	10	7	9	It would be better not to move students around and build the new high school, especially before allowing any more development. I can't imagine that it is cheaper to keep moving students, resources, and records around and then build a new HS.	1	10	9	7	This new draft is much better since it more keeps students closer to their neighborhoods, and especially doesn't single out one High school as an exchange to move students from overcrowded schools to. Also, this improves school demographics.	Save money and begin the building of the new HS. And make the developers contribute!

4453		BonnieBranchMS	HowardHS	5	1	1			This plan has better school utilization tan the current & is way better than the feasibility study!	1	1	6	7	The AAC plan keeps more neighborhoods together. Reduces the number of students being moved. Better utilization of schools. Considers the county transportation costs.	This plan stops the insulation & the creation of a small feed of our polygons 84,95,1095,& 2095. It also takes into consideration that our polygon 84 has been moved multiple times. Our kids have had the hardship of start over knowing no one.
4454	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10		1.The AAC Plan is superior to the Feasibility Study. 2.It solves overcrowding by moving far fewer students and Preserves Atholton HS. 3.Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) 4.Move Polygons 272 and 1272 (East Emerson) to M	1	1	10		1.The AAC Plan is superior to the Feasibility Study. 2.It solves overcrowding by moving far fewer students and Preserves Atholton HS. 3.Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) 4.Move Polygons 272 and 1272 (East Emerson) to M	
4455	ForestRidgeES	PatuxentValleyMS	HammondHS	1	3	4	7	13		3	4	7	9		The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.]
4456	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	2	The AAC plan splits the Dunloggin community in half. These kids all go to elementary and middle school together then half the neighborhood (Polygon 4150) will be shipped out which is in conflict with Policy 6010 IV.B.2.a and b	3	7	6	2		
4457		MurrayHillMS	AtholtonHS	5	1	1	10	14	Thank you very much for PRESERVING ATHOLTON HIGH SCHOOL, the outstanding performance in academics and extracurricular activities, with existing student demographics, needs to continue as a model for the other schools.	1	1	10	14	I strongly believe that the Feasibility Study moved WAY too many kids! Ex., it took out current 67% of Atholton High School students. No other high school was changed as dramatically as this one. Kids will loose so many friends from the school.	I also strongly support the phasing in of 11th grading LET THEM STAY". I knew some of the kids even started to worry about this changing right now. It's definitely not good for them to focus on their academic and also lose some current school project."
4458	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	6	7	13	Regarding Polygon 1189. Under the current structure, Polygon 1189 (Clarks Glen and Clarks Glen North both attend Pointers Run Elementary School (1 mile away from neighborhoods, socially connected with the rest of Clarksville/River Hill community, etc.).	3	6	7	13	The Feasibility Study keeps Polygon 1189 at Pointers Run ES (1 mile away) where the ACC Draft Plan sends our kids to Dayton Oaks Elementary School (over 5 miles away through heavy traffic on Route 32)--completely inefficient if nothing else.	After reading the Feasibility Study (and the ACC Plan), they disregard student, family, logistical, and community impacts and simply focus on capacity, efficiency, and financial elements. If anything, Polygon 1189 should attend Clarksville ES (2 mi).
4459	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1			1.The AAC Plan is superior to the Feasibility Study. 2.It solves overcrowding by moving far fewer students and Preserves Atholton HS. 3.Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) 4.Move Polygons 272 and 1272 (East Emerson) to M	1	10			1.The AAC Plan is superior to the Feasibility Study. 2.It solves overcrowding by moving far fewer students and Preserves Atholton HS. 3.Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) 4.Move Polygons 272 and 1272 (East Emerson) to M	
4460	CentennialLaneES			1	3	2	3	4	97 is an island. It will comply 6010 much better if it goes o St. Johns Lane ES, Patpsco MS and Mt. Heborn or MRHS. With this move, it will be a part of a community rather than a standing-alone island which should be avoided per 6010.	3	5	7	13	The develop of 147 new community was told by the county : Build houses no school capacity issue . The kids just settled and made friends. Suddenly we were told the school are overcrowded, the kid get out. The county needs be hold legally accountable.	
4461			CentennialHS	1	3	7	4	2	The AAC does not seem to be considering the boundaries of the Dunloggin neighborhood which is a consideration in Policy 6010, Standard B2b. Instead of looking at the boundaries of Dunloggin, they have pulled areas out of the neighborhood in Polygons.	3	7	4	6	Community borders must be a priority. The polygon system is splitting the Dunloggin neighborhood in half. More natural bourndaries would be major roadways such as Rt. 29, Rt. 40 and Centennial Lane. Dunloggin is on the same as Dorsey or Gray Rock.	Wilde Lake in Columbia is farther away than three other schools in Ellicott City. My community is in Ellicott City - not Columbia. They are distinct areas and I expect children in my neighborhood to go to school with their neighbors, not far communities.
4462		BonnieBranchMS	HowardHS	5	1	1	6	7	The AAC plan has better utilization of schools. While still trying to keep neighborhoods together.	1	6	7	1	ACC plan works hard to keep neighborhoods together. Reduces the number of students being moved over the feasibility study. Considers the county transportation costs.	This plan really takes into consideration of maintaining neighborhood/school feeds. They seem to understand that polygon 84 has been moved multiple time in the past. Our children have already had to start over knowing no one.
4463	RockburnES	ElkridgeLandingMS	HowardHS	5	1	1	2	3		1	1	2	4		
4464			HowardHS	5	1	1	6	7		1	6	7	3		Keeps feeds together. Has better scho utilization. Reduces the number of students being moved over the feasibility study.
4465				5	1	10	1			1	10	10			
4466	DuckettsLaneES			3	3	7				2	14				
4467			CentennialHS	1	3	13	13	13	High school students are in the middle of college. Moving to another school cause way different environment. Who is responsible for that? (Polygon 2154)	2	13	13	13	High school students are in the middle of college. Moving to another school cause way different environment. Who is responsible for that? (Polygon 2154)	
4468	NorthfieldES	DunloggінMS	WildeLakeHS	1	3	4	6		The current areas are pretty bad (e.g. polygon 2093 attends Mt Hebron when Howard HS is much closer), but the AAC plan is even worse. It further breaks up communities and creates islands with regards to high schools.	3	4	6		The Feasibility Study Plan is more balanced, but it too needs to be reevaluated. The overarching principle should be to keep communities together and have them attend the closest schools. If that is the current goal, it is far from obvious.	The main issue is that the current high schools are too close together, and the proposed location for HS #13 will not improve the situation in any way. The new high school needs to be further North, but it's probably too late for that.
4469		MurrayHillMS		5	1	10	1	7	I strongly support the new AAC draft plan!!! No other HS was changed as Atholton HS. My kids is looking forward to AHS as it is the one of the model HS in Howard County.	1	1	10	7	No other HS was impacted as much as Atholton HS. The Feasibility study took out 67% of AHS students. This was way too much!!! It is unnecessary and unacceptable!!!	I strongly support the phasing in of 11th grading LET THEM STAY". How could kids assume their leadership roles as upperclasmen new to the club or team? Even they stays in the current school with 67% of his fellow moved out a team won't be the same."
4470	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	5	1	1	4	6	The AAC draft plan makes more sense as it keeps groups of students in Western Howard County together from ES to MS to HS.	1	11	4	6	AAC draft plan makes more sense than the Feasibility study. Feasibility study has scenarios with Triadelphia Ridge sending 36 students to Dayton Oaks and then having Dayton Oaks send 39 students to Triadelphia Ridge. Illogical for a net 3 student change.

4494	ForestRidgeES	PatuxentValleyMS	HammondHS	3	3	7	4	13		3	4	7	13		The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
4495				1	3	6	7	4	Kids are being sent to rival schools. Kids have to travel further. Kids are being sent to different schools than their neighborhood friends.	3	4	7	6	This plan seems to have a much shorter shelf life than the feasibility study with the new development in downtown Columbia. Students are also being sent to schools further away, affecting both traffic, trans. costs, and making friendships harder.	This process doesn't seem to treat the students as anything more than numbers. It doesn't think long term. We need solutions that build the community up, not scare residents and potential residents away into Montgomery County.

4496	GormanCrossingES	MurraryHillMS	AtholtonHS	1	3	1	4	11		3	1	7				The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.]
4497	PointersRunES	ClarksvilleMS	AtholtonHS		3	6				3						
4498			LongReachHS	1	3	7	4	13		2	13	14	14			
4499	NorthfieldES			1	3	7	4	6	It is a terrible idea to chop up the dunloggin neighborhood and bus kids so far away to Wild Lake High School. There are communities closer to wild lake that should be redistricted there.	3	7	4				The development in howard county is out of control and has a huge impact on school over crowding. A new HOCO high school needs to be built asap. Stop moving kids around and creating division within communities, traffic and long commutes. Please.
4500	StevensForestES	OaklandMillsMS	OaklandMillsHS	1	3	9	5	7	Columbia was founded on the principles of bringing diverse ethnic and economic backgrounds together. The proposed plans go directly against this goal and against the fabric of our communities. The plans will negatively impact both schools and students.	2	9	5	7	The data used to develop these plans are flawed. East Columbia was under-represented. All our students and families deserve that we do this properly and that the disenfranchised voices are heard.		Between the use of bad data, the under representation of East Columbia, and the negative impacts for those that are the neediest (ethic or economic) we need to reconsider all these drafts. Our goal should be improving schools, not property values.
4501		PatapscoMS		1	3	7	6	4	Per Policy 6010 the draft plan DOES NOT maintain our contiguous community/neighborhood! Our students would be bused much further than their historically neighborhood school where the community has ALWAYS attended.	2	7	6	4	Same as above.		If those involved in current redistricting risk future redistricting, they certainly should not be considered in this plan. Building a new high school should be the immediate priority to alleviate ongoing overcrowding given constant new development.
4502	RockburnES	ElkridgeLandingMS	HowardHS	5	1	6			Adding school #42	1	6			The AAC plan is less invasive than the Feasibility Study plan		
4503	GormanCrossingES	MurraryHillMS	AtholtonHS	1		4	7	13		3	7	13	10			The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
4504	RockburnES	ElkridgeLandingMS	HowardHS	4	2	4	6	11	I understand the schools are overcrowded, this plan seems to try and relieve that issue while impacting less overall students.	1	11	6	7	This plan seems to try to keep groups of students together better than the Feasibility Study did. Our neighborhood and the Lynwood neighborhood which currently attend elem/Middle together with surrounding neighborhoods are not impacted in this study.		I understand the need to reduce crowding at schools, and appreciate the enormous task that is at hand. I am appreciative of the efforts to try and keep children together through their schooling experience. To change peer groups for HS would be challenging.
4505	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting. AAC does not meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%		AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility. AAC and Feasibility 11-16% feed from Folly Quarter to River Hill
4506	GormanCrossingES	MurraryHillMS	AtholtonHS	5	2	14	14	14	This plan is better than the previous feasibility study because it moves fewer students while adjusting for overcrowding, and retains Atholton HS as our community's high school.	1	1	10	7	The feasibility study moved too many students and impacted our community negatively.		
4507	GormanCrossingES	MurraryHillMS	AtholtonHS	1	3	4	7	13		3	4	13	7			The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. 4585	SwansfieldES	HarpersChoiceMS		5	1	9	1	3	This plan addresses the longtime concentration of FARMs in some schools and the lack of diversity in schools such as River Hill HS. The available capacity in the western Howard County schools must be used to address overcrowding in Columbia schools.	1	1	9	3	This plan does a much better job at redistricting high schools to use available space in western Howard schools. It also takes steps to balance the huge disparity in FARMs rates and lack of diversity in some schools.	I fully support this plan for my community, Clary's Forest. It will bring more stable neighborhoods into Swansfield Elementary and moving my neighborhood to River Hill HS makes sense. Better plan than the huge turnover of students at Atholton HS.
4586	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. 4592	NorthfieldES	BurleighManorMS	CentennialHS		3	13	4	7	Our plum tree community has been with Centennial High School since we built. this shouldn't be changed, it is unfair for us.	3	13	4	8	Our home location is far away from Marriotts Ridge HS. It is not reasonable to re-district us to there	
4593			CentennialHS	1	3	7	6	13	It is important that our children go to school with the same kids from the neighbourhood throughout. Provides social stability. Neighborhood should not be split. Also, transportation for new drivers will be longer and more unsafe going further away.	3	7	6	8	The newest ACC plan only shifts the problems from the Feasibility study that were objected to- to a new community. Our Dunloggin community is well established and should not be split. Also, the high school attended should be close in EC not Columbia.	Schools should be enlarged to accommodate the communities nearby. Kids should not be sent miles away when the school are right near their neighbourhoods.
4594			HowardHS	1	3	3			Polygons 65, 1065. and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 1610. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13	3	3			Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement and the environment.. It also reduces teen drivers on the road, critical because car crashes are the leading course of death for teens.	Polygons 65, 1065, and 2065 should remain at the middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4595	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting. 4634	FultonES			5	1	10				1	10					
4635	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	Please keep polygon 1189 in PRES! Kids should not be bused to school miles away! Also why are Wilde Lake students bused to River Hill and River Hill community kids bused to Atholton. Why break communities???	3	4	6	7	Polygon 1189 being bused to Dayton Oaks is unreasonable and hurts our children! River Hill community students being bused to Atholton and Wilde Lake students bused to River Hill breaks up our community, provides no real value.	Keep our villages together! Children need their friends, neighbors, and support system to thrive. The draft AAC plan breaks communities without any reasoning or justification.
4636	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting. AAC does not meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility.	3	6	7	13	Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs. 2 under Feasibility. AAC and Feasibility 11-16% feed from Folly Quarter to River Hill
4637			CentennialHS	1	3	6	9	13	This plan has so many concerns: 1) Keeping feeds of students together from one school to the next (Policy 6010 IV.B.2.a) 2) Maintaining contiguous communities 3) Drive time to school is longer 4) Economic integration is not appropriately addressed	3	6	9	10			
4638	ThunderHillES	DunlogginMS	WildeLakeHS	1	3	1	4		As a polygon" that is in floating manner traffic flow or the minimal effect our small numbers have. We shouldnt be shipped across highways to balance numb"	2	1	2				Efforts need to be put in place to minimize development where no seats are available. Forcing schools past capacity due to lack of development planning is irresponsible. Redistricting will reoccur until development is controlled. UNFAIR to our kids!!
4639			LongReachHS	1	3	4	2	13	Especially with HS13 on the way, in terms of transportation costs, destroyed relationships, the loss of opportunity to pursue student leadership positions, and academic disruption, redistricting HS students now creates more problems than it solves.	2	2	4	13	No HS should gain or lose greater than a determined number of students. I don't know what that number should be, but 545 students leaving one school is too many. Impacts of such a massive change are far more detrimental than the impacts of overcrowding.	High school students should not be redistricted until HS13 is built. If anything, students entering 11th grade should be able to stay. To the county, its just one graduating class, but to students its the destruction of academic and social opportunities.
4640	NorthfieldES	DunlogginMS	CentennialHS	1	3	6	7	13	The purchase of our home was based upon the criteria of performance statistics of the schools we are districted for currently The most important criteria of school selection is performance statistics. This will negatively impact our property values.	3	13	7	13	Parents deserve the right to stay in the school of their original choice based upon merit and performance. Period. This kind of radical redistricting is gross overreach by the local government with total disregard to children and families.	Dunloggin is a unique community and has been for generations. It is SO beloved, that homes are often passed down from one family member to another. Some of us there are 2nd and 3rd generation. Neighbors are like cousins, classmates and playmate together.
4641	DeepRunES			1	3	6	13	14								
4642			CentennialHS	4	2	7	6	4	Our community was divided in half a number of years ago by redistricting. The newest proposal reverses a plan to divide and further segregate it. Destruction of our fabric of community by school redistricting is akin to redlining.							The latest version is an improvement over the previous draft. Our community is saved from being divided into quarters by school redistricting. The land use planning process needs to reinforce existing school assets and infrastructure before.
4643	TriadelphiaRidgeE	FollyQuarterMS	GlenelgHS	1	2	11				1	4	6	7	have less movement for kids (AAC vs. feasibility study) AAC plan is better		
4644	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4645	AtholtonES	OaklandMillsMS	OaklandMillsHS		3	7	13	4	It's much worse - you're dragging us all over the place. Wilde Lake is much farther than Atholton High. Not sure who thought this was a good plan. Plus we don't want to go to Lake Elkhorn. It has a horrible reputation behavior-wise.	3	7			It's much worse - you're dragging us all over the place. Wilde Lake is much farther than Atholton High and the traffic downtown is only going to increase. If we go to Atholton High our kids can walk/ride their bike across 29 to Martin Rd.	Stay with the 2017 Feasibility Plan, please!
4646	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill

4647	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	6	Please keep polygon 1189 at PRES instead of busing these children miles away to Dayton Oaks! Children will send more time on the bus when there is a school a mile away and be separated from their friends and support systems.	3	4	7	6	Polygon 1189 should not be sent to Dayton Oaks. This is a terrible plan for our community of 72 children. They will be separately from their friends and support system and be forced to spend more time on the bus which is a safety concern.	Please keep our community together!
4648	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4649	NorthfieldES	DunloggінMS	CentennialHS	1	3	13				3	13				
4650				4	2	6			I believe that this plan is better than the first, I still wonder why it must be done on such a large scale when another high school is set to open in another 3 years.	1	6	4		This plan is leaps and bounds better thank the Feasibility Study as it takes communities more into consideration. It also takes into consideration travel time between students' homes and their school.	
4651	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4652	GormanCrossingES	MurrayHillMS		5	1	1	10	14							
4653	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	14		1	1	10	14	AAC plan is good comparative	
4654	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. 4713		PatuxentValleyMS		1	3	1	5	9	Please consider not all schools have equivalent facilities .AAC draft plan doesn't go far enough to relieve overcrowding at older schools over due for renovations and using portables already: Howard & Hammond. Marriott's Ridge is still under capacity.	3	9	1	5	The AAC draft plan does little to address the diversity issue at many county schools. Virtually no change in racial demographics and not representative of the world our children will graduate into.	The Feasibility study does a better job of efficient use of space, specifically in western county high schools than the AAC draft plan. The population of schools like Hammond, long overdue for renovations with portables, should be reduced.

4738				5	2	6	4	7		1	6	4	7		
4739		DunloggінMS	CentennialHS	1	3	7	4	13	Negatively impacts our neighborhood because of safety concerns for walkers due to distance and congestion on Rte 29 which impacts our infrastructure. Splitting our neighborhood right down the middle, which greatly impacts a contiguous community.	3	7	3	13	Negatively impacts our childrens high school experience with the new proposed plan should he wish or need to stay after school. It would takeover 1.5 hours through multiple neighborhoods, across Rte 108 possibly in the dark and with no sidewalks.	We were not informed of this survey until very late in the process. High Schools were initially not to be involved. It seems that this latest proposal was hastily thrown together by the review board with very little review of concerning impact.
4740	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	6	Moving River Hill community students to Atholton and moving Wilde Lake students to River Hill is unjustified. Keep village together!!	3	4	6	6	Keep villages together! River Hill community kids deserve to be with their friends and community	
4741	NorthfieldES				3	4	6	13		3	13	4	7		
4742	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	4	7	Students should NOT be bused away from their village. River Hill kids should stay in River Hill instead of busing to Atholton and Wilde Lake kids bused to River Hill	3	4	6	7	Don't ruin communities by busing!	
4743	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	2	14				3	14	14	14		
4744	SwansfieldES	HarpersChoiceMS		5	1	9			For our area, the AAC Draft Plan is excellent. Although my children's existing school situation is difficult, this plan will improve their early school/s (via test score averages +, reduced FARM) and drastically improve HS (scores/grad rates).	1	14			n/a	
4745	4	WildeLakeMS	AtholtonHS	4	2	7	6	9		1	7	6	9		
4746	ManorWoodsES			3	2	9	2	4		2	9	2	4		
4747	RockburnES	BonnieBranchMS	HowardHS	1	3	4	6	9	We are in polygon 91. One of the closet communities to Ilchester ES and Bonnie Branch MS.	3	4	6	9		
4748		DunloggінMS	WildeLakeHS	4	3	6	8	13		3	6	8	10		
4749	PointersRunES	ClarksvilleMS		1	3	6	4		Leaving Howard county fragmented. This will have a long term impact on the "security" of our home values. Who will want to live here knowing that schools could change so frequently. I have a long commute and choose to live here because of the schools.	3	6	9	8	Rips communities apart. Very poorly done. Please leave this up to the professionals. Too much vested interest by parents/AAC. Feasibility study was much more reasonable in spite of larger # of students disrupted.	as above. Considering moving out of HOCO closer to work with a cheaper home and pay for private school. You are causing the loss of security that people have in their #1 and #2 investments-their kids and their homes.
4750		OaklandMillsMS			2	7				1	6				
4751	GormanCrossingES			5	2	1	10	14		1	1	10	14	I like the AAC plan better than the feasibility study because it disrups less students and preserves Atholton High School while achieving the county goals.	I also think that Polygons 272 and 1272 should move to Murray Hill MS and Atholton HS to preserve the Emerson community culture.
4752	RockburnES	BonnieBranchMS	HowardHS	1	3	4	6	7	We are in Polygon 91 and a mile away from Ilchester ES and Bonnie MS. All close neighborhoods are allocated to both these schools. Moving our kids to Elkridge ES on the far side of Elkridge would not be ideal for the community.	3	4	7	6	We are in Polygon 91 and a mile away from Ilchester ES and Bonnie MS. Moving our kids to Elkridge ES 3.5miles away would not be ideal for the community kids wrt to transportation and maintaining feeds. Please assign us to Ileschester and Bonnie branch.	The Feasibility study posted prior to the AAC draft with polygon 91 assigned to Ilchester ES and Bonnie branch MS is ideal wrt to distance to schools and maintaining continuous neighborhoods together. The AAC draft for Polygon 91 is impractical for kids.
4753	DuckettsLaneES	ThomasViaductMS	LongReachHS	1	3	9	10	3		3	5	3	6		
4754				1	3	2	8	7	My children have graduated. It just seems very foolish and wasteful to redistrict right before a new high school opens. I really think you should be redistricting only once to minimize student disruption - and that it should be when the new HS opens.	2	8			from a HS perspective it's just as bad. wait until the new HS is opening!	Kids should not be moved in high school! Do not redistrict until the new high school is ready! My children have graduated so I have no stake in the redistricting. Do not waste energy and resources on something that will have to be done again soon.
4755				1	3	4	6	7	Schedules have been adjusted for later HS start, which makes sense; the change will negate this step. Safety concerns for student drivers.	3	1	3			
4756	WorthingtonES	EllicottMillsMS	MtHebronHS	5	2	7	6	4		2					Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.
4757	ClemensCrossingES			1	3				Given the overcrowding at CCES, it makes absolutely no sense to move as many Swansfield students into CCES as are leaving, particularly given the spare capacity at Swansfield.					I don't know what the feasibility study is. But I'm appalled that students within walking distance of Atholton are being sent to River Hill. That is particularly troubling given that it perpetuates the lack of racially diversity in River Hill	We chose CCES for the ethnic, racial, and economic diversity in a top-notch school. It should be a model for the rest of HoCo. I am so VERY disappointed to see that being destroyed as the project population in the study is dichotomous & likely a problem.
4758	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	4	This plan was thrust upon the Dunloggin neighborhood rather quickly. This defies the spirit of the interim Superintendents policy of Transparency. It was changed to accommodate another neighborhood (Font Hill) and now Dunloggin is being divided.	3	4	8	7	I am afraid of students driving or taking the bus a longer distance. This will add to congestion is an already congested corridor. The county just repaved and changed Centennial lane to accommodate bicycles. Students from Dunloggin can ride bikes to CHS.	We chose to live in this community and have a loyalty to CHS. We attend the sports and theater productions. We go to their pancake breakfasts and buy their Christmas trees. This is our community!

ObjectID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is the current school attendance areas	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	The AAC plan is the Feasibility Study Plan. 4760	NorthfieldES	DunloggінMS	CentennialHS	3	2	12	14	14		2	12				Re: Centennial HS. How did the AAC decide (after the release of the feasibility study) to keep Font Hill and Gray Rock polygons from going to Marriotts Ridge, then decide to move most of the Dunloggin neighborhood from Centennial to Wilde Lake HS?
4761	ElkridgeES			1	3	7	6	4	Elkridge high school feed proposals have butchered elkridge, a historical community which lacks powerful wealth and advocacy. This will not solve overcrowding long term and divides our community.	3	7	6	4	This plan will only solve overcrowding by dividing the elkridge community into islands which loses our sense of community and connectedness which we are desperately trying to establish.	I am in support of keeping elkridge children together. I believe ELMS and TVMS should feed into one high school if possible.
4762		ClarksvilleMS		1	3	4	6	7		3	4	6	7		
4763	ThunderHillES		WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections and a new court house traffic along the route. The draft does not address the over enrollment at Thunder Hill ES.	3	1	4	13	The draft impacts me negatively based on transportation and safety concerns stated above as well as current over enrollment at ThunderHill.	I propose polygons 111,1111, and 2111 to go to Northfield ES, Sinking in MS, and Wilde Lake HS. The proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4764	PointerUltunES	ClarksvilleMS	RiverHillHS	1	3	4	6	13	The proposed plan will send my kid to the ES that is much further away, our current school is within a mile of where we live. That means longer commute, which does not make sense. And she will lose tie with her school mates.	3	4	6	13	The feasibility study does not impact my kid.	
4765	ForestRidgeES	PatuxentValleyMS	HammondHS	1	3	4	9	7	Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 Atholton HS or combine all Emerson to one high school (Hammond High) as per the feasibility study.	3	7	9		Keep Emerson community together. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Atholton HS or Move all emerson to Hammond High	Emerson is community, we share HOA, Pools, playgrounds and wanted same school district for all
4766			RiverHillHS	1	3	2	3	4	Students should not be moved from RHHS to GHS. Then move less students from WLHS to RHHS. Also do not move students from CHS to WLHS, rather move them from CHS to MRHS, then move MRHS to GHS. This relocates less students than the AAC Plan.	3	2	3	4	There will be significantly more students at RHHS, below grade level, special ed, and ESOL. These services are currently limited at RHHS and staffing will have to be increased. Students may have trouble staying after school because of transportation.	Redistricting should wait until the new high school is built. Wait and only move students once instead of twice.
4767	CentennialLaneES	BurleighManorMS	CentennialHS		3	4	1	8						polygon 147 rezoning impacts me negatively	
4768	IlchesterES	BonnieBranchMS		4	1	14	14	14		1	14	14	14

4770	HammondES		AttoltonHS	5	2	14	14	14		1	1	10	14	Thank you for PRESERVING ATHOLTON HIGH SCHOOL. The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.
4771	TriadelphiaRidgeE	FollyQuarterMS		1	3	6	7	13	My husband and I are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also, polygon 3182 should be kept with polygons 1180, 180, & 181 for a contiguous community.	3	6	7	13	My husband and I are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also, polygon 3182 should be kept with polygons 1180, 180, & 181 for a contiguous community.	
4772	GormanCrossingES			5	1	1	10	13	The plan presented by AAC is superior to the Feasibility study. It solves the issue of overcrowding by moving far fewer students land preserves Atholton HS.	1	1	10	7	This AAC Plan is Superior to Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	Please modify to reunify the Emerson neighborhood (6010-IV.B.2.b.)Move Polygons 272 and 1272 (East Emerson) to Murray Hill Ms & Atholton HS as the Emerson neighborhood was unnecessarily split by re districting in 2012.We all live in the same neighborhood.
4773	ManorWoodsES	MountViewMS	MarriottsRidgeHS		1	1	2	6	Overcrowding in certain parts of the county and under enrollment in western areas so suggest shifting closest neighborhoods to the western schools to help.	2	1	2	6		
4774	AtholtonES			1	3	1	13		HMS is underutilized, it would make more sense to move 56,1056, 2056, 3056, 57, 1057, and 2057 to HMS. This plan puts WLHS above the 100% threshold. These students would be better served by going to AHS which is less than a 5m drive for our community.	3	1	4	7	While not ideal, I prefer the Feasibility study to the AAC draft plan because AHS is not overcrowded and will be closer to my home/community than WLHS.	AES is a small school & our children should not be viewed simply as numbers or islands - these are real people whose lives will be impacted by the decisions you make. Pls look beyond the numbers & consider the true impact your decisions will have.
4775	DuckettsLaneES			4	2	4	9	12	I like this plan better than Feasibility Survey because with new information recently provided new ES #42 looks better to me than DRES. New ES #42 seems to be equal to DLES. Will see.	1	9	12		I like this plan better than Feasibility Survey because with new information recently provided new ES #42 looks better to me than DRES. 4801		FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7%.Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4802	ElkridgeES			1	3	6			I moved here so my son could go to Howard High School and now they are splitting up the town of elkridge	3	7	1		Feasibilty study had our neighborhood still going to Howard high school. This is acceptable. Now going to long reach is not.	Elkridge needs it's own high school really. This is ridiculous that yall cannot find the money to build a school when you are buidling a new library and firehouse
4803	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	6	4	7	Not sure which genius came up with AAC recommendation to bus Wilde LAke, Marriotts Ridge students to be moved to RiverHill and people living in Riverhill community go to other schools. What is the qualification of these people who are part of AAC?	3				Feasibility study has excellent recommendations especially regarding High Schools. I am not sure what is the qualification of AAC committee members and who picked them. AAC recommendations are garbage at best and should be treated as such.	
4804			MtHebronHS	1	3	4	7	6		3	4	7	6	It is ridiculous to have next door neighbors within a neighborhood going to different schools. Also having students that walk to their current school having to be bused over 5 miles away makes no sense.	Moving students out of Marriotts Ridge to make room for students from Hebron makes no sense when the students you are moving from Hebron are in it's backyard.
4805			ReservoirHS	2	2	13	6	14	My son would like to stay at his school for his entire high school career. While the draft does not affect our area for the time being, there might be a possibility of him being redistricted.	1	14	14			
4806			MtHebronHS	1		9	7	14		1	9	7			
4807	RockburnES	ElkridgeLandingMS	HowardHS	4	1	6			good plan to integrate new ES#42	1	6			less changes	
4808	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	1	7	6	AAC plan makes the situation worse for our communities. If Riverhill school needs a feed of students to for optimal utilization of its resources then they should expand the boundary of that feed to in the adjacent area of the school's physical location.	3	1	4	7	AAC plan makes the situation worse for our communities. Feasibility study has effectively and logically proposed a solution to maintain the resource utilization and student feed to riverhill high school, however AAC's recommendations are totally illogical	
4809										3	6	7	4	People are moving to Maple Lawn South to be part of the Maple Lawn community...how it was designed to be. Fulton ES is directly across from this neighborhood and is part of the community. Kids need to stay at their community school with their fellow peers	Taking young children away from their community to another school much further away breaks bonds and could cause developmental and social issues when feeding them back into the community schools that they should have started in.
4810	ThunderHillES			1	3	4	3	7	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. In addition these polygons are not part of the integrated Oakland Mills Community.	2	7	4		Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also increases a sense of community.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMMS will quickly become overcrowded, potentially more so than Howard HS.

4842			HowardHS	5	1	1			Better utilization of schools	1	1	6	7	Moved fewer students than the feasibility study. Keeps more feeds together. Considers transportation costs.	Keeps polygon 84 with there school feed. 84 has already been redistricted (a few times). Our children have already had to start over not knowing anyone. They need to stay with there feed!!!
4843				1	3	4	7	8		3	4	7	8		
4844		HarpersChoiceMS	WildeLakeHS	1	3	12	7	9	The ACC Draft Plan results in non-contiguous neighborhoods being grouped into schools where such moves maybe not be necessary. The goals behind some of the proposed re-districting is unclear.	3	2	7	9	I believe that the Feasibility Study makes more reasonable changes with smaller impacts to students than does the AAC draft plan. This plan would be unnecessarily disruptive.	
4845	PointersRunES	ClarksvilleMS		1	2	6	7			3	6	7	4	Why are polygons 129, 1064, 1129, and 1190 assigned to Atholton, while polygons such as 66, 134, and 1134 are assigned to River Hill? Evaluated by the criteria cited above, we feel the Feasibility Study is superior to the AAC draft plan in this regard.	
4846		ElkicottMillsMS		1	3	4	6	3	Polygons 65, 1065, and 2065 are 1/2 mile from Howard High School. Students in this community walk to Howard HS. Adding buses to transport students to Oakland Mills HS is not fiscally responsible.	3	3	4	13	Students in Glenmont, polygons 65, 1065, and 2065, Walk to Howard High School. Walking to school promotes improved health and limits the environmental footprint that would be caused by adding buses or cars necessary to commute to OMHS.	For 40 years, the community of Glenmont has sent students walking to Howard High School, which is only 1/2 mile away. Moving the kids from this neighborhood to OMHS doesn't make sense fiscally or environmentally.
4847	ClarksvilleES			1	3	6	4	4	Polygons 142, 140 are really close to Longfellow ES, some are within walking distance. These two polygons will be re-districted to Clarksville CES, which unnecessarily increase the cost for bus transportation. I suggest redistrict polygons 175 to Clarksv	3	6	4		River hill village all attend Clarksville MS. But this area is split into two high schools. If keeping feeds of students is the goal, I suggest to redistrict polygons 1129,1064,129,64,1190,1128, 128 that attend CMS to river hill HS to address RHHS under c	
4848	ThunderHillES	ElkicottMillsMS	HowardHS	1	3	4	3	2	Moving walkers from any school adds costs that should be better spent toward opening new schools to alleviate the overcrowding across the county. How can any school community not include those so close to the school that they can walk.	3	4	3	13	It makes more sense to shift students who already on buses and who already have a feed from their current MS to a new HS. Under this plan, our HS students will be shifted to a new HS in which they have no ties. Community should be paramount!	For so many reasons walkers should remain walkers. If no other options existed (they do) then HS transfer should be phased in at the start of HS, not mid stream. HS redistricting should be tabled and the new HS fast tracked for success across the county
4849	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	13		Wilde Lake HS is not remotely close to our neighborhood of Dunloggin. Had I wanted my children to attend a Columbia HS, I would have chosen to live in Columbia.	3	4	6	7		
4850				1	1	10	14		Thank you for PRESERVING ATHOLTON HIGH SCHOOL. The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	1	1	10	14	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? It would be a detriment
4851	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	9	13							
4852	CentennialLaneES			1	3	13	4	7	Negatively impact my 3 children in a long- term regarding quality of life, quality of academic performance, and community resources accessibility.	3	13				Please keep children in the nearest schools and be considering their commuting, safety and quality of life.
4853	ForestRidgeES			1	1	13			The draft plan helps alleviate some overcrowding, but there are communities that are fragmented and they need to be reunited. The Emerson community is one such community with Polygons 1272 and 272 fragmented from 1005, 1006, and 2005.	1	1	10		Overall, an improvement, however, Polygons 1272 and 272 are one HOA community with Polygons 1005, 1006, and 2005. Please reunite them at the middle school and high school levels. Polygon 1004 also should be moved to Murray Hill due to proximity.	
4854			CentennialHS	5	1	3	7	10	The current plan solved the urgent problem that CHS is overcrowded and my community was minimally effected by the AAC redistricting plan.	1	2	9	8	The current AAC plan has better balanced the demographic distributions of students at CHS. It also minimized the impact on the established community.	I like the current AAC plan and strongly support it!
4855		ElkridgeLandingMS	HowardHS	4	2	6			Thankfully, it looks like they are not changing the high schools based on the current plan. This is what we were hoping as I want both of my kids to keep going to Howard.	1	6				We selected our neighborhood based on the high school my kids would attend; also my daughter in middle school is looking forward to seeing her friends from Rockburn again (who attended Bonnie Branch).
4856				1	3	7	13	6		3	7	13	6		
4857	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	2	4	The AAC draft plan doesn't consider the situation of Polygon 147 by redistricting it at all three school levels. In the 2015-2017 feasibility Studies, slight redistricting were recommended within northern region only.	3	7	2	4	The AAC draft plan doesn't consider region boundaries by mixing Columbia and northern regions. These regions have totally different community organizations such as Columbia association and wilde lake association fee etc.	The boundary disruption between northern and Columbia regions will lead unfair financial charges for residents in these areas. Also the school-level extracurricular and sports activities will be heavily disrupted by such irresponsible redistricting.

4862	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1	3	7	the AAC plan would put WFES utilization at 113% by 2022 and 126% by 2023 once WFES goes over 100% capacity a $4M septic upgrade is needed - Build the Turf Valley School Keep at WFES 224, 1229, 2229, 229 Do not move to WFES 304, 1305, 1304, 4189	2	1	3	7	the AAC plan would put WFES utilization at 113% by 2022 and 126% by 2023 once WFES goes over 100% capacity a $4M septic upgrade is needed - Build the Turf Valley School Keep at WFES 224, 1229, 2229, 229 Do not move to WFES 304, 1305, 1304, 4189	
4863	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	7	13	The AAC draft plan is disruptive to my child's quality of education and requires her to travel more each day.	3	2	4	7	The AAC draft plan counters the feasibility study which is a better solution.	
4864				3	4	7	1		The AAC draft plan to move studies from Polygon 147 to the Wilde Lake school system creates undue burden from the standpoint of maintaining community unity and ties, and transportation needs to cross Rt 108 a further distance for our children.	3	7	4	1	Would consider neighborhoods in closer proximity to the Wilde Lake schools to help with under-utilization of these schools, rather than redistrict a neighborhood (147) that has strong ties to the Centennial school system and nearby community.	The proposed plan would alienate us from our community, moving us to a different geographic region for schools requiring longer transportation routes and disrupting our immediate and extended community ties.
4865	DuckettsLaneES			4	2	9	2			1	4				
4866	BellowsSpringES			5	1	4	6			1	4	6		Do not like the Feasibility Study plan. Would rather have the AAC draft plan so my child can stay at Bellows.	
4867			AtholtonHS	5	1	10	1	7		1	1	10	9		
4868	ThunderHillES	DunloggінMS	WildeLakeHS	3	4	1	13		The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing g major intersections, and new court house traffic along the commute. The draft does not address the over enrollment at THES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing g major intersections, and new court house traffic along the commute. The draft does not address the over enrollment at THES.	I propose polygons 111, 1111, & 2111 attend Northfield, Dunloggin, Wilde Lake. This proposal solves transportation and safety concerns, longevity of the feed and maintains our sense of community.
4869			HowardHS	5	1	3	7	8		1	3	7	8		
4870	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13	2	6	Residents spent extra money (10% to 20%) more to purchase homes that are in nice communities and great schools. This committee is abusing their power to break this principal by moving students from bottom ranking schools to top ranking schools.	3	10	7	4	The current plan broke the 8 of 10 current policies. Not to mention the higher transportation cost by expanding the bus routes and the lost of future property tax revenue for the school district that is caused by this draft plan.	It is obviously someone is trying to raise the property values in downtown Columbia by moving those neighborhoods to the best high schools in Howard county. This won't help the students, the schools and the HCPSS.
4871	StJohnsLaneES	PatapscoMS		1	3	6				3	6				
4872	BushyParkES			1	3	1	7	6	There is no reason to move students from bushy Park that should not have any capacity issues to Lisbon. Taking students from a new school building to old Lisbon opens up air quality issues many Glenwood middle distincted families already fear.	3	1	5	2	Do not move students fromBushu park to Lisbon. That was not in deasability syudy. People moved to western howard count thinking were safe from restricting chaos.	There is. Invalid reason to move people fromBuqju park to Lisbon. There are many more problems with overcrowding in other parts of the county. Please leave the most western part alone!!!
4873			CentennialHS	1	3	7	1	8	East side of 29 continues to go to Centennial while west goes WL when communities have similar demographic (suspicious). We pay more for our house and taxes for schools. Wait till new school is built to avoid 2 changes. Almost all schools still >100%	3	7	6	8	Fails to accomodate #6 of recommendations (Dunloggin should go to Centennial). Ellicott city residents should go to Ellicott City schools. If all high schools are over capacity, need to build more capacity. Recom making changes after capacity is built.	The reports and recommendations fails to address the issue at hand; schools overcapacity. Build a school in 3 years or renovate. People make the decision on where to live based on schools. The Recom. undermines that freedom.
4874			CentennialHS	1	3	7	1	8	East side of 29 continues to go to Centennial while west goes WL when communities have similar demographic (suspicious). We pay more for our house and taxes for schools. Wait till new school is built to avoid 2 changes. Almost all schools still >100%	3	7	6	8	Fails to accomodate #6 of recommendations (Dunloggin should go to Centennial). The reports and recommendations fails to address the issue at hand; schools overcapacity. Build a school in 3 years or renovate. People make the decision on where to live based on schools. The Recom. undermines that freedom.
4875				3					Why can't things remain the same as to our children's schooling. There is much trauma among students and family. The plan was not thought out properly or given much time for other viewpoints to be heard.	3					
4876				1	3	7	4	2	The current AAC draft plan divides our community. Additionally, it doesn't take into account the safety of the students commuting to school each morning (i.e. teenage students driving on 29, walking from Dunloggin, etc.).	3	4	7	8	Dunloggin is a well established neighborhood for over 50 years. Having the neighborhood split by multiple polygons does not fit with policy 6010 in maintaining contiguous communities and neighborhoods.	There is a gross lack of documentation regarding decisions for AAC redistricting. Implementation date of redistricting coincides with the plan to implement later start times; moving students to a new school further from their home defeats this purpose.
4877		FollyQuarterMS		1	3	7	6	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4878	NorthfieldES	DunloggінMS	CentennialHS	1	3	2	7	8	Keep the neighborhood/feed schools together as they currently are - Policy 6010 IV.B.2.a.	3	2	7	8	With this plan how long do you plan on it taking to get children all the way across Howard County? What about Policy 6010 IV.B.I.D.	STOP trying to use band aids. Solve the problem and build the new High School! This will stop the constant need to redistrict high schools! The County has NOT helped HCPSS by continuing to let eastern Howard County continue to build. Build the new school!
4879		FollyQuarterMS		1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4880		BonnieBranchMS		5	1	4	1	7	We strongly support this draft because keeps our Polygons 95,1095,2095, and 94 within walking distance of HHS as it has been and at a distance of less than a mile. Also it keeps a strong feed within the northeast schools and reduces disruption.	1	1	4	6	The AAC draft is better-it moves fewer students overall while still utilizing the capacity of school in the west. It also keeps strong feeds northeast part of the county which is ideal for students and their confidence both academically and socially.	

4881		FollyQuarterMS		1	3	6	7	13	Current feed from Folly to River Hil is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. 4889	PointersRunES	ClarksvilleMS	RiverHillHS	5	1	1	4	6		2	1	6			
4890			WildeLakeHS	3	2	6	8	13	My issue is not with the plan but with the intent to move children from one school to another in the middle of their high school career. This is very disruptive to the child and does not allow them to participate fully in either of the schools.					Students who are impacted mid high school career should be provided with a choice to stay at the school they started in or move.	Once a child is districted to a school, they should be allowed to finish their career at that school. It is very disruptive to an individual to move from school to school. This does not allow the student to fully participate in either of their schools.
4891		FollyQuarterMS		1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. SIX high schools will feed into RHHS vs. TWO under Feasibility. AAC & Feasibility have ONLY 11-16% feed from Folly Quarter to River Hill
4892			CentennialHS	1	3	7	8	1	Suspicious that east of 20 stays with Centennial and west of Centennial goes to WL. Most schools remain >100% so does not fix problem. People pay more in house and taxes to live in comm b/c of schools (taking away choice) Dunloggin should feed centennial.	3	6	7	1	Plan fails to address the core issue; not enough capacity. Build capacity (new schools or renovation) then redistrict. Number 6 of recommendation inadequately address the problem	The harm of plan to those involved (uprooting communities, financial impact) outweighs benefit of the plan because plan does not address the core issue. The F.S and the plan may challenged legally esp when no one is in harm now & cap can be increased.
4893		FollyQuarterMS		1	3	6	7	13	Current feed from Folly to River Hil is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time
4894		PatapscoMS		1	3	4	7	8	Our street currently walks to Mt. Hebron. We access 99 via McKenzie, which is next to school. Why have kids drive past Hebron, adding 20+ minutes each way to commute to Marriotts, when they can walk. It splits our Community, which was prev. redistricted.	3	4	7	8	Per above, our location relative to Hebron does not support move to Marriotts. McKenzie down to Thornbrook (including dead-ends off those streets), and points east thru end of Tiller are one Community that should not be split for Hebron or Patapsco.	We are part of Mt. Hebron Community. The high school is key to the Community fabric (and visa versa). The school marches for our Halloween parade, we can see the field lights and hear the marching band from our home and the CC team runs past our home.
4895	ThunderHillES	ElliottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065, 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland mills HS would mean sacrificing money for other costs such as HS 13.	3	3	4	3	polygons 65, 1065, 2065 walk to Howard HS. Waking to school is good for students health, community involvement, and environment. It reduces teen drivers on the road, critical b/c of car crashes which are the leading cause of death for teens.	Polygons 65,1065, 2065 should remain at a middle school that feeds to Howard HS. Moving these schools to Oakland mills does not provide a long term solution because OMHS will quickly become over crowded, more so than Howard HS.
4896			RiverHillHS	1	3	6	7	13	Current feed from Folly Quarter is approx 34% Under AAC feed will drop to approx 14-16% not meeting standard of 3010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106% AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting	ACC does not meet contiguous communities per 3010.IV.B.2.b. 6 high schools will feed into River Hill vs 2 under Feasibility. ACC and Feasibility are unacceptably low from Folly Quarter to River Hill, 11% to approx.16%. Results in feelings of isolation

4924	ClemensCrossingE	HarpersChoiceMS	WildeLakeHS	1	3	9			The plan insufficiently addresses existing economic inequities between schools. Low income students are poorly served by concentration of poverty in certain schools. Districts should be drawn to create FARM attendance that is similar for all schools.	3	4	9		The prior plan's changes to AHS and feeders created greater FARM equity among schools. This draft plan preserves AHS by retaining economic inequities at other Columbia schools. Moving kids to River Hill attempts equity too late in a child's schooling.	All of the schools should look about the same in terms of economic status in Columbia. People should not feel justified in reaping all of the benefits of a diverse community without making each individual school reflective of the community as a whole.
4925		FollyQuarterMS		1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. 4974	WaverlyES			1	3	4	7	14	For us it would move my son to a much further away middle and high school. Also, we live within easy walking distance from his current high school district so it makes no sense to move him to one that is so much further away	3	4	7	14	Same as above. We are actually o.k. with our areas move from Waverly to St Johns since as most of our neighborhood already goes there and it is closer.	
4975	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization is higher through 2023: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher tru 2023 than Feasibility is a short term solution and cause need for redistricting AAC doesn't meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs 2 under Feasibility Low feed from FQ to RH
4976	ThunderHillES	DunloggінMS		1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
4977	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	2	The AAC plan didn't consider optimal plan for Polygon 147, but rather moved 147 out of CHS based on some biased suggestions. 147 is one of the closet Polygons to BMMS/CHS. Most middle/high school children in 147 walk or bike home big saving for HCPSS.	3	5	4	7	The AAC plan doesn't consider existing regional programs CHS has but WLHS doesn't, vice versa. The children in Polygon 147 will lose huge on these programs if they are redistricted.	Alternative plan: moving Polygon 1184 and 153 to MRHS is much reasonable because: (1) similar regional programs; (2) slightly boundary change within northern region only; (3) in accordance with 2013-2017 feasibility study plan.
4978			WildeLakeHS	1	3	6	9	13	The AAC impact to Wilde Lake is unacceptably huge. This AAC plan moves 40% of students from Wilde Lake. The areas that are moving in are not sensible. And this plan separates so many friends.	3	6	6	13	Atholton was negatively impacted in the feasibility study. It is not impacted anymore. Wilde Lake is disproportionally impacted now. That is unacceptable.	Please keep more of Harper's choice middle school together into Wilde Lake.
4979	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS		3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. 4990	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	3	4		3	5	4	6		
4991	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization is higher through 2023: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	AAC Utilization higher tru 2023 than Feasibility is a short term solution and cause need for redistricting AAC doesn't meet contiguous communities per 6010.IV.B.2.b. 6 high schools will feed into River Hill vs 2 under Feasibility Low feed from FQ to RH
4992	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	13	4	7	1190 is the only area in River Hill Village that doesn't go to a River Hill High. Please keep community continuity in mind. We are only a mile away from RHHS. My co-worker lives 10 mile away from RHHS gets moved to RHHS, they don't like it either.	3	7	6	4	The feasibility study has all the detailed analysis and is better for the county in general. The AAC draft plan doesn't have any metrics comparison like what's in feasibility study.	Keep the community together.
4993			HowardHS	1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High School. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for HS 13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard High. Walking to school is good for students health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of teen deaths.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds Howard HS. This proposed move does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
4994				1	3	6	7	4	I live in Pol. 154. While I do not a child in school, my 1 daughter was shifted to another middle school after 5th grade. The 1st 2 yrs of middle school were her worst academic & social yrs due to separation from her friends who did not transfer.	3	7	4	6	Changing HS would be far more difficult on the child due to activities and wants to be a part of the HS community with their friends from elementary and middle school.	
4995		MurrayHillMS	AtholtonHS	5	2	1	10	7		1	1	10	7		I feel that the Feasibility Study oversimplifies the issues with the Howard County Public Schools. It's recommendations are too far reaching. The real problem is that the county continues to allow development in crowded areas.
4996			AtholtonHS	5	1	1				1	6	7	2		
4997	CentennialLaneES	BurleighManorMS	CentennialHS	5	2	7	7	7	Thank you for maintaining a logical boundary line as Frederick Road.	1	7	7	7	Thank you for keeping community together and maintaining a logical boundary.	
4998			AtholtonHS	5	3	1	10	13		1	1	10	14		

4999	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	6	7	My son who has his hs within walking distance of less than 0.5 miles would be transferred 7 miles away to a hs. This was not part of the original plan. This creates a lot more traffic on an already busy rt. 99 which geographically does not make sense.	3	13	2	5		
5000	BushyParkES	GlenwoodMS	GlenelgHS	1	3	9	13	4	We prefer Bushy Park as it is a more diverse school than Lisbon. Commute wise it is worse for our family as it is further out of the way and would take longer to get to for pick up for after school activities (both parents work in DC).	3	9	7	11	The Feasibility Study Plan would keep our kids at Bushy Park which we prefer since it's more diverse. It keeps the kids with the friends they have known since they started Bushy Park.	We would really prefer our kids stay at Bushy Park. We prefer a more diverse school that is convenient location wise for our family.
5001	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	7	13	1	The move of students in polygons 1056, 1057, 56, 57, 3056, 2056 and 2057 from OMMS to Wilde Lake rather than Atholton (or staying at OMHS) leaves this neighborhood isolated from other students grouped to attend WLHS per AAC plan.	3	7	1		Per feasibility study, both OMMS and OMHS not operating at capacity, so WHY move students OUT of these schools? Feasibility Study move from OMHS to Atholton keeps students in 1056, 1057, 3056, 56, 57, 2056, 2057 grouped with neighboring" students better."	OK to move OMHS students in polygons 1056, 1057, 3056, 56, 57, 2056, 2057 to Atholton HS, due to the proximity of this school to the neighborhood (HW 29 NOT a real divider, due to a bridge with sidewalk), but not to WLHS where polygons stand alone"."
5002	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	13	My children can currently walk to St Johns Lane ES, but under this plan would go to Waverly ES, which would have them riding the bus for a long period of time, negatively impacting their commute. It also splits our very connected neighborhood in half.	3	4	7	13	Both plans move my children from walking to St Johns Lane ES to a long bus ride to Waverly ES. Both plans also split up our close-knit neighborhood along arbitrary lines, negatively affecting us all.	Not only would my kids go from walkers to bus-riders, but we will meet kids at the playground we can all walk to in our neighborhood, but they'll be going to totally different schools. It doesn't make sense and definitely impacts the community connection.
5003				1	3	6	4	7	Future resident of Maple Lawn S looking into HoCo. for the schools & ease of student commute to Fulton, Lime Kiln, & Reservoir. The proposed plan will separate my children from their community peers & complicate my families ability to access the schools.	3	6	4	7	Future resident of Maple Lawn S looking into HoCo. for the schools & ease of student commute to Fulton, Lime Kiln, & Reservoir. The proposed plan will separate my children from their community peers & complicate my families ability to access the schools.	Please take into account that Maple Lawn South is currently under development and I may be the only person voicing concerns for this future community. Please keep Maple Lawn South aligned with the schools directly across the street.
5004	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
5005			CentennialHS	1	3	4	2	7	There are four h.s. closer to our polygon than Mariott's Ridge. This plan makes no sense, esp. Since you've now taken the grey rock neighborhood out of the mix. This is the worst kind of gerrymandering.	3	4	6	7	This sounds like a desperate measure to fit a square peg in a riund hole.	
5006	AtholtonES			1	3	13	7	1	Having moved to Howard County just two years ago, we feel disappointed that the middle school our child is reassigned to is a lower performing MS. School selection was crucial in our decision to move to HC after 15 months of home searching.	3	13			AAC puts us in a worse performing High School.	
5007	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
5008		BurleighManorMS	CentennialHS	1	3	4	6	7	The re-districting of our neighborhood is nonsensical. There are neighborhoods further away from Centennial High, such as the Ellicott Mills area, that are not being relocated. Our neighborhood is ridiculously far from Marriotts Ridge.	3	4	7	6		There is a small amount rising high school students in our neighborhood. We just want to continue our Centennial legacy. There are parents in this neighborhood that are deeply involved in CHS through PTSA's. Please consider our Desire to continue this.
5009	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
5010	WaterlooES	EllicottMillsMS	CentennialHS	3	1	1	12	14		3	7	12	14	Current plan creates a longer, thinner attendance area for Waterloo Elementary compared to the Staff Plan. Current plan makes the Centennial High School attendance area into almost 2 distinct areas compared to the Staff Plan that maintains continuity.	
5011	StJohnsLaneES	PatapscoMS		1	3	7	4	12	When I moved to Howard County, the quality of the zoned school was a significant factor impacting my house choice. Make new developments cover the actual cost of each new student they contribute to the school system. And update your calculations!!!	2					
5012		EllicottMillsMS		1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygon 5, 05, and 05 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5013	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	4	7		3	13	4	7		
5014	ThunderHillES			1	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5015	CentennialLaneES	BurleighManorMS	CentennialHS	5	2	7	4	6		1	6	4	7		
5016		BurleighManorMS	CentennialHS	1	3	13	13	13	We are much closer to the current schools and then proposed new schools. Also paying 60% of property tax for maintaining quality education in these schools.	3	13	13	13	Distance from community to new schools is more and the schools are not contagious or near us. This change does not address any real over-crowd and equity issues as what is intended	We paid big money for the new houses in this new neighborhood for the schools, and immoderately moving us to much worse schools would hurt our community and property values in ways no other communities would see
5017			HowardHS	1	3	3	4	4	Polygons 65, 1065 and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygon 5, 05, and 05 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5018	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	13	6	We moved here from Baltimore City specifically for the schools. We chose our home based on the rating of the schools our girls would go to. We are also concerned that the redistricting could effect the value of our home.	3	9	6	4	It would be extremely difficult for my children to go through elementary and middle school with a group of students to then be divided to a different high school. Dunloggin is such a diverse community in terms of age that this plan would have no effect.	
5019	VeteransES	EllicottMillsMS	CentennialHS	1	3	7	13	4	Both Autumn Rust Road and Brittany Drive will now have 2 separate school buses driving to 2 different schools at the same time. This is both a safety and a traffic issue. Sending neighborhood children to different schools does not strengthen a community.	3	7	13	4	Both Autumn Rust Road and Brittany Drive will now have 2 separate school buses driving to 2 different schools at the same time. This is both a safety and a traffic issue. Sending neighborhood children to different schools does not strengthen a community.	Thank you for the consideration on the request to keep our schools the same. The street's parents have run the last 2 years of major school events including the end of the year picnic.
5020	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	1	4	6	In this AAC plan RHHS will be the highest capacity in all of HC at 108%. It will overcrowd our High school in one year.	3	1	7	10	The Feasibility study is better. It draws 600 students from one high school into RHHS. The students remain and maintain relationships without as much disruption. Transportation comes from the same areas and transportation times will be lower.	I am totally against the AAC draft plan due to the above reasons. HCPSS should maintain standards for their current policies. You are looking at HS start times for this HS population. Transporting students from six different high schools into RHHS is not.
5021	FultonES	HammondMS	ReservoirHS	5	2	11				2	14				
5022	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	1	6	7	Currently students are not attending RHHS even though they live nearby. Too much movement from distant schools. RHHS would be at 108%, which will be more than any other HS in Howard Co.	3	3	1	4	AAC plan s a horrible plan that negatively affects the current students only to increase tax revenues by overcrowding east HoCo. Students will have to get up very early to travel negatively impact learning. It puts RHHS capacity more than max allowed.	This whole thing needs to be delayed and further studied.
5023															
5024	GormanCrossingES			5	2	1				1	1	10	9	AAC plan is superior to feasibility. In addition it solves overcrowding by moving fewer students and preserves Atholton high school	We want to modify it to reunite Emerson community. In addition polygons 272 and 1272 was unnecessarily split by redistricting. They should be remedied we want our community to be integrated.
5025			HowardHS		3	5	4	7		3	2	5	7		
5026	BellowsSpringES	MayfieldWoodsMS		1	3	6	8	8	Under ACC draft plan, my middle school child will change to a new school for his last year in middle school. And he will go to a different HS than his new friends the following year. I think it's important for kids to have as much continuity as possible.	2	6	7	10	They are equally unappealing.	I think the board should give appropriate consideration to factors that affect student development during these formative years. It's critical for kids to have a solid base in an environment that fosters continuity as they progress through these years.
5027	WestFriendshipES			1	3	4	3		The ACC plan has Pbrygin 224 moving Elementary schools as well as middle and high. I can understand the plan to move Elementary schools as it's only another 4ish miles but MVMS and MRHS and only 1 mile from where we live. T	3	4	5	7	If I have to choose one the feasibility study has our kids coming back to the middle and high school that is only one mile from our house. The amount of time spent traveling will be less and allow them to go to the school in their community.	
5028	NorthfieldES	DunloggінMS	CentennialHS	1	3	7			I see no reason to split a well established neighborhood into two groups, Wild Lake is crowded and with planned growth it will be even more crowded, and Wild Lake will require twice the travel time and put more teen drivers on Route 29.	3	7	4			I see no future plans to help ease school crowding, this looks like a band aid and we will be going through this again soon. With the planned growth for the Columbia area Wild Lake will be the most affected. Come up with a plan that will work long term.
5029	CentennialLaneES			1	3	4	6	8	We bought a new house paying very high price to be in CLES from Bellows springs ES because this region has better schools. It is unfair to redistricting now. My son will lose his friends	3	2	13	1	My son is Asian American heritage. He has a tough time making friends. By moving just our community he looses all his friends. It makes going to school so much harder.	When we moved in an Year ago, the county knew the number of homes approved and should have allocated to proper schools. It is very unfair to redistricting us after we have purchased a new house.
5030				5	2	14				1	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.
5031	WestFriendshipES			2	3	4	3		Objectively I can understand the relocation of poly 224 to BPES as WFES is across rt 70, however both MVMS and Marriotts ridge are 0.5 miles from poly 224 and same side of 70. This will add significant travel time for my family	3	4	13		House is 0.5 miles from MVMS and MRHS. My kids could walk to school if they wanted to. Pushing us out will cause my kids to get up earlier and get home later for no apparent reason as both school are at similiar capacity.	AAC draft places WFES at 113% capacity- school seems small for current capacity (parking, drop off, etc). If there is no other solution this will likely require infrastructure upgrades
5032	WaverlyES	PatapscoMS		1	3	7	8	4	The AAC draft plan breaks neighborhoods into pieces & causes children to lose sense of belonging to a community. The same neighborhoods as last redistricting are being impacted again. Gather stats on # of times each polygon has been redistricted	2	7	4	8	Shifting children to a different school 20 mins. from home when they live with in walking distance of a school breaks common sense. The draft plan has many high schools on the edge of their area rather then in the center.	Redistricting every few years has not solved the problem of capacity. Its analogous to a military life of moving every 3 years and being forced to change schools, being the new kid. How many ES, MS and HS should a child have to attend? One!
5033	NorthfieldES	DunloggінMS		2	3	7	4	6	We would prefer to stay at Centennial HS as it was a significant aspect of our selecting this neighborhood.	3	7	4	6	Zoning Dunloggin for WLHS only serves to move the overcrowding of CHS to WLHS and does not sufficiently account for Columbia Town Center development.	
5034			CentennialHS	1	3	7	4	6	The AAC draft plan would increase the frequency with which any one student is re-assigned (Policy IV.B.2.c)	3	7	4	6	The AAC draft plan would increase the frequency with which any one student is re-assigned (Policy IV.B.2.c)	
5035	ThunderHillES	EllicottMillsMS	HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5036	CentennialLaneES			1	3	1	4	6	While we are encouraging kids to walk and bike. You are moving the kids far away to a school where they have to cross major traffic. County should seriously reconsider their priority. Having elementary school kids go four miles.	3	1	4	13	My son joined programs including Its academic and he reached the regional finals. All his potential will be waisted. He is a bright kid. Moving him to Wilde lake is a cruel joke.	Howard county prides itself in focusing so much on children's education. How is moving a deserving child from centennial to Wilde lake correct?In this economy where parents take so much trouble to give the best to the children, county must not punish kids

5037	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Wish to keep schools together to keep the feel of community. Please keep together polygons 3176,176,1183,183,180,181,1180,1182,2182,2183,1182,182. *agree w AAC plan to keep 202,203,199,1199 to attend RHHS *put 190 with 1129,1190,64,1064, 129 at RHHS	3	6	7	4	Small feed of FQMS is not supportive for our children who attend RHHS. Please keep current 2016 attendance area the same for the future plan. Students and families want a sense of community/support. Please see above polygons.	Keep FQ together- see above polygons. Look at Feasibility Study 190, 1190, 1129, 1064, 129, 64 could be potential walkers to RHHS. Do not agree with bus time for students all the way from Cedar Lane polygons in the AAC draft. WLHS and AHS much closer.
5038	ClarksvilleES			1	3	7				3	7					
5039	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	6	5		3	4	6	5			
5040	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	5	2	4	The AAC plan didn't consider the regional programs at CHS and transportation issue kids in Polygon 147 will be put in at all three school level. These kids and families already built a strong relationships at schools through unique programs and PTA.	3	5	4	2	The AAC plan causes disaster damages to families in Polygon 147, which includes not only long history historical families on Oak Hill Dr and Woodland rd , and newly built Centennial Overlook. We are a well-embedded centennial neighborhood.	We are one of the closest polygons to BMMS and CHS. By keep 147 in original school district, all three schools have under 115% capacity. In the original feasibility plan, CLES and BMMS were both kept as original. I don't understand why AAC kicked 147 out.
5041		BurleighManorMS	CentennialHS	1	3	13	4	7	My family will be in worse circumstances with this change. We just moved a year ago and kids finally adjusted to new schools. I will take huge financial, emotional and kids education loss.whole community will fall apart.	3	7	8	4	My daughter rides bike to school. She wont be able to ride bike to school. Maryland is green state and promotes clean environment. We have only 10 high school kids they will be separated from their friends and will not be able to adjust in new school.	Please keep 147 polygon centennial overlook in Burleigh manor Centennial high schools. I will never send my kids to new school. that means i have to sell my house and move again.
5042	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	6	5		3	4	5	6			
5043	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	12	Too many neighborhoods disrupted. E.g. Dunloggin, a clearly defined, historical, geographical area in Ellicott City, whose students have all attended NES, DMS, and CHS for over 40 years, now dismembered with significant fraction assigned to another HS.	3	4	1	12	Significant increase in commute time, expense and effort for Dunloggin neighborhood students, whose 2.3 mile avg distance to CHS increases to 4.3 miles to WLHS. No longer possible to bicycle, and decreased safety due to increased congestion in Columbia	Character and unity of neighborhoods is vital to their health, and depends strongly on schools! Keep students in schools that are close in proximity and part of their community, and not wildly distant and unfamiliar.
5044	CentennialLaneES			1	3	13	5	13	Every child should have the opportunity to go the best school. When a parent tries so hard to do this, the county should support it. Not punish them by sending people to bad schools.	3	13	13	13	Students should have to move so often. The county knows we just purchased a new home and recently moved from their old school. To farce a change again is unfair.	CLES provides my son with lots of opportunities like orchestra, its academic. Chorus. Moving my child to another school in elementary will mess up things and the child will be forced to relearn. This will force children to not follow their dreams.
5045		FollyQuarterMS		3	6	7	13		Comment Box #1: Current feed from Folly to River Hill is approx. 34%. Under AAC feed will drop to approx. 14-16% not meeting standard of 6010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	Comment Box #2: AAC Utilization: Atholton 111.6%, River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106%	Comment Box #3: AAC Utilization higher thru 2023 than Feasibility AAC does not meet contiguous communities per 6010.IV.B.2.b. Keep 147 in current schools (CLES, BMMS, CHS), and move 1184 zone to Marriotts Ridge HS
5070	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	9	8	2	Draft plan breaks centennial community, moves147 new community members within 1yr, lacks better utilization plans	3	7	5	9	Draft plan breaks centennial community, new schools dont have similar programs as current ones for 147, does not promote diversity	Hold of redistricting until APFO rehaul is formalized. If redistricting inevitable, consider moving 97 kids to Waverly, Mount View and Marriotts ridge to keep centennial community together
5071		BurleighManorMS	CentennialHS	1	3	1	2	4	Keep 147 in current schools (CLES, BMMS, CHS), and move 1184 zone to Marriotts Ridge HS	3	9	13	6	Keep 147 in current schools(CLES, BMMS, CHS), and move 1173 and 2173 to Marriott's Ridge HS Keep 147 in current schools (CLES, BMMS, CHS), and move 2150 to Wilde Lake HS	Keep 147 in Centennial Lane ES, Burleigh Manor MS, and Centennial HS Keep 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS.
5072			RiverHillHS	5	1	3	10	9	RHHS needs to be utilized more - 82% is too low	3	1					
5073	NorthfieldES	DunloggінMS	WildeLakeHS		1	6	7	14	I do like the aac plan in that a larger number of students from dunloggin ms are bussed to wilde lake hs. Previously only 8% of wilde lake students were from dunloggin. Still not happy with longer commute to wilde lake hs than to centennial hs.	1	6			My neighborhood is zoned to wilde lake hs despite being much closer to centennial. The aac plan is a better scenario because a larger number of my child's middle school will feed into wilde lake hs.	
5074	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6			3	7	6				
5075	CentennialLaneES	BurleighManorMS		1	3	4	13	8	Current schools are closer to my house and no traffic even .busy hours. New plan will impact kids emotionally as it separates the kids from closer community.	3	13	4	7			
5076	NorthfieldES	DunloggінMS	CentennialHS	1		7	6			3	7	6				
5077	ClarksvilleES		RiverHillHS	1	3	9	3	7	It is a foolish idea to take the worst performing schools in the county and try to make those students perform at par with one of the best performing schools in the country. Barring socioeconomic factors, this puts both groups at a severe disadvantage.	3	9	6	4			
5078	IlchesterES	BonnieBranchMS	HowardHS	5	1	6	3	2		1	10	6	1	Polygons 95, 1095, 2095, and 84 strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES. The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school.	The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.
5079			RiverHillHS	1	3	7	14			3	14					
5080	TriadelphiaRidgeES			1	3	4			I still believe this plan has severe problems with regards to transportation and proximity of school assignments. Why send students to a different school multiple miles away when they can actually see their current school from their house or neighborhood?	1	4			At least this plan doesn't have Dayton Oaks ES and Triadelphia Ridge ES essentially swapping students...	Consider allowing existing students to graduate from their current school as long as they provide their own transportation. Newly enrolled students would go to the redistricted schools. This would phase in the changes and keep current students together.
5081	NorthfieldES	DunloggінMS	CentennialHS	1	7	6	4			3	8	13	4			
5082	GormanCrossingES			1	3	1	7	9								
5083	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	3	5		3						
5084	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4				3	2					

5085	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	3	4	It looks like because Polygon 1184 has some insider support in AAC, they successfully threw Polygon 147 out of CHS. It is so ridiculous that the reason 1184 claimed also applies to 174. According to Policy 6010, there is no definition of neighborhood.	3	7	5	4	It looks like because Polygon 1184 has some insider support in AAC, they successfully threw Polygon 147 out of CHS. It is so ridiculous that the reason 1184 claimed also applies to 174.	According to Policy 6010, there is no definition of neighborhood. According to distance and within region adjustment II.e., north region), 147 has sufficient reason to stay than at least half of polygons in CHS. No adjustment for 147 in feasibility plan.
5086	AtholtonES	HammondMS	HammondHS	1	3	4	7		The new WLHS island created by the AAC plan connects only at the corner with a polygon that contains Symphony Woods and Merriweather. Areas without any housing or students. Should plans to build occur, it would be many many years away, not soon enough to	3	7				Assist those students who will be isolated geographically from their peers. The students in Alview and MacGills Common should either remain at their current middle and high schools or move to nearby Atholton High School.
5087	IlchesterES	BonnieBranchMS		5	1	6	4	7	The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school. The AAC Draft plan improves the feeds from elementary to middle and from middle to high school within the northeast schools.	1				The AAC Draft plan moves fewer students than the feasibility study throughout the whole county and reduces disruption. The AAC plan does utilize capacity in the west, but reduces the domino effect of moving polygons west.	The Montgomery Meadows polygon numbers are 95, 1095, 2095, and 84. These polygons strongly support the AAC plan for the northeast portion, including HHS, BBMS, and IES.
5088			MarriottsRidgeHS	1	3	13	6		This would move a number of students already settled into their schools at a time in their lives where they are most vulnerable. Plan horribly inconsiderate of students who would have to move mid-schooling and therefore disrupt their education!	3	13				Please don't do this!! You're ruining lives!!!
5089	PointersRunES			1	3	6	7	14		3	6	7	1		
5090	ThunderHillES	DunloggінMS	WildeLakeHS		1	6	7	9	I like our neighborhood being included with the thunder hill community and moving with them to middle school and high school.	1	6	7	9		
5091	CentennialLaneES	ClarksvilleMS		1	3	2			please leave 147 in centennial high school. we are one coommunity.	3	2			not reasonable in community construction and distance.	
5092	DeepRunES	MayfieldWoodsMS	LongReachHS	3	2	11	11	11		1	12	12	12		
5093		BonnieBranchMS		5	1	6	7	14	The AAC Draft plan improves the feeds from elementary-middle and middle-high school. It keeps strong feeds within the northeast schools. This plan makes better use of the school utilization/reduces overcrowding in the northeast until schools are built.	1	4	6	14	The AAC Draft plan keeps our neighborhood going to Howard, which is within walking distance and less than a mile from the school. It reduces the distance traveled to school.	The Montgomery Meadows polygon numbers (95, 1095, 2095, 84). We strongly support the AAC plan for the NE portion-HHS, BBMS, and IES. The AAC Draft plan improves the feeds from elementary-middle and middle-high. It keeps strong feeds in the NE schools.
5094				4	2	6	12	14		1					
5095	WaterlooES	PatapscoMS	MtHebronHS	5	1	6	14	14	I like how the new plan would keep my kids together with their emelentary school friends through high school. Previously our children would have to separate with their elementary school friends after 5th grade and make new friends for 6-12th grade.	2	6	14	14	The study and the AAC draft would both keep our children tracking with the same kids from kindergarten-12. Our current track does not, which I hate. The AAC draft and Feasibility study have us at different schools but still keeping together from k-12.	Please just keep our children tracking with the same children from k-12. Both the study and draft do this with totally different schools while our current situation does not. Either plan is good for us!
5096	NorthfieldES	DunloggінMS	CentennialHS	5	3	7	6	1	Is there a way to move Polygon 97 into either Mt Hebron or MtHS? It is almost an even swap (numbers wise) for the rest of Dunloggin (122 vs 96 in P97). It would move MtHS from 95.7% to 102% capacity. If MtHHS were chosen, it would move them ~106%	3	2	6	4		My suggestion above is to keep communities together. MtHHS is still a far distance for Polygon 97, so ideally Mt. Hebron could work.
5097				1	3	4	7								We just moved to MD so don't know all the history, but noticed the plan would significantly increase transportation time and safety risk and separate kids in the same community. This is detrimental to our kids safety and social development.
5098			HowardHS	5	1	4	2	5		1	6	1	9		
5099	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	2	3	Plan breaks centennial community by moving 147 out (oak hall, woodland rd), columbia schools are self sufficient no need to move kids from EC, adds operational costs to shrinking county budget	3	9	7	2	alters diversity in old and new schools for 147, breaks centennial community,	no changes until APFO implemented, 147 stays, suggest moving 97 to waverly, mount view and marriotts ridge
5100	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	2	4	we are only .9miles away from centennial lane schools. why dont u change 2 miles or above comunty to different school	3	10	13	9	Keep 147 in Centennial Lane ES, Burleigh Manor MS, and Centennial HS Keep 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS.	Keep 147 in current schools(CLES, BMMS, CHS), and move 1173 and 2173 to Marriott's Ridge HS.Keep 147 in current schools (CLES, BMMS, CHS), and move 2150 to Wilde Lake HS. Keep 147 in current schools (CLES, BMMS, CHS), and move 1184 zone to Marriotts Ridge
5101		BurleighManorMS		3	7	6	4		I do not favor the implementation of the AAC plan because it will force my child to attend a school that is inconveniently far. Additionally, we were originally in the centennial district, and would like our child to attend the same school as his sibling.	3	7	13			
5102	HammondES	HammondMS	AtholtonHS	5	1	10	1		Preserving the atholton award winning robotics team which is student run and parent supported. The school is a model for the county in academic performance with balanced diversity.	1	1	10		The feasibility study moved 67 percent of atholton students and supporting parents. Many of the students have been moved multiple times.	
5103	NorthfieldES	BurleighManorMS	CentennialHS	1	3	7	9	5	It is going o cause great damage to our community bonding, connection, and stability.	3	4	6	13		
5104	DaytonOaksES	LimeKilnMS	RiverHillHS	1	2	6	4	13	We are at the very far edge of Lime Kiln MS district and want to be redistricted to either Clarksville MS or Folly Quarter in order to stay with kids we are in elementary school with, and to avoid long bus rides and commutes to all school activities.	2	14	14	14		
5105	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	13	6	7	Current feed from FQMS to RHHS is 33% AAC plan drops us to 14% No support for Children.	3	4	6	7	Keep our community together-180,181,1180,3176,176,183.1183,3182,2182,2183,1182,182 Neither plan keeps our feed together yet our high school (RHHS) is under capacity. If adding capacity, look to add more walkers to RHHS from more River Hill/Pheasent Ridge	Make initial moves at the ES level for 2018 and don't make any adjustments at under capacity HS students until need be. Making moves in Elem first and "phase in" middle and high school moves over the next several years. This will help ease adjustments.
5106	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	10			1	1	10	5	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS.	
5107	BellowsSpringES	BurleighManorMS	CentennialHS	1	3	4	6	3	The AAC draft plan break the community. Interrupt the continuity of our children's education, and increases the operational cost of HCPSS.	3	3	1	4	Feasibility Study takes the integrity of the established neighborhood into consideration while AAC draft plan break it.	
5108			CentennialHS	1	3	7	4	6	Safety is a concern as HS student driving and bus route would route the children onto Rte 29 for several miles to/from high school, or onto Rte 108 with left turn at no stop light/stop sign Eliots Oak intersection if the back way is followed (& past CHS).	3	7	6	4	This plan essentially divides the Dunloggin neighborhood, one of the oldest established, and historically close knit communities by sending part of the students to Centennial HS, and another part to Wilde Lake HS.	The Dunloggin neighborhood is characterized by close knit community involvement of family & children (clubs, troops, sport teams, pool). The community unity is reinforced by the consistency of the schools at each level. Dividing the HS divides Dunloggin.
5109			RiverHillHS	1	3	6	7	13	Current feed from Folly Quarter is approx 34%.Under AAC feed will drop to approx 14-16% not meeting standard of 3010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%. River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106% AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting .	ACC does not meet contiguous communities per 3010.IV.B.2.b. 6 high schools will feed into River Hill vs 2 under Feasibility. ACC and Feasibility are unacceptably low from Folly Quarter to River Hill, 11% to approx.16%. Results in feelings of isolation
5110	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	7	6	4	By redistricting polygon 1189 from Points run ES to Dayton Oaks ES, it divides the River Hill/Clarksville community, separates kids from their neighborhood friends, and drastically increase commute time of both school buses and parents.	3	6	7	4		Overcrowding should be addressed by minimizing the numbers of students moved to avoid disruption to students and communities. Redistricting at such a large scale as proposed would also violate the rights of the parents to choose the schools for their kid
5111	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	4	7	1. Work with Wilde Lake, River Hall, Atholton to scale back the move from WL to RH, move more of AT to RH to fill up the RH vacancy; and move 147 back to CHS. 2. Move some other parts (1184, 97+1155, or 1173+2173) of CHS to Marriott's Ridge.	3	9	13	4	147 back to CHS; 3. Move some additional parts (e.g.,2150) of CHS to WL, and 147 back to CHS; 4. Move more of Marriott's Ridge to RH, and more CHS to MR, and 147 back.	we are only .9miles away. in centennial overlook phase 1only 15 kids go. atleast let them stay. if busses are issue we can drop by car.
5112		PatapscoMS		1	3	7	4	8	This plan would bus my child to a middle school that is much further away than his current school and shift him away from classmates that neighbors. Our current high school is 2 blocks away, a 7 minute walk from our home. New plan buses him 5 miles away	3	7	6	8		It is inconcevable to break up neighborhoods and classmates from one year to the next.
5113			RiverHillHS	1	3	6	7	13	Current feed from Folly Quarter is approx 34%.Under AAC feed will drop to approx 14-16% not meeting standard of 3010 IV.B.2.a. This provides little to no support for children entering high school for the first time.	3	6	7	13	AAC Utilization: Atholton 111.6%. River Hill 110.4%, Wilde Lake 114.7% Feasibility: Atholton 100.3%, River Hill 105%, Wilde Lake 106% AAC Utilization higher thru 2023 than Feasibility is a short term solution and cause need for redistricting .	ACC does not meet contiguous communities per 3010.IV.B.2.b. 6 high schools will feed into River Hill vs 2 under Feasibility. 5117	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	4	Increase transportation cost by taking the neighboring (literally next to school) kids to a school that is 10 miles away.	3	2	3	13	Broke apart communities by separating kids in the same community to different schools.	There is no transparency on how the decision was made.
5118	NorthfieldES	DunloggінMS	CentennialHS		3	4	6	10		3	4	6	9		
5119															
5120	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	1	4	Do not split the Dunloggin Community. This neighborhood has always gone to the same school!! Why send these kids to WLHS when there are kids further from CHS staying at CHS. Move Polygons 1100 and 100 to WLHS and leave 150, 4150, 1150 and 219 at CHS	3	7	4	1	The draft plan puts back together Grey Rock and Font Hill to keep established neighborhoods together, but then splits Dunloggin. Dunloggin ahs NEVER been split. Grey Rock was split before so it's not new. WLHS is too far form Polygon 150!!	SLOW DOWN!! Why are we doing HSs now when there may be a new HS in a few years? Wait for that to be built. The county decided to spend millions to push back HS start times, but is now sending kids further away on the bus. That makes no sense!
5121	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	2	4	please let 147 stay. do not move us to wildlake schools. please this will be 3rd time my kids will be changing school.	3	7	13	13	you guys had meeting in june and july and it was fine 147 and all of sudden u guys made that change and u guys didnt even think people lives .9 miles change them is ok and not those people who lives 4 miles away.	its like u just picked us for no reason or because we all are Asian and we are new community.
5122			CentennialHS	1	3	7	9	6	The plan draws a strong blow to the integrity, strength, and core values of existing communities. Achieving the higher academic level is only possible by having the school as an integral part of the community. Proximity of school-home is a requirement.	2	7	4	9	Both plan and study, if implemented, will contribute immensely to the decline in quality of education and community life. These plans are destructing the very essence of the region, the exact qualities that made the area what it is today will be lost.	The solution is not redistricting and chaining school boundaries. It is to build another HS. Established, good communities value the well-being of every student and help with achieving academic excellence by maintaining a supportive environment.
5123	PointersRunES	LimeKilnMS		5		1	2			1	6	7			
5124	ClarksvilleES			5	3	4	2	3		3	2	1	2		
5125	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	3		3	7	2	4	The AAC draft plan is far from mature in that they didn't consider contiguous and well-established communities like Dunloggin, Wilde Lake, and Centennial.	I suggest postponing redistricting, and focus on (1) building new elementary, middle, and high school first; (2) refining more strict APFO to avoid over-development. The AAC draft plan will cause another redistricting within 5 years based on numbers.
5126	DeepRunES	MayfieldWoodsMS	LongReachHS	1	3	6	7	9		3	13				
5127	CentennialLaneES			1	3	7	9	4	AAC DRAFT PLAN IS NOT UPTO THE MARK..To be frank, AAC draft plan is drafted by amateurs, not knowing the demographics,Proximities and psychological impacts of attending students	3	4	6	9		

5128		BurleighManorMS	CentennialHS	1	3	1	13	2	dont move us 147 we are only .9 miles away.	3	13	4	7	please help us and let our kids be tention free and dont send them to "wildraper" school. thats the nickname people called who lives there. no crimes are in this area u bringing low income people will start doing that. thats what happen in columbia. longre	15 of you guys are somebody parents so doing this will be dad impact on our comunity. people will end up selling these house and lower encomy people will buy these house and hole centennial neighbourhood will turn bad this is long down fall.
5129			MtHebronHS	1	3	2	6	8		3	7	6	8		
5130	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	7	13	keep 176,3176,180,181,1180,3182,183,1183,2183,1182,182 together. Current attendance area does, AAC draft does not.	3	6	7	4	Liked that AAC draft included polygons 180,181,1181 in RHHS. .include more polygons from FQ to RHHS AAC draft did not include 1129,1190 64 to attend RHHS. They are close proximity to school. AAC draft has 172,1172, and more that are closer to WL/AH	possible 6 HS feed into RHHS vs 2 under feasibility. No sense of a community with that many HS feeding in. Grandfather in all current RHHS students (and other HS students in same situation)
5131					3				would like to see the data(student projections) used to determine the AAC draft plan...Is it public information... for Centennial and Wilde Lake HS.	3					.why is the Saint Johns community (150, 1150, 4150) that has been in the Centennial HS for about 6 decades divided/split up to Wilde Lake HS where as newer community to the East of 29 are still part of the CHS district??? Please explains the reasoning.
5132			RiverHillHS	5	3	4	7		Please publish the numbers of students moving in the AAC draft plan like you did with the feasibility study.	1	12				
5133	PointersRunES			2	1	7	6	1	We live in Clarksville Hunt community and many of our friends are in Clarksville area too. PRES, Clarksville MS and River Hill HS were the schools when we bought our house. So it is good to get back to Clarksville MS in this plan with PRES friends.	3	7	6	13	We live in Clarksville Hunt community, has Clarksville zip code and many of our friends are in Clarksville area too. PRES, Clarksville MS and River Hill HS were the schools when we bought our house. Feasibility study allow us to return to these schools.	We want to be assigned to a high school most Clarksville Middle school students in Clarksville area will attend. Happy to see both plans return us to Clarksville Middle School, which is the closest.
5134	ManorWoodsES			5	2	7	6			1	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 170, by eliminating the small feed proposed for our children in the feasibility study.	I strongly oppose the feasibility study and believe it is will negatively impact the children in my community.
5135	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	8	13	The current plan separate kids in our neighborhoods from their friends in our surrounding community.	3	4	6	8	My children will have to travel further for school increasing transportation costs.	Please keep polygon 147 in Centennial Schools.
5136	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	2	9	This plan moves 147 out and breaks their historic centennial area (oak hall drive, woodland rd) doesnt use capacity in north rt 40, skews diversity at cles	3	7	2	4	Sets precedence for additional centennial polygons for moving to columbia in future, disturbs balance in EC and columbia, adds safety concerns for 147 kids moving on crowded 108rte 4 miles away	Keep 147 in centennial, move ploygons morth of r40 to st johns/ waverly. Move 97 to mount view and marriotts ridge
5137	ThunderHillES	OaklandMillsMS	OaklandMillsHS	3	3	6	9	7	Great to see Thunder Hill (151, 1151) kept at OMHS. We would like Allview kept there too (56, 1056, 2056, and 3056). Folks now living in OM district are committed to stable support of school with high FARM school. Keep them around.	1	9	7	6	For Thunder Hill neighborhood (151, 1151), the AAC draft plan is MUCH better than the Feasibility Study.	Thank you, Ms. Kamen, Mr. Rogers, and AAC folks, for your work on this!
5138	WaverlyES			5	2	14	14	14		1	14	14	14		
5139	WaverlyES			4	2	6	14	14		1	8	13	14		
5140			AtholtonHS	5	2					1	1	10		Reunites Emerson community. It moves far fewer students.	
5141	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	3	6	9	7	I think the AAC plan destroys Wilde Lake. Moving the Clemons kids, Hobbits Glen and the million $ homes on and across Route 108 takes away many of the GT students, athletes, and support. Also, WL already has one of the highest FARM rates in the County	3	6	9	7	The feasibility plan of moving the Clemons kids to Atholton made sense since they probably should have been at atholton to begin with. Trading the single family clemons kids for single family thunder hill also made sense from a social economic standpoint	
5142			HammondHS	1	3	6	4	7	The AAC draft plan would be disruptive to my daughter as she would be placed in a school well beyond her current community and separate and apart from her general peer group. Stability and continuity are of significant importance to high school students.	3	6	4	7	The AAC draft plan would be disruptive to my daughter as she would be placed in a school well beyond her current community and separate and apart from her general peer group. Stability and continuity are of significant importance to high school students.	If redistricting must occur, we would be supportive of a shift from Hammond to Atholton HS as both schools are located in our community and the likelihood of keeping general peer groups together is significantly increased.
5143			AtholtonHS	5	1	1	10		Thank you for keeping Atholton High School as is. The performance of this school in academics and extracurricular activities with the current student demographics must stay as is and become a model for other schools.	1	1	10		The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders. LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team?
5144	NorthfieldES			1	3	7	4	2	We oppose the proposal in the strongest terms. It splits our neighborhood in half, sends our children to a school much farther away (in a much less accessible area), and simply ignores future developments (growth areas, the construction of new schools).	3	7	4	2		The entire proposal should be tabled in order to take into account the obvious growth (and new school construction) in several areas of the county, which will necessitate redoing this redistricting project in the near future regardless of the outcome.
5145			HowardHS	5	1	3	7	14		1	4	6			Polygon 95 strongly supports the AAC draft plan for the northeast portion of our county.
5146	IlchesterES			5	1	7	3		Strong support for the AAC draft plan due to our proximity to Howard, county transportation costs, better school utilization, reduction of number of students moved over feasibility plan, and keeping neighborhoods together.	1	5			Strong support for the AAC draft plan due to our proximity to Howard, county transportation costs, better school utilization, reduction of number of students moved over feasibility plan, and keeping neighborhoods together.	
5147	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	3		2	3	4	7		
5148	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	2	7	6	Current school attendance areas are what everyone can accept. Any plan without a new school is just a short term solution, and causes endless controversy.	3	2	8	6	Both of them are trying to balance the utilizations of school capacity from only one simple perspective, i.e., enrollment projection and capacity. Other perspectives should be considered such as academic quality of schools, commuting to school, etc.	Consequences of redistricting will be assumed by many children and their parents. It is certain that a new school is needed in the east of Howard County. Please build one first and then plan the redistricting.
5149	PointersRunES	ClarksvilleMS	RiverHillHS		3	7	6	4	People are born equal does not mean to leverage the diversity through punishing the people who is working hard and spent lot of money for their kid's better education out of loop they deserved, e.g. Centennial Overlook.	3	7	6	4	This is USA. People choose their community for their kids' better education. Leverage the difference through redraw the school district is against the USA values. Why not propose to mix Harvard University with Howard University to leverage the education!	
5150	CentennialLaneES	BurleighManorMS		1	3	8	13	4	Keep Polygon 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS. This reduces utilization at CHS by using existing capacity at MRHS and same time improves diversity.	3	13	4	8	Keep Polygon 147 in current schools(CLES, BMMS, CHS), and move 97 and 1155 to Marriott's Ridge HS. This reduces utilization at CHS by using existing capacity at MRHS and same time improves diversity.	The utilization for Centennial Lane ES is 114% (Green status) for 2017 and 2022 resp. per Feasibility Study. So keep Centennial communities as is since utilization is not an issue. Note that racial diversity for South Asian to be impacted under AAC plan.
5151	CentennialLaneES	BurleighManorMS		1	3	13	4	7	Revert back to Feasibility Study proposal to move 140 students living in zones 268, 1268, 2268 from Bryant Wood ES to Longfellow ES. Both communities are Columbia based and these regions will appreciate the geographical proximity.	3				Revert back to Feasibility Study proposal to move 140 students living in zones 268, 1268, 2268 from Bryant Wood ES to Longfellow ES. Both communities are Columbia based and these regions will appreciate the geographical proximity.	The utilization for Centennial Lane ES is 114% (Green status) for 2017 and 2022 resp. per Feasibility Study. So keep Centennial communities as is since utilization is not an issue. Note that racial diversity for South Asian to be impacted under AAC plan.
5152	PointersRunES	LimeKilnMS	AtholtonHS	3	1	6	4	1		3	6	1		Our 160-home community is part of Clarksville since its inception nearly 20 years ago. Most of my kid's elementary school classmates for 6 years will attend Clarksville Middle and River Hill High.	It's very troubling that kids in our community has to break that bound and go to a different middle and high school.
5153			CentennialHS	1	3	7	4	5	The AAC draft plan has polygon 150 moving from Centennial HS to Wilde Lake HS. This change significantly increases the distance between home and school, and eliminates the safe opportunity for bicycling to school as it requires crossing Route 108.	3	7	4	5	The Feasibility Study leaves polygon 150 assigned to Centennial HS which allows these students the safe opportunity to bicycle to school. When a student has the freedom to safely bicycle to and from school, it creates freedom and empowerment.	Quotation from H. G. Wells: Every time I see an adult on a bicycle
5154	VeteransES			2	3	13			My daughter just finished kindergarten and we love YES. I am sure Worthington is a good school, but we like where we are and do not want to change any of the schools our kids would attend.	3	13				I'd like to know where the site of the proposed new HS#13 will be.
5155		BurleighManorMS	MarriottsRidgeHS		3	6	7	2		3	5	11	14		
5156	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13				3				It has not been taken into consideration that good schools who have maintained 10/10 ratings will lose their acadmeic excellence . We are being charged such high property taxes to stay in these good school areas.	
5157	PointersRunES		AtholtonHS	1	3	13			THIS PLAN IS NOT WELL THOUGHT OUT. IT COMPLETLY IGNORES THE IMPACTS OF SUCH DRASTIC CHANGES IN OUR CHILDREN'S SCHOOLS. IT WILL CAUSE FAMILIES AND CHILDREN SERIOUS LOGISTICAL HARDSHIP AND EMOTIONAL DISTRESS THAT WILL NEGATIVELY IMPACT OUR KIDS ACADEMICS .	3					
5158	NorthfieldES	DunloggінMS		1	3	2	7	4	The county really needs at least one new high school as soon as possible. Shifting boundaries before that is unwise. If we do shift boundaries, we should make an effort to equalize FARMS participation across high schools. This plan fails to do that.	2					
5159	DeepRunES	MayfieldWoodsMS	LongReachHS	1	3	6	13	2		3					
5160	StJohnsLaneES	PatapscoMS		1	3	7	6	13		3				This plan will break up neighborhoods and disrupt kids yet again. Didn't we just go through a move for our kids and neighborhood? At the very least there should be a minimum number of years that goes by before the county is allowed to disrupt again!	This ties into over development. We are going through redistrictong again because of unplanned and unprepared for development. The county and developers should be put in check.
5161	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	10	7		1	7	10			My child has been redistricted twice in the last 5 years and this would be a hardship to our family if another redistricting occurs. We moved to the Emerson community and enjoy our sense of community. We also would like to keep the community together.
5162	WestFriendshipES		MarriottsRidgeHS	1	3	4	7	2	This plan sends my children to schools that are out of our community. In fact the High school (and Middle) change causes her to commute past Marriotts Ridge to be taken to Glenelg.The safety concern is huge for me for her on route 32.Keep 229 at MRHS.	3	4	7	2	Safety concerns on Rt32 corridor past MRHS to get to GHS. Changing 5 mins drive to 20 by car and 30 mins bus ride to prob 60 on dangerous route Rt32. Keep 229 (all Rt32 area) at WFES, MVMS and MRHS. Send 304 & 1304 to BPES instead. Save $4M sewer At WFES	Keep route 32 corridor (229,1229, etc) at WFES, MVMS, and MRHS. Send 304 and 1304 to BPES and save the $4 Million dollar sewer replacement cost. Safety of sending out of community and extend 40 min bus rides to over an hour. No easy cut thru to rt97.
5163	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	7	10		1	1	7	10		
5164	WaverlyES			4	2	10	3	7		1	1	3	7		
5165	CentennialLaneES				3	4	5	6		3	4	5	6		
5166	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	4	6	1		1	1	4	6		
5167	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	7	1	4		1	2	4	6		
5168	AtholtonES	HammondMS	HammondHS	1	3	4	6	7	Communities should be kept together! Build on top of schools not just build a new school that takes years to complete. Offer more mobile classroom pods rather than splitting up communities. Consider the cost of transportation.	2	4	6	7	At present my polygon is not affected, but many in our community within a 5 min walk are. Our community is being split up & taken 25 mins away when there's schools within 5 min bus rides. Think about why people buy houses --location & community	There needs to be a better way to keep communities together. Mind boggling that houses & units continue to be built with no where to offer education! ...in a so called planned community! Now we are back peddling affecting all. Need a long term soln !
5169	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	6	8	10	The new plan takes into account the holistic approach of right size of feeds and also aligns to existing HS for the population of students within the region. For example, consolidating folks to Wilde Lake HS	1	6	4	7	The new AAC Draft plan is "less disruptive" and has taken into consideration the frequent movement of communities in the last 5 years. It also allows the communities of ES stay together.	It is a humble request to the School of Planning to have these major changes be delayed until the new schools are operational and in fact request for additional new schools or push for making the new schools be made available a year or two sooner.
5170	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	7	1	4		1	1	2	6		
5171	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	2	6	4	1		1	1	4	6		
5172	GormanCrossingES				3	2			We are being targetet to move schools necause of new development. We are established tax payers and should not have to move to a school with poor scademia. It will affect our childrens education amd is outright unfair.	3	13			In the first study, it was not feasable to move us,. Forest ridge area were slotted to move to laurel woods ehuch is closer amd convenient for families there.now after the new development high ridge meadows began, we are being targeted to move.	Ascio standards are 110%. Feasability study currently 93% capacity. We are not over capacity. The only people who should be moved is the new developments They need to be gramdfathered in to fill seats at laurel woods.
5173				5	2	1	10		The AAC Plan is an improvement and superior to the Feasibility Study by several factors: one, it solves overcrowding by moving fewer students and preserves Atholton High School; two, it makes the Emerson neighborhood re-united; three, (see further below)						and three, the movement of Polygons 272 and 1272 (East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to
5174			MtHebronHS	4	2	7	6	8		1	7	6	8	Thanks for not breaking up Worthington. Polygons 2093-3093-4093 with 93-1093-109-1309 should stay as is because it would keep our contiguous community intact, reduce small feeds, & prevent frequent future reassignments. Delay HS changes until #13 online.	Thanks AAC for hard work. Current imbalance due to years of BOE & Superintendent mismanaging facility use. Feasibility Study is political reaction and too much too quickly to undo past neglect. Strategic, small change overtime more reasonable.
5175			OaklandMillsHS		1	6				1	6				

5176			MarriottsRidgeHS	1	3	7	13			3	6	13				Students that are already in a school should not be redistricted because of the significant emotional impact it will have on them.They should be allowed to graduate from the school where they started. This also has many effects on family circumstances.
5177	NorthfieldES	DunloggінMS	CentennialHS	1	3	4	7	6	Illogical split of the historic, well-established Dunloggin neighborhood; MLMS is twice the distance as CHS; development, traffic in Downtown Columbia will add to commute and will negatively impact our high schoolers who already have to get up so early.	3	4	6	7	Study recommends moving west in order to take advantage of capacity; Dunloggin is already assigned west AAC draft plan proposes to move half of Dunloggin to area with the most explosive growth in County, it's short sighted, illogical, poor planning.	See above
5178	ManorWoodsES	MountViewMS	MarriottsRidgeHS	4	2	1	4	6		1	7	6	2		
5179	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	1	10			1	1	10		This plan is much better than the Feasibility study as it still reduces overcrowding however it affects far fewer students. Also, the Emerson community will stay in one school district.	
5180	BellowsSpringES		LongReachHS		2	4	6	7	The AAC plan is great as it keeps 298 and 1298 at the same schools we are now (Bellows ES/ Mayfield MS/ Long Reach HS) which is the right answer and which is better than the BAD Feasibility Study. Thank you AAC	1	7	4	6	The FS was AWFUL in many many ways. To focus on polygons 298 and 1298, the AAC rightly keeps 298 and 1298 at Bellows ES and MayfieldMS to correct the Study. The AAC rightly keeps 298 and 1298 at Long Reach HS. Thank you AAC.	The AAC plan is better than the Study countywide. If you must redistrict high schools,phase in the plans to allow Juniors and Seniors to stay at the school they attend today just as Policy 9000 allows this option to these students if they move residences.
5181	CentennialLaneES				2				Thank you AAC.	1				Thank you AAC.	IGNORE all the ugly feedback from elitist families concerned on their own polygons and how other kids coming in will "mess up" their national school rankings. ALL high schools in the county are great- and we find this ugly commentary offensive.
5182	CentennialLaneES			1	3	13	5	4	Current school attendance area works better for my family vs. AAC draft plan because it has negative impact on our community, children, and neighbors. It will be tough for us transport and having our child reach school in time. Poly147<1 mile from school.	3	13	5	4	We recently moved to current location for better school as indicated in the Feasibility Study. Redistricting is impacting my family and community financially and emotionally. We will loose more than $30 million based on new AAC Draft plan.	If AAC does not abide by the current and the Feasibility Study, they will be forcing my family and my community to move out of their current home. Our children are happy where they are attending their school now. Current plan help us stay at our home.
5183	ClarksvilleES			1	3	8	6	4		3	8	6	4		
5184	WorthingtonES			5	2	6	7	13	I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	1	6	7		I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.	I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.
5185		MountViewMS	MarriottsRidgeHS	1	3	6	8	13	Please consider a new alternative plan titled: Neighborhood Endorsed Plan for Polygons 179/1179 - improves everything without affecting others or complaining! Move Polygons 179/1179 (our neighborhood) to a West Friendship, Mount View, a West Friendship, Mount View, Marriotts Ridge.	3	6	7	8	Please consider a new alternative plan titled: Neighborhood Endorsed Plan for Polygons 179/1179 - improves everything without affecting others or complaining! Move Polygons 179/1179 (our neighborhood) to a West Friendship, Mount View, Marriotts Ridge.	Alleviate the severely overcapacity situation at the few schools in the county where this is a major problem.Table any comprehensive redistricting at the High School levels and other levels that attempt to balance the overall county wide system.
5186	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	8	4		3	7	9	4		keep polygon 147 at CLES, BMMS, CHHS move 97, 1184 to MRHS
5187	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	2	5		3	8	3	4		keep polygon 147 at CLES, BMMS, CHHS move 1184 to MRHS
5188		BonnieBranchMS	HowardHS	1	3	4	6	9	Polygon 91 is much closer to IES and BBMS than RES and ELMS. RES is a school that is overcrowded at 105%, while IES is underutilized at 86%. The previous drafting has been RES and BBMS, which has caused a feed issue, but moving to IES would fix this issue	3	4	6	9		
5189	CentennialLaneES			1	3	13	7	2		3	13	10	8		
5190	TriadelphiaRidgeES	FollyQuarterMS		1	3	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	2	6	7	13	We are very concerned that this appears to create a small feed for polygons 1180, 180, & 181. Also Polygon 3182 should be kept with the above mentioned polygons for contiguous community.	
5191	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3				This plan does not take into effect travel time of students, transportation cost, traffic on major roads some student/buses will need to travel to get to schools. The small numbers of students they are moving in schools that are not at capacity, and will	3	2			The Feasibility study moves less students, an although there are flaws in both I feel it has less movement of students.	I ask that the board and committee consider the impact on moving HS students once they have attended a HS. By moving these students you are impacting their options for SGA, clubs, holding positions. Some groups are moving with as little as 4 or 5 peo
5192		BurleighManorMS		1	3	13	3	4		3	13	4	8	Polygon 147 is less than a mile from Burleigh Manor MS and we walk to school most morning. The Plan will move us more than 3 miles away which makes walking not feasible. Also, the plan will isolate Polygon 147 from it adjacent community.	
5193				1	3	13	4	6	Keeping Polygon 147 in CLES, BMMS, and CHS causes no crowding issue. Now and five years later we will be under 110%. There is no pressing need to Polygon 147	3	13	4	7	AAC Draft plan breaks up the Centennial 147 students from their friends, coaches, teachers, schools, and communities.	I have a new born child and prospective student CLES, BMMS, and CHS, future investors for our current school. Whole-County benefits of keeping Polygon 147 in current school. Poly 147 maintain stability and reduce transportation cost for the tax payers.
5194		DunloggінMS	CentennialHS		3	7	9	13	The AAC plan splits my neighborhood in half. My high school age child will be move to a lower performing school.	3	4	7	9	Currently my high school student drives to school in less than 7 minutes. The ACC plan will place my student farther away, Wilde Lake is over 5 miles away, but with traffic at that time of day will take 15-20 minutes to get to school.	The ACC plan changing my neighborhood does not change the problem of overcrowding. My child will now be in an overcrowded, lower performing academic school. Split our neighborhood, farther distance from neighborhood, lower performing academically...WOW!
5195	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	7	6	We are walkers to Mt Hebron, can hear their band practicing from our yard, and watch the cross country team run by our house daily. It doesn't make sense to send our children to another school, especially since it also divides our neighborhood.						
5196			MtHebronHS	4	2	12	14	14		1	4	2	13	Why are high schools being redistricted when a new one will open in 3 years? I suggest waiting for the new school. This plan is also taking high school walkers and busing them 9 miles away.	It seems the best long term vision would not redistrict high schools until the new high school opens to minimize how many times children are redistricted. Kids that are walkers should not be bused-walkers decrease transportation costs/promote community.
5197	RichesterES	BonnieBranchMS	HowardHS	5	2	7	6	4		2	7	6	4		
5198		BurleighManorMS		1	3	13	4	9		3	13	10	7	We have been in the Centennial district for more than 40 years and have bonded with our communities. The Plan seeks to negate that bond while isolating us from the proposed communities in Columbia because we will be separated by the very busy Rt 108.	
5199	CentennialLaneES			1	3	13	4	8		3	13	3	10		
5200	CentennialLaneES			1	3	13	13	13		3	13	13	13		
5201	FultonES			1	3	13	4	7		3	13	4	7		
5202	NorthfieldES	DunloggінMS		1	3	7	6	4	The AAC draft plan tears the established Dunloggin community in half, with part of the community remaining at Centennial High School, and the other being bused to Wilde Lake High School, while keeping areas east of 29 at CHS, despite the natural boundary.	3	7	6	4	The AAC draft plan tears the established Dunloggin community in half, with part of the community remaining at Centennial High School, and the other being bused to Wilde Lake High School, while keeping areas east of 29 at CHS, despite the natural boundary.	Residents of Dunloggin desperately want to stay together in the Centennial HS district, primarily for community, safety & transportation reasons. A wealth of resources were invested in the feasibility and transportation studies, lets honor those results.
5203			CentennialHS	1	3	13	3	8		3	13	3	4	It is unclear the justifications to re-district polygon 147 so drastically and deviating from the 207 Feasibility Study. This process should not just be a numbers game. Families and children are being impacted.	
5204			HammondHS	5	1	9	3	5		1	6	5			
5205	ClarksvilleES		RiverHillHS	4	1	9			Appears to increase diversity of student body who will attend RHHS						
5206		ElkridgeLandingMS		1	3	6	13	7	Not nearly enough notice was given on this decision. We bought a home based on current school districts and community standards.	3	13	14	14		
5207	AtholtonES	HammondMS	HammondHS	3	3	4	6	7	I think it makes sense to have the Dickinson and Macgills Common neighborhoods to stay together in Elementary, Middle, and High School, as they do in the current attendance areas.	2	4	6	7	I feel that separating the communities of Macgills Common and Dickinson creates an unnatural division between cohesive neighborhoods. These neighborhoods should remain in the same feeder track for elementary, middle, and high school.	Geographically and socially, the Dickinson and Macgills Common current progression from Atholton Elementary to Hammond Middle to Hammond High makes the most sense.
5208			MtHebronHS	1	3	7	4	9		3	6	4	9		
5209	AtholtonES	HammondMS	HammondHS	1	3	7	6	1	In the AAC plan,my kids will have no consistency with their larger neighborhood, as our polygon 2057 will be moved to areas farther away, away from the friends they will make in each school. Lake elkhorn and Wilde lake are not even neighboring communities	3	7	6	1	While 2057 would prefer to stay at Hammond middle and Hammond high schools, Atholton High school is a much better option for consistency of our kids than Wilde Lake high school. And staying at Hammond middle is also a better option.	Please keep 2057 and MacGills common with the rest of Kings Contrivance (Hammond middle and Hammond high...or Atholton high). These are the people our children have grown up with and consistency is key for children to thrive.
5210	RockburnES			2	1	7	7	6	greetings committee we did not find this survey easy to understand we currently have our children at Rockburn elementary - we would be content if after middle school our children would attend a newer high school or Howard High school at the least Thanks	1	6	5	1	at this time we would like to see our children attend howard high or possibly a newer high school	
5211									I cannot compare these plans easily with the data as presented. You should release the revised plan in a Excel and database format similar to the planpoly.projections.xls released in MHA request #2018-004.						Each member of the AAC should make available a personal list of preconceived biases and conflicts of interest, and how the committee strives to mitigate these conflicts. Each member's polygon number should be published.
5212	ManorWoodsES			1	3	6	7	13	Move Polygons 179/1179 (our neighborhood) to a West Friendship, Mount View, Marriotts Ridge grouping. We propose doing nothing else and are not in anyway suggesting affecting any other Polygons but our own. Please review emails sent outlining benefits.	2	9	7	6	Move Polygons 179/1179 (our neighborhood) to a West Friendship, Mount View, Marriotts Ridge grouping. We propose doing nothing else and are not in anyway suggesting affecting any other Polygons but our own. Please review emails sent outlining benefits.	Move Polygons 179/1179 (our neighborhood) to a West Friendship, Mount View, Marriotts Ridge grouping. We propose doing nothing else and are not in anyway suggesting affecting any other Polygons but our own. Please review emails sent outlining benefits.
5213		OaklandMillsMS		1	3	5	4	7	My oldest daughter is a junior at OMHS and participates in the Early College Program. This program will save our family thousands of dollars in college tuition, and since my husband is on permanent disability, this savings is huge to our family.	3	5	7	1	We live in the village of Oakland Mills. To consider the notion of attending a high school in Wilde Lake conflicts with the Rouse vision of Columbia...being a community and attending community schools.	
5214			CentennialHS	1	3	13	3	8		3	13	3	4	It is unclear the justifications to re-district polygon 147 so drastically and deviating from the 207 Feasibility Study. This process should not just be a numbers game. Families and children are being impacted.	
5215	ClarksvilleES			1	3	7	2	3	Under the current AAC draft (dated 8/8/2017), a total of 145 Longfellow + Swansfield students will move to Clarksville ES. This accounts for ~30% of total student body which is a DRASTIC, MAJOR change. PLEASE LIMIT the # of change (i.e, <10%).	3	2	7	3	Please wait to redistrict UNTIL AFTER the new Highschool is built. This whole redistricting appears to be PREMATURE" on every level	and impacts everyone negatively."
5216		BurleighManorMS		1	3	13	3	4		3	13	8	10	Polygon 147 is isolated from adjacent neighbors in the Draft Plan. Polygon 147 includes new (less than 2year old) community so many families have just moved into the Centennial district. The proposed plan means the children will have to move again.	
5217	NorthfieldES	DunloggінMS	WildeLakeHS	4	3	4	6	7	Current plans are too focused on seats/school and losing sight / insufficient consideration that parents moved into houses in specific neighborhoods soley for their children to attend specific schools, specific kids, specific commuting distan -->Refocus!	2	4	6	7	Current plans are too focused on seats/school and losing sight / insufficient consideration that parents moved into houses in specific neighborhoods soley for their children to attend specific schools, specific kids, specific commuting distan -->Refocus!	Current plans are too focused on seats/school and losing sight / insufficient consideration that parents moved into houses in specific neighborhoods soley for their children to attend specific schools, specific kids, specific commuting distan -->Refocus!

5218	WaverlyES			4	2	6	7		We were redistricted to Waverly in 2013 and we have had time to integrate into the school. I am in favor of allowing our kids to stay with the feed that goes from WAVES to Mt View to MRHS. Allow students to apply to stay in their current schools.	1	6	7	8	I am in support of a plan that will give us the longest amount of time in the same schools. Our neighborhood has be bumped with EVERY redistricting we've had for the past 20 years, and I do not want my children to be redistricted again in 3-5 years.	We need to make developers pay for the schools and infrastructure. We need realistic projections for school capacity and we need to build new schools. Our students, teachers and community are suffering from irresponsible, poorly regulated development.
5219		BurleighManorMS		1	3	13			Re-districting should be more than numbers game and should consider the emotional and financial impacts to affected families. The draft plan, if approved, may result in serious financial trouble for most families in Polygon 147.	3	13				
5220				1	3	9	7		Our children will suffer because HC hasn't properly managed the in-flow of new development. This move should NEVER have a negative impact on current residents. Diving our neighborhood by sending kids to different schools weakens our community.	3	4	6			Our current bus route will be split between "Vet/Worth" with the 1st & the last stops with Vet- the middle 2 stops to Worth. Autumn Rust & Brittany will now have 2 separate buses & 2 different schools at the same time. Both safety and traffic issues.
5221	CentennialLaneES			1	3	7				3	4				
5222	NorthfieldES	DunloggінMS	WildeLakeHS	4	2	10	9	6		1	6	8		The plan moves a lot of students in/out of Wilde Lake vs. Atholton in the Feasibility Study. I have mixed feelings about whether moving such a large group is the best route.	Can JROTC program be moved from Howard to Marriotts Ridge to reduce some crowding and eliminate any need to move as many high school students?
5223	SwansfieldES			1	10					1	1	9			
5224			WildeLakeHS	5	1	9				1	9	10			
5225	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	7	3	6	Original plan for my child kept him the same in all of his schools from elementary up to high school. Now the new revised plan has him moving from Howard HS to Long Reach HS. Not a happy parent!!	3	6	7	9	It doesn't make sense that the eastern side of the county doesn't have a better plan from elementary up to HS.	When we bought our house, we bought it mainly for the schools he would be attending from elementary to high school. Now the county wants to change it. Not a happy Howard County Tax Payer!!
5226	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	1	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	Please don't make any redistricting changes until the new high school is built in Elkridge.
5227			CentennialHS	1	3	7			Polygon 147 is within walking distance of Centennial High School. Polygon 147 should remain in Centennial High. There are polygons that are much further than Polygon 147 that have not been slotted to redistrict. What justification was used for that?	3	1				
5228	RockburnES	ElkridgeLandingMS	HowardHS		2	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	1	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	Please don't make any redistricting changes until the new high school is built in Elkridge.
5229	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	1	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	Please don't make any redistricting changes until the new high school is built in Elkridge.
5230	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	13	Should minimize students affected. Taking 500+ students from another high school is ridiculous	3	6	7	13	Should minimize students affected. Taking 500+ students from another high school is ridiculous	Should minimize students affected. Taking 500+ students from another high school is ridiculous
5231	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	1	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	Please don't make any redistricting changes until the new high school is built in Elkridge.
5232	CradlerockES			3	2	4	12	7		1	12	4	3	I admit to being biased that my child is not affected much by this proposal but it does look like better consideration was taken to keep walkers as walkers and not move them to busers.	
5233				1	3					3					
5234	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	1	6	7	8	Please don't make any redistricting changes until the new high school is built in Elkridge.	Please don't make any redistricting changes until the new high school is built in Elkridge.
5235	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	4	7	Keeping students from same community should be a priority, besides the time it'll take to take kids from one city to another, while they could attend a school in their neighborhood is atrocious.	3	6	4	7		
5236	CentennialLaneES			1	3	4			Current walking distance to school becoming 40 min bus ride is so improper.						
5237		MountViewMS		4	2	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	1	6	7			
5238	NorthfieldES			1	3	7	6	13		3	7	6	13	The redistricting would unnecessarily split our community in two. Our decision to move to Dunloggin was predominately based off of sharing experiences with local families though time spent together at Northfield/Dunloggin/Centennial.	Our community will vigorously defend our position to limit the amount of proposed redistricting that would disrupt our community's cohesiveness. We appreciate your attention to this important issue.
5239	ClemensCrossingES			1	3	4	5	7	It will be opposite to our work location which is so inconvenient for us.						
5240	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	3	6	7		The proposed plan creates a small feed for our neighborhood and does not do enough to promote community stability for polygon 1178 as we are a much larger community with polygon 1170.	3	6	7		Keeping polygon 1178 and 1170 together promotes much more community stability. This new draft separates these two neighborhoods which really separates the community	1178 is such a small feed… we have associated ourselves with 1170 which is a larger community and have been together in the same schools for years.
5241	IlchesterES	BonnieBranchMS	HowardHS	5	1	1	8	10		1	4	7	3	Keeping the proximity of the neighborhood/homes with the schools. Living in polygon 1095, our neighborhood is less than a mile form Howard HS. Other neighborhoods already drive/bus further to school and their new ride time would remain unchanged if moved.	
5242	ClemensCrossingES			4	3	6	8	12		1	6	12	14	The AAC plan is much more manageable with the amounts of neighborhoods disrupted by the changes.	The AAC plan is a plan that I would support. The feasibility study would be hugely disruptive for almost every child in the middle of Columbia.
5243	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	7	9	Plan moves 147 out breaking centennial community, plan is not financially viable based on shrinking board budgets and increased operational costs, NOT all students from 97 are FARM eligible, their ties to CLES needs consideration	3	13	1	8	Study calls using MRHS capacity for north region, columbia west is self sufficient, because of change to Atholton, WL area and further north areas are being impacted. Feasibility study better than plan in all aspects	147 stays, 1146 joins CLES/BMMS and CHS and 97 moves out, 1146 has half # of students compared to 97 and with 97 move, 1146 can provide FARM cover. also keeps contagious communities together. 97 is better served with norther schools.
5244	IlchesterES	BonnieBranchMS	HowardHS	5	1	1	8	10	Why do we continue to allow more building in areas where the schools are already overcrowded. Stop building. Make funding and building a new HS in the east a PRIORITY	1	4	7	3	Our neighborhood is less than 2 miles from HHS within the same zipcode. The close proximity to the school should hold more weight than a neighborhood that lives further away and resides in a separate zipcode. Such as neighborhoods in Elkridge to HHS	There is dire need for a new HS in the East. it is sad that we haven't focused on this more closely over the years. Any movement from west to east should be discouraged, this is obviously just putting a bandaid on for a year or 2 due to the building cont
5245		MountViewMS	MarriottsRidgeHS	5	2	11				1	6				
5246	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	1	4	Moving Dunloggin to Wilde Lake will require the students to travel past at least 1 other high school on the way. Per Google Maps the walk is roughly 90 minutes which is unrealistic for students who participate in after school activities.	3	2	1	4	Per Google Maps the from Dunloggin to Wilde Lake is roughly 90 minutes which is unrealistic for students who participate in after school activities and must account for their own transportation.	I strongly urge the School System to keep the decisions of the feasibility plan. This plan was through, professional and funded. The draft plan, while well intentioned cannot account for everything that the feasibility study considered.
5247	LongfellowES	HarpersChoiceMS	WildeLakeHS	5	1	10	1	9	This plan attempts to balance not only the school capacities, but also improves demographics across schools as a whole.	1	10	1	9	The AAC draft plan is many orders of magnitude improvement over the feasibility study plan, the feasibility study plan seemed almost laughable, and i dismissed it immediately as it did not seem to address any of the factors other than seat allocations.	while not perfect, I believe the proposed plan at least tries to consider demographic factors, seat allocation, and regional alignment. The AAC is the best plan I have seen to date and I hope the board of education strongly supports the AAC recommendation
5248		MayfieldWoodsMS	LongReachHS	2	3	13	13	13							
5249	CentennialLaneES	DunloggінMS	CentennialHS	1	3	7	4	2	The AAC plan redistricts across the boundaries between Ellicott City and Columbia, which is so unreasonable since each is a vibrant community with strong cohesion. The children sent to the other side will feel huge disconnections from their community.	3	7	4	2	The AAC plan redistricts across the boundaries between Ellicott City and Columbia, which is so unreasonable since each is a vibrant community with strong cohesion. The children sent to the other side will feel huge disconnections from their community.	Keeping 147 in current school district will still keep capacity under 110% for middle and high school, and 115% for CLES. The situation will become better along the years. Alternative plan is to move 1173 and 2173 to relieve seats to schools like MWES.
5250			HowardHS	5	2	6	7	8		2	6	7	4		
5251	TriadelphiaRidgeES			1	3	7				3	7				Our son is on an IEP at Triadelphia Ridge Elem and does not handle change well. He needs continued stability and a switch to another elementary school would be a set back for his educational needs. Please consider the impact of the children on IEPs.
5252	GormanCrossingES			5	1	3	5	2		1	4	9	8		
5253	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	4	7	1		1	7	1	4	Keep polygons 1184,2184,184,156 together. FONT HILL COMMUNITY.	
5254			HowardHS	5	1	7	6	8		1	7	6	8		
5255	ForestRidgeES	PatuxentValleyMS	HammondHS	2	3	4	7	9	Keep Emerson community together and keep transportations costs low.	3	4	7	9		Keep Emerson community together
5256	NorthfieldES			4	2	7	1	4		1	7	4	1		
5257	CentennialLaneES			3	6	4	8		This is the second time my child will have to transfer to another school within the last 2 years and this is extremely stressful for her as she already suffers from anxiety.	3	13	7	4	My child will have to travel 4 miles as opposed to <1 mile now.	Please keep polygon 147 in Centennial schools. Our children have worked so hard to come to a school they are now connected with and feel at ease in such an environment.
5258	IlchesterES	BonnieBranchMS	HowardHS	5	1	4	3	6		1	2	4	6		
5259	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	6	4		3	7	6	4		Please don't break up our neighborhoods, and allow kids to stay together through school. Continuity and sense of community are important. We have invested in paths for kids to walk or bike to school that will be wasted with some of the changes in the AAC.
5260	WaverlyES			2	3	4			Mount View and Marriott's Ridge are too far away for my kids. It also places unnecessary burden on parents to drive so far for school events. Staying at Patapsco and Mt. Hebron makes more sense geographically and culturally. We need to BUILD MORE SCHOOLS.	3	4			Mount View and Marriott's Ridge are too far away for my kids. It also places unnecessary burden on parents to drive so far for school events. Staying at Patapsco and Mt. Hebron makes more sense geographically and culturally. We need to BUILD MORE SCHOOLS.	Howard County needs to buy the land at Rte. 99 /Bethany and build more schools. Imagine how many problems that would solve.
5261	ThunderHillES	OaklandMillsMS	OaklandMillsHS	4	2	1	6	4	I have a child in Thunderhill elementary school who is a walker and he will be zoned to Oakland Mills Middle and high school. Both Oakland mills middle and high are not over capacity now and will not be in 5 years. I like this new plan much better.	1	4	3		Moving my son from Oakland mills high school to Wilde Lake didn't make any sense at all. It would be too far and he can't even ride his bike there. I prefer the plan keeping our thunderhill polygon 151, 1151 and 2151 in Oakland mills high school	In addition Oakland mills will still be undercapacity unlike Wilde lake.
5262	CentennialLaneES			1	3	2	3	4	Polygon 97 is an island and they definitely contribute to over crowding in CHS and feeder schools. And they are not FARM kids. Move 97 to WES, MVMS and MRHS.	3	2	3	6	Moving 147 from Centennial Neighborhood is breaking us from the Centennial Neighborhood. Polygon 97 is an island and they definitely contribute to over crowding in CHS and feeder schools. And they are not FARM kids. Move 97 to WES, MVMS and MRHS.	Polygon 97 is an island and they definitely contribute to over crowding in CHS and feeder schools. And they are not FARM kids. Move 97 to WES, MVMS and MRHS. They are already bused to schools. Moving 147 out increases more kids bused while walking now.
5263	ElkridgeES	ElkridgeLandingMS		2	3	6	2	7	I am concerned that Elkridge does not have it's own high school, and that the students in Elkridge are split between Howard and Long Reach.	2	14				
5264	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	1	Obvious lack of common sense with regard to the drafting of this plan with regard to the students. It's apparent that those involved in this decision have little at stake, and looking at a paper exercise only. Planners should view from student perspective	2	4	7	10	Brinkleigh is NOT an actual community; nor is Bethgate… it's all Valley Meade/Chatham	Get a better map
5265	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	1	Schools are already overcrowded; undoing the last changes and making changes based on false neighborhood information due to poor map choice is ill advised	2	1	4	7	Find a new map source	
5266			CentennialHS	5	1	1			Over-capacity in CHS has to be solved as soon as possible. Otherwise, it will get worse.	1	2			The AAC draft plan keeps the traditional Centennial community together which is good for the people who have lived this area for many years.	
5267	RockburnES	BonnieBranchMS	HowardHS	1	3	4	6	7	I am located in Polygon #91 - the smallest polygon included in the AAC draft. PLEASE do not move us from BONNIE BRANCH MS which is half a mile away from my home to ELKRIDGE LANDING MS which is 7 is over 3 miles away!	3	7	6	4	The proposed change in the Feasibility Study moves us to a closer ES (Ilchester), so I would not be opposed to it, unlike the AAC draft plan which has us moving MS from Bonnie Branch (0.5 miles) to Elkridge Landing (3.3 miles)	I prefer the changes in the Feasibility Study over the AAC draft plan. There are 8 homes in my community. Please use common sense and exclude Polygon 91 from the AAC draft plan!!!
5268	CentennialLaneES	BurleighManorMS		1	3	7	4	13		3					

5269		ElicottMillsMS		1	3	13	4		This change would require a much farther commute for my daughter and the new school has a lower rating than our current school.	3	13					
5270	CentennialLaneES			1	3	4			Polygon 147 is within walking distance of CLES, Centennial High and Burleigh Manor, whereas the proposed schools are not. Polygon 147 should stay with its current schools.	3						
5271	CentennialLaneES			1	3	4			Polygon 147 is within walking distance of CLES, Centennial High and Burleigh Manor, whereas the proposed schools are not. Polygon 147 should stay with its current schools.	3						
5272	FultonES			1	3	6	4	13	my sons will be sent to pointers run, where they know no one and then be transferred back to lime klin several years later to children they already knew and not with many kids from pointers run. my sons are in tears that they are being taken from friends.	3	6	4	13	pointers run is out of the way and is triple the time for us to get there than to go to fulton. fulton is very close to us- very upset we are being shipped from our local school to a more distant school and there is only 1 bus load of kids being shipped	my sons will be separated from almost all of their friends. oldest son very sensitive and in tears. they know absolutely no one at pointers run and they will only be sent with a few kids they know if they are transferred from fulton elementary
5273	RockburnES	BonnieBranchMS	HowardHS	1	3	4	6	9	Ilchester ES and BBMS are very close to our house. All the nearby kids go to these two schools except our neighborhood. We are in polygon 91. Please keep our kids in Ilchester ES and BBMS. Thanks.	3	4	6	9	Ilchester ES and BBMS are very close to our house. All the nearby kids go to these two schools except our neighborhood. We are in polygon 91. Please keep our kids in Ilchester ES and BBMS. Thanks.		
5274	AtholtonES		HammondHS	1	3	4	2	1		3	4	2	1			
5275	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	8	7		1	6	7	8			
5276	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7			1	6	7				
5277		MayfieldWoodsMS	LongReachHS		3	13			We do not want to be redistricted to Oakland Mills. It is far away from our neighborhood. It seems like only a small portion of students from Mayfield Woods MS will be going to OMHS which means my children will be split from many of their MS peers.	2						
5278			HowardHS	5	2	4	6	7		1	4	6	7	AAC is much better than feas. study for my area () am in 1301, unaffected by any plan but adjacent to 95, 1095, 2095, 84).Now IES has continuous feed thru ms and hs. AAC keeps this, FS tears it apart. FS splits lg. # of fams w/ diff. aged kids btw schools	Lg. # of kids w/in walking dist. to HoHS slated to move to LBHS. FS is supposed to take effect at same yr. as school start times are changing. FS moves too many kids at the same time that trans. costs & issues will be increasing due to chg. in start times
5279	NorthfieldES	BurleighManorMS	CentennialHS	1	3	4	6	7	The current plan change the high school for my kids is unacceptable because I bought this house for the special high school.	3	4	6	7	The current plan change the high school for my kids is unacceptable because I bought this house for the special high school.	DO NOT NEED TO CHANGE THE DISTRICT. EXPEND THE SCHOOL IF NEEDED.
5280	TalbottSpringsES	OaklandMillsMS		1	3	7	9	6	TSES and OMMSare both schools I probably send my boys to with teachers and administration who really care. They also currently have a real life balance the variety of demographics, as Rouse wanted. Do not create all white and all minority schools.							
5281	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	3	6		3	4	3	6			
5282			AtholtonHS	1	3	7			Pointers Run Neighborhood should be reunited with its original districting of River Hill High School. The neighborhood was split over a decade ago and should be reunited. These neighborhoods all share the same village center as River Hill.	3	7			Pointers Run should be reunited with River Hill. Pointers Run houses the River Hill Pool and is a big part of the River Hill Community, they never should have been split from River Hill during the last redistricting.		
5283			WildeLakeHS	1	3	7	13	4		3	9					
5284	FultonES				3	4	6		perplexed why 1 bus load of kids being shipped away from school we are close to and kids who live closer to hammond elem east of 29, which is beneath it's capacity , are staying at fulton. kids east of 29 also will go to hammond middle	3				we will go to lime kiln and kids east of 29 will go to hammond middle- seems for continuity to make more sense to send kids east of 29 back to hammond elem and to keep kids in fulton who go to fulton at their school	very disruptive to our children- they will go to pointers run where they know no one and then be shipped back to lime kiln just a few years later to remake friends in fulton again. my sons are in tears being taken from all but 2-3 of their friends
5285				1	3	5	8		Keep Polygon 147 in its current schools. The redistricting of Polygon 147 would be detrimental to the children in that area. Most of them moved to a new school last year and having to change schools again within 2 years is not good for them.	3	8					
5286	PointersRunES	ClarksvilleMS	RiverHillHS		3	4	6	7	Polygon 1189 should not be moved away from PRES. 1189 is 1 mile from PRES and these children are being moved miles away with Maple Lawn kids bused to PRES. This is harmful to the children's social and psychological well being and safety with long drive.	3	4	6	7	Polygon 1189 should not be moved away from PRES. These children should not be removed from their friends, the school and teachers they love. There is no justification to move these kids, who are only 1 mile away from PRES.	Please keep our community together and do the right thing for the well being of the children. Polygon 1189 children should not be forced to more than triple their commute time with no real gain or justification.
5287		HarpersChoiceMS		5	1	1	7		Great way to back-fill schools which are being underutilized. This must be done before new schools are built. HCPSS should not be bullied by Western Howard County $$$. The county's schools are shared county space, not private schools owned by a few.	2						
5288			CentennialHS			4	6	7	It is inconceivable to me that any HC plan would consider busing students from Font Hill out of Centennial high school. This is our neighborhood school and unites our community. Keep Font Hill students in this district.	2	6	7	6	Thank you for keeping Font Hill with Centennial HS. HS students in our area already must get up very early and a long bus ride is both nonsensical and hard to endure. Our community needs to remain as one with the nearby school district.	I was initially outraged upon hearing of the redistricting but am glad HCPSS has corrected the matter. Our neighborhood feels strongly in keeping CHS in our neighborhood where it has served with distinction for many years.
5289	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	4	6	7	The AAC plan has polygons 56,1056,2056 and 3056 being pulled from group in ES and again from MS. The current attendance area only has a pull in ES. Growth and friendships / sense of community is stronger in MS than ES.	2	4	6	7	56, 1056, 2056 and 3056 are a very small feed but feel after the split from ES they are community to OM since they do not split again from MS to HS. Going across brokenland to LCMS and then across 29 to WLHS breaks them up too much.	The WL area construction will bring in 1000's of students. new Elkridge HS coming will trigger a redistricting. These two movements (not currently counted in planning) most likely redistrict 1056 back to OM anyways.
5290	NorthfieldES	BurleighManorMS	CentennialHS	1	2	7	4	13	Why would someone propose such a ridiculous plan? Why would our children suffer so much from political correctness?	2	7	5	13	Just take polygon 97 out of centennial area, problems are solved. Do not touch us.	
5291	RockburnES			1	3	4	7	13	I want my kid to go to Bonnie Branch MS because they are much closer than other schools.	3	13	4	7	I want my kid to go to Bonnie Branch MS because they are much closer than other schools.	
5292	CentennialLaneES	BurleighManorMS		1	3	8	13		My children and many children in Polygon 147 are in different programs and activities in their current school and will continue to be in 2018-2019. Changing schools will be disruptive to the children.	3	13					
5293	GormanCrossingES			1	3	13				3	13					
5294	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	2	3	5	Keep 1056 at OMMS and OMHS. Early college program only available to OMHS. Growth in the area will push this group back to OM in future.	2	2	4	6	1056 polygon group is better off splitting small feed from ES than splitting multiple times across highways for MS and HS.	Keep 56, 1056, 2056, and 3056 in current attendance areas. AES, OMMS, OMHS
5295		ClarksvilleMS			3	7	6	3		3	6	7	6			
5296	CentennialLaneES		CentennialHS	1	3	1	4		Move polygons such as 97 to be redistricted from CLES, Burleigh Manor, and Centennial High and keep Polygon 147 with its current schools. If polygon 97 adds too many student to the schools it is being allotted to, then move another to Centennial schools.	3						
5297			RiverHillHS	1	3	2	4	6	https://goo.gl/forms/YNiH56rcEtDpyRYr1	3	2	4	6	https://goo.gl/forms/YNiH56rcEtDpyRYr1	https://goo.gl/forms/YNiH56rcEtDpyRYr1 I prefer Plan C. Please go to this survey and look at the photo of recommended changes.
5298	NorthfieldES	Dunloggin MS	CentennialHS	1	3	7	4		It is not clear how the boundaries of polygons have been established since it appears that some houses on the same street go to different schools. It appears that the schools may change 2 or 3 times for one street.	3	7	4		It is not clear how the boundaries of polygons have been established since it appears that some houses on the same street go to different schools. It appears that the schools may change 2 or 3 times for one street.	
5299	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	13	13	AAC draft plan is not good at all which hurts my kids education badly.	3	13	13	13	Like the feasibility Study better than AAC draft plan.	My son started school from CLES, BMMS and now AAC committee trying to send him WLHS instead of CHS. That is not acceptable.
5300		PatapscoMS		1	3	4	7	13	Area 2161 is within walking distance to Mt. Hebron HS, in the Mt. Hebron neighborhood, but the AAC plan would split the Mt. Hebron neighborhood, impact friendships/carpools etc, and require the kids to be bussed away from Mt. Hebron. This seems negative.	3	4	6	7	The Feasibility Study appears to make more common sense than the draft AAC plan.	
5301	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	2	4	6	This Plan needs to be revisited to only redistrict new elem school. There needs to be more communication between county and school to determine the best action in regards to HS students. Enrollment projections are incorrect: new construction.	2	2	4	6	Feasibility study needs analysis run on correct data and reissued. Table full county redistricting until more information can be researched.	
5302	HammondES	HammondMS	AtholtonHS	5	2	7	9	10		1	7	8	9	The new proposal is better since it preserves altholton and also doesn't disrupt as many students with changes. It keeps the demographics of the schools more in line with the county.	I feel redistricting for HS should be suspended and revisited once the new highschool is built. There is no need to move kids twice in 3 years when the new school should solve the overcrowding issue in the north of the county.
5303	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	3	1	2	6	Please refer to the email I sent to School Planning and AAC members, subject titled Neighborhood Endorsed Plan for Polygons 179/1179". With the new high school proposed	wait to adjust most high schools so that redistricting doesn't occur 2x at HS level."	3	1	2		Please refer to the email I sent to School Planning and AAC members, subject Neighborhood Endorsed Plan for Polygons 179/1179". Schools most significantly over capacity should be adjusted in the short term
5304	CentennialLaneES	BurleighManorMS		1	3	4	13		Please focus on new schools distance instead of income, diversity etc. No politics with the kids please.	3	13					
5305	GormanCrossingES			1	3	13	13	13	I purposely moved into an area where my son will be attending the a great elementary school in Laurel and will probably be affected by going to a Title I school within the County. I am not satisfied with the plan.	3	13					
5306	CentennialLaneES			1	3	4	13		This is a poor plan because it proposes removing polygons such as 147 from its current schools, which are very close to 147 and keeps polygons such as 97 with current schools, which are far on the other side of Rt 40. What reasoning was used for this?	3	4					
5307	PointersRunES			1	3	7										
5308	NorthfieldES	BurleighManorMS	CentennialHS	1	2	4	6	7	Polygon 154,2154,214 and 1154 are redistricted from CHS to MRHS. Distance between these areas to MRHS is 5 times further than to CHS. Kids have to spent 2 hours each day on the bus where their cross Fredrick friends can use the2 hours for after school act	2	8	13	10	Both plans are ill advised. polygons 154,1154,214 and 2154 are established communities with little or no expected growth. there are other CHS attendance area have about 25% to 30% growth projected. redistricting these polygons away does not make sense.	Both plans are bad ones based on poor projections.
5309			AtholtonHS	1	2	6	6	6	River Hill community has been divided to long, it has a huge affect on the River Hill community when children from Clarksville MS is split between AHS and RHS, The original PLAN was the correct on for consolidating the children to RHS. This plan does not	3	6	6	6	This draft Plan does not keeps the River Hill community kids together, the original Feasibility Study Plan kept the community kids together and was a better plan.	
5310				1	3	7	4	6		3	4	6	7			
5311		Dunloggin MS		1	3	4	6	9								
5312	ClemensCrossingE	HarpersChoiceMS	WildeLakeHS	1	3	13										We just bought our home with the understanding that our children would attend Clemens Crossing EC when they are of age. With careful consideration we felt this was the best school for our family and we do not wish to be redistricted.
5313	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	3	6	13	9	The expelling of students from their home school because redistricting happens far too often in this county. If there is a new high school being built that would be the time to impose this painful process on our children.	2	6	9	13	It seems this AAC plan is the result of a vocal minority looking to the interests of their own children and not the entire flawed concept that in this county redistricting is equal to school improvement and hiding achievement gaps. Not addressing them.	If Mr Martirano and newly elected board members wish to maintain the good will of the electorate, this plan, like the school start time plan fiasco, will go away until a new high school mandates a population district change.
5314	FultonES			1	3	13	9		The school who is proposed is farther than the school is right now my kid. If you approve this terrible plan several kids in our neighborhood will be move just for 1 year another school. Because will be 5th grades The value of our property will be les	3						

5315			HowardHS	1	3	6		13	WHY was 1st Propsal CHANGED? folks from "special" areas initially affected moving from Howard to LongReach (that were closer) now are back at Howard - folks in Elkridge that are the furthest from LR affected broken up between 2-3 schools - UNFAIR	3	13	5	7	plan is an entire mess....the first plan was bad...this is worse wait until you build the new high school to cause turmoil -drastically affects housing market - and negatively impacts Elkridge AREA Community - very UNFAIR - KEEP POLYGON 1300 AT HOWARD	This plan gives the appearance of favoritism....Elkridge an older area is closest to Howard...and should be able to keep our kids together at same high school vs being split up.....All of Elkridge should be Howard....None of this makes sense...
5316	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment of Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment of Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wild Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5317	ElkridgeES	ElkridgeLandingMS	HowardHS	5	3	6	7	9	Instead of moving kids halfway thru highschool, how about building a new highschool in elkridge, we need one with all the new housing that is being built here.	3	6	7	9		
5318	PointersRunES	ClarksvilleMS	AtholtonHS	5	1	1	4	6		2	1	4	5		
5319	StevensForestES			1	2				Areas 1059,2059 and possibly 59 and 3059 need to go to closer SFES Part of 96 Basketring-Stevens Forest Rd - whiteacre return to closer TSES making for better racial and economic balance at both ES.	2	4			There is no need for walkers to go past a closer school because they happen to be poor while middle class are bused to THEIR school. It will help balance racial and economic diversity at both schools	
5320			HammondHS	3	2	1			Please move Polygons 272 and 1272 (East Emerson) to be with the rest of Emerson. Less than 10% of the community is going to a different school.	2	1			Please move Polygons 272 and 1272 (East Emerson) to be with the rest of Emerson. Less than 10% of the community is going to a different school.	Please move Polygons 272 and 1272 (East Emerson) to be with the rest of Emerson. Less than 10% of the community is going to a different school.
5321	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	9			Moving Polygon 147 from its current school changes demographics of the schools and makes it be less diverse. This is a bad plan. Polygon 147 should stay in its current schools.	3					
5322	CentennialLaneES		CentennialHS		1	7			Looking at the proposed redistricting map, there are a lot of polygons being moved from Wilde Lake to River Hill and moving 147 to Wilde Lake. How is this effective? 147 should stay with its current schools and not move some polygons out of Wilde Lake.	3	1	7			
5323	NorthfieldES	BurleighManorMS	CentennialHS	1	3	6			I would like to keep the current plan until the new high school has been built	2	1	1			
5324	WorthingtonES			4	3	6	4	2	The draft plan makes many changes. With a 13th high school on the horizon, this will need to be done again. This is very disruptive now, and will be very disruptive when the new school is built. Redistricting should be put on hold until 13 is built.	1	6			Thank you for keeping polygons 2093-3093-4093 with the rest of Worthington 93-1093-309-1309. A small feed of students should not be forced to make all new friends in middle school, thank you for keeping all of Worthington feeding to ENMS.	Students need consistency and continuity. Moving 8000 students does not provide this. If moves occur, it should be phased in so that a 4th grader does not go to a new school for 5th grade only, a 10th grader changing for 11th and 12th, etc.
5325	BushyParkES				3	1	7	13	There is absolutely no reason to move a small portion of students from Bushy Park to Lisbon. There does not seem to be a problem with Bushy Park going over capacity so why do it. If students must be moved from West Friendship why not take them to Lisbon.	3	1	7	13	The Feasibility study left Bushy Park students alone and that should remain. There is no reason to move students from Bushy park to Lisbon. Bushy Park is not over capacity.	If students will have to be bused west from West Friendship why not send those students to Lisbon. It makes NO sense to move to groups of students instead of just one.
5326	CentennialLaneES	BurleighManorMS	CentennialHS		3	7	1	3	The current AAC plan need take advantage of the seats at Glenleg by shifting students from MRHS and CHS to westside.	3	7	1	3		Senario 1: move 1223,2223, 3223 to Glenleg, move1173 and 2173 to MRHS.
5327	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	13	The AAC draft plan tears the established Dunloggin community in half, with part of the community remaining at Centennial High School, and the other being bused to Wilde Lake High School, while keeping areas east of 29 at CHS, despite the natural boundary.	3	6	7	13	Residents of Dunloggin desperately want to stay together in the Centennial HS district, primarily for community, safety & transportation reasons. A wealth of resources were invested in the feasibility and transportation studies, lets honor those results.	I find it abhorrent that the Board would consider splitting up a longstanding community within a shorter distance to Centennial High School but maintain the attendance of other communities further away from the high school. The map appears skewed.
5328		ElkridgeLandingMS		2					ELMS capacity was increased in 2014 (without adding any square feet) and it made it overcrowded then, but under capacity on paper. The AAC plan increases ELMS even more. I don't believe they even have enough lockers for the current students.					I believe that redistricting should be put on hold and have schools built to address the egregious overcrowding at a handful of schools. Massive moves for most kids is only going to put off the inevitable.	Look at the Gilbert Architects plans for changing capacities of various schools. Pay attention to the schools with increased capacities compared to which schools are overcrowded today.
5329	ClemensCrossingES	WildeLakeMS	AtholtonHS	5	2					1	9	10	1	Feasibility Study impacted students at some schools disproportionately with # of students moved and FARMs. In FS plan, majority of one school is proposed for movement and zero at a neighboring school. AAC plan is more equitable and moves fewer students.	
5330	DaytonOaksES	FollyQuarterMS	RiverHillHS	5	2	7	1	4	The draft plan keeps our children in the schools to which they are currently districted. It keeps them in the same schools as our contiguous neighbors and in the schools that are closest to our home.	1	1	4	7	The AAC draft plan is better for polygon 199, because it keeps them in the same schools as our contiguous neighbors. The feasibility study would separate them from those with whom they will attend ES, while decreasing RHMS % capacity by removing our kids.	Thank you for this thoughtful alternative to the feasibility study. I did not like the feasibility study's separation of our street (Pasture Green (polygon 199)) from contiguous neighbors with no resultant increase in diversity or RHHS capacity.
5331	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	7	8	We are in the southern portion of 2161 polygon. Mount Hebron HS is practically in our back yard. It doesn't make sense to bus kids to Marriots Ridge HS from this location.	3	5	6	8	ACC and Feasibility would likely both be catagorized as poor, AAC probably slightly worse. Feasibility breaks up kids in the current ES. Language program not available at Feasibility ES. AAC busses HS kids away from school very close by. Both poor.	About every 5 years, polygon 2161 seems to always get redistricted. Is the frequency of redistricting considered? Shouldn't there be rotations and priorities in place such that the same polygons are not affected at every redistricting cycle.
5332	VeteransES	EllicottMillsMS	CentennialHS	1	3	6	7	13	This AAC draft plan is worse than the current school attendance areas. It interrupts the continuity of our community.	3	6	7		My area has been in the Centennial High School community for the past 5 years. The new AAC proposal would move us to the Mount Hebrew Hight School, which is so far away and strange to us.	
5333	GormanCrossingES	MurrayHillMS	AtholtonHS	4	1	14	14	14		1	14	14	14		
5334		BonnieBranchMS			3	4	6	9	We are very close to Ilchester and Bonnie branch than Rockburn and ELMS. All close by neighborhoods go to Ilchester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Ilchester elementary, Bonnie BMS and Howard HS.	3	4	6	9		Kids love to walk/ride to school together. They are enthusiastic to do so. The schools, Ilchester and Bonnie branch are less than a mile from the community.
5335	CentennialLaneES				3				AAC draft 1 creates an island for polygon 147 and increases transport from 1 mile to approx 3-4 miles to new ES/MS/HS. This plan is a severe disruption to our kids who will marginalized as they can't easily participate in activities.	3				Same as above.	Move 97 to Northfield ES (and stay in BMMS & CHS). Move 2154 to CLES (and stay in BMMS/CHS). Move 147 and 276 to CLES, BMMS and CHS with utilization at 107%, 104% and 103% at Centennial schools and 109% utilization at Northfield ES.
5336	GormanCrossingES			1	3	13	7	9		3	6	7	9		
5337	TriadelphiaRidgeES			5	2	7	6			1	6	7			
5338			HowardHS	1	3	3	13	4	Walking to school is good for students' health, community involvement, and the environment. It also reduces drivers on the road, critical because car crashes are the leading cause of death in teens.	3	4	3		Children should remain at a Middle School that feeds into Howard High School and moving to Oakland Mills HS does not provide a long term solution because OMHS will become overcrowded very quickly, potentially more so than Howard HS.	The children are able to walk to school, thus allowing them to engage in all of the after school activities, sports, JROTC, etc. They do not have to rely on buses or car rides home after these activities.
5339		BonnieBranchMS		1	3	6	4	7	Polygon 91 considers Ilchester ES & BBMS our community schools. We have gone to Rockburn ES in the past which created a feed issue. Going to Ilchester ES and BBMS, per the '17 feasibility study corrects the feed problem and enhances our community.	3	6	4	9	Polygon 91. 2017 Feas Study shows PJG 91 moving fm Rockburn to Ilchester ES. Makes sense as we live 0.4 mi to Ilchester and 0.3 miles to BBMS. Elkridge Landing MS is 3.3 mi from our house. Please assign Polygon 91 to Rockburn ES and BBMS.	
5340	ClarksvilleES				3	7	6			3	14				
5341	HammondES	HammondMS	AtholtonHS	5	1	1	10	3	Thank you for reducing the amount of children leaving AHS. With the existing student demographics that perform in the amazing academic programs & participate in athletic activities, preserving AHS is a model for other high schools	1	1	10	2	Feasibility Study moves almost an entire school. Some Atholton kids were impacted by SIGNIFICANT changes in elementary & middle. They shouldn't go thru that again. Fewer kids moving. Consideration for future high school. AAC plan preserves excellence at	FAST TRACK the new high school. Add modular buildings to over crowded schools. Move ROTC from Howard HS to Marriotts Ridge could help with the over crowding there. Open enrollment at the under utilitzed schools.
5342	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	13	Children are not polygons, they are not merely numbers to play with. I respectfully request that polygon 147 remain in its current elementary, middle, and high school.	3					
5343	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	Moving of polygon 1189 from PRES which is ~1 mile away to Dayton Oaks is unreasonable. No justification to take these kids away from their friends and Pointers Run community to be bused miles away to a different school and bus Maple Lawn kids into PRES.	3	4	6	13	1189 should not be moved to Dayton Oaks. AAC plan is thoughtless and not in line with J. Rouse's vision of keeping communities together. In addition, it raises transportation costs and raises safety concerns for kids with longer bus ride compared to PRES.	
5344			CentennialHS	5		7				1	7				
5345		MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Based on Policy 6010, AAC should look at the Transportation, existing seats and capital. Reassigning Poly 1229, 224,232,1231,2229 (which often walk to school) while taking off other polys already on bus to move introduce more transportation cost and time	3	4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS or Revert to Feasibility plan.	Additionally Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES will grow to full utilization organically. Moves fewer students and the bus time will be less since Turf Val is dense
5346			WildeLakeHS	1	3	7	6			3	7	6		AAC draft plan rips SES in half for their high school, even though they attend the same elementary and middle school. Part of LoES is moved to WLMS even though they live directly behind HCMS.	
5347		MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Based on Policy 6010, AAC should look at the Transportation, existing seats and capital. Reassigning Poly 1229, 224,232,1231,2229 (which often walk to school) while taking off other polys already on bus to move introduce more transportation cost and time	3	4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS or Revert to Feasibility plan.	Additionally Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES will grow to full utilization organically. Moves fewer students and the bus time will be less since Turf Val is dense
5348		PatapscoMS		1	3	4			Do not relocate children who are in walking distance to their high school to a new school over 5 miles away. Children should attend the school that is closest to their residence. Feeds together is not important	3	4			It is reasonable to have child attend different elementary and middle schools. Children do not need to stay together elementary school through high school graduation. There is no psychological evidence that this improves social functioning or test scores.	Do not relocate children who are in walking distance to their high school to a new school over 5 miles away.Consider Psychological impact. Who on the committee is representing the impact on psychosocial development. Feeds together is not a priority
5349		MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Based on Policy 6010, AAC should look at the Transportation, existing seats and capital. Reassigning Poly 1229, 224,232,1231,2229 (which often walk to school) while taking off other polys already on bus to move introduce more transportation cost and time	3	4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS or Revert to Feasibility plan.	Additionally Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES will grow to full utilization organically. Moves fewer students and the bus time will be less since Turf Val is dense
5350		MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Based on Policy 6010, AAC should look at the Transportation, existing seats and capital. Reassigning Poly 1229, 224,232,1231,2229 (which often walk to school) while taking off other polys already on bus to move introduce more transportation cost and time	3	4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS or Revert to Feasibility plan.	Additionally Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224,229,231,232,1231,1229,2229 at WPES. WPES will grow to full utilization organically. Moves fewer students and the bus time will be less since Turf Val is dense
5351		MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Based on Policy 6010, AAC should look at the Transportation, existing seats and capital. Reassigning Poly 1229, 224,232,1231,2229 (which often walk to school) while taking off other polys already on bus to move introduce more transportation cost and time	3	4	1	2	Keep 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS or Revert to Feasibility plan. 5354	BushyParkES	FollyQuarterMS	GlenelgHS	5	1	6	7	6	This plan is better than current att. and feas. study b/c more will go to FQMS from BP. Major concern is BPES kids in poly 216 going to FQ not knowing anyone. My kids (2nd/4th) are already scared to go to FQ b/c only a handful of kids go to FQ from BPES.	1	6	7	10	If poly 216 stays at FQ vs GWMS, must make sure more students go to FQMS from BPES. The AAC draft is great compared to feas. study b/c it keeps poly 216 with polys 2220, 1220, 220, 211 and takes 215 and 1215 from GWMS to FQMS. Consider moving 2215 to FQ.	If not moving all current BPES polys to GWMS, then polys 216, 211, 2220, 1220, 220, 215, 1215 should all go to FQ. The move of 215 and1215 to FQ is a great addition! If possible move 2215 to FQ also. And really like the move of 1222, 1218 and 218 to BPES.
5355			CentennialHS	5	2	7			It is important that Frederick Road be maintained as the logical boundary.	1	7			Thank you very much for keeping our community together in a logical manner.	It is strongly suggested that overall vehicle trip miles be considered in the planning process, so as to minimize pollutant/GHG emissions. The trip miles would include trips for after school activities, drop offs and picks as well as school bus miles.
5356	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	1	4	Draft plan can swap existing assignments in Ellicott city area without moving kids outside of EC and not aggrevate finances of board	3	1	3	9	AAC plan has lot of movements that impact board finance and most importantly kids future. Everyone understands need for efficient use but this plan falls short and causes lot of disruptions in all regions - EC, columbia	Keep 147 in CLES, Move 97 to Northfield, add 2154 to CLES (swap current assignments). Add 276 to 3 centennial schools This balances seat utilization in EC, meets FARM considerations, limits transport cost, kids in same schools, keeps kids together
5357	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	1	7	8	4		1	5	6	8		
5358	BushyParkES			5	1	6	7	14	Need to make sure more students are going to Folly Quarter from Bushy Park (i.e., 215, 1215, 1220, 2220, 220, 1222, 218, 1218)	1	6	7	14	The Feas.Study negatively impacted our poly by moving polys 2220, 220 & 1220 out of FQ. These polys should stay at FQ as long as any other current BPES polys don't move to GWMS. Either you move all the current BPES polys to GWMS or add more to FQ from BP.	
5359	GormanCrossingES	MurrayHillMS	AtholtonHS	2	2	3	9	8	It makes no sense to send groups of people from other communities to murray hill middle when half of our community, emerson, is being sent to patuxent valley. It needs to be switched.	3	6	2	7		
5360	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4			It makes no sense to me why polygon 147 has been slotted to move out of its current schools, where the current schools are so close to this polygon and so many polygons so much further from centennial remain with Centennial High. NO CHANGES TO 147!	3					
5361	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	13	7	Rather than a walk to/from Mt. Hebron HS, the AAC draft plan would have my kids traveling 6.7 miles away along Rte 99, Old Frederick Rd, which is already clogged with traffic in weekday afternoon rush hours! Please consider bldg expansions or new school!	3	4	7	13	Rather than a walk to/from Mt. Hebron HS, the AAC draft plan would have my kids traveling 6.7 miles away along Rte 99, Old Frederick Rd, which is already clogged with traffic in weekday afternoon rush hours! Please consider bldg expansions or new school!	Howard Co should avoid ongoing redistricting by either expanding capacity at current schools, building new schools, and/or not allowing new development into every nook and cranny without a solid plan to mitigate the impact. AAC plan is the worst option.
5362	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	6	7	This plan is an important step towards resolving the overcapacity problems in the Centential schools. The overcapacity problem has been worsening in the past few years, causing serious concerns about school safety.	1	7	1	8	New property projects were developed in the already heavily crowded Centential school area without careful evaluation of school capacity. The new plan takes a right step to correct this problem. Thank you!	
5363	NorthfieldES	DunloggінMS	CentennialHS	1	3	13	6	4		3	7	4	13		
5364	WestFriendshipES			1	3	4	7	2	The community fought so hard 3 years ago to keep WFES open and now we are being moved from the very school that we defended. Transportation, community and safety are my biggest concerns.	3	4	7	3	Transportation would be much longer to my children's new schools and they would be on a bus on route 32 which is one of the more dangerous roads in Howard County because of the two way one lane traffic.	These plans do not take into account the transportation of students that live in and around the community. The safety of our children should be our utmost concern and that does not seem to be taken into account with the AAC plan.
5365	DuckettsLaneES	ThomasViaductMS		1	3	2	4		Plan doesn't take into account rapidly growing polygons. Polygon 1036 had 59 students at the opening of DLES now will be sending 179 to CSH42. Long-range capital projects are not being taken into account. This polygon and others are too large.	3	2	4	3	Travel distances to a school are wildly different depending on which side of the railroad you are on in polygon 1036. This will increase operating costs and cause for long bus rides for students on the route 1 corridor.	Consider revising polygons that have had rapid growth prior to redistricting. This will help balance areas better and reduce the number of times our county redistricts. Stability is important to children and constantly moving them is a detriment.
5366	NorthfieldES	DunloggінMS		5	1	6			This would allow my child to go from Middle to High School with more Peers. As it stands there is a very small group that is pulled from their middle school to their districted high school.	1	6				Makes more sense. Would make the most sense if they pulled all of Dunloggin neighborhood to WLHS vs only part of the neighborhood.
5367	HollifieldStationES	PatapscoMS	MtHebronHS	2	3	7	6	8	I don't want my son to have to change schools in 5th grade when he is just getting used to this school. The bus route is more dangerous than the current one.	3	4	5	6	The feasibility study has us staying at the same schools which is what I prefer.	
5368	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	5		Polygon 147 is in Ellicott city, however the slotted schools per AAC plan are in Columbia. This is not feasible. It may also pose after school case issues and 147 residents will not be covered under Columbia Association.	3					
5369			CentennialHS	1	6	7			Thank you for keeping the Font Hill Community (1184, 2184, 184, 2156, and 156) together. Also, for taking the extra step and providing relief to CLES even though it was not a part of the proposed plan.						
5370	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	1	6	10	The Centennial schools have been over crowded for many years. In CLES, the whole 5th grade classes had to be accommodated in portables for a very long period. This plan will effectively fix this long-lasting problem.	1	6	10	3	Without proper capacity assessment of Centennial schools, new property development projects have worsen the over-capacity problem. This new plan takes important steps to correct this concerning trends. I strongly support this plan.	
5371	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	8		Redistricting is very disruptive for children. Most children in Centennial Overlook (polygon 147) have recently started new school. Changing schools again within such short time will be very disruptive to a large number of kids in polygon 147.	3	5	4	7		Do not redistrict polygon 147. This is to retain stability for a large number of children in this polygon.
5372	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	3	2	The AAC draft plan didn't take advantage of available seats at RHMS, MRMS, and GHS by moving students in their nearby overcrowded schools to these schools.The WLHS is undercapacity, which turned out to be the most affected school totally not fair to them.	3	7	3	1	The feasibility plan is much more considerate by only redistricting the overcrowded schools like AHS. The AAC plan create huge chaos at WLHS, a under-populated school, which is totally unfair to them.	Has AAC plan considered that most students at a new community "centennial overlook" in Polygon 147 just moved into this area within couple years? The AAC plan proposed to move them again to another district now within TWO YEARS NOW!
5373	ClemensCrossingES			3	2					3	2				Why can't we fast track the building of new high school then redo the feasibility prior completely so all the kids will not go through redistricting again. I saw the new pdf doc of all the comparison but all without the new school.
5374	ThunderHillES	OaklandMillsMS		1	6	10	7	1	The current draft (August 8), would allow a great feed" of students from middle school to high school	while keeping the both shools withinn capacity. Thunder Hill currently feeds to three middle schools. The current draft would eliminate one feed."	6	6	10		
5375	CentennialLaneES	BurleighManorMS	CentennialHS	5	3	1	4	7	With the current school attendance areas, my kids stay within a 2 mile radius of our home. It is easy for us to check on our kids in case of emergency,volunteer and get involved with the school . I just cannot fathom sending my kid to a school so far.	3	1	4	7	The feasibility study has our neighborhood in the Centennial community where we belong. The proposed AAC draft moves us to a neighborhood that we are not familiar with and which is too far away for kids and parents to be involved with the school.	There is a major safety concern for Polygon 147 students to move to the AAC proposed schools. AAC plan will disrupt our kids educational welfare,impacts their sleep time(esp Middle and High school kids) .Reduced time for extra curricular activities ,etc
5376	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	1	3	13	Plan suggests lot of movement for kids across regions to meet capacity targets, same targets can be achieved by moving kids between existing region (EC stays in EC) to minimize costs and reduce impact to kids	3	1	3	2	New Columbia towncenter development should provide capacity for WLMS/HS. moving columbia to Clarksville causes impact to family situation in WL area and disturbs EC breakup. 147 students will travel far, now they are less than 1 mile from schools	Keep 147 in centennial, Swap 97 and 2154 elem. schools Add 302 or 2706 to centennial to use existing capacity, minimum change for kids and no significant addition to board budget, kids will be in same middle/high schools, parents happy!
5377			WildeLakeHS	2	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns for example bus commute time, crossing major intersections and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example, bus commute time, crossing major intersections and a new court house traffic along the commute. The draft does not address the over enrollment of Thunder HS.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longetivity of the feed and maintains our sense of community.
5378			AtholtonHS	4	3	10	9	1	No high school redistricting should be done at this time.	1				At least it moves fewer kids AND preserves Atholton instead of moving 65% of the kids out. Please continue to preserve Atholton. Both Atholton and Hammond students want to stay where they are. The kids affected should be the number one concern.	Let rising juniors stay. Period. Kids should not be forced to switch schools during high school when they have already established school pride, know the teachers, know the coaches, are involved in clubs, etc. Let them stay.
5379		MayfieldWoodsMS		1	3	6	8	13	Truly doesn't take into consideration what is best for the student but rather a political and economical approach. Folks move to their respected area based upon the school.	3	7	6	8	Truly doesn't take into consideration what is best for the student but rather a political and economical approach. Folks move to their respected area based upon the school.	Keep the assignment as is!!!
5380	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2					1	1	10		It solves overcrowding by moving far fewer students and Preserves Atholton HS. It should be modified by moving Polygons 272 and 1272 East Emerson) to Murray Hill MS & Atholton HS as the Emerson neighborhood was unnecessarily split by redistricting in 2012	
5381	AtholtonES	HammondMS	HammondHS	1	3	1	4	7	Children moved from Hammond MS--becomes under-utilized. Children moved to Lake Elkhorn MS--becomes over-utilized. Significant community bonds disrupted. Children moved from Hammond HS to 4th closest HS--WLHS. No community connection, longer drive.	3	1	4	7	Feasibility study leaves Hammond MS intact and within target capacity. Moves high schoolers to AHS, which is almost as close as HHS, and allows for an outlet to decrease crowding in the northeastern part of the county.	No record/data of how AAC came up with the option to move Magills Commons to LEMS and WLHS. I am sceptical that this was based on analysis of data, I think that it is an effort to appease neighborhoods impacted by AHS moves id'd in Feasibility Study.
5382	LongfellowES	HarpersChoiceMS	WildeLakeHS	4	2	11	1			2	11	1			
5383	CentennialLaneES	BurleighManorMS		1	3	4	13		New proposed schools are 3 to 4 miles more than current						
5384	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	10	1			1					
5385	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	7			Please don't punish hardworking people and reward the opposites. America is ruined by the socialists and their goad followers who just want to take advantage of others.	3	5				
5386	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	8	7		
5387										1	7	6	4	The AAC draft plan is superior to the Feasibility Study because it better satisfies the policy guidelines and mitigates the effects of redistricting.	
5388	AtholtonES			1	3	6	7	13	My biggest concern with this plan is that it breaks up communities rather than build them. It should be obvious, but in order to have great schools, we need strong communities.	2	6	7	4	My biggest concern with this plan is that it breaks up communities rather than build them. It should be obvious, but in order to have great schools, we need strong communities.	Public education and schools thrive when they are built on community and engage parents and students. We should be doing everything we can to build communities that stay intact from K-12.
5389	TalbottSpringsES	LakeElkhornMS		5	2	6	7	9	My daughter would have to leave in her last year of elementary school under the Feasibility Study. Her high school would be on the other side of major community divide, it makes no sense for us to go so far away to Atholton when OMHS is so close.	1	1	7	5	AAC plan is better because my daughter would not have to leave her last year of elementary school, right before she'd have the attend a new middle school anyway where she would not know anyone. TSES has better G&T/music/Spanish programs for her.	Under the feasibility plan my daughter would have had to leave all of her friends and would not see them again in middle school. She can enjoy the Spanish program at TSES before continuing that in LEMS.
5390	TalbottSpringsES	LakeElkhornMS		5	2	6	7	9	My daughter would have to leave in her last year of elementary school under the Feasibility Study. Her high school would be on the other side of major community divide, it makes no sense for us to go so far away to Atholton when OMHS is so close.	1	1	7	5	AAC plan is better because my daughter would not have to leave her last year of elementary school, right before she'd have the attend a new middle school anyway where she would not know anyone. TSES has better G&T/music/Spanish programs for her.	Under the feasibility plan my daughter would have had to leave all of her friends and would not see them again in middle school. She can enjoy the Spanish program at TSES before continuing that in LEMS.
5391	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4			Keep polygon 147 in its current schools. This will reduce transportation cost, as the proposed schools per AAC draft plan are much further away and have to cross 108 (a major route). Slotting polygon 147 to schools in Columbia across 108 is not feasible.	3	4				Keep polygon 147 in its current schools - Centennial Lane Elementary, Burleigh Manor Middle, Centennial High.

5392	TalbottSpringsES	LakeElkhornMS		5	1	6	7	9	My daughter would have to leave in her last year of elementary school under the feasibility Study. Her high school would be on the other side of major community divide, it makes no sense for us to go so far away to Atholton when OMHS is so close.	1	1	7	5	AAC plan is better because my daughter would not have to leave her last year of elementary school, right before she'd have the attend a new middle school anyway where she would not know anyone. 5393		DunloggінMS		5	2	1	8	7		1	4	1	9	1.Maintaining contiguous communities or neighborhoods, Policy 6010 IV.B.2.b 2.Frequency with which any student is reassigned, Policy 6010 IV.B.2.c. 3.Transportation consideratsn, Policy 6010 IV.B.1.d 4.Consideration of demographic Policy 6010 IV.3.a-d	
5394		DunloggінMS		1	3	4	6	7	I think rather than shuffling kids out of established communities with too-great frequency, consideration should be given to increasing capacity at existing schools facing the issue (change the supply side).	3	6	4	6		For the current plan, far too little time was given for feedback even with extension (vacation month) . Also with new high school proposed in near future, redistricting will probably happen after that, so why do a temporary band-aid now?
5395	ThunderHillES	DunloggінMS	WildeLakeHS		3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, bus commute times, crossing major intersections, and traffic due to the new court house, over enrollment at Thunder Hill. Our community was not consulted with the OM proposal	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, bus commute times, crossing major intersections, and traffic due to the new court house, over enrollment at Thunder Hill. Our community was not consulted	I propose polygons 111,1111,2111 go to Northfield ES, Dunloggin MS and WLHS. This proposal solves safety and transportation concerns, longevity in the feed and maintains a sense of established community. Our community was not consulted in the OM village
5396	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	4	2	Move 97 to Northfield ES Move 2154 to CLES Move 147 and 276 to CLES, BMMS and CHS All utilization under 110% for affected schools, avoid long transportation, keeps Old Annapolis Rd communities together/contiguous, keeps diversity and farms	3	7	4	2	Move 97 to Northfield ES Move 2154 to CLES Move 147 and 276 to CLES, BMMS and CHS All utilization under 110% for affected schools, avoid long transportation, keeps Old Annapolis Rd communities together/contiguous, keeps diversity and farms	Move 97 to Northfield ES Move 2154 to CLES Move 147 and 276 to CLES, BMMS and CHS All utilization under 110% for affected schools, avoid long transportation, keeps Old Annapolis Rd communities together/contiguous, keeps diversity and farms
5397	RockburnES	BonnieBranchMS	HowardHS	1	3	4	6	9	We are very close to Ilchester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Ilichester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Ilichester elementary, bbms and Howard hs.	3	4	6	9	We are very close to Ilichester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Ilichester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Ilichester elementary, bbms and Howard hs.	I feel that Howard County is expanding at a rapid pace and we need to think of expanding the schools at the same rate.Please consider expanding the teaching staff and classrooms at Bonnie Branch Middle School so you can accommodate the growing community.
5398	PointersRunES				3	4			This plan does not consider transportation. The students in 1189 are being moved from a school 1 mile away to one 5 miles away. This increases travel time, fuel usage, etc. Also, the expansion of Rt. 32 will create a traffic and safety issues.	3	4			This plan does not consider transportation. The students in 1189 are being moved from a school 1 mile away to one 5 miles away. This increases travel time, fuel usage, etc. Also, the expansion of Rt. 32 will create a traffic and safety issues.	This plan does not consider transportation. The students in 1189 are being moved from a school 1 mile away to one 5 miles away. This increases travel time, fuel usage, etc. Also, the expansion of Rt. 32 will create a traffic and safety issues.
5399			MarriottsRidgeHS	1	3	6	4	1	Small, rural community torn apart. Students have had small classes (2) per grade, separating poly 224, 229, 231, 232, 129, 1231, 2229 during high school years hurts academics and impedes college portfolio by interrupting and forcing restart of community	3	6	1	4	Negatively impacts high schoolers building portfolios. Transportation dangerous and excessively long during Rte 32 rush. Impedes family, athletic, employment time. Don't move HS. Phase in over several years to root community. Mental and emotional distress	Poly 1304, 304, 305 MWES Poly 4189 to WFES Keep Poly 224, 229, 231, 232, 1229, 1231, 2229 WFES, MVMS, MRHS # 234, 280, 282, 294 BPES, OMS, OHS # 214 from MWES to BMMS to CHS # 170, 178, 179, 1170, 1178, 1179, 2170 to PDMS # 160, 162, 1160, 1162 to MRHS
5400	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	The AAC draft plan is illogical. It has students that are within reasonable walking distance of their neighborhood school being forced to ride buses to schools that are farther away. It will prevent kids from doing after school activities & much more.	3	7	4	6	Get rid of the AAC draft plan. It is will create a negative environment in schools where students are being forced to attend a school outside of their neighborhood. High school kids will be impacted the most with peer relations, sports teams & comraderie!	No one that I have talked to seems to be in favor of the AAC plan. Keep kids together in their neighborhood schools. It's what is best for the kids and the budget. Montgomery Co. doesn't go through this constant redistricting process & it's much bigger!
5401		EllicottMillsMS		1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5402	ClemensCrossingE	HarpersChoiceMS	WildeLakeHS		3	7	6	13	I simply do not understand how people feel entitled to have their children attend a school that is 8 miles away from them while prohibiting us to attend schools that are almost across the street. This has gone on for 20 years and must stop now.	3	4	7	9	See above comments.	
5403	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	2	Too many Hebron walkers would be bussed down 99 to MRHS impacting traffic, long bus rides and long commutes for after school activities. Students can no longer walk to their after school activities or will not be home in time to meet younger siblings.	3	4	7	8	Provides for more movement to students who have been consistently moved from school to school. It disrupts the neighborhood, the community and the traffic on Route 99, which is already at a standstill in the morning and afternoon commutes.	It takes 45 minutes to drive from Mt. Hebron to MRHS to see an after school sport event. That is on a good day. Schools will see volunteers drop drastically. An hour of volunteering turns into a 3 hour excursion. Sense of community will diminish.
5404			CentennialHS	1	1	9				2	8				I would like my high school to complete the last 2 years at her current high school to ensure a positive experience. This implementation should happen to avoid as less impact to students as possible.

ObjectID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is _____ the current school attendance areas	My response is based on:	My response is based on:	My response is based on:	My comments are:	The AAC plan is _____ the Feasibility Study Plan.	My response is based on:	My response is based on:	My response is based on:	My comments are:	Final comments are:
5405	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	2	1	4	1	14		2	4	1			Polygon 66- maintain at Clemens Crossing ES (no move to Swansfield ES) and then go to WLMS and Atholton. In all scenarios there is adequate space to acomodate. Many in polygon are in 1 mile walking distance to AHS and proposed busing not appropriate.
5406	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment of Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment of Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wild Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5407	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	6	Keep polygon 1189 in PRES and River Hill community together.	3	4	6	13	Keep polygon 1189 students in Pointers Run. Why are Maple Lawn kids bused to Pointer's Run and polygon 1189 students bused miles away from PRES when they are only about 1 mile away from the school? This is senseless and hurts our community children.	The River Hill community is being pulled apart in the AAC draft plan. Please consider how being moved away from their community, after school programs, their friends, and teachers they care about will hurt the polygon 1198 children's well being.
5408	IlchesterES	BonnieBranchMS	HowardHS	5	2	7	4	6	Keep the same schools that we currently have. Ilchester Elem,Bonnie Branch middle and Howard HS.	2	6	4	7		Please keep Ilchester,Bonnie Branch and Howard HS.
5409		MountViewMS	MarriottsRidgeHS		2	6	7			1	6	7		The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study.	
5410	IlchesterES	BonnieBranchMS	HowardHS	5	1	7	6		Howard High School is very close to our neighborhood, so it reduces our travel time to school.	1					The AAC plan reduces the number of students being moved.
5411			CentennialHS	1	3	13	4	6	This plan divides our community,Nob Hill Area, Plumtree that has no projected growth since we are an established community.Traveling in a 45 min long bus ride to MRHS will discourage them from participating in extracurricular activities they are now.	2	6	9	7	Taking a little feed of children to MRHS will not help with overflow,take a polygon that shows real growth- Polygon 97which is also diverse has projected growth of 25 students-better fit for Marriotts Ridge High School which can accommodate growth.	Take into consideration transportation costs. This plan splits our communities and is disruptive of our children's lives. At the very minimum, we would like all children to be allowed to finish high school where they start high school. Keep us in CHS.
5412	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	7	8	2		3	7	4	1	The AAC plan doesn't use Policy 6010 as guidance when they proposed the changes, at least in northern and western regions.	Keep the feasibility study plan!!!
5413			RiverHillHS	1	3	7	9	6		3	6	7	9		
5414			CentennialHS	1	3	1	4	7	AAC is creating more demand for bus routing as it is and either need to keep current attendances or keep feasibility study as it is at least more about utilization and transportation.	3	1	4	7	AAC is creating more demand for bus routing as it is and either need to keep current attendances or keep feasibility study as it is at least more about utilization and transportation.	
5415	NorthfieldES	BurleighManorMS	CentennialHS		3	4	1	10	Kids are being moved to greater distances, making the bus rides longer. Also increasing risk factor for bus riders and walkers.	3	4	7	5	I thought the idea to change the start/dismissal times were to reduce time on the bus and now kids are being send not their closest School. Ridiculous!	Kids from same Communities/neighborhoods are going to different schools. Not acceptable!
5416	PointersRunES	ClarksvilleMS	AtholtonHS	5	1	4	1			3	6				
5417		ElkridgeLandingMS	HowardHS		3	6	7	5	Please move the RDTC program out of HHS. There are many kids who join the program simply to be able to attend HHS. In addition, if a HS was built in Elkridge immediately, this would keep the need to redistrict as a bandaid now, only to redistrict again	3	6	7	4	Please consider Drew Roth's Keep Elkridge Together plan for the NE HS's. His plan keeps as much of the community together as possible, improves the feeds, accomplishes the same capacity goals, and additionally saves hundreds of transportation hours.	I believe lower Elkridge has been added to the mix because the Lyndwood community used their financial means to build a powerful resistance to the their children being redistricted. They had professional signs and t-shirts made overnight, and it worked.
5418	PointersRunES			1	3	4	5	7		3	4	6	7		
5419		WildeLakeMS	AtholtonHS	4	2	11				1	6	7	9	The AAC draft plan appears to distribute the redistricting better than the Feasibility Study without overly impacting any one school or feeder group. Overall the AAC draft is a much more reasonable plan than the Feasibility Study.	While no redistricting plan will make everyone happy, the AAC's draft seems more equitable.
5420	CentennialLaneES			1	3	4	6	9		3					This school board/superintendent are proving to be no better than the previous people. Simply "doing things" to say "look at what we have done"...while nothing really gets accomplished. You moved school times when asked not to and now this! LISTEN TO US!
5421	DaytonOaksES		RiverHillHS	1	3	6	4			3	6	2			
5422	RockburnES	BonnieBranchMS	HowardHS	1	3	4	7			3	4	5			
5423	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	9	13	6		3	14	13			
5424	ThunderHillES			1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5425	CentennialLaneES			1	3	4				3	13				
5426		ElkcottMillsMS		1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5427	BellowsSpringsES	BurleighManorMS	CentennialHS	1	3	4	9	1	This plan is illconceived and unfair.						
5428	IlchesterES	BonnieBranchMS	HowardHS	5	1	1				1	1	6	7	Feasibility study separates 84 from surrounding communities & the school feed we fought so very hard for at the last elementary redistricting. Our children will once again start another school knowing no one!!!!!!	Polygon 84 fraught so very hard to finally be put with our surrounding communities & school feed at the last elementary redistricting. The AAC plan continues to keep us with our community & feed.
5429	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13	4	6	This plan looks to me like Atholton/PR/CMS parents united to ensure they were not affected at all. The only reason this would be done is for diversity of one group and if that is the case how come Glenelg the least diverse group in county is unaffected??	3	4	6	13	The Feasibility plan made perfect sense with minimal disruption since most kids were coming from same Middle school . AAC actually hurts kids that from WL that can no longer walk from after school activities due to working parents.	Anyone who looks at the numbers can see that RH is the most affected school in the county by far from this plan. RH has much more ethnic diversity than Glenelg, if you want to impose busing which is exactly what this is than diversify Glenelg as well!!
5430	ClemensCrossingES			3	2	12	7			1	9	7		The Feasibility Plan proposed removing 2/3 of the population of our high school, Atholton, and bringing in new students, dramatically changing our community when no change was needed. Atholton is neither under- or over-populated and well-performing.	
5431	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	6	1	7	This AAC draft plan correctly balances kids across school.	1	6	8	7	This AAC draft plan is much better than earlier proposed plan.It correctly accounts for policies in addition to Policy 6010 IV.B.1.a, 6010 IV.3.a-d, 6010 IV.B.1.d. My daughter was previously redistricted and is proposed to school that is not contiguous.cm	
5432	ManorWoodsES	MountViewMS		1	3	13			The distance from my home to the proposed schools are not reasonable.	2	13				
5433		BurleighManorMS	CentennialHS	1	3	1	4	13	we are only 147 is .9 miles away.	3	7	1	4	this is what he suggested - Move 97 to Northfield ES (they stay in BMMS & CHS). Move 2154 to CLES (they stay in BMMS/CHS). Move 147 and 276 to CLES, BMMS and CHS with utilization at 107%, 104% and 100% respectively.	Northfield utilizations goes up to 109% but it still works. Pro: All utilization under 110% for affected schools, avoid transportation to Longfellow and Wilde Lake schools, keeps Old Annapolis Rd communities together/contiguous, keeps diversity and farms
5434	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	3	4	6	Aligns better with Policy 6010, in keeping the projected Utilization percentages in target all across the board. Avoids frequent redistricting of the same community. Comprehensively addresses the principles of Policy 6010.	1	7	9	1	Performs better than the feasibility report in maintaining a great demographic mix and great income mix. Avoids frequent redistricting of the same community. Efficient use of existing seats and proposes much more robust feed percentages.	Avoids polygons that have low feed percentages in the redistricting process. Has a more balanced redistricting approach across the entire county.
5435	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	3	4	7		3	4	3	7		
5436	ManorWoodsES	MountViewMS	MarriottsRidgeHS	3	2	7				1	7				
5437	ManorWoodsES			4	2	6			Maintains community stability of polygon 1170	1	6			Aac draft maintains community stability of polygon 1170 by keeping it the same as current	
5438			HowardHS		1	7	2	3		1	7	2	3		
5439	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	8		AAC draft plan does help with solving the overcrowding issue in Howard County Public Schools.	1	8	1		AAC plan makes much more sense to me in solving the underlying issue (school overcrowding) than the plan in the Feasibility Study.	
5440		BonnieBranchMS		1	3	4	7	13	BBMS is less than one mile and less than 5 minute walk from our house. ELMS is 3.3 miles away. Our son prefers to walk to school daily. By changing to ELMS he will have a long unnecessary bus ride.	3	4	7	13	The Feasibility study plan did not suggest moving the polygon 91 to ELMS.	It does not make any sense to transport a child who walks to school that is less than 1 mile away to a school that is 4 miles away. It is very convenient for us to access the school for pick up/drop off and create unnecessary stress in making new friends.
5441		BurleighManorMS			3	4	6	7	This draft plan absolutely doesn't make sense to leave out our community, which is new. It seems that polygon 147 is forced to be left out for what reason?	3	4	6	7		
5442			WildeLakeHS	1	3	4	13	7	Splits community and friends , also school is far in case of emergency drop off or pick up, also effects my chid study since they are set in one school now they have to start over again making new friends , getting useto with new school system and teacher	3					
5443			WildeLakeHS	1	3	4	13	7	Splits community and friends , also school is far in case of emergency drop off or pick up, also effects my chid study since they are set in one school now they have to start over again making new friends , getting useto with new school system and teacher	3					
5444	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	5	6		3	4	5	6		
5445			RiverHillHS	1	3	7	6		The Feasibility Study suggestion for moving the Atholton kids to River Hill is the best option. It is crazy that these kids who often grew up together and went to middle school together get split between Atholton and River Hill.	3	7	6		The Feasibility Study suggestion for moving the Atholton kids to River Hill is the best option. It is crazy that these kids who often grew up together and went to middle school together get split between Atholton and River Hill.	
5446	NorthfieldES	DunloggінMS	WildeLakeHS	4	2	1	4	7		1	4	6	1		
5447	ThunderHillES	DunloggінMS	WildeLakeHS		3	4	1	13	This plan negatively impacts my children due to transportation and safety concerns (longer commute time, having to cross major intersections, and a new court house adds traffic to commute path). Does not address over enrollment at Thunder Hill ES.	3	4	1	13	This plan negatively impacts my children due to transportation and safety concerns (longer commute time, having to cross major intersections, and a new court house adds traffic to commute path). Does not address over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5448	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	3	1	4	6	See Neighborhood Endorsed Plan for polygons 179/1179 ... please move our polygons only to WFES (and then feed to MV and MRHS)	2	1	4	6	See above	Also, please consider allowing rising 11th graders to finish out school at original (like accommodation for 12th). Their focus needs to be on School work, SATs and college prep, not navigating a new school
5449	TalbottSpringsES	LakeElkhornMS		4	1	6				1	5				
5450	ManorWoodsES	MountViewMS	MarriottsRidgeHS	1	3	7			I wholeheartedly support the plan set forth by the Neighborhoods of Polygons 179/1179 and submitted to the AAC on 8-15-17.	3	6				
5451			WildeLakeHS	1	3	6	7	13	I'm a student at Wilde lake high school and I feel that I would be affected negatively by the AAC draft because my sports team would lose many players resulting in us not being able to form a jv team and my GT classes would also lose many students.	3	6	7	13	The feasibility study does not disrupt the boundaries as much the AAC draft	I don't think 11th graders should move schools
5452			CentennialHS	1	3	13	13	13	My daughter plays marching band at centennial high school. If she move in the middle of high school, does anyone guarantee to get into the same marching band in the school that she moved. She also has to change uniform and.. It costs me.polygon-2154	2	13	13	13	My daughter plays marching band at centennial high school. If she move in the middle of high school, does anyone guarantee to get into the same marching band in the school that she moved. She also has to change uniform and.. It costs me.polygon-2154	This is very big issue for everybody and especially high school students. I do NOT think this plan is good idea.
5453	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	13	13	It is very disruptive and it is a cause of concern for parents of little kids in elementary will have to cross a lot high traffic roads to get tot he school whereas now they are just within this area.	3	4	13	13	Both the plans are completely different and not sure what do the basis of forming the plan.	Please reconsider the proposal to redistrict and see if disruption can be minimized
5454	ClemensCrossingES	WildeLakeMS		1	2	11	14	14	It looks as if you changed nothing at all. Absolutely nothing has changed for the better. Horrible plan.	3	1	7	9	The Feasibility study improved school usage. This plan does nothing to address the major problems facing howard county. May as well do nothing at all!	The Feasibility Study was WAY better.
5455	RockburnES	BonnieBranchMS	HowardHS	1	3	13			The school attendance of Bonnie Branch is minimal in comparison to the increase in fluctuation to the increase in students from Rockburn being bused and removed from a comfortable distance walking distance from Cascade Overlook with respects to BB Middle.	3	9			The feasibility does not take in account the income and tax bracket relative proportionately. It disproportionally redistricts only based on students already attending Rockburn and not location relative to schools, thus inconveniencing parents schedules.	Howard Co. being the 2nd wealthiest county in the U.S. why can't new schools be built and accommodations be made temporarily based on relative location. We are here in HOCO. to provide our children with the best education, not subject to the boards draft
5456			MtHebronHS	1	3	8	2	6	Living behind Mount Hebron HS, my two children have been redistricted between St Johns, Hollifield Station, and Waverly. As my young adults enter high school social networks have been formed, academics is their focus. WHY REDISTRICT NOW? INSANE!	3	8	2	6	My comments are directed to better long range forecasting and giving a kid an expectation as they enter Howard County Schools as to their path through ES, MS and HS...particularly HS. Transplanting High School students will not improve their SAT's.	From a student's perspective, being redistricted years from now will probably be remembered as disruptive. Taking a few classes in temporary buildings will not. Redistricting should be viewed as a failure not as a regular event.
5457	PointersRunES	LimeKilnMS	ReservoirHS	1	3	1	6	13		2	1	6	13		Lime Kiln MS already exceeds capacity and will be significantly overcrowded by 2018-19 with new subdivisions and families added to Maple Lawn. Reservoir HS will be overcrowded by 2020-21. Our polygon should be Clarksville MS and River Hill HS.
5458		ClarksvilleMS		1	2	7	6			3	6	7		Before adding new communities, all of the River Hill neighborhoods should go to River Hill High School. Splitting off small sections of Pointers Run divides the neighborhood.	
5459	NorthfieldES	BurleighManorMS	CentennialHS	5	2	14	14	14	The plan is better for my family and I hope it is placed into action.	2	14	14	14	They look the same to me...?	
5460	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	Not a good plan. Kids would be un neccessarily troubled.	3	4	6	7		
5461			MtHebronHS			7	4		Please keep the Hebron feed the same as it is. Wait until the new high school is built, they redistrict one time.						
5462		ClarksvilleMS		1	3	4	6	7	The AAC plan will ruin my life in high school. This plan will separate me from my best friends. Also, I am a born Raider, so I want teachers to know me from my sisters and I don't my Atholton gear to go to waste. I just want the AAC plan to be destroyed.	3	6	4	7		I really feel like the redistricting was a horrible idea to begin with and everything should go back to normal to avoid the chaos.
5463	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	OMMS and OMHS are further away (longer bus commute) and potential courthouse traffic interference with routes from our community. Plus, my oldest loves DMS and my youngest wants to go there.	3	4	1	13	OMMS and OMHS are further away (longer bus commute) and potential courthouse traffic interference with routes from our community. Plus, my oldest loves DMS and my youngest wants to go there.	Better solution for polygons 111, 1111, and 2111: Northfield ES, Dunloggin MS, Wilde Lake HS. It solves safety/transportation issues, feed longevity, and maintains sense of community.
5464			LongReachHS		3	9	5	2		3				Less kids in east of Howard county, , every one should be shifted to east to make space	

5465	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	Plan negatively impacts us from a transportation + safety perspective. Specifically extended bus commutes; failing to account for traffic from Bendix facility and new Courthouse construction+ resulting traffic.Fails to address overcrowading at Thunderhill	3	4	1	13		Same issues; Bendix + Courthouse Traffic; major intersections; overcapacity at Thunderhill ES. Disrupts longstanding relationship with Wilde Lake and Dunloggin. Mooving elementary kids to Northfield and retaining Dunnloginn + Wilde Lake makes sense.
5466	WaverlyES	PatapscoMS			3	4	8	7	We live in the Mt. Hebron neighborhood, which is in the walker range of Mt. Hebron HS. Busing our children 15 - 20 minutes west of our neighborhood on an increasingly congested Old Frederick Rd. borders on the ridiculous.	1	4	6	7	I'm not in favor of the Feasibility Study either, since our daughter will need to be reassigned from Waverly ES to St. John's Lane ES for her 5th grade year. Most of her friends and band-mates will remain at Waverly.	The Draft Plan would also make it very difficult for our children to continue to participate in before and/or after school activities (Howard County does not offer a late bus" like other counties) since my wife and I work southeast of here."
5467			CentennialHS	1	3	7	6	13	We chose this house in Dunloggin, instead of a house just south of here specifically because of Centennial HS. I think it's important to all homeowners in Dunloggin to be able to send their children to Centennial.		14	14	14	Looks very time-consuming to read through the 115 page Feasibility Study. I only saw a map for the AAC draft plan on the link on this survery.	It's clear there are so many factors that influence these decisions. It's unfortunate for the kids who are negatively impacted by the changes.
5468	NorthfieldES	DunloggінMS		1	3	7	6	4	The ultimate goal should be to maintain community continuity and lessen emotional strain on transitioning children. Transportation is also a major consideration as my child will lose a significant amount of personal time to commuting.	3	7	4	6	The AAC draft plan has not provided adequate time for the community to respond. In addition, high schools were not originally considered and will have to be redistricted once the new high school is built. This could result in multiple transitions.	I moved to Ellicott City because of the sense of community that was offered. Not allowing established communities to stay intact with their respective feeder schools is stressful for children transitioning. Additionally, the commute will be negative.
5469	LongfellowES			1	3	6	7	2	Our polygon is left with NO adjacent polygons that will feed from ES to MS to HS together. Our kids will go to ES with one group of neighborhood kids, MS with another, and HS with still a different group. NO continuity for kids to build community.						Our polygon,1143, is adjacent to only 2 plygns (without crossing rt.108)142 & 143. Of these, only 142 is walkable for ES and MS-age children (143 is separated by thick woods & area of no sidewalks on 108). 1143 & 142 will only share MS--No continuity!
5470		HarpersChoiceMS	WildeLakeHS	4	1	1	3	2		1	1	2	3		
5471	NorthfieldES	DunloggінMS		1	3	6	7	4	The ultimate goal should be for the children to be with their long time friends and acquaintances throughout their school life. To break a neighborhood in pieces will do nothing but cause irreparable stress and anxiety which will in turn lower grades.	3	6	3	13	The AAC draft plan does not consider the fact that the kids will have to be moved again once the new high school is built. Why are we disrupting our children multiple times. Common sense says to leave things All e until the new school is built.	My wife and I moved to the home we are in under great financial stress so that our children could attend certain schools. We feel this redistricting is a slap in the face to our sacrifice for our children. In life nothing matters more than our children!
5472	PointersRunES	LimeKilnMS	AtholtonHS	3	1	6	7	3	The students in our community currently are attending Lime Kiln MS, which is overcrowded. We are happy that in AAC plan they can go to Clarksville middle school together with the rest of students graduated from Pointers Run Elementary school.	3	6	7	1	AAC plan will have half of the students attending Clarksville middle go to Riverhill high school, whereas another half go to Atholton. Feasibility plan helps the big riverhill community stay intact, and let all the the CMS kids feed to same high school.	I strongly support the idea of the K-12 community, which would allow the kids have relative stable and continous social connection. It would benefit the community and whole school system as well.
5473		ElkridgeLandingMS		1	3	6	7	9	Keeping a large feed, from ELMS, at Howard High will maintain the community of lower Elkridge and fulfill the school policy which calls for Community Stability"-"	3	6	7	9	If the Lyndwood areas are districted to Long Reach, that would improve the diversity of Long Reach High School. It would assist HCPSS in following policy 6010 Demographic Characteristics of Student Population""	I am in support of Drew Roth's Keep Elkridge Together Plan. Drew has come up with an excellent plan which allows the students in lower Elkridge to stay together at Howard High School. His plan closely follows the HCPSS policy 6010 for school atte
5474	CentennialLaneES		CentennialHS	1	3	1	4	6	The schools are very far the community. It's like isolating the community so the we do not belong anywhere	3	1	4	6	It's worse again isolation from the community	Keep 147 in centennial area so we are not isolated
5475	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	7	6	13		3	9	13	14		
5476	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111,1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community!
5477			CentennialHS	1	3	4	7	13	Worst plan ever to move from current HIGH school students to very different environment school area and also too far from home. Ploygon(2154)	2	4	13	7	Worst plan ever to move from current HIGH school students to very different environment school area and also too far from home. Ploygon(2154)	
5478			CentennialHS	5	2	7				1	7				
5479		HarpersChoiceMS		1	3	6	7	4	There is no continuity with the students. Many students do not go to the same schools with their closest neighbors, but which neighbors they go to school with changes each school level. It disrupts the sense of community which is so cerntral to Columbia.	3	6	7	4	Neighborhoods are kept together more in the Feasibility Study Plan, so students have continuity. They go to the schools closest to their neighborhood, fostering a strong sense of community. In most cases they go to every level of school with the same kids	Constantly bouncing" students around so that they can never have a consistent group of school friends is disruptive to their emotional well-being. Also busing students for long periods of time just adds to their school day taking away from family time."
5480	GormanCrossingES	MurrayHillMS	AtholtonHS	5	2	3	1	2		1					
5481		BonnieBranchMS		1	3	4			We are very close to Bonnie Branch Middle School than Elkridge Middle School, and close enough to walk, less than 2 mins. We are in polygon 91, walking distance to both Ilchester and Bonnie Branch.	3	4	6	9		Changing kids school environment after being in one school for a year or two, and then changing them to another is disruptive especially if you have a child under 504 plan.
5482	ElkridgeES			1	3	7	6	4	Our children will be of an isolated group separated from their community if they go to Long Reach Vs. Howard High school						
5483	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	6	4	7	We will be bused 2 miles further away with the new draft proposal which is more time in the bus and greater gas expense	3	6	4			
5484	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	13	6	7		3	6	13	7		
5485	NorthfieldES	DunloggінMS	CentennialHS	1	3	14	14	14	SPLITTING UP TIGHT COMMUNITY	3				SPLITTING UP TIGHT COMMUNITY	SPLITTING UP TIGHT COMMUNITY Please do not do this to me and my family.
5486	RockburnES	BonnieBranchMS	HowardHS	1	3	7	4	6	We are 0.5 miles from Ilchester and Bonnie Branch than Rockburn and ELMS. All close by neighborhoods go to Ilchester and BBMS except my community kids. We are in polygon 91. Please assign us to Ilchester Elementary, BBMS and Howard HS.	3	6	4	7	We are 0.5 miles from Ilchester and Bonnie Branch than Rockburn and ELMS. All close by neighborhoods go to Ilchester and BBMS except my community kids. We are in polygon 91. Please assign us to Ilchester Elementary, BBMS and Howard HS.	Please do not move Polygon 91 kids away from their neighborhood friends and community! Keep them at BBMS which is just across the street! Do NOT move them to ELMS which is clear across the other side of I-95! Doesn't make sense! We bought a home here!
5487	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	6	7	13		3	9	13	14		
5488		ElkridgeLandingMS		1	3	6	7	9		3

5494	ElkridgeES			1	3	6				3	6				
5495			LongReachHS	1	3	7				3	6				I feel that this plan puts parents and students in a very difficult position in the middle of their high school programs.They have committed their loyalties and participation to many programs both academic and athletic/extra curricular. No continuity.
5496	PointersRunES	LimeKilnMS	AtholtonHS	1	3	13	7	6	This plan sends a very small feed of children from Lime Kiln to Atholton.	3	6	4	7	The feasibility study keeps these children together without creating small feeds and fractured communities throughout the county.	
5497	ElkridgeES			1	3	4	1			3					
5498	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	13	9	8	Moving polygon 183 and 1183 from river hill to glenelg will have a very negative impact on our community, our children's education and our home values. We moved to this specific area because of the level of education and diversity at RHHS.	3					
5499	WaverlyES	PatapscoMS	MtHebronHS	1	3	4		13	Currently my neighborhood is right next to our high school, mount Hebron and are walkers there. it makes no sense to send us so far away to another high school over 6 miles away when we can currently walk.	3	4	7	14	Feasibility study has us bringing the elementary school in line with the feeders for middle and high school where we are walkers which makes sense. The AAC plan has us going to western schools moving us away from the high school where we are walkers.	You should not redistrict schools where people are walkers. We should remain at the high school in our neighborhood that we can walk to and have an active community involvement with. People should not be moved to a hs over 6 miles away if you can walk
5500	VeteransES			1	3	6	7	4		3	6	7	4		
5501	BushyParkES			1	3	2	1	3	This plan moves children unnecessarily from bushy park -a school that won't be over capacity in the next 10 years.	3	1	2	3	The aac plan moves 234 from bushy park and doesn't replace the decrease in student population with another polygon. Bushy park will be under capacity in 10 years. If the tridelphia kids aren't moving west I'm not sure why polygon 234 needs to move.	Moving 234 to Lisbon also increases costs since Lisbon is not a green school.
5502	RockburnES	ElkridgeLandingMS	HowardHS	5	2	1				1	1				
5503	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	7	4	1		3	7	6	4	We live in Riverhill village, should go to the much closer Riverhill high school other than Atholton High school. It wastes the students time and county budge for transportation. Also we would like our kids go to the same schools with their friends.	Pointers Run elementary school is already overcapacity with the redistricting done 3 years ago. It doesn't make sense to move the south part of the Fulton ES region to Pointes Run again.
5504	AtholtonES	OaklandMillsMS	OaklandMillsHS	5	3	7	6	13	we are currently a small feed but have a sense of community. The considered plan will take that away from us. Our kids will be pulled from their contiguous community of friends at the middle school level and then again at the high school level. Dumb!						
5505	FultonES			1	2	6			Polygons 221, 1221, 2221, 1007 and 7 go from Fulton ES to Hammond MS to Reservoir HS. This broken feed can be corrected by moving them to Lime Kiln MS with the rest of Fulton ES. Polygons 1009 and 9 are Hammond ES, Hammond MS and Reservoir HS.	2	6			Polygons 221, 1221, 2221, 1007 and 7 all go from Fulton ES to Hammond MS to Reservoir HS. This broken feed can be corrected by moving them to Lime Kiln MS with the rest of Fulton ES. And polygons 1009 and 9 are Hammond ES, Hammond MS and Reservoir HS.	
5506	WestFriendshipES	MountViewMS	MarriottsRidgeHS	3	2	11				2	11				
5507	ThunderHillES	EllicottMillsMS		5	2	1	14	14	Request not to change existing polygon 311 's current elementary, middle and high school area as it will impact neighborhood	2					
5508	ElkridgeES				3	13									
5509	StevensForestES			2	3	9	6	7	The AAC plan was made with the flawed data that the original Feasibility Plan was based on. Also, it appears that some of the politicians involved have received campaign support from developers.	2					There is a huge disparity between the outcomes for different schools in Howard County based on this plan. East Columbia has been underrepresented in the redistricting process so far and the plans are based on false data.
5510			HowardHS	1	3	4	1	7	Our community sits less than 1/4 mile from IES and BBMS. We are close enough to walk to school, if Landing Rd had a sidewalk. The neighborhoods on the west end of Landing Rd are ALL IES and BBMS. It is not efficient to move our pod to ELMS or stay at RES.	3	4	7	1		The pod consisting of Cascade Preserve and Cascade Overlook does not contain sufficient number of children to overburden IES or BBMS. It is neither financially nor time efficient to continue to transport to RES or change to ELMS.
5511	RockburnES	BonnieBranchMS	HowardHS	1	3	6	4	9	We are very close to Ilchester and Bonnie branch than rockburn and elms. All close by neighborhoods goto Ilchester and Bonnie branch except my community kids. We are in polygon 91. Please assign us to Ilchester elementary, bbms and Howard hs.	3	4	6	9	The Feasibility Study is very good choice and the AAC draft plan is worst one.	RockburnES is currently at 105% capacity and predicted to get worse in the future.Ilchester ES is currently underutilized at 86 % and predicted to go down in the future. By moving polygon 91 from Rockburn ES to Ilchester ES,positive effect to balance both
5512	ClemensCrossingES			1	3	9	1			3	6	9	14	Feasibility study recommendation was better aligned than AAC draft plan for polygon 127	If a change is needed I think the feasibility study recommendation works better to keep a majority of elementary, middle and high schoolers together.
5513	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	7	13	4	Within the stated goals of the school zoning regulations is a statement that is is a priority to keep neighborhoods together. Both the proposed and the new plan split the Valley Mede Comm in half, which is not acceptable for our neighborhood's children.	2	7	6	13	This plan splits the Valley Mede Community in half, therefore going against Policy 6010 IVB.	
5514		DunloggінMS		1	3	4	6	7	Why polygon 97 and 3147 stay centennial high school. There is no reason keep them CH and move our area to Wild Lake.	3	4	6	7		
5515	ThunderHillES				3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It's also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	polygon 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OM HS will quickly become overcrowded, potentially more so than Howard HS.
5516	ThunderHillES				3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It's also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	polygon 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OM HS will quickly become overcrowded, potentially more so than Howard HS.
5517	WaverlyES	PatapscoMS	MtHebronHS	1	3	4	8	6	The AAC draft plan busses kids that walk and live closer to their current high school than other other walkers. Spending money on transportation bus walkers miles away doesn't make logical or economic sense.	3	4	6	8	Splitting up neighborhoods For second time in five years is disruptive especially when the students live so close to neighborhood schools and students living further away are not redistricted.	The feasibility study keeps the community together and saves money. In a greener world, moving students that can walk to school doesn't make sense and especially impacts high school students from being included in community school functions and events
5518	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	6	7	10	The original feasibility study recommendations are much better than the AAC draft plan 1. I don't like this one at all. It does not move enough kids to accomplish the objective. This one is too minimal and kids will have to be rezoned again in 2 years.	3	6	7	8		Thank you for sending the survey. Families like to participate and have a voice. We appreciate you listening to our comments! :-)
5519	ThunderHillES	EllicottMillsMS	HowardHS	1	3				I strongly opposed this proposal and would like to keep the schooling as it is.						
5520	NorthfieldES	DunloggінMS	WildeLakeHS	5	1	1	4	6		1	6	8	7		
5521	SwansfieldES	HarpersChoiceMS	WildeLakeHS	3	3	4	9		It is much closer for HCMS students to go to AHS instead of RHHS. Ideally I would like my daughter to attend WLHS, which she is in the walk area for my address. The transportation cost would increase by sending to either AHS or RHHS. SES should go to WLHS	3	4	9		The Feasibility Study does not result in any changes for my children, which is what I would prefer.	
5522		MurrayHillMS		5	1	6	14	14		1	9	5	4		
5523		OaklandMillsMS	OaklandMillsHS		2	7	12			2	7	9	12	still seems like communities are disjointed and sent past schools to the new school	
5524	WestFriendshipES			1	3	2	4		Move turf valley to waverly	2	2	1		Move turf valley to waverly	Move turf valley to waverly
5525	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7			1	6	7		Fewer students are moved around. Keep exsisting structures in the north and west and changes only crowded areas.	
5526	ElkridgeES			1	3	4	7	13							
5527	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	3	4	7	9	keep polygons from harpers choice MS at WLHS.Keep 1066 and 66 together at WLHS. Move 1066 and 66 to Swansfield ES for continuity. TOO FAR TO RIVER HILL HS	3	4	7	6	The AAC keeps 66 and 1066 together but sends to RHHS. The F study breaks them apart sending to WLHS (current) and AHS which breaks apart neighborhood/community. Group together with rest of Watch chain/cedar lane and send to SWES, HCMS, WLHS	Consider moving regional programs to underpopulated schools. Move ROTC to River Hill or other school to gain student numbers. Please keep polygons 66 and 1066 together by moving from CCES to SWES and continue to HCMS and WLHS.
5528			ReservoirHS	4	1	10	1	7	The AAC draft plan provides a temporary solution to some of the school overcrowding issues. It is clear that a new high school needs to be built and opened ASAP.	1	1	6	10	The Feasibility Study involved moving HUGE masses of students, especially at the high school level (particularly in regards to Atholton HS). That did not seem like a realistic solution at all.	I would be interested to know where the new High School and the proposed new Elementary Schools will be built, their projected opening dates, and how these new schools will impact current attendance areas.
5529			CentennialHS	1	3	7	4	6	so many students are moved in each polygon, separation from friends and will affect my child study as it takes time to get settle in new school .						
5530	ElkridgeES	ElkridgeLandingMS	HowardHS		3	14	14	3		3	9	6	3	ww bought our house looking at Howard high school, its a better graded school than long reach.	

5531	ElkridgeES			2	3	6	7	2	While current areas do send a small portion of ELMS students to Long Reach, this AAC draft plan divides the Elkridge community at high school. It does nothing to solve the need for a new high school.	3	6	7	2	There is not enough data presented with the AAC draft to explain the proposal as there was with the feasibility study. The feasibility study didn't break apart the Elkridge community - it kept a majority of ELMS students together for high school.	One of the comments for moving Polygon 2038 to Long Reach was that it wouldn't impact many students. Where is the data to support this comment? We have several high school students along Hanover Road that will be impacted by this move.
5532	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	2	4	8	A new Elementary School is needed at Turf Valley. Please keep the students that will attend that school all together and fast track the new elementary school. Maybe send the Turf Valley kids to Waverly until the new elementary school opens.	3	4	8	6	The proposed redistricting makes a major redistricting necessary for the same students in a few years when the new Turf Valley Elementary School is built.	Please send the Turf Valley children to Waverly and fast track a Turf Valley Elementary School.
5533	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	10	7	9		3	9	10	14		
5534			MtHebronHS	1	3	2	4	6	We are a walkers to Mt. Hebron. The plan would bus us out to Marriotts' Ridge. And once the new High School is built then we would then be returning to Mt Hebron. So I recommend not redistricting the High School until the new one is built.	3	6	13	2	When Principle Rural was at Mt Hebron he talked about what a great community we were. So now you want to take our community and break it up. With walkers on Ballard Way moving to Marriott's Ridge, we are Mt. Hebron. We hear the band etc.	Why not leave the homes on N Rt 32 at Marriott's Ridge and not send them to GlenElg and leave us at Mt Hebron. Then when the new High School is built then redistrict the High School as needed.
5535	StevensForestES			4	1				No school should have 67% FARMS....when every other school in the county is less than 50%.	1					
5536	BushyParkES					14	14	14	Both the Polys proposed to move from BPES to LES AND all the students at both schools collectively are better served if the BPES to LES Polys remain at BPES. REMAIN (BPES = 94% and LES = 85.6%) is better than MOVE (BPES = 86.8% and LES = 96.4%)		14	14	14		NOTE - Both BPES and LES have long term projected decreases in utilization making moves between the two schools unnecessary.
5537			CentennialHS	1	3	7	4	8	This plan is ridiculous, it separates neighborhoods, and makes students who live closer to one area attend another. The the current school attendance areas are perfectly fine and works with students as well as their parents.	3					As a student this plan is awful, this plan makes transportation much worse for my parents. My friends will be taken away to another school. My neighborhood will be split and much more.
5538			OaklandMillsHS		1					1					Adding single family homes to the current population will have to build the community and attract families to this neighborhood. This needs to be done in order for this school to thrive.
5539	CentennialLaneES	BurleighManorMS	CentennialHS		3	4	1	8							
5540	StevensForestES				1				Decreases the amount of FARMS students	1				This school should not have the highest amount of FARMS students. Also, students should not have to walk past one school to get to another.	
5541	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	2	4	13		3					
5542	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	13	6	While the schools attendant rate is still not full my kids needs to "fill up" other schools which less occupied. Howard HS is less than a mile from us my kids suffer join further high schools while other students come from many miles away to Howard HS.	3	2	8		The AAC plan is not effectively use the resources because of the new school is on the way students needs to relocate and readjust school life after that. It is an important factor to students when they must be relocated after a period of time.	
5543		DunloggінMS	CentennialHS		3	7	4	13	We should not be considering moving HS kids w/o a firm long-term plan. HS years are very important and kids need stability. Families move into homes for that stability for THESE years which you are now disrupting with ridiculous polygon discussions.	3	5	4	7	The AAC moves my kids who are both GT level into a HS w/ fewer advanced classes. It divides our n'hood in half for no justifiable reason. This was done b/c of backlash from Grey Rock so you traded our kids for theirs' even though we are farther from WLHS	Polygons 1155, 155, 3150, 2150, 150 (mine), 4150, 219, & 1150 are all ONE community (Dunloggin) and should remain at CHS. OR they should all go to the closer school Mount Hebron. WLHS should not be an option. If needed, revert back to the Feasibility 5.
5544	AtholtonES			1	3	1	4	6	While I appreciate the middle school remains the same for my kids, a large group of students with whom my children have known since elementary school are arbitrarily redistricted to an overcrowded new middle school, which is inefficient and disruptive.	3	4	1	6	The AAC draft plan exacerbates the problems of the feasibility study.	
5545	ClemensCrossingES			1	3	4	6	7	Child and friends from daycare program (in Atholton High) would be split. Travel time would increase substantially.	3	7	4	6		
5546			HammondHS	4	2	4	3	7	The draft keeps polygon 13 at HHS which is in walking distance. This allows my student to walk to school and can participate in after school activities and sports. It keeps us with some of our community but breaks us from Our community at Mcgills commons,	1	3	4	14	Polygon 13 is less than a half a mile from HHS. Waste of money busing kids to another school when they are walkers. Breaks us away from our community and support systems. My son walks to football practice. Would not be able to play if his school changes.	Polygon 13 should stay at HHS. Both plans crush our community. Polygon 13 and Mcgills Common should stay with Hammond middle and HHS. This keeps our community together and provides a nurturing educational experience for our kids. Community is everything!
5547			WildeLakeHS	1	3	4	7	9	We belong to a neighborhood with high transiency & many walkers. Attending a school where they would be bused prevents many from after school activities, which they greatly benefit from. As well as the consistency of being with the same kids through HS.	3					
5548	DeepRunES			4	1	1	6	7		1	1	7	6		
5549	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	3	7	6	9	66 and 1066 should stay together. HCMS should continue to feed WLHS	3	7	6	9	66 and 1066 should stay together. HCMS should continue feeding WLHS	
5550				1	3	13	4	14	The major factor in deciding to build a house in this part of the county 2 years ago was based on the assigned Howard High-School which has good standing compared to other high schools in Maryland. This will force us to leave a community we like.	3	13	4		The major factor in deciding to build a house in this part of the county 2 years ago was based on the assigned Howard High-School which has good standing compared to other high schools in Maryland. This will force us to leave a community we like.	
5551	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	13	The plan does not consider neighborhoods and walkability to neighborhood schools. Kids are not kept together for a streamlined K-12 experience. Moving kids during sensitive middle and high school years to a new school where they have few friends is BAD!	3	7	6	13	Love the Feas. Study which puts all kids living in the Village of River Hill back at River Hill HS - that's what it was built for in the first place! Makes no sense to have kids that live across the street from Clarksville ES go to TRES. Fix this part.	This constant disruption and reshuffling certainly doesn't seem best for kids. No thought given to the social and emotional aspects of changing schools and being forced to attend schools that are many miles/minutes away from home. $ wasted on gas/traffic
5552	AtholtonES	OaklandMillsMS		1	3	13	7	1	AAC plan	3	13	6	7	AAC draft plan negatively impacts both our kids long term plans and the overall quality of education they would receive	
5553			GlenelgHS			11	11	11	I think some will be pleased or non-commital, but those being pulled from a school like Centennial and sent to Wilde Lake will be furious.		11	11	11		
5554			CentennialHS		3	7	8	13	This draft is more harm than good, it will tear apart my community, transportation will become extremely difficult and my child will be moved away from those she has known for so long.						This plan is terrible and will cause many neighborhoods to be ripped apart. I as well as my whole community liked the current school attendance much better.
5555	PointersRunES			1	3	4	5	6	The AAC draft plan moves polygon 1189 from PRES to Dayton Oaks due to "PRES cannot handle both polygon 1189 and 189 (new development that is still a land today)". Pleas consider keeping 1189 to PRES due to its long time tie to PRES.	3	4	5	6	The AAC draft plan moves polygon 1189 from PRES to Dayton Oaks due to "PRES cannot handle both polygon 1189 and 189 (new development that is still a land today)". Pleas consider keeping 1189 to PRES due to its long time tie to PRES.	Huge disruption to kids and parents in Polygon 1189. Even Clarksville Elementary School is a much more logical alternative than Dayton Oaks. 1189 shouldn't be pushed away from PRES due to new development across the street under a separate polygon!
5556	PointersRunES	LimeKilnMS	RiverHillHS	3	1	1	2	10	AAC plan is better as it solves overcrowding at some schools. But 8/15 session moved Polygon 114 from PRES to DOES without studying the map. All 10 ES kids live off RT216, we share the same bus with Polygon 1115 &118. The rest area in 114 are farm land	1	1	2	10	AAC plan is better as it solves overcrowding at some schools and took input from the affected communities.	8/15 session bundled Polygon 114&2114 from PRES to DOES without studying the map. All 10 ES kids live off RT216, we share the same bus with Polygon 1115,117,118. The rest of area in 114 are all farms. From 2114 you pass 1114 on a 1 lane road to get to 114
5557	PointersRunES				3	6	6	4	1189 and 189 do not need to be keep together. The homes in 189 are not yet built. 1189 has a need to stay close to pres instead of kids that haven't yet moved into a neighborhood.	3	6	7	4	Your plan is not fixing the issue with overcrowding in Fulton ES. Why move multiple neighborhoods away (1189) when you are still not solving the problem and creating even more problems.	1189 shouldn't be punished for developments that are not yet built. Keep 1189 at pres
5558			WildeLakeHS	1	3	7	4		The impact to WLHS is criminal. The plan breaks up communities and shifts large portions of the wealthier neighborhood to River Hill. FARM percentage might not change, but you can bet median income goes down.	3	7	4		See previous response. Why must eastern school kids be punished to address school capacity issues in the west?	Why not move magnet programs like ROTC to schools with capacity?
5559	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	7	4	8	Our community is closer to other ES, MS and HS but the kids from my community become attending schools is further area. Other community moving in from further area and we are shifted to the schools with bad reputation and resources.	3	4	3		Lots of students coming from a long distance area to attends the school close to my community, long driving causes school buses emit polluted gas by time to time, year to year. Which is not an environmental friendly and traffic friendly solution.	
5560			WildeLakeHS	1	3	4			Terrible idea!! breaks up the community.	3				Terrible idea. Breaks up the community unnecessaryily.	
5561			AtholtonHS		2	7			It is not moving as many kids out of the school and preserving the student population that is currently in attendance. Less disruption for students!	1	7			Less students are being moved.	This proposal moves less students and preserves the student population currently in attendance which is less disruption.
5562	StJohnsLaneES			1	3	7	4	6	Valley Mede notionally St Johns Ln to Bethany Ln and Rt40 to Rt70 is being cut in half. The number of students moved vs the minimal net impact of school pop. change is negligible. Why does this plan infer consistent annual change? Stop gerrymandering.	3	7	4	6	Same as above.	
5563	CentennialLaneES			4	2	11									
5564			HowardHS	4	1	6	8	7		1	6	7	8		
5565	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	13				3					
5566	FultonES			2	2	6			Polygon 7 is assigned to Fulton ES and Hammond MS, but most Fulton kids attend Lime Kiln. Polygon 7 students go to MS with little to no peers. The committee should reassign Polygon 7 to Hammond ES and MS for a true feeder system from ES through MS.	2	6			Polygon 7 is assigned to Fulton ES and Hammond MS, but most Fulton kids attend Lime Kiln. Polygon 7 students go to MS with little to no peers. The committee should reassign Polygon 7 to Hammond ES and MS for a true feeder system from ES through MS.	The goal should be to develop feeder systems that allow elementary school communities to stay together into and through middle school.
5567	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	6	7	14	I do not like that it moves only my neighborhood away from our village. Most importantly, I would like to see my children continue with their middle school friends into high school.	3	6	7	1	The Feasibility Study would keep us with our entire neighborhood and have my children complete their schooling with their friends as well as join us with the rest of the community where we live and spend all of our time. The schools are closer as well.	
5568	VeteransES			1	3	7	4	3	My I can hear the morning announcements from my backyard for Veterans but my kids will be attending Worthington. If I can throw a rock and hit the school, my kids should to school that is closest to my house.	3	3	4	7	I don't agree with either plan because it takes students close to the Veterans Elementary School and moves them to a school much farther away.	
5569			AtholtonHS	4	2	6	1	4	I'd prefer no student need be moved, but at least this causes less disruption for fewer students.	1	6	1	4	This plan is much better than the feasibility study as it moves fewer students and keeps more feeder school students together. Thank you to the committee for working on this.	
5570	ForestRidgeES	PatuxentValleyMS	HammondHS	1	3	7	9	3		3	7	9	3	The feasibility study was better than this. It was bringing all Emerson Community to once school Hammond High and which is closer to us. Why would AAC want to just send part of Emerson to Atholton High? We are one community and need one school district	Emerson community shared one HOA, one pool and our kids play together so I support feasibility study as it brings all the community together.
5571	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	1	10		3	3	10	14		
5572	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	1	4	10		3	1	4	10		
5573	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	5	draft plan will create a huge commute problems and will jam up route 108	3	4	5	7		
5574		OaklandMillsMS		1	3	1	4	7	I don't like the schools the latest draft proposes for polygon 56.	3					
5575	SwansfieldES	HarpersChoiceMS	WildeLakeHS		3	4	9	13	It would be more difficult to take or pick up my kids at HS.					I didn't look at it because it didn't affect me.	
5576	ForestRidgeES			3	2	13	1		Move Polygons 1121 and 121 from: Murray Hill Middle to Patuxent Valley Middle. No change at high school level Move Polygons 1272, 272, 1004, 1047, and 267 from: Patuxent Valley Middle to Murray Hill Middle; Hammond High to Atholton High	3	7	4		Modify it to reunite the Emerson neighborhood (Policy 6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	
5577	SwansfieldES			5	1	12				1					
5578			HowardHS	1	3	1	13	14		3	13				
5579		OaklandMillsMS		1	3	6	7		Two concerns: Thunder Hill polygons moving out of OMHS and separating from that community; complete re-working of OMMS and OMHS - the number of students being moved in/out is too high! It will create a segregated school of lower incomes.						The changes in this redistricting are huge! It doesn't seem necessary to move this many students across the county when the population growth is limited to a few areas.
5580	ManorWoodsES	BurleighManorMS	CentennialHS	1	3	6	7	4		3	3	9	7	If its the overcrowding issue, How can font hill and gray rock which has get to stay at CHS??	Keep polygons 214, 154,1154 at CHS and redistrict polygons faraway from CHS to maintain capacity.
5581		BurleighManorMS		1	3	4	7	6	Polygon 214 is closer to CHS then polygon 153 Polygon 214,153 and 1184 are part of same neighborhood.It is not in alignment with policy 6010 to return polygon 153 and 1184 to CHS and redistrict polygon 214 to MRHS. 214 should return to CHS	3	6	7	13	The neighborhood comprising of polygon 214,153,1184,1154,154,2154 was further broken down by returning polygon 153 and 1184 back to CHS and redistricting remaining polygons to MRHS lowering feed from BMMS to MRHS in the neighborhood.	214 is approximately 2.2 miles from CHS and about 8 miles from MRHS thereby creating hardship for students was will take them longer to arrive at school. School will accrue higher transport cost as its far away. Will break the neighborhood,create stress
5582	AtholtonES	OaklandMillsMS	OaklandMillsHS	2	3	6	7	1	Compared to the current attendance areas the draft plan just looks like a mess. While you're busy busing kids here there and everywhere, you could instead save transportation costs and keep them in schools closer to home.	3	1	5	4	The draft plan is just ridiculous when compared to the feasibility study! It buses kids all over the place.	My son can walk to his current school and could walk to the school he would be moved to in the feasibility study. He could not walk to the school in the draft plan. What sense does it make to extend our neighborhood out so far and spend more on buses?
5583	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	7	6	4	Proposed Adjustment: The Polygon 178, 179, 1178, 1179 (Contain 60 Students) stay with Marriotts Ridge HS as the capacity is still low at 95.7% in AAC draft plan, and The Polygon 183, 1183 (Contain 58 Students stay with River Hill for minimizing the impact	2	7	6	4	Proposed Adjustment: The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill for minimizing the impact on communities on those polygons, better bus route, feeds	Proposed Adjustment: The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill for minimizing the impact on communities on those polygons, better bus route, feeds
5584	VeteransES			1	3	7	13	4	Our community is in the same neighborhood as Veterans elementary school. It is literally in our yards...we hear the announcements. Why would we be shifted to another school outside of the neighborhood when we are so close to the school.	3	4	1		The feasibility draft seemed to keep communities flowing into the same feeder schools together and made better use of the road boundaries (minimizing the splitting of neighborhoods)	
5585	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	4	7	7	Proposed Adjustment: The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill for minimizing the impact on communities on those polygons, better bus route, feeds	2	1	4	7	Proposed Adjustment: The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill for minimizing the impact on communities on those polygons, better bus route, feeds	Proposed Adjustment: The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill for minimizing the impact on communities on those polygons, better bus route, feeds
5586			RiverHillHS	2	1	14			Current high school students should be allowed to finish in their current high school with bussing.	3	6	7			
5587	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	1				The AAC draft plan improves community stability for our neighborhood, polygon 1170, by eliminating the small feed proposed for our children in the feasibility study	1					
5588	ElkridgeES	ElkridgeLandingMS	HowardHS	1	3	6	7		Marginal movement of Elkridge residents children from Howard HS to Long Reach doesn't accomplish much given the projections that both schools are projected to exceed 100% by 2022. This would split the students who attend middle school together!	3	6	7			Moving just a section of Elkridge students will split the neighborhood students who attend elementary and middle school together!
5589			WildeLakeHS	1	3	9	7	13	The AAC plan impacts a disproportionate number of WLHS students, shifting some in and others out without achieving a goal of improving the balance of FARM and demographic diversity at WLHS or other schools. It's just a total disruption to the school.	3	9	7	13	AAC draft plan impacts an enormous number of WLHS students, but just shifts some out and others out. The plan should even out the mix of FARM students and diversity in other high schools, like River Hill. The AAC plan does not achieve this at all.	
5590	PointersRunES	LimeKilnMS	RiverHillHS	3	3	8	4	7	Keep Polygon 114&2114 in PRES . 114 needs to pass 1114(PRES) to reach 2114. there's NO direct road for school bus between 2114 and Rt 108 so the bus will pass 114 twice, commute will be close to 1 hr EACH WAY. We share bus with 1115&1117 to PRES	2	1	10	2		Keep Polygon114 in PRES! NO direct road between 2114 and Rt 108 so the bus will pass my house on 216 twice as it turns around from 2114, commute to DOES will be 1 hour EACH WAY! We share bus with 1115,1117 to PRES. ES was reassigned in 2013 already.
5591		OaklandMillsMS		3	3	7	8	6		3	7	8	6	Athotion HS is preferred to Wild Lake HS.	
5592		DunloggінMS		1	3	2	13	4		3	4	3	2		

5593	AtholtonES			1	3	7	4	6	I live in polygon 1057. I find the proposed change of Hammond HS to Wilde Lake HS unacceptable. There is no reason my region should be used in the manner. The distance to Wilde Lake HS is unacceptable and will impact student and parent participation.	3	7	4	6	I live in polygon 1057. The Feasibility Study was much more sensitive to the needs of students from my area to flow with each other through MS and HS. My children should attend the closest possible HS, not one of the furthest.	Please make it priority to keep students together as they flow and to make it easy for students and parents to be a part of their school's community. The proposed change for the polygon 1057 region to go to Wilde Lake HS is unacceptable in these regards.
5594	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	13	7	9	Strongly against reassigning River Hill students from polygon 1183 to Glenelg HS.The Polygon 178,179,1178,1179 (Contain 60 Students) stay with Marriotts Ridge HS, and The Polygon 183,1183 (Contain 58 Students) stay with River Hill.	2	13	7	9	Against reassigning polygon 1183 from River Hill HS to Glenelg HS.	
5595	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	4	I have siblings that I want to go to the same schools together. Please don't split them up so my oldest goes to Centennial and my younger kids go to a different Highschool. Let's also please please keep our middle school feeding into the same Highschool.	3	6	7	4	There is minimal affect on the over population in schools for all this distress at breaking up neighborhoods and splitting feeds of schools into Highschools. Please don't break up our neighborhood for a negligible difference in the numbers.	Making our kids go twice the distance to Wild Lake is unreasonable when Centennial and my Hebron are both closer. Don't break up the neighborhood and breakup the classes going from dunloggin middle school to Centennial. Keep the classes together please!!
5596	RockburnES	BonnieBranchMS	HowardHS	5	3	7	1	4	Polygon 91 HATES the current draft AAC plan that has our community going to Rockburn ES and ELMS! Polygon 91 PREFERS the AAC to IMPLEMENT THE ORIGINAL FEASIBILITY STUDY which has our community going to ILCHESTER ES and BONNIE BRANCH MS. Thank you.	3	1	4	6	Polygon 91 IS AGAINST the current draft AAC plan that has our community going to Rockburn ES and ELMS (3-5 miles away). The more logical solution would be for Polygon 91 go to Ilchester ES & BBMS which is only 1 mile from our neighborhood.	Polygon 91 considers both Ilchester ES & BBMS to be our community schools. As suggested in the ORIGINAL FEASIBILITY STUDY, this corrects the feed problem & enhances sense of community with 2 schools we could walk to, IMPROVING TRANSPORTATION CONSIDERATION
5597	RockburnES	BonnieBranchMS	HowardHS	4	3	1	4	6	Polygon 91 HATES the current draft AAC plan that has our community going from Rockburn ES and ELMS!! Polygon 91 PREFERS the AAC to IMPLEMENT THE ORIGINAL FEASIBILITY STUDY which has our community going to Ilchester ES and Bonnie Branch MS.	3	1	4	13	Polygon 91 IS AGAINST the current draft AAC plan that has our community going to Rockburn ES and ELMS (3-5 miles away). The more logical solution would be for Polygon 91 to go to Ilchester ES & BBMS which is only 1 mile from our neighborhood.	This Homeowner moved to Polygon 91 in 2012, based on schools: Ilchester ES & BBMS were for designated for this community. We paid $100K MORE to move north of I-95 for the schools. Economically, the AAC draft plan impacts Polygon 91 NEGATIVELY, AGAINST IT!
5598	TriadelphiaRidgeES			1	3	6	4	13	Adding one third of students from 91stranked HS to 1st ranked HS is not fair to kids and also severely impacts studies and home values in the top ranked schools. Also, traffic need to be considered and not just count of students. Poor plan.	3	6	4	7		
5599			RiverHillHS	1	3	7			Many parts of River Hill Village are districted to Atholton. If capacity is low at River Hill High, these neighborhoods should go to River Hill first, then if capacity remains low additional villages can be added.	3	7			Some parts of the plan are better (not moving 1500 kids in and out of Atholton), however other parts are not. Splitting up villages should not occur when capacity exists at River Hill High. Neighborhoods, not roads should determine districts.	Concerned Guildford and 108 development is woefully underestimated. People move into those neighborhoods for the schools with school age children. Same issues of overcrowding will occur as when Pointers Run neighborhood built 20 years ago.
5600				5	1	1				1	1	10		It solves overcrowding by moving far fewer students and preserves atholton high school Modify to reunite Emerson neighborhood (6010-IV.B.2.b) Moves Polygons 272 and 1272 to Murray Hill MS and Atholoton HS	
5601				1	1					1	1	10		It solves overcrowding by moving far fewer students and preserves atholton high school Modify to reunite Emerson neighborhood (6010-IV.B.2.b) Moves Polygons 272 and 1272 to Murray Hill MS and Atholoton HS	
5602	AtholtonES	OaklandMillsMS		2	2	6	8	2	My number one concern is that the plan for redistributing this time will mean we WILL NOT redistrict again for at least 15 years. The frequency at which this county redistricts is puzzling. There will be new growth- that should be well planned for.	2	6	8		See above comment. The plan put in place should be well planned for future growth so that we will not be redistricting again any time soon.	Obviously redistricting is highly disruptive and should be done as infrequently as possible. The plan put in place should account for not just current needs but for long term needs. The number of times Howard county redistricts is a negative!
5603			OaklandMillsHS	1	3	9		9						This plan won't work for us	We live two blocks away from the school.
5604	RockburnES	BonnieBranchMS	HowardHS	4	3	4	7	13	My reason for moving to Polygon 91 in 2012 was that Ilchester ES & BBMS were within 1 mile AND they were/are STRONGER schools than Rockburn ES & Elkridge Landing MS. The MS change purposed in AAC draft plan NEGATIVELY IMPACTS ME. I'M AGAINST IT!!	3	1	4	9	As suggested in the ORIGINAL FEASIBILITY STUDY, Polygon 91 considers both Ilchester ES & BBMS to be our community schools. The MS change purposed in AAC draft plan NEGATIVELY IMPACTS ME economically and demographically! NOT HAPPY, MAY LEAVE HOWARD CTY!!	Polygon 91 paid $100,000.00 MORE to move north of I-95 specifically for attendance to Ilchester ES & BBMS. The AAC draft plan negatively impacts our community economically! Howard Cty allows for more home-building, but less school expansion; not right!
5605	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	4	13	6	AAC draft plan would send us to LEMS and WLHS. Unlike the move from OMMS to OMHS where all students stay together, the move from LEMS to WLHS would be a smaller group. And Wilde Lake is much further away, so bus ride times would be increased.	3	4	13	6	AAC draft and Feasibility study both send us to LEMS, but AAC sends us to WLHS and Feasibility sends us to AHS. The feed from LEMS to AHS or WLHS is smaller, so it does not keep everyone together from MS to HS. WLHS is much further away (longer bus ride).	Polygons 56, 1056, 2056, 3056 are currently AES-OMMS-OMHS. We have 51 kids currently at OMMS, and then they move to OMHS with their peers. Don't disrupt that stability and those deeper friendships that develop in MS. Keep us AES-OMMS-OMHS,
5606			AtholtonHS	1	3	6	7	13	As a single parent, it is difficult to arrange transportation for my child from Atholton. It would be easier in River Hill, our community, to help him be able to stay after school.	3	7	1	6	As a single parent, my child is too far away. He cannot stay after school for clubs because I work. Please let him go to RHHS, in our community. He must do all makeup work during lunch. He could walk home from RHHS.	I really want my child to go to our local high school. He misses his friends from middle school, and transportation is a problem. He could walk to RHHS or get rides from kids he knows. Friends in Atholton don't live near us and can't help with rides.
5607			CentennialHS	1	3	4	6	7	Polygon 97 to Mt. Hebron, then rotate polygons clockwise until part of Oakland Mills east of 29 is included in Wildelake. This also creates opportunity to reduce a load on Howard HS.	3	4	7	6	Polygon 97 to Mt. Hebron, then rotate polygons clockwise until part of Oakland Mills east of 29 is included in Wildelake. This also creates opportunity to reduce a load on Howard HS.	
5608	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	1			I recommend polygons 304 and 1304 go to BPES until the ES # 45 is built. This way less children will be disrupted (104 children instead of 233 children). It would create less islands and shorter bus rides for ALL children.	3	4			The children going to WFES currently live along the Rt 32 corridor which is very spread out. These children are on the bus upwards of 40 minutes. Moving them to BPES makes that longer. The Turf Valley students are more condensed making the route shorter	Per the 2017 Feasibility Study, with no adjustments to the polygons feeding into WFES, the school will be at 97% in 5 years and remaining in the high 90s for several years. These are ideal utilization numbers for the school per HCPSS's target utilization
5609		OaklandMillsMS		1	3	5	7	4	OMHS has early college program.Changing MS to Lake Elkhorn and HS to WLHS makes us a small feeder area into both schools causing loss of friendships.There are 3 other HS closer to us than WLHS. Moving to WLHS will limit participation in extra curriculars	3	5	6	7	Relocating us to LEMS and AHS makes us a small feed into both school and the only feed that goes from LEMS to AHS thus causing disintegration of relationships	Please take into consideration families with overlapping siblings.
5610	CentennialLaneES			1	3	4	1	6		3	6	4	1		
5611		BurleighManorMS		1	3	4	7	13	I strongly disagree the proposed aac draft plan. Our family live in polygon 154. If our kids are moved to Marriotts ridge high, It will tremendously increase the transportation time and waste cost. My kid will also lose most friends.	3	3	4	6	The feasibility study causes less negative impact to HC residents overall	
5612	DaytonOaksES			5	2	7			The AAC draft plan does not propose changes to our neighborhood (Section 200 and 1200) compared to the current school attendance areas.	1	1	7	4	We are thrilled with the AAC's draft plan which keeps Section 200 and 1200 at Dayton Oaks. This supports alleviating capacity at Triadelphia Ridge (98%), compared to Dayton Oaks (81%), and facilitates transportation (closer). We applaud the AAC efforts!	
5613	WaverlyES	PatapscoMS	MtHebronHS	1	3	4				3	4				
5614	RockburnES	BonnieBranchMS	HowardHS	4	3	4	13	9	Please do NOT change the CURRENT MS attendance map for POLYGON 91 from BBMS to Elkridge Landing MS!! Polygon 91 is a small community with a small number of kids to transplant. Polygon 3091 is much larger with more kids & it's closer to ELMS. Move 3091 !!	3	1	4	7	Polygon 91 PREFERS the AAC to IMPLEMENT THE ORIGINAL FEASIBILITY STUDY which has our community going to Ilchester ES and Bonnie Branch MS, which are 1 mile from our neighborhood. PLEASE LEAVE POLYGON 91 ALONE! MOVE the larger Polygon 3091, instead!	Polygon 91 is AGAINST the ACC draft plan! We are a small community with minimal effects to FEED changes. But gain maximum benefits with proximity to Ilchester ES & BBMS which are within walking distance, resale value of homes & demographic considerations
5615			HowardHS	1	3	5	9	6		3	5	9	6		
5616	SwansfieldES	HarpersChoiceMS	WildeLakeHS	5	1	5	3	7	It would allow a more efficient and a more even distribution of the resources among residents of Howard County. Efforts to utilize resources fairly and evenly for all residents provide satisfaction and greater productivity.	1	5	3	7	For our polygon, the Feasibility Study does not change the school system for us. We feel this is underutilizing county resources for these students. Again, more even distribution of resources provides satisfaction and greater productivity.	The county leaders' efforts to equalize opportunities for residents have made Howard County one of the best counties in which to live in the US. We hope to continue to see this trend for the future, incentive for future generations to live and work here.
5617			MarriottsRidgeHS	1	3	6	1	4	Moving 232 out of MRHS to GHS breaks small feed students in critical HS years. This poly went thru WFES w/ 2 classes. 100% to MVMS and 100% to MRHS. Moving in HS yrs damaging academically/emotionally. 28 kids stay at MRHS. Phase in HS change/ not current	3	6	1	4	small community of students destroyed. Community stays with community-- established bonds since elementary which had only 2 classes. High schoolers totally engrossed with academic/athletic/music endeavors. Transportation time over an hour. Dangerous traffi	#232 is a small feed to MRHS/tight knit community from small school. 100% elem feeds to MVMS; 100% MVMS feeds to MRHS. If redistrict 232 HS then pernalize and damage 28 children by removing from core unit. HSers immersed. Current HS students stay MRHS
5618	WaverlyES			5	1	4				1	4				
5619	CentennialLaneES	BurleighManorMS	CentennialHS	5	1	7	1	10	Polygon 147 was a farm land two years ago. This property project was developed without considering over-capacity of centennial schools. This polygon is the major contributor to overcapacity of centennial schools.	1	1	6	10	To redistrict Polygon 147 can greatly improve overcapacity of centennial schools, without disrupting the original communities served by the schools.	People were shocked by last night's decision to keep polygon 147 but move other original communities that have been part of the Centennial community for decades. This decision is unfair and baseless.
5620	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	4	7	6	The current proposal has parts the Font Hill Community moving from Centennial HS to Marriotts Ridge HS. The outer skirts of this neighborhood travels 2 miles to Centennial, but would now be traveling 6.4 miles to Marriotts Ridge. ????						Students should attend schools in their area that are geographically closest to their home, not based on what the county feels would improve their diversity study.
5621				1	3	4	7	13	Regarding Centennial HS and Wild Lake HS, the traffic in the morning on 29 is already a mess. How can you send these kids to ANOTHER CITY to attend a school which doesn't geographically make sense.	3	4	7	13	Regarding Centennial HS and Wild Lake HS, I choose to reside in Ellicott City to send my family to Ellicott City schools, not to a school in another city.	Regarding Centennial HS and Wild Lake HS, this is devastating to our neighborhood, you are essentially ripping us apart. We are the oldest neighborhood in Howard county, shouldn't we have more of a say in this matter?
5622	SwansfieldES	HarpersChoiceMS	WildeLakeHS		1	7			The new AAC draft would positively benefit our neighborhood and provide a better high school selection. Please make this happen	1	9			I currently line in the Trails of Woodlot and my three schools are: Swansfield, Harpers Choice and Wilde Lake and non of these have a stellar reputation. In addition, most are Title 1 schools with sub-par test scores and at risk population of students.	My son current goes to St. Louis in Clarksville because I don't feel that Swansfield and Harpers Choice are in his best interest. It would be nice to have River Hill as an option for high school.
5623					3	4	7	8	Where does it end? This is not fair to the community of Dunloggin! The county needs to look at the developers who are getting away with murder due to lining the pockets of politicians with $$$$ to get their way. Very upset!!!	3	4	7	8	Where does it end? This is not fair to the community of Dunloggin! The county needs to look at the developers who are getting away with murder due to lining the pockets of politicians with $$$$ to get their way. Very upset!!!	Where does it end? This is not fair to the community of Dunloggin! The county needs to look at the developers who are getting away with murder due to lining the pockets of politicians with $$$$ to get their way. Very upset!!!
5624	WestFriendshipES			1	3	4	6	1	Students that live on or off of Route 32 that go to WFES are currently on the school bus for 40 to 45 minutes. Moving to BPES would only increase time. Same for proposed middle and high school changes.	3	4	6	10	Both plans are deficient and should consider, in economic terms, that that the total costs to move polygons west of 32, outweigh any small short term overcrowding gains.	The plans do not take into consideration projected growth in the WFES, MWMS and MRHS in places such as turf valley and along the 144 corridor. With the current moving choreography, each of these school's capacity will be well beyond full capacity >120%.
5625		PatapscoMS		2	3	6			I understand planning and redistricting. However, move the entire square" of valleymede community and not split it down the middle. Move everyone in the valleymede are to marriotsville ridge. I have been making relationships for carpooling and backups."						
5626	RockburnES	BonnieBranchMS	HowardHS	2	3	13	6	14	I am extremely disappointed with the plan. I agree with the original proposal for my area where my child would go to Ilchester Elementary (instead of Rockburn) and Bonnie Branch Middle. Both schools are less than a mile from our house.						
5627	StJohnsLaneES	PatapscoMS	MtHebronHS	1	2	7	4	13		2	7	13	4		My neighborhood walks to nearby Mt Hebron High School, and the plans split our well-established neighborhood in half, requiring my children to ride the bus or drive 15+ minutes west to Marriotts Ridge. Please keep our children safe and in the community.
5628			WildeLakeHS	4	1	9	14	2	The shift in location positively impacts my children.						
5629	StJohnsLaneES			1	3	7			This would split our neighborhood in half and would make kids travel on bus's twice as long.	3	7				
5630	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	6	13	4	My children were able to attend after school activities easily due to our proximity to the HS. The new attendance area would create a hardship for the family. It will negatively impact resale value of our house due to the redistricting.	2	7	6	4	Both plans are bad in that they split our neighborhood in half.	
5631	NorthfieldES	DunloggінMS	CentennialHS	1	3	1	4	13	This is a terrible plan. Example School-1 is at 96% utilization - so the plans moves 370 students out of school-1 and receives 540 kids from 3 other schools? If you want to get the percentage utilization up, then do not remove kids from that school.	3	2	8	3		This is a terrible plan - there are polygons which are included in the plan, which makes no sense - when considering the amount of traffic you are adding or keeping - by including that polygon.
5632	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	6	7	Polygon 1189 should remain in PRES. Increasing commute time, transportation costs and and displacing children from their community is harmful for the children and does not make sense.	3	4	7	6	Polygon 1189 should be decoupled from 189, like in the original feasibility plan. Enclave is a not yet built development with no prior history with the community and therefore should not be not be used as a reason to move 1189 children away from PRES.	The AAC draft plan pulls the children of polygon 1189 away from their community. This does not keep feeder schools together as most kids from Dayton Oaks don't attend Clarksville Middle. The kids will enter middle school with very limited social network.
5633	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13	9	6	Plan to move WLHS to RHHS is extremely disturbing the River Hill community now. Our concerns are: 1. This move (WLHS->RHHS) will significantly bring the RHHS ranking down-> Significantly decrease the Rivel Hill house value in the market - we wil move out	3	13	6	7	Plan to move WLHS to RHHS is extremely disturbing the River Hill community now. Our concerns are: 1. This move (WLHS->RHHS) will significantly bring the RHHS ranking down-> Significantly decrease the Rivel Hill house value in the market - we wil move out	
5634	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	5	2	Please keep WLHS zone out of RHHS... It will destabilize the community	3	2	3	4	Please keep WLHS zone out of RHHS... It will destabilize the community	
5635		ElkridgeLandingMS			1	1	4	6	Poly 1086 & 86 better aligned with Howard High for bus route, better keeps together feeds from Rockburn & ELMS, helps reduce overcrowding at Howard High.	1	4	6		Feasibility Study breaks up cohorts from Poly 1086, 1087, 3087, 4087 at MS and again at HS. Would require LRHS to run a bus down Montgomery Road for less than 5 students at 1086. 1086 already redistricted 3 years ago for MS.	Kudos to the committee for keeping Howard Schools diverse even as polygons get shifted!
5636		MountViewMS		5	2	10	12	1		1	6	4	1		
5637	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	3	1	4	5		3	5	9	6		
5638	RockburnES	ElkridgeLandingMS	HowardHS	5	2	7	5	9		1	9	6	8		
5639	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	10	2		1	1	10	2	The AAC Plan is superior to the Feasibility Study. It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.
5640	RockburnES			3	1	4	6		Keeps diversity in schools; better transportation route possibilities.	1	4	6		Poly 1086 redistricted 3 years ago for MS which affected many children. AAC draft plan has less impact on these children who would have been moved to LRHS under feasibility study.	Rockburn ES kids split at MS and again at HS under feasibility study. Poly 1086 will become isolated by HS. Prefer Howard gain kids from Route 1/Ducketts Lane area, rather than LRHS.
5641			RiverHillHS	2	3	1	2	4	The plan still suggests moving thousands of high school students when there is a new high school being planned to open in the next two years and students will have to be moved again to fill that school.	2	1	2	4	River Hill High School will go to 108% capacity--that seems ridiculous and unwise.	I am very disappointed in this plan at the high school level
5642	RockburnES	ElkridgeLandingMS	HowardHS	4	1	6			AAC plan balance out schools	1	7	6		Preserve feed from RES -> ELMS -> HHS	Please consider removing polygon 311 from Howard HS if you need additional capacity in HHS
5643				1	3	4	7	9	This plan (Swansfield Elem/River Hill High) imposes significant transportation issues for students when Atholton High and Clemens Crossing Elementary are within walking distance. It seems a waste of resources to bus this polygon further away.	2	7	4	9	Neither plan maintains the contiguous community/village concept. Both plans create separation of the Hickory Ridge community and yet appear to maintain other neighborhoods. Neighborhood schools have tremendous value and should be a consideration.	Under both plans, polygon 66 is assigned to schools furthest in distance rather than schools that are easily within walking distance yet other polygons further removed are passed over for redistricting.
5644	ManorWoodsES	BurleighManorMS	CentennialHS	1	3	4	7	14	Why are polygons 214, 154,1154 are getting redistricted when Font hill and gray rock community get to stay a CHS?? Font hill and gray rock have large numbe of HS students	3	3	4	7	Please Keep highschool students who are already in CHS to stay in CHS. Redistricting students who are already in HS will affect them mentally, academically and psychologically and their career and future.	Please Keep highschool students who are already in CHS to stay in CHS. Redistricting students who are already in HS will affect them mentally, academically and psychologically and their career and future.

5645		MurraytHillMS	AtholtonHS		1	1	10	7	The AAC plan is superior to the feasibility study. It moves far fewer students by still solving overcrowding issues and preserving Atholton HS. Modofy it by reuniting the Emerson neighborhood. Move polygons 272 and 1272 to Murray Hill and Atholton HS	1	7	9	13	The Emerson neighborhood was split from redistricting back in 2012, this needs to be remedied so that kids will attend school together and not be uprooted again	
5646	PointersRunES	ClarksvilleMS	AtholtonHS	3	2	7	4	6	The AAC plan is the same as the current attendance areas for me kids.	3	7	4	6	The study did a better job of promoting a contiguous community and maintaining the feeds of kids together. I am in polygon 1064 and we get split from the community going to Clarksville ES, rejoin at Clarksville MS, and then split to Atholton.	By failing to keep the kids on the north side of 32 between Cedar Lane and Clarksville Pike together through their school progression I believe the AAC plan is worse than the feasibility study.
5647	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	8	7		1	6	7	8		Keep polygon 2087 in Rockburn, ELMS, and Howard high and reassess when HS 13 opens. Fast track HS 13!
5648			HowardHS	5	1	6	7	8		2	6	7	8		
5649		ElkridgeLandingMS		1	3	6	4	7	Several families, new to our neighborhood, chose this area specifically for the school district. At this late date, child care, after school care, and carpool arrangements have already been made based on the current plan. Please, please don't change it!	3	4	6	5	The current plan us why we moved our family to this neighborhood! We have spent the entire summer helping our children get excited and motivated to attend their new school. Middle school is tough enough with ripping the carpet out from children now.	Please, we beg of you! We are educators ourselves, and we worked and saved to finally purchase our home in a Blue Ribbon School district. Our children are both in middle school and have now made close inter-neighborhood ties with friends. Please don'tla
5650	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	6	13	7	AAC draft plan tears up the whole River Hill community. The kids from the same middle school will go to different high school.	3	6	13	7	AAC draft plan tears up the whole River Hill community. The kids from the same middle school will go to different high school.	
5651	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill E.S.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill E.S.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5652	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	We live in Lyndwood (polygons 87, 2087, and 3087) and are very satisfied with the current school attendance plan. Howard HS, Elkridge Landing MS, and Rockburn ES are excellent.	1	6	7	8	We live in Lyndwood (polygons 87, 2087, and 3087) and the AAC draft plan keeps us in Howard HS, together with many other friends kids have grew up with.	The attendance area should be revised only when a new high school is built. If anything, the new school should be accelerated. Frequent redistricting is very bad for kids' social life and academic performances. Studies have shown the adverse effect.
5653			HowardHS	1	3	3	4	13	Polygons 65,1065 and 2065 walk to Howard High. Walkers reduce bus costs which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS#13.	3	3	4	13	Polygons 65, 1065 and 2065 walk to Howard High. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065 and 2065 should remain at a middle school that feeds to Howard High. Moving 65, 1065 and 2065 to Oakland Mills High does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard High
5654			HowardHS	2	6	7	10		The AAC plan is far better than the feasibility study for polygons 87, 2087, and 3087. The AAC understands the Elkridge boundaries and prepares us for when HS 13 comes online.,	1	6	6	7	Well done AAC. Thank you for keeping polygons 87, 2087 and 3087 at Howard High School. Thank you for understanding the Elkridge boundaries and making decisions that prepare us for HS 13.	Thank you AAC!!
5655	ClarksvilleES			1	3	7				3					
5656		ClarksvilleMS	RiverHillHS	1	3	6	4	14		3	6	14	14	AAC draft does not create feader schools. Students in middle schools should stay together for high school.	
5657	CentennialLaneES	BurleighManorMS	CentennialHS	2	3	7	13	14	keep polygon 147 at CES-BMS-CHS; change 150, 2150, 1150,3150, 219 to WLHS; improves feed to WLHS; improves FARMS; Improves race	2	1	14	14	keep polygon 147 at CES-BMS-CHS; change 150, 2150, 1150,3150, 219 to WLHS; improves feed to WLHS; improves FARMS; Improves race at WLHS	
5658			MtHebronHS	1	3	4	6	13	The movement of these children who have already started their high school path is unacceptable	3	4	6	13	The feasibility study was a better plan that the aac draft plan, but still will heavily change the paths of high schoolers in this county.	Leave high schoolers be. The enormous amount of stress and work it takes to be a high schooler in this county doesn't need to be added to by this disruption in the lives of those who devote their lives to Howard county education.
5659	ClarksvilleES		RiverHillHS	4	1	9				1	6				
5660	NorthfieldES			1	3	4	6		The transportation time and cost to get our students to MRHS is unreasonable. The extra time on the bus (potentially 2 hours per day) would negate the benefit of pushing back the start time of school which was intended to improve sleeping hours.	2	14	14	14		Polygon 154 is part of small feed from Northfield ES(NES) to Burleigh Manor Middle School(BMMS). If redistricting occurs, this tiny population of students will be part of a small feed from BMMS to Marriotts Ridge High School(MMHS).
5661	PointersRunES			1	3	4	13		Dayton Oaks ES is way too far for our little one. If PRES is over capacity, we can at least go to Clarksville ES (only 70% capacity currently), which is much closer and still in our community. Why move Polygon 1192 to Dayton Oaks??						Dayton Oaks ES is way too far for our little one. If PRES is over capacity, we can at least go to Clarksville ES (only 70% capacity currently), which is much closer and still in our community. Why move Polygon 1192 to Dayton Oaks??
5662		ClarksvilleMS		2	1				This plan with some modifications for keeping neighborhoods in tact (not using roads as dividers) and minimizing travel could work. Atholton changes should be phased in or reconsidered until New High School is built.	3	7	4		It is absurd to me that students within 2 miles of Wilde Lake will go to River Hill before residents living in River Hill. As a taxpayer I object to transporting students from further away. Those living by River Hill Pool should go to River Hill.	Please do your best to follow policies keeping neighborhoods together. Sending kids to closest schools makes sense on so many fronts. It is safer, more cost effective and connects the community.
5663	PointersRunES			1	3	4	7	13	Our child does not want to go to Dayton Oaks Elementary School. He loves Pointers Run elementary school. Also, it is very close to our house, very convenient. It is why we purchased our house here. NO Dayton Oaks please!						
5664			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010.Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13.	3	3	4	13	Polygons 65,1065, and2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5665				3					Glenmont is a walking school to Howard High School. Why not put an ROTC program in Long Reach so that students stay in their home school. I wonder how overcrowded Howard would be then? Please leave us where we are.						
5666	PointersRunES			1	3	4			Why move us to Dayton Oaks ES. It is too far. We should stay in PRES. Or we can accept Clarksville ES. Both are very close to our kids.						
5667	PointersRunES			1	3	4	7	13	Our kids should still go to PRES. NO Dayton Oaks ES. The draft plan will cause our kids much longer commute time. It does not make any sense.						
5668	PointersRunES			1	3	13			Polygon 1192 should stay in Pointers Run ES or go to Clarksville ES, if you are talking about over capacity and under capacity issue. We cannot accept go to Dayton Oaks ES. So far away for all the kids.						
5669	PointersRunES				3	4			Polygon 1189, we are walking distant to PRES, but was rezoned to Dayton Oak in the new plan, which is much far away and not walk-able!!! especially bad situation during traffic hours, the new plan negatively impact us!!! The proposed redistricting of my polygon will pose significant challenges to traveling to and from school. This will affect time forhomework and extracurriculars, and it negates the adjustment to school start times (for improving student sleep).						
5670	NorthfieldES			1	3	4	6	8		2	4	6	8	Polygon 154 is part of a small group that feeds from NES to BMMS. If we are redistricted to MRHS, we will be part of another small group that is moved. Currently, no students from NES attend MRHS.	Polygon 154 is a small, diverse neighborhood with no projected enrollment. We desire to stay at CHS because we don't present a threat to the overcrowding of CHS. The travel time to MRHS is significant and not conducive to our kids' success.
5671	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	3	6	The current plan is much better than the draft plan.	3					
5672	PointersRunES	ClarksvilleMS	AtholtonHS	1	2	6	6		I live in quadrant 129 in the Village of River Hill which goes to Atholton high. Not only will my kids be separated from their friends but I work and River Hill high is bikeable to our house for after school activities and Atholton is not.	3	6			The Feasibility study has Quadrant 129 going to River Hill high which is our community, where my children's friends will be going and is bikeable from our house.	Quadrant 129 is in the Village of River Hill and should go to River Hill high school with the rest of their schoolmates while allowing for safe bikeable transportation for after school activities (this is not safe with Atholton)
5673	GormanCrossingES	MurraytHillMS	AtholtonHS	5	1	1	7	3		1	9	2	11		
5674				5	1	7				1	1				
5675			RiverHillHS												Rising Junior should be allowed to remain at their current HS if they choose. Junior is the most important year. If they change school, teachers at the new school will not know them very well. This makes it harder to get recommendations for colleges.
5676	StJohnsLaneES	PatapscoMS	MtHebronHS	1	3	4	7	8	Valley Mede is a tight community with the Mt Hebron Homecoming parade marching through the center every year. This plan separates our community and busses a large portion of us a significant bus ride away. Please keep Valley Mede together!!						
5677	NorthfieldES	BurleighManorMS	CentennialHS	3	3	4	6		polygons 1154,154,2154 have no projected enrollment growth in the coming years, we desire to stay at Centennial High School as we present little threat to the overcrowding of CHS in the future. Polygons with projected growth of 25% or more should be out	2	6	4	5	It really does not make sense to have kids spent 2 hours on bus ride everyday to and from school.	We locate in polygon 154
5678	CentennialLaneES	BurleighManorMS	CentennialHS	1	3	13	6	4	I don't understand the reasoning of community stability of moving polygon 147 at all three levels to Columbia West. We traditionally belong to Northern region. Community is being broken apart.	3	4	1	13	Very POOR transportation. Polygon 4147 &1147 moves to Longfellow ES seems like a more reasonable move instead of 147. Polygon 164, 1164, 167, 303 & 1303 should be part of Mount View MS.Polygon 97 could be part of Patapsco MS. HS attendance is everywhere.	The AAC plan is too ridiculous. It doesn't respect we parent effort to nurture our kids' education.
5679	TriadelphiaRidgeES			2	3	10			to add 400 new students to RHHS seems ridiculous in my mind with the majority from WLHS, especially when you are adding students from CHS and OMHS to WLHS, would make more sense to move some of the CHS students to RHHS and avoid a double move	3					please be aware once you switch some of the polygons from WLHS to RHHS, a lot of the kids that were going to private school will change over to public school espically off homewood RD, and your numbers of students you predict are low, and RHHS will be ful
5680			CentennialHS	1	3	6	2	4		3	6	2	4		
5681	IlchesterES	BonnieBranchMS	HowardHS	5	2	9	6	7		1	7	9	7		
5682	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8		1	6	7	8		
5683			HowardHS	1	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walkers reduce bus costs, which demonstrates fiscal responsibility in line with Policy 6010. Adding buses to transport students to Oakland Mills HS would mean sacrificing money for other costs such as HS #13	3	3	4	13	Polygons 65, 1065, and 2065 walk to Howard HS. Walking to school is good for students' health, community involvement, and the environment. It also reduces teen drivers on the road, critical because car crashes are the leading cause of death for teens.	Polygons 65, 1065, and 2065 should remain at a middle school that feeds to Howard HS. Moving 65, 1065, and 2065 to Oakland Mills HS does not provide a long-term solution because OMHS will quickly become overcrowded, potentially more so than Howard HS.
5684	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5685	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	10		1	6	10	4		
5686			HowardHS	5	1	6	7		Move the JROTC program out of Howard to Marriotts Ridge which has the capacity. This will allow more students to stay at Howard from polygons 39, 124 & 1124.	1	6	7	4		
5687	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5688	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	1	4	13		3	4	1	13		I propose that polygons 111, 1111 and 2111 go to Northfield ES, Dunloggin MS and Wilde Lake HS. This proposal solves safety and transportation concerns.
5689			MtHebronHS	1	3	7			It is ridiculous to cut neighborhoods in half. There has to be a more creative solution that to divide neighbors and have friends directly across the street going to another school. How does this make sense?						
5690				1	3	4			It will be difficult to have students change to different bus routes with all new faces.	3	13			Redistrict plan will not solve school overcrowd issues.	Suggest keep Polygon 1183 in River Hill High School.
5691		DunloggінMS		1	3	4	1	13	The draft negatively impacts me/ our community based on transportation issues and safety concerns. For example, bus commute time, crossing major intersections, new courthouse traffic. Ms. Keller has not talked with this community and does not represent us	3	1	4	13		I propose polygons 111, 1111 and 2111 to go to NES, DMS and WLHS. This proposal maintains our sense of community, solves safety and transportation concerns.
5692			RiverHillHS	1	3	13	6	7	We bought our million dollar house so that our children can go to River Hill High School. We move here because River Hill community is a great school district. Under new plan, Wild Lake will feed River Hill, which will make RH drop from a 10 score school					Current AAC plan will for sure make River Hill High school become a mediocre average school (or worse) from a 10 score strong academic high school in Maryland. River Hill should accept similar level students from other 9-10 score schools.	
5693	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	4	7	The feed from folly quarter to river hill dropped from 34% to 14% in 2008-2009 school year, which is lower than the minimum 15% feed, it has negative impact on community stability, bus routes, feeds etc.	2	6	7	4	The feed from folly quarter to river hill dropped from 34% to 11% in feasibility study, and to 14% in 2008-2009 school year in AAC proposal. Both are lower than the minimum 15% feed. it has negative impact on community stability, bus routes, feeds etc.	Folly Quarter Together: Please don't split folly quarter communities. Keep the polygon 183, 1183, 2183 with River Hill HS together with all communities on folly quarter road for minimizing the impact on community stability, better bus route, better feeds
5694	NorthfieldES	DunloggінMS	CentennialHS	1	3	3	5	7	we attended ACC hearings yesterday. we saw so many people angry about the school redistricted. My suggestion is stop doing redistricted, make people life go back to normal.	3	3	4	5	stop stop doing redistricted, make people life go back to normal.	
5695			OaklandMillsHS	1	3	6	4	7	Allview is a small feader neighborhood and transporting them to a school farther away from two closer schools is not in the best interest of our children. Allview students should attend Atholton Elementary. Oakland Mills middle and Atholton high school	3	4	6	7	Allview students should attend eithe Atholton High or Oakland Mills high. Students should be allowed to transfer to under enrolled schools if they are willing to provide transportation. low income population should not exceed 25 percent at any one school.	
5696	RockburnES	ElkridgeLandingMS	HowardHS	5	2	7	6	8		1	6	7	8		
5697			AtholtonHS		3	10			The current redistricting should be limited to elementary schools. Redistricting should only be done when absolutely necessary and to the minimum number of students.	1	10	9	1	Moves fewer kids. Preserves Atholton. Please keep polygons 5,6,1005, 1006, 2005, 2010, 2011 at Atholton. Keep polygons 13, 26, 27, 48, 50, 57, 1026, 1027, 1048, 1050, 1057, 2050, 2057, 3048 at Hammond. Move polygon 270 to Atholton for contiguous feed.	Move minimum number of kids. Let rising juniors stay don't redistrict walkers
5698				1	3	13			High school zone changed from Howard to Long Reach will affect us in the future. We bough the house here specifically due to the Howard High schhol zone.	3					
5699	DaytonOaksES	LimeKilnMS	RiverHillHS	1	3	6	9	2		3	6	3	9	Return the Clarksvile Middle School feed from AHS to RHHS. Let WLHS walking distance students stay at WLHS.	New HS needed at east Howard County. Please don't just solve problem by bus students from their walk zone to far away schools.
5700	IlchesterES	BonnieBranchMS	HowardHS	4	2	11	1	6	My children would not change schools as a result of this change, so I am not that impacted.	1	7	6	11	I think the Feasibility study for Elementary and Middle is better, but the AAC plan is better for high school, in terms of keeping neighboring kids together.	
5701	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, i.e. bus commute times, crossing major intersections and new court house traffic along the commute. Overcrowding at Thunder Hill Elementary is also not addressed in the draft.	3	4	1	13		I propose polygons 111,1111 & 2111 go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community
5702	StJohnsLaneES			5	1	2	1	5	AAC draft plan is much better in longer term	1					
5703			RiverHillHS	1	3	7	9	13	AAC plan force River Hill community to accept Wild Lake students will affect property value by making RH a worse school district. We paid for expensive houses and taxes for a better education. The HCPSS need to listen to our voices.					As a family of Polygon 1192, we will united together and preserve our rights of potential law suits again HCPSS, BOE and the superintendent, if the proposed redistricting plan dilutes local property value, brings more drugs, or teen pregnancy to RH area.	

5704			RiverHillHS	1	3	2	4	7	Why move 5,400 high school students at the most important academic period of their k-12 schooling when they will be moved again when the new high school will be build in maybe 3 years, so they may move again while in high school?	3	2	7	4	Why move 5,400 high school students at the most important academic period of their k-12 schooling when they will be moved again when the new high school will be build in maybe 3 years, so they may move again while in high school?	Why move students into RHHS from MRHS and RHS to make RHHS over capacity and MRHS and RHS under capacity? And, why move students unnecessarily, affecting their academic success?
5705			RiverHillHS	1	3	6	4	7	Wilde lake does not belong to River hill high school.e	3	4	7	13	Wilde lake does not belong to River hill high school	
5706	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13				3	13					
5707			AtholtonHS		2	7				1	7					Will students who are juniors and seniors have the opportunity to grandfather in? I believe they should have the opportunity. Too many changes during critical years could be negative!!!
5708	ClemensCrossingES			1	3	14				3	14			The feasibility study keeps kids in the same feed throughout ES, MS, and HS. Clemens Crossing ES and Atholton HS are only one mile from polygons 134, 1134 and 66.	
5709	LongfellowES	HarpersChoiceMS	WildeLakeHS	5	1	1	4	3		1	9	3	6			
5710	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	4			3	4	7				
5711	WestfriendshipES			1	3	4	5	7	I moved to the county and living where I am based on my school district. I do not appreciate being moved to another school district mainly due to location (I am currently in very close proximity to all three Elementary, middle & High schools).	3	5	4	7	There is a reason people moved to the "west." I shouldn't be moved from my school based on someone else's choice to live in another part of the county which is overpopulated. A solution to build another school in the area that is overpopulated is smarter.	I am currently a mile from my school and believe it is unfair to households in my neighborhood who have established themselves here knowing they were going to WFES, MVMS, MRHS.
5712		PatapscoMS		1	3	4	7	3		3	7	4	3	Any plan that takes walkers to a school and moves to bus riders is fiscally and environmentally irresponsible.		
5713	NorthfieldES	DunloggінMS	CentennialHS	1	3	7	4	6	Children can no longer walk to school, the bus will take the up to one hour to get to school which is in direct opposite to the plan of starting school later. Kids will have to travel on Rt 29 which is a safety concern. Also Dunloggin is an established.	3	7	4	6	The Feasibility study at least kept the neighborhood together. Why did we spend all that money on a study only to change it immediately. Someone should look into this as a waste of government funds.	
5714	RockburnES	ElkridgeLandingMS	HowardHS	5	2	6	7	8	I agree with the AAC draft plan!	1	6	7	8			Thank you for your hardwork! Lyndwood (polygons 87, 2087, and 3087) appreciates your efforts and hopes to stay put.
5715	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	1	3	5	4	7	I moved to my area for the school districts. It is unfair to touch our part of the county due to overpopulation on other parts of the county. Perhaps building a new school in the overpopulated areas will be a better solution.	3	13	13	13	Much of this plan reminds of the time when river hill was built and they redistricted students. Now it seems as though its going back to the way it was before that move over 15 years ago.	This plan affects me very negatively. I am in the hopes that the county realizes that the western side of howard county is being penalized for lack of population. We moved here for a reason. We are pleased with the current status. Vote- for no change.
5716	RockburnES	ElkridgeLandingMS	HowardHS	4	1	1	7		Good rebalance of existing seats and integration of new ES# 42	1	1			Less invasive than the original plan.		Please disregard Greater Elkridge Plan. Elbridge west of 95 doesn't support it. Please conceder the polygon 311 to be move from HHS if you need an additional capacity for HHS.
5717	NorthfieldES	DunloggінMS	CentennialHS	1	3	4	7	13		3	4	7	13			
5718	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	2	7		3	2	6	7			
5719	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	13	Keep the kids together from CMS to RHHS	3	4	6	13	The Feasibility Study is much better; keeps the kids together from CMS to RHHS		Watched live streaming of meeting 8/15. Rejected moving kids back to WLHS who were walkers based on FARM rate at RHHS. MRHS and Glenelg have FARM rates of 6 and 3. DID NOT Once hear this factored in bus kids to those schools instead if you want rates even
5720	PointersRunES	ClarksvilleMS	AtholtonHS	1	2	6	4		Students attending CMS should not be split to 2 different high school.	3	6	4				
5721	AtholtonES	HammondMS	HammondHS	5	3	7	9									
5722	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	6	10	WHY AAC plan has such draatic change over the feasibility plan. our river hill community is not happy about this big change!	3	6	7	10	Feasibility study works better than AAC draft. our community is happy with feasibility plan .		With 371 wild lake students moving to river hill, parents are concerned about safety, standard test result, state ranking etc.
5723	HollifieldStationES			5	1	6	4	2		2						
5724					3	4	1	13	This draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose olygons 111,1111, and 2111 go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed and maintains our sense of community.
5725	WestfriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	1	2	Move poly 304 & 1304 to BPES or WES; move 1305 & 4169 back to WES, keep 224, 229, 231, 232, 1231, 1229, 2229 @ WFES. WFES will grow organically. Move fewer students, reduce bus ride time would increase to approx 1 hr each way, & $4M cap invest in WFES	3	4	5	3	Keep 224, 229, 231, 232, 1229, 1231 & 2229 at MVMS & MRHS. Revert to Feasibility study. Would prefer small feed over AAC plan.		Appreciate ACC consideration on keeping poly 224, 229, 231, 232, 1231, 1229, 2229 @ WFES for fiscal resp (avoid cap invest $4M), transportation concerns (avoid travel of an hour each way), keep community stability (not moving 40% of school).
5726	PhelpsLuckES	BonnieBranchMS	HowardHS	5	1	1	4	7	I do not support The Keep Elbridge Together Plan in response to the AAC plan.	2	1	4	7			Please consider not bussing walkers. It costs more. It breaks up communities. It causes more traffic. It's less healthy for the kids. Honor the walk zones where possible. Also please do not create feeds less than 15%
5727			RiverHillHS	1	3	13			We moved into the River Hill school district for 1 reasonfor him to attend River Hill. With this plan he will attend River Hill as a Freshman 2017-2018 and then will be required to attend Glenelg as a sophomore.The change should be with the incoming class	3	13					Have you taken into consideration the road construction taking place on Route 32 to expand it over the next 3 years. How will the buses get from our house to Glenelg? Also have you taken into count the # of kids going to private school?
5728	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	12	The draft negatively impacts me based on transportation and safety concerns, significantly increases bus commute times, concern over new court house traffic along the planned route, and the draft does not address over enrollment issues.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, significantly increases bus commute times, concern over new court house traffic along the planned route, and the draft does not address over enrollment issues	I propose polygons 111, 1111, and 211 to go to Northfield ES, Dunloggin MS and Wilde Lake HS. this proposal solves safety and transportation concerns, longevity of the feed and maintains our sense of community/
5729	RockburnES		HowardHS		2	6	7		Ideally, we wouldn't be redistricting at all. The county has to address the APFO and stop the development until HoCo has the infrastructure to handle it! Howard is overcrowded but until long term solutions are made...we need to stop shuffling our kids!	1	6	7		The AAC plan moves significantly less students across the board. If redistricting has to happen, it should effect the least possible students. The AAC plans keep Lyndwood 87, 2087 & 3087 together and at Howard High School.	I DO NOT approve of "Keep Elkridge Together" plan! IT DOES NOT KEEP ELKRIDGE together. It splits many developments apart & adds longer commute times.
5730	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	9	13	Polygon 1189 should remain at PRES. The AAC should not move polygon 1189 to Dayton Oaks to accommodate polygon 1112/1112/2112 to PRES. It's absolute not fair for students at #1189. Polygon 112, 1112, 2112 need to be remain at Fulton ES.	3	3	4	7	The feasibility study seems to keep students and communities together which align with the Superintendent vision of "keeping children together from K to 12". Separating them from their peers will cause huge impact on their future development.	There seems to be ONE man dictating the AAC committee to make all the changes which I think is very insufficient and disturbing. Kids are not polygon, they are not numbers.
5731	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	2	7		AAC plan effectively balances the capacities among county schools.	1	1	10		AAC plan effectively balances the capacities among county schools with minimal number of affected students.		
5732	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	13	Polygon 1189 is part of the PRES community and needs to remain there. This community should not be coupled with 189 which is a new development not yet built and has no ties to the PRES community.	3	4	7	13	Polygon 1189 should remain in Pointers Run like the Feasibility Study had it. No justification to move a community of kids miles away when they have been integrated into the PRES community for years. 189 has no ties and should not be coupled with 1189.	Please keep our strong PRES community together. These children need their community support system to thrive in Clarksville Middle. Dayton Oaks was never a feeder to Clarksville Middle and 1189 kids will only know the other select polygons that were moved
5733			AtholtonHS	5	2	10	1			1	1	10		Emerson is a community and our children should remain together. Splitting the community is not ideal. Please consider moving other polygons and reuniting the Emerson community per the draft plan.		
5734	PointersRunES	LimeKilnMS	AtholtonHS	4	1	6	7	10	Lime Kiln Middle School is very crowded and will be over 110% capacity in 2019. CMS will be less crowded. Also keeping all PRES kids going to CMS together will be great!	3	6	7	10	Ideally, all kids should be going from the same ES, MS and HS. The feasibility does better than AAC with regard to this aspect.		
5735	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	13	6	7		3						We belong to CES, CMS, and RHHS. Currently both CES and RHHS are under capacity and I understand that it's the intention to increase students but increasing RHHS students from its current 81% to proposed 108% (a 27% increase) is too much a change to me.
5736	PointersRunES	ClarksvilleMS	RiverHillHS	1	3	4	7	13	Polygon 1189 should remain in Pointers Run instead of going to Dayton Oaks miles away. 1189 is an established community with strong ties to the Pointers Run community. Decouple us from 189 which is just a pile of dirt currently with no ties to PRES.	3	4	6	7	1189 should be with Pointers Run as the Feasibility Study had assigned the community. Breaking up our strong PRES community and coupling up with 189 which has no ties to the community is unjust for our kids. Please do the right thing for these kids.	Keep the PRES community together.
5737	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	3	10		1	9	1	2			
5738	HammondES	HammondMS	AtholtonHS	4	2	7	9		These same communities are going to have to be redistricted AGAIN in 5 years with a new hs. Why put our communities and kids through this now and then in 5 year? it's cruel and destabilizing.	1	7			Aac draft does not decimate the ahs community. I still believe it's moving families that are going to have to be moved again in 5 years.... Why do this to families twice in that time?		
5739	ThunderHillES			1	3	13	13	13	I would like the zoning to stay as it was when we payed just about half a million dollars on our new home in 2006	3	13	13	13	I would like the zoning to stay as it was when we payed just about half a million dollars on our new home in 2006		I propose polygons 111, 1111 and 2111 to go to Northfields ES, Dunloggin MS and Wilde Lake HS. Why would you change anything that will only negatively effect voting people with median household incomes that are above the U.S. average?
5740	NorthfieldES	DunloggінMS	CentennialHS		3	7	6	4	The AAC draft plan proposes to completely divide the Dunloggin Community for the high school years by separating students from Planing Polygons 150, 1150 & 4150 and sending them to Wilde Lake HS (farther away) instead of Centennial HS. Don't do this!	3	7	6	4	The AAC draft plan proposes to completely divide the Dunloggin Community for the high school years by separating students from Planing Polygons 150, 1150 & 4150 and sending them to Wilde Lake HS (farther away) instead of Centennial HS. Don't do this!	Do not divide the Dunloggin Community!! We are a tight-knit neighborhood with a strong sense of community as Ellicott City residents, not Columbia residents. We chose in large part to live in this highly-sought-after area b/c of the existing schools.
5741	StJohnsLaneES			1	3	7	4	13	Valley Mede is a well-established community.This updated proposal continues to divide our community in half. It will go directly against policy 6010 which promotes community stability. It will even make current walkers bus to school.Please reconsider!	2	7	4	13	No change has been made to allow our community to remain as one.Students will still be bused longer distances (with walkers now needed to take a bus). Current students will be redistricted at all levels.	Polygons are not true representations of community and more effort needs to be made to keep established communities together. If the current plan remains, I have GREAT concern about further redistricting in our community which is unfair to students!
5742	GormanCrossingES	MurrayHillMS	AtholtonHS	5	1	1	7			1	1	2	9			
5743	CentennialLaneES	BurleighManorMS	CentennialHS	4	1	1	7		The August 15 meeting set a troubling precedent to push out the original Centennial communities to accommodate a new property development project (polygon 147 Centennial Overlook). This decision is unfair, unjustified, and baseless.	1	1			The August 15 AAC decision will cause damaging effect on the otherwise contiguous Centennial community. Kids from these pushed out original communities will have to commute much farther to new school than those from polygon 147. Is this a fair decision?	To push out the original Centennial communities (with decades of history) to accommodate a new development project is categorically unfair. Technically, this August 15 decision defeats the goal of solving the school overcapacity problem.
5744	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	13	13	13		3	13	13	13			
5745			WildeLakeHS	1	3	4			Moving the Clary's Forest neighborhood outside of the WLHS (walking distance) area is absurd. There are no ways to walk to RHHS to stay after school. 3 other schools are closer than RHHS!! Atholton (2.6 mi), OMHS (4.3 mi) and Centennial (4.3 mi)!							
5746	CentennialLaneES	BurleighManorMS	CentennialHS	5		6	7	7	Thank you for keeping the Fonthill community together (1184, 2184, 156, etc)	1	6	7	1	Thank you for keeping the Fonthill community together (1184, 2184, 156, etc)		
5747		HarpersChoiceMS		1	3	4	6	4	Polygon #2174. PLEASE KEEP current school assignments (HCMS and WLHS). WLHS is closer to our townhome and transportation will become an issue when my son goes to HS with his afterschool activities.	3	4	6	4	Polygon #2174. PLEASE KEEP current school assignments, esp WLHS. WLHS is closer to our townhome and transportation will become a critical issue when my son goes to HS in 2 years. Transportation is critical to our family!	Transportation is a big issue for our family. Please keep Polygon 2174 to WLHS and please do not move us over to RHHS.
5748			AtholtonHS	1	3	4	3	7	Our neighborhood currently feeds into Wilde Lake Highschool even though Atholton is closer. If we must get redistricted, we would like to go to Atholton. PLEASE CONSIDER MOVING POLY68 to ATHOLTON. Otherwise, keep us at WL.	3	4	3	7			
5749	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5750			WildeLakeHS	1	3	4	4	4	We live in Trotting Ridge Way (polygon 1053), which is a walking zone from Wild Lake High School. Please do not move our kids to River Hill High as this will be difficult to pick them up after school activities. Do not move polygon 1053.	3	4	4	4	We live in Trotting Ridge Way (polygon 1053), which is a walking zone from Wild Lake High School. Please do not move our kids to River Hill High as this will be difficult to pick them up after school activities. Do not move polygon 1053.	We live in Trotting Ridge Way (polygon 1053), which is a walking zone from Wild Lake High School. Please do not move our kids to River Hill High as this will be difficult to pick them up after school activities. Do not move polygon 1053.
5751	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	13	7	6	We paid 1.5 Million dollars for our house and we pay over 10 K in Howard County Property taxes based on the high rating of the River Hil High school. We don't want school rating go down and therefore impact the cost of our house and level of education.	3	13	6	7			AAC plan does not work for the community leaving near River Hill High school and we are going to fight it.
5752	ThunderHillES	DunloggінMS	WildeLakeHS	1	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, such as bus commute time, crossing major intersections, new court house traffic. The draft does not address over enrollment at THES. Geographically we are part of Elliott City,	3	4	1	13	The draft negatively impacts me based on transportation and safety concerns, such as bus commute time, crossing major intersections, new court house traffic. The draft does not address over enrollment at THES. Geographically we are part of Elliott City,		For reasons related to the above concerns, I propose that polygons 111,1111 and 2111 go to Northfield ES, Dunloggin MS and Wilde Lake HS.This proposal solves the small feed issue, transportation concerns and our sense of community.
5753	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	6	7	9	This is the worst draft, how can 400 students be all of a sudden be added to a top ranked River Hill from a low ranked school will definitely impact River Hill negatively. There was no bigger change like this anywhere in the county. This is a worst plan	3	6	3	10	Worst plan to move 400 kids to River Hill from Wild Lake, negatively and severely impacting current communities served by River hill. Traffic considerations, who is going to consider traffic issues and other economical factors!		
5754	TriadelphiaRidgeES		RiverHillHS	1	3	6	13	7	Our family bought a $1.5 million house here so that our kids could go to RHHS, one of the best HSs in MD. Moving people from worser schools such as WLHS and RHS would defeat that goal.	3	13	7	6	The FS moves students between relatively equal schools while the AAC does not.		We did not buy a more expensive house for no reason - we bought a more expensive house to go to a better school
5755		LakeElkhornMS		5	2	6	7	8		1	6	8	7			
5756	CentennialLaneES	BurleighManorMS	CentennialHS						Students in the Dunloggin community will have to commute much longer to WLHS than those in polygon 147. What is the rationale to send Dunloggin students to WLHS but keep polygon 147 in CHS?					Dunloggin has been an integral part of the Centennial community for decades, if not even longer. The August 15 decision arbitrarily broke the original community, and appears to be in favor of a new development project.		Enrollment growth in Polygon 147 (Centennial Overlook) is tremendous compared to Dunloggin. In fact, centennial overlook was developed without proper assessment of school capacity. The 8/16 decision will worsen overcapacity problem.
5757	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	10	4	This plan is so worse, I want to keep my community stable.	3	7	4	5	This plan is so worse, I want to keep my community stable, but both plans change over 30% of students for both River Hill High School and Clarksville ES. I want to have a stable community for my children!!!		
5758																
5759	ClarksvilleES		RiverHillHS	1	3	7	6	9		3	7	9	6

5769	PointersRunES	ClarksvilleMS	AtholtonHS	2	3	7	6	4		3	6	7	8							
5770			HowardHS	1	3	13														
5771	StJohnsLaneES	PatapscoMS		1	3	7	2	4	I would like to board to consider the importance of keeping neighborhoods together. I think immediate neighbors should go to the same school. Instead, draw dividing lines along major roads (Route 40, Rt 99, etc) not WITHIN a neighborhood.												
5772	TalbottSpringsES			1	3	9	14	14												
5773		EllicottMillsMS	HowardHS		3	13	4		We live in Glenmont and we can walk to Howard. Under this plan we would have to drive to Oakland mills.											
5774	NorthfieldES	DunloggінMS	CentennialHS	1	3	6	7	9	We recently moved to this neighborhood (last September) because of the schools they were assigned to. I really don't want to have to move again based on these proposed changes.	3	1	6	9	The changes greatly increase travel time for the proposed high school change. Why not balance the students out within the region?						
5775			HowardHS	1	3	14	14	1		3										
5776	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	6	7		3	4	6	7							
5777	NorthfieldES			2	3	9	7	6	This plan will create diversity lack at WLHS. WLHS will have a disproportionate number of low income minority students. Our children deserve integrated schools. WLHS will also be overcrowded. Bring in Hickory Ridge or Dunloggin. Upgrade facilities at all.	1	9	6	7	The feasibility study takes the only lower income housing out of the NES district thereby lessening diversity	I would urge HCPSS to upgrade all high schools in the system by making facilities better, introducing IB at all schools and making all existing schools better. The county needs to increase fees on developers to pay for these improvements. We deserve this					
5778	AtholtonES			1	3	4	7	6		3	6	4	7		The new plan doesn't take into consideration the communities where students live - maintaining natural relationships with their local community; availability of parents for transportation so far out of the way (including for school and extracurricular).					
5779	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	6	7	8	We need to minimize change to existing student body. As parents of two RHHS graduates and one prospective student, we value the RHHS culture. RHHS is a success story-the education system should support and promote such culture, not the opposite.	3	6	7	8	While we welcome diversity, any drastic change is not healthy and sustainable. Please scale down shifting of students, at a minimum.	Please note opposition to the proposal in no way is targeted to any ethnic group. We embrace and welcome diversity.					
5780																				
5781	WestFriendshipES			1	3	4	7	1	My children will have to drive right by our school and spend almost an hour on the bus. A better approach is to move the Turf Valley polygons (304 and 1304) to Waverly, and keeping West Friendship as it stands.	3	4	7	3	The feasibility still damages our community an puts the children on a bus for nearly an hour. A better approach is to move the Turf Valley polygons (304 and 1304) to Waverly, and keeping West Friendship as it stands	It is detrimental to the kids to make them ride the bus for an hour right by the school a mile away from their house. The plan also removes 40% of the kids from WFES! This will destroy the community and break up continuity.					
5782			AtholtonHS	5	2					1	6	7	10	The AAC plan is an improvement from the Feasibility study. It's better because it reduces the number of children that are being switched around.						
5783	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	4	1	2		3	7	6	2							
5784	PointersRunES	ClarksvilleMS	AtholtonHS	1	2	11			Same schools.	3	6	7		This plan is bad. The River Hill community is still divided with the draft plan. Instead of bringing the River Hill community to River Hill High School, they go all the way into Wilde Lakes walking zone. The draft plan divides many communities and is bad.						
5785	PointersRunES	ClarksvilleMS	AtholtonHS	1	3	6	7	13		3	7	6	2							
5786	TriadelphiaRidgeES			1	3	13	7	4	The planned changes will affect such a large number of students. After watching the meeting on Aug 15, it seems like there could be a few options that would reduce the number of changes. Change needs to happen, but please reduce the number of kids moving.	1	7			Draft plan is slightly better as it got rid of some swaps, i.e the Dayton Oaks to/fro TRES. Why is 1222 moving to a school 2x as far? Plan has too many moves and still causes still issues in a couple of years. Need efficient changes to reduce moves.	1222,1218,218 stay@TRES 178,179,1178,1179 go to WF to keep w/304,305,1304 and keeps feeder schools the same. 732 stay@Hollifield to save space at SL gives 102% cap Plan makes WF, TRES, and Waverly util much higher just to reduce MW. Can we extend MW?					
5787		MurrayHillMS	AtholtonHS	4	3				Would prefer no redistricting at the high school and middle school level. Original task for AAC was to only redistrict elementary schools. If the projected needs change so much from year to year, we should not be doing a huge redistricting.	1	1	10	9	The AAC Draft Plan is far better than the Feasibility Study. The AAC should work to minimize the number of students moves, especially at the high school level, as much as possible. This draft also keeps Atholton largely intact, which is good.	Continue to Preserve Atholton. No school should be destroyed like Atholton was in the Feasibility Study. Regardless of plan, please let rising juniors stay at their current school. This would reduce stress for students who are already part of their school					
5788	WaverlyES	PatapscoMS	MtHebronHS	1	3	8	7	4	Do not redistrict high school students until the new high school is built. Keep polygons with walkers at their community schools. Strong communities = strong schools. Do not split communities - this will negatively impact schools and communities.	3	4	8	7	The small Waverly feed wants to stay at Hebron! The man leading the 8/15 mtg said otherwise b/c he wants his kids to move to MRHS (common knowledge). Folks on the committee should not participate in conversation about their polygon. Conflict of interest!	Only move schools impacted by new elementary school opening - not MS or HS or unnecessary ES. Come up with a LONG TERM plan. This will be the 4th time in 11 years my children have been bounced. How is that good for kids' well-being? It's NOT.					
5789	RockburnES	ElkridgeLandingMS	HowardHS	5	1	6	2		Don't redistrict Northeast until we get a school online	1	7	10	10	Feasibility study was scattered and separated communities.	Build a new HS and fix APFO					
5790			CentennialHS	1	3	4	6	7	Dunloggin should remain at centennial hs- it's part of our community and has been for years. It's closer. If redistricted - my child will not be able to play sports because of the distance and traffic in columbia. He can ride his bike now.	3	4	7	6	Both plans divide neighborhoods-our country is divided enough - please do not do this to our kids. Move the rotc program to another hs. Have open enrollment for over capacity schools to go to under capacity schools. Keep Dunloggin at centennial hs.	Delay redistricting -focus on getting new high school built. My neighborhood should not be moved because builders were allowed to over build in my hs area. Move rotc to Oakland mills or Wilde lake.					
5791	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	3	7	6	10	Minimum disrupting the schools, communities and students is Common Sense. It is totally no rational to feed out students from schools with students below capacities, e.g. WLH, RHH. I have doubt on AAC's professionality.	3	7	6	10	Minimum disrupting the schools, communities and students is Common Sense. It is totally no rational to feed out students from schools with students below capacities, e.g. WLH, RHH. I have doubt on AAC's professionality.	Minimum disrupting the schools, communities and students is Common Sense. It is totally no rational to feed out students from schools with students below capacities, e.g. WLH, RHH. I have doubt on AAC's professionality.	42964.09	42964.09	-76.9272	39.20934	
5792	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	7	6	4	Don't split folly quarter community.keep polygon 183,1183,2183 with riverhill HS together with all communities on folly quarter road for minimizing the impact on community stability, better feed, better bus road	2	7	6	4	Both damage the community stability	Our bucks ridge community are strongly against the feasibility study and AAC plan	42964.1	42964.1	-76.9676	39.25831	
5793		ElkridgeLandingMS		4	1	2	6			1	2	6				42964.1	42964.1	-76.7885	39.19152

5795	ClarksvilleES				3	7			We moved to HoCo because of Clarksville Elementary's test scores and academic preparation. That's it. That's the only reason. And there is a reason why you have standardized tests. Scores will plummet, teachers are unfairly distracted. Not fair.	3				The AAC draft plan is not only worst, but it is really not feasible. You are not taking into account the reason why concerned parents pay a premium for their kid's education and for their safety. Does your process really keep up with HoCo Commerce Dev?		42964.1	42964.1	-76.9431	39.20443	
5796			LongReachHS	1	3	13			Terrible. My child has too much in vested in long reach. Unfair to make juniors move	2	13			Should let juniors and seniors stay at current school		42964.11	42964.11	-76.7784	39.19418	
5797	WestFriendshipES			1	3	4	7	13	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be Shorter.	3	2	4	3	Move polygons 304, 1304 to BPES and move 1305, 4169 back to Waverly ES and keep 224, 229, 231, 232,1231, 1229, 2229 at WFES. WFES will grow to full utilization organically. This moves fewer students and the bus time will be shorter.		42964.11	42964.11	-76.9569	39.3037	
5798	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	2	6	7			1	6	7	4			42964.12	42964.12	-76.9075	39.29227	
5799	PointersRunES			1		6	4	13	Polygon 118 needs to stay at Pointers Run. It is such a small amount of students. No need to uproot them and move them to a school over 400% further away. KEEP 118 AT POINTERS RUN.	2	6	4	7	Even with our polygon of 118 writing letters, and filling out surveys, there has been no change from the feasibility study to the updated draft. Polygon 118 needs to stay at Pointers Run ES. No need to move such a small amount of kids and school is far.	Not only a small amount of kids are proposed to move from polygon 118 from Pointers Run to Dayton Oaks, it also continues small grouping staying together from ES to MS. Kids are being redistricted twice!!! Not okay!! Keep polygon 118 at PRES!!!!!	42964.12	42964.12	-76.939	39.17779	
5800			OaklandMillsHS	3	2	7	4	12		2	14	14	14			42964.13	42964.13	-76.8392	39.20846	
5801	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	3	4	6	7	The feeds from FQMS to RRHS drop to 16% from 34%. It might be under 15% next year. It splits the our communities in folly quarter road. The polygon 183,1183,2183 should remain RRHS together with all the communities in folly quarter road	2	4	6	7	The feeds from FQMS to RRHS drop to 16% from 34%, It might be under 15% next year in AAC, and drop to 11% in FS. It splits communities in folly quarter road. both has negative impact on community stability, bus routes, feeds etc.	Reserve Folly Quarter: Please don't split folly quarter communities. Keep the polygon 183, 1183, 2183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route	42964.13	42964.13	-76.9792	39.25599	
5802	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	3	4	7	13	I support the suggestion made at the AAC meeting on 8/15 that would move the Turf Valley polygon to Waverly ES so that WFES could remain intact.	3	4	7	13	I appreciate the AAC committee exploring ways to keep WFES intact. I think it would be helpful to study what travel times would be like for the WFES students to travel to BPES at rush hour in the morning.		42964.14	42964.14	-76.9516	39.34756	
5803			CentennialHS	1	3	4	6	7	Leave #150, 4150, 1150, 219 at CHS. Move #1100, 100, 275, 101, 1101, 3101 from CHS to WLHS. Will keep Dunloggin intact; reduce transportation cost as #1100, 100, 275, 101, 1101, 3101 are closer to WLHS; improve WLHS FARM; eliminate Centennial island.	3	4	6	7	Leave #150, 4150, 1150, 219 at CHS. Move #1100, 100, 275, 101, 1101, 3101 from CHS to WLHS. Will keep Dunloggin intact; reduce transportation cost as #1100, 100, 275, 101, 1101, 3101 are closer to WLHS; improve WLHS FARM; eliminate Centennial island.	Leave #150, 4150, 1150, 219 at CHS. ObjectID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is _____ the current school attendance areas	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	The AAC plan is _____ the Feasibility Study Plan.	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	Final comments are:
5805	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	4	7	13	the HS in this plan is 5 miles away from home when altholton is walking. not good transportation consideration. ES & MS are lower rating than current, will negatively affect property values. does not keep community together	worse than	4	7	13	overcrowding, far away from home with at least 2 HS closer, not safe for young drivers in poor weather	please do not use this plan. use feasibility study. AAC is making it worse for the children than better.
5806		DunlogginMS	CentennialHS	1	worse than	2	9	13	The AAC plan is a reactive departure from the feasibility plan based upon questionable logic and does not factor into account the idea of moving students from Centiennial HS to a Wilde Lake - academically and demographically worlds apart.	worse than	9	7	4	the Feasibility plan logically maps out a future where capacity is better used; moving students to schools of considerably lower capacity alleviating crowding and looking toward a long term solution. AAC plan is just a band-aid on a sucking chest wound.	The AAC seems to have made a rash decision as a reactive solution to community pressures. Not the way to get it done correctly. Their plan, unlike the feasibility study, violates many of the policies set forth in 6010 - particularly for the Dunloggin
5807	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	4	1		With regard to the ES, there is no reason that kids should be moved from a Clements Crossing to a lesser quality school.	worse than	4	1		The feasibility study is ideal for a smooth transition for kids who will be moving schools. Atholton HS is a much safer option than having young new drivers forced to drive on the highway (route 32) in order to get to school and other activities.	
5808			CentennialHS	1	equal to	6	5	4		worse than					
5809		HammondMS	AtholtonHS	5	better than	1	14	14		better than	1	10	9	KEEP THE AAC DRAFT PLAN with small tweaks! The draft plan limits HS students moved; FStudy moved 950 kids out of Atholton. Schools should not be altered so dramatically. AAC better considers long-range utilization & demographics.	Regardless of the final outcome, allow juniors to stay at their current schools so that they can continue to build on their successes and experiences rather than trying to navigate a new high school just before applying to college.
5810	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	2	4		better than	9	11	1		
5811	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	13	4	6	AAC plan substantially changed the student population for all schools in my neighborhood, negatively impact these schools.	worse than	4	6	13	If I have to choose, I am favoring the feasibility plan over AAC plan as the former is much less disruptive to me. That said, I completely dislike neither plans because they are too disruptive to the entire county and too many neighborhood.	Please stop dividing neighborhood, which is what happening.
5812	GormanCrossingES				better than	7	12	8							
5813	GormanCrossingES	MurrayHillMS	AtholtonHS	5	equal to	1				better than	1				
5814	GormanCrossingES	MurrayHillMS	AtholtonHS		worse than	10			High schools should not be redistricted. I understand that the AAC was told to make a plan that has high, middle, and elementary school redistricted, but it really should be just elementary school kids.	better than	10	9	1	Thank you for preserving Atholton. Please continue to do so. Emerson and Wincopia and other Gorman Road communities should stay at Atholton.They are very established as part of the Atholton community. AHS is diverse and a great school as is.	Let rising juniors stay. Do not redistrict walkers - ever Continue to preserve AHS. Keep Emerson and Wincopia at AHS Postpone high school redistricting Minimize disruption as much as possible. Move as few students as possible.
5815	WorthingtonES	EllicottMillsMS			better than	1				better than	6	7		I approve of moving polygons 67 & 1067 to Oakland Mills (from Ellicott Mills) Middle School. These polygons are closer to Oakland Mills & this reduces a small feed and alleviates space concerns at EMMS.	Thank you for keeping Worthington intact. I approve of keeping polygons 2093-3093-4093 with 93-1093-309-1309 because it keeps our contiguous community together, reduces small feeds, & prevents frequent future reassignments.
5816	WorthingtonES	EllicottMillsMS			better than	1				better than	6	7	1	Keeping contiguous communities together should be a priority. Please move neighborhoods together where it makes sense, instead of breaking them up into pieces. General westward movement alleviates overcrowding - a good plan!	
5817	PointersRunES	LimeKilnMS	AtholtonHS	3	equal to	11				equal to	12			The proposed would change my kids high school, while the AAC plan would not. I'm neutral on both because my kids are still elementary school age and since the lower schools won't change, I'm okay with the high school changing.	
5818			MtHebronHS	1	worse than	7	6	2	This redistricting is reactive and not strategically planned. We will be back in the same spot in a few years-- we need to stop the knee-jerk, reactive redistricting and truly think long-range. And any plan should NOT impact current high school students.	equal to	2	7	6	They're equally bad. Both break up neighborhoods and communities where kids have been together since kindergarten. And both are a "Band-Aid" solution to a long-term problem that needs a strategic approach.	Hold off on redistricting high schools altogether and expedite the proposed building of a new high school to ease over-crowding and capacity issues. And DON'T divide neighborhoods where kids across the street will be going to different schools!
5819			AtholtonHS	4	worse than				high schools should not be redistricted at this time. the feasibility study LAST YEAR stated no high school redistricting was going to happen. It shouldn't change so drastically in a year. Even the notices in the spring said only elementary schools.	better than	1	10	9	Much better than the feasibility study. The AAC draft does a good job of preserving Atholton, which is a great school with high academics, good diversity, great sports and a great community feel. Do not destroy AHS. It is not necessary.	LET THEM STAY. Please let rising juniors stay. A phase-in plan would be even better. Please minimize the number of students moved, especially at the high school level.Such huge redistricting is unnecessary and disruptive and damaging.
5820	VeteransES	EllicottMillsMS	CentennialHS	5	worse than	13	11	11	Please keep the polygen 1101 remain as it is. Any changes you make will have greatly impact (bad)on my kids. She will lose all her friends and try to adjust herself in a new environment. I heard the new school is protesting to keep their school intact.	equal to	13	11	11	Both AAC draft plan and feasibility study plans are bad. No change is my line. You make your wish come true. Meanwhile you make our residence a nightmare. Not saying kids are worried and can't focus on studying.They dont understand why they different.	Please keep the existing school zone plan as it is. Any change you make you will hurt our kids feelings. Will have greatly negative impact on my young kids. My daughter will lose her friends and enter a new environment that she could be not welcomed.....
5821	LongfellowES				worse than	6			This plan split kids in Longfellow ES into two middle schools.	worse than	4			Long fellow ES is much closer than Clarsville ES. why redistricting us not areas closer to CES?	Redistricting is a waste of public resources. The county should plan ahead when they approved building new housing development. Do not keep re-districting the kids to solve some problems you created in the beginning.
5822	LongfellowES	HarpersChoiceMS	WildeLakeHS	5	better than	9	2	7	I believe this plan serves to reduce the overcrowding in certain schools and distribute students evenly throughout the county. I support the new districting.	better than	1	9	3	I believe this plan serves to reduce the overcrowding in certain schools and distribute students evenly throughout the county. I support the new districting.	
5823			MtHebronHS	1	worse than	7	6	2	These plans are a not a long term solution. They are disrupting lives and causing pain for the student's. Leave the students where they are!	equal to	7	2	3	A more targeted approach, with the supplemental use of re-locatable classrooms appears much more reasonable for the next few years, followed up with boundary adjustments made in conjunction with the opening of the new high school in Jessup on a TBD date.	The recommendations in the 2017 Feasibility Study needs to include phasing-in rising 11th graders, or allowing trailing siblings.
5824			RiverHillHS	1	worse than	4	3	2	Poly 175, 2175, 1175, 177, 1177, 1141 to RHHS Poly 3174, 1053, 1174, 1174, 141, 140, 1140, 172 to WLHS Poly 135, 1135, 53, 2134, 1066, 2053, 1134, 1066, 134 to Atholton. Poly 2174, 2135 to either WL or Atholton.	worse than	6	4	3	Poly 175, 2175, 1175, 177, 1177, 1141 to RHHS Poly 3174, 1053, 1174, 1174, 141, 140, 1140, 172 to WLHS Poly 135, 1135, 53, 2134, 1066, 2053, 1134, 1066, 134 to Atholton. Poly 2174, 2135 to either WL or Atholton.	New HS on Mission Rd Jessup will likely cause shift in students from WL and Atholton students. PLEASE MINIMIZE PREMATURE SHIFTING OF STUDENTS at this stage.
5825	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	6			worse than	7				
5826	NorthfieldES	DunlogginMS		1	worse than	14	14	14	In the AAC plan, many high schools with higher FARM rates are over capacity compared to current school attendance areas. For instance, Wilde Lake is currently at 96.3% capacity, under the AAC plan, it will be at 105.3%. This is not fair.	worse than	14	14	14	In the AAC plan, many high schools with higher FARM rates are over capacity compared to the Feasibility study. For instance, under the AAC plan, Wilde Lake will be at 105.3% of capacity, but under the Feasibility study it is at 99.4%. This is not fair.	It is not appropriate to split neighborhoods. I think the school district needs to proceed immediately to build another high school in the eastern part of the county. The attendance areas are convoluted. High schools are on far west of attendance areas
5827	ClarksvilleES	ClarksvilleMS	RiverHillHS		worse than	2	3	8	This plan reshuffles communities too much. It affects too many families and stimulates conflicts between people. It is impossible to balance the interests of so many people with different background. I suggest keeping the current attendance as possible as	worse than	2	3	6		
5828	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	1	4	4		worse than	1	6	5		
5829	LongfellowES			1	worse than	4	6		We are polygon 142 and walkers to Longfellow es. Please keep our neighborhood together.	worse than				polygon number 142 are walkers to longfellow es.	not clear why the AAC insists on sending walker kids to buses to school that is further out. this would be a waste of money and time.
5830			RiverHillHS	1	worse than	3	4	14		worse than	4	6	14		
5831		MountViewMS	MarriottsRidgeHS	1	worse than	7	4	1	Polygon 1231: First thank you for listening and reading this comments on AAC plan.We believe that we are strongly integrated into Mount View and Marriot Ridge HS since we are only 3 minutes away. AAC is moving close Hebron poly to Marriot and We to Glenlg	worse than	7	4	1	AAC by moving Poly 1231 to Glenlg from Marriot and Moving Left of Hebron (160,1160,1162,etc) to Marriot, AAC is essentially taking two community who are right next and highly integrated to each school to be separated from rest of peers and Increase	cost of transportations and before care cost (especially with same time opening for school this year). 5869		ElkridgeLandingMS			worse than	13	4	3	Move 68, 1068, 2068, 3068, 261, 1261 to either Oakland Mills or Long Reach to keep the neighborhoods together. This will have continuity of neighborhoods and bus traffic.	equal to	13	6	7	Keep 42, 1042, 2042, 3042 in Howard HS to provide continuity of neighborhoods and bus traffic.	
5870	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	2	6		better than	1	2	9		
5871	ThunderHillES	OaklandMillsMS	OaklandMillsHS		equal to					better than	7	6	4	1. HS students can bike to school if they miss the bus. 2. Avoids racial re-segregation 3. Keeps thunder hill community together	
5872	FultonES	LimeKilnMS	ReservoirHS	3	worse than	9			The AAC draft plan maintains concentrated poverty through most of the county and exacerbates it specific areas. There are at least 5 elementary schools that move away from the county mean on FARMs rates, as well as 9 middle schools and 5 high schools.	equal to	1			Looking at the year when high schools exceed 115%, the AAC draft is better for 4, worse for 4, and essentially the same for 4.	The data sets are not presented in the same format between the FS & the AAC draft. It's hard to assess the AAC draft according to policy then also compare it to the FS. It's unclear if the scale of these proposals are worth the burdens to students.
5873		DunlogginMS	CentennialHS	1	worse than	7	6	8	For over 50 yrs Dunloggin has been a well-defined neighborhood.Communities should be kept intact and other adjustments made. Dunloggin is older and more established than other communities that are being left intact under the policy of community stability.	worse than	7	6	4	The AAC Draft Plan transfers to Dunloggin what the other communities objected to under the Feasibility Study. The Feasibility Study prepared by a team of experts over the course of a deliberative study did NOT recommend DUNLOGGIN to be SPLIT.	WE DO NOT WANT DUNLOGGIN SPLIT. Dunloggin should be able to speak with one voice about our schools. Kids should be able to attend ES, MS and HS together. HIGH SCHOOL redistricting should be put on hold until the Future High School is built!!
5874				1	worse than	6	7	4	We strongly support keeping the community of Dunloggin together as it has been since the 1950s. Close ties have been forged between neighbors and have resulted in younger families moving back for the same upbringing and academic excellence in the schools.	worse than	6	4	8		The ACC Plan for Dunloggin is taking students in such an irregular plan so that neighbors are being sent to different school. Buses from different schools will be passing each other - not fiscally wise! Not all programs are offered at all schools.
5875		LimeKilnMS	ReservoirHS	1	worse than	4	13		My children are going to be attending two different high schools based on this recommendation. The new recommended high school is much further! My children are able to ride their bikes to school now and they will not be able to if moved!	worse than	13	3			
5876	WestFriendshipES			1	worse than	4	7	13	The draft plan significantly increases transportation times for students currently on the northern Rt32 corridor near their existing schools. The committee and school boards should weight transportation factors more highly in their redistricting approach.	worse than	4	7	13	The AAC plan significantly increases transportation times for students currently on the northern Rt 32 corridor unlike the Feasibility Study. The AAC and school boards should weight transportation factors more highly in their redistricting approach.	While the goal of limiting smaller feeds is appropriate, it is less impactful on student's education and overall quality of life than significantly extending transportation times and breaking up contiguous communities into separate schools.
5877	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	6		Keep the turf valley kids at waverly and shift back the original west friendship kids. Bushy Park travel times will increase significantly over an already 20-30 minute ride.	worse than	1	4		Moving one school is one thing but negatively affecting all three is ridiculous. Keep valley Meade walkers at Hebron, shift back the Rt. 32 corridor to mount view and Marriotts ridge. Moving a small number from a school under capacity doesn't make sense.	Small numbers on the Rt 32 corridor suffer by having to drive past their existing schools to get to the new schools. Rt. 32 traffic southbound in the morning will create both long travel times and safety concerns.Not to mention MRHS remains under capacity
5878			MtHebronHS	1	worse than	4	13	7	I don't understand why you would move an existing Hebron student that is a walker. The plan at High School level should only impact rising 9th graders. If you've started at a High School you should be allowed to finish. This has to be minimal impact.	worse than	4	7	13	I don't understand why you would move an existing Hebron student that is a walker. The plan at High School level should only impact rising 9th graders. If you've started at a High School you should be allowed to finish. This has to be minimal impact.	I don't understand why you would move an existing Hebron student that is a walker. The plan at High School level should only impact rising 9th graders. If you've started at a High School you should be allowed to finish. This has to be minimal impact.
5879	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	6	7	14	I like that the changes are contiguous. I think it's most important to keep kids together as they move from ES to MS to HS. There are a few odd shapes and outliers that seem like they could be better planned.	better than	6	7	14	I like that the changes are smaller (e.g. Atholton HS isn't a completely new set of students). I think it's most important to keep kids together as they move from ES to MS to HS.	I prefer the AAC draft plan.
5880			WildeLakeHS	3	worse than	4	6	7	My child can walk to WLHS and the AAC plan has them being bussed to River Hill, where parents have made it clear they do not welcome kids from WLHS. This negatively affects homework time & there is no transport home from after school activities.	worse than	4	6	7		I prefer to keep my child in a school that embraces it's racial, cultural and economic diversity. From parental feedback and demographics, I fear that River Hill does not embrace such a breadth of diversity which could negatively affect kids moved fromWL
5881			CentennialHS	1	worse than	4	7	6	214 is in the CHS neighborhood.Across the road, kids will be going to CHS but 214 kids are proposed to go to MRHS,splitting neighborhoods.Our kids have to ride bus for 45 mins.This will negate any benefits from delayed start time for HS. Drop this plan.	worse than	6	7		153 and 1184 have been moved back to CHS leaving 214, 154, 1154 and 2154 to go to MRHS from the Feasibility Study.This has further split the neighborhood.Either move all the polygons back to CHS or move all the above polygons to MRHS. This is wrong.	The draft plan is more flawed than the FS. Drop this HS redistricting till the 13th HS is ready. It is wrong to pick and choose polygons that attend CHS. This way only the polygons that exert political influence are being retained (eg. 147, 153, 1184).
5882	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	4			We need to save time.	worse than	4			We don't want to take school buses.	We don't want to waste time on school buses.
5883	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	9	Geographically - it is baffling to even consider busing students from the Dunloggin/St John's community to Wilde Lake High School. There apparently was no study performed regarding traffic and travel time during those morning hours.	worse than	4	7	9		
5884		BurleighManorMS	CentennialHS	1	equal to	13	6	4	We are polygon154 small feed of students to cut off Centennial high, I have kids in middle and high, this will break us, both kids in sports, how we will make it from one school to another. Keep 154 in Centennial high.	equal to	6	4	7	We are polygon 154, this plan is the same not solving my problem of getting to and from a school that is 2 miles than another one that is 8.2 miles away. Our community has no expected growth, don't take our very few kids from Centennial.	Please study the communities, don't just use an algorithm to choose areas to cut. Polygon 154 is small, old community that is part of Centennial for decades with not estimated growth. Keep Polygon 154 in Centennial high School.
5885	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	better than	4	6	1	The AAC plan appears to provide for the efficient use of existing seats without creating huge transportation costs.	better than	4	7	8	The Feasibility study would require much more busing for high school students and would draw students from such a large area, that I would be difficult for them to participate in before/after school activities.	Allowing students to attend a school closer to their home allows for easier student access to school activities and more parental involvement with the school.
5886	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	13	4	1	See no positives or need for redistricting our small community to equally crowded and population-dense areas.	worse than	13	4	1	See no positives or need for redistricting our small community to equally crowded and population-dense areas.	Northfield ES, Dunloggin MS, and Wilde Like HS are our best options given the plan to move the county courthouse to the southern end of our neighborhood. Howard HS would be better than Wilde Like HS, but already too crowded w/ Executive Park Dr population

5887	ForestRidgeES	PatuxentValleyMS	HammondHS	1	worse than	4	7	6		worse than	6	4	7		I am completing this survey in hopes that our community of Emerson stays together instead of it being split. I live on the other side of 95 and we are being split up. I feel we should stay together.
5888	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	9	13	The AAC plan impacts the whole river hill area negatively. the demographic changed dramatically.	worse than	7	6	9	This AAC plan is worse than feasibility study. FS at least keeps the river hill village together but the AAC plan just split our community up entirely.	We are requesting the AAC members to reveal their polygon numbers.As we all know, the property values are strongly related to school district. It is a CONFLICT of INTEREST for the AAC members to propose new plan other than FS.
5889	CradlerockES			1	worse than	4	7	13	I don't see how kids that would feed to OMHS in the Feasibility Study Plan now get districted to Wilde Lake High School. My kids would be considered walkers to OMHS, but now will have to be bused to Wilde Lake. Not a well thought out plan.	worse than	4	7	13	I don't see how kids that would feed to OMMS and OMHS in the Feasibility Study Plan now get districted to Wilde Lake High School. My kids would be considered walkers to OMHS, but now will have to be bused to Wilde Lake. Not a well thought out plan.	The AAC draft impacts too many communities negatively and should be scrapped.
5890	ForestRidgeES				better than	4	6	7		worse than					Modify it to reunite the Emerson neighborhood (Policy 6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS & Atholton HS
5891	PointersRunES	ClarksvilleMS	AtholtonHS	5	equal to	6	3			better than	6	2		I like AAC draft.	
5892		PatapscoMS		1	worse than	7	6	8	The draft plan splits up established neighborhoods in the old center of Ellicott City to deal with the expanded growth along the boundaries of development within the County. This is the second time this has occured within less than 10 years.	equal to	7	6	8	Few changes are evident in our area between the draft plan and the feasibility study.	I would hope that in the future, development approval in the County would be circumscribed by available school resources rather than the current situation where development approval seems to be driving the need to shift student populations.
5893	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	7	4	14	The following polygons are at CONTIGUOUS COMMUNITY: 159, 1159, 1034, 2034, 158, 34 and 3034 (Valley Mede area of Ellicott City). 159 and 1159 should remain with their community at St. Johns Lane ES, Patapsco MS and Mount Hebron HS.	equal to	7	4		There are walkers in polygons 159 and 1159 that would be bused to Marriotts Ridge HS thereby increasing transportation costs to the school district.	Alternative plan for the area: Polygons 1161, 161, 2161, 162, 1162, 1160, 160 could go to Waverly ES, Patapsco MS, & Mount Hebron HS.This would maintain contiguous communities, alleviate some overcrowding, maintain large feed, & lower transportation costs
5894	WorthingtonES			1	worse than	7	7	7		worse than					
5895	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	9		worse than	4	3	3		
5896			CentennialHS	1	worse than	7	6	4	Dunloggin students have attended Centennial for generations. The AAC Draft Plan would split the students at the high school level, sending next door neighbors to different schools in different cities. This is a violation of HCPSS Policy 6010 IV.B.2.b.	worse than	7	6	4	The Feasibility Study kept Dunloggin students at Centennial. The AAC Draft Plan would split the students at the high school level, sending next door neighbors to different schools in different cities. This is a violation of HCPSS Policy 6010 IV.B.2.b.	Longer commutes are a concern as well. In addition, Howard County will soon bring online the new Eastern HS and Columbia will bring online hundreds of new residential units. These two events will require more redistricting in the very near future.
5897	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	7	9		worse than	7	9	6		
5898		MountViewMS	MarriottsRidgeHS	1	worse than	4	7	14	Trying to minimize my children's exposure to traffic. Your plan has them traveling more on rte 32 and further from home.	worse than	4	7	14	Trying to minimize my children's exposure to traffic. Your plan has them traveling more on rte 32 and further from home.	With the current time draw and greater amount of online homework, keeping children off the buses and nearer to home should allow them more time for their studies. This also includes the travel time for parents during rush hour in the afternoon for afters
5899			CentennialHS	1	worse than	8	6	13		worse than					This plan is total bullshit and will not be tolerated. My child has moved schools so many times in her life and she's been the new kid too many times. We'll move schools if necessary to stay in the Centennial school district.
5900			CentennialHS	1	worse than	7	6	4	Dunloggin students have attended Centennial for generations. The AAC Draft Plan would split the students at the high school level, sending next door neighbors to different schools in different cities. This is a violation of HCPSS Policy 6010 IV.B.2.b.	worse than	7	6	4	The Feasibility Study kept Dunloggin students at Centennial. The AAC Draft Plan would split the students at the high school level, sending next door neighbors to different schools in different cities. This is a violation of HCPSS Policy 6010 IV.B.2.b.	Longer commutes are a concern as well. In addition, Howard County will soon bring online the new Eastern HS and Columbia will bring online hundreds of new residential units. These two events will require more redistricting in the very near future.
5901			CentennialHS	2	worse than	7	13	14	The AAC draft plan is splitting the Centennial High School community terribly. Families who have been attending CHS for years, living on Frederick Road and Font Hill, are being moved, while new community members (Centennial Overlook) get to stay. Unfair.	equal to	2	14	14		The CHS redistricting is poorly designed and unfair to families in the community. (i.e. families living far east of 29 are staying at CHS but those that live minutes from the school are being moved and forced to commute extremely far)
5902	IlchesterES			5	better than	7	6	4		better than	10	7	6		
5903	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7		worse than	6	7	4	As a river hill resident, I think the FS is much better than AAC plan	
5904	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	9		worse than	6	7	9	The FS is much better than AAC plan because it keeps our community together	
5905	FultonES			1	worse than	4	7	13	How can polygon 1112 which is directly across from FES be sent to Pointers Run.? Students can walk across the street at crosswalk with a pedestrian signal to the school and you will bus them to another school. How does that make any sense!!!!!!!!!!!!!!	worse than	4	7	13	The Feasibility study didn't recommend any moves for FES because there was not sufficient information. What new information did the AAC use to make their decisions? Will that information be shared?	The moves for FES only provides relief until 2019. Will the school be redistricted again at that time? How is beneficial to students? Why are the polygons on the east side of Route 29 feeding to FES. They are closer to Hammond.
5906	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	better than	6	7	14	This plan is much better in keeping students together from elementary through High School which the current attendance areas completely ignores.	worse than	4	14	14	The feasibility study does a good job in assigning schools closest in proximity to our neighborhood however is worse when keeping students and neighborhoods together.	I would like to see a plan where the Allview and MacGills Commons neighborhoods remain together and assigned to schools close in proximity with Atholton as the assigned High School.
5907	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	4				worse than	4			I don't want my kids to waste time on school buses.	
5908	AtholtonES			1	worse than	7	9	13		worse than	7	9	13	My surrounding neighbors and I prefer the Feasibility Study plan.	I will probably move if the AAC draft plan was to go into effect. I am sure it would affect my neighbors as well.
5909	ElkridgeES			1	worse than	6	7	4	My husband and I just recently purchased a home in Howard County with the guarantee that our son would attend Elkridge Elementary, Elkridge Middle and Howard High. We chose the location of our home due to the academic achievement and the opportunities.						If my child is to go to another school there is a chance that he may not succeed as much as I feel he would succeed at Howard High.
5910			AtholtonHS	3		7	1	9	some improvement in spreading racial and economic diversity. But districts seem drawn to protect" some schools possibly to maintain higher standardized testing scores (ie split WLHS population between RHHS MRHS and GHS	worse than	7	6	1	less continuity for students between feeder schools	Good spread of racial/economic diversity into other schools such as Atholton which my daughter attends."

ObjectID	Elementary School	Middle School	High School	Please rate this plan 1 to 5:	The AAC plan is _____ the current school attendance areas	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	The AAC plan is _____ the Feasibility Study Plan.	My resonse is based on:	My resonse is based on:	My resonse is based on:	My comments are:	Final comments are:
5911	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	7	2	Move 304 & 1304 to either BPES or WES; Keep 224, 229, 231, 232, 1231, 1229, 2229 at WFES - reduces number of children moved, reduces bus times, avoides $4M cap invest in WFES	worse than	5	4	5	Keep 224, 229, 231, 232, 1231, 1229, 2229 at WFES, MVMS, MRHS. Revert to FS; would rather have small feed. Transportation study should be looked at if AAC draft is considered. Route 32 - numerous serious accidents - serious safety concern	Please provide the transportation study that was 8/15 meeting. The study should look at poly 304 & 1304 to BPES and 224, 229, 231, 232, 1231, 1229, 2229 to BPES, GMS, GHS - safety and times. Times for existing WFES students already 45 minutes
5912	WaverlyES			1	worse than	4	7	8	My neighborhood has been targeted every single time the county has done redistricting. I would like my children to remain at Patapsco and Mt. Hebron as we are part of this community and walkers to Hebron.	worse than	4	7	8	I prefer the feasibility study plan because it keeps our current middle and high school. I like being redistricted to St. John's Lane because my children will make friends with those that will go to the same middle and high school.	
5913	ClemensCrossingES	LimeKilnMS	AtholtonHS	1	worse than	7	2	14	The plan is creates too many disjoint high school districts, by not solving the atholton island, creates an island with wild lake, and almost creates another island with centennial. On elementary school, why does Centennial Elementary have an island.	worse than	7	2	14	The feasibility study corrected the Atholton island, but the AAC draft plan seems to make changes with a bias toward not affecting Atholton. Geographically/Neighborhood wise, Atholton could easily bring in from across 29 (N of 32).	I'm concerned that with 3 AAC members living within the Atholton High School boundary, there is a possibility they could be making decisions that bias toward preserving Atholton rather than changes that are in the best interest of long term solutions.
5914	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	7	4	1	Our polygon 1231 has been enjoying tight integration with MRHS, MVMS, and WFES. It is part of our family and our community. MRHS and MVMS are also right next and that also brings community together and in assistance to Schools. Spent many years in buildin	worse than	7	4	1	I am sure Left of Mt. Hebron community feels same for their school. Consider Keeping 224, 229, 231, 232, 1229, 1231, and 2229 at MVMS and MRHS, keep 160, 162, 1160, 1162, and 2161 at PMS and MtHHS or keep 159 and 1159 at PMS and MtHHS Or Feasibility Plan	Revert to feasibility study plan—Move 224, 229, 231, 232, 1231, 1229, 2229 to BPES, but bring them back to MVMS and MRHS—ok with small feed from ES to MS. Please Generate transportation study on our poly. You will know how difficult it will be for us.
5921	NorthfieldES	DunloggінMS	WildeLakeHS		equal to	7	9	14						With the proposal to take out polygon 147 it seems that the FARMS percentage will be higher than before. WLHS already had a very high FARMS if you are going to change the HS by over 30% of kids could you at least move FARMS toward the county mean?	It seems that you only take FARMS data into consideration when your proposal would take high FARMS polygons to low FARMS High schools. But when a new low FARMS polygon wants to revert from the high FARMS proposal, you conveniently forget to check
5922	DaytonOaksES	FollyQuarterMS	RiverHillHS	1	worse than	3	4	6		worse than	6	7	9		
5923	LongfellowES			2	worse than	6	7	4		worse than	4	6	7		
5924	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	4	7	8	WFES is 1.2 miles away and it takes the bus 45 min. How long will BPES take? Can we get some feedback about transportation study for the 32 corridor students redistricted to BPES. Feed from BPES to MVMS is small but ACCEPTABLE to us as MVMS feeds to MRHS.	worse than	3	4	7	with the growth in Turf Valley WFES will need $ 4000000 to upgrade septic system and will be over capacity soon as TV is projected to send 227 ES students to WFES (currently 104) in 2023. We will be talking about redistricting again.	Why disrupt established communities for new comers? Has there been any studies done to show effects of redistricting on young kids? Why are new communities being built if we don't have enough room in schools? We need long term solution instead of bandaids
5925	ThunderHillES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	13		Our current schools are Thunderhill (1.3 mi), Dunloggin (3.7 mi), and Wilde Lake (4.5). New proposed schools are Thunderhill (1.3 mi), Oakland Mills MS & HS (both 5.6 mi). There are much closer to options such as Ellicott Mills (2.1 mi) & Howard (2.1 mi)	worse than	4	13		Doesn't seem feasible to route buses out 4 miles further than closer school options. The further the distance our children the higher the risks will be.	I have a child that will be attending the school soon. I am not comfortable with sending my pre-teen child to the other side of the town to attend school when there are more practical and safer options that should be considered first.
5926	WaverlyES	PatapscoMS	MtHebronHS	4	better than	2	14	14		better than	14		14	Thanks	Thanks
5927	NorthfieldES	DunloggінMS		1	worse than	8	3	4	This is a haphazard approach to redistricting that not only breaks up the neighborhoods, costs exorbitantly more, endangers the safety of not only students but the general public, and still fails to achieve the objectives in a responsible manner.	worse than	2	3	7	Same comments as above. There has been no rational justification provided for throwing out the findings of the feasibility study and replacing it with a plan that would cost $1.2 mil more just in bussing students. Draft plan should build from the study.	The affected neighborhoods should be given the opportunity to be heard throughout this process to provide for a fair and informed decision-making process, rather than getting thrown under the bus at the last minute.
5928	ClemensCrossingES	WildeLakeMS	AtholtonHS	1	equal to	14	14	14		worse than

5934	LongfellowES			5	better than	1	9	4	This AAC draft plan is MUCH better at considering the capacity utilization of the schools as well as the demographics all while doing it's best to keep transportation under control - the best yet!!	better than	2	9	1	The AAC is better for the overcrowded areas of downtown Columbia - so happy to see this revision!	Thank you for this AAC draft plan - we hope it is adopted! It does seem to consider the future school capacity, finally appears to address demographics, and transportation issues better than the Feasibility study.
5935	LongfellowES			5	better than	1	4	9	Of what has been presented, the AAC draft plan seems to do the best in reducing downtown crowding and equalizing student to teacher ratios.	better than	1	4	9	Of what has been presented, the AAC draft plan seems to do the best in reducing downtown crowding and equalizing student to teacher ratios.	
5936	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	10	The new map on which River Hill High School will be fed did not make senses at all. Some neighbors near the RHHS were redistricted to or maintained in Atholton HS while a large areas from Wilde Lake HS within a walking distance were redistricted to RHHS.	worse than	7	4	6	FS considered the completion of the communities and reasonable cost in students transportation.	Shift Polygons associated with Clarksville MS (i.e., 1190, 128, 1128, 1129, 129, 1064, 64, 130, 296 and 1296) to River Hill HS; Leave Polygons associated with Swansfield ES at Wilde Lake HS (currently existing feed); => Two communities will NOT be torn.
5937	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	2		better than	1	10	2	It solves overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.)	
5938			AtholtonHS	5	better than	1	10		Thank you for preserving Aholton	better than					
5939	ElkridgeES	ElkridgeLandingMS	LongReachHS	1	worse than	2	2	7	Our kids have gone to EES & ELMS for their entire school careers but would be split in high school. It would be nice if our children could attend HHS with the other 93%of their peers, instead of being the 7% that goes to LRHS. PLEASE KEEP THEM TOGETHER.	equal to	6	7	7		Please keep children who have attended EES through ELMS together. It is so unfair for 93%of their peers to go to HHS while only 7% go to LRHS. It is detrimental to the students social/peer groups and divides our community unfairly. One HS for all. Thanks!
5940		ElkridgeLandingMS	HowardHS	1	worse than	2	5	6	This is discrimination, pure and simple. You continue to remove all of northern Hanover and eastern Elkridge, which are poorer" areas that are currently assigned to Howard HS and want to redistricting us to Long Reach HS. This is unacceptable."	worse than	7	9	13	The feasibility study took into consideration the long term growth and only moved polygons that are continuing to go and expand. Leave polygons assigned to Howard HS that are North of the railroad tracks that divides Hanover, including polygon 38.	Stop discriminating against us in northern Hanover and eastern Elkridge. Remove polygons on the Eastern side of Rt. 1and the NE side off Rt. 100. By removing those polygons you will reduce the number of students attending Howard in higher growth areas.
5941	CentenniaILaneES			5	equal to	7			I am glad that 147 was moved back to CLES, which makes sense from transportaion and community stability point of view.	equal to	7	3			

5942	DuckettsLaneES			1	worse than	4	3	2	The projected # shown on the Polygon Enrollment Projections School Year Map are drastically different than the Summary of AAC Draft plans (both 1 & 2). The map shows polygon 1036 enrollment 57% lower than the summary of ACC draft plans. Which is correct?	worse than	4	3	2	Combining neighborhoods east & west of the train tracks in polygon 1036 causes increased transportation times, operating costs, and does not take into consideration long-range capital projects (the rapidly growing neighborhood of Oxford Square).	Evaluate polygons before making final recommendations. P1036 will have over 300% growth over the next 5 years. Oxford Square is the cause of this rapid growth and is undermining the small community of Belmont Station. LEAVE Belmont Station at DLES
5943	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	1	3	There are empty seats in the western schools and this plan fills them.	better than	7	2	3	This new plan leaves the Font Hill community intact and instead moves the new development off Old Annapolis Road to a different attendance area.	
5944	FultonES	LimeKilnMS	ReservoirHS	5	better than	7	6	1	I appreciate this plans focus on keeping communities together in my district. It minimizes disruption to students already enrolled, reduces anticipated capacity issues, and keeps clearly defined communities in tact - these are all priorities for me.	better than	1	7		This plan reduces capacity concerns at Fulton Elementary Schools by districting Maple Lawn South (a community that is not yet built) to Pointers Run. It reduces impact to current students and communities, while keeping that new community together.	
5945	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	4	6		worse than	4	7	6		
5946	NorthfieldES	DunloggінMS	CentennialHS	4	worse than	13	4	4	Feasibility study did not suggest redistricting Dunloggin neighbourhood polygons(1150,4150,219,150).Current plan splits our neighborhood and we strongly oppose it. Please keep all Dunloggin to Centennial school.	worse than	7	4	13	Current plan made U turn from feasibility study for Dunloggin neighbourhood polygons(1150,4150,219,150). It is breaking our neighborhood and sending us to long distance Highschool. Please unite us as it was before. We strongly oppose this proposal.	County built new school for North region to solve overcapacity issue. This plans sends us in opposite direction that does not meet long term goal. Please keep us at current school and move polygon 97 to North and there is least movment.
5947	HammondES	HammondMS	HammondHS	5	better than	1	9	12	Draft 2 is a big improvement. Only issue is sending kids from Allview to WL. They should stay in OM	better than	1	7	9		
5948	ThunderHillES	OaklandMillsMS	OaklandMillsHS	4	better than	6	10	9		better than	4	6	10	I believe the current August 8 plan is much better than the Feasibiliy Study. Keeps large numbers of kids together from one school to the next. Keeps transportation at a minimum and accomplishes the task of relieving overcrowding at other schools.	
5949	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	I'm so glad to see the plan keeps more children together in their feeds and doesn't separate as many once they reach the high school level.	
5950	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	6	8		better than	7	6	8		
5951	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	6	7		Do you care about the River Hill community? Friendships are broken when CMS gets divided unevenly to River Hill or Atholton. Every student from CMS should attend River Hill and not go to Atholton, which will get overcrowded soon. Think of our community.	Doing this will make easy transitions from middle to high school and not create anxiety or depression. We belong to the River Hill community NOT part of Atholtons.
5952			AtholtonHS	1	worse than	7	1	6		worse than	1	6	7		
5953	CentennialLaneES	DunloggінMS	CentennialHS	1	worse than	4	7	2	Bus distances are greater, kids will spend more time on the bus because they are being sent to the farthest school possible. Ridiculous!	worse than	4	6	7	Kept students in their closest school and didn't impact all of the schools. It was a more limited and settle redistricting. You can't buy a house in HoCo anymore, no security on schools assignment.	There was NO development from the feasibility study to Drafts. Feasibility study was done by professionals and if a student was moved, he/she moved to school an equal school. Draft moves kids without any reasoning.
5954	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	2	4	10	It makes a lot of sense to keep 147 in centennial school district.	better than	1	6	10	Kids are not polygons. Please stop school redistricting which is tearing up communities.	The county-wide school redistricting unnecessarily hurts a large population of students. The Cons far exceeds Pros. Please stop this. Howard county should solve school overcrowding through ways rather than this kind of school redistricting.
5955	BellowsSpringES	MayfieldWoodsMS	LongReachHS	5	equal to	11	14	14		better than	7	6	14		
5956	PointersRunES			1	worse than	6				worse than	7			Draft 2 has the splitting of polygons 117 and 117 for middle school. We are a small community of about 100 houses and there are maybe a handful of middle school kids in each of these polygons. Splitting up our neighborhood would be detrimental.	
5957	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8		
5958	ThunderHillES	DunloggінMS	WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for ex bus commute time, crossing major intersections and new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for ex bus commute time, crossing major intersections and a new court house traffic along the commute. The draft does not address the over enrollment at THES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, DMS, and WLHS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
5959	ElkridgeES			1	worse than	7	6	9	We specifically bought our home in Howard County based on the school we were assigned to. Now they may no longer be going to a high-ranking school. HoCo may lose potential residents if this continues to happen. Would not have bought here based on new plan		6	7			
5960	RockburnES			5	equal to	11				better than	6	7	10	Plan #2 further refines ability for student walkers. The plan is well balanced.	
5961	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	1	worse than	4	6	7	NOT SAFE FOR HIGH SCHOOL DRIVERS. you are moving my child away from 2 high schools within minutes drive to a school requiring usage of rt 32 UNSAFE and disrupts communities	worse than	4	7	5	Leave the plan as it originally was, it kept communities together. the two amended plans are not good nor safe for young drivers	
5962			HowardHS		equal to	6	7	8		better than	6	7	8	It is extremely important to our community that our students be kept together from one school to the next (Rockburn - - > ELMS - - > Howard H.S.) and not moved during their high school years.	The entire Lyndwood community (polygons 87, 2087 and 3087) is extremely thankful for all of the time and hard work the AAC has put in to this overwhelming task. We can't thank you enough!!!
5963	ThunderHillES	DunloggінMS	WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Worthington ES (currently at 85% capacity), Dunloggin MS, and Howard HS. This proposal solves safety and transportation concerns and maintains our community affiliation with Ellicott City.
5964	FultonES			5	better than	7			I appreciate that this plan focuses on keeping whole communities like mine (Maple Lawn) together, while also reducing projections for overcrowding at Fulton Elementary.	better than	7			By putting Maple Lawn South (not yet built) at Pointers Run, it reduces disruption to students already enrolled at Fulton, while also keeping the new Maple Lawn South community together once it is built.	I appreciate that this plan focuses on keeping whole communities like mine (Maple Lawn) together, while also reducing projections for overcrowding at Fulton Elementary.
5965	LongfellowES	HarpersChoiceMS	WildeLakeHS	2	worse than	9	1		Concern about demographic factors is that Longfellow ES is already well above the county average in FARM rate and this plan would move that even higher to more than double the county average.	better than	6				
5966		MountViewMS		5	equal to	2	4	6	Excellent plan. Thank you to the committee & Renee Kamen's team	better than	2				
5967	ThunderHillES			4	equal to	1	1	3		equal to	1	2	3		
5968	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	4	13	In draft 2, our small neighborhood (117&1117) is split in half for just MS. We are together for ES and HS. Why split a neighborhood for just MS? #117 is just four side streets. Do not take those kids from a very tight knit neighborhood for just 3 yrs.	worse than	7	4	13	At least in the feasibility study, our neighborhood is kept in tact.	It makes no sense to split this neighborhood just for MS. Plus, sending in a second bus for 1 bus stop which is made up of just 4 small side streets makes no sense. Keep #117 and #1117 together for all grade levels.
5969	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	6			The AAC plan moves students living S of Rt 40 (poly 154,1154) fm CHS to MRHS, several miles north of Rt 40 & more miles W of their current location. Easily twice the distance & 3 times the driving time. They have NO connection to students north of Rt 40.	worse than	6			The AAC plan removes two polygons from the FS plan, leaving a tiny # of students S of Rt 40 in polys 153 & 1154 moving from CHS to MRHS. If they have to move, at least keep them with 153 and 1155 (same ES & MS history) as in the Feasibility Study.	The AAC draft plan (CHS to MRHS) isolates a small number of students S of Rt 40 who go from Northfield to Burleigh Manor (only 2 small polygons, 154 & 1154) At least keep them with the others from this feed (153 & 1154) as in the Feasibility Study.
5970	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	7				better than	4	7	10	The AAC draft is far superior. The feasibility study moved 60% of students from Atholton which is unfair and not in the best interests of the students.	
5971	WestFriendshipES			3	equal to	6	6		WFES is an amazing school. Many families liker us live here for this school. Although my son (Nick Frett) won't be affected by the proposed changes, several of his friends will be. It's preferred to add to WFES not subtract from those already here.	equal to	6				
5972		ElkridgeLandingMS		1	better than	1	5			worse than	7	4	9	It is not acceptable to carve up the core of Elkridge because certain neighborhoods think they are too good to go to Long Reach HS. The Feasibility Study attendance areas for Howard and Long Reach are much better. Keep Elkridge Together.	You really need representation from Elkridge on the AAC.
5973	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	equal to	7	6	9	Please don't split Longfelliw.						
5974	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	4	7		keep 2161,1162, and 162 MTH						
5975	FultonES				worse than				Will a waiver be available for incoming 5th graders to stay at their current school? Who decides this?						
5976			WildeLakeHS	4		4	1	1							

5977	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	13	4	6	I don't feel that it makes any sense to send my children to schools approximately 20 minutes from our home when their is a school 5 minutes away (their current home school). I specifically moved to this area so that my children could attend these schools.	worse than	8			The feasibility study did not have my entire group of 4 children moving to different schools. In my opinion, students North of rt 99 should be allowed to stay in current district-ed schools which are the closest in proximity to this area.	This proposed plan will also double the amount of time my children spend transporting to and from school.
5978	GormanCrossingES			1	worse than	4	7	13	How can you have Polygon 1112 directly across the street from FES going to PRES? How does this make any sense? Does anybody listen?	worse than	4	7	13	Polygon 1112 is directly across street from FES. How is it cost effective to bus kids who can walk to school?	Why aren't parts of Maple Lawn being moved to PRES? Why are the polygons on the east side of 29 not being moved to Hammond. They are closer to HES. Does anybody listen to the citizen comments?

5985	WorthingtonES	EllicottMillsMS	MtHebronHS	5	equal to	7	6	14	I support keeping polygons 2093 3093 and 4093 together with the rest of the Worthington polygons. At Worthington Elementary School we have a 100% feed to Ellicott Mills Middle school and I would like to keep that. Keep Worthington community intact	better than	6	7	10	I support keeping polygons 2093 3093 and 4093 together with the rest of the Worthington polygons. At Worthington Elementary School we have a 100% feed to Ellicott Mills Middle school and I would like to keep that. Keep Worthington community intact	Keeping 2093 3093 and 4093 at worthington, Ellicott mills & mount Hebron keeps our contiguous community together. Thank you. Worthington Elem has a 100% feed to middle school. We love that. Worthington Elem kids also have a 100% feed to mount Hebron high
5986	BushyParkES			1	worse than	1	7	13		worse than	1	9	7	You are creating a problem where there was NONE. Bushy Park will not be at capacity even if all the students you plan to move there end up there so WHY move students to Lisbon.	There is no justification for moving students from Bushy Park to Lisbon. Bushy Park will NOT be at capacity. Why make students adjust to a new school for NO REASON. These are the same families who have lived through the Glenwood middle debacle. ENOUGH
5987	NorthfieldES		WildeLakeHS	1	worse than	7	7	4	This moves 30% of WLHS; it increases FARMS rate.; it sends walkers on a bus to a different HS. Lots of changes no improvements	worse than	4	3	7	There was minimal impact on WLHS. under the feasibility study. Farms only increased 1% point rather than 3. Lots of changes but no improvement in statistics. No thank you.	
5988	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	4	Redistricting polygon 1189 to Dayton Oaks is a terrible plan. Dayton Oaks is not a feeder school to Clarksville Middle and our children will have very limited social network during a critical time in their lives. 1189 is closer and part of PRES community	worse than	4	7	6	Dayton Oaks is not a feeder school to Clarksville Middle. Polygon 1189 should remain in Pointers Run just like the Feasibility Study had it! This AAC plan separates the kids of this community and makes it harder when they return to Clarksville Middle.	Keep the River Hill community together!
5989	PointersRunES			1	worse than	7	13	9		worse than	13	9	7	101.1% of utilization at PRES after redistricting when we have 94.6% now - who came up with this "smart" idea? Can we please leave moves in/out of PRES alone!	
5990	WorthingtonES	EllicottMillsMS	MtHebronHS		equal to	7	6			better than	7	6	1	We live in polygon 2093 in Worthington. I suooort this new draft plan over the original feasibility plan because it keeps our contiguous community together.	
5991	NorthfieldES	DunlogginMS	CentennialHS	4	worse than	6	4	7	Currently Dunloggin is together. It would make sense to keep them together and possibly send them to WLHS so they could be with friends in Dorsey. Also, please allow 9th graders (and higher) to stay where they start and phase in when possible.	better than	9	14	14	The previous study broke up gray rock community and Font Hill and didn't make sense.	Please take walkers into account and let children who can walk to school attend that school. It makes little sense to add cost and pull them away from their neighborhood schools.
5992	CentennialLaneES	BurleighManorMS	CentennialHS	4	worse than	6	4	7	Thank you for keeping walkers going to CHS. Please also look at the other communities you are breaking up with this plan. Perhaps the polygon that includes Centennial Overlook, a new and complete community, would make more sense to move than part of anoth	better than	6	7	4	Thank you for keeping students who can walk to CHS within the boundaries of CHS, and for keeping Font Hill and Gray Rock together.	Please also look at other communities this plan is breaking up and see if there are alternatives (with CHS, looking at the polygons east of 29 and are complete neighborhoods with different feeds).
5993	BushyParkES			1	worse than	1	2	3	Currently, both Lisbon and Bushy Park start out under target utilization in 2018 and stay under in 2023. Lisbon moves back to within target by 2028; Bushy Park will be at 69.8%. The AAC inexplicably moves kids from Bushy Park to Lisbon.	worse than	1	2	3	FS moves kids into BP from the east, but still keeps all kids currently at BP at BP. BP is still well within target use under FS. AAC moves students from BP to Lisbon, which does nothing to fix overcrowding, and puts BP under target use for 10 yrs.	Under FS or AAC, 1 of the 2 schools will be slightly under target use in 2018, 1 will fall to 80.1% in 2023, and both will be close to within target by 2028. But AAC will displace 57 kids and FS will not. Full analysis emailed 8/13 at 10pm. Please read.
5994	CentennialLaneES			4	better than	1	2	4	Make sense to keep 147 in centennial school	better than	3	1	2		
5995			HowardHS	1	worse than	7	8	13	This plan is horrible. It cuts out community in half for no reason and in a very bizarre way. Buses for Long Reach and Howard will have to cross each other's school boundaries to get students.	worse than	7	8	4	The feasibility study left eastern Elkridge alone. It made more sense not to move these kids again.	Do no redistrict high schools until a new high school to serve the eastern county is built. Look at the population map of the county and compare it to where the high schools are. It doesn't make sense.
5996	NorthfieldES	DunlogginMS		1	worse than	7			draft 2 plan still has Dunloggin polys 150, 1150, 4150 transitioning from Centennial to Wilde Lake. We would prefer to stay in Centennial High School. You could send poly 97 to Mt. Hebron, and keep at least 150 and 1150 in CHS.	worse than	6	2		Feasibility was fine. That study sent poly 153 went from CHS to Marriots ridge. ACC draft 2 pulls the heart out of centennial. (Dunloggin is the heart in this analogy). The ACC team has done an excellent job with a very difficult task.	During the Aug 15th meeting members of the ACC were heard to say "I think that poly does not want to transition" Note to volunteer members of ACC: No one wants to change schools. Less is more. Think incremental improvements to move toward 100%.
5997	AtholtonES			2	worse than	4	6	7	The majority of the high school district is to North and West of 29. I live 4 miles away from the proposed school to South and East of 29. It does not make sense.	worse than	4	6	7	Feasibility plan puts me in the high school district closest to my home. The surrounding neighborhood would all be in that district instead of being divided.	
5998	WestFriendshipES			1	worse than	4	1		Being in polygon 1229, we are 1.5 miles from wfes, mvms and mrhs. Moving us to bpes, gms and ghs would create longer travel time. Please send Turf Valley to Waverly and undo the 32 corridor moves!	worse than	6	7		Being in polygon 1229, we are 1.5 miles from wfes, mvms and mrhs. Moving us to bpes, gms and Ghs would create longer travel time. Please send Turf Valley to Waverly and undo the 32 corridor moves!	Being in polygon 1229, we are 1.5 miles from wfes, mvms and mrhs. Moving us to bpes, gms and VHS would create longer travel time. Please send Turf Valley to Waverly and undo the 32 corridor moves! There is a solution W/out uprooting kids from community.
5999	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	6	7	13	August 8th plan had us going from Lime Kiln MS to Clarksville MS and Atholton HS to River Hill HS. My neighborhood is now split for middle schools between Lime Kiln and Clarksville and then back to Atholton. My neighborhood is in district 117 and 1117.	worse than	6	4	7	The August 8th plan would increase our property values significantly going to River Hill HS & now the plan changed to keep us in Atholton HS. It also splits my development for MS which is negative for the kids who should remain together in ES, MS & HS.	I prefer both 117 & 1117 to go to Pointer's Run ES, Clarksville MS & River Hill HS. The neighborhood should attend all 3 schools together & not be separated. They are the closest to us. This plan also negatively affects property values in our development.
6000	TriadelphiaRidgeES			1	worse than	6			This plan does not address the issue with keeping Polygon 1222 with TRES. Please revise the draft scenario to include Polygon 1222 as part of TRES.	equal to	6			Same as comment above. Please study keeping Polygon 1222 as part of TRES.	The AAC process needs to be lengthened to include additional AAC meetings and more AAC members with additional public input. Having these meetings over the summer is not adequate for the level of changes being proposed.
6001	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	9	This plan is very much equal, similar and better than current school plan. It does control or stable the current school capacity level and maintain or minimize the current school capacity.	better than	4	7	8	Like this draft compare to initial draft and compare to feasibility study as well where polygon 1184 and 147 is back to original school to save transportation cost and keep the contiguous community together.	This draft look better than before and I support this draft.
6002	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	6	13	The Ashleigh Knolls neighborhood is a very close-knit community with only about 10-20 kids in elementary and middle school. Yet, the community is broken into two polygons: 117 and 1117 which go to different middle schools in the AAC plan. Please nooooo!	worse than	7	6	13	The Ashleigh Knolls neighborhood is a very close-knit community with only about 10-20 kids in elementary and middle school. Yet, the community is broken into two polygons: 117 and 1117 which go to different middle schools in the AAC plan. Please nooooo!	I understand not all neighborhoods can stay intact but a neighborhood of our size should ALWAYS remain intact. There has to be a more reasonable point where neighborhoods are not split. The final attendance numbers do not have to be exact. Common Sense
6003			RiverHillHS	2	worse than	6	7		Re polygon 189- No sense in moving a very small amount of elementary students from this area from Pointers to Dayton Oaks when those students will ultimately attend Middle school and High School with majority of students who go to Pointers Run.	equal to	6	7		Re polygon 189-No sense in moving a very small amount of elementary students from this area from Pointers Run to Dayton Oaks when those students will ultimately attend Middle school and High School with majority of students who go to Pointers Run.	Why put elementary kids on bus to school 5 miles away when they can go to one 1 1/2 miles away. These neighborhoods (Clarks Glen &CG North) have always been affiliated with Pointers Run neighborhood. Keep polygons east of 108 districted to Pointers.
6004	TriadelphiaRidgeES			1	worse than	6	13	1	Please investigate an option to keep Polygon 1222 as part of TRES.	equal to	6	1	13	Please investigate an option to keep Polygon 1222 as part of TRES,	
6005	ClarksvilleES				worse than	7			I would like to see all/most of River Hill neighborhood going to the same schools.						
6006	PointersRunES			1	worse than	13	7	4	Remove #1189 from draft plan. You are taking #1189 from it's neighborhood of 190 and 1190. #189 IS NOT OUR NEIGHBORHOOD but a construction site with no homes. #1189 is 1 mile from PRES. #1189 is 5 miles from DOES!	worse than	13	7	4	Feasibility Study keeps #1189 at PRES. For 20 years #1189 has been part of PRES. Don't send us 5 miles west to DOES.	Angry that AAC added #1189 to plan. For 20 years we have been part of the PRES area especially close to #190 and 1190. We are only 1 mile from PRES. We are 5 miles from DOES. #189 is a construction site -- no kids no friends.
6007		BurleighManorMS		5	better than	4	6	7	Most of the kids from my neighborhood bike to MS and HS and the current plan provide safe travel path. The current plan will also reduce the transportation cost due to the close vicinity to all the three schools and maintain the contiguous communities.	better than	3	2	1	Really appreciate the AAC members for consideration and evaluating the safety, transportation costs, and programs students are highly involved in the current schools.	
6008	AtholtonES				worse than	1	4	6	The 49 students of polygons 56,1056, 2056, & 3056 do not need to be moved to LEMS. They should either stay at OMMS or go to HMS with the rest of AES. There is no benefit at all to moving them to the overcrowded, further-away LEMS when OMMS has capacity.						
6009	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	14	I am glad that AAC reverses back polygon 147 to Centennial school. I was very concern that my child needs to cross 108 every day to commute to Wild Lake from previous plan. Thank you! AAC	better than	6	14	14		

6010	CentennialLaneES	DunlogginMS	CentennialHS	1	worse than	4	7	13	Our son has special medical needs and anxiety. We recently retuned to public school so that he could be closer to his neighborhood friends. The increased distance to WLHS would mean we would have to find transportation as he could not walk 8 miles home.	worse than	4	7	13	Not safe for these students to travel 4 additional miles to get to a high school. No sidewalks in our neighborhood. There are closer High schools. New developments have been with no consideration to existing neighborhoods where families have history.	Our neighborhood has been cut up with no consideration to the relationships are children have made. It is also a much longer drive on a major highway or through multiple neighborhoods should our children wish to participate in High School Clubs and sports
6011	TriadelphiaRidgeES	FollyQuarterMS		1	worse than	7	6	13	My family and I are very upset by the suggested redistricting and strongly disagree with the assessment. We believe that this will not only be incredibly disruptive to our family and our community, but will not solve the root cause of the issue.	worse than	13	7	6		I believe that the ACC was incredibly rushed and did not take into consideration the impact to communities at all! This is a terrible suggestion.
6012	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	2	7	4		worse than	7	6	3		
6013		DunlogginMS			worse than					worse than					
6014	ClemensCrossingES	WildeLakeMS	AtholtonHS		better than	1	10		I like it because it makes necessary changes based on student population but minimizes the number of students affected.	better than	4	7	8	Must less drastic and much better at keeping neighborhoods together and minimizing transportation time.	
6015	PointersRunES				worse than	6			Draft 1 was much better aligning the schools. Draft 2 not only keeps my kids bouncing around to different schools, but splits my neighborhood for middle school.						Draft 2 splits my small neighborhood into two middle schools. Please do not split up Ashleigh Knolls. Draft 1 was much better aligning the es, ms and hs.
6016	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	3	5	They are the same, thank you so much for keeping us in the current school district.	equal to	3	4	7	AAC plan-2 is great, thank you all AAC members for keeping us in the current school district and community!	Thank you!
6017	AtholtonES	HammondMS	HammondHS	1	worse than	13	7	6	This new draft makes no sense. It takes us further away from the closest schools to us. Also it we moved away from a bad school district to go to a better one and this would put us back in worse then we had before.	worse than	13	7	6	The feasibility study makes more sense than the current draft plan. Keeps students together and in a school that is closer to home. This leaves more time to be home and less on the bus. Saves in transportation money as well	My opinion is to either go with the feasibility survey or leave it like it is. Makes sense all the way around by keeping kids local to their address.
6018	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	6	The AAC draft plan effectively mitigates the overcrowding of the schools while maintaining community stability.	better than	8	4	6	The number of students reassigned are fewer in the AAC draft plan.	I think the AAC made a wise decision in keeping Polygon 147 in its current schools. Thank you. Given that no further developments are planned in the Centennial area, the utilization ratio in CLES will remain stable over the next few years.
6019	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	The AAC draft plan keeps the best interests of the students and families in mind. Many thanks for their time and efforts.	
6020	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	9	4	5	They are the same, thank you for keeping us in the current school district!	equal to	8	7	9	AAC draft 2 is the same as feasibility study, thank you for your excellent decision to keep us the same!	Thank you very much for your dedication and great decision!
6021	TriadelphiaRidgeES			1	worse than	6	1	4	It is rotten that these decisions are being made over the summer. These plans are highly inconvenient and capacity shifts do not improve utilization This plan is not in the best interest of students and keeping them together.	worse than	6	1	4	Same as above	There should NOT be additional developments approved for building without an infrastructure plan. Rotten that all of this done over the summer. Sneaky and does not allow for sufficient community feedback.
6022	FultonES			3	worse than	6			Current plan creates a problem with feeds. I suggest to move polygons 1009 and 9 FROM Hammond ES and Hammond MS TO Fulton ES and Lime Kiln MS. This would eliminate 2 small feeds (from FES to HMS as well as HMS to RHS).	equal to					1009 and 09 Should absolutely not be moved to AHS because that would yet again increase the FARMS numbers at Reservoir (by removing wealthy households). 1009 and 09 switch to FES and HMS basically solves all 3 problems.
6023	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	6		I am president of the Ashleigh Knolls HOA and submitting this on behalf of the community. We are represented by polygons 117 and 1117. It is important to us that both polygons attend the same schools. Please reconsider the middle school assignment of 117.	worse than	7	6		Same comment as above.	The preference is that the community (polygons 117 and 1117) both stay at Lime Kiln, however, if one absolutely MUST move then please move both. It is very important to our community that we remain together.
6024	AtholtonES	HammondMS	HammondHS	1	worse than	13	7	6	We have payed top dollar to have our children go to an excellent Elementary and Middle school in this county. This plan would not only affect our children's education negatively but also the quality of our neighborhood and property values.	worse than	13	7	6	We would prefer the proposal of the feasibility study. We would love to see our Atholton Elementary community attended Atholton High and remain at Hammond Middle.	Wilde lake is much farther than the current school or the feasability study proposed high school. You must protect our community and property value. We can not go from such a highly rated middle school to the proposed. Unacceptable.
6025		BurleighManorMS	CentennialHS		equal to	3	4	5		better than	7	8	9		
6026	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	1	worse than	8	6	4							
6027	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	7	8	I appreciate the work that AAC has done to keep our kids and community in the best possible situation. It will be very difficult for my daughter to change high schools part of the way through her time there, as she requires special accommodations.	
6028	IlchesterES	BonnieBranchMS	HowardHS	5	better than	1				better than	6	7	1	This study is better than the feasibility study.	As a family in polygon 84 we are in favor of the AAC plan. They understand the. Need to keep feeds together. Otherwise our kids would be isolated from all of there friends from school.
6029	HammondES	HammondMS	AtholtonHS	5	better than	1	9	8	Thank you for reducing the number of students moving from AHS.	better than	1	10	8	Children of our area have been "left behind" in 2 redistrictings in the past 5 years that drastically changed our elementary and middle schools. The redistrictings change the programs and student life. Now at AHS...FS moves too many students!	Please wait to redistrict until a new school is built. High School is a vital time for a student and to move them in the middle of this vital academic time is not fair.
6030		HarpersChoiceMS	WildeLakeHS	2	better than	9	1	6	This plan lessens concentrated FARM areas more than the current school attendance areas.	better than	1	6	9	This plan addresses, to a greater extent, pockets of high FARM schools.	If you're not lessening the concentration of high FARM area schools, then you are wasting your energy.
6031	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	13	7	6		worse than	13	7	6	Please do not change any of the current school district. If any school is over capacity, the only correct thing to do is to expand the school capacity, but not kicking out part of the kids.	Every family bought their houses in their current location for a reason. School district is one of the most important reason. If anything need to be changed, you will ruin all those family being impact. Plus, any decision must be approved by the impact.
6032	CentennialLaneES				better than	8	6	7	The modified draft kept stability of vulnerable students, keeps student together from through different level of schools, reduce transportation cost,minimize capital and operating cost while maximizing capacity utilization and keeping it less than 111%.	better than	7	6	4	AAC draft is better than the feasibility study in terms of keeping contiguous communities, keeping students together from one level of school to the other, keeping bus routes simple, not exposing walkers to road hazards, and maximizing existing seats	The modified AAC draft is phenomenon is enhancing policy 6010 in over 90% level. I commend the AAC committee in the revision, and supporting all the points I stated above
6033	CradlerockES				worse than	6	7	4	The feasibility study was a better fit because at least our neighborhood did not get broken up.	worse than	6	4	7	It is discouraging to see our neighborhood being plucked out of Oakland mills area. We are the only area this side of broken land parkway being shifted to a school that we are no where near. There are three high schools closer to us than the one in this	
6034	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	equal to	13	3	6	Polygons around 1143 are all impacted and kids from our polygon will have NO continuity with peers at middle school then high school. There is NO consideration based on how the plan will impact students' adjustment and academic achievement.	equal to	13	9	7		I do believe the redistricting should be done somehow, but it has been impacting so many students and families at the same time. The plan is disorganized and should reconsider the WHOLE process. VERY disappointing with the process.
6035	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	6	5	7	AAC draft 2 plan better than draft 1 plan . Thank you for maintaining contiguous communities by keeping 147 in centennial communities; keeping feeds of students together at all levels and considering shorter distance from 147 to CLE, BMMS and CHS	equal to	4	6	7		
6036	CentennialLaneES			5	better than	4	7	11	Draft 2 plan is very good. I mean it.I am truly inspired by and grateful for all of your hard work on this draft plan.	better than	3	11	1	The best Draft 2 plan Ever.Period.	1.AAC do indeed care about keeping communities together, transportation, costs, and pedestrian safety. 2.AAC care about FARM (Free and Reduced Meals) percentages and the relationship between capacity rates and school performan even
6037	PointersRunES	LimeKilnMS	AtholtonHS		equal to	7			polygon 117 & 1117 are the same neighborhood - Ashleigh Knolls. It does not make any sense to split up this neighborhood. It is a neighborhood we pay HOA fees collectively. It doesn't matter where you put us just keep us together PLEASE						polygon 117 & 1117 are the same neighborhood - Ashleigh Knolls. It does not make any sense to split up this neighborhood. It is a neighborhood we pay HOA fees collectively. It doesn't matter where you put us just keep us together PLEASE
6038	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	My child will be bused to a school much far away to another school through downtown Columbia with heavy traffic. This is contrary to the county's recent initiative of giving student more time to sleep. friends in the tightly bounding community separated.	worse than	6	7	4	My child will be bused to a school much far away to another school through downtown Columbia with heavy traffic. This is contrary to the county's recent initiative of giving student more time to sleep. friends in the tightly bounding community separated.	Both AAC draft and Feasibility Study are bad. Many students are moved unnecessarily. The plans did not take future high school into consideration. Massive students can will be moved back and forth. This will be very disruptive to students. Stop moving us.
6039				1	worse than	6	7		Currently, only 50-70 CMS grads per year go to Atholton while the rest go to RHHS. Under the new ACC draft plan, nearly all f those kids will move to River Hill -- leaving only a very few at AHS. These students, (around polygon 64) should go to RHHS!!!!!	worse than	7	7		At least the Feasibility Study sent all River Hill residents to River Hill High School -- rather than leaving only a very few at AHS!	It's hard enough for a kid to find his way in a new school. My child had the comfort of knowing 70 kidsgoing to AHS from CMS. Now, they are nearly all being moved! KEEP RIVER HILL KIDS TOGETHER before bringing in kids from other areas!!!!!!!
6040	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	9		to many kids are moving from Wilde Lake to River Hill, I am sorry but we pay a lot of money to be in River Hill and you guys benefit from my property taxes, please don't displace some River Hill polygons to other schools to accommodate Wilde lake students	worse than				if you want to move students from wilde lake to River hill then raise there property taxes to our levels, when you pay a premium for your house because of the schools then we should get what we pay for, I AM WORRIED THAT RATING OF THE SCHOOL WILL GO DOWN	
6041			CentennialHS	5	equal to	3	4	7	I'm glad that polygon 147 will stay conveniently close to Centennial HS and that the friendships with other students can be maintained.	equal to	8	5	12		Polygon 147 of all polygons deserves to stay in the Centennial district. It is unreasonable to move students at the expense of their convenience and relationships.

6042	RockburnES	BonnieBranchMS	HowardHS	5	better than	7	7		AAC plan is needed to integrate ES#42	better than	2	1		AAC plan takes into account needs of my community	
6043			HowardHS		equal to	10	6	7		better than	6	7	8	The AAC plan is the best. Keeps the Elkridge community together. We are in polygons 87, 2087, 3087 (Lyndwood) and are super happy that the AAC spent the time understanding us and our neighboring Elkridge communities and kept us together!!	Thank you AAC!!!! You rock!!! Thank you for giving up your summer for such a monumental task and making great decisions based on thoughtful analysis!
6044	PointersRunES			1	worse than	4	6	7	My children should be at an elementary school that will primarily feed to their middle and high school. Consider Clarksville elem. if necessary for polygon 1189 vs. Dayton oaks. They should attend a school in the same town they live in.	worse than	6	7	4	The feasibility study keeps my children at their current school, the AAC plan sends them to a school not in our with primarily other feeder schools. Unacceptable!	
6045	PointersRunES			1	worse than	5	7	13	The proposal split a homogenous commu ity unnecessarily.	worse than	7	6	13		
6046			AtholtonHS	1	worse than	7	7		You leave only a few kids who LIVE in River Hill at Atholton! Please ensure that ALL the River Hill area kids who currently attend Atholton from CMS will now be districted to River Hill. It will be difficult for the kids who are left behind.	worse than	7	6		The Feasibility Study kept all the River Hill area kids together. The ACC draft splits them mid-community. Most River Hill residents attending atholton will now attend RHHS. It will save on transportation costs as well.	Many students from Wilde Lake will be sent to RHHS. Has anyone asked these families their feelings? I know a veteran Wilde Lake teacher who says that her students and parents adamantly DO NOT want to move to River Hill High School!!
6047			RiverHillHS	1	worse than	4	6	7	Polygon 172, 174, 1174, 3174, 2174, 2135, 53, 1135, 2053, 1053, 2184, 1134, 2083, 154, 68, 1056, 1125 to Wilde Lake High School (not River Hill High School) Polygon 2139, 138, 58, 1137, 1058, 2054, 2056, 58, 2057, 57, 3056 to Atholton High School (not	worse than	6	7	4	Polygon 129, 1064, 64, 1129, 1190, 1127, ?28, 120, 1123, 1116, 122, 1125, 125 to River Hill High School (not Wilde Lake High School)	Polygon 178, 179, 1178, 1179 from MRHS to GHS (not RHHS). Polygon 182, 183, 1184, 1183, 2182, 2183, 3182 - 1/2 of these only - do not move from RHHS to GHS. https://docs.google.com/forms/d/e/1FAIpQLScI2g0-rjTswqG0jv-SD8j7_3mFbMDSLAt1Ua8wqOGadOuLsg/vi
6048	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4		This is a well thought out plan that balances management of growth projections vs concerns of the communities.	better than					
6049	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	6	4	I live in Ashleigh Knolls. In the original plan our 120 home community. We don't mind being redistricted, However we should go to the same school. Please do not split our neighborhood at the middle school level. It makes no sense. Was not in original plan	worse than	7	6	4	Same comments as above. One neighborhood should stay together. No problem being redistricted but should go as a group. Kids living 2 houses away separated by a small creek should not go to different middle schools. Need common sense in redistricting.	Small neighborhoods should not be split. We weren't in the original plan and no complaints about moving to 2 new schools. Just keep AK together. The creek in the middle is a drainage ditch it is not a real natural barrier. Same neighborhood same schools.
6050	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	4			equal to					
6051	IlchesterES			2	worse than	7	1		Bonnie Branch MS is way over capacity.Communities attending schools should be contiguous.Oakland Mills MS and Lake Elkhorn MS have available capacity. Polygons 261, 264, 70, 1070, 2070, 3069, 1069,3068, 1261,2068,5069 should be moved to OM and LE MS.	worse than				Bonnie Branch MS is way over capacity.Communities attending schools should be contiguous.Oakland Mills MS and Lake Elkhorn MS have available capacity. Polygons 261, 264, 70, 1070, 2070, 3069, 1069,3068, 1261,2068,5069 should be moved to OM and LE MS.	Move polygons 261, 264, 70, 1070, 2070, 3069, 1069, 3068, 1261,2068, 5069 to Oakland Mills and Lake Elkhorn MS to ease capacity issues at Bonnie Branch and to provide community unity with no non-contiguous areas attending schools.
6052	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	4	7	This version is the best AAC draft plan so far.	better than	1	2	4	This AAC draft plan takes into account almost all the important factors that should be considered during redistricting.	We appreciate this AAC draft plan keeps our neighborhood in the Centennial schools, which prevents our children from being moved twice in two years. Importantly, our children do not need to worry about traveling 4 miles one way to schools. Great plan!
6053	LongfellowES	HarpersChoiceMS		3	worse than	9	13		Disappointing to see that the AAC doesn't consider the well-being of students and teachers by putting absurdly high consentrations of FARM students in certain schools while neighboring ones have less than 10%. HCPSS' version of segregation.	equal to					
6054			HowardHS	4	equal to	6	7	8		better than	6	7	8	The AAC draft plan is more closely aligned with Policy	
6055	DaytonOaksES	LimeKilnMS	RiverHillHS	1	worse than	4	7	3	Let the AHS students who used to RHHS come back to RHHS. Let WLHS students stay at their walk zone.	worse than	6	7	4	The original plan moves AHS students to RHHS, who used to be RHHS area anyway, and are in close proximity to RHHS. This makes much more sense.	The already congested route 108 being the only route between Wild Lake community and RHHS will be more crowded to transport those kids around. There will be far more cost for transportation by moving these walk distance kids from their home school.
6056	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	5	1	This is a great plan and keep this plan as it is.	better than	1	6	11		
6057	HammondES			3	worse than	1	6	12	AHS has 5 schools that feed into it. Take the small group (8.9%) that come from LKMS and send them to RHS instead. This helps create stronger feeds and also would help with RHS FARMS numbers by lowering them	equal to	4	11		I like that less students are moved in general but I don't like the feeds/farms.	
6058	StevensForestES			4	better than				Polygon 96 needs to be back at TSES, they live directly next-door,but were sent to SFES because there were louder voices fighting to stay at TSES during the 2012 redistrict.These are some of our most economically disadvantaged families.	better than				The AAC plan corrects the segregated school the feasibility study created at TSES.	SFES deserves some reduction in their FARMs, which is the highest in the county, a direct result of the 2012 redistrict, where were received over 100 kids from polygon 96. Also, the kids in polygon 96 deserve to walk to the school right next door to them.
6059	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to				We need longer term solutions...not shuffling kids around. Ideally High School is not redistricted until a new HS is on track.	worse than	6	7	9	Plan 2 keeps a Glenmont, a walking neighborhood at Howard. This makes perfect sense. It still moves less children across the board then the original Feasibility study. It keeps Lyndwood 87, 2087 & 3087 at Howard. Fully support AAC scenario 2!	Thumbs down for "Keep Elkridge Together" plan proposed on FB... it clearly does not keep Elkridge together. A new HS could do this...but this plan is really a self serving proposal. It keeps his neighborhoods together while dividing many others.
6060	LongfellowES	HarpersChoiceMS	WildeLakeHS		worse than	8	6	7	Polygon 1143 receiving all the negative impacts since all polygons around 1143 are not redistricted to diff. middle then high schools. Please consider students from polygon 1143 or include to redistricting instead of leaving it by itself!!! Poor plan!	equal to	4	6	7	Both are disorganized and created with no knowledge of community and consideration of students' adjustment on academic and peer relationship.	Students from Polygon 1143 are all excluded and created like an island. Consider students in Beech Creek Community where polygons around are all going to different middle then high school. DO NOT leave 1143 polygon by itself!!
6061	HammondES				worse than	6			Polygons 1009 and 09 should switch from HES and HMS to FES and LKMS. This fixes some small feeds and broken feeds. Also, 1009 and 09 are not truly connected to the other polygons that goes to HES and HMS. It looks like they are but they are not.					It is easier for 1009 and 09 to cross over 216 than it is to go east on 216 and north on Leishear. Move 1009 and 09 to FES, LKMS and RHS which would reunite them with those south of 216 as it was when originally developed (and all known as Hammond Hills)	1009 and 09 should be with the rest of Hammond Hills at FES, LKMS and RHS. This group of kids is very small and would not be a large effect on the overall number of kids at either FES or LKMS
6062	CentennialLaneES			5	equal to	7	4	12	AAC draft 2 and current school assignments are the same. Happy that the is no change for us and maintains polygon 147 as part of the centennial community.	equal to	7	10	4	aac draft2 is the same as the feasibility student. Happy to see that we will still be bused to the closest elementary school and will not be moved and our ties will the centennial community will be maintained.	For CHS, should consider moving polygons on the east of route 29 out of CHS to reduce utilization in CHS
6063		ElkridgeLandingMS		5	equal to	2	6	7	The ACC plan keeps these polygons together (87, 2087 and 3087), which is desireable.	better than	2	6	7	The Feasibility appears to have little justification as far how the lines are drawn.	
6064			HammondHS	1	worse than	4	6	7	By the AAC draft plan, my child would be redistricted from Hammond HS (which his older siblings attended, graduating last year) to Wilde Lake HS, a significantly more distant location that would separate him from many friends.	worse than	4	6	7	The Feasibility Study would redistrict my child to Atholton HS, which is roughly the same distance as Hammond HS. While relocation would be disruptive, he would at least be able to stay with more school friends than he would under the AAC draft plan.	My child would prefer to stay in Hammond HS, a nearby school where he could remain with many friends from MS and ES and would have the benefit of having many teachers who taught his older siblings.
6065				3	equal to	14	14	14		better than	1	13		Overcrowding is reduced by moving fewer students and preserving Atholton HS. With small modifications, polygons 272 and 1272 can be moved to Murray Hill MS and Atholton HS, reuniting the Emerson Community (6010-IV.B.2.b), eliminating the negative impact.	I would rate the AAC Draft Plan a 5 if was modified to reunite the Emerson neighborhood (6010-IV.B.2.b.), by moving Polygons 272 and 1272 to Murray Hill MS & Atholton HS. We are one community.
6066	BushyParkES			1	worse than	13	9	4	This is the first time that I am seeing Bushy Park students being moved to Lisbon. Up until this week no students were being out of Bushy Park. The students who are currently enrolled at Bushy should remain there.	worse than	13			The Feasibility study did not move students out of Bushy Park	I very unhappy to see the sudden change in the districting of Bushy Park. This is a huge change the original plan and the feasibility plan that were previously released. I do not support the 8/15/2017 revised plan.
6067	WaverlyES				worse than	4	7		Main issue is we are walking distance to Mount Hebron HS but the draft plan has our polygon moving to Marriotts Ridge HS. This makes absolutely no sense.	worse than	4	7		Same as above. It makes no sense to send kids who live in walking distance to a high school to another high school.	Keep neighborhoods and communities together. Our kids should be able to attend the high school that they can hear the band practicing from their back yard and see the cross country team training up and down their street every fall.
6068		BurleighManorMS		5	equal to	4	6	5	Draft plan 2 makes whole a lot of sense now considering the distance, capacity issue and continuity of kids school life and friendship	equal to	4	7	6	AAC draft plan 2 and feasibility study seem to be in syn now. Great work AAC committee!	Thank you for your hard work and dedication to make the HCPSS the best for all involved.
6069			CentennialHS	1	equal to	2	3	4	Route 40 is a natural boundary line. Polygon 97 should go to Marriotts Ridge, polygon 2154 should go to Centennial.	equal to	3	1	4	They are equally random and poorly thought out. To have 1 guy say polygon 2154 should go to Marriotts Ridge (without any justification) and everyone else just go along with it without putting ANY THOUGHT to the people who live there is disgusting.	Currently NO children who attend Northfield Elementary go to Marriotts Ridge High. I don't care how you calculate small feeds technically, but this is tearing a TINY number of kids from our community and sending them to Marriotts Ridge. It is ridiculous.
6070	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	3	5	6							
6071			HowardHS	5	equal to	6	7	8		better than	6	7	8		Rising Juniors and Seniors should be allowed to stay at existing HS for the mental well being of the child.
6072	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	9	4	AAC Draft 2 plan keeps Centennial community together, addresses safety issue	equal to	7	9	4	The AAC draft 2 plan aligns with the feasibility study and keeps centennial community together, considers kids needs and maintains demographic diversity	
6073	CentennialLaneES			4	better than	7	8	4	Draft 2 helps protect children from another sudden change within 2 years. This is greatly appreciated since another move in such a short time would be very tough on them.	better than	7	1	14	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	We saw at the AAC meeting how tough your job is. Thanks to all AAC volunteers for your efforts.

6074	CentennialLaneES			4	equal to	4	7	8	Draft 2 keeps students in Polygon 147 connected to the adjacent communities along Old Annapolis Road and took into account the walking zone.	equal to	4	7	8		Draft 2 considers the negative effect of moving new students in Polygon 147 who just moved to the area within the past year and help stabilize the communities in Polygon 147.
6075	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	6	7	my child will need double time to go to the new HS school. This is contrary to the county's recent initiative to give students more sleeping time.	worse than	6	4	7	my child will need double time to go to the new HS school. This is contrary to the county's recent initiative to give students more sleeping time.	Both of them will cause what a mess for the schools, students and parents. Please stop it or delay it till the county has the new HS.
6076				5	equal to	2	4	7	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community. Keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	equal to	5	7	2		Thank you for reviewing and updating 147 back into Centennial. 8/15 was the first AAC meeting attended and the committee's hard work is appreciated.
6077	CentennialLaneES			4	equal to	8	4	7	Draft 2 considers the walkability of Polygon 147 and keep Polygon connected to the adjacent Centennial communities.	equal to	4	3	8		Draft 2 keeps children in Polygon 147 from being isolated from the adjacent Centennial neighborhoods and considers the negative drastic impact of re-districting children in Polygon 147 at all three levels.
6078		BurleighManorMS		4	equal to	7				equal to	4				Polygon 147 is part of Centennial community and is within walking distance to all Centennial schools.
6079	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	6	7	4	The AAC draft plan 2 (from 8/15) would keep Old Annnapolis Road/Cenntennial communities togethet.	equal to	7	8	4	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough on	Thank you for keeping students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking. Draft 2 will appropriately keep Elementary students from Crossing 108 to get to their school.
6080		BurleighManorMS	CentennialHS		equal to	8				equal to	8			Draft 2 provide stability to children in Polygon 147 who have just moved into the area and prevent these children from having to change schools twice within 5 years.	
6081	CentennialLaneES			5	better than	2	3	4	Plan is better as it has not only addressed the capacity utilization goals but also the importance of community stability, transporting kids out of their neighborhoods to far away distances and looking at long term utilization in established neighborhoods	better than	2	6	8	Considering that our community just recently moved from various parts of Howard County, we sincerely applaud AAC's efforts in responding to communities that are reasonable and yet achieving the goals of AAC and the HCPSS.	Thanks for listening and continuing to update the plan within the limitation of goals set by your committee and Policy 6010. As someone who attended the meeting in person, I sincerely appreciate your due diligence and service to our communities.
6082			CentennialHS	4	equal to	7				equal to	8	4	7		Draft 2 allows Polygon 147 to remain connected to its neighbors along Old Annapolis Road and not have to cross the busy and dangerous Rt 108.
6083		BurleighManorMS		4	equal to					equal to					
6084	CentennialLaneES			5	better than	4	2	1	Move 97 from CLES to NES; move 154 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)	better than	5	7	6	Move 97 from CLES to NES; move 154 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)	Move 97 from CLES to NES; move 154 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)
6085	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	4	6	keep folly quarter together. Don't split folly quarter community.keep the polygon 183,1183,2183 with river hill HS together with all communities on folly quarter road for minimizing the impact on community stability, better feed, better bus route	equal to	7	4	6		
6086		BurleighManorMS		4	equal to	4				equal to	4				Polygon 147 is part of Centennial community and Old Annapolis Road. Children can walk to school. Draft 2 prevents children from having to cross busy Rt 108.
6087		BurleighManorMS		4	better than	1	7	8	draft 2 better balances utilization, and better than draft 1. thank you for returning 147 to centennial schools. our neighborhood iabout 0.5 mile from CHS and BMMS, walk distance. previous draft with 147 changing all 3 schools was too drastic.	worse than	1	7	4	draft plan sometimes violates feasibility-study tenet to shift west and north to capture capacity (a good idea). feasibility study also kept 147 and dunloggin area in centennial schools. WLHS should stop expanding north and kept for town center and east.	It made sense to move 147 back into Centennial district, as Wellford Drive neighborhood well within walking distance and keep Oak Hill and Woodland in district. This move also reduced a large group of students from having to change twice in 2-3 years.
6088	CentennialLaneES			4	equal to	10				equal to	4	7	8		Draft 2 considers the impact to Polygon 147 from drastic redistricting and keeps Polygon 147 in Centennial district for which it was designed for.
6089		DunloggінMS	CentennialHS	1	worse than	4	7	13	It will split up our neighborhood. My kids are heavily involved in afternoon sports and the proposed plan increases the distance significantly. The lack of sidewalks on the route is a safety hazard.	worse than	4	7	13	It will split up our neighborhood. My kids are heavily involved in afternoon sports and the proposed plan increases the distance significantly. The lack of sidewalks on the route is a safety hazard for new drivers on already congested highways.	Moving to a HS further away increases an already early bus commute. If this plan is to be inclusive and move many neighborhoods west, why are CHS polygons not being touched? It seems that plan is not being impartial in how neighborhoods are being split.
6090				4	better than	7	4	6	Many thanks to the AAC for their tremendous efforts to review the draft plan on Tuesday. I support the Scenario 18 decision to keep 147 in Centennial schools. This makes sense for transportation since in the prior version of the Draft plan, cont'd	better than	4	6	6	Cont'd - our students would have had to cross 108. We are in walking distance from CLE, and CHS and remaining in this district promotes our community ties with neighboring communities, and supports a feeder group to the Centennial schools. Thank you!	Polygon 147 is within walking distance to CLES and CHS, which would help alleviate transportation costs and would prevent major safety concerns for traversing 108 from parents.
6091				4	better than	7	4	6	Many thanks to the AAC for their tremendous efforts to review the draft plan on Tuesday. I support the Scenario 18 decision to keep 147 in Centennial schools. This makes sense for transportation since in the prior version of the Draft plan, cont'd	better than	4	6	6	Cont'd - our students would have had to cross 108. We are in walking distance from CLE, and CHS and remaining in this district promotes our community ties with neighboring communities, and supports a feeder group to the Centennial schools. Thank you!	Polygon 147 is within walking distance to CLES and CHS, which would help alleviate transportation costs and would prevent major safety concerns for traversing 108 from parents.
6092		LimeKilnMS	AtholtonHS	1	worse than	7			Our neighborhood of about 100-120 houses in total has been split between two middle schools in this new proposal. This is wrong and detrimental to our neighborhood.	worse than	7			This new plan divides our neighborhood between two middle schools. We are a part of one community. Do not split us between two different schools.	
6093			CentennialHS	1	worse than	6	4	7	Terrible plan						
6094	DaytonOaksES	LimeKilnMS	RiverHillHS	1	worse than	7	6	4	RHHS: change of 42% of student body, WLHS: change of 59% of student body. It is too much disturbance to the community.	worse than	7	6	3	If the feasibility study is considered to tear AHS apart, then the AAC draft plan is tearing RHHS and WLHS apart.	No high school should take such big a change to its student body. Cap it at 20%.
6095	CentennialLaneES	BurleighManorMS		5	better than	8	7	4	Draft 2 prevents children that just moved to 147 from getting reassigned in 1-2 year. This would really help children to focus on learning rather than facing another adjustment. Thank you very much.	better than	8	7	4	Draft keeps student in 147 going to closest schools and stays connected to their friends and neighbors. Thank you very much.	
6096	CentennialLaneES	BurleighManorMS		5	better than	7	4			better than	7	4			AAC proposal draft2 is better than draft 2. alternatives: Move 97 from CLES to NES; move 153 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)
6097	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	12	6	I am referring to AAC draft plan #2. AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community. Thanks the AAC for doing a great job for the community and children.	better than	4	7	3	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and al	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough .
6098	CentennialLaneES			5	better than	7	8	4	AAC Draft 2 / Feasibility appropriately keeps Elementary students from crossing 108 to get to their school, and keeps long-standing Centennial / Old Annapolis community streets connected to their community.	better than	4	7	8	Draft 2 keeps students going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	We just moved to the area last year and integrated the kids into their school, and to potentially disrupt their education and community again would be a hardship.
6099		DunloggінMS	CentennialHS	1	worse than	4	7	13	Splits an established, cohesive community. Transportation time to WLHS would be double that to CHS on much more congested roadways, increasing an already very early bus time for children in our neighborhood.	worse than	7	4	13	Affects students participating in after school programs due to the distance required for them to travel. There are no sidewalks in our neighborhood or on parts of Columbia Rd. & they would have to walk through several neighborhoods and cross Rte 108.	This plan was proposed to our community in a very short time, while people are away on holidays and with little time to consult as a community. The original plan was targeting elementary and MS and moving seats west. Now HS and ours moving South?
6100	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	4	7	Thanks you for the new draft plan. It keeps our community together and increases the feeling of belongingness.	equal to	1	4	8	Thank you AAC members for keeping our community intact and helping our kids a steDy educations so they can fullfil their dreams.	Thank you so much!!
6101			CentennialHS	5	better than	4	7			better than	6	7			AAC proposal draft2 is better than draft 2. alternatives: Move 97 from CLES to NES; move 153 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)
6102	CentennialLaneES			5	better than	4	6	7	The current plan keeps the Centennial community together and addresses potential future of over utilization at the Centennial High School. These strategies will maximize our chance of success in keeping 147 in current schools.	better than	4	6	7	The current plan keeps the Centennial community together and addresses potential future of over utilization at the Centennial High School. These strategies will maximize our chance of success in keeping 147 in current schools.	Move 97 from CLES to NES; move 1154 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)
6103	CentennialLaneES	BurleighManorMS		5	better than	4	7	8	I like the plan better. Although, we should never forget about the value and benefit of contiguous communities. Polygon 97 is isolated and still being part of Centennial. why? I never saw them involved in any PTA (CLES, BMMS, CHS) and community events.	equal to	7	4	9	N/A	
6104	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	4	7	5	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!	better than	4	5	7	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough.	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)

6105			CentennialHS	5	better than	1	14	14		better than	7	4	6			
6106	BushyParkES			1	worse than	9	10	5	Bushy Park is still under capacity with these changes. Why are we uprouting children from a school estimated to be 86% capacity and putting them into a school at 96% capacity. A good number of these kids will be 5th graders in 2018 which is terrible..	worse than	7	9	13	I do not see the necessity for uprouting these children from a school that is not at capacity, nor will be with the restructuring, to a school that will be over 96%. The kids down the road get to stay at the same school, while mine move.	My kids are devastated at the idea of moving schools. Two of them have a disability and it will be hard for them to adjust, especially a 5th grader. My daughter is starting K this year and will then have to move again next year. We are extremely upset.
6107	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	6	4	Draft plan 2 keeps same school assignments for us	equal to	7	6	4	Draft plan 2 maintains same school assignments as current ones and aligns with feasibility study	To increase efficiency, consider Move 97 from CLES to NES; move 154 and 2154 from NES to CLES. Pros: bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same
6108	ClarksvilleES	ClarksvilleMS	RiverHillHS		worse than	3	4	6	AAC is ignoring a big fact - the redistribution should disturb the current students in school AS LITTLE AS POSSIBLE. If CES/RHH are under capacity, keep all current students, and add some more. However pls leave some space for new residents in new bilding	worse than				Shifting huge amount of students Swansfield elementary, Wilde Lake High to CES/RHH tear their students, community, and even their walking zone students can not even be kept in their school - our goal is hire more bus to increase county's financial deficit	The currents huge shift of students body to CES/RHH is very unreasonable. It tears us apart. South of 32, 108 are building a lot more buildings for residents. They belong to CES/RHH region. AAC needs to leave some space in CES/RHH for those students
6109	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4		We appreciate the efforts by AAC to take kids into consideration in the AAC Draft 2. Kids in Polygon 147 have just moved in from different areas and got integrated into the community and friends at school. This plan helps protects them from another change	equal to	3	4	6	The draft 2 from AAC will keep the students connected with friends from neighboring polygons in the same schools as well as minimizes the transportation costs. Kids already feel connected to the current schools and this plan reinforces that. Thank you AAC	We applaud the efforts taken by AAC to keep the communities together. Our overall goal should be for betterment of infrastructure in the greater Howard county area and make this the best school district in the nation.
6110	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	By moving 147 back to centennial, Draft 2 prevent another sudden change for kids by not having them to move again in such short time. It also provide safety for kids for not having to cross 108.	equal to	4	10	6	Draft 2/ feasibility keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking. It also keep our kids connected to other kids in the closer neighborhoods.	Thank you AAC for keeping 147 in Centennial!
6111	DuckettsLaneES			1	worse than	9	13		The school my child will be redistricted to "new elementary school #42" includes a large number of low income areas. This zone needs to be divided better to ensure a more diverse student body.	worse than	9	9	13	These plans need to be revised to take into consideration the demographics and income status of the families that will fall in my school zone. Without any revisions to the current plan School #42 will have performance issues like Thomas Viaduct.	It is unacceptable that my school zone extends all the way down to the trailer parks in Jessup. There are closer moderate income homes nearby that should be captured in my school zone but those kids are being sent elsewhere.
6112	CentennialLaneES	BurleighManorMS		5	better than	4	7	9	AAC Draft 2 keeps students going to the closest school which minimizes the transportation costs and provides safe walking and bike riding. Draft 2 keeps students in 147 from crossing busy 108.	better than	7	4	8	AAC Draft 2 keeps Centennial and Old Annapolis streets communities connected to each other. Children just moved into parts of 147, Draft 2 protects them from another move in such a short time which could impacts kids emotionally.	
6113	ClemensCrossingES				worse than	6	1	13	Polygons 66,134,1134,2134 should not be moved North into a growing area (& one that will be re-districted again in several years when another ES is built). Underpopulated schools are west of these polygons.	worse than	6	1	13	Polygons 66,134,1134,2134 should remain at CCES per the Feasibility Study as it is consistent with the goal of utilizing underpopulated western schools.	My initial comments (on previous forms) concerning our polygon have not been addressed. This is highly disconcerting.
6114	CentennialLaneES			1	worse than	1	4	10	Draft 2 moves Polygon 147 away from Wilde Lake and to Centennial and this should be reconsidered.	worse than	4	6	1	The Feasibility plan has merit. The AAC plan is just silly gerrymandering.	Formal Proposal #100: Polygon 147 to Wilde Lake and 153, 154, 214, 1154, 1184, 2154 to Marriott's Ridge. 1152, 1153, 152 to Centennial. Please provide feedback/numbers.
6115	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	By keeping 147 in Centennial, draft 2 promotes the stability of the community, the safety for kids by not having to cross 108, and the growing bonds of our children to their friends in the closer communities along Old Annapolis Rd.	better than	4	6	3	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	We greatly appreciated AAC for understanding the need of our children to continue their current school and not having to move again after such short time of moving.
6116	ClemensCrossingES			2	worse than	7	1	13	Polygons 66,134,1134,2134 should not be moved North into a growing area (& one that will be re-districted again in several years when another ES is built). Underpopulated schools are west of these polygons.	worse than	7	1	13	Polygons 66,134,1134,2134 should remain at CCES per the Feasibility Study as it is consistent with the goal of utilizing underpopulated western schools.	My initial comments on earlier forms were not addressed. This is very disconcerting.
6117	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	6	7	4	Draft plan 2 keeps current school assignments	equal to	7	9	4	Draft plan 2 suggests same schools as ones listed in feasibility study	For better utilization, consider Move 97 from CLES to NES; move 154 and 2154 from NES to CLES (bring utilization ratios at both schools below 110%, balanced FARMS ratios, feeder remains the same)
6118	ClemensCrossingES			2	worse than	7	1	13	Polygons 66,134,1134,2134 should not be moved North into a growing area (& one that will be re-districted again in several years when another ES is built). Underpopulated schools are west of these polygons.	worse than	7	1	13	Polygons 66,134,1134,2134 should remain at CCES per the Feasibility Study as it is consistent with the goal of utilizing underpopulated western schools.	I am disconcerted that my initial comments from earlier forms were not addressed.
6119	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	3	4	AAC Draft 2 plan is better than current school attendance areas . AAC Draft 2 keeps long-standing Centennial Community streets connected to their community. Draft 2 keeps Elementary students from Crossing 108 to get to their school	better than	1	3	4	AAC Draft 2 plan is better than Feasibility Study Plan. AAC Draft 2 keeps long-standing Centennial Community streets connected to their community. Draft 2 keeps Elementary students from Crossing 108 to get to their school	
6120	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	Looking at the redistricting map is almost laughable: it's obviously gerrymandered. There are some school districts connected by a corner; the proposed CHS district is two sections connected by the library. It's formulated for the BOE, not the kids.	worse than	4	6	13	The AAC draft plan looks at the numbers, but doesn't look at commute. My family would be moved from Centennial to Marriotts, changing the bus ride from 20 minutes to 60. That's the difference between 7 and 6 hours of sleep, which impacts grades/health.	Ripping a child from their environment is traumatizing; redistricting is a necessary evil, but it's not necessary to remove children from a school. Children should be able to finish at one school, while all incoming kids go to the new redistricted school.
6121				1	worse than	4	13	13	from 5 min driving to 20 min driving.	equal to	13	13	13	from 5 min driving to 20 min driving.	
6122			CentennialHS	1	worse than	13	13	13	housing price will go down up to $100000	equal to	13	13	13	housing price will go down up to $100000	
6123	CentennialLaneES			5	equal to	1	4	7		equal to	1	4	7		
6124	CentennialLaneES			5	better than	4	6	7		better than	4	1	7		Thank you for the hard work
6125	ForestRidgeES			3	equal to	1	13		Polygons 272 and 1272 are part of the Emerson community, but due to unfortunate redistricting 3 year ago, we no longer share any K-12 schools with the rest of Emerson. 272 and 1272 could be added to Murray Hill and Atholton. To increase the feed add 1004.	better than	1	13		Overcrowding is reduced by moving fewer students and preserving Atholton HS. With small modifications, polygons 272 and 1272 can be moved to Murray Hill MS and Atholton HS, reuniting the Emerson Community (6010-IV.B.2.b), eliminating the negative impact.	I would rate the AAC Draft Plan a "5" if was modified to move Polygons 272 and 1272 (remaining Emerson polygons) to Murray Hill MS & Atholton HS. This reunites the Emerson neighborhood (6010-IV.B.2.b) and improves walkability (6010-IV.B.1.d).
6126	BryantWoodsES			1	worse than	9	7		By moving the single family homes in Faulkner Ridge & Hickory Ridge out of the BWES attendance area, you would be further concentrating the poverty in this school. It would also further unbalance the racial mix.	equal to	9	7			Please keep in kind that while the parents of students in the more affluent schools are far more vocal in this process, your responsibility is to every student in the county.
6127			WildeLakeHS	2	better than	9			In an effort to unconcentrate poverty, consider moving polygons 3150 & 2150 to WLHS. Consider moving polygons 1139 & 58 to OMHS; 1142 to RHHS; and 1138, 2138, 2204, & 3138 to RHHS or AHS.						
6128		ElkridgeLandingMS		1	worse than	6	7	13		worse than	6	7	13		
6129	GormanCrossingES			4	equal to	6	7	8		better than	6				
6130	AtholtonES	HammondMS	HammondHS	1	worse than	4	1	6		worse than	1	6			
6131	BushyParkES			1	worse than	5	4		This is crazy we are so close to bushy park school to move us for our final year there. This is a delicate time in kids lives and to move them 2 times in 2 years !!!	worse than					Please allow us to stay even if I take my child myself to not add stress to her life during a difficult development time
6132	PointersRunES	LimeKilnMS	AtholtonHS	3	equal to	11	14	14	From what I can tell, our home experiences no change in assigned schools.	worse than	7	8	8	It's unclear to me 1) why our home isn't assigned to River Hill HS (we are in Clarksville), and 2) why Atholton is receiving more students - other than as an effort to disperse the student population from Reservoir.	Those of us with a Clarksville address and zipcode (21029) should be zoned for the Clarksville schools - Clarksville ES, Clarksville MS, and River Hill HS. According to Google Maps, River Hill HS is closer to our home than is Atholton.
6133			MtHebronHS	1	worse than	4			My child is a walker- i cannot understand the logic behind her being moved to a school 7 miles away.	worse than	4			The feasibility study worked really well for us	Any changes should exclude kids already in high school- they should only apply to kids entering 9th grade
6134	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	Appreciate the change to move back to centennial schools. It Is important to make sure kids don't have to Higheay like 108 on a daily basis. It is very dangerous. Also Ellicott city community should be kept together and not be mixed with columbia.	better than	3	4	7	We just bought these new homes and The kids in our community moved recently schools. Making them move again would affect them adversely. Making sure elementary school kids don't travel too much is very important.	Happy that you moved our community back to centennial schools. My son has joined a number of programs in his school. It's academic. These are not available in the other school. Keeping him in his current school is going to keep him focused and successful.
6135	ClemensCrossingES	HarpersChoiceMS	WildeLakeHS	4	better than	9	4	12	My only concern is seeing my child moved from wonderful Clemens Crossing to Swansfield ES, although the high school changes are beneficial (WLHS to either Atholton or RHHS)	worse than	14	14	14		
6136			HowardHS	4	equal to	6			I fully support tabling hs redistricting until long term solutions are made by hoco	better than	6	7	4	If redistricting must occur in hs, the AAC plan is the better option. Significantly less students are moved. Walkers are kept in consideration as well as proximity to school. Polygons 87, 2087 & 3087 stay at Howard with their es, ms feeds.	I do not support 'keep Elkridge together' as promoted online. It's deceiving in that it actually further divides Elkridge & other communities. Literally splits entire neighborhoods into 3.
6137	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	1	13	This plan is seriously flawed in that it doesn't take into consideration transportation issues (commute time, crossing of major intersections, along with the construction traffic associated with the new court house construction).	worse than	4	1	13	The plan also doesn't address the current overcrowding at Thunder Hill EX	I believe polygons 111, 1111 and 2111 go to Northfield ES, Dunloggin MS and Wilde Lake HS, which would solve the issues of transportation, would be a longer term fix" and help to maintain our community."

6138	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	8	The plan from aug 15 is great. We just moved to this community and to have the community move again would adversely affect kids. I don't have to worry about my child traveling 20 minutes across 108 on a snow covered road. Thank you!!	better than	10	7	6	the plan is correct. Keeping communities together and going to nearby schools is and should be the most important objective. My child just moved in tot he community and has made some good friends. With the latest plan, he gets to keep his school & friends	The plan from August 15 made us feel better again. We cannot have elementary school kids travel 20 to 30 minutes. As a parent standing at the bus stop waiting for your kid when you know that they are sitting in a bus crossing highways is not easy.
6139	GormanCrossingES	MurrayHillMS	AtholtonHS	5	better than	1	10	7	Live in wincopia farms which is connected with the Emerson community.	better than	1			I believe it would solve overcrowding by moving far fewer students and Preserves Atholton HS. Modify it to reunite the Emerson neighborhood (6010-IV.B.2.b.) Move Polygons 272 and 1272 to Murray Hill MS &	The Emerson neighborhood was unnecessarily split by redistricting in 2012. This should be remedied. We live in a neighborhood, are members of an HOA, go to the same community pool, and use the same playgrounds. We should go to the same schools.]
6140	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	Walk zone students should stay walk, there is no reason to pay school bus to them. Very bad plan to move WLH walk zone to RHH	worse than	4	6	1	Walk zone students should stay walk, there is no reason to pay school bus to them. Very bad plan to move WLH walk zone to RHH	It's a shame to see this AAC plan. Bring around 400 WLS to RHH will dramatically increase traffic in 108 everyday.
6141	ClemensCrossingES	WildeLakeMS	AtholtonHS	5	better than	7	6	9	The AAC plan makes better utilization of the schools' rescources - students are more equally distributed across schools in a way that maintains neighborhood bonds. It miminizes the gutting of AHS, & more equatably distributes the FARMs pop. across schools	better than	4	6	9	The AAC plan is better than the Feasibility study because thee is less disruption at the HS level. AHS isn't gutted, there is more FARMs diversity across schools. Redistricting is across the schools, not just focused on AHS.	
6142	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	10	7		AAC Draft 2 / Feasibility ensures that the long-standing Centennial / Old Annapolis Community streets connected to their community. It eliminates safety concerns for centennial communities in 147 avoiding crossing of a major road 108.	better than	10	7	4	AAC Draft 2 ensures that students in 147 polygon going to the closest schools in terms of distance, which will help minimize Transportation costs and also allow for safe walking/biking (currently being used by several high school students).	The AAC Draft 2 plan also ensures that kids in the newer part of 147 stay with the same schools especially after having moved only in the past year or so
6143				4	better than	1	3	4	Keeping Polygon 147 at Centennial assures lover transportation cost and consistency for students from ES to MS and MS to HS.	better than	5	7	8	Keeping community together help student do better.	
6144	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	10			The AAC Draft 2 plan addresses several of the overcrowding concerns in a balanced manner while factoring in feedback provided by the communities.	better than	10			The AAC Draft 2 plan ensures retention of the school for 147 kids in the newer community most of whom have moved within the past year or so, addresses safety concerns for elementary school kids in terms of avoiding crossing of a major road 108.	The AAC Draft 2 plan also ensures that the older communities in 147 continue to be tied to the Centennial school district. Kids in 147 also can now go to schools with a much shorter distance which minimizes transportation costs.
6145	WaverlyES	PatapscoMS	MtHebronHS	2	worse than	8	6								
6146	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	5	AAC Draft 2 keeps long-standing Centennial / Old Annapolis Community streets connected to their community. Thank you	better than	6	4	5	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road
6147			RiverHillHS	1	worse than	7	13	6		worse than	13			My twins will be seniors during this time and I do not want them to have to move to another school for their senior year! One of my twins is special needs.	
6148	ThunderHillES	DunloggінMS			worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
6149	CradlerockES	LakeElkhornMS		1	worse than	7	4	6	The 2nd draft is still a disservice. We are still being bused to WLHS driving past OMHS. We are a neighborhood that is close enough to WALK HOME from extra curricular activities. Keep my community together AND WALKABLE.	better than	9	6	13		
6150	CentennialLaneES			5	equal to	7	4	8		better than	6	4	3	It's important to my family that my children live close by their classmates do they experience "community". Thank you for minimizing the distance and time it takes for them to socialize with their classmates so they can walk and bike safely.	Thank you for your hard work. I know this is a difficult task.
6151			RiverHillHS	2	worse than	9	13	14		equal to	14	14	14		
6152			CentennialHS	1	worse than	7	1	13	The shift from Centennial to Wilde Lake 150, 219, 1150, 4150 should either not be made or alternatively these polygons along with 3150, 2150, 155, be made to Marriotts Ridge or River Hill.	worse than	7	1	13	The shift from Centennial to Wilde Lake 150, 219, 1150, 4150 should either not be made or alternatively these polygons along with 3150, 2150, 155, be made to Marriotts Ridge or River Hill.	The arguments that other areas made to prevent the changes in the feasibility study are the same as the arguments being made here. The Centennial School and the Wilde Lake School district are now barely contiguous areas.
6153	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	5	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)	better than	6	4	7	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	AAC Draft 2 keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!
6154			MtHebronHS		worse than	2	4	8	I strongly recommend that high schools are absolutely left out of this plan. This would second redistricting for students already redistricted in fifth grade. These students are walkers and now will be bussed 8 miles! Wait for the new high school!!!!!!!!	worse than					To put the same students through 2 redistricting in crucial times in five years is quite cruel. But to move them from being walker/bikers to being unable to participate in sports due to transportation conflucts makes no sense. Wait for the new high school
6155	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	7	The current school attendance area and AAC Draft 2 regarding polygon 147 are the same. It's keeps polygon 147 to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	better than	6	4	7	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough
6156	BellowsSpringES		LongReachHS	5	equal to	4	7	6	The AAC draft plan #1 and #2 both CORRECTLY keep polygons 298 and 1298 at Bellows/ Mayfield /Long Reach, in contrast to the Study which moved the ES and MS levels. Thank you AAC for getting it right- keep 298 and 1298 at Bellows/Mayfield/Long Reach.	better than	6	7	4	The Study was awful in so many ways ; violated policy 6010. The Study has many data errors throughout and any decision needs independent data audit. The AAC Plans#1 and #2 correctly keep 298 and 1298 at Bellows/ Mayfield/Long Reach.	Defer high school redistricting until new HS built. Whenever do HS redistricting, ALL CURRENT HIGH SCHOOLERS MUST BE ALLOWED TO STAY. Have you seen the petition with over 2,000 sigs in 2 days supporting to let them stay"? Listen to the people."
6157			MtHebronHS	1	worse than	13	13	13		equal to					
6158	BellowsSpringES			5	equal to	7			Thank you AAC for keeping 298 and 1298 Bellows/ Mayfield/ Long Reach and correcting the mess Study. Thumbs down to our superintendent and BOE for including high schools in discussion after all spring we were led to believe it is only elementary schools.	better than	7			The AAC plans #1 and #2 both correctly keep 298/ 1298 at Bellows/ Mayfield /Long Reach. Next step- recommend that HS redistricting is deferred or at least protect all current high schoolers to stay.	Shame on the BOE and superintendent for even discussing HS when all along we were told it is elementary only now. Wait until new HS built. Don't make kids suffer for the poor planning of others.
6159	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	6	The AAC plan literally rips out neighborhoods that are part of existing communities.	worse than	7	4		The AAC plan is a non starter. The data used to make the decision is based on an enrollment projection formula that hasn't been validated by the community.	
6160	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	7	8	4		equal to	7	8	5		AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!
6161	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	5	4		equal to	9	7	4		Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough.
6162	ForestRidgeES	PatuxentValleyMS	HammondHS	3	equal to	14	14	14	No Comments	better than	1	1	1	Overcrowding is reduced by moving fewer students and preserving Atholton HS. With small modifications, polygons 272 and 1272 can be moved to Murray Hill MS and Atholton HS, reuniting the Emerson Community (6010-IV.B.2.b), eliminating the negative impact.	I would rate the AAC Draft Plan a "S" if was modified to move Polygons 272 and 1272 (remaining Emerson polygons) to Murray Hill MS & Atholton HS. This reunites the Emerson neighborhood (6010-IV.B.2.b) and improves walkability (6010-IV.B.1.d).
6163	RockburnES	ElkridgeLandingMS	HowardHS	5	better than	6	7	1		better than	6	7	8		
6164			MarriottsRidgeHS	1	worse than	6	1	4	Both Draft Plans are worse than current area. Moves #232 (224, 229, 231, 1229, 1231, 2229) high schoolers from a small community established since elementary school--100% from WFES to MVMS. (77.9% of MRHS is MVMS) Critical time--don't move HS	worse than	6	1	4	Unacceptable cost in time and quality of life. Dangerous traffic, emotional distress for high schoolers trying to build college applications and references. Moves to lesser quality school and makes students suffer academically, musically, socially.	Feasibility better than draft, but not optimal. If trying to move school populations, start with elementary so have time to build bonds and relationships. Don't tear high schoolers from existing community. #232 stay at MRHS. Build new HS 1st, then replan
6165	GormanCrossingES	MurrayHillMS	AtholtonHS	5	worse than	14	14			better than	1	10			
6166	ThunderHillES	DunloggінMS	WildeLakeHS	1	worse than				Voices of polygons 2111, 111, 1111 are not being heard. Our suggestion hasn't been reflected in draft plan 1 or 2. We are part of Ellicott City, Dunloggin Middle and Northfield Elementary. Current plan forces long bus ride on our children. NOT ACCEPTABLE!	equal to	4	7	1	Children from polygon 2111, 111, 1111 will suffer long bus ride if they have to go to Oakland Mills Middle. AAC meeting notes showed on 8/7 that these polygons were considered to stay with Duloggin Middle. Why is it not reflected on draft plan 1 or 2?	We want to stay with other Ellicott City neighborhoods. We want Northfield Elementary, Dunloggin Middle and Wilde Lake High. Our children can stay with their friends and have curriculum continuity.

6167	PointersRunES			1	worse than	4	13	7		worse than	4	7	14	Student safety. You are redistricting an entire neighborhood that currently has a short 3 minute bus ride along an uncongested back road to a 20 minute bus ride during rush hour traveling highly congested roads and through with no major intersections	
6168	PointersRunES	ClarksvilleMS	RiverHillHS		worse than	7	4	6		worse than	4	6	7		
6169					worse than	7	6		My children are grown and not affected by this plan. But the idea of splitting a neighborhood the size of Ashleigh Knolls into two school districts is ridiculous.					
6170				1	worse than	4	6	7	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	worse than	6	7	4	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	Both AAC draft and Feasibility Study are bad. Many students are moved unnecessarily. The plans did not take future high school into consideration. Massive students can will be moved back and forth. This will be very disruptive to students. Stop moving us.
6171				1	worse than	4	6	7	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	worse than	6	7	4	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	Both AAC draft and Feasibility Study are bad. Many students are moved unnecessarily. The plans did not take future high school into consideration. Massive students can will be moved back and forth. 6172				1	worse than	4	6	7	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	worse than	6	7	4	The Wilde Lake high school is much far away comparing Centennial high school, and the traffic in downtown Columbia will cause us to spend much more time on transportation.	Both AAC draft and Feasibility study are bad. It is unnecessarily to redistricting to Wilde Lake high school. The plans did not take future high school into consideration. Stop moving us. Thanks!
6173	CentennialLaneES			4	equal to	4	7	10		better than	4	8	7		AAC Draft 2 keeps children from Polygon 147 connected to the natural community at large in the Centennial district and avoid the need to cross the busy and at times dangerous Rt 108.
6174			CentennialHS	4	equal to	4	10	1		equal to	8	4	7		AAC Draft 2 considered the negative effect to drastically re-distribute children in Polygon 147 at all levels and allowed Polygon 147 to continue establishing relationship with its adjacent, contiguous communities.
6175		BurleighManorMS		4	equal to	4				equal to	4				AAC Draft 2 recognizes the negative impact to wholly re-distribute Polygon 147 and avoid the need for Polygon 147 to be isolated from the community at large. Please keep Polygon 147 in the Centennial district for which it was designed.
6176	AtholtonES			1	worse than	6	4	9	Me and my husband are outraged at this proposal and very concerned for our 2 Children. The proposal for neighborhood(Allview Estates)makes absolutely no sense.	worse than	6	4	9		
6177	CentennialLaneES			5	better than	4	6	7	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road and keeps long-standing Centennial / Old Annapolis Community streets connected to their community.	better than	4	6	7	The Draft 2 plan is better than current school attendance areas and the feasibility study.	
6178	NorthfieldES	DunlogginMS		1	worse than	4	6	3	moving our kids CH to WH against policy 6010 (Transportation consideration and minimizing capital and operating cost etc)	worse than	4	6	7	moving our kids CH to WH against policy 6010 (Transportation consideration and minimizing capital and operating cost etc)	relocate polygon 97 makes room for 100 kids. moving back polygon 147 and leave our community(polygon 150, 4150, 1150 and 219) does not make sense. polygon 147 is closer to WH. relocate CH polygons from east of RT29.
6179	FultonES			1	worse than	2			How does this new plan help when Fulton will be at 116% capacity in 2020. You need to build onto FES. The developments are coming fast in the area, so there is no other fix than to build onto the school. Stop chasing the problem, and fix it.	worse than	2			Wait to handle FES when you have a solid plan that has lasting effects, not just a quick fix. The new plan fixes the capacity for one year. Why create so much upheaval for children when this does not fix the problem for more than a year.	
6180			AtholtonHS	5		1	10	14	This plan preserves Atholton and we really appreciate it. The academics and extra curricular education that is available to our children.	better than	1	7	6	Our community has gone through redistricting that has affected our children at every level of education. I feel especially at the high school level that our children have gotten involved in their community and it is imperative that at least 11th graders	Thank you for considering the AAC draft platoon our behalf
6181					equal to	14				better than	1	13		Overcrowding is reduced by moving fewer students and preserving Atholton HS. With small modifications, polygons 272 and 1272 can be moved to Murray Hill MS and Atholton HS, reuniting the Emerson Community (6010-IV.B.2.b), eliminating the negative impact.	I would rate the AAC Draft Plan a "5" if was modified to move Polygons 272 and 1272 (remaining Emerson polygons) to Murray Hill MS & Atholton HS. This reunites the Emerson neighborhood (6010-IV.B.2.b) and improves walkability (6010-IV.B.1.d).
6182	RockburnES	BonnieBranchMS	HowardHS	1	worse than	4	2	7	Rockburn ES is at 105% capacity and predicted to get worse. Ilchester ES is underutilized at 86 % and predicted to go down. By moving polygon 91 from Rockburn ES to Ilchester ES, this will have a positive effect to balance utilization at both schools.	worse than	4	7	2	Polygon 91 woculd prefer the AAC to implement the recommendations in the original feasibility study from the early summer which has our community going to Ilchester ES and BBMS.	The draft AAC plan moves polygon 1067 to BBMS and moves our polygon 91 to ELMS. These moves create a 3.5 mile bus ride for both sets of students. A more logical solution is to have our polygon 91 go to BBMS which is only 1 mile from our neighborhood.
6183			WildeLakeHS	1	worse than	4	6	7	The walk area (172,1172) should be restored. The reason to reject scenario 14 on 8/8 is not sufficient. Asking students to take a long bus driver instead of 10-minute walk does not make any sense.						
6184	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	13	7	7	This plan splits our relatively small community. Ashleigh Knolls in half. This not only totally destroys our sense of community but will also impact home values between the two sections of the same neighborhood.						
6185	CentennialLaneES				better than	7			AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps	better than	7			AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps	
6186	BellowsSpringES			5	better than	7	6		In the current plan, my children would have to go to Thomas Vladuct while their bellows springs peers right next to us would be going ot Mayfield. I'm happier in the current plan with Mayfield being their school.	better than	14				
6187	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	3	4	7	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps	equal to	6	10	8	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road. Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school.	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.
6188	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	5	AAC Draft 2: This draft for poly 147 is better than the original. Thank u for thinking of education and the kids. Draft 2 appropriately keeps Elementary students from Crossing 108 to get to their school (& all of their would-be friends/classmates' homes)	better than	2	4	5	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks	Children that just moved into parts of 147 have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough.
6189	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7			Our neighborhood Ashleigh Knolls, has a declining student feed into the schools system. Current updated proposal has our neighborhood split to go to two separate middle schools - LKMS and Clarksville MS. Too small of a community to split	worse than	7				
6190	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8		better than	6	8	7		
6191	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	6	7		The draft plan only cares about preserveing Atholton, but doesn't care of the division of our community, River Hill. All kids from CMS should be going to River Hill and NOT divided unevenly to two different high schools.	Bring our community back and don't go all the way into walk zones of different communities, Wilde Lake and bring the actual community to River Hill High School. It's not all about Atholton. The feasibility study was way better and cared about communities.
6192		DunlogginMS	CentennialHS	1	worse than	13	1	2	The Dunloggin neighborhood was not initially on the plan to be split and moved to Wilde Lake HS. I was suddenly apprised of the AAC Plan during vacation just over a week ago! It was not enough time for our community to get involved and react	worse than	13	1	2	Feasability Study did not redistrict our neighborhood from Centennial HS to Wilde Lake HS which was desireable for us. AAC draft plan was presented with undesirable redistricting for Dunloggin neighborhood and without enough time to react.	Minimal redistricting should take place as all schools are at/near capacity and the schools should be adjusting their seating instead of families moving to distant schools. We chose to live in Ellicott City to go to EC schools. Postpone plan needed!
6193	NorthfieldES			5	equal to	2	3	8	We are polygon 276 and 148. We got redistricted from ThunderHill ES to Northfield ES in the year 2013. At that time it was 4 polygons, 276, 148, 1148 and 2148 with 132 students moved from THES to NES. We are facing consecutive redistricting, with just 60.	better than	9	7	8	Northfield ES doesn't reach the capacity till 2027. The pre measure chart for NES, in feasibility study and the in the post measure chart of AAC draft plan 1 and 2 indicates only 107% in 2027. The feasibility study is moving us prematurely.	
6194	CentennialLaneES			5	better than	7	4	6		better than	7	4	6		Thank you for keeping font hill community together.
6195	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	6	13	Our neighborhood, Ashleigh Knolls which is a combination of quadrant 117 and 1117, will be split for Middle School in the latest draft of this plan. This makes no sense from a community perspective as well as busing logistics, etc.	worse than	7	6	13	Our neighborhood, Ashleigh Knolls which is a combination of quadrant 117 and 1117, will be split for Middle School in the latest draft of this plan. This makes no sense from a community perspective as well as busing logistics, etc.	
6196					worse than			4							

6197	ThunderHillES	DunlogginMS	WildeLakeHS	5	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and new court house traffic along the commute. The draft does not address over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and new court house traffic along the commute. The draft does not address over enrollment at Thunder Hill ES.	I propose polygons 111,1111, and 2111 go to Northridge ES, Dunloggin MS, and Wildlake HS. This proposal solves safety and and transportation concerns, longevity of the feed, and maintains our sense of community.
6198	FultonES	LimeKilnMS	AtholtonHS	1	worse than	7			Ashleigh Knolls. 120 Homes. The epitome of a tight neighborhood that actively invests in the community.To split us between two middle schools...really? That's the best plan we get? I expect so much more from HC leaders. Take another look please.						I understand it is a difficult job and that HC is experiencing strong growth.
6199	CentennialLaneES	BurleighManorMS		4	equal to	6	4	7		better than	1	7	6		AAC draft plan version 2: the plan is much better the previous version. Communities should be kept together and same school should be maintained for better education and future. Stop building new development if there is no capacity in schools.
6200	CentennialLaneES				better than	1	2	3	It makes sense to keep 147 in Centennial school in AAC draft plan 2.	equal to	4	6	7	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! hildren that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps
6201		BurleighManorMS		4	better than	1	7	4	The AAC Plan Draft 2 keep centennial community together, save transportation cost.	better than	1	7	4	The AAC Draft 2 keeps Centennial lake Park to Centennial Community. Save my kid from switching more than 2 schools in a short period and help him to have a more stable environments. My kid and us are very appreciated your decision.	
6202	HammondES	HammondMS	AtholtonHS	5		1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL. The outstanding performance in academics and extracurricular activities, with existing student demographics, needs to continue as a model for other schools!	better than				The Fstudy moved WAY too many kids. Took out 67% of AHS students. That was TOO extreme, unnecessary and unacceptable. No other HS was changed as dramatically. AHS needs to continue as a model HS for HCPSS as in AAC draft plan.	Some Atholton kids were impacted by significant changes in both elementary and middle school already. They shouldn't go through that again in HS. Fewer kids moving. Consideration for future HS. AAC plan preserves excellence at AHS. FS decimates AHS.
6203	BushyParkES	GlenwoodMS		1	worse than	13			We are closer to Bushy Park Elementary, which is under enrolled, yet this plan has attending Lisbon Elementary next school year. I thought that being so close to a school that is so under capacity, we would be about to stay in our home school. Not happy	worse than	13				
6204	CentennialLaneES		CentennialHS	5	equal to	1	4	6	AAC draft 2 is wxecrllebt because it keeps the community together	equal to	1	4	6	Thank you fir the AAC draft 2	Sincerely thank you for the draft two
6205	SwansfieldES				better than	1	6	7	I like that this proposal puts zones 66,134, and 1134 into Swansfield and keeps those areas in the same middle school. I have mixed feelings about the high school proposal. I don't like checkered" districts like you have Wilde Lake shaped."	better than	4	6	7	I have mixed feelings about the high school proposal. I don't like checkered" districts like you have Wilde Lake shaped. River Hill is a wonderful school	but my children will end up split from many friends they knew at Harpers Choice."
6206			AtholtonHS	1	worse than	7			The middle school plan divides a community. Area 117 and 1117 are the same community and should not be split in two. This is a close community and children would be separated from their close friends and neighbors. The high school plan is fine.						
6207	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6			I know that it is necessary to periodically read distribute students to ensure proper utilization of the schools however, it is vital that the Ashley Knolls neighborhood stay together in elementary and middle school's. The new draft plan is terrible .	worse than	6				My middle school daughter was bullied because all her friends were sent to a different middle school. I don't want this to happen to my other children.
6208			MtHebronHS	1	worse than	7	4	6	My children can walk home from after school activities while we are at work. Traffics on Route 99 is terrible during rush hours and the commute to & from Marriotts Ridge could become be a logistical nightmare.	equal to					
6209			HammondHS	1	worse than	13	6	4		equal to	5	13	14		
6210		DunlogginMS	WildeLakeHS	1	worse than	1	4	13		worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I have 2 sons at WLHS that I do not want to have to move after they have settled in and begun to form relationships. NES to DMS would be a much larger feed than what we had before from THES to DMS and would positively affect the upcoming students.
6211	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	4	8	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road.	equal to	4	7	8	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking. just wanted to thank you for keeping 147 in centennial.
6212	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	7	4	1	The AAC draft 2 is much improved by keeping long-standing Centennial/Old Annapolis Community streets connected to their community.	equal to	7	4	1	Similar to the feasibility plan, the AAC draft 2 is much improved by keeping long-standing Centennial/Old Annapolis Community streets connected to their community.	
6213	CentennialLaneES			4	equal to	1	2	3	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community.	equal to	5	4	6	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their schoo	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough on
6214	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	6	7	13	Drafts 1 and 2 are geographically difficult and put our children in schools in three different communities - Atholton ES largely made up of children from King's Contrivance, Lake Elkhorn MS is in Oakland Mills, and WLHS is in Wilde Lake.	worse than	4	13	6	None of these 3 plans offer us the stability of contiguous neighborhoods staying in school together from ES to HS. Currently we don't have that from ES to MS, but at least we do have continuity from MS to HS.	If you keep 56, 1056, 2056, 3056 a small feed (Draft 2) then please leave us at OM MS and HS so our kids can have continuity going from MS to HS with all their peers. Otherwise keep us with our Atholton ES peers from ES to HS, which no plan has yet to do.
6215	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	4	8	AAC Draft 2 keeps long-standing Centennial / Old Annapolis Community streets connected to their community and keeps 1184 and 147 together.	equal to	7	4	8	AAC draft 2 plan aligns with the feasibility study and takes into account student needs from centennial area.	
6216			HowardHS		worse than	6				equal to	4	13			
6217	WestFriendshipES	MountViewMS	MarriottsRidgeHS	1	worse than	3	4	7	Currently if it takes 45 min bus ride to cover 1.2 mi how long will it take to cover 6 mi? For rt 32 area one AAC member was heard saying -oh, they are already on the bus for 45 min.She would be singing a different tune if it was her child being affected.	worse than	9	7	8	AAC moves us at all three levels. Feasibility study only had us move for ES. Small/weak feed from BPESto MVMS is PERFECTLY ACCEPTABLE to us as it keeps us close to schools. Our kids are paying hefty price to fulfill greed of politicians. UNACCEPTABLE	We are very frustrated to see Rt 32 corridor school attendance issue being tabled week after week by AAC. Our current schools are not even an issue of overcrowding but we are being penalized for developments 10-15 miles away from us.kids need stability.
6218	WaverlyES	PatapscoMS	MtHebronHS	1	worse than	4	7	8	Walkers should walk Don't bus kids out of their own community- not fair to those of who have been redistricted EVERY 5 years at the ES level	worse than	4	6	8	Don't bus walkers - keep poly 1162 at Mt Hebron / Patapsco - this poly has moved too many times	
6219			WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft doesn't not address the over enrollment at Thunder Hill ES.	I propose polygons 111,1111, and 2111 to go to Northfield ES, Dunlonggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
6220	PointersRunES			1	worse than	7	6	13	My neighborhood is small (7112 Ramsgate Court, 21029) and in the current proposal is split down the middle to attend different MS. This divides our community unnecessarily. We are a small pocket that will go to a different school than everyone else.	worse than	7	6	13	Same as above	Please do not break up such a small neighborhood!!!!!!!!!! This is NOT in the best interest of these kids!!!!!!!!!!
6221	NorthfieldES	DunlogginMS		1	worse than	7	4	10	There is absolutely no reason for the Dunloggin community to be split as it is. It results in a well-established community being divided. It must have be an oversight to have split Dunloggin.						
6222			WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
6223		DunlogginMS	CentennialHS	1	worse than	7	6	13			7	6	13	Both plans are poor and look only at numbers and not the impact on families, neighborhoods & communities.	My family will make the decision NOT to send our children to Wilde Lake and look at parochial school as an alternative should the county ignore the family voices. In addition, this plan reeks more of social engineering than proper usage of school seats.
6224	NorthfieldES	DunlogginMS		1	worse than	7	4	10							
6225	AtholtonES			1	worse than	6	7	4	Regarding AAC DRAFT 2. Polygons 56, 1056, 2056, and 3056 should either be left at OMMS and OMHS or moved to Hammond MS, which is significantly underutilized. At the HS level, if moves must occur, Hammond HS would maintain continuity from ES through HS.	worse than	6	7	4	The proposed move of polygons 56, 1056, 2056, and 3056 to WLHS isolates a small group and makes participation in extra-curricular activities more difficult given the need for the constant transportation across busy downtown to WLHS.	If polygons 56, 1056, 2056, and 3056 can't stay at OMMS and OMHS, a very good opportunity exists to unite the feed of Atholton ES students to underutilized Hammond MS. HS students could be sent to Atholton HS still keeping it within target utilization.

6226			AtholtonHS	1	worse than	7	13	6	Currently, CMS students mostly go to RHHS. A few go to AHS. Under the ACC Draft 2 plan, far fewer kids will go to AHS. This really splits our community. Instead, sent all River Hill kids to RHHS! Huge savings on transportation over busing in from WildeLk!	worse than	7	6		Draft plan violates Policy 6010 IV.B.2.b, by breaking up the River Hill Community. Leaving only a few students at AHS is tough for those kids socially. Also, do Wilde Lake students really want to go to River Hill? My understanding is NO - please ask!	Pls. keep all River Hill area students together before bringing in kids from distant areas (which raises transportation costs.) It's ridiculous to split the River Hill community further. The plan can be simplified, rather than disrupting so many kids.
6227	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	6	7	13		worse than	6	4	13		this is a very inefficient plan for those of us who reside in dunloggin. Wilde Lake HS is a much farther commute, and breaking up our community like this is not good for the kids/neighborhood. This is a longstanding neighborhood we should stick together.
6228	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	3	3	No one is winning in this plan. You are change so many lives just because you did not manage growth and now the kids are paying for your lack of planning.	worse than	7	2	3	You are showing favoritism to people that don't want to move to another school for a few years and then move back Come on get it together you are slitting kids at the wrong time in their lives when friendship have whole life outcomes	Leave it alone and adjust the size of the school according to the growth you have allowed in a neighborhood
6229	NorthfieldES			1	worse than	7	4	6	this plan divides the Dunloggin neighborhood in an unnatural way. Neighborhood friends will attend different schools. It would be better to divide along major roads.	worse than	7	4	6	The feasibility study makes more sense.	
6230	CentennialLaneES			5	equal to	6	7	3	Children that just moved into parts of 147 worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough on them.	better than	3	6	7	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school.
6231			CentennialHS	1	worse than	6	7	8	This draft plan splits up neighborhoods. It also disrupts school feeds.	worse than	7	6	8		I recommend developing a voluntary plan for students to attend River Hill and Marriott's Ridge to ensure efficient use of resources and minimize disruptions to contiguous neighborhoods. Analysis of development should be conducted over the next 4 years.
6232			CentennialHS	1		4	7	6		worse than	4	6	7		
6233		BurleighManorMS	CentennialHS	5	equal to	4	8	7	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along along Old	Children that just moved into parts of 147 worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough on kids.
6234		DunloggінMS		1	worse than	6	1	7		worse than	9	14	13		
6235	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	9	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community, our neighborhood /children connected to all of their friends and Neighbors,keeps students from Crossing 108 , go school walking/biking	better than	4	7	9	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community, our neighborhood /children connected to all of their friends and Neighbors,keeps students from Crossing 108 , go school walking/biking	Draft 2 helps protect them from sudden change. This is greatly appreciated since another move in such a short time would be very tough on the children , they worked hard to integrate into their new community and school.
6236			CentennialHS	1	worse than	4	6	7	For Polygon 214 neighborhood, current HC attendance areas use Rt. 40 as a logical boundary. The AAC draft plan uses Rt.40 in some areas, Frederick Road in the remaining areas. This is not logical. Poly 214 should logically attend CLES/NES, BMMS and CHS.	worse than	6	7		The neighborhood of Polygons 214, 153, 1184, 1154, 154 and 2154 was further broken down by returning Polygons 153 and 1184 back to CHS and redistricting the remaining polygons to MRHS lowering the feed from BMMS to MRHS. Bring Polygon 214 back to CHS.	The draft plan is more flawed than the FS. Drop this HS redistricting till the 13th HS is ready. It is wrong to pick and choose polygons that attend CHS. This way only the polygons that exert political influence are being retained (eg. 147, 153, 1184).
6237			RiverHillHS		worse than	1	2	7	Capacity projected at above 100% and may not include future developments (Guilford Rd. and Rt. 108). New HS should be built earlier. Students are traveling farther, possible not being able to stay after school for activities.	worse than	2	3	1	Better to open new High School sooner than to relocate 5,400 high school students and move them again in a few years. RHHS will be over capacity starting with this plan, not including future developments. Cost of relocation, planning, bussing cost money	https://www.change.org/p/howard-county-board-of-education-delay-hcpss-hs-redistricting-let-them-stay?utm_medium=email&utm_source=petition_signer_receipt&utm_campaign=triggered&j=113826&sfmc_sub=11639237&l=32_HTML&u=22325209&mid=7233052&jb=262365
6238			CentennialHS	1	worse than	4	6	7	For Polygon 214 neighborhood, current HC attendance areas use Rt. 40 as a logical boundary. The AAC draft plan uses Rt.40 in some areas, Frederick Road in the remaining areas. This is not logical. Poly 214 should be returned to CHS. Bring 214 back.	worse than	4	6	7	The neighborhood of Polygons 214, 153, 1184, 1154, 154 and 2154 was further broken down by returning Polygons 153 and 1184 back to CHS and redistricting the remaining polygons to MRHS lowering the feed from BMMS to MRHS. Bring Polygon 214 back to CHS.	The draft plan is more flawed than the FS. Drop this HS redistricting till the 13th HS is ready. It is wrong to pick and choose polygons that attend CHS. This way only the polygons that exert political influence are being retained (eg. 147, 153, 1184).
6239	NorthfieldES		CentennialHS	1	worse than	6	7	13	I live in dunloggin and do not want the community moved to Wilde Lake High. I moved here so my kids can attend Centennial High School. Redistricting will separate these kids from their peers and will decrease the home values in our neighborhood.	worse than	6				
6240	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	10	6	4	The draft plan is deeply flawed. Polygons 154,214,1154 and 2154 should not be moved from CHS to MRHS. These 4 polygons shows no growth projected in the next 4 years. Polygon 97 is at the other side of busy route 40 with 25% growth. It should be moved.	worse than	2	6	7	Both of the plans are ill advised. Currently small feed of Polygons 154,1154 and 2154 go from Northfield ES to Burleigh MS and CHS. If moved to MRHS, by the time kids go to high school, none of their ES friends are there with them.	
6241	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7			This new draft plan (August 15) is Hugely Better than previous draft plan. New plan keeps our community to a Centennial High School which is only 1.5 miles away Previous plan was moving us to a High School which was 4.0 miles away.	equal to	1				This new draft plan (August 15) is Hugely Better than previous draft plan. My daughter bikes to Centennial High School in summer and she would be able to do so in this plan.
6242	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	5	6	my kids need spend more time to go to the HS based on the draft and will separate from his friends.	worse than	4	6	5		
6243															
6244	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	7		I like that it accounts for keeping communities of kids and families together. I also REALLY appreciate that when a new development is built, it doesn't bump out existing homes (children) to other districts.						
6245	AtholtonES			5	equal to	1	6	9	I am happy with the AAC's second draft of keeping us going to Hammond MS and Hammond HS. It keeps more of the Atholton students together vs. the AAC's first draft.	equal to	6	7		My first choice would be to use the AAC draft where nobody is changed. If we had to change, I would be ok with the feasibility study and going to AHS.	
6246	BellowsSpringES	ThomasViaductMS	LongReachHS	4	better than	8	9	6		equal to				I have not reviewed the feasibility plan.	Where can I review the feasibility study plan.
6247		BurleighManorMS	CentennialHS	5	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community - thanks! keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along old Annapolis	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	also allow for safe walking/biking.Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change. thanks for keeping 147 in centennial .
6248			HowardHS	1	worse than	7	6	8		worse than	7	6	8		
6249			HowardHS		better than	7				equal to	7				
6250	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	6	7	8		worse than	6	7	7	Keep my students in a middle and elementary school that feeds to the same high school as peers.	We have been on the block to be moved twice in the past two redistricting. Please build another high school in the North columbia area and quit pulling kids East and West!
6251	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	Keep polygon 214 at CHS.	worse than	13	7	4	Keep polygon 214 which as only 10 HS at CHS	
6252			MtHebronHS	1	worse than	4	7	8	My 4 kids have been walkers (1162) to Hebron forever. It's preposterous to consider that they attend MR. We are part of the Hebron community and we value this association. We are invested in our community school. The current plan destroys that investment.	equal to	7	8		The movement between Hebron and MR is just silly on its face.	Given plans to build a new HS, the draft plan unnecessarily chops up communities that will be moved around yet again when that building opens. Actual children populate these polygons. This numbers game affects them directly and harshly. Consider the kids.
6253	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	9	7	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!	better than	4	7	4	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road.
6254	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	7	6	13	The AAC draft plan tears the established Dunloggin community in half, with part of the community remaining at Centennial High School, and the other being bused to Wilde Lake High School, while keeping areas east of 29 at CHS, despite the natural boundary.	worse than	7	6	4	Residents of Dunloggin desperately want to stay together in the Centennial HS district, primarily for community, safety & transportation reasons. A wealth of resources were invested in the feasibility and transportation studies, lets honor those results.	The change in school boundaries is non-sensical and ridiculous. It allows areas further from Centennial High School to continue their attendance there while destroying a community.
6255	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	2	7	8	Elementary school students should be the only ones moved at this time, commensurate with the opening of the new ES #42. The opening of HS #13 in the near future will result in a substantial reversal of all these moves = unnecessary stress for families!	equal to				Elementary school students should be the only ones moved at this time, commensurate with the opening of the new ES #42. The opening of HS #13 in the near future will result in a substantial reversal of all these moves = unnecessary stress for families!	This whole process needs to be suspended and reviewed in the context of: 1) improving the APFO, 2) modifying the basis of evaluating redistricting, 3) placing more importance on the fact that NEIGHBORHOODS AND CONTINUITY ARE WHAT MAKE SUCCESSFUL SCHOOLS!
6256	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	better than	1	4								
6257	CentennialLaneES		CentennialHS	4	better than	1	7	10	The newly built community off Old Annapolis near Centennial Park Entrance increased student numbers SIGNIFICANTLY. The new community should be included into other nearby less crowded schools soonest, before they become stakeholders in the crowded school	better than	7	6	4	Please keep Font Hill community together attending CLES, Burleigh Manor, Centennial High. Previous draft split Font Hill by a small stream, not at all how the community comes together. We're bound together by Frederick Rd to the North end, not a stream.	

6258	NorthfieldES			1	worse than	6	7	4	Please keep feeds of students together form one school to the next, maintain continuous Duloggin community that is one of the oldest neighborhood in EC, and consider the transportation matter such as longer distance and safety issue.	worse than	6	7	4	Feasibility study(FC) has been gone through long study by experts and it did not suggest any split of Dunloggin, but now AAC plan flipped the FC so dramatically without longterm study which is not convincing and the plan itself is not understandable.	Please make a decision after long term study and taking the opinions of residents-student and parent through the plenty of time. Any plan in hurry will result in more chaos after all.
6259	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	Dunloggin is a neighborhood established before the font hill , grey rock, and tollhouse communities ... and the apts at plum tree and Chatham are transient families ... those should be moved before established neighborhoods are split	worse than	7	6	4	Again keep long time established neighborhoods together ! A section of font hill / grey rock was already at Wilde lake ... to leave that section there and move the rest of that neighborhood makes the most sense ...	no parent wants their child impacted by moving them from a number 9 rated school to a 6. Maybe the focus this year is to leave boundaries alone and focus on why hoco has seriously under performing schools ...
6260		BurleighManorMS	CentennialHS	5	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community-thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Anna.	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing108 to get to their school (And all of their would-be friends/classmates' homes)Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough on
6261		DunlogginMS	CentennialHS	1	worse than	7	2			worse than	7					
6262		BurleighManorMS		4	better than	7			Dear AAC, thank you for creating Draft 2 and bringing 147 polygon back to CLES, BMMS and CHS and keep our entire community together.	better than	7			Dear AAC, thank you for creating Draft 2 and bringing 147 polygon back to CLES, BMMS and CHS and keep our entire community together.	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools; Incorporating the community's safety concern
6263			CentennialHS	5	worse than	7	13	4	Very high movement & impact to Dunloggin community (Polygon 150,219,1150,4150)per latest draft 2. This can be simply solved by moving polygon 97 to Marriott Ridge HS & moving 140,141,142,172,175,177,1140,1141,1172,1175,1177,2175 back Wilde Lake as before.	worse than	13	4	3	Extreme movement & impact to Dunloggin community (Polygon 150,219,1150,4150)per latest draft 2. This can be simply solved by moving 191 to Mt Hebron HS & moving 140,141,142,172,175,177,1140,1141,1172,1175,1177,2175 back Wilde Lake as before.	Dunloggin community strongly opposes unnecessary movement from current HS. Suggested plan brings back Wilde Lake to original HS so that community is also not broken like us. Two neighborhoods are kept intact and stops unnecessary movement for both.
6264	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	1	4	Pointers Run Elem is currently underutilized at 70% capacity. We are in polygon 1189 and live .7 miles away with children across the street at CMS. Moving kids to Dayton Oaks would separate the children from friends and community feeding to CMS and RH.	worse than	6	4	7	We are in Polygon 1189, located .7 mile from Pointers Run Elem, proposed Dayton Oaks is 5 miles away. This change would cause an hour round trip bus time, more traffic on busy route 32, loss of community as majority of students feed to other MS & HS.	We are very disappointed in this proposal that would negatively impact our children and community. We travel to DC and Baltimore for work, the proposed elementary is opposite direction, would add tremendous commute time and clog up already busy roads.
6265	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough on
6266	NorthfieldES			1	worse than	6	7		The creation of lasting friendships and forming a sense of community is vitally important in a child's life. Having the children in the community split up and attend different High Schools is not an appropriate response.	worse than	7	6		The AAC plan splits the Dunloggin community in two, and friendships made at a young age will be compromised.	The seemingly arbitrary nature of having polygon 1150 attend Wilde Lake is very disappointing. We purposefully purchased our home in this community for the good schools. To learn that our child will attend a massively inferior school is horrible.
6267	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	1	The AAC draft 2 is better than current school plan because it considers community stability in northern region compared to AAC draft 1.	equal to	7	3	1		
6268	NorthfieldES	DunlogginMS	CentennialHS		worse than	4	7	3		worse than	2	9	1		
6269	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough on k	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.
6270	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	6	4	Draft 2 Plan keeps old Annapolis road community together - polygons 147, 5147,1156. Thank you! it also keep our students together with their friends. It takes into account proximity to current schools and does not add transport cost.	equal to	7	6	4	Draft 2 plan aligns with feasibility study and is good for old annapolis community - 147, 5147 and 1156	
6271	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	AAC draft #1 and #2 separates polygon 1189 from the PRES community sending us miles away to Dayton Oaks which is not a feeder school to Clarksville Middle. Decouple us from 189 which has not yet been developed and has no ties to the community whatsoever!	worse than	4	6	7	AAC's draft #1 and #2 separates communities in a haphazard way. Please keep polygon 1189 in PRES like the Feasibility Study had it! Our children should not be separated from the community and sent to a school that is not a feeder to their middle school.	Middle school is a critical time in a child's life and they should not be forced to come back to their middle school without a strong social network since Dayton Oaks is not a feeder school to Clarksville Middle. Please reconsider and think of these kids.
6272	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough kids
6273	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	7	thank you for keeping old Annapolis road community together , polygons 147, 2147,5147,1156 in draft 2	better than	6	4	7	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. This is greatly appreciated since another move in such a short time would be very tough	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)
6274		BurleighManorMS	CentennialHS	5	equal to	4	7	8	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough on ki	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.
6275			CentennialHS	5	better than	1	8	5	AAC leaves students going to closest schools, minimizing costs.	better than	3	4	6	The AAC draft plan keeps the	Elementary students don't have to cross route 108 to get to their school.
6276	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	4	9		equal to	7	8	4		Thank you for keeping old Annapolis road community together (polygons 147, 2147, 5147, 1156) in AAC draft 2
6277			CentennialHS	4	better than	1	6	7	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from high school to their home. Draft 2 AAC plan is better.	better than	2	3	4	Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together.	Thank you to keep Centennial Park (polygon 147) in Centennial school district.
6278	CentennialLaneES			5	better than	3	4	7	AAC draft 2 plan keeps communities in same neighborhood attending same schools, and they move together through all levels of schooling; while minimizing hazards of crossing route108; and maximizing capacities of the schools.	better than	7	8	3	AAC draft 2 plan will stabilize children in polygon 147 who had recently integrated with their friends and neighbors. It will keep communities in same area in same school, and minimize costs for buses, walkers, and riders (fewer distances/maneuver)	AAC draft 2 plan is a better plan than draft 1 as it favors poly 6010; keeps communities together; minimizes transportation cost for county and communities, favors less than 5 years changes for children, and many more. I commend AAC for this revision.
6279	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	8	7	4	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	equal to	4	7	8	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough kids	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.
6280		BurleighManorMS			better than	8	4	5	Thank you to keep Centennial Park (polygon 147) in Centennial school district.	better than	3	2	7	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from high school to their home. Draft 2 AAC plan is better.	Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together.
6281	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	13	7		worse than	7	6	13		
6282		DunlogginMS	WildeLakeHS	1	worse than	4	1	13	he draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
6283				8	7	4	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough kids
6284	PointersRunES			1	worse than	7	4	7	PRES is .7 miles away; Dayton Oaks is 5 miles away. The traffic would be horrendous and would require children ride on route 32. Our children would be on the bus for nearly an hour each day, taking away from sleep and study/extracurricular time.						

6285	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	5	3		equal to	7	4	8		Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road (polygons 2147, 5147, 1156, 147).
6286	AtholtonES	HammondMS	HammondHS	5	equal to	6	4	7	AAC draft plan 2 does a much better keeping feeds and communities together at Hammond High School. Also greatly reduces the Wilde Lake HS island.	better than	6	7	10	AAC draft plan 2 is preferred to keep neighborhoods and communities together.	
6287	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough kids	equal to	4	7	8	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.
6288	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	3	4	9	this plan is good than AAC draft plan1.Thanks	equal to	6	4	3	This plan is good compared to draft plan1.	
6289			AtholtonHS	1	worse than	7	6	4	The small community neighborhood of Ashleigh Knolls is split per new draft boundaries. Kids next door to kids in small neighborhood will go to different schools & require multiple different sets of buses in same small neighborhood.	worse than	7	6	4	Splitting small neighborhood into different school districts, I.e., Ashleigh Knolls	Please do not split Ashleigh Knolls neighborhood into multiple districts
6290	NorthfieldES	DunloggінMS	CentennialHS		worse than	7	4	7	Dunloggin has been a distinct community for over 50 years and this plan cuts our community in half. High School events, sports, scout groups, transportation, etc are adversely affected by this plan. Please do NOT split us in half!	worse than	7	4	6	Please do not split our community in half - Dunloggin is one of the oldest neighborhood communities in Howard County and we would like to stay as one community and stay at Centennial High School together!	
6291			CentennialHS	1	worse than	7	6	2	Impacts almost all high schools unnecessarily. Breaks up long standing tight knit neighborhoods. Splits after-school sports carpools.	worse than	9	7	6	Inadequate feasibility over five+ years. Does not address development plan for downtown Columbia. Students moved to Wilde Lake will need to be moved again to accommodate the new housing in downtown columbia. The plan breaks up tight-knit neighborhoods	
6292		MountViewMS	MarriottsRidgeHS	1	worse than	13	1	4	My child will be sent to HS that is 6 miles instead of current HS-1.5 miles away. Is there any transportation study done to see how long the ride to new HS will take? Young kids will be forced to drive longer in heavy traffic early in the morning.	worse than	4	9	7	Please bring rt 32 corridor to MVMS and MRHS. BOE & city council needs to work hand in hand & only build housing where the schools can support the growth. Stop applying bandaids & bring a permanent/longterm solution. Make our kids stability your priority.	Existing kids & teachers hard work make the school system as great as it is & desirable to outsiders. Constant movement of students will reflect poorly &negatively on their performance. Our concerns & love for our kids are worth more than 255 characters.
6293	PointersRunES	LimeKilnMS	RiverHillHS	1	worse than	4	13		To summarize, 1) we want to stay in PRES or change to CES, not Dayton Oaks ES, which is too far. CES is under capacity and also much closer. 2) Middle school change is OK. 3)For HS, major concern is traffic on Rt 108 if Wilde Lake students move to RH.	worse than					Please carefully consider what impact will do to Rt 108 (already congested) if so many Wilde Lake students take school bus to RH in and out. 108 will be a total mess to the community. Your proposal needs to take RH residents needs into consideration.
6294	VeteransES	ElliottMillsMS	CentennialHS	1	worse than	7	13		We are much closer to our current ES (Veterans) than the proposed change (Worthington) would result in longer travel distance.	worse than	7	13			
6295	CentennialLaneES	ClarksvilleMS	CentennialHS	4	equal to	1	7	5	In Draft 2, AAC has done excellent job keep centennial communities together. CL schools utilization are just right and as the area does not see great increase in student enrollment, this plan is most feasible. Moving 147 with 2147, 5147 is smart move.	equal to	2	1	7	Feasibility study and Draft 2 both are good plans. It keeps the communities together. I am happy to be part of Centennial district again. It will give my children sense of belonging. Please keep in mind people have real connections and not just numbers.	First of all I am great to aac volunteers, their job is tough!! I am impressed with Draft 2, AAC has striked balance of utilization, maintaining contagious community and efficient use of seats. Thank you for keeping Old Annapolis Rd community together.
6296	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.	equal to	4	7	8	Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together. Thank you to keep Centennial Park (polygon 147) in Centennial school district.	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.
6297	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	6	7	From Dunloggin neighborhood: Centennial High is much closer distance than Wild Lake High, Route used for a walked is more dangerous	worse than	4	7	6	distance to CHS is much shorter than to WLH transportation safety from WLH to dunloggin neighborhood is longer than from CHS in case of emergency dismissal, WLH to dunloggin area crosses major roads and it will take over 30 minutes to get home.	According to policy 6010IV.B2b this plan breaks up the community of Dunloggin, a very tight nit group of people and kids. And Policy 6010IV.B1d concerns me for kids walking home after school activities from WH vs CH. CH is closer and safer to our area.
6298	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	6	7	4	Breaking up Dunloggin is not an option.	worse than	4	6	7		
6299															
6300		DunloggінMS		1	worse than	6	7	4	This plan rips Dunloggin in half. This is a cohort of kids who have been through NES and DMS together (11 years). The feed to CHS is very small, and the proposed bus ride to WLHS is into a traffic-clogged area.	worse than	6	7	4	The Feasibility Study preserved the Dunloggin community, and directly addressed under-utilization at MRHS -- by moving western polygons in the CHS zone to MRHS.	AAC, please consider moving 97 to MRHS, and 150, 4150, 1150, 219 back to CHS. This increases the feed from BMS to MRHS, and the feed from DMS to CHS. Communities near 97 are already proposed to be transported to MRHS.
6301	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	7	1	Both draft plans slices the Dunloggin commmunity in half and sends my sons 2 best friends to CHS and my son to WLHS. This move will create a walking time of nearly 2 hours which will impact his ability to play sports and potentially college prospects.	worse than	1	4	7	These plans will destroy the historic community of Dunloggin. This will separate my kids from their friends who live 2 streets away. This plan will eliminate my kids opportunity to play any sport since the proposed high school is a 2 hour walk.	DELAY THE REDISTRICTING! If the feasibility study is not possible then do another study, the AAC does not have the skill set to take al variables into account. Fast track the construction of new schools. Move JROTC to Marriotts Ridge HS.
6302	CentennialLaneES			4	equal to	4	6	2	ACC Draft 2 keeps our neighborhood (polygon 147) and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road and reduces the transportation time and keeps us in bike zone for the school close to us.	equal to	4	6	3	ACC Draft 2 keeps our neighborhood (polygon 147) and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road and reduces the transportation time and keeps us in bike zone for the school close to us.	ACC Draft 2 keeps our neighborhood (polygon 147) and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road and reduces the transportation time and keeps us in bike zone for the school close to us.
6303	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	6	14	14		better than	6	14	14	I am very happy to find AAC re-assigned the school zone to Centennials. My middleschooler son can be with his friend in the BMMS. Thank you AAC.	
6304			AtholtonHS	1	worse than	7			Splitting children between schools in our small community - Ashleigh Knolls - is ridiculous. Certainly, the small number of children can be accommodated in ONE school! Seriously - why even propose this?!!		14				
6305	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	4	10	Thank you for taking community input into consideration and keeping the Old Annapolis Road community (poly 147, 1156, 5147) together. Our kids specially high school kids who like to go to school themselves are now within walking distance to schools.	better than	1	4	10	Thank you for taking community input into consideration and keeping the Old Annapolis Road community (poly 147, 1156, 5147) together. Our kids specially high school kids who like to go to school themselves are now within walking distance to schools.	Thank you for taking community input into consideration and keeping the Old Annapolis Road community (poly 147, 1156, 5147) together. Our kids specially high school kids who like to go to school themselves are now within walking distance to schools.

6307		BurleighManorMS	CentennialHS	5	equal to	4	6	7	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.	equal to	4	7	6	Thank you for taking consideration and keeping old Annapolis road community together polygons 147, 2147,5147,1156.	
6308			CentennialHS		worse than	3	4	7	AAC draft 2 is better than the draft 1. Polygon 147 stays in centennial schools will allow students grow in a sense of neighborhood, cultivating responsibility to our neighborhoods.	worse than	1	3		AAC draft 2 is better	
6309	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	6	4	1	Thank you for keeping the Centennial community together (zones 147, 1147, 2147, 4147, 5147 and 1156) in the Centennial school district. Several houses in zone 147 have been part of the Centennial school district since past several decades.	equal to	8			Centennial Zone 147 is within 1.5 miles of both Centennial High and Burleigh Manor Middle School. Several families have been part of this district for several decades. Several other new families just had their kids move from other schools last year.	Our kids can walk from our zones to CHS and BMMS using the trail path inside the Centennial Lake. The distance to the school is less than 1.5miles.
6310	TriadelphiaRidgeES	FollyQuarterMS	GlenelgHS	1	worse than					worse than					Folly Quarter Together: Please don't split folly quarter communities. Keep the polygon 183, 1183, 2183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route
6311	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	6	5	The AAC Draft 2 takes community stability into consideration and makes an effort to minimize disruption of students and families.	equal to	4	9	10	AAC draft 2 makes some improvements based on feasibility study, overall is on par - improving school capacity utilization ratios by increasing numbers of students in under capacity schools and decreasing numbers of students in overcrowding schools.	Thank you for keeping the Old Annapolis Road community together by keeping polygons 147, 1147, 2147 and 5147 together.
6312	CentennialLaneES			4	equal to	1	2	4	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community	equal to	4	5	7	Draft 2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Annapolis Road.	thank you for keeping old Annapolis road community together , polygons 147, 2147,5147,1156
6313	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	3	12	Draft 2 is excellent plan to keep the Centennial families together. Kudos to AAC for keeping all the 147's and 156's polygons together. As a community member this is a big deal for us.	equal to	6	7	1	Both feasibility and Draft 2 kept Old Annapolis communities together. We are tightly bounded communities near the park, it does not make sense to send kids to different schools. Kids in our neighborhood feels CL school as their home.	Polygon 4147, 1147, 147, 5147, 156 etc is one big family. Kids identify themselves and proud CL students. I can't image them without their schools. Thanks again to AAC on Draft 2 for putting kids before numbers. Keep Old Annapolis Rd together!!
6314	CentennialLaneES			5	better than	7	9	5		better than	7	9	5		AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks! Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and safe walk/bike

6315	NorthfieldES			1	worse than	6	7	4	The AAC plan rips apart the Dunloggin community, and rips apart the NES to (DMS or BMIMS) to CHS feed.	worse than	4	6	7	The AAC draft plan is scrambling feeds in the Centennial, Gray Rock and Dunloggin communities. This is forces kids to go through unnecessary social adjustements throughout their path in HCPSS.	Please consider the alternative: 1173, 2173, 1184, 97 to MRHS. 150, 4150, 1150, 219 to CHS. This is less disruptive of feeds from CLES to BMS to MRHS, and feeds from NES to DMS to CHS.
6316		BurleighManorMS		4	equal to	1	2	3	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community	equal to	4	5	7	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)	thank you for keeping old Annapolis road community together , polygons 147, 2147,5147,1156
6317	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	6	9	On par mostly and better than the current school attendance areas in a couple of areas.	equal to	3	4	6	Mostly on par with the Feasibility Study	Thank you for keeping our Old Annapolis Road community together. So I can still maintain my friendships and connections with my friends living in the neighborhoods across the street from my house.
6318	NorthfieldES				equal to	12	14	14		better than	7	9	4		
6319	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	2	6	Better than current school attendance by solving the overcrowding issue at some schools	equal to	4	9	10	Mostly the same as Feasibility Study by reducing numbers of students in overcrowded schools.	Thank you for keeping my friends together in the same schools.

6332		DunlogginMS		1	worse than	6	7	13		worse than	6	7	13		
6333	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	5	8	Thank you for keeping 147 part of the Centennial school district. Several families in our zone have been part of this community for several decades.	better than	1	3	6	Thank you for keeping 147 part of the Centennial school district. Several families in our zone have been part of this community for several decades.	Thank you for keeping 147 part of the Centennial school district. Several families in our zone have been part of this community for several decades.
6334	PointersRunES			1	worse than	6	7	13	With only 104 houses in our neighborhood and I would estimate only 35% of the homes have school age children. To split a very small community orientated neighborhood for a very small number of students is sad and unnecessary. Also two buses rather than 1.	worse than	6	7	4	The AAC plan pulls children from our neighborhood all over the place. They don't get to follow a contiguous track. Half of the children get pulled over to a school as a very small group that did not attend the same Elementary school. Bad for these student	(continued) They then get sent to a high school that once again they are a small group that did not attend the same middle school as the masses. Seems like a real disservice to a small group of children. Bad idea to split the small neighborhood! Thank you
6335	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7	This plan moves kids to the farthest high school when there is Centennial, Hebron and Hammond that are much closer to our neighborhood. Students will have to drive on Rt.29 during morning rush hour to get to school	worse than	6	10	4	Neighborhood is being split illogically with next door neighbors on the same street going to a different school. New student drivers will have to take Route 29 during rush hour and drive close to 7 miles to get to school.	Development in Columbia will likely increase the attendance at Wilde Lake High and our students will likely be impacted again and moved soon.
6336															
6337	NorthfieldES	DunlogginMS		1	worse than	5				worse than	7				
6338		ElkridgeLandingMS		1	worse than	6	1	2	Moving kids from one overcrowded school to another.	worse than	6	7	9		
6339	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	1	3	7	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school.	better than	1	4	7	The new community in Polygon 147 has just moved in from all the around the states less than one year ago. Thanks for keeping them in the Centennial schools so they do not have to move again and children are kept from the harm of moving twice.	
6340	NorthfieldES	DunlogginMS	CentennialHS	1		4	13		I am very displeased with the draft that has Polygon 150 going twice the distance to Wild Lake Highschool when both Centennial and Mt Hebron are very close. We bought our house in Ellicott City to go to an Ellicott City school. Not a Columbia school.	worse than	4	13	6	Having new drivers in high school driving twice the distance to school and to school activities puts children at twice the risk of an accident. This is completely unacceptable.	Moving our kids from a close high school of Centennial to a highschool twice the distance away puts our kids at twice the risk of an accident.. If you need to redistrict polygon 150 then send us to Mt Hebron which is equal distant as Centennial.
6341		ElkridgeLandingMS		2	worse than	6			Splitting up middle school into different high schools as kids need some continuity isn't right. Keep the middle schools together.	better than	7				Please identify location of a new high school on the eastern part of the county before shuffling the deck chairs on the titanic!
6342			HowardHS	5	equal to	6	7			better than	6	7	9	The AAC plan keeps more communities together and intact with their feeder schools. Lyndwood - 87, 2087 & 3087 remains at Howard HS along with it's neighboring communities. We fully support this plan!	
6343		BurleighManorMS	CentennialHS	5	equal to	4	7	7	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.	equal to	6	4		Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together. Draft 2 AAC plan is better.	
6344	AtholtonES	HammondMS	HammondHS	3	equal to	6	7			better than	6	7			
6345		DunlogginMS	CentennialHS	1		4	5	13	Having my kids on the bus or driving to a school twice the distance that they normally go is ridiculous. Having my oldest child go to a different highschool as my youngest going into Highschool doesn't make any sense. They can't carpool together now.	worse than	4	5	13	What am I supposed to do when my two kids in highschool are being split going to two different highschools? They can't commute together. On top of that my youngest will now be going to a school twice the distance away as my oldest.	I am very concerned about my kids going to different highschools from one another. Two kids in the same house hold should be able to go to the same highschool not forcing them to split up and allowing my oldest to drive my youngest into highschool.
6346	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Children that just moved into parts of 147 Have worked hard to integrate into their	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes) Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.
6347	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7			Dunloggin communities is very old communities in the ellicott city. We share the not just same high school but the values to keep our communities together. For example we have many annual parade on July 4th and other activiies involving centennial HS.	worse than	7			Dunloggin communities is very old communities in the ellicott city. We share the not just same high school but the values to keep our communities together. For example we have many annual parade on July 4th and other activiies involving centennial HS.	Should keep no or minimum changes for HIGH SCHOOL
6348	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	10	4	3	Draft 2 we urge to reconsidering scenario 14 since 147 has moved out of wild lake zone.	worse than	4	10	7		
6349	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	1	9	7	The latest proposal moves Poly 147 back to CHS, BMMS, and CLES. Would be better to keep Poly 147 at WLHS, WLMS, and LES from the standpoint of demographics, and transportation considerations. Provides some relief to CLES which no plan addresses.	worse than	1	9	7	The latest proposal moves Poly 147 back to CHS, BMMS, and CLES. Would be better to keep Poly 147 at WLHS, WLMS, and LES from the standpoint of demographics, and transportation considerations. Provides some relief to CLES which no plan addresses.	Moving Poly 150, 4150, and 1150 to WLHS is illogical from a transportation standpoint. Poly 147 is closer to WLHS than Dorsey Search Polys 1152 and 152 which are currently districted to WLHS. Moving Poly 147 does not split a neighborhood.
6350	NorthfieldES	DunlogginMS	WildeLakeHS	5	better than	8	7	9		better than	7	8	9		
6351	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	6	Polygon 1189 belongs at Pointers Run. The kids of 1189 are integrated in the PRES community and should not be removed.	worse than	4	6	7	Feasibility study does much better job of keeping communities together. AAC plan #1 and #2 rips the kids of 1189 away from their friends and community and sends them miles away to nonfeeder school	Please keep 1189 kids at Pointers Run!!
6352	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	6			Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. 6451	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Polygons 150, 4150, 1150, and 219 being redistricted to WLHS makes zero sense in light of the 6010 policy. Attending WLHS requires a substantially longer drive from this neighborhood, cuts the feed from DMS to CHS to less than 10%, and splits Dunloggin.	worse than	4	6	7	WLHS is almost 8 miles away from Dunloggin. Not only are there 3 other high schools closer, but driving to WLHS requires driving on 29, which is a major safety issue. Additionally, this adds to the traffic problems on 29 that are already unbearable.	Consider moving 150, 4150, 1150, and 219 back to CHS. Polygon 3147 should go to WLHS, since it is substantially closer, and 97 could go to MRHS. These polygons are islands on the map and should be redistricted before splitting neighborhoods farther away

6452		DunlogginMS			worse than	1	6	7	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS) These moves result in a more efficient student distribution	worse than	1	6	7	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS) These moves result in a more efficient student distribution	
6453	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their community -thanks!Draft2 keeps our neighborhood and children connected to all of their friends and Neighbors in the other developments along Old Ann.	equal to	4	7	8	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school.Draft 2 helps protect them from another sudden change.This is greatly appreciated since another move in such a short time would be very tough kids	Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together. Thank you to keep Centennial Park (polygon 147) in Centennial school district. draft 8/15
6454	NorthfieldES	DunlogginMS		1	worse than	4	6	7		worse than	8	9	4		
6455			MtHebronHS	1	worse than	6	7	13	Look, I'm a high schooler and I honestly don't care about the problems with transportation and other complications. What I care about is staying with my friends, the people I know and love, the community that is mount Hebron.						
6456	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	8	Switch from CHS to WLHS creates longer/more dangerous drive and no possibility for walking. Move breaks Dunloggin in two. Projections for WLHS growth too low for development and this change will lead to redistricting sooner from overcapacity at WLHS.	worse than	4	1	7	Northfield over-capacity addressed by Feasibility Study. Switch from CHS to WLHS results in same transportation issues mentioned and breaks up the community.	Please score the following proposals: "Dunloggin: A Balanced Plan 1.0" and "Dunloggin: A Balanced Plan 2.0" so they can be evaluated early in the AAC meeting on the 22nd. Thank you!
6457	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7		The draft plan moves Dunloggin polygons out of CHS while keeping other polygons further from CHS in CHS. It also divides the Dunloggin community in two. Please review the Dunloggin balanced plan which proposes moving poly 97 to MRHS or poly 191 to MHHS.	worse than	1	4	7	Please review the Dunloggin balanced plan which movs poly 97 to MRHS (> cap uti) poly 191 to MHHS (< transp $). The AAC plan divides Dunloggin in two while leaving capacity under utilized in MRHS, burdening WLHS and moving walker students out of WLHS.	Please review the Dunloggin balanced plan which proposes moving poly 97 to MRHS or poly 191 to MHHS. These plans better utilize capacity from the west (MRHS can use more kids). Keeps WLHS walkers at WLHS. Poly 191 is closer to MHHS than Centennial.
6458			CentennialHS	1	worse than	6	1	7	Please consider Dunloggin balanced plans 1 & 2. Plan 1 suggests moving polygon 97 to MRHS. Plan 2 suggests moving polygon 191 to MHHS.	worse than	6	7			
6459		DunlogginMS	CentennialHS		worse than	4	7	1	The proposed move will split and devastate our neighborhood. Keep our kids together. Consider the proposed Dunloggin Balance plans.	worse than	1	4	7	Our first preference is to minimize moves. second is the feasibility study. Third is the proposed Dunloggin balance plans	This process lacks transparency and integrity. Very disappointing.
6460	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together. 6476	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	1		Thank you for accepting Scenario #17 and keeping polygon 147 with its current schools - CLES, Burleigh Manor, and Centennial High.	equal to	1				
6477		BurleighManorMS	CentennialHS	5	equal to	6			Thank you for recognizing our contiguous community with polygon 147. DRAFT 2 AAC PLAN IS BETTER.	equal to	7			Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together.	Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.
6478			CentennialHS	1	worse than	7	4			worse than	4	4			I'd like to recommend Dunloggin's Balanced Plans: 1.0 & 2.0 Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mt. Hebron (MHHS)
6479	CentennialLaneES	ClarksvilleMS	CentennialHS	5	equal to	2	7	4	AAC please move polygon 97 to Northfield ES and bring 2154 to CL ES. Though original objective for 97 to bring in cles is to have economic diversity, it defeats the purpose as most of resident of the chatam apt. are high earners. Needs to be fixed!!	equal to	5	12	8	#97 is not contributing much for FARM program, other communities like plum tree apt in 2154 and 1154 will serve the original purpose better. It brings more socio-economic diversity to the school. Keep up good work AAC!!	Thank you for not splitting core 1147, 2147, 156,147, 5147 CL communities. polygon 97 is neither contiguous community nor brings any diversity to school. Please consider moving to NF and bring another 2154 keeping feeder same.
6480	AtholtonES	HammondMS	HammondHS	4	equal to	1	6	12	For my area, we have no change in this draft plan, however I stress the importance of keeping kids with their feeder schools. Polygons 56, 1056, 2056, 3056 should not go to Lake Elkhorn and Wilde Lake HS as both are over crowded while HMS and OMMS aren't	worse than	1	6	4		Please consider keeping communities together. polygons 56, 1056, 2056, 3056 should go to OMMS/OHS or HMS HHS/AHS. Polygons 57, 1057, 2057 should go to HMS HHS/AHS. Thank you!
6481	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	6	It makes a lot of sense to keep 147, 2147, 5147 and 1156 all together as a community in Centennial Schools.	better than	4	6	7	Stopping using school redistricting as the cheapest way to resolve the school crowding issue. It hurts students, communities and families. The county can do better than this.	Stopping using school redistricting as the cheapest way to resolve the school crowding issue. The county can do better than this.
6482	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	5	7		The updated draft 2 is much better than the first draft. It took into consideration concerns from the citizens. Residents of polygon 147 are very happy to see 147 alloted back to CLES, Burleigh Manor, and Centennial HS.	better than	7				
6483	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	I am a resident of polygon 1150. I am deeply concerned about safety, transportation and distance to new high school. My child rides bike to current high school for about 3 miles from a bike route. But distance to new school is about 9 miles and there	worse than	4	6	6	I am a resident of polygon 1150. The distance to my child is more than doubled, especially with heavy downtown Columbia traffic. This is contrary to the most recent county bus schedule postpone plan, and split out Dunloggin community which has been es	Students at east side of route 29 shall go to WLHS instead, because the distance for them to CHS is much farther than us. Plus they can get on route 29 directly, arrive WLHS much easy than us. In order for them go to CHS, they have to cross Columbia
6484			CentennialHS	1	worse than	6	7		Please consider Dunloggins alternative plans. It allows the neighborhood to stay together which is important.	worse than	6			See above	See above
6485	PointersRunES			1	worse than	7	4		This current plan proposes that our neighborhood, Ashleigh Knolls, be split in two, with half attending one middle school and half attending another. This would make no sense from a transportation efficiency standpoint						
6486	CentennialLaneES		CentennialHS						Thank you for listening to the citizens concerns and keeping polygon 147 with its current schools. It would have been very hard for many children of polygon 147 to change schools again, as most of them recently started new schools about a year ago.	better than					
6487	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	2	This plan makes little sense when one considers that it causes undue disruption of existing neighborhoods. The boundaries seem very arbitrary and do not follow natural boundaries such as major highways or watercourses.	worse than	7	6	4	The draft plan does not maintain continuity and breaks up contiguous communities. Students are transported greater distances through our neighborhood to our current High School while our students are likewise transported to a further school. Rotten Plan!	
6488					worse than	7	4	6		better than				I am glad to see that 147 has been put back to Centennial Schools, demonstrating that the AAC members are considering Policy 6010 from all angles and decision making is not only based upon the numbers.	
6489		BurleighManorMS		5	equal to	3	4	8	The draft 2 is an excellent one for us because our kid can stay with her classmates and friends, and spend less time on travel to school as compared to the draft 1. We appreciate AAC members consider our feedback and proposed this more balanced draft.	better than	2	3	10		
6490	NorthfieldES			1	worse than	4	3	6	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)						

6491	NorthfieldES			1	worse than	7	4	1	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS).	worse than	7	4	1	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	Please keep Dunloggin together for the high school redistricting. We've been a longstanding established neighborhood for 50+ years. Doesn't make sense to redistrict us to Wilde Lake due to commute/traffic/safety concerns.
6492		DunlogginMS	CentennialHS	1	worse than	4	6	7	Please consider Dunloggin's balanced plans1.0 and 2.0. Plan 1.0 suggest moving polygon 97 from CHS to Marriott's Ridge High School Plan 2.0 suggests moving polygon from 191 from CHS to Mount Hebron High School	worse than	4	6	7	please consider Dunloggin's balanced plans1.0 and 2.0. Plan 1.0 suggest moving polygon 97 from CHS to Marriott's Ridge High School Plan 2.0 suggests moving polygon from 191 from CHS to Mount Hebron High School	I don't think it is in the best interest of the Kids to keep moving kids from school zone to school. For my area, Ellicott City, the kids should stay in a school within our city. Columbia is further, further from friends, community and family.
6493			CentennialHS	1	worse than	4	7	6	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	7	6	4	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS) Please keep DMS at CHS-transportation and community	My child can ride his bike home from sports/after school activities at CHS-he will not be able to do this at WL-too far/ traffic around the mall. Dunloggin and Gray Rock have a close community group of parents and children-JWC activities for families
6494	NorthfieldES		CentennialHS	1	worse than	4	7	6	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	2	4	7	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. 6495			CentennialHS	1	worse than	1	4	6	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	4	6	7	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	
6496	CentennialLaneES			4	better than	6	1	8	I feel AAC Draft 2 is better becauseit keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!	better than	2	4		With AAC Draft 2, Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. Another move in such a short time would be tough.	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.
6497			AtholtonHS		better than	6	13	9		better than						
6498		HammondMS	HammondHS	4	equal to	7	4	11	I support the AAC draft plan 2. Keeping communities together is of utmost importance to me.	equal to	7	4	12	The AAC draft plan 2 does not change my kids schools, however even the proposed changes with the Feasibility Study keep my children in their communities. I would rather not change schools at all, but understand the need for some movements.	I am supportive of either the AAC draft plan 2 or the Feasibility Study.
6499	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	no bike route to new school (WLHS), not safe riding bike on route 29, 175 and downtown Columbia	worse than	4	6	7	more than doubled distance, not safe	150, 1150, 4150, 219 to CHS, 100, 1100, 275, 101, 3101, 1101, 1102, 103, 102, 1103, 3191, 1191, 2191, 191 to WLHS
6500				1	worse than	4	6	7	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	4	6	1	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	Dunloggin's Balanced Plans 1.0 & 2.0 will strengthen feeds, utilize capacity, support safety and ease of transportation (preserving walkers) while minimizing impact to children and communities.
6501		BurleighManorMS			better than	4	6	7	Draft plan 2 brings back our community kids together	better than	4	6	7	Draft plan 2 keeps students in 147 going to the nearby schools, thus helps minimize Transportation costs and also allow for safe walking/biking.	Thank you AAC committee for your dedication and effort to make the HCPSS the best in the nation, for the kids, for the community!
6502	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	3			consider the dunloggin 1.0 and 2.0 alternativea	worse than					
6503	TriadelphiaRidgeES			4	equal to	6	4	12		better than	6	7	8		
6504	CentennialLaneES			4	equal to	1	4	7	Thank you for considering polygon 147 as part of the CLES.	better than	1	4	7	We really like the Feasibility study and I also like the draft plan 2 which is keeping our community together!	
6505	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6	7	3	We are part of a small group of River Hill area students that attend Atholton. From CMS, about 70 (around 30%) of my child's class went to AHS. Under the current AAC proposal, there would be less than 15% of CMS grads going to AHS, violating Pol. 6010.	worse than	6	7	4	Feasibility study sends all River Hill area kids to RHHS, much better. ACC splits River hill. Keeping us together is far cheaper than busing hundreds of kids from Wilde Lake, as proposed by ACC draft.The distance from our polygon to RHHS is equal to AHS.	Policy 6010 must be considered in making this decision. Wilde Lake students that can walk to school were denied the opportunity to stay there, which could violate 6010. Also, less than 15% of CMS students will go to AHS under ACC draft-another violation.
6506			WildeLakeHS	2	worse than	4	6	7		worse than	4	6			
6507	CentennialLaneES				better than	6	7	4	AAC Draft 2 keeps Elementary students from Crossing 108 to get to their school. It keeps long-standing Centennial / Old Annapolis Community streets connected to their community.	better than	3	4	7	AAC Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.	Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change.
6508				1	worse than	1	4	6	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	1	6	4	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	Dunloggin is a tight-knit community that fosters relationships between families north and south of Dunloggin Road. By splitting the community it will erode this treasure. Dunloggin's Balanced Plans 1.0 & 2.0 will preserve our community.
6509	TalbottSpringsES			4	equal to	11	9	2	Thank you for leaving the integrity of the Talbott Springs ES Community in tact in Draft 2	better than	2	11	9		Thank you for leaving the integrity of the Talbott Springs ES Community in tact in Draft 2
6510		DunlogginMS		1	worse than	4	6	7	This AAC draft plan is very inconvenient and has no purpose whatsoever regarding the current school attendance areas from large unworthy changes and splitting communities to make unreasonable formations towards different schools. It is unfair and unjust.	worse than	4	13	7	The Feasibility Study is much stronger and better especially towards my polygon 1150. The new AAC draft plan is outrageous, where communities further away from schools are being permitted there whereas homes such as mine are being forced to go elsewhere.	If the AAC plan were to become approved (which would be insane), it would take twice as long for me to go to school everyday, and frankly, students have to wake up early enough in the day. Wouldn't it make more sense to place students in closer schools??
6511			CentennialHS	1	worse than	6	4	1	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	6	4	1	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	
6512		DunlogginMS			worse than	4	13	7	This unreasonable plan is causing many disruptions in our communities due to the outrageous changes that have no sense whatsoever in its plans. The current school attendance areas are much more reliable and safe to trust.The plan is not beneficial at all.	worse than	4	7	13	The AAC plan was made from unreasonable members who did not consider the impacts they would cause, who think that this change is beneficial to the Howard county communities where really, the Feasibility Study is much more reliable towards students.	With the approval of the AAC draft plan, the drive to school would take more than twice as long, causing my deprived sleep and unwelcoming behaviors. I strongly hope that the AAC draft plan does NOT take place for the sakes of myself and my neighbors.
6513	ClemensCrossing	LimeKilnMS	AtholtonHS	2	better than	14	14	14	Overall reasonable plan but in the long term worse than the Feasibility Study Plan	worse than	1	8	13	It made sense to move polygon 127 and others around US32 to River Hill high from Atholton High. I believe with future growth in downtown Columbia, Atholton High will need redistricting again soon.	

6514	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	keep dunloggin together and community stability; maintain contiguous communities or neighborhoods	worse than	4	6	6	current CHS is accessible by bike//running/foot; much far from WLHS (proposed) and have to riding bike on highway 29 and 175	citizen plan: 150, 1150, 4150, 219 remain at CHS; 97 to MRHS
6515	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	more than doubled distance, not safe. Split Dunloggin community	worse than	4	7	7	more than doubled distance, not safe riding bike on highway 29 and 175. Split Dunloggin community	citizen plan: 150, 1150, 4150, 219 remain at CHS; 97 to MRHS
6516	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	4	6	Thank you for taking into consideration needs for ALL old annapolis communities 147,2147,1156,5147. We are less than 1.5 miles from CHS/BMMS and are a diverse neighbourhood	equal to	7	4	9	AAC Draft 2 plan agrees to feasibility study recommendations for old annapolis neighborhood.	
6517		PatapscoMS	MtHebronHS	1	worse than	2	4	7	The AAC draft is impractical for MANY reasons - taking WALKERS away from the high school at the front of its community that it is named after; redistricting a polygon that was just redistricted FOUR years ago; dividing a community.	worse than	4	7	8	It tries to right the wrong that was made 4 yrs ago by redistricting 2161 4 years ago. Keeping students together should not outweigh disadvantages of sending current walkers 7 miles away!!!	Leave Mt. Hebron alone. Wait until the new school is built in the east!!! NO MORE DOMINO EFFECT!!

6602			CentennialHS	4	equal to	6	4		better than previous draft, more logical to keep generations of kids from 147 at the same Centennial schools they have always attended	equal to					Keeping 147 in Centennial is the only logical plan, as it provides a natural loop allowing right hand turns and better traffic flow. These students have attended Centennial for generations and it is good to continue.
6603			AtholtonHS	5						better than	1	10			
6604			CentennialHS	1	worse than	4	13	13	If over-capacity is a serious concern, the AAC should move faster growing polygons out of CHS. Taking kids out of schools especially high schools can impact them negatively on their social skills and applications for colleges and universities.	worse than	13	13	13	Polygons 2154,154,1154,214 is a place where their are many people's worship,library,sport facilities, and morein those areas. The kids will be isolated from both the CHS and MRHS communities once they go in high school.	This plan is a just a big problem because it really excludes all the kids from both communities leaving them to hurt their academic and social skills which are required for college and universities applications.
6605			HowardHS	1	worse than	13	8	2	Look at http://www.hcpss.org/f/schoolplanning/aac/hs-draft-two-scenario-map.pdf please Nothing is that twisted (gerrymandered) except the state of Maryland voting Many assignments make no sense How does 2011 go to Atholton? 2093 to Hebron? 150 to Wilde	worse than				Look at http://www.hcpss.org/f/schoolplanning/aac/hs-draft-two-scenario-map.pdf please Nothing is that twisted (gerrymandered) except the state of Maryland voting Many assignments make no sense How does 2011 go to Atholton? 2093 to Hebron? 150 to Wilde	Look at http://www.hcpss.org/f/schoolplanning/aac/hs-draft-two-scenario-map.pdf please Nothing is that twisted (gerrymandered) except the state of Maryland voting Many assignments make no sense How does 2011 go to Atholton? 2093 to Hebron? 150 to Wilde
6606	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP

6607	TriadelphiaRidgeES			2	worse than	6	7		Our neighborhood is isolated from the surrounding polygons with the proposed move from TRES to BPES. It is also in the opposite direction of most commutes in the area. The combination of BPES, FQMS, and GHS simply does not make sense.					I do not know enough about the Feasibility Study Plan to comment.	Please restrict this redistricting proposal to the east, where it is most needed and will have the most positive impact. If it's not possible, allow elementary students request waivers considering the family situation.
6608	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6609	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6610	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	3	This plan divides the Dunloggin neighborhood, sending children to schools too far away. The remaining school district are too spread out. Kids on FARM are being moved at a higher rate than those that are not	worse than	7	4	3	Feasibility study was prepared by experts in the field, the draft plans seem to appease residents that make the most noise	Please consider Dunloggin proposals 1 and 2. They move fewer students while addressing school utilization at the same time
6611	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	6	7	4	Our child would have to go to three different schools (AES, LEMS, WLHS), with only about 49 other students moving with him, and would attend a high school further in distance from our home than three other schools.	worse than	6	7	4	The feasibility study would keep us with a local high school and provide the consistency of AES and AHS. It also sends our entire neighborhood children, attending AES, to LEMS rather than separating our children into two different schools.	We chose this neighborhood one year ago when we were looking to purchase a house because we wanted to raise our children in a community where they could develop close friendships with their neighbors and attend school together at AES, OMMS, OMHS.
6612	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	5	Thank you for moving 147 back to the original plan. My child has signed up for some special programs at Centennial lane like Its Academic and Orchestra. His team members are also in this school district. Thank you for letting him stay with his friends.	better than	6	4	7	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan	I agree with the committee. Having elementary school kids cross Rt 108 to go four miles in a bus. It creates a dangerous situation. Also moving all the three schools for the community severely affects the community and the many kids.
6613	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than				56,1056, 2056 &3056 are a small feed that should stay where they currently are and in the next redistricting when Hammond HS has more space (new hs taking students) move all of aes polygons to aes - Hammond middle - Hammond high	worse than				HS students in 56,1056,2056 &3056 can bike/walk to omhs, atholton hs or hammond hs. Wildelake is too far for them to go.	
6614		DunlogginMS	CentennialHS	1	worse than	7	6	4	For over 50 yrs Dunloggin has been a well-defined neighborhood.Communities should be kept intact and other adjustments made. Dunloggin is older and more established than other communities that are being left intact under the policy of community stability.	worse than	7	6	4	The AAC Draft Plan transfers to Dunloggin what the other communities objected to under the Feasibility Study. The Feasibility Study prepared by a team of experts over the course of a deliberative study did NOT recommend DUNLOGGIN to be SPLIT.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. Thank you!
6615	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	7	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	better than	1	6	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	
6616	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6617	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	worse than	6	7	4	Please consider Dunloggin's Balanced Plans 1.0 & 2.0. Plan 1.0 suggests moving polygon 97 from CHS to Marriotts Ridge (MRHS) Plan 2.0 suggests moving polygon 191 from CHS to Mount Hebron (MHHS)	
6618	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6619	SwansfieldES	WildeLakeMS	WildeLakeHS	4	equal to	3	5	7	I agree with AAC on Draft 2. They have done good job keeping each region and community together. As a proud columbia family it will be helpful keep downtown columbia together. For the sake of community keep columbia kids in columbia.	equal to	1	7	7	Please each Town together. Columbia kids should go to Columbia school, Ellicott city should go to Ellicott city. Sense of community is important for kids. Please take in consideration.	Contiguous Neighborhood is important !!
6620	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	3	The new school zones for Centennial HS and Wilde Lake HS look like gerrymandered Congressional districts. It will take 20 minutes in no traffic to drive across it, and not across farms like in Western HoCo. School districts should be compact.	worse than	7	4	1	You have split the Dunloggin community in half in favor of new neighborhoods barely built. This community has gone to the same schools for 60 years. Wilde Lake is too far away. There are less AP classes and no Humanities program there.	Please consider the Dunloggin Balanced Proposals 1.0 and 2.0 that meet many of the 6010 qualification and move less children. Why would you send kids from further away to Centennial and bus our kids so far away. Save on transportation costs too please!
6621	CentennialLaneES				better than	1	2	3	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	4	5	6	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools
6622		DunlogginMS	CentennialHS	1	worse than	7	6	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4	3	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	
6623	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	14	14	Thank you AAC for rejoining polygon 147 to contention community. My son can bike to centennial HS now	better than	7	14	14	I was worry that polygon was redistricted to Wild Lake. my son will drive soon and he has to drive over 5 mile on 108. AAC rejoined to centennial this draft 2 and my son drive less than one local mile which is a lot safer than before plan. Thank you AAC	Draft 2 provides much safer to polygon 147 kids. Thank you AAC for the consideration.
6624				4	better than	4	7	6	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	better than	7	4	6	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain
6625			CentennialHS	1	worse than	4	10	6	Under the AAC draft plan, children in polygons 2154, 154, 1154, 214 will become a minority among strangers for their 4 years of high school. This will make it difficult for our children to be elected to leadership positions in high school.	equal to	4	6	13		The longer commute time involved in the redistricting (10 minutes to CHS vs 40 minutes to MRHS) will cause our children to lose enough sleeping time and make it extremely difficult for them to participate in extracurricular activities.

6626	CentennialLaneES			4	better than	1	2	3	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES.	equal to	5	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES.	
6627	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	3	Our kids who live in zone 147 bike or walk to CHS & BMMS. Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to would mean sacrificing money for other plans.	better than	4	6	7	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan	I agree with the committee that having elementary school kids cross a major highway is not a good idea. Also changing all three schools is not good for the community or kids. Based on the numbers the CLES numbers will even off in a couple of years.
6628			CentennialHS	1	worse than	14			I hope that my child can be able to attend the current schools he is going to. This is because he has already made a lot of friends and have adapted to this school and would be hard for him to adapt to a new school	equal to	14				
6629	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	AAC unnecessarily busses kids all over the county without much reason. Polygon 1189 should stay at Pointers Run. It's part of the Pointers Run community.	worse than	4	6	7	Feasibility Study does much better job of keeping community together and not busing kids away from their village and community. 1189 should stay at PRES. Why are kids being bused to PRES then others bused out?	Keep communities together and let polygon 1189 stay in PRES where it belongs.
6630	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7		worse than	1	6	7		
6631			CentennialHS		worse than	14			The draft separates our children from the current community and society that they are living and adapting in. The friendship of our kids will be broken up and lost.	worse than	14				
6632			CentennialHS	5	better than	1			Polygon 147 should stay with current schools. My child cannot return by himself from after school activities if he has to cross 108.	better than	1	7			
6633	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	6	Please consider Dunloggin:Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to the OSP.	worse than	4	6	7	Please consider Dunloggin:Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to the OSP.	Please consider Dunloggin:Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to the OSP.
6634	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	13	9	5	this plan disturbs demographics of our community, moves us to schools that do not have same programs as our current ones. capacity at LFES is due to lack of enrollment from affluent areas like 175,1175,2175 causing impact to 142,1143,143	equal to	13	9	5	low enrollment at LFES doesnt need to be fulfilled by moving students, enrollment from 175/1175/2175 needs to increase	no redistricting for columbia west
6635			CentennialHS	1	worse than	4	6	7	Please consider Dunloggin: balanced plan 1.0 and Dunloggin: balanced plan 2.0 as submitted to OSP.	worse than	4	6	7	Please considerDunloggin: balances plan 1.0 and Dunloggin balanced plan 2.0 as submitted to OSP.	
6636	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools; keeping kids safety from crossing 108	better than	7	2	3	THANK YOU for keeping the Old Annapolis/ Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	To bring util ratios in elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds.
6637	NorthfieldES	DunlogginMS		1	worse than	7	4	6		worse than	7	4	6		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6638			CentennialHS	1	worse than	4	7	6	The longer transportation time involved in the redistricting (10 minutes to CHS vs 40 minutes to MRHS) will cause our child to lose sleep and make it extremely difficult for them to participate in the afterschool activities. Polygons 2154, 154,1154,214.	equal to	4	7	6	I think my area (Polygons 2154, 154,1154,214.) should have reassigned to Centennial High School.	I suggest this redistrict plan should be delayed and reconsidered for the students academic success.
6639	NorthfieldES	DunlogginMS		1	worse than	4	6	7		worse than	6	4	7		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6640					worse than	6	4	7		worse than	6	4	7		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6641			CentennialHS	1	worse than	4	6	1		worse than	6	4	13		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6642	CentennialLaneES				better than	6	7	4	AAC Draft 2 plan is better, as my children, who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108.	better than	6	7	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES, as this would eliminate a major island, balance FARMS ratios and maintain feeds	The Draft 2 AAC Plan did an amazing job keeping at keeping communities contiguous.
6643	NorthfieldES	DunlogginMS		1	worse than	7	4	6		worse than	6	4	7		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6644	NorthfieldES	DunlogginMS	CentennialHS		worse than	7	6	5		worse than	4	5	6		
6645			CentennialHS	1	worse than	4	7	6	Please consider Dunloggin : Balance Plan 1.0 and Dunloggin : Balance Plan 2.0 as submitted to OST	worse than	4	6	7	Please consider Dunloggin: Plan 1.0 and Dunloggin Balance Plan 2.0 as submitted to OST.	
6646			CentennialHS	1	worse than	4	7	10	The draft plan separates our school-aged children(in polygons 2154, 154,1154,214) from their established communities south of route of 40 and east of Centennial Lane. AAC draft plan will put those polygons on island, isolated from both CHS and MRHS.	worse than	1	4	6	Under the current plan, children in Plumbtree/Knob Hill community(2154,154,1154,214) will spend nine years with one group of children and moved to the community with no natural connection to the MRHS community. Please let us stay in CHS.	
6647		BurleighManorMS		4	equal to	3	4	6	Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	3	4	6	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	
6648	CentennialLaneES			4	equal to	4	7	8	Thank you for keeping Polygon 147 with the Old Annapolis communities to continue to attend Centennial schools, and avoid the negative impact of isolating Polygon 147 from the adjacent communities.	equal to	4	7	8	Polygon 147 is within walking distance, and most our children do walk, to Centennial district schools.	
6649		BurleighManorMS			worse than	4	7	13		worse than	4	7	14		
6650	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	3	Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces transportation cost. Thank you AAC for keeping 147 kids to the schools within their walking/biking distance.	better than	6	4	7	The AAC latest draft plan did an excellent job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	To bring utili ratios in elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds.

6651	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. Dunloggin is an established tight-knit community and should be kept together. To keep student together from one school to next please keep Dunlogin at CHS!
6652		BurleighManorMS		4	equal to	4	7	8	Thank you for not redistricting Polygon 147 and allow us to continue forming our community with the Old Annapolis Communities. Re-districting would have meant isolating Polygon 147 from our adjacent communities.	equal to	8	4	10	Thank you for not subjecting Polygon 147 to the drastic and significant impact of moving all three schools and be isolated from the Old Annapolis neighborhoods where we belong.	
6653			CentennialHS	5	equal to	4				equal to	10				I recommend evaluating moving Polygon 97 from CLES to NES to alleviate utilization.
6654	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	6	My kids who live in polygon 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan (draft 2) since it removes the need for my kids to cross a major highway 108.	equal to	7	4	1	My kids who live in polygon 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan (draft 2) since it removes the need for my kids to cross a major highway 108.	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.
6655	CentennialLaneES			4	equal to	4	8	6		equal to	4	8	7		To reduce utilization in CLES, I recommend AAC evaluate moving Polygon 97 from CLES to NES.
6656	ClemensCrossing	WildeLakeMS		1	equal to	1	14	14	This plan does not solve capacity problems. What is the point?	worse than	1	2	9	The Feasibility study was a good plan because it solved capacity problems. This plan is not a good plan because it creates churn without solving anything.	
6657	CentennialLaneES			5	equal to	4				equal to	4				To alleviate utilization in CLES, I recommend AAC evaluate moving Polygon 97 from CLES to NES.
6658	CentennialLaneES				equal to	6	1	4	Referring to the most recent proposed AAC draft plan #2.	better than	6	1	4		
6659	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	9	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	equal to	4	9	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	
6660	CentennialLaneES			4	equal to	4			Keeping Polygon 147 in CLES avoid the need for children to cross the busy Rt 108 and allow our community to continue to maintain our roots with the Old Annapolis communities.	equal to	4			Polygon 147 is within walking distance to all Centennial district schools and this can help with future bus routes planning to save operating budgets.	
6661		BurleighManorMS		4	equal to	4	8	7	Thank you for keeping Polygon 147 where we belong in the Centennial school district. Re-districting Polygon 147 would have resulted in isolation of Polygon 147 from the adjacent communities.	equal to	4	7	10		
6662	CentennialLaneES		CentennialHS	5	equal to	7	6	3	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	equal to	6	7	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	Thank you for keeping the community together in the second draft 2
6663	CentennialLaneES			5	better than	7	6	4	The utilization ratios are well balanced with the AAC draft plan.	better than	7	6	4	Fewer students have to be moved in the AAC draft plan.	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island and balance FARMS ratios)
6664	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	Kids from 147 play with kids from 1156. They then go to CLES, BMMS and CHS with their lifelong friends. Thank you for keeping our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	better than	4	6	7	The AAC latest draft plan did an amazing job keeping communities together. Thank you!	To bring utilization ratios in ES in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds.
6665			CentennialHS	4	equal to	4	8	7	Keeping Polygon 147 in Centennial district avoids the drastic change to our small communities from being isolated and needing to change all the schools.	equal to	4	8	3		
6666	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	8	7	4	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	6	4	3	Our kids who live in zone 147 bike or walk to CHS or BMMS. Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to CHS/ BMMS would mean sacrificing money for other plans	Thank you for considering the safety of our little kids and not making them travel across 108. Keeping Centennial lake community together by making them go to the same schools helps the kids build a great friendship and bond.
6667				5	better than	4	7	2	THANK YOU for keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in Draft Plan #2.	better than	4	7	2		To bring utilization ratios in ES in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds)
6668	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. Suggested plans will strengthen feeds, utilize capacity, support safety and ease of transportation (preserving walkers) while minimizing impact to children.	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. Suggested plans will strengthen feeds, utilize capacity, support safety and ease of transportation (preserving walkers) while minimizing impact to children.	Please consider these Dunloggin Balanced Plans as a considerable amount of time and effort by Dunloggin residents was put into developing these alternatives with very limited time provided by the county to do so.
6669	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	3	6	4	AAC Draft 2 - Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S.	equal to	3	7	6	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).
6670				1	worse than	3	6	14	I think moving the river road and Howard lodge children has issues. The current schools are within three miles from our home. High school age driving down traffic on route 32 is bad enough and to make them drive to Glenelg is scary until the road fixed.					With a new neighborhood coming in it might allow the kids to stay off route 32 to get to Marriotts ridge. This would be safer.	
6671			CentennialHS	4	equal to	4	10	7	My child bikes to Centennial HS and re-districting would have meant he needs to cross the busy Rt108.	equal to	4	7	8	Polygon 147 is part of the Old Annapolis communities that have attended Centennial schools for generations. Thank you for allowing us to continue with our bond.	

6672	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. Suggested plans will strengthen feeds, utilize capacity, support safety and ease of transportation (preserving walkers) while minimizing impact to children.	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. This helps us to keep centennial families together. Thank you	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.
6727			CentennialHS		equal to	2	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	equal to	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	feeds).
6728	NorthfieldES	DunlogginMS		1	worse than	7	6	4	Proposed plan STILL splits our Dunloggin neighborhood, which has been established and recognized for over 50 years. Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP on 8/18 as viable/healthy alternatives.	worse than	7	4	2	If Feasibility Study Plan was not followed in order to maintain the continuity of the Gray Rock neighborhood, why then is our Dunloggin neighborhood being split? Doesn't this too go against the 6010 Policy B.2 (Community Stability)??	Other concern is redistricting that will occur in a few years with HS #13 and/or the vast development of downtown Columbia. I have rising 4th & 7th graders currently and I am worried that they will be redistricted to different high schools in the end!
6729	CentennialLaneES			4	equal to	1	2	4		equal to	7	14	14		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES;this would eliminate a major island, balance FARMS ratios and maintain feeds
6730	NorthfieldES			1	worse than	6	4	1		worse than	1	4	6		
6731	LongfellowES	HarpersChoiceMS	WildeLakeHS	4	equal to	9	12	7	Draft 2 certainly is better than 1!! The change from wilde lake to river HILL makes little sense. Wilde Lake is our community. Preserve the sense of community. It make no sense to send local kids to River Hill and bring kids from Ellicott City.	worse than	12	4	9	Don't bus our kids to other region, with different demographics!! kids are not social experiment. Keep the regions together!!	i hope AAC plans aligns with feasibility study!!!
6732		BurleighManorMS	CentennialHS	5	equal to	6				better than					
6733		BurleighManorMS		3	equal to	7	14	14		equal to	7	14	14		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES; this would eliminate a major island, balance FARMS ratios and maintain feeds
6734	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	2	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	4	2	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	

6735	ClemensCrossing	HarpersChoiceMS	WildeLakeHS	4	better than	9	1		I believe this plan does a better job spreading the pain"so Atholton does not have to move as many of its students. I do hope	however	that the BOE will allow 5th Graders to finish out at the schools where they have attended since Kindergarten."	1	9	1	6
6736		BurleighManorMS	CentennialHS	5	equal to	4	8	7	My kids live in polygon 147 usually walk to CHS and BMM. Especially, my high school son can walk back to home after tons of after school activities.It is good for their health, good for our environment, and reduces teen drivers on the road & traffic jam.	equal to	3	5	9	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	The AAC DRAFT 2 did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 unchanged and prevents it from sending 1.6mils CLES kids across a major road (108) to 3.7 mils LFES. Get distance data house to school from Google map.
6737	CentennialLaneES			3	equal to	9	14	14		equal to	9	14	14		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES;this would eliminate a major island, balance FARMS ratios and maintain feeds
6738	NorthfieldES			1	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Plan 2.0 as submitted to OSP.	worse than	6	7	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Plan 2.0 as submitted to OSP.	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Plan 2.0 as submitted to OSP.
6739	NorthfieldES			1	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6740				1	worse than	4	6	10	If over-capacity is a serious concern, the AAC should move faster growing polygons out of CHS. The bus route from polygon 97 west on rout 40 to MRHS is more convenient than the route from Polygon 2154,154,1154,214.	worse than	6	4	7		I have 2 daughters will attend 2 different high school if the plan will implant next year. At least let the trailing sibling stay and finish high school.
6741	CentennialLaneES			5	better than	4	8	1	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	better than	4	1	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
6742	PointersRunES	LimeKilnMS	AtholtonHS	1	better than	6				worse than	6				
6743	CentennialLaneES			4	equal to	7	14	14		equal to	7				We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
6744		BurleighManorMS	CentennialHS	4	equal to	4	6	7	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	9	12	2	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	Thank you to keep Centennial Park (polygon 147) in Centennial school district.
6745	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	6				worse than					
6746	CentennialLaneES				better than	4	1	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 1154 & 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds)	better than	7	4	8		
6747	CentennialLaneES		CentennialHS	5	better than	3	4	10		better than	1	2	3		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds.
6748	PointersRunES		AtholtonHS	3	better than	6	9	3		better than	7				
6749	ClarksvilleES	ClarksvilleMS		1	worse than	7	4	13		worse than	7	4	13		
6750	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	6	4	7	RHHS will be overflowed with new enrollment from Wildlake HS.	worse than	4	6	6	The value for the education is different between Wild lake and Riverhill high school. New plan will induce big conflicts among all the students.	
6751	CentennialLaneES	BurleighManorMS		1	worse than	4	7			worse than	7	13		AAC Draft plan is disruptive to neighborhoods, will increase transportation issues, and is extremely detrimental to our children.	
6752	PointersRunES			2	equal to	7	6	8	Appreciate children from PRES moving together to CMS, but concerned about the break up to Atholton. In addition, Atholton has the largest number of school feeding into it which suggest further disruption to student and their community.	worse than	1	6	7	The feasibility has the students move from Elementary to high school together which is ideal. I recommend any changes try to minimize separating children moving through their primary education.	
6753	CentennialLaneES	ClarksvilleMS	CentennialHS	5	equal to	12	5	4	Keeping All the centennial communities for all the schools are important, because of all the collaboration and mentoring between HS/MS/ES. My kids benefit greatly from such programs. Great to see draft #2 kept polygon 147 in centennial.	equal to	4	8	6	Polygon 147 is back to CL schools!! Great job AAC!! My kids ride to MS and almost all the kids from HS either walk or bike to CL HS. Can't even imagine kids crossing major highway (108) and going to WL HS/MS. For kids sake keep 147 in CL schools!!	I have no idea how things got so wrong that polygon 147 ended up in WL and longfellow!! Totally wrong move but AAC came through and see the correct path. This polygon has no population growth, CL schools can go about 100% with polygon 97 out of CL.
6754	CentennialLaneES				equal to				My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108.	equal to				Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 mile	
6755	NorthfieldES	DunlogginMS		1	worse than	6	7	4	The AAC draft plan will destroy the Dunloggin community. The community has put forward two strong alternative plans: Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. Please consider them.	worse than	6	7	4	The Feasibility Study was a reasonable compromise for a bad situation -- no planned expansion of the high schools in the north. It is far better than the AAC draft plan.	AAC: please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP. If we lose our community, we have lost the feeling that this place is our home. Thank you for your consideration.

6756	CentennialLaneES									To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain						
6757	PointersRunES	LimeKilnMS	AtholtonHS		better than	3				better than	7	9				
6758	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	2	2	2		better than	2	2	2			
6759	PointersRunES	LimeKilnMS	AtholtonHS	3	better than	6	7	4		worse than	2	6	4			
6760	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	The AAC plan cuts Dunloggin in half, using no natural boundary. A community comes together around its kids and school. How can the AAC be allowed to destroy our community and sense of home? This is so horrible.	worse than	6	7	4	The Feasibility Study was so much more reasonable than the AAC plan. The AAC plan is not well thought out at all.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.
6761	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	13	4	5	Keep columbia schools together, programs run at columbia schools are not available in new schools. moving non columbia students to this area will cause imbalance in FARM and academic activities. Walk zone kids can't go to far schools.	worse than	9	4	1	moving students between columbia west schools should suffice towards utilization concerns. moving kids west and filling vacancy from east is not long term beneficial.	keep columbia kids together and do not imbalance socio-economic diversity in our area -3143,1268,268
6762	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	1	2	9	The plan is biased and only based on parents who are upset with the feasibility plan and how it affects them personally and not the community and education system as a whole. We should listen to families who can look independently.	worse than	1	2	6	I prefer the feasibility plan. I feel the BOE spent a lot of time and resources to improve the school system long term for Howard County. I feel the AAC is just a bunch of parents only looking out for their own kids in forming a plan. It is biased.	
6763	CentennialLaneES	ClarksvilleMS	CentennialHS	5	equal to	1	6	7	Keep Ellicott City into Ellicott City!! Bringing polygon 147 to CL is right move. If polygon 97 goes to NS ES; polygon 2154 and 276 move to CL ES to balance utilization and FARM program, centennial communities can be saved. Good work AAC.	equal to	1	9	8	polygon 147 residents moved in 1/2 years. Moving them again is harsh! This will literally means houses across old annpolis rd going to two completely separate schools. What will that do to the neighborhood. Thanks for saving this community!!Draft 2 works	AAC made right decision by putting 147 back to ellicott city, stick with it. Feasibility study supports you, residents supports you, school and community supports you.
6764	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	3	4	AAC draft 2 plan addresses safety concerns for kids crossing busy Rt108 for school, ensures kids have same friends in neighbor community - 147, 5147,1156. Reduces cost for moving kids 4 miles away and kids able to bike to school.	equal to	7	5	9	Draft 2 plan maintains diversity in neighborhood, keep old annapolis polygons together and agrees to feasibility plan.	
6765		BurleighManorMS		4	better than	7	4	1	Draft 2 returned polygon 147 neighborhoods to Centennial/Old Annapolis Rd district (no other nearby neighborhoods moved). Centennial schools closest, with Centennial Overlook within walking distance (< 1 mile). Neighborhoods isolated from Longfellow ES.	equal to	1	7	8	Both study and AAC plan balance utilization, but feasibility study more consistent with moving students west and north. Wilde Lake HS should be left to town-center development and as relief for eastern schools, like Oakland Mills and Hammond.	147 most sense in Centennial due to walk proximity and keeping Old Annapolis corridor together. In draft 2, Centennial Overlook students don't have to change schools twice in 2-3 years nor all 3 levels. Please maintain polygon 147 in Centennial schools.
6766	BryantWoodsES	WildeLakeMS	WildeLakeHS	1	worse than	13	7	1	The draft plan moves us without considering new planned construction in area which will meet the utilization target without causing so much disruption for kids and their families. kids who can walk to school are going far, FARM is in trouble.	worse than	13	1	6	our friends will stay in Wilde lake but some of us will go west. plan breaks columbia west and we oppose it	
6767	TalbottSpringsES			4	equal to	12	9	5	There is no change to current assignments for my neighborhood. Myself (and other Hopewell families I have spoken with) do not agree with the OMCA response that Hopewell be moved to SFES. We wish to remain at TSES.	better than	12	9	5	The draft is FAR better because it does not divide Hopewell in half for ES and send us to west Columbia for HS. The Feasibility study was drastic where draft 2 is far more subtle. I am hopeful that new future TSES capacity will allow Hopewell to stay.	The TSES feed to LEMS is (in the AAC data) is 42 students or 7.3% of the LEMS population.This is the smallest ES to MS feed in the county by % and number. All other students at TSES proceed to OMMS. Please consider sending Hopewell to OMMS with TSES peers
6768	CentennialLaneES			4	equal to	1	4	6	Keeping polygon 147 help my kids to stay with their friend. Polygon 147 community has dedicate lot of time and activity towards betterment of our school and community. I'm happy to stay united.	equal to	5	3	4	Font hill and Centennial kids are at walking distance from all three school system. I'm happy that AAC has decided to keep us all together.	Having Polygon 97 removed will help all the other community members who live in the proximity of the CLES, BMMS, and CLHS together.
6769														T	
6770			CentennialHS	1	worse than	13	13	13	The longer transportation time will cause my daughter and friends to lose sleep and it difficult for them to participate in after school. This will affect their social and academic life and also college entrance.	equal to	13	13	13	The longer transportation time will cause my daughter and friends to lose sleep and it difficult for them to participate in after school. This will affect their social and academic life and also college entrance.	Let them stay here for their bright future.
6771	CentennialLaneES	BurleighManorMS		4	better than	4	7	9	Thank you for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood together. We are under 1.5 miles from CHS/BMMS and are a diversed community that support the CHS school district.	better than	7	4	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan(Draft 2) since it removes the need for my kids to cross a major highway 108	
6772	RockburnES	BonnieBranchMS	HowardHS	1	worse than	3	6	7	Want polygon #91 to be part of ilchester ES, Bonnie Branch MS & Howard High to keep the closer communities together & near to the schools.	worse than	1	3	7	Want polygon #91 to be part of ilchester ES, Bonnie Branch MS & Howard High to keep the closer communities together & near to the schools.	
6773	RockburnES	BonnieBranchMS	HowardHS	1	worse than	4	7	6	polygon #91 recommends to get ilchester ES, Bonnie Branch MS & Howard High to keep the closer communities together & near to the schools.	worse than	1	4	7

6781															
6782	PointersRunES	ClarksvilleMS	AtholtonHS	1	worse than	7	13	4	1190 and 190 are together and should stay together. The kids use the same bus stop today. Why separate them out. It's one community	worse than	4	7	2	Distance to school is horrible in many areas if the county.	Keep 1190 and 190 together.
6783			HowardHS	5	equal to	6	7		The original plan seems very short sighted. The fact that impacted families would have their children go to different high schools is absurd and illustrative of how unrealistic the plan is as written.	better than	6	7	8	The AAC plan addresses walkers, feeds and contiguous communities better than the original plan. This plan keeps Lyndwood (87, 2087 & 3087) at Howard along with their neighboring communities. Keeping more students together ES-MS-HS.	The plan still needs to address trailing siblings. At a minimum, families that would potentially have their children go to different high schools need the option to have all siblings attend the same school, even if that requires self transportation.
6784		DunlogginMS		1	worse than	7	6	4	This plan would sever the friendships between my kids & their neighborhood friends. It disrupts the community and chips away at what is precious about living where we do - our shared experience. I also have safety concerns with more kids on buses.	worse than	7	6	4	This plan is contrary to 6010 goals - it fractures our community. Howard County is known for its excellent schools and sense of community - implementing this policy will have long term ripple effects that negatively impact our excellent reputation.	My boys are in 2 households (in Montgomery County and Dunloggin, Howard County). I have worked really hard for them to have a sense of community despite the back and forth, primarily through the neighborhood schools. Please keep the community intact.
6785	CentennialLaneES			5	better than	4	6	7	My kid who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	better than	1	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios

Please see the Dunloggin balanced Plans 1.0 and 2.0 that were submitted by SJCA. Thank you!
6794	NorthfieldES			1	worse than	4	6	7	Increased transportation costs; increased traffic congestion to multiple communities; disrupt feeder schools; separate children; disrupt established neighborhoods; diminish the number of walkers; do not follow 6010 closely. It's not ALL about capacity.	worse than	4	6	7	The AAC plan increases student disruption, increases highway congestion unnecessarily, and disrupts established neighborhoods.	Use the Dunloggin Proposals of : Dunloggin: A Balanced Plan 1.0" or "Dunloggin: A Balanced Plan 2.0" They both make logical
6795			CentennialHS	1	worse than	4	7	6	Please consider Dunloggin Balaced 1.0 plan and Dunloggin 2.0 plan submitted to OSP.	worse than	7	4	6	Please consider Dunloggin Balaced 1.0 plan and Dunloggin 2.0 plan submitted to OSP.	Please consider Dunloggin Balaced 1.0 plan and Dunloggin 2.0 plan submitted to OSP.
6796	ManorWoodsES			2							6	7	10	The community (Polygons 179/1179) recommend that our children attend West Friendship ES, Mount View MS, and Marriotts Ridge HS instead of Triadelphia Ridge ES, Folly Quarter MS, and River Hill HS.	Please see an email sent to Schoolplanning@hcpss.org on 8/19/17 providing further explanation and details on this recommendation.
6797			CentennialHS	1	worse than	6	7		Please consider Dunloggin's plan 1 and 2. It will allow Dunloggins neighborhood to remain intact so all the kids can go to the same high school. Splitting our neighborhood so kids go to different high schools is not fair to theses kids	worse than	7			See above	See above
6798	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. The Attendance Area Committee should evaluate the Dunloggin Balance Plans which involve moving poly 97 to MRHS or 191 to MHHS	worse than	6	3	4		
6799			CentennialHS	1	worse than	6	7		Please consider dunloggin's proposed plan 1 and 2.	worse than	6			Please consider Dunloggins proposed plans 1 and 2	
6800	TriadelphiaRidgeES			1	worse than	13	7	6	Please don't split Folly Quarter communities. Keep the polygon 183,1183,2183 with River Hill HS together with all communities on Folly Quarter RD to minimize the impact on community stability, and have better feeds to bus routes.	equal to	13	7	6	Both plans negatively impact me equally	The AAC draft plan as well as the Feasibility Study Plan both negatively impacts my family, educationally, and financially. Our family moved here, just 4 years ago to WHC specifically for the Triadelphia Ridge, Folly Quarter, River Hill triad.
6801	WestFriendshipES			2	worse than	4	13		AAC moves polygon 232 for ES, MS and HS. All 3 are substantially farther than our current schools, but especially the HS. We are concerned about bus time and increased traffic down the 32 corridor.	worse than	4			In the feasibility study, my polygon (232) was reassigned for Elementary only. AAC has reassigned it for ES, MS, and HS. All 3, but especially the HS change would result in much lengthier bus rides.	

6802	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	1	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP						
6803			AtholtonHS	5	worse than	13	14	14		better than	1	10	14		
6804	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	10	6		worse than	1	4	2	Please consider Dunloggin balanced plan 1.0 – and Dunloggin balanced plan 2.0 plan As submitted to OSP	Please consider Dunloggin balanced plan 1.0 – and Dunloggin balanced plan 2.0 plan As submitted to OSP
6805	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	Dunloggin has been recognized as an intact, cohesive community for more than 60 years. Please keep our community united.
6806		BurleighManorMS	CentennialHS	5	better than	4	6	7	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	4	6	14	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios
6807	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	7	6		Both draft plans didn't care about the River Hill community being divided unlike the feasibility study. Everyone from CMS should be going to River Hill and people from the Atholton Elementary area should go to Atholton, so communities can stay together.	I feel like this plan only cares about Atholton and brings big changes to many other communities, it's kind of a selfish plan and definitely shouldn't be used. At leat polygon 1190 to River Hill
6808	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	7	6		Both draft plans didn't care about the River Hill community being divided unlike the feasibility study. Everyone from CMS should be going to River Hill and people from the Atholton Elementary area should go to Atholton, so communities can stay together.	I feel like this plan only cares about Atholton and brings big changes to many other communities, it's kind of a selfish plan and definitely shouldn't be used. At leat polygon 1190 to River Hill
6809	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	1	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	The Dunloggin community has been recognized as an intact and thriving community for over 60 years. Separating the community unnecessarily stands to substantially affect our sense of belonging and care for one another.
6810	TriadelphiaRidge	FollyQuarterMS		1	worse than	1	3	4		worse than	2	4	6		
6811	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	6	10		better than	7	6	10		
6812									I do not think it would be wise (or necessary) to send middle schools students in the Ashleigh Knolls area of Clarksville (approx 125 homes) to two different middle schools.						
6813	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	7	6	10		better than	7	6	10		
6814	PointersRunES			1	worse than	4	6	13	plan moves fulton into pointers run and Us into dayton. Fulton will be overcrowded again in 2 years and you will just have to move more kids. Need to address the problem instead of to keep moving kids. Keep kids in their schools.	worse than	6	4	6	Plan moves 1189 out of pointers run because of fulton overcrowding. We shouldnt be moved because of overcrowding in other schools especially if it doesnt solve the problem. Keep 1189 at pointers run.	Move overcrowded kids from fulton into dayton oaks. That will fix the under and over utilization in both schools without moving extra kids. Kids can easily be transported up 216 to dayton oaks. And it would improve the feed from elem. school to middle.
6815	NorthfieldES	DunlogginMS		5	better than	1	3	6	AAC draft plan avoids frequent redistricting of the same polygons and avoids small feeds. It addresses transportation issues well and aligns with Policy 6010 better.	better than	7	10	8	AAC draft plan avoids frequent redistricting of the same polygons, focuses on schools that are above capacity utilization, avoids small feeds, Addresses transportation issues well, and aligns with Policy 6010 better.	Please avoid frequent redistricting of polygons in the feasibility study proposals.
6816	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to					worse than	7	6		Both AAC plans don't solve River Hills problem, which is that the community has been divided for awhile. Move all the kids in the River Hill community TO RIVER HILL HIGH SCHOOL, so friendships aren't broken from CMS.	Move the Atholton ES region to Atholton and most or all of Wilde Lakes community back to Wilde Lake
6817	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4		worse than	1	6	6	The feasibility study does not break up the long established Dunloggin neighborhood. The ASC plan splits this neighborhood right in half.	Please consider the two draft plans proposed on behalf of the Dunloggin community to keep this neighborhood at Centennial.
6818	FultonES	LimeKilnMS	ReservoirHS	5	better than	7	6	14		better than	7	6		I feel that the AAC draft plan is a better proposal than The Feasibility study because it will keep our neighborhood together in one group vs splitting it up. We value a community environment where the kids can learn and grow up together. Thank you!!	
6819		DunlogginMS		1	worse than	2	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	2	4		
6820		DunlogginMS		1	worse than	7	4	2	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4			
6821	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please do not cut the Dunloggin community in half. This community makes this place home. Please keep our kids together.	worse than	7	6	4	The Feasibility Plan worked; it is based on data. It seems like the AAC plan shuffles polygons around without any consideration for the lives of the people who live in them.	AAC, please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0, as submitted to OSP. Effort went into coming up with these two proposals.
6822	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	I am sophomore at CHS. Please don't move me to WLHS. Please.consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP	worse than	7	4	6	Please.consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP	Please.consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP
6823	NorthfieldES			1	worse than	4	7			worse than	4	7			
6824	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	I am a freshman at CHS this year. I was excited until all of this talk of redistricting is STRESSING ME OUT. Why would you divide Dunloggin neighborhood between 2 highschools, that doesn't make any sense. Please don't.	worse than	7	4	6		My parents said our Dunloggin neighborhood committee has submitted 2 alternative plans to please consider: Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0
6825	NorthfieldES	DunlogginMS	CentennialHS	1		7	4	6	I am at DMS.Instead of being excited about the new school year, my older sister & brother and my parents are all upset about the possible highschool redistricting that could divide up our Dunloggin neighborhood. No one is happy about it.	worse than	7	4	6		Our Dunloggin neighborhood committee has sent you 2 alternative plans Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0. Please consider these!
6826	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	14		worse than	6	7			
6827	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7			worse than	6	7			
6828		FollyQuarterMS		1	worse than	1	2	3		worse than	1	2	3		
6829	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7			worse than	6	7			

6830	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	13	I am father of 5 young children 3rd-10th grades. I moved family to Dunloggin neighborhood 2 yrs ago bec my wife & I love community here. Very disappointed & saddened that HCPSS would consider breaking that apart. Very stressful start to this school year.	worse than	7	4	13		Please consider Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted by OSP.
6831			CentennialHS	1	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	7	4	6	Keep the entire neighborhood of Dunloggin together at centennial. For community transportation – and this is our closest high school.	
6832	SwansfieldES	HarpersChoiceMS	WildeLakeHS	1	worse than	9	7	13	River Hill has socioeconomic issues I do not want my family a part of.						
6833	NorthfieldES			1	worse than	4	7	6		worse than	14				
6834	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	3	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	6	3	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6835	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	3	6	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	2	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6836	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	3	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	3	6	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6837		DunlogginMS		4	worse than	6	4	7			6	4	7		
6838	ThunderHillES	DunlogginMS		1	worse than	4	1	13	My children and now grandchildren attend these schools and this negatively impacts us all, including bus commute time, crossing major intersections, and the new court house traffic. The draft does not address the over enrollment at Thunder Hill ES.		4	1	13	My children and now grandchildren attend these schools and this negatively impacts us all, including bus commute time, crossing major intersections, and the new court house traffic. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
6839	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	
6840	NorthfieldES			1	worse than	7	4	1	Please consider the proposed Dunloggin Balanced Plan 1.0 or 2.0 which involves either moving polygon 97 to MRHS or 191 to MHHS. This would keep the cohesive and longstanding Dunloggin community together without negative impacting the other neighborhoods.	worse than	7	4	1	Please consider the proposed Dunloggin Balanced Plans 1.0 or 2.0. We believe this would positively affect all of the polygons that would be moved as well as keeping Wilde Lake more intact as we've heard they also want to stay together.	The current AAC plans seem to violate 6010 in many ways. Please keep the longstanding Dunloggin neighborhood together for the HS redistricting. It also doesn't make sense to redistrict to Wilde Lake due to commute time/traffic/safety considerations.
6841	NorthfieldES			1	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6842			CentennialHS	1	worse than	6	4	7	Please consider Dunloggin: Balanced plan 1.0 and Dunloggin plan 2.0 as submitted to OSP	worse than	6	4	7	Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 will clarify for them and keep it simple. All the polys moving are noted in the plans submitted to OSP.	
6843		DunlogginMS		1	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	The new draft plan is horrible. I urge committee members to drive through Dunloggin to see where the arbitrary split between those districted for Centennial and those districted for Wilde Lake falls. It makes absolutely NO sense at all.
6844	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Please consider, Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0, as submitted to OSP.	worse than	6	7	4	Please consider, Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0, as submitted to OSP. Keep Ellicott City kids in Ellicott City schools. Don't break up neighborhoods to make the numbers work. Renovate schools to make the numbers work.	Please consider, Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0, as submitted to OSP. I'd like my children to go to school with their friends from their neighborhood. I also shouldn't be forced to drive to Columbia to get my kids to school.
6845	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	2				worse than	2				
6846			RiverHillHS	1	worse than	7	4	10	It makes no sense to move children OUT of River Hill to Glenelg while moving other children INTO River Hill (i.e., the Wilde Lake school district). This change is difficult for community planning, transportation, and socialization of the children.	worse than					The distance traveled for my student from region 183 will now be further
6847				1	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. We want to keep our neighborhood together.	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. We want to keep our neighborhood together.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. We want to keep our neighborhood together.
6848	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	3	4	Draft 2 plan maintains old annapolis communities (5147, 147, 1156) together, reduces operating costs by not moving kids 4miles away and addresses kids safety concerns crossing busy Rt108. Our kids share same bus to school as adjoining polygons.	equal to	7	3	4	Draft 2 plan aligns with feasibility study and keep old annapolis together, thank you!	
6849		DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin Plan 2.0 as submitted to OSP.	worse than	1	4	7		
6850			RiverHillHS	1	worse than	10			This seems more like a political play. Taking children from Wilde Lake to River Hill form wealthy suburbs will curry favor with the current local government. This plan takes an already overcrowded school and changes its district but not its "overcrowding"	worse than					
6851	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	1	3	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f	equal to	1	3	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f
6852	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	7	13	4	It is a horrible plan. The school make up as we know it would be completely different with the influx of that many students. The continuity of the communities and River Hill is at risk. Transportation and traffic would additionally be affected.	worse than	4	7	13	The plan is absolutely horrible in so many fronts and would change the make up of the school dramatically with the heavy influx of students.	
6853	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP

6854	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	3	4	7	My kids who live in zone 147,5147,1156 bike or walk to CHS. Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in policy 6010. Adding buses to transport students to CHS would mean sacrificing money for other pressing issues.	equal to	3	7	4	Draft 2 plan reinforces recommendations from Feasibility study	To meet utilization targets and minimize costs+safety concerns, consider adhering to feasibility study as much as possible.
6855	ManorWoodsES	BurleighManorMS	MarriottsRidgeHS	5	equal to	1	6	7		better than	1	7	6		
6856	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	7	13		worse than	4	7	13		I like the feasibility plan much better than the second AAC plan. I would be fine with this one.
6857	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6858	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	7	4	9	AAC plan will disrupt continuity of River Hill and Wilde Lake communities, dramatically change more than 1/3 of student body at RHHS and WLHS, require extra school bus service, increase transportation cost and time, worsen traffic on Rt 108.	worse than					We kindly request AAC to reconsider Scenario 14.
6859	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	6	3	Keeping Centennial Communities together keeps the communities together as they get to attend all the schools (CLES, BMMS, and CHS) together.	better than	6	7	3	Communities within 1.5 miles of HS and MS need to be should be kept together. AAC's approach helps communities stay together and kids safety, and provides a long-term solution. We applaud your plan!	
6860	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	AAC draft plans 1 and 2 does not do a good job of maintaining communities.	worse than	4	6	7	Polygon 1189 is part of the River Hill/Pointers Run community and should remain in Pointers Run like in the Feasibility Study. Dayton Oaks is not a feeder school to Clarksville Middle, it will be very difficult for the kids to adjust in middle school	Busing 1189 out and then busing Fulton kids in PRES seems pointless. Why not move more Fulton kids to Dayton Oaks since Dayton Oaks is a feeder school to Lime Kiln Middle. Then the kids can move from elementary to middle together, as per 6010 IV.B.2.a
6861			CentennialHS		better than	6	4	7	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	better than	6	4	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios
6862	LongfellowES	HarpersChoiceMS	WildeLakeHS	4	worse than	13	9	7	this plan does not account for demographic and socio economic factors while moving students from our area.Change will cause distress and chaos in schools, families lives.Low enrollment here is due to 175,1175,2175 they need to send kids to these schools	worse than	13	9	7	plan looks at numbers without accounting for needs of community. affluent families north of 108 send kids to private schools causing low enrollment in hcpss schools, filling in kids outside or sending us out is not solution.	plan looks at numbers without accounting for needs of community. affluent families north of 108 send kids to private schools causing low enrollment in hcpss schools, filling in kids outside or sending us out is not solution.
6863	NorthfieldES	DunlogginMS	CentennialHS		worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0 as submitted to OSP.					Please consider Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0 as submitted to OSP.	Please consider Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0 as submitted to OSP.
6864			CentennialHS	1	worse than	6			Please consider Dunloggin Balanced Plan 1 and Balanced Plan 2	worse than	7			Please consider Dunloggin Balanced Plan 1 and Balanced Plan 2	
6865	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	1	13	This draft appears to downplay transportation and safety concerns, increasing bus commute times, the number of major intersections that need to be crossed, and also does not address the overall enrollment at Thunder Hill ES.	worse than	5	1	13	Transportation and safety concerns are a major issue as both are negatively impacted by this proposal. It does not consider how a new court house complex factors into commute and safety issues.	I strongly suggest that polygons 111, 1111, and 2111 go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This solves safety and transportation concerns, longevity of feed, and maintains our sense of community which is important in this contentious time.
6866	ClemensCrossingES			1	worse than	7	4			equal to	7	4			
6867	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	13	Splitting apart our community is not just or fair. School attendance areas should promote a sense of community in the geographic place a student lives. (St. John's - Dunloggin - 219, 150, 1150, 4150 should stay at Centennial.)	worse than	7	6	13	We moved to this specific area (polygon 219) because we are in the Centennial district...not Wilde Lake. This is a view shared by my neighbors. How can students east of Rt. 29 go to Centennial while our students are excluded? Makes no sense!!	It seems the committee is more interested in "numbers" then "community impact" nor common sense!
6868	HammondES	HammondMS	AtholtonHS	5	worse than	14	14	14		better than	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.	The Feasibility Study moved too many kids, i.e., 67% of Atholton HS students. This is too extreme, unnecessary, and unacceptable. No other HS was changed as dramatically. AHS needs to continue as a model high school for HCPSS as in the AAC draft plan.
6869	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	2	13	Plan impacts me negatively based bus + safety issues,e.g.bus commute times, adds major thoroughfares to cross and fails to account for new courthouse traffic. Draft fails to address over enrollment at Thunder Hill Elementary School	worse than	4	1	13	Plan impacts me negatively based bus + safety issues,e.g.bus commute times, adds major thoroughfares to cross and fails to account for new courthouse traffic. Draft fails to address over enrollment at Thunder Hill Elementary School	Polygons 111,1111, + 2111 should go to Northfield ES,(alleviating over-crowding at Thunder Hill ES and remain at Dunloggin MS (next door) + Wilde Lake HS. Addresses overcrowding at TES + community transport + safety concerns; maintains some connection.
6870		DunlogginMS		1	worse than	7	6	4	AAC plan separates my childrens' high school district in polygon 150, from our contiguous neighbors in polygons 3150, 1153. Polygon 150 should be kept in Centennial HS district due to its proximity. Polygon 150 distance to Wilde Lake HS is unacceptable.	worse than	7	6	4	Feasibility Study is superior to AAC plan as it keeps contiguous communities in Polygons 150, 3150 and 1153 in the same high school district, and closer proximity to the nearest high school.	Feasibility Study is superior to the AAC draft plan because it allows high school students from contiguous neighborhoods in Polygons 150, 3150, and 1153 to remain together. I moved to my house in Polygon 150 so my children would attend Centennial HS.
6871			AtholtonHS	5	better than	1	10		Thank you for PRESERVING ATHOLTON HIGH SCHOOL, The outstanding performance in academics & extracurricular activities, with existing student demographics, needs to continue as a model for other schools.					The FStudy moved WAY too many kids. Took out 67% of Atholton HS students. That was too extreme, unnecessary and unacceptable. No other HS was changed as dramatically. Atholton needs to continue as a model high school for HCPSS as in the AAC draft plan.	I support phasing in of 11th graders.LET THEM STAY. 11th grade is crucial. It's their final shot at impressing colleges. All new teachers/kids/school? How could they assume leadership roles as upperclassmen new to the club or team? it would be a detriment
6872			CentennialHS	1	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	
6873	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	4	4		equal to	13	13	13		
6874	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles	better than	4	6	5	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios
6875	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	3	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	3	4	6	Concerned about the increased transportation costs resulting from the AAC draft plan.	Unclear how the AAC weighted Policy 6010 provisions.

6876	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	6	7	8	We live in Lyndwood (polygons 87) and think that this is an excellent plan.	better than	6	7	8	We live in Lyndwood (polygon 87) and want to stay at Howard HS, together with friends our kids have grew up with in Lyndwood (polygons 87, 2087, and 3087) and Rockburn Townships.	
6877	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	7	4	6	The AAC Draft plan is poor plan and negatively impacts our students/kids (especially during mid of high school) and community (154) and other wide communities (2154, 1154, 214 .....)	worse than	9	4	8	Our neighbors/community (polygon 154) and our neighbor communities (polygon 1154, 2154, 214) are 1. Almost without growing 2. Small feet 3. Transportation considerations	The AAC Draft plan is poor plan and negatively impacts our students/kids and community (154) and other wide communities (2154, 1154, 214 .....)
6878	CentennialLaneES		CentennialHS	4	better than	7	4	8	AAC drats 2 Keeps the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	better than	4	7	9	AAC Draft 2 plan Incorporates the community's safety concerns of crossing road 108, our kids now don't have to change schools twice in two years.	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6879	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	7	6	13	This whole process seems to be one person show with no transparency. I don't think this committee is acting for long range schools betterment and doesn't seem to pocess enough zeal or experience to draft this plan. Scrap the whole thing and have elected	worse than	1	1		Both are not fairly drafted	Very poorly planned. Effects kids long-term and overall county school ratings.
6880	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6881	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	6	7	4	The Clarks Glen Community is treated unfairly by the AAC committee. According to their plan, our kids would be sent to Dayton Oaks (~5 mile, possibly bus running on route 32), instead of Pointers Run (1 mile) due to bundling of 1189 and 189 (under const).	worse than	4	6	7	The feasibility study takes into the account of community stability and keeping feeds of students together for polygon 1189. The new plan bundles us together with 189, which is under construction, no a single house is built. Mixing them makes no sense	Please don't use character limits for feedback. It makes hard to provide our feedback. Again, bundling an established community and an yet-to-be built community makes little sense. It sacrifices the established community for the sake of yet-to-know commun
6882	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	6	Please consider the previously submitted plans Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0	worse than	2	4	7	Please consider the previously submitted plans Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0	Please consider the previously submitted plans Dunloggin: Balanced Plan 1.0 and Balanced Plan 2.0
6883	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	4	7	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	better than	6	4	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6884	ManorWoodsES	MountViewMS	MarriottsRidgeHS	5	equal to	6	7			better than	6	7	4	AAC draft plan moves less students than feasibility study , that is definitely a pro for the plan. Lessen small feeds to MS/HS school which is big for students and neighborhoods. Great Work!	
6885	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6886	NorthfieldES	DunlogginMS		1	worse than	7			Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0	worse than	4			Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0	
6887		PatapscoMS		1	worse than	7	6	4	This plan divides a 50 year community, Valley Mede. The Valley Mede community joins TOGETHER each year for Mt.Hebron Homecoming Parade and other events. Children walk/bike to friends homes to work on projects and study together. DO NOT divide us!!	equal to	7	6	4	The plan and study have the same impact on Valley Mede. Community will be divided, children will have to travel much longer distance for school. Study does not include the portables which allows for more students. Past studies have been incorrect.	Has anyone who came up with this plan ever been in our neighborhood and seen the proposed dividing line? Have any students had a voice in this process - middle and high school? Instead of money used to change start times, use it toward portables/addition
6888	CentennialLaneES			5	better than	4	6	7	Keeping polygon 147 in the centennial school district was great it is maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools;	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6889	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	3	7	4	Draft 2 plan addresses all concerns from old annapolis community 147,5147,1156 in terms of keeping kids together with friends who share same bus, reduces overhead of moving kids far, addresses safety concerns crossing Rt 108 for young kids.	equal to	3	7	4	draft 2 plan retains feasibility study recommendations	thank you for keeping suggestions from feasibility study intact

6908	CentennialLaneES			4	better than				The AAC latest draft plan 2 did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	equal to	4			The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing draft plan 2 !
6909	LongfellowES	HarpersChoiceMS	WildeLakeHS	4	worse than	13	5	9	this AAC plan has lot of movements, kids from our area are moved to Clarksville and potentially will be filled with kids from elsewhere,distrubing demographics of our schools and state funded programs. social-economic conditions need to be accounted for.	worse than	9	7	13	our schools have capacity because 175,1175,2175 do not send kids to hcpss schools, if they send kids here instead of private schools, there will be balance and we do not need to move to clarksville. we prefer to walk not bussed far away.FARM is skewed	Do not move columbia west students out and instead focus on understanding demographics, social economic issues of region to increase utilization locally (175,1175,2175)
6910	NorthfieldES	DunlogginMS	CentennialHS	2	worse than	4	1	7		worse than	4	7	6		
6911	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	I live in polygon 147 and the current AAC plan is incorporating the community's safety concerns of crossing road 108, our kids now don't have to change schools twice in two years THANK YOU	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
6912	NorthfieldES	DunlogginMS	CentennialHS		worse than	1	7	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	worse than	1	4	7	Feasibility plan is better for us	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain
6913	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	5	equal to	9	4	14		better than	4	1	6	We are very pleased that this appears to maintain much of the existing feed for our area with proper consideration of contiguous communities, while making appropriate changes given transportation and capacity concerns. We concur with both AAC plans (1& 2)	
6914	CentennialLaneES			4	equal to	4	7	8		equal to	4	7	3	AAC Draft 2 keeps Polygon 147 in Centennial district where it belongs. Re-districting will cause significant disruption to the families in Polygon 147 and isolate the families from the adjacent communities.	
6915	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	1	3	7	To bring utilization ratios in CLES below 110%, we request that poly 97 move from CLES to NES; and poly 153,2154 move from NES to CLES, this would eliminate a major island, balance FARMS ratios and maintain feeds	equal to	7	1	3	To bring utilization ratios in CLES below 110%, we request that poly 97 move from CLES to NES; and poly 153,2154 move from NES to CLES, this would eliminate a major island, balance FARMS ratios and maintain feeds	To bring utilization ratios in CLES below 110%, we request that poly 97 move from CLES to NES; and poly 153,2154 move from NES to CLES, this would eliminate a major island, balance FARMS ratios and maintain feeds
6916		BurleighManorMS		4	equal to	4	7	8	Draft 2 considers the walkability of Polygon 147 to Centennial schools and avoids need and potentially dangerous situation for children to cross the busy Rt 108 for school activities.	equal to	4	7	10	Draft 2 allows Polygon 147 to continue the bond with the Old Annapolis neighborhoods. There are communities in Polygon 147 that has been here for more than 50 years. Polygon 147 is also within walking distance to Centennial schools.	

6917	CentennialLaneES	BurleighManorMS		5	better than	7	4	10	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/ Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	7	4	10	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	
6918	AtholtonES	OaklandMillsMS	OaklandMillsHS		worse than	4	6	7	Plan puts our polygons 56,1056, 2056 and 3056 in an island. Our borders are shared with OMHS (current school)Ham HS and AHS. Makes us a less than 10% feed into WLHS (that's with all grades moving)	worse than	4	9	5	Would rather feasibility study which makes us a bigger feed and makes us less of an island.	Polygons 11, 1111, 2111 should stay at WLHS and 56, 1056, 2056 and 3056 should get to stay at OMHS. Focus should maintain current school community not CA village centers which don't rep HCPSS. WE WANT TO STAY AT OMHS.
6919	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Please consider Dunloggin: Balanced Plan 1:0 and Dunloggin Balanced Plan 2.0 as submitted to OSP	worse than	7	4	1	Please consider Dunloggin: Balanced Plan 1:0 and Dunloggin Balanced Plan 2.0 as submitted to OSP	
6920			CentennialHS	5	equal to	4	10	8		equal to	4	7	8	Thank you for keeping Polygon 147 in Centennial district. My child bikes to Centennial HS and moving us to Wilde Lake would have significant negative impact as we would have to scramble for transportation arrangements.	
6921	CentennialLaneES	BurleighManorMS			better than	1				better than	1				To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island,balance FARMS ratios & maintain feed
6922	AtholtonES	HammondMS	HammondHS	5	equal to	6	7		AAC draft plan 2 does a much better job of keeping strong feeds and keeping communities together while minimizing transportation costs. Also reduces the Wilde Lake Island from the original AAC draft plan.	better than	6	7	4		
6923	AtholtonES	HammondMS	HammondHS	5	equal to	6	7		AAC draft plan 2 does a much better job of keeping strong feeds and keeping communities together while minimizing transportation costs. Also reduces the Wilde Lake Island from the original AAC draft plan.	better than	6	7	4		
6924	CentennialLaneES			4	equal to	4	7			equal to	4	7		Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	
6925		BurleighManorMS		4	equal to	4				equal to	4			Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	
6926	AtholtonES	HammondMS	HammondHS	5	equal to	6	7	4	AAC draft plan 2 does a much better job of keeping communities together and reducing transportation costs. Also reduces the Wilde Lake island created by AAC draft plan 1	better than	7	6	4	Better at keeping communities together	Yes to AAC draft plan 2
6927			CentennialHS	4	equal to	7	4			equal to	4	7		Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	
6928				1	worse than	6	2	4		worse than	2	4	6		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
6929	CentennialLaneES			4	equal to	4	2	7		better than	4	7	5	Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	Re-districting Polygon 147 to Wilde Lake would have isolated Polygon 147 from the adjacent communities so thank you for keeping Polygon 147 within the Centennial district where we belong.
6930				1	worse than	7	4	6	Please consider Dunloggin: Balanced plan 1.0 and Balanced Plan 2.0 as submitted to OSP.						
6931		DunlogginMS		1	worse than	7	4		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4			
6932	CentennialLaneES			4	equal to	4	1	7		better than	4	1	7	Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	Draft 2 takes into consideration to disruptions to Polygon 147 with all three school moves and limited long-term benefits. Polygon 147 belongs in Centennial district.
6933	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	3	4	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/ Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district	equal to	7	3	4	Draft 2 plan is same as feasibility study	
6934	PointersRunES			1	worse than	7	4	13	We are in polygon 1189. We do not want our children to move from PRES to DOES. They will likely lose many friends in the move and on returning to Clarksville Middle, will be outsiders. Their bus time will also increase significantly.	worse than	6	4	13	We are in polygon 1189. We do not want our children to move from PRES to DOES. They will likely lose many friends in the move and on returning to Clarksville Middle, will be outsiders. Their bus time will also increase significantly.	
6935	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	6	7	It is the right decision to keep Polygon 147 together with 2147 and 5147 in draft 2 plan as in the current school attendance areas. It greatly helps to maintain the community intact.	equal to	7	6	8	Good call to follow the Feasibility Study Plan to keep Polygon 147 to CLES/BMMS/CHS. It is important to keep the 147/2147/5147 community together.	The draft 2 plan is better than the draft 1 plan. The AAC committee made the right decision to keep Polygon 147 to the Centennial schools. Thanks for keep the centennial park community (147, 2147, 5147) intact!

6936	CentennialLaneES			4	equal to	4	2	1		better than	1	4	7	Draft 2 keeps Polygon 147 in Centennial and achieves maximum benefits. Polygon 147 is within close/walking proximities to Centennial schools and re-districting to Wilde Lake would have significant disruptions with no equitable benefits.	Moving Polygon 147 to Wilde Lake would mean isolation of Polygon 147 from the adjacent communities along Old Annapolis Rd as well as subjecting children in Polygon 147 of potentially dangerous scenarios to regularly cross the busy Rt 108.
6937	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OPS Please don't separate our neighborhood!
6938	CentennialLaneES			4	equal to	4				equal to	4	2	1	Draft 2 achieves maximum results by keeping Polygon 147 unchanged. The disruption of re-districting Polygon 147 for all three schools in Draft 1 would have resulted in significant negative impact with minimal benefits.	Moving Polygon 147 to Wilde Lake would mean isolation of Polygon 147 from the adjacent communities along Old Annapolis Rd as well as subjecting children in Polygon 147 of potentially dangerous scenarios to regularly cross the busy Rt 108.
6939		BurleighManorMS		4	equal to	4	2	1		better than	4	8	7	Certain families in Polygon 147 have been attending Centennial schools for generations and Draft 2 allows that positive bond to continue. Re-districting Polygon 147 for all three schools is drastic negatively and achieves minimal benefits.	Moving Polygon 147 to Wilde Lake would mean isolation of Polygon 147 from the adjacent communities along Old Annapolis Rd as well as subjecting children in Polygon 147 of potentially dangerous scenarios to regularly cross the busy Rt 108.
6940	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	5	equal to	7	6	14	The AAC draft plans, both original and the version from 8/15, attempt to minimize the impact on contiguous communities and maintain feeds from elementary, middle, to high school as practicable.	better than	6	9	10	The AAC draft, both original and the version from 8/15, are substantially better than the Feasibility Study. The Feasibility Study did not give proper consideration to existing feeds, demographics, transportation, and communities.	The two AAC draft proposals strike the right balance of necessary change and maintaining communities and feeds.
6941	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	Kids who live in zone 147 bike or walk to CHS or BMMS. Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010. Adding buses to transport students to CHS or BMMS would mean sacrificing money for HS#13	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly97 move from CLES to NES; andpoly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
6942	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	3	4	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	7	4	3	The AAC draft 2 plan agrees to recommendations from feasibility study	
6943		BurleighManorMS	CentennialHS	5	better than	4	6	7	Polygon 147 kids walk to Centennial HS or BMMS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
6944	PointersRunES	LimeKilnMS	AtholtonHS	4	equal to				My children are not of school age. However I do not believe or like the idea that our residential community will be split in half in terms of who attends what middle school.						
6945	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	1	4	7	This plan takes students out of Wilde Lake which is projected to be under enrollment and places them at OM which is over enrollment. Moves community away from established friendships and extra curricular activities. Safety concern for time and distance	worse than	1	4	7	Polygons 111, 1111, 2111 are in Ellicott City. Extra curricular activities and sense of community are tied to Dunloggin and Wilde Lake. These schools are closer and do not require crossing major roads. County courthouse is going in on Bendix Rd	Please consider the proposal and community petition of over 170 signatures to redistrict polygons 111, 1111, and 2111 to NES and keep us at DMS and WLHS. Based on projections WLHS is under capacity while OMHS is over. Safety, community, longevity of feed
6946	CentennialLaneES				better than	4	6	7	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
6947	CentennialLaneES	BurleighManorMS		5	better than	7	4	8	THANK YOU for keeping our community together. We in zone 147 have a small community and should be kept together with other polygone in the Old Annapolis neighborhood.	equal to	4	7	10		To bring utilization in ES schools in the Northern HoCo below 110%, I believe that polygon 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES. This would eliminate a major island and balance FARMs ratios and maintain feeds.
6948	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	1	7	4	AAC draft 2 plan is better. To bring utilization ratios in Elementary schools in the Northern region <110%, move poly 97 move from CLES to NES; poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARM, maintain feeds)	better than	1	4	6		To bring utilization ratios in Elementary schools in the Northern region <110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds)
6949	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
6950			CentennialHS	1	worse than	14			I believe that those students currently attending Centennial High school should be grandfathered in and be able to finish and graduate at Centennial if the change in zones go through. My 3 children will not need to change BUT they have friends that do	worse than	14			Please grandfather the current students if this change goes through. hgh school is so stressful anyway and the students should be able to graduate with their friends	
6951	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	6	7	4	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles	equal to	6	7	4	Feasibility study and aaa draft 2 plan are good for our neighbourhood	
6952		BurleighManorMS	CentennialHS	5	better than	4	6	7	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	4	6	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
6953			CentennialHS	1	worse than	5	1	6	SOOOOO INEFFICIENT!	worse than	1	6	7		Inefficient

6954			CentennialHS	1	worse than	4	6	13	New plan requires my child to go to a school very far away in comparison	worse than	4	13	14		New school in new plan is too far in comparison to original school
6955	CentennialLaneES	BurleighManorMS		4	better than	7	4	6	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	equal to	7	4	6		To bring utilization in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES. Along with utilization it eliminates a major island, balance FARMs and maintain feed.
6956	PhelpsLuckES				equal to	1	4			better than	4	1		I think this plan is an adequate start for a redistricting proposal. Both plans have no impact on my neighborhood, however I am concerned about a long term plan. Howard High is extremely overcrowded. Another high school needs to be built soon.	
6957	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	My child will be bused to a school much far away to another school through downtown Columbia with heavy traffic. This is contrary to the county's recent initiative of giving student more time to sleep. Friends in the tightly bounding community separated.	worse than	4	7	6	My child will be bused to a school much far away to another school through downtown Columbia with heavy traffic. This is contrary to the county's recent initiative of giving student more time to sleep. Friends in the tightly bounding community separated.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP

6966				1	worse than	4	1	7		worse than	4	1	7	please consider Dunloggin:Balanced Plan 2.0 as submitted to OPS" in narrative sections	
6967	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Please note-we are, as a community, requesting you adopt the Dunloggin Balanced Plan 1.0 and the Dunloggin Balanced Plan 2.0 as submitted to the OSP	worse than	7	4	1		
6968	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4			My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108. i.	better than	1			To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios, maintain feeds)	
6969	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	7	Draft 2 Appropriately keeps Elementary students from Crossing 108 to get to their school (And all of their would-be friends/classmates' homes)	equal to	7	4	7	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!	
6970	ClarksvilleES	BurleighManorMS	CentennialHS	5	equal to	1	2	7	Keeping CL polygon 147 and utilization around 110% is optimal for the Centennial area. This will make sure that no new school is required and builders are in check for new construction projects. Draft 2 delivered.	equal to	9	2	4	MS and HS kids to bike to burleigh manor and CL HS. This takes away big burden from the families. What in the world will happen if aac recommends to move them to WL. No way to cross major highway like 108. Kids safety is first!!	If we are not thinking about betterment of kids then what is the meaning of this whole exercise. Original draft caused major concern for 150 families in polygon 147. Draft 2 came through and aac recognized the correct approach.
6971	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	3	worse than	7	8	6	I strongly object to scenario 28: my kids will be reassigned again only five years after previous reassignment. Our neighborhood is attached to River Hill community, and my daughter is looking forward to finally be together with her friends in RHHS.	better than	8	7	10	The AAC draft plan is definitely better than the Feasibility Study Plan, because our community (#181) will not be reassigned. Maintaining contiguous communities is very important to me. I love the larger River Hill community and it feels home in RHHS.	I support AAC draft plan, but strongly object to scenario 28: my kids will be reassigned again only five years after the previous one. After seven years in the current house, both of my kids considers RHHS to be their future high school: Go Hawks!
6972		ClarksvilleMS		1	worse than	7	6	4	In addition to substantially disrupting communities, student feeds and transportation considerations, the plan does not take into account the new High School. At a minimum I request that the AAC reconsider Scenario 14.	equal to	6				What other areas have been explored before redistricting options? Also, the initial survey distributed months ago asked for prioritized factors when redistricting. The aggregate results of this survey should be made publicly available.
6973	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7			worse than	6	7			
6974	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	4	Communities should be kept intact and other adjustments made. Dunloggin is 50 years established and other areas are being left intact. The borders your are choosing do not make any sense plus travel paths, time and should be taken into account.	worse than	7	6	4	The AAC Draft Plan transfers to Dunloggin what the other communities objected to under the Feasibility Study. The Feasibility Study prepared by a team of experts over the course of a deliberative study did NOT recommend DUNLOGGIN to be SPLIT.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. WE DO NOT WANT DUNLOGGIN SPLIT. Dunloggin should be able to speak with one voice about our schools. Kids should be able to attend ES, MS and HS together.
6975			CentennialHS	1	worse than	7	4	1	Please consider the Dunloggin Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted ot OSP. The current draft plan cleaves a bulge through the heart of the Dunloggin community and has areas east of Rt 29 leapfrogging Dunloggin to get to Centenni

7008	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	6		moving polygon 147 out of district helps with elementary and middle school overcrowding	better than	6	7		Better. Thank you for keeping our contiguous neighborhood together-2184, 1184, 184, 156	Polygon 147 contributes hugely to the overcrowding at CLES and BMMS, please help with that by keeping them at Longfellow, Wilde Lake MS and Wilde Lake HS.
7009	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	7	1	4	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	7	4	1	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	
7010	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	2	6	7		worse than	4	7	6		
7011	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	7	3	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	equal to	7	4	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	
7012	CentennialLaneES	BurleighManorMS	CentennialHS	5		7	14	14	My 5th grade son is very happy after hearing Polygon 147 redistricted to BMMS. he can be with his friends in BMMS now Thank you AAC for your decision.	better than	7	14	14	Thank you AAC for your decision. my elementary son is very excited to hear the he can go to BMMS	
7013	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please do not split the community	worse than	4	1	7	Do not change the redistricting	
7014			ReservoirHS		worse than	13			there is nothing wrong with the current position of the attendance for each high school. There is no point in changing it. My son would be going into his junior year in 2018 which is when the redistricting would take place. This is an unnecessary change.						
7015				1	worse than	1	4	7		worse than	4	1	7		Please consider Dunloggin balanced plan 1.0 and Dunloggin balanced plan 2,0 as submitted to OSP.
7016			RiverHillHS	1	worse than	6	3	4	Walkers should STAY walkers. Under your AAC plan, you plan to change the originally walker WLHS kids to bus them to RHHS. The AAC members had NO specific reason for sending them to RHHS instead of keeping them as walkers at WLHS.	worse than	6	3	4		KEEP these at WLHS: 3174, 1053, 1174, 1174, 141, 140, 1140, 172 Consider sending these to Atholton (closer!!!): 135, 1135, 53, 2134, 1066, 2053, 1134, 1066, 134
7017	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	6	7	4	Polygons 56, 1056, 2056 and 3056 seem to be isolated & overlooked. Current schools are AES-OMMS-OMHS. Draft 2 is AES-LEMS-WLHS. Draft 2 does not fix our small ES-MS feed, gives us a smaller MS-HS feed, and takes us to a further away HS (4th closest).	worse than	6	7	4	Feasibility had ploygons 56, 1056, 2056 & 3056 move from AES-OMMS-OMHS to AES-LEMS-AHS - I could understand geographically and feed MS-HS. The current plan has us going to WLHS, the fourth closest high school, with a small ES-MS feed & pretty small MS-HS.	Please revisit polygons 56, 1056, 2056 and 3056. Ideally, consider keeping AES-OMMS-OMHS. Alternately, consider AES-HMS-AHS/OMHS/HHS. HMS is well below capacity in this study. Sending the 56 polygons to HMS would eliminate our 8% feed from AES-LEMS.

7018	ClarksvilleES			1	worse than	4			Any reason to change walkers to bus riders? This is somewhat inconsistent with the policy that I have known as far as I've lived in this county. Longfellow 142 should stay in Longfellow. Capacity should not be the only consideration when redistricting.	worse than	6				As I said, your plan changes walkers to Longfellow to bus riders to Clarksville ES. Longfellow polygon 142 should stay as walkers. Capacity should NOT be the only consideration when redistricting to another school.
7019									Thank you for keeping Polygon 147 in CLES, BMMS, CHS							
7020					equal to				Thank you for keeping Polygon 147 in CLES, BMMS, CHS	equal to				Thank you for keeping Polygon 147 in CLES, BMMS, CHS	Thank you for keeping Polygon 147 in CLES, BMMS, CHS
7021	ClarksvilleES	ClarksvilleMS		1	worse than	6	4		Your AAC draft proposes such a drastic change, especially for the River Hill community. We urge you to consider other" factors (like walkers etc) when shifting students from one community to another community."	worse than		3	4		
7022			AtholtonHS	4	worse than	10			High schools should not be redistricted at this time. Just last year the feasibility study said high school redistricting was not being considered through the end of the decade. Now this huge redistricting effort? This is wrong!	better than	2	10	9	Number of students moved should be minimized. Please continue to preserve Atholton. The Feasibility Study moves way too many kids from/into Atholton. Do not do the Atholton <--> Hammond swap. This moves 650+ students needlessly.	Halt high school redistricting. If not possible, let rising juniors stay. In addition, walkers should never be bused to a different school. No school should be decimated like AHS was by the Feasibility Study. The current students' well-being should be #1
7023			CentennialHS		better than	4	6	7	AAC Draft 2/Feasibility keeps long-standing Centennial/Old Annapolis Community streets connected to their neighborhood- thanks! Draft also took into consideration ES from crossing MD-108 to school, an immense safety concern to all Centennial communities.	better than	1	3	4	Draft 2 keeps students in 147 going to the closest schools (CLES/BMMS/CHS), which will help minimize Transportation costs and also allow for safe walking/biking with neighborhood friends, amenable for carpool in incremental weather, school project work.	AAC Draft 2 helps protect the students who have integrated with the Centennial communities and have friends appreciate the current plan. The families appreciate the current plan as it protect the students from emotionally impacted with another change.
7024	GormanCrossingES		AtholtonHS	4	worse than				Still moves too many students. Only elementary schools should be redistricted at this time. These plans treat the kids just as numbers on a page and do not consider the emotional impact of redistricting, especially in high school.	better than	10	9		This plan is MUCH better than the Feasibility study because it does not decimate any single high school like the first plan decimated Atholton. Please continue to preserve AHS. Please leave the high schools that are not over or under crowded alone.	It is plain stupid to move 337 kids from AHS to HHS and then move 325 from HHS to AHS like the F-Study did. Think of the kids! Minimize the movement of kids. Focus only on the overcrowded schools - use portables.
7025	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	7	My kids who live in zone147 bike or walk to CHS or BMMS.Walkers & bikers reduce bus costs which demonstrates fiscal responsibility in line with 6010.Adding buses to transport students to CHSor BMMS would mean sacrificing money for other cost such as HS#13	better than	4	2	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7026	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	12	9		equal to	4	9	12		
7027				1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	1	4	7	Please consider Dunloggin:Balanced Plan 1.0 and Dunloggin:Balanced Plan 2.0 as submitted to OSP.	I am particularly concerned about the safety of students getting to school.
7028	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	better than	4	7	6	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feed
7029	CentennialLaneES				better than	1	4	7	AAC Draft 2 keeps students in 147 going to the closest schools, minimizing the Transportation and operational costs and also allow for safe walking/biking HoCo has recently made bike lanes (used by MS/HS students). Draft keeps neighborhood kids together.	equal to	4	6	7	AAC Draft 2 keeps Elementary students from crossing 108 to get to their school. Keeping them together with the neighborhood friends. This will enhance in community building, PTA involvement, and social and academic activities among Centennial neighborhood	Thanks to the AAC Draft 2 for keeping the long-standing Centennial/Old Annapolis Community streets connected to their neighborhood. We appreciate it very much and families are appreciative of your kind consideration and understanding. Thanks!
7030	CentennialLaneES			4		7	6	4	Thank you AAC for your decision to keep families in 147 in Centennial school district. The draft 2 AAC plan works for my family	better than	4	6	7	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools; Incorporating the community's safety concern
7031	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	8	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS, CHS with their lifelong friends. THANK You for keeping our kids at a school that is close versus moving them to one that is almost 3 m away.	better than	4	6	7	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds
7032	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	I appreciate efforts by AAC but HCPSS needs to explain why schools such as CHS are so over enrolled first. I suspect a lot of Residency Fraud is taking place in HOCO by some families that do not live in enrollment district or live in other counties.	worse than	4	1	7	HCPSS enrollment data highly flawed and suspect. Enrollment utilization rates at NES, DMS, & CHS are above 100% due to blatant RESIDENCY fraud. Enroll data driving FSP AAC process is flawed. Thorough residency fraud audit or check on all schools first!!	Perform proactive residency audit on enrollment first. Then provide enrollment figures for an accurate Feasibility Study and data so AAC can make a truly informed decision. Please consider Dunloggin: Balanced Plan 1.0 & 2.0
7033		MurrayHillMS	AtholtonHS	4	worse than				Both the Feasibility Study and the AAC Draft move WAY too may kids, especially at the high school level.	better than				Plan is better than Feasibility Study because it moves 2000 fewer kids, but it still moves too many. Thank you for preserving AHS. Please continue to do so. AHS is a model school with great programs and diversity to match the county.	Preserve AHS even if changes continue to be made. AHS is not over or under capacity and should not be affected by this redistricting. Based on its location it should not be affected by redistricting. High school is hard enough. Do not do this to the kids.
7034			CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP when determining movement of Dunloggin polygons from Centennial to Wilde Lake.	worse than	4	1	7	There has been a lack of openness and transparency. This is a seen by the timing of the announced changes to the original Feasibility Study.	The communities desire to keep their children together is being completely disregarded.
7035		BurleighManorMS	CentennialHS		equal to	4	7	6	We live in zone 147 bikes or walk to CHS and BMMS, a great help to parents as kids walk/bike safely to home and school, reduce bust costs, provide health benefits and increase education score demonstrates fiscal responsibility in line with policy 6010.		1	7	9	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f	Centennial 147 is very diverse,thriving community,parents basically live in/around school before, during and after-school hours, run,walk, watch kids when they out on school grounds for physical activities, keeping them in CHS and BMMS is the best outcome
7036			CentennialHS	5	equal to	4	6	7	The AAC draft 2 keeps our neighborhood and children connected to all of their friends and neighbors in the other Centennial developments along Old Annapolis Road, which feeds to CLES/BMMS/CHS. We want to thanks the AAC for their kind consideration.	equal to	4	3	6	HoCo public works recently included bike lanes. This will immensely help students for safely bike to school. The AAC draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs.	Thanks to the AAC draft 2 to keep 147 in the schools closest to the community, which will keep the students in the neighborhood together. This drafts also enhances the safety of the students from not crossing the 108 and reduces the operational cost.

7037	CentennialLaneES		CentennialHS	5	equal to	7	6	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f	equal to	6	7	10	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f
7038	CentennialLaneES				equal to	1	4	7	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	better than	8	4	4	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools	Children will benefit of being in walking proximity of the schools; Incorporating the community's safety concerns of crossing road 108, our kids now don't have to change schools twice in two years.

Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan2
7096	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Too many students moved to River Hill HS (108%) in AAC Draft 2. Large changes in WLHS when logistically it makes more sense to move students from Centennial and Mt. Hebron (over-capacity) to the Western High Schools as described in the Feasibility Study.	worse than	7	4	1	Feasibility Study did not separate the Dunloggin neighborhood as the AAC Draft Plans do for HS. AAC Draft Plan1 moves too many students to WLHS (over capacity) when Feasibility Plan shows WLHS projected enrollment at 91% moving to 102% in 2022.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to the OSP.
7097	CentennialLaneES			5	better than	7	7	7	Thanks for keeping together the contiguous Old Annapolis Road neighborhoods. We are a tight knit community. Our kids' friends and classmates should not be separated.	better than	7			Thanks for keeping together the contiguous Old Annapolis Road neighborhoods. We are a tight knit community.Our kids' friends and classmates should not be separated.	Thanks for keeping together the contiguous Old Annapolis Road neighborhoods. We are a tight knit community.Our kids' friends and classmates should not be separated.

7098	BellowsSpringES				equal to	4	1	8		equal to	1	8	4	Thank you for considering all of centennial community together including polygon 147 and all of Old Annopolis and Centennial Lane community together.	Thank you for considering all of centennial community together including polygon 147 and all of Old Annopolis and Centennial Lane community together.
7099	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	4	7	Thank you for taking into consideration keeping all of the Centennial/ old Annapolis neighborhood polygon - 147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your effort in preparing draft plan 2.	better than	4	7	1		
7100		DunlogginMS	CentennialHS	1	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP Thank you.	worse than	4	7	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	We appreciate your time and review of these policies to keep our children safe and reduce travel times.
7101	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	thanks to keep 147	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
7102			CentennialHS	5	better than	3	7	4	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	3	1	4		
7103		BurleighManorMS	CentennialHS	1	worse than	4	6	7	The transportation time is unreasonable (~90min). The extra time on the bus would completely negate the benefit of pushing back the start time of school, and prevent our students from meaningfully participating in academic and extracurricular activities.	equal to	4	6	7	We are a stable, established, diverse community with no projected growth in the coming years. Our students present no or little threat to the future overcrowding of Centennial HS.	However, the plans generated for both feasibility and AAC committees propose that Centennial HS keep students from many polygons that are supposed to have an increase in their enrollment numbers (e.g., 147, 1102, 1101, 101, 97, 100, and 191).
7104	CentennialLaneES			4	better than	1				better than					To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios, etc.
7105	CentennialLaneES	BurleighManorMS	CentennialHS	5		4	1	7	To bring utilization ratios in Elem schools in the north below 110%, I suggest moving 97 from CLES to NES & 1154 / 2154 from NES to CLES. 7153	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	6	8	ALLVIEW Polygons 1056, 2056, 3056, and 56 have only 49 MS students and 64 HS students. ONLY 8.8% of Atholton ES school students move to Lake Elkhorn MS. Keeping our 49 at OMMS only puts its projected capacity at 103.5%. Keep at OMMS!	worse than	6	4	8	ALLVIEW polygons are moved in SMALL groups 2x (49 students at MS level, 64 at HS level). 8.8% from AES to LEMS and 24% from LEMS to WLHS. Please find a way for our students to have a stronger feed. Current feed of OMMS to OMHS is preferred.	Moving 1056, 2056, 3056 and 56 to LEMS has little impact, and moves ONLY students from ALLVIEW. Try to improve feed percentages with larger groups from each MS feeding to the same HS rather than making so many small feeds at each school.
7154		BurleighManorMS	CentennialHS		better than	4	7	3	polygon 147 stays in centennial school.	better than	3	4	7	Thank you for keeping communities together.	to bring utilization ratio in elementary school in northern region below 100% we request move polygon 97 out of CLES TO NES. THERE ARE 4 SCHOOL BUSES MOVE FARTHER TO CLES. NES WILL BE CLOSER TO POLYGON 97.
7155	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	4	1		equal to	7	8	1		move 1184 to MRHS
7156			CentennialHS	1	worse than	6	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	
7157	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	1	8		equal to	7	10	1		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES
7158	RockburnES	ElkridgeLandingMS	HowardHS	5	equal to	1	4	1	I am.very happy that the AAC paid attention.	better than	1	1	4		
7159			CentennialHS	1	worse than	1	4	2	polygon 154 was moved as part of Draft plan 1 ,2 both . We are closer to our high school and also live in affordable housing similar to 97. our util count is low, pls do not move us	worse than	1	2	4	Same as above	Our utlization count is less which keeps our neighbours together polygon 214,1154,154.please move polygon 97 as they have huge counts and hardly contribute to farm counts, We do not believe 3 or more polygons need to be moved to keep one influencial one
7160	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	9	7	4		equal to	7	4	1		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES
7161			CentennialHS							worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin Plan 2.0 as submitted to OSP	Expand Centennial HS, verify to ensure students attending Centennial HS are legitimately attending, or prevent or enforce stronger restrictions on building homes so that schools are not overpopulated and more controlled; this is the biggest issue.
7162	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	7	4	8	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	8	7	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108

7163	CentennialLaneES			5	better than	4	7	6	My son and daughter plays and attends ES with kids at polygon 147. Thanks for keeping the neighborhood together and in the same school zone. Thanks for the present draft as the schools are in close proximity.	equal to	4	1	7	Thanks for the draft and keeping the polygon 147 in the same school zone as our schools as my kids and others in my neighborhood play with kids living in polygon 147. Appreciate it.	
7164		BurleighManorMS	CentennialHS	5	better than	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	better than	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
7165	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	1	7	4		equal to	1	4	5		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios)
7166		ClarksvilleMS		1	worse than	2	4	10	Moves too many students. Walkers should stay at their school...waste of time/money and negative family life & environmental impact to bus. Need answers on when new hs will be built and factor that into planning.	worse than	3			Find a way to keep 1189 at pres or move to clarksville elementary. DOES is third closest school and the commute will be 30 minutes vs 3 minutes. Also small feed to middle school.	Try to find a way to avoid a shift west that requires new feeds so # of students moved is less. Move rotc from Howard to AHS?RH residents could move from AHS to RHHS to offset. Consider new school opening...will this all have to be reversed?
7167	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.
7168	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	4	5	7		equal to	4	1	5		move 1184 to MRHS
7169	CentennialLaneES	BurleighManorMS		5	equal to	4	7	8	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.
7170				1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP

Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.
7223			CentennialHS	1	worse than	2	4	6	Attempting to understand great departure from feasibility plan. Dunloggin Community has over 40 years of CHS attendance; diving the community is not only unnecessary, it is not part of a long term solution to the overcrowding of high schools.	worse than	1	4	6	The Feasibility study actually addresses the problems faced by the county with long-term solutions in mind. The Study, unlike the AAC plan, is supported by fact and consideration of capacity utilization and transportation to maximize taxpayer monies.	Unfortunately, it appears the AAC plan is a response to community pressures rather than long range thinking on how to alleviate ongoing issues within the county at the high school level. This is the reason tax dollars go to feasibility studies, not AAC
7224	CentennialLaneE	BurleighManorMS	CentennialHS	3	equal to	7	4	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	equal to	7	1	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	
7225	CentennialLaneE	BurleighManorMS	CentennialHS	5	equal to	4	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.
7226	CentennialLaneE	BurleighManorMS	CentennialHS	3	equal to	7	1	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES. 7276	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	Implementation of the current AAC plans are poorly designed, and conflicts with other county-wide policies taking effect (i.e. delayed start times for schools) that same academic year (2017/2018).
7277	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7278	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	8	4	7	To bring utilization ratios in elementary schools in the northern region below 110% we request that poly 97 move from CLES to NES; or poly 1154&2154 from NES to CLES (this would eliminate a major island)	better than	4	7	8	To bring utilization ratios in elementary schools in the northern region below 110% we request that poly 97 move from CLES to NES; or poly 1154&2154 from NES to CLES (this would eliminate a major island)	To bring utilization ratios in elementary schools in the northern region below 110% we request that poly 97 move from CLES to NES; or poly 1154&2154 from NES to CLES (this would eliminate a major island)
7279	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
7280	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	8	7	to bring utilization ratios Elementary schools in the Northern region below 110%,we request that poly 97 move from CLES to NES (this would eliminate a major island, balance FARMS ratios and maintain feeds).	
7281			WildeLakeHS	1	worse than	9				worse than	9			Creates way too many temporary housing feeds to Wilde Lake HS. The fact that the FARMS is 43% is absolutely unacceptable	
7282	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	4	7	8	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.
7283	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	8	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	better than	4	7	8	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
7284	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7285		BurleighManorMS	CentennialHS	4	equal to	3	4	7	Keeping 147 polygon is based on fewer students will be moved . Good decision.	better than	3	7	4		To bring Utilization ratio in elementary school in northern region below 110/: we request polygon 97 move from CLES to NES. Or 1154 and 2154 to NES. (to eliminate a major island)
7286	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7287	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).
7288	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7289		FollyQuarterMS		1	worse than	6	7	13		worse than	6	7	13		

7290	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	8	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7291	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds	
7292	NorthfieldES	DunlogginMS		1	worse than	6	7	4	AAC, please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	6	7	4	We moved to Dunloggin from the Midwest because it reminded us of the close town we had just left. Please do not break it apart.	
7293	StJohnsLaneES		MtHebronHS	1	worse than	4	3	7	It is inconceivable that students who are in walking distance to one school would be shipped miles away to another school. I don't believe that the county, as a whole, has gotten itself into a situation where kids have to pay for past mistakes.	equal to	4	7	6	Students who are already going to Waverly would more easily move on to Mt. View MS and Marriotts Ridge, instead of pulling kids out of the SJLES, PMS, MHHS feed.	Moving students over 6 miles away is not acceptable when there is a school that they can ride a bike to. Considering before and after-school activities and parent involvement and other parental commitments, it is not reasonable to move students that far.
7294	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	7	4	3	Polygon 1189 has always been part of the Pointer Run ES community. Moving our polygon to Dayton Oaks ES would break the ties and relationships that our kids and community have with PRES and with families in the Pointers Run and River Hill areas.	worse than	4	3	6	PRES is 1 mile from Polygon 1189, but DOES is about 5 miles away. The extra distance will cost more in fuel and time for our kids. Plus, they will be impacted by the Rt. 32 highway widening project. And most PRES kids feed into Clarksville MS.	Please keep Polygon 1189 in Pointers Run ES. 1189 does not need to be put together with 189 across Guilford Rd because that neighborhood (Beazer Enclave) is still under construction (no model homes yet) and has no ties with 1189. Separate 1189 from 189.
7295	PointersRunES	ClarksvilleMS	AtholtonHS	5	worse than	6	5	2	Many kids want to stay with everyone that they know. It would cause too much harm than good to move them.	worse than	6	5	3	Many kids want to stay with everyone that they know. It would cause too much harm than good to move them.	
7296		MountViewMS	MarriottsRidgeHS	1	worse than	13	1	7	HIGHLY OPPOSED to current proposal to move Polygon 1179 to Folly Quarter & River Hill. Based on the small number of students moving schools, this plan would be DEVASTATING to our students and community.	worse than	4	2	1	Not justifiable to move a small amount of students out of Marriotts Ridge, staying at/below target capacity to River Hill which will be OVER capacity at 109%. And triple+ the mileage to travel on mostly back roads is not efficient, safe or effective.	I STRONGLY SUPPORT the Neighborhood Endorsed Plan for Polygons 179/1179 = West Friendship/Mount View/Marriotts Ridge. Please DO NOT move ANY high schoolers from current schools at this time, too detrimental to students.
7297			HowardHS		better than	6	7	8	The AAC plan lowers the capacity numbers at Howard High School.	better than	6	7	8	Thank you from polygons 87, 2087 and 3087 (Lyndwood Community). This maintains our students at HHS and keeps the polygons against the Rt 1 corridor districted to Long Reach.	Polygons along the Rt 1 corridor will be the ones that get redistricted when high school 13 opens. It makes logical sense to keep them districted to Long Reach. Thank you AAC for all of your hard work this summer!
7298			WildeLakeHS	1	worse than	1	2	4		worse than	2	4	1		
7299		OaklandMillsMS	OaklandMillsHS	3	equal to				The AAC draft is better in ways and worse in ways than the current school attendance area. I think it is too "big" in nature and moves too many students to quickly.	better than	14	14		THe AAC draft is much better than the F.S. and has responded considerably to the feedback given by the OMCA. I applaud the AAC's efforts. If a large redistricting MUST occur, I support the OMCA's positions.	However, the draft SHOULD consider the moves needed to open planned new schools over the near future (5 or better10 years). I recommend doing a minimal" action now opening only the new schools
7300		PatapscoMS			worse than	7	1	4		worse than	7	1	4	The HCPSS Feasibility Study does not take into account the Portable Classrooms assigned to each school and therefore does NOT reflect the true capacity utilization. The study should be recalculated including Portable classroom capacity so we can study...real capacity conditions across the county.	The study should be recalculated including Portable classroom capacity so we can study...real capacity conditions across the county.
7301			AtholtonHS	4	better than	1	7	6		better than	7	14	6		
7302	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Absolutely crazy that you would do a major HS or any redistricting so quickly with little neighborhood representation. Dunloggin got screwed	worse than	6	7	4	How are you not counting the amount of building happening in and around Wilde Lake. You will overcrowd Wilde Lake and have to do this again in 2 years. Ridiculous.	This is absolutely the worst thought out process I have seen. Inconsistent neighborhood representation and sticking Dunkoggin with a 10 day turn time putting us against other neighborhoods. Terrible plan. Too rushed.
7303	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	2	worse than	14			Please reconsider Scenario 14.	worse than					
7304			MtHebronHS	1	worse than	4	3	7	1. Current HS students live directly behind Mt Hebron HS and are walkers, no added transport costs 2. Affected students in polygon were redistricted in ES feed with in the last 5 years; v 3. Dividing line is mid point on the main access road thru commu	worse than	4	7	8	1. Current HS students live directly behind Mt Hebron HS and are walkers, no added transport costs 2. Affected students in polygon were redistricted in ES feed with in the last 5 years; 3. Dividing line is mid point on the main access road thru communi	Allow ALL HS students who started at Mt Hebron HS to finish there. They live right behind the HS today and are walkers. Why would you want to bus them 8 miles away and incur transport costs. Your plan makes little sense.
7305	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	2	AAC Draft 2 / Feasibility keeps long-standing Centennial / Old Annapolis Community streets connected to their community - thanks!	better than	7	2		Children that just moved into parts of 147 Have worked hard to integrate into their new community and school. Draft 2 helps protect them from another sudden change. This is greatly appreciated since another move in such a short time would be very tough on	Draft 2 keeps students in 147 going to the closest schools, which will help minimize Transportation costs and also allow for safe walking/biking.
7306	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please listen to the concerned residents in the Dunloggin community.
7307															
7308	CentennialLaneES		CentennialHS	5	better than	4	7	1		better than	4	7			To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f
7309		BurleighManorMS	CentennialHS		better than	4	7			better than	1	7			To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
7310	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	The redistricting process is of great concern to our children as it will be fractured by this short-sighted decision. Please stick to the original plan and postpone the high school redistricting decision until the new high school is built.

7311	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	2	5	9	The Feasibility study plan which alleviated future crowding of CHS by moving students along Old Fredrick to MRHS makes sense. Why is the Dunloggin community - which is NOT part of Columbia - being moved in the AAC plan?	worse than	2	5	9	The AAC plan for high schools does not comply with stated 6010 Policy initiatives of keeping students within a community together and also allowing students to remain in a school both demographically and academically similar to their current environment.	Review Dunloggin proposals 1.0 and 2.0
7312	CentennialLaneES		CentennialHS		better than	7	4			better than	4	7	6		To bring down capacity utilization of CHS, move polygon 2150 to WLHS, it also increases capacity utilization of WLHS, diversity. It keeps feeds of 150, 1150, 2150, 4150 and 219 together, along with 152, 1152. All above polygons share same ES, MS and HS.
7313			CentennialHS		better than	4	7			better than	7	4			To bring down capacity utilization of CHS, move polygons 3150 and 2150 to WLHS, it also increases capacity utilization of WLHS, diversity. It keeps feeds of 150, 1150, 2150, 4150, 219, 152, 1152 together. All above polygons share same ES, MS and HS.
7314	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	8	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 mile	better than	4	8	1	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	Thank you AAC for your consideration to keep 147 community together
7315	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	better than	3	7	14	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools; Incorporating the community's safety	Dear AAC, we greatly appreciate your effort and hard work to keep our kids safety
7316	ClemensCrossingES			4	better than	1	9	7	I am concerned about overcrowding at schools and utilizing pods or alternative classrooms so I am totally in favor of redistricting to make capacity utilization more efficient and equitable.	worse than	1	9	7	My only reason for stating that the AAC is worse" is because I would prefer my kids attend River Hill rather than Atholton HS. Otherwise	both plans are the same for ES and MS. My kids are entering kindergarten in 2017
7317	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	6	7	9	ThankKYOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	4	1	7		To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and feed
7318	LisbonES			4	better than	1	2	9	I am happy to see numbers moving west. I do wonder why the draft plan leaves WFES 100 seats under capacity. will some of the growth in the Turf Valley area filter into that district?	better than	2	1	9	It appears that this draft plan has fewer total elementary students impacted.	
7319	CentennialLaneES			1	worse than	13	13	13	My kids goes to Centenial elementary school,as we moved from Virginia making our preference for Centenial schools. If we moved.to other schools it will impact negatively	worse than					
7320	CentennialLaneES				worse than	4	7	13		worse than					
7321	CentennialLaneES		CentennialHS		worse than	13			Please don't move our kids to wild lake from Centenial. We hope our kids stay in Centenial schools	worse than					
7322	CentennialLaneES			1	worse than	13				worse than					
7323		BurleighManorMS		4		4	3	7	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	equal to	1	4	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	Keeping centennial community together, maintaining stability of Old Annapolis Rd community, allowing our high & middle school students to benefit of being in walking proximity of the schools; Incorporating the community's safety concern of cross Rt 108.
7324			CentennialHS		better than	6	4		The AAC draft plan keeps students in 147 going to the closest schools, which is helpful especially for my child, who has extracurricular activities and can walk home when I cannot pick her up.	better than	4				Thank you for taking into consideration keeping all of the Centennial/ Old Annapolis neighborhood polygons 147, 2147, 5147, 1156. Our children are part of a diverse community and we appreciate your efforts in preparing the draft plan.
7325	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	5	3	The new plan will cause the students in our neighborhood to be outcasts to their HS as our neighborhood is so far removed from Wilde Lake. It would make participation is extracurricular progarams difficult if not impossible.	worse than	4	3	5	My reasons are the same as above.	If our neighborhood must be redistricted, it makes much more sense to send the kids to Atholton High. Atholton is within a reasonable walking/biking distance and the distance is such that it should not incur any additional transportation costs.
7326	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Disrupting established neighborhoods, increasing travel distance/time & splitting students who would stay together is a terrible plan!	worse than	7	4	6	Disrupting established neighborhoods, increasing travel distance/time & splitting students who would stay together is a terrible plan!	
7327	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	7			The AAC Draft 2 keeps long-standing Centennial/Old Annapolis community streets connected to their community. Kids as well as parents that have recently moved into parts of 147 have worked hard to integrate into their new community and school.	better than	8	4	7	AAC Draft 2 plan helps protect the kids that have recently moved into Polygon 147 from another sudden change. This is greatly appreciated as another school move in less than 2 years of moving would be very tough mentally and emotionally on our children.	AAC Draft 2 rightly keeps ES students of Polygon 147 from crossing Rte 108 (a busy roadway) to get to their schools. It keeps students in 147 within the closest schools, which will minimize transportation costs and also allow for safe walking and biking.
7328	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	3	4	AAC draft plan 2 is an excellent plan.	equal to	1	3	6	AAC draft plan 2 and the feasibility study are both excellent plans	move poly 97 from CLES to NES and move poly 1154 and 2154 from NES to CLES. This alternative eliminates a major island (97) and balances FARMS ratios and maintain feeds.
7329	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	6	7	AAC draft plan 2 is an excellent plan.	equal to	1	3	7	Both plans are excellent	move poly 97 from CLES to NES and move poly 153 and 2154 from NES to CLES. This alternative eliminates a major island (97) and balances FARMS ratios and maintains feeds.
7330	CentennialLaneES			5	better than	4	2	1	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	8	7	4	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	Children will benefit by being in walking proximity of the schools and it addresses the community's safety concerns of crossing road 108, and our kids now don't have to change schools twice in two years.

7331				1	worse than	6	7	4	The students in the Dunloggin neighborhood should continue to go to Centennial HS and not be divided between Centennial and Wilde Lake. Please consider Dunloggin: Balanced Plan 1.0 & Dunloggin: Balanced Plan 2.0 as submitted to OSP.						Dunloggin is a cohesive, contiguous neighborhood in Ellicott City with children attending same elementary, middle and high schools. The ACC draft divides Dunloggin for high school attendance. This is not necessary. Please keep the children together.
7332	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	2	4	AAC draft plan 2 is an excellent plan.	equal to	1	2	4	Both plans are excellent	move poly 97 from CLES to NES and move poly 154 and 2154 from NES to CLES. This plan eliminates a major island (97), balances FARMS ratios and maintains feeds.
7333	CentennialLaneES				better than	1	4	7	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 154 & 2154 move from NES to CLES. My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108. Thank you Sir for your understanding.
7351	NorthfieldES	DunlogginMS	WildeLakeHS	2	worse than	10	9	2		worse than	9	10	2	WLHS already losing its beloved principal. An organization can only absorb so much change at one time. To change its leader and change a large % of its population is more risk than the school can absorb. Do not create more change or risk than needed.	WLHS is terrific school, its balanced diversity is its strength. Plan makes changes to that balance that create instability. WLHS needs solid/unwavering base of homes to maintain that balance, to ensure the whole ship continues to flourish.

7352				1	worse than	7			Do NOT split Dunloggin's hs..keep all ..Dunloggin in centennial hs	worse than	13					
7353		FollyQuarterMS		1	worse than	2	6	7		equal to	6					
7354	BushyParkES	GlenwoodMS	GlenelgHS	1	worse than	10			I am in Polygon 294. With the small amount of children within this polygon, moving them to Lisbon from BPES makes little sense. I also note increased development in and around Lisbon - BPES has a bigger cushion with enrollment; Lisbon does not.	worse than	10			Feasibility study keeps Polygon 294 within BPES, which makes more long term sense than moving them to Lisbon.	
7355		OaklandMillsMS		1	worse than	6	4	7		worse than						
7356	TalbottSpringsES	LakeElkhornMS	OaklandMillsHS	2	worse than	2	6	7	Keep TSES the way it is for now! With the new school coming, it would be ridiculous and unfair to make neighborhoods leave who have been at this school for MANY years. Hopewell (2051) and Sewells Orchard deserve to stay and NEED to stay for many reasons.	better than	6	2	7	I like the draft plan better because it puts my neighborhood (2051) back at TSES & OMHS however those schools are still struggling in the draft leaving out other neighborhoods/diversity factors. Leave this community the way it is We don't want this change	It would make sense to LEAVE TSES the way it is. The new school will have much higher capacity to fit us all comfortably. All the proposed changes affect the schools diversity and community stability in various neighborhoods. We don't want to redistrict!!
7357	CentennialLaneES	BurleighManorMS	CentennialHS	2	better than	7	4	1		better than	7					
7358	BushyParkES			1	worse than	10	2	7		worse than	10	2	7			
7359	IlchesterES	BonnieBranchMS	HowardHS	5	equal to	6	7	11	The Draft plan will not split my children apart from their childhood friends when they go to high school.	better than	6	7	11	The feasibility study would split our children up from their childhood friends and split us off from the surrounding community. The Feasibility study would split us apart from the neighbors across the street.	Please do not redistrict planning polygon 84 to Long Reach. Please keep my kids with their friends at Howard High School.
7360	ClemensCrossingES			5	better than	4	7		Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.	better than	4	7		Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together.	
7361	CentennialLaneES			5	better than	6	4		Thank you to keep Centennial Park (polygon 147) in Centennial school district.	better than	4			Thank you for maintaining the Old Annapolis road community by keeping polygons 147, 1147, 2147 and 5147 together.	
7362	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	7	4	Please consider the Dunloggin: Baanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP in narrative sections.	worse than	7	4	1	Please consider the Dunloggin: Baanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP in narrative sections.	It would seem to me that the Wilde Lake High school should try to pull from kids in Columbia neighborhoods versus tapping into the Ellicott City zip codes. It is also odd that the Wheatfield neighborhood is included in the Centennial School district.
7363	CentennialLaneES			5	better than	7	4		Thank you for keeping polygons 147, 2147, 5147 and 1156 all together. Also thank you for letting our kids to continue walking from Centennial high school to their homes. Draft 2 AAC plan is better.	better than	4	7		Thank you to keep Centennial Park (polygon 147) in Centennial school district.

Please adopt Dunloggin balanced plan 1.0 or 2.0 to address the safety, transportation, neighbor hood and other issues that the AAC draft plans create.
7367	ClemensCrossingES	WildeLakeMS	AtholtonHS	4	equal to	2				better than	10			The AAC draft plan is much more equitable in distributing impacts across schools. The prior plan singled out Atholton HS.	
7368	CentennialLaneES			4	better than	1	4	7	Polygon 147 is very close to Centennial schools. They should stay in Centennial.	better than	1	7	9	Polygon 147 has a new community that people live there just moved in. Don't move the kids twice in two years.	
7369	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	13	7		worse than	13	1	4			
7370	NorthfieldES	DunlogginMS	CentennialHS	5	worse than	4	1	7	Please consider Dunloggin balanced plan 1.0 and Dunloggin balanced plan 2.0 as submitted to OSP.							
7371			HowardHS	5	better than	4	7	9	The AAC draft helps alleviate some of the overcrowding at Howard High School while maintaining and maximising the area of walkers. This will not add to transportation cost and allow for this very diverse pocket of families to remain local and enrich HHS.	equal to	4	7	3	Maximizing the walking population to the schools is well represented in both the study and the current plan. Any further adjustment could compromise this.	Please remember here are many economical diverse families in our communities that do not have the means/time/access to really fight for their polygons. Keep them in mind while the others are vocal.
7372			CentennialHS	1	worse than	6	7	4	Keep neighborhoods together!!! Dunloggin has been one community for many years - you are splitting us in half. Disrupts feeder schools - keep children who have attended school together. Increased traffic into a very congested area. Opposite of policy.	worse than	6	7	4	The Feasibility Study supports policies - keeps neighborhood together; does not disrupt feeds; minimizes impact on neighborhood, children and traffic. Impossible to have walkers.	Support Dunloggin Balanced Plan 1.0 or Dunloggin Balanced Plan 2.0!!! Plans meet policy goals! Suspend high school redistricting until new high school is built and downtown Columbia redevelopment is implemented.
7373			RiverHillHS	4	better than	4	3	1	It looks great, except for walkers that were moved from WLHS to be bussed to RHHS. Capacity at RHHS is above 108% and WLHS is 96%. Move some of pg. 1143, 204, 2204, 1204 from WL to RH. Move some of pg. 1140, 1172, 172, 3174, 1053 from RH to WL to fix.	better than	3	4	1	It looks great, except for walkers that were moved from WLHS to be bussed to RHHS. Capacity at RHHS is above 108% and WLHS is 96%. Move some of pg. 1143, 204, 2204, 1204 from WL to RH. Move some of pg. 1140, 1172, 172, 3174, 1053 from RH to WL to fix.	At last week's AAC meeting, a committee member said changing a student from walking to being bussed cost the county about $65,000 per bus each year. Don't send the walkers from WL to RH. Send WL bussed students. This fixes capacity and cost problems.
7374	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	3	4	7	The AAC latest draft plan did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	better than	4	7	2	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request to move poly 97 from CLES to NES; & poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios & maintain feeds)	
7375	ClarksvilleES	ClarksvilleMS	RiverHillHS		worse than	6	7	4	Let the CMS kids stay together!!!	worse than	6	7	4	The FS study keeps CMS students together	THe Acc breaks up River hill neighborhood. Also Glebelg has a FARM of 3 and never once was that taken into account during hearing.

7382	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	2	7	9	AAC draft 2 is better than draft 1 with keeping the community together and ratio to reasonable. Thanks for working on hard on this and making this better for community.	better than	4	7	9	AAC draft 2 is better tha feasibility study and better than draft 1 as well. Keep up the good work. Thank you.	
7383	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	5	2		better than	4	7	9		
7384	CentennialLaneES				better than	4	7		Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	better than	4			THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	
7385		DunlogginMS	WildeLakeHS	1	worse than	6	7	9	WLHS loses several core and longstanding feeder communities (Harpers Choice and Columbia Hills) WL's FARM % increases by 3% WL's student population loses 40% of its students to other schools, effectively creating an entirely different school	worse than	7	9	6	WLHS loses several core and longstanding feeder communities (Harpers Choice and Columbia Hills) WL's FARM % increases by 3% WL's student population loses 40% of its students to other schools, effectively creating an entirely different school	The most recent plan dramatically affects WLHS, more so than any other HS. The new WL school boundary looks like a Maryland gerrymandered congressional district. Prior to this process, WL did not have a capacity problem and should be minimally affected.
7386	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS		worse than	13	7	8		worse than	13				Overall this plan has a major impact on our family with students at Triadelphia Ridge, Folly Quarters, and River Hill. We moved here three years ago with explicit goal of attending these schools.
7387	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Breaking up established neighborhoods and splitting neighborhood students is an awful plan! Also, sending students to farther schools increases costs and time.	worse than	7	4	6	Breaking up established neighborhoods and splitting neighborhood students is an awful plan! Also, sending students to farther schools increases costs and time.	
7388		DunlogginMS	WildeLakeHS	1	worse than	9	7	6	WLHS loses core feeder communities (Harpers and Columbia Hills). WLHS lost Centennial Overlook (not replaced by an equivalent) WLHS FARM increases (unacceptable) WLHS loses 400 students WLHS now has enormous geographic separation between communities	worse than	9	7	6	WLHS loses core feeder communities (Harpers and Columbia Hills). WLHS lost Centennial Overlook (no equivalent) WLHS FARM increases WLHS loses 400 students enormous geographic separation between communities No changed to AHS-not sharing in solutation	The AAC 2 negatively impacts WLHS. The new WLHS boundary is disjointed and disregards additional FARM impact, the movement of 400 students, and disruption to current WLHS feeder communities. Increasing the FARM percentage at WLHS is indefensible.
7389	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	Thanks to ACC committee for keeping the polygon 147 back to Centennial school district. The current plan is matching with the feasibility study.	equal to	1	4	8	Right now the AAC draft plan -2 is matching with the feasibility study.	
7390	AtholtonES	HammondMS	HammondHS	4	equal to	7	6	4	AAC draft plan 2 is the best so far at keeping communities together and keeping strong feeds between school levels. Much better than the ASC draft plan 1 that had MacGills Common, polygon 57 and 1057 in an island going to WLHS.	better than	7	6		AAC draft plan 2 is preferred	
7391			CentennialHS	1	worse than	4	6	7		worse than	6	4	7		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
7392	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	6	4	13	This new plan creates even smaller feeds for my small neighborhood and reduces the number of children moving along with ours through middle and high school. This is very difficult for children to transition between 3 schools in 3 different geo areas	worse than	6	4	13	This new plan creates even smaller feeds for my small neighborhood and reduces the number of children moving along with ours through middle and high school. This is very difficult for children to transition between 3 schools in 3 different geo areas	
7393	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	worse than	7	13	6	This plan split the folly quarter community apart. Greatly damage the community stability.	equal to					Keep filly quarter together!
7394		ClarksvilleMS		1	worse than	6				worse than	6			The Feasibility Study allows for the children in our neighborhood to attend the same schools, K-12. Based on our experience with an older child, splitting up neighborhood children is very disruptive.	
7395	CentennialLaneES	BurleighManorMS	CentennialHS		better than	4	5	10	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS & CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away than moving them to 1 that is almost 3 miles away	equal to	4			Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 153 & 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds
7396	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	7	6	I strongly advise you to keep Polygons 154, 2154, 1154, and 214 in Centennial High School. Redistrict 97 and 147 out.	worse than	4	6	7	154, 2154, 1154, 214 in. 97 and 147 out	Please do this for our sake. My son has resolved to kill himself if you do not repeal this.
7397	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	7	6	Keep154, 214,1154 and 2154 in CHS. Move 147 and 97 out as rhese two areas have high projected growth of more than 25%.	worse than	4	6	7	154,2154,214 and 1154 have no projected growth, 97 and 147 are projected to grow at more than 25%.	Keep 154,214,1154 and 2154 in CHS.
7398	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
7399	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	5			We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	5		THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108
7400	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
7401	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	4	5	Draft 2 plan keeps old annapolis communities together 147,5147,1156 and allows our kids to walk to school, be in same programs with their friends.	equal to	7	4	5	Feasibility plan and aaa draft 2 plan are same for our community	
7402	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP

7403	AtholtonES			1	worse than	7	6		The draft plan sends Allview students currently attending Oakland Mills (relatively close in distance) to Wilde Lake HS, which is not only the 4th closest HS to Allview, but also separated from our neighborhood by several major roads/freeways.	worse than	7	6		The Feasibility Study would bring the entire Allview community together to attend Atholton HS, whereas the AAC draft plan would keep the neighborhood students broken up, sending some to the far-removed Wilde Lake HS.	Keeping students from the small Allview neighborhood together is important as it is a small neighborhood, relatively isolated by major roads/freeways. Any plan (such as the Feasibility Study), which would keep these students together would be encouraged.
7404	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider dunloggin balanced plan 1 and dunloggin balanced plan 2.0 as submitted to OSP	worse than	1	4	7	Please consider dunloggin balanced plan 1 and dunloggin balanced plan 2.0 as submitted to OSP	
7405					worse than	7	6	4	The new plan would be disruptive to both of my children and would result in moving them from Hammond MS which is currently at less than 100% capacity to Lake Elkhorn which would reach 109% capacity with our population. This doesn't make sense!	worse than	6	4	7	The feasibility study results are far better than the AAC draft plan.	Please reconsider the plan for the MacGills Common community and either keep it the same as it is now or use the feasibility results.
7406			CentennialHS	1	worse than	4	6	7	The moves proposed do not reflect the goals of lower FARM numbers and better balancing utilization significantly enough to justify the poor consideration of all of the above policy numbers. It is throwing the baby out with the bathwater.	worse than	4	6	7	The feasibility study is significantly better than the most recent plan but still inadequately considers the above policies.	Dunloggin Balanced Plans 1.0 & 2.0 are worthy of your consideration. We recognize that redistricting must occur, but there needs to be more attention to standing policy. Additionally, current high school students across the county need to be grandfathered
7407	PointersRunES	ClarksvilleMS	AtholtonHS	1	equal to	7				worse than	7			Feasibility study based on data. I will take that any day over a plan haphazardly put together by random people with no experience in this sort of planning and their own motives.	Summer Sunrise and River Run section of River Hill should remain at Pointers Run and attend River Hill High.
7408			CentennialHS	5	equal to	8			Some of our kids already moved from different schools into the centennial school in last 2 years. Againmoving them to a new school will be disastrous especially for HS kids. Please keep the plan as proposed by AAC draft 2. Thank you						
7409	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	7	4	9	This draft 2 is better tha current and draft 1	better than	4	7	9	This draft 2 is better than feasibility study and draft 1.	
7410	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	worse than	4	2	3	Too many communities are to be redistricted.	worse than	4	2	3		
7411	TriadelphiaRidgeE	FollyQuarterMS	RiverHillHS	1	worse than	3	4	7	It's worse and cannot agree with this plan at all	worse than	3	4	7	It's worse and cannot agree with this plan at all	
7412			WildeLakeHS		worse than				Percentage of Farms totally unacceptable. Distance between communities to same school. temporary housing increase dramatically.	worse than	4	9			
7413	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	I believe that any redistricting of high schools should be postponed until the newest high school is built to minimize the redistricting of high school students.

7417	ThunderHillES	DunlogginMS	WildeLakeHS		worse than	4	1	13	The draft AAC plan negatively impacts my children and my family based on transportation and safety concerns,for example the bus commute time is extended, bus must cross major intersections, and the new court house traffic along the commute.	worse than	4	1	13	The draft AAC plan negatively impacts my children and my family based on transportation and safety concerns,for example the bus commute time is extended, bus must cross major intersections, and the new court house traffic along the commute.	I propose polygons 111, 1111, 2111 to go to Northfield ES, Dunloggin MS and Wilde Lake HS. This proposal solves safety and transportation concerns, longetitivy of the feed, and maintains our sense of community.
7418	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	equal to	4	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.
7419	PointersRunES	ClarksvilleMS	AtholtonHS	5	equal to	6	7	3	Keep feeds of students together from one school to another is important for both mental and physical development of students. I like the new plan that keep our neighbor hood continuous.	equal to	6	7	4	Keep feeds of students together from one school to another is important for both mental and physical development of students. I like the new plan that keep our neighbor hood continuous.	
7420	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	6	5	AAC Draft 2 plan divides Dunnlogin community, We suggest moving ALL of Dunnlogin students to WLHS to maintain current feeds, all kids go to same school, balances FARM and keeps community together.	worse than	7	6	5	ALL dunnlogin students going to WLHS will keep community united, maintain current fees NES,DMS to WLHS, balance FARM and help utilization at WLHS. United dunnlogin philosophy will work if everybody goes to WLHS.	Consider keeping dunnlogin united and send ALL kids to WLHS
7421	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	equal to	4	7	8	kids who live in zone 147 bike or walk to (CHS or BMMS).Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010.	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens
7422	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
7423	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	4	6	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	It is terrible that you are uprooting friendships and a community that has had Centennial as its HS for 40 years!
7424	DaytonOaksES	LimeKilnMS	RiverHillHS	1	worse than	4	2	6	Please delay the High School redistricting.	worse than	6	4	2	Other than tearing the AHS apart, current plan is tearing RHHS and WLHS apart.	New HS in the east is needed, rather than shuffling polygons of kids around. Kids should not be the victim.
7425				2	worse than	9	2	6	Based on projected rebuild of Talbott Springs ES and balancing the FARM rate now between STevens Forest and Talbott Springs ES.	equal to	1	7	10	Some of the AAC remain more equitable other parts are not. I think the process is rushed and sufficient data was not provided from the start or during process. Step back, take more time with balanced Committee and factual information.	
7426		DunlogginMS	CentennialHS	1	worse than	7	4		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	4		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Building a stronger Howard County does not start with splitting neighborhoods down the middle, It is detrimental to our children to tear them away from their friends/support group during this critical transition period from childhood to adulthood.

7427	WestFriendshipE	MountViewMS	MarriottsRidgeHS	1	worse than	4	7	13	Students on the Rt 32 deserve the same amount of consideration as east HoCo students.What's the point of forcing the small amount of students travel over an hour when they live WALKING distance to MV/ MRH? Their cognition and academic development matters.	worse than	3	4	13	To deprive children in the west region opportunities of attending their neighborhood school and send them down busy and slow rt 32 for more than an hour is wrong. Polygon 1229 is next to MV and MR and walking distance. We are overlooked because our size	As a School Psychologist for another district, research is strong on the dangers of less sleep on cognition and behaviors. I'm extremely concerned that my daughter's commute increase from 4 mins from WFES to over an hour for the rest of her school career.
7428	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
7429	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	1	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	7	6	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Postponing HS redistricting until the new HS is built seems the most reasonable and pragmatic approach. In the absence of that, keeping neighborhoods together, minimizing the transportation requirements (for both the county, parents and CHILDREN)
7430	AtholtonES	HammondMS	HammondHS	5	better than	4	7	2	I prefer the second AAC plan to the first one. The second plan keeps my neighborhood where we currently are and makes more sense logistically among other things	equal to	4	6	2	The feasibility study makes more sense than the original AAC plan but still prefer the second AAC plan	
7431	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	I respect the county's goals and the efforts of the AAC committee, but the plan to divide the Dunloggin neighborhood is not inclusive and it creates more divisions at a time when we should embrace unity.
7432			CentennialHS		equal to	7			Unite Dunloggin. Move 2150 and 3150 to WLHS	equal to			7		
7433		DunlogginMS	WildeLakeHS	3		9			We are concerned that WLHS FARM percentage increases (already No. 2 in HoCo). No concern about DMS students being moved to WLHS.

7474	CentennialLaneES			5	better than	10			Thanks to AAC for the recommendation to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 plan helps keep the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.	better than	10				The AAC Draft 2 plan enables kids to attend schools with the shortest distance minimizing transportation costs and prevents the need for ES kids in 147 to cross a major road 108 (safety concerns).
7475	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	6	6	6	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	4	4	4	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools; Incorporating the community's safety concern	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain
7476	CentennialLaneES	BurleighManorMS		5	better than	4	7		This is a very best AAC DRAFT.. Appreciate the planners. AAC IS MAKING EVERY EFFORT TO BALANCE THE RATIOS.	better than	4	7			UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7477	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	2	4	5	AAC draft #2 reduces school capacity overflow problem, thanks	better than	3	4	6	AAC draft #2 reduced the number of students that need to move, keep community more stabile.	Unite Dunloggin! move all Dunloggin ploygons (2150 + 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS and WLHS, creates better feed plan for Dunloggin and balance FARM
7478		PatapscoMS	MtHebronHS	1	worse than	4	8	6	We are in polygon 160, the Preserve at Mt Hebron, which us 0.4 miles from Mt Hebron HS. It makes no sense to bus us 7 miles down the road to Marriotts Ridge. Mt Hebron is IN THE NAME of our community!	equal to	4	8	6	Our students went through a very difficult redistricting in 2013. Our neighborhood has been yanked between schools several times already. Do not move us to MRHS just to move us back to MHHS when HS #13 opens. We are 0.4 miles from MHHS.	Please fast track the building of HS #13 and do not move our polygon (160) to MRHS, 7 miles away, while MHHS is 0.4 miles. Moving us will have no effect on the overcrowding at HHS and will be very detrimental to our students.
7479	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7	The ACC draft plan - 2 is matching with the Feasibility study plan.	equal to	4	3	6	Thanks to ACC committee for keeping Polygon 147 i Centennial school districts. Polygon 147 is integral part of Centennial area and it should be in the Centennial school district.	Thanks to ACC committee for keeping Polygon 147 i Centennial school districts. Polygon 147 is integral part of Centennial area and it should be in the Centennial school district.
7480	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	1	4	5	Keep Dunloggin community together. Recommend moving 3150 and 2150 to Wildlake HS To keep the community contiguous					Keep Dunloggin community together. Recommend moving 3150 and 2150 to Wildlake HS To keep the community contiguous	Keep Dunloggin community together. Recommend moving 3150 and 2150 to Wildlake HS To keep the community contiguous
7481	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	5	10	4	AAC draft #2 reduces school capacity overflow problem, maintains community stability	better than	3	5	9	AAC draft #2 reduced the number of students that need to move, keep community more stabile.	Unite Dunloggin! move all Dunloggin ploygons (2150 + 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS and WLHS, creates better feed plan for Dunloggin and balance FARM
7482	CentennialLaneES				better than	4	6	7	Thank you for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan 2	better than	3	4	7	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools. THANK YOU for your consideration.
7483	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	8	3	4	AAC draft #2 reduces school capacity overflow problem, thanks	better than	5	6	3	AAC draft #2 reduced the number of students that need to move, keep community more stabile.	Unite Dunloggin! move all Dunloggin ploygons (2150 + 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS and WLHS, creates better feed plan for Dunloggin and balance FARM
7484	CentennialLaneES								UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.					UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7485	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	WLHS historically has strong sports teams. Redistricting school will impact the team, the neighborhood negatively. The legacy will not be there any more. Increased travel time will negatively impact kid's afterschool activities.	worse than	4	6	8		With the AAC draft plan, many HS will have feed <15%, which is against policy 6010.
7486		HarpersChoiceMS	WildeLakeHS	4	better than	6	7	9		better than	6	7	9	The feasibility study did not impact me but the AAC draft plan has a huge impact on my family.	I hope consideration will be giving to rising 11th graders. I will have a rising 9th grader and rising 11th grader. Although I would prefer that both my children be in one school. I would like for rising 11th graders to remain at WLHS.

7487	CentennialLaneES			5	better than	10				better than			10	AAC Draft 2 plan provides balance between attendance balancing needs and capturing community feedback. 147 students now can attend schools with least distance and get continuity in terms of community stability.	Other alternate plans such as uniting all of Dunloggin to one area or other alternate plans could cause major dislocation and adverse impact multiple communities.The Draft 2 plan retains key strengths of the feasibility study and feedback from communities
7488	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	8	7		equal to	4	8	7	To bring utilization ratios in Elementary schools in the northern region below 110%, we request that poly 95 move from CLES to NES ; and poly 154 and 2154 move from NES to CLES (this world eliminate a major island, balance FARMS ratios and maintain feed	
7489	CentennialLaneES	BurleighManorMS	CentennialHS		equal to	4	7	8		equal to	7	8	4	To bring utilization ratios in Elementary schools in the northern region below 110%, we request that poly 95 move from CLES to NES ; and poly 154 and 2154 move from NES to CLES (this world eliminate a major island, balance FARMS ratios and maintain feed

7514	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	7	5	The new plan moves the HS kids so far away this would before/after school activities very difficult. The walk to/from school would be over an hour. So, if my son had soccer at 6:30am, he would leave the house at 5:15am and travel in the dark vs 30 min	worse than	4	5	3	Same as above, and to continue from above...I don't believe Wilde Lake has a JROTC and my son is currently enrolled. So he would have to get transportation to another school to remain in this very worthwhile program.	Additionally, if my son had after school practice and a parent could not pick him up, the long walk which takes about 45 additional minutes, would cut into his homework time. My son is in GT & honors classes...he needs as much study time as he can get.
7515	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	1		worse than	1	4	7		
7516	CentennialLaneES			5	better than	6			My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108						
7517	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	1	4	6	Based on the AAC draft plan, RHHS will be overcapacitated (~108%).	worse than	4	6	2		The AAC draft plan is short-sighted, it does did not include the new developments in the area. Redistricting wastes a lot of taxpayers' time and money. Kids are human beings, they cannot be treated as polygons and being moved around every five years.
7518	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	2	worse than	6	7	1	The middle school to high school transition are difficult years for pubescent children. I feel the peer groups that they form are important and attempts should be made at maintaining them. School geographic location is important as well.	worse than	1	4	6		
7519				1	worse than	7	6	4	Please consider Dunloggin Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	7	6	4	Please consider Dunloggin: Balanced 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	Children in the Dunloggin neighborhood should not be split into two different high schools. Doing so would break-up a community and negatively impact the lives of children and families.
7520		BurleighManorMS		4	equal to	9			To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	equal to					
7521	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than	4	5	7	Polygon 1056 here. Our sons have all been involved with the JROTC. They commute to and fro school rather often. We own a restaurant so many times we can't drive them. The additional commute to school and lack of JROTC program at Wilde Lake is not good	worse than	4	5	7	We are so far away from Wilde Lake, the transfer makes absolutely no sense. Find another way to balance out the attendance areas. Our polygon is very small, so please just leave us where we are. At least don't move the HS kids who are involved in...	Cont. from above... ...programs that are not offered at Wilde Lake. These kids are told to plan out all their classes for HS when they are in middle school. By doing this you disrupt everything & will likely wreak havoc on their grades & mental health.
7522	TriadelphiaRidgeES			3	equal to	2			Has the AAC considered the impact of the Route 32 widening project that will close the Triadelphia Road bridge for a period of time? Some polygons east of the bridge have been moved to Glenelg High School. Will the school be accessible during this time?	better than	14				
7523			CentennialHS	1	worse than	6	7	4	Strongly recommend Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0. Keep Dunloggin - a 100 yr old community - together! The AAC plan lacks strategy. It represents massive moves with few & temporary benefits.	worse than	4	6	7	The feasibility study is a much more responsible plan with the greatest benefits from least student impact. Strongly recommend Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0. Keep Dunloggin - a 100 yr old community - together!	Build the new high school before redistricting high school! AAC plan and feasibility plans are temporary resulting in redistricting again in a few years.
7524	AtholtonES			1	worse than	6	4	7		worse than	6	7	4

7533			CentennialHS	1	worse than	6	7	4	With concern to Policy 6010, Draft Plan 2 for high schools insufficiently balances IV.B.1. Facility Utilization factors (efficient use of space vs studen travel), and prioritizes IV.B.3. Demographic Characteristcs over IV.B.2. Community Stability.	worse than	6	7	4	With concern to Policy 6010, Draft Plan 2 for high schools insufficiently balances IV.B.1. Facility Utilization factors (efficient use of space vs studen travel), and prioritizes IV.B.3. Demographic Characteristcs over IV.B.2. Community Stability.	The Feasability Study included a minimally disruptive high school plan. The two Draft Plans, by comparison, significantly change current boundaries for insufficient cause.
7534	WaverlyES			4	better than	6	7		Main downside of plan is at the middle and high school level. Those student should be able to stay at their current schools with redistricting effecting students only as they enter middle school. Or allow open enrollment. Allow current HS walkers to stay.	better than	14			Unfair to continually uproot the same neighborhoods. Also makes no sense to swap kids from Waverly with SJLES by moving them eastward when ALL issues are in the east. Unless APFO is strenghtened another redistricting is inevitable. FIX THE ROOT CAUSE.	Don't redistrict without strengthening APFO as it will only exacerbate current problems by allowing for more development. Put pressure on County Council to strengthen APFO as well as build new schools now.
7535			CentennialHS	1		4	7		Please consider Dunloggin Balanced plan 1.0 and Dunloggin balanced plan 2.0 as submitted by OSP	worse than	2	4	7		
7536			CentennialHS	1	worse than	7	4	1	The current AAC plan will divide our Dunloggin neighborhood - why?? To what purpose? We are an established cohesive community with a 3-school continuum that unites us. Please consider Dunloggin: Balanced Plan 1.0 and Plan 2.0 as submitted to OSP.	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	PLEASE reconsider this ill-conceived plan to divide our cohesive, unified neighborhood. We have generations who have attended the 3-school continuum - and have planned lives, home purchases and relocations to continue this tradition.

To bring utilization ratios in Elementary schools in the Northern region below 110%, we request poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds)
7545			CentennialHS	4	equal to	7	9	10	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan	equal to	7	1	4	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
7546			CentennialHS	4		2	4	5	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	equal to	10	4	1	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	

7547			CentennialHS	4	equal to	1	7	2	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood.	equal to	2	10	3	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
7548			CentennialHS	4	equal to	1	5	7	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 mile	equal to	4	5	10	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
7549	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	4	3		better than	4	6	7		Move all Dunloggin polygons (including 2150 and 3150) to WLHS will keep feeds of kids together to high school instead of being separated. This also helps balance utilization between CHS and WLHS.
7550			WildeLakeHS	3	equal to	4	6		While I welcome the opportunity for my son to attend a high-performing school such as River Hill, it doesn't seem to make sense in terms of transportation considerations and also my son would be mainly with new kids.	worse than	4	6		The feasibility study recommendations make more sense from my personal perspective. It would transfer my son to AHS where he would reconnect with a lot of his CCES classmates.	It took me a while to figure out which proposal I was going to be commenting on: the Feasibility study, the Draft 1 plan, or the Draft 2 plan. For future surveys, additional clarity would be useful. I hope other respondents did not get confused.
7551	CentennialLaneES	BurleighManorMS		5	better than	3	4	6		better than	1	6	7		Moving Dunloggin polygons (including 2150 and 3150) to WLHS ensures the stability and contiguity of Dunloggin community. This also balances utilization and FARM between both CHS and WLHS.
7552	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns for example bus commute times, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns for example bus commute times, crossing major intersections, and a new court house traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and, 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
7553	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	Moving students in walking zone of one school to another school really does not make sense.	worse than	4				
7554	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	6	7		better than	4	6	7		By moving all Dunloggin polygons (including 2150 and 3150) to WLHS, it creates better feed plan for Dunloggin, balances utilization ratios and FARMs between CHS and WLHS, and promote community contiguity and stability.
7555	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	6	4	2	Our kids in polygon 154 plus 214, 1154,2154, will be bused 40 minutes away to MRHS, instead of 10 minutes bus ride to CHS. The shift will offset the goal to push school starting time. It is impossible for our kids to attend extracurricular in MRHS.	equal to	6	4	3	2 plans don't respect the policy 6010 of moving students together from one school to the next. Isolated our 154, plus 214,1154,2154 from existing communities. Rt 40 should be the true and established geographic redistricting line. Not FREDERICK rd.	Polygon 97 has projected enrollment 96 kids in 2018, it grows to 121 kids. If CHS capacity is an immediate concern, AAC should take the fast enrollment growth rate into account. 97 is easier to get on west of Rt 40 than our communities.
7556		BurleighManorMS		1	worse than		4		My family resides in polygon 154 in the Nob Hill community. I hate to see moving our high school kids from Centennial high to Marriotts Ridge High. It takes more than 8 miles distance to go to MRHS while CHS is just around the corner.	equal to		4			High school kids hate to see changing schools. It will damage their social and academic development !.
7557			CentennialHS	4	equal to	1	2	3	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to	1	2	3	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
7558	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	7	12	4	I support draft 2, because it respects wishes of residents!! Everyone in the community wants to be CL schools. AAC is respectful to citizen.		12	7	5	147 has 80 new homes and 50 old homes. Every single new home owner moved because they love the schools. Please keep in mind, it can ruin families who saved all their life to educate situation. Draft got that plainly wrong but Draft 2 came through!!	Polygon 147 does not have enough students compared to larger area in Dunloggin to make a difference for WL HS. WL will be population growth, why are we setting ourselves for another redistricted. Stick with plan 2.
7559			CentennialHS	4	equal to	5	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	equal to	1	3	8	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. 7612		BurleighManorMS	CentennialHS	5	better than	3	4	6	Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
7613	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	2	3	AAC draft plan 2 is an excellent plan.	better than	1	2	3	Both plans are excellent	move all dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balances utilization between CHS&WLHS, creates better feed plan for Duloggin, and balances FARM.
7614	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	2	3	AAC draft plan 2 is an excellent plan.	better than	1	2	3	Both plans are excellent	move all dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balances utilization between CHS&WLHS, creates better feed plan for Duloggin, and balances FARM.
7615	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	9	Thanks for keeping poly 147 together with rest of the 147 polygons to keep the contiguous community together in draft 2. This keeps us working walking distance with MS & HS.	equal to	2	7	9	Request to now polygon 147 to NES from CLES and poly 1154 and 2154 move from NES to CLES to avoid major island & balance FARMS ratio and maintain feeds	
7616	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	2	3		better than	1	2	4	Both plans are excellent	move all dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balances utilization between CHS&WLHS, creates better feed plan for Duloggin, and balances FARM.
7617	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	2	3		equal to	1	1	1	Both plans are excellent	move all dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balances utilization between CHS&WLHS, creates better feed plan for Duloggin, and balances FARM.
7618		ClarksvilleMS	AtholtonHS	4	better than	9	10	7		worse than	13	6	7		
7619	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	3	4		better than	3	4	7		The Aac latest draft plan did an amazing job keeping communities contiguous. The draft plan keeps zone 147 on CHS and prevents it from having to send elementary kids across major highway(108).
7620	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	1	1	1		equal to	1	1	1		move all dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balances utilization between CHS&WLHS, creates better feed plan for Duloggin, and balances FARM.

7621		OaklandMillsMS	OaklandMillsHS	1	worse than	7	4	1	Allview Estates has been attending OM schools for 30+ years. We are a part of OM community and have many programs in place that align AES-OMMS-OMHS such as Stringapalooza and WBAL Kids concert. WLHS is non-contiguous. Our kids can bike to OMMS/OMHS.	worse than	7	4	1	We strongly want to stay at OMMS and OMHS. Moving to AHS makes slightly more sense than to WLHS - shorter bus ride, closer to our OM community. WL too far, no contiguous borders, no common community experience. We are entrenched in OM community.	Why take Allview out of OMMS to swap with LEMS for similar #s? We strongly want 56, 1056, 2056 and 3056 to stay AES-OMMS-OMHS. We are an old neighborhood with no new development and stable #s. Please keep us at OMMS and OMHS - it is our community.
7622	CentennialLaneES	BurleighManorMS	CentennialHS		better than	1	2	3		better than	4	2	5		
7623	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	4	7	9	Thanks for keeping polygon 147 together with rest of the centennial community in draft 2 as we are walking distance to MS and HS that will save transportation cost to county.	better than	4	7	9	I would request to move polygon 97 to NES and polygons 1154 and 2154 to CLES. This will eliminate an island, balance FARM ratio and maintain feed.	
7624			CentennialHS	1	worse than	1	4	7	Please reference the Dunloggin: Balanced Plans 1.0 and Plan 2.0 that were submitted to the OSP, which address the above concerns, or please delay HS redistricting until further study is completed and/or new high school plans are final.	worse than	1	7	4	Please reference the Dunloggin: Balanced Plans 1.0 and Plan 2.0 that were submitted to the OSP, which address the above concerns, or please delay HS redistricting until further study is completed and/or new high school plans are final.	
7625	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	6	4	7	Keep Dunloggin community together, It is a well established, clearly defined community. 7728	CentennialLaneES	BurleighManorMS		5						better than	7	6		The fracturing of the Font Hill community does not support nor promote community stability. Per polygon breakdown; Polgyon 1184 has 31 students projected for the 2018-2019 school year in CHS. That is less than 8 children per grade.	1184, 2184 and 156 make up the Font Hill neighborhood. We are ONE neighborhood. Please support the 8/8 version of the plan.
7729	NorthfieldES	DunlogginMS	CentennialHS		worse than	4	1	7							
7730		BurleighManorMS	CentennialHS	5	better than				Addresses overcrowding.	better than	7	6	4	Keeps Font Hill community together-2184,1184,184, and 156, recognizes contiguous neighborhood. Takes into consideration close proximity of HS and allows students to walk home when they stay late for after school activities.	Thank you for using Frederick Rd as logical boundary line. In addition, thank you for moving 2000 less students overall.
7731	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7732			AtholtonHS	1	worse than	6				worse than	6	4	1	Keep our CMS students together. We used to go to RHHS until 2002. FS put us back to RHHS, but now AAC put us back to AHS. We want to go to RHHS!!!!! Those families who said not to go to RHHS were just a small portion who should not represent us.	
7733	ClarksvilleES			1	worse than	4	3	6	Move the wide lake walker zones to river hill high school is unacceptble, the communities should keep together. Why is the aac plan so different to the FS? Clearly, the aac plan doesn't consider the redistricting in the benefit of the whole county.	worse than	4	6	7	The polygons was redistricted to Clarksville elementary school from Harperschoice doesn't fit the policy of continuous feeding to the same schools.	Strong disagree AAC plan and concern about the conflict to interest of the AAC members.
7734	CentennialLaneES			5	equal to	9	1	3	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to	1	6	3	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	
7735		BurleighManorMS		5	equal to	6	1	4	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	6	1	3	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	
7736			CentennialHS	5	better than				Reduces overcrowding at high school.	better than	6	7	4	AAC plan is BETTER than Feasibility study because it keeps together Font Hill neighborhood-2184, 1184, 184, and 156; a contiguous established neighborhood.	Logical to use Frederick Rd as boundary line-thank you!
7737			WildeLakeHS		worse than	4	3	6	let us walk to school. We don't want to go to River Hill High	worse than	4	3	6	FS took years to come up with. ACC should not overturn so many areas. Let us stay at WLH! we are walkers. Please save money by letting us walk!	
7738	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7739			AtholtonHS	4	better than	6			thank you for putting 118 and 190 back to RHHS. those polygons belongs RHHS until 2002. Thank you for putting us back to RHHS.					as long as 190 and 118 still goes to RHHS, we are good. FS put more AHS families back to RHHS, I wish River hill is more united. Please keep 190 and 118's plan to move back to RHHS.	
7740			CentennialHS		better than	7				better than	6	4	7	This current plan is better: it moves less students, achieves goal of reducing overcrowding, and keeps together Font Hill neighborhood 2184, 1183, 184, and 156.	Thank you for keeping together the Font Hill community and using Frederick Rd as a more logical boundary.
7741	ClemensCrossing	HarpersChoiceMS	WildeLakeHS	1	worse than	3	4	7	We are moved from the closest elementary school that we have gone to for 30 years. The high school choice of AAC sends us 4.8 extra miles. It creates a hypothetical "community" when we consider the closest people to us our community.	worse than	4	7	3	Our community has been CCE for 30 years. We live close to CCE and 1 mile from AHS. Our neighborhood shouldn't have to drive 5.8 miles to RHHS when AHS is 1 mile. 4.8 miles extra. Other communities are closer to RHHS going to AHS. Net gain 4 us=more	Please update your walking area for polygon 66. High School walking areas are 1.5 miles from the high school. We have an easy path, all with sidewalks and crosswalks, to the high school, which is 1 mile from the polygon entrance & 1.5 from my house.
7742	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7743	ClemensCrossing	HarpersChoiceMS	WildeLakeHS	1	worse than	7	6	3	Our neighborhood has been fed to Clemens Crossing for 30 years, which is quite close and definitely part of what we consider our neighborhood. Atholton HS is within walking distance, yet this plan buses us 20 mins to River Hill?? Really??? Horrible	worse than	4	7	6	The AAC plan seems to unnecessarily bus many communities far away from their natural, proximate schools. We like the Feasibility plan as it keeps us in our neighborhood for ES and HS, keeps our kids with their friends and would GREATLY reduce transp costs	polygon 66 would like to ask that we be included in the 1.5-mile walkable distance from Clemens Crossing ES and Atholton HS. It is ridiculous that anyone within walking distance of a school not attend that school, unless there is some large impediment...
7744	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	4	6	7	AAC drafts 1 and 2 both terrible for River Hill community. Breaks community kids social network and increase commute time.	worse than	4	6	7	Feasibility plan is far superior at understanding and implementing BOE goals of keeping communities together and kids moving through K-12 together.	Don't break River Hill community apart. Keep 1189 at PRES instead of bussing Fulton kids in, more sense to send them to Dayton Oaks since it's a feeder to Lime Kiln. You are already displacing them from FES, why displace PRES kids too? Very silly swap
7745			CentennialHS		equal to				We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to					

7746	NorthfieldES				worse than	7	4	7	This AAC plan cuts our neighborhood in half. Dunloggin is one of the oldest recognized communities in Howard County and we want our kids to stay together throughout all the school years. Friends will be split, clubs will be split, sports teams split.	worse than	7	4	7	We do not want the Dunloggin neighborhood split in half. We want to stay at Centennial High School - it is much closer for our kids and doesn't make sense to send them twice as far. We chose this neighborhood because of the proximity to all 3 schools.	
7747		BurleighManorMS			equal to									To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES;poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds	
7748	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	Kids from 147 play with kids from 1156. They attend community events with neighbors. Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7749	CentennialLaneES				equal to				My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to					
7750			CentennialHS		equal to				To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; poly 154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds	equal to					
7751	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Dunloggin established in 1926 for 91 years = with 155, 1155, 150, 1150, 2150, 3150, 4150, 219, don't divide us!	worse than	4	6	7	Dunloggin is less/about 3 miles from CHS (current), accessible by bike/foot. WLHS (proposed) is more than doubled distance with highway 29, 175, will NOT accessible by bike/foot any more.	North side of 40 and east side of 29 have to pass our house and neighborhood to CHS – currently not accessible by bike/foot. They shall go to WLHS – will alleviate local traffic.
7752				1	worse than	4	1	7	I don't see how this plan helps anyone in this area.	worse than	4	1	7		
7753	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7754	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Dunloggin established in 1926 for 91 years = with 155, 1155, 150, 1150, 2150, 3150, 4150, 219, don't divide us!	worse than	4	6	7	Dunloggin is less/about 3 miles from CHS (current), accessible by bike/foot. WLHS (proposed) is more than doubled distance cross 29, 175, will NOT accessible by bike/foot any more.	Currently polygons (North side of 40 & east side of 29) have to pass our house and neighborhood to CHS – currently not accessible by bike/foot. They shall go to WLHS – will alleviate local traffic.
7755	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	3	6	7	Communties are not maintained in AAC plan. Appreciate the effort but AAC plans lack understanding of BOE policies.	worse than	6	7	4	River Hill community should all go to River Hill high school as one community like it was in the feasibility study. Keep communities together, transportation costs down and kids together K-12	
7756	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Dunloggin does not want to be split in half for high school. Our neighborhood has been a recognized community for many years and this plan tears us apart! Please keep us as one community and keep us at Centennial High School.	worse than	7	4	7	The AAC draft plan splits our neighborhood in half, kids from the same streets will be sent to different schools. Centennial is half the distance from us compared to Wilde Lake and we moved here to be close to our kids' schools.	Please do not divide our neighborhood. Our kids can walk to all 3 schools now and that will be impossible if we are moved. As working parents we know our kids can get to school safely or get a ride from a neighbor if they miss the bus or stay after.
7757	TriadelphiaRidgeES			1	worse than	6	9	4	This proposed plan ignores many of the policies in place to protect students and foster their education initiatives. This plan is short sighted and most impacts are negative to the student populations and to their families.	worse than	4	6	9	The AAC plan appears to driven by motives other than the support of student education and personal growth and neglects the projected school utilization projections and solutions in the Feasibility Study..	
7758	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Dunloggin established in 1926 for 91 years = with 155, 1155, 150, 1150, 2150, 3150, 4150, 219, don't divide us!	worse than	4	6	7	Dunloggin is less/about 3 miles from CHS (current), accessible by bike/foot. WLHS (proposed) is more than doubled distance cross 29, 175, will NOT accessible by bike/foot any more.	Currently polygons (North side of 40 & east side of 29) have to pass our house and neighborhood to CHS – currently not accessible by bike/foot. They shall go to WLHS – will alleviate local traffic.
7759	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Dunloggin established in 1926 for 91 years = with 155, 1155, 150, 1150, 2150, 3150, 4150, 219, DO NOT divide us!	worse than	4	6	7	Dunloggin is less/about 3 miles from CHS (current), accessible by bike/foot. 7868	ClemensCrossing	HarpersChoiceMS		5	better than	4	6	10		equal to	4				
7869			CentennialHS	1	worse than	4	7	9	Please reconsider the original Feasibility Study plan to reduce congestion at CHS. Since both plans disrupt long-existing neighborhoods in EC, the Feasibility Plan is preferred since it disrupts travel and learning environment LESS than the AAC Draft	worse than	4	7	9	Please reconsider the original Feasibility Study plan to reduce congestion at CHS. Since both plans disrupt long-existing neighborhoods in EC, the Feasibility Plan is preferred since it disrupts travel and learning environment LESS than the AAC Draft	
7870	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	7	1	4		better than	7	1	4		AAC draft plan 2 (August 15th) did an Amazing Job keeping communities contiguous. The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).
7871	ManorWoodsES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	Keep Polygon 214 at CHS which is only 2.2 miles from CHS . Redistricting to MRHS which is 8 mile increases transportation costs for families and hcpss. Draft plan does not follow 6010 policy of keeping communities together/feeds together.	worse than	4	7	13	Redistricting polygons 214 to MRHS will have lot of negative impacts on the existing high school students and also their families due to the distance/ transportation, broken friendships,and affects them socially, mentally, and psychologically.	Let polygons 214, 154, 1154 stay at CHS.
7872	CentennialLaneES		CentennialHS		better than	3	4	7	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	better than	3	4	8	Incorporating the community's safety concerns of crossing road 108, our kids now don't have to change schools twice in two years.	
7873	NorthfieldES	BurleighManorMS	CentennialHS		worse than	4	6	7	Keep 154,214,2154 and 1154 in CHS. We want to stay.	worse than	4	6	6	Kids in 154,214,1154 and 2154 do not deserve 2 hours bus ride everyday. You. Are putting our kids in disadvantage to the kids live across the Fredrick road.	Keep 154,214,2154 and 2154 in CHS. Let they stay.
7874	NorthfieldES	DunlogginMS		1	worse than	6	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0as submitted to OSP.	worse than	7	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0as submitted to OSP.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0as submitted to OSP.
7875	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	
7876	WaverlyES	PatapscoMS		2	equal to	6	8		Even though it may keep school feeds together, it divides neighborhoods. Kids on one end of the street attend one high school, while the other end attends a different high school.	worse than	4			Instead of being walkers to high school less than one mile away, my family would have to be bussed to more western high school 7 miles away, increasing costs not only for the county but individual families.	
7877	CentennialLaneES	BurleighManorMS	CentennialHS	3	equal to	7	1	4		equal to	7	4	8		To bring utilization ratios in Elementary schools in the Northern region below 110%, move poly 97 from CLES to NES; and move poly 1154 and 2154 from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain feeds)
7878	TalbottSpringsES			1	worse than	9	13	4	There is still a direct swap between sfes and tses. Why disrupt children when there is no net benefit? Also, this plan was clearly made before correct demographic and school seat numbers were available, so has no merit.	equal to	9	4	8	Plan was made with bad data, doesn't appear to take into account the impact to children affected.	I gave no idea what 'select a location for submission means.' I doubt anyone else would either.

7879		BurleighManorMS	CentennialHS	5	better than	3	4	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, I suggest that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	better than	3	4	7		
7880	NorthfieldES	BurleighManorMS	CentennialHS	1	worse than	4	7		My concerns relate to safety (and the fact that the plan divides in a very arbitrary way, one of the older communities in Howard County. The egress out of Dunlogin is such that the most direct route to Wilde Lake puts young drivers on Rt 29 during rush	worse than	4	7	1	I do not understand why the draft plan deviates from the Feasibility Study. In looking at the map the high school boundaries for Centennial and Wilde lake do not make sense to me.	I would encourage the committee to reject the current plan and to consider the recently submitted Dunloggin: Balanced Plan 1.0 and 2.0 plans. They would meet the committee goals and requirements while considering our neighborhoods unique issues.
7881			CentennialHS	1	worse than	7	6	13	Dunloggin students have attended Centennial for generations. The AAC Draft Plan would split the students at the high school level, sending next door neighbors to different schools in different cities. 7895	AtholtonES	OaklandMillsMS	OaklandMillsHS		worse than	6	13	13	The AAC draft plan will make my children have to make new friends every time they change schools. It also will mean that my children attend a middle school that has terrible reviews. I have not read anything nice about Lake Elkhorn Middle.	worse than	6	13	13	The AAC draft plan will make my children have to make new friends every time they change schools. It also will mean that my children attend a middle school that has terrible reviews. I have not read anything nice about Lake Elkhorn Middle.	I hope you will allow my children to attend high school with more of their elementary and middle school peers. Also, If you put my children in Lake Elkhorn Middle we will choose home school. It's ridiculous that Howard County has such a terrible school.
7896	NorthfieldES	DunlogginMS	CentennialHS		worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP.	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP.	
7897	CentennialLaneES	BurleighManorMS	CentennialHS	2	worse than	7	1	5		worse than	1	4	5		move polygons 2150, 3150, 150, 4150, 1150 and 219 to WLHS
7898	StJohnsLaneES	PatapscoMS	MtHebronHS	1	worse than	7	4	13	The plan would split multiple contiguous neighborhoods such as Valleymede creating difficult before and after school care situations, for those that need it, and much longer commutes for some.	worse than	4	7	13	Both would split contiguous neighborhoods and negatively impant the before and after school care situations and commutes for many people.	Splitting contiguous neighborhoods to move children to schools will be large burden for parents of all ages and will create more traffic as those who previously could walked to school will now have to drive.

7899			OaklandMillsHS	1		9			The HCPSS still has not published the corrected dataset for the polygon by polygon analysis of numbers of students, FARM, racial demographics, etc. Cannot be evaluated. The process and results are discriminatory and illegal.		9				
7900	PointersRunES	LimeKilnMS	RiverHillHS	1	worse than	13	4	9	Polygon 1192 should stay with PRES, or go to CES due to transportation concerns.	worse than					Since RHHS is under capacity, why move RH students out and move WL students in? BOE should keep all current RH students in RHHS, and add some students from nearest district to increase capacity, but should cause very few impact on local transportation.
7901	TriadelphiaRidgeES		RiverHillHS	1	worse than	6	7	13	It affects the community's and school's reputation negatively.	worse than	7	4	13	Again, this affects community and school's reputation negatively.	No redistrictions should be done to River Hill. Let the current system stay. Moving nearly 700+ kids to a tiny school will immensely impact the community and school's reputation. Property value is also expected to decrease immensely.
7902	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	1	9		equal to	1	2	4		THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.
7903	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7		worse than	4	1	7		
7904	StJohnsLaneES	PatapscoMS		1	worse than	6									
7905	RockburnES	ElkridgeLandingMS	LongReachHS	3	equal to	6			If keeping feeds together is a priority,polygon 83/1083 is the only school that does RES, ELMS, LRHS. In the original proposal (non AAC) polygons 86/1086/87/2087/3087 also did. Why wouldn't these polygons also attend LRHS? It is much closer then HoHS.	worse than	6			Polygons 86/1086/87/2087/3087 should go to LRHS to maintain feeds from elementary to middle and to high	
7906	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP. It is wrong to split neighborhoods. The new superintendents focus has been on community as he has shown in the new organization of the schools system.	worse than	4	1	7	Wilde Lake is the farthest choice from my home plus it is in the CITY of Columbia. I chose to live in the suburbs of Ellicott City which is different from Columbia. Neighborhoods have a personality. Don't split them - you must learn the boundaries.	The AAC needs to look at the length of time communities have existed when redistricting. Dunloggin is a 50 year old neighborhood with a rich history. There are newer neighborhoods that should be considered for other schools - they brought overcrowding.
7907	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	6	6	6		worse than	5	5	5		
7908	CentennialLaneES	BurleighManorMS	CentennialHS	1	worse than	4	6	7	Distance from current school versus new plan is considerably further. This plan does not align with plan to prepare for new schools	worse than	4	7			
7909	FultonES				better than	6			This plan improves capacity at Fulton Elementary and eliminates the small feed of Fulton Students that were sent to Hammond MS. Further improvement of Fulton capacity, is still necessary.	better than	1			Specifically for Fulton ES, this plan is better than the Feasibility Study. However, it fails to address the discontinuous school attendance areas in the east. Fulton's attendance area could be more compact, but the reduced utilization is better.	
7910	ManorWoodsES			1	worse than	13	4	5	I live in Polygon 214 which is 2 miles to CHS. My kid can go there by himself. If moved to MRSH parents would have to give him ride; but we can't do that. This plan keeps communities in more remote distance to CHS. It's not fair to us in 214!	equal to	4	5	13		
7911		EllicottMillsMS		2	equal to	6	7	13	I request that polygon 1098 to Mt Hebron HS or Centennial HS as this will keep students together. P 1098 is contiguous to these other two HS areas and students will suffer separation. Howard High is also in need of further reduction in student pop.	equal to	6	8	13		I request that polygon 1098 to Mt Hebron HS or Centennial HS as this will keep students together. P 1098 is contiguous to these other two HS areas and students will suffer separation. Howard High is also in need of further reduction in student pop.
7912	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	3	4	7	It is not fiscally responsible to bus students from Polygon 1189 to Dayton Oaks ES, which is 5 miles away, when their current school, Pointers Run ES, is just 1 mile away. The extra distance means extra gas expenses, plus longer bus rides for the kids.	worse than	6	7	4	1189 has been part of the Pointers Run ES community for over 25 years. Moving the 1189 kids to DOES would break this up. 1189 also needs to be at PRES because it feeds into Clarksville Middle. DOES feeds into Folly Quarter and Lime Kiln Middle Schools.	Please do not move 1189 to Dayton Oaks. Keep us at Pointers Run ES to preserve the PRES community, prevent unnecessary fuel over expenditures, and promote the well being of our children by not subjecting them to long daily bus rides. 1189 belongs at PRES.
7913			MarriottsRidgeHS	1	worse than	6	2	1		worse than	1	6	3		Don't move high schoolers currently enrolled
7914			MarriottsRidgeHS	1	worse than	6	2	1		worse than	1	6	3		Don't move high schoolers currently enrolled
7915	TriadelphiaRidgeES	FollyQuarterMS		1	worse than	7	6			equal to	1	6	9	Folly Quarter Together: Please don't split folly quarter communities. Keep the polygon 183, 1183, 2183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route	
7916	AtholtonES	OaklandMillsMS	OaklandMillsHS	1	worse than					worse than					Keep polygons 56, 1056, 2056, and 3056 at AES-OMMS-OMHS (we have been at OMHS since 1973) unless you can send us all to HaMS and HaHS where our AES peers go.
7917		DunlogginMS	CentennialHS	1	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin : Balanced Plan 2.0 as submitted to OSP	worse than	4	1	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin : Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin : Balanced Plan 2.0 as submitted to OSP
7918			AtholtonHS		better than	6	4	1	This letter is to let you know we (Polygon # 190) are in support of your recommendation to move us back to RHHS from AHS!! Both the first Feasibility Study (FS) and the AAC proposal has come up with the same recommendation. Please keep it!	equal to	4	1	6	This letter is to let you know we (Polygon # 190) are in support of your recommendation to move us back to RHHS from AHS!! Both the first Feasibility Study (FS) and the AAC proposal has come up with the same recommendation. Please keep it!	
7919			CentennialHS	1	worse than	7	4	1		worse than	13	13	13		Why carve out old and established neighborhoods that have supported one or maybe two local high schools for decades? There is an expectation with residents that will be shattered. Please be reasonable. We contribute mightily to the cause of education.
7920			AtholtonHS		better than	4	6	1	We (Polygon # 190) are in support of your recommendation to move us back to RHHS from AHS!! Both the first Feasibility Study (FS) and the current AAC proposal has come up with the same recommendation. 7921			CentennialHS	1	worse than	4	7	1	Please consider Dunloggin Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP in narrative sections.	worse than	1	4	6	Please consider Dunloggin Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP in narrative sections.	
7922	PointersRunES	LimeKilnMS	AtholtonHS	3	worse than	13	7		Only 2 polygons are redistricted to RHHS from AHS. This is very few students who have to make this change. Our polygon is frequently in this situation because it is small.Also, Also, I'd like to remain at AHS since it is a more diverse school.	better than	9	10		The feasibility study's movement of so many students to/from AHS is unreasonable and reduced the socio-economic & cultural diversity of Atholton. Also, we want to remain a part of the AHS community.	
7923			AtholtonHS		equal to	6	4	5	We live in Polygon #190. This area used to go to RHHS. It was redistricted to AHS from RHHS in 2002. Both proposals (FS and AAC proposal) have recommended 190 to be redistricted back to RHHS from AHS. We applaud your decisions. Please keep it! WE WANT 190	worse than	6	4	5	FS recommend more AHS families to be moved back to RHHS from AHS. I like FS better. But, as long as 190 is going back to RHHS, we are in support of you. Thank you.	
7924	LongfellowES	HarpersChoiceMS	WildeLakeHS	1	worse than	4	3		I am in the WALK zone of long fellow elementary, but was proposed to go to clarksville, BAD plan!	worse than	4	3		I want to WALK to my longfellow elementary school!	
7925	NorthfieldES	DunlogginMS		1	worse than	13	4	7	Typically, main roads and geographic features have been used to draft lines. I have never seen a neighborhood, literally, cut in half. This is exactly what is being proposed in Dunloggin. Waycross is minor road and makes no sense as a boundary.	worse than	4	7	13	Typically, main roads and geographic features have been used to draft lines. I have never seen a neighborhood, literally, cut in half. This is exactly what is being proposed in Dunloggin. Waycross is minor road and makes no sense as a boundary.	
7926			AtholtonHS		better than	6			we (Polygon # 190) are in support of your recommendation to move us back to RHHS from AHS!! Both the first Feasibility Study (FS) and the AAC proposal has come up with the same recommendation. Please keep it!	equal to	6			we (Polygon # 190) are in support of your recommendation to move us back to RHHS from AHS!! Both the first Feasibility Study (FS) and the AAC proposal has come up with the same recommendation. Please keep it!	
7927			MtHebronHS	4	better than	4	1	10	I am evaluating AAC Draft plan version 2 posted after August 15, 2017.					I am evaluating AAC Draft plan version 2 posted after August 15, 2017.	
7928	ClarksvilleES	ClarksvilleMS	RiverHillHS	1	worse than	4	3	7		worse than	4	3	7	Let the walkers walk! Break the continuity of community!	
7929	AtholtonES		OaklandMillsHS	1	worse than	8	5	4	The AAC draft plan has the Allview polygons (56, 1056, 2056, and 3056 - small island feed) HS students starting OMHS in 2017 and moving to WLHS in 2018. Some students in our polygons are included in the OMHS Early College Program not offered at WLHS.	equal to	8	6	4	The Feasibility study places Allview polygons (56, 1056, 2056, and 3056 - small island feed) HS students starting OMHS in 2017 and moving to AHS in 2018. Some students in our polygons are included in the OMHS Early College Program not offered at AHS.	Allview (polygons 56,1056,2056 and 3056) have been attending OMHS since the school was built in 1973! Leave polygons 56,1056, 2056 and 3056 as a feed from ASE to OMMS to OMHS for this redistricting.
7930	WaverlyES	PatapscoMS	MtHebronHS	4	better than	6	14	14	Waverly students should move west with their peers since that is where capacity exists. Allow students currently at Patapsco and MHHS to remain there since those schools are within capacity.	better than	6			Polygons 161, 1161, 2161, 162, and 1162 should be treated as one neighborhood since they were all moved from SJLES to Waverly in the last redistricting. The AAC draft plan has successfully addressed this.	Middle and HS students should be allowed to stay at current schools, particularly walkers. Mass redistricting should affect only as students exit elementary schools. Consider open enrollment. FIX APFO ISSUES or another redistricting is inevitable.
7931	SwansfieldES	HarpersChoiceMS	WildeLakeHS	1	worse than	4			Why move my kid to CES? I am in the walk zone of my current school! Waste county resource!!!	worse than	4			I want to stay at swanfield because it is so convenient! Ok?	
7932			MtHebronHS	1	worse than	4	6	7	Breaks up valleymede which is bad	worse than	7	4		Much worse - breaks apart Mt Hebron neighborhood and buses Mt Hebron walkers 8 miles!!!!!!!	Stop redistricting neighborhood north of Mt Hebron. It is impacted EVERY TIME. These kids are WALKERS!!! Redistrict polygons on the southern edge of the district.
7933	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	7	6	4	Regarding MS, splitting the neighborhood (117 & 1117) established over 20 years ago due to some random demarcation on a map is insane. I.e., neighborhood children go to the same ES, split for two different MS, then back to same HS.	worse than	7	6	4		The 117 and 1117 polygons should be combined - they are the same neighborhood, same HOA, same streets, same neighborhood holiday parties. Sending two buses into the same neighborhood to go to two different schools is a waste of money.
7934	AtholtonES	HammondMS	HammondHS		better than										THANK YOU for putting McGills Common back at Hammond MS and Hammond HS. We feel that bc of the proximity of those schools, that's where we belong!!! Thank you!!!
7935	NorthfieldES	DunlogginMS	CentennialHS		worse than					worse than	4	1	7		Please consider Dunloggin Balance Plan 1.0 and Dunloggin Balanced Plan 2.0 as submitted to OSP
7936	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	3	4	6	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	better than	3	4	6	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.
7937	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS		worse than	7	4	6	The feed from folly quarter to river hill dropped from 34% to 16% and under 15% in 2008-2009 school year. It splits our communities. Both plan has negative impact on community stability, bus routes, feeds etc.	equal to	3	6	7	The feed from folly quarter to river hill dropped from 34% to 11% in feasibility study, drop to 16% and under 15% in 2008-2009 school year in AAC proposal. Such small feeds should be avoided. They impact on community stability, bus routes, feeds.	The feed from folly quarter to river hill dropped from 34% to 11% in feasibility study, drop to 16% and under 15% in 2008-2009 school year in AAC proposal. It splits our communities. Both plan has negative impact on community stability, bus routes, feeds.
7938			MtHebronHS	1	equal to	4	7	6		equal to	4	6	7		
7939	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	Keep us (polygon 1183)stay with other neighbors on folly quarter road in riverhill high school.	worse than	7	4	6	Same	
7940	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7	6	4	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. It splits community on folly quarter road. both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183,1183 with RRHS	equal to	7	4	6	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. Small feeds should be avoided It splits community . both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183, with RRHS	Please Reserve Folly Quarter: don't split folly quarter communities. Keep the polygon 183, 1183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route
7941	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1		4	6	7	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. It splits community on folly quarter road. both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183,1183 with RRHS	equal to	4	6	7	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. It splits community on folly quarter road. both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183,1183 with RRHS	The Polygon 178, 179, 1178, 1179 (Contain 60 Students) stay with Marriotts Ridge HS as the capacity is still low at 95% in AAC draft plan, and The Polygon 183, 1183 (Contain 58 Students) stay with River Hill to minimize the impact on both communities
7942	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	7			Our polygon 1183 is separated from other polygons on folly quarter road. Don't split us!	worse than	7	6	4	Same

7944	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	5	worse than	6	7	4		worse than	7	6			

7945	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	6	7	4	The feeds from FQMS to RRHS drop from 34% to 16% and under 15% 2008-2009 school year. It splits our communities in folly quarter road. The polygon 183,1183 should remain RRHS together with all the communities in folly quarter road	equal to	6	7	4	The feeds from FQMS to RRHS drop to 16% from 34% and under 15% next year in AAC, and drop to 11% in FS. It splits communities in folly quarter road. both plan has negative impact on community stability, bus routes, feeds. Polygon 183,1183 stay with RRHS	Folly Quarter Together: Please don't split folly quarter communities. Keep the polygon 183, 1183, 2183 with River Hill HS together with all communities on folly quarter road for minimizing the impact on community stability, better bus route, better feeds
7946	WestFriendshipE	MountViewMS	MarriottsRidgeHS	1	worse than	4			Thank you for trying to figure a way for WFES to stay together. I have an idea that may work:	worse than	4			Using your draft 2 plan; Move 171, 1171 to Bushy Park (currently there are no students in these polygons)Keep 305, 1305 at MWES. Move 304 to Waverly, Move 1304 to WFES,Move 159, 1159 to SJLES, Keep WFES polygons at WFES.	Can you try to run these numbers? 1171 is the area that they are just breaking ground. No students there yet.
7947	CentennialLaneES			5	better than	1	4	8	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	1	8	7	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	Children will benefit by being in walking proximity of the schools and it addresses the community's safety concerns of crossing road 108, and our kids now don't have to change schools twice in two years.
7948	AtholtonES			4	equal to	4	1	6	The AAC draft II plan keeps my neighborhood at all the same schools as the current attendance areas. This makes sense, as Hammond MS is still under capacity and they were slated to go to LEMS which is over capacity. Hammond HS is close, which makes sense	worse than	6			The Feasibility Study keeps MacGills common kids at schools nearby AND keeps all of Atholton ES kids together through middle school and high school. The AAC Draft II does do the first part, which I prefer over the first AAC draft plan.	Students living in Polygons 2056, 3056, 56, 1056 (Allview) could stay with Atholton ES kids through the Feasibility study. Or they could be left alone for now at Oakland Mills MS/HS and go to Hammond MS and Hammond HS during next redistricting.
7949	CentennialLaneES			5	better than	1	2	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 154 & 2154 move from NES to CLES. Also, this would eliminate a major island, balance FARMS ratios and maintain feeds	better than	8	7	1		
7950	TriadelphiaRidge	FollyQuarterMS	RiverHillHS		worse than				It is a very bad plan because it greatly damage our folly quarter community. We want to be together and stay in riverhill high school.	worse than	7	4		Keep us stay in riverhill with our neighbors	
7951	CentennialLaneES				better than	1	4	5	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	8	7	4	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	Children will benefit by being in walking proximity of the schools and it addresses the community's safety concerns of crossing road 108, and our kids now don't have to change schools twice in two years.
7952	CentennialLaneES				better than	1	2	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; & poly 154 & 2154 move from NES to CLES. Also, this would eliminate a major island, balance FARMS ratios and maintain feeds	better than	8	7	1		
7953	CentennialLaneES			5	better than	1	2	4	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	better than	8	7	4	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	Children will benefit by being in walking proximity of the schools and it addresses the community's safety concerns of crossing road 108, and our kids now don't have to change schools twice in two years.
7954	ManorWoodsES	BurleighManorMS	CentennialHS		worse than	4	6	7	Bring back polygons 214, 154, 1154 to CHS. They have minimal impact on capacity when compared to font hill , gray rock and polygon 147	worse than	7	4	14	Bring back polygons 214, 154, 1154 back to CHS. Redistricting to MRHS doesnot make sense. We belong to BMMS - CHS community and not MRHS community.	KEEP Polygons 214, 154, 1154 at CHS
7955	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	7	4	9		worse than	5	4	7	Students from our neighborhood were moved to THES when there was just one way out of our community there are now two and VES is exactly the same distance but as our kids attend Dunloggin it would be best if they could move to Northfield.	Polygons 111, 2111, 1111 are equal distance from VES or THES but the neighborhoods to which we relate are Dorsey Hall, St. Johns and Wheatfields - all in Ellicott City. Please either leave the attendance boundaries as they are or move us from THES to NFES
7956			HammondHS		equal to	4	6	7	The current plan and the AAC plan #2 works well for Polygon 13. This plan allows students to continue to walk to school and keeps school feeds together. This plan also keeps our community together, including Macgills Common.	better than	4	6	7	Both AAC plans work well for Polygon 13. The AAC plan # 2 allows our community and support systems to stay together from school to school.	Polygon 13 is close to HAHS and allows for my student to walk to school, which enables him to participate in school activities and sports programs. Busing Polygon 13 would require the county to waste money on busing these students to another school.
7957	PointersRunES			1	worse than	4	13	10	Dayton Oaks is far away from the Clarks Glenn community. Very unfair to the little kids.	worse than	4				
7958			CentennialHS	1	worse than	4			We live less than 4 minutes from the Centennial High school with the projected school requiring a 40 minute ride	worse than	4				
7959	CentennialLaneES			4	equal to	4			THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	6				
7960				1	worse than	6	7	4		worse than	7	6	4		
7961	NorthfieldES	DunlogginMS	WildeLakeHS	1	worse than	9	7		The FARM students increase 40 to 43% for Wilde Lake HS. This school is one of the poorest performing schools in the district and the AAC plan moves even more low income students to it. Why were several of the more affluent polygons removed? UNACCEPTABLE!	equal to					
7962	TriadelphiaRidge	FollyQuarterMS		2	worse than	6	7	13	The feed from Folly Quarter to River Hill is already small and a disadvantage to those 30% of students separated from their peers. Now all scenarios lower that feed to an unacceptable number. And next year's rising 9th graders have an even smaller feed.	equal to				Next year's rising 9th graders who will go to River Hill from Folly Quarter will be a tiny feed- only about 25 students would go to River Hill. This is not giving these students the same chance at success as those who stay with their peers.	Please consider resinstating the feed to River Hill from Folly Quarter to the already low 35%. A lower % tears student away from peers. Otherwise please consider open enrollment at Glenelg for that small handful of students who are slated for Glenlg High.
7963	CentennialLaneES			4	equal to	10			To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	equal to	4

7995	PointersRunES	ClarksvilleMS	AtholtonHS	3	better than	9	3	12	We moved from Clarys Forest because of the schools' performance and Dr. Foose's response to parents regarding Wilde Lake HS. Riverhill HS will be very good for Swansfield students. Socio-economic diversity will be good for Riverhill too.	equal to					
7996			MtHebronHS	1	worse than	4	7	13	My son would be a junior. He is a walker, with 2 working parents. He is involved in several after school activities, and would be adversely affected if he could not walk home. Not feasible for us, makes no sense as we live behind so near the school.	worse than	4	7	13	7 miles away vs. <1 mile away; would cause excessive traffic on Rt. 99; would be too disruptive and would put any already enrolled high school students at an unbelievable disadvantage.	Junior year in HS is the most important and stressful year in terms of college prep - not a year to start over". HS students
7997	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	2	6	7	The AAC latest draft plan did an Amazing Job keeping communities contiguous.	better than	2	4	7	The latest AAC draft plan is by far the best that incorporates critical Policy 6010 criteria.	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 154 and 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
7998	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	1	My children would no longer be able to use bicycle or walk for school activities. Neighborhood split.Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	4	6	1	Draft plan splits established Dunloggin neighborhood into 2 for HS, disrupts feeds. Draft plan eliminates possibility for walking/riding. Currently, students can ride through neighborhood to Centennial HS but Wilde lake ride/walk unsafe/prohibitively long	Plan splits a well established neighborhood and its school feeds. Biking/walking to school no longer option due to safety. Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
7999			CentennialHS	5	better than	4	6	7	AAC draft 2 maintains the contiguous communities/neighborhoods on the old Annapolis Road. All three schools are in close proximity enabling students to walk/bike to and from school. Thanks for keeping student together from one school to the next.	better than	3	4	7	Thanks to the AAC members for keeping the 147 in the same schools as the other communities on the Old Annapolis Road. All students and families are relieved that all the friends will be together to do school projects/play dates/social/school activities.	Thanks AAC members for your kind consideration for keeping the communities together and understand the close proximity to the schools.
8000	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7		worse than	4	7	2	Please consider balanced plans 1.0 & 2.0 Submitted by dunloggin Neighborhood	Balanced plans 1.0 & 2.0 strengthen feeds, utilize capacity, promotes safer transportation (walkers) and minimize impact to children and communities.
8001	NorthfieldES	DunlogginMS	CentennialHS	1		7	4	6	AAC draft plan disrupts well established neighborhood, eliminates possibility of walking/biking.	worse than	7	4	1	AAC draft plan disrupts well established neighborhood, eliminates possibility of walking/biking.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8002	PointersRunES			1	worse than	7	4	6		worse than	7	4	6		
8003		FollyQuarterMS		2	worse than	13					3				
8004	PointersRunES			1	worse than	4	6		the current school attendance area PRES is close	worse than	4			PLEASE KEEP OUR COMMUNITY KIDS STAY AT PRES.	
8005	NorthfieldES	DunlogginMS	CentennialHS	1		4	3	7	Please consider Dunloggin Balanced plans 1.0 & Dunloggin balance plan 2.0	worse than	6	4	3	Please consider Dunloggin Balanced plans 1.0 & Dunloggin balance plan 2.0	Dunloggin balance plans 1.0 & 2.0 doa much better job than the AAC draft plan in regards to feeds, capacity, safety, transportation and minimizing impact to children and communities.
8006	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Disrupts contiguous neighborhood. Unable to walk/bike to draft plan school	worse than	7	6	1	Disrupts established community	AAC draft plan disrupts well established neighborhood, eliminates possibility of walking/biking.
8007	DaytonOaksES	LimeKilnMS	RiverHillHS	1	worse than	4	7	1		worse than	4	7	1	With the AAC plan, RHHS will be 100% and WLK will be under 100%. School bus will drive more than 6 miles to pick up kids who can walk to school.	

8008		BurleighManorMS		5	better than	4	6	7	Thanks AAC members for the current draft, which keeps our community together. Appreciate it.	equal to	4	3	7	The current AAC draft is in line with the feasibility study and we thank the AAC members for keeping our neighborhood together. Our kids are very happy that they will be with their friends.	
8009	AtholtonES			1	worse than	13	4	7	In the AAC draft Allview (polygon 1056) moves from AES-LEMS-WLHS. Our children would basically attend three separate schools with very few other children moving with them as well as the 4th furthest HS from our house!	worse than	4	8	13	The feasibility study allows our neighborhood to stay closer to our community and attend a HS that is roughly 2 miles from our house.	Please reconsider moving our neighborhood to the 4th furthest away HS. Allow us to stay in our community closer to those that the children attend ES with.
8010	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	splits established neighborhood. biking not possible to proposed school	worse than	7	4	1	splits established neighborhood. biking not possible to proposed school	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8011	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	I live in Dunloggin and back up to Gray Rock. However, AAC plans (1&2) separates Dunloggin neighborhood into 2 HS(5 polygons--it was ONE in 2005)! PRESERVE CORE NEIGHBORHOODS old150=new 150+1150+2150+3150+4150; SJCA=old 150+219+ old 155	worse than	7	7	7	DO NOT 'BLOW UP' DUNLOGGIN NEIGHBORHOOD! I fully agree with keeping Gray Rock and Font Hill neighborhoods whole (change from HCPSS staff Feasibility Study). However, AAC plans simply kick the can" and instead separate Dunloggin into 2 HS! WRONG!!!"	Please consider "Dunloggin Balanced Plan 1.0" and "Dunloggin Balanced Plan 2.0" as submitted to OSP. HCPSS should delay any major HS redistricting until opening of 13th HS and related boundary adjustments. Public notice re HS redistricting was NOT given!
8012	NorthfieldES				worse than	7	4	6		worse than	7	6	4		Please don't divide the Dunloggin neighborhood.
8013	HammondES	HammondMS	AtholtonHS	5	better than	1	2	6	This is the best plan that has been put on the table which helps to keep feeds together and corrects some of the changes from previous redistricitng.	better than	10	9	1	This plan moves fewer students, takes into account future change and diversifies the schools across the county. I would see what adding polygon 270 and 273 to the AHS feed does to the plan.	
8014	NorthfieldES	DunlogginMS	CentennialHS		worse than	4	6	7	Please consider DUNLOGGIN balanced plan 1.0 & DUNLOGGIN Balanced plan 2.0	worse than	4	6	7	Please consider DUNLOGGIN balanced plan 1.0 & DUNLOGGIN Balanced plan 2.0	Please consider DUNLOGGIN Balanced plans 1.0 & 2.0. I'm a student and I have been affected by redistricting, please stop! I don't want to lose or don't see my friends!
8015			CentennialHS	4	equal to	4	9	7	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	equal to	1	2	3	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8016	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	6	Established neighborhood split. Biking not feasible to proposed school.	worse than	6	4	7	Established neighborhood split. Biking not feasible to proposed school.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8017	CentennialLaneES	BurleighManorMS			equal to	7	4	3	Draft plan 2 keeps my children at their schools and with their friends, making transportation and well being better.	better than	7	4	3	Draft plan 2 is ideal for us because it keeps all of Centennial Lane together. We have been a part of the CLES community for years and it is a wonderful, tight-knit community where children thrive! Thank you for restoring the community!!!	
8018			RiverHillHS	1	worse than	13	14	14							
8019			CentennialHS	1	worse than	4	6	7		equal to					
8020	ClemensCrossingES			1	worse than	7				worse than	7				The feasibility study seems to try to maintain a semblance of continuity and stability between students moving with the majority of their classmates through the transitions of ES to MS and MS to HS.
8021	NorthfieldES	DunlogginMS	CentennialHS	2	equal to	1	3	7	Move ALL Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.UNITE Dunloggin!	worse than	1	7	6	Move ALL Dunloggin polygons (including 2150 and 3150) to WLHS. THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
8027			CentennialHS	1	worse than	1	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	1	4	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	
8028	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	14					13			I am very happy with the existing plan and school allocation for my child.	
8029	ManorWoodsES	BurleighManorMS	CentennialHS	1	worse than	2	4	6	we live in polygon 214, this plan completely lack of common sense, break up our community, isolate our kids from both the CHS and MRHS community.	worse than	4	9	6	Nothing changed for polygon 214, longer transportation time (10 mins to CHS vs 40 mins to MRHS) will cause our kis to lose sleep and make it difficult for them to participate in after-school and extra curricular activities.	Redistrict polygon 97 can be an alternative solution, it will reduce school over-capacity more efficiently and reduce busing cost.
8030		BurleighManorMS	CentennialHS		better than	3	7		to bring utilization ratio in elementary school in northern region below 110% we request polygon 97 move from CLES to NES. PLEASE KEEP DUNLOGGIN COMMUNITIES TOGETHER. THEY SHOULD ALL MOVE TO WILDE LAKE.	better than	7	3			to bring utilization ratio in elementary school in northern region below 110% we request polygon 97 move from CLES to NES. PLEASE KEEP DUNLOGGIN COMMUNITIES TOGETHER. THEY SHOULD ALL MOVE TO WILDE LAKE.

8031			CentennialHS	4	equal to	2	7	4	Polygon 147 kids walk to Centennial HS. Walking and biking to school is good for students' health, good for the environment, and reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	1	4	5	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8032	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Do NOT divide Dunloggin neighborhood!	worse than	7	7	7	Gray Rock and Font Hill complained about being split. Now you split Dunloggin? Why?	Please consider Dunloggin balanced plans 1.0 and 2.0 as submitted to the OSP.
8033	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	1	3	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES.this would eliminate a major island, balance FARMS ratios and maintain feeds	equal to	1	3	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES.this would eliminate a major island, balance FARMS ratios and maintain feeds	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES.this would eliminate a major island, balance FARMS ratios and maintain feeds
8034	AtholtonES			1	worse than	6	7	10	Please reconsider moving polygons 56,1056,2056& 3056 to LEMS and WLHS.	worse than	6	4	6		
8035			CentennialHS		equal to	1	3	4	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	1	2	8	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8036	NorthfieldES	DunlogginMS		1	worse than	6	1	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP						
8037	NorthfieldES	DunlogginMS		1	worse than	4	7	6	Breaking the Dunloggin neighborhood apart will fracture long established relationships for many children in this community. Furthermore, the proposed boundary is arbitrary and seem to represent nothing more than a 'convenient' boundary based on numbers.	worse than	4	7	2		Please consider the plans submitted as Dunloggin Balanced 1.0 and 2.0 which keeps the Dunloggin community together and will reduce busing.
8038	ThunderHillES	DunlogginMS	WildeLakeHS	1	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new courthouse traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	worse than	4	1	13	The draft negatively impacts me based on transportation and safety concerns, for example bus commute time, crossing major intersections, and a new courthouse traffic along the commute. The draft does not address the over enrollment at Thunder Hill ES.	I propose polygons 111, 1111, and 2111 to go to Northfield ES, Dunloggin MS, and Wilde Lake HS. This proposal solves safety and transportation concerns, longevity of the feed, and maintains our sense of community.
8039			CentennialHS	4	equal to	1	2	3	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	3	4	7	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8040	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	9	This plan creates longer commutes to school for too many students & spreads out the geographic boundaries of HS districts so the distance between one end to the other is also too big. How are students supposed to come together when they live so far away?	worse than	7	4	1	Do not split the Dunloggin. There are other communities further away that should be assigned other schools before splitting a community that has gone to the same HS together for 60 years. Please come to our streets and see where these new lines will be!	Please consider the 2 Dunloggin plans. They booth meet utilization standards, maintain strong feeders, and keep communities together. The plans may improve FARM and racial numbers at Marriotts Ridge, which needs improvement. Keep Dunloggin together!!
8041	AtholtonES			1	worse than	6	7	4	Having our kids going to wild lake high school would be a significant hardship for our kids. We have to go to the fourth farthest school from our home. Farther than OMHS, HHS, and AHS.	worse than	6	7	4		I don't feel our are is getting consideration. I understand that this is a difficult process. However I feel the Allview polygons not being heard.
8042	NorthfieldES	DunlogginMS	CentennialHS		worse than	7			Please consider Dunloggin.	worse than	7			Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to the OSP. Our daughter will begin Kindergarten in Howard County Schools.	
8043	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	1	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	7	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8044			CentennialHS	4	equal to	4	7	2	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	1	2	3	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8045	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	7	4	6	Proposed school 3 miles further and not safe for biking/walking. Proposal splits Dunloggin neighborhood in Half. Proposed plan does not preserve feeds.	worse than	7	4	6	Proposed school 3 miles further and not safe for biking/walking. Proposal splits Dunloggin neighborhood in Half. Proposed plan does not preserve feeds.	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8046	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	6	1	7		worse than	1	6	7		We recently bought our home specifically for the schools that our children would attend and are very happy with River Hill School. Glenelg is a good school but we feel River Hill is a better school and would prefer for our community to stay as is.
8047			CentennialHS	4		1	4	7	THANK YOU for taking into consideration of polygon 147 and keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together. We are under 1.5 miles from CHS/BMMS and are a diverse community that support the CHS school district.	equal to	1	2	3	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8048	TriadelphiaRidge	FollyQuarterMS	RiverHillHS	1	worse than	4	6	7	The feeds from FQMS to RRHS drop to 16% from 34% and under 15% next year in AAC, and drop to 11% in FS. It splits communities in folly quarter road. both plan has negative impact on community stability, bus routes, feeds. Polygon 183,1183 stay with RRHS	equal to	4	6	7	The feeds from FQMS to RRHS drop to 16% from 34% and under 15% next year in AAC, and drop to 11% in FS. It splits communities in folly quarter road. both plan has negative impact on community stability, bus routes, feeds. Polygon 183,1183 stay with RRHS	Reserve Folly Quarter: Please don't split folly quarter communities. Keep the polygon 183, 1183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route
8049	RunningBrookES	WildeLakeMS			worse than	9	6	12		worse than	3	14	14		
8050	CentennialLaneES	BurleighManorMS	CentennialHS		better than	4	6	5	The AAC draft 2 is better than draft 1. Thank you, AAC members.	equal to	9	7	10		
8051	TalbottSpringsES			1	better than	8								I live in Hopewell (polygon 51) and strongly disagree with the feasibility study which would move us from Talbott springs to Guilford. Hopewell only has 42 students (7.5%). it is unfair to these students.	Hopewell is the only neighborhood from Talbott springs to go to Lake Elkhorn middle (only 7.5%). The rest of the students from Talbott go to OMMS. Please consider allowing Hopewell to go to OMMS with their peers. Buses are needed either way.

8052	NorthfieldES	BurleighManorMS	CentennialHS	5	equal to	7	4	3		better than	7	3	4		Maintain contiguous communities and neighborhood is important for our children to grow in a stable and healthy environment.
8053	NorthfieldES			1	worse than		4		Our family live in polygon 154. Even though our family is not affected at this moment, but we will be in the future. Marriotts Ridge High is too far away from us. We want to stay in CHS !	equal to		4		Both plans are planning to move our young high schoolers to MRHS for which we think is too far and will be wasting a lot of time and cost for transportation especially when high school kids usually have lots of extracurricular activities.	The AAC plan will create anxiety, loss of social network, hinder academic progress for our high schoolers when they have to move to a different school !
8054	AtholtonES			4	equal to	6	7	4	Please continue to make every attempt to keep communities, especially small ones, together.	better than	6	7	4	Feasibility study had way too many kids moving. Some kids were being bussed to different schools when they could be walkers at closer ones.	
8055	GormanCrossing	MurrayHillMS	AtholtonHS	5	worse than	1	10			better than	1	10			
8056	CentennialLaneES				equal to	11			My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	7				
8057	AtholtonES				worse than	7	4	1	Polygons 56,1056,2056 and 3056 going to WLHS does not make sense. It is more over crowded than OMHS. OMMS has a 100% feed to OMHS. Keeping these polygons in OMMS and OMHS prevents overcrowding the creating an island.	equal to	4	6	1	Polygons 56,1056,2056 and 3056 going to AHS keeps them withing easy walking distance of their school. Moving all of AES students to AHS would keep the neighborhood together.	
8058			CentennialHS	4	equal to	2	4	7	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	1	5	9	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8059			CentennialHS	1	worse than	7	4	13		worse than	4	7	13		My 2 children will be split between Centennial and Marriots Ridge if this redistricting is to occur. They will also be uprooted from programs offered at Centennial and for which they have built relationships with. Plumtree Neighborhood
8060		BurleighManorMS			worse than		4		Changing from CHS to MRHS is too far away ! . It is absolutely "NO". Our family strongly against the proposed plan!	equal to		4		Same as above	
8061			CentennialHS	4	equal to	1	2	3	Kids from 147 play with kids from 1156. They attend community events with neighbors. They then go to CLES, BMMS and CHS with their lifelong friends. Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 mile	equal to	3	7	9	UNITE Dunloggin! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8062	CentennialLaneES				equal to	12			THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to				To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 1154 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain	
8063			CentennialHS	1	worse than	4	8	13	The longer commute time involved with the redistricting plan will cause our children to spend a lot of time only on the bus. It will negatively impact their academic and social activities as well as college applications.	equal to	4	6	13	There is no big difference between the AAC draft and Feasibility Study.	Everybody knows that if high schoolers move the school, which will negatively impact student's academics and social activities and so on. Please let the high schoolers stay and try to find other solutions to resolve overcrowding issues.
8064		BurleighManorMS		1	worse than	4	6	7	Polygon 214 is closer to CHS then polygon 153. Polygon 214,153 and 1184 are part of same neighborhood. It is not in alignment of policy 6010 to return polygon 153 and 1184 to CHS and redistrict 214 to MRHS RETURN 214 TO CHS	worse than	6	7	13	The neighborhood comprising of polygon 153,1184,1154,154,2154 and 214 was further broken down by returning polygon 153 and 1184 to CHS and redistricting remaining polygon to MRHS lowering the feed from BMMS to MRHS in the neighborhood	POLYOGN 214 IS 2.2 miles from CHS and 8 miles from MRHS Redistricting 214 will result in violation of policy 6010,breaking neighborhood,more travel time,more cost,inconvinience to students,families. There is no continuity in 214 to MRHS neighborhood.
8065			CentennialHS		worse than	7	7	7	We cannot belong to any community between CHS and MRHS if my daughter will move to MRHS. My daughter will lose her identity as well. Moreover, U.S will lose young genius student.(polygon 2154)	worse than	7	7	7	We cannot belong to any community between CHS and MRHS if my daughter will move to MRHS. My daughter will lose her identity as well. Moreover, U.S will lose young genius student.(polygon 2154)	
8066	ManorWoodsES			1	worse than	7	4	6	Polygon 214 is closer to CHS than Polygon 153. Polygons 214, 153 and 1184 are part of the same neighborhood. It is not in alignment with Policy 6010 to return Polygons 153 and 1184 to CHS and redistrict 214 to MRHS. 214 should be returned to CHS.	worse than	4	7	6	The neighborhood comprising of Polygons 214, 153, 1184, 1154, 154 and 2154 was further broken down by returning Polygons 153 and 1184 back to CHS and redistricting the remaining polygons to MRHS lowering the feed from BMMS to MRHS in the neighborhood.	Polygon 214 needs to stay at CHS.
8067			RiverHillHS		worse than	4	6		keep river hill together! no wilde lake walkers to RHHS! Let the walkers walk to school.	worse than	6	4		keep river hill together! no wilde lake walkers to RHHS! Let the walkers walk to school.	
8068	WaverlyES			5	better than	6	7	8		better than	6	7	8	I like this 2nd AAC draft better because it keeps our neighborhood together and tracks us to a middle school & high school consistent with our elementary school and reduces the amount of students moving and keeps communities together	
8069	TriadelphiaRidgeES			1	worse than	7									
8070			CentennialHS	4	equal to	3	1	8	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to	1	4	7	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.	
8071	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is about 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go to WLH

8072			CentennialHS	4	equal to	1	3	4	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS. The Draft 2 AAC Plan works for my family.	equal to	1	4	8	Keep Dunloggin together! Move all Dunloggin polygons (including 2150 and 3150) to WLHS. This ensures the stability and continuity of Dunloggin community, balance utilization between CHS&WLHS, creates better feed plan for Dunloggin, and balances FARM.

8160	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%,we request that poly 97 move from CLES to NES;and poly 1154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8161	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8162			RiverHillHS	1	worse than	6	4	7		worse than	6	7	4		

8163	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	8	7		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%,we request that poly 97 move from CLES to NES;and poly 1154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8164	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	8	7	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	equal to	4	7	8	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).
8165	PointersRunES	ClarksvilleMS	RiverHillHS	1	worse than	3	4	6	With current plan, polygon 1189 will move to Dayton Oak. Then their friends will stay in Folly while we move back to Clarksville. It clearly is against the vision of 'keeping kids together through K to 12'. It will also increase HCPSS budget.	worse than	7	9	4	It doesn't make sense for Polygon 1189 to move from Pointers Run ES to Dayton Oak. It easily add 30 minutes one way in the rush hour currently. With county's upcoming effort to widen 32 west, it will further increase the commute and burden the traffic.	Our community has closer connection with PRES and River hill region. Moving Polygon 1189 from a elementary school which is 1 mile away really doesn't make sense. Furthermore, it will impact our before and after school care arrangement significantly.
8166			CentennialHS	1	worse than	4	6	7	My arising Sophomore daughter from polygon 2154 will attend MRHS when my arising senior will attend CHS. Please reconsider your plan.	equal to	4	7	7		Let arising Sophomore and juniors to finish their high school. AAC plan will impact the lives of those student in a very distructive way.
8167	BushyParkES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8168	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	equal to	4	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
8169	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8170	PointersRunES	ClarksvilleMS		1	worse than	4	6	7	My child will have to travel long way to get to elementary school. Currently my child travels 2 min which will change to 20 min. as per the new plan.	worse than	4	6	7		Polygon 1189 residents should have either Pointers Run or Clarksville Elementary as their schools. Our little kids should not have to travel everyday 20-30min each way.
8171	CentennialLaneES	BurleighManorMS		4	equal to	4	8	7	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	7	8	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.
8172	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	1	7		worse than	4	1	7		
8173	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8174	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	8	7	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to	4	7	8	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
8175	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8176	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens
8177	CentennialLaneES	BurleighManorMS	CentennialHS	4	equal to	4	6	7	This draft keeps polygon 147 in the Centennial/Annapolis Road community and keeps the local kids in school together. This is a contiguous community and we appreciate the consideration. Much closer CLES is easy for families/ avoids transportation costs.	equal to	4	6	7	The feasibility study uses major roads to create school boundaries. This draft keeps 147 at CLES, BMMS, and CHS and avoids the unnecessary travel across 108 to a school in Columbia. Thank you for recognizing hazards and keeping our community together.	This plan addresses the need to move polygons to northern schools as intended and maintains natural community/school boundaries that are created by major roadways.
8178	CentennialLaneES	BurleighManorMS	GlenelgHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8179	CentennialLaneES	BurleighManorMS	CentennialHS	4	better than	7	3	1	To bring utilization ratios in Elementary schools in the Northern region below 110%, we suggest to move poly 97 from CLES to NES, and poly 153 and 2154 from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	better than	7	1	4	To bring utilization ratios in Elementary schools in the Northern region below 110%, we suggest to move poly 97 from CLES to NES, and poly 153 and 2154 from NES to CLES. This would eliminate a major island, balance FARMS ratios and maintain feeds.	
8180			WildeLakeHS		better than	7			Keep Dunloggin communities together at Wild Lake HS. Keep AAC Draft Plan 2.	better than	7	4			

8181	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	4	7	4	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
8182	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8183	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	4	7	8	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.	THANK YOU for keeping the community together and maintainting a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.
8184															To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 and 2154 move from NES to CLES (also, this would eliminate a major island, balance FARMS ratios and maintain f
8185	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8186	AtholtonES				worse than	4	6	7	Moving the 57 1057 2057 back to HMS and HHS is an improvement but leaving 56 1056 2056 3056 at LEMS and WLHS is still creates an island and disrupts the community.	worse than	6	4	7	Every effort should be made to create community ties for all students. AAC does not properly consider all students. Moving 56 1056 2056 3056 to LEMS and WLHS rips them from their school community twice and sends them to sch far from their homes.	1056 56 2056 3056 moved from OMHS to WLHS creates a virtual island. The connection to WL main attendance area is negligible, forcing a tiny subset of students into isolation.
8187															To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move from CLES to NES; and poly 153 & 2154 move from NES to CLES (this would eliminate a major island, balance FARMS ratios and maintain feeds)
8188	CentennialLaneES	BurleighManorMS	CentennialHS	5	equal to	4	7	8		equal to	4	7	8	To bring utilization ratios in Elementary schools in the Northern region below 110%, we request that poly 97 move CLES to NES; and poly 154 and 2154 move from NES to CLES(this would eliminate a major island, balance FARMS ratios and maintain feeds)	
8189	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP
8190	NorthfieldES	DunloggінMS	CentennialHS	1	worse than	4	1	7	PLease consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced PLan 2.0 as submitted to OSP	worse than	4	1	7		PLease consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced PLan 2.0 as submitted to OSP
8191			CentennialHS	5	better than	1	4		AAC Draft Plan 2 is better than current school attendance as it keeps the Dunloggin communities together going to Wild Lake. Children of this community can commute together to school.	better than	7	4			
8192			MtHebronHS	4	equal to	6	7	4	I believe high school reassignments should be postponed all together until the new high school is completed to reduce disruptions to students & minimize future reassignments. Redistricting occurs too frequently in Howard County.	better than	7	6	4	Keeping contiguous communities together is a Top Priority! Stable communities build stable schools. All contiguous communities should be kept intact!	Thank you to the AAC for keeping Worthington intact. I approve of keeping polygons 2093,3093 & 4093 with 93, 1093,309 &1309 because it keeps our contiguous community together, reduces small feeds & prevents frequent future reassignments.
8193	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	equal to	4	7	8	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.
8194	NorthfieldES	DunloggінMS	WildeLakeHS	5	better than	6	7	8	The AAC DRAFT-2 Plan is causing minimal impact to the polygons going to Northfield ES and Dunloggin ES as it has taken into consideration the POLICY 6010 considerations on Contiguous communities, Feeds and Frequency of reassignment.	better than	1	6	7	The feasibility study recommendations have been more disruptive to some of the polygons which have been addressed in AAC DRAFT 2 plan.	The AAC Draft 2 plan is better than the previous plans. The request to School of Planning and the AAC, Superintendent and BOE is to not disrupt the students rather move forward the plans for expansion of schools like Dunloggin, bring in the new ES sooner
8195	TriadelphiaRidgeES	FollyQuarterMS	RiverHillHS	1	worse than	4	6	7	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. It splits community on folly quarter road. both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183,1183 with RRHS	equal to	6	7	4	The feeds from FQMS to RRHS drop from 34% to 16%, and 15% next year in AAC, and drop to 11% in FS. It splits community on folly quarter road. both has negative impact on community stability, bus routes, feeds. Please Keep polygon 183,1183 with RRHS	Please Reserve Folly Quarter: don't split folly quarter communities. Keep the polygon 183, 1183 with River Hill HS together with all communities on folly quarter road to minimize the impact on community stability, have better feeds better bus route
8196	CentennialLaneES	BurleighManorMS	CentennialHS		better than	1	7	4	AAC Draft Plan 2 is great for keeping communities together. I support AAC Draft Plan 2.	better than					
8197		BurleighManorMS	CentennialHS		worse than	4	7	6	the new plan will result in excessively long drive times from our house and the school.	worse than					
8198	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	equal to	4	7	8	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).

8199	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8200	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	equal to	4	8	7	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	kids who live in zone 147 bike or walk to (CHS or BMMS).Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010.
8201			CentennialHS	1	worse than	7	7	4	Poly 154: moving from CHS to MRHS which is the 6th farthest school from our poly. CHS-2.5m, MHHS-3.5m, WLHS-5.5m, HHS-5.7m, LRHS-7.1m and then MRHS-8.7m. Distance doesn't make sense. Bigger argument is let existing students stay! Please!	worse than	7			Doesn't improve.	
8202			CentennialHS	1	worse than	9	4	7	My son goes to CHS. Per latest proposal, he will be redistricted to MRHS. We live 2.2 miles away from CHS, whereas MRHS is 7.7. He walks or bikes after attending after-school clubs which is impossible with MRHS. Polygon 214 has 10 kids only.	worse than	4	5	7	As stated above, all my sons's classmates who live Gray Rock and Font hill communities across the road, will continue to go to CHS. Why can't polygon 214 with only 10 kids, so close to each other and to the school, continue to go to CHS? Not logical.	If 43 HS kids from Polygon 147 weren't impacting CHS capacity, we don't understand how our Polygon 214 with 10 kids will be. Gray Rock neighborhood has polygons 153, 1153, 152 & 1152. 152 & 1152 go to Wilde Lake. Why disturb 214 who go to CHS currently?
8203	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than			4	AAC Draft Plan 2 is great as it took into consideration polygon 147 parent's concerns. Keeping polygon 147 in CLES does not require elementary school students to cross Rt 108. Thank you for keeping polygon 147 at CLES, Burleigh Manor & Centennial High.	better than	4	7	1		
8204	AtholtonES	HammondMS	HammondHS	1	worse than	1	6	13		worse than	1	6	13		I am more confident in the professionals at the office of school planning who don't have vested interests designing the plan. Asking volunteers to make objective decisions and remove all their bias is not reasonable.
8205			OaklandMillsHS	1	worse than	13			Goes against BOE policy and takes myself and ESPECIALLY my child out of our community and her right to our community school Oakland Mills High.	worse than	7				My daughter will be a Junior at OMHS and it is extremely disruptive to our neighborhood and community as Allview Estates is part of the OM community and we pay our Howard County taxes as everyone else, yet have no Village association to represent us!
8206	CentennialLaneES	BurleighManorMS	CentennialHS		better than	7	1		AAC Draft Plan 2 is great as it keeps polygon 147 at CLES, Burleigh Manor, and Centennial High, along with its adjacent community to the northwest.	better than	1	4			
8207	CentennialLaneES	BurleighManorMS		4	equal to	4	7	8	kids who live in zone 147 bike or walk to (CHS or BMMS).Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010.	equal to	4	8	7	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108
8208	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8209	NorthfieldES			1	worse than	6	4	6	I want my dunlogging neighborhood to be united and not to split.	worse than	6	7	13	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	I want my dunlogging neighborhood to be intact.
8210		BurleighManorMS	CentennialHS	4	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	equal to	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.
8211	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	7	6	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.	worse than	4	7	6		Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP.
8212		BurleighManorMS	CentennialHS	4	equal to	4	7	8	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.	equal to	4	7	8	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.
8213			CentennialHS	1	worse than	4	6	7	The new boundary plan is not a fully thought out plan due to distance and the students friends and relatives being pulled apart. Whoever thought of this must have an underdeveloped mind.	equal to	4	5	6	They are both stupid	Whoever made thought of the new boundaries is a dumbshit
8214	CentennialLaneES		CentennialHS	5	better than	1			Keep polygon 147 with CLES, Burleigh Manor, and Centennial High, as proposed in AAC Draft Plan 2. It minimizes transportation cost as polygon 147 is on the same bus route as polygons 2147 and 1156.	better than	7				
8215		BurleighManorMS	CentennialHS	4	equal to	4	7	8	Kids from 147 play with kids from 1156.They attend community events with neighbors.They then go to CLES, BMMS &CHS with their lifelong friends.Keep our kids at a school that is just a stone throw away versus moving them to one that is almost 3 miles.	equal to	4	7	8	We are socially, economically and racially diverse. Breaking off polygon 147 create an island that isolate children from an established, contiguous neighborhood. THANK YOU for recognizing this community.	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.
8216	VeteransES	EllicottMillsMS	CentennialHS	1	worse than	4	6	7	New school is too far from my home.	worse than	4	6	7	Student doesn't feel happy to separate with friend.	
8217	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.

8218		BurleighManorMS	CentennialHS	4	equal to	4	8	7	THANK YOU AAC for your decision to move families in 147 back to the Centennial school district-CLES, BMMS and CHS.The Draft 2 AAC Plan works for my family.	equal to	4	7	8	The AAC latest draft plan did an Amazing Job keeping communities contiguous.The draft plan keeps Zone 147 on CHS and prevents if from having to send elementary kids across a Major Highway (108).	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.
8219			MtHebronHS	1	worse than	7	12	14		worse than	7					
8220	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8221					worse than	7	4	6	Students living in the Allview Area should attend the same middle school as the rest of Atholton Elementary. Atholton High School is a reasonable change as Allview is walking distance to it.	worse than	6	7	4	It is ridiculous to send Allview Students to Wilde Lake when there is 3 schools closer.	It is time to keep Atholton Elementary students to remain a community and send all of the students along the same path to middle and high schools.
8222	CentennialLaneES	BurleighManorMS	CentennialHS	5	better than	1	4	7	Keep polygons 147, 2147, and 1156 together at CLES, Burleigh Manor, and Centennial High School, as proposed in AAC Draft Plan 2.	better than	4	1		Keep polygons 147, 2147, and 1156 together at CLES, Burleigh Manor, and Centennial High School, as proposed in AAC Draft Plan 2.	
8223		BurleighManorMS	CentennialHS	4	equal to	4	7	8	Keeping the centennial community together, maintaining the stability of Old Annapolis Road community, allowing our high school and middle school students to benefit of being in walking proximity of the schools.	equal to	4	7	8	kids who live in zone 147 bike or walk to (CHS or BMMS).Walkers and bikers reduce bus costs, which demonstrates fiscal responsibility in line with policy 6010.	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens
8224	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. WLHS (proposed) is 9 miles with highway 29, 175 = NOT accessible by walkers anymore.	worse than	4	6	7	Dunloggin established in 1926 for 91 years already with clear community boundary = polygons 155, 1155, 150, 1150, 2150, 3150, 4150, 219 – YOU MUST NOT DIVIDE US!	Polygon 97 (North of route 40) & polygons (191, 3191, 103, 1120, 3101, 1100, 100, ...) on east side of route 29 much further than Dunloggin to CHS, AND they have to pass Dunloggin neighborhood to CHS = NOT accessible by walkers anyway. They shall go WLHS.
8225	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7		worse than	3	4	7		
8226	ClarksvilleES			1	worse than	6	3		The AAC plan doesn't consider traveling time for students currently in the Wild Lake HS walking areas and the unnecessary costs of this transportation supported by our taxes; it was an arbitrary, rushed redistricting, putting RHHS at 108% capacity.	worse than	3	1	7	The Feasibility S. is much more balanced, involves less shuffling around of the HS students than the AAC drafts. It also considers the traditional connection that the RH community has had with the Atholton one, unlike with the Wild Lake one.	The AAC drafts are very unbalanced, cancelling most of the FS proposed moves from AthHS and a baffling small redistricting into Glenelg HS. They reveal an unprofessional and biased planning, not in students' best interests and disrespectful to communities
8227		BurleighManorMS	CentennialHS	4	equal to	4	7	8	Polygon 147 kids walk to Centennial HS. Walking &biking to school is good for students' health, good for the environment, & reduces teen drivers on the road, which is critical because car crashes are the leading cause of death for U.S. teens	equal to	4	7	8	My kids who live in zone 147 should remain at an elementary school that feeds to Centennial HS. I support the latest AAC plan since it removes the need for my kids to cross a major highway 108	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!
8228	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	6	4	7	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	worse than	1	6	4	Please consider Dunloggin: Balanced Plan 1.0 and Dunloggin: Balanced Plan 2.0 as submitted to OSP	
8229		BurleighManorMS	CentennialHS	4	equal to	4	7	8	THANK YOU for taking into consideration keeping ALL of the Centennial/Old Annapolis neighborhood polygons-147, 2147, 5147, 1156. Our children are part of a contiguous community in this neighborhood. We appreciate your efforts in preparing the draft plan!	equal to	4	7	8	THANK YOU for taking into consideration of polygon 147& keeping the Old Annapolis/Centennial neighborhood (147, 2147, 5147, 1156) together.We are under 1.5 miles from CHS/BMMS & are a diverse community that support the CHS school district.	THANK YOU for keeping the community together and maintaining a logical boundary. We in zone 147 have a small community and should be kept together with other zones in the Old Annapolis neighborhood.
8230			MtHebronHS	1	worse than	13	9	7	The AAC draft shows very simplistic thinking treating our children like objects that can be freely moved from place to place. This is 21 century and I expect more advanced techniques that would benefit our kids instead of harming them.	equal to	13	9	7	F.S. lacks conclusions that are most essential to the public. Both documents treat our children like objects that can be freely moved from place to place. Documents should have a summary, same format page presenting same data for easy comparison.	Inconsistent presentation of conclusions, and top-down oriented approach makes it necessary to search for another option(s). Currently my child lives too close to school to qualify for bus ride, so both plans would change it to a long commute - how smart!
8231	NorthfieldES	DunlogginMS	CentennialHS	1	worse than	4	6	7	CHS (current) is less than 3 miles from Dunloggin = accessible by walkers. 8282	PointersRunES	LimeKilnMS	AtholtonHS	1	worse than	6	14	14	The AAC Draft plan creates small feed from Lime Kiln to Atholton and further reduces small feed to River Hill. Prior there was not a small feed at Atholton from Lime Kiln. The feed to Atholton is especially small. Why not keep students together?	worse than	6	7	14	The feasibility study reduces the number of small feeds and prevents a small feed from Lime Kiln to Atholton or River Hill.	
8283			WildeLakeHS	1	worse than	4	4	4	Walkers should stay walkers (polygon 1140, 1172, 172, 1053, 3174) to WLHS. Students in polygon 2174, 2135, 174, 1174, 135, 1135, 53, 2134, 2053 are more convenient if going to WLHS or Atholton. Esp 66,134, 1066,1053 closer to Atholton.	worse than	4				Please respect the need of the walker zone. Also, please keep in mind how all this would fit in once the new HS is built in Jessup.
