Group Work

Members of the AAC discussed the pros and cons of the plans listed above. The AAC worked in a single group to discuss work on a redistricting plan for the southeastern portion of the county.

Plan AAC_I – Created from AAC_F (previously created AAC plan)

- Goal – bring capacity utilization of southeastern schools within acceptable range by using capacity in the west.

As of 8/16/11, Plan AAC_I – Number Students Moved		
Sending School	Receiving School	Number of students
Atholton ES	Hammond ES	211
Bollman Bridge ES	Gorman Crossing ES	122
Bollman Bridge ES	Guilford ES	53
Forest Ridge ES	Bollman Bridge ES	275
Forest Ridge ES	Gorman Crossing ES	66
Fulton ES	Dayton Oaks ES	94
Fulton ES	Pointers Run ES	442
Gorman ES	Fulton ES	332
Guilford ES	Atholton ES	108
Guilford ES	Hammond ES	36
Hammond ES	Clemens Crossing ES	57
Hammond ES	Fulton ES	199
Laurel Woods ES	Forest Ridge ES	201
Pointers Run ES	Clarksville ES	152

As of 8/16/11, plan AAC_I moves 2348 students, approximately 10.5% of the countywide elementary school population. This plan was not completed, and is still a work-in-progress. This plan also delays the need for the Gorman Crossing ES addition for one year.

The AAC considered many concerns, including the potential to redistrict walkers, the distance traveled to school, and potential to move communities that are quite close to schools.

Homework

Consider other options or thoughts to resolve capacity utilization in the Southeastern Region.

Reminder: The next meeting will be Tuesday, August, 23, 2011.

The meeting adjourned at 9:15 PM.
