At Triadelphia Ridge, our mission is to work as a school community so that our students meet high academic expectations that prepare them to succeed in a diverse and changing world.

We will accomplish this through:

- Compassion by maintaining a safe, nurturing, and enriching environment that values and promotes diversity.
- Collaboration by fostering meaningful, purposeful relationships with the school community to empower and engage students in their own learning and supports positive behavior.
- Communication by maintaining open, respectful, and consistent dialogue among all members of the school community.

We are committed to educating the whole child. Students are actively involved in rigorous academic activities each day. As part of a larger belief in the value of student accountability and student engagement, we facilitate students setting academic and personal goals each quarter, which prepares our students to conduct student-led conferences during the parent-teacher conference window.

We are grateful to our devoted PTA, which works in partnership with the school staff to plan cultural arts assemblies, a wellness-walking program, afterschool programs and family fun nights.
