## Extended School Year Services Statement

When the IEP team determines, based on data, that a student requires additional services beyond those provided during the typical ESY time period, a recommendation for customized options to supplement other summer services may be made by the team. These customized options are referred to as [bridge] services, as they “bridge” the time period between the end of our structured ESY summer options and the beginning of the school year (July 24 – August 18). The IEP team determines which goal(s) /objective(s) need to be addressed for these [bridge] services. Service hours are based on the unique, individualized needs of the student.
