The mission of Bryant Woods Elementary is to embrace and celebrate our rich diversity, establish high academic standards, accelerate student achievement, and provide a safe and nurturing environment. In our dedicated efforts to provide meaningful and targeted instruction that meets the individual needs of each student at Bryant Woods, our teachers and school improvement efforts adhere to the following cyclical philosophy:  
**Continuous Reflection – Intentional Implementations – Analytical Results.**

The students at Bryant Woods receive an excellent education. Our staff is committed to fully incorporating our outstanding Howard County curriculum through the use of effective and engaging instructional strategies. We differentiate instruction to best meet the needs of every individual student. Academic interventions, focusing on accelerating and/or extending student learning, are available before, during, and after school hours. Students also are provided an opportunity to expand their horizons through our strong related arts programs and instrumental music program.

The following High Leveraged Strategies drive our school improvement efforts at Bryant Woods.

1. Building a Positive School Culture Among Students, Staff, and Community.
2. Data Based Decision Making
3. Incorporating Number Sense and the Math Processes into the Fabric of Instruction
4. Fostering a Word Conscious Classroom – an awareness of the importance an understanding of academic vocabulary has on student performance.
5. Providing Opportunities for Job Embedded Professional Development

The teachers and staff work collaboratively with our PTA to provide an enriching and positive school experience for our students. We invite you to visit Bryant Woods to experience firsthand the quality teaching and learning that occurs daily.
