In the 39 years since Patapsco Middle School opened its doors for students, it has maintained a tradition of high academic standards, positive school climate, and a strong collaborative relationship among the community, staff, and students. In 1998, Patapsco was named a Maryland Blue Ribbon School.

Patapsco Middle School recognizes the uniqueness of middle school aged students and challenges them to think creatively and critically as they strive for excellence. We encourage responsible decision-making and respect for self and others. Our teaching staff is dedicated to providing learning experiences that nurture the intellectual, social, emotional and physical development of all of our students. The children are our number one priority.

Patapsco Middle is committed to having all students meet the rigorous performance standards that have been established. Any student identified as below grade level in reading or math receives additional in-school and extended day opportunities for academic acceleration.

A strong, supportive PTA is an essential component of the Patapsco experience. Parent volunteers work with students and teachers on a daily basis. The PTA has been instrumental in supporting our school wide initiatives over the years.

At Patapsco Middle School, we work hard to create an atmosphere of exploration and accomplishment so that each student has the opportunity for academic success and positive character development.
