***Financial Report- COVID-19 Relief Grants***  
***For the Period Ended: February 29, 2024 (unaudited)***

As of February 29, 2024, HCPSS has been awarded 38 grants totaling \$123.2 million in COVID-19 relief funds. Total expenditures for all relief grant to date is \$102.5 million. Of the 38 grants received, 14 grants remain open and 24 grants have been fully spent and have been closed. No new federal relief grants were received and added to this report for the period ending February 29, 2024.

This financial report provides budget to actual updates on these relief grants. It covers awarded grants. Future grants applied for that specifically relate to COVID-19 relief will also be added to the report. The monthly report provides the budgeted and actual revenues and expenditures for each grant. How to read the report: Revenues are represented as negative numbers in the report and expenditures as positive numbers. Revenues plus expenditures equals the grant balance. A negative balance means revenues are greater than expenditures. A positive balance means expenditures are more than revenues. Most of the relief grants received are multi-year and the budget to actual is for multiple fiscal years. The reported information is over the life of the grant. It is not uncommon for the actual revenues to lag actual expenditures or vice versa depending on the requirements of the grant reimbursement process. Lastly, the information provided is unaudited and subject to modification based on reconciling adjustments. As a result, the revenues and expenditures will not always balance for a reporting period. When the grant closes the revenues and expenditures will be balanced.

Beginning on page 2, summary information on each grant is provided. Each of these grants has been accepted by the Board, at which time the detailed information about the grant was presented and approved by the Board. The summary information is followed by the budget to actual schedule for each grant.
