**Subject:** RE: Talbott Springs Reconsideration Request

Bruce,

This serves to document our conversation yesterday. We received Howard County Public Schools' response to our feasibility study review and determination. The response was dated February 8, 2018. Although I did not locate a date stamped copy, it is reasonable to conclude that we received the letter shortly after it was sent, approximately February 15. We have also received correspondence and communications from elected officials.

It is customary to act on most requests for planning approval as part of the final CIP recommendations. The IAC designees will review the request for reconsideration of the feasibility study review determination to support Talbott Springs as a renovation/ addition project at our meeting on Wednesday April 11, 2018. Thank you very much.

Fred
