

Grace's Law 2.0: Maryland's Anti-Bullying Law

Bullying is behavior that is both repeated and intended to hurt someone either physically, emotionally or both. It can take many forms like teasing, name calling, making threats, physical assaults, sexual assaults and cyberbullying.

Cyberbullying is bullying using electronic media such as computers, cell phones, and game systems. Our digital interconnectedness makes bullying different and more damaging than ever before, because hurtful gossip or photos can be shared widely in a matter of seconds.

Enacted in 2013 and strengthened in 2019 by Maryland advocates and legislators to address the ever-changing digital landscape, Grace's Law makes the malicious use of internet-based communications with the intent to intimidate or harass a minor, a criminal offense. The law prohibits electronic communications or conduct that may cause physical or emotional distress, including inducing a minor to commit suicide. A single incident may violate the law. A person who is found guilty of violating this law is subject to imprisonment and/or fines up to 10 years and \$10,000.

HOW YOU CAN PROTECT YOURSELF AND OTHERS

In Maryland's public schools, if you feel you are being bullied, you have the right to report your concerns and the school has the responsibility to investigate those concerns.

- Ask your teacher, counselor, or administrator if you can speak privately about a personal problem. Tell the adult what is happening or making you feel uncomfortable and how long it has been going on.
- **Report bullying, cyberbullying, harassment, or intimidation using the HCPSS online reporting tool at stopbullying.hcpss.org/report/bullying. Include as much information as possible to help with the investigation. There are also hard copies of the reporting form available in your school (front office, counselor's office, etc.).**
- Additional information about bullying can be found at stopbullying.hcpss.org. You may also call the Maryland State Department of Education at 410-767-0306 if you have further questions or concerns.
- Ask the administrator to investigate allegations, develop a plan of support, and schedule a meeting. Tell your parents and ask them to attend.
- If you are being bullied on a social media site, **screen-shot and save** the content to share with parents, police and the school administration. Fill out a report as often as you need to.
- Change your password, use privacy settings, and block people who send negative messages, texts, tweets or photos.
- Ask your friends not to share negative media with you or pass it on to others.
