Assessment Alignment

Fulfilling the Promise
Assessments

- Measures of Academic Progress (MAP)
- Cognitive Abilities Test (CogAT)
- Partnership for Assessment of Readiness for College and Careers (PARCC)
- High School Assessments (HSA)
- PSAT, SAT
- ACT
• Found on HCPSS calendar
  - Online typically requires 4-6 week window
  - Paper limited to 2 week window
• Individual students only test a few days within the window
• Schools select days
Elementary & Middle
• Students
  – Grade 3 & 5
• Administration
  – Early December
  – Paper booklets
• Purpose
  – Identification for Gifted and Talented classes
  – Determine student aptitude
**CogAT Verbal Battery**

6th Grade Eligibility Ranges

- Math: Quantitative-Nonverbal Composite (QN)
  - 92nd-99th percentile GPR
- English: Verbal
  - 90th-99th percentile GPR
- Social Studies: Verbal-Nonverbal Composite (VN)
  - 90th-99th percentile GPR
- Science: Verbal-Quantitative-Nonverbal Composite (VQN)
  - 91st-99th percentile GPR
Be on the lookout for bullying.

MAP

• Students
  – Grades 1-8

• Administration
  – Fall, Winter, Spring
  – Online, Adaptive

• Purpose
  – Monitor student growth over time
  – Inform classroom instruction
  – Determine college and career readiness progress
• RIT stands for Rasch unit
• Equal-interval scale
• Measures growth over time
• Independent of grade level
  “A RIT is a RIT is a RIT”
• Fall, Winter (optional), Spring
First question is at the median level for that particular grade. As the test progresses, it will get better at identifying the appropriate level for each student.
MAP – Test Types

- MAP Primary Grades (MPG), 2-5, and 6+
- 5th grade G/T and Above Grade Level Math take 6+
- RIT dip can occur when students transition to higher tests
Be on the lookout for bullying.

There are 4 circles in the box. Click on the group of circles that will make a total of 10 circles in the box.
Click on all of the words about school teachers.

- helps kids learn
- drives an ambulance
- reads stories
- works with students
The Tallest Animal

Giraffes are the tallest animals on Earth. They have long necks and long legs. Their necks allow them to reach high above the trees. Giraffes are plant eaters. Their favorite meal is the leaves from the acacia tree.

Giraffes live in Africa. They live in herds. With their heads so high, they can look out for lions. Lions are dangerous to giraffes. When a herd sees a lion, they run away quickly. Giraffes can run about 30 miles per hour!

Why did the author write this passage?

1. to give facts about giraffes
2. to describe where giraffes live
3. to tell a story about giraffes and lions
4. to explain why giraffes have long necks
Read the two paragraphs.

**Alex's paragraph**
Swimming is very fun. It is easy to learn to swim. My favorite place to swim is the lake near my home. I do not like swimming in pools. Pools are too crowded.

**Karl's paragraph**
Swimming is hard work. It took me all summer to learn to swim. But I am glad I learned. I like going to the pool to swim. I have fun swimming with my friends at the pool.

Alex and Karl agree on some things about swimming. They disagree on other things. Drag the sentence that shows that Alex and Karl agree to the box on the left. Then, drag the sentence that shows that Alex and Karl disagree to the box on the right.

<table>
<thead>
<tr>

</tr>
<tr>
<td></td>
<td>Everyone should learn to swim.</td>
</tr>
<tr>
<td>Pools are the best place to swim.</td>
<td>Swimming with friends is the best.</td>
</tr>
</tbody>
</table>
• Students
  – Grade 3-11
• Administration
  – Spring
  – Online
• Purpose
  – Measure a student's yearly progress towards college and career readiness
  – Accountability for district, school and state programs
Changes in Assessment Design

**TESTING THEN**
- Multiple Choice
- Memorization
- Information Without Context

**TESTING NOW**
- Read, Write, Reflect
- Analyze, Show Results
- Information in Real-World Context
This a fairly traditional fraction task in a computer-based setting.

Unlike traditional multiple choice, it is difficult to guess the correct answer or use a choice elimination strategy and there is more than one correct solution.

Unlike paper and pencil tests, students can create a visual representation even though the task is scored automatically.
Math: Grade 3 Sample Item

Part B
Type a fraction different than 3/4 in the boxes that also represents the fractional part of the farmer’s field that is planted with soybeans.

\[
\frac{3}{4} = \frac{ }{ } 
\]

Farmer’s Field

Explain why the two fractions above are equal.

- Second part of multi-step problem, and, unlike traditional multiple choice, it is difficult to guess the correct answer or use a choice elimination strategy.
Math: High School Sample Item

- Item has two possible solutions
- Students have to recognize the nature of the equation to know how to solve
- Technology prevents guessing and working backward

Solve the following equation:

\[(3x - 2)^2 = 6x - 4.\]

When you are finished, enter the solution(s) below.

Solution 1:

Click + to enter another solution or click Done.
Students read the text that introduces the topic

Items are designed to help students gather information from the texts to lead to the final writing prompt

Items require different types of responses to allow students to demonstrate a command of evidence with complex texts

---

**Sample Item**

**Student Directions**

Based on the information in the text “Biography of Amelia Earhart,” write an essay that summarizes and explains the challenges Earhart faced throughout her life.

Remember to use textual evidence to support your ideas.

**Answer:**
**ELA/Literacy: Grade 7 Sample Item**

**SAMPLE ITEM**

Below are three claims that one could make based on the article “Earhart’s Final Resting Place Believed Found.”

<table>
<thead>
<tr>
<th>Claims</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Earhart and Noonan lived as castaways on Nikumaroro Island.</td>
<td></td>
</tr>
<tr>
<td>Earhart and Noonan’s plane crashed into the Pacific Ocean</td>
<td></td>
</tr>
<tr>
<td>People don’t really know where Earhart and Noonan died.</td>
<td></td>
</tr>
</tbody>
</table>

**Part A:** Highlight the claim that is supported by the most relevant and sufficient facts within “Earhart’s Final Resting Place Believed Found.”

**Part B:** Click on two facts within the article that best provide evidence to support the claim selected in Part A.
You have read three texts describing Amelia Earhart. All three include the claim that Earhart was a brave, courageous person. The three texts are:

- “Biography of Amelia Earhart”
- “Earhart’s Final Resting Place Believed Found”
- “Amelia Earhart’s Life and Disappearance”

Consider the argument each author uses to demonstrate Earhart’s bravery.

Write an essay that analyzes the strength of the arguments about Earhart’s bravery in at least two of the texts. Remember to use textual evidence to support your ideas.
PARCC Results

- PARCC performance levels describe how well students met the academic expectations
  - Level 5: Exceeded expectations
  - Level 4: Met expectations
  - Level 3: Approached expectations
  - Level 2: Partially met expectations
  - Level 1: Did not yet meet expectations

- The Maryland State Board of Education is determining the level or score that will be counted as proficient
  - Note: Only participation is required for 2014-2015 and 2015-2016
This report shows whether xxx met grade-level expectations and is on track for the next grade level. This assessment is just one measure of how well your child is performing academically.

To learn more about the test and to view sample questions and practice tests, visit UnderstandTheScore.org.

How Can You Use This Report?
Ask your child’s teachers:
- What do you see as my child’s academic strengths and areas for improvement?
- How will you use these test results to help my child make progress this school year?

See side 2 of this report for specific information on your child’s performance in reading and writing.

How Did xxx Perform Overall?
