## Innovative Pathways Evening Program Course Listing - 2020-2021

Enrollment requests can be made by a parent, guardian, school counselor or achievement liaison online.

- All courses are available for request now through **January 15, 2021**.
- Students may only request courses in which they have met prerequisites.
- The student's school counselor must review/approve enrollment requests.
- Course descriptions can be found in the Catalog of Approved High School Courses 2020-21 (<https://www.hcpss.org/f/academics/hs-catalog-2020-21.pdf?01-23>).

Before submitting an enrollment request online, please review the program descriptions, dates, times and locations. For more information please visit:

<https://www.hcpss.org/academics/innovative-pathways/>

### Eligibility

Innovative Pathways Evening Program course availability is based on the student's current grade level and the degree to which they have met prerequisite requirements. Enrollment priority is given to students by grade level and academic need.

### Health and Lifetime Fitness

Health and Lifetime Fitness are pre-selected as recommended courses for all entering grade 9 students. Students are expected to complete Health and Lifetime Fitness in grade 9. Health and Lifetime Fitness are recommended for completion by the end of grade 10 and should be reflected as such within the student's four-year plan. Options may include taking the course during grade 10 or through the Evening Program.

**NOTE: Evening School staff will schedule the student in an available Health or Lifetime Fitness section in either marking period based on class sizes.**

## Course Format and Credit Options

All Innovative Pathways Evening Program courses are taught using a blended instructional model; combining synchronous (real-time) instruction with an HCPSS teacher one to three days per week (Tuesday, Wednesday, Thursday) with additional online coursework completed outside of class time. Students should be independent, competent readers and motivated to learn in alternative formats. Students must have reliable access to a computer and the internet. There are two credit options:

### Original Credit

Original credit courses are for students enrolling in the course for the first time. Courses are to be completed in one semester, consistent with the school-year 4x4 schedule. All HCPSS semester dates will apply except the start date.

### Credit Recovery

Credit recovery refers to a student passing, and receiving credit for, a course that the student **previously attempted but was unsuccessful in earning academic credit** towards graduation.

# Innovative Pathways Evening Program

IPEvening@hcpss.org | 410-313-6627

Credit recovery courses are mastery-based; students will pre-assess at the beginning of each unit and teachers will determine which assignments from that unit are required for the student to complete for mastery. Courses are offered as a full year course, where students must complete the first half of the course during the first semester (or in a 10-12-week time frame) in order to move to the second half of the course. Students may accelerate to complete their entire credit recovery course in a semester.
