Thinking about saving more for retirement?

Howard County Public School System offers you two different methods to save additional funds for retirement by contributing to a supplemental retirement plan. One is through a 403(b) plan, also known as a Tax Sheltered Annuity (TSA). The other is through a 457(b) plan, also known as a Deferred Compensation Plan. Both plans permit employees to supplement their retirement benefits by purchasing tax-sheltered annuities or tax-sheltered mutual funds through payroll deductions.

Both plans are designed to:

- Help you save for retirement regularly on a tax-deferred basis
- Reduce your current taxable income
- Provide you with a choice of investment options
- Provide for your beneficiary

Why does HCPSS offer two types of supplemental retirement plans?

HCPSS offers two optional supplemental retirement plans so that eligible employees will be able to choose the plan that is best suited to their needs and their retirement goals. By using both plans, eligible employees can maximize the amount of money that they are saving for retirement. That is, employees may contribute to either the 403(b) Tax Sheltered Annuity plan AND/OR the 457(b) Deferred Compensation plan. Employees have the option of contributing to BOTH plans.

What are the differences between the two plans?

There is at least one significant difference between the two plans: the withdrawal provisions are different. Because these plans are designed as “retirement plans,” access to one’s money prior to retirement is severely limited. However distributions from a 457(b) Plan are not subject to the 10% early withdrawal penalty that applies to the 403(b) Plan.

For a side by side comparison of the two types of plans, please refer to the chart below:
