

HCPSS Student Technology Survey

As we plan for continuity of learning, HCPSS is reaching out to learn of your technology resources and needs. We will do our best to accommodate all families, but quantities are limited, so there is not a guarantee that a device can be provided for all students. We are asking all families to evaluate their capability to access instructional materials and complete the survey.

Do you have a device and internet access at home for your student(s)?

Please circle your selection

- Yes - I have a device and internet access and do not need assistance
- No - I do not have a device OR internet access and need assistance

Enter data for each student in your household (up to five):

Student #1: Name _____ Grade level _____ School _____

Student #2: Name _____ Grade level _____ School _____

Student #3: Name _____ Grade level _____ School _____

Student #4: Name _____ Grade level _____ School _____

Student #5: Name _____ Grade level _____ School _____

If you have indicated that you need a device, select what type of device you need for your student(s)

Please circle your selection

- Device Only
- Internet Access Only
- Both – Device and Internet Access

If you have indicated that you need a device, please select a preferred device pickup location:
