POLICY 6010

- Link to policy - <https://www.hcpss.org/policies/6000/6010-school-attendance-areas/>
- **The AAC will consider the impact of the following factors in the review or development of any school attendance area adjustment plan.**
 - 1) Facility Utilization**
 - a. Efficient use of available space. For example, maintain a building's program capacity utilization between 90% and 100%.
 - b. Long-range enrollment, capital plans and capacity needs of school infrastructures (e.g., cafeterias, restrooms and other shared core facilities).
 - c. Fiscal responsibility by minimizing capital and operating costs.
 - d. The number of students that walk or receive bus service and the distance and time based students travel.
 - e. Location of regional programs, maintaining an equitable distribution of programs across the county.
 - 2) Community Stability**
 - a. Feeds that encourage keeping students together from one school to the next. For example, avoiding feeds of less than 15% at the receiving school.
 - b. Areas that are made up of contiguous communities or neighborhoods.
 - c. Frequency with which any one student is reassigned, making every attempt to not move a student more than once at any school level or the same student more frequently than once every five years.

POLICY 6010

3) Demographic Characteristics of Student Population

- a. The racial/ethnic composition of the student population.
- b. The socioeconomic composition of the school population as measured by participation in the federal FARMS program.
- c. Academic performance of students in both the sending and receiving schools as measured by current standardized testing results.
- d. The level of English learners as measured by enrollment in the English for Speakers of Other Languages (ESOL) program.
- e. Number of students moved, taking into account the correlation between the number of students moved, the outcomes of other standards achieved in Section IV.B. and the length of time those results are expected to be maintained.
- f. Other reliable demographic and diversity indicators, where feasible.

FEASIBILITY STUDY

- **Presentation to the board – June 13th**
