

DIGITAL EDUCATION CENTER (DEC) ELEMENTARY SCHOOL INFORMATION SESSION

School Year 2021-2022

Good morning / afternoon / good evening. My name is Bob Cole and I am the Coordinator of Digital Education for HCPSS and I am joined by Dr. Caroline Walker, Executive Director of Program Innovative and Student Well-Being. Welcome to the Digital Education Center **elementary school** information session webinar. **We are very excited to share this opportunity with you!**

The information shared in the this webinar is also available on the [DEC webpage](#) and through general and student [FAQs](#).

Before we begin, let's review the webinar tools used in this session.

DEC General Information Webinar

Digital Education Center – Parent Information Session

Transcript

Slide 1

Welcome to the Digital Education Center information session webinar. We are very excited to share this opportunity with you!

The information shared in this webinar is also available on the DEC webpage and through general and student FAQs.

If you were unable to attend the March 31st DEC General Information Session, the recording and transcript are available on the DEC webpage

<https://www.hcpss.org/schools/dec/parent-information-session/>

If you were unable to attend the March 31st general information session, the recording and transcript are also available on the DEC webpage.

<https://www.hcpss.org/schools/dec/parent-information-session/>

Session Breakdown

- Section 1
 - DEC Overview
 - Timeline
 - Section 1 Q&A
- Section 2
 - Academics
 - Schedules
 - Section 2 Q&A
- Section 3
 - Priority enrollment process
- Final Q&A

During this session, we will provide information to help you decide if the DEC is a good option for your child. The webinar is broken down into three sections; which includes breaks for questions as well as a final Q&A at the end.

First we are going to talk about the overall design of the Digital Education Center.

Next, we will look at elementary school implementation, including academics and schedules.

Last, families will learn how to complete the Priority Enrollment form that is now available in Synergy and will remain open through May 5th.

Future Decisions

- The HCPSS Board of Education will make decisions about the 2021-2022 academic school year later this spring
- Final budget decisions will be made at the end of May 2021 to determine program availability and course offerings
- If the budget does not allow for the DEC, students will remain enrolled at their designated home school for 2021-2022

While the DEC is currently in the planning and design phase, we acknowledge that there are still many decisions to make for next school year.

The decision for students to return to in-person, hybrid or virtual learning have not yet been finalized. This information will be shared by the Board as soon as it is available.

Final Board of Education budget approval will take place in May which will determine the final **DEC scope and course options**. If the DEC is not funded, students will remain enrolled in their designated home school.

The Digital Education Center (DEC) is...

- A year-long, **FULLY VIRTUAL** option
- Real-time, **SYNCHRONOUS** instruction
- **DIGITAL** assignments
- **SUPPORT SERVICES** from DEC and designated home school

The DEC program provides an alternate option for students entering grades K-12 who are **not ready or not able to return** to in-person learning, as well as those who have found success during virtual instruction and prefer a virtual instruction model.

The DEC is a **full-time** program and students would be enrolling for the **entire 2021-2022 school year**, with the option to participate in future school years.

DEC students will access real-time, synchronous instruction and complete digital assignments while receiving support services from both the DEC and the student's designated home school.

Comparing the DEC with Other HCPSS Models

Proposed DEC Program (2021-2022)	Current Hybrid Model (2020-2021)	Traditional School Program
Virtual <hr/> Synchronous virtual instruction and digital assignments; during or outside the school day	Hybrid <hr/> Concurrent teaching during the school day (in-person and virtual)	Face-to-Face <hr/> In-person instruction during the school day

How does the DEC compare with other HCPSS instructional models? The main difference is the delivery of instruction which will be a virtual model.

The proposed DEC has real-time, synchronous virtual instruction while the current hybrid model has concurrent teaching where teachers have both in-person **and** virtual students during the school day.

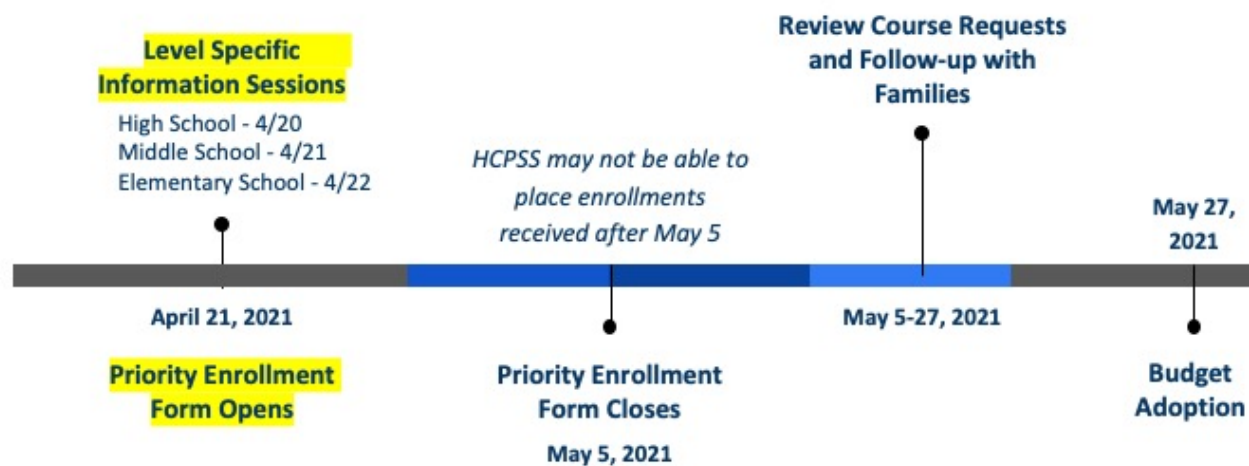

DEC Program and Student's Designated Home School

Digital Education Center	Designated Home School
<ul style="list-style-type: none">● Receive virtual instruction with a DEC teacher; not the student's current school	<ul style="list-style-type: none">● Participate in extracurriculars (schedule dependent)
<ul style="list-style-type: none">● Receive some special education and related services (as needed)	<ul style="list-style-type: none">● Receive some special education and related services (as needed)
<ul style="list-style-type: none">● Classes have students from many HCPSS schools	<ul style="list-style-type: none">● Access to meals

It is also important to understand that the DEC is an education center but will operate like a school. DEC students will receive their instruction from DEC teachers and receive support services from DEC staff. Students from many HCPSS schools will be enrolled together in the virtual program.

As an education center, students will still maintain a relationship with their designated home school through extracurricular activities, support services as needed, and access to meals.

Digital Education Center Timeline - Spring 2021

This week we are offering **level-specific information sessions** which will provide more details about the DEC option.

Once parents/guardians have reviewed all of the information and if they have determined that the DEC is the best plan for their child, they can submit a priority enrollment form through Synergy. The form is available now through May 5th.

The May 5th priority deadline needs to be early to make sure that our staff have time to start reviewing student course requests, support needs, and potential schedules. We will not meet with families until after the final DEC budget is determined on May 27th. We anticipate meetings with families throughout June and July.

Priority Enrollment Commitment Follow-Up

Before enrolling a student in the DEC, HCPSS staff will...

1. Discuss and review student schedule
2. Discuss student needs
3. Confirm final enrollment

Completing the priority enrollment form is the first step in committing to the DEC. Once we receive a student's commitment, we will NOT change their current home school assignment for the upcoming school year.

Instead, HCPSS staff will review the student's classes with our school counselors and present schedule options to each family. We will discuss and review any student supports with case managers that are needed, including special education, 504, EL, and related services. We will also discuss if there are any unique scheduling needs for your child, including if they need to take classes outside of the school day.

Only after we have received a final "sign off" on the student's courses and schedules will we enroll them into the DEC.

A photograph of a laptop on a wooden desk. The laptop screen shows two children, a boy and a girl, sitting at a desk with a globe and books. A blue semi-transparent overlay covers the middle of the image, and the text 'Q&A - Section 1' is written in white on this overlay.

Q&A - Section 1

Interest Survey Follow-Up

Based on the interest survey we are designing a program to serve students at all grade levels:

Elementary School	650
Middle School	500
High School	500

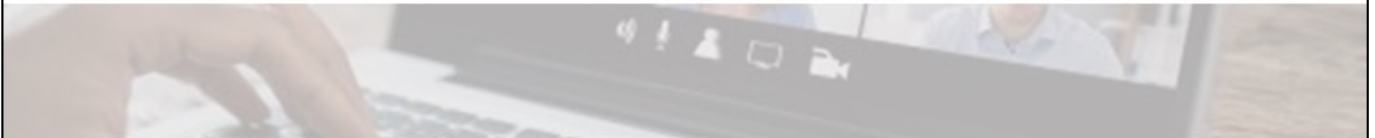

Final DEC enrollment is based on student commitment and BOE budget approval

In this section, we are going to talk more about the elementary academic program.

Last week, we collected and reviewed the DEC interest survey data and are designing a program based on those projections. The final DEC program enrollment will be based on the final commitment **and** the Board of Education budget approval on May 27th.

DEC Elementary School Curriculum

- Core subject areas that meet HCPSS content standards
- Social and Emotional Learning (SEL) content
- Supports and extensions are based on the number of students enrolled and student need

Based on the projections, DEC elementary school courses will focus on core subject areas that meet HCPSS content standards. Social and emotional learning may be provided through stand alone instructional blocks as well as skills embedded in the curriculum

Supports and extensions will be based on the number of students who are requesting, or qualify, for those classes.

DEC Elementary School Classes

Subject Areas 	Related Arts 	Acceleration/ Intervention 
ELA Health Mathematics Science Social Studies	Art Media Music Physical Education Technology	ESOL GT Programming Reading/Math Intervention Special Education

Social and emotional learning integrated throughout the student day

Elementary subject areas, related arts, and supports and extensions will be very similar to what is currently offered in elementary schools. Teachers will work with students, staff and families, once enrolled, to determine each student's individual supports and extensions.

DEC Schedule Considerations

Elementary classes are year-long

Most classes are scheduled during the school day

Allow time for interventions and services

Families can review the schedule before final enrollment

The proposed DEC will operate 5 days a week, Monday through Friday, with elementary school courses available during the day on a year-long schedule.

For most elementary school students, classes will be taken during the school day and time will be built in for interventions and services. There may be options for students to take classes and participate in tutoring in the afternoon and evening as needed, but taking courses during these times may limit extracurricular activities.

HCPSS staff will review the student's schedule with their parent/guardian before they are enrolled.

Sample Schedule - Elementary School

Time	Course
8:30-8:50	Social/Emotional Learning (SEL)
9:00-11:00	Reading and Writing Block
11:10-1:10 Includes lunch break	Academic Tutoring
	Mathematics Block
	Independent Work Time
1:10-2:10	Related Arts
2:20-3:20	Content Block (Science/Social Studies/Health)

In this sample elementary schedule, students will have one block of social and emotional learning and a reading and writing block that will provide time for the teacher to meet with individual reading groups.

Other blocks will include mathematics instruction as well as time for students to complete independent work. In this example, students will access other core content blocks and related arts in the afternoon. Should students need additional supports, they will be available from both the DEC and their designated home school through academic intervention and tutoring.

Instructional Standards

*DEC students will be held to the same instructional standards
as ALL HCPSS students*

Use **Canvas** and other essential
and supplemental digital tools
(for each grade level)

Expectations for student engagement:

- Attend all synchronous instruction
- Complete asynchronous work on time
- Participate in whole/small group discussion
- Camera on when appropriate

Appropriate amount of
“online” and “offline”
work time

DEC students will be held to the same instructional standards as all HCPSS students. They will use Canvas, Google Meet, and approved digital tools appropriate for their grade level.

Students will also be expected to engage with their teachers and other students by attending synchronous classes, completing digital assignments, actively participating in activities, and providing visual cues by using their camera when appropriate.

We also understand parent concerns about screen time. We are working with staff to design instruction that will provide an appropriate balance of online and offline work.

DEC Community Building

Orientation Activities

Opportunities to meet DEC teachers and students

Student Recognition

Recognition for student achievements within and outside the virtual classroom

Field Trips

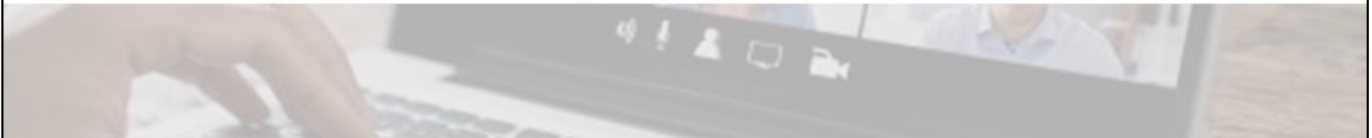

Participate in virtual and in-person experiences where possible

As a new program, it will be important to build community and engage students. Students and parents/guardians will be invited to attend orientation sessions prior to the start of the school year. After the school year begins, the DEC will hold activities that build relationships and promote community within the school.

Students will also be recognized for their academic achievements, character, and personal accomplishments. Additionally, students are still encouraged to participate in activities and events, like virtual and in-person field trips, from their designated home school.

DEC and Student Testing

- DEC students will be responsible for taking national, state and local assessments
- Some assessments can be taken virtually
- Others will be required to be taken at the student's designated home school

Similar to all HCPSS students, DEC students are responsible for taking all required assessments. While some local assessments can be taken virtually, others must be taken in-person at the student's designated home school.

DEC staff will coordinate testing dates and information with families and the student's home school in advance.

Q&A - Section 2

Is the DEC a Good Fit for My Child?

Reflect on the following statements for your child:

My child is having academic success with virtual learning and would like to continue their education this

The flexibility and independence of virtual learning best meets my child's social/emotional needs.

Healthcare concerns make virtual instruction the best option for my family.

In this section, we are going to talk more about the decision points for the DEC and how to submit the priority enrollment form.

We encourage our students and families to take a moment to reflect on the following statements to see if the Digital Education Center could be a great fit for your children.

Is your child experiencing success academically or does the flexibility and independence of virtual learning meet their needs? Do healthcare concerns make this the best option for your child?

Talk with your student about their experiences this year during virtual learning and use the information provided to help make the best decision possible, with the understanding that not all courses and programs will be available, and that it is a full year commitment.

Completing the Priority Commitment Form in Synergy

- Available in Synergy through May 5th
- May select a different option for each child
- Your response indicates a **commitment** for the 2021-2022 school year

1 Log in to [HCPSS Connect Synergy](#)

2 Select **More Options** from the left panel

3 Select **Digital Education Center Commitment** from the bottom of the menu

4 Complete the question and review/check the four acknowledgements for each child

The Priority Commitment form is a one-question survey with four acknowledgement statements. Answering this question indicates a **commitment for the 2021-2022 school year** for that child. You will need access to your Synergy account to complete the survey and there are four easy steps.

Select Student:

Smith, John

The Howard County Public School System is planning for a full-time online option for students entering grades K-12 who wish to learn virtually for the 2021-2022 school year and earn credits virtually, while receiving support services from both the DEC and their assigned home school.

Families must commit to the DEC for the full 2021-2022 school year to participate. Students who wish to return to in-person learning during the 2021-2022 school year that they consider the return to normalized, 5-day, in-person learning this fall to be essential for the majority of HCPSS students, however, an official decision on the 2

Before answering the survey question, review the [details on the Digital Education Center](#), in addition to [answers to frequently asked questions](#). Next steps and more in

Families who answer yes below will be contacted by DEC staff in the coming weeks to review student courses prior to final enrollment for the 2021-2022 school year.

*Question: My student would like to enroll in the DEC for the 2021-2022 school year:

No

*Electronic Signature: parent name

☒ I understand and acknowledge by typing and saving my name in the signature textbox that it acts as my intent to sign and represents my signature.

Save

Again, to complete the Student Interest Form,

1. First, log in to [HCPSS Connect Synergy](#)
2. Second, select **More Options** from the left panel
3. Third, select **Digital Education Center Commitment** from the bottom of the menu, and
4. Fourth, complete the single question and the four acknowledgement checkboxes in the form for each child. If you have more than one child, **use the dropdown to view each child, choose your option** for that child, and then select Submit.

Please contact your school if you require assistance completing the form.

Completing the Priority Commitment Form in Synergy

In committing to the DEC, parents/guardians acknowledge that:

- This is a commitment that your child will attend the DEC for the 2021-2022 school year, and that students will need to go through the reassignment process if they choose to return to their home school for instruction.
- Not all course requests may be able to be honored in the DEC environment.
- There are attendance requirements that will apply in the DEC environment.
- The implementation of the DEC is pending funding from the HCPSS Board of Education. Should funding not be provided, students automatically will be returned to their assigned home school.

This screen shows the text for the required acknowledgement checkboxes in the commitment form. A SchoolMessenger announcement, including survey instructions, was sent out to all families at 4 p.m. on Wednesday, April 21st.

What's Next?

NOW

Complete Priority Enrollment Form in Synergy by May 5

UPCOMING

Families who complete the priority enrollment will receive follow-up communication from HCPSS staff

- Review course requests and draft course schedule
- Review student support needs (if applicable)
- Parent "sign-off" on child's instructional plan

To summarize our current and next steps:

1. Complete the Priority Enrollment form by May 5th - **this is a commitment** that staff will use to develop a schedule for the 2021-2022 school year.
2. Families who commit to the DEC for their children will receive follow-up communication from HCPSS staff late May, June, and July.

Digital Education Center

[Jump to: Overview](#) | [Design and Planning](#) | [Enrollment](#) | [FAQs](#) | [Timeline](#) | [Comparison Chart](#) | [Requested Budget](#)

The Howard County Public School System is planning for a full-time virtual option for students entering grades K-12 who wish to learn virtually for the 2021-2022 school year. Once finalized, the Digital Education Center (DEC) program will give students the opportunity to take classes and earn credit virtually, while receiving support services from both the DEC and their districted home school. DEC students will continue to be "enrolled" in their districted home school and will be able to participate in athletics and activities at that school.

The DEC is intended to function as an additional, separate K-12 center, which will continue to operate even after fully in-person learning resumes at all other HCPSS schools.
