Tonight's Agenda

- Welcome
- School Readiness
- HCPSS Kindergarten Program
- Registration/Transition Information

Why Are We Here Tonight?

Because we believe....

**All families want
what is best for their
children.**

Going to
kindergarten is a
developmental
milestone.

**The transition to
kindergarten is not a
one-time event.**

**Not all children have
the same readiness
for kindergarten.**

**Schools must be
ready for children
and families.**

Kindergarten is the
first step to college
and career-readiness.

Welcome to the Class of 2032

HCPSS is here to support your family during your child's educational journey.

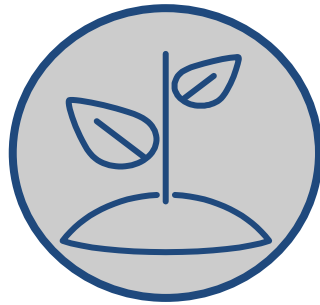

The following is county-level information that is relevant for all 42 schools.

Once you register, you'll learn specific information about your child's school and eventually, their teacher.

What does “Ready for School” Mean?

You may be worried that your child isn't ready. Or, you may be worried that your child will be bored because they've been ready for a long time. Let's look at what readiness means.

“Ready for School” means...

Real-life experience

Early vocabulary and literacy exposure

Areas of competence and strengths

Developmentally appropriate activities

Young, curious minds

“Ready for School” means...

Real-life experience

- ▣ Take advantage of places in the area to visit!
 - *The Howard County Library, zoos, farmer’s markets, aquarium, and more.*
- ▣ These experiences will give your child something to draw upon and relate to during lessons in kindergarten and make the learning more meaningful.
- ▣ Children have plenty of opportunity to share “background knowledge” - that is, what they already know or have experienced related to a topic.
- ▣ Sparks curiosity for new learning

“Ready for School” means...

Early vocabulary and literacy exposure

- ▣ Back and forth conversation, combined with quality words, supports brain development and helps sets the stage for readiness.
- ▣ Use authentic vocabulary related to those real-life experiences.
 - *When you visit the grocery store, explain you are buying “golden delicious apples”. Discuss what golden and delicious mean. Can you think of or find other things that are golden or delicious? What other words mean the same thing?*
- ▣ You lap is the best app! Read real books and give your child a chance to turn the pages, predict what will happen, discuss the story, etc. Point out simple words in the text. Select books and subject-matter of high interest to your child.

“Ready for School” means...

Areas of competence and strengths

- ▣ Growth does not happen as a straight, upward arrow. It is better to visualize growth as an upward spiral.
- ▣ Remember there will be areas of strength and areas of need, and those are unique to every child. Teachers use this approach to support learning and move each child forward along their own unique developmental path.

“Ready for School” means...

Developmentally appropriate activities

- ▣ Workbooks and flashcards are not needed to support readiness. Instead, capitalize on your child’s interest and their everyday world.
 - Use magnetic letters to spell their name. Practice the names and sounds of the letters in their name. Then, spell the names of family members and friends. Find other things in the house that start with the same letter as their name.
 - Count the number of steps it takes to get from the car to the front door, the front door to their room. How many rungs on the ladder at the park?
 - And more!

“Ready for School” means...

Y oung, curious minds

- ▣ It's ok to ask questions!
- ▣ Demonstrate asking questions about things you are curious about. Say things like, “I wonder...”. Read books about the things you wonder, visit related places, practice using new words you learn, etc.

“Ready for School” means...

Children don't have to come to school knowing everything. It means they have skills that make them ready to access learning.
