The staff at Bollman Bridge Elementary School is committed to ensuring the academic success and social-emotional well-being for each student. They create an environment where all students have the opportunity to succeed by:

- Ensuring access and equity for all students.
- Delivering high quality rigorous first instruction.
- Providing interventions and differentiated supports.

**Ensuring Access and Equity for all Students**

At BBES, opportunities are provided for staff to learn more about students and their families and to discuss and develop ideas/solutions to combat disparate trends in data. Student, staff and community input are valued.

**Delivering High Quality Rigorous First Instruction**

In language arts, staff members use a balanced literacy approach to meet the needs of students. The goal is to create lifelong readers ready for the demands of college and careers. In mathematics, rigorous instruction emphasizes problem-based learning tasks that promote reasoning and problem solving. Students are offered opportunities to construct meaning and develop conceptual understanding that will ultimately develop number sense and support procedural fluency. The goal is for students to actively engage as mathematicians and to develop positive attitudes about mathematics that they will carry forward into their future.

**Providing Interventions and Differentiated Supports**

BBES staff use data to inform their instruction and identify students’ needs for enrichment or intervention. Teachers participate in ongoing data discussions to analyze student work and implement flexible groupings to address the individual needs of students as learners. Staff share information about curriculum and strategies with families through Family Nights.
