Our staff believes that every student is entitled to receive an excellent education. The vision of Bryant Woods Elementary School ensures that all staff will have high expectations for each student as demonstrated through rigorous data driven instruction and planning. Students are actively engaged in learning through the use of technology and curriculum integration. We consistently work to create a safe and nurturing environment that encourages community and family involvement.

As a school, we are driven by Dr. Martirano’s Strategic Call to Action: Learning and Leading with Equity. With this newly launched mission, we are driven to ensure excellence by consistently seeking to CONNECT, VALUE, EMPOWER and ACHIEVE. Through our efforts to connect with students and families, we will build strong positive relationships. By valuing our stakeholders and cultivating meaningful partnerships, students, families and staff will be empowered to make our community the best it can be. Through these combined efforts, in conjunction with high-quality education that meets individual student needs, it is our hope that all of our students will achieve all of their goals, dreams and aspirations.

We also strive to engage and support our families by linking them with appropriate resources in and outside of the school. By fostering relationships with community-based organizations, we will continue to carry on our efforts to cultivate a culture for learning while addressing the needs of the broader Bryant Woods community.
