Ilchester Elementary School (IES) is a proud, active, and diverse school community serving young children in the Regional Early Childhood Program, as well as students in kindergarten through fifth grade. The staff’s dedication coupled with the tireless efforts of the PTA and family support create a school environment that fosters excellence in the physical, intellectual, emotional, and social development of all students.

Dynamic classroom teachers, other related professionals, and support staff implement the HCPSS curriculum with fidelity. The curriculum has a strong academic focus along with a robust related arts program where specialized teachers develop talent and interest in the arts, physical education, technology and literature. Every effort is made to meet diverse student needs through research-based instruction including the Gifted and Talented Program and inclusion of students with special needs. IES staff differentiate instruction and closely monitor student progress to ensure that all students are on the path for college and career readiness.

As a Professional Development School, IES hosts Towson University interns seeking dual certification in general and special education. The partnership also provides professional learning opportunities for staff along with a high degree of enthusiasm from aspiring teachers who are eager to enter the profession.

The front office staff creates a warm and welcoming atmosphere on a daily basis, and the IES custodial team delivers exceptional service while keeping the school clean and safe. Thank you for the opportunity to serve the IES community!
