Howard High School, in its 66th year, serves families from Ellicott City, Elkridge, Hanover and Columbia. The population is both culturally and economically diverse with over three quarters of our graduates enrolling in post-secondary institutions.

Like all other Howard County high schools, Howard High has a yearlong schedule that provides students with the opportunity to earn seven credits. Our daily schedule is composed of five 50-minute periods and one pair of alternating classes of 100 minutes each. We encourage all our students to complete their four-year high school program in creative ways including concurrent enrollment, new programs offered at the Applications and Research Lab, and mentorships. We encourage the acquisition of knowledge that will offer multiple options for college or career upon graduation.

The school improvement process drives the instructional programs offered at Howard High School in close alignment with the Howard County Public School System goals and the initiatives of the Maryland State Department of Education. Our School Improvement Team and our Leadership Team focus on data-driven decision-making that will identify, develop, and implement strategies and programs that will benefit and enhance the achievement of all students in all student groups. The continuous professional development of our staff in alignment with these goals and strategies is a top priority in order to better serve the needs of all our students. We pride ourselves in working to create an educational environment that will improve our community and the world at large.
