Glenwood Middle School is committed to educating every student through the lens of equity. To accomplish this mission and meet the goals of the Howard County Public School System and the Maryland Common Core State Curriculum, Glenwood is focused on increasing student voice and improving student preparation for College and Career Readiness.

The staff at Glenwood Middle School is proud to serve the unique academic, physical, social and emotional needs of our students. Our school offers students a wonderful opportunity to learn and grow in a challenging and supportive environment as they transition from childhood to adolescence. We recognize each student as an individual with his or her own unique strengths. We also know that children change and develop significantly over the course of their three years at Glenwood, and we partner with parents during this crucial time.

Our Cobra Creed, RISE, provides an opportunity for every member of our school community to demonstrate our core values:

- Demonstrating respect for ourselves and others
- Establishing and maintaining inclusive relationships
- Striving to do our best
- Empowering all community members to advocate for themselves and others

We are committed to fostering relationships between students, staff and families that empower all members of our community to achieve success.

A strong and supportive PTSA is actively involved in many aspects of the programs at Glenwood. Parents and community partners work with our school to provide programs to enhance the educational experiences for our students.
