In January, 2017, our school community transitioned into the new Wilde Lake Middle, Maryland’s First Net Zero School. The school is designed as a LEED Platinum building with solar panels and a geothermal heat pump system. We are proud to share that we consistently surpass the “Net Zero” goal of producing as much energy as we use in a year’s time. Positioned to be the most energy conscious and efficient school in the state, staff embrace the awesome learning opportunities that our new facility affords students, staff, and community. Our staff continues working intentionally as a school community to improve the “Wilde Lake Way” so that all of our students and families feel the pride in being part of a top-notch middle school in a state-of-the-art facility.

Students at Wilde Lake Middle School are challenged by rigorous academic standards and supported by a variety of programs from GT instructional seminars, full-year Art and technology courses, Dance and Theater classes, World Language classes to academic intervention and an after school program. The talented staff recognizes the unique needs of adolescents and is dedicated to providing learning opportunities that foster the intellectual, social, emotional and physical development of our students. To ensure a well-balanced educational experience, WLMS Staff provide a number of extracurricular activities including Bridges After School Program (JAWS). Dance Team, Jazz Band, Tiger Shark Theatre Company, Art Club and Memory Book Club.

The PTSA is very supportive and passionate about serving all students. We are proud of the business partnerships we have established. WLMS staff is grateful for all the support we receive from the Columbia community. Together, the WLMS community is working to ensure the success of all our students by instilling the “Wilde Lake Way” of being respectful, responsible, ready and safe. The doors of Wilde Lake Middle are always open to new learning opportunities that enhance the richness of our diverse cultural blend of students.
